

AN INTRODUCTION TO MACKINAC COUNTY

Mackinac County was one of the earliest to be visited by the French going back to the early seventeenth century. During the colonial period and well into the 19th century it was the center of the fur trade in the Great Lakes country. Fort Mackinac had a variety of nationalities serve as officers and enlisted men. Beginning in the late 18th century fishing was an important activity in the county. The timber industry attracted many as did some farming. Irish immigrants were the largest group to come after the French Canadians. The county was established in 1818 and organized in 1849. The name was changed from Michilimackinac to Mackinac by legislative action in 1843.
