SHORT IN THEIR ACCOUNTS

The Accounts of Many Receivers of Public Moneys Fail to Balance.

AND MANY PEREMPTORY REMOVALS ARE MADE IN CONSEQUENCE.

A Bill Introduced in Congress to Authorize The Secretary of the Treasury to Reduce The Reserve Fund.

WASHINGTON INTELLIGENCE.

The cabinet meeting to-day was attended by all the members except Secretary Blaine. The session was shorter than usual and the only question of general importance considered was in regard to the session of certain portions of the Cherokee lands to the United States under recent acts of congress. No conclusion was reached in the matter. Secretary Noble, through the special agents of the interior department, has for some time been investigating the accounts of a large number of receivers of public moneys in different parts of the country. The accounts of a number of these are found to be short and in these cases vigorous action will be taken. Upon the recommendation of the secretary, the president made the following peremptory removals: R. W. Hutching at Humboldt, Cal., alleged shortage \$8,000; Fred W. Smith, at Tucson, Ariz., shortage to the United States about \$25,000, and to private individuals about \$22,000 or more; Sterling S. Smith, at Devil's Lake, N. D., alleged shortage \$1,287; Francis I. Anderson, at Del Norte, Cal., shortage \$1,211; Charles Spaulding, at Topeka, Kas., shortage \$3,000. About ten others who have been found short in their accounts will probably be removed in a few days.

WASHINGTON, D. C., Jan. 21.—Rev. Dr. Chester, pastor of the Metropolitan Presbyterian church, announced to his congregation yesterday that Samuel J. Randall and Mrs. Randall had been admitted to membership in the church. It was indicated to Dr. Chester that Mr. Randall desired to join his church, and Tuesday he went to Mr. Randall's house to admit him to membership. Mr. Randall had not yet been baptized and Dr. Chester performed the rites of baptism and he was admitted to the church.

THE HOUSE.

WASHINGTON, Jan. 21.—Yesterday, just previous to adjournment, Mr. Bland (Mo.) moved that the house adjourn, and on the division the speaker declared the motion lost. Mr. Bland thereupon demanded tellers, and according to the record this morning the speaker replied: "There is no provision for tellers." Mr. Bland demanded tellers, and a long and heated debate then began, which ended by an appeal being laid on the table by the vote—yeas, 145; nays, 136. Mr. Crain (Tex.) offered a resolution directing the committee on the judiciary to report within one week whether the late sergeant-at-arms was a disbursing officer; if so, to report a bill providing for the payment of the salaries of members. Referred.

The following bills were introduced and referred: By Mr. Funston, (Kan.), for the creation of an agricultural commission to investigate the causes of the present depressed condition of the agricultural interest; by Mr. Dorsey, (Neb.), authorizing the secretary of the treasury to reduce the reserve fund. The following is the text of the measure: "That the secretary of the treasury is hereby authorized to reduce the reserve fund now held in the treasury for the redemption of United States notes under the acts of congress approved January 14, 1875, and July 12, 1882, to the sum of \$25,000,000, and he is hereby authorized and directed to apply the remainder (some seventy-five millions of dollars), to the payment of the public debt." The house then resumed in committee of the whole the debate on the Oklahoma town site bill, but no progress was made and the committee rose and the house adjourned.

THE SENATE.

WASHINGTON, Jan. 21.—The bill adversely reported from the census committee to ascertain what percentage of people own their farms, the number of farms under mortgage and the amount thereof, was taken from the calendar in order to give Mr. Berry, who introduced the bill, an opportunity to state the grounds of his opposition to the report and why his bill should be passed. Mr. Platt, referring to a statement made by Mr. Berry as to the eastern manufacturer loaning money to the western and southern farmer at large rates of interest, took occasion to say that the statement that eastern manufacturers accumulated large profits and loaned money to farmers was an entire mistake. They had not made large profits; many of them were large borrowers. Mr. Berry varied somewhat his original statement and said the trust companies and corporations of New York and New England had representatives in all the southern and western states trying to loan money to farmers on farm mortgages. Mr. Spooner said mortgages were not always signals of distress; they often indicated energy, vigor, ambition, a desire to obtain more property and only sometimes were to relieve want. His colleague (Mr. Sawyer) told him when Mr. Reagon was speaking that he never knew of but one farm mortgage being foreclosed in his region of the country. He hoped the bill would be indefinitely postponed. Finally, after further discussion, the bill went over without action till tomorrow.

The senate then proceeded to the bills on the calendar and passed the following: The senate bill to create the office of surveyor-general of the states of South Dakota and North Dakota; the senate bill granting the state of California 5 per cent of the net proceeds of the cash sales of public lands in that state; the house bill to amend the act to enable the city of Denver to purchase certain lands for cemetery purposes; and the senate bill creating an additional land office in Colorado. After an executive session the senate adjourned.

THE SNOW BLOCKADE.

Prospects That The Central Pacific Will Resume Operations To-Day.

SAN FRANCISCO, Jan. 21.—The prospects are that the great snow blockade on the Central Pacific will be cleared to-morrow. Clear weather is reported at all stations from Rocklin to Truckee. There are now three feet of snow on the ground at Colfax; while at Cisco the country is covered to a depth of 15 feet on the level and in cuts the snow is three or four times as deep. Heavy slides and drifts are reported between Truckee and Boca. The average depth of the snow along the route is twenty feet. A passenger named E. A. Sanford died of pneumonia superinduced by la grippe, and was buried by men on snow shoes at Truckee yesterday, it being impossible to break a road to the cemetery. Jacob Duntz, a snow shoveler, was killed at Colfax yesterday, being struck by a car.

Most of the passengers in the trains near Blue Canyon are well provided for the delay. There are a few second-class passengers who had only money enough to buy their tickets and who did not figure on a blockade. They were also not prepared for the cold weather that commenced when the storm ceased. At Dutch Flat, on the western slope of the Sierras, there are seven feet of snow on the level—two feet more than ever before recorded. The wagon roads are blocked. Many houses have been crushed by the snow, but no lives have been lost. In addition to the imprisoned trains near Blue Canyon, two east-bound passenger trains are snowed in near Shady Run.

The railroad people have done everything in their power to make the passengers comfortable, paying men big wages to carry provisions on snow shoes a distance of five miles. John J. Jennings, a New York newspaper man, who came out to meet Miss Nellie Bly in San Francisco and to escort her to New York, was caught in the blockade several days. He then made a journey from Blue Canyon to Alta on snow shoes and then rode an engine to Sacramento where he arrived this morning, and took a special train to connect with Miss Bly at Lathrop. Speaking of his experience Mr. Jennings said: "I have seen snow and blizzards in New York, but the people back there don't know what snow is."

FOR BALLOT REFORM.

Governor Abbott, of New Jersey, Comes out Flat-Footed For An Honest Election. TRENTON, N. J., Jan. 21.—In his inaugural message, sent to the legislature yesterday, Governor Abbott comes out flat-footed in favor of ballot reform. He says the best sentiment of the country in all the states demands ballot reform, and honest elections. The system which he strongly commends provides for the registration of every voter and the absolute secrecy of his ballot; an exclusive ballot with the prohibition of the use of any other; the setting aside of an election in any precinct where the count shall be satisfied that the electors for any reason have been deprived of a fair opportunity to express their choice at the ballot box; the right of nomination by petition; the limitation of the amount which may be legally spent for an election and declaring the election void should that amount be exceeded by any candidate or any person working for or in his behalf; the publication by every candidate of an itemized statement under oath of all moneys expended in such election by him or with his knowledge, and that his failure to so do shall render the election void.

In connection with the last clause, the governor advises that the court should be given the power to compel the appearance of any person before it to be examined under oath, concerning political expenditures, and also to require on such examination the production of the books and papers of corporations and associations of persons. In fact, the bill advocated by the governor includes all those features for which the most advanced ballot reformers have been doing battle.

A Father's Sacrifice.

ST. JOHNS, N. F., Jan. 21.—John Gorley and three children perished in a fire last night. Gorley died in the flames while making the third attempt to rescue his children from the burning house. His remains were found with the head burned off and a child in his arms.

More Than Half The Town Sick.

CHICAGO, Jan. 21.—A special to the Tribune from Belvidere, Ill., says: "Sickness has been on the increase here lately to such extent that it has reached the point where there are more sick than well people in town. Diphtheria in its worst form has appeared. There are not enough doctors to care for the sick."

The Chicago Coopers' Strike.

CHICAGO, Jan. 21.—The Evening News says: "The coopers' strike has practically resulted in a victory for the strikers, three hundred of the five hundred men out having returned to work, their demands for an increase of five cents per barrel having been granted."

No Comfort For Crum.

CLEVELAND, Ohio, Jan. 21.—A special says: "Sunday last John Crum and William Wright, young men living at Crayon, Champaign county, fought sixteen rounds to decide which should have precedence in courting a young lady. Crum was badly punished and the referee awarded the fight to Wright. The young men shook hands and parted at the ring side, friends Wright will be permitted to court the girl undisturbed."

First Through Train for a Week.

PORTLAND, Ore., Jan. 21.—The first through train for the past week arrived here this evening at 5 o'clock over the Union Pacific line from the east. About two hundred and fifty passenger arrived on the first section, and also a large quantity of baggage and mail.

THE SILVER QUESTION.

The Bank of England Makes a Move in Anticipation of Windom's Policy.

Large Purchases of Silver Bullion, Against Which It Will Issue Certificates—Possibility of a Bimetallic Currency.

NEW YORK, Jan. 21.—There was a rumor on Wall street to-day, which, considering the discussion of Secretary Windom's silver proposition, occasioned considerable comment. Messrs. Zimmerman & Forshan announced that they had received advices from London to the effect that the Bank of England is about to exercise its right, never hitherto asserted, to use silver to the extent of one-third of its reserve and to issue 21 notes in silver against it. The dispatches also say that the bank has purchased 3,000,000 pounds of silver bullion in expectation of the action. There has been a great deal of silver talk for the last few days, with which, the recent heavy shipments of bullion to England and the advance in price, has occasioned more or less speculation. The larger foreign firms on the street, while they declared they had received nothing confirming the rumored action of the Bank of England, said that such a step was

BY NO MEANS UNLIKELY.

On the contrary there were many reasons why such an issue would be advantageous to England. One banker went so far as to say that if the Bank of England should exercise this right there would be such a period of speculation and general inflation in this country as has not been experienced since the discovery of gold in California. Mr. Forshan said he was confident that the dispatch which he had received was well founded. "There have been," he continued, "very heavy exportations of silver to England recently, the last shipment being on Friday, when we sent over 200,000 ounces. I think, however, our dispatch

INTENDED TO SAY.

the bank had accumulated 3,000,000 ounces, or about \$3,000,000, instead of 3,000,000 pounds. But the former is a very large sum. I believe that should the step toward silver certificates be taken in England it will have been taken merely in anticipation of Mr. Windom's plan. Not alone this, but it will be a great advance toward establishing bimetallicism and an international currency. For this fact is indubitable, that England and the United States control the money markets of the world. If England should follow our example and adopt silver as the basis of part of its circulation, France, Germany, and, of course, the other countries of Europe could but follow their lead."

SHERIDAN SHOCKED.

The Postmaster of That Wisconsin Town Arrested for Robbing the Mails.

SHERIDAN, Wis., Jan. 21.—[Special]—A profound sensation was created here to-day by the arrest of Postmaster L. E. Darling by Chief Inspector James Stewart, of Chicago. The complaint on which the department acted was made by one Merryman, who often lost valuable mail. Darling is charged with having systematically robbed the mails for some time. He is a leading republican and has held many offices of trust. He was postmaster during Arthur's administration, and was removed by Cleveland, and reinstated by Harrison. He is widely known and a politician of considerable ability.

Nellie Bly Reaches the United States.

SAN FRANCISCO, Jan. 21.—The steamer Oceanic, with Miss Nellie Bly among the passengers, arrived here at 9:30 A. M. Miss Bly was taken off by a tug as soon as the steamer entered the harbor and was taken to Oakland at once, where she boarded a special train which was waiting and started on her overland journey via the Southern Pacific and Atlantic & Pacific routes.

A Jim Crow Sport.

VICTORIA, B. C., Jan. 21.—A few days ago an Englishman, who gave his name as Mullahy, and who claimed to be a captain in the English navy, made his appearance in Seattle, Wash. He engaged in a game of pool with a Seattle man and lost nearly \$2,500. He drew his check on the Bank of British Columbia in this city for the amount and it was accepted. He then disappeared. The paper proved worthless. At Vancouver he was arrested. He was here two years ago as the companion of Lord Chesterfield. It has been discovered that his name is Calthorpe, and that he is a brother-in-law of Sir Richard Webster, the attorney general of England. He was sent away from home by his people on account of his wild habits.

Ex-Senator Riddleberger Dying.

WEST PLAINS, Mo., Jan. 21.—Ex-Senator Riddleberger is said to be dying at his home in Woodstock, Va. A neighbor and friend of the ex-senator says: "Riddleberger is very low and his physicians have little or no hope that he will ever get up again. He may die at any moment." His colleagues, who heard the news to-day, were shocked.

Made A Wrong Motion.

WEST PLAINS, Mo., Jan. 21.—Sheriff Davidson yesterday afternoon attempted to arrest John Langston for stealing a revolver. When he approached Langston, the latter made a motion as if to draw a revolver when the sheriff shot and killed him instantly.

A Fair Business.

MONTREAL, Que., Jan. 21.—The report of the Montreal clearing house association for the past twelve months shows that the total transactions during the period amounted to \$454,500,000, or a daily average of about \$1,500,000.

OUR WATER AGAIN.

Negaunee's Common Council Takes
Steps to Ascertain Where the
Cause of its Impurity Lies.

The Sportsmen's Club Elects Officers—De
Motte's Lecture To-Night—Current
News Briefly Noted.

Special Meeting.
The common council held a spe-
cial meeting Monday evening to
discuss the matter of the reputed
impure water supply. The sub-
ject was taken up and thorough-
ly discussed by the board. The ma-
jority of the members inclined to the
opinion that instead of the lake water being
impure, some of the ball joints in the
intake pipe are open and a combination
of good water and mud was being fur-
nished the water takers. The water
committee was instructed to investigate,
and was given power to take such
measures to that end as it might
deem advisable. The committee
will do its work thoroughly, and if it
is found that the defect is in the pipe, it
will, of course, be promptly remedied.
Samples of the city water have been
sent to several chemists, and their
analyses will be received in a week or
two.

The Sportsmen's Club.
A meeting of the Sportsmen's club
was held Monday evening, when the
following officers were chosen for the
ensuing year: P. B. Kirkwood, presi-
dent; D. C. McDonald, vice-president;
Louis Sporley, secretary and treasurer;
J. H. Primeau, Patrick O'Leary and
Fred Zimmerman, directors. Reports
of the secretary and treasurer were
read. The club finds itself with a neat
little balance in the treasury at the
close of the season, after having had
heaps of sport. The retiring officers
were complimented on the excellence
of their work, and a hearty vote of
thanks was given them.

The Lecture To-Night.
The initial lecture of the series ar-
ranged for by the Entertainment As-
sociation will be given at the Opera House
this evening by Prof. John De Motte.
His subject will be, "The Lighthouse,
the Sentinel of the Sea." The lecture
will be a scientific one, but will by no
means be composed of dry statistics.
It has been highly complimented
wherever given, and there is not the
slightest doubt that everyone in at-
tendance this evening will thoroughly ap-
preciate it.

The association starts in with every
prospect of success. All of the 250
season tickets have been sold, and ap-
plications for more tickets are constan-
tly being received.

Isn't it about time for Negaunee's
base ball enthusiasts to begin laying
their plans for next season? With such
fine grounds as those of Union Park,
which are to be used jointly by the
clubs of the sister cities, at their dis-
posal, the people here ought to have a
club that can hold its own with any on
the peninsula.

Mr. and Mrs. Edward Lobb and their
daughter Eliza left yesterday for an
extended trip through the south-west-
ern states. They will spend a portion
of the winter in California, enjoying
the climate of the El Dorado.

Marshal Cunningham has found some-
thing that he can't lodge in jail, it being
a severe attack of la grippe.

Invitations were received here yester-
day for the conductors' ball to be given
at Escanaba on the 29th.

The local lodge has a mortgage on
Easter Monday night, and will give a
grand ball on that date.

The remains of the late J. Larsen
were brought here yesterday from Cris-
tal Falls for burial.

Sheriff Foley, of Bessemer county,
was in the city Monday.

The city hall flag staff will be put up
in a few days.
The trains were a little late yester-
day.

IS CONSUMPTION INCURABLE.

Read the following: Mr. C. H. Morris,
Newark, Ark., says: Was down with Abs-
cess of the Lungs, and friends and physi-
cians pronounced me an incurable con-
sumptive. Began taking Dr. King's New
Discovery for Consumption, and now on my
third bottle, and able to oversee work on
my farm. It is the finest medicine ever
made."
Jesse Middlewart, Decatur, Ohio, says:
"Had it not been for Dr. King's New Dis-
covery for consumption I would have died
of Lung Troubles. Was given up by doc-
tors. Am now in best of health." Try it.
Sample bottles free at H. H. Stafford &
Son's drug store. Large bottle \$1.

Coldest Day So Far.

Unless to-day shall beat it, yesterday was the coldest day of the season so far. In various parts of the town thermometers ranged from 6 to 14 degrees below zero. About noon the alcohol climbed up to 6 above but at midnight had sunk to as many figures below. Owing to the illness of Sergeant Dent it was not possible to get the official figures, but instruments known to be very reliable make the extreme temperature range for the twenty-four hours ending at 12 o'clock last night not to exceed fourteen degrees, from 8 below to 6 above. As to effect upon the human frame this variation amounts to practically nothing. In spite of the cold there is not yet ice enough in the bay to build an ice palace. In sharp contrast with this even and moderate climate of Marquette is the fact that at Ishpeming yesterday morning 20 below and at Michigamme 30 below was registered. Residents of Lake Superior's Queen City may well congratulate themselves upon their climate and when abroad dilate proudly upon its beauties as a winter resort.

To be Closed. The New York store is about to be closed. Mr. J. Oshinsky, the owner of the stock, is now in the city arranging for the disposal of whatever he can of the goods and the packing up and shipping of the balance. He makes a final offer in our advertising columns to sell goods at any sacrifice rather than pack them up. He has concluded to close up the store for the reason that he has all the business in New York that he can look after, and could not give the store here his personal attention. He advertises for a purchaser of the entire concern in our want columns.

TALK OF THE TOWN. The snow shoe club will hold its usual weekly tramp this evening. The Agimosse snow shoe club will rendezvous at the house of Mrs. K. A. Parker at 4:30 P. M. to-day. Mr. Hathaway's new residence on Third street is now being furnished and will soon be ready for occupancy. Mr. Bashaw's new house in the Palmer addition will be one of the handsomest in that locality when completed. Many of the young men of this city are laying plans to attend the conductor's ball at Escanaba next Wednesday evening. The pile driver on the extension of No. 3 dock got in operation again yesterday and the work is making substantial progress. Very few of the molders in the employ of the Iron Bay company will go to Duluth. The most of them found employment at Hancock.

Trains from the east were on time yesterday. Those from the west were a few minutes late, caused by waiting for southern connections. A large gang of men was at work yesterday clearing the snow from the railroad tracks. The yards and docks are now practically clear. Edward B., the 6-year-old son of Donald Cameron, died Monday. The funeral will take place from the family residence on Alger street, Palmer's addition, at 9 o'clock to-morrow afternoon. The afflicted parents have the sympathy of their many friends in their sad loss.

Appropos of the prevalent influenza epidemic the following Cornish story is floating about town: In reply to a friend's question as to the state of his health "Cousin Jack" said he had a bad cold. "Ah, a case of la grippe, I suppose." "Dom you," was the reply, "if that be what yet call 'em. I've had'n a' hundered toimes."

Mrs. W. A. E. Delf received on Monday a cablegram from England announcing the death of her father, in the sixty-first year of his age. The funeral will occur to-morrow, owing to which fact the bakery will be closed from 9 o'clock in the morning for the day. Mrs. Delf has many friends in this city who will sympathize deeply with her in her bereavement.

Cards have been issued by Mr. and Mrs. William Clary, announcing the marriage of their daughter Sarah to Mr. J. R. Stoll, at St. Peter's church, 9 A. M., January 29. A reception at the house of the bride's parents, 322 Rock street, will follow the ceremony and will last from 10 o'clock until noon. The young couple will be "at home" at 126 North Sixth street on February 15.

Among the old employees of the Iron Bay Manufacturing company who went to Duluth with the concern, is James McRae, one of the oldest men in time employed and in age. Mr. McRae is one of Marquette's pioneers, a whole souled, generous man and as good a citizen as the city had. Numerous are the regrets among his many friends to see him go, and all hope that success may attend him.

Lars J. Solstad, the insane tie-cutter from up the road, was examined before Judge Clifton yesterday. It was shown that he had threatened to kill some of his comrades because, as he alleged, they would not let him read in peace. That Solstad's madness is the result of a disappointment in love is denied by his friends who say that his mind was weakened by an attack of typhoid fever a few years ago. Sheriff Adams will take him to Traverse City in a day or two.

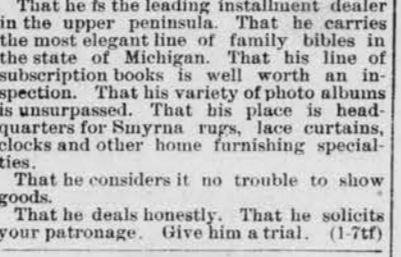

PERSONAL MOVEMENTS. Mrs. Fred H. Trathen is visiting her parents at the powder mill location for a few days. Mayor Clark went to Escanaba yesterday to attend the funeral of his brother's wife, which occurs in that place to-day. General Manager Fitch of the South Shore line, went to Escanaba yesterday and is expected to return to-morrow. He was accompanied by his wife and daughter. Marshal John Glode of Republic, who became known all over the country by his capture of the train robber Holzshay, was

at the court house yesterday on private business. Webster Dock, formerly city editor of the MINING JOURNAL, is in the city.

What Can Be Had at Manhard's. Steam and hot water heating at MANHARD'S. A large variety of steel and cast-iron boilers at MANHARD'S. Fifteen different styles of hot water and steam radiators at MANHARD'S. Call and see our new radiator, its a daisy. M. R. MANHARD. One second hand Florida boiler for sale cheap at MANHARD'S. 12-28Hf

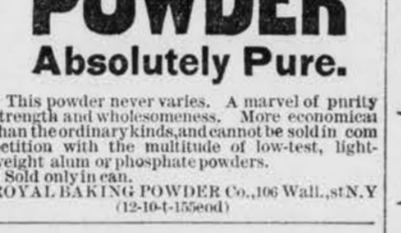

A Few Things to be Remembered. That T. F. Follis is located at room 18, Harlow block, Marquette, Mich. That he is the leading installment dealer in the upper peninsula. That he carries the most elegant line of family bibles in the state of Michigan. That his line of subscription books is well worth an inspection. That his variety of photo albums is unsurpassed. That his place is headquarters for Smyrna rugs, lace curtains, clocks and other home furnishing specialties. That he considers it no trouble to show goods. That he deals honestly. That he solicits your patronage. Give him a trial. (1-7Hf)

ISHPEMING DOINGS.

Must Have More Jail Facilities—The Council Ready to Act in the Matter of Providing Sewerage—Special Train for the Conductors' Ball—Twas a Cold Day—Second Dance of the N. O. Club Series—Deaths This Week.

Something Must Be Done. City hall or no city hall, something will have to be done to improve the city's jail facilities. The present accommodations are entirely inadequate, and if the city can not afford to put up a city building which would include a jail and marshal's residence, the authorities will have to spend a few thousand dollars either in rebuilding the jail—which, by the way, is not worth repairing—or in putting up a new building.

The Next Meeting. The common council will hold its next meeting one week from this evening. Judging from the expressions of several of the aldermen, the sewerage problem will be taken up at once, and the board will see what can be done toward providing the city with the needed sewerage facilities. A portion of the preliminary work has already been done, a former board having secured plans for a complete system. These plans are complete in every detail, giving all the grades and everything else necessary to the establishment of a system. The most generally accepted plan is to put in trunk sewers in the lower part of the city. Property owners can then make connections, the work, of course, being done under the supervision, and according to the plans, of the city authorities. The remainder of the city could be provided for as necessity demanded and the means would permit. No one will deny that sewerage is badly needed here, and the city can well afford to start the work. The matter of expense should not be allowed to stand in the way on a question of the public health.

The Conductors' Ball. Invitations have been received here by a large number of the dancing people for the ball to be given at the opera house, Escanaba, Wednesday evening, January 29th, by Delta division No. 86, Order of Railway Conductors. This is the second ball given by the order, and those who attended the first will remember it as a very pleasant affair. For the accommodation of those who wish to attend, a special train will leave here that evening shortly after 6 o'clock, arriving at Escanaba about 8:30. Returning, the train will leave Escanaba at 4 A. M. The charge for the round trip will be the regular one-way fare, and tickets can be obtained at that rate on presentation of an invitation card.

The Coldest Yet. Ishpeming experienced a cold snap Monday night and yesterday morning. The thermometers registered 20 below in many parts of the city at 7 o'clock yesterday morning. The weather moderated a little during the day, but it was the coldest day yet experienced. At Michigan the temperature was 30 below. During a portion of the day there was considerable wind and some snow, and those who had to drive facing the wind found it very unpleasant.

No. 2 of the Series. The second of the series of dances being given by the N. O. Social club this winter will take place at the City Opera House next Friday evening. Invitations will be issued to-day. The young men propose making this dance even more enjoyable than the first. Prof. Crim's orchestra has been engaged, and arrangements will be made so that those who attend can secure supper. Those who are fortunate enough to secure "bids" should get tickets, invite their ladies, and be in attendance Friday evening.

More Deaths. A. P. Anderson died Monday of pneumonia, superinduced by an attack of la grippe. The deceased was 58 years of age, and was a native of Sweden. The funeral will take place to-day at 1:30 P. M.

Mable Vicent, aged six months, died yesterday of bronchitis. The funeral will be held this afternoon at 2 o'clock.

KNOCKED OUT—Prices have been knocked out on Overcoats and Fur Jackets at L. W. ATKINS & CO'S.

SOLD OUT—The bulk of our Overcoats are sold but we have splendid values left that must go. L. W. ATKINS & CO.

CLEANED OUT—We are nearly cleaned out of Mufflers, but those handsome ones remaining will be sold very cheap. L. W. ATKINS & CO.

Sleeping Car Accommodations—On the Milwaukee & Northern railroad can be secured upon application to any agent of the Duluth, South Shore & Atlantic railroad or E. P. Wilbur, T. P. A., 506 Front street, room 7, Marquette, Mich. 12-31-11

GOT OUT—We have gotten out special inducements on seasonal goods that must be sold. L. W. ATKINS & CO.

KICKED OUT—The bottom will be kicked clean out of some lines of goods that we do not want to inventory. L. W. ATKINS & CO.

Large sample rooms, heated and lighted for commercial travelers. 11-61-11

ISHPEMING IN BRIEF.

S. S. Curry is in town. The indications were at 6 o'clock last evening that the mercury would drop below 20 before morning.

The water taxes are due, and those who do not wish to incur the fine imposed for non-payment within the prescribed date should visit the water board's office immediately.

A fresh youth who thought he could clean out a saloon Monday found himself in the middle of the street before he had concluded his remarks about his own prowess.

The Boston limited was delayed yesterday morning by a broken bridge on the Duluth extension. The Northwestern train was half an hour late getting into here yesterday.

Postmaster Tucker now occupies his private office in the new building. He has not completed furnishing it yet, but even now there is scarcely a more pleasant office to be found in the city.

They say that an Ishpeming policeman mistook a snow shoveler who was attired in full costume for a lumberman for whom he had a warrant, but the reporter doesn't believe it.

The present store of Jaedecke Bros. will be for rent after Feb. 1st, the proprietors having decided that the larger store which they are about to move into will be sufficient for their needs. The old quarters will make a good stand for some small business.

Mr. H. C. Clarke, of This City, Gets \$30,000 From The Louisiana State Lottery. "Is it actually true that you have received a part of the capital prize in the recent drawing of the Louisiana State Lottery?" asked a reporter for *The Star-Sayings* of Mr. H. C. Clarke, a young lithographer employed at August Gast's and residing at No. 712 North Compton avenue. "Yes," said he, "I have received \$30,000 in cash. The money was paid to me by the Continental Nat. Bank, of St. Louis is now in my possession, and a part of it will go into an elegant little home for myself and my family. My ticket was number 43,717—St. Louis (Mo.) *Star-Sayings*, Nov. 25.

Sure Cure for La Grippe. It has been demonstrated beyond doubt that change of scenes and climate is the best preventive and sure cure for the prevailing disease, and that those residing in cold climates are benefited by going to a warmer, and those of a warmer should go to a colder. Therefore those in the Superior country who wish to escape the malarial should go south or southwest. But in order to realize all the benefits and escape unscathed you must go via the Milwaukee & Northern R. R., en route inquiring for the special train. The information rates etc., can be had upon application to any ticket agent or E. P. Wilbur, T. P. A., 306 Front st., room 7, Marquette. (11-11-11)

ELECTRIC BITTERS. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other eruptions caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters—Entirely satisfactory, or money refunded.—Price 50 cts. and \$1.00 per bottle, at H. H. Stafford & Son's Drug-store.

Ishpeming business notices. ALL subscriptions to the DAILY MINING JOURNAL in Ishpeming must be paid to the authorized representative of the company, Fred Dougherty. Carriers are not authorized to collect subscriptions.

CARPETS WOVEN—Good work done at reasonable prices. MEN JOHNSON, Cor. High and Fifth sts. 32-1

FOR SALE—A first-class, black, road mare; 7 years old, 15-1 high, weighs 1000 pounds; trotting bred; drives single or double; sound and kind in every way; well put up, shapely, stylish and furnished with fine mane and tail; of good substance and great endurance; two years and three months in the possession of the present owner, and never known to be out of order; afraid of nothing—neither brass band nor locomotive, which makes her a valuable family horse, as any lady or boy can drive her. Apply to L. McCLOSKEY, at the New York Iron Mine. 12-3

TRICKS OF THE TRADE.

HOW THE SHARP CLERK BEGUILLES THE INNOCENT PURCHASER.

Stratagems Which Are Usually Successful. Buyers Are Only Human—Clerks Know It—The Shrewd Woman Treats Her Customers as Intelligent Beings.

"There are tricks in all trades but ours," is one of the aphorisms of the business world. It reminds the speculative observer of the old woman who seriously remarked: "The world is full of queer folks. I'm glad I'm not one of 'em."

The candid clerk would never be able to starve to death respectably. He would be discharged before he had told the truth twice. Imagine him saying to a customer: "Here is a piece of goods that is so coarse you can shoot peas through it, and all cotton at that. Although it is marked half wool, it will fade at the first wearing. How many yards shall I cut you off?"

He would himself be cut off from his business prospects and without the customary shilling.

A youth of this sort was engaged as assistant in a grocery store. He prided himself on his honesty and candor. When he saw his employer sell a pound of prunes he said in the presence of the customer: "You must be glad to sell another pound of those wormy old prunes. They'll soon be all gone."

The next moment he was out of a situation. The shrewd business man leaves something to the intelligence of his customers. As long as a thing is not misrepresented let them find out defects for themselves. But the day of sending the sugar and wetting down the tobacco is over. There is an investigation of another kind now. Chromo cards and gifts have had their day, but there is the quarter off and the half off sale.

REMEMBERING CUSTOMERS' TASTES. Can any one outside of the business tell how the accomplished clerk holds up a piece of dress goods in the little pyramid on the counter where the light strikes it so as to bring out in bold relief all its best colors and make it look as if it were the loveliest fabric in the store? One clerk will say, with his head over on the side like a little bird: "It looks like you, Miss. It's a fact; I thought of you as soon as I saw it. I said to myself, Miss—will that dress off that piece."

Another will remark incidentally under the same circumstances: "Your friend, Mrs. Col., bought a dress from that piece. In other words, she buys the goods, being helplessly enthralled in the science of delusion by those clerks who know their business."

A lady went into a dry goods store and asked to see some goods displayed in the window. "You don't want that style of goods," said the clerk, who knew his customer: "you wouldn't wear it."

Then he took down a dress after dress from his reserve stock, and as he did so remarked casually: "You wouldn't wear a window dress. This, now, has not been shown before."

Of course the customer was flattered into buying a dress, and the clerk was right. He knew that the goods removed from the illusion of plate glass would not please her. A clerk soon learns that a lady is never offended when her tastes are remembered and alluded to with graceful tact.

The best salesman of today do not persist as much as their predecessors did. They make their goods speak for themselves. A Detroit merchant relates a story of a clerk of long ago who tried so hard to sell a dress to a customer that he followed the lady to the door with the goods. Then he began to unroll it and the customer took hold of an end of the cloth to prevent it falling on the floor so it went. He unrolled the goods until she held a dress pattern in her arms and she felt compelled to take it.

KNOW SHE WOULD NEED IT. Another clerk was approached by a lady who wanted white silk mitts. He did not have any, but he jumped over the counter and followed her to the door to tell her he had a new lot of brown linen sheeting and a recipe for bleaching it white. This was in the good old days when Detroit was a village and everybody knew everybody else's business. The enterprising clerk knew that his customer for white silk mitts was about to be married and go to housekeeping and would need house linen. This gauging of people's needs and reconciling them with their purses is quite an enterprising feature of business at all times.

It is a fact that the dry goods store is the principal attraction of the business street and a fertile spot in the desert of commerce. It has color, variety and an attraction that no other place can possibly have. The commonest piece of red and yellow stuff will look rich and elegant in those long, graceful folds that have such reputation of detail, yet look so careless and artistic in the total effect. The man who did that gauges his usefulness by those folds. It is related of the late A. T. Stewart, the millionaire merchant, that in passing through the side of his great store in which the goods were exposed for sale—that opposite to the Broadway side—hesaw a piece of velvet stacked to catch the eye. He inquired who had arranged it in that way, and for the man, who was a new hand, and told him it was wrong. The man answered Mr. Stewart that it was the proper way to display that class of goods. Mr. Stewart said no more, but he watched and saw the velvets managed in this way for some months. Then he sent for the man and promoted him to the velvet department of the wholesale store.

"I save them from the most about me sets that I did myself," was the only explanation he gave. The best clerk is the reader of human nature. He crosses one into buying and intimidates another. The merchants have a proverb that any salesman can sell a customer the goods that she came to purchase, but he is a good salesman who sells her what she does not want. Every clerk has his particular friend who like to trade with him because he is obliging or courteous or entertaining. It is his trick of trade to be all these to his customers.—Detroit Free Press.

Houses in the Country. Your true countryman is seldom a "temperance man" in the matter of sunlight and shade. He is either a "teetotaler" or a confirmed tippler. His house is exposed, in the one case to all the fervor of the summer sun (and all the fury of the summer thunderstorm), or, in the other, it is hedged about and arched over by a plantation of trees so dense as to exclude even the vertical rays of the noonday sun. Of the two extremes I prefer the former. The mercilessly exposed walls appeal less agreeably to the eye, but they better please the sense of what is right and wrong from a hygienic point of view. Nothing is less picturesque than a house in the country without a tree beside it, but nothing is less healthful than one that cannot be seen for the density of the grove that surrounds it. But there is a happy medium between the wall that is warped by the direct rays of the summer sun and one that presents a mildewed face to the level beams of sunset, and it is the happy medium of temperance that one should try to strike in this as in other matters.—The Critic.

HE KEPT TAB ON THE LADY.

Some Amusing Evidence of Arrivals and Departures in a Homestead Contest Hearing.

MOVING TOWARDS IMPROVEMENTS IN THE WATER WORKS.

Commissioners Appointed to Get Plans and Estimates—Will of Ambrose Campbell Probated—The Recorder's Mill.

He Kept Tab on Her Movements.

The triangular homestead contest case of Henry Russell, Luther Smith and Finley Klingensmith was up for hearing before Receiver Maynard and Register Royce yesterday. The land in question is a quarter section in the old Ontonagon & Brule River grant, close to Kichi station on the South Shore road and consequently not far from the junction of that line with the Milwaukee & Northern. The land has considerable valuable pine upon it.

According to the testimony given yesterday Klingensmith settled upon the land in the summer of 1888, made a clearing and built a house. He seemed, by the admissions of his own witnesses, to have been away from the place a good deal, though his absences were all accounted for. In March, 1889, Russell came upon the land, found Klingensmith's house deserted, made claim and took possession. Luther Smith is sick and was not present yesterday, but is understood to have made a homestead claim on the land in 1887, before the railway grant was declared forfeit and the tract thrown open for settlement.

Mr. Russell, in his testimony, afforded the spectators considerable amusement by the accurate manner in which he appeared to have "kept tab" on the movements of Mr. and Mrs. Klingensmith, particularly the latter. For several months he made it his daily custom to meet every train at the station and see whether either of the Klingensmiths arrived or departed. He had all the dates of their movements entered up in two little blank books. Most of the entries related to Mrs. Klingensmith who appeared from Russell's memoranda to have regularly spent about one half of each week upon the claim, her husband visiting the place at wider intervals. As Russell composedly read out his long list of "arrivals" and "departures," sounding much like a railway timetable, the audience could not restrain their laughter, and Receiver Maynard had hard work to preserve his dignity.

The case will be continued to-day and judging by the hard fight made by the parties here an appeal will probably be taken to the general land office, whatever the decision here.

After New Pumps.

The Board of Water and Fire commissioners held a meeting yesterday morning and heard the report of Secretary Kern on receipts and expenditures. The report was a long and comprehensive document, the publication of which is prevented in this issue of the MINING JOURNAL by the requirements of space. The board also acted upon a resolution of the common council, passed at a late meeting, calling for information as to the condition of the pumping works and asking for an opinion as to the necessity of remodeling and enlarging the same. After some general discussion of the city's needs in the direction of larger water supply the board passed a resolution appointing Commissioner E. C. Moore and Secretary Kern to visit several points considered to have the most perfect pumping works and inspect the plants with a view to learning the latest improvements in that line. These gentlemen were also instructed to call upon the principal manufacturers of pumping machinery and get data, prices and estimate of cost of suitably enlarging the waterworks. The common council was requested to appoint one of its members to accompany the gentlemen above named on their tour of inspection.

The committee, constituted as described above, will visit the principal water works in the lower peninsula and elsewhere if deemed advisable. It is believed from the data now at hand that the probable cost of the necessary improvements of the pumping station will be about \$40,000. The present machinery has been in use nearly twenty years, and while it has given excellent service, is of course more or less worn, and unfit for such heavy duty as the emergency of a large fire might put upon it. The city has outgrown the capacity of the present pumping station. There has been a conviction in the minds of prudent citizens for some time that the adequate protection of the city against the dangers of fire demanded a substantial increase in the power of the pumping station. As far as can be learned the taxpayers are of one mind on this subject and the speedy action on the part of the water board and the common council will doubtless meet with general public approval.

Will of Ambrose Campbell.

The last will and testament of the late Ambrose Campbell was probated yesterday by Judge Clifton. The document is dated at the "Village of Marquette" and was executed more than

twenty years ago, on May 17, 1869. The first clause of the will bequeathes twenty shares of First National bank stock to the testator's daughter, Lida M. Campbell. The old homestead on Front street is devised to his wife, Mary L. Campbell. The most important of the provisions is the residuary bequest. One half the residue of all the estate is left to Mrs. Campbell for her life, the same to go, in the event of her death or re-marriage, to the daughter. The other one-half of the residue of the estate is left directly to the daughter. Mrs. Campbell was appointed executrix trustee and guardian of her daughter's estate during the latter's minority. In the event of the mother's death or remarriage such guardianship was to pass to Mrs. Mary S. Johnson. These provisions are, of course, non-operative now, as Miss Campbell has reached her majority. Nor is the provision as to First National bank stock of any avail as the officers of that institution state that Mr. Campbell had sold his stock some years ago.

Judge Clifton appointed Mrs. Campbell executrix of the estate without bond as requested by her husband's will. The witnesses to the will are B. H. Bicknell and James M. Wilkinson. No inventory of the estate was filed so that nothing can certainly be stated as to its value.

"Little Boys, You'll Go to Jail." The calm of Recorder Meads' court was disturbed yesterday for the first time in a week or more. Edward Welch attempted to lay in booze enough to last him over winter and then started to paint crimson stripes around the town. Before he had more than begun his artistic frescoing he was forcibly registered at the city hotel. He placated the offended majesty of the law by paying \$9.50 rather than spend fifteen days at Sheriff Adams' winter resort.

Charles Sight wobbled up before His Honor with the evidences of a plain, unadorned jag concealed about his person. He admitted his short-sighted conduct in the premises and paid an assessment of \$5.50.

Musical Association Rehearsal.

Despite the cold weather the rehearsal of the Musical Association last night in the Morgan Memorial chapel was fairly well attended. Under the leadership of Prof. Johnson the chorus is gradually beginning to take shape and acquire confidence in itself. Mr. Grant Thomas, from the committee on constitution and nomination of permanent officers, announced that its report was ready to be submitted. Owing to some slip in the heating arrangements the room had by this time grown cold and the members felt more like going home after their session of an hour and a half than remaining to discuss a constitution and by-laws. It was therefore determined to postpone the matter of electing officers until the meeting on next Tuesday evening, when it is hoped that even a larger attendance will be present. The rehearsal last night was upon a very pretty chorus of Mendelssohn, with soprano solo. The Musical Association may now be regarded as fairly started, and with proper attention on the part of the members and people of Marquette, cannot fail of success. All members are urgently requested to turn out next Tuesday evening.

For Green Bay, Take the Milwaukee & Northern railroad.

NOTICE!

The raffle of a lambrquin will come off Thursday evening at 8 o'clock at A. Thurler's office. All holding tickets, or their representatives, are requested to be present. 1-17-11

"The Sleeping Fox Catches No Poultry."

It is often the case that the backward boy will, when the opportunity presents itself, far outstrip those whose earlier advantages have been far superior. The

UPPER PENINSULA BUSINESS COLLEGE offers to all such young men this opportunity. It gives them a Thorough Business Education, then aids them in securing a position in the business world, where true worth will secure to them a proper compensation.

Come to our office and talk the matter over with us. We can aid you if you will but give us the opportunity.

Catalogue on application.
