PRICE FIVE CENTS.

who, through habit, have come to the conclusion that if they want anything especially nice in the way of clothes, haberdashery or hats they must send to the Metropolis for it. Now, for years we have worked hard to establish in this town a shop that would supply these wants of the most critical and difficult to please men.

In the Clothing Department,

we have succeeded beyond measure, with the Clothing of the STEIN-BLOCH Co . Wholesale Tailors, Rochester.

Our Haberdashery Department

is replete with the most beautiful productions of the most fashionable neckwear, shirt and glove makers, and we show everything worthy in underwear, hosiery and the hundred and one other things which are usually found at a first-class New York Haberdashery establishment.

Our Hat Department

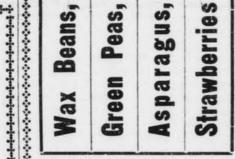

offers all the swell natters' shapes in derbys, soft hats, and straws. Lut at considerable lower prices than exclusive hatters can afford to sell. All we ask of our fellow townsmen, is the opportunity to serve them. They will find by experience, that we can do so to their entire satisfaction, and in many cases at a saving to them at metropolitan prices.
