SCRAPPING OVER CLERKS.

House and Senate Squabbling Over Salaries to Be Allowed to Clerks of Senate.

SENATE TRIES TO GET MORE MONEY ON THE DEFICIENCY BILL.

Senators Want Private Clerks' Wages to Run Through the Year and Representatives Who Have None Object.

PRINTERS MAY HAVE TO STOP.

WASHINGTON, Dec. 26.—There is an interesting little fight going on between the senate and house over the urgent deficiency appropriation bill, which is made up principally of appropriations for the government printing office, and unless the dead-lock between the two bodies is broken there may be some what of an interruption of work at the big print shop. The senate added to the bill a proposition for the payment of salaries to clerks of senators during the interim between the two sessions of this congress. The effect of this provision would be indirectly to make the senatorial clerks' annual instead of session employees. The house refused concurrence in the senate amendment and the senate conferees refuse to sign the conference report and permit the other items of appropriation in the bill to become law unless the house yields. The fight is really a continuation of a struggle between the two bodies last session. The senate by an amendment to the regular annual appropriation bill made senators' clerks annual employees but the house refused concurrence and finally carried its point, the amendment being stricken from the bill. In the closing days of the session, however, the senate passed a simple resolution to which of course the assent of the house was unnecessary, providing the payments of senators' clerks during the recess from the senate contingent fund. There was no money available in this fund and it is now sought to increase the fund to the requisite amount by a deficiency appropriation. The house is steadfast in its determination to resist this and members of the appropriation committee say that such a thing as paying regular salaries from a contingent appropriation was never contemplated and to permit it would be for the house to abdicate its power of scrutinizing and providing for the expenditures of public moneys.

STEELING THROUGH SNOW.

NEW YORK, Dec. 26.—To-day's storm on the water was much worse for navigation than the heaviest fog. Everything in the line of steam craft was impeded and the movement of vessels propelled by sail was suspended altogether. A dispatch from Point Pleasant, N. J., says a heavy storm of blinding snow is raging along the entire coast from Sandy Hook to Cape May. The air is so thick with snow that it is difficult to look any distance out to sea. Telegraph and telephone wires are down and it is feared there are wrecks along the coast which have not yet been reported on this account. Reports continue to be received from all points of New York state showing a heavy fall of snow and consequent interruption of traffic. In the Mohawk valley the storm is unusually severe. At 6 o'clock this evening more than eight inches of snow had fallen at Amsterdam and it was still snowing hard. Railroad travel is greatly delayed, some of the through trains being from two to three hours late. ALBANY, N. Y., Dec. 26.—Two sections of the roof of the New York Central railroad round-house at West Albany collapsed this afternoon under the weight of snow. Three men were injured. Four engines are buried in the wreck. SPRINGFIELD, Mass., Dec. 26.—The storm here, while not particularly severe, reached such a point as to delay travel greatly, all the railroad trains being late and the electric street cars rendered almost useless before the end of the afternoon. The fall averaged about ten inches up to 8 P. M., with no signs of abatement. RUTLAND, Vt., Dec. 26.—Snow began falling in Rutland this morning and has continued steadily all day, with little prospect of cessation. Reports from other sections of the state indicate that the storm has been the heaviest of the season. Railroad traffic has been greatly impeded. PORTLAND, Maine, Dec. 26.—A heavy gale is blowing from the northeast, with the mercury 10 degrees above. The snow has fallen fast since noon, and drifts badly. The horse cars are running with four horses. The trains from the west are all behind time. It is bad night on the coast. MINNEAPOLIS, Dec. 26.—Advices from the central and west central parts of Minnesota indicate a heavy fall of snow to-day followed by a rapidly falling temperature. In Minneapolis to-night a stiff west wind is blowing and the mercury is going down fast. There has been no snow here yet.

TRAIN-WRECKER ON TRIAL.

Detective Robert Pinkerton Denies Promising Immunity to John Reed. TROY, N. Y., Dec. 26.—In the trial of John Reed, one of the alleged train-wreckers, Detective Robert O. Pinkerton testified that Reed made a statement to him after his arrest without any inducements or threats. Counsel for the defendant objected to admitting Reed's statement to Pinkerton, on the ground that it was not voluntary. Pinkerton denied that he ever told Reed that he would get Mr. Bissell and come into the room to assure Reed that whatever inducements might be made would be lived up to. He also denied that Bissell had given any such assurance or having told Reed that he did not need counsel because the attorney for the road would look after his case. He said that Reed had been taken to Stanwix Hall with a handkerchief about his face, so that he would not be recognized by the newspaper men about the depot. The crime with which Reed and others are charged is the displacing of a switch on the New York Central railroad during the recent strike. The alleged crime was committed on the same night that the Montreal express was wrecked near Skaneateles.

PROSPECT OF SETTLEMENT.

Municipal Authorities, Directors and Men Confer on Scottish Strike. EDINBURGH, Dec. 25.—As a result of the conference here to-day of provosts, directors and delegates representing the strikers it is stated that there are prospects of settling the strike. At Dundee to-day an unsuccessful attempt was made to derail a train.

FORECAST OF THE WEATHER.

WASHINGTON, D. C., Dec. 26.—8 P. M.—The signal service reports the following as its forecast for the next 24 hours: For Michigan and Wisconsin: clearing Saturday, fair Sunday; northwesterly winds, colder; the temperature will fall sixteen degrees at Marquette and Sault Ste. Marie, Michigan. Storm signals are displayed at Grand Haven, Ludington and Milwaukee.

CRAZED OVER RELIGION.

German Woman's Frightful Preparation for Christmas Festivities. BERLIN, Dec. 26.—The village of Wattenheim, in Rhineland, is greatly excited over a peculiar case of religious frenzy that was seen there yesterday. Barbara Pfeister, an unmarried woman 23 years of age, horribly mutilated herself and then appeared before a large number of people who had assembled at her home to participate in a religious ceremony. She presented a frightful appearance, being wounded in several places, from which the blood oozed. Her hands, feet and head were gashed, presenting a ghastly appearance, and there were several wounds near her heart. Standing before the

QUEER SHOVERS CAPTURED.

Nineteen Italians Arrested at Pittsburgh and Over Eleven Hundred Bogus Silver Dollars Secured.

POLICE BELIEVE PRISONERS ARE EMISARIES OF NEW YORK GANG.

Letter City Thought to Be Headquarters of a Big Counterfeiting Conspiracy—Further Sensational Developments Expected.

DANGEROUS BOGUS DOLLARS.

PITTSBURGH, Dec. 26.—A gigantic conspiracy to flood the United States with counterfeit silver dollars has been unearthed, and to the energy and intelligence of the officials of the first police district of Pittsburgh is due the credit. Nineteen persons are already under arrest and \$1,100 in spurious coin is in the hands of the police. The money was brought from a central depot in New York city to Pittsburgh by a gang of Italians employed to pass it. The money was all in silver dollars. Experts say it is the best counterfeit of the standard silver dollar that was ever made. Its ring is identical with the good coin, the only fault being a little lightness in weight. Two of the Italians, named Elio Darigo and Nelson Maggerrin, accompanied by their wives, attempted to pass the spurious money over the bar of the Black Bear hotel, but were detected by the proprietor and arrested. The party at first refused to say where they lived but the woman finally told the police that they had been living at 533 Lincoln street, East End. The house was quietly surrounded and fifteen Italians arrested. Secreted under a bed in one of the rooms was found a pile of counterfeit money amounting to \$1,100. The prisoners were removed to the central station and locked up. After the house had been thoroughly searched the detectives interviewed the prisoners one at a time and succeeded finally in gaining the information that the money was made in New York and they had been sent hereto to dispose of it. Not a mold or die nor any kind of counterfeiting machinery was found on the persons of the gang arrested here. The government has been after the New York gang of counterfeiters for a long time and while several arrests have been made from time to time and considerable of the counterfeit coin captured, the real head of the organized band has not been discovered. At 3 o'clock this afternoon the gang of counterfeit-passers were given a hearing and two who appeared to be the principals were held for trial. They were both Italians, Mazzetino and Marietta, the wife of the former also being held as a witness. The police are in communication with New York officers and expect to assist in unearthing the chief gang in the east which has been manufacturing the clever imitation and shipping it here for distribution.

PARNELL AND O'BRIEN.

Paris Gossip About Their Coming Meeting in That City. PARIS, Dec. 26.—The Temps announces that after the meeting between Parnell and O'Brien a formal conference of the Irish leaders will be held in those who will take part in the deliberations will be Messrs. McCarthy, Power, Redmond, O'Kelly, Sexton, Kenny and Arthur O'Connor. The aim of the conference will be a re-union of the two sections of the Irish party, based on the temporary retirement of Mr. Parnell from the leadership. The Debates asserts that Mr. Parnell will come to this city without having made a previous arrangement with Mr. O'Brien for a meeting. The paper further says that Mr. O'Brien does not expect to discuss the situation with Mr. Parnell personally.

TROUBLE ABOUT OVER.

Hostile Indians Said to Be Coming In From Bad Lands. RAPID CITY, Dec. 26.—General Miles, who has been waiting for several days past to hear the result of the friendly mission of the Pine Ridge Indians to the hostile camps in the Bad Lands, today received word from General Brooke that couriers in from his emissaries reported the hostiles ready and about to come in. Several small parties are already moving into the agency and the balking Indians are expected there within a day or two. Word was also received that Big Foot and his band, who have been missing since their escape from Colonel Sumner, have been found on Porcupine creek moving toward Pine Ridge. No details are given but Big Foot has certainly evaded for several days all the force in search of him.

FOUGHT WITH KNIVES.

Two Lumbermen Fight a Bloody Duel Near Florence, Wis. FLORENCE, Wis., Dec. 26.—John Heiden and John Neumer, two lumbermen, while coming into town yesterday morning from Hall's lumber camp, fought a bloody battle with knives near Keys Lake, three miles from this place. Neumer is cut in bad shape and will die. He has ten ugly gashes on his breast. Neumer's home is in Coopers-town, Manitowoc county. Heiden is in jail.

LOST IN THE SEWERS.

Gustav Larsen's Strange Experience Under a City's Streets. MINNEAPOLIS, Dec. 26.—Gustav Larsen, a laborer, lost himself in one of the city's big sewers this afternoon and wandered over three miles before he could get out. He had gone down to do some repairing and his man-hole closed after him. The foul air had almost overcome him when he made his exit at Cedar avenue and Fourth street

MARQUETTE, MICH., DEC. 27.
Entered as mail matter of the second class in the postoffice at Marquette, Mich.
A FINANCIAL paper which is greatly afflicted by the prospect of legislation to inflate the currency to an undue extent says that President Harrison is credited with the purpose of signing any silver bill congress may pass. The MINING JOURNAL doubts this. The sturdy defense of the McKinley tariff and Lodge election bills that he made in his message to congress right after the election of this year is evidence that President Harrison is a man who has the courage of his convictions. He doesn't believe in flooding the country with silver when the people do not want it, and will not sign a bill that is designed to have that effect. The president may err in judgment, since he is only human, like the rest of us, but he will do what he believes to be right, let the consequences be what they may.

THE PETTED SILVER MEN.
The demand of the farmer's alliance, that the government shall make provision for storing and advancing money on "non-perishable" farm products, and also making loans on farming lands under specified restrictions at a low rate of interest, is generally regarded by the people as a preposterous one, and a great number of the farmers themselves disapprove of it.
But when the silver men ask that the government shall provide storage for the output of their mines and also convert it into currency by issuing its equivalent in silver certificates that shall be invested with all the functions of money, the proposal does not seem to provoke the same degree of adverse criticism.
Are we to infer from this that what is none to good for the owner of a silver mine is altogether too good for the possessor of a farm?

IRON ORE STATISTICS.
The Iron Trade Review of Cleveland has made its annual compilation of statistics showing the receipts of iron ore for the season at lower lake ports, the shipments to furnaces for the same period, the quantity remaining on the docks, etc., and gives the result in its last issue. We make use of these extracts from its presentation of facts and figures bearing on the matter:
There were on dock at these ports at the opening of navigation, May 1, 1890, 996,228 gross tons of ore. The total receipts for the season of 1890 (closing Dec. 1) were 6,874,694 tons, making a total of 7,870,922 tons. Of this there were shipped to furnaces by rail from Lake Erie ports during the season of 1890, 3,917,405 tons, leaving on dock Dec. 1, 3,953,517 tons, as against 2,607,105 tons on dock at the close of navigation last year. This shows an increase of ore on dock this year of 1,346,412 tons over last year at the same time. The receipts in tons at the various ports for 1890 were as follows: Toledo 164,205, Sandusky 174,596, Huron 1,300, Lorain 289,450, Cleveland 1,945,492, Fairport 1,068,408, Ashtabula 2,176,730, Erie 487,593, Buffalo 548,000, total 6,874,694.

The ore stocks on hand at the close of navigation were as follows: Toledo, 110,740; Sandusky, 115,000; Huron, 1,300; Lorain, 300,237; Cleveland, 1,201,467; Fairport, 731,000; Ashtabula, 1,151,947; Erie, 248,714; Buffalo, 125,732. Total 3,803,487. The total on hand Dec. 1, 1889, was 2,607,105.
Comparing the growth of receipts at the various ports, Cleveland does not make a good showing. In the detailed statistics covering eight years the Review shows how Cleveland, comparatively speaking, has declined in importance as a port for receiving ore. In commenting on the statistics, the Review says:
The increase in the receipts at Lake Erie ports this year over last year has been 17 1/2 per cent, and over 1889 80 per cent. The increase in the amount on dock this year over 1889 is 50 per cent, and over 1888 110 per cent. The presence of nearly 3,900,000 tons of ore on dock awaiting shipment to furnaces tell the story of the present condition of the pig iron market more eloquently than words. Of the 3,803,487 tons of ore on dock December 1, 1890, practically not a pound remained unsold. The unsold ore on dock at the close of navigation last year was estimated at 70,000 tons.

the men who are now wrangling over the question of its leadership.
GOVERNOR HILL isn't finding his way to the seat in the United States senate that was supposed to be his if he wanted it as free from obstructions as his admirers imagined it would prove to be. Smith M. Weed has aspirations in that direction, and claims that Hill has promised to do what he could toward bringing about their fulfillment. He threatens to make it exceedingly uncomfortable for that gentleman politically unless he redeems his pledge, now that the democrats are at last in a position to elect the senator. Weed has a barrel of money and plenty of backing, so the Hill crowd are greatly agitated over the phase that his candidacy puts on the senatorial contest. Meanwhile the Herald is everlastingly booming old Dava, of the Sun, for the seat, presumably with the amiable intention of making a situation already confusing worse confounded. There is a chance for a delightful row over the election of Senator Evans' successor unless Hill drops out of the contest, something that he dislikes very much to do, as he is well aware by this time that he hasn't the ghost of a show of getting the presidential nomination, and the senatorship is ever so much better than nothing.

Adding this to the receipts of 1890 (6,874,694 tons) we have 6,944,064 tons as the aggregate amount of ore sold for delivery at Lake Erie ports during the present season, as against 5,411,412 tons sold for such delivery in 1889. The corresponding sales for 1888 were 4,663,350. The total lake shipments from Lake Superior for 1890 were 8,145,580 tons, of which 6,874,694 tons were sent to Lake Erie ports, leaving 1,271,186 tons as the amount shipped to Chicago and other northwestern points, as against 1,388,378, tons in 1889.
A man who has practiced medicine for 40 years ought to know salt from sugar; read what he says:
Toledo, O., Jan. 10, 1887.
Messrs. F. J. Cheney & Co.—Gentlemen—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with such confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of catarrh that it would not cure, if they would take it according to directions.
Yours Truly,
L. L. GORSUCH, M. D.
Office, 215 Summit St.

We will give \$100 for any case of catarrh that can not be cured with Hall's Catarrh Cure. Taken internally.
F. J. CHENEY & CO., Props., Toledo, O.
Solely Sold by Druggists, Etc.
Are Your Children Sick?
If they are, we know how you will worry for we all children. Love their innocent ways, their childish prattle, even their mischievous pranks. Without them the world would be cheerless indeed. The more it pains us to see them suffer, the more thankful we ought to be that in Peruna a medicine has been discovered that will cure the ailments to which they are so generally subject, such as croup, colic, cholera infantum, dysentery, scarlet fever, whooping cough, diphtheria, or that dread and fatal catarrh of the throat. If you will send to the Peruna Medicine Co., Columbus, Ohio, you will receive free a copy of Dr. Hartman's "Kidney Pills," containing full directions for the use of Peruna in all the emergencies and also the most satisfactory testimonials to its efficacy. It also shows what Men-a-Lin, the unrivaled system regulator and remedy for constipation, can do. These family medicines, which no household can afford to be without, are sold every where—only \$1 a bottle. For sale by B. E. STAFFORD & SON.
They All Failed.
The following letter from Mr. W. A. Thompson, of Columbus, Wis., is particularly interesting: "My wife," says he, "has been treated for her head, stomach and nervous prostration by three doctors in New York, two in Chicago, one in Philadelphia, one in Cleveland, and at the large institute in Buffalo for six months. They all failed. But one bottle of Dr. Miles' Restorative Nervine helped her wonderfully." This should be used in all headaches, backaches, changes of life, nervous disturbances, dizziness, rheumatism, etc. Ask at B. E. Stafford & Son's drug store for a free trial bottle and Dr. Miles' new book on the Nerves and Heart.

EUPESY.
This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you good digestion and cast the demon Dyspepsia and it still instead Eupesy. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at \$1.00 per bottle by H. H. Stafford & Son's, druggists.

To the Public!
I would call the attention of the public to the fact that I have opened a Grocery and Provision Store opposite the post office, where I am ready to wait on all my old friends and as many new ones as I can secure, with a clean fresh stock at prices so low as to astonish you all. Bear in mind that the best and surest dividends is to pay as you go and buy cheap.
Yours Truly,
A. PROULX.

NEGAUNEE MENTION.

Dedicatory Services at the Scandinavian Church—More Finnish Knifing—Personal and Miscellaneous Notes.

Church Dedication.

The dedicatory exercises at the Scandinavian Lutheran church last evening were attended largely by members of other denominations. The handsome edifice was filled to the doors. The interior was tastefully decorated with colored banners and evergreens. The ceremonies opened shortly after 7 o'clock with a selection by the choir, after which Rev. Broden, the pastor, arose and spoke briefly on the success with which the ladies of the congregation had met in raising funds for the handsome improvements. He stated that the church is now of ample size to accommodate the rapidly increasing congregation for many years to come. Bishop Lund, of Ishpeming, was then introduced and delivered a sermon in Swedish. He was followed by Rev. Sovde, of Ishpeming, who, speaking in Norwegian, commended the people for the energetic faith and liberality by them shown in what had been done to render their church roomy and attractive. The choir then rendered two more selections with the assistance of the Swedish quartette from Ishpeming. Rev. Edlund, of Marquette, then briefly addressed the assemblage, and was followed by Rev. C. M. Brown with a few remarks in English. The ceremony of dedicating the new altar and 12 by 8 feet oil painting then took place, after which the painting was unveiled. It represents the scene of Christ arising from the tomb, with the angel holding up the stone and the guards about prostrated with fear and amazement. When the picture stood fully revealed the expressions of admiration and delight that were heard on every side must have caused the artist, Mr. Schrotky, who sat at the back, a glow of satisfaction. The exercises concluded with a musical selection, after which the audience dispersed to their homes their countenances expressive of thorough enjoyment of the dedicatory ceremonies and sermons.

More Finnish Fun.

Late Christmas night while officer Chouquette was patrolling his beat on Peck street his attention was attracted by cries proceeding from near the large Finnish boarding house at the corner of Pioneer avenue, known as Castle Garden. He quickly visited the scene and found a man lying in a pool of blood on the sidewalk. He was picked up and carried to the jail, where a knife blade was removed from a wound in his head in which it was sticking. When he regained consciousness the man complained of a pain in his side, and on examination a prong of a pitchfork about two inches long was found broken off close to the spine. He gave the names of his assailants and they were both brought before Justice Primeau yesterday morning. After a short hearing of the case they were both lodged in jail for further examination next Tuesday morning.

The entertainment given at the Finnish church at Palmer Christmas night is reported to have been the event of the season there. The entire population of the village turned out and crowded the new structure to the doors.

The funeral of G. N. Nord, who died from the effects of a fracture of the skull, was delayed until yesterday afternoon. The remains were escorted from the Scandinavian church to the cemetery by the Red Men society.

The Danish society gave a dance at Johnson's hall last evening which was well attended by Scandinavians of this place. The Stecker orchestra furnished music and refreshments were served by the ladies at the hall.

Appreciative citizens surprised Miss Kate Sullivan, who presides at the telephone switch board, with a purse of \$50 as a Christmas present.

The Methodists at Palmer have caught the spirit of church building, and have the framework for a church already up.

Miss Agusta Primeau came down from Lake Linden yesterday to spend the holidays with her people here.

Dr. C. Giguere has removed his office from Case street to the Davis building on Iron street.

Invitations are out for a party to be given by "The Boys" at McDonald's hall on next evening.

Prof. C. Kohn, of Ashland, is in town visiting C. A. Fohrman.

J. C. Dougherty left for Chicago yesterday.

Failures in Life.
People fail in many ways. In business, in morality, in religion, in happiness and in health. A weak heart is often an unexpected cause of failure in life. If the blood does not circulate properly in the lungs, there is shortness of breath, asthma, etc.; in the brain, dizziness, headache, etc.; in the stomach, wind, pain, indigestion, faint spells, etc.; in the liver, torpidity, congestion, etc. Pain in the left side, shoulder and stomach is caused by heart strain. For all these maladies Dr. Miles' New Cure for the heart and lungs is the best remedy. Sold, guaranteed and recommended by H. H. Stafford & Son, Trenton, N. J.

A STRANGE SYNDICATE.

An Odd Report About the Almond-Eyed Residents of This Place.

When we enter the modest establishments of the laundry kings of this city, and gaze in pity and wonder at their strange costumes, hen-tracked writing and queer decorations, this question naturally arises: "What becomes of their goods?" It certainly is not spent for clothes, furniture or food, and they have no large surplus in the savings banks. It has been suggested that rich and rare delicacies, as bird's-nest pudding or fricasseed rats' livers, absorb the riches of these knights of the soap-suds.

But no. It's the same old story—"English Syndicate"—so says report. Every time a clean collar is put on, clink goes a coin into the Bank of London. But however far-reaching a syndicate may be, there's one thing it can never monopolize—the aches and pains that are an untiring and bright light of the human race. There's one way, however, in which they can be controlled, and fortunate is the man or woman who knows what means to pursue when the head aches, the muscles are weak, and the weary brain utters its protest against over-work and over-worry. That means is Paine's Celery Compound, a pure, pleasant and potent food for the brain, nerves and blood.

People of the highest social standing, eminent members of the learned professions, and successful business men strongly endorse this scientific preparation, not from hearsay evidence, but from personal knowledge of its remarkable curative power.

It is no ordinary sarsaparilla, bitters, tonic or stimulant, but contains true food properties for starving nerves, exhausted brain, and weakened systems.

MILES' NERVE & LIVER PILLS.
Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequaled for men, women and children. Smallest, mildest, sweetest. 50 doses, 25 cents. Samples free at H. H. Stafford & Son.

MILWAUKEE MAN'S SCHEME.

J. L. Cherry of That City Secures Valuable Contract for Building Railroad Into Colombia.

GOVERNMENT GUARANTEES INTEREST ON THE COST OF THE LINE.

Panama Canal Bubble About to Be Blown. Lieutenant Wyse Secures a New Concession for Big Ditch.

YANKIES IN SOUTH AMERICA.

ASPINWALL, Dec. 26.—The government of the United States of Colombia has signed a contract with Mr. J. L. Cherry, of Milwaukee, Wis., for the completion of the Cauca Valley railway from Buenaventura, the chief Pacific port of Colombia, to the cities of Cali and Manizales, with the privilege of continuing the road to the gulf of Darien on the north, and the frontier of Ecuador on the south and eastward to the navigable waters of the Amazon river. The government guarantees interest of five per cent in gold for eighteen years upon an expenditure of \$38,000 gold per mile, the exclusive privilege for seventy years of operating a railway within twenty-four miles on either side of the route surveyed and accepted, the title to all gold and other mines that may be discovered within the twenty-four mile limit, and freedom from all duties and taxes for ten years.

The congress of Colombia has renewed the concession for the construction of the Panama canal to Lieutenant Wyse, the agent of the company which has been engaged at Bogota for more than a year trying to secure this privilege. The company is allowed two years from the first of January next to re-organize and resume operations, is required to pay for the lands on the Isthmus which, under the original concession, were granted them without cost, also the expense of sustaining whatever military or police guard may be found necessary to protect the works and maintain peace among the line of the canal, is to pay the government of Colombia a bonus of ten million francs and give it first preferred stock in the company to the amount of five million francs.

BUENOS AYRES, Dec. 26.—Following is a summary of the commerce of the Argentine Republic for the year ending June 30th last. Notwithstanding the revolution the imports amounted to \$179,959,000 and the exports to \$159,627,000. The wheat crop for the year has been enormous and will probably be the largest ever grown in this country. During the year 289,000 immigrants landed at this port of which number 109,000 had their passage paid by the government. The population of Buenos Ayres increased between thirty and forty thousand during the year, 126 new streets being laid out and between eight and nine thousand new buildings being erected.

TALES OF FIRE AND WRECK.

Steamer and Crew of Sixty Lost off Coast of China.

LONDON, Dec. 26.—According to advices received here the steamship Shanghai recently caught fire at sea and is supposed to be a total loss with all her crew. The disaster is understood to have occurred off the coast of China about fifty miles from Nanking. The crew, consisting of about sixty natives, together with several European officers, are supposed to have met their death either in the flames or subsequently by drowning while attempting to escape from the burning vessel.

LUMBER FIRM IN TROUBLE.

H. T. Leech & Co. of Detroit File Chattel Mortgage.

DETROIT, Dec. 26.—A stringent money market has caused the temporary embarrassment of H. T. Leech & Co., lumber dealers, who occupy extensive yards south of Michigan avenue between Eighteenth and Twentieth streets. Yesterday they filed two chattel mortgages to secure indebtedness aggregating \$39,000 and represented by fifteen promissory notes about to become due. The mortgages cover all the stock, material and machinery connected with the firm's lumber yards. The creditors do not appear to fear an approaching assignment, one stating that the firm's affairs are in excellent condition and that their assets are greatly in excess of indebtedness secured by the mortgages.

THREE WEEKS' WORK.

Clark Thread Mills Partially Reopen—Strike and Lockout Still On.

NEWARK, N. J., Dec. 26.—Notice has been posted on the gate of the Clark thread mills that work will be resumed in the twisting mill on Monday. This will give temporary work to about one thousand girls for two or three weeks until the supply of cotton on hand gives out. This does not affect the condition of the striking spinners or the locked-out corders or framers. The girls will probably accept the work. Generous contributions are pouring in for the striking employees.

PROTECTING THE CHRISTIANS.

Russian Expose For Barbarities against Jewish Citizens.

ST. PETERSBURG, Dec. 26.—The Jews everywhere are throwing their property on the market in obedience to the decree, already prepared, and to be promulgated about January 1st, prohibiting Jews from owning real estate. In Odessa a Jewish syndicate has been organized to facilitate the emigration of Russian Jews to England. The czar has emphasized his disapproval of gratuitous foreign advice in the affairs of his empire by ordering the discharge and expulsion from the country of 11,000 alien workmen heretofore employed by the government. Most of them are Germans, many English and

some of Italian and other European nationalities. Privy Councilor Stoianovskii has made a semi-official communication to one of the leading foreign residents of St. Petersburg in relation to the new anti-semitic legislation. It is in substance that the restrictive treatment of the Jews is made necessary by the course pursued by that people in absorbing by usury and over-reaching the money and means of the poorer classes of Russians, and that the proposed law prohibiting Jews from owning landed estates is intended to prevent them from acquiring by trickery and oppression the property of orthodox Russians, of which a vast amount is already in semitic hands; that nothing is done which is not strictly requisite for the protection of the christian subjects of the czar, and that Russia is only leading in a course that England and Europe generally will be compelled to pursue, unless all property is to be allowed to fall into the hands of the Hebrews. It is understood that the czar himself will take no notice of the remonstrance from citizens of London against the persecution of the Jews.

BLOWN INTO ETERNITY.

Arkansas Saw Mill Boiler Explodes With Frightful Effects.

Superintendent John Angus Killed and Engineer Wiley Sloan Vanishes Into Space—Two Others Fatally Injured.

DEADLY SAW MILL BOILER.

NEWPORT, Ark., Dec. 26.—By the explosion of a boiler in Kelly & Wells' lumber mills on Black river, forty miles from here, two persons were killed and a number were wounded. Engineer Wiley Sloan and John Angus, the superintendent, were standing in front of the boiler when the explosion took place. Angus was blown against a lumber heap, breaking his limbs and tearing away a portion of his skull. No traces of the body of Sloan, the engineer, can be found.

A large section of the boiler was shot through the iron roof, then through the deck of the steamer Golden Gate, anchored near by, and then across the river 100 yards wide. Maud West was frightfully scalded and William Durgens had both legs broken in several places and was badly scalded. Four others were injured but not dangerously.

SAGE & CO.'S THIEVING EMPLOYEES.

Partner in Crime of Suicide Arrested at Albany, N. Y.

ALBANY, N. Y., Dec. 26.—Daniel W. Talcott, head bookkeeper in the employ of H. W. Sage & Co., lumber dealers, was arrested this evening on a charge of embezzlement and sent to jail. Bail was fixed at \$5,000. The exact amount of his thefts is not yet known, but it is believed it will run high up into the thousands. After Sage & Co.'s confidential clerk, Joseph B. Abbott, who killed himself on December 3rd, had been caught stealing from the firm, an expert was employed to examine the books and thus Talcott's dishonesty was discovered. It appears that Talcott and Abbott worked in collusion. Their operations were facilitated by the fact that the firm that the firm trusted both implicitly and left blank checks, signed in the bookkeeper's hands for business purposes. These he filled out and cashed and the money he pocketed and charged to some fictitious expenditure. Talcott is elderly and had always been thought to be the soul of honor.

DUN'S TRADE REVIEW.

Situation Is Improving—Financial Monkeying by Congress Greatest Danger.

NEW YORK, Dec. 26.—R. G. Dun & Co.'s weekly review of trade says: "Business has progressed as well as could be expected in a week broken by the Christmas holiday and a great snow storm. The holiday trade was remarkably heavy here and at nearly all other points was good, which is by no means evidence that the tightness of the money market springs from any general embarrassment of business or industry. The volume of payments through banks continues large though but about 3 per cent larger than a year ago. Railroad earnings thus far reported for December also show a gain of about 4 per cent over those of the same weeks last year. Foreign trade is very heavy in spite of causes which were expected to insure a material decrease. The uncertainty in regard to monetary legislation and its possible effects is still the great obstacle but even this has less disturbing influence than it had a week or two ago. The prospect of unwise action seems more remote and the money markets have generally grown easier during the past week, not only at the east but also at some of the western and southern centers. Reports from other cities disclose no important change in the condition of trade. At Pittsburgh Bessemer iron has sold at \$16.25. Reports from the south also indicate some improvement. While the situation of the iron and steel industry shows no improvement the fact that the closing weeks of the year are passing without any serious set-back gives encouragement. There is anxiety as to the demand which may appear with the New Year since it is generally perceived that many works must remain idle for a time unless there is a decided increase in consumption. But for most finished products the consumption is even now so great that in any previous year it would have been considered eminently satisfactory. The exception is the steel rail business, in which a crisis and destructive competition seem imminent, a provisional agreement made during the past week in this city having been frustrated by refusal of an eastern mill to sign. The business failures during the last seven days throughout the country number 333, as compared with a total of 494 last week. For the corresponding week of last year the figures were 288."

Followed His Brother's Example.

MOUNT HOLLY, N. J., Dec. 26.—Gen. Charles S. Taylor, a well-known citizen of this place, committed suicide by drowning in the creek at the identical point where his brother drowned himself a few years ago. The deceased was unmarried and about 57 years of age.

South Carolina's Chief Justice Dead.

COLUMBIA, S. C., Dec. 26.—W. D. Simpson, chief justice of the supreme court of South Carolina, died at his home in this city this morning of heart disease. The flags are half-mast on the public buildings.

James Gillilan, widely known in the northwest as "the Indian doctor," died at Kirkwood, Ill., yesterday.

DIED WITH HER CHILDREN.

Frightful Early Morning Tragedy in Rochester Resulting in Fiery Death to Four Persons.

MRS. DIETRICH TRIES TO SAVE HER BABIES AND DIES WITH THEM.

Her Husband and Elder Son Get Out of the Burning Building in Safety—Fire's Origin Unknown.

A MOTHER'S VAIN DEVOTION.

ROCHESTER, N. Y., Dec. 26.—A terrible conflagration occurred this morning about 5 o'clock, whereby a woman and three children lost their lives. The victims were Mrs. John Dietrich, of 7 Orchard street and her three children, Libbie, aged 6 years, Jacob, aged 3 years and Louisa, aged 11 months.

How the fire originated is a mystery. Mrs. Dietrich had arisen at 4 o'clock to start a fire in the kitchen stove and awakened her husband soon after with an alarm of fire. She rushed in to save her three little children and perished in the flames. Her husband and one son escaped.

The department soon arrived and succeeded in saving the house from utter ruin but came too late to save Mrs. Dietrich's life or the lives of the three young children. When the firemen succeeded in quenching the flames they found in the bedroom where the mother had slept the body of the unfortunate woman lying across the bed with her feet on the floor. Beside her lay the three little children. The bodies of all four were burned to a crisp.

CHICAGO MARKETS.

CHICAGO, Dec. 26.—The leading wheat futures ranged as follows:

	Open- ing.	High est.	Low est.	Clos- ing.
No. 2 Dec.	89 3/4	89 3/4	88 3/4	89

ISHPEMING EVENTS.

Working Up Attendance for the Ski Tournament—More Lucky Mine Employees—Miners' Union Growing—Installation Exercises—Estate Probated.

Gone to St. Paul.
Judge Nels Clifton will leave for St. Paul this evening. The object of his trip is to advertise the ski tournament to be held in Ishpeming next month, and to induce the experts of Minnesota to enter for the big prizes that will be offered. As the amount of money to be given to the winners is larger than has been offered in prizes at any tournament of the kind ever before held in this country, and as Mr. Clifton has a very large acquaintance among the Scandinavian population of the northwest, his trip cannot result otherwise than successfully.

Christmas Observance.
A brief mention was made yesterday of the Christmas gifts presented to the mining captains of the Cleveland Iron Mining company by Superintendent Mills on Christmas eve. Captains Collick, Reed and Wills were given checks for \$500 each, and Sheriff, Bosses John Crossman, William Wivell, Joseph Martin, William White, Zachary Carkeek, William Tyack and John Peters were presented with checks for \$300 each.

None of the recipients had the slightest inkling of the plot to temporarily upset their mental balance, and all were as surprised as men could possibly have been. As all of the captains and bosses were in receipt of the usual salaries the gift was entirely unexpected. The Christmas remembrances, given, as they were, spontaneously and of the company's own accord, are an earnest of the appreciation felt by the company and by Superintendent Frank Mills for the skilled and conscientious work that has been done in the mine for the past year. The MINING JOURNAL congratulates the gentlemen on their good fortune and the company on having in the responsible positions they hold men who merit such evidence of appreciation.

Miners' Union.
The membership of the Ishpeming miners' union is rapidly increasing. Owing to the unfortunate differences that arose at the first meeting, the union did not start out with as large a membership as was expected, but the ground that was then lost has been much more than made up in the past few weeks. A good union, well officered, will be a benefit to the miners of the city, and the MINING JOURNAL has no reason to think that the officials of the union here are otherwise than competent and trustworthy.

Annual Installation.
The annual installation of the officers elect of Ishpeming Lodge No. 113, A. O. U. W., will be held at the hall, on Cleveland avenue, on the night of January 1st. In addition to the usual installation ceremonies there will be speaking by a number of members of the order, and a program has been arranged that will interest every workman who attends. Members of the lodge and visiting members of the order are cordially invited to be present at the installation ceremonies.

Probated the Estate.
The will of the late John Laughlin, who died in this city some two months ago, was admitted to probate at Marquette yesterday morning. The estate is valued at \$10,000, and may amount to more than that. The bequests are to relatives—principally in Ishpeming.

Thanks the Donor.
The Rev. A. E. Cook wishes to thank the unknown but kind friend who left a plump turkey at the parsonage door the night before Christmas, and desires to assure him that the fowl assisted materially to make the day a pleasant one for himself and family. Mr. Cook will officiate at Iron Mountain tomorrow, and therefore there will be no services in the A. O. U. W. Hall on Sunday.

A Kicker Heard From.
To THE MINING JOURNAL—As a member of Dea Norden Ski, I wish to protest against the manner in which the recent election of officers was conducted. Men were elected to important offices who know as much about skiing as a native African knows about Canadian snow shoes, and further than this, several men were honored with offices who were not legal members of the club, they having failed to pay their dues of a year ago. I wish to publicly protest against such action, and to state that if the leading spirits of the club wish it to remain alive they have taken a very poor way to retain what vitality remains in the club. With officers who cannot stand on skis, and others who will not contribute to the support of the club, and the payment of necessary expenses, it cannot be expected to flourish very long.

A MEMBER IN GOOD STANDING, Ishpeming, Dec. 26, 1890.

ISHPEMING IN BRIEF.

Thos. Pearce, Jr., of Tower, Minn., is visiting his parents here.

Mr. Louis Smith, of Jefferson, Wis., is visiting friends here.

Mr. Jas. Tobin has been spending a short vacation with his parents here.

The justice offices were kept busy yesterday, disposing of the Christmas eve drunks and disorderlies.

There were plenty of amusements last night, and a sufficient variety to suit the taste of almost anyone.

The grip is making its calls again. Whiskey and quinine are the specific against its spread most generally and successfully used.

Miss Lizzie Shea, a dining room girl employed at the Nelson, was taken severe ill while at work in the dining room Christmas day. Medical attendance was had, and she is now much better, but not entirely out of danger.

THE NEW DISCOVERY.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold, or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded.

For Sale CHEAP.

A GOOD

Electrical Supplies.

Business buildings and private residences wired for all purposes. Burglar alarms, electric lights and annunciators put in. Mining electrical work attended to. Agent for Barr Cash and Fa-Sago Carrier. Simplest, cheapest and best made. 11-2611

THE OLD SOLDIER.

I salt on a side and watch the drill. The sword is bright with morning dew. I feel in my heart a surging thrill As the squadrons thunder "sonita Quadrupedante."

I think of the days long since gone by, How well I remember my boyhood home! His temper was bad; he'd kick sky high; But few I've had better, and many worse: Poor Rosinante!

And the note of our old chief's command In memory's ear still echoing sounds, His drills were held by the cornet's hand To stir the blood like a day with wounds; But the chief is dead.

Those cheery cornets, all comrades good, They did their duty as soldiers should, And the joy of life was sufficient gain To each reckless head.

The squadrons form and advance and wheel How I envy those boys, who ride in line! Each sunburned face looks as brave and bold As those of the musketeers thirty years ago In my days of gold.

But the trumpet cries, "Bide home at ease." Ah, though I am now but of small account, I can wish good luck to lads like these As I leave my stile. 'Twas steady mount For a soldier old. -London World.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, shraped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. MERRY REPUBLIC.

Its People Went in for Wholesale Enjoyment on Christmas Day.

REPUBLIC, Dec. 25.—The following is our high school report for December, 1890: Number belonging, 450; entire enrollment, 531; number of boys, 292; number of girls, 259; number of daily recitations, 125; average daily attendance, 433; per cent of attendance, 92; number of visitors, 60; number of pupils neither absent nor tardy, 134; total tardy, 120; number notices to parents of absence or tardiness, 19.

Just as our citizens were about to partake of their Christmas dinner at their respective homes, they were not a little startled by the clangor of the fire alarm. The fire laddies were promptly at their posts, but it proved to be a false alarm and their services were not required.

The M. E. church Sunday school held its annual Christmas exercises at the town Ladies' Xmas eve. The hall was crowded to its utmost capacity. The program, which consisted of recitations, dialogues, singing, etc., was well rendered in all its parts. Space will not permit the reporter to particularize. All did their best, and it was the universal verdict that this was one of the best entertainments of its kind ever given in Republic. Candles and oranges were distributed to each scholar, the Xmas trees were loaded with presents, which made many hearts happy. Mention must be made of the present to the pastor, Rev. R. L. Hewson, which consisted of a purse containing \$25, the young people of the church being the donors.

One of the largest and merriest gatherings of the season was held in the town hall Tuesday evening. The hall was crowded to its utmost capacity. The program of the program rendered included pieces by the different classes, with a fine choral Xmas selection, taken part in by the Ladies' Xmas eve. The hall was crowded to its utmost capacity. The program of the program rendered included pieces by the different classes, with a fine choral Xmas selection, taken part in by the Ladies' Xmas eve.

As a result of the cold snap, work on the new Catholic church, has been suspended, and the window openings are being boarded up. Nothing remains to be done but the plastering, for which winter weather is desirable. Next spring will probably see the church completed, and then our Catholic friends will have a suitable place of worship.

On Christmas eve, Mr. Thomas Tucker and Miss A. Johnson were united in marriage at the residence of the groom's parents, the Rev. R. L. Hewson officiating. A very pleasant evening was spent. The "Hearts of the Oak" band was present, and enjoyed the festivities by rendering a few appropriate airs.

The installation of the A. O. U. W. officers will take place next Friday evening. The reunion at the home of F. H. Kearney on Christmas day consisted of his father and mother, Mrs. E. E. Kearney, daughter of St. Paul, Mr. and Mrs. John Buchanan and child, Rio, Wis., and Arthur Kearney of Ironwood. In fact all the family were present with the exception of Mr. Kearney's oldest brother and family.

At the family gathering at Captain Pascoe's for Christmas dinner were Miss Bessie Pascoe, Milwaukee; Mrs. Peter Pascoe, Jr., Chicago; Pete Pascoe, Champion; Mr. and Mrs. Richard Pascoe, Ann Arbor, Mich.; Mrs. Fisher, Mr. and Mrs. Frank Pascoe, and a host of other grand children.

The Christmas reunion at the residence of J. O. St. Clair on Christmas day consisted of Mr. and Mrs. St. Clair and family, Julius St. Clair and family, and George St. Clair and family, of Ishpeming.

PERSONALS.

Jas. Miller and Sir Joseph Glode are visiting friends in Iron Mountain.

Mr. and Mrs. Dennis McCarthy, of Iron River, are visiting their parents here.

Mr. and Mrs. Jas. McCarthy are visiting friends in Houghton.

THE COPPER COUNTRY.

A Homestead Rumor—Finns Celebrate Christmas in High Old Style, Surgeons all Busy in Consequence—Calumet & Hecla Declares Another Dividend—County Treasurer-elect Married—Other Notes.

HANCOCK.

It is reported that a Finnish homesteader was killed and eaten by wolves on the Ontonagon road. He was maimed by an ax and was left lying on the roadside while his partner went to the Half Way house for a team to bring him in.

The remains of Mrs. Rogers, who died here of old age, were sent to Vermont on Friday morning for burial. Mrs. Rogers had resided here about six years; her sons, the Messrs. Rogers of the Franklin store, accompanied the remains east.

Deputy Postmaster Leary, of Red Jacket, spent Christmas with his parents here.

John Gallo, a Finnish wood-chopper, was found in the woods between Jolman's camp and Dollar Bay with both hands frozen. Mat Urni and Mat Roudo, two of his countrymen, hauled him to the camp on a hand sled, as he was so full of tangle-foot and so cold that he could not walk.

Messrs. Mort Gitchell and M. Carroll have leased the ice rink and will have it open for skating on New Year's day.

The ice on Portage lake is now strong enough to hold the heaviest teams. The snow storm which began Friday morning was most acceptable to the owners of horses.

Carriages had to be used on Christmas day.

RED JACKET.

Miss Julia Schneiderhahn left Friday noon for Boston where she will spend the winter visiting an uncle.

Mr. Miller, the new county treasurer, was married on Christmas morning at St. Joseph's church, Lake Linden, to Miss Pamela Dugnette. The newly married couple left on the noon train for Chicago.

The Calumet & Hecla company has declared another dividend of \$3 per share, payable on January 23, 1891. This makes \$88,800,000 that little copper mine has paid in dividends. By the way, the last issue of the Engineering and Mining Journal, in its list of dividend-paying mines, says the last dividend of the Calumet & Hecla was on May 5, 1890; it is about time to correct that old tale.

The Calumet Cornet Band will have the Army open on New Year's night for singing and dancing.

The Select Knights A. O. U. W. have their annual ball at the opera house on New Year's eve.

HOUGHTON.

August Lektomaki is in jail for carving a countryman at Ballmon's camp on Christmas day. August has several deep cuts on his forehead, which his victim inflicted on him, it is said, in self defense.

Harry Cullyford, of Duluth, spent several days with his parents last week; he has just returned from an extended trip through Europe.

County Clerk Primau has issued the following marriage licenses: Peter Carey and Elizabeth J. Pollard, both of Calumet; William F. Miller, of Red Jacket, and Miss Pamela Dugnette, of Lake Linden; John J. K. Ke and Miss Mary Willis, both of Calumet; John Verner and Miss Mary Rickard, both of Calumet.

There will be a meeting of the board of supervisors on Wednesday morning, December 31st.

LAKE LINDEN.

During the blizzard which prevailed Tuesday morning the tug M. S. school house on Gregory's dock, became so heavily covered with ice by the waves breaking over her, that she careened and sunk in about ten feet of water. Manager Brule, with a force of men, succeeded in raising her on Wednesday.

Mr. Allen McIntyre left for Duluth on Friday noon. He intends to be gone about two weeks.

CALUMET.

Mrs. Robert Crossen died Tuesday morning; her funeral was held Friday afternoon. Mr. Crossen is left with five little children to look after.

Supt. John Duncan went to Marquette Friday morning to attend a meeting of the branch prison board.

CALUMET.

The Sunday school festival at the school house on Christmas eve was in every respect a success. Every one present seemed to enjoy the entertainment. The Christmas tree was loaded with gifts for young and old. There were even dolls for men and women and one prominent gentleman received a baby's hat as a present by a thoughtless youth, who, on account of his childish antics, had a similar article sent him by mail a short time ago and mistaking the said gentleman for the offender there sought to retaliate. There was the usual Christmas service at the French church on Thursday and also at the Congregational church.

"Repentance" is the subject of the sermon by Pastor Myrie at the school house on Sunday night. The discourse will be illustrated from the lives of the "Holy Fathers."

NOTICE—Headquarters for fine furniture of latest design at S. Olson's, Red Jacket. Furniture delivered to any town in copper country. Many years experience in the undertaking business. Very reasonable charges; first class work only.

NEW CITY DRUG STORE—C. J. Sorenson & Co. have opened up in Ruppess new block. Front street, Red Jacket, with a complete stock of fresh drugs and patent medicines pure chemicals, full line of Druggist sundries, choice cigars, and confectionary, a special attention given to compounding physicians.

Washing Clothes

or cleaning house

with ordinary soap is like rolling a heavy stone up hill; it takes main strength and a good deal of it.

The same work done with Pearline is like rolling the stone down hill—it's easy;

quick; true; goes right to the mark; and with very little labor. All dirt must go before PEARLINE. It robs woman's hardest work of its drudgery—(a praiseworthy theft, by the way). The question is—does it or does it not hurt the hands, clothes or paint?

We tell you it don't—but we are interested (as well as you)—so ask your friends who use it; you'll find most of them do; the annual consumption is equal to about three packages a year for every family in the land. But better yet—get a package (it costs but a few pennies, and every grocer keeps it), and try it for yourself—your gain will be larger than ours.

Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE—they are not, and besides are dangerous.

JAMES PYLE, New York

THE REASON WHY

The "HAAS" BEER is having an increased consumption every year is, that the

HAAS BREWING COMPANY,

OF HOUGHTON MICH.

Pioneers in the business, use ONLY the FINEST QUALITY OF MALT and HOP

brewed with skill, by men of long experience, and last, but most IMPORTANT of all, is the fact that they use only

The Celebrated Huron Spring Water

in making their beer. This water has been analyzed by noted chemists and pronounced strictly pure, possessing

HEALTH-GIVING PROPERTIES AND MEDICINAL VIRTUES.

The absence of sickness among the residents of Houghton who use the Huron Spring water, proof of our statement.

MARQUETTE GAS WORKS.

New Superintendent Remodels the Plant and Company Announces Cheaper Gas.

MANAGER SULLIVAN NEARLY READY FOR INDOOR BASE BALL SEASON.

First Goods for American Biscuit & Manufacturing Co.—The Big Whistle Arrives. The Prize Winners.

Cheap Gas and Good Gas.

Nearly two years ago the Marquette Gas company abandoned the old style of coal gas apparatus and put in at considerable expense a complete water gas plant, using the Springer cupola process which is superseding all other gas making processes all over the United States. By no fault of the plant or process, simply because a competent superintendent could not be secured, the quality of the gas became poorer and poorer until the company decided that something must be done at once and proceeded to do it by securing Mr. C. R. Miller, of Chicago, as the superintendent of the works and through remodeling them, although the change from the coal gas process to the new virtually meant at the time it was made the building of an entirely new gas plant, only the holder and mains remaining undisturbed.

Mr. Miller has had sixteen years experience in the business, having been for the last four years a constructing engineer for the National Gas Light & Fuel Co., of Chicago, and before that having been engaged for twelve years in the erection and management of coal gas works. He understands his business thoroughly and since assuming the management of these works has thoroughly overhauled them. He found that the cupolas and pipes were choked with lamp black and tar, making it impossible to get the quality of gas which should be secured by this process. The secret of water gas making is keeping the cupola at the right heat. The steam is forced up through a white-hot bed of anthracite coal which decomposes it, forming carbon-monoxide and hydrogen or fuel gas. This passing up into the chamber above meets the vapors of the hydrocarbon, petroleum, which has been projected against the superheated brick work by a steam injector. If the heat is too great lamp black is formed, if too low, tar, but if it is just right, a rich, permanent gas is the result. The details of the process were fully described in these columns at the time that it was first introduced in the works here.

The changes made this fall have resulted in an entire remodeling of the interior of the works; the old coal gas apparatus has been entirely removed, the interior walls torn out, the floors raised to a level and the generating room is now twice the former size, well lighted and convenient. A new cupola, having a capacity of 100,000 cubic feet of gas every twenty-four hours, has been put in, and the 80,000-foot cupola put in at first has been rebuilt and enlarged to the same capacity as the new one, giving the works a total capacity of 200,000 cubic feet daily. A fine 10 h. p. horizontal blowing engine has been put in, duplicating the upright Sturdevant, and in the spring another 20 horse-power boiler will be added to the plant, making it a double plant throughout, or rather two plants of 100,000 feet capacity each, either or both being operated at will. In this way the company guards its patrons against any possibility of inconvenience through breakage of the machinery. Mr. Miller declares that Marquette now has as fine a gas plant as can be found in any city of the size in the United States.

It was quite an undertaking to remodel the plant at this season of the year but it has been done and a great change has been noted by all in the quality of the gas. It will hereafter be tested carefully at the works each day to detect the presence of sulphur or ammonia and every care will be taken to furnish gas which will give perfect satisfaction for both illuminating and heating purposes. Mr. Miller will be pleased to meet consumers and will give personal attention to all matters brought to his notice which require remedying. He is anxious to have consumers feel that they are getting a good service and will spare no pains to that end. A telephone will soon be placed in the works and he can be reached either by phone or by word left at the company's office in the Marquette County Savings bank, Manhard block.

Now that the changes are completed and the works are running smoothly under competent management the officers of the company are prepared to give their customers the benefit of lower rates. The following schedule will go into force January 1st and by it Marquette will have the cheapest gas of any city of the size in the country: Rate per thousand cubic feet, \$1.70, less the following discounts if paid before the 15th of the month, bills being sent out on the first of the month preceding—On 1,000 feet or less, 20 cents; on 2,000 feet, 30 cents per M.; on 3,000 feet, 40 cents per M.; on 5,000 feet, 50 cents per M.; on 10,000 feet, 70 cents per M., giving the consumer of 10,000 feet his gas at the rate of \$1 per thousand. The majority of the company's patrons come in the fourth class, using between five and ten thousand feet per month, and will get their gas for \$1.20 per thousand. It is to be understood that these discounts will only be allowed when the bill is paid before the 15th inst.

Indoor Base Ball.

Great interest has already been aroused here in indoor base ball and every afternoon now the cranks hie themselves to the Casino to enjoy the sport, although it is all in the nature of practice as yet. Christmas afternoon a five-inning game was played and in it there were three shut-outs so it will be seen that even with the 16-inch ball the player has no picnic. In fact one of the crack players of the Marquette

league team was struck out three times in succession the other day by another popular member of the team. If you had said last summer that he couldn't hit a 16-inch ball there would have been a riot on the grounds immediately.

Manager Butler, of Ishpeming, was down Christmas day to be initiated into the new sport and caught on at once. Monday Manager Sullivan and a number of the Marquette players will go to Ishpeming to introduce the new game and a flurry of fun is anticipated. There will be a practice game at the Casino to-night from 7 to 8 o'clock and it will be free to all. Be on hand and see what the new sport is like. Elsewhere appears Manager Sullivan's announcing the opening of the season.

Goods Arriving.

The first carload of goods for the American Biscuit & Manufacturing company was unloaded yesterday and Manager Brown expects two more cars today, while his horse and delivery wagons and sleighs will also arrive from Chicago today. Invoices of other car loads have been received and the goods themselves will soon be here, in the lot being a full carload of confectionery. Groceries men all through the county have already been heard from and are rejoiced at the prospect of being able to order their goods hereafter easily and without loss of time. The new departure will be appreciated all over the peninsula.

The Tooter Here.

The new chime whistle to be placed on the water works pumping station for fire alarm purposes has arrived. It is the largest whistle on the upper peninsula and warranted to knock out both of the government fog whistles at one yawn. It stands five feet high and has two bells, each ten inches in diameter. The upper bell, or cylinder, is 24 inches long and the lower one 12 inches. Steam will be furnished through a two-inch pipe. The whistle cost \$100 at the works where it was made and White, Packard & Co., through whom it was ordered, furnish it to the city at that price. The fireman who doesn't hear it when it goes into commission must sleep with cotton in his ears.

The Prize Winners.

The elegant music box at Thompson & Russell's bazaar was won by Miss Lydia Martin, of No. 532 West Washington street, daughter of Mr. Mathew Martin, of the Marquette City band. The little lady held the lucky number, 1,413, and as soon as she had called and presented the ticket the music box was sent out to her home with the firm's compliments.

As yet ticket 1,984, which drew the gold watch at Vannier & Bigelow's, has not been heard from. The ticket which drew the plush toilet case, 1,074, was held by Mr. Blackbird, of the Rolling Mill meat market. Look up your tickets and see if you haven't won a watch.

The Breakwater Light.

W. W. Bingham, the third street plumber and contractor, has just finished putting in an independent gas plant for the government at the breakwater light. The air pump for the plant is placed in the lantern room of the new iron tower and is of the usual pattern, operated by a heavy weight and forcing the air into the iron reservoir in the breakwater beneath where it is enriched by high gravity naphtha. The weight is geared so that when once wound it will operate the machine for thirty days. The jet is the ordinary argand burner used in house lighting and the advantage found in the use of gas is that in stormy weather it is left burning, lighting the beacon all right even if the keeper were unable for a week to get out to the breakwater tower because of the heavy seas which often sweep across it and would endanger his life.

Mr. Bingham has placed a 1,000 light plant of the same pattern in the Michigan Mining school at Houghton this year and is now putting a similar plant in Mr. A. Manthe's new residence on North Third street; he is also doing the plumbing in this house and is putting in the Boynton system of hot water heating.

The Marquette County Savings Bank.

The attention of depositors in the Marquette County Savings bank is called to the published report of its condition appearing in this morning's MINING JOURNAL. Although but four and one-half months old, the bank now has over four hundred customers on its books and a deposit line of one hundred and six thousand dollars. In two and a half months the bank has gained \$35,000 in deposits, the last report appearing in October with \$71,000 in deposits, and this in the face of an exceedingly tight money market. The record is not to be beaten.

Do not miss Grabower's muff sale, for you can make a handsome present with one of those muffs which Grabower sells so cheap. 12-22-24

Ludington's famous oysters only three days from Baltimore at 12-22-1w D. MURRAY'S.

Don't forget Gordon's D. F. cigars when you want a good smoke.

I offer a delicious and fragrant coffee roasted expressly for the Christmas trade. 12-22-1w D. MURRAY.

Don't Be Hoodwinked.

Chicago or Detroit cannot sell goods cheaper than Grabower sells them. Stop and reason. Grabower buys his goods in New York from first hands, manufacturers and importers, and looks after his own business affairs. Chicago or Detroit have to buy their goods in the same place (New York). They send a buyer who receives a big salary and pay the same freight as Grabower pays on his goods. Do you believe they can sell cheaper! When you stop to reason you will find you are money and a great deal of unpleasantness ahead by buying at Grabower's, the leading dry goods and carpet store of Marquette. 12-22-1f

"TIDDLEY WINKS."
A game of skill. There is probably no game being more played at the present moment than this new and exceedingly interesting game. It is suitable for two, four or six players and is especially adapted to progressive parties. It is ahead of anything else of the kind ever invented. It is a game suitable to the young and old. Sent postpaid on receipt of 25 cents silver or stamps. Headquarters for all kinds of indoor games, fancy goods, yarns, silks etc. State agents for Brigg's Transfer Patterns.
GEO. L. FOX, 230 Woodward ave., Detroit, Mich.
