

AN INTRODUCTION TO MENOMINEE COUNTY

Menominee was first visited by the Frenchman, Jean Nicolet in 1634 followed by other explorers, missionaries, and voyageurs. The Menominee River was a major route into the interior and the fur trade flourished. The county was created in 1863.

Beginning in the early nineteenth century the lumber industry developed as did farming. Menominee County would be the premiere farming county in the Upper Peninsula. Later in the century and into the early twentieth century, the city of Menominee became and industrial center. All of this activity attracted many immigrants but especially those from Germany, Poland, Czech Republic, and Québec.
