THE CHANGE OF LIFE

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble. Those hot flashes are just so many calls from nature for help. The nerves are cry-

Think of Your Stomach

If people would think more of their stomachs there would be less sickness and suffering in the world. Through sheer innorance and thoughtlessness, man and women overcrowd their stomachs and injure them with unwholesome food, hus imposing on them work which rature never intended the mode. In this manner the vast majority of people sooner or later become afflicted with some kind of stomach trouble, for it has many forms, including malaria, indigestion, constipation, diarrhea, inflammation of the stomach, etc. Liver and bowel complaints are also often due to nothing but deranged condition of the stomach. It is because people eat food of unwholesome quantity or quality that their stomachs become disordered and fail to perform their duty of digesting and assimilating the food. For relieving and curing every form of stomach, liver and howel trouble, and for helping and strengthening these organs to perform their functions perfectly, nothing is equal to

Johnson's Stomach Tablets.

They cure scientifically, unfailingly, permanently. By assisting in the proper digestion of food, and the regular discharge of the waste through the intestines; they keep the blood pure, the system cleaned and toned, and induce health and long life.

Lower Michigan News. Nervous Debility.

An overworked nervous system is always an exhausted nervous system. The body is robbed of its vital forces, the nutritive organs suffer for lack of control The supply of blood and the action of the heart are seriously disturbed. Sick headaches, dull pains in back of neck and down the spine, dizziness, ringing in the ears, dimness of vision, twitching of eye lids and eye muscles and a general tired feeling tell of the failing strength. There is nervousness, irritability, wakefulness, loss of memory, brain fag and depression of spirits. A remedy for nervous debility should begin at the foundation of the trouble; and, by checking the unnatural waste of nerve-force and stimulating the digestive organs, build up the vitality and resistive strength of the whole system.
