## CONDITION VERY SERIOUS.

Problem That Confronts Secretary Carlisle on Taking Charge of the Treasury.

### ISSUE BONDS OR BREAK INTO THE GOLD RESERVE?

Ex-Secretary Foster Says Gold Exports Are Not Speculative but Due to Bad Legislation.

### FOSTER TALKS FREELY NOW.

WASHINGTON, March 7.—Ex-Secretary Charles Foster said this evening that the treasury was down to bed rock when turned over to the new secretary today. Mr. Carlisle finds himself confronted with a great responsibility to maintain the gold basis and a man of less ability might find the task a difficult one. It is probable that before he has been two days in his office he will find it necessary to choose between issuing bonds and trenching upon the gold reserve.

The ex-secretary said that the department was now practically to the gold reserve, there being less than two millions of free gold. He did not regard the situation as alarming, however, as all the excitement about the gold shipments appeared to have subsided. It was, he said, a better condition than he expected to find at this time and did not look as alarming as it did a week or more ago.

### MAY HAVE TO ISSUE BONDS.

Without saying in so many words he intimated that Mr. Carlisle would have to trench upon the \$100,000,000 gold reserve or else issue bonds. When asked if he did not think bonds would have to be issued he replied that Mr. Carlisle might, instead of that, use some of the reserve. He did not want to make any predictions as to what his successor would do but he was confident that he would be able by some means to preserve the gold basis by meeting all demands for gold made upon the department. He said that Mr. Carlisle undoubtedly had a right to use a part of the gold reserve if he needed to do so. Besides the gold reserve Mr. Foster said he would turn over to the secretary about \$29,000,000, consisting of national bank reserve and subsidiary coins and disbursing officers' business. Against this are all the outstanding drafts, covering most of it, but not liable to be presented for payment at once.

### GOLD DEMAND NOT SPECULATIVE.

"Congress" he said, "should have increased the whisky tax 50 cents and given us a chance to replenish our stock of money. The fact is, the added, that the demand for gold is perfectly regular. It is not speculative. It is the natural demand, foreign countries needing the gold. The only thing artificial or speculative in the situation was the effort made to keep the gold here. Our bankers borrowed \$10,000,000 of gold to keep it here. That, of course, was to keep the market steady and not to meet business demands. However, there is nearly \$500,000,000 of gold in this country, the public mind is comparatively easy and I have no doubt that Mr. Carlisle will be able to put himself in a position to meet all demands for gold."

### MONEY CLOSE IN NEW YORK.

Rumor of Issue of \$50,000,000 Bonds Is Revived.

NEW YORK, March 7.—Many of the banking institutions and individual capitalists marked up their loans today. At one time 1/2 per cent per diem in addition to the legal interest of 6 per cent was paid by borrowers. This means that some stock exchange borrowers had to pay at the rate of 52 per cent per annum. Some refused to stand the "shave" and liquidated their stock accounts, which added to the warlike feeling. The street is looking to Washington for relief and the daily rumor that the government would shortly invite bids for the sale of \$50,000,000 bonds was revived.

### TREASURY GOLD VERY LOW.

Only \$1,500,000 Is Turned Over to Secretary Carlisle.

WASHINGTON, March 7.—Secretary Carlisle when he assumed charge of the treasury department this afternoon had on hand \$1,250,000 of free gold and a net balance of \$23,000,000, of which \$11,500,000 is in national bank depositories, \$11,000,000 in subsidiary coin and \$500,000 in minor coin.

### GOLD KEEPS ON GOING.

This Week's Exports Will Aggregate Over Five Millions.

NEW YORK, March 7.—The shipments of gold by today's steamer aggregate \$2,300,000. In spite of the tight money market arrangements are in progress to export \$2,000,000 more by Saturday's steamer and \$1,000,000 next Tuesday.

### SAILORS IN A SCRAP.

Drunken English Seamen Insult the American Flag.

HONOLULU, March 1.—There was a narrow escape last night from a serious fight between sailors from the American war ships and the British cruiser Garnet. The English tars have boasted that they would "do up" the Americans on the first opportunity and this came last night. A gang of the Garnet's men, all primed with whisky, began singing "Britannia Rules the Wave" in Nuana street and when they had finished they made insulting remarks about the stars and stripes and one fellow challenged any American to take it up. Some of the Mohican's men were within hearing and prepared to give battle to the Eng-

lish tars. If it had not been for the coolness of a petty officer there would have been a bloody fight.

### DERRICK BEAM FELL.

One Workman Killed and Two Were Fatally Hurt.

CHICAGO, March 7.—The Mackay Spectatorium was the scene of an accident this afternoon in which one man lost his life and three others were injured, two of them fatally. William Sabklers, an expert bridge builder, aged forty years, was killed; Michael Brennan, bridge builder, had his leg broken, shoulder dislocated and was internally injured; William Lamoyne, bridge builder, hip dislocated and internally injured, will die; John Kramer, carpenter, head cut and chest crushed, will die. The accident was caused by the falling of a derrick beam. A defective casting in the machine broke and let the beam down.

### PREPARING FOR THE RUSH.

Opening of the Cherokee Strip Expected About June 1.

GUTHRIE, O. T., March 7.—People by the thousands continue to arrive and are making every arrangement to enter the Cherokee strip. The average man feels that it is his last chance and today Guthrie is full of strangers who have come to look over the situation and place themselves in a position to thoroughly understand just what they must do to procure a homestead. It may be thirty, sixty, or ninety days or it may be twelve months before Mr. Cleveland issues his proclamation but it is thought ninety days will fix the date. The Oklahoma "sooner" rule is applicable to these lands and will be enforced.

### HURRICANE AT TAMATAVE.

Ten Vessels Sunk, Buildings Destroyed and Many Lives Lost.

PARIS, March 7.—News of a hurricane at Tamatave, on the east coast of Madagascar, in February, has been received. The Albino, a French dispatch boat, went to the bottom with twenty-seven persons. Five coasting vessels anchored within the harbor foundered almost simultaneously and but ten men of their crews were saved. Four other coasters sank before the storm passed. In Tamatave twenty-two of the best buildings and a large number of the huts were wrecked. The British consulate was demolished and four sugar factories were leveled to the ground. Many lives were lost.

### FERREL HAS CONFESSED.

Himself and Friends Drowned Licentious Beast Woods.

MEMPHIS, Tenn., March 7.—John Ferrel, who is in jail at Sellersville, Fayette county, charged with the murder of Thomas Woods Dec. 2 last, has made a full confession. Robert Burnett, Alf Chambers, John McGurley, Ferrel, the latter acting as decoy, took Woods to Wolf river and tying him to a plow threw him in. The authorities are trying to find Chambers, Burnett and McGurley.

### MERE MATTER OF FORM.

Burlesque Trial of Three Slayers of a Negro.

JACKSON, Miss., March 7.—News has reached here of a sensational killing and illegal trial in Simpson county. A negro who was suspected and against whom there was strong circumstantial evidence of having entered the apartment of a Miss Tullis with the purpose of assault was hunted down and shot to death by her three brothers. Justice of the Peace Slaughter tried the young men, giving them the benefit of a jury which, of course, acquitted them very promptly. The peculiar part of the proceedings is that the justice had no jurisdiction whatever.

### TORIES WIN A SEAT.

Liberal Candidate Defeated in the Election at Grimsby.

LONDON, March 7.—The election held yesterday at Grimsby to fill the seat in parliament made vacant by the resignation of H. Josse, Liberal, resulted in a victory for the Unionists and the loss of a seat for the Liberals. Edward Heneage, Liberal-Unionist, was elected by 4,427 votes to 3,363 votes for Henry Broadhurst, Liberal. The election was one of the hardest fought since the general elections and the opponents of Irish home rule are delighted with their triumph.

### SERIOUS RIOT IN SERBIA.

Ten Peasants Were Killed and Seven Were Wounded.

VIENNA, March 7.—A serious conflict has occurred between troops and peasants at Gonashitz, Serbia. The peasants appear to have risen against the authorities on account of political agitation and troops were summoned to suppress the disorder. The peasants seized the municipal building and offered resistance to the soldiers who only succeeded after a desperate struggle in driving the peasantry from the building. Ten of the peasants were killed and seven wounded in the fight.

The greater part of the time was taken up, however, with a consideration of the question of appointments, particularly those of assistants to the various cabinet officers.

Messrs. Lamont, Bissell and Smith remained for some time after adjournment discussing matters of a confidential character.

TELL-TALE BRIGHT FACES.

The Greatest Strength Giver in All the World.

The Highest Praise Given to Paine's Celery Compound.

As Much Superior to Patent Medicines as a Diamond is to Glass.

Bright faces of those who praise Paine's celery compound are more trustworthy than all the multitude of sensational "advertisements" that are foisted on a credulous public by the patent medicine dealers in March, April and May.

It is true that in the early spring, a great majority of people need some honest remedy to purify the blood and to strengthen the nerves.

It is wonderful how many people are suffering from weakness and general debility. There are many who are tired all the time, who cannot sleep well, who have no ambition, who lack appetite, and are troubled in other ways particularly at this season.

The nerves need food, the brain demands nourishment, the blood must be enriched, and the excretory organs must be stimulated; and in this common condition, which is often serious, it has again and again been said, "There is nothing so certainly good as Paine's celery compound."

It makes people well! Paine's celery compound, it must be remembered, is not a patent medicine. It was

first prescribed by the greatest of modern physicians, Professor Edward E. Phelps, M. D., LL. D., of Dartmouth, and has been more generally used, and has achieved more cures of well-known men and women in all conditions of society than probably all other remedies put together.

It has had the public endorsements of such well-known and disinterested men as Hon. James MacShane, mayor of Montreal, Dr. J. H. Manford, the eminent medical writer, Albert Hardy, assistant editor of Godey's Magazine, Commodore Howell, Principal L. L. Camp, the well-known educator, and the father of Walter Camp, who is known as an authority on athletics by every college man in the country.

Geo. Wright, who every base ball player knows so well, recommends it. Such women as Jeanne Cambrey, Mrs. Margaret Spence, Helen Ashland Kean, the famous ballad writer, and thousands of others have written letters of the highest praise for the remedy that made them well.

It is not strange that there is a larger demand for it than for any other remedy in the world.

Mrs. Stephen Osgood of Allston, Mass., Boston's handsome suburb, writing to the Wells & Richardson Co., says: "I have

been poorly for years, not able to do any work, and my lack of appetite has been my greatest trouble, it having been more than five years since my food has tasted good and I have enjoyed it. I have also suffered from nervousness. Since taking Paine's celery compound I am not nearly so nervous as I was and I sleep very much better. And I must say that it is the only medicine that I have ever taken that has given me

an appetite. My greatest trouble has been poor appetite and no strength; the thing would tire me all over. Why, I am quite hungry at meal time now and my husband will not let me be without the medicine.

"I consider it a most excellent remedy for the nervous, sleepless, and all who run down, and write this to express my thanks for the great good it has done me."

Mr. H. H. Fenn, who is chief clerk of the freight office of the Pennsylvania R. R. at Zanesville, O., writes the Wells & Richardson Co., and enclosing his wife's portrait, in a course of a hearty letter says: "I can say a good thing for Paine's celery compound. It proved a very valuable remedy for my wife, and will add that you desire any references as to the truthfulness of what I have written, I will gladly furnish them to you."

There are many people who buy Paine's celery compound in large quantities to cause the last drop in the last bottle to be good as the first.

It can be had of any druggist.

SHOT PROMISCUOUS-LIKE.

A Drunken Finlander Whose Aim and Intentions Were Both Reprehensibly Bad.

HE CREATES EXCITEMENT WITH THE AID OF A REVOLVER.

Fire Company Meetings—Will Produce "Queen Esther" at Escanaba—Order of Red Men in New Quarters.

RIGHT ON THE SHOOT.

Yesterday afternoon a Finlander who had on board an overload of poor whiskey caused considerable excitement on Pearl street. During the day he had been drinking and about 4 o'clock, while in the saloon kept by Jacobson, he pulled out a revolver and tried to shoot the proprietor. His aim was not the best, however, as he fired three shots at his man without effect. While the bullets were whistling through the barroom Jacobson succeeded in getting hold of his assailant and ejected him from the place. The noise attracted considerable of a crowd and in a few minutes the report became current about town that the Finlander had shot a boy. Meanwhile the fellow had hid in F. Braastad's & Co.'s wood yard at the rear of Alex Nelson's bakery. Officer Bodenna got on his trail and soon had him in tow en route for the lock-up, where he was immured. He will be given a hearing this morning. A box of cartridges was found in his pocket, but the revolver was missing. The fellow was too full for speech, hence the reporter was unable to obtain his version of the affair.

H. and H. L. Meeting. The regular monthly meeting of Hose and Hook & Ladder companies No. 1 was held Monday evening. Very little business of importance was transacted. The resignations of Mike Tobin, who intends going west soon, and P. J. Sullivan, who is now a non-resident of Ishpeming, from the hose company were handed in and accepted. An application from J. P. Jones asking admission as a member of the hose company was acted upon favorably, while Chas. Miller was taken in by the Hook & Ladder company as lantern boy.

Will Go to Escanaba. At a meeting of the ladies and gentlemen interested in the production of "Queen Esther," held Sunday afternoon, it was decided to accept the invitation of the Escanaba Y. M. C. A. to produce the cantata in that city some time next month, the exact date having not yet been decided upon. The expense of producing the piece at Escanaba will be paid by the Y. M. C. A. of that city, and the net proceeds will be devoted to the building fund of the association, which is endeavoring to raise sufficient money to erect a building of its own the coming summer.

Secured New Quarters. The Ishpeming lodge of Improved Order of Red Men has leased the hall in the Heilmann block, Main street, in which the lodge has held its meetings heretofore. The lodge will continue to hold its meetings every Monday evening as formerly. The K. O. T. M. lodge will meet there every Wednesday evening and the French tent of K. O. T. M. will occupy the hall every Thursday evening. A number of other lodges are negotiating for the remaining nights in early week, but no other contract than those mentioned have yet been signed. The hall is the one recently vacated by the K. of P. It is neat and very desirable for lodge meetings.

Will Give a Concert. The Bethany orchestra will give a concert next Saturday evening at the Swedish Lutheran church on Division street. The orchestra will be assisted in the program by some of the best Swedish and English musical talent to be procured here, and the concert will be of a high order of merit. The admission will be twenty-five and fifteen cents, and all who attend will be made welcome.

John Byrns, the barber, has bought out the shop of Chas. Miller on First street and took possession of the same Monday afternoon.

A teachers' institute for Marquette county will be held somewhere in the county during Easter week. It is Ishpeming's turn to catch the institute this year and it is altogether likely that it will be held here.

E. E. Hodgson of Duluth, who has the contract for stringing the electric wires in the Nelson House, intends to remain in Ishpeming and he will be pleased to do work in that line for anyone desiring the same.

Conway, the tailor, will open a shop in the LaLonde building, second floor, today. His new stock of goods will arrive a day or two, when he will be pleased to fit out his old friends and patrons in the latest styles.

There were some new and unique features to the entertainment furnished by the ladies to their gentlemen friends at the Ishpeming Snow Shoe club house Monday evening. The attendance was very large and the event was hugely enjoyed by all. The supper was just immense.

R. McSweeney, the painter, began moving into his new stand in the Tislov building on Pearl street, yesterday. Mr. McSweeney has sold all his old stock of paints and papers to a Minneapolis

wholesale house and will replace them with a new stock of the best goods in the market.

John N. Outhwaite came down from Duluth, where he has held the position of clerk in the Merchant's Hotel, yesterday morning. He remained here for breakfast, when he left for Iron Mountain, where he will take charge of the Commercial Hotel, which his father recently leased.

Charles, the son of Mr. and Mrs. Charles Parks, who had his leg cut with an axe one day last week, is getting along nicely. The injury was caused by a surveyor, who happened to be passing in such a manner that the axe struck the lad while he was shoveling snow from the sidewalk. This statement is given in correction of a former mention regarding the accident.

The ornamental clock made by A. Sjobolm of Negaunee, mention of which was made a few days ago in the Negaunee department of THE MINING JOURNAL, is on exhibition at Anderson's jewelry store. The clock will be disposed of by raffle Saturday evening, April 8, at Anderson's. The tickets are selling at twenty-five cents each. The clock is valued at \$50.

AN ANTIQUE.

She gazed at the tall old clock on the stair. 'Twas a relic of days long fled, A costly timepiece, a treasure rare, But lately purchased and perched up there. "A quaint old gem!" she said.

"Did you stand in some old colonial hall, Where the firelight flickered red here and there, Where fell the shadows of chair backs tall And straightly stiff?" she said.

"Did you look perchance on a winsome maid— Alas! a century dead— Softly demure and sweetly staid, In a tortoise shell comb and a racy brocade With a very short waist?" she said.

"Did you see her lover, a comely swain A-bending his stately head To touch her lips and to touch again, Till her fair cheek warmed with a crimson stain?"

Oh, quaint old gem!" she said. "Oh, the wondrous pictures once known to you! And the tales that you have read!" But the tall old clock fetched a grin to view. "I wonder what she'd remark if she knew I was made last week?" it said. —E. A. Opper in Harper's.

"About three weeks since, while suffering from a severe cold which had settled on my chest, I applied an Alcock's porous plaster and in a short time obtained relief. In my opinion these plasters should be in every household for use in case of colds, coughs, sprains, bruises or pains of any kind. I know that in my case the results have been entirely satisfactory and beneficial."

ELABORATE PROGRAM FOR ST. PATRICK'S DAY. Mr. Thomas B. Dunstan Not a Candidate for Judicial Honors—Miscellaneous News Notes.

The greatest excitement prevailed here all day yesterday. From the opening of the polls at 9 o'clock in the morning until the closing at 3 o'clock in the afternoon there was an almost continual rush. This was the first election in a number of years that there has been any opposition. The total vote was 307, the largest ever cast in this village.

The program for the St. Patrick's Day celebration at Hancock is as follows: High mass at St. Patrick's church, 9 a. m.; parade of the Irish societies, 2:30 p. m.; concert and lecture, 8 p. m. Following is the program for the evening: Instrumental solo, Miss Ruth Davy; Quartet, "Let Erin Remember the Days of Old"; Dr. Dodge, R. Skiff Shelden, E. Capwell and R. T. Rees.

Trinity church is being wired for electric lights which will be put in and paid for by St. Agnes' guild. A carpet will also be among the new church furnishings. This guild during the past year has raised \$1,125 for the church and paid out over \$1,000. It hopes

soon to commence a bank account towards the building of a new church. The Utili Dolei club will soon begin the erection of a bell tower in which will be placed a chime of bells given by a generous resident of Houghton.

Mrs. N. Meloche and her sisters, the Misses Lena and May Weissmiller, left Jacobsville last Friday. They will spend a week or ten days visiting in the copper country and then leave for different points in lower Michigan and Wisconsin. It is not definitely decided where they will locate permanently in the future.

Dr. Finch has removed his household goods and family to this place. He will occupy the house formerly occupied by the late Dr. Meloche. Ice in a very fine quality is being harvested at this place at present. Large quantities of it is being put up for next season's use.

The severe snow storm of last week closed Monday's communication with the outside world. Mrs. George Franey of the Halfway visited Jacobsville friends over Sunday. Miss Mary Fisher spent Saturday and Sunday with her parents at the Quincy mine.

Up to last evening Mr. Bennallick had no clue as to who entered his meat market Sunday night and robbed the safe of \$61. The thieves entered a side shed door which was easily broken and taking down a cleaver from the hook where they are usually hung, knocked off the money drawer under the meat counter. Then they went into the office.

Lovejoy & Demar's Plans for H. C. Hamill's New Residence on North Front Street.

REV. L. M. WATERMAN RESIGNS PASTORATE OF BAPTIST CHURCH.

Mrs. Hume's Severe Fall—Bush & Ketcham Buy Out Thornton—Haydon's Wonderful Piece of Work.

**A HANDSOME RESIDENCE.**

The opening of the building season of 1893 is now near at hand and the first plans to leave the boards are those prepared by Lovejoy & Demar for a residence for Mr. H. C. Hamill, the Washington street jeweler, to be erected at the southeast corner of Front and Park streets, facing Front street. The plans show a very handsome front elevation, with recessed porch, large plate glass windows with art glass transoms, etc., shingles being used above the first story. On the north a two-story bay terminating in a tower will give the rooms on that side a splendid view of the lake, while the south side is so arranged as to have all the effect of a bay, judged from the street upon which the house will front.

The extreme dimensions of the house will be 31 ft. 10 in. x 42 feet, besides a fuel and refrigerator room in the rear 17x9 1/2. There will be a full basement and on the first floor the plans show a handsome reception hall connecting with the parlor at the right by folding doors, the parlor, sitting room and a bed room, all connected by arches, taking up the south side of the house while the dining room will have the bay on the north, being connected with the hall by a single door and with the sitting room by sliding doors. A corner fireplace will be a feature in the sitting room. The kitchen and pantry will be beyond the dining room with a back stairway leading to the second floor.

The second floor plans show a front bed room with a large dressing room connected with it by an arch, three other bedrooms and a large bath room besides convenient closets. The top of the porch mentioned in the front elevation forms a portico which will be a delightful feature during the summer months.

The new residence will be started as early as possible this spring and will be a handsome addition to the number of fine homes upon Front street north of the great rock cut.

**Resigned His Pastorate.**

Rev. L. M. Waterman, pastor of the First Baptist church, has tendered his resignation to the church society. No action has yet been taken upon it and the time when the relations between pastor and people will be severed is therefore entirely indefinite at present. Mr. Waterman has made many warm friends in Marquette who will learn with regret of his determination to seek another field of labor.

**A Severe Fall.**

Mrs. Peter Hume fell on the ice at the back door of her home on Washington street yesterday noon and sustained a serious fracture of her left arm at the wrist. Mrs. Hume is seventy-five years of age and her accident will be regretted greatly by her large circle of friends among Marquette's oldest residents.

**Bush & Ketcham.**

Yesterday Ernest L. Bush and Wm. H. Ketcham concluded the purchase of Jack Thornton's saloon and fixtures in the Flynn building on Washington street, adjoining THE MINING JOURNAL block. The new firm took possession at noon, Mr. Ketcham, for several years with Joe Fay, being in charge while Mr. Bush, whose long connection with A. H. Holland and Bushnell & Son has given him a wide circle of friends, will be found at the new stand very soon. He will occupy the rooms on the second floor of the block with his family. As both members of the new firm are very popular, clean, straightforward men, their business venture should be successful from the start.

**Snow Shoe Meet.**

The Marquette Snow Shoe club and the Agimosse club will meet at the M. S. S. C. house this evening and the members of both clubs and their families are invited to be present. Those who intend to walk will meet at Mr. E. B. Palmer's residence at 7 o'clock while the others will go out by the electric cars as usual at 8 o'clock, cars starting from Spruce and Michigan and Front and Ridge streets.

**Merchant Tailoring Department.**

Neuberger's merchant tailoring department will start up in full swing on Saturday, Mr. Louis Neuberger, who is now in Chicago, having secured Mr. K. S. Ervin as cutter. Mr. Ervin, who has the reputation of being one of the best and most artistic cutters in the city of Chicago, will arrive in Marquette tomorrow.

**Beautiful Piece of Work.**

Mr. Samuel Haydon is completing a table for the World's Fair which is a marvel of workmanship and artistic merit. It contains thousands upon thousands of pieces and is entirely the work of a common jackknife while cigar boxes furnished all the wood used. The table is of the ordinary length and about three feet in diameter. The top is all inlaid with small pieces forming a great star with smaller stars diminishing in size toward the center. About the edge are fruits, flowers, leaves and porcelains of noted men and women, all graven on the wood with the knife point, while pendant from the edge are twenty-four ornamental panels, one with a fine head of Christopher Columbus copied from one of the portraits of the great discoverer which has been handed down to modern times, the others showing the twenty-three presidents of the United States. All who have seen the table have been amazed at the patience and skill shown by Mr. Haydon in his work upon it and when it goes to Chicago the pocket knife with

which it was made should go too; the blade used for most of the work has been worn down to a very short, sharp point.

**GREAT PROMISE FOR WOOD MANUFACTURERS.**

It is only quite recently that manufacturers of furniture, wagons and wood work generally have become aware of the wonderful promise offered by North Galveston, Tex. Directly tributary to this young city, and not many miles distant, in Eastern Texas are over 40,000,000 acres of timber which comprises all of the high grade hard and soft woods.

Many people are coming in and are now doing business, but there is room for a great many more. With rail and water facilities for shipping, and markets in all directions, there should not be any hesitation about the outcome of manufacturing ventures. For further particulars call on or write M. E. Astre, the local agent. The address of the home office is North Galveston Association, Box 993, Minneapolis, Minn.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
