Final Vote on the Cuban Question in the Senate May Be Taken Today.

SENATOR MORGAN SUPPORTS THE RESOLUTIONS.

Severely Arraigns Minister De Lome for Recent Criticisms and Recites Many Evidence of Spanish Atrocities in Cuba.

NEWS FROM NATION'S CAPITAL.

WASHINGTON, March 17.—The Cuban debate in the senate is drawing to a close, and the expectation is that the final vote will be taken within a day or two, possibly tomorrow. Sherman is keeping the question before the senate continuously, so that the speeches are not likely to last much longer. Mills (Tex.) and Platt (Conn.) are yet to be heard but their remarks will not be lengthy. Morgan (Ala.) occupied most of the entire session today, speaking until nearly 6 o'clock tonight in support of the resolutions. It was mainly an argument without dramatic interest.

The senator severely arraigned the Spanish minister, De Lome, for impropriety in criticizing senators. Mr. Morgan said he totally dissented to the view that a foreign minister had any right to appeal to the press as to any pending question of legislation. In view of the Spanish minister's flagrant offense against this rule, the senator said he would refer to authorities. It was time to stop this uproar into which our legislation and our state department was thrown by cablegrams from prime ministers to the press and by appeals from foreign ministers. The Spanish minister, as a member of the diplomatic corps, was free from prosecution for defaming senators, and for this reason his lips were closed.

After reading Buchanan's letter while secretary of a state to a foreign minister declaring that the government would not entertain inquiries as to the subjects treated in the president's message, Senator Morgan said: "Would to God we had some one now who had some comprehension of the rights of the different departments of the government." Mr. Morgan then went on to say that it was essential that foreign ministers be reprimanded and, if need be, dismissed for assaults on senators for words used in debate. It was the duty of the executive authorities to extend this protection.

Senator Morgan also recited many evidences of the severities and atrocities with which Spain was prosecuting the war. They included the reply of Gonzalez Quesada, secretary of the Cuban Junta, in which the secretary related shocking details as to the indignities on Cuban women by Spanish troops, and personal letters were read by Morgan giving the experience of men in Cuba. The letters told of the violation of girls and the massacre of men, women and children. Senator Morgan said these letters disclosed the existing details of bloody war, and it was the duty of congress to recognize that a condition of war was existing.

In closing, Mr. Morgan said he feared that the fanaticism of Spain would lead her to take up the gauge of war, no matter how mild and proper the course of congress might be. Before the Cuban question was taken up Senator Pugh completed his silver speech begun yesterday.

DOINGS IN THE HOUSE.

The house devoted the day to a bill to amend the administrative tariff act of 1890, and passed it without substantial amendment. The purpose of the bill is to strengthen the act of 1890. Some weak spots have been developed during the six years it has been in operation. The bill was drawn after extensive hearings and the assistance of the treasury department and others with practical experience on the subject. One of the most important changes makes the increased duties and penalties for under-valuation commence at the point of under-valuation, and not at 10 per cent. above under-valuation, as provided by the present law.

During the debate Johnson (Rep. Cal.) asked why the ways and means committee had not reported a bill reforming the tariff schedules. "If we were simply playing to the galleries," replied Payne. "We might bring in such a bill, knowing it could not become a law. I hope to join with the gentleman from California in the Fifty-fifth congress in the enactment of a law that will furnish ample protection to American industries."

WASHINGTON GOSSIP.

Current News of the Day at Uncle Sam's Headquarters.

WASHINGTON, March 17.—The naval appropriation bill for the next fiscal year will contain the most liberal allowance for an increase in the navy carried by any bill since the war. Four battleships and fifteen torpedo boats was the decision of the committee on the question of new vessels, which had been the principal point of discussion. The Democrats fought hard today to secure six battleships, but the Republicans stood well together and carried their point. The motion for six battleships was made by Cummings (N. Y.) and lost by a vote of 6 to 7, but one Republican voting for it. The four battleships will be of 1,100 tons each and the cost is not to exceed \$3,700,000 each, exclusive of armament. Five torpedo boats are to have a speed of twenty-six knots and cost within \$850,000 each; the other ten are to have a speed of twenty knots and cost at the limit of \$800,000 each.

The crusade against the statue to Father Marquette in the statutory hall

was given some prominence today by petitions asking for its removal introduced in the house by Linton and Jenkins. The most remarkable of these was that drafted by a joint committee of the A. P. A. councils of Nebraska. They examined, it is stated, several records of the so-called discoveries of Father Marquette and on careful examination the statements made are believed by them to be incredible and unworthy; and that the whole story as to Marquette is a fabrication of the Jesuits for the purpose of laying claim to a large extent of American territory already claimed by Great Britain.

Nothing is known at the state department of the detention in prison in France of ex Consul Waller, as suggested by a Paris newspaper. The records of the department show he was released Feb. 23, or at least Ambassador Eustis so advised Secretary Olney by cable, and it was presumed he had started for the United States some time ago.

The senate committee on pensions today authorized a favorable report on Gallinger's bill, accepting the fact that a soldier was accepted and mustered in at the time of his enlistment as proof of soundness of body and mind. The bill affects a large number of pension applications.

The house committee on immigration today decided to favorably report McCull's bill, which excludes the admission to this country of all males between the ages of sixteen and sixty who are not able to read and write English or some other language.

The river and harbor bill which will be reported to the house within a few days provides for the improvement of the Duluth (Minn.) harbor and make it available for vessels drawing twenty feet of water at a cost of three and a half millions.

WILL ENDORSE M'KINLEY.

Wisconsin's Republican Convention, Which Meets at Milwaukee Today.

MILWAUKEE, March 17.—The Republican state convention, which meets in this city tomorrow, will adopt resolutions endorsing William McKinley for the Republican nomination for president, and declaring he is the unanimous choice of the party in Wisconsin. Resolutions will also be adopted strongly affirming the policy of protection to American industries as exemplified in the McKinley tariff bill and declaring for "sound money." The convention meets in the Academy of Music. John J. Esch of La Crosse will be chosen temporary chairman and John M. Ewing, secretary of the Republican state central committee, will be permanent secretary and these officers will be made permanent.

Of the four delegates-at-large to be chosen, the selection of Major Edward Scofield of Oconto county and J. H. Stout of Dunn is considered certain. Ex-Senator Sawyer and ex-Governor W. D. Hoard are opponents for third place, while Henry C. Payne and Eugene Elliott are contesting for the Milwaukee representation. It is stated tonight that if the Milwaukee delegates do not agree on a candidate before the convention meets Milwaukee will be ignored entirely and both Sawyer and Hoard chosen. There is reason to believe that if it becomes apparent that Elliott has a majority of the delegates Payne's friends will not present his name to the convention.

Late tonight Payne's friends decided not to present his name to the convention.

REBEL STRONGHOLD FALLS.

Government Troops in Nicaragua Gain Three Big Victories.

MANAGUA, Nicaragua, March 17.—The city of Managua is in a frenzy of excitement and rejoicing over the news received of three great victories scored by the government forces today over their opponents—the Leonist rebels. The city of Metapa was taken by storm after two days of hard fighting. The capture was attended with terrible slaughter, the news from the scene placing the number of killed and wounded as high as one thousand men. Metapa was considered the stronghold of the rebels, and was relied upon by the insurgents to fall back upon as the last resort. The rugged character of the country in which the town is located made the assault particularly hazardous and uncertain.

The town of Mora also succumbed today to Zelaya's arms, with heavy rebel losses. The troops supplied by the president of Honduras to assist Zelaya are doing active service. They have already taken Viego city, north of Leon and are proceeding southward. They are expected to take Chinadega tomorrow, which is (next to Leon) the largest rebel city in the republic.

CHEROKEE BILL NO MORE.

Noted Outlaw Is Hanged in the U. S. Jail at Fort Smith.

FORT SMITH, Ark., March 17.—Crawford Goldsby, alias Cherokee Bill, was hanged this afternoon in the United States jail. He was baptized by a Catholic priest this morning. He made a will, giving his mother his farm near Lenapah and disposing of his worldly affairs. His body was shipped to his old home in the Indian Territory. He ascended the scaffold cheerfully when sand persons had assembled around the jail to get a glimpse of the noted desperado as he was being taken to the scaffold. Cherokee Bill was but twenty years old. His father was a white skinned Indian and his mother a half breed Indian. Many murders and robberies were charged against Cherokee Bill. He was a member of the noted Cook gang and when that gang was broken up Cherokee Bill started out single-handed and committed many robberies, and not a few murders were laid at his door. The particular crime for which he was hanged was the murder of Earnest Melton, a white man, at Lenapah, Nov. 25, 1894.

NO SENATOR WAS CHOSEN.

Kentucky's Legislature Adjourns Sine Die After Sixty Eventful Days.

NEEDED FINANCIAL LEGISLATION NOT ENACTED.

State in a Bad Way and Governor Will Not Call a Special Session—Senate Adopts Report Concerning the Executive.

SPECIAL ELECTIONS CALLED

CINCINNATI, March 17.—The Commercial Gazette's Frankfort (Ky) correspondent telegraph: The legislature adjourned tonight after a sixty days session. The legislature failed to accomplish the two important acts it had before it—the election of United States senator and the enactment of legislation to save the state's financial reputation. Governor Bradley has refused to order a special session and the state is in a bad way. The senate special committee backed down today and offered a report that was so mild when the threats to unseat the governor are considered that even the Democrats laughed. In the house a resolution was passed denouncing lawlessness and endorsing Governor Bradley to the end. The troops had dress parade tonight, and leave tomorrow. Lieutenant Governor Worthington today issued a call for a special election April 11 to fill the vacancy in the senate caused by Mr. Weissinger's death. Senators Walton and James will resign tomorrow and the governor will order a special election, refusing to recognize their expulsion by the senate.

The senate committee appointed to "investigate" Governor Bradley and impeach him for usurpation of office and impose both fine and imprisonment reported to the senate this evening. The report finds the militia was not placed under the control of any civil officer; members were prevented from entering the house; soldiers entered the chamber while in session; no application was made to the jailer or county judge for assistance; the governor made no inquiry in either house as to the situation; that the object in calling out the militia was to cast in joint assembly two illegal votes and elect the senator.

The committee in closing the report said: "Your committee therefore find, and declare, and recommend that by the adoption of this report the senate declares said use of the military power of the commonwealth by the governor unnecessary for the preservation of peace or for any other lawful purpose; that said military force was not used by the governor for the purpose of preserving peace, but used solely for partisan political purposes; that the said action of the governor was wholly without warrant of law and was and is now a flagrant subversion of civil authority by the military power of the commonwealth."

By a vote of 19 to 14 the report was adopted. When the senate convened this evening the Republicans, led by Deboe, made a fight to bring up the revenue bills but the Democrats prevented legislation by filibustering. After the report of the special committee the senate adjourned sine die. The house also adjourned sine die.

THE SILVER CAMPAIGN OPENED.

The free silver campaign was opened by the Blackbaron people in the opera house tonight. Senator Blackburn made a vigorous speech, claiming the failure to elect a senator was a remarkable victory for free silver. The common council tonight passed a resolution endorsing Governor Bradley's conduct in calling out the militia.

FRANKFORT, March 17.—The exciting proceedings of the past few days cooled down entirely today. Only for the presence of the militia there was nothing to indicate that anything out of the ordinary was going on. It was evident there could be no legislation of consequence passed, as the feeling between the Democrats and Republicans was too intense to argue upon anything. A personal encounter that would have resulted in death but for the intervention of friends occurred this morning. Colonel Gaither spoke pleasantly to Jack Chin as he passed him, the latter replying: "D— you, I don't want you to speak to me." At the same time going for his hip pocket. At this General Hardin succeeded in getting between the men, thus preventing a fight, but not before Gaither answered he was ready at any time. The joint session was as peaceable as yesterday. Sixty-six were present but neither Republicans nor Democrats voted. There was no election and the assembly adjourned sine die.

JOHN G. WOOLLEY DECLINES.

Doesn't Want the Prohibition Nomination for the Presidency.

PITTSBURG, March 17.—John G. Woolley of Illinois, who has practically been conceded the Prohibition presidential nomination if he desired it, has written a letter to Chairman Castle of the national committee declining to allow his name to go before the convention. Ex-Governor St. John of Kansas also declined the nomination, which leaves Joshua Lovering of Baltimore as the only one mentioned at present.

Won With Broken Hands

CINCINNATI, March 17.—Paddy Smith, brother of Denver Ed. Smith, and victor over "Young Corbett," was defeated by Australian Billy Murphy here tonight before the Olympic club. In the tenth round Smith was so groggy that the round was cut short by a minute and Murphy here the fight. Murphy had both hands broken.

'T WAS A GRAND SUCCESS.

Houghton County's Celebration in Honor of St. Patrick. Cloudless skies and balmy atmosphere were the conditions which auspiciously greeted the natal day of Erin's patron saint yesterday.

At Calumet the wearers of the green were early astir and at the church of the Sacred Heart participated in the solemn celebration of high mass. By 10 o'clock the various local societies were in line and parading the principal streets.

At about 3 o'clock the parade, under the efficient management of Marshal Thomas Coughlin of Hancock and his aides, was gotten into line according to the program previously arranged and announced.

In the evening at 6 o'clock the Calumet visitors again took their special for home, where they participated in the evening entertainment at the opera house. Here the chief attraction on the program was a patriotic and eloquent address by Attorney P. H. O'Brien of West Superior, Wis., on "The National Spirit of the Irish Race."

At Hancock a vast crowd thronged into St. Patrick's church to listen to the eloquent oration by Rev. Fr. Nicholas Ward on "Ireland Still Remembered" and the excellent musical and literary program which accompanied it.

UNSOCIAL TURKEY BUZZARD.

Sole Business Is with Dead Creatures, Which Suits the Living.

The buzzard is an outcast from the great family of fowls. This misfortune is not justly to be attributed to the foul character of the fowl, but rather to its inborn aversion to sociability.

Very little is known of the buzzard. Beyond the fact that it is a scavenger little else has been of its habits, or, if discovered, the naturalist has wasted no time in describing them for the edification of the world.

If there are any redeeming merits that could possibly be invoked to the credit of the buzzard in a social way surely there can be no harm in knowing them. Because a buzzard chooses to associate itself with the decay of the world rather than chirp summer lullabies with the jaybirds in a treetop, why should that be detrimental to its character, or discourage one from inspecting its habits and studying its life?

Anyone who desires to study the buzzard and see it as it is could find no better place than on the river banks in front of the slaughter house, below the United States barracks. Here buzzards flock by the thousands, attracted by the refuse from the slaughtering pens, which finds its way into the river through large pipes.

The buzzards are given every protection by the people, particularly by the fishermen, many of whom live in tents and rough houses built on the batture between the river's edge and the levee. The fishermen are strict friends of the buzzards, and will promptly report any abuse of them to the St. Bernard police, who in turn will impose a fine of \$25 or ten days' imprisonment for the killing of one of them.

What Will Do It? MEDICAL writers claim that the successful remedy for anal catarrh must be an irritating, easy of application, and one that will reach the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh is positive proof that only one remedy has completely met these conditions, and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact.

FRANCE IS ALARMED.

Fears Proposed March Up the Nile Covers an Advance to Khartoum and to Uganda.

HER COLONIAL EXPANSION IN AFRICA WOULD SUFFER.

Serious Consequences of Such Advance Is Pointed Out to British Ambassador at Paris and Additional Information Asked.

BRITAIN IS GIVEN WARNING.

PARIS, March 17.—The French government up to this time has not defined its position towards the proposal to dispatch an Egyptian expedition up the Nile. Next to the sovereignty of Germany over Alsace-Lorraine, probably the greatest source of irritation known to French diplomacy is the British occupation of Egypt.

The first intimations came today of the probable course which France will take in view of the new conditions in Egypt. A sensation has been caused by the announcement made by Berthelot, minister for foreign affairs, in the cabinet meeting today that he had asked the British ambassador for information regarding the proposed advance of British-Egyptian troops up the Nile, and had pointed out to him the serious consequences of such advance.

This warning may be preliminary to more decided steps. The foreign minister's announcement was eagerly taken up in the lobbies of the chamber of deputies, and was the exclusive topic of discussion. The prevailing sentiment expressed was one of indignation at the course adopted by Great Britain, and the general feeling is that France must adopt a decisive tone in dealing with the matter.

A semi-official statement was given out tonight reflecting on the opinion of the government on the subject, although M. Berthelot had decided to postpone making a formal statement in the deputies on the attitude of the government towards the proposed expedition.

"The proposed advance up the Nile," said an inspired utterance, "is a great surprise to the government and will serve to embitter the anti-English feeling in France at a time when better entente was promised."

France is not deciding upon the course she will pursue without a full understanding with her Russian ally, and it is announced that numerous telegrams have passed between Paris and St. Petersburg today on the subject. It is understood here that Great Britain also sounded the Russian government before announcing the Egyptian program. But the action of the czar in conferring upon Negus Menelik the military order of St. George is accepted as a preemptory notice that Russia has no sympathy with Great Britain's plans for aiding and relieving the Italians in Africa.

France fears the Egyptian advance to Dongola covers a British advance to Khartoum and to Uganda and interference with her prosperous colonial expansion in Central Africa. The British occupation of Egypt is sufficiently galling in itself, and more so in its threats to the French plans in Africa beyond Egypt.

THE ADVANCE UP THE NILE.

Salisbury Gives the Reasons for the Proposed Sudan Campaign.

LONDON, March 17.—The Marquis of Salisbury, in the house of lords today replying to a question from Lord Roseberry, said the advance of the British-Egyptian troops up the Nile was undertaken after communications had been received on the subject from the Egyptian and Italian governments. The Egyptian government, he said, had represented to the government of her majesty the dangers with which Egypt was threatened through the advance of the dervishes, and the orders given were coincident with the wishes of Egypt.

Cairo, March 17.—Sir H. H. Kitchener, brigadier general in command of the Egyptian forces, has been officially appointed to command the British-Egyptian expedition which will advance April 1 on Wady-Halfa, up the Nile and towards Dongola. Siatin Pasha, formerly officer in the Austrian and Egyptian armies and who recently escaped from Omdurman, after having been nearly seventeen years in captivity in the Sudan, will take part in the expedition.

BASEBALL MEN MEET.

Minor League Club Representatives Form a National Organization.

WASHINGTON, March 17.—Representatives of the minor league clubs held an important meeting here today, at which a national organization was formed and steps taken to secure remedial action by the National League on the grievances of the minor bodies.

The session was a secret one. The following organizations were announced as comprising the new national body: The Western league, Western association, New England league, Southern league and Pennsylvania league. It is expected the Eastern and Virginia league will join the new organization. Ben B. Johnson, president, secretary and treasurer of the Western league, was then elected president of the National association and J. C. Morse, secretary of the New England league, was chosen secretary.

H. S. CLARK WITHDRAWS.

No Longer a Candidate for Nomination for Governor of Illinois.

MATTOON, Ill., March 17.—The following is self-explanatory: "To the Republican voters of Illinois. Gentlemen—The present political situation is such as to satisfy my judgment that the continuance of my candidacy for the nomination for governor would be injudicious, and that my withdrawal from the contest at this time would be conducive of party harmony. I have been in correspondence with active supporters in every county in the state, have personally visited sixty counties and many county conventions, and without reviewing the situation or moralizing on the causes thereof I feel that I am fully advised. I take pleasure in expressing my gratification at the uniform personal kindness on the part of my opponents, the public generally and the press without regard to political affiliation; and to my supporters I return sincere thanks for their earnest, honorable and loyal support. With assurances to all of my fealty and loyalty to Republicanism and my earnest support of the nominees of the convention, I am very truly (Signed) Horace S. Clark."

DIXON MUCH THE BETTER MAN

Awarded Decision in Bout With Marshall in Seventh Round.

BOSTON, March 17.—George Dixon of Boston defeated Jerry Marshall of Australia in seven rounds at Music Hall tonight. Marshall hurt his leg in the fifth round by straining one of the ligaments and in the seventh announced he felt unable to continue the bout any longer. The match was under auspices of the Prescott Athletic club and was the star event of the season. More than four thousand people were present. Dixon weighed 123½ pounds and Marshall 126. In the first round Dixon started in by playing for his opponent's wind, which tactics he continued throughout the several rounds. Marshall stood a great deal of punishment, but it was evident from the first round that Dixon was much the better man.

PRITTSBURG, March 17.—The Solar Iron Works of M. Clark, Sons & Co. of this city were closed today by the sheriff on executions resulting from the decision of the supreme court at Philadelphia in the case of Elizabeth D. Clark, administratrix for the estate of E. L. Clark, her husband, against Jane Clark,

THEY CAN BE REFLECTED.

Important Discoveries in Connection With X Rays Are Made by a New York Scientist.

PHOTOGRAPHS BY THE NEW AGENCY POSSIBLE.

Dr. Emmens Claims to Have Obtained the Rays from Sunbeams and Also from Darkness—Is Convinced They Are Universal.

HIS INTERESTING EXPERIMENTS

NEW YORK, March 17.—Several important discoveries have been made in connection with X rays by Dr. Stephen H. Emmens of this city, who claims to have succeeded in obtaining the rays from an ordinary sunbeam and has taken excellent pictures therewith. He also says he has succeeded in reflecting X rays, which heretofore have been considered impossible of reflection. This opens up a remarkable field, for it means the rays can be concentrated and with proper apparatus be used to produce photographs instead of mere shadowgraphs, as at present. Dr. Emmens found what he believes to be an X ray in absolute darkness and has caught its effects on a sensitive plate. His experiments convince him that the X ray is as universal as gravitation itself; that there is a co-relation between it and all other forms of radiant energy and that it may be changed under proper conditions into those other forms.

He is now trying to turn X rays into ordinary light, and if he succeeds wonders may be worked later. It may be possible to light a dark room by using the waste radiant energy of a boiling tea kettle or ordinary radiator, or by collecting and turning into ordinary light the X rays of darkness itself. Dr. Emmens is the well known inventor of "Emmensite," a powerful explosive adopted by the United States government for military purposes. In his experiments on the theory X rays were universal he tried to collect them, as it were, from darkness by means of various chemical compounds and succeeded. The best results were obtained by placing an ordinary Prussian blue on a vulcanite plate holder and next to the sensitive film. The plate was then left in a dark room for considerable time, and on being developed patches of the Prussian blue were found to be plainly pictured thereon. The plate was affected as if by ordinary light, and peumbara was surrounding each shadowgraph.

"The peumbara," Dr. Emmens said, "shows this was a light effect and not a chemical one." Dr. Emmens and son have invented an instrument which is now being constructed to enable surgeons by means of X rays to see the interior of the limbs or bodies of their patients instead of examining them on a photographic plate.

To SEND A TEAM TO ATHENS Boston Athletic Club Will Also Compete in the Olympic Games. PRINCETON, N. J., March 17.—The members of the Princeton Athletic team which will represent America at the Olympic games to be held at Athens April 5 to April 15 are Robert Garrett, Jr., '97, captain of this year's track team, who will compete in the shuttle, throwing distances, broad jump and horizontal bar vault; A. C. Taylor, '97, pole vault; F. A. Lane, '97, 100 metre dash, and J. H. Collett, '97, 400-metre race. The men sail Saturday.

Professor Sloan, chairman of the American committee on arrangements, expressed great surprise today when he learned the Boston Athletic club would send a team. "The two teams," he said, "will unite and jointly represent the United States. The games are open only to amateurs and the contestants can represent only the country of which they are citizens. The games are meeting with hearty support in Greece, and the king and royal family are much interested."

HENRY BOWEN'S WILL FILED.

Widow Given Most of the Property for Life—Trust Funds Created. NEW YORK, March 17.—The will of Henry C. Bowen was filed in probate today. It gives the widow for life most of his property, which after her death shall become part of his residuary estate. It creates a trust fund of \$30,000, the income of which is to be paid to her during life. Other trust funds are also created for the sons and daughters of the testator.

Rev. Dr. Brown Acquitted. SAN FRANCISCO, March 17.—Dr. Brown was acquitted of the charges of adultery and unministerial conduct. SAN FRANCISCO, March 17.—The council sitting in judgment of Rev. Dr. Brown, charged with immoral conduct, today acquitted him of one charge, that in reference to Mrs. Stockton. The opinion is based on the following facts. Mrs. Stockton is not a woman whose testimony could be taken for truth; that there was no evidence introduced strong enough in a legal sense to convict; that he had shown Mrs. Stockton great kindness in the way a Christian minister should and she had taken advantage of it.

her mother-in-law, in which the defendant was ordered to pay the plaintiff \$453,000. The executions, which aggregate \$690,000, were to protect Jane Clark's creditors and sureties.

Liabilities, \$600,000.

MONTREAL, March 17.—The well-known methylated spirits and vinegar manufacturers, Michael Lefebvre & Co., have been compelled to succumb to financial difficulties, in a great measure brought about by the suspension of the Banque du Peuple, the demand of the assignment being made by that institution. It is understood the liabilities of the firm will reach \$600,000.

May Buck the Trust.

FORT WAYNE, Ind., March 17.—The Indiana & Ohio Butter & Egg Shippers' association met here today and passed resolutions endorsing the project of the Iowa association to organize a straw board manufacturing company to furnish fillers for the produce trade at a reasonable figure. It is expected the Michigan association will take like action tomorrow.

In Jail in Kentucky.

NEWPORT, Ky., March 17.—Jackson and Walling arrived at the jail here this afternoon. There was a big crowd in waiting but no mob-like demonstration. The people say they are proud to respect the law and give the prisoners a fair trial. The general belief is that the trial will begin next week, as the criminal court is now in session.

A Fatal Train Wreck.

ST. LOUIS, March 17.—The train which left Monday bearing the officials on a tour of inspection of the St. Louis & San Francisco road was wrecked last night at Rogers, Ark. Brakeman Botts was killed and the cook badly injured. The private car of the directors was demolished and the occupants shaken up, but none of them injured.

Socialist Leader Is Released.

ROME, March 17.—There is great rejoicing among the socialists of the city over the release from prison of the leader of their party, Giuseppe D. Felice, arrested in 1894 for plotting with the exiled anarchists, Cypote and Signor Casilli, for the overthrow of the monarchy.

A Reported Insurgent Defeat.

HAVANA, March 17.—General Valdez and General Linares each had an engagement near Candelaria, province of Pinar del Rio, with insurgents. The latter are said to have lost 200 in killed and wounded. They are being pursued by the troops.

For a Monetary Conference.

PARIS, March 17.—Meline, the French protectionist leader in the chamber of deputies, today presented a motion that the government open negotiations for the bringing about of an international monetary agreement.

Forecast of the Weather.

WASHINGTON, March 17.—10 p. m. The weather bureau reports the following as its forecast for the next twenty-four hours: For upper Michigan: Fair, but with increasing cloudiness; warmer; southerly winds.

Curfew Ordinance at Omaha.

OMAHA, March 17.—The now famous Curfew ordinance for keeping youths off the streets after night-fall passed the Omaha council, tonight.

THE VEGETABLE SALAMANDER.

Fire Cannot Injure the Rhopala, a Hardy Tree of Colombia.

There is a tree of Colombia, the Rhopala odorata, of the order Proteaceae, which presents, says an article quoted in Current Literature, a most remarkable power of resistance to fire. In the district of Rollima it is customary every year, during the dry season, to set fire to the plains in order to destroy all the dry weeds that, during rains, might interfere with the growth of the young and tender vegetation. This periodical conflagration naturally produces the most disastrous effects upon the trees, which gradually disappear without being replaced, since it is difficult for an old tree to resist, and still more so for a young shoot of one or two years. A single tree forms an exception, and that is the one above mentioned—the Rhopala. Small, distorted and scraggy, and having a wild and desolate appearance, this tree not only does not suffer from the fire, but derives profit therefrom. It gradually establishes itself in localities abandoned by other trees and installs itself therein. We have here a very typical case of a survival of the fittest. It, alone capable of resisting fire, witnesses the disappearance of its rivals, and is seen to gradually encroach upon an always more extended domain. Its resistance to fire is due to its bark. The external portion of the latter, more than half an inch thick and formed of dead cells and fibers, acts like a protective jacket with respect to the more central and living parts, and this assures its triumph in its struggle for existence against fire.

Cook Rides a Bike.

A lady living in the upper part of New York wanted a cook who would go home at night, and put an advertisement in the paper setting forth her needs. Among the applicants was a negro woman of huge proportions. The lady looked at the negress and thought of her little kitchen. She did not want to state the real reason, for fear of giving offense, so she said: "I'm afraid that you would not get here in time in the morning, you live so far downtown." "Don't you fear about that, honey," said the negress; "it won't take me no time to come up on my bike." The lady regrets now that she did not ask this wheelwoman whether she wore bloomers or knickerbockers.

Simply Follow Custom.

Farmers in Mexico use oxen one color in the morning and of another color in the afternoon. They have no reason for doing so beyond the fact that their forefathers did it, and they conclude it must be the right thing to do.

ANOTHER GRATEFUL FAMILY.

Mr. Miller Considers Paine's Celery Compound a National Blessing.

There is no spring remedy equal to Paine's celery compound. It has lifted thousands from beds of sickness. It does what nothing else ever did for the sleepless, the dyspeptic and the despondent—it cures them once and for all. Here is a testimonial from Mr. E. A. Miller of Columbus, O., accompanying the photograph of his family: "For two years past I have been a constant sufferer with severe nervous headaches, oftentimes being compelled to go to bed, when my business necessitated my personal attention. Last week my physician recommended Paine's celery compound. I have taken now four bottles, and have not suffered with headache since. This government, in my mind, should pay the discoverer of Paine's celery compound a sum of money sufficient to keep him and all his relatives in luxury during their natural lives."

If strength is what you want, you should study what causes your weakness. It is practically lack of food. But you eat three meals a day, and all you can eat at a time. Yes, but do you digest it? Food undigested, is not food. It is not nourishment. It doesn't create strength. To digest your food take Shaker Digestive Cordial at meals. After a while you will digest your food without it. Then you will get well, and strong and healthy. Shaker Digestive Cordial cures indigestion and all its symptoms, such as nausea, headache, eructations, pain in the stomach, giddiness, loss of appetite, etc. It makes your food nourish you, and makes you strong and fat and hearty. Druggists sell it. Trial bottle 10 cents.

A NEW SCIENCE.
It Is to Be Utilized in the Education of Children.
A Means to Determine the Difference in Mental Quality—Psychologists Deeply Interested in the Study.
The old theory of education was that all children had about the same mental power. The chief difference was that some were possessed to a greater degree than others with the perverse spirit of Adam, and required, in consequence, a more frequent and intense application of the birch stick to quicken their mental operations. The present theory is that the difference lies very largely in the quality of their brains. The aim of psychology now is to determine in some definite way the amount of this difference.
This science is called puidology. It is pursued with great care in the psychological laboratory of the New York school of pedagogy. Prof. Scripture, of Yale university, is investigating it also. Instruments have been invented that enable the investigator to determine with absolute accuracy the rapidity of children's thoughts, the extent to which they can bear pain, the degree of their nervousness, and many other points of interest relative to their mental power. When sufficient data have been obtained it will be possible to grade pupils much better than now. They will be graded according to the quickness of their mental operations—the slow ones being grouped in classes, and the quick ones grouped in other classes. There will then be no complaint that the former are permitted to retard the progress of the latter.
One of the instruments used in this investigation is the graphic chronometer. A child is told to look at a shutter, and, when it is seen to fall, to press a button. The interval between the time that the shutter falls and the moment that the button is pressed measures the child's power to respond to an optical impression. The interval varies in different children. The aim of the experiment is to determine an average to be applied in grading children. Another experiment with this instrument is to determine the time it takes a child to write the letter "o" and the letter "g," the former being the easiest and the latter the most difficult to write.
The algometer is the name of the instrument used to determine the amount of pain that a child can endure. It is described as resembling a small pump, with a spring balance in the handle. "A piston," continues the description, "with a metal disk about the size of a silver quarter at one end, projects from the tube. The disk is pressed against the temporal of the child's forehead until a slight pain is felt. The amount of pressure exerted to produce this effect is indicated on the spring of the pressure gauge, and shows the sensitiveness of the child."
The third instrument is called the plethysmograph, which is used to test the child's nervousness and general emotional sensibility. It is a little rubber bellows, attached to a rubber tube which carries a small lever. The lever is in contact with a revolving drum. The bellows is applied to the wrist just above the pulse. The heart beats cause little puffs of air to pass through the bellows into the tube to the lever, which moves in response to them and records their rapidity on the drum. The different degrees of sensitiveness of children to the same effect may thus be accurately obtained. A practical result of this information will be the grading of punishments.
There are other instruments, to test the hearing, the eyesight and the touch. Spools wound with wire of different sizes are used to test the sense of touch. The more highly sensitive the touch, the smaller the size of the wire that can be detected.—Rochester Herald.

EMPEROR AND DUMPLINGS.
Ferdinand of Austria Insisted on Having the Dish.
An anecdote which was current of Ferdinand I. of Austria at one time greatly delighted his subjects and gave rise to a common saying. One summer day he was hunting in the Styrian mountains and was overtaken by a violent thunderstorm. He sought refuge in a farmhouse whose occupants were just then at dinner, and his fancy was caught by some smoking dumplings, made of coarse flour. He tasted them, liked them and asked for more, and when he got back to Vienna, to the horror of the royal cooks, he ordered the same dumplings to be served up daily.
The courtiers were scandalized that such a coarse dish should figure on the menu, but he now showed that he had a will of his own and persisted in gratifying his new fancy. Finally the physicians pretended that it was dangerous to his health to be living on dumplings and insisted on his giving them up.
The hit hard to the sovereign stamped his foot and declared he would never sign another official document if his diet were denied him.
"Emperor I am," he shouted, "and dumplings I will have!"
To prevent a stoppage of the government machinery opposition was withdrawn and his majesty clung tenaciously to his dumplings. Then the imperial phrase became proverbial, and thereafter, when anyone insisted on gratifying a silly whim, some one was sure to say:
"Emperor I am, and dumplings I will have!"—Youth's Companion.

The biographies of Napoleon differ as to the color of his eyes. One says they were blue, another declares them to have been gray. It is possible that they were of that steely blue sometimes found in the eyes of persons of cold, calculating temperament.

PICTURESQUE TEGUCIGALPA.

The Beauty and Quaintness of the Little Capital of Honduras.

Tegucigalpa, the capital of Honduras, is one of the most interesting as well as among the most picturesque of Central American towns.

"Tegucigalpa is beautifully situated in a green valley among the rugged silver hills, about 75 miles from the Pacific coast.

"Comayagua, a suburb of the capital, occupies the opposite bank, and is reached by a handsome bridge of brick and stone, built early in the present century.

"But the capital of Honduras is a place of importance, and its citizens, nearly 13,000 in all, take pride in its beauty and quaintness.

"Tegucigalpa accepted the undivided honor easily and quietly when she was declared capital of the republic by congress during the administration of Don Marco Aurelio Soto.

"The streets of the capital are more regularly laid out than is customary in the smaller Spanish-American towns.

"The houses are never more than two stories high, and the great majority are only one. They are built of the adobe, or sun-baked brick of the country.

A BABY CONTRADICTS THE DOCTORS.

All Are Happy, Glad, and Well. (SPECIAL TO OUR LADY READERS.)

The theories of physicians in regard to female complaints suffer a "Waterloo" very frequently, when sensible and thinking women take matters into their own hands.

Women are sometimes compelled to act for themselves, because of the suffering forced upon them by incompetent doctors, who are baffled by very simple complaints, because they are not the right sex to comprehend them.

"I have taken three bottles of your Vegetable Compound, one package of Sanative Wash, one box of Liver Pills; and now I have a dear little babe four weeks old, and I am well. I have to thank you for this.

"I have spent \$200.00 for doctors' bills without a cure. For my cure I only spent \$5.00.

"I was once a victim of female troubles in their worst form. I have suffered untold agonies every month; had to stay in bed, and have poultices applied, and then could not stand the pain.

"My physician told me if I became pregnant I would die. I had bladder trouble, itching, backache, catarrh of the stomach, hysteria, and heart trouble, fainting spells and leucorrhoea. Can you wonder that I sing the praises of a medicine that has cured me of all these ills?"

THE CITY'S FINANCES.

Negaunee in Good Condition Financially This Spring.

At the annual meeting of the city council held last evening the financial report submitted by the committee on finance was quite satisfactory and it was accepted by a unanimous vote. The different funds are credited with the following balances: City tax, \$10,061.03; water, \$10,290.99; street and highway, \$4,379.46; fire department, \$1,089.84; school district No. 1, \$4,020.93; special tax, \$2,296.88; library, \$180.27; soldier's relief, \$230.20; total, \$33,639.60. The trunk sewer is credited with \$4,004.32; lateral sewer, district No. 1, \$1,712.04, and lateral sewer, district No. 2, with \$2,432.25. The delinquent taxes in 1888 were \$152.65; 1889, \$149.65; 1890, \$64.97; 1891, \$338.92; 1892, \$394.18; 1893, \$3,010.06; 1894, \$1,588.71 and 1895, \$3,648.32. The balance in the city treasury is \$15,903.51. The total receipts for the year were \$97,893.66 and the total expenditures were \$81,190.15. The total amount of the state and county taxes was \$29,110.67. The interest on the city hall bonds was \$392.50; interest on general bonds, \$292.50; on water bonds, \$92.50 and on sewer bonds, \$1,000; total interest, \$2,477.50. The amount of outstanding orders is \$73.07. The amount collected for dog license was \$141; liquor license, \$10,665.60 and delinquent taxes for 1892-3-4-5; \$761.97.

The total amount collected in water rates as shown by the water report was \$7,569.59 and \$125 was taken in for permits issued, making a total of \$7,694.59. The cost of fuel on account of the water works system was \$2,141.57; oil, \$61.31; running expenses, \$89.30; salaries, \$2,149.92; water service, \$113.15; total, \$4,555.28. The net earnings of the system were \$3,149.31. This is a gain of about \$300 over last year. The operating expenses of the system were less this year than last and despite the fact that the average number of houses idle during the year were fifty, the amount collected for water rates was larger than in 1894. The amount of city orders drawn during the year were \$5,809.34. The amount of pipe laid during the year was as follows: 2,000 feet of 4-inch and 325 feet of 2 1/2 inch. The former was laid on Bluff, Pendill and Main streets and the latter on North Barn street. There were 346 feet of service pipe laid also. Four hydrants were also put in. The total number of hydrants in use now is sixty and 13 miles and 4,359 feet of pipe are in the system.

FIREMEN'S RUNNING TEAM.

One Will be Organized and Put in Training for the Tournament.

The Negaunee firemen will soon organize a running team with a view to taking part in the contests at the annual tournament to be held in August at Sault Ste. Marie under auspices of the Upper Peninsula Firemen's association. Both of the hose companies will unite in an effort to select the best material possible for the team. The boys realize that there will be several good teams at the tournament, so they will perfect the organization and begin training as soon as convenient.

Services at St. Paul's Yesterday.

A large number of the members of St. Paul's church congregation attended the services there yesterday morning. The children of the Sodality sang appropriate hymns and a quartette of young ladies rendered some sweet music on violins and guitars. The members of the Sodality been under the instruction of the sisters of the Goodwill school. The latter are generally well known in the city for the manner in which they handled the musical portion of the program.

A Jewelry Exhibit.

Mr. Wagner, representing the well-known jewelry house of Sigler & Sons of Cleveland, will be at J. M. Perkins' today. He will display a large line of rings, chains, watches and other jewelry, as well as a large assortment of gold and silver novelties. Mr. Perkins extends an invitation to his Negaunee friends and patrons to call and examine the stock. Goods will be sold to any one desiring them, or orders for future delivery will be taken.

Do Not Despair because you have tried many medicines and have failed to receive benefit.

Remember that Hood's Sarsaparilla cures when all others fail to do any good whatever. Hood's Pills are the best family cathartic and liver medicine. Harmless, reliable, sure.

WINTER TOURS TO THE BERMUDAS, 1895-1896.

The Duluth, South Shore & Atlantic Ry. have made arrangements whereby they can book winter tourists from any of their stations to the Bermudas at the very low rate of \$8.00 for the round trip. Tickets being good for six months from date of issue. The route is via the direct line to New York by way of Sault Ste. Marie and Montreal, thence via the well known steamers Trinidad and Orizono of the Quebec Steamship Company. This delightful winter excursion trip to Bermuda has no equal. A passenger can leave Marquette on Monday reaching New York Tuesday night, leave New York Wednesday morning and be in the Bermudas Friday. In that short time he effects the wonderful change from a Lake Superior winter to the balmy climate of an island of the southern seas famed for its scenery and clad in the fresh verdure of Spring.

First class accommodation can be secured at the principal hotels at rates from \$2.00 to \$5.00 per day and at the leading boarding house at from \$10.00 to \$14.00 per week.

For further particulars of the journey and descriptive matter of the Bermudas, apply to the General Passenger Department of the D. S. S. & A. Ry., Marquette, Mich.

The Discovery Saved His Life.

Mr. G. Caillouette, Druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at E. Farnham's Drug Store.

HE HAS HIS TROUBLES.

Trials of a Messenger Boy for the Telegraph Company.

A telegraph messenger probably sees as much of the other side of human nature as a doctor. One told an Atchison Globe writer recently that a woman never opened a telegram without turning pale, and when the message was not alarming, they looked disappointed. He delivered about two death messages a day, four birth messages, a great many business messages, and once in a great while a love message that makes him tired to carry it. He carried one recently to a young man in town that read:

"How are you to-day darling?"

The answer went promptly back by the boy and was to this effect: "I am better, love." He once carried a message of death to a colored woman, and after reading it her emotion overcame her to such an extent that she caught the messenger in her arms and soundly boxed his ears. Another colored woman refused to open or sign for a message, but walked the floor and beat her breast, and screamed, supposing it announced a death. When all the neighbors had come in, one more venture—more than the rest read the message. It was simply a notice that the woman's sister would come up from Leavenworth that evening to see her.

A "CLEAN" SHAVE.

Precautions Which Might Be Adopted for the Safety of Customers.

Nothing is easier than for contagion to be conveyed from a diseased to a healthy skin during the act of shaving, and many cases have now been recorded, says the Medical Press, proving that diseased processes have in this manner been propagated. Probably the readiest manner available to the barber for preventing such untoward occurrences would be by sterilizing his "instruments" by means of heat, either by steam or boiling water. Razors should be made so that their handles would not suffer from the exposure to high degrees of heat, and the rules should be enforced that in no case should any of the "instruments" be used consecutively without having first been submitted to the sterilizing process. Under this rule, then, each customer would be sure of having a "clean" shave in more senses than one. Of course, also, on the principle of a "fresh pot of tea for each customer," a freshly scalded-out lather pot should be included with each shave. Unless these or similar precautions be carried out in barbers' shops, cases of the conveyance of infectious skin diseases from customer to customer cannot fail to occur.

COMMON COUNCIL PROCEEDINGS

OFFICIAL. An adjourned regular and annual regular meeting of the common council of the city of Marquette on Tuesday, the 10th day of March, A. D. 1896, mayor Jacobs presiding.

There were present aldermen Brown, Blanchard, Hoch, Kreig, Pendill, Rossetter, Schoch, Sherman, Stafford, Tobin and Vandenberg.

The reading of the minutes was dispensed with.

Petition of remonstrance of James Pendill against the Lake Superior & Ishpeming Railway company being given the privilege of using the alley way in the Island Beach addition, and certain streets south of said alley, for sundry reasons, was presented.

Moved by alderman Pendill and supported that the prayer of the petitioner be granted and that the Lake Superior & Ishpeming Railway company be required to furnish profile and map asked for in the petition to the council.

Moved by alderman Hoch, supported and carried, as a substitute, that Mr. S. S. Neff be heard from in the matter.

The street committee then reported as follows:

Your committee to whom was referred the petition of the Lake Superior & Ishpeming Railway company for permission to occupy the alley way running east and west through the center of blocks Nos. 23, 24, 25, 26, 27, 28, 29 and 30, of the Island Beach addition to the city of Marquette, Mich.

Also that it be permitted to occupy all those portions of Bear, Otter, Beaver, Martin, Sable, Wolf, Fox, Badger, Fawn, Elk, Caribou, Antler and Buffalo streets in said Island Beach addition lying south of a line drawn through said alley way heretofore mentioned, neither said alley way nor said streets being in any way improved or occupied for any other purposes whatever, and it appearing therefore that no inconvenience is thereby suffered by any one, we would respectfully report that they have had the same under consideration and would recommend that the prayer of the petitioner be granted.

Resolved, That the Light and Power Commission be and it is hereby authorized to improve the Electric Light and Power Generating and Distributing Plant by the purchase and installation of additional machinery and pole lines to an amount not exceeding the sum of ten thousand dollars.

Ayes—aldermen Brown, Blanchard, Hoch, Kreig, Pendill, Rossetter, Schoch, Sherman, Stafford and Vandenberg. Nays—alderman Tobin.

On motion of alderman Hoch, the following resolution was adopted:

Resolved, That the following named places be and they are hereby designated as the places for registration and polling places in the various wards for the annual city election to be held in the city on Monday, April 6th, 1896.

1st ward, Ryan's building, corner Genesee and Division streets. 2d ward, at 139 Superior street west. 3d ward, at Hodgkins' livery office, Pine street.

4th ward, at Police Court in city hall. 5th ward, at 422 Cassin street west. 6th ward, at Martin Foard's store, Third street north.

7th ward, at John Q. Lewis' store, corner Third and Magnetic streets. 8th ward, at Robertson's house, Front street north.

On motion it was Resolved, That Francis M. Moore, Samuel M. Billings and James Branahan be and they are hereby appointed by this council, election commissioners of the city of Marquette.

The controller stated that the time for the confirmation of the special assessment roll for the extension and continuation of Park street from Third street to that portion of Park street extending east from Fourth street was fixed for this evening, when it was, Moved by alderman Rossetter, supported and carried, that the said assessment roll be laid on the table.

The annual reports of the city treasurer, recorder, park and cemetery commission, light and power commission, Peter White public library, street commissioner, board of fire and water commissioners, and controller, were read and referred to the committee on finance and taxation.

The committee to which was referred the matter of insurance on the marshall's house reported and stated that the best rate of insurance obtainable on said building for \$750.00 was \$33.75 for five years.

Moved by alderman Tobin, supported and carried, that the controller be instructed to procure insurance on the marshall's house for \$750.00 for five years at \$33.75.

Ayes—aldermen Brown, Blanchard, Hoch, Kreig, Pendill, Rossetter, Schoch, Sherman, Stafford, Tobin and Vandenberg. Nays—none.

The council then, on motion, took a recess.

AFTER RECESS. The committee on finance and taxation, to which was referred the various reports, reported as follows:

Marquette, Mich., March 10, 1896. To the Honorable the Common Council, GENTLEMEN: Your committee on finance and taxation to whom was referred the reports of the city officers for the year ending this day, respectfully report that we have checked the receipts and disbursements of the city treasury and find the receipts duly accounted for, and the disbursements represented by vouchers duly authorized. We find orders on the city treasurer outstanding to the amount of \$7.00 on the general fund, \$137.20 on the light and power fund, and \$33.10 on the library fund, a total of orders not paid of \$177.30; this amount deducted from the total expenditures shown by the controller's report makes the total disbursements shown by the treasurer's report. The cash balance shown by the treasurer

with said south line of right-of-way 50 feet, permission is granted said railroad to remove during the year 1896 material for their road from the N 1/4 of the N.E. 1/4 of S.W. 1/4 of Sec. 9, 48, 25.

Ayes—aldermen Brown, Blanchard, Hoch, Kreig, Pendill, Rossetter, Schoch, Sherman, Stafford, Tobin and Vandenberg. Nays—none.

The following resolution was on motion of alderman Sherman adopted: Resolved, that the Light and Power Commission be and it is hereby authorized to grant and convey to the Lake Superior & Ishpeming Railway Company an easement for the construction and maintenance forever of its main line of railway upon and across the N.E. 1/4 of S.W. 1/4 and N.W. 1/4 of S.E. 1/4 Sec. 9, township 48 north, range 25 west, subject to reversion to the city in case of abandonment; such easement for right-of-way to be for such width and with such further conditions as said commission may deem necessary for the interest of the city.

The protest of Sorn Nelson and 46 other tax payers against the confirmation of the special assessment roll for the extension and continuation of Park street from Third street to that portion of Park street extending east from Fourth street was presented.

On motion of alderman Rossetter the following resolution was then adopted: Resolved, that the prayer of the petitioners be granted and that the city attorney be instructed to stop all legal proceedings in the matter of said improvement.

The resignation of alderman Carney, as alderman of the second ward, was presented and on motion accepted.

On motion of alderman Hoch the following resolution was adopted: Resolved, That an alderman be elected at the coming spring election in the second ward, to fill the vacancy for the unexpired term caused by the resignation of Michael Carney.

On motion of alderman Blanchard, the following resolution was adopted: Resolved: That the Building Committee be and are hereby instructed to place two arc lights at the entrance to the City Hall in lieu of the present one. One light on each of the stair pillars at the entrance to said City Hall, and same to be done at as early a date as possible.

On motion of Alderman Sherman the following resolution was adopted. Resolved: That the Light and Power Commission be and it is hereby authorized to improve the Electric Light and Power Generating and Distributing Plant by the purchase and installation of additional machinery and pole lines to an amount not exceeding the sum of ten thousand dollars.

The cash balance shown by the treasurer

we find on deposit in J. M. Wilkinson's bank. The balance of money in the treasury of the board of fire and waters commissioners as shown by the controller's report agrees with the same shown by the books of the secretary of the board. The balance of library funds on hand as appears by the report of the trustees agrees with the same shown by the treasurer and controller. We have also examined the marshal's report of dog taxes collected and found it correct and the money deposited with the city treasurer.

We therefore recommend that the common council credit and settle the several accounts as rendered. JAMES E. SHERMAN, JOHN E. TOBIN, Committee.

On motion of Alderman Blanchard said report was adopted and ordered placed on file.

The following resolution was then on motion of Alderman Hoch adopted: Resolved, That the report of the controller be and the same is hereby adopted as the statement required to be made by the council under section 12, chapter 7 of the charter and that the mayor and recorder are hereby authorized to sign the same, and that the same be published in accordance with the provisions of the charter, and that THE MINING JOURNAL be designated as the newspaper in which the same shall be published.

The following resolution was on motion of Alderman Shea adopted: Resolved, That the committee on streets and sewers be and they are hereby authorized to cause to be made by some competent engineer, a survey of Chocolate road south of Carp river to city limits, and Division street from Sandstone street to the west line of Section twenty-six, and the levels taken thereof; and cause to be made by said engineer a plat of said survey and profile of said levels on which profile shall be indicated such suitable grade for the future improvement of said street as said engineer shall recommend for adoption by the common council.

The council then on motion adjourned.

THOMAS MEADS, Recorder.

The Reports of the City Officers Referred to in the Report of the Committee on Finance and Taxation are as Follows:

REPORT OF LIGHT AND POWER COMMISSION. MARQUETTE, MARCH 10, 1896. To the Common Council of the city of Marquette. GENTLEMEN:—The Light and Power Commission of this city, herewith hand you their report of the receipts and expenditures of the commission from June 28th, 1895, to March 11, 1896, June 28th, 1895, being the day the books were balanced, as between the committee of the council who had the electric plant in charge up to that date, and this commission. Two ledger balance sheets have been made, one March 11, 1896, and one June 28, 1895, in order that the loss or gain of any account between the report made March 11, 1896, and the date this commission took charge of the property June 28th, 1895, may be known. There being some difference of opinion as to what was necessary in one report of disbursements, two members of the finance committee were spoken of by the committee in their opinion that as given herewith the report is all that is required. The number of the voucher upon which each bill was paid has been placed in the column at the left, and these vouchers are all on file in the controller's office, where they can be seen at any time. The receipts for light and lamps have been in the amount of \$3,621 16 of which the city paid \$3,670 07. Leaving as received from others \$4,961 09. There has been expended for other meters \$135 55. There has been expended for meters 91 45. There has been expended for lamps 34 00. There has been expended for wire, etc. 91 41. Total \$350 41. The machinery at the power house is in very good condition considering the amount of work it has had to do, the load being equal on the incandescent machine to one and one-third (1 1/3) its registered capacity, the expense of all repairs it will be noticed is only \$75 75. The commission has during the fall and winter been improving a new power above the present plant. A dam about 42 feet high in the center and 150 feet wide on top has been built on top logs well secured by ties running back from 30 to 45 feet, where they are bolted into rock strainers; rock was then filled in nearly to the top of the dam stopping to 35 feet below the level of the top of the dam at a point 85 feet from the face of the dam. Upon this slope a frame of cedar logs was laid, being fastened to the ties with an abundance of material at hand and improved machinery, all that is now necessary is a liberal appropriation for the highway fund to accomplish this work. INTEREST. Under an agreement entered into with James M. Wilkinson, on August 15th, 1895, the city has received interest on its deposits at the rate of 2 per cent per annum on all monthly balances. From this source the city has derived a revenue amounting to the considerable sum of \$937 71. Previous to this year the city received no interest on its deposits, except on the small balance of the Peter White Library fund. CITY HALL. Upon the completion of the city hall, about a year ago, it was thought advisable to leave the finishing of the walls until such time as they became thoroughly dry and to give the building an opportunity to settle. It is the general opinion of citizens and taxpayers who visit the city hall, that the walls should now be decorated as originally intended. Before this work is done, however, I particularly call your attention to the roof, which should be thoroughly examined in order that needed repairs may be attended to. SINKING FUND. There has been raised by taxation in the year 1895, the sum of five thousand dollars for an interest and sinking fund. It will be necessary to raise on the tax roll of 1896, at least a further sum of five thousand dollars for the payment of one of the obligations of the city that falls due February 1st, 1897. School bonds to the amount of ten thousand dollars are being payable on that date. I call your attention to the excellent record made by the board of fire and water commissioners in reducing the city indebtedness by the payment of ten thousand five hundred dollars of water bonds out of the accumulated earnings of their department. All of which is respectfully submitted. FRANKLIN E. BAY, Controller.

belief that the work is appreciated by the reading public: The following newspapers, journals and magazines are kept on file: Detroit Free Press, New York World, Boston Herald, Chicago Inter Ocean, Chicago Times-Herald, Milwaukee Sentinel, Superior Leader, (donated) Daily Mining Journal (donated), Superior Pioneer (donated), San Francisco Argonaut, American Teacher, Atlantic Monthly, Book Buyer, Catholic World, The Century, Cosmopolitan, The Dial, Donahoe's Magazine, Electrical World, Electrical Engineer, Electrical Review, Engineering Magazine, Engineering and Mining Journal, Engineering News, Education, The Forum, Forest and Stream, Financial and Commercial Chronicle, Harper's Bazar, Harper's Weekly, Harper's Monthly, Harper's Round Table, Iron Trade Review, Journal of Education, Ladies' Home Journal, Library Journal, Literary World, Marine Review, McClure's Magazine, Munsey's Magazine, Music, North American Review, The Nation, Outlook Magazine, Popular Science Monthly, Publisher's Weekly, Review of Reviews, The Seaboard, (donated), St. Nicholas, Scribner's Magazine, Scientific American and Supplement, School News, Teachers' World, Teachers' Institute, Youth's Companion, Traveler's Record (donated), The Weekly Mining Journal (donated).

We have only a small number of German books, recently acquired, hence the small circulation. We expect to pay more attention to that branch in the near future. The librarian's report shows if all the books were called in at one time, we would have 500 books more than we have shelf room for, every foot of available space in the library proper being fully utilized.

The balance at our last report was \$1,827 95. This has increased to a balance of \$2,509 20, of which amount at least \$1,500 is available for a building fund.

The library is an educational power in the community, enjoyed by all, reaching a great many who can be reached in no other way, and we hope ere long to see it occupy enlarged quarters on a par with the other educational institutions of the city. This too, without materially adding to the burden of taxation resting on our people.

SECRETARY'S REPORT. To the Board of Trustees of the Peter White Public Library of the City of Marquette, Michigan. I would respectfully submit the following report of the receipts and disbursements of the library funds for the fiscal year ending March 10, 1896.

LIBRARIAN'S REPORT. To the Honorable Board of Trustees of the Peter White Public Library of Marquette, Mich. GENTLEMEN—I have the honor to submit to you my fifth annual report, a record of the library, and the condition and use of its books for the year ending February 29th, 1896.

TRICKY SHOPPERS. Ladies Who Rob the Millinery Stores of Design. "That lady didn't come here to buy, her 'maid' is a small dressmaker, and she's after designs; I know her."

It is quite a customary thing for so-called ladies to go shopping with their maids, not with the remotest intention of buying anything, but with the purpose of seeing the latest fashions and copying them at home afterward.

When it is considered that for Paris models leading firms often pay a big price for each gown, it will be seen that a direct infringement of the copyright, so to speak, is most disastrous to them.

IN THE STREET CAR. Some Observing Individual Notes a Woman's Eccentricity. "Have you ever noticed," said a man about-town to a reporter for the Philadelphia Record, "that nine women out of ten when they enter a street car invariably take a seat on the right hand side of the car? I have frequently wondered at it, and a solution of the mystery did not occur to me until a few nights ago. I boarded a Girard avenue car which was entirely empty, and sat down in the forward left-hand corner. At the next crossing a woman got aboard and sat down opposite me. At the next street two more women got in and took seats alongside of the first. After a time there were seven women in the car, all sitting in a row, leaving me to enjoy alone the comforts of the left-hand seats. Then three men jumped aboard and sat down on my side. Finally another woman joined us, and instead of taking a vacant seat near the door on the 'ladies' side' she walked the entire length of the car and sat down alongside of me. This eccentricity on her part impelled me to watch her more closely than good manners possibly warranted, but I solved the mystery to my satisfaction. She paid the conductor with her left hand! She was left-handed; see? And all the women on the other side were right-handed, of course. Fact!"

INDIAN TREACHERY. A Red Man's Cold-Blooded Villainy Meets with Speedy Punishment. A sergeant in the Second cavalry recalls an incident in his life in the Milk river country, Montana. He was then a private, and was carrying the mail between the camp and Fort Assiniboine. One day he met an Indian, and, riding along together, the soldier proffered him a pipe, which the red man smoked peacefully. After traveling thus all the morning, they came to a creek, and the Indian reined up, saying that he was going down the stream, whereas the mail route led upward. So they separated, and, when the soldier had his horse about 50 yards, he turned in his saddle to wave another farewell. To his horror, he saw the Indian in the act of drawing a bead on him. Quick as a flash he tumbled off his horse, unslung his carbine, and returned the fire of the treacherous savage. The Indian then fled, with the soldier in pursuit, when suddenly the Indian and his horse disappeared from sight. The soldier followed up carefully, until he stood on the brink of a precipice, 200 feet in depth. At the bottom lay the Indian and his pony, both dead. The faithful Indian, in his hurried attack, forgot about this cliff, and in his flight went to destruction.

Not the Right Prescription. Dr. Liddell's morning levers were crowded beyond description. It was his pride and boast that he could feel his patient's pulse, look at his tongue, sound him with a stethoscope, write his prescription and pocket his fee in a space of time varying from two to five minutes. One day an army man was shown into the consulting-room and underwent what might be termed the instantaneous process. When it was completed the patient shook hands with the doctor and said: "I am especially glad to meet you, as I have often heard my father, Col. Forester, speak of his old friend, Dr. Liddell." "What!" exclaimed the doctor. "Are you Dick Forester's son?" "I am, sir," "My dear fellow," exclaimed the doctor, "filing that prescription in the fire, please, and sit down and tell me what the matter with you!"

Iron and Steel. It is difficult, says a Belgian journal, to distinguish between iron and steel tools. They have the same polish and workmanship; use will commonly show the difference. To make the distinction quickly place the tool upon a stone, and drop upon it some diluted nitric acid (four parts of water to one of acid). If the tool remains clean it is of iron; if of steel, it will show a black spot where touched with the acid. These spots can be easily rubbed off.

Among the advertisements in a German paper there lately appeared the following: "The gentleman who found a purse with money in the Blumenstrasse is requested to forward it to the address of the loser, as he was recognized." A few days afterward the reply was inserted: "The recognized gentleman who picked up a purse in the Blumenstrasse requests the loser to call at his house."

Call It Quits. The gentleman who found a purse with money in the Blumenstrasse is requested to forward it to the address of the loser, as he was recognized." A few days afterward the reply was inserted: "The recognized gentleman who picked up a purse in the Blumenstrasse requests the loser to call at his house."

An Apt Reply. The apt replies in the language of compliment claim a literature of their own, but one must serve 'your indigee les apures.' "We shall never forget you," said a queen of society to one of her subjects, who was making his adieu. "Your ladyship has now given me the only inducement not to return."
