ADVANCE ON AGAIN. British Forces Moving Rapidly Toward the Vaal. FRONT CLEAR OF BOERS. Burglers Are Crossing the River, Which Roberts is Expected to Reach Today or Tomorrow.

BULLER STILL HALTING. Vrededorf, Orange-Free State, Thursday, May 24.—The British columns, after an unopposed march, reached Vrededorf at noon today and are now two marches from the Vaal river.

London, Saturday, May 26.—4:30 a. m. The latest intelligence from Lord Roberts' headquarters at Vrededorf station, filed Thursday evening, was that the British were rapidly advancing and General Hamilton had effected a junction with Lord Roberts. The country in front of them is clear of Boers to Viljoen's drift.

The Boers were evacuating all positions south of the Vaal river, and five thousand had already crossed to the north bank. Probably General French's cavalry is already reconnoitering the fords of the Vaal. The war office observers expect that the next dispatches from the field marshal will be dated in sight of the Transvaal frontier.

Bennett Burleigh, writing to the Daily Telegraph from Vrededorf Thursday morning, said Lord Roberts would doubtless cross the Vaal river Saturday or Sunday. The British outposts were then nine miles north of Vrededorf and twenty-six miles south of the Vaal river. The railway is much damaged.

While the British in overwhelming force are thus rapidly approaching the Transvaal, the movements of the Boers are enveloped in mystery. The last Pretoria newspaper, the South African, says that the Boers are seeking to cross the Portuguese border for the Transvaal in search of newspapers and letters. Dispatches and mail letters containing even harmless references to the war are suppressed; the only news that has emerged from the Transvaal during the last ten days has come by word of mouth.

According to these oral reports yesterday the Boers were quarreling among themselves. Transvaal paper money is circulating at 80 per cent discount. Kruiser and Klinker, the engineers who opposed the blowing up of the mines, have been dismissed. Commandant Schutte has been appointed to defend Johannesburg, and all the British subjects have been turned out. The Transvaalers fear the British will blow up the bridge at Kromati Poort, thus cutting off the supplies from Delagoa and a commando of five hundred is guarding against any such attempt by British raiders.

It is asserted that President Kruger will retire to Lydenburg when fighting is imminent at Johannesburg and Pretoria. Concern is expressed at Pretoria with reference to the possibility that General Carrington may come down from Rhodesia with five thousand men to co-operate with as many more entering the Transvaal by way of Mafeking. Horse sickness is said to have broken out among General Carrington's animals. Cecil Rhodes is at Beira, Portuguese East Africa. Mr. Fuller, a member of the Cape parliament, who is supposed to be a confidante of Rhodes, said in the course of a speech at Cape Town yesterday when proposing the health of Rhodes, that the latter was "working to consolidate South Africa from the Zambesi to Table bay."

Boers are fortifying a very large semi-circular position, extending from Mafeking to Pongwana. A large number is busy trenching; six guns are visible. The correspondent of the Daily Mail at Newcastle says: "President Steyn is reported at Veldre, where the Free Staters are concentrating preparatory to moving to join the commandoes now at Laing's Nek. Little opposition is expected this side of Volksrust. Occasional rifle shots are exchanged with the Laing's Nek outposts."

General Buller has communicated to the colonial government Colonel Bethune's report of the loss of the squadron of Bethune's Horse in the ambush at Vryheid. The report says that "this regrettable affair was due to the impetuosity of Captain Goff, who was killed."

Colonel Baden-Powell declines to act on the suggestions of his friends that he should return to England for a rest. He is determined to retain active command at the front. Advice from Mafeking dated the 20th says: "The Boers are trenching at Polfontein, ten miles east of Mafeking. The northern railway is now repaired to a point within four miles of town. Ample supplies of plain food are coming in. Colonel Baden-Powell voluntarily gave up fifty-three Boer wounded to the Boer commandant, who thanked him for his kindness."

Warrenton, Cape Colony, Thursday, May 24.—The operations have been pushed forward eighty miles, one of Hunter's brigades having occupied Vryberg last night. Considering the difficulties of the road, this was a remarkable achievement for a mixed force, on short rations and making forced marches. Water was scarce. Some portions of the brigade covered eighty miles without a break. General Hunter personally goes to Vryberg today by train.

FOR ALLEGED BOER SYMPATHY. STORE OF LONDON GROCERY FIRM MOBBED BY JINGO CROWD. London, May 25.—Some one circulating a report that Messrs. Tyrrell and Green, grocers, were Boer sympathizers and had discharged a clerk for flying a union jack on the delivery wagon, a mob of 2,000 men and boys attacked the store, demolished the entire front and bombarded the interior with bricks, old bottles, eggs, and other missiles. Three leaders of the mob were today fined \$10 each. Tyrrell and Green are not only loyal, but both have been generous contributors to the several war charities.

Chicago, May 25.—The officers and trustees of the Marquette Monument association held their first meeting in Chicago today, coming from all over the Northwest. Among them were: Franklin MacVeagh, president of the association. Governor Peck, Milwaukee. Peter White, Marquette. Mayor Maybury, Detroit. Archbishop Ireland, St. Paul. Bishop Davies, Michigan. Edward O. Brown, Chicago.

The latter is secretary of the association, which has been incorporated under the laws of Michigan, its object being to build a fitting national memorial to Father Marquette, the great missionary priest and explorer. The island of Mackinac has been selected as the most appropriate place, and the Michigan Park commission has dedicated a magnificent site for the monument.

The meeting today was well attended and enthusiastic, and the work of raising by subscription the necessary funds for the erection will be immediately entered upon. It is estimated the statue will cost \$25,000. sufficient quantities to justify complete development a railway costing \$10,000,000 will be built from Wallfish Bay and a couple of millions spent in developing the mines.

STOLEN JEWELS WORTH \$7,000. BURGLAR AT DENVER MAKES A GOOD DAYLIGHT HAUL. Denver, May 25.—The apartments of Mrs. A. F. M. Betts, wife of a well known physician, were entered by a burglar today and diamonds and other jewelry valued at seven thousand dollars stolen.

PRIEST DIES AT NIAGARA. COMMITTS SUICIDE BY LEAPING INTO WHIRLPOOL RAPIDS. Niagara Falls, May 25.—An unknown priest, supposedly from New York city, committed suicide tonight at Whirlpool rapids. He descended the elevator and, after having his picture taken, walked out on a rock, threw his hat and cane behind him and, waving his hand dramatically, shouted "Goodbye," leaped into the rushing waters.

BRAKES SLIP ON STEEP GRADE. BAD ACCIDENT ON AKRON (O.) SUBURBAN TROLLEY LINE. Akron, O., May 25.—Three men were killed and a number of others seriously injured as the result of an accident to a work train early today on the Akron & Cuyahoga Falls Rapid Transit (electric) Suburban line. The brakes on two cars loaded with gravel and carrying a dozen workmen became disabled at the top of a steep grade. Nine of the workmen jumped from the cars as they rushed down the incline and were seriously injured, while three stuck to the cars until they left the track at the bottom of the hill, all three being killed.

JAPAN PUTS IN PROTEST. WANTS THE INOCULATION AT SAN FRANCISCO TO CEASE. Washington, May 25.—Through its charge here the Japanese government has joined the Chinese government in a strong protest against the compulsory inoculation of the Japanese and Chinese in San Francisco with anti-plague serum. The Japanese protest conveys the very plain intimation that, while there could be no objection to general inoculation if such is regarded as necessary to prevent the extension of the plague, it cannot be contemplated that any discrimination should be practiced against the Japanese and Chinese. The communication has been referred to the surgeon general of the marine hospital service, and it is presumed that the net result will be an abatement of the rigors of the quarantine measures now being enforced there.

TO EXPLORE FOR GOLD. CECIL RHODES PLANS TO SEND A PARTY TO GERMAN AFRICA. London, May 25.—Christopher James, a California mining expert, will soon lead a party of surveyors, assayers and mechanics to a point in German west Africa, 400 miles inland from Wallfish Bay, where gold, silver, copper and lead ores are said to be found in great abundance. A syndicate including Rhodes, Wernher and Beit has put up \$500,000 to investigate the resources of the country. Should ores be found in

IN CHASE OF AGUINALDO. Major P. C. Marsh Finds Traces of the Filipino Leader. PICKS UP TRAIL IN HILLS. Now Hotly Pursuing a Band Supposedly Escorting the Wily Commander of Insurgents. ANOTHER SMALL AMBUSH. Manila, May 25.—Major Peyton C. March, with a battalion of the Thirty-third infantry, and Colonel Luther R. Hare, with another part of the Thirty-third, while assuring the country north-east of Benguet, reported that they struck the trail of a party of Filipinos traveling in the mountains and believe they are escorting Aguinaldo. Major March has continued the pursuit across an exceedingly difficult country and beyond the telegraph lines.

Sergeant Berry and four privates of Company B, Twenty-seventh regiment, rescued the daughter of the president of San Mateo from Ladrones, who had abducted her. Afterward twelve Ladrones ambushed them, killing the sergeant. Three of the privates stood of the band while the other secured reinforcements. Seven of the Ladrones were killed.

M'KINLEY MEETS OLD COMRADES. ATTENDS LAYING OF CORNER STONE OF 5TH CORPS MONUMENT AT FREDERICKSBURG. Fredericksburg, Va., May 25.—On the very ground over which the old Fifth corps charged at Fredericksburg, President McKinley and cabinet and General Miles today witnessed the laying of the corner-stone in the shaft which perpetuate in bronze and granite the heroism of the Army of the Potomac. It was an impressive ceremony and rendered more so by the fact that among the hundreds who witnessed the event were noted leaders of both the Federal and Confederate forces. The monument is the personal gift of General Dan Butterfield to the National Memorial association. General Butterfield himself was present and assisted in the ceremony, but owing to ill-health the committee, to attend to the secretary of war was made by Colonel Hill, one of the veterans of the Fifth corps. The ceremony was with due Masonic rites, and at its completion the secretary accepted the gift in the name of the American people.

Nearly the whole population of this town greeted the presidential party on its arrival to participate in the memorial services today. A procession was formed at the depot and moved to the court house, where public exercises were held. The oration of the day was delivered by General Dan E. Sickles. The exercises were followed by luncheon and at two the president held a reception at the residence of St. George R. Fitzhugh, the party then proceeding to the national cemetery, where the ceremonies incident to the corner-stone laying took place. The stone was laid by General Daniel E. Butterfield.

Washington, May 25.—President McKinley, accompanied by members of his cabinet, left Washington at 3:15 this morning for Fredericksburg, to attend the meeting of the Society of the Army of the Potomac at that place today. Secretaries Root, Gage, Long and Hitchcock, Postmaster General Smith, Generals Miles, Wheeler and Michler and the full Marine band were included in the party.

Joe Gans Defeats Hawkins. FAST PRIZE FIGHT ENDS IN ROUND TWO AT GOTHAM. New York, May 25.—Joe Gans of Baltimore knocked out Del Hawkins of California at the Broadway Athletic club tonight in two rounds of the fastest fighting ever seen at the club house. Each scored a knockdown in the first round and the full count was taken by both. The second round lasted a minute and fifteen seconds when Gans landed the knockout punch.

Chicago, May 25.—Jack O'Brien was given the decision over "Young" Mahoney at the end of six rounds tonight at the Fort Dearborn Athletic club.

Cripple Creek, Colo., May 25.—Kid Carter of Denver got the decision over Jimmy Lawler of California at the end of the twentieth round tonight.

BOSTON MAN'S LUCKY MEAL. FINDS PEARL WHILE LUNCHING ON LITTLE NECK CLAMS. Boston, May 25.—Allen Wood of this city, while dining at a hotel, found in a clam shell a pearl which may prove to be of great value. He took it to a jeweler, who found that it weighed thirty-nine grains and said if it had the proper luster it would be worth \$1,800. The luster, however, is not good, though it is possible that the removal of the outer layer may reveal a perfect pearl.

CORNISH WRESTLING TOURNAMENT. IT LIKELY WILL BE THE FEATURE OF SONS OF ST. GEORGE CELEBRATION AT CALUMET.

The executive committee in charge of the celebration to be held in Calumet at the time of the meeting of the state grand lodge of the Sons of St. George, in July, hopes to be able to offer several hundred dollars in cash prizes for a Cornish wrestling tournament.

Most of the first class Cornish wrestlers are out of the upper peninsula at present, only King and Rowett being now in the state. King is a mining captain at the Arcadian and it is doubtful if he would enter, while Rowett has apparently quit the paddled mat for the squared circle and might not wish to don the jackets again in a tournament because of the injury to his knee, suffered more than a year ago.

There is no lack of good second class men in the district, some of whom may be able to make their way to the first rank, if given a chance, and such a tournament as is proposed would attract large crowds.

Whether it be due to the evangelist's efforts of the Rev. Sam Bates or some other cause, certain it is that one section of the liquor law is now being enforced in Red Jacket. In view of the surrounding circumstances it seems probable that the reform cannot properly be ascribed to Mr. Bates' efforts.

METHODISTS FACE AMUSEMENT ISSUE.

Committee Reports in Favor of More Liberal Privileges and Hot Debate Opens.

TO OMIT THE DANCE, ETC., PARAGRAPH FROM THE PENAL CODE

AND PUT IT UNDER MEAD OF ADVICES IS THE RECOMMENDATION.

Minority, Representing the Conservative Element, Expresses Opposition to Any Change, While Action Hostile to Women Preachers Is Taken.

VOTE ON THE QUESTION COMES TODAY.

Chicago, May 25.—At today's session of the Methodist Episcopal conference, Chairman Patterson called up the report of the committee on state of the church recommending that the paragraph prohibiting amusements be taken from the penal code of discipline and added to the chapter of advices. The report read as follows:

"Our committee has carefully considered the large number of memorials from all parts of the country bearing especially upon Paragraph 248 of the discipline and generally upon the relation of the church to certain forms of worldly amusements. We recommend that the following words be omitted from Paragraph 248, beginning with the eighth line, namely: 'Playing at games of chance, attending theaters, dancing, circuses, horse racing, dancing parties or patronizing dancing,' and the words 'or' and 'other' immediately following."

This omission leaves that paragraph of the penal code, as far as it pertains to amusements, prohibitive only of such amusements as are of 'obviously misleading or questionable moral tendency.'

The committee recommended that the following be inserted as an additional section of chapter of advices: 'Amusements—Our church has from the beginning of its history insisted that playing at games of chance, attending dances, theaters, horse racing, circuses, dancing parties, or patronizing dancing, and the like, are amusements which cannot be used in the name of the Lord Jesus are perilous to the spiritual life and influence of the members of our church and enervating to the spiritual power of the church in the great work of saving souls. The plea of amusement is never stronger than at the present time, therefore we deem it wise to reaffirm our historic attitude upon this subject and urge our people to abstain from and bear unwavering testimony against all amusements and diversions which endanger character and depress the spiritual power of the church. This advice must not be interpreted as the waiving of the church's right to call to account any one who continues to indulge in those diversions which cannot be used in the name of the Lord Jesus.'

The views of the conservative element were presented in the following minority report, submitted by Dr. G. J. Hoves of Kentucky: 'Resolved, That we have carefully considered the memorials for and against the proposed amendment, and we deem it expedient to recommend that no action be taken at this time.'

The debate on this subject continued till the hour of adjournment, and a lively session is expected tomorrow, when the matter will be brought before final disposition, many of the best debaters in the Methodist body having announced their intention of speaking on the subject.

The Patterson committee recommended that no action be taken in regard to the license of women preachers, and this was approved by the conference.

ARMY CANTEN DEBATED.

PRESBYTERIANS VOTE DISFABORING IT AFTER A HEATED DISCUSSION—DAYS DOINGS.

St. Louis, May 25.—At the Presbyterian general assembly this morning marked interest was taken in the debate on the Peoria overture, which was adopted by a vote of 252 to 239, and in the report of the finance and narrative committees. Philadelphia was selected as the meeting place of the assembly of 1901.

At the afternoon session the report of the mileage committee was read by Elder Wm. P. Stevenson of New Jersey. The total amount paid out for mileage, entertainment, etc., was \$48,652.28. The assessment recommended for another year was 4 cents for each communicant in the Presbyterian church.

Rev. Dr. G. Lowrie, chairman of the temperance committee, read the report of the standing committee on temperance showing the contributions for the prosecution of the work had been only \$1,465, altogether insufficient considering the importance of the work.

SENATOR MORGAN SEES SCHEME.

PHILIPPINE BILL BUT A FOIL TO THRUST ASIDE THE NICARAGUA CANAL PROJECT.

Washington, May 25.—Discussion of the Spooner Philippine bill was continued today by Senator Morgan of Alabama. On the general question of government of the Philippines he was in accord with Senators Spooner and Lodge, but regarded the pending bill as unwise and dangerous legislation because of the great power it placed in the hands of the president. He was satisfied, however, the measure would not be passed by this congress and declared it was being used as a foil to thrust aside the Nicaragua canal bill.

Senator Carter of Montana presented the certificate of Governor Smith appointing Martin Maginnis senator to fill the vacancy occasioned by the resignation of Senator Clark and to which Clark also has been appointed by Lieutenant Governor Spriggs in the absence of the governor. The certificate was laid on the table in accordance with the request of Carter.

The conference report reducing the pension of Mrs. Guy B. Henry from \$100 to \$75 per month was agreed to, and Senator Morgan arose to address the senate. He made a long argument in support of the Nicaraguan canal as a duty needed now we were in the Philippines. With earnestness and vigor he arraigned the new Panama Canal company for having been instrumental in preventing the passage of the Nicaragua canal bill at the present session.

'Never,' he said, 'will the United States government and the United States congress be badgered and cuffed about as we have been by this new Panama Canal company, and the quiet submission and ease with which we take it can be accounted for only in one way; that is, a presidential election is pending, and we are afraid to offend a corporation that has or professes to have, some great power.' Senator Morgan maintained that there was no proper reason why the pending Nicaragua canal bill should not be passed at once.

'As to the bill before the senate,' declared the senator, referring to the Philippine measure, 'it is manifest that it cannot pass congress at this session; indeed, it can never pass this congress. It is irrational now for congress to legislate on conditions of a president who is a candidate for reelection, is in the hands of his friends, and his friends are the enemies of the Nicaragua canal.'

'I hardly know whether to say I hope for the passage of the canal bill at this session or not. That depends upon two men on this floor. If they are controlled by the determination that the revenues for Republican campaign purposes shall not be cut off from the great railroad and canal combinations and syndicates, then the bill cannot pass at this session. The responsibility will have to and must rest upon them.'

The rest of the day was devoted to the sundry civil appropriation bill. TALBERT BLOCKS PENSION BILLS. The house devoted considerable time to private pension bills today and Mr. Talbert of South Carolina, who abandoned his obstructive tactics a few weeks ago, was again in evidence. After five bills had been favorably acted upon by the committee of the whole, he blocked their passage in the house with a point of no quorum. Among the bills favorably acted upon today were the pension bills to pension the widow of the late Captain Gridley, who commanded the Olympia in the battle of Manila, at \$50 per month; the widow of the late Commodore R. W. Meade at \$40 per month; and the widow of the late General M. F. Force of Ohio at \$50 per month.

COAL SITUATION IN ENGLAND.

DIMINISHED OUTPUT AND ENHANCED DEMAND HAVE ADVANCED PRICES OF THAT FUEL.

New York, May 25.—A dispatch from London published in the Herald gives the substance of an interview a correspondent of that paper had with a coal mine owner of prominence, in which the latter gave this explanation of the advance in price of that fuel in England: 'There are several reasons why the price of coal should be raised. The first of them is that many collieries have been losing money for years past. The collier has earned so much money that he won't work. He prefers to rest a couple of days a week. As one member of parliament has said: 'We could do with two hundred extra hands, but can't get them.'

'Owing to the war?' was asked. 'A little, but very little,' he replied. 'It is simply that wages have gone up. The collier has earned so much money that he won't work. He prefers to rest a couple of days a week. As one member of parliament has said: 'We could do with two hundred extra hands, but can't get them.'

'Thirly, there is the question of supply and demand which brings the price up. Shipping is tremendously active. So is the iron trade. As was stated recently, war transport has had the effect of absorbing much coal.'

'People say there is a coal ring.'

'I assure you,' he replied, 'there is no coal ring. It is entirely a question of supply and demand.'

'Then you are all going to be very rich.'

'No. Another point, and one which all should know, is that in considering the effect of the price of coal we have not sought to gain vast profits, but our idea is that greater returns shall be

WANTS A BETTER HARBOR.

MILWAUKEE AFTER BIG APPROPRIATION FROM CONGRESS. The jury was only five minutes at arriving at the guilt of the accused. None of the prisoners made any remark with the mayor to secure deeper water for this city. It is expected an appropriation can be secured from congress for the building of an immense break-water in the bay which will give a perfectly safe anchor there at all times and will make it possible for the building of piers out into the bay. This would give Milwaukee the greatest dock facilities of any city on the lakes. While this is the ultimate plan steps will be taken immediately to deepen the river so the largest vessels on the lakes can enter and load here without difficulty.

DREYFUS CASE AGAIN.

DISCOVERY OF NEW COMPLICTIONS THAT PROMISE TO REOPEN THE PROCEEDINGS SOON. Paris, May 25.—Despite Premier Waldeck-Rousseau's announcement in parliament on Tuesday, an effort will be made on Monday to reopen the Dreyfus case in the chamber of deputies. It has been discovered that a cousin (by marriage) of Mathieu Dreyfus was one of the heads of Premier Waldeck-Rousseau's secret police. This discovery is deemed of sufficient importance to bring to the attention of the chamber.

Deputies Alphonse Humbert and Charles-Camille Krantz, the one a Socialist, the other a Republican, have notified the minister for war that they propose to question the cabinet concerning the letters and actions of the agents of the secret police which caused the recent dislocation of the second bureau of the war department. The quarrel between the premier's secret police and the war office bureau arose over alleged discoveries in connection with the Dreyfus case.

The interpellation will be made on Monday. Maitre Labori declared tonight that the rehabilitation of Dreyfus was absolutely certain, and that he would soon be accorded his rank in the army. That he will resign the instant his rank is restored him is well known.

IN BRYAN'S HOME STATE.

POPULIST COURT MAKES AN OUTRAGEOUS ATTEMPT TO MUZZLE THE PRESS—DETAILS.

Omaha, Neb., May 25.—The supreme court of Nebraska is composed of three judges of whom two were elected by the Populists. Until January last the court was composed of justices of whom a majority were Republicans, but the only remaining Republican justice on the court is Judge Norval.

Recently the legislature passed a law empowering the mayor and council to appoint and confirm fire and police commissioners for Omaha. The Republicans control the city government. Populists want to get control of the fire and police boards which is also an excuse for granting licenses. Its political power in a presidential campaign is great. So they trumped up a case and filed it before the supreme court praying that the new law be annulled and that the old law be declared operative. That law made it the duty of the governor to appoint and confirm commissioners for big towns like Omaha. Governor Poynter is a Populist. So is former Governor Holcomb, who is now a supreme court justice.

When Holcomb was governor practically the same issue was before the supreme court. It is also by the same opponents that his acts as governor in this connection show him to have made up his mind in the case and hence he is disqualified to hear the pending issue. Edward Rosewater, editor of the Omaha Bee (Republican) made temperate comments along this line since the petition of the Fusionists was filed in the supreme court, voicing the sentiments of a large majority of Republicans. The Populist judges, however, took umbrage at the comments of the Bee and have ordered Mr. Rosewater to appear June 5 and show why he should not be punished for contumacious remarks by all leading Republicans as a highhanded attempt to throttle the Republican press of Nebraska and to intimidate the editors to prevent just criticism of their acts.

WALL STREET STOCKS

New York, May 25.—The stock market continued dull today. There was no appreciable outside demand and the professional traders preferred to hold aloof pending more definite developments regarding the affairs of the Price, McCormick & Co. failure. There were not many transactions, under the rule of the exchange, today for the firm's account, but there were indications of large transactions in accordance with private settlements.

In the early dealings, there was a sale of a nine thousand share block of Atchison preferred, the same house being both buyer and seller. There also was a report, current that very large repurchases were made for Chicago account of blocks of stocks sold yesterday for the failed firm. The prices at which they were made indicated that the buying of the stocks was warranted the rumors. The undertone of the market was rather depressed in spite of the support.

CHICAGO GRAIN MARKETS.

Chicago, May 25.—The wheat trade today was moderate in volume, the range covering but 1/4@3/4c. The feeling, while a little unsettled, was easier on the whole and the close showed May unchanged and July off 1/4c. The market was steady, owing to lack of moisture in the Northwest and unfavorable crop advices from Illinois and Kansas. Spot at Liverpool was steady with the exception of La Plata, which was off 1/2 a penny; futures were steady to 1/4c lower. Later rains were reported at Fargo, Grand Forks and Winnipeg and caused an easier feeling. There were twenty-four cargoes off the English coast. The Southwest was credited with moderate purchases on the reaction. New York reported sixteen boatloads reported.

In corn there was a fair trade, the market showing moderately active and improving range. It opened firm, but weakened, the close showing a slight decline on July. The transactions were largely local, the feature at the start being buying by provision interests, who later sold. New York reported forty-one boatloads accepted. Wheat was weaker and lower with a decline of 1/4@3/4c. The close was at the bottom. There was a fair business, the country offerings were liberal and receiving and elevator interests sold freely. The supply came from shorts.

On the other hand, one listens to the panting of a shell or of a bomb a quite appreciable while before the splitting bang announces its arrival somewhere. The panting grows clearer and seems to grow quicker as the thing comes straight onward, and one can almost feel it in the air. That it is coming still and has ever known the thing to open at one's feet, is the psychological moment for which, on a battle field, one has the least use. But the damage which the shell does is wonderful. At Dreyfontain the enemy dropped one into the leading team of baggage train just as the order was brought to bear to the right. The shell dropped between the second span of mules, and the whole ten were lifted off their legs by the explosion, and disappeared in a cascading cloud of dust. As the dust subsided, an officer drove forward to cut out the pieces of mule, and staggered span by span to their feet, and went forward with a whinny to the crack of the whip, none the worse for their tumble. Such incidents should make one view shell fire with almost a friendly eye, but in fifteen-pounder is not always a humorist. South Africa Correspondence London Post.

DEATH VALLEY IN CALIFORNIA.

Death valley is probably the most unique feature of California. It is enclosed by the Panamint range on the west and the Funeral range on the east. It is seventy-five miles long and its narrowest point but eight miles wide. At one time, most probably, says the scientific American, it was the bed of an ancient river. The lowest depression is 200 feet below sea level. The Panamint range rises 11,000 feet high and directly opposite, Funeral peak is 8,000 feet high. This remarkable valley was discovered in 1849 by a party of emigrants, many of whom lost their lives in an attempt to cross it. Its name has come to it, for it has been the scene of innumerable tragedies. Early in its history traditions of the rich deposits of gold and silver there led many persons to risk and lose their lives.

Range of thermometer in Death valley is greater than elsewhere in the western hemisphere. In winter it is nearly zero, while in July and August it stands for weeks at 137 degrees or higher. Weeks at a time 100 degrees is the lowest temperature observable. The deadly heat burns up every vestige of plant life. The Spanish bayonet, a desert growth, barely survives there. Winds blow from the west and are like blasts heated in the fiery furnace. No living thing can survive them.

In the months of greatest heat the sandstorms are most deadly. They rage with fury, obliterating the landscape and even dimming the sun. At these times no spot on earth surpasses Death valley for weirdness and torrid heat. An hour there without water means death. Meat spoils in the same time and eggs are cooked in the sand. Deposits of borax are plentiful.

Between the three there can be no mistaking, but the Boers have four or five other rifles harder to recognize.

The note varies, no doubt, with the rifling and initial velocity. It varies, too, with the length of flight. The Mauser's most melodious period is 1,800 yards. Pointblank it is nothing but a nasty nasal sneer, but one may be a judge of melody at close quarters. Perhaps the most melodious of Mauser's notes is that which is usually attributed to some unknown rifle. But the queerest note of all comes from a Mauser spinning the wrong way after a ricochet. It is like the coughing of a sick ghost—indescribably curdling. Perhaps the knowledge that at such moments it will be an inch or two out of light through one rather adds to the effect. The worst and best of bullet music is that one always hears it behind one. It is past before the ear can make a note of it. But that, of course, makes a consolation when the bullets are few.

**RESOLUTIONS OF RESPECT.**

Whereas, It has seemed best to Him who rules our lives to remove from our midst our beloved sister, Sarah Richmond, though she had not reached three score years, we are reminded that in the midst of life we are in death and, like our sister, though in health, may be cut down at a moment's notice and must submit to His will.

Resolved, That we, as members of Superior hive, No. 217, of the Ladies of the Maccabees, do tender to the afflicted husband and children our sincere sympathy at their loss and that another link is broken in the chain of the home circle; therefore

Resolved, That our charter be draped in mourning for a period of thirty days, that a copy of these resolutions be sent to the bereaved husband and to each of the children, inserted in The Mining Journal and a copy placed on the record book of the hive.

(Signed,) May McCormick, lady chaplain; Sarah Bibeau, lady record keeper; Maggie Patterson, past lady commander, committee.

**ONTARIO FOREST RESERVE.**

The Ontario government is making rapid progress toward the adoption of a complete system of reforestation, having recently set apart an important reserve in Frontenac and Addington counties.

After inquiries from time to time as to the most eligible territory for a reservation in the eastern part of the province, the commissioner of crown lands came to the conclusion that the McLaren limits, now operated by Isaac Allan, of Michipicoten, were the most suitable for the purpose. These limits cover parts of the townships of Abinger, Miller, Barrie, Clarendon, Palmerston, Ashby, Denbigh, Elmham, South Caninto, Olden, North Sherbrooke and Oso, and contain an area of 273 miles. The territory is watered by numerous lakes and streams and lies on the headwaters of the Mississippi river, a stream of considerable importance flowing into the Ottawa river, and on the headwaters of a branch of the Madaxaska river. All the good land available has been either sold or located, and the merchantable pine timber has been almost entirely cut away. The pine growth remaining consists of young trees springing up, which are spread over considerable areas of the territory, and, if protected from fires and allowed to attain a fair growth, will, it is deemed, become a valuable asset of the province in the near future.

Desperate Fights Between an Arkansas Pioneer and Wild Animals.

Old Uncle Sam Hudson was the man who fought the panther, and it came about in this way. He had found a big tree, and accompanied by one of his little boys he went out to cut it down. While he was chopping he heard a panther scream and he answered it. Very soon he saw the panther quite close to him, and thought he would have some fun, so he stuck his ax in the tree and began throwing rocks at the beast. When the first stone struck the ground the panther, not seeing where it came from, jumped upon it viciously, but when the next rock was thrown the panther saw the man and rushed toward him. Before Uncle Hudson could get hold of his ax the beast was upon him, and then a desperate struggle began. For awhile the man managed to keep the panther off by striking it with his feet, but finally it sprang upon him with its mouth wide open. Taking advantage of the opportunity, Uncle Hudson thrust his hand into the panther's mouth and caught it by the tongue, and then the hardest part of the struggle began. The panther's feet were free, and it used them with great success, tearing the man's clothing into shreds, and making deep gashes in his flesh. Soon he began to grow weak from loss of blood, but clung to the panther's tongue with his left hand and with his right fist, with all his strength, pounded the beast behind the forelegs and kicked it in the stomach with his feet, hoping thus to kill it.

While this desperate fight was going on the little boy was ready to give his father the hunting knife, but he did not have time to take it until his father was exhausted and had about pounded the life out of the panther. As the animal stopped its struggles for a moment, the boy succeeded in giving the knife to his father, who, with one blow, plunged it into the panther's side, and it fell over on its side, dead. The boy then home the little boy wanted to cover his father's wounds with mud to keep them from bleeding. He was badly wounded in nearly all parts of the body, but the worst injury was to his left arm below the elbow, from which the flesh was torn until it was no larger at the elbow than at the wrist.

Soon after Uncle Sam Hudson had recovered from the effects of his fight with the panther, he and one of my uncles were going around the farm next to the river, and their hounds got after a wild cat, which kept running around and across the cornfield. After awhile they saw the cat coming down a row of corn toward the fence right where they were standing, and Hudson said: "Peter, just stand right still, and if that cat comes through the fence here I will catch it." The cat came on with a rush and began to creep close to the fence, so close to where Hudson and my uncle stood, and Hudson sprang forward and caught it in his hands. The fight between the man and the cat was fast and furious, but finally Hudson got a hold on the beast so it could neither bite nor scratch him, and then he said to my uncle: "You see, my uncles, the panthers (they were of tanned buckskin) and the dog-eaten varmint for me." As my uncle tied the cat he told Hudson that he would have helped him, but saw no place to get hold of the cat during the wild and dizzy whirl, and that he had done just as you did. If I was out with a man and he was fool enough to catch a wild cat with his bare hands, I would let him fight it out to suit themselves." Hudson was torn up about as much as he was in his fight with the panther, but his wounds were not so deep, and he was soon well again and ready for any kind of a fight or exciting adventure.—Globe-Democrat.

**PEARL OF GREAT PRICE.**

It Has Turned from Pale Pink to a Brilliant Hibernian Green.

When Lieutenant Whipple, at dinner at the Waldorf-Astoria, several weeks ago, bit on to a pearl of wonderful size concealed in the inner economy of a fish, he set in motion a series of events that has since puzzled the lapidaries of the country.

Irish tendencies which are unaccountable. When first brought to public view it was of a pale pink hue. This color was supposed to be the result of the baking process to which it had been exposed. But since then it has gradually turned green, until now it looks not unlike a brilliant green pearl.

Lieutenant Whipple turned it over to William Benedict, who carried it to a jeweler in Fifth avenue, ordering that he set in a plain gold scarfpin. It was forwarded to Mrs. Whipple, who lives at Louisville, Ky. Mrs. Whipple valued the pearl highly, but as she saw it gradually changing its color she became superstitious and feared that it might be exporting a baneful influence upon herself or upon her husband.

For some days she refused to touch it, and then determined to submit the pearl to experts for their opinion. Louisville jewelers viewed the gem with great interest. It is the largest they had ever seen, but they could not diagnose its disease. That it was rotting color is indisputable, and until it finally settles down to some steady course of life a value cannot well be put upon it.

One Louisville gem fancier, already the owner of several large sapphires and diamonds, would like to add the pearl to his collection. He offered a generous price for it, but there is little probability that he will get the pearl, for the reason that a New York jeweler has written that he will pay an advance on any offer made by anyone else for the gem.—New York Herald.

MRS. E. H. LELAND, PITTSFIELD, MASS., Writes: "Some five years ago I had nervous prostration and malaria. I tried several medicines, but was no better. A friend persuaded me to use Paine's Celery Compound, and it gave me new life and strength. Since then it has been a sovereign remedy for all my ills, and I value it above all remedies for nervousness and a debilitated system."

### WOLF IN A NEW YORK PARK.

Fierce Russian Specimen Steals a Woman's Muff and Then Attacks Keeper.

The largest exhibit in the range of wolf dens in the New York Zoological Park, a great gaunt brute which a few months ago roamed the steppes and forests of Russia with his mates, is daily sustaining the reputation of his kind for ferocity and treachery. His first exhibition of temper occurred last week, and a woman was his victim. She was standing by the cage and extended her muff toward it while calling the attention of her escort to the animal. The wolf bounded against the bars with bared teeth and hair bristling in his rage. He aimed a vicious blow between the bars at the woman's extended arm. He missed her arm by so narrow a margin that he caught the muff in his claws, and dragging it into the inclosure tore it into ribbons. Among the remain was a purse, the contents of which far exceeded the cost of the muff, although that was valuable.

The woman had about recovered from the shock of the beast's attack when Edgar Stephens, one of the youngest of the keepers, came along and found her bewailing the loss of her valuables. Armed with a club Stephens entered the inclosure and secured the purse, the wolf greeting him with an angry snarl, but slinking off on seeing that he was armed. Three days later Aldin J. Loring, curator of the mammal department, entered the inclosure unarmed, depending as he had often done before, on his familiarity with the animals under his charge being a sufficient safeguard against attack. The wolf leaped away from the inclosure, keeping well away from Mr. Loring until he thought the man was off his guard, when the brute sprang full at his throat.

Loring jumped aside, but the wolf's jaws closed on his shoulder and the animal lay heavily upon him in an endeavor to drag him to the floor. The keeper, however, managed to get free, the several thicknesses of winter clothing until Loring was able to tear himself free, at the sacrifice of his garments. He slipped out of the inclosure, leaving the wolf snarling over liberal samples of his uniform. The wolf's teeth had grazed his shoulder, but the thickness of the clothing had saved him from any material injury.—New York Sun.

THE MURDERER CAPTURED

He is Now Safely Lodged in the Ishpeming Jail.

SHERIFF CARLSON ARRESTED HIM YESTERDAY AT CHAMPION.

Clue to the Criminal Furnished by Marshal Gribble of Negaunee Was Successfully Followed.

A MAN'S LIFE TAKEN FOR \$15.

In less than twenty-four hours from the time his crime was discovered, Jacob Brown of Sandusky, Ohio, the murderer of Harrison Howard of Negaunee...

The description of the murdered man answered exactly to that of a person whom Marshal Gribble had seen in Negaunee Tuesday evening.

Howard's body was seen early Thursday morning by a farmer driving to Ishpeming, who thought it was some tramp sleeping by the roadside.

Accordingly Sheriff Carlson and Marshal Gribble left for up the line at 9 a. m. Sheriff Carlson went to Champion, while Gribble stopped at Negaunee.

He stepped up to the fellow and accosted him, saying: "So you are up in this country again, are you?"

"Where are you going?" "To the upper country, where a man can earn \$2 a day instead of 50 cents," was the rejoinder.

"What are you doing now?" enquired Sheriff Carlson. "Peddling," was the answer.

"Do you remember serving time in the Marquette county jail?" This question brought a negative reply.

"The man would volunteer no information relative to the contents of the valise, which was thereupon opened. It contained a stock of patent buttons, specialties, with letters and papers addressed and belonging to Harrison Howard, and other articles, including a copy of the New Testament.

The testimony of the boy practically completed the case against the suspect. He was brought to Ishpeming at 12:25 by Sheriff Carlson and Deputy Sheriff Jeffrey Marchand and securely locked up in the city jail.

"To Sheriff Carlson's question, 'Is this the man your father killed?' the boy nodded his head affirmatively, saying, 'That's the man.' The club foot of the deceased was mentioned and the lad was questioned as to whether he had ever noticed the deformity. He replied that he had.

The boy could not give any information as to how the two deers cut on Howard's forehead were inflicted, but he stated that the fracture of the skull was caused by a blow from a stone welded by his father's hand.

Robbery furnished the motive for the deed. Howard possessed \$15 which was coveted by Brown, and the murder was done.

The important points of Johnny Brown's story follow, but it is incomplete in some particulars, as The Min-

ing Journal has not yet had access to his full statement. Tuesday evening he and his father and Howard were in Negaunee, after traveling together eight days. It was there that they met Gribble, who noted Howard's appearance carefully, his attention being attracted by his crippled condition.

Between 10 and 11 o'clock, possibly a little later, they arose and resumed their journey west of the city, taking the Dexter road when they reached it. Their progress was slow and at about 1 o'clock, according to Johnny Brown's idea of the time, they arrived at the point of the road where the murder was committed.

At Champion the murderer drank excessively, stupefying himself to such an extent that he continued to carry the valise which he had taken from his victim, and neglected several opportunities to get clear of the county. His short-sightedness can only be explained on the hypothesis that he drank heavily and often, as the disappearance of the money taken from his victim's person would also indicate.

Howard's body was seen early Thursday morning by a farmer driving to Ishpeming, who thought it was some tramp sleeping by the roadside. When this farmer was returning to his home he again noted the body, and on investigating found that a crime had been committed.

The murderer appears to be a man of about forty-five years, which was also the age of his victim. Howard was apparently a Christian man. In addition to the New Testament his valise contained an open letter from Edward Thomas Munns, superintendent of the county jail, to Miss M. Peoria, Ill., which recommended him to all Christian people as a "sober, steady and industrious man."

ISHPEMING IN BRIEF.

Page Laughlin was up from Marquette yesterday.

Fred Thoney was up from Negaunee yesterday morning.

Tomorrow Ishpeming's three military organizations go to Negaunee to participate in the observance of memorial Sunday.

Yesterday was a warm day. Fair weather is forecasted for tomorrow. Many outing and fishing parties have been formed to spend the day out of the city.

The Italians who run a saloon on West Division street are about to move into the building owned by William McGinty at the corner of Pearl and Pine streets.

Ishpeming bicyclists, who like active participation in racing, are preparing for the afternoon's sport arranged for Union Park for Decoration Day.

The trustees of the Division street M. E. church have started extensive improvements at their house of worship. It will be painted and the premises will be placed in good order.

A class of seventy-five communicants will partake of the sacrament for the first time and will be received into the Catholic church Sunday at St. John's church. The service will possess deep interest, and will attract a large congregation.

Will Burrows, clerk in the Ishpeming branch of the Grand Union Tea company, who left here some ten days ago to take a position in Marinette, has returned to the city, and is now filling his old position with Manager Nelson of the Ishpeming store.

Boys between the ages of eight and seventeen years are requested to assemble this afternoon at Union Park. Captain Mike Nugent of the Woodmen degree team will meet them and instruct them in drill work in preparation for their appearance in the big Woodmen parade here June 25.

High school pupils will rally at Union Park this afternoon. Class colors will deck the partisans of the four teams which will contest in the field day sports. School yells and noise of varied descriptions will abound.

"Lynwood" will be produced by the Catholic Dramatic club at the Ishpeming Opera House Thursday and Friday evenings of next week. It has been under rehearsal for many weeks and will be a finished production.

K. G. Dahlstrom attended circuit court at Marquette yesterday afternoon. He was subpoenaed as a witness in the suit brought by M. L. Lee against Paine, Webber & Co. M. J. Griffin and J. J. Leffer, as well as other parties interested in the suit between them, also spent the day in court, the hearing of their case having been postponed from Thursday.

PREVENTED A TRAGEDY.

Timely information gives Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery.

After suffering from severe dyspepsia over twelve years and using many remedies without permanent good I finally took Kodol Dyspepsia Cure. It did me so much good I recommend it to everyone," writes J. E. Watkins, Clerk and Recorder, Chillicothe, Mo. It digests what you eat.

## Dr. Williams' Pink Pills for Pale People

Mrs. William Cotter who lives at No. 42 Windsor Street, Hartford, Conn., says: "I was taken with neuralgia several years ago and suffered untold misery. I tried a great many doctors and several remedies, but I found only temporary relief. About three years ago I was advised to try Dr. Williams' Pink Pills for Pale People and I did so. I thought that the first box gave me some relief, and my husband insisted that I keep on taking the pills. I did, and I can truly say that the pills are the only medicine that ever permanently benefited me."  
"I used to have to give up entirely and lie down when the pain came on. My face would swell up so that my eyes would close. The pills cured all this, and I have had no return of it for the last two years. I keep the pills constantly on hand, as I believe they are a wonderful household remedy."  
"To Dr. Williams' Pink Pills for Pale People I owe all the comfort I have enjoyed for the past two years in being free from neuralgia, and I am glad to be able to recommend them."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' Dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent, postpaid, on receipt of price, 50c. a box or six boxes for \$2.50 (they are never sold in bulk or by the 100) by addressing Dr. Williams Medicine Company, Schenectady, N. Y.

## DINGED THEIR PROGRAM.

**MICHIGAMME MACCABEES ARE SORE ON MARQUETTE BUSINESS MEN'S ASSOCIATION.**

Michigan Maccabees have razors in their half hose for the Marquette Business Men's association, which was the means of putting an end to their endeavor to get up a Marquette county souvenir program for their big reunion of June 8. It was the purpose to obtain advertisements from Marquette, Negaunee and Ishpeming merchants. It was expected that a neat sum would be realized over the expense of publishing the program. Marquette was the first city in which the soliciting committee labored. For a few hours all went swimmingly and nice bunch of advertisements were secured. Presently a member of the newly formed Business Men's association was encountered, however, who not only refused to take space, but he put a stick in the wheel of the committee's plans which tore all the spokes out. He appealed to the officers of the association to call a boycott on advertising in the program under one of the by-laws which declares against all but regular advertising. This was done and everywhere the Maccabees went they encountered a chilly reception.

After about thirty minutes of this cold work they gave up the fight in despair, all hope of printing a souvenir program, and retired from the field very gracefully notwithstanding the high temperatures under their collars. They might have canvassed the Twin cities for the program, but the frost they encountered down the line was too much for their persistence.

## MEMORIAL SUNDAY.

Tomorrow is memorial Sunday. Each year, besides decorating their graves, the living members of the G. A. R. commemorate the lives and deeds of their deceased comrades by attending special services held in one of the Christian churches. This year they will be held at the Mitchell M. E. church. Charles Towne post of the G. A. R., escorted by the Emmett Guards, the Lake Superior Guards and the Light Guards of Ishpeming, will form a procession at the church at 9 a. m. and march to the church, where the service will commence at 9:30. In addition to the military organizations, the Women's Relief corps will be present in a body. All citizens of Negaunee are invited to participate in the memorial services.

## EIGHT O'CLOCK CLOSING.

Some Negaunee merchants complain that the agreement relative to eight o'clock closing is being violated. It is said that certain merchants keep their stores open beyond that hour. This is unfortunate, as it may result in a violation of the early closing agreement and bring about conditions which would be onerous alike to the clerks and their employers. It is generally admitted that every business place should close at eight. Even if the doors are shut promptly at that hour the employees have put in a very long day's work.

## A PLATT JUDGE.

T. C. Platt of New York has made, through President McKinley, an appointment of district judge in his state which has occasioned severe adverse comment. Platt required at the hands of the president that John R. Hazel of Buffalo should receive this office. Mr. Hazel's claim to it appears to have rested upon the fact that he was the agent of the Platt machine in Erie county. The opinion in the local public prints, which knew of his lack of attainments in the law, was that he was not fit for the place. The New York Tribune says of him that he "falls far short of the qualifications commonly considered necessary in a United States judge. He is known as a politician, and nothing else," and it declares that the nomination ought to be withdrawn, or, if not withdrawn, rejected. "It is a pity that, while Platt's selections for office in New York are virtually edicts to be obeyed, he cannot have the forbearance to keep his hand off of the judiciary."—Boston Herald.

## CUTS A WIDE SWATH.

Commissioner Peck is Said to Be "Trop de Chicago" for Fastidious Paris.

Rumors abound in Chicago, breathed from private correspondence, intimate that Mrs. Peck, wife of Commissioner-General Ferdinand W. Peck, wishes to become the social rival of Mrs. Potter Palmer. Mrs. Peck is elegantly domiciled at the Elisee Palace hotel, which overlooks the Champs Elysees, and is not far from the exposition grounds. Mrs. Potter Palmer has taken up her abode at the Hotel Ritz, in the Place Vendome, which, an everyone knows, is the Parisian home of royalty. "The Prince of Wales," Mrs. Palmer writes, "has engaged rooms at this hotel for his stay in Paris." It is natural, after Newport, that Mrs. Palmer should next desire a royal atmosphere, but Mrs. Peck will be better able to entertain, as the Elisee Palace is new and modern, and elegantly appointed. Mrs. Peck has had the Peck suite refurnished and redecorated after her own designs. The salon is hung in rose-colored silk, with curtains and furniture in the same tone. The "one and only Peck" commissioner-general from the United States to the exposition, is a perpetual joy to the newspapers of Paris; for he is always a solitary perfect illustration of what they are pleased to call les manieres Americaines. They look upon his constant ebullitions of crude speech and temper with as much amusement as if he were a wild man.

They will never forget what a furious dignity he tried to assert one evening at the opera when, by courtesy of President Loubet, he and his party occupied the stage box. A uniformed official entered to call his attention to the fact that there was a vacant seat in the box. Mr. Peck, none of whose party could understand French, chose to think himself insulted, and proceeded to make such a scene that the authorities finally invited him to leave the opera house. And he and his party fled out, amid general uproar.

A lady, whom he took out at a dinner, given by Ambassador Porter, was much amused by the excited manner in which he spoke of the extreme slowness of procedure of every one and everything in Paris. "Perhaps, Mr. Peck," she suggested, "your difficulties in dealing with the French authorities arise from the fact that you seem to be under the impression that you have come over to direct the entire exposition, instead of only to supervise the United States section." During the early autumn, the family, no doubt impelled by the reputation of Swiss cows, went to Geneva, returning by the rapide, which arrives in Paris at 7 a. m. At the station the French railway official, with the courteous characteristic of his class, politely knocked at the door of the sleeping car to inform Mr. Peck that he was in Paris. Great was the ire of the commissioner. "I want you to know that I took this car for the night, and don't propose to be disturbed at this early hour. I will not leave it till I am ready." "Monster is at liberty to remain at his pleasure, but I shall be obliged to change the place of the car," which was quietly shunted to Charenton, a few miles out in the suburbs. About 9 a. m. the railway official at this station was greatly surprised to see issuing from the car Mr. Peck and party, who were given the choice of waiting for an omnibus train or taking private carriages to Paris.—From Town Topics.

## HIS HAND TO HIS HIP POCKET

Workmen Have That Habit to a Remarkable Degree. A workman will suddenly pause in his work and whip his hand around to his hip-pocket. For a gun? Not a bit of it. For a plug of chewing tobacco. Very often he will bite off a piece and put the remainder back with an air of dissatisfaction. It was not what he wanted, but having bought it, he must chew it. If this experience has been yours, buy for trial a plug of Gold Rope, Kingbolt, Thrasher or Rise and Shine, and you will find it better than the ordinary brands. The above brands are made by the Wilson-McCallay Tobacco Co. of Middletown, Ohio, a company which is absolutely independent of any trust or monopoly. Workmen have it within their power to strangle monopoly by buying tobaccos made by independent concerns. The Wilson-McCallay brands are clean, pure, wholesome. They do not give heartburn and other effects of a similar character. If you are a working man the inside of your dinner pail is a good place to scratch the names of those four famous union made brands: Gold Rope, Kingbolt, Thrasher, Rise and Shine.

GOOD REPORT FROM MASS

Captain Trezona Writes a Letter Describing the Results of Work Under Way.

SHOWS WELL AT THE SEVEN HUNDRED AND TEN FOOT LEVEL.

Work of Unwatering the Old Butler Mine is Now in Progress—First Two Levels Already Free and Others Expected to Be Soon.

INTERESTING TO MASS STOCKHOLDERS

Agent Mathews came down last evening from the copper country, enroute home from one of his regular visits to the Mass mine. He brings back the customary good report, also a letter which Captain Trezona had just written him and was about to post when he appeared in Mass City.

"Mass, Mich., May 23, 1900. "Mr. A. Mathews, Agent, Marquette, Mich."

"Dear Sir—I am very much pleased to be able to report a good showing of copper at the 710 foot level on the Butler lode; the bar of trap just passed through in this drift is seventy-five feet long. We have every reason now to expect a continuation of good lode for several hundred feet in length, as the old openings in the Butler lode, which is 250 feet above our work, made by the pioneer miner, indicate that they had taken out lots of copper."

"Work on the Evergreen lode, Ridge shaft, continues to show good lode. The fifth level drift, which is just under the shaft, also looks well and is producing some barrel copper. The lode in the sixth level drift has very much improved since my last report to you. This drift is producing some good rock that is well charged with copper with a few pieces of barrel copper. At this writing the lode in the seventh level is lean and is producing anything of value. The lode in the eighth level drift continues to look good and is producing rock well charged with copper. The cross-cut to the north at the eighth level has just reached the hanging wall rock; the lode at this point is fifty feet wide on the level of the drift and shows some heavy copper throughout the width of the lode."

"Our work of drifting the cross-cuts to reach the Butler lode at the fourth and sixth levels is progressing very satisfactorily. We have the first and second levels of the Old Butler mine dry and we are now going for the third level and hope in a short time to have the water all pumped out of this mine."

"Yours truly, "R. R. TREZONA."

BOY IS HELD HERE

Principal Witness in Ishpeming Murder Case is in Marquette.

Sheriff Carlson came down from up the road last evening bringing with him Johnny Brown, a slight, small, poorly dressed boy of sixteen, who is the principal witness in the Ishpeming murder case. Johnny was apprehended by the sheriff at Champion shortly after he made the arrest of the boy's father, Jacob Brown, who, according to the story of his own son, was guilty of deliberately murdering Harrison Howard.

"There is no charge against the boy but he is being held as a witness. He will be taken back up the road by the sheriff this morning to attend the inquest. It is a little unusual for a son to so readily give evidence against his father, but in this case it may be explained by the fact that he has ill used the boy, making the latter glad to be free from him."

Johnny says that his father is a stone cutter by trade and has done a little work in that line in his home in Samsky, Ohio, but that he preferred to tramp around the country getting his living by begging and more questionable means. The boy says that his father would frequently be away from home a year at a time, then drop in unexpectedly to pay a short visit to his family.

"The last time he went away, which was about a month ago, Johnny went with him. The boy does not think the life of a tramp is an ideal existence, or that begging is the easiest way of getting a living, particularly when one has to beg for food. According to what Johnny says the father was not very successful in making his son find his meals for him, though he attempted it. Johnny says that when he got hungry himself he would go to some house and ask the lady for something to eat. If she complied with this request he would go in doors and eat what was given him and leave the old man outside. Johnny says that after they got away from the scene of the murder his father wanted to kill him and borrowed a gun for the purpose. He asked Johnny to come out in the woods, but Johnny declined. He probably has his bump of veneration to thank for the fact that he is alive today to give testimony."

RHODE ISLAND STOCK

It Figures in a Case on Trial in Circuit Court—Other News.

Did or did not Marvin L. Lee purchase fifty shares of Rhode Island mining stock from Paine, Webber & Co. is a question which a jury in the circuit court will endeavor to answer. The case is now on trial.

Mr. Lee admits the original purchase of the stock through Paine, Webber & Co.'s Ishpeming office. Shortly after the same day he ordered it bought here in an order to cancel. The last order went in too late and the stock was purchased. He then ordered it sold. He claims that the local agent of the company told him he had another in who wanted fifty shares of Rhode Island and offered to transfer the purchase to this other man. Mr. Lee agreed to the arrangement and claims he supposed the transfer had been made about three months later he received a statement and found he was charged with fifty shares of Rhode Island stock that time the stock had dropped considerably and he was a loser on the

deal. He is now suing for an adjudication of the account.

Earlier in the day the court gave its attention to the suit brought by Joseph L. Lefter against Michael J. Griffin. Griffin sold Lefter a team of horses, one of which died within a few days after the purchase. Lefter, who claimed that Griffin had guaranteed the horses sound, brought suit to recover. Mr. Griffin denied this allegation but the jury sided with the complainant and awarded him \$125 damages.

VERY DULL AGAIN.

Another Day Almost Touches the Record for Small Sales.

Copper stocks were a lifeless commodity again yesterday, the volume of sales being but a trifle greater than that of Thursday, which made a low mark record. The tendency of the movement was downward.

Boston & Montana fell two to 299; Calumet & Hecla followed suit by ironing being absolutely no pressure to either buy or sell. As I have told you before this market is entirely one of sentiment. Conditions are good; sentiment may change like a flash. During the afternoon the market remained very dull with prices of copper stocks showing no material changes."

"The grain markets were weak yesterday. Corn and wheat each losing an eighth. July wheat closed at 67 and July corn at 37 1/4. A. R. Jones & Co. said in yesterday's letter to Fred Jones:

"London copper opened easy off 12s. 6d. for spot and 10s. for futures; closed off 2s. 6d. for spot and unchanged for futures. This has been one of the duller mornings of the year. Up to 12:30 p. m. but 839 shares changed hands, being absolutely no pressure to either buy or sell. As I have told you before this market is entirely one of sentiment. Conditions are good; sentiment may change like a flash. During the afternoon the market remained very dull with prices of copper stocks showing no material changes."

"The ninth annual ball of L. L. Hood lodge, No. 10, Brotherhood of Railway Trainmen, was given in Casino rink last evening and attended by a large crowd, a part of it being recruited from points up the road. While the crowd was large the number in attendance was not so great as to make it uncomfortable for those on the dancing floor and all appeared to have a good time. Excellent music was furnished by the Marquette Ideal orchestra, the full quota of instruments being used. A feature which excited much comment was the handsome decorations of the hall. These were for the most part formed by a combination of designs in electric lights and bunting. At the west end of the hall a large painting representing the rear end of a moving passenger on the Marquette route was conspicuous. Over the orchestra stand "L. L. Hood Lodge No. 10" appeared in colored incandescents. Other conspicuous electrical designs were the flag and shield in national colors.

TENTH OF JUNE.

Long Distance Wires Will Be in Houghton and the Sea by That Date.

General Manager Sherman of the Michigan Telephone company says that the long distance system will be completed through to Houghton and Sault Ste. Marie by the tenth of next month. When these lines are finished there will be no important places in the upper peninsula still lacking talking communication with the outside world. Work on the company's new divisional office and central station is progressing nicely. Lipsett & Gregg, the contractors, have had a force of men at work all this week on the company's lot just west of The Mining Journal building and have the greater part of the excavating finished. The building will be pushed to completion as rapidly as circumstances will permit.

WHIRLING MICE.

Unique Exhibit to Be Seen in E. L. Kellan's Grocery Window.

The south window of E. L. Kellan's grocery window has a unique exhibit in the shape of a pair of Japanese whirling mice. The rodents are black and white in spots and are about half the size of an ordinary American mouse. The peculiar thing about them is the instinct which makes them spin around much like a Mohammedan dervish. The exhibit is proving a very attractive one. In connection with the mice ivory soap is advertised by a house built of snow white cakes of soap and over it an arch of soap in wrappers.

IMPROVEMENTS IN PROSPECT.

First National Bank Building Will Be Handsomely Remodelled.

Contracts have lately been let for extensive alterations and improvements at the First National bank and the work will be undertaken as soon as the material is delivered. The present corner entrance will be done away with and in its place a large, round bay window will be built. Iron steps, uniform with those leading to the upper portion of the building, will run from Spring street to a landing on the Front street side of the building near the present Front street steps. The entrance to the bank will lead in from this landing.

is now, straight across the building, a foyer will be cut through on the south side, running back almost to the vault. The change will give more room for patrons and give a window for each of the bank employes with whom the public has to deal. At the end of the foyer there will be a room for the accommodation of those who have boxes in the safety deposit vault. No alterations will be made in either the second story or the basement.

SOCIETIES SHOULD TURN OUT

And Assist the Grand Army in Properly Observing Memorial Day.

For some years latterly the civic and fraternal societies of this city have made but meager response to the invitation extended to them by the Grand Army post to participate as bodies in the Memorial day observance exercises. This is not creditable to their patriotism. The day is dedicated to the memory of the gallant men who died that the republic might live, and especially invited in honoring it are but discharging a sacred duty.

It is to be hoped that the societies which have been invited to assist in observance of the day this year will turn out in force and show that they are ready to do their share toward paying tribute of respect to our martyred dead. Those which intend to take part in the parade will confer a favor by notifying Captain Krueger, who will see that they are assigned places in the line. All the civic and fraternal societies in Marquette are requested to consider themselves specially invited to appear in the parade, whether they have received formal invitations or not.
