Thursday

Michigamme - The contractors on this section of the C&NW have established a camp a short distance below the sawmill in which are erected considerable number of comfortable looking houses, a large tent, etc., which gives it the appearance of a cozy colony. No work is being done just now on account of some uncertainty concerning the right of way through the Michigamme company's property. It is tolerably certain, however, that the road will pass along on the north of the DSS&A. It is expected that work on the line will be resumed during the coming week and pushed with all possible facility.
