## PERPLEXING SITUATION IN THE PHILIPPINES.

No More Fighting in the Philippines, But the Natives Are in Force, and Well Armed.

ADDITIONAL LIST OF OUR KILLED AND WOUNDED.

Aguinaldo Issues a Proclamation in Which He Bitterly Arraigns the Americans, and Speaks of Our "Dastardly Intentions."

"MANY BRAVE BOYS MUST FALL."

Washington, Feb. 7.—The most important item of news received from the Philippines today was an additional casualty list from Otis. It is as follows:

Manila, Feb. 7.—Utah light artillery: Killed, Battery Sergeant Young, Corporal Young, Private Goodman; slightly wounded, Corporal Wardlaw, Privates Anderson and Russell.

First Washington: Killed, Ralph Shearer; slightly wounded, Captain Otis, First Lieutenant Erwin, Second Lieutenant Smith, Quartermaster Sergeants Clark and Clancy, Corporals Fellows, Delago, Mitchell, Schander, Timewell and McDougall; seriously wounded, Privates Dougherty, Greik, Cline, McLean, Seward, Heywood, Polly, Fox, Duncan, Kals, Fisher, Pruitt, Morgan, civilian Weatherby; slightly wounded, Privates Everett, Falt, Hoppe, Owen, Rivers, Lawson, Pray, Zeloder, Osborn, Cusker, Proudfoot, Bernier, Walton, McNeill, Hayes, Campbell.

First Idaho: Wounded, Musician Beck, Quartermaster Sergeant Scott, Privates Streeter, Hallor, Burke, Switzens, Payne, McCall, Hansen, Flewis, Harry, Shell, Keller, Payne, Walton, Jones, Koth, Bailey.

Twentieth Kansas: Wounded, Privates Hammon, Conway, Nelson, Battersby.

First California: Wounded, First Lieutenant Hogan, Sergeant Wall, Corporal Murphy, Privates Slade, Sherer, Cutting, Hogue, Helmroth, Rogers, Jentzen.

First Nebraska: Killed, Sergeant Rogers; wounded, Private Wiederer.

First Nebraska: Killed, Privates Ballanger, Pegler, Egger; wounded, Sergeant Curtis, Corporal Epp, Musician Pierce, Corporal Hill, Privates Bronson, Bowen, Ladox, Egan, Simonson, McKinney, Kencher, Kerr, Bridge, Fischer, Clotter.

Sixth artillery: Wounded, Lowerberg, Acting Hospital Steward Hemstead.

Third artillery: Killed, Corporal Dean, Sergeant Whitaker; wounded, Second Lieutenant Abernethy, Sergeant McQuade, Privates Corbett, Nelmeyer, Clampitt, Mitchell, Johnson, Schuennle, Mardier, Hawkins, Bloeges, Gray.

Tenth Pennsylvania: Killed, Corporal Landis, Private Rokwell; wounded, Private Kessler.

Americans Are in Complete Control.

Manila, Feb. 7.—The Americans this (Tuesday) afternoon are in complete control of the situation within a radius of nine miles of Manila, the lines extending to Malabon on the north and to Parang on the south, fully twenty-five miles long. While a few detached bodies of the enemy offer a desultory opposition, the main body is in full retreat, utterly routed. Fully one-third are incapacitated, and the others are scattered in every direction. Late yesterday Hale's brigade advanced, and took the earthworks at Singalon. The Filipinos were driven back and took away portions of the water works pumping machinery, this was afterwards recovered. Works will be in operation in a short time. Overseas' brigade advanced and took Parang, capturing two field guns. Arthur's division advanced beyond Galalangin without loss; the enemy retreated upon Calococan. A strong earthworks within sight of Calococan. White flags were displayed throughout the city. Despite this, there was considerable firing from upper windows of the native quarter of the city last night; fortunately without casualties. The converted gunboat did terrible execution among the rebels, sweeping both banks of the river with the machine guns. The Americans are working nobly in efforts to find the wounded, bringing in hundreds of suffering rebels into the hospitals. The natives are unable to understand the humane motives that prompt the victors to succor the wounded of the enemy.

Members of the hospital corps found several women, in male dress, with hair cropped, among the dead.

Vigorous Campaign to be Prosecuted.

Washington, Feb. 7.—It is understood that the campaign against the Filipinos will be prosecuted with vigor. The question was fully discussed in today's cabinet meeting. It is expected that Otis, in co-operation with Dewey, will push forward and give the insurgents no chance to recover from Sunday's defeat. Iloilo will be occupied by the naval forces. Otis is expected to move immediately on Malolos, the insurgent capital, and capture and disperse the so-called Filipino government.

In reply to a question, Alger said it didn't appear that Otis was in need of any instruction of any character just now. As near as can be learned, this is the sentiment of the administration, as all express unlimited confidence in American commanders at Manila.

Washington, Feb. 7.—Otis cabled the war department that the insurgent army in the vicinity of Manila numbered over twenty thousand, with several quick firing and Krupp field guns, which were mostly served by Spaniards. Our casualties probably aggregate 250. Insurgent loss in killed, wounded and prisoners is 4,000. The troops are in excellent spirits. Quiet prevails in the city.

Appalling Loss of the Rebels.

The appalling loss inflicted upon the rebels was much discussed. Officers of the war department who are acquainted with General Otis' declared, when the announcement came of the killing,

wounding and capturing four thousand of the enemy, that Otis undoubtedly underestimated his victory, as is his wont, instead of magnifying it.

As to the future operations of General Otis, he has been left to follow his own discretion. To assist him in the diplomatic situation, a full text of the peace treaty was today sent to him by cable. It will be published throughout his jurisdiction as a proclamation.

Iloilo Must Now Be Taken.

A forward movement is probable at Iloilo, where General Miller has been for weeks lying in front of the town in the transports. He never had any doubt of his ability to take the place whenever he got word, to do so, but there has been a restraining influence from Washington, based in part on the hope that the insurgents may be brought to a peaceful retirement from the town, and the apprehension that an effort to force a landing might result in serious injury to foreign interests. Now, however, it is felt that the latter are perhaps more in jeopardy from a continuance of the existing state of affairs than they will be through a rapid seizure of the town.

General Miller has with him the Eighty-first infantry and a battalion of artillery, and it is likely he will be strongly reinforced before an attempt is made to take Iloilo. The senate department was advised today by the White House that the senate had formally ratified the peace treaty. Secretary Hay immediately sent a notice to that effect to Theibaut, in charge of the French embassy, with a request that he communicate the fact to the Spanish government. There is nothing to do now but await the action of the Spanish government.

The Spanish cortes must ratify the treaty as did our senate. It is not believed there will be much delay. According to the terms of the treaty, final ratifications must be exchanged on or before the tenth of June. The exchange must take place in Washington, and the Spanish government will probably send a specially empowered ambassador for that purpose.

At some time before the ratifications are exchanged, the president must sign the treaty, thus formally approving the action of the senate; something he has not done up to this time.

Long Cables Congratulations to Dewey.

Naval officers have watched with pride the achievements of the navy during the recent fighting, and they felt gratified when the secretary of the navy this afternoon sent the following cablegram: "Dewey, Manila: Congratulations.

(Signed) LONG."

American Shipping Arms to Filipinos.

Washington, Feb. 7.—It may be that it was the act of seizing a vessel loaded with arms and ammunition intended for them, that incited the Philippine insurgents to attack American soldiers Saturday night, for it is understood that one of their bitterest grievances was what they declared to be unwarrantable interference with their shipping. It is learned at the navy department that about a week ago Admiral Dewey caused the seizure of a schooner, with a supply of arms for the insurgents. The admiral's report discloses the fact that an American and not a German owned the vessel thus being used to arm insurgents against Otis' troops.

The war department has repudiated the name of what has heretofore been known as the "colonial board," recently appointed to deal with insular questions, and consisting of Guild, Watkins and Kennedy; Guild declined the appointment, and no other appointment will be made to fill the place. The other two will remain, not as a board or commission, but as advisors to the war department, to pass upon whatever questions may be referred them by the secretary of war and president.

CONFUSION AND ALARM IN MANILA.

MANY DESPERADOES IN THE CITY—WHITE MEN ATTACKED ON THE STREETS.

Manila, Feb. 7.—8 p. m.—There are many indications that Manila is full of desperadoes who intend to co-operate with Aguinaldo. The police are continually capturing men and women with weapons concealed in their clothing. Saturday at midnight two Englishmen accidentally encountered a gang of armed natives in a dark side street. The natives, fearing discovery, imprisoned them until morning and threatened to kill them unless they maintained silence.

Many native clerks, employed by mercantile houses, are missing, though they are in hiding in the city. Several attempts have been made to assassinate Americans on the streets, but the danger is now at its minimum. The natives are terribly cowed, and the precautions taken, especially against incendiarism, are admirable.

The rebels, who have been swept in every direction like chaff, died by hundreds in the trenches, for the most part passively, except Ygorotes, who charged desperately and uselessly.

Rebel prisoners declare the attack unpremeditated; that the outposts fired and then everybody followed, in accordance with some sort of general understanding.

Manila, Feb. 8.—10 a. m.—Lieutenant Alford, (A. L. Ford?), Company I, Twentieth Kansas infantry, and six other members of the regiment wounded near Calococan last evening, while reconnoitering. The party was in the jungle when it was attacked by the enemy.

Two companies of the Kansas regiment were sent to the relief of their comrades, and drove the Filipinos into Calococan, penetrating to the very heart of the town. Meanwhile the gun boats shelled the suburbs.

General Otis finally recalled the troops but the natives, misunderstanding the retreat, failed to take advantage of it. The outskirts of the town were burned.

BATTLESHIP IOWA NOT TO GO TO MANILA.

Washington, Feb. 7.—There is no present prospect of the battleship Iowa which arrived at San Francisco today, being dispatched to Manila. She needs a good deal of repairing and no program has been mapped out for her yet.

## BRITISH PARLIAMENT IN JOINT SESSION.

To Listen to The Queen's Speech and Give a Fitting Response.

THE NEW LIBERAL LEADER, REPLYING SAID THAT THE

"Prospect of an Anglo-Saxon Union Tended Toward the Stability of Peace"

John Dillon Resigns Chairmanship of Irish Party.

TALK ABOUT ANGLO-SAXON ALLIANCE

London, Feb. 7.—The parliament assembled today. At 2 p. m. the commons were summoned to the house of lords, for the purpose of hearing the queen's speech. Joslyn Bagot, conservative member of South Westmoreland, moved the address in reply to the speech. Bagot said he was pleased to note "that bonds of mutual interest and kinship between this country and America have by recent events been drawn much closer;" he added: "An alliance between two great English speaking peoples need not necessarily be one of offense or defense, but might be one that would be admirably fitted to lead the nations of the world in the direction of freedom, civilization and progress." (Cheers.)

The new liberal leader, Sir Henry Campbell-Bannerman, replied. Among other things, he said that the prospect of Anglo-Saxon union tended towards the stability of peace. When the session of the lords was resumed, Salisbury, replying to a request for information, referred to the government did not contemplate the acquisition of territory in China nor dismemberment of the Chinese empire.

The destiny of China it was impossible to foretell. All government was concerned with at present was to see the treaties fully observed, that the interests of British subjects were safeguarded, and nothing done by either China or any other nation to compromise their rights.

At a meeting this afternoon of the anti-Parnellite members of parliament, John Dillon, chairman of the Irish parliamentary party announced his resignation of the leadership, his motive being the expectation that the Irish national convention, in March will come to a new arrangement for securing the unity of the national Irish party. The overwhelming nature of the sentiment in Ireland, was for a re-union of all nationalist members of the commons on lines of party policy followed under Parnell from 1885 to 1890. By declining to allow himself to be nominated again for the chairmanship during the present parliament, he hoped he would be credited with a desire to secure this re-union, which he was prepared to promote in every way in his power.

Salisbury on the Czar's Peace Proposition.

So far as the czar's rescript is concerned, Salisbury, said that no one could doubt the purity and humanity of his motives. "I should heartily rejoice," he continued, "if the conference achieved its humbler aim, and if by a steady use of the principle of arbitration we might be able to diminish the number of causes by which war is produced. If by humane legislation we could also diminish the horrors of war, we would render an immeasurable service to humanity. Meanwhile we must follow the example of other nations and be prepared for war. I do not believe this is imminent; but causes of war still subsist, and while doing our best in the blessed mission of peace, we must maintain that position of security which past generations have given us, and which we have to keep."

Salisbury said he could not give all the information desired regarding foreign affairs. The agreement between Germany and Great Britain, however, was of a character favorable to continued friendship between the two nations and to the right of all concerned, as well as to the peace of the world.

LEAGUE OF AMERICAN WHEELMEN

IS IN SESSION AT PROVIDENCE—WILL ATTEMPT TO DEAL WITH THE "PROFESSIONAL" QUESTION

Providence, R. I., Feb. 7.—The delegates of the national assembly of the League of American Wheelmen, from nearly every state in the union, arrived today. Cycling politics will play no little part in the early proceedings, and later the all important question of control of professional cycle racing will come up.

The committee on rights and privileges gave a hearing today in the case of A. K. Peck, former secretary-treasurer of the Massachusetts division. George A. Perkins represented the petitioners, and nearly the whole morning was taken up with putting that side of the case, tending to show irregularities in the election of the secretary-treasurer of the Massachusetts union, and going to show that Peck should be awarded this office.

General interest among delegates centers around the Massachusetts case. It involves league politics, and some men are very prominent.

No decision will be announced until Thursday. Men on the inside declare that Peck's claim will not be allowed. Little of importance took place at the experience meeting of officers tonight. The election of Keenan as president seems to be assured.

There is little talk on the racing question. The opinion prevails that the movement to relinquish control of the sport will be defeated.

PROMINENT PRELATE DEAD.

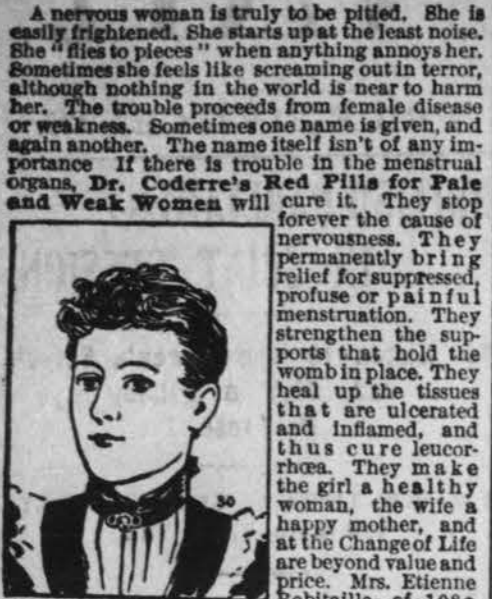

Middletown, Conn., Feb. 7.—Right Rev. John Williams, D. D. LL.D., ranking bishop of the Episcopal church in America, died tonight, aged eighty-one years. Grip was the cause.

TODAY'S WEATHER.

Washington, Feb. 7.—The following is the weather forecast for tomorrow for Upper Michigan: Fair and continued cold; light to fresh westerly winds.

Mrs. Etienne Robitaille  
Dr. Coderre's Red Pills Cured Her After  
Ten Years of Suffering.

A nervous woman is truly to be pitied. She is easily frightened. She starts up at the least noise. She "flies to pieces" when anything annoys her. Sometimes she feels like screaming out in terror, although nothing in the world is near to harm her. The trouble proceeds from female disease or weakness. Sometimes one name is given, and again another. The name itself isn't of any importance. If there is trouble in the menstrual organs, Dr. Coderre's Red Pills for Pale and Weak Women will cure it. They stop forever the cause of nervousness. They permanently bring relief for suppressed, profuse or painful menstruation. They strengthen the supports that hold the womb in place. They heal up the tissues that are ulcerated and inflamed, and thus cure leucorrhoea. They make the girl a healthy woman, the wife a happy mother, and the old a changed life and beyond value and price. Mrs. Etienne Robitaille writes: "Ten years of sickness with a complication of disorders—that is the terrible experience through which I passed. It was during the change of life, and with it I suffered from terrible headache, palpitation of the heart, bad digestion, nervousness, despondency, sleeplessness and loss of appetite. It seems like a miracle, but it is the absolute truth to say that Dr. Coderre's Red Pills overcame all my diseases, put me on my feet again, and made me a well woman. I am sure there are many happy years yet in store for me."

Do not hesitate to write our specialists for professional advice. They will reply to all questions free of charge. Send your name and address on postal card and get by return mail a free copy of our doctor book "Pale and Weak Women."

Dr. Coderre's Red Pills are widely imitated. Beware of all red pills sold by the dozen, the hundred or at 25c. a box. They are worthless imitations. Get the genuine article through which they have them—always 50 Red Pills in a box for 50c., or 6 boxes for \$2.50. Or you can send the price in stamps, or by registered letter, money order or express order to us. We mail them all over the world; no duty to pay.

Dr. Coderre's Red Pills, at 30c. a box, last longer than liquid medicines costing \$1. They are made to take, more convenient to carry, and they cure. Address all letters to

THE FRANCO-AMERICAN CHEMICAL CO.,  
Medical Department, Montreal, Canada.

MARQUETTE, MICH., FEBRUARY 8.

Entered as mail matter of the second class  
in the postoffice at Marquette, Mich.

INVADES THE MARQUETTE IRON  
RANGE.

It is all but settled that the Carnegie  
people have secured control of, and will  
hereafter operate, the Queen group of  
mines east of Negaunee, and that they  
have at last obtained a foothold on the  
first of the Lake Superior iron ranges on  
which mining ore was engaged in. This  
has no little significance as evidence of  
the value of the iron properties of Mar-  
quette county, and of the ability of our  
mines to hold their own in competition  
with those of the newer ranges, in the  
face of the claim heretofore made by  
the latter for the quality of their ores  
and the low cost at which they can be  
mined and placed on the market.

The Carnegie company has engaged in  
the business of mining ore because it  
seeks to obtain its raw material at the  
lowest cost, in order that it may be in  
the best possible position to meet com-  
petition at home, and also find a mar-  
ket abroad for a portion of its output.  
That company is now operating mines in  
Minnesota, where it has control of  
some of the best properties on the Me-  
saba range, and also on the Gogebic  
range in this peninsula, where it controls  
and is operating the Norrie group of  
mines. The first iron mines it secured  
were those which it is operating on the  
Mesaba range, and when it obtained  
large holdings on that range the opinion  
was expressed that it would use so  
much of the cheaply mined Mesaba ores  
that it would thereafter need but a small  
percentage of the ores of the older  
ranges. But the company soon sought  
and secured control of the greatest pro-  
ducers on the Gogebic range, this  
indicating that if it ever expected its Me-  
saba mines would suffice to provide it  
with all the ores it would need it was  
disappointed in that expectation; and  
now it comes to the old Marquette range  
for another group of mines, plainly be-  
cause it has found that it needs these  
to enable it to more completely meet its  
requirements for ore.

As we have remarked, this is excellent  
testimony to the value of the iron mines  
of Marquette county, and goes to estab-  
lish that they are easily able to hold a  
place in the market as active competi-  
tors against the newer mines of the  
Mesaba and Gogebic ranges.  
The city of Negaunee will, perhaps,  
be the greatest gainer by having these  
mines come into the hands of and be  
operated by so powerful a corporation as  
the Carnegie company, but this will be a  
good thing for the whole county, in our  
belief. It will take out of the list of  
general sellers a group of mines having  
a large producing capacity, and this  
will make a better market for the ores  
of others of the mines of the county.  
Again, it ensures that these mines, which  
have hitherto had a somewhat chequered  
career, will be steadily wrought, and  
that the men employed in them will not  
be every now and then thrown out of  
work and forced to seek employment at  
other mines in the county, thus creat-  
ing a plethora of labor at one time to be  
followed by a scarcity subsequently.  
The great need of the iron industry is  
stability of values for the producer and  
of wages for the labor employed in it,  
and the advent of the Carnegie interest  
in the county as an operator of mines  
will have a steadying effect on the iron  
mining industry within its borders.

OUR RANK UPON THE SEA.

The United States now occupies a po-  
sition of fifth rank in the potentiality of  
its shipping engaging in the foreign  
carrying trade, Great Britain, Germany,  
France and Norway taking precedence  
in the order named. The bill now in  
congress to give new life to the building  
of ships in the United States, to be  
owned and manned by our own citizens,  
and to engage in competition with the  
foreign ships that now monopolize our  
foreign carrying trade, will, in a few  
years—so it is believed by those best  
informed—give to this country at least  
second rank upon the sea, in the volume  
and value and potentiality of its ship-  
ping.

Any day the bill introduced in the  
house of representatives by Mr. Payne,  
of New York, and which has been re-  
ported favorably by the proper com-  
mittee, may be passed in that branch of  
congress, and from there go to the  
senate, where an identical bill, intro-  
duced in that branch of congress by  
Senator Hanna, has also been favorably  
reported, and through which body its  
early passage is predicted.  
At the end of the decade, if the so-  
called Hanna-Payne shipping bill passes  
congress and receives the approval of  
the president, we shall probably see the  
United States in a battle royal with  
Great Britain for supremacy upon the  
sea. Already this country possesses  
the materials used in shipbuilding in  
greater abundance than any other nation.  
This material can be placed in our ship-  
yards cheaper than it can in any other  
shipyards in the world. All that we  
need is the steady employment in our  
shipyards that the bill referred to would  
give for the next twenty years, in order  
to build ships as cheap, if not cheaper,  
than they can be built anywhere else in  
the world. Shipbuilding is a prerequisite  
with any nation aspiring to great

maritime rank. All the conditions  
favor supremacy in this country in ship-  
building, if the bill in question gives the  
needed impulse.

A GOOD SUGGESTION.

The Mining Journal is in receipt of the  
following communication from W. S.  
Prickett, the well known Sidaaw "hust-  
ler" and boomer:  
Sidaaw, Feb. 5, 1899.  
To the Editor:—As nearly every town  
in the upper peninsula is interested in  
the proposed Normal school, why not  
open the columns of The Mining Journal  
a certain day, one or two weeks hence,  
to the Business Men's associations of the  
different towns, allowing each to enu-  
merate the advantages it possesses for  
the location of the school. It would  
seem to me that such an edition would  
not only make interesting reading, but  
would be of incalculable service to the  
commission later in deciding on the lo-  
cation for the school.

In accordance with the idea embodied  
in Mr. Prickett's note, space will be  
given in Saturday's number of The Mining  
Journal to communications setting forth  
the advantages of such of the competing  
locations for the proposed school as the  
advocates of each may see fit to place  
before the public through the medi-  
um of the paper, no article to occupy  
more than half a column. Articles must  
be in Friday to be sure of insertion.  
Now, then, gentlemen who have loca-  
tions to champion, show up or shut up.

There need be no surprise over the  
strength of the copper market when the  
price of the metal is taken into account.  
With copper at eighteen cents a pound  
and a demand for all that can be pro-  
duced, a copper mine that yields mineral-  
bearing rock carrying one and one-half  
per cent. of copper is worth more than  
a gold mine. The same rate of advance  
in the selling price of iron ore would  
start a boom in iron mining which  
would equal that in copper mining, and  
which some people persist in denomi-  
nating a "craze," though as a matter of  
fact there is nothing looney or illegitimate  
about it. Iron mines are being wrought  
profitably now, with ore selling for less  
than the transportation charges on it  
would have been twenty years ago. Is  
it a matter for special wonder, then,  
that copper mines that could not be op-  
erated at a profit when they were hand-  
icapped by inadequate transportation fa-  
cilities and hampered by crude and ex-  
pensive methods can be worked at a  
large profit now, with railroads vying to  
supply their needs for transportation  
and methods of mining so improved that  
the cost of production is but a fraction  
of what it was a couple of decades ago?

What a mine of any kind can earn is the  
measure of its value, and there can be  
no reasonable doubt of the ability of  
many of the new copper properties now  
being exploited to yield handsome re-  
turns on the money being expended in  
their development, with copper at even  
thirteen cents a pound, provided they  
are properly equipped and carefully man-  
aged.

The ratification of the peace treaty is  
a fortunate result for the country, which  
would be placed in a most humiliating  
and embarrassing position by its rejec-  
tion. It should have been ratified long  
before this, but we have reason to be  
thankful that the senate acted as wisely  
as it did ultimately, when it escaped do-  
ing the wrong thing by so narrow a mar-  
gin. That branch of congress misses be-  
ing idiotic by a perilously small major-  
ity.

CHAMBERLAIN'S COUGH REMEDY  
ALWAYS PROVES EFFEC-  
TUAL.—There are no better medicines  
on the market than Chamberlain's. We  
have used the Cough Remedy when all  
others failed, and in every instance it  
proved effectual. Almost daily we hear  
the virtues of Chamberlain's remedies  
extolled by those who have used them.  
This is not an empty puff, paid for at  
such a line, but is voluntarily given in  
good faith, in the hope that suffering  
humanity may try these remedies and,  
like the writer, be benefited.—From the  
Glennville (W. Va.) Pathfinder. For  
sale by The Stafford Drug Co.

Cures croup, sore throat, pulmonary  
troubles—Monarch over pain of every  
sort. Dr. Thomas' Electric Oil.

well seasoned. Price in pile at city pow-  
er station, \$12 per thousand feet. Light  
& Power Commission, R. A. Wilson,  
Superintendent, Marquette, Mich.  
(12-15-t)

AUGUST FLOWER.—"It is a sur-  
prising fact," says Professor Houton,  
"that in my travels in all parts of the  
world, for the last ten years, I have met  
more people having used GREEN'S AU-  
GUST FLOWER than any other reme-  
dy, for dyspepsia, deranged liver and  
stomach, and for constipation. I find  
for tourists and salesmen, or for persons  
filling office positions, where headaches  
and general bad feelings from irregular  
habits exist, that GREEN'S AUGUST  
FLOWER is a grand remedy. It does  
not injure the system by frequent use,  
and is excellent for sour stomachs and  
indigestion." SAMPLE BOTTLES  
FREE at Stafford's drug store. Sold by  
dealers in all civilized countries.

Had No Appetite

This and Other Complaints Cor-  
rected by Hood's.  
"I was terribly run down and had no  
appetite, a sallow complexion, and a very  
poor memory. I was also troubled with  
kidney complaint. I began taking Hood's  
Sarsaparilla, and after I had used it for a  
while I found that it gave me good health,  
and saved me large doctors' bills." Mrs.  
ESTER EAGER, Holly, Michigan.  
Hood's Sarsaparilla  
is the best—in fact the One True Blood Purifier.  
Hood's Pills cure sick headache. 25c.

FENCE SEVENTY MILES LONG.  
Will Keep South Dakota Cattle from  
the Pine Ridge Reservation.

Parties arriving from the interior of  
the ceded Sioux lands in South Dakota  
report that the mammoth fence along  
the entire northern boundary of the Pine  
Ridge Indian reservation, which has  
been projected for several years, is  
finally being constructed, and will be  
completed in a few days.  
The fence is one of the longest in the  
west, having a total length of nearly  
seventy miles. It is the direct out-  
growth of cattle belonging to white  
stockmen in the ceded lands north of the  
Pine Ridge reservation drifting to the  
Indian lands during severe winter  
storms, notwithstanding that Indian po-  
lice were patrolled the border.  
Before the construction of the fence  
the reservation and the ceded lands were  
divided only by the White river, which  
when frozen in winter formed no ef-  
fective barrier against the invasion of  
cattle belonging to white stockmen,  
which drifted with blizzards to the res-  
ervation.

This resulted in considerable friction  
between some of the Indians and the  
cattlemen. Only last year nearly 1,000  
head of cattle belonging to members of  
the Western South Dakota Stock Grow-  
ers' association, having been found on  
the reservation, were seized by the In-  
dians and held for their care during the  
interval pending their voluntary removal  
by the owners.  
The services of South Dakota's dele-  
gation in Washington were required to  
secure the release of the cattle without  
the necessity of paying the excessive  
amount demanded by the Indians.

Since then the friction between the  
cattlemen and the comparatively small  
handful of Sioux, reached an acute  
stage, and the construction of the fence,  
which was first agitated several years  
ago, was finally determined upon.  
At one time since this course was de-  
cided upon by the commissioner of In-  
dian affairs it was seriously believed  
that an attempt of Sioux at Pine Ridge  
agency, led by Red Cloud, would re-  
sult in force to prevent its construction.  
The chief objections were that the  
money to be used in the erection of the  
fence, which cost about \$200 per mile,  
was taken from the funds deposited in  
the credit of the tribe in the treasury at  
Washington, which money was intended  
for congress for educational purposes  
only, and that to put it to the use pro-  
posed would be a violation of law and  
their treaty rights.

It was pointed out that while there  
were nearly 1,000,000 head of cattle on  
the ranges in the ceded Sioux lands dis-  
tribution, in one winter only 900 head  
drifted to the Indian lands and that this  
comparatively small number did not  
justify the construction of an expensive  
and useless fence, especially when it  
was concluded to charge the expenditure  
to the Indians' account.  
The new fence does not closely follow  
the White river, but runs as close to it  
as is permitted by the dense under-  
growth if timber. On the Indian side of  
the line live many Sioux who have in  
the aggregate a large number of cattle  
of their own. These, it is expected, will  
be able to procure abundant supplies of  
water from the "draws" running back  
from the river to the Indian side of the  
fence.

The structure has five wires, and is  
very durable, the posts being of iron and  
cedar, placed alternately, so that if  
prairie fires destroy the cedar posts the  
iron posts will still maintain the fence  
in good condition.  
Gates are placed at intervals, to be  
used in emergencies when it is neces-  
sary to get to the river. The gates are  
securely locked, and no one will be per-  
mitted to have keys to them except a  
white government employe, known as  
the boss farmer, and the Indian agent  
himself.

The fence does not run through an in-  
habited portion of the reservation, and  
it will not be a serious task to maintain  
a watch upon it similar to that main-  
tained by railroad section men for the  
purpose of keeping tracks in good re-  
pair.—New York Journal.

State of Ohio, City of Toledo, Lucas  
County.—ss.  
Frank J. Cheney makes oath that he  
is the senior partner of the firm of F. J.  
Cheney & Co., doing business in the  
city of Toledo, county and state afore-  
said, and that said firm will pay the  
sum of one hundred dollars for each and  
every case of catarrh that cannot be  
cured by the use of Hall's Catarrh Cure.

A PLAIN LETTER

About Four Hundred Baltimore Rye  
from Petoskey's Most Prominent Physi-  
cians.  
Reycraft & Reycraft, Physicians and  
Surgeons, Office over Postoffice.  
Petoskey, Mich., Jan. 21, 1899.  
The Crown Distillery Co., Cincinnati, O.  
Gentlemen: Having thoroughly test-  
ed your Four Hundred Baltimore Rye  
whiskey, we believe as a remedial  
agency it is one of the best of its kind,  
and we recommend this brand in every  
case where a stimulant is indicated. It  
is perfect in stimulation. Mellow, well  
matured and peculiarly adapted as a  
medicant in typhoid and other low types  
of fever. We always take pleasure in  
prescribing and recommending its use  
when a tonic or stimulant effect is de-  
sired. Very truly  
DRS. REYCRRAFT & REYCRRAFT.

Rich, pure and mellow; guaranteed ten  
years old; sold at all first-class cafes  
and at drug stores. (1-26-t)

The Best Cough Remedy on Earth.

Warner's White Wine of Tar  
Syrup, Consumption Cure, cures  
a cold in 24 hours if taken in time  
and does not stop a cough in one  
minute by paralyzing the throat,  
but it cures the disease and leaves  
the throat and lungs healthy and  
strong. 25c and 50c.

"NOT INTO TEMPTATION."

Thou great, unchanged, eternal One!  
Thou God of nations, filled with awe  
We thank Thee for the course we run  
'Neath Thy unalterable law.  
We feel that so far on our way  
Thy guiding care had but to bless  
A life which ever forward lay  
And ever looked to righteousness.  
We give Thee songs of praise that Thou  
Hath so disposed us for our weal,  
And all thanksgiving even now  
For our unconquerable zeal.  
But from this zeal hath grown such  
might,  
With no grave errors to retrieve,  
That time may come, may be in sight,  
When we the old time way would leave.  
And reaching out our cleanly hands  
Across the seas, across the zones,  
Follow the lead of other lands  
To spoil the weak, outwit the drones.  
And strong, resourceful, fearing naught,  
From shore to shore our way extend,  
Till o'ergrown empire, weak, distraught,  
Has but disunion for an end.

Show Thou the father's path and lead  
Where no world circling ill beset!  
Stay us in every outward greed!  
Stay us, great God! e'er we regret!  
—Chalmers Roberts, in Harper's Weekly.

WOMAN BOUGHT HERSELF.

An unfortunate old woman, poor, her  
usefulness gone, her friends driven from  
her by her peculiarities incident to old  
age, has just been sold at auction to  
the lowest bidder by the overseers of  
the poor of Lackawaxen township, Pike  
county, Pa. Despite her age, however,  
her mind is acute, and she started the  
auctioneers by bidding on herself.  
The woman who was put on the block  
was Mrs. Elmira Quirk. She is sev-  
enty-seven years old, and has resided  
nearly the whole of her life in Lacka-  
waxen township. Her sale at auction  
was in pursuance to a custom which  
long has prevailed in that township. It  
has been customary with the various  
poorasters to sell the poor of the town-  
ship each year to the lowest bidder, in  
preference to being annoyed with the  
care themselves, and about the begin-  
ning of the year a large sign, with the  
glaring headline, "A Woman for Sale,"  
can be seen posted about the township,  
for it seldom betrays a man to become  
dependent upon the district.

When the bidders assembled at War-  
ren K. Rutan's hotel, at Rowland sta-  
tion, the overseer of the poor Mr. Ros-  
encrance, a former Pike county com-  
missioner, and Warren Rutan, who also  
acted as auctioneers, took the floor and  
announced that a woman was to be  
"sold to the lowest bidder for keep for  
the year." The room was crowded, and  
many outside eagerly clamored for ad-  
mission to the little hostelry. The bid-  
ding started at \$1 a week, and was very  
spirited. The auctioneers were about  
to "knock down" the woman to a back-  
woodsman for \$1.50 a week for board,  
clothing, medical attendance, etc., when  
Mrs. Quirk, who had been a silent list-  
ener to the proceedings, arose from her  
chair, and in quiet tones said:  
"I will bid \$5 a month. I will have no  
trouble to maintain myself on that  
amount."

This turn in the proceedings was  
wholly unanticipated, and created gen-  
eral surprise. For how was the aged  
woman to live on sixteen cents a day?  
No one seemed willing to go below Mrs.  
Quirk's bid, and the auctioneer saw no  
alternative but to sell the woman to her-  
self, and the papers were accordingly  
drawn up.

ENGLAND AND THE CANAL.

The London Daily News intimates  
that, in all probability, England will  
abrogate the Clayton-Bulwer treaty if  
the United States desires to build the  
Nicaragua canal. We have no doubt  
that this reflects English sentiment.  
Fifty years ago, when the treaty was  
signed, conditions were materially dif-  
ferent and the relations between the  
two countries rested upon feelings very  
different from those now prevailing.  
Then the relations were amicable, but  
there was no love lost between the two  
great Anglo-Saxon nations. Each  
feared to give the other any advantage,  
no matter how small, and each feared  
that a conflict would come sooner or  
later. Now, however, both are well  
aware of the fact that an Anglo-Saxon  
alliance in sentiment is an accomplished  
fact, and of wonderful power as a peace  
factor, as other nations have no desire  
to meet the team in a trial of strength.

Under these circumstances, what  
benefits one benefits the other, and Eng-  
land will without doubt, be perfectly  
willing to allow the United States to  
build, own, control and operate the canal  
if it passes through Nicaragua. This,  
of course, she could not do with the  
treaty in force, which provides that  
neither England nor America should ex-  
ercise control over it when built. It  
would appear that if nothing stands in  
the way but the abrogation of the  
treaty, the canal is all but an accom-  
plished fact.—Cincinnati Commercial-  
Gazette.

REMARKABLE RESCUE.

Mrs. Michael Curtin, Plainfield, Ill., makes  
the statement, that she caught cold,  
which settled on her lungs; she  
was treated for a month by her family  
physician, but grew worse. He told her  
she was a hopeless victim of consumption  
and that no medicine could cure her.  
Her druggist suggested Dr. King's New  
Discovery for Consumption; she bought  
a bottle and to her delight found herself  
benefitted from first dose. She continued  
its use and after taking six bottles, found  
herself sound and well; now does her  
own housework and is as well as she  
ever was. Free trial bottles of this Great  
Discovery at the Stafford Drug company.  
Large bottles 50 cents and \$1.00.

Skin Diseases.

For the speedy and permanent cure of  
tetter, salt rheum and eczema, Cham-  
berlain's Eye and Skin Ointment is  
without an equal. It relieves the itching  
and smarting almost instantly and  
its continued use effects a permanent  
cure. It also cures itch, barber's itch  
scald head, sore nipples, itching piles,  
chapped hands, chronic sore eyes and  
granulated lids. For sale by The  
Stafford Drug Co.  
Dr. C. Dr.'s Camellia Powders for  
roses are the best tonic, blood purifier  
and vermifuge. Price 25 cents. For  
sale by The Stafford Drug Co.

What is Celestine King?  
It is an herb drink, and is a positive cure  
for constipation, headache, nervous disorders,  
rheumatism, kidney diseases, and the vari-  
ous troubles arising from a disordered stom-  
ach and torpid liver. It is a most agreeable  
medicine, and is recommended by physicians  
generally. Remember, it cures constipation.  
Celestine King is sold in 25c. and 50c. packages  
by druggists and dealers.  
Sold by The Stafford Drug Company.

Copper Country Department

HE GOES FOR JOHN STANTON. ONTONAGON COPPER MINES.

JUDGE HUBBELL TAKES A FALL OUT OF THE ATLANTIC MANAGER FOR ULTRA CONSERVATISM.

"What do you think about Atlantic?" was the question The Mining Journal asked Judge Jay A. Hubbell yesterday. "Atlantic" repeated the Judge. "Atlantic has a low grade amygdaloid, similar to the Ashbed. The yield varies from year to year in its yield of copper per ton but has always managed to earn money and, bar accidents like the recent fire, to pay a dividend of at least \$1 per share. That is what it has done during the period of low prices in copper, prior to the present rise.

"Sometimes it is reported that the yield of copper is low but always before the year ends the yield becomes an average one. With copper at 16 cents Atlantic can earn, on the basis of last year's production, \$1 per share net. It has its railroad to the lake, a first class stamp mill, a water supply from the river without pumping and can treat rock as cheaply, if not more cheaply than any other mine in the county.

"The main trouble with Atlantic is John Stanton. "He is one of the most honest and one of the best mine managers or treasurers in the whole country, and knows more about copper than any other man in the United States; he never criticizes the yield of other properties but he is always in a heap of worry when he is not able to give Atlantic a black-eye, not because of viciousness but because of ultra conservatism. If he criticizes his own children in the same strain that he does Atlantic they must perceive lead unhappy lives. Everyone knows that Atlantic is a low grade mine but every mining man in the county knows that with copper at 16 cents Atlantic can earn at least \$6 per share.

"I don't say that it ought to pay that, but it ought to pay very handsome dividends and at the same time build up a strong reserve for its treasury and Mr. Stanton knows this as well as I do, and still he'll shake his head, look wise and say that Atlantic doesn't yield as much copper per ton of rock as it really ought to—yet he knows that it yields enough per ton under his careful and economical management to earn a heap of money at 16 cents.

"Nobody admires John Stanton more than I do; he is a lovable man in every way, but somehow he can't help criticizing his own mining offspring. Sometimes I think that he has been talking about a low grade mine at Atlantic so long that he has found an inveterate habit of so doing, a habit so inveterate that whenever anybody says anything about Atlantic John from mere force of habit just can't help throwing a wet blanket over the mine.

"At the present price of copper Atlantic can pay better than 10 per cent. on \$50 a share, that's what's the matter with Atlantic."

STEVENS' BOSTON MARKET REPORT. A STRONG UPWARD MARKET, WITH THE BEARS GOING TO COVER—NEW STOCKS IN DEMAND.

Boston, Feb. 7.—(Special).—There is a strong bull market on copper; the bears are sore, and many are going to cover. All the low priced stocks are sharing in the upward movement, which is very strong and promises higher prices for Wednesday. Stackpole and Gay bought 2,000 shares of Wyandotte during last week, up to Friday, to protect the subscription price of eight dollars. Yesterday and today this stock was sold on the exchange at \$9 or \$10; about twelve hundred shares of Wyandotte is lodged at \$10. When this is taken, the market will jump in a few minutes to \$11 or \$12. Victoria is strong, and all of new stocks are in strong demand with rising prices. Paine, Webber & Co. broke all Boston stock exchange records Monday, by executing exactly \$25 buy and sell orders.

HORACE J. STEVENS.

THAT INCREASE OF PAY. PRESIDENT AGASSIZ OF THE CALUMET & HECLA ALWAYS SETS THE PACE, OTHERS FOLLOW.

The question of an increase in pay for the miners of Houghton county is beginning to trouble the outside press. Needless to say, gentlemen, The Calumet & Hecla always makes the first move in this direction and when it sets the pace the other mines promptly follow. President Agassiz believes in good wages for his miners and is always glad to have their share in the prosperity of the mine. Copper at 16 and 17 cents means increased profits for the great producer and it just as surely means an increased wage-rate for its miners. No corporation in the country treats its men more handsomely than the Calumet & Hecla and no employment in Michigan is more eagerly sought than is that of the Calumet & Hecla, by the miners of Houghton county.

GIACRINO VIGNETTO ON TRIAL.

CHARGED WITH THE MURDER OF GEORGE G. RUSSELL AT CALUMET ON DECEMBER 6.

The trial of Giacomino Vignetto, the Calumet saloonkeeper charged with the murder of the book agent, George G. Russell, at Calumet on Dec. 6 last, was taken up in the circuit court yesterday. Prosecuting Attorney G. J. Larson being assisted by A. T. Stroeter of Calumet in the prosecuting and W. J. McDonald with Hon. John Power of Escanaba as counsel appearing for the defense. The regular panel of jurors was exhausted shortly after 7 o'clock and an adjournment was taken until 2 o'clock to permit the sheriff to summon veniremen. The entire day was taken up in filling the jury and the hearing of testimony will be taken up today.

FOR RENT.

The store room now occupied by D. Toplan, Lake Linden, will be for rent on and after March 1. For terms, apply to Chas. Therrien, Lake Linden, Mich. (1-17-17)

WALTER BAKER & CO.'S BREAKFAST COCOA. "A PERFECT FOOD—as Wholesome as it is Delicious." Has stood the test of more than 100 years' use among all classes, and for purity and honest worth is unequalled. Costs less than ONE CENT a Cup. Trade-Mark on Every Package. WALTER BAKER & CO. LTD., ESTABLISHED 1780. DORCHESTER, MASS.

Author of a similar bill before the Wisconsin legislature in 1891. Mr. Doran of Saginaw sought fame and he obtained it; fame was presented upon him heaped up and running over; it fairly came in chunks, and finally, when the "Doran bill" went whizzing down into obscurity its author went with it. Mr. Baker evidently yearns for a similar experience of rapid transit to a state of innocuous desuetude, to use a Clevelandism, when he proposes a tax of 1 cent a pound upon copper and of 60 cents a ton upon iron ore mined in the upper peninsula. The 159,000,000 pounds of lead-copper produced last year would yield a revenue of \$1,590,000; while the Norrie mine alone would have been compelled to pay two-thirds of a million, or more money than it earned last year.

A tax of 60 cents in these days, when the mines of this peninsula are having a hard struggle even under greatly reduced royalties and with the greatest economy to compete with the vast Mesabi deposits, would close up every iron mine instantly. The erudite legal and free silver luminary must have forgotten entirely in his scheme the price fixed for Bessemer ore this season, an advance of 20 cents a ton in this year of booms and that given to the labor employed in mining the ore!

The scheme, too, is not "equal taxation" by several jugfuls. Tax the Calumet & Hecla or the Quincy a cent a pound upon their product, and then pound on its product, and the inequality becomes laughable. Go to, Mr. Baker; your ideas of plunking the state treasury full of upper peninsula dollars will do more to start up a howl from northern Michigan to be set off as a state by itself than almost any other cause could; for when the supposed leaders of the lower peninsula in education and intelligence make such exhibitions of almost criminal ignorance regarding our mining interests what can this peninsula expect from the ordinary run of pumpkin-thrashers?

DEATH OF PETER W. NEU. WELL KNOWN CHICAGO STONE MAN MEETS ACCIDENTAL DEATH AT SAN FRANCISCO.

Monday's Chicago Record announced the death of Peter W. Neu, long interested in the well known Portage Entry and Marquette stone firm of Furst, Neu & Co. and a man who possessed a wide acquaintance in upper peninsula sandstone circles. The Record said: The funeral of Peter W. Neu, the Chicago contractor, who was killed in San Francisco, Saturday, will be held at the Neu residence, 454 West Congress street. It is expected the body will reach here Thursday.

Mr. Neu was a member of the firm of Heldmaier & Neu. Last month he went to California to look after the interests of his firm, which had the contract for the construction of the San Pedro harbor breakwater. Saturday afternoon, in company with a number of friends, Mr. Neu was taking a trolley ride about San Francisco, when the front axle of the vehicle broke and the passengers were thrown out. In falling Mr. Neu's head came in contact with an iron post which was used as a trolley-wire support. He was picked up unconscious, and it was discovered that his skull was fractured. He died before he could be taken to a hospital. Mr. Neu was fifty-two years of age.

AH, THERE, MR. PATRICK.

If the weather sharp down at Marquette, who informed a confiding public at the time of the January thaw that the backbone of the winter was broken, will visit the copper country these days he will be introduced to the liveliest broken back-bone it has ever been his fortune to meet, and a lot of indignant householders who have been sitting up nights recently putting blankets on water pipes or have been putting in their days chasing plumbers, will be delighted to form his acquaintance. At 6:30 yesterday morning the thermometer on the north side of the F. A. Douglass house, West Houghton, read 40 below zero, at 8 o'clock it was 28 below at the Douglass House, at 9, 24 below and at 11 18 below. The steam and smoke from the chimneys on both sides of the lake settled down into the Portage Lake valley like a huge fog bank and it was not until the bright sun of noon got in its work that it lifted. Reports from all parts of the county showed that the cold wave was general although the lowest temperatures were on the lower levels, close down by the lake, east of Houghton.

WYANDOTTE'S EXTENSIVE HOLDINGS.

Deeds conveying 1,040 acres of land to the newly organized Wyandotte Copper company were filed with Register of Deeds William Walls at Houghton Monday. The lands involved are the following: Thomas J. Chadbourne and wife, Houghton, to Wyandotte Copper company, the NW 1/4 Sec. 21, T 42 N, R 36 W, in Laird township, Houghton county, consideration \$40,000; W. D. Calverly, Houghton, to Wyandotte Copper company 1/2 of the SW 1/4 Sec. 21, 22-36, consideration \$10,000; M. Van Orden, trustee, Houghton, NW 1/4 Sec. 21, W 1/2 of the SW 1/4 Sec. 21 and the E 1/2 of SE 1/4 of Section 20, 22-36, consideration \$150,000; Daniel Crawford and wife, of Detroit, an undivided one-half interest in the S 1/2 of Sec. 16, 22-36, consideration \$55,000; Martin Conway, of Hancock, SE 1/4 of Sec. 21, 22-36, consideration \$8,000; Andrew Kauth and wife, of Hancock, an undivided one-half interest in the S 1/2 of Sec. 16, 22-36, consideration \$55,000.

ENTERPRISING DRUGGISTS.—There are few men more wide awake and enterprising than the Stafford Drug company who spare no pains to secure the best of everything in their line for their many customers. They now have the valuable agency for Dr. King's New Discovery for Consumption, Coughs and Colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness, and all affections of the Throat, Chest and Lungs. Call at above drug store and get a trial bottle free or regular size for 50 cents and \$1.00. Guaranteed to cure or price refunded.

DRINK GRAIN-O after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure. Doan's Ointment. Absolutely safe; can't fail.

MARDI GRAS AT NEW ORLEANS, La., February 14, 1899.—For the above named event the D. S. S. & A. R. Y. will sell tickets to New Orleans, La., and return at very low rates. Tickets will be on sale February 6, to 12, inclusive and will be good for return passage until February 28, inclusive. For further particulars apply to station and ticket agents or to Gen. W. Hibbard, G. P. A., D. S. S. & A. R. Y., Marquette, Mich. (2-3-12)

Consumption Cure—Warner's White Wine of Red Syrup, the best cough remedy on earth, cures a cold in one day if taken in time. 25 and 50c.

HAS MONEY TO BURN.

Millions for Defense Asked for, and Millions for Internal Improvements Granted.

FORTY-FIVE APPROPRIATION BILLS PASSED THE HOUSE YESTERDAY.

In the Senate the MacEney Resolution Was Discussed, but Not Voted On. Secularism in the Indian Appropriation Bill.

HOUSE HUSTLES APPROPRIATION BILL.

Washington, Feb. 7.—Today and tomorrow were set aside in the house for the consideration of public building bills. The committee had reported seventy-eight bills for buildings in thirty-five states, authorizing in the aggregate an expenditure of \$14,660,900.

SENATE TALKS BUT DON'T DO MUCH.

Washington, Feb. 7.—For two hours the senate today had the MacEney resolution declaratory of the policy this government in the Philippines under discussion, but no vote was reached, and the resolution went finally to the calendar.

SECTARIANISM IN INDIAN MATTERS.

The Indian appropriation bill was then taken up. On motion of Senator Pettigrew the bill was amended by the insertion of an agreement between the lower Brule and Rosebud Indians for the transfer of the Brules to the Rosebud reservation.

When the committee amendments providing for Indian schools reached Senator Gallinger, of New Hampshire, he objected to the amendment providing for contract schools. He opposed appropriating the public money for Indian schools. The committee man in charge of the bill said he thought this would be the last appropriation for sectarian schools.

FIRE ON A FLAG OF TRUCE.

PARTY OF FILIPINOS AT CALOOCAN SEND OUT A FLAG OF TRUCE, AND THEN FIRE ON THE AMERICANS WHO COME TO MEET IT—AGINALDO'S PROCLAMATION ARRANGES THE AMERICANS.

Manila, Feb. 7.—At 2 p. m.—A Filipino colonel came out this morning from Caloocan, under a flag of truce. Several American officers promptly went to meet him, but then the parties met the Filipino opened fire. The Filipino apologized for the barbarous conduct of his troops and returned to his lines.

The missing parts of the pumping machinery of the water works have been discovered buried in a coal pile at Sunaon station. The machinery will soon be in working order again, and the employees having promised return to work this evening, it is improbable that the threatened water famine will occur.

MANITABA HOTEL IS BURNING.

Winnipeg, Man., Feb. 7.—The Manitoba Hotel, the largest hotel in the Canadian west is in flames at 1 o'clock this (Wednesday) morning and will be a total loss. The building was erected at a cost of half a million dollars, and was crowded with guests, owing to the carnival now in progress.

ANOTHER RAILROAD SOLD BY THE COURT.

Pierce, Neb., Feb. 7.—The Yankton, Norfolk & Southwestern railway was sold here today by order of the circuit court. W. W. Graham of Norfolk, O., bid in the property for forty-five thousand dollars. Graham was the complainant in foreclosure proceedings and also one of the contractors for building the proposed road in 1871.

IOWA CENTRAL DECLARES DIVIDEND.

New York, Feb. 7.—The Iowa Central directors declared a dividend of 1 1/2 per cent. on preferred stock, but named no period for which the dividend is paid. It was understood, however, by interests connected with the management that the dividend is intended to be semi-annual.

GREEN PLAYS SICK DODGE.

Grant's Political Manager, Who Should Have Appeared Before Investigating Committee.

SENDS WORD THAT HE IS TOO SICK TO APPEAR.

Presents a Communication in Which He Claims That He "Never, No Never" Tried to Buy Any Votes.

IF HE ISN'T SICK, HE'LL CATCH IT.

Sacramento, Cal., Feb. 7.—The Republican vote for United States senator today was the same as it has been for the last three weeks.

NAVAL COMMITTEE AGREES TO CALL FOR TWELVE NEW WARSHIPS, TO COST \$28,367,200.

Washington, Feb. 7.—The naval committee of the house today reached a conclusion on several important items. In all twelve new warships are agreed to, and three more are under consideration. The committee followed the recommendations of the secretary of the navy, and passed on the first, second and fourth classes of new ships recommended by him.

EAGAN'S SENTENCE MADE KNOWN.

COURT MARTIAL SENTENCED HIM TO DISMISSAL, BUT THE PRESIDENT COMMUTES THIS TO SUSPENSION FOR SIX YEARS.

Washington, Feb. 7.—The president today caused to be promulgated the sentence in the case of General Eagan. The court martial sentenced him to dismissal from the army, but the president commuted this to six years suspension from duty, which covers the remainder of the time to General Eagan's retirement in January, 1905.

GREATEST TRUST YET DEvised.

PROPOSED CONSOLIDATION OF ALL STEEL AND IRON COMPANIES, WITH A CAPITAL OF SEVEN HUNDRED MILLION DOLLARS.

New York, Feb. 7.—The Times tomorrow will say: The National Steel company is about to be incorporated in New Jersey, with a capitalization of fifty millions. The merger will, it is asserted, be in the interest of the American Tin Plate company.

CANNED GOODS ASSOCIATION MEETS.

THEY ELECT OFFICERS—BUT SEEM TO HAVE AVOIDED THE SUBJECT OF EMBALMED BEEF.

Detroit, Feb. 7.—The executive session of the annual meeting of the Western Packers' Canned Goods association was held here today. About one hundred members were present. President Whitmer, of Bloomington, Ill., read the annual address, and the officers' reports were submitted.

LARGEST HOTEL IN CANADIAN WEST WILL BE A TOTAL LOSS.

Winnipeg, Man., Feb. 7.—The Manitoba Hotel, the largest hotel in the Canadian west is in flames at 1 o'clock this (Wednesday) morning and will be a total loss. The building was erected at a cost of half a million dollars, and was crowded with guests, owing to the carnival now in progress.

WAS IT EMBALMED BEEF?

Washington, Feb. 7.—General Brooke reports the following deaths at Santiago, Feb. 4: Private Alonzo Park, Eighth Illinois, tetanus. Corporal Robert Sparks, Eighth Illinois.

SAGASTA SAYS THE TREATY WILL PASS.

Madrid, Feb. 7.—Sagasta is quoted as saying he expects the majority will be fully thirty in favor of approval of the peace treaty. He will immediately ask the queen to convoke the cortes.

CONTINUED FAILURE OF JUSTICE.

Philadelphia, Feb. 7.—The trial of Senator Quay, his son Richard, and ex-State Treasurer Haywood again postponed, from February 20 until the 27th.

THE GRAIN MARKET.

NOT A GOOD DAY FOR THE BULLS—WHEAT AND CORN CLOSED LOWER THAN YESTERDAY, AND OATS AT YESTERDAY'S FIGURE.

Chicago, Feb. 7.—Wheat was active, within 1 1/2 range, closing at a fraction from the bottom, 1/2 under yesterday. Opened strong on better cables and small receipts; advanced on covering by shorts; broke sharply on realizing profits.

Corn was fairly active, within 1/2 range, closing bottom, 1/2 under yesterday. Opened fairly steady; declined on large receipts and small clearances; firmed up on light acceptances; declined with wheat.

Oats was active, within 1/2 range, closing at bottom, at yesterday's figures. Strong early in the day, but declined with wheat and corn.

The leading grain futures ranged as follows:

Table with columns: Opened, Highest, Lowest, Closed. Rows for Wheat, Corn, Oats.

Closing Cash Quotations:

Wheat, weak. Corn, weak. No. 2, 35 1/2. No. 3, 35 1/4. No. 4, 35 1/8. No. 5, 35 1/8.

Movement of Grain.

Receipts—Flour, 17,000 barrels; wheat, 81,000 bushels; corn, 634,000 bushels; oats, 239,000 bushels.

Shipments—Flour, 11,000 barrels; wheat, 25,000 bushels; corn, 144,000 bushels; oats, 104,000 bushels.

NEW YORK STOCK MARKET.

THE BEARS HAVE THE BEST OF IT YESTERDAY—WASHINGTON BUYS, AND CHICAGO SELLS.

New York, Feb. 7.—Stock prices receded today, with an average loss of one to two points, which was exceeded in a number of instances. There was less enthusiasm, locally, and after the initial rise from fractions to points and over in many cases, traders were free sellers in anticipation of a reaction.

Prices receded rapidly in some instances, and were presently at practically last night's closing. Washington houses were large purchasers, which Chicago houses sold. The market became feverish and semi-stagnant.

New York Central displayed strength on its gross earnings for January. Constant hammering by bear traders forced many stocks to a point where liquidation is indicated, which made lowest prices. From the highest point there were reactions from two to four points.

The pressure against stock was mostly professional, and there were no unfavorable developments in news that attracted attention.

BOSTON QUOTATIONS.

The following were yesterday's Boston stock quotations, furnished by A. B. Turner & Bro., Savin Bank Building, Marquette:

Table with columns: Opening, 12 m., Closed. Rows for Adventure, Ashwed, Arcadian, Altonex, Atlantic, Arnold, Baltic, B. & O., C. & H., C. & N. W., C. & O., C. & P., C. & S., C. & W., C. & Y., C. & Z., C. & A., C. & B., C. & C., C. & D., C. & E., C. & F., C. & G., C. & H., C. & I., C. & J., C. & K., C. & L., C. & M., C. & N., C. & O., C. & P., C. & Q., C. & R., C. & S., C. & T., C. & U., C. & V., C. & W., C. & X., C. & Y., C. & Z.

FUNERAL OF LATE COL. SEXTON.

Chicago, Feb. 7.—Funeral services over the body of James A. Sexton, will be held in memorial hall, public library building, at 1:30 p. m. tomorrow. Only the ritual service of the Grand Army of the Republic will be read, the members of Columbia post conducting. At the grave, in Rosehill cemetery, the ritual will be read and a volley fired.

COLLISION ON IRON MOUNTAIN ROAD.

Little Rock, Ark., Feb. 7.—In a head-on collision between a passenger train and a freight today, on the Iron Mountain road, two men were killed and three fatally injured. Dead: ENGINEER WATKINS. FIREMAN HOYSTER. Fatally Wounded—BAGGAGEMASTER BAKER. FIREMAN M'COY. ENGINEER GREGORY.

NICE WAY TO RAISE REVENUE.

Washington, Feb. 7.—The reports of the internal revenue bureau show that the total receipts from the tax on mixed flour since August 14, 1898, when the law went into effect, have been \$15,583; expense of collecting this amount has been \$18,590. Receipts from this source during December, 1898, were \$417, and cost of collection \$3,380.

WONDERFUL YEAR IN LOCOMOTIVE BUILDING.

As the statistics from various industries for the year 1898 come in it is shown that the prosperity which marks the whole marks each separate part that goes to make up the magnificent total. The Railroad Gazette has just published the annual output of locomotives and cars, and it declares that the year just closed is the best since 1890, which was the record-breaking year up to that time. Last year, however, tops them all.

PENSIONING OLD PEOPLE.

After eleven days' discussion in committee at Wellington, New Zealand, the old age pension bill was passed on third reading in the house of representatives by a majority of ten. The bill provides that every person of the age of sixty-five and upward, of good moral character, whose yearly income does not exceed £24 and who has resided for twenty-five years in the colony, will be entitled to a pension of £18 per annum.

THE SOUTH AMERICAN MARKET.

There is a great and growing market south of us to which Consul Louis Goldschmidt at La Guayra, Venezuela, calls attention. It is a market which so far has been practically ignored by the American manufacturer, notwithstanding the leaps and bounds our foreign commerce has made during the past few years. It is rather an extraordinary thing that with the exception of a few cheap prints, no American cotton fabrics can be found in the stores of Venezuela. The same condition which prevails in Venezuela prevails also in the greater part of South America.

RESCUED BY A DOG.

Two years ago Thomas L. Whitney lived on what is known as the pitcher farm at Triangle, Broome county. He owned a handsome Newfoundland dog that was the pride and pet of his two-year-old daughter, Dog and child were inseparable, and when Mr. Whitney moved to Binghamton the little one's heart was broken because she could not bring her Duke. As the family were to occupy the fourth story of a block in that city it was decided to leave the dog with a family named Pellet, who were to occupy the place at Triangle. For a month or two the dog stayed, though evidently mourning the loss of his little companion; then he disappeared. Once or twice hunters thought they caught a glimpse of him in an extensive wood tract near the farm, but he was never seen about by any of the neighbors, and it was supposed he had gone to the woods to die of a broken heart.

THE EXILE OF MARTINIQUE.

The refining influence of captivity is manifest in the manner in which the ferocious king of Dahomey, Behanzin Boaldjere Hossu Bowele, otherwise called Behanzin, whom General Doods, with a little body of French troops, defeated and made prisoner five years or more ago, passes his time. This "cog of the world," the "son of a sea dog"—as the native phrases go—who beheaded and tortured many Europeans, is exiled to Martinique, and lives upon a pension of 12,000 francs. From a cruel tiger he became an angel of sweetness. He passes his days smoking a pipe, a magnificent one that Dada, the queen, sent to him. To relieve the ennui of his imprisonment, Behanzin practices music on the "douron," a kind of guitar made of a cocoon, a serpent skin and a birch drum stick. The ex-king is nearing his fifty-eighth year, but his black eyes still preserve their luster. He interests himself in the education of his children, who are being taught in a college at Martinique. He is proud of their success, and weeps with emotion when they obtain a prize. He has a great desire to attend the coming exposition at Paris. It will probably be permitted if the ex-tyrant of Dahomey will give his word of honor not to attempt to escape. France could on that occasion present to visitors a great collection of exiled rulers. Behanzin, Dinah Salfon, Amadon—ex-king of the Sudan—Ham Ngi, who reigned in Annam, and Queen Ravanola—all those might be on view.—Chicago Record.

COOKED SHIPMATES.

The tale of a horrible experience among the Solomon island cannibals comes by mail from two men who sat by and saw their shipmates cooked and eaten.

The men were members of the crew of the Sea Ghost, which sailed from Queensland late in September for Buka, an island of the German Solomon group. The schooner reached her destination at night. In the morning a half dozen native boats came from the shore filled with the islanders.

They seemed to come on the usual friendly trading mission, but when half the schooner's crew had gone below to procure goods, thirty natives sprang suddenly to the deck and attacked the sailors with their ugly weapons.

All but three of the entire crew were killed. These tried to save themselves by swimming ashore. They were quickly captured, however, and one of them slain. The two survivors were then bound and placed on shore. Their dead comrades were brought away from the ill fated schooner, which was then unloaded by the natives and scuttled.

The cannibals allowed their prisoners to remain on the sands while a great feast was prepared. The bodies of the dead sailors were roasted over great fires, the natives in the meantime holding high revel.

A dance girl was brought out on the beach for their entertainment, and unearthly music was made as an accompaniment to a fiendish song of victory.

Fortunately for the two living white men a barrel of rum had been brought ashore by the natives, who drank freely during the dance. In a short time they were all stupidly drunk, and the captives found themselves able to free themselves from the things that bound them. They jumped into a small boat and put to sea with a hastily collected supply of food.

After two days of helpless drifting they were picked up by a trading vessel and carried to the Australian coast.

**TAKE NOTICE:**

**TO ALL WHOM IT MAY CONCERN-**

That by a decree of the Circuit Court for the County of Marquette in chancery, the corporation known as the Iron Mountain Mining Company has been dissolved, and I have been appointed as Receiver of the assets of said corporation for distribution, according to the statutes of Michigan in such case made and provided. That the debts have been fully paid and the corporate interests have been closed, and the assets that have come into my hands as such Receiver are now ready for distribution to the original stockholders, their heirs or assigns, as their interest shall appear.

[This is to notify all who claim interests under and through the present stockholders of record that they must notify me within thirty days from and after this date of the interest which they claim, and through whom, as I shall at the expiration of said time distribute the said assets to the stockholders as they appear of record on the books of the company.]

Dated this 15th day of January, 1909.

ALFRED KIDDER, Receiver.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Cure all liver ills.

**WINTER DRIVE.**

Road Around Presque Isle Is Plowed Out for Use of Sleighs.

This is the first winter when it has been possible to get around Presque Isle on anything else than snow shoes, but the road is now plowed out and the drive opened completely around the island. On account of the ice on the hills, however, it is hardly safe for horses which are not sharply shod. Presque Isle has its beauties in winter as well as in summer and quite a number have seen them for the first time since the road was opened.

**SHE KNEW.**

A Young Wife Who Could Appreciate A Thing or Two.

A young Washington man whose wife went away for a visit a couple of weeks ago was having a little fun up at his home on Seventeenth street last Friday night—that is, he had three of his downtown chums with him in the dining room, and they were playing a bit of a game of—well, there were chips on the table, but some people use chips for counters in playing euchre. The four men were in their shirt sleeves and each of them got up occasionally and made a trip to the sideboard, where there was a ginger pop bottle, or two and some sandwiches and that sort of thing. They were getting along first rate, when there was a loud ring at the front door bell.

"The house is pinched," said all hands in a chorus, perking up their ears. The young married man looked a bit puzzled.

"I wonder who the dickens it is?" said he.

"I've a good mind to let 'em ring. It's dark in the front of the house, and they'll think there's nobody at home. What do you say, fellows?"

"May be a telegram," said one of them.

"That's so," said the young married man, and he went to the door. Then the three young fellows in the dining room heard this:

"Hallo, Jack, dear. Surprised to see me, you lovely old thing? (Queer oscillatory noises.) But I was so worried, Jack, about the way things were running, and I was afraid old Mam Sue mightn't be giving you enough to eat. And I just wanted to see you, anyhow, and your letter telling me that you couldn't see me over Sunday just made me blue, and so I just came, so there, and no scolding! I'm going back tomorrow."

"Ticked to death to see you Toots," said Jack. "Make yourself at home. Take off your things. Might as well stay awhile. Oh, I say, Toots, there's some fellows back in the dining room—Jim and Bill and Tom. Just happened in in a bunch to see me. Thought I might be lonesome, I guess. Come on back and see 'em."

"Of course I will, the dear, good-natured things, to come and see you when you're lonesome," and then the young married man and his wife sailed aft to the dining room. All vestiges of the euchre game had disappeared. So had the bottles of ginger pop.

"As I was saying," said Bill to Tom, when the young husband and wife came into the room, "the investment's all right from the standpoint of security,

but a man ought to be able to get more than 3 per cent for his money nowadays. There are a lot of good things—why, Mrs. Jobson, you back? How do you do? Come back to surprise Jack? Well, Jack's in luck, that's all I've got to say."

And all three of the boys paid their debts to Jack's wife, who knew about eleven times more than any of them thought she did. She sat down and listened to the talk of the four men—very heavy business talk it was—for a couple of minutes, and then she went up stairs and dug out a few packs of cards.

"I should think you boys would like to play cards to pass away the time," said she, tripping back into the room.

"Would be a good scheme, wouldn't it, fellows?" said Jack.

"And I've always been just crazy to learn how to play poker, too," said the pretty young matron. "Why not teach me now?"

"Bully good idea," chorused the three pals of the young married man.

This is how the game happened to be resumed.

"Jack," said Mrs. Jack, after the game had gone on, with herself as a comfortable winner—this always happens—for awhile, "did old Man Sue put anything cold to eat and drink in the refrigerator before she went away this afternoon?"

"Believe there is something or other on ice," said Jack, and his three pals didn't crack a grin when they all caught his eye at once. Neither did Mrs. Jack "let on" that she saw the empty bottles and sandwiches sticking out of the repositories where the chums of her husband had stowed them. Another "feed" appeared on the sideboard, composed of moist and solids, just like the one that had been secreted by the pals.

The game went on until about half after eleven, the regular breaking-up time anyhow, and all hands quitting even, which doesn't often happen in a poker game.

"Thought we'd get it in the neck when I heard Jack's wife voice, didn't you, fellows?" asked one of them on the way home.

"I was hunting for the tall cactus all right," replied one.

"I had the back door all measured," said the other.

"Say," one of them remarked after a little silence, "Jack's wife's the real thing, isn't she? If I could get hold of one like that that 'ud marry me I'd get spliced tomorrow morning before breakfast, wouldn't you, fellows?"

"In a minute," said the other two.

"I'll bet those fellows are praising you for not turning 'em out of doors," said Jack to his wife, after the boys had left the house.

"What for?" she asked.

But Jack let it go at that.

**SYMPTOMS OF GOLFICITIS.**

"Golf," the physician said, with a sigh, "Golf, or, more correctly, golficitis, must be designated the fourth dementia. Golficitis is a permanent addition to English manias, and is attracting the attention of thinking alienists. This mania differs from others and is incurable. Its symptoms are a loathing for legitimate business, an abnormal disposition to copious profanity and nervous irritation, a passion for giddy and eccentric garments, a profound contempt for truth, a hatred of domestic

**NO HUMBBUG HERE.**

Marquette Indorsement is What Counts With the Public.

You can't fool the public all the time. They will find you out at last. Every time a man is fooled, another skeptic is made. Many the remedy that makes the skeptic.

It fails to keep its promises.

Doan's Kidney Pills bring renewed faith.

They cure the skeptic.

Plenty of proof of this at home.

Marquette proof for Marquette people. Our citizens say they cure backache. Cure urinary disorders. Cure sick kidneys. Experience has taught them this is so. Conviction for every sufferer.

In the testimony of friends and neighbors.

Read this case:

Mr. Edward Murtha, of 221 W. Rock street, says: "I have no hesitation in recommending Doan's Kidney Pills to anyone having any trouble with their back or kidneys. I suffered off and on for a long time with attacks of pain around the small of my back and through the groin. At times it became quite severe, especially if I caught cold or strained myself. The kidney secretions were irregular and unnatural. I was advised to go to the Stafford Drug Co. and procure Doan's Kidney Pills. I did so and began to use them. Before I had taken very many the distress was removed from my back and loins and the kidney secretions regulated. I can say that from my own experience I found Doan's Kidney Pills to be a splendid remedy."

Doan's Kidney Pills are sold for 50 cents per box. For sale by all dealers, or sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no other.

restraint, accompanied by flushed face and a depraved love of out of doors.

**FAMILY WITHOUT TEETH.**

James Leonard, a farmer residing east of Noblesville, Ind., on the Madison county line, is fifty-two years of age and has never had a tooth, says the Cincinnati Tribune. Twenty years ago he married. His wife has a fine set of teeth. They reared a family of four children, all of whom have inherited their father's strange misfortune. The family is undoubtedly one of the most remarkable in the state. Their gums have undergone a sort of ossification, or hardening, which makes them as solid as teeth. The gums come down farther than in the ordinary person's mouth. Mr. Leonard is able to crack nuts in his jaws without any apparent effort or pain, and gets along as well as though he had a full allowance of teeth. The children can do the same thing. All show remarkable development of the muscles of the jaw. So amply has nature provided for the shortage in teeth that the gums are hardened enough to almost turn the point of a pin. They never have any aches in that part of their anatomy, and seem perfectly content. The appearance of the mouth is not the best. Leonard is a farmer, and fairly well to do. He seldom comes to

town, but when he does he attracts a great deal of attention. Dentists have tried to analyze his case, but do not reach a satisfactory conclusion as to what point nature has erred in. They say the case is without parallel, and especially interesting because of the children inheriting their father's strange shortage. A year ago Leonard gave a test of his jaws to satisfy the curiosity of some dental and medical students. They were more than mystified, and pronounced him one of the seven wonders of the world. The children's gums begin to harden as they begin to feed upon meat and other solid foods.

**THE COLONIAL BOARD.**

The colonial board or bureau of insular affairs, which has been devised to relieve the secretary of war of many perplexing matters connected with the new situation, has not yet organized, but expects to get down to business in a few days. General Kennedy of Ohio and Mr. Watkins of Grand Rapids, Mich., are here and have had two or three talks with Secretary Alger; but Curtis Guild, Jr., of Boston, the third member of the board, is still in Cuba, where he has been serving as inspector general, on the staff of Fitzhugh Lee. The duties of this new board are still undefined, but it is intended to act in an advisory capacity to the secretary of war and investigate and report for his information upon various questions that are constantly arising that are not military in character and are entirely new to the war department. Scarcely a mail arrives from Havana or Porto Rico without bringing reports, inquiries or applications for instructions concerning matters of administration of greater or less importance. They cannot be referred to the judge-advocate or the quartermaster general or any of the other heads of bureaus, who are unfamiliar with the subject to which they relate and have all they can attend to in their own legitimate departments. Nor can the secretary of war spare the time to give them the consideration they deserve. Scarcely a day passes but some perplexing cablegram comes from Manila and much of the confusion both in Cuba and the Philippine Islands has been due to the inability of the authorities in Washington to acquire the information and give the time for reflection which the proper treatment of these matters require. Hereafter the new board will sit daily during business hours at quarters now being prepared for them in a building near the war department, and investigate, consider and report upon all questions relating to affairs in our new possessions that may be referred to them by the president. They will have no executive authority, but will act merely in an advisory capacity, and will be continued until congress provides some permanent form of government for the Philippine Islands, Cuba and Porto Rico.

In speaking of stocks yesterday, a very prominent lady remarked that there was one stock market which she considered better than Calumet & Hecla; that was Vandenbooms fresh creamery, which is known by its excellent quality and delicious flavor. (2-8-2d.)

Baby sleeps and grows while mamma rests, if Rocky Mountain Tea is given. It's the greatest baby medicine ever offered loving mothers. 35 cents. Stafford Drug company.

**What the Banks and Leading Business Men of Kalamazoo Think of the**

**MICHIGAN Accident Association.**

KALAMAZOO, MICH., June 5, 1908.

TO THE PUBLIC:

We, the undersigned, hereby certify that we are personally acquainted with the officers and directors of the MICHIGAN ACCIDENT ASSOCIATION of this city, and know them to be first-class, responsible business men, who we believe will carry out in the letter any obligations they may incur. We would further say that from what we know of the methods and success of the MICHIGAN ACCIDENT ASSOCIATION we believe it to be one that is judiciously managed and conducted in strict business principles. Among a large membership in this city we have never heard a complaint of unfair treatment or failure to meet all legitimate obligations.

### VINDICATION OF SUGAR.

Athletes in Europe Are Beginning to Recognize its Value as Nourishment.

A German scientist, who prefers to be anonymous, publishes in the Allgemeine Zeitung an enthusiastic glorification of sugar. He says that sugar is not only most welcome to the palate, but that, on account of its power to nourish, it is almost the most valuable thing which one can eat. There is scarcely any other equally important feeder of muscle power. The laborer can do nothing better than keep a few lumps of sugar in his pocket. The negroes in sugar plantations renew and quicken their weary bodies by sucking the sugar cane. Sugar is a fine restorative for soldiers. A Dutch army surgeon asserts that during an expedition in Sumatra he found that the best means to maintain the soldiers in vigor and freshness, not only during the march, but during the fight, was a generous allowance of sugar. Each man was served with a handful at a time. The Swiss chamois hunters bear similar testimony to its marvelous powers of sustenance, and of recuperation of the fatigue.

The German writer gives an account of successful experiments made with sugar as food for athletes by several of the Dutch rowing clubs, by pedestrians, by cyclists and others whose bodily powers need "a rapid, portable and innocent stimulant." Sugar is coming more and more into use in Holland in the course of "training" for contests, and it is as good for beasts as it is for men. The poor hardly realize as yet, or only realize unconsciously, what a treasure they possess in cheap sugar. Its value in fever has been emphasized by Hupeland and others. That which is supposed to injure the teeth in the consumption of candy is not the sugar, but the so-called "fruit acids," which are introduced to flavor the sugar. Negroes who devour sugar in immense quantities have the best teeth in the world.—N. Y. Sun.

**Brought Down by Hail.** The St. Petersburg academy of science was interested recently by a note from Prof. Karpinsky, describing some peculiar hail which fell in Russian Poland. The grains were pear-shaped and contained black granules. Chemical analysis showed that they consisted of iron, nickel and cobalt, and this satisfied Prof. Karpinsky that they were of cosmic origin. The iron was magnetic. The grains, probably the debris of meteors that had been burned in the upper air, would have escaped detection had they not been enclosed in the transparent hail pellets, where the contrast of color quickly called attention to them.—Youth's Companion.

**BUCKLEN'S ARNICA SALVE.** The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Stafford Drug Co.

No one would ever be bothered with constipation if they knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

Gust Baruch is in the city representing J. Hamill & Co. of Appleton. He has been found at Burke's barn at Ishpeming where he has a load of draught horses on exhibition. All persons interested are invited to call and inspect the horses. (2-1-tf)

## Ishpeming and Vicinity

**LOOKING UP SITES.** THE COMMITTEE IS STILL ENGAGED ON THE WORK AND HAS NOT REPORTED YET.

The endeavor being made to secure the proposed Normal school for either this city or Negaunee is at a temporary standstill, awaiting the action of the committee appointed to look up suitable sites. It having been found that the Union Park site was unsatisfactory. The gentlemen composing the committee have had the matter under consideration but they are not yet ready to report. Several sites have been examined, any one of which would answer all the requirements.

Sites in both cities have been considered, and there are four goods ones available. The best to be obtained here is a tract of land near Lake Bancroft. The ground lies between the bluff and Newell's residence and extends to the north of the city. A sufficient acreage could be secured there, and the site is beautifully situated. The country in the immediate vicinity of this site is very picturesque and its proximity to the lake makes the place extremely desirable. It is thought that the land could be bought without much trouble, and it certainly would make a fine location for the school.

The tract is within easy walking distance of the center of the city and lies just beyond the main residence district. A paved street already extends right up to the limit of the property and the water and the sewerage systems are already extended to its borders. There would be no extra work required, as everything is ready for the erection of the building. This site is the best within a short distance of the main portion of the city.

The committee has also examined another tract about a half a mile to the east of the lake site. This location is also suitable for the purposes of the school, and it lies within easy reach of the main part of the city, but it is not as prettily located as the grounds on the border of the lake.

Negaunee has two sites that will be offered. The most favorable of these is what is known as the Barabee farm. The tract is opposite Josiah Broad's residence on Main street, where the Baldwin Kilns road turns off. It has been under cultivation as a farm and there are sixty acres in the lot. The land is perfectly level. It is within easy reach of the main business part of the city and right in the best residence portion, within a stone's throw of the places where the students could find boarding accommodations. The surroundings are beautiful. Right back of the grounds is the Teal lake bluff, and a view of Teal lake would be obtained from the upper part of the school building. There is absolutely nothing that would have to be done to fit the location for the reception of the building. The water mains and the sewerage system already extend up to the boundaries of the land. The spot has always been considered the most picturesque in the vicinity of Negaunee, and for such an institution as the proposed school no better location can be found in the county.

The committee has also talked of the Anthony farm as a possible location for the school, but this site is hardly available, as it is cut up into small lots.

Some doubt is expressed as to whether the owners of the Barabee farm will be willing to give up the mineral rights of the ground. The land is in the mineral belt and it is possible that it may contain ore. An absolute deed without reservations will have to be given the state.

It is expected that the committee will report to Chairman M. M. Duncan of the general committee today and it is probable that a meeting of the general committee will be called to consider the report on sites. Just what the procedure will be is not known. Ishpeming and Negaunee can no longer pull together on the question as a choice between the two cities will have to be made, but it is expected that they will work together as against all other proposed locations.

The report was current here yesterday that the citizens of Marquette, in addition to offering a site, were prepared to bonus the new institution to the extent of \$25,000. This story proved to be false upon investigation, and it may be positively stated that no such move is contemplated in the Queen City. Marquette will offer a site and a site only.

It is not yet certain when the caucus of the Upper Peninsula members of the house and senate that will determine the location of the school will be held, but it will probably be in the course of the next week. Just how the claims of this city will be presented to the meeting is still in doubt. This and other details will be settled by the general committee, which will meet within the next few days.

Marquette county is unquestionably the favorite with the legislators, and the plan seems almost certain to go to one of its three cities.

### COLDEST DAY OF THE YEAR.

THE RECORD BREAKER FOR A PERIOD WHEN ALL RECORDS HAVE BEEN CRACKED.

Yesterday was the banner day of the last two weeks of almost continuous zero weather. It may be stated that the temperature between the hours of six and eight yesterday was continuously between thirty-two and thirty-eight degrees below zero. This statement is based on reports of temperatures in different parts of the city, and is reliable. Thirty-eight degrees was recorded at the Nelson house at six o'clock a. m. and at 7:45 the mercury still stood at thirty-six degrees below zero. Reports of thirty-four degrees were general from the various parts of the city.

Yesterday was the most severe of the past twelve days, during which the temperature has been below zero the greater part of the time. The cold spell has never been equalled in the history of the city. The temperatures recorded at six o'clock a. m. at the Nelson house for the last twelve days are as follows: Friday the 27th of January, the day after the big blizzard, twenty degrees below; Saturday, fourteen below; Sunday, thirty below; Monday, twenty-four below; Tuesday, thirty-one below; Wednesday, sixteen below; Thursday, eighteen below; Friday, seven below; Saturday, twelve below; Sunday, twenty-six below.

### WINE OF CARDUI

A SURE MEDICINE.

HANDSON, VA., Dec. 31. I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth, recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine? Druggists sell Large Bottles for \$1.00.

LADIES' ADVISORY DEPARTMENT. For advice in cases requiring medical attention, address THE CHATTAHOOCHEE MEDICINE CO., CHATTAHOOCHEE, GA.

### RESTORED MANHOOD

DR. MOTT'S NEURALGIC PILLS

The great remedy for nervous prostration and all nervous diseases of the generative organs of either sex, such as Nervous Prostration, Failure of Testes, Impotency, Nightly Emissions, Youthful Errors, Mental Worry, excessive use of Tobacco or Opium, which lead to Consumption and Insanity. With every \$5.00 order we give a written guarantee to cure or refund. Sold at \$1.00 per box, 6 boxes for \$5.00. DR. MOTT'S CHEMICAL CO., Cleveland, Ohio.

FOR SALE BY THE STAFFORD DRUG COMPANY.

### "J. E. K." CIGARS

Always Reliable. The Best that Tobacco can produce. 10c, or 3 for 25c. J. E. Kenning & Co., Mfg's. Grand Rapids, Mich.

### GLOVE MANUFACTURE.

Fifteen Millions of Dollars Invested in This Industry Which is Not Yet a Century Old.

The art of glove-making, once followed exclusively by women, is now pursued largely by men.

This is due chiefly to the introduction of machinery, used to-day for sewing and pressing the seams, and to improved means for drafting patterns which were formerly of paper or wood. Then the glover, laying his pattern on the leather, would mark it in outline with a lead pencil and cut it out with shears. The glove, which was sewn by hand and the seams pounded, then went through the process of pressing. This was done by placing it between two boards, on which the glovemaker sat while making another pair. In the manufacture of the modern glove the operator, having cut the leather, folds it over so that the back is larger than the front. Then he makes three cuts through the doubled pieces, so that it may produce the back and front for the four fingers. Next an oval hole is cut for the insertion of the thumb-piece. Before completing the work on the first and fourth fingers long strips, or gussets, are sewn on the inner side; but in the second and third fingers gussets are sewn on both sides. Afterward small diamond-shaped pieces are cut, fitted and sewn at the interdigital folds or base of the fingers. The ornamental embroidery is then stitched on the back, the buttons or fasteners fitted and the wrists hemmed; then the glove is finished. In the sewing a toothed vice or clamp is used to regulate the size of the stitches. Glove workers are divided into three classes: Those who seam the fingers and put in the thumb are called the makers; those who hem the edges at the wrist, welters, and those who embroider the back, pointers. The average earnings of all classes is only two dollars a day. In our own country no less than \$15,000,000 are invested in the glove industry, which first settled in Gloversville, N. Y., in 1809. At this time the skins used were those of deer received by traders in exchange for tin. Rough mittens were the first product of this settlement, and the first load of gloves that went to Boston was forwarded in 1825.—Frank H. Vizetelly, in Woman's Home Companion.

# Kodol Dyspepsia Cure.

**Digests what you eat.**  
It artificially digests the food and aids nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures: Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps, and all other results of imperfect digestion.  
Prepared by E. C. DeWitt & Co., Chicago.  
Stafford Drug Co.

**UNDERTAKING** in the most reliable manner. Phone No. 118 at residence for night calls. M. WOLLESEN, Negaunee 7-11-18

**D., S. S. & A. R'y**

## Time - Table.

In Effect Dec. 11, 1898.

### TRAINS LEAVE MARQUETTE

For Montreal and the east and Lower Michigan daily ex. Sunday	4:55 a.m.
For Houghton and the Copper Country daily, connecting at Nestora daily, except Sunday, with train for Bessemer and Ogishic Range points.	9:05 a.m.
For Detroit and the east, daily ex. Sunday	1:30 p.m.
For Houghton and the Copper Country, daily ex. Sunday	3:05 p.m.
For Chicago via Negaunee and the U. & N. W. R'y and Republic and Chicago via the U. & N. W. R'y, daily	5:00 p.m.
For Duluth and the west, also LaSalle, Baraga, Houghton and the copper country, daily ex. Saturday	10:50 p.m.
TRAINS ARRIVING MARQUETTE WHICH DO NOT RUN EAST.	
From Chicago and Milwaukee via Republic and Negaunee daily	10:40 a.m.
From Houghton and the Copper Country, daily	7:00 p.m.

## WAS TRIP WORTH WHILE?

Legislators Think the Upper Peninsula Junket was Worth All It Cost the State.

OPENED THEIR EYES TO THE VAST RESOURCES OF THE U. P.

They Now Appreciate the Importance of the Mining School, a Thing Which They Never Did Before This Trip.

### MURDERERS' ROW IN THE BRANCH.

Now that the legislature has finished its biennial junket through the upper peninsula, the legislators and the people they visited are beginning to talk over the benefits of the trip, pro and con. Some people regard the trip as a pure waste of money, but others hold the view that it has educational advantages and that it is worth while to show the senators and representatives from the lower part of the state the country up here, so that they will be able to legislate for it more intelligently. The upper peninsula is an unknown region to most of them as northern Idaho, and were it not for the much abused junkets scores of them would have no idea of the country and the great interests there are in this section of the state.

The visits to the state institutions are very hasty, but even a hasty visit, the advocates of the junket hold, is better than none at all. The frequent banquets and the feasting of the junketers is a feature which is much inveighed against, but in the last junket the courtesies were not abused as they have been some previous times and none of the legislators made themselves subjects for remarks.

The fish committee's junket was less of a pleasure trip than that of the main party, the one which was here first. The first party was made up of committees who have supervision of various state institutions and all any of the members had to do was to make an inspection of the one institution to which they were assigned on their committee. That done they were free to enjoy themselves the rest of the time. But the fish committee had work during the entire trip. They were out for information about the use and abuse of the present closed season law, and every place they visited they spent several hours interviewing fishermen and getting points both for and against the law. They had their good times as well as the main party, but there was a great deal more work sandwiched in between. In the week they were out the parties traveled about 1,400 miles each, exclusive of the side trips in the copper country.

The articles written by the various newspaper men at the conclusion of the junket show that the legislators are genuinely of the opinion the trip was a benefit.

Johnson of the Grand Rapids Herald, who was with the main party, says: "The value of the junket has been discussed more or less during the visit to the upper peninsula, and there is not a member of the party who does not say he is convinced by actual experience a junket is an educator of inestimable value, and that he believes he is more competent to legislate in the interests of the whole state because of a better acquaintance with the vast regions and the possibilities of the upper peninsula. Of the committee members and officials of the house who crossed the straits last Monday morning only a small percentage had ever been in the upper peninsula, and what they saw of the country was to them a constant surprise and revelation.

"At place after place the members bore witness to their better appreciation of upper Michigan, and the speeches were made in good faith, as was evidenced in the invariable discussions which followed after the visitors were in their cars. The fact that the members of the committee became better acquainted with the upper peninsula and bore away a most favorable opinion of the country, its people and their enterprise, was not the only result of the trip. Upper Michigan became better acquainted with the representatives of the lower peninsula, and in private conversation and through the press the thought was general that no more representative body of men ever came to the upper peninsula, that they were intelligent, alert, business-like and capable of grasping the situation.

"As an instance of the educative influence of the trip, there is but little doubt the college of mines at Houghton will have reason to bless the junket of 1899. For some time the college has been deemed by the lower peninsula representatives as so entirely an upper peninsula affair and in the interests so distinctively local, that there has been a disposition to keep its appropriations away down below its needs and requirements. While it cannot be said in advance what the legislature will do, there is a certainty that what is done will be under an intelligent understanding by a large percentage of the legislature of the actual situation at the college.

"The upper peninsula business men are keenly alive to the good work of the college in turning out thoroughly grounded and competent mining engineers to supply the increasing demand for talent of that kind.

"They insist that there are the possibilities of vast wealth for the world in rock and ore which in the light of present knowledge cannot be put to any use, and that it is of state and even national interest, that there be education along this line so someone may be able to fashion the key which shall yet make plain the path. Education is the key to the situation, they maintain, and the college of mines, with its mining influence, is calculated to develop some wizard of the rock. Step by step the graduates of the college are doing their work, and so firmly convinced are those interested in mining of the value of the college, that one could not hurt them more severely than to cripple the college in any way.

"The junket brought the members face to face with the upper peninsula demand for a normal school of its own, that there might be created at the very doors of the citizens like facilities for the education of teachers afforded in the lower peninsula. The demands, repeated in city after city, was voiced in such a way that the committee feel they have an excellent appreciation of the nature and basis of the proposition at the hands of those living on the ground. There will be a

bill introduced making an appropriation for the building and equipping of a normal school in the upper peninsula.

"One of the results of the trip to the Marquette prison, where are confined the incorrigibles of the state, was a revival of interest in the bill providing for capital punishment. In one of the corridors were fifteen or more cells locked with chains on the outside, and in some of the cells were the desperate criminals who made an unprovoked assault on the life of the deputy warden, two of the men having also been implicated in the murderous assault upon Deputy Warden Northrup of the Jackson prison.

"In talking over the treatment of these men and the fact that prison was no deterrent of their criminal deeds, Senator Blakeslee brought out very clearly his idea that capital punishment was the only means of ending a situation that in this state is becoming somewhat intolerable. There were many who agreed with him, and this argument will have weight in the discussion of capital punishment during the session at Lansing."

### STOCKS A'BOOMING.

Tuesday Was a Good Day for the Holders of the Coppers.

Stocks which showed a difference of a dollar or more between Monday's and Tuesday's close are: Arcadian, 74 to 72; Atlantic 42 to 44; Boston & Montana, 350 to 358; Calumet & Hecla, 785 to 800; Wyandotte, 8 1/4 to 10; Osceola, 100 to 92; Wolverine, 48 to 49; Isle Royal, 56 to 54 1/2.

London copper made a small net gain on the day's transactions. Hayden, Stone & Co. quoted it as follows: Opened 72 and 5; closed, 72, 15 and 3; closed Monday, 72, 12 and 6. Bulletins posted by the brokers yesterday read as follows:

A. B. Turner & Bro.: "New York market closed very weak with little or no effect on copper stocks. Low priced coppers are the favorites."

A. B. Turner & Bro.: "Copper off seven and six. Mass 17 bid; will go higher; regard it as a good purchase."

Paine, Webber & Co.: "Think it a good time to take profits."

Hayden, Stone & Co.: "We think coppers a sale. Market shows no strength."

Yesterday was a lively day in the local wheat pit. Wheat dropped nearly a cent on the day's dealings, and the speculators in that commodity were kept busy putting up margins. There were also a good many heavy purchases, most of them from those who were taking on a bigger line for the sake of reducing their average price.

There will be a meeting at 7:30 tomorrow evening at the Hotel Marquette of those who subscribed money for Captain Daniels' prospecting work on the Saults Head range. There is some important business to come before the meeting, and the captain is anxious to have all the subscribers present.

### MANAGER GRUENDLER.

He is Managing An Opera House at Muskegon, in Lower Peninsula.

"Ever since Manager Gruendler abruptly terminated his connection with the Marquette Opera House there has been a good deal of speculation among the people here as to where he is and what he is doing. Several months ago it became reported around that he was managing an opera house in the lower part of the state. From the following, which was taken from a lower peninsula paper, it appears that Muskegon is the location.

"The Mamie Zozo Eldorado company of burlesques, which appeared at the opera house last night, is today the talk of the city, and Manager Gruendler of the opera house is being severely criticised for allowing such a performance to be put before the public. Yesterday afternoon the manager of the company went among the workmen of some of the factories of the city, it is said, and sold tickets, telling the purchasers that the performance would be for men only. Tickets for the performance were also sold at the box office by Manager Gruendler, who informed everybody that no ladies would be allowed at the performance. When the curtain went up a brazen female came upon the stage, and announced that the pianist of the company had a "jag" on, and would be unable to play, but that the company would try to do without him. They did. The play had not continued long when the audience became disgusted and hooted the would-be actors off the stage as fast as they came on. At about 9:30 the performance came to an abrupt close, the curtain descended and the lights went out. The infuriated crowd set up cries for the manager of the theater, but he could not be found. The members of the company went to their hotel under the protection of two officers, the crowd following closely at their heels."

### HOT SANDS.

They Will Blister the Feet of the Poor Novices Tonight.

Shriners of Ahmed temple will gather in the city this evening for one of their semi-annual good times. Owing to the cold weather the camel has been kept in his stable a good deal of late, and as he has not had his usual exercise the novices will find him unusually frisky and obstreperous. Quite contrary to the conditions existing on the unregenerate outside, the sands will be uncommonly hot.

These things will be hard on the novices, but they will make sport for the faithful, and after the ordeal is over the full shrine, old and new members, will sit down to the traditional banquet and spend the evening in unalloyed merriment.

The attendance from all parts of the peninsula promises to be large.

A "girl's" complexion may be stamped on her lover's heart, but most of the complexion comes off, unless put there by Rocky Mountain Tea. "Powder's" a bad thing." Stafford Drug company.

### SNOW IN THE PENINSULA.

Depths Existing at Various Places in the Lake Superior Country.

The upper peninsula is recovering a good deal of its former prestige as a region of snow and ice. The two winters preceding this one were so unusually mild that the residents began to think the climate had changed permanently, but this year the weekly reports which are sent into the Marquette weather office from towns all through this section of the peninsula show an unusually great average snow depth, while the cold in all parts has been intense enough to satisfy the longings of those who most ardently desired to see a genuine Lake Superior winter again. Snow reports received at the weather office yesterday show the following to be the average depths at the places named: Calumet, 36 inches; Wetmore, 42 inches; Sildaw, 16 inches; St. Ignace, 15 inches; Humboldt, 10 inches; Marquette, 13 inches.

### NO DANGER NOW.

Intake Pipe Is Protected by a Field of Thick Ice.

Ice, which ten days ago was shutting off the water supply of the city now protecting it. But there is a difference in the ice.

The troublesome kind is slush ice, which is slightly heavier than water and which gets down below the surface of the lake and finds its way into and clogs the intake. The kind which is a protection is fine, thick sheet ice.

The cold snap has caused an ice field to form all over the bay and the ice is about six inches thick. As long as this field remains there will be no trouble with the intake. The present cold weather is causing the ice to freeze thicker right along and making it a constantly bettering protection against the late trouble with the pipe.

### CITY BREVITIES.

Weather forecast: Fair and continued cold; west wind.

Yesterday's temperature: 7 a. m., 13 degrees below; 7 p. m., 4 degrees below; maximum, 2 degrees below; minimum, 13 degrees below.

Joseph Courtney is down with the grip.

A. Matthews is home from a visit in Boston.

S. N. Dutcher of Newberry was about town yesterday.

Alfred Meads arrived home from Boston yesterday afternoon.

Elredge Demark of Negaunee paid this city a flying visit Sunday.

The snow shoe club will take a tramp tonight if the weather is favorable.

Captain Samuel Redfern was down on business yesterday from Negaunee.

M. J. Peppard, the Minneapolis contractor, was again in the city yesterday.

Peter Primeau is back again after a three weeks' business visit to New York and Boston.

Miss Ella Meeke leaves today for Milwaukee, where she will make a visit with relatives.

Miss May Nugent who has been down from Ishpeming visiting friends returned home Monday.

The supervisors will hold a meeting a week from today. The auditing committee will meet Saturday.

F. L. Simmons has gone to New York on a purchasing trip. He will be absent from the city about ten days.

A chicken pie supper will be served from 5 to 7:30 o'clock this evening in the parlors of the Methodist church.

Gordon Murray, superintendent of the Metropolitan Lumber company, was in town yesterday from Metropolitan.

Austin Farrell, the Cleveland-Cliffs company manager at Gladstone, was a business visitor in the city yesterday.

Hon. W. J. Oberdorfer, who represents the Menominee district in the state legislature, was in the city a few hours yesterday.

Hon. T. B. Dunstan, F. H. Begole and Captain Thomas Hooper left yesterday for the Ontonagon range to get things started at the Victoria.

The jury for the February term of the circuit court was drawn yesterday. The jurors are summoned to appear at the courthouse at 2 o'clock Monday, March 6.

John Matson of Ishpeming was brought down yesterday and locked up in jail to await trial at the coming term of the court on the charge of assault with intent to kill.

The W. C. O. F. gave a pleasant and well attended dancing party last evening in A. O. U. hall. Muhlbaur's orchestra furnished the music. The first cake walk was won by Fred Siegel and John Maguire, and the second by James Russell and Miss Bertha Hogan.

Sheriff Carlson is sending out notices to all the election commissioners in the county notifying them of the election to be held the first Monday in April for a justice of the supreme court in place of Justice Grant, a judge of the twenty-fifth circuit in place of Judge Stone and two regents of the state university.

In the article about the telephone system improvements published yesterday George D. Sherman was erroneously designated as district manager. His correct title is superintendent of the northern division. Marquette county constitutes a division and is still under the charge of K. G. Baker, while Mr. Sherman has the superintendency of the entire upper peninsula.

The hose company had two runs yesterday, one in the forenoon and the other about 7 o'clock last evening. One was to a chimney fire in a house at the corner of Bluff and Third streets, and the other was to one of the old Northwest hotel cottages down by the railroad track. The house is unoccupied. The blaze was a small one and quite likely of incendiary origin.

THE MODERN WAY commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

# GRABOWER'S.

## OUR GREAT CLEARING SALE.

MUSLINS, READY-MADE SHEETS, PILLOW CASES, DRESS GOODS, GINGHAMS, EMBROIDERIES, UNDERWEAR, HOSIERY, BLANKETS, QUILTS, TABLE LINENS, TOWELS AND SHOES FOR LADIES, MISSES AND CHILDREN.
