Saturday

The DSS&A are to build a new passenger station at St. Ignace this summer. We should not feel at all hurt if they would improve the passenger facilities for passengers here just a trifle. We have been unable so far to find anything in the nature of facilities for passengers here, other than the liberty to buy tickets if one can passibly wedge his way to the hole in the wall where they are sold, and the equal liberty to step on a train when it is standing still.
