A SURPRISED MINORITY.

Republicans Able To Transact Business In The House Without Democratic Assistance.

O'FERRALL'S OCCUPATION GONE—A QUORUM OF REPUBLICANS PRESENT.

The "Whips" Do Their Work Well and Successfully—Langston and Miller Seated. The Opposition Somewhat Sulky.

THE HOUSE.

WASHINGTON, Sept. 23.—The house finally got action to-day on the contested election cases from Virginia and South Carolina, and the sitting democrat representatives, Venable, of Virginia, and Elliott, of South Carolina, were removed and the republican contestants, Langston and Miller, respectively, were seated. But the result was not attained until the democrats were driven to the last ditch. The house had hardly been rapped to order when the ball was set rolling. Mr. O'Ferrall (Va) was the only democrat in the chamber during the delivery of the prayer.

The clerk immediately began to call the roll on the approval of Friday's journal. When he had announced the pairs and recapitulated the list of those voting, the speaker hesitated before he announced the result, there being but two lacking of a quorum. Mr. O'Ferrall demanded that the result should be announced. In order to delay the announcement, republican after republican arose and requested to know how they were recorded.

Mr. Grosvenor, of Ohio, inquired how the gentleman from Virginia, Mr. O'Ferrall, had voted, whereupon Mr. O'Ferrall replied that he had never voted to perpetuate a larceny, and he did not propose to do so in this case.

Mr. Taylor inquired whether the gentleman from Virginia (Mr. O'Ferrall) when he was seated by a democratic house considered it a larceny, and Mr. O'Ferrall quickly retorted that the keeping him out of his seat had been a larceny, and that a democratic congress had vindicated him. "The only evidence you have to your seat is that you were seated by a majority vote," said Mr. Taylor.

"It would be well to remember the course of the republicans in the last congress, when for days and weeks they refrained from voting in the contested election case of Sullivan vs Felton," Mr. O'Ferrall replied.

"Why did you not count us?" asked Mr. Allen, of Michigan.

The vote was announced to be yeas, 155; nays, 1—no quorum—and a call of the house was ordered. Just as the clerk began to call the roll Mr. Sweney of Iowa, one of the republican absentees, entered and was received by his colleagues with applause. Shortly afterwards Mr. Mudd of Maryland, also a republican, made his appearance and received a reception of mingled applause and hisses. During the roll call a camera was brought into requisition and the photographer reproduced the array of empty democratic seats.

One hundred and sixty-four members responded to the call. Mr. O'Ferrall, the only democrat present, retired, and the journal of Saturday morning was approved. The contested election cases were then called up and disposed of with a whoop. Mr. McCreary (Ky.), who with a number of other democrats entered the chamber at this moment, inquired what bill was under consideration. Mr. Henderson (Iowa), in response said that he did not blame the gentleman for being a little behind on general legislation, and Mr. Caswell (Wis.), sarcastically suggested that the gentleman from Kentucky be sworn in as a member of the house.

The afternoon was consumed in a discussion of the French spoliation claims. The house then adjourned.

THE SENATE.

WASHINGTON, D. C., Sept. 23.—A resolution authorizing the committee on relations with Canada to continue its investigations during the recess and the next session, was reported from the committee on contingent expenses and agreed to.

The senate then proceeded to the consideration of executive business, and when the doors were re-opened a senate proceeded to the consideration of bills on the calendar unobjectioned to and the following bill, among others, was passed: House bill to provide for the disposal of a portion of the United States military reservation at Baton Rouge, La.

The senate bill to refer to the court of claims certain claims of the Shawnee and Delaware Indians and the freemen of the Cherokee nation, and for other purposes was taken up and explained by Mr. Dawes. It went over without action, and the senate adjourned.

WASHINGTON NEWS

WASHINGTON, D. C., Sept. 23.—Secretary Blaine holds that the authorities of Guatemala had an indisputable right to arrest General Barrundia upon any form of warrant legal in that country whenever found within the territorial jurisdiction of that republic. The fact that he was on board a merchant vessel of the United States made no difference nor was it necessary that he should be shown actually guilty of any offence prior to his arrest. If General Barrundia had demanded the warrant of arrest, he would have exhausted his rights at the moment, and any resistance would have been at his peril.

THE LANGSTON CASE.

WASHINGTON, Sept. 23.—By its action to-day in seating Mr. Langston, the house ended what was probably the most protracted and bitterly contested election case it has ever decided. During the closing days of the last congress the democrats made a great effort to unseat Felton and put in Sullivan as a representative from California, but

they were defeated by the refusal of the majority of the republicans to vote upon the proposition. The result of to-day's proceedings

WAS A SURPRISE

to the democratic minority, which after the successful operation of what has become known as the "Mason plan" of obstruction, was confident that its opponents could not secure a quorum. But the "whips" had been active and the word was passed around before the house met that a quorum would be present. The result of the first roll call was awaited with considerable nervousness by the republicans. During the call it was discovered that Mr. Milliken and Mr. Mudd were not present and pages and messages were shortly despatched to hunt them up. They, however, came in

IN THE NICK OF TIME.

and the quorum was established. Speaker Reed stood ready to cast his ballot, but did not do so as the quorum appeared without his vote. The democratic minority was considerably vexed over the result of the day's proceedings, and a call for a caucus was circulated with the purpose of endeavoring to unite the party, by way of retaliation, upon a policy as to the treatment of the conference report on the tariff bill, which would require the republicans to maintain a quorum of their own members to dispose of that report. But the hour was so late that an attempt to caucus was temporarily abandoned.

O'BRIEN AND DILLON COMING.

Despite Their Arrest They Will Probably Visit The United States.

CINCINNATI, Sept. 23.—The council of the American branch of the Irish National Land league met here this afternoon to appoint a committee to meet and care for the coming speakers from Ireland. Notwithstanding the arrest of Messrs. O'Brien and Dillon, President Fitzgerald names them as the coming speakers, with Messrs. O'Connor and O'Reilly. He says he does not think that the arrests will interfere with their trip to the United States. Besides caring for the coming speakers there will be other business before the council, the nature of which will not probably be made public. There are a number of prominent Irishmen present.

NOW HE WANTS A DIVORCE.

The Wife Daniel Berry, of Henderson, Ky., Got Through an "Ad" Doesn't Suit.

HENDERSON, Ky., Sept. 23.—To-day Daniel Berry, a carpenter of this city, well advanced in years, brought suit for divorce from his wife Amelia Berry. The action is the consequence of a romantic marriage contracted by the old man a year hence. He advertised in a Chicago paper for a wife and caught one, a spruce-looking, middle-aged woman. She came to Henderson after the preliminaries had been arranged by correspondence, and the two were married. The female sharper, for such she turned out to be, only lived with the old gentleman three days. During that time she bamboozled him out of \$400, with which amount she skipped the state, and has not since been heard from.

NO CONTRACT FOR MILLIE.

Samuel Goldberg, of San Francisco, Shot and Fatally Wounded by Millie Panhorst.

SAN FRANCISCO, Sept. 23.—Millie Panhorst, aged 22, last night shot and fatally wounded Samuel Goldberg, to whom she had been engaged. Goldberg told the girl his family and religion would prevent their being married in the usual form, but he would marry her by contract. When she refused he threatened to kill both her and himself, and it is believed that his threats incited her to shoot.

LOSS OF LUMBER.

An Ashland Fleet Broken Up at Beaver Island—Barge Yankee Driven Ashore.

ASHLAND, Wis., Sept. 23.—A week ago yesterday the barge N. Mills and consorts, Jupiter, Bahama and Yankee, sailed from here with lumber for T. H. Sheppard & Co., Chicago, on the first three and a load for Kelley, Weeks &

Co., of Racine, on the last named, from the mills of C. C. Thompson. A telegram received from the captain of the Mills says that Saturday night when off the north end of Beaver Island they were struck by a storm. The Mills and Jupiter lost their deck loads and the Yankee broke loose and was beached. She had on 385,000 feet of lumber, with no insurance. The Yankee is said to be full of water and will probably be a total loss. No lives were lost. The vessels were owned by N. Mills & Co., of Cleveland.

CREDITORS SOMEWHAT LEY.

W. M. Early, a Merchant of Chico, Calif., Skips Leaving Many and Large Debts.

CHICO, Calif., Sept. 23.—The American cash store with a stock of gentlemen's furnishing goods has been attached by the sheriff. The whereabouts of the proprietor, W. M. Early, are unknown. Telegrams from creditors in New York, Chicago and Boston indicate that the claims against him will amount to \$40,000 or \$50,000. The stock in the store inventories only about \$4,000. Most of the goods apparently have been reshipped by Early to J. G. Wright, of Redding, the former proprietor of the store. Wright's store at Redding has been attached, but he will not be molested as he appears in the light of a purchaser on credit from Early.

A SAD ACCIDENT.

A Practical "Joke," May Cost Everett Beard, a Student at Miami, His Life.

HAMILTON, O., Sept. 23.—Everett Beard, of Liberty, Ind., lies at the Miami university, at Oxford, in a dying condition, as the result of maltreatment at the hands of fellow students. He was the first recruit of D. K. E., a Greek letter society, and in accordance with the usual custom, he was bound fast in a coffin and borne about town by black robed figures. When they returned to the club rooms, the bearers tripped up on a wire that had been stretched across the stairway. They plunged forward, the coffin was thrown violently to the floor and Beard was accidentally trampled upon.

ASHORE AT POINT AUX BARQUES.

Steamer Araxes and Her Two Consorts, Stranded Boats Not Leaking.

SAND BEACH, Mich., Sept. 23.—The steamer Araxes and her two consorts, lumber-laden, went ashore on Point Aux Barques this morning. The tug Favorite has gone to their assistance. A north-west sea is running, and the stranded boats are in a dangerous position. They are not leaking.

GONE TO THE BOTTOM.

The Schooner Eliza Missing—Captain and Crew Believed to Be Lost.

CHICAGO, Sept. 23.—On August 3d the little schooner Eliza, Capt. John Hanson, with a crew of five men, left the city for Milwaukee, since which time nothing has been heard of her. It is believed she has gone down with all on board.

A Dastardly Deed.

CINCINNATI, O., Sept. 23.—A most revolting attempt at robbery happened at 2 P. M. to-day at the residence of Mrs. George Cullom, No. 150 West Eighth street. A young man appeared at the door representing himself as having been sent by Mrs. Cullom's son-in-law for a bucket of coal. Mrs. Cullom, who is 82 years old, admitted him. He instantly struck her a heavy blow with a club on the forehead. Her screams attracted some workmen next door, who frightened the robber away. His purpose was evidently robbery as Mrs. Cullom is reputed to have considerable money in the house.

NASHVILLE, Tenn., Sept. 23.—Last Saturday night, just at dusk, as William Caruthers, a wealthy farmer, was driving home from Nolensville accompanied by a young colored boy who were both attacked and terribly beaten and Mr. Caruthers was robbed by unknown men. John Linene, a neighbor's boy, came to the house with a double-barrelled shot gun. He held it up and asked the little Nimick girl to look inside. The entire top of her head was blown off.

ENGLAND. LONDON, Sept. 23.—The Inman line steamer City of New York, which sailed from New York September 15th for Liverpool, was signalled off Brown Head at 9:55 o'clock this morning. Thirty-five minutes later the White Star line steamer Teutonic, which left New York September 15th for Liverpool, passed the same point. The City of New York sailed from New York twenty-nine minutes ahead of the Teutonic. She won the race by six minutes.

Slavin and McAuliffe were arraigned in the Lambeth court this morning, and were each bound over to keep the peace in £1,000 each, the prisoners furnishing one surety to appear when called upon. If any breach of the peace occurs warrants will be issued, and the case will be sent before the committing magistrate.

A dispatch from Goa, says that a state of siege has been proclaimed there in consequence of the election riots. The streets are now patrolled by soldiers. Warrants have been issued for the arrest of the popular leaders. Many residents have fled into the country. The coal laborers at Gibraltar have gone on a strike.

CANADA. OTTAWA, Ont., Sept. 23.—The minister of marine and fisheries has had under consideration the application of Captain Whiteley, a citizen of the United States, for permission to fish in the Gulf of Georgia. As the captain proposed to do his fishing in an American bottom, the minister would not allow a precedent to be created and permission was refused.

TUPPER EXERCISES CHARITY. OTTAWA, Ont., Sept. 23.—Two American fishing vessels, both possessing *modus vivendi* licenses, put into North Sydney harbor yesterday and asked permission to do a little trading between themselves, one vessel desiring to obtain a supply of salt from the other. Although the right to barter in this way is not implied in the licenses under the *modus vivendi* arrangement, on the case being reported to Hon. C. H. Tupper, he at once instructed the collector to grant permission for the exchange of supplies. The case, however, is not to be considered as a precedent.

GERMANY. BERLIN, Sept. 23.—The epidemic of suicide continues in this city. A sensation was created to-day by the discovery that Major General Norman, commander of the Cadets' school here, had killed himself by taking poison. To make his work doubly sure, after he had swallowed the poison, he opened the arteries in his arms. This is the fourth prominent man who has suicided in three days.

It transpires that Major Norman committed suicide because a soldier gave information that he was guilty of gross misconduct. The post-mortem examination of the body of Marie Hook, the actress, who died on Sunday, reveals the fact that death was not due to poison, but was probably hastened by the powder given her.

The Kruez Zeitung says that General du Vernois has positively decided to resign as minister of war.

IRELAND. DUBLIN, Sept. 23.—At the meeting of the National league to-day T. M. Healy in a speech said if any tenants submitted to the landlords they were traitors to their fellow countrymen. He promised that he and his colleagues would continue the struggle for the extinction of landlordism in Ireland.

AUSTRIA. VIENNA, Sept. 23.—Two thousand miners at Troppau, Austrian Silesia, have gone on a strike. Trouble is feared, and troops have been sent to the scene.

Labor Convention. INDIANAPOLIS, Sept. 23.—The state federation of trades and labor unions commenced its sixth annual meeting in this city this morning. A platform containing demands for the legislative action tending to the advancement of the workingmen's interests was early

adopted, and was followed by the reading of resolutions for a free school-book law and the election of United States senators by direct vote of the people. The aim of the federation is to unite in firm bonds all organized labor, and to that end the convention will be in session several days.

OPENS THE CAMPAIGN.

National American Party of New York City Passes Resolutions. NEW YORK, Sept. 23.—The county executive committee of the National American party opened its fall campaign to-day by passing the following resolution: "Whereas, we believe it to be the most sacred duty and first consideration of an American citizen to nominate and elect to the various offices of the metropolis, only American citizens, in the true sense, and meaning of the word, unbiased in their allegiance to the constitution and free institutions of our beloved country by any sworn allegiance to any foreign potentate, prince or powers; and, whereas, the municipal government of this great city is in the hands and control of a class of unprincipled demagogues, whose sole aim and purpose is the controlling of the vast city affairs for partisanship and their own personal aggrandizement, irrespective of ability or fitness, therefore; be it resolved, that we recommend the nomination of no candidate for any office of trust or worth whose foreign allegiance unites him for the offices of any free government, nor any whose feelings are not in full sympathy with our free institutions and public school system, the election to office of any such being a menace to the welfare of our government and nation."

REMAINS A MYSTERY.

Body of the Young Woman Drowned at Locust Point, Baltimore, Recognized. BALTIMORE, Sept. 23.—The dead body of the young woman found drowned at Locust Point yesterday was identified to-day as that of Mina Boehm, niece of Dr. Adolph Boehm, a well-known physician of this city. The manner of her death remains a mystery. Miss Boehm was twenty-six years of age. Her home was in Brunswick, Germany. She had means of her own and was in the habit every few years of paying a visit to this country. She came over from Germany two years ago, and spent some time in California. She arrived at Baltimore two weeks ago and stopped at Miller's Hotel until last Thursday, when she went to Dr. Boehm's house. About 6:30 P. M. Sunday she remarked that she was going to take a little walk. She put on her wraps and left the house. No more was seen or heard of her by the family until her body was found. The body was lying in two feet of water. It is not known whether Miss Boehm had when she left her uncle's house any money or other jewelry than the gold watch that was found on her.

PATCHED UP A TRUCE.

Striking Chicago Stockyards Switchmen Return To Work Temporarily. CHICAGO, Sept. 23.—The basis of the truce between the alliance of railways entering the stock yards and the men in their employ was disclosed to-day. The strikers returned to work pending the arrival of Grand Master Sweeney, of the Switchmen's Mutual Aid Association, and Grand Master Sargent, of the Brotherhood of Locomotive Firemen. The grievance of the strikers is that some of their number have been displaced by men who took the places of the strikers during the celebrated troubles of the Chicago, Burlington & Quincy. In consideration of the temporary return of the strikers to work, two obnoxious hands are being kept out of the stock yards until Messrs. Sweeney and Sargent reach Chicago, when a definite agreement is expected to be reached, or possibly the strike renewed.

ROBBED BY HIGHWAYMEN.

Lady and Gentleman In a Carriage In the City of Detroit—Robbers Miss \$8,000. DETROIT, Mich., Sept. 23.—George Keiter, of this city, accompanied by Miss Mary Murphy, was driving along the Boulevard from Jefferson avenue to Champlain street shortly before 10 o'clock last evening when the carriage was suddenly stopped by two men. One held a revolver at Keiter's head while the other compelled the lady to alight. Miss Murphy was dragged several rods away, roughly handled and relieved of a \$200 diamond pin and other jewelry. The men then took \$25 from Keiter and made their escape. Keiter drove to the Elmwood avenue station and reported the matter to the police. The robbers were not masked and Mr. Keiter thinks he can identify them. He says he had \$8,000 hung about his neck which the robbers overlooked. Every effort has been made to trace the bandits but thus far without success.

HAMMER AND PLOW.

Emblem of a New Political Party Born at Indianapolis, Yesterday. INDIANAPOLIS, Ind., Sept. 23.—The "Peoples Party" is the latest political organization and it had its origin in this city to-day. Delegates from the Farmers' Alliance, the Farmers' Mutual Benefit association, the greenbackers, the union labor and other organizations met and put a full ticket in the field. The hammer and the plow were adopted as the party emblem to be placed at the head of the ticket under the Australian ballot law. The platform is that adopted by the Farmers' Alliance at St. Louis last December.

Drunken Convicts.

NEW YORK, Sept. 23.—A number of convicts in Sing Sing prison, unloading a cartload of rags in the prison, discovered a small cask of whisky. The prisoners, one after another, paid frequent visits to the interior of the cart and became hilarious. The guard found that the keg of whisky had been almost drained of its contents. The men were immediately dispatched to their cells. Michael Brown, a 10 year convict for burglary, was helplessly drunk and had to be carried to his cell. The remainder of the whisky was poured into the river.

Went To The Bottom.

WINNIPEG, Sept. 23.—News was received here to-day of Lieutenant-Governor Schultz's steamer Keewatin on Lake Winnipeg. J. S. Tyrell, of the geological survey, writes from Swampy Island, Lake Winnipeg, that the yacht and a portion of the hull of the boat have been found on the island. The boat left here July last, Mr. Walls in charge, in a detachment of Northwest mounted police, whose duty it was to prevent whisky smuggling at the mouth of the Saskatchewan river. A fearful storm passed over the lake on the seventh day after the boat was last seen, and it is thought that those on board perished. So far as known only three men, all members of the Northwest mounted police, were on board.

Cannon of Nebraska. The business to-day was private, but resolutions condemning the arrest of Dillon and O'Brien, exulting Parnell, and pledging renewed activity to the cause of Ireland were passed, and the session adjourned.

Blew Out His Brain.

OMAHA, Neb., Sept. 23.—Ed. Wiggand, a teamster, shot Miss Allie Horne, alias Allie Tanner, and then blew out his brain in the Esterbrook block at Sixteenth and Chicago streets this afternoon. He will die. Wiggand left a note saying the woman promised to marry him but had been unfaithful to him.

Yonmans For Congress.

SAGINAW, Mich., Sept. 23.—The democrats of the Eighth congressional district to-day nominated Hon. Henry H. Youmans, of Saginaw.

a camp meeting. The curls were tantalizing, and the captain could not resist the temptation of pulling them. The owner of those curls was Jennie James, a local belle. She afterwards engaged herself to the captain, but subsequently jilted him and married three other soldiers successively.

"Don't Touch That Flag."

NEW YORK, Sept. 23.—"I ain't much of a hero, but if any Canuck had took down that air flag of mine, he'd a bin a dead man, perridin' my gun shot true," said Capt. Harry Horne, as he told the story of the hauling down of the United States flag from the grand stand of the Toronto industrial exhibition.

Captain Horne is a long-haired Nebraskan and a veteran of the late war. He had a wild-west show in Canada. When the flag was hauled down at Toronto and the crowd stamped upon it, he grabbed his gun and ran to the rescue. In about two minutes he had the flag and the jeering crowd had become respectful. Subsequently another flag was raised on the grand stand, but it was taunted and pelted in a way that preyed upon Captain Horne's spirits.

An American tourist, pleased with his compatriot's act, purchased a large flag and sent it to the captain. The Nebraskan pinned "Old Glory" to his tent flap, loaded his Winchester and notified the world that if that flag came down or was insulted something would drop.

While Captain Horne, who is his own "orator," discoursed on the daring deeds of his copper-colored warriors, Mrs. Horne took charge of the rifle and guarded the flag, but they both became so tired of the job that they concluded to cut short their stay and come back to the land of the free and the home of the brave, where it is not necessary to protect those colors with a shotgun.

An Asylum Horror.

NEW YORK, Sept. 23.—Mrs. Mary E. Carroll, wife of George D. Carroll, was taken to the Middletown insane asylum last spring, and for many months friends of hers have been exercised over the matter, claiming that she was unjustly detained at the instigation of her husband, who has taken a strong fancy to a dashing spiritualistic medium named Mrs. Stryker and has become apparently an ardent believer in spiritualism.

Judge Dickman appointed ex-Congressman Bacon, of Goshen, a commissioner to take testimony as to Mrs. Carroll's sanity several months ago, but no report has been made yet. The responsibility for the delay is said to rest with the lawyers in the case, as the commissioner must wait until they are ready to go on with the examination.

A Bunch of Grapes Instead of an Ear.

A singular birthmark is to be seen on a negro woman employed near Athens, Ala., on the Darrington plantation. Her left ear is shaped like a bunch of grapes, and pendant from the side of her head by a filament of flesh, presenting a most remarkable appearance. Her hearing on that side is of course very defective, but otherwise she suffers no inconvenience from her peculiar mark, which, as negroes always do, she attributes to a witch's malice. When in health the oblong balls of flesh which represent the grapes are firm and plump, but are shriveled by sickness.—Cor. Philadelphia Times.

Had Better Kept Still.

A tramp who was sent to jail in western Iowa wanted a change of air, and so owned up to a murder committed in Nebraska. En route to the scene of his crime he was seized by a mob and hung, and afterward it turned out that he had lied and was innocent of the crime.—Detroit Free Press.

Mr. Frederic Archer was extremely well pleased with the organ in St. Peter's cathedral, saying that it was the best of its size and most conveniently arranged he had seen for a long time. He obtained the name and address of the builder and was fairly enthusiastic over the instrument and the fine acoustic properties of the church.

The organizers of the Michigan Poly-zonal Turning company of this city are awaiting the arrival from Chicago of General Manager D. H. Bacon of the National Lathe and Tool company, the owner of the patents under which the local concern works. When he arrives the organization will be completed and officers elected. A site for a factory will be selected at once and the building erected this fall. This new enterprise will employ from forty to fifty men the first year. Its products and plans have already been described in these columns.

A DEMAND BY THE MEN.

Which The Managers of Mines in Ishpeming Will be Asked to Consider.

RAILROAD RUMORS THAT ARE RUMBLING IN ISHPEMING.

Concerning The City's Water Supply, and The Project to Drain Lake Angelina.

Ask For Five Shifts a Week.

A meeting of the day-shift men and of many of the night-shift men of the Lake Superior Hematite mine was held at the mine dry Tuesday noon, at which the matter of asking for a five-day week for the night-shift men was brought up. There was a full discussion of the subject by the men present and a committee of five was appointed to confer with the men at the other mines in the city and prepare a memorial to be addressed to the agents of the various mines, asking that the five-hour shift of Saturday night be suspended, the company account men receiving pay for six days work, as formerly. This committee will probably report Thursday, and the mine agents will be waited on by deputations before the end of the week.

The miners have gone about this matter in a straightforward way that will secure the good-will of the public. They have neither held secret meetings nor organized any secret society in which to meet and deliberate with closed doors. The meeting was held without any attempt at secrecy and the men will ask the mining companies to make a concession that they think fair and reasonable. No man will be boycotted or ostracized because he is not in the movement. Such a manner of asking for a desired concession must commend itself to the heads of the mines and to all others who are aware of the somewhat arbitrary manner in which workingmen sometimes demand their rights, or what they consider such.

There are a number of good reasons to be advanced in favor of giving the miners what they ask. It is well known to all miners and practical mining men that very little work is accomplished during the five-hour shift put in Saturday nights by the night-shift men. Owing to the short hours of work, the men do not accomplish half as much work as they would in the same length of time when a ten-hour shift is being worked. Again, if it were understood that a man on the night shift putting in five full days work in a week would get a week's pay, and that a man missing a shift would get just what time he worked, fully as much work, if not more, would be done in the five shifts then worked as in the five and a half now put in. It would reduce the number of shifts missed at night, and while giving the company as much or more work than under the present system, it would give the men more wages, as they would miss less time. At one of the largest mines in the city, which is noted throughout the Lake Superior district for good paying wages, the average time put in by the men underground for the year 1880 was 22 shifts a month, showing that an average of four shifts a month was lost by each miner employed.

Whatever may be the outcome of the matter, it is to be hoped that the pleasant relations that have existed here for years between the miners and mine owners will not be changed. The men have gone about this matter in a manly and creditable way. The mining companies cannot do less than give their request careful consideration.

Railroad Rumors.

There are all sorts of rumors afloat regarding railroads to come into Ishpeming next season, and the MINING JOURNAL herewith gives a few of the most plausible ones, leaving the discriminating reader to judge for himself as to their truth or falsity.

It comes from a source that should be reliable that the Escanaba, Iron Mountain & Western, better known as the "Schlesinger" line, is to build into Ishpeming and Negaunee next spring. The road, which has its lake terminus at Escanaba, is being built primarily to afford a carrying route between the mines and that port for the ores of the Schlesinger group of mines on the Menominee range, and it seems plausible that the line should be built to Negaunee, where the syndicate has four big mines. It is further rumored that Alex. Sutherland will be the superintendent of this line when it begins business next spring.

The sale of the Milwaukee & Northern to the St. Paul has revived the rumors that the road would be built into Ishpeming, though circumstances would go to show that the St. Paul is intending to make Ontonagon its Lake Superior terminus. If the St. Paul wants to bid actively for a share of the ore traffic of the district it will come to this city and Negaunee, where the big mines are.

City Pumps.

The new city pumping engine is now being got in readiness for work, and soon the town will be supplied with pure water from Lake Sally. The pump is located on section 16 of the Lake Superior company's property, that company having contracted with the city to furnish steam for working the pump for a small annual rental. The arrangement is one that is favorable to both the city and the mine, as the service will be reciprocal.

The three mining companies having workings around its borders are still considering the matter of draining Lake Angelina. The task is one of some magnitude, and requires some study to decide best how to do it. The Cleveland company has a large deposit of ore under the lake, one from which the company will probably ship a hundred thousand tons of ore next year, and the Lake Angelina company has workings all along the southern border of the lake. The Lake Superior Hematite mine is under the lake also, and if the water can be taken out it will not only afford additional security to the mines under its bed, but valuable

ground for tracks and buildings to the three companies named as well.

There has been some discussion of this matter, some people here holding that the companies have no legal claim to the ground. That matter can safely be left to them to settle. They will not spend much money pumping out the lake if they cannot keep the ground afterward. If the lake is pumped out the mines now operating under it will have larger forces put at work, and the city will derive a direct benefit from the employment of several hundred additional men. The lake is of no particular value to anyone as it stands, while its drainage would help everyone interested in Ishpeming.

ISHPEMING IN BRIEF.

Mr. J. Maurice Finn is home again from Grayling.

One of the city jewelers is selling the watch furnished members of the watch club at \$40 for \$15. Very little money is going in the club in consequence.

Alexander Stevenson, the Detroit hardware man, is back in town again. He was in a big railroad wreck on the Northern Pacific, but a little thing like a railroad smash-up never disturbs him.

Mrs. A. S. Benjamin's last "parliamentary drill" will take place at the Temple of Honor hall this evening. The drills have been largely attended, and are pronounced an excellent thing by all attending.

It would be well for the city attorney to cast his critical eye over the election law passed by the last legislature, and inform the council what will be required in the way of booths, furniture, tickets and other accessories to conduct the coming election in conformity with the law.

George Bamford has accepted a position in the South Shore depot. Good men don't have to stay out of employment long in Ishpeming. Mr. Bamford finished work at the postoffice Sunday afternoon, and was offered a new position, and took it, in time to begin work Sunday evening.

A Mountain Tribe. A strange and interesting class of people live in the mountain regions of eastern Galicia and Bukovina, and in the border mountains of Hungary. They are called Huzuls, and are a mixture of two tribes which were driven out of Slavonia and Mongolion 600 years ago.

They are at present about 30,000 in number, and live in small settlements, seldom more than six or seven families in a settlement. These settlements are called "starosties," the "starost," or governor, being always the oldest son of the founder of the settlement and his direct descendants.

This governor has unlimited control of the people, but he possesses no more lands or flocks than any other man in the starosty, as the fields and sheep which form the wealth and are the pride of the Huzuls are the common property of the settlement.

Although they have regular homes, they make very little use of them as abiding places. As soon as the first signs of spring, which they call the "green time," appear they are off, and for seven months wander through the mountains as hunters or herdsmen, and only the "black time" of winter brings them back to the settlement. As to their religious belief, they are heathen, and are filled with all sorts of strange superstitions.—Youth's Companion

The Value of Nose Breathing. Breathing through the nose saves irritations of the throat and lungs by warming the air if cold, by straining it if dusty, before it reaches their more delicate membranes. Breathing through the nose secures the uniform temperature of that organ through the constant expelling of warm air. Breathing through the nose strengthens the muscles of the diaphragm, thus inducing deeper and fuller respiration. Emphasize the object of breathing, and show how the minute blood cells, through their system of thread like capillaries, become the wonderful builders and repairers of the body.—New York Journal

About Don Quixote. Don Quixote is pronounced in several different ways in English, the favorite being Don Kwisit. The Spanish pronunciation of the word sounds very much like donkey haughty. He is not coming to this country to lecture. He has been dead several years.—Texas Sittings.

THE PULPIT AND THE STAGE. Rev. F. M. Shrout, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and an sound and well, gaining 25 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery, for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousands of friends is to urge them to try it." Free trial bottles at H. H. Stafford & Son's Drug Store. Regular sizes 50c. and \$1.00

A VERY ODD GIRL.

In school she ranks above her mates, And wins the highest prizes; She bounds correctly all the stanzas, And tells what each one's size is, In class she will not prompt a friend, For she doesn't believe in telling; She reads the rules from end to end, And never fails in spelling.

"She's just as odd as odd can be!" Say all at home of Esther Lee. She keeps her room as neat as wax, And laughs at Peter's mockings; She mends Priscilla's gloves and saucers, And darns the family stockings; She dusts the sitting room for Kate, She cares for baby brother, She fashions dolls and kites for Nate, "She's just as odd as odd can be!" Say all at home of Esther Lee.

For little crippled Mary Betts She saves her brightest pennies; She never, never sulks or frets She's best at all the stanzas, With happy words she is sure to greet Children in lowly by ways; She guides unsteady, aged feet Across the bustling highways, "She's just as odd as odd can be!" Say all the town of Esther Lee. —Sunday School Times.

THE WIZARD'S WIFE.

Inventor Edison's Beautiful Helmet and Their Charming Home. Count Thomas A. Edison, commander of the Legion of Honor, lives in a beautiful house, which is almost a castle in appearance.

"Edisonment," as it is called, is delightfully situated in the midst of the aristocratic suburb Llewellyn Park, N. J. This place Mr. Edison bought after his second marriage, about four years ago.

The family consists of Mrs. Edison, two boys and a little girl, the latter the child of his second marriage. Mr. Edison's eldest daughter, a young girl about 15 years of age, is studying music in Germany under the care of a relative.

Mrs. Edison is a beautiful woman, with charming manners, as becomes a countess. Her beauty and fine manners won high praise while in London and Paris, which she visited with her husband. Mrs. Edison is 24 years old, a trifle above the average height, with a very graceful figure. She has brown hair, which she usually wears high at the back, with a fluffy bang over her forehead. Her eyes are hazel, and of complexion of that clear olive which artists so much prize.

She is a very quiet woman, and on ordinary occasions very quiet. Many French tea gowns and handsome dinner dresses were added to her wardrobe when she was in Paris.

She takes a long drive every morning accompanied by her little daughter and her nurse. Her carriage costume at this season is very apt to be army blue cashmere with passementerie trimmings and a straw hat with a becoming cluster of pink roses for ornament.

Edison has a young woman's fondness for society and entertains a good deal, luncheon and dinner parties being her favorite ways of dispensing hospitality to her friends. Her sister, Mrs. Mary Miller, whose home is in Akron, O., spends much time with Mrs. Edison.

The mansion built at the Edison mansion is 2 o'clock, and lest her absent minded husband forget that he needs some refreshments Mrs. Edison often has the carriage sent for him to his laboratory, although it is only a five minute walk to the house.

The reader could hardly guess, perhaps, one of Mr. Edison's favorite "stanzas"—it is nothing more or less than that very Yankee dish—pie; for breakfast he always wants fruit.

The house where the Wizard and his wife live is a handsome structure of brick and wood, somewhat Queen Anne in style, and very comfortable. There is everything for comfort and many things for luxury. A fine portrait of Mrs. Edison's father hangs upon the wall, and many pictures of little Baby Madeline stand upon the mantel. From the front windows there is a fine view of the Orange valley.

Adjoining the house is a fine garden, from which a door leads to the roof of a conservatory. Over this, in summer, an awning is stretched, and here often a cup of tea is served in the afternoon, as it is a favorite lounging place of Mrs. Edison, with its divans, its table with all the pretty and dainty apparatus for making tea, and its huge jars of flowers.—New York World.

How Girls Should Walk.

The walk of the old time girl compared to the demure major like carriage of the young woman of today is an illustration of the great change in the characteristics of women of the fashion during the past two or three decades. It is unquestionably healthy for young women to wear shoulder braces, stand erect and swing their arms when they walk, but they should beware of going too far. The well built and robust girl who holds her shoulders back is a sight to please the eyes of gods and man, but the thin, scrawny and emaciated girl who twists her meager body out of shape and holds her shoulders in such a fashion that she looks as though suffering from violent rheumatism, is a sight to sicken the languid pose and attitude of the century gone by. She might not appear so "smart," but she would be vastly more pleasing to the eye.—New York Letter.

Burmese Girls.

The Burmese girls are very bright, and go to school, and are very much interested in you with a six inch cigar in her mouth and her comely person swathed in garments, the colors of which would rival Joseph's coat, and offers you her wares, the only thing for a man to do is to buy, and buy at once. The Burmese girls are noted, too, for their independence, and they walk about the streets and through the bazars and around the pagodas with big cigars in their mouths, with as much freedom as do the men in most countries. Their dress is more picturesque, too, than the Arabs. They use the very brightest red, yellow and pink silks in their adornment, and the prevailing fashion runs to scarfs more than to dresses, and bands of ribbons more than to jackets. I don't believe they wear corsets either.—Exchange.

How "Aunt Sally" is Played.

Players sit in a row. The blind player says to the one next to him, "My aunt has just come from London." The second player replies, "What did she bring you?" First player, waving right hand, "One little fan, goes just so." The second player then goes through the same formula with the third, and this is passed along the line, each player asking and answering the question in his turn until the head is again reached, when the reply turns into, "Two little fans that go just so." All this time the first hand has been kept shaking, and by the time the game is finished and the aunt has brought two shoes, two fans, one hat, etc., the whole body is in commotion and the first player to stop must pay a forfeit.—Cor. Springfield Homestead.

RED JACKET. Pharmacist Allen, at Pritz's drug store, got too much morphine and whisky in him Monday evening and behaved himself in such an erratic way that about two hundred people gathered in front of the store. The policeman Ward and Marshal Sullivan were in charge and locked him up in jail for the night. Tuesday morning when let out he seemed to be in a despondent and ugly mood and spoke of going where they would never find him. Mr. Allen is a married man, well educated and has been in America but a few months. His wife boards at Mr. Pritz's with him. It is the impression that his mind has become deranged and needs medical supervision and good nursing at once.

The infant son of Mr. and Mrs. Walter Kenwick died on Monday evening. The funeral will be held this afternoon at 2 o'clock. The Red Jacket perpendicular shaft was sunk 107 feet for the month ending September 17th.

Hon. Jay A. Hubbell, in charge of the officials of Chicago, Milwaukee & St. Paul railway, arrived by train Monday morning and spent the forenoon visiting the sights about this vicinity and at the celebrated Calumet & Hecla and Tamarack mines.
