PRICE FIVE CENTS.

"WELL-BRED" STATIONERY.

"The good breeding and good taste of a lady—much abused word—are subtly yet conspicuously shown in the stationery she uses."

It may seem strange to speak of stationery as "well-bred" but we take the liberty to employ the phrase as a compact one to designate the kind of writing materials used by well bred people in their correspondence.

We have just received a full line of Hard & Pike's correct styles in paper and envelopes. The prices vary but it is all "well-bred."

H. H. Stafford, Son & Co.

DO YOU WANT ANY SILVER PLATED WARE?

We are selling out this line at 25 per cent off our low prices as we shall not handle it any longer. Now is your chance to get Silverware cheap.

NORRIE MINE VICTIMS.

Not All of the Bodies Extricated Yet From the Fallen Debris.

THREE DECK HANDS PINCHED BY A TOW LINE.

Dickinson County Democrats Put Up Their Ticket—Disastrous Fire at Seney Last Evening.

IRONWOOD'S DAYS OF SORROW.

IRONWOOD, Oct. 3.—The rescuers who are searching for the bodies of the miners entombed in the Norrie mine last Thursday have uncovered parts of three men. The head and face of Frank Densham, brother of Samuel Densham, whose body was recovered Saturday night, has been in sight of the rescuers since midnight. The body lies under heavy timbers and the greatest efforts have failed to extricate it. The hands and legs of two other are in view but as the heads are buried in the debris they cannot yet be identified. Only four of the bodies have been recovered so far.

Michael Downs' interment took place this morning. The funeral of Trammers Matt Matson and John Hermansen took place at 3 o'clock yesterday afternoon. The services were held at the Danish Lutheran church and were conducted by the Rev. Mr. Elheims. In the procession, which was a long one, were many of the mine officials.

The funeral services over the remains of Miner Samuel Densham were held at 4 o'clock at the Methodist church, the Rev. John Evans preaching a touching sermon. The Norrie band, Assistant Superintendent Trebilcock and 300 miners of English descent, together with the mining captains and firemen, marching five abreast, preceded the hearse.

CAUGHT BY THE TOW LINE.

Three Deck Hands of the Steamer Germanic Badly Hurt.

SAULT STE. MARIE, Oct. 3.—Three men tending the tow line of the steamer Germanic were badly injured this afternoon by the line fouling with the steamer's propeller wheel. The tow line wound up with force sufficient to carry away the tow chock and several stanchions, at the same time catching the three men between the tow post and the rail. The Marine Hospital surgeon is of the opinion none are fatally hurt though one is at present unconscious.

DICKINSON DEMOCRATS.

They Met Yesterday and Nominated a County Ticket.

IRON MOUNTAIN, Oct. 3.—The democratic county convention was held here today and the following ticket was nominated: Sheriff, P. O'Connell; prosecuting attorney, Dan Cameron; treasurer, Ed. Freeman; county clerk, L. A. Voligny; register of deeds, C. Gaudio; circuit court commissioner, W. H. Hurley; surveyor, F. A. Janeson; coroner, D. Bergeron.

FIVE BUILDINGS BURNED.

Seney Visited by a Disastrous Fire Last Evening.

SENEY, Oct. 3.—Fire broke out in the kitchen of Grandin's Hotel, opposite the South Shore railway station, about 8 o'clock this evening. The flames spread rapidly through the structure and in the absence of efficient fire protection destroyed that and four other frame buildings in a short time. Grandin's hotel and saloon, four other saloons, a grocery store and a barber shop were burned. The total loss is about \$10,000 with small insurance. The fire is supposed to have originated from a defective flue.

HEAVY DAMAGES SECURED.

But Which Railroad Must Pay Is Not Yet Settled.

MONROE, Mich., Oct. 3.—The suit of John H. Conway against the Lake Shore & Michigan Southern and the Flint & Pere Marquette railroads for damages as a result of the collision between two trains of the companies in a tunnel near Toledo last November has resulted in a verdict for the plaintiff in the sum of \$21,588. Suits to the amount of \$300,000 are pending against the companies. Each road claims that the other is liable and that will also have to be settled in court.

COOLEY OUT OF POLITICS.

Will Neither Admit Nor Deny Rumored Change of Faith.

ANN ARBOR, Mich., Oct. 3.—Judge Cooley was seen this afternoon regarding the statement of the New York Times that he would shortly write a letter bolting the republican party and acknowledging allegiance to the principles of the democratic party and its candidates. Mr. Cooley would only say that the statement was unauthorized, adding that he was in too poor health to enter actively into politics. He would neither deny nor affirm the rumor.

OPENING MORE LANDS.

Twelve Thousand Acres Set Aside for Railroad Restored.

WASHINGTON, Oct. 3.—In the matter of the adjustment of the grant under the acts of June 3, 1856, and March 3, 1865, to aid in the construction of the railroad from Little Bay de Noquet to Marquette in the state of Michigan,

Secretary Noble has instructed the commissioner of the general land office to direct the publication of notice preliminary to the opening of the settlement of the 12,720 acres found to have been erroneously platted to the state for the purpose named. The secretary further directs that the lands be opened to entry at the earliest day possible.

NEW YORK GERRYMANDER.

Court of Appeals Will Hear Arguments On It Today.

ALBANY, Oct. 3.—When the court of appeals convened this morning all the counsel interested in the three cases testing the constitutionality of the apportionment law were present. This being motion day the court was unusually crowded with other lawyers. William A. Sutherland of Rochester, who appears for the republicans in the Monroe case, asked the court to advance the cases to the head of the calendar to be heard. The court accordingly set the case for argument at 10 o'clock tomorrow morning.

With all the publicity that has been given to these cases it is not generally known that the whole fight is made upon just one point—whether or not the legislature has any discretion in the matter of apportionment. Under the law twenty-five counties were given one representative each. Ninety-three members were left to be divided among nine-fifty counties in proportion to population and one assemblyman to 45,000 people was fixed upon as the proper ratio. On this division ninety members were distributed. There then remained eleven counties with fractions of the required 45,000 among which to distribute the three remaining assemblymen. The six counties having the largest remainders were Albany, Chautauque, Monroe, New York, Rensselaer and St. Lawrence, each of which had about half of the required number. Albany, New York and Rensselaer counties were the lucky ones, each receiving an additional number.

ALLEGED TRAITORS BAILED.

Four of the Homestead Strikers Released Pending Trial.

PITTSBURGH, Oct. 3.—Four of the Homestead strikers charged with treason furnished the required \$10,000 bail each this morning and were released. The men released were John Dierken, George Rylands, Daniel Lynch and W. H. Gatches. David Lynch, another of strikers who has been diligently sought for a month on charges of murder, riot, conspiracy and treason, was arrested this morning and lodged in jail. He will be given a hearing tomorrow. The search for the remaining twenty-eight Homesteaders who are accused of treason continues but no others have been captured and the police are inclined to think they have left this part of the country. Friends of the accused, however, say they will surrender when their lawyers so advise and proffers of bail are said to be plentiful from Pittsburgh.

WILL MEET IN BRUSSELS.

International Monetary Conference Will Open November 22.

WASHINGTON, Oct. 3.—Secretary of State Foster sent today by cable notification to the European governments, which have already signified a willingness to be represented at the international monetary conference, that it has been arranged to have the conference meet in Brussels November 22 next, the Belgian government having signified its readiness to have the same hold its sessions in its capital and the leading powers having approved the selection. The governments which have accepted the invitation of the United States to send delegates to the monetary conference are as follows: Austria-Hungary, Belgium, Denmark, France, Germany, Great Britain, Greece, Italy, Netherlands, Portugal, Roumania, Russia, Serbia, Spain, Sweden and Norway and Switzerland. The delegates from the United States already designated by the president are as follows: Senators Allison and Jones, Congressman McCreary of Kentucky, Henry W. Cannon of New York, F. A. Walker of Massachusetts. In addition to these it is expected that Mr. Terrell, minister at Brussels, will be made a delegate.

POPULISTS ARE CONFIDENT.

Politics in Kansas Grow More and More Muddled.

TOPEKA, Kas., Oct. 3.—J. W. Briedenthal, chairman of the people's party central committee, arrived in town last night. The populist executive is inclined to laugh at his arrest for violating the state banking laws and has an air of easy confidence when speaking about the campaign that may come from ignorance of what republicans are doing or from a better knowledge of the fusion strength than any one else possesses. The populist central committee will at once begin to close the lines and shape its vote regardless of what the democrats may do. The democratic central committee will be left to manage the recalcitrants and Briedenthal will occupy himself with looking out for the people's party votes.

QUARRELLED OVER PROPERTY.

Wisconsin Farmer Wounds His Wife and Attempts Suicide.

WAUPACA, Wis., Oct. 3.—Emil Kruger, a farmer of Lebanon, 12 miles north of this city, shot his wife with a double-barrelled shot gun on Sunday, the charge taking effect in her right shoulder. He then attempted to shoot himself but failed. It is feared she will die. Difficulty over property matters was the cause.

FREE FIGHT IN A CHURCH

German Lutherans of Detroit Get Into a Bitter Row Over an Organist.

GROESBECK AND STEINITZ PUT UP THEIR DUKES

Then the Whole Congregation Takes a Hand in the Scrap With Right Good Will

VERY MILITANT CHRISTIANS.

DETROIT, Oct. 3.—Trouble which has been brewing for the past six months in the German Lutheran church here resulted in a regular knock-down and drag-out fight at the close of services yesterday. Herman Groesbeck and William Steinitz are the leaders of the two factions which disagree regarding the organist. A daughter of Steinitz held the position until a few months ago, when the other side gathered sufficient strength to depose her.

After the regular service yesterday a meeting was held to choose a successor. Both sides were present in large numbers and before any action had been taken the respective partisans got into a lively jangle and Steinitz and Groesbeck were soon engaged in a regular fist fight right under the pulpit. Before they could be separated half those present were using their fists and when the quarrel was finally ended many had black eyes, bleeding noses and torn clothes. The matter is still unsettled and more trouble is expected.

TO TRY PROFESSOR BRIGGS.

Public Will Be Admitted to the Great Heresy Trial.

NEW YORK, Oct. 3.—The famous case of Prof. Charles A. Briggs of Union Theological seminary, which has been agitating the entire Presbyterian church for a year and a half, was brought up again this morning at the regular meeting of the New York presbytery which convened in the Scotch Presbyterian church. The general assembly which met in Portland, Ore., last May refused to accept the presbytery's dismissal of the charges against Professor Briggs and ordered the presbytery to proceed with the trial. The presbytery dismissed the charges of heresy against Professor Briggs last fall on the ground that the charges and specifications were insufficient in form and legal effect.

At this afternoon's session of the presbytery the judgment of the general assembly in the appeal, of the Briggs case was read and Dr. Birch for the committee on prosecution announced that they were ready to go ahead with the trial. Dr. Thompson said that he was not in favor of delaying the matter but a number of the members of the presbytery were absent. He moved that the presbytery take up the case in the audience room of the Scotch Presbyterian church November 9 and continue each afternoon, excepting Saturday and Sunday, until completed. Dr. Hall raised the question as to whether the hearing should be public. He favored having closed doors and wanted all reports given the press formulated in the session and sent out. Dr. Briggs replied that he favored open doors. It was decided that the public should be admitted but that if they made any demonstrations like they had previously done the gallery would be closed.

CLEVELAND WILL NOT PAY.

Other Ball Clubs Must Meet Their Own Deficits.

CLEVELAND, Oct. 3.—President F. H. Robinson of the Cleveland Base Ball club today left for New York to attend the special meeting of the league magnates called by President Young. When asked what he thought the outcome of the meeting would be, Mr. Robinson said: "I am sure I have no idea. It is probably Mr. Young's intention to try to have the league stand the indebtedness of the clubs that are in the hole. I fail to see how that can be done, however, as I understand all the clubs have lost money except the Cleveland club and their is no telling how we will stand at the close of the season."

CAPTAIN KILLED BY CREW.

Adams of the Arthur Stone Murdered by His Men.

BENICIA, Calif., Oct. 3.—Captain Adams of the British ship Arthur Stone was seriously injured this morning by a number of the crew who came on board the vessel after carousing on shore all night and then began fighting among themselves. Captain Adams and the first mate endeavored to separate them and were attacked. The captain was fatally kicked and beaten. The mate's injuries are slight. There had been more or less trouble on the ships for months as the crew disliked the captain, who had refused to let them leave the ship or pay them off.

TENNYSON'S HEALTH POOR.

He Has Recovered Somewhat From His Recent Attack.

LONDON, Oct. 3.—Hallam Tennyson, son of Lord Tennyson, says the condition of his father is causing considerable anxiety. He was seriously ill on Friday, Saturday and Sunday but today he rallied somewhat. His illness is due to a complication of influenza and gout. A dispatch from Haslemere at 9:52 p. m. says Lord Tennyson is slightly better. He takes nourishment well.

MARQUETTE, MICH., OCTOBER 4.

Entered as mailmatter of the second class in the postoffice at Marquette, Mich.

AND to think that it was done by a court having a majority of the justices composing it democrat! That's what hurts. No wonder the Wisconsin democrats are mad all through.

We have not yet heard from Mr. Finn in response to the acceptance of his challenge by Senator Stevens of Ironwood.

DURING September the government's purchases of silver through public offerings amounted to 4,303,000 ounces this being 297,000 ounces less than the full quota.

A WORTHY INSTITUTION. Under the above heading, the Superior Telegram has this handsome mention of the State Mining School at Houghton.

Does Mr. Nester believe that a protective tariff is a good thing for the laborers of the country? Does he believe in common with the leaders of his party that the duties on raw materials should be wiped out?

Mr. Finn as a "Dodger." HANCOCK, Oct. 3, 1892. TO THE EDITOR:—On Saturday evening of last week the "Hon." J. Maurice Finn, democratic nominee for congress from the 13th district, addressed a meeting of copper country voters at St. Patrick's Hall at this place.

Those Rebate Clauses. TO THE EDITOR:—Allow me a few words by way of reply to the article in this morning's Mining Journal entitled "The Tariff on Ore."

The fact that dealers in oil in the state of Michigan have to pay the fees of the inspectors is no reason for making the charge that such inspectors is "undoubtedly selected" by the oil merchant.

The simple truth that must be apparent to all persons of average intelligence is that by Sections 24 and 25 of free raw material for the manufacture of articles to be transported, and that

they are not to be disposed of in this country. In addition to the civil remedy heavy penalties are provided for in case of an evasion or of any attempt to evade the payment of the duty by unlawfully removing the product of impure or other places designated by the customs officers without payment of the duty.

One would suppose from a reading of Mr. Nester's article that that gentleman imagines he has discovered something new in the McKinley law. He refers to these rebates or draw-back clauses as pernicious, etc., etc.

The act of August 5, 1861, provided that "There shall be allowed on all articles wholly manufactured of materials imported on which duties have been paid when exported, a draw-back equal in amount to the duty paid on such materials, to be ascertained under such regulations as shall be prescribed by the secretary of the treasury."

The Mills' bill also had its rebate clauses, the general features of which, so far as related to the bonding of imported goods, etc., were similar to the provisions of the McKinley law.

Does Mr. Nester believe that a protective tariff is a good thing for the laborers of the country? Does he believe in common with the leaders of his party that the duties on raw materials should be wiped out?

During a great display of the northern lights the wife of a Rockland sea captain was determined that he should see it, though he cared but little about it.

"Don't see anything especially wonderful about them," said he as he crawled back to bed. "Have seen 'em finer than that a thousand times."

"Wild Beasts" Stories in the Country. Country people are as eager to accept any rumor of a strange and dangerous creature in the woods as they are to believe in a ghost story.

"WORTH A GUINEA A BOX." BEECHAM'S PILLS TASTELESS-EFFECTUAL FOR A DISORDERED LIVER

TUTT'S TINY PILLS. To cure constipation purging the bowels, to remove unhealthy accumulations of matter from the liver, to cure indigestion, to give strength and vigor.

SUDDEN DEATHS. Heart disease is by far the most frequent cause of sudden death, which in three out of four cases is unsuspected.

THE AMERICAN PEOPLE are rapidly becoming a race of nervous wrecks, and the following suggests the best remedy: Alphonso Hempling, of Butler, Pa., swears that when his son was speechless from St. Vitus dance Dr. Miles' great restorative nerve cure cured him.

THE AMERICAN PEOPLE are rapidly becoming a race of nervous wrecks, and the following suggests the best remedy: Alphonso Hempling, of Butler, Pa., swears that when his son was speechless from St. Vitus dance Dr. Miles' great restorative nerve cure cured him.

what articles the democrats intend to levy this tax. He did say they were going to equalize the duty so the "classes" would have to bear the brunt of it.

He might, while he is at it, also explain how he arrives at the conclusion that a man pays \$1 for 40 cents worth of goods, in other words, 60 cents tariff and 40 cents for the material he purchases.

A Pretty Story of a Clever French Critic and His Two Friends. Many old and amusing stories are old of the clever French critic, Jules Janin, and his friends.

It was perhaps in memory of her that he made a protegee of a poor old woman whom he noticed one day in the street.

"I want to go and call on M. Janin, I must see him once more before I die." One of the women of the institution went with her.

He received her with great cordiality and affection, and the three had a happy breakfast. The two men devoted themselves to entertaining her.

"We will return your visit soon," they said, and placing themselves on either side of her they began to descend the stairs.

Just then Satayes appeared on the scene. "We must carry her down," he said. So they placed her comfortably in an armchair.

Several governments—notably those of England, Germany and the United States—have now become interested in the question, and it is altogether likely that within a few months the manufacture of banana meal will be an established industry in various parts of the world.

NEGAUNEE MATTERS.

Residents at Buffalo Location Want City Water Service Extended to That Point.

Lightning Did Up His Outhouse—Railway Men Ordered to Other Posts. "Si Plunkard" and His "Hayseeds" Tonight.

Alderman Matthews and Jackson, in company with Superintendent Harrington, made a little excursion down to the Buffalo mine location yesterday for the purpose of considering the advisability of extending the city water main to that place. The people residing at the Buffalo mine think they are entitled to the privileges of the water service as well as those nearer the city, and accordingly they drew up a petition which will in all probability come before the common council at its regular meeting next Thursday evening asking that the water main be extended to that location. The extension will involve the putting in of over a mile of piping at least four inches in diameter.

The heavy storm of Sunday morning did more damage than was at first supposed. J. L. McClear, of the firm of McClear & Bell, came down town yesterday morning and reported that an out-building on his premises had been struck by lightning and almost demolished. He says that while lying in bed at his residence on Upper Case street about 8 o'clock Sunday morning he heard a sort of a sizzling noise and then a loud report very near at hand. He arose at once and on going out into the yard he found that the lightning had paid him a visit, entering the building near the corner tearing out the side and generally demolishing it, splinters of the wood being scattered in every direction. Further than this trifling damage his property escaped without injury.

A quartette of popular young railroad men, who have spent the past summer on duty in the C. & N. W. railway yards at this place, left for their former stations yesterday morning by order of the superintendent. Engineer J. B. Murphy returns to Baraboo, Wis., fireman Lawrence Grove to Clinton, Iowa, and engineer McCarthy and fireman Tuhey go back to Chicago. They were transferred from Negaunee on account of the laying off of two night switch engines as a result of the decrease of ore shipments usual at this season of the year.

"Si Plunkard" will arrive in town this morning and about noon will lead his famous "Hayseed Band" up Iron street. His former band is composed of excellent musicians and their leader, "Si" himself, is a whistler of great renown. This great aggregation of "hayseed" talent will appear at McDonald's Opera house tonight. Don't fail to see them. Reserved seats are now on sale at Lage & Moll's drug store on Iron street.

Michael Charleaux and Miss Albertina Mena, both of Negaunee, were married at St. Paul's Catholic church at 8 o'clock yesterday morning, the ceremony being performed by the pastor, Rev. Father Langner. The ceremony took place during a solemn nuptial high mass and was witnessed by a large assemblage of the friends of the contracting parties. The happy couple will continue to make Negaunee their home.

The gold-tipped pole on the Kirkwood building was put in position yesterday morning and the work on the building is now being rushed to the limit. It is confidently expected that the building will be entirely completed and ready for occupancy by the 10th of November. The defective arch has been replaced with a more substantial one and the work on the block is now progressing satisfactorily.

Landlord A. C. Seass of the Breitung house celebrated his 45th birthday yesterday and was the recipient of many handsome tokens of esteem from his numerous friends, chief among the list of presents being a mount card finely embroidered in gold and silver thread, the gift of his grateful borders.

The funeral of Mrs. Griggs, who died at her residence last Saturday evening of typhoid fever, took place yesterday afternoon. Impressive funeral services were held by Father Langner at the Catholic church. Mrs. Griggs succumbed to the disease after a sickness of about a month's duration.

Typhoid fever has been very well kept under so far this season, comparatively few cases of it having developed in Negaunee, and these being of a rather mild type. Dr. Hudson has but nine cases on his hands and the other physicians report a proportionately small number of cases.

The work of Street Commissioner Stewart is approaching completion for this year. Very little work now remains on the city thoroughfares and inside of a few weeks he will have completed his year's labor.

A trio of Italian musicians manufactured enough melody yesterday out of "Maggie Murphy's Home" and "Marguerite" to last Negaunee for several years.

Alex Heyn of the Palace store has returned from a ten days' trip to Chicago, where he bought a large winter stock of dry goods.

Johnson, the tomb-stone man from Green Bay, is making his quarterly visit to Negaunee, looking up business in this locality.

Senator Stevens of Ironwood was in the city yesterday, spending most of his time in company with C. G. Griffey, P. M.

Miss Maggie Hanley left yesterday for Chicago where she intends to make her home.

Abram Boulson has returned from a few days' trip through the copper country.

Chamberlain's Eye and Skin Ointment.

A certain cure for Chronic Sore Eyes, Tetter, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Prairie Scratches, Sore Nipples and Piles. It is cooling and soothing. Hundreds of cases have been cured by it after all other treatment had failed. It is put up in 25 and 50 cent boxes.

For sale by H. H. Stafford, Son & Co.

Going to Capture a Live Whale.

Captain Amos Chapman, of Boston, but formerly of Provincetown, has arrived on the cape and is shipping a crew of old experienced whalers for a new and novel voyage—to capture a live sperm whale, to be taken to the World's fair at Chicago.

In an interview with the captain he states: "I do not intend to make known my mode of procedure, but I know I shall succeed if I can find my whale. My crew are all picked men, and every one of them has been engaged in the business and can be depended on. Whales are reported plenty in latitude 38 degs. 30 min., longitude 71 degs., by Captain Dunham, who has just returned with a full cargo of oil, and for that place I shall shape my course.

"I do not propose to take one of the largest. A fifty or sixty foot whale will answer my purpose. I have the plans all drawn for a large tank, in which the whale will be placed and towed by steamer up the St. Lawrence and thence through the lakes to Chicago. I have everything prepared to take the whale and bring him into port all right.

"All I want now is to get a suitable vessel. When that is obtained a few days will see me off for the grounds, and if I find the whale, I expect to be back by the last of September. I can keep my whale in the harbor here while my tank is building, and in the spring start for Chicago. Yes, I know it is quite an undertaking, but I also know that I have a dead sure thing."—New Bedford (Mass.) Mercury.

An Unappreciated Clown.

The popular clown, Anatole Durow, is lodged for the present, to the great sorrow of his Parisian admirers, in a Prussian house of detention. He was to have performed on Tuesday in a Paris circus, with his educated pigs and rats. The artist and his quadrupeds owe their great popularity in Paris to their Russian birth. But the justice of Prussia out of hatred to Russia and France is hindering the Parisian folk from the enjoyment of their anticipated delights. A week ago Durow was on his journey from St. Petersburg to Paris. There was a long delay on the Russian-German frontier, and the clown tried good humoredly to make the time pass as agreeably as possible for the first and second class passengers by giving an impromptu entertainment.

Unfortunately his jokes took the shape of such depreciatory attacks upon the German emperor that some of the audience fancied that he must have taken leave of his wits and forgotten that he was out of Russia and not yet in France. The Germans were indignant at his uncalculated insults to their ruler, which had probably been got up for the sympathetic Paris stage. When Durow stepped out of the train at the Friedrichstrasse station in Berlin, he was courteously informed by the police that he would have to accompany them to the Moabit prison on a charge of "majestats beleidigung."—Pall Mall Gazette.

A Burglar Keeps a Safe.

On Monday the burglar who broke into Colonel Arthur Paget's house, in Belgrave square, a few nights ago, was charged at the Westminster police court and committed for trial at the Old Bailey. It appeared in evidence that this prisoner, named Thurgar, alias Knot, has struck out a new line in the business of cracksmen. Since August last, when he came out of prison, he has rented a safe at the Chancery Lane Safe deposit, in order no doubt to avoid any unpleasant association with receivers of stolen goods. When searched by the police the safe was found empty, yet no doubt, but for the accident of Colonel Paget's appearance at the moment when Thurgar was taking Mrs. Paget's jewels, it would now contain plenty of articles of value.

There is something very amusing in the picture of the apparently respectable middle class gentleman who rents a safe and is constantly depositing in it heavy packages, but who is in reality a noted burglar. The writers of melodrama have never dared to draw so impossible a picture as this; and yet, after all, they might with perfect propriety have brought the millionaire and Bill Sykes together in the corridor of the Safe deposit.—London Spectator.

It Was a Trout.

W. Z. Jackson, of Norway, had an amusing experience in fishing the other day. When passing a bridge he saw a couple of boys who said they were trying to get a sucker to bite a hook baited with pork. Jackson saw that the sucker was a brook trout, which, as he expressed it, "looked in the water almost as large as a horse." He took the fishing pole and tried his hand, but the trout would take no notice of any kind of bait. Finally he caught a yellow butterfly, and the trout took it immediately. The fish weighed some four pounds after being caught, and dressed two pounds and fourteen ounces.—Bangor (Me.) Commercial.

Sweet, but Costly.

Stolen kisses may be sweet, but they are rather dear at the present market price at Valparaiso. Senor Talca, of that town, kissed a lady without asking permission while walking in the plaza. The lady appealed to the law and the gay Talca suffered imprisonment for sixty days. In an evil moment he also appealed, and was kept in jail 200 days while his appeal was being considered.

The latest mineral development in Arizona is a deposit of black onyx. It is as black as jet, exceedingly hard and takes a fine polish. The ledge is situated in the Grand canyon and is said to be very extensive.

A Missisippi man who brought suit against a railroad company for the value of the ticket which he bought but could not use won his case.

THE TRUTH OF IT.

Is There Any Limit to Human Endurance?

A REVELATION WHICH WILL Astonish Most People.

And Yet It Is In Reality of Every Day Occurrence.

The following communication is from one of our correspondents, Mrs. Carrie E. Martin, a lady well known and highly respected and who occupies a position of the highest social distinction in West Leyden, Mass. Her experience is of such a nature and its importance to many is so great and far-reaching, that we give it to our readers in her own words:

"Last summer I was all run down, had chills, no appetite, very little sleep nights and none days, faint spells, trembling feelings and was so weak I could hardly walk around the room. I continued to run down in health and strength until I reared under nervous prostration with its untold miseries.

"I sent for our town physician and he came a good many times. I soon had to give up work entirely, still his medicines did me no good. I tried to ride out one morning, but went only a few rods and had to come home. My husband then went to church, leaving me with the hired help and my children. Such a terrible day as I spent, tongue cannot describe. I could scarcely get from the couch to a chair!

"When my husband came in from church I told him I was worse and that I would die if I did not get help soon; that I would not take any more of the doctor's medicine but try Dr. Greene's Nervura blood and nerve remedy, if he thought best.

"He advised me to try it and I went immediately and got a bottle, which I began to take; up to this time we knew nothing of its value except as we had seen it advertised.

MRS. CARRIE E. MARTIN.

"In the course of two days our family physician came in and saying that he found me about the same finally told me that he had concluded to ask for counsel. He informed me that I might choose any doctor I preferred to meet him in consultation.

"I said to him, then you consider me pretty badly off?"

"He answered, 'I certainly do and shall not prescribe for you again until some other doctor sees you, as I do not know what to give you next.'

"I then said to him, 'perhaps you will be offended, but I have not taken any of your medicine for two days, but am taking Dr. Greene's Nervura blood and nerve remedy.'

"He answered, 'I am not offended; if it will help you I shall be very glad. You may continue its use a week and if no better, then we will have counsel.'

"But at the end of the week I was better. In two weeks I was a good deal better, no chills, no faint feelings, could eat some and sleep quite well. In three weeks I was around and about the house. In four weeks my hired girl left me and I went and doing my household alone, and have since continued to do so with seven in the family.

"Since that time our family physician has advised its use from time to time, saying that it would keep up my strength better. He has advised others to take it, telling them of the good it did me, and today I have reason, yes, great reason, to thank God for my recovery, and through the use of Dr. Greene's Nervura blood and nerve remedy. I am only too glad to testify to its merits. God bless Dr. Greene and his wonderful medicine."

This remarkable remedy is purely vegetable and harmless, and can be procured at any drug store for \$1 per bottle. Like the above able and excellent physician, all doctors of high standing recommend the sick to use it, for it cures. Doctors prescribe and recommend it because it is not a patent medicine but a physician's prescription, the discovery of the eminent specialist, Dr. Greene, of 35 W. 14 street, New York, who is so wonderfully successful in curing all forms of nervous and chronic diseases, and who can be consulted free, personally or by letter.—EDITOR.

A CURE FOR CHOLERA.

There is no use of any suffering with the cholera when Chamberlain's Colic Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know.—W. H. Clinton, Helmetta, N. J. The epidemic at Helmetta was at first believed to be cholera, but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This Remedy was used there with great success. For sale by H. H. Stafford Son & Co. Druggists.

A REMEDY FOR THE GRIPPE COUGH.

A remedy recommended for patients afflicted with the grippe is Kemp's Balsam, which is especially adapted to diseases of the throat and lungs. Do not wait for the first symptoms of the disease, but get a bottle and keep it on hand for use the moment it is needed. If neglected the grippe has a tendency to bring on pneumonia. All druggists sell the Balsam.

TOO MUCH OF A RISK.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by H. H. Stafford Son & Co. Druggists.

Representative Souvenir * * Spoon

Of the Iron interests of Michigan. This stamp marks the point of the first discovery of iron ore in Michigan at the Jackson mine. Negaunee, in 1844.

Company G elects a captain to succeed L. H. Agnew tomorrow night. Chocolate real estate is picking up again. Astre sold two lots there yesterday.

Officer Deasy pulled a couple of chicken thieves on his beat in South Marquette last night, one of them having his pockets full of feathered plunder.

Cards are out for the marriage of Mr. Henry Jacobson and Miss Christine Erickson on Saturday evening, October 8th, at 8 o'clock at No. 339 West Bluff street.

Morse Hoke company desires to re-engage and to Gus Werner, the well-known photographer, for other refreshments.

Supt. Blanchard has let the contract for 200 cords of wood for the county house to W. L. Wetmore, his figures being 14 cents a cord under the lowest of the other bids.

No. 1 ear was derailed on the Front street hill yesterday afternoon through pieces of rock being scattered on the rails by the gang at work on the streets. It took several hours to get her on the track again.

Mrs. La Rochelle has returned from Chicago, bringing with her the new trimmer for Mr. La Rochelle's millinery store, Miss Callender, recently with D. B. Fisk & Co., milliners, Chicago. The date for their fall opening will be announced later.

The terrible electrical storm Sunday morning burned out over 125 telephones in this city and despite the hard work of the telephone company's force as soon as the damage was discovered there was still great confusion in business circles yesterday when the stores opened and subscribers began to want to use their "phones."

PERSONAL MENTION. S. L. Jaques, of Ironwood, is a Marquette visitor. George Collins was down from L'Anse yesterday.

Mrs. Cowden and daughter, Helen, arrived home from the east on Saturday. P. F. Frei left yesterday for Wausau, Wis., to bring home his wife and family, who have been visiting there.

Neil Clune, who has been making a three weeks' visit at his old home, is preparing to go west for the winter. W. W. Osband has resigned his position in M. E. Asire's office to take another situation which has offered itself.

Miss Carrie Russell gave a farewell party to a few of her friends last evening. She will leave this week for Michigan to be gone all the winter. W. M. Connable, who is up from Grand Marais with the Clara Belle, left last evening on his return but had to come back because of the heavy seas.

A Record in Lemon Eating. Ate 920 lemons in sixty days. This is the accomplishment of a resident of the west end, who is now lying flat on his back as a result. The feat was done by George Unverzagt, who lives on Liberty street. He contracted a bad case of rheumatism. He went to a number of doctors and asked their aid in pulling him through his bothersome ailment. He was prescribed for many times, but all the drugs that he could conveniently pile into himself seemed to effect no change in his condition. He was advised by friends to try various treatments unknown to the doctors, but which had accomplished some wonderful cures. For a long time Unverzagt carried two raw potatoes in either pants pocket, but found his disease only getting worse. Warm baths were also recommended to him, and he took them continuously until somebody informed him that he had been seriously mistaken and that cold baths were quite the thing for rheumatism, so the victim took cold baths, which in a short time almost caused ossification, so he stopped this so-called remedy.

Faults in Summer Hotel Life. An optimist by nature I have always clung to the idea that the flings at summer hotel life have been in large measure an unkind and untrue attempt to be facetious on the part of the world being cynical. I give in. I do it with regret, but after a tour of some of the leading hotels at the "resorts" the resulting panorama is one part recreation to nine parts jealousy and all the evils that fight under that flag. "Willy nilly," a feminine friend had told me, "a woman at a summer hotel must fall in at dress parade to escape being the cynosure of all sorts of critical and disapproving glances and comments. Once she does it she is lost to the real virtues of country or shore or mountain life. White kid shoes don't go with tramps, nor corsets with mountain clambering, nor fine frocks with relaxation of any sort, while being thrown into contact, intimate or distant, with all sorts of people is harassing, say what you will."

I thought of it the other day when at one of the leading hotels I saw an otherwise normal young woman bent over a piece of "fancy" work, in the face and eyes of a glorious beach, and got up in a rig that showed off a 19-inch waist measure and ended in white silk stockings and white shoes of undressed kid. A few steps away a group of older women were playing whist and wondering who the new arrival was, and as I departed I overheard a woman of full forty, to be polite, arrayed in virgin white from head to foot, showing up her sallow complexion under the glare of sunlight in great shape, asking the clerk, "Ain't my son gut back from bathin yet?" and saying to her companion: "My Lord, Jew ever see such a dull place? I declare I dunno's I want to stay here all summer. They say that 'ver at th' time."—Boston Globe.

Signs of Vacation Time. All signs indicate that this is vacation time. The huge piles of trunks at many of the Boston depots, where a bare, narrow passageway is left for those who are rushing to take the trains; the seductive wiles of the trainboy, who carries fans and all manner of light reading, in addition to his usual supply of newspapers; the closed shutters for many blocks along the fashionable streets in town, and the languid air of the dealers who supply the costly luxuries to the richer citizens; the array of outing goods and bathing suits in the windows of many stores; the multitudes of little yachts that seem to have sprung up in a single night to dot the many little harbors along the New England coast; the appearance of ice cream and soda water signs on the outside of the country stores; all these and other reliable phenomena of the season show that vacation time is with us, and the weary toiler in the city office recognizes them with a sigh if he is not so fortunate as to have a prospect of a vacation of his own in the near future. In almost every nook and corner of New England the summer resident has already appeared and has made himself at home. It would almost seem that the very cows must know that the next few weeks are the property of the "vacationist."—Boston Advertiser.

The Sinking of Mr. Vanderbilt's Yacht. The sinking of the steam yacht Alva by the steamer H. F. Dimock on Nantucket shoals was one of those disasters which are bound to occur occasionally where vessels lie at anchor in a fairway as narrow and thickly navigated as the one in which the Alva lay. The steaming company to which the H. F. Dimock belongs employs the best navigators between this port and Boston. Often they make the trip from the head of Long Island sound to Boston light in a dense fog without seeing a single point of land or light, running on time and by the sound of lighthouse whistles and lightship bells.

The eye and ear of a Long Island sound, Nantucket Shoals and Boston pilot are educated to see the slightest object and hear the least noise at the greatest possible distance. Unless an adverse wind prevented those on the Dimock from hearing the Alva's bell, we incline to the belief that it was not struck at short intervals enough, and if the captain of the Dimock says he did not hear any bell, those interested can depend upon it that he states the fact, as he is employed to avoid collisions under any and all circumstances.—Marine Journal.

A Consumptive Cautious. One of the latest inventions for preventing the spread of consumption is a small pocket spittoon made out of cardboard. They are about the size of an ordinary cigar case and of the same general shape. They can readily be carried in the pocket, and being made of disinfected paper they are perfectly clean and healthy to carry about. One can spit into them very readily without disgusting those around. When full this novel spittoon is intended to be burned so that the stuff cannot be thrown aside to poison the air.

Consumptives who are compelled to spit often can carry these pocket spittoons around with them at all times. By sliding them out from the inside coat pocket one could expectorate in them without being seen. They are also recommended for others than consumptives who have the habit of spitting continually.—Yankee Blade.

How He Got It. Abraham—Goot Heffens, Iky! How you got dot complexion? You gant afor an ouding on four tellars a week! Iky (sotto voce)—Don't gif it away, my friend! I sit me on de roof a half an hour at lunch dime ebery day and two hours on Sundays. Der sun does der rest. And I haf as fine an ouding complexion as der boss, and his gott him more as a hundred tellars.—Pittsburg Bulletin.

Good for the Flintlock. Foxes are numerous at Exeter, R. I. A local hunter recently shot one with an old Revolutionary flintlock.—Boston Herald.

MARQUETTE OPERA HOUSE. W. A. Ross, Lessee and Manager. GOSH! I'M COMING SURE! ONE NIGHT ONLY, Wednesday, Oct. 5. Many Imitators but no Successors.

Farmer J. C. Lewis, Supported by the Brilliant Little Actress, JEANETTE LEWIS, And a select company of 20-TALENTED COMEDIANS-20 In the Laughable Yankee Comedy.

A NOTABLE ACQUISITION.

Ishpeming's Hustler, John Jones, Secures Control of the Walton Coal and Wood Yards.

RED MEN'S LODGE MEMORIAL SERVICES SUNDAY.

Some Sizable Fish—Railway Wreck Up the South Shore Line Yesterday. Republicans on the Qui Vive.

A LARGE DEAL.

At 11 o'clock a. m. yesterday a deal between John Jones and E. R. Hall, administrator of the late Wm. Walton's estate, was closed, by which Mr. Jones became the owner of the Walton coal and wood business, which was just starting at the time of Mr. Walton's death. The deal was a large one, as it involved the large cargo of coal now at Marquette awaiting orders for shipment, the wood yard, with sawing machine and other fixtures, a dwelling house situated at the wood yard, and all fixtures connected with the coal yard and business.

Mr. Jones will use the new yards in connection with his old ones and intends conducting both branches of the business on a much larger scale than ever before. The new yards are very conveniently situated and well equipped for the business. The dwelling house situated at the wood yard is intended for a watchman's residence, so that the property may be guarded at all times. Mr. Jones will stock up the new yards as soon as possible and will employ a force that will enable him to care for his huge trade with the least possible delay in filling orders.

Fish Gossip.

To F. P. Tilson belongs the distinction of catching the largest fish that an Ishpemingite has landed to date. Messrs. Tilson, Randall and Fay spent Saturday at a small lake about thirty miles south of Munising and the luck they had in catching bass and pickerel was astonishing. Tilson pulled in a pickerel weighing fifteen pounds with a twelve-ounce bamboo pole. After the monster took hold of the hook Mr. Tilson played it about the lake for thirty minutes before he got it into the boat. The fish, together with several other large ones, was brought to town and was on exhibition for a while yesterday morning at the South Shore depot.

A six-pound trout came through the pump at Lake Angeline yesterday morning and was captured by Mr. Howell. This is the first trout yet caught or seen since the work of dumping out the lake was started. The fish was taken to the Nelson house and was served for supper last evening. Previous to this a number of suckers had been caught at Lake Angeline. It is thought that more trout will be found within the next few days as the water in the lake diminishes.

Freight Train Wrecked.

A wreck occurred on the South Shore road yesterday morning at Beaufort Junction, two miles west of Michigamme, which was the cause of delaying the east-bound passenger trains due here at 12:45 and 3:40 p. m. about two hours. The train that met with the mishap was freight train No. 52. The wrecking train, with Supt. D. M. Philbin, passed through here at 12:30 yesterday on the way from Marquette to the scene of the wreck. A brakeman had his back slightly injured in the accident, he being the only person hurt.

The Rally.

The republican rally held at the City Opera house last evening, at which Messrs. Enander and Gjertsen were the principal speakers, drew out a large attendance, mainly of Scandinavian voters, as the addresses made in the Swedish language. Tonight Messrs. Gjertsen and Barnum will occupy the platform at the City Opera house, speaking in English in support of republican principles and candidates. Another republican meeting will be held tomorrow evening at the same place. The speakers who will address this meeting will be announced in tomorrow's paper.

Will All Attend.

A special meeting of Fritz Reuter lodge, No. 111, of Ishpeming, was held on Sunday evening last, when it was decided that the lodge will attend the Herman Sons' dance, to be held at Ne-gaunee on Wednesday evening of next week, October 13th, in a body. Tickets for the ball are \$1 each and can be procured in Ishpeming at Tilson's, Kirkwood's, Myers & McGuire's, Jadedeck Bros., Al. Smith's, Voelker Bros., J. B. Tibor's and J. J. Voelker's. The music for the ball will be furnished by Stecker's orchestra and the supper will be served at the Breitung House.

The Memorial Services.

Gitchie Gumme Tribe, No. 12, Improved Order of Red Men, of Ishpeming, held memorial services on Sunday afternoon to which there was a large turnout. Several members of the Ne-gaunee lodge were present and took part in the parade and the decoration of the graves of deceased members at the Ishpeming cemetery. The procession was headed by the Star Cornet band. It started from the wigwag of the lodge for the cemetery shortly before 2

o'clock. When the lodge members returned from the cemetery they assembled in their hall, where they were addressed by Mr. Phil Trezise, whose discourse dwelt mainly on the objects and advancement of the lodge. Mr. Henry Hosking delivered the memorial address, which was very impressive and heartily appreciated.

Resolutions of Respect.

WHEREAS, It has pleased the Great Creator of the universe to remove from our midst our late brother and comrade, Wm. Walton, and

WHEREAS, It is our desire as a lodge and a legion to show the respect and esteem cherished for him, therefore be it

Resolved, That while we bow with humble submission to the will of the Most High, we do not the less mourn the loss of our worthy brother and comrade.

Resolved, That in the death of our brother and comrade, Wm. Walton, Ishpeming Lodge No. 113, A. O. U. W., and Superior Legion No. 4, S. R. C., A. O. U. W., have lost a most worthy brother and comrade and an active member, the community an upright and worthy citizen and his family a kind husband and father.

Resolved, That we deem it our solemn duty to extend to his family our heartfelt sympathy in the hour of their bereavement. And be it further

Resolved, That the charters and altars of the lodge and legion be draped in mourning for the space of thirty days; that these resolutions be entered upon the records of Ishpeming Lodge No. 113 and of Superior Legion No. 4; that a copy of them be sent to the Michigan Herald, Peninsula Record, Iron Ore and DAILY MINING JOURNAL for publication, and that one copy be printed and sent to the family of our deceased brother and comrade.

Resolved, That the charters and altars of the lodge and legion be draped in mourning for the space of thirty days; that these resolutions be entered upon the records of Ishpeming Lodge No. 113 and of Superior Legion No. 4; that a copy of them be sent to the Michigan Herald, Peninsula Record, Iron Ore and DAILY MINING JOURNAL for publication, and that one copy be printed and sent to the family of our deceased brother and comrade.

W. M. T. COLE, Committee for Ishpeming Lodge No. 113, A. O. U. W.
H. M. J. A. DECKE, Ishpeming Lodge No. 113, A. O. U. W.
JOHN D. WEST, Com. for Superior Legion, No. 4.
J. C. H. PELTIER.

ISHPEMING IN BRIEF

M. Woollock is home from Escanaba enjoying a week's vacation.

P. Cronin is having his place of business re-papered and painted.

Dr. Carpenter, of Stambaugh, has been in Ishpeming the past few days.

A number of Ishpeming business men left town yesterday morning for the woods in pursuit of venison.

T. Grabowsky's millinery opening commences today, and will be continued tomorrow and Wednesday.

The Cleveland company is about to erect a new "dry" house at the Lake shaft. It will be 100 feet long by 29 feet wide.

E. E. Grip & Co. are placing a new iron fence around the Ridge street property. The work was begun on Saturday.

It was Ole Engren, Magnus Hult's bartender, who had his leg broken Sunday, instead of Mr. Hult as was first reported.

T. H. Dawson got home from his purchasing trip on Sunday. He was accompanied by his daughter Grace, who has been visiting for some weeks past at Clinton, Iowa.

All the pumps, rails, tram cars, tools, etc., in the East New York mine are being brought to the surface preparatory to the sale of the property, which takes place on the 25th inst.

By the way, are you getting in your stock of fuel for the winter? F. W. Read & Co. are selling dry kindling wood (split) delivered for \$3.50 per load. Try a load. It is "great stuff."

Whistling "Si Plunkard" and his talented company will appear Thursday evening at the City Opera house and will also give a street parade at noon. Reserved seats for the performance can be secured at Tilson's drug store.

Mr. Potter, who purchased F. T. Donahoe's stock of general merchandise, has been disposing of the same at a sacrifice sale the past few weeks, has shipped what was left of it to Hurley, Wis., where he will dispose of it in a similar manner.

Col. E. G. St. Clair, of the Fifth Reg't. U. S. K. of P., has announced the following appointments: Regimental adjutant, J. L. Bohn, of Ishpeming; quartermaster, Sir Knight Thompson, of Manistique; surgeon, Dr. J. A. McLeod, of Ironwood; chaplain, Rev. P. T. Rowe, of Sault Ste. Marie; sergeant, E. Homeier, of Marquette.

A Special Invitation

Is extended to the ladies of Ishpeming and vicinity to attend our fall opening of millinery on Tuesday, Wednesday and Thursday, October 4, 5 and 6, at which time we will display novelties in pattern hats and bonnets which were copied from the latest Parisian styles.

Miss Sollday, who has just returned from her tour of inspection and whose ability as a designer and trimmer is well known, is again in charge of this department. This is a sure guarantee for the ladies that by placing their orders with her they will receive the latest designs in headwear.

Respectfully,
T. Grabowsky.

Grabowsky's millinery opening will take place next Tuesday. (9-29-34)

MILWAUKEE EXPOSITION.

For the Industrial Exposition to be held at Milwaukee, August 31st to October 15th, the Chicago, Milwaukee & St. Paul will sell regular excursion tickets as follows: On August 30th, and on all Tuesdays, Thursdays and Saturdays, during the continuance of the Exposition, at Fare and One-Third for the round trip. For September 12th to 17th, inclusive, at Fare One Way for the round trip. Return coupons good until the Monday following date of sale. (9-5-110-10)

COPPER MINE PRODUCTS.

September Outputs of Portage Lake Mines Make Pretty Good Showing.

FIGURES FROM QUINCY, ATLANTIC AND FRANKLIN.

Death Takes the Last of Napoleon Martin's Eight Children—Personal and Miscellaneous Notes.

All communications for copper country department intended for publication should be addressed to A. P. Isler, Houghton.

HOUGHTON. The product of the Atlantic mine for the month of September was 164 tons 1900 pounds. The decrease in last month's product is due to the mine having been shut down one week on account of the trammers' strike and also because one head in the stamp mill was stopped to make repairs. The above product is very good for the time the mine worked.

Superintendent Pope reports 50 tons, 850 pounds for the Hiron mine for September. This speaks volumes for a mine which was pronounced worthless by some of our amateur mining talent.

H. F. Alexander arrived in the copper country Monday noon.

Mr. and Mrs. J. Vivian of Opechee returned from Chicago yesterday noon.

J. Maurice Finn arrived here Monday noon and spoke at Miller's Hall last night.

HANCOCK. The old reliable Quincy gives a product for September of 500 tons 1515 pounds. The new hoisting machinery at the North Quincy is now ready for operation and when this end (old Pewabic) is doing its share the product of this mine will be much larger.

The product of the Franklin for September was 190 tons 110 pounds.

Mr. and Mrs. Napoleon Martin buried their 8 year-old daughter Anna on Saturday morning. Her death was caused by scarlet fever. The parents are deeply afflicted as she was the last that was left to them of eight children.

The ladies of St. Joseph's church will hold a fair in St. Patrick's hall commencing October 20 and continuing about ten days.

Joseph Martin, Sr., left for Chicago Monday noon to transact some real estate business.

DOLLAR BAY.

Mr. and Mrs. Ronald McDonald returned from their wedding trip Saturday evening. Chemist McDonald resumed his duties in the laboratory on Monday morning.

LAKE LINDEN.

Young L'Guyer attempted to paint the town red Sunday night but his career was stopped by Marshal McKinnon who put him in the cooler.

Charles MacIntyre left Monday to enter the Michigan Mining school.

RED JACKET.

Ed Steidle, who shot his brother in the head Saturday noon, broke away from the jail Sunday noon and ran up the alley between Front and Second streets. Janitor Ward promptly gave the alarm and the prisoner was captured near the French church and taken back to jail.

CALUMET.

Fire broke out in Civil Engineer Gibson's room in the old mine office Saturday evening, the flames were extinguished before much damage was done.

Over a Hundred Stone Knives.

While plowing a field on Jesse Doan's farm, in Buckingham township, near Furlong, one day recently, Frank Doan struck a curiously shaped flint stone of a kind not found in that vicinity. It was about 5 inches long by 1 1/2 inches wide in the center, with the edges sharp but irregular. Convinced that it was an implement left by former Indian residents of that neighborhood, it having been found on the site of a wood near a chestnut tree that is said to be over 200 years old, Mr. Doan concluded to investigate further. He dug down several feet, and was rewarded by finding 110 stones of the same shape and kind, which those learned in the ways of the aborigines say are "skinning knives."—Doylestown (Pa.) Intelligencer.

The Summer Umbrella.

The rise of the sun umbrella is manifested these insufferably hot days. Perhaps it would be more strictly accurate if it were designated the rise of the summer umbrella, for the most practical article of that description is one equally adaptable to sun or rain. It has a light blue or dark green—for this in a summer when it rains as unexpectably as the sun shines fiercely. There is no adjunct of later day costume that is a greater boon than the summer umbrella.—W. A. Clarke in Clothier and Furnisher.

OF INTEREST TO ATHLETES.

James Robinson the athletic trainer at Princeton College, Princeton, N. J., says: "I have found it imperative to have sure and on hand in case of cuts, bruises, strains, sprains, colds, rheumatism, etc. Shortly after entering upon profession, I discovered such a remedy in Alcock's Porous Plasters. I tried other plasters but found them too harsh and irritating. Alcock's Porous Plasters give almost instantaneous relief, and their strengthening power is remarkable. In cases of weak back put two plasters on the small of the back and in a short time you will be capable of quite severe exercise. In 'sprain' and 'distance' races and jumping, the muscles or tendons in the legs and feet sometimes weaken. This can invariably be relieved by cutting the plaster in narrow strips, so as to give free motion, and applying on muscles affected."

A CHOLERA SCARE.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by H. H. Stafford Son & Co. Druggists.

Refreshing! Nourishing! Wholesome!

Does Lightning Sour the Milk? It is a well known fact that milk is especially apt to sour during the prevalence of a thunderstorm, and from this it has been surmised that the electric discharge held some mysterious sway over the lactical fluid. An Italian experimenter, one Professor G. Tolomei, has been making trials of various sorts, the object being to throw some light on electric influence over milk molecules. In his first experience he passed an electric discharge from a Holtz machine between two balls of platinum hanging two inches apart in a bottle containing a quart of fresh milk; secondly, by sending a current between two strips of platinum at the bottom of a V tube filled with the same fluid; thirdly, by subjecting milk in a test tube to the action of a strong battery current through a silk covered copper wire wound spirally around the tube.

In each one of these experiments, which were as thorough as any lover of science could wish, it was proved that acidulation of the milk was delayed instead of hastened, as had been expected. Three equal portions of milk from the same milking thus treated began to grow acid on the seventh, the ninth and the sixth days, respectively, while other portions of it which had not been treated with electricity was rankly acid on the evening of the third day. Having thus disproved the popular theory of lightning being the direct cause of the acidification of milk, Professor Tolomei tried ozone and found therein the mystic agent of milk souring. In his second trial of ozone he brought the surface of a quantity of milk close to the two balls of the machine used, and the fluid almost instantly became acid in consequence.

Here at last a mystery that has puzzled professors and peasants alike has been made plain.—St. Louis Republic.

Shoes for the Dead.

Among Chicago's industries is a factory where the manufacture of shoes for corpses is carried on exclusively.

Out of five neat black boxes a representative of the firm yesterday took as many different sizes. These were adults' and children's shoes. The material corresponds with the purpose of their use. The shoes are certainly nice to look at, and are covered with grained paper. The uppers are a combination of quilted satin and crocheted work. A ribbon, inserted at the top and tied in a neat bow-knot, holds the shoe to the foot.

"Men's shoes are always black," it was said. "Occasionally we turn out a lot of brown ones. We have had special orders for men's white shoes, but only in a few instances. Shoes for women and children are always white. They are not expensive; five to fifteen dollars will purchase a dozen pairs."

The burial shoe is a patented article. It was designed by a Joliet (Ills.) woman milliner, who now enjoys the profits of her idea. The Chicago company has been in existence for nearly a decade, and is catering to an ever increasing demand. The firm employs a traveling man, who covers all the territory between Maine and California. It takes ten girls and several machines to keep up with his orders. The average monthly output is 15,000 pairs during the dull season. It is increased to 25,000 during a busy period.—Chicago Tribune.

An Episode at the Convention.

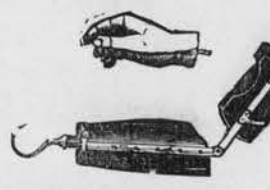

It was a pleasant episode at the meeting of the Christian Endeavor convention when Ira D. Sankey referred to the pleasant relations of England and America. The Canadian delegates sprang to their feet as Mr. Sankey sat down and electrified the audience by striking up "God Save the Queen." The convention broke into cheering and all the women in the house waved their handkerchiefs.

When the Canadians were through the audience promptly continued the song, substituting the words "My country, 'tis of thee." It was now Canada's turn to cheer and wave handkerchiefs. She replied to "America" with "Blest Be the Tie That Binds." The whole audience joined and there was another scene of enthusiasm.—New York Letter.

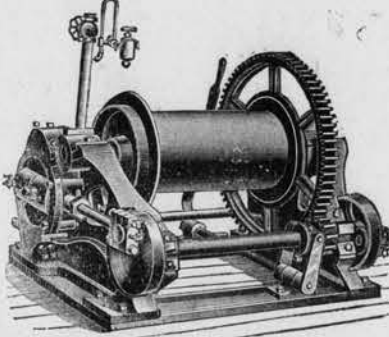

Ladies! Here's your chance! \$10,000 worth of dry goods and millinery goods, ladies' and children's shoes slightly damaged by smoke and water must be sold in the next thirty days. Here is your chance for rare bargains. (10-1-1w) M. VOGTLIN, Red Jacket.

DR. SPEER & CO. SPECIALISTS IN

NERVOUS AND CHRONIC DISEASES.

Main office at 146 Washington St. (Mining Journal building) Marquette, Mich. Branch office at Saginaw Mich., and West Superior, Wis. The physician in charge of the office is a graduate of the Medical Department of Harvard University.

YOUNG MEN Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance. **DR. SPEER & CO.** We guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN, There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits a rosy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkish hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES Finding it not convenient to call at the office can be treated by mail by sending a full description of their case. **DR. SPEER & CO.**

Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette. P. S.—See our testimonials in the different papers from well-known people.

HERE IS EVIDENCE. REMARKABLE SUCCESS.

I, James Stewart, of Marquette, have been unable to work for some time on account of epilepsy, which caused mental depression and great weakness; in fact perfectly unfitted me for any business. I got no relief until I tried Dr. Speer & Co. After two months' treatment I am surprised at the result. I have had no fits since. I sleep well, and arise in the morning refreshed, instead of feeling more tired than when I went to bed. I cannot recommend Dr. Speer & Co. too highly for what they have done for me. **JAMES STEWART,** Marquette, Mich.

REGULAR MONTHLY GRIND.

Aldermen Waded Into a Big Accumulation of Business at Last Night's Meeting.

A CONCERT ARRANGED FOR THE FAIR THIS EVENING.

October Appointments of the Marquette Republican Club—George Reed's Impending Change of Location.

COMMON COUNCIL MEETING.

The common council held its regular monthly meeting last evening and finally adjourned to the 15th inst. with the business still uncompleted. As a starter W. I. Todd appeared before the body and set forth the claims of his clients, the property owners on Third street, in relation to the newly completed sewer on that street. After he had stated their objection to the assessment roll as it stands a motion was made and seconded that one-third of the amount be paid out of the general fund on the ground that this is really a trunk sewer. This was amended to read that on all sewers north of Michigan street and running into the Third street sewer the property owners be assessed their fair share of the third to be paid now by the city. A substitute was then presented and adopted which got at the matter in another way by vacating the present roll and ordering the assessor to make out a new roll, assessing all the property benefitted by the sewer in proportion to the amount of benefit derived from it.

Hon. F. O. Clark, president of the Marquette City & Presque Isle R'y Co., was then invited to address the meeting and did so at length, setting forth the intentions and wishes of the company and endeavoring to bring about a more pleasant state of affairs between the company and the council. Mr. Clark discussed carefully the provisions of the company's franchise and stated that it was the intention of the company to stand up fully and fairly to its agreements and that it expected, as a home institution built by Marquette citizens in the face of the strongest kind of discouragement, to receive ample justice and consideration at the hands of the council. A discussion of the matters at issue followed and the interview closed with a much better understanding among the parties concerned.

A protest by property owners against the construction of the line on Michigan and Cedar streets was knocked out at once by Mr. Clark's calling attention to the fact that the company had no intention of building on those streets.

The resignation of Alderman Follis of the Seventh ward because of removal from the city was read and on motion accepted.

A petition from B. Neidhart & Co. and J. Coles & Sons asking relief from the imperfect sewerage of the adjoining block, owned by L. Riedinger, which is continually flooding their cellars, was referred to the street committee with power to act immediately.

The petition of Mrs. Charles Kelsey to connect her double house on Hewitt avenue with the Prospect street sewer was granted.

A protest from fifty or sixty residents of Palmer's additions on the trunk sewer assessment was read and on motion placed on file while the city officers were ordered to secure deeds for the right of way of the sewer as far as Fourth street and then for a sewer up Fourth street to the additions.

The matter of the defective tax sale from which Mrs. Christianson of Superior street was the sufferer was referred to the city attorney.

The Ohio street sewer assessment roll was approved and October 15th set for its final confirmation.

The places for registration and election at the approaching general election were appointed and a special election was ordered for Monday, October 17th, in the Seventh ward to elect an alderman to succeed Alderman Follis, whose place was declared vacant although he had consideredly made his resignation read "upon the election and qualifying of my successor."

The cow ordinance then came up again. Alderman Powell poured vinegar into the gaping wounds of the "official" paper by complaining that no one seemed to know anything about the ordinance although it had been published the required number of times and finally urged that it be printed and posted on the telephone poles and dead walls of the city so that people would have a chance to see it. Some modifications were made in the ordinance, the principal change being the extension of its terms to cover the entire city limits, and then it was again adopted and provision made for getting it before the public.

The city engineer was then instructed to inspect the work of the street railway in extending its line and the council adjourned to the 15th as agreed upon.

At the Fair.
The attendance at the Catholic fair in Fraternity Hall last evening was very large and great interest was taken in the several contests now open. Owing to the arrangement of a vocal and instrumental concert program by Prof. J. N. Forlman to consist of selections by Mrs. P. McDonough, a recent addition to Marquette society from Columbus, O., and the Misses Johnson, Wagner and Beanston, selections by the young and talented violinist, Mr. Rothschild, and readings by Messrs. McCabe, Thoney and P. J. McGinty, it was decided to continue the fair for one night only, the admission being 10 cents.

The contest for the gold watch for the most popular young lady resulted in its award to Miss Belle Denning, Miss Amy LaLiberty being the next on the list. The contest for the boy's watch, the little girl's doll and the cane brought over from Ireland by Bishop Vertin will be closed tonight. The cane is to go to President Harrison or Grover Cleveland and every good republican should vote early and often. As a result of the drawing last evening

the toilet case went to Mr. H. Anderson, the Bible to Miss Mary Donovan, the painted pillow to William O'Meara, the album to Rev. Fr. Langan and the jewel case to Miss Maggie Flynn. The pictures of Bishop Vertin and Father Langan will be awarded tonight and at the close of the fair all the articles not sold will be auctioned.

Republican Meetings.

There will be no meeting of the republican club on Wednesday evening but on Saturday, the 8th, Hon. Thomas F. Keater, of Indiana, who has a great reputation as an able and eloquent speaker, will address the voters of Marquette, the subject which he will discuss principally being the labor problem. The Scandinavian Republican club will hold a business meeting on Friday evening and on the next evening will turn out in full force to hear Mr. Keater.

The other October appointments of the club are as follows: On Saturday, the 15th, Michigan's famous silver-tongued, Bob Frazer, of Detroit; on Wednesday, the 19th, O. C. Peterson, of Iowa, and on Wednesday evening, the 24th, the republican candidate for governor, Hon. John T. Rich, accompanied by Hon. Theron F. Giddings, candidate for auditor general on the last republican state ticket. This last meeting is expected to be one of the most important in the whole campaign.

Will Move.

Geo. W. Reed will move his livery business on November 1st to his own barn on High street near Michigan. This move will make it necessary to sell half of his stock, which he advertises for sale in this issue of the MINING JOURNAL. He also notifies parties who have property stored in his barn to move the same at once, as he intends building an addition to the structure to accommodate his business.

"Si Plunkard."

Of Lewis' Yankee fanner company, which appears at the opera house tomorrow evening, the San Francisco Examiner speaks as follows:

Full houses to the door greeted Mr. J. C. Lewis and company at the Orpheum Opera house on Saturday and Sunday nights in his Yankee comedy of "Si Plunkard" for its first two performances. The play has caught on. Mr. Lewis and the company have created a sensation.

"Si Plunkard" is a graphic and amusing picture of rural life and characterizations. Mr. Lewis in the title role of the Yankee peddler and drum major in the Fairview band, brings plenty of humor to his part and creates a deal of amusement. The inventor, the bogus stock speculator, the old farmer and Si's pretty sweetheart are all well sustained characters.

There is a deal that is novel in the play. The farm scene with its threshing machine at work captures the audience. Clever specialties are introduced by several of the company. The band is notably good.

The famous Burt shoe, \$4.75 at Neuberger's.

Millions smoke annual—Geo. Moebis & Co.'s great Cigars. They are made on honor.

A liber discount in merchant tailoring department. I. NEUBERGER.

The formula of Ayer's Sarsaparilla is well known to the medical profession, and universally approved. The reputation of the firm guarantees excellence and uniformity in the medicine, and the world's experience for nearly half a century has fully demonstrated its value.

There can be no health for either mind or body so long as the blood is vitiated. Cleanse the vital current from all impurities by the use of Ayer's Sarsaparilla. This medicine recruits the wasted energies, strengthens the nerves, and restores health to the debilitated system.

To prevent the hardening of the subcutaneous tissues of the scalp and the obliteration of the hair follicles, which cause baldness, use Hall's Hair Renewer.

Hanan shoes going at \$4.00 at Neuberger's. (10-4-11)

Sufferers from dyspepsia have only themselves to blame if they fail to test the wonderful curative qualities of Ayer's Sarsaparilla. In purifying the blood, this medicine strengthens every organ of the body, and even the most abused stomach is soon restored to healthy action.
