United States Steel Corporation Incorporates in New Jersey.

NOMINAL CAPITAL \$3,000.

Is to Be Increased to \$1,100.000,000 However, and the Details Will Be Given Out Today.

BUT LITTLE CASH NEEDED.

New York, Feb. ?5 .- The articles of ncorporation of the United States Steel corporation were filed today at the office of the county clerk of Hudson County, N. J. This concern is the gigantic Morgan-Carnegie combine. The incorporators are Charles Cluff, William J. Curtis and Charles Member of Band of Crusaders Fatally Shot During Early McVeagh. The total authorized capital stock is \$3,000. Provision is made that the stock may be increased at

any time. OBJECTS OF THE COMBINE.

The objects for which the corporation s formed, as set forth in the articles of incorporation, are:

To manufacture iron, steel, manganese, coke, copper, lumber and other midnight this morning, fifty citizens, claims he was shot by an officer. materials; all or any articles consisting armed with revolvers, sledge hammers, or partly consisting of iron, steel, cop- crowbars and a battering ram, broke any products thereof.

To acquire, own, lease, occupy, use or oil, and any woodlands or other lands penter, being shot twice in the breast, for any purpose of the company. To purchase, lease or otherwise ac-

uire, hold or dispose of any trade ed on the charge of resisting an officer, She will remain here for three days. She marks, trade names, patents, inven- and were released on their own recogtions, improvements or processes used nizance. in construction or secured under letters patent of the United States or elsewhere.

To engage in any other manufacturing, mining, construction, and transportation business of any kind of charac ter whatsoever, and to that end to acall property, assets, stocks, bonds and right-of-way of every kind; to acquire kinds of business, purposes, objects or men and \$6,000 belonging to the village. at Stillwater. operations above indicated or owning Experiments with liquid air are said or holding any property of any kind to have caused the trouble. therein mentioned

It is expressly provided that the corporation shall have power to issue bonds and other obligations in payment THREE SMALL BOYS, PLAYING AT for the property purchased or acquired

The total authorized capital stock of the corporation is \$3,000, divided into thirty shares of the par value of \$100 Of such total authorized capital stock, fifteen shares, amounting to \$1,500, shall be preferred stock and fifteen shares, amounting to \$1,500, common stock. From time to time the stock may be increased, according to law, and may be issued in such amounts and proportions as shall be determined by the board of directors and as may be permitted by law. The holders of the pre. ed stock shall be entitled to receive as declared from the

per cent per annum and no more. duration of the corporation shall be rant from Worcester detectives.

Federal Steel company; Max Pam, rep- made all arrangements for financing esenting the American Steel & Wire the combination. They have also, ac ompany, and Francis Lynde Stetson, cording to the reports, completed the who is one of Mr. Morgan's confiden- details necessary to exchanging the old tial legal advisers, were in conference securities for the new. As to the flo the greater part of the day. With tation of the company, a prominen ese gentlemen from time to time were bank officer was quoted as saying that epresentatives of the various concerns no more than \$15,000,000 actual cash would be necessary, and that this sum had already been put aside by the underwriting syndicate. There were unconfirmed statements cation will be made, it is said,

From a well-informed source do not know what the directors of the stock and \$400,000,000 common stock. other companies interested may have The corporation will take over the Cardone, but I can say that as yet we have negle, Federal Steel, Steel & Wire and repared no letter for our sharehold- the other companies named by means of the stock.

MILLIONS SAVED YEARLY.

The valuation of the subsidiary con reservation. None of the principals or absorbed in one would have spent for officers of the companies would discuss betterments at least \$50,000,000 per year for the next five years. With the element of competition eliminated, it is figured that all, or nearly all, of this

REBEL BANDS DISPERSED.

Manila, Feb. 25.-Lieutenant West, runboat Laguna de Bay, attacked two undred insurgents under Ceballos near Cavinta, province of Laguna, today. After a hard fight of forty minutes the insurgents were dispersed, sing six killed and fourteen captured. A detachment of the Forty-seventh Volunteer infantry encountered a body of insurgents in the province of Albay, today killing eighteen, and subsequent-

ly another body, killing nine. The Americans had no casualties. A squad of the Eighteenth United States infantry yesterday surprised a band of ladrones at Moosin, island of Topeka, Kas., Feb. 25.-Shortly after the liquor establishment, but Adams Panay, killing six. The Americans captured five rifles. The peace commission s negotiating with the insurgents of Mrs. Nation was released from the northern Panay and there is a prospect

county jail late last night and this of an early surrender.

Rev. Father McKinnon, who was fornerly private secretary to Mgr. Chanpelle and who is now pastor of the Ermita Catholic church, informed the Associated Press today that there were upwards of 800 native priests in the liver an address at night. Her plans Federal party, and that these would Philippines who were opposed to the refuse to administer the sacrament to the Federalists because they believed the Federal party to be merely a cloak

It is printed on each Certificate that subscribers to the above Preferred Shares will be entitled to receive in Dividends the full amount of money invested, before other Stockholders receive any returns, signed by the President of the Company.

This District Produced More Gold n 1900 than any other in the United States

This property consists of 3000 by 3000 feet, or 200 acres, of gold land. The mine has been worked. The feature of this mine is the Veneta Vein, 30 to 40 feet in width, and is certainly one of the strongest veins in this famous district. There are some aftern openings on this famous vein, the ore from which assays in gold from \$12 to \$100 per ton. The property is advantageously located for development by tunnel, which will make it possible to produce an enormous amount of ore daily, the quantity varying from from 200 to 500 tons per day. The development by tunneling is the most economical and advantageous manner of working this property.

At a distance of 800 feet the TUNNEL will intersect the Veneta Vein at a depth of about 63 feet, and will also intersect several other veins. The TUNNEL will cut the Big Horn Mountain 2,100 feet deep, and will give this Company 2,000,000 tons of ore, worth over \$ 20 per ton.

The new railroad, now practically completed from Colorado Springs, called the Colorado Springs and Cripple Creek road, passes within 2.000 feet of this tunnel.

Adjoining this property is the Colorado Springs TUNNEL Company. In this property, at a depth of 400 f-et, the Veneta Vein was cut. At this point the vein was fully 20 feet in width and its value from \$20 to \$1,000 per ton.

There are already in operation mills and smelters sufficient to treat the output of this property which gives at once cash returns,

MAY AVERT EXTRA SESSION

Propositions Are Made an Amendment to Army Bill and Propose to Keep Some Rein on Island.

DEMOCRATS ENDORSE IT.

Washington, Feb. 25.-The senate committee on relations with Cuba today agreed to an amendment to the tor Vest. army appropriation bill regarding Cuba, the amendment being practically as outlined in these dispatches Saturday. Some concessions and modifica-

The entire committee joined in the agreement and there will be no minority report and no opposition is expected from the Democrats in the senate. The general impression is that the agreement makes an extra session of congress unnecessary.

In brief, although not in direct language, the amendment provides that the Cubans shall recognize the right of the United States to supervise their foreign affairs, their financial policy so far as their indebtedness is concerned, their commercial policy so far as it affects the interests of the United States, their sanitary laws so far as necessary for the protection of our own ports against contagious diseases; that they shall give us at least three harbors for naval stations and authorize interventhe property and lives of American citizens and other foreigners in Cuba.

Chairman Platt, of the committee on relations with Cuba, later reported the amendment to the senate and it was referred to the committee on military

Commissioner of the United States, General Land Office, Washington, D.C., by a Geologist and Mining Expert of world-wide reputation, Professor Benjamin sillinian, who spent several months there, then being connected with the United States surveying Coros, and in his official report says: "Here are con tless millions of tons of rich gold quarts reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the kio Grande for ever 40 miles is a sluice, on the bors of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages, and now lies ready for extraction by the most approved method of river mining. The thickness of the Rio Grande gold gravel exceeds in many places (600 feet, or nearly three times that of the like beds in California while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered. "I have made a reconnais once of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the gravel and its contents of you. Nothing, I am persuaded, since the discovery of California and Australia, is comparable for its measurable resourses of gold available by the hydraulic process to the deep placers of the Rio Grande."

Attractive Women

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of features.

The snap and spirit which health gives to the eye, the movement, and the speech are full of magnetism. Sickly women can't understand this.

They only know that they are miserable, and their efforts to be attractive are languid and weak.

Woman's influence in the world is limited by her strength, and the strength of health is real strength.

It brings with it beauty and grace and loveliness of disposition.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. If she would be all she may, she must guard well against the signs of ill health.

Regular and painless menstruation is absolutely necessary. The help which Lydia E. Pinkham's Vegetable Compound gives to women who are attacked by any disorder of the feminine organism is real, permanent help. It cures all weaknesses of the organs and makes it possible for women to retain their health and beauty to mature years.

Mrs. Bazley Tells of Relief from Suffering.

"DEAR MRS. PINKHAM:-It gives me great pleasure and, at the same time, I feel it a duty to send you this testimonial in regard to your Vegetable Compound. It has worked wonders with me I was a great sufferer with unceration of the womb had such backache and bearing-down pains that it required a great effort to do a small amount of my usehold duties. Since taking Lydia E. Pinkham's Vegetable Compound, I am able to do all my own work and feel like a new woman. Your Sanative Wash also is something I could not afford to be without. I cannot say enough in behalf of your remedies. I heartily recommend them to all suffering women."-MRS. F. C. BAZLEY, 724 4th Ave., Detroit, Mich.
