HE CROSSES THE ORANGE

Pretoria Dispatch Asserts Dewet Has Joined Cape Colony Invasion.

BRITISH TAKE A CONVOY.

Sixty-Five Wagons and Forty-Three Prisoners Captured by the Cavalry in Eastern Transvaal.

SUCCESS BY KITCHENER.

London, Feb. 12.—Lord Kitchener, in a dispatch received today from Pretoria, says: "General French (cavalry commander, operating in eastern Transvaal) has captured a convoy of fifty wagons and fifteen carts and has made forty-three prisoners. We had one man wounded." A special press dispatch from Pretoria today says that Dewet crossed the Orange river Sunday night, going in the direction of Philippstown, and that the British are following.

FEVER IS DISASTROUS.

Lorenzo Marques, Feb. 12.—The fever season here is exceptionally disastrous. Many deaths of prominent British subjects have occurred, the majority of whom belonged to the imperial railroad administrative staff and had to be removed to the hospital ship in batches. Patients from Komatipoort are arriving daily. The hospital ship is now filled to its capacity. The mortality among the Boer refugees is heavy.

RAIDING IN CAPE COLONY.

Cape Town, Feb. 12.—Twenty-seven Australian police and dragoons were captured by Kruitinger's commando eight miles from Ballaspruit on the 6th after a fight in which three British and five Boers were killed. The British afterwards were released. Two hundred Boers are raiding the Paarl district, looting stores and destroying orchards and gardens. Several have been killed or wounded. Seven British yeomanry, while skinning, were captured by a commando near Vryburg which was later forced to retire. Piet Dewet has arrived at Cape Town to engage the Afrikaners in the peace movement. Large bodies of republicans have been seen near Donkerspoort station, north of Norvalspont. Shots were exchanged. The British have occupied Ficksburg, with little opposition, and released the prisoners who were in jail. The Boers are moving in the direction of Fouriesburg, where they have the most of their supplies.

DARING ROBBERY AT CHICAGO.

SAFE TAKEN FROM A BANKER'S RESIDENCE IN VIEW OF PASSING PEOPLE—CONTAINED NO VALUABLES, HOWEVER.

Chicago, Feb. 12.—This evening two men drove up in a cutter to the residence of Chauncey J. Blair, the millionaire banker, on Drexel boulevard. While one man held the horse the other climbed up the front porch, pried open a window and carried out a heavy safe in which Mrs. Blair usually kept jewels. It happened, however, that she removed them a short time before. The robbers were discovered as they left the house, but made their escape without difficulty. The burglary was committed while people were passing the house almost every minute, and the entire job was carried out in the glare of an electric light which stands in front of the house.

EDWARD TO TAKE TRIP.

STARTS IN MARCH WITH QUEEN ALEXANDRA FOR GERMANY AND DENMARK.

London, Feb. 12.—King Edward and Queen Alexandra, according to Truth, will leave England during March to visit the dowager Empress Frederick. They also will visit the Grand Duke and Grand Duchess of Hesse and will spend the Easter holidays at Copenhagen.

DOWAGER MUCH WORSE.

Berlin, Feb. 12.—Rumors are current here today that the condition of dowager Empress Frederick is growing worse and that her heart is not performing its functions normally. The Associated Press, however, is not able to obtain confirmation of the reports.

PLAGUE RAMPANT IN RUSSIA.

THOUSANDS OF DEATHS IN SIBERIA OFFICIALLY ADMITTED.

London, Wednesday, Feb. 12.—The Daily Mail publishes the following from its St. Petersburg correspondent: "Serious reports are in circulation here regarding an outbreak of what was first called typhus, but now officially admitted to be the bubonic plague, in the Kirghiz steppes of western Siberia. Many thousands have died in the districts between Semipalatinsk and Orenburg. The government is sending large quantities of wheat to be distributed to the starving people and is organizing traveling medical services to localize the outbreak."

FROST FOR MRS. NATION.

LITTLE INTEREST TAKEN IN HER ARRIVAL AT CHICAGO AND A RATHER MEAGER AUDIENCE PAYS TO HEAR HER SPEECH.

Chicago, Feb. 12.—Mrs. Carrie Nation arrived in Chicago at 8:40 o'clock tonight, coming over the Rock Island road, and within fifteen minutes after reaching the city was facing a somewhat diminutive audience gathered under the auspices of the local members of the W. L. G. in Willard Hall. On the train toward Chicago she delivered a number of short addresses from the rear end of the car, speaking at nearly every station where a stop was made.

The arrival of Mrs. Nation produced no excitement whatever and provoked but little curiosity among the people in the depot. The impression existed with many that the lecture was to be free, instead of which an admission of 50 cents was charged. This balked a good many and at the time of Mrs. Nation's arrival there was as many in the hall waiting to see her enter as there was in the hall waiting to hear her speak.

Before entering the hall Mrs. Nation declared it was her intention to get the saloon keepers of Chicago together and talk to them. She is determined to do this, she said, if she is compelled to remain in Chicago a week in order to accomplish her purpose.

VISITS THE LEVEE DISTRICT.

Chicago, Wednesday, Feb. 13.—Shortly after midnight Mrs. Nation, attend-

ed by a few friends, went on a tour of the levee district. The first call was made at a State street saloon, where the proprietor had hung across the doorway a banner bearing the inscription, "Welcome to Mrs. Nation." Mrs. Nation was politely greeted by the owner, who seemed to be an old acquaintance, and the two sat down for a social talk. Mrs. Nation made no effort to break anything. She said she was going to get the saloon keepers to come to her lectures.

OCEAN LINER ASHORE.

STEAMER SPARATAN PRINCE IN DANGER NEAR GIBRALTAR.

Gibraltar, Wednesday, Feb. 13.—The Prince line steamer Sparatan Prince, Captain Miller, from New York, bound for Naples, Genoa, etc., is ashore off Alcazar point. It is in a dangerous position. All the holds are full of water and the cargo is greatly damaged. The passengers, including ten Americans in the first cabin, were saved with considerable difficulty and landed at Gibraltar.

FOR MAYOR OF ST. LOUIS.

DEMOCRATS NAME ROLLA WELLS, A BUSINESS MAN.

St. Louis, Feb. 12.—Rolla Wells was unanimously nominated for "the World's Fair mayor" by the city Democratic convention today. Wells carried twenty-one out of the twenty-eight wards at yesterday's primary election. He is a prominent business man.

CRISIS IN SPANISH CAPITAL.

Madrid Seems on the Verge of a Republican Tumult and the Loyalty of the Army Is Questioned.

Madrid, Feb. 12.—Whispered rumors, which are not supported by tangible facts, say Madrid is on the verge of a tumult. The government, however, is calmly proceeding to carry out the details for the wedding of the Princess of Asturias to Prince Charles of Bourbon, but the street corners and clubs, hotels and corridors teem with disturbing stories.

New shouts of "Long live the army" is the most serious sign. Should it take a real hold on the people and should the fever reach the army itself, the outcome would be threatening. Current talk represents the army as being dissatisfied and as announcing it does not intend to take up arms against the people so long as their position is directed against the Jesuits and the Count of Caserta. The feeling against the former is largely political; but read and deep-seated antagonism exists against the former Carlist leader.

DEMONSTRATIONS NUMEROUS.

This afternoon about eight hundred students, led by a woman bearing French and Spanish flags, assembled in the Puerta del Sol and started cries for the army, against the Jesuits and the Count of Caserta. They were quickly dispersed, but continued reassembling in various parts of the city. The afternoon was one of continual manifestations, though without serious incident owing to the vigilance of the police. In fact, throughout the entire day civil guards were everywhere visible dispersing crowds wherever found. These assemblages were largely composed of youths and street idlers, but behind them were agitators and the sentiment of the people.

CHICAGO PUPILS REBEL.

MARCH ON HIGH SCHOOL BECAUSE GIVEN NO HOLIDAY ON LINCOLN'S BIRTHDAY.

Chicago, Feb. 12.—Nearly sixty pupils of the senior grades at the North Division High school, incensed because Principal Westcott would allow no holiday because of Lincoln's birthday, refused to attend their classes this morning and, with a brass band playing popular airs, endeavored to get the rest of the students to join them. They were unsuccessful but obeyed the orders of the principal to leave the grounds.

HOOSIE'S OIL MAD.

RICH STRIKE RIVALING FAMOUS TEXAS GUSHIER MADE ON A FARM NEAR DUNDEE, IND.

Hartford City, Ind., Feb. 12.—The great excitement among oil speculators continues here. Everybody is oil mad. Never in the history of the Indiana oil fields has there been such excitement as today. A ten-inch gusher blew away from the little village of Dundee, nine miles northwest, have advanced to a price that startles prospectors.

DUTY ON RUSSIAN SUGAR.

SECRETARY GAGE ORDERS THE LEVY OF A CENT A POUND TO OFFSET THE BOUNTY.

Washington, Feb. 12.—The secretary of the treasury has imposed a countervailing duty of 44 cents, or about 32 cents, per pound (a little over thirty-six pounds) on all refined sugars imported into the United States from Russia. In an order which is addressed to O. L. Spaulding, assistant secretary, in charge of the customs, Secretary Gage says: "You will instruct collectors and other officers of customs that, in pursuance of the provisions of Section 5 of the act of July 24, 1897, the amount of bounty or grant paid or bestowed by Russia on exports of sugar is hereby declared to be 44 cents per pound of refined sugar and that additional duty equivalent to such amount must be assessed and collected under said Section 5 of the act of July 24, 1897."

members of the royal family, court officials and the ministry, also Count Caserta and his family and the chosen legal witnesses of each party. There were no invited guests.

At nine the assemblage gathered in the queen regent's reception room, in which had been placed a table containing the writing materials. The regent entered, escorted by court attendants and followed by the Infantas Isabella, Eufrasia and Maria Theresa, the Princess of Asturias, Prince Charles of Bourbon, Count and Countess Caserta and their three daughters, the Duke and Duchess of Galabria, Prince Gennaro (young brother of Count Caserta), the suite of Count Caserta, all the members of the cabinet and Generals Weyler, Echague, Bernal and Aznar, chosen as witnesses for the bridegroom.

When all had arrived the Marquis del Vadillo, minister for justice, acting as a notary public for the government, read the document and announced the only formality to be that of signing it. The Princess of Asturias first signed, using her full legal name, Prince Charles of Bourbon followed, then the queen regent, members of cabinet and the generals who witnessed the instrument on behalf of the prince. When all the signatures had been appended, the minister for justice placed his seal upon the documents and the ceremony ended. The document will be published tomorrow in the official gazette.

FREED FROM SPANISH CONVENT.

HIGH COURT AT MADRID DECIDES THE NOTED UBAU CASE.

Madrid, Feb. 12.—The high court today reversed the judgment of two lower courts and ordered the restitution of Senor Ubaui's daughter. This case has been the occasion of much of the disorder that has taken place in Madrid recently. It was an action brought by the mother to compel the Jesuits to give up the custody of her daughter, who, it is alleged, was induced by a zealous priest to take the veil without the consent of the parents.

NEWSPAPER SUPPRESSED.

The government today suppressed the republican organ, El Pais.

was a never-ending line of wagons, buggies and sleighs enroute to the scene. This county has witnessed many exciting oil times, but the rush that followed the news of the rich find yesterday is unprecedented.

The strike was made on the farm of Joseph Bird, near Dundee, and is the property of the Standard Oil company. The oil is flowing at the rate of 8,000 barrels per day and is worth 85 cents a barrel, running 42 degrees gravity. The well is said to surpass in value the famous Beaumont (Tex.) gusher.

MILAN'S FUNERAL FRIDAY.

Vienna, Feb. 12.—It has been definitely decided that the funeral of former King Milan of Serbia will take place Friday.

SIX KILLED IN EXPLOSION.

London, Feb. 12.—Six men were killed today by an explosion at a powder works near Guildford.

NO BLUFF BY NASH.

Orders Go to Troops to Be in Readiness to Prevent Big Fight.

TWO REGIMENTS NOTIFIED.

Sale of Seats, However, Still Continues and No Action Toward Postponing Bout Has Been Taken.

GOVERNOR MEANS BUSINESS.

Columbus, O., Feb. 12.—Secret orders have gone forth to two regiments of the Ohio National Guard to hold themselves in readiness in connection with stopping the prize fight scheduled for Cincinnati Friday night. The state officials professed ignorance when asked about the matter today but it is known that orders have been issued to the company commanders of the Fourth and Sixth regiments.

SEATS STILL SELLING.

Cincinnati, Feb. 12.—Preparations for the contest between Jeffries and Ruhlman and Martin and Childs proceeded here today as usual and the promoters expect the events to be pulled off on time next Friday night. Over a thousand dollars were taken in for tickets today, making the aggregate over \$45,000 to date. While there has been much talk about postponing the contest, no action has been taken in that direction whatever and none will be taken before Thursday afternoon.

PUGILISTS INDICTED.

REFEREE GEO. SILER ALSO IN THE MEASURES OF THE LAW.

Chicago, Feb. 12.—The grand jury of Kane county today returned indictments against Eddie Crookes, lightweight champion of Iowa; Young Peter Jackson of Chicago, and Referee George Siler of Chicago. The indictment charges violation of the state law against prize fighting and against aiding and abetting the same. The fight for which the men were indicted took place at Gilberts, Ill.

BOUT STOPPED AT ERIE, PA.

Erie, Pa., Feb. 12.—The contest between Billy Smith and Owen Zeigler tonight was stopped at the end of the tenth round by the sheriff on demand of officers of the Federation of Churches who were present.

TO ACT ON CRE'D REVISIO.

COMMITTEE OF PRESBYTERIAN IS AGAIN IN SESSION.

Washington, Feb. 12.—The committee of prominent members of the Presbyterian church appointed to consider the question of revision of the creed for report to the next general assembly resumed its session here tonight after an adjournment of some weeks. All the members in attendance except ex-President Harrison, who was detained on business, and Daniel E. Noyes, who is on his way to Europe, it is expected that some definite action in the direction of revision of the confession or supplemental statement will be agreed on at this meeting. At tonight's meeting only preliminary business was transacted.

REPUBLICAN BOLT IN NEBRASKA.

EIGHT ANTI-THOMPSON MEN QUIT SENATORIAL CAUCUS.

Lincoln, Neb., Feb. 12.—The Republican legislative caucus to nominate two senators, under the call agreed to last night, adjourned shortly before midnight without making nominations or substantial progress. The caucus was in session for nearly four hours behind closed doors and was marked by the bolt of eight members, who quit the hall after the first ballot. These are opponents of D. E. Thompson of Lincoln for senator and they justify their bolt on the ground that the caucus agreement was violated when Thompson was placed in nomination.

PINGREE MAKES THREAT.

WILL RUN FOR GOVERNOR AGAIN IF REFORMS ARE NOT RATIFIED—SAILS FOR EUROPE.

New York, Feb. 12.—Hazen S. Pingree, former governor of Michigan, is a passenger on the White Star liner Cymric, which sailed today. Mr. Pingree is going abroad on business and will remain several weeks in England. Before sailing Pingree said he would again be a candidate for governor of Michigan if the legislative reforms he advocated were not passed in that state.

MILAN'S FUNERAL FRIDAY.

Vienna, Feb. 12.—It has been definitely decided that the funeral of former King Milan of Serbia will take place Friday.

SIX KILLED IN EXPLOSION.

London, Feb. 12.—Six men were killed today by an explosion at a powder works near Guildford.

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—

Like Bogys Like.

Like bogys like. It is driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this.

SSS

Our little book on contagious blood poison is the most complete and instructive ever issued; it is not only how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

DAILY MINING JOURNAL

A Morning Paper Published by the Mining Journal Co. (Limited.) Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The editor of The Mining Journal is in receipt of an invitation to attend the banquet which the people of Sault Ste. Marie are arranging to tender Francis H. Clergue at the Hotel Iroquois in that city on the evening of Thursday, the 21st inst., and will endeavor to be with his friends there on that occasion.

Commenting on the fact that India has contributed \$2,500,000 toward the proposed national memorial monument for Queen Victoria, the Chicago News pertinently remarks that while this would be all very well under other circumstances, "a country which has had millions of people almost every year on the verge of starvation would make a more sensible display of its generosity by putting its money to other uses."

Rev. L. A. Banks, who is pastor of a Methodist church at Cleveland, alluded in a sermon he preached Sunday last to the great movement against the saloons which has been started by Mrs. Nation. He takes the ground that she is as deserving of praise for violating the law when she goes to that extent in her crusade against the saloons as John Brown was when he trampled on the law which recognized slavery as an institution and gave one man a property right in another.

Congress is to be asked to make an appropriation of \$15,000 for a single test shot by a new gun, a monster Gatling, whose destructive power the designer expects to establish at this one trial. The money is to be used in construction of the object the gun is expected to destroy with a single shot, which will represent the broadside of a battle ship, sheathed with the heaviest armor plate and strengthened so that it will present the same resistance as would the most perfectly protected modern war ship.

Hon. F. C. Chamberlain has reconsidered his decision to locate in Chicago for the practice of his profession, and will, instead, make Detroit his permanent home and establish himself in a law business there in the near future.

Children who are troubled with worms are pale in the face, fretful by spells, restless in sleep, have blue rings around their eyes, bad dreams, variable appetite, and pick the nose. WHITE'S CREAM VERMIFUGE will kill and expel these parasites. Price 25 cents. The Stafford Drug Co.

AMERICA'S TRADE BATTLE

The Financial News of New York has this article discussing the battle for trade in which this country is engaged with the leading manufacturing nations of the old world, and the conditions under which it will have to be waged, which will be found well deserving of perusal.

We have upon several occasions recently called attention to what seemed to us the crystallization of new trade conditions abroad that would sooner or later take definite form in radical changes in the cost of those leading articles of trade and commerce of the world, the markets for which we have so largely taken into our keeping from both England and Germany.

KIND WORDS

Iron Ore Has Them for the Northern Normal. The following editorial comment concerning the Northern Normal is from the last issue of the Ishpeming Iron Ore: "The committee which examined the Normal school at Marquette was loud in its praise of the way in which that institution has been conducted. The school is in excellent hands, the appropriations have been wisely and economically expended, and a great start has been made in the educational way in the short time the school has been in operation. Professor Waldo and his assistants deserve the highest praise for the excellent attention they have given this state institution. The school should be given all the encouragement and assistance its location and record entitle it to, and this amounts to considerable."

Why can't "those fellows" all agree. Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan; Michigan, my Michigan.

NO ERROR WAS MADE IN THE SURVEY.

Official Record Establishes That Boundary Line Between Michigan and Wisconsin Was Surveyed According to Instructions from Washington.

If there was any error in the survey of the boundary line between this state and Wisconsin it was not the fault of the deputy surveyor to whom the work was entrusted. Wm. A. Burt, who worked under and in strict accordance with instructions given him by the acting commissioner of the general land office in making the survey. The Mining Journal submits this communication bearing on the matter from Hon. Hiram A. Burt of this city, who places in evidence the instructions given his grandfather, Wm. A. Burt, the deputy surveyor authorized to make the survey, and in charge that error was made by the surveyor in establishing the boundary line between the two states, as set forth in the article from the Soo News reprinted in Monday's number of this paper:

Editor Mining Journal—Herewith I submit some official original documents relating to the survey of the boundary line between Michigan and Wisconsin, 1847. Second—Specific instructions to Wm. A. Burt, D. S., and C. Note that Wisconsin's claim (according to the article published in The Mining Journal Monday morning) is based upon an "Act of congress of June 15, 1836," and that the "instructions" are based upon the "act" enabling the people of Wisconsin territory to form a constitution and state government, etc., approved Aug. 6, 1846. It is a case of "res judicata," apparently, and if not the state of Wisconsin has certainly been guilty of laches, if a commonwealth can ever be so charged. The state of Michigan has had no end of trouble over the northern peninsula. It is well that she was born with seven league boots and spurs on, for she had occasion to use both in connection with Ohio in the swampy road about Toledo, on account of a claim that state made to a strip of land off her southern border, which was settled by an arbitrary act of congress, giving the state the northern peninsula as recompense for the loss of territory to Ohio, which was indignantly rejected by Michigan, but ultimately acquiesced in to secure the statehood she so much desired. And now here comes Wisconsin with a claim to eleven townships on the border line. Will it result in another chicken fight? Quien sabe? Yours truly, HIRAM A. BURT. Marquette, Feb. 12.

General Land Office, Sept. 15th, 1846. Sir—By the fourth section of the act of congress, approved August 6, 1846, entitled, "An act making appropriations for the civil and diplomatic expenses of the government for the year ending the thirtieth day of June, eighteen hundred and forty-seven, and for other purposes," it is enacted "that the surveyor general northwestern of Ohio, under the direction of the president, be, and hereby is, required to cause to be surveyed, marked and designated, so much of the line between Michigan and Wisconsin, as lies between the source of Brule river and the source of Montreal river, as defined by the act to enable the people of Wisconsin territory to form a constitution, and state government, and the admission of such state into the Union; and the expense of such survey shall be paid upon the certificate of the said surveyor general out of any money in the treasury, not otherwise appropriated, not exceeding one thousand dollars."

The boundary of Wisconsin is described in the act, the title of which is given in the above section, and which was approved 6th August, 1846, as follows: "Beginning at the northeast corner of the state of Illinois, that is to say, at a point in the centre of Lake Michigan, where the line of forty-two degrees, and thirty minutes of north latitude crosses the same; thence running with the boundary line of the state of Michigan, through the mouth of Green Bay, to the mouth of the Menominee river; thence up the channel of said river to the first rapids in the same, above the Indian village, according to Nicollet's map; thence due south to the main branch of the river St. Croix; thence down the main channel of said river to the Mississippi; thence down the centre of the main channel of that river to the northeast corner of the state of Illinois; thence due east with the northern boundary of the state of Illinois to the place of beginning," etc., and "thence in a direct line, in reference to the jurisdiction of islands, in the said Brule and Menominee rivers, the line be run so as to include within the jurisdiction of Michigan all the islands in the Brule and Menominee rivers (to the extent in which said rivers are adopted as a boundary) down to and inclusive of the Quinnesec falls of the Menominee; and from thence the line shall be so run as to include within the jurisdiction of Wisconsin all the islands in the Menominee river from the falls aforesaid, down to the junction of said river with Green Bay."

The words underscored describe that portion of this boundary which you are required to have surveyed, and that you may be fully advised of Captain Cramm's operations in relation to that boundary, and of the points fixed by him as the head waters of Montreal river, mentioned in the fourth section of the act of 10th August, 1846, above mentioned. I send you a copy of the report of his survey, made by the president on 1st February, 1847, (senate document No. 151, second session Twenty-sixth congress) and a report of the secretary of war on the same subject, dated 7th March, 1842, (senate document No. 170, second session Twenty-seventh congress).

It is hoped and expected that you will be able to complete this work so that returns may be made of it to the commissioner of the general land office before the commencement of the next session of congress. Very respectfully, Your obedient servant, LUCIUS LYON, Surveyor General. Wm. A. Burt, Esq., Deputy Surveyor. P. S.—The reports of Captain Cramm mentioned in the commissioner's letter are already in your possession and it is therefore unnecessary to enclose them. L. L.

VOLCANIC ERUPTIONS

Are grand but Skin Eruptions rob life of joy. Bucklen's Arnica Salve cures them; also Old Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains, Blisters, Itch, etc. Drives out pains and aches. Only 25 cents a box. Cure guaranteed. Sold by the Stafford Drug Company.

HORSE MEAT FOR EUROPE.

Fact of an Interesting New Industry Is Aired in the Senate.

DRAWN OUT BY PETTIGREW

Develops That an Extensive Trade in Packing and Shipping Equine Products Has Been Built Up.

SCANDIA BEST CUSTOMER.

Washington, Feb. 12.—During the entire session of the senate today the agricultural appropriation bill was under consideration.

FOR \$250,000 STATUE OF GRANT.

At the beginning of the session a bill was passed appointing a commission, consisting of the president of the Society of the Army of the Tennessee, the chairman of the joint commission on library and the secretary of war, to select a site in the city of Washington and have designs prepared for a memorial or statue of General U. S. Grant.

The agricultural appropriation bill was then called up by Senator Proctor, chairman of the committee on agriculture.

Senator Jones (Ark.) contended that in the interest of this country and its meat industries all meat products exported ought to be carefully inspected and branded in order that the country to which the products were sent might be assured of their genuineness.

TRAFFIC IN HORSE MEAT.

Pettigrew called attention to the paragraph concerning "live horses and the products thereof," and inquired if the United States was packing and shipping abroad horse meat.

Senator Money, a member of the committee on agriculture, replied that horse meat was being shipped abroad to Scandinavian countries.

Senator Proctor replied that the secretary of agriculture and explained to the committee that it was shipped as horse meat, and that those who received it understood perfectly what they were getting.

TO INSPECT IMPORTED FOODS.

The last two hours of the session was devoted to the discussion of an amendment of the committee conferring upon the secretary of agriculture authority to inspect and analyze foods, drugs and liquors imported from other countries for the purpose of ascertaining whether they are so adulterated as to be deleterious to health; and if found to be so, authorizing the secretary of the treasury to seize the goods at the request of the secret agriculture and refuse delivery of them to the consignee.

NO INDICTMENTS DUE.

St. Joseph, Feb. 12.—It is stated here on apparently good authority that the Savannah murder mystery in session will not indict any one for killing

The Blues

Ever have them? Then you know how dark everything looks. You are completely discouraged, terribly depressed.

The truth of the matter is, your nerves have been poisoned and weakened with the impurities in your blood. You want a blood-purifying medicine—a perfect Sarsaparilla—that's what you want. You want

Ayer's Sarsaparilla the strongest and best nerve tonic you can buy.

Write the doctor freely all the particulars in your case. You will receive a prompt reply. Address Dr. J. C. Ayer, Lowell, Mass.

NEW MENACE FOR CHINA.

CIVIL WAR LIKELY TO FOLLOW LOW ATTEMPT TO EXECUTE THE ARMY COMMANDER.

Peking, Feb. 11, via Shanghai, Feb. 12.—Prince Ching and Li Hung Chang have received a long dispatch from the court which they have not disclosed to the foreign envoys.

MAY DECLINE TO SUICIDE.

It is very seriously doubted in Chinese circles here that General Tung Fu Hsiang will agree to commit suicide.

TO PROTECT FROM ROBBERS.

Berlin, Feb. 12.—Field Marshal Count von Waldersee, telegraphing from Peking the 11th, says that from Pao Ting Fu onwards five of the chief places in the district lying within the German sphere have been occupied permanently by one company each to protect the inhabitants from robbery or oppression.

"MEANS TO FIGHT POWERS."

Shanghai, Feb. 12.—According to The North China Daily News, the Chinese say the acceptance of the conditions of the powers by the Chinese peace plenipotentiaries was merely a blind and that a large force of Chinese is proceeding to Tai Yuen Fu to oppose the expected allied expedition.

THIRTEEN MADE ORPHANS.

MILWAUKEE LABORER KILLS HIS WIFE AND HIMSELF.

Milwaukee, Feb. 12.—Charles Voss, a laborer, killed his wife with a butcher knife this morning and then committed suicide. There are thirteen children in the family and it is believed the father would have attempted to kill some of them but for the timely arrival of neighbors.

SHOOTS DIVORCED HUSBAND.

Kansas City, Feb. 12.—Mrs. Ella Zealey tonight shot and wounded her former husband, W. A. Zealey, chief buyer for Swick's packing company, at his residence in this city.

CHICAGOAN ENDS OWN LIFE.

Chicago, Feb. 12.—After drinking a farewell toast in champagne with Dr. C. F. Adams at the physician's house, John C. Murray, a well-known Democrat political crony, shot himself in the head today, dying at a hospital this evening.

ENDS CAREER BY SHOOTING.

Philadelphia, Feb. 12.—Charles Carroll Mann, aged seventy-two, a retired stock broker and for years a prominent Democratic politician, committed suicide today by shooting. He had been suffering with a complication of diseases for the past ten years.

CARNEGIE DEAL MAY BE OFF.

GREAT STEEL MAGNATE SAID TO BE PLAYING A "SCOTCH TRICK" ON BANKER MORGAN.

Cleveland, O., Feb. 12.—The Carnegie steel plant will not be sold, and it is believed that Mr. Carnegie will shortly come forward with the greatest financial coup of his history, which has been replete with them.

CONFERENCE ON NAVAL BILL.

The senate amendments to the naval appropriation bill was disagreed to and a conference asked for Mr. Foss, chairman of the committee, agreed that the house should have opportunity to vote upon the senate's increase in the number of ships to be built before concurring in the senate amendment.

DEFENDS RIGHT TO A SEAT.

DELEGATE WILCOX OF HAWAII SAYS HE WON OUT IN A FAIR ELECTION CONTEST.

Washington, Feb. 12.—Delegate Wilcox of Hawaii today filed a brief in support of his right to hold a seat in congress and in defense to the legal objections raised in the petitions filed against him. The document is lengthy and says, in part:

"The governor of Hawaii issued a proclamation for election in due form. Before that time three separate parties had held nominating conventions and placed their respective candidates for

ARMY COSTS NATION DEAR

Startling Comparison of Expense Here and Abroad Made in House.

\$2,828 PER MAN TO \$230.

Deluge of Bills to Remove Charge of Desertion Also the Subject of Some Discussion.

MR. SULZER STANDS PAT.

Washington, Feb. 12.—The house today passed the army appropriation bill, carrying \$118,000,000, and entered upon consideration of the sundry civil bill, the last but one of the big money bills.

TURN GIVEN TO DESERTERS.

On the army bill being taken up, Mr. Sulzer of Texas, a member of the committee, devoted the first minutes to discussing the enormous growth in recent years of bills to remove the charge of desertion against soldiers of the rebellion.

SOLDIER'S VIEW OF PHILIPPINES.

MEMBER OF THE THIRTY-NINTH WRITES IN A CAUSTIC VEIN.

Chicago, Feb. 12.—George Parker, a member of Company A, Thirty-ninth infantry, now in the Philippines, sends his mother, residing in this city, a description of the islands, written by a soldier comrade. It reads as follows:

"The Philippines are a bunch of trouble on the horizon of civilization. They are bounded on the west by hoodlumism and smugglers, on the north by malaria, typhoons and mosquitoes, and on the south by the cannibals and earthquakes.

EXTRA PAY FOR TROOPS.

At the conclusion of the general debate an amendment was adopted, on motion of Mr. Fitzgerald of Massachusetts, to give the equivalent of two months' extra pay to all soldiers of the volunteer and regular establishment who have served beyond the limits of the United States.

Mr. Fitzgerald also offered an amendment, which was agreed to, providing that \$5 shall be paid to the nearest of kin of any enlisted man and \$75 to the nearest of kin of any officer who may be killed or die in service in the Philippines upon the delivery of the body to the family of the deceased.

POST FOR GENERAL YOUNG.

SUCCEEDS SHAFER IN COMMAND IN CALIFORNIA ON THE LATTER'S RETIREMENT.

Washington, Feb. 12.—General B. M. Young, who was yesterday confirmed as major general, has been chosen to succeed General Shafter in command of the Department of California, with headquarters at San Francisco, about the middle of March.

Orders were issued at the war department today for the location of the new light batteries of artillery provided for in the reorganization law at the following points: One each at Fort Meyer, Va.; Fort Sam Houston, Tex.; Fort Leavenworth, Kas.; Fort Meade, S. D.; Fort Snelling, Minn.; Fort Hamilton, N. Y.; Fort Sheridan, Ills.; Vancouver barracks, Wash.; Fort Logan, Colo. and Fort Ethan Allen, Nt.

CONFERENCE ON NAVAL BILL.

The senate amendments to the naval appropriation bill was disagreed to and a conference asked for Mr. Foss, chairman of the committee, agreed that the house should have opportunity to vote upon the senate's increase in the number of ships to be built before concurring in the senate amendment.

Mr. Ray of New York then formally announced the death of Colonel Albert D. Shaw of New York, which occurred suddenly on Sunday, and as a mark of respect the house, at 5:15 o'clock adjourned.

DEFENDS RIGHT TO A SEAT.

DELEGATE WILCOX OF HAWAII SAYS HE WON OUT IN A FAIR ELECTION CONTEST.

Washington, Feb. 12.—Delegate Wilcox of Hawaii today filed a brief in support of his right to hold a seat in congress and in defense to the legal objections raised in the petitions filed against him. The document is lengthy and says, in part:

"The governor of Hawaii issued a proclamation for election in due form. Before that time three separate parties had held nominating conventions and placed their respective candidates for

DO HONOR TO LINCOLN.

FRANCHISES TAXABLE.

Michigan Supreme Court Hands Down an Important Opinion.

AFFECTS CITIES OF STATE.

Decision Rendered in the Case of Detroit Railway Which Objected to Big Increase in Assessment.

ASSESSORS' ACTION UPHLD

Lansing, Feb. 12.—The Michigan supreme court today handed down an opinion affirming the judgment of the circuit court that franchises received from a city are taxable.

GRIST OF DECISIONS.

The supreme court also today decided the following cases: Affirmed—Detroit Citizens' Street Railway company vs. Common Council of Detroit; Cole vs. Estate of Darius Cole.

"RELIEF" FOR SUPREME COURT.

ANOTHER BILL INTRODUCED IN THE MICHIGAN LEGISLATURE.

Lansing, Mich., Feb. 12.—The senate having defeated the bill to increase the membership of the supreme court, a bill has been introduced to relieve the tribunal by providing for a court of appeals, to consist of one supreme justice and two circuit judges, who shall hold court in the various counties of the state.

PRESIDENT DIAZ VERY ILL.

ALARMING REPORT FROM MEXICO DECLARES THAT HIS DEATH IS NEAR AT HAND.

Los Angeles, Cal., Feb. 12.—From information that has come to Los Angeles the critical illness of President Diaz of Mexico is unquestioned. This evidence is so direct that it would not be surprising if death brought his remarkable career to a close within the next few weeks.

Three weeks ago, when President Diaz was in good health, the political waters were flowing undisturbed, and General Reyes, minister of war, slated to succeed the present incumbent, while Senator Limantour, the brilliant minister of the treasury, was granted a leave of absence that for the next few months would take him to Europe. Today Diaz is rapidly dropping away. It is announced that Diaz, under medical advice, will take a trip to Europe, but officials declare that he is not sufficient robust to undertake the trip.

FIRES OF A DAY.

Decatur, Ills., Feb. 12.—Fire today destroyed the wholesale grocery of the Mueller, Platt & Wheland company. The loss is estimated at \$100,000.

Chicago, Feb. 12.—The Everett apartment building, a four-story brick structure on Forty-second street, was destroyed by fire this morning. The loss is \$50,000. There were many narrow escapes.

Carbondale, Ills., Feb. 12.—Fire today destroyed the largest business block in Murphysboro, entailing a loss of over \$41,000. The fire originated in the department store of Sharpe & Roberts, whose loss on the store and block is \$28,000.

ARE LINING UP.

People Who Have Been Out of Market for Months Now Buying Coppers.

The past week or ten days has been a period of notable developments in the copper market. It has seen many changes; the inauguration of what may prove a big boom and what, again, may prove only an empty disappointment.

The brokers are enjoying many smiles at the expense of the latter class. Men who have abjured the board, the "letters" and quotations for many moons have scented the active market and have been lured back to the scene of their former discomfiture.

During the past few days numbers which have not been used for months have been reclaimed from the brokers' books (all the well known houses number their customers' accounts and transact their business without using their names).

Then there are the people who, having once, in their infatuation, refused to sell down big stinnings in the hope of further gains, after months of weary waiting see their way not only to come out even but to make considerable winnings, considerable although small compared with the large sums that they could have realized when the historic "boom" was at its summit.

What will today bring forth? This was a popular question among the holders yesterday. Very few people expect a continuance of Monday's falling market and practically all are confident that the prices will ultimately reach a high mark on this movement.

The losses Monday are attributed to the extremely heavy realization and the fact that yesterday was a holiday. Most speculators fear holidays. They are possessed with a partially defined fear that these holidays give the professionals a chance to cook up the manipulations and machinations which are invariably detrimental to the rank and file of those following the game.

The brokers look upon Monday's decline as a mere incident in a rising market. They do not attribute it to heavy realization and the following holiday. One of the Marquette branch offices was in touch with Boston Monday night. Expressions from all the important brokers were obtained and they all favored this view of the case.

Yesterday the office forces of the local branches were busy getting their accounts straightened out in readiness for today's business, the volume of work being unusually large on account of Monday's activity.

Give us this day our daily bread That we may live and not go dead. And then, Oh Lord, give us some meat. For bread alone shall not suffice us. When the air is evaporated the india rubber again becomes elastic. Meat can be treated in the same manner.

Professor A'Arsonval showed a beef-steak that had been dipped in liquid air. He let it fall and when it struck the platform it broke into shreds. It broke into pieces. Meats can be reduced to a rosate powder that is easy to masticate and assimilate. In this form it will be found important for use in hospitals.

Ice dropped into the liquefied air will cut glass like a diamond. Ice that will become as hard as antimony. Liquefied air gives metals, especially steel, tenfold the qualities obtained by ordinary methods. It increases their ductility, enabling them to be drawn out of the thickness of a hair. It cannot be used to preserve meat because it is in no wise antiseptic and does not kill microbes. It is five times dearer than ice. It cannot be used for motors or submarine boats because, when it is heated, it becomes such an explosive that no metal could resist it.

Professor Chamberlain's Cough Remedy, which has gained a world wide reputation for its cures of colds and grip. For sale by the Stafford Drug Co.

A beacon light to the sick and afflicted. A life encourager. Take counsel with yourself today and use Rocky Mountain Tea tomorrow. Peace and comfort follow its use. Stafford Drug Co.

Heppner carries a complete line of holiday candies and cakes. A WHOLE FAMILY. Rev. L. A. Dunlap, of Mount Vernon, Mo., says: "My children were afflicted with a cough resulting from measles, my wife with a cough that had prevented her from sleeping, more or less for five years, and your White Wine of Tar Syrup has cured them all." The Stafford Drug Co.

STATE ROUND-UP FARMERS Institute Agricultural College, Lansing, Mich., February 26th to 28th, 1901. For the above occasion, the D. S. S. & A. R. railway will sell tickets to Lansing, Mich., and return at the extremely low rate of single fare for the round trip. Tickets will be on sale February 25th and will be good for return passage up to and including March 2nd, 1901. For further particulars, apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (2-5-100)

HILL TO BUILD MORE BOATS.

SEVEN NEW PASSENGER STEAMERS FOR THE GREAT LAKES SAID TO BE CONTEMPLATED.

Duluth, Feb. 12.—First comes the news that the North West and North Land are not coming to the head of the lakes this season but instead are going to run from Chicago to Buffalo. And now comes a report that they may occupy that route permanently and that James J. Hill has contracted for seven new passenger steamers some of which will be put on between here and Buffalo.

The report says that 12 semi-regularly scheduled steamers will be constructed for service on the Great Lakes. The first of these is to be established between the head of the lakes and Buffalo, and between Chicago and Buffalo.

An official who keeps in close touch with Mr. Hill, says that in the near future, both in passenger and freight traffic, a direct line would be established east from Minneapolis, perhaps to Manitowish, Wis., and then to Chicago and Buffalo, and thence across the state of Michigan, south of Lake Erie. Such a possibility would undoubtedly take in the Wisconsin Central between Minneapolis and Lake Michigan.

AFTER NORTH-O'S SCALP.

EXTRAVAGANCE IN THE HEAD OFFICE CLAIMED BY A FAC-TION OF MODERN WOODMEN.

Peoria, Ill., Feb. 12.—The Illinois convention of the Modern Woodmen of America will meet in annual session in Peoria tomorrow, and today witnessed the arrival of the vanguard of the delegates.

A fight is directed against Lieutenant Governor W. A. Northcott, head consul of the Woodmen order, and not alone against him but against the candidates associated with him and the present condition of official affairs generally.

Judge Robert H. Lovett of Peoria, who is prominent in the Woodman world, is leading the fight against Mr. Northcott and is an active candidate for that gentleman's office. The fight against Mr. Northcott is declared a fight "against high salaries and mismanagement." It is cited that, though Mr. Northcott fairly draws the salary of the order with his bills for "office expenses" and other "incidentals."

The total expense of the head-consul's office for December, 1900, was \$1,201.56; the head clerk's offices of the order \$6,311.66 for the same time. Each member of the board of directors for 1900 is passing upon the December bills drawn from \$211.50 to \$439.05, or a total of \$1,725.04. The editor of the official organ of the order draws \$2,800 per annum, with other extensive emoluments. It is said at the present rate the annual expenses of the order will reach nearly \$600,000.

WONDERS OF LIQUID AIR.

PARISIAN SCIENTIST GIVES AN INTERESTING DEMONSTRATION. Paris, Feb. 12.—At a conference yesterday of the Muséum of Natural History, Professor A'Arsonval liquefied air with the greatest success. It was liquefied by enormous pressures.

The temperature of the liquefied air was minus 180 degrees centigrade. The liquid can be kept in double-sided, silver-covered glass vessels in which it will not evaporate, as it did in former experiments when kept in other kinds of receptacles.

It was shown that the liquefied air destroys the elasticity of india rubber, which becomes hard and as brittle as glass. It can be used for the preservation of meat. When the air is evaporated the india rubber again becomes elastic. Meat can be treated in the same manner. Professor A'Arsonval showed a beef-steak that had been dipped in liquid air. He let it fall and when it struck the platform it broke into shreds. It broke into pieces. Meats can be reduced to a rosate powder that is easy to masticate and assimilate. In this form it will be found important for use in hospitals.

Ice dropped into the liquefied air will cut glass like a diamond. Ice that will become as hard as antimony. Liquefied air gives metals, especially steel, tenfold the qualities obtained by ordinary methods. It increases their ductility, enabling them to be drawn out of the thickness of a hair. It cannot be used to preserve meat because it is in no wise antiseptic and does not kill microbes. It is five times dearer than ice. It cannot be used for motors or submarine boats because, when it is heated, it becomes such an explosive that no metal could resist it.

ILLINOIS LOSES A HARBOR.

EXTENSIONS OF PIER CARRIES THE MOUTH OF THE CALUMET ACROSS INDIANA BORDER—COMPLICATIONS ARE LIKELY.

Chicago, Feb. 12.—Illinois has lost a harbor by the extension of a pier, according to government engineers. This state no longer controls entirely the entrance of the Calumet river. Sand accretions and recent government improvements have extended it out into the lake until now vessels are forced to enter from Indiana waters.

The immediate cause of the switching of the river mouth from Illinois to Indiana has been the building of the new breakwater pier on a line with Eighty-fifth street to a point 350 feet beyond Illinois waters and the extension of the north pier of the Calumet harbor.

At the past rate of beach accumulation it is estimated that in thirty years the river will flow into the lake from Indiana soil. At present the geographical mouth of the river, as in Illinois, is at the mouth of the Calumet, from Illinois waters, because of the pier extensions.

The Little Ills.

Little beginnings often lead to great results. The tallest oak was once a tiny acorn. Many serious diseases have their inception in little ills. Headache, nervousness, indigestion, lost appetite, irritability, worry, anxiety, overwork and lack of sleep seem little ills but they wear out the nervous strength and destroy the vitality of the whole system. A little medicine, if it is the right kind, will do wonders in overcoming these disorders.

"I paid no attention to the headaches, nervousness and inability to sleep, but kept right on working until I was flat on my back. I was sick for weeks with nervous prostration and my doctors did all they could for me but without avail. When I began taking Dr. Miles' Nervine I gained rapidly until I was well."

MRS. ELLEN HAYES, Blandinsville, Ills.

Dr. Miles' Nervine

restores health by feeding and building up the nerves, which are the source of all strength and health.

Sold by druggists on a guarantee. DR. MILES MEDICAL CO., Elkhart, Ind.

THE ARISTOS Gold Mining Company

Owning Big Horn Mountain Tunnel and Veneta Vein, 200 acres situated on the Western Slope of Pike's Peak, in the Famous Cripple Creek Gold Mining District.

THE SAFEST OFFER EVER MADE TO INVESTORS.

100,000 Shares Preferred Stock at 25c per Share.

It is printed on each Certificate that subscribers to the above Preferred Shares will be entitled to receive in Dividends the full amount of money invested, before other stockholders receive any returns, stated by the President of the Company.

This District Produced More Gold in 1900 than any other in the United States.

This property consists of 3000 by 3000 feet, or 200 acres, of gold land. The mine has been worked. The feature of this mine is the Veneta Vein, 30 to 40 feet in width, and is certainly by one of the strongest veins in this famous district. In this famous vein, the ore is in which assays in gold from \$12 to \$100 per ton. The property is advantageously located for development by tunnel, which will make it possible to produce an enormous amount of ore daily, the quantity varying from 2 1/2 to 50 tons per day. The development by tunneling is the most economical and advantageous manner of working this property.

At a distance of 800 feet the TUNNEL will intersect the Veneta Vein at a depth of about 650 feet, and will also intersect several other veins. The TUNNEL will cut the Big Horn Mountain 2,100 feet deep, and will give this Company 2,000,000 tons of ore, worth over \$ 0 per ton.

The new railroad, now practically completed from Colorado Springs, called the Colorado Springs and Cripple Creek road, crosses within 30 feet of this tunnel. Adjoining this property is the Colorado Springs TUNNEL Company. In this property, at a depth of 400 feet, the Veneta Vein was cut. At this point the vein was fully 20 feet in width and its value from \$20 to \$1,000 per ton.

There are already in operation mills and smelters sufficient to treat the output of this property which gives at once cash returns.

Capital Stock, \$1,000,000. Par Value, \$1.00 per Share.

100,000 Shares Preferred Stock at 25c per Share.

In buying this Stock the purchaser owns a direct title in the Company's property. This Company offers you no watered stock, but a legitimate high grade gold mining investment in the Cripple Creek District.

The above offer of preferred Dividends is an assurance of early returns. After additional machinery is erected, this property will be earning dividends almost equal to its Capital Stock.

Ishpeeming and Vicinity.

FIRE DEPARTMENT WORK.

SECRETARY JOHN B. PEARCE MAKES OUT A VERY COMPLETE DOCUMENT FOR THE CITY COUNCIL.

John B. Pearce in his report of the fire department for the year ending December 31st, 1900, says that the department responded to twenty-two alarms during that period. Six of these were turned in from boxes, five by phone, five were still alarms and six by whistle. Hose and Hook and Ladder companies No. 1 answered sixteen of these and Hose company No. 3 the remainder. Both companies traveled ten and three quarter miles in answering these alarms. There was 8,150 feet of hose laid and the time spent in quelling the fires was 1 1/2 hours. The total fire loss during the year was \$18,446 and the insurance was \$1,925.46. Causes of the fires were as follows: Defective chimneys, 11; unknown, 6; incendiary, 2; sparks, 1, and carpet near a stove, 1. There was but one false alarm.

The total expenditure for the maintenance of the department was \$5,644.57, and there is credited to the same of \$1,049.25, which makes the cost for the year \$4,595.32. The purchase of a fire patrol wagon and the erection of a building to house are included in this total. The amount of these items was \$463.39. The actual cost of running the department for the year was, therefore, \$3,969.80.

It is doubtful if there is another city of the same size in the country which has such an efficient fire department at such a small cost. The city owns two Sibley steamers of four and a half and three and a half tons each, which are fully equipped; also four wheel-hose carts, with all necessary equipment and a fire patrol wagon of the latest model, which is capable of carrying sixteen men and their clothing. There are four horses owned by the department. All this apparatus is designed for winter as well as summer service. There are sixty-five men on the force, including the engineer and two drivers.

The worst fire of the year occurred at the Salisbury mine on the ninth of February at 6.30 in the evening, when the carpenter, blacksmith and machine shops of the Cleveland-Cliff company were burned to the ground, entailing a loss of \$2,000 which was covered by insurance to the extent of \$1,000. The department worked three and one half hours on this fire, which was the longest time worked at any one fire during the year.

The value of property in the No. 1 house is \$7,947.02; in No. 1 hook and ladder house, \$1,687.15; in No. 3 house, \$5,429, and in the city warehouse, \$4,824.50 which makes a total of \$19,897.85.

Ishpeeming has been singularly free from fires during the past year and it is sincerely hoped that the city will continue to enjoy this happy fortune in the future. Enough praise can not be given the department and its capable officers for the splendid work which they have done, and should they get all they ask of the taxpayers.

Braastad is making a special run on carpets. A new line just received from New York. (2-11-11)

A PLEASING SPEAKER.

Senator William Kennedy of Appleton, Wis., who will deliver a lecture on "Ireland, its History, People and Their Characteristics," at the opera house on next Monday evening, is well known in this vicinity. Senator Kennedy is one of the most popular lecturers on the platform today and this lecture is sure to be very enjoyable. This is what John McCoy, pastor of the Memorial Presbyterian church of Appleton, has to say of him: "I had the pleasure of hearing ex-Senator William Kennedy's lecture on Ireland, and it was a most enjoyable and interesting one. His manner of delivery is that of a polished orator, natural and pleasing, and his treatment of the various phases of Irish history, social life and political movements evinced a wide knowledge of the entire field touched upon in his lecture. I very cordially commend his lecture to those who are interested in an interesting theme and desire to hear it discussed by an enthusiastic Irishman who yet does not allow his enthusiasm to interfere with his judgment on controverted questions. He touched with good taste and delicate touch on certain questions on which a less balanced speaker would offend his opponents, yet without violating his own convictions." A charge of 25 cents will be made for admission.

A finer line of embroideries than can now be seen at Braastad's has never been shown in the county. (2-11-11)

A GOOD THING.

The farce comedy, "The Doctor's Warm Reception," which will be heard at the opera house a week from to-night, has met with great success in every city which it has played. The Battle Creek Morning Enquirer of January 29 has this to say of it: "Miss Ullie Akerstrom, supported by a clever company produced 'The Doctor's Warm Reception' at the opera house last evening. It is seldom the house has rung with such incessant laughter. The plot of the comedy caused many funny complications and held the interest of the audience to the final curtain. Many pleasing specialties were introduced, particularly Miss Edwards' double voice singing in the second act. Miss Akerstrom and Morey's song and dances, Mr. Howes' Harp song and dance and the Sander's duets. On the whole it was one of the best shows of the season.

YOUR BEST WORK cannot be done without good health, and you can't have good health without pure blood. Hood's Sarsaparilla is the great pure blood maker. It gives appetite, strength and vigor, and cures disease.

Constipation is cured by Hood's Pills. 25c.

If you want the best liquors you can find them at P. H. Donahoe's.

UNEXPECTED GENEROSITY.

MESSRS. WALTERS and BRAASTAD TO SETTLE ALL BILLS FOR THE DOMESTIC SCIENCE AND ART DEPARTMENTS IN THE SCHOOLS.

A very pleasant surprise was sprung at the meeting of the school board Monday evening. The superintendent of schools, Professor J. E. McCollins, presented the bills for the cost of these departments to the board for approval, when Captain Thomas Walters and Frederick Braastad stated that they had decided to pay these bills themselves.

This action was entirely unexpected and, consequently, the more pleasing to all concerned. The gentlemen said that they had become greatly interested in these departments and considered them a valuable adjunct to the school system. No expense in labor has been spared to bring these departments up to the highest standard of efficiency; all the furniture is of the most substantial kind and, though not elaborate, it is neither cheap nor unserviceable. The term "domestic science" refers to cookery, and "domestic art" to sewing.

The science department is complete, so complete in fact that Miss McIntyre, the instructress, says she has everything that she wishes in that line. The art department is not finished as yet, but it is nearly ready and also the cases which will be used to exhibit the work of the different grades, but aside from this the section is not in running order. Visitors are always welcome, but as Mondays and Wednesdays are the busiest days in the cooking line are also the best days on which to come.

There have been many exasperating delays experienced at the manual training school. Manufacturers of the machinery have not lived up to their promises, and as a result that school is not in running order. It is expected, however, that the machinery will arrive during the next few days and it will not take long in that event to get things into shape. The first class in forging was started this week as was also a class in wood-turning.

MELOCHE ON E AGAIN.

MAN WHO WANTS TO BE MAYOR SUBMITS MORE OF HIS VIEWS ON PERSONS AND THINGS.

To the Public:—An article embracing many of the comments, possible candidates and political prophecies which appeared in last Thursday's issue of The Mining Journal under the heading of "Political Rumors." In the article I am charged by "prominent members" of the Labor party with adopting a "machinery" of securing the nomination on their ticket, and with leading them from the start. In both statements they are entirely wrong. Hostility began after my candidacy was announced, when a member of the "Big Five" informed me that it would be better for me to make the attempt to secure the office, and intimating that I could expect very little consideration from them.

Shortly afterward a communication was published inferring that "Meloché needed a rest." Following the above a lengthy article appeared expressing the sentiments of those who wish which was directed at me, but which, like a boomerang, hit back at the unskillful marksman. Both articles found me equal to the emergency, and finding that I was to receive no recognition from the leaders of the party I decided to do something to put before the public at large through the columns of the press. When my platform came out it met with the hearty endorsement of the citizens. Seeing that they were frustrated on the platform question, my enemies began to attack me. The "Big Five" brought about a petty complaint that I had not been on the platform at large through the columns of the press. When my platform came out it met with the hearty endorsement of the citizens. Seeing that they were frustrated on the platform question, my enemies began to attack me. The "Big Five" brought about a petty complaint that I had not been on the platform at large through the columns of the press. AN INCOME FOR LIFE
FROM
GREATEST OF GOLD PROPERTIES.

3680 Acres—9 Miles in Length 250 Million Tons
Richest gold-bearing quartz, ground by nature's hand into gold-laden gravel, from 50 to 600 feet in depth over the entire property. In addition, company owns

14 Miles
In length of river bed, each mile of which contains many millions of gold, situated on the Rio Grande, in Taos Co., New Mexico.

OVER 100 Million Dollars For Dividends.

READ THE PROOFS: United States Official Report

MADE TO
Commissioner of the United States, General Land Office, Washington, D.C.
by a Geologist and Mining Expert of world-wide reputation. Professor Benjamin Milliman, who spent several months there, then being connected with the United States Surveying Corps, and in his official report says:
"Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition fit for the application of the hydraulic process, while the entire bed of the Rio Grande for over 40 miles is a sluice, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for centuries, and now lies ready for extraction by the most approved method of river mining. The thickness of the Rio Grande gold gravel exceeds in many places 600 feet, or nearly three times that of the like beds in California, while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered."
"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. Nothing, I am persuaded, since the discovery of California and Australia, is comparable for its measurable resources of gold available by the hydraulic process to the deep placers of the Rio Grande."
Other reports from eminent mining experts of national reputation pronounce the property of this company the richest and most extensive known.

CAPITAL STOCK, \$2,000,000
Fully Paid and non-assessable, par value \$1.00 each share.

One half the entire capital stock has been placed in the treasury of company as working capital. To complete necessary ditch and place on the river bed several gold steam dredges, the company now offers
A Limited Number of its Shares
at **50c Per Share.**

After sale of which price will be advanced to **\$1.00 PER SHARE.**

Applications should be sent promptly. Write prospectus. Make checks, money orders payable to

A MODEL DAIRY FARM.
THAT RUN IN CONNECTION WITH BELLEVEUE FARM ANSWERS THIS DESCRIPTION.

Two miles south of Negaunee on the Cascade road is located the Bellevue farm. This is one of the many side enterprises which the Cleveland-Cliffs Iron company has on its list. It was started a few years ago, more to give a practical illustration to the people of this section that farming can be made profitable in the iron country than anything else.

About 600 acres of the company's extensive holdings in that vicinity were set aside for this purpose. A large barn was constructed, some cattle bought, but sheep growing was to be the principal industry undertaken. Last summer W. G. Mather formulated a plan whereby a dairy, model in every respect, could be started. No time was lost, once the plans were completed, and today the dairy stands finished, the finest of its kind in the upper peninsula.

The building, which was constructed especially for dairy purposes, is 20 by 30 feet on the ground and one story high. It was built on scientific principles. There are double air spaces which serve to keep out both cold and heat, for one of the objects of the success of a dairy establishment as the other. A cement floor was laid and the wainscoting is of tile. The building is divided into an engine room, dairy, ice house, refrigerator and cooling room. Motive power is furnished by an eight horse-power boiler and six horse-power upright engine for the following apparatus: A No. 2 De Laval cream separator; one sixty-gallon Ideal churn, and a No. 0 Mason butter worker. Besides these machines there are a fifty-gallon cream vat, which is supplied with both hot and cold water pipes; a Babcock milk tester, and a sink with hot and cold water and steam pipes.

The most important machine in the dairy is the separator. This separates the cream from the milk by a mechanical action immediately after the milking, and the skimmed milk is fed to the calves, with a slight admixture of linseed meal, while it is yet warm. There are over forty parts to this machine which are taken out after every operation and thoroughly cleaned in hot and cold water, with the addition of a steam bath. The separator is a great money saver as labor saver. The old plan, of setting the milk in pans and then skimming it, was very expensive as well as tedious. Calves could not be fed the skimmed milk after it was cold, but with the new plan this is done to good advantage, it being to all intents and purposes just as good for them as milk fresh from the cow. The saving in cream is estimated at about ten dollars a year for each milking cow in the herd. Though it is more expensive to run a model dairy, there is greater satisfaction than was the case with the old methods because the whole operation of milking, taking care of the milk and the butter making is entirely under one supervision, and as a result, perfect cleanliness is assured.

The water supply at the dairy is all that could be desired. There are numerous springs on the surrounding hills, some of which have been piped, and the water runs down by gravity to the dwelling house, dairy, barn and stock tank. By an ingenious arrangement of steam pipes the chill is taken off the water before it reaches the barn. Besides supplying the power to run the machinery in the dairy, the engine runs the butter machine. Power is transmitted by means of a wire rope 425 feet long. The barn equipment thus supplied consists of a feed grinder, which has a capacity of fifteen bushels an hour, and a feed and ensilage cutter which can cut two tons of hay or straw or four tons of green corn fodder. A 150-ton silo is in course of construction in the barn. This will be ready to receive the ensilage crop which will be grown the coming summer.

There are at present about three hundred sheep on the farm, but this number will be reduced to one hundred and fifty in the spring. At this time there are fifteen cows giving milk, and the same number of young cattle. The drive of milking cows will be increased to twice the present number in the spring. A small drove of thoroughbred registered Poland-China hogs is a feature which elicits much interest from visitors. The mammoth bronze turkeys and Plymouth Rock poultry and Pekin ducks also elicit a warm admiration. A system of weighing, feeding and feed weighing is in vogue which determines accurately to the management the value of each milking cow.

The farm is under the competent management of Foreman Samuel J. Simms, who is always ready to respond to calls by telephone or letter. An extensive trade in the products of the farm is being built up in the surrounding country. Regular trips are made to Negaunee and Ishpeming patrons every Saturday.

HIS LIFE WAS SAVED.
Mr. J. E. Lily, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became paralyzed. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at The Stafford Drug Co.; every bottle guaranteed.

COPPER COUNTRY NEWS.
(Continued.)

is to work with. The copper share market has broken away from Standard Oil domination and I believe the buying power is such that we can reasonably expect higher prices all around."

As a result of the water famine at Butte, which has again closed down all the mines, the Anaconda and Butte & Boston companies have started to build an engine for the water company in order to supply the mines and the city with water. Water has been hauled in tanks to the mines to keep the pumps running, but some of the pumps at properties of the Anaconda company had to stop Thursday, Saturday a small supply of water was again sent to the mines with which the pumps were started, but it will be some time before ore can be hoisted.

CHANGES IN ARMOY OPERA HOUSE.

HOUGHTON LIGHT INFANTRY DECIDES TO MAKE THEM.

A committee was appointed at the meeting of the board of the Houghton Light Infantry Monday night to make arrangements for a thorough overhauling of the meeting rooms, billiard and pool rooms and the quartermaster's department of the Armory. The question of making several improvements in those apartments was also discussed at the meeting and definite action decided upon, the first step of which was the appointment of the committee. The company has a big stock of military paraphernalia which will also be overhauled and put in shape to be stored away to await another call to arms. It was stated yesterday that there undoubtedly would be several important changes made in the Armory Opera House, but just what the improvements will be has not yet been determined.

SKI-RIDERS ENTHUSIASTIC.

The members of the Houghton Light Infantry (Company G) will hold regular drill tonight. The work had to be neglected last week on account of the Frank E. Long Stock company holding the boards at the Armory.

GOOD DELEGATION FROM HOUGHTON FIGURING ON ATTENDING ISHPING MEET.

The members of the Houghton Skiing club are taking a great deal of interest in the ski tournament that is proposed to be held at Ishpeming at a near date—probably on Feb. 22. One of the Houghton "riders" yesterday informed the Mining Journal that he thought at least fifteen of the members of the club would attend the tournament. The Houghton men have no desire to enter the contests in the tournament; if they go it will be as spectators and not to take any active part in the sport—as they are not yet quite enough expert for that. The matter of attending the tournament is now being agitated and will probably be decided in a day or two.

OLD BILLS ARE BURNED.

FREEDOM FROM DEBT CELEBRATED AT GRACE M. E. CHURCH.

The "Freedom Jubilee" of the Grace Methodist church, Houghton, to celebrate the final extinguishment of the debt incurred in the building of the edifice, was held at the church last evening. The occasion was a joyful one, both for the pastor and his congregation. The clergy of the city and many friends of the church joined in the festivities and did all in their power to make the evening a happy one.

PLENTY FOR TWO FOR A NICKEL.

ARCHIE SCOTT DECLINES TO PURCHASE A \$5 TONTINE CONTRACT FOR \$25—IS STILL DELUGED WITH LETTERS.

Shortly after A. J. Scott of Hancock had returned from his trip to Detroit, the Detroit Tontine company, in which he held something like fifty contracts, Manager Brown of the concern stated in an interview to a Detroit newspaper man that Mr. Scott had made a thorough investigation of the company's affairs and had come home perfectly satisfied as to its business integrity. The interview was published in a Detroit paper and some of the statements made were later commented upon in the Mining Journal as being untruthful as far as Mr. Scott was concerned.

BUNSE'S CREAM CATARRHAL.

Cures catarrh of the nose and throat. Contains no mercury or other drug. Is quickly absorbed. Gives instant relief. It opens and cleanses the nasal passages, allays inflammation, heals and protects the membrane and restores the senses to taste and smell. Regular size 50 cents. The Stafford Drug Co.

MANY WILL GO.

There promises to be a large delegation of Negaunee people at Calumet to attend the mid-winter meeting of the Northern Michigan Singers' union, which will take place there on Sunday, the 24th inst. Professor St. Mustonen of that city was here last week con-

tinued his false statements after Mr. Scott had returned home, and did him the injustice of advertising broadcast in circulars and papers sent to all parts of the country that "A. J. Scott, mayor of Hancock, prominent banker and business man, after the most thorough investigation the company's agents were ever subjected to, takes out fifty contracts and wants a hundred." To say that the statement was far from the truth is putting it mildly, and if it were not for Mr. Scott's good nature things would undoubtedly have been made a little more "warm" for the concern than they now are. Mr. Scott did have fifty contracts, but they were in his possession before he went to Detroit.

After Mr. Scott was thoroughly advertised he began receiving bushels of letters from all parts of the country. A number of them asked for information, while many others offered contracts for sale at a great reduction in price, the latter feature being due to the phrase in the company's advertisement to the effect Mr. Scott wanted more contracts. Mr. Scott has answered as many of the letters as he has found time to and the style of his replies have been generally on the facetious strain. He rather takes the whole thing as a huge joke, instead of anything like a serious affair, as less good-natured men would do.

For instance, Mr. Scott recently received a letter from a business man in Baltimore, Md., who offered his contract with the Detroit company, on which \$45 had been paid in, for \$35. He stated his reason for selling as an account of something in the way of an unprofitable investment. Mr. Scott replied to the communication and informed the gentleman that his price was altogether too high; that matured contracts could be secured in this region for 25 cents and contracts like his for two for a nickel. And still the fun goes on.

BIERING CASE ADJUDICATED.

The case of Louis Biering of Hancock for damages against the New Jersey Tontine company was adjudicated in Justice Oliver's court at Hancock yesterday until next Tuesday. Biering is suing the New Jersey concern for non-fulfillment of a matured contract.

WANT THE STREET RAILWAY.

The residents of East Houghton are anxious that the street car line be extended in their direction in order that they may enjoy the privileges now offered the residents of other sections of the village, but here is where the "shoe pinches" are. The company wanted to lay its tracks on Main street, and it was on that account that the residents of the street made vigorous protest. They would like to see the system first established it was the intention of the company to include East Houghton, but that part of the plan was not carried out because of a protest on the part of residents of that portion of the village. The matter was therefore dropped for the time by the company. At present the tracks of the line in Houghton run to the east end of Sheldon street, of which Main is an extension.

WHERE THE SHOE PINCHES.

The residents of East Houghton are anxious that the street car line be extended in their direction in order that they may enjoy the privileges now offered the residents of other sections of the village, but here is where the "shoe pinches" are. The company wanted to lay its tracks on Main street, and it was on that account that the residents of the street made vigorous protest. They would like to see the system first established it was the intention of the company to include East Houghton, but that part of the plan was not carried out because of a protest on the part of residents of that portion of the village. The matter was therefore dropped for the time by the company. At present the tracks of the line in Houghton run to the east end of Sheldon street, of which Main is an extension.

JOHNSON'S STOMACH TABLETS.

are the best possible remedy, because they give quick, sure and permanent relief. They act directly on the stomach, assisting it to rid itself of waste food and poisonous matter. They heal and strengthen the inflamed or weakened surface of the stomach, give fresh vigor to the whole organ and aid it in its work of separating the strength and nourishment in the food from the waste matter so that the valuable parts may be turned into new, healthy blood, bone, flesh and muscle. In this way it keeps men, women and children strong and healthy.

JOHNSON'S STOMACH TABLETS are invaluable in all cases of malaria, indigestion, constipation, diarrhoea, biliousness, and every form of stomach, liver and bowel trouble. They are unequalled for this purpose and never fail to effect a swift and lasting cure when the directions are faithfully followed.

As a gentle laxative JOHNSON'S STOMACH TABLETS are without an equal. They never fail to cause a movement of the bowels, no matter how acute the case may be. They can also be used as a purgative by doubling or tripling the dose. If people could be made to realize how important to the health is the regular movement of the bowels, they would keep these tablets always at hand.

JOHNSON'S STOMACH TABLETS purify the blood, tone and keep the system in order and cure that tired feeling. They are for universal use. Even though you feel better, a tablet will make you feel better.

Popular Prices, 10c, 25c, 50c.

Made by
The Johnson Laboratories Inc., Philadelphia.

POISONING HER CHILD
is what young mothers do by giving them medicines not prescribed by a competent physician or pharmacist. The chemical action of drugs is entirely changed when mixed, if not mixed by those understanding their properties. Either get a physician's prescription, which we will fill to the letter with pure, fresh drugs, or we will give you the benefit of our information.

J. M. Perkins, DRUGS AND STATIONERY.
Agent for Chancellor and Teller Brands of Cigars.
