CLASH AT TIEN TSIN.

TROOPS OF THE ALLIES INDULGE IN A BLOODY FIGHT.

ONE MAN SLAIN; THIRTEEN WOUNDED

STRONG GUARD NEEDED TO PUT A STOP TO THE ENCOUNTER.

British Soldier Police Who Stop Horse-Breaking by Frenchmen Are in Turn Attacked by Them and a Detachment of Germans.

Tien Tsin, June 3.—There was a serious affray yesterday between the international troops. Some of the British fusiliers who are acting as police here sought to prevent French soldiers from horse-breaking, when they were attacked with bayonets and bricks. The fusiliers, in self-defense, fired in the air. This brought a number of Germans to the aid of the Frenchmen, making altogether about 200 men. The five fusiliers fired again, killing a Frenchman and wounding three others. In the subsequent fighting, four fusiliers, five Germans and one Japanese were wounded. The arrival of a German officer and a strong guard ended the affray.

Oration Given to Waldersee.

Pekin, June 3.—The departure of Field Marshal von Waldersee from Peking today was marked by a great military display by the allied troops, the booming of artillery and the playing of bands.

CHRISTIAN SCIENCE TRIAL.

Its Resumption at Boston Marked by Tilts Between the Attorneys.

Boston, June 3.—The trial of the libel suit of Mrs. Joseph C. Woodbury against Mrs. Mary G. Eddy, head of the Christian Science church, which was begun last week, was resumed today. The cross-examination of B. J. Johnson, secretary of the board of directors and clerk of the First church of Christian Science, was resumed.

Attorney Elder, counsel for the defendant, objected to a question as to the meaning of the words, "mystery of iniquity," contained in the alleged libelous message from Mrs. Eddy to the church. The court ruled that the question might be answered but the answer should have no weight to show what was intended by Mrs. Eddy. Judge Bell said the plaintiff must prove two things, namely, that the defendant intended the libel to apply to the plaintiff and that her words and leaders so understood it.

The question was then repeated to the witness, Johnson, who said: "By 'mystery' is meant something which has never been solved. As regards 'iniquity,' that is something with the courts and church people have tried unsuccessfully for a generation to define, and I am therefore not able to explain what it meant."

William G. Nixon, publisher of Mrs. Eddy's books until 1893, was asked what his understanding was of the meaning of the message and who was the person referred to. His reply was, "Mrs. Woodbury, the plaintiff in this case."

The last witness of the day was Judge S. H. Hanna, who said he had been away from the city for seven weeks. He had been country judge at Council Bluffs, Ia., and was now a student of Christian Science. Mr. Hanna said he was the first reader of the church, subject to Mrs. Eddy's approval, as provided by law. He was editor of The Christian Science Journal and of The Sentinel. Lawyer Peabody handed him a copy of The Arena and called his attention to an article in it written by Mrs. Woodbury. Over this article the lawyers had a long argument. Mr. Peabody argued The Arena article was an incident bearing on the relations of the two women and that it tended to prove that Mrs. Eddy had attacked "mystery" and "iniquity." The court refused to admit certain questions relating to the article. Mr. Peabody thereupon questioned Judge Hanna on other articles, and the witness said Mrs. Eddy had refused to grant permission for a reply to The Sentinel.

The lawyers were disputing over the forms of questions to be put to the witness over the article in question when court adjourned for the day.

UNGRATEFUL SON.

Forces Father, Bound to Pay His Debts, Into Bankruptcy.

New York, June 3.—A petition in bankruptcy, accompanied by a "pauper's oath" to the effect the petitioner had not the necessary funds with which to pay the costs of filing the petition, was filed in the clerk's office of the United States district court by Alvin E. Crocker today. The petition places his total liabilities at \$33,783 and assets at \$35,850.

According to counsel for the bankrupt, the story of Crocker's bankruptcy is interesting. Crocker is an heir to the late Benjamin J. Crocker, the California millionaire who died recently. By his will, Crocker left the estate to his wife. As she predeceased him, the estate will be divided among the next of kin. Alvin's share is estimated to be about \$50,000.

Alvin Crocker was interested for many years in mining ventures in Mexico with varying success. His last venture however, his lawyer says, ruined him. He promoted the San Javator Mining & Milling company and borrowed money to finance it. The mine was not the money-maker he expected it to be, and he finally obtained an extension of

time from his creditors. Nearly all the \$33,783 included in the schedule is due to persons who lost money in the mining company or who advanced money to carry on the work of the company.

As soon as Crocker learned that money was due him from the estate of his brother, he took steps to pay all the creditors. His son Oliver, formerly of Chicago but now of Atlanta, Ga., agreed to pay all the debts in exchange for an assignment of his father's interest in the California property. The assignment was fully executed and then, the lawyer says, the son refused to carry out his part of the bargain. Crocker was determined the creditors should be paid, and as there was no other way to set aside the assignment he filed a petition in bankruptcy.

Under the law, all assignments made within four months are set aside unless the assignees can show they gave valid consideration for them.

INDIAN SCARE IN WYOMING.

Lander, Wyo., June 3.—As the result of a shooting affray between a white sheep herder and an Arapahoe Indian on the reservation Sunday, in which the Indian was killed, serious trouble is feared, as the Indians are reported to be very ugly over the affair. The sheep men have sent to outlying stores for ammunition.

URGES NEW STRIKE.

MACHINISTS' UNION PRESIDENT WOULD TIE UP RAILROADS.

ASKS THE CONVENTION TO ACT.

PRESENT WALKOUT EXTENDS TO THE PERE MARQUETTE LINE.

All Shopmen on the System Quit, as Also Is Done at the Newport News Ship Yards—Vigorous Stand Taken by the Chicago Employers.

Saginaw, Mich., June 3.—All the machinists on the Pere Marquette railroad went on a strike today because the road refused them a nine-hour day with ten hours' pay.

Newport News, Va., June 3.—Three hundred machinists struck this morning at the Newport News shipyard. The other departments are unaffected.

Demands Granted at Hartford.

Hartford, Conn., June 3.—Eighteen hundred men who had been on strike here returned to work in six machine shops today, the companies having granted their demands for a nine-hour day with ten hours' pay. About 700 machinists from other shops are still out.

Chicago Settlement Delayed.

Chicago, June 3.—There will be no settlements of the machinists' strike in Chicago until after June 11. This was the decision of the local manufacturers this afternoon, when the members of the Chicago Association of Machinery Manufacturers pledged allegiance to the National Metal Trades association and agreed not to enter into negotiations with any of their employes until after the great gathering of employers in New York city on June 11.

A number of machinists today left the three plants of the Crance company to join the strikers, whose agreements were signed with five other firms.

Workers' Convention Opens.

Toronto, Ont., June 3.—The annual convention of the International Association of Machinists opened here today with about 200 delegates present.

In his annual address, President O'Connell showed that during the past two years 197 charters had been issued, with a membership of 7,404. During his term he had approved sixty-six strikes, involving 9,650 machinists, of which 41 were won, 10 settled on compromise and 10 lost. The president asked that the law be changed so as to compel the local unions before striking to obtain the consent of the grand lodge.

"A reduction in the hours of labor has been our hope since the association started," continued the president. "Up to May 1 the number of shops working less than ten hours per day was only 1,870. I am firmly convinced our nine-hour movement will result in reducing the hours of labor for 150,000 machinists."

"The machinists employed in the railway service have been more than anxious to take part in the movement on May 20, but we have felt that some roads could not be sufficiently prepared by that date and have advised against such a move taking place except in special cases. Very great progress has been made for the past three months in our organization with the railway machinists, and I recommend that a date be set for the inauguration of a nine-hour day for the machinists employed in the railway service."

Steel Trust Raises Wages.

Youngstown, O., June 3.—The National Tube company, a member of the United States Steel Corporation, today voluntarily advanced the wages of all workers in the Youngstown plant an average of 17 1/2 cents per day.

KILLED AT FIANCEE'S HOME.

Parkersburg, W. Va., June 3.—Daniel Spencer, aged twenty-six, was accidentally shot and killed at the home of his fiancée, Miss Mattie Archer, today by her sister Della. Spencer was exhibiting a new revolver, when she took it with the remark, "I will show you how it works." The revolver was discharged, and Spencer fell dead.

BALLINGTON BOOTH DENIES IT.

Head of the Volunteers Not to Return to the Salvation Army.

New York, June 3.—Ballington Booth, head of the Volunteers of America, denied today that he was to return to the Salvation Army and be reunited with his father.

THREATS OF DYNAMITING.

Massachusetts Churches Warned to Observe Saturday as Holy Day.

Somerville, Mass., June 3.—The sexton of the Third Universalist church at West Somerville today found a note on the front door of the church making a threat that by next Sunday all the West Somerville churches would be destroyed by dynamite unless next Saturday was observed as a holy day. The note was similar to one posted on the doors of the North Cambridge churches yesterday.

ACCIDENT AT THE MIDWAY.

Buffalo, June 3.—In a Midway show at the exposition tonight, Teddy Oliver, aged nineteen, was probably fatally injured while diving from a bicycle on a platform forty feet high into a pool of water. He lost his balance as about to make the jump and was thrown head foremost into the shallow water.

ACTOR EDWARD FORSHAY KILLS EDNA STOKES AT CHICAGO.

MEMBERS OF THE SAME TROUPE.

MURDERER A REJECTED SUITOR FOR HAND OF HIS VICTIM.

Says After Pursuit and Capture It Was Also His Plan to Commit Suicide but His Nerve Failed at the Last Minute.

Chicago, June 3.—Edward Forshay of Kansas City, actor and assistant manager of theatrical companies, tonight shot and killed Miss Edna Stokes, an actress whose home was at Sedalia and with whom he was deeply in love.

Forshay claims to have met Miss Stokes at St. Louis six years ago, when they were both playing an engagement. The couple played in different cities in the country until last fall, when they came to Chicago and became members of the stock company playing at the Victoria theatre.

The couple engaged in a desperate quarrel three days ago. Forshay is said to have beaten the actress badly. Miss Stokes gave orders to the proprietor of the Vernon Hotel, at which she stopped, that Forshay should not be admitted to her presence.

Shoots Her in Cold Blood.

Although he called at the hotel twice during the early part of this evening, he was compelled to leave by the attendants. Later Miss Stokes met him in the parlor and the couple talked for about ten minutes, when Forshay suddenly drew a revolver and fired two shots, killing the woman almost instantly.

Forshay then ran from the building, closely followed by James Heim and William Kennedy, porter of the hotel. After pursuing him a short distance Heim overtook the murderer and held him until the arrival of the police.

When taken to the station Forshay said he intended to kill himself, as he could not live without Miss Stokes' love, but that his nerve failed at the last minute.

In a letter addressed to his mother, Forshay claims he has been crazy for a year.

Lincoln Couple Takes Poison.

Lincoln, Neb., Tuesday, June 4.—J. Albert Brink, city solicitor for a wholesale grocery house and a leading society young man, and Mrs. Walker, of whom little is known, took poison at Brink's room at the Lindell Hotel in an effort to commit suicide. When found at 1 o'clock this morning the woman was dead, but Brink has a fighting chance for life.

Body in a College Vat.

Burlington, Ia., June 3.—The mysterious man who committed suicide in Crapo Park several weeks ago was identified today by his son as F. S. Peavy, at one time a wealthy farmer near Newton, Ia. The body is now in a medical college vat at Kirksville, Mo., and will be secured and buried by the son.

MOB SEARCHING FOR NEGRO.

Aged Kansas City Woman at Death's Door and House Riffed.

Kansas City, June 3.—While rocking a baby in her home on Second street and Woodland avenue this afternoon, Mrs. Mary Schuler, aged seventy, was struck down with a hatchet by a negro who then ransacked the house for valuables. Mrs. Schuler's skull was fractured twice and her condition is critical. The negro escaped and is being searched for by a large number of neighbors and officers. Threats of lynching are freely made.

OCEAN STEAMER IN PERIL.

Atlantic City, N. J., June 3.—The steamer Ranald, from Trinidad for New York, anchored in distress today off Atlantic City. She has a cargo of pitch and is in danger of capsizing from a heavy shift in the cargo. She was visited this afternoon by the life saving crew.

M'LAURIN TO STICK

SOUTH CAROLINA SENATOR RECONSIDERS HIS RESIGNATION.

INCIDENTALLY JABS AT TILLMAN.

WILL NOT BE HANDICAPPED OR BOSSSED BY ANY ONE.

Says in Letter to Governor He Is Servant of the People and for the Sake of Their Peace Will Hang On to His Commission.

Columbus, S. C., June 3.—Governor McSweney today received a letter from Senator McLaurin in which the senator says:

"For the sake of the peace, prosperity and happiness of the people of this state, I am willing to hold on to my commission as United States senator and continue to serve as I have done in the past, to the best of my ability.

"However, in retaining my seat in the senate I will not consent to be handicapped or bossed by any one claiming the right to judge my motives or actions. I propose to exercise my authority on all national questions under the influence of a high sense of responsibility to the people and to work for the upbuilding of the political and material interests of the state. I recognize fully my accountability to the sovereign people and am always ready to give strict account of my official acts to them.

Interfered With by Tillman.

"Your suggestion that it is not your purpose by your official action to prevent the freest discussion of all public questions and the education of the people along all political lines" is in accord with your patriotic course in reference to the resignations. The people are entitled to hear both sides of these questions and form their judgment. Personalities and bitterness in joint debate would interfere with the fair and full discussion of them and, instead of education, would mislead and deceive them.

"All that I have claimed is this right of the people and my right to enlighten them on these questions wherever called upon. In my effort to do this I was interfered with by the senior senator, who affirmed that my doctrines were political heresies and hurtful to the people. My wish is that all public questions must be freely and fully discussed before the people, and I will be content to abide by their decision upon them.

Not Contending for Office.

"In contending to hold on to my commission I wish it understood that it is in response to your patriotic appeal that it is for the good of the state, not because I feared to go before the people and discuss with the senior senator or others the national issues of the day. I am a public servant of the people and it is my duty and pleasure to always promote their interests in every way I can."

On Saturday last, the governor received a letter from Senator Tillman declining to withdraw his resignation and disputing the governor's authority in not accepting it. However, in closing, he said: "Holding this view, I decline for the present to withdraw my resignation. It was tendered in order to secure the resignation of Senator McLaurin, and will not be withdrawn until he shall have shown his unwillingness to let our people pass upon his conduct this year instead of next."

MRS. M'KINLEY RESTING WELL.

Doctors, However, Unable to Report a Change for the Better.

Washington, June 3.—Dr. Rixey, after remaining at the White House for nearly three hours tonight, said there had been no change in the condition of Mrs. McKinley. At eleven she was resting comfortably.

The complaint which manifested itself while Mrs. McKinley was away from Washington and which so seriously sapped her strength has been checked, but its effect has been to leave her in very weak condition.

There will be another consultation of physicians in the morning.

IOWA GIRL A HEROINE.

Saves Male Companion from Drowning and Gets a Medal.

Iowa City, June 3.—The Irving Institute Literary society of the Iowa State university today conferred on Miss Caroline Jarvis a medal for bravery in saving the life of R. M. Fagan, a student of the university. Young Fagan and Miss Jarvis were boating when the wind capsize the boat, throwing both into the water. Fagan was unable to swim and Miss Jarvis assisted him to secure a hold on the boat and then swam to the shore, pushing the boat ahead of her. Miss Jarvis is a freshman at the university and has won considerable fame in literary circles.

Marquette, Mich., June 4. Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The Ashland Press announces that the Chicago & Northwestern railway has put on its entire ore handling force on the Gogebic range end of its line, and that work will be pushed with all possible expedition from now on.

Saturday's number of Iron and Steel gives this information concerning the movement of iron ore by water:

Some additional chartering of large blocks of lake tonnage for carrying ore this season have been closed this week by the United States Steel Corporation.

Senator Tillman of South Carolina is greatly incensed by the action of Governor McSweeney in not promptly accepting his resignation and that of Senator McLaurin, so that the two can inaugurate a theatrical campaign to determine which is "boss" in that commonwealth.

END OF A CHEQUERED CAREER. Captain Henry Howgate, former signal officer of the United States army, died of cerebral hemorrhage at Washington Saturday, aged seventy-eight years.

His work in connection with the weather department advanced him to the position of property and disbursing officer of the bureau and he became entrusted with the handling of the entire appropriations for the signal corps.

Captain Howgate was a man of much more than ordinary ability and of very great scientific attainments. As editor of the Iron Port his work commanded attention, but his identity remained unsuspected until after he had left Escanaba, so carefully did Colonel Van Duser, his loyal friend, guard his secret.

QUITE A DIFFERENCE. Treating on the difference between English Bessemer practice and that obtaining in this country, the Iron Trade Review says:

A paper read before the May meeting of the Iron and Steel Institute at London, describing at the request of the council a Bessemer plant recently rebuilt, and considered one of the most modern in England, would furnish the text for a pretty complete exposition of the difference between British and American methods.

WILL DOUBLE PLANT'S CAPACITY.

New Machinery Being Installed at the Street Car Power House.

At the Hancock power house of the street railway line workmen are busily installing equipment which will double the capacity of the plant.

The company has received within the last few days a powerful Brown engine made by the C. H. Brown company of Fitchburg, Mass.

Superintendent of Construction J. S. Adams, of the street railway company, had the foundation for the new Brown engine completed on April 1.

It will be able to generate a current of 380 volts, which will more than double the electrical capacity of the plant.

The new generator will be put in on account of the long extension to Calumet, the present power being unable to push the cars more than ten miles.

When the cars are operating to Calumet the current from the generators in the Hancock power house will pass through six "step-up" transformers located at the plant which will raise the current to 11,000 volts.

It is still the intention of the company to have everything in readiness by July 1, when it is thought the cars will be in service at Laurium and Red Jacket.

Mr. Adams is of the opinion the plant of the street railway company is as fine as any in Michigan.

PATTERNED AFTER CITY THEATRE

Plans for Hancock's Opera House Call for a Handsome Structure.

The plans for the opera house which is to be erected for William Kerredge at the corner of Quincy and Ravine streets, Hancock, at a cost of \$20,000 have arrived.

The plans give a general retrospect of the entire building, embracing the auditorium, balcony, gallery and other portions.

There will be five stores on Ravine street and two on Quincy, the latter to be a ceiling of thirteen feet, which will bring the auditorium to the same height above Quincy street.

Local trading in the copper shares for the month just closed is of special interest on account of the panic in the stock market on the 9th of the month.

Below will be found the range in prices for the month of the locally listed copper shares, together with the total trading in each share, says the Boston Traveler.

A glance at the list shows Amalgamated to have been far and away the most active stock, with the fine total of 137,347 shares.

HOLD-UP IN STREET STARTLES A PENNSYLVANIA TOWN.

POSSE IS QUICK TO ACT.

TWO BANDITS TAKEN BUT OTHER IS MISSING WITH FUNDS.

Quarry Owner on Way to Pay Off Men Is Attacked in a Burg in the Heart of Elwood City and His Money Stolen.

Newcastle, Pa., June 3.—One of the most daring hold-ups ever perpetrated in this part of the state took place at Elwood City this afternoon.

Three unmasked men met Costen Burns, an aged and wealthy resident of that place who had started today to his quarry with \$2,100 to pay his hands. Just in the rear of the Elwood Seamless Tube works, almost in the heart of town, he met three strangers in a rig. They accosted him, and he entered into conversation with them.

Suddenly one of the trio, a large man wearing goggles, stepped into Burns' buggy and seized him by the throat. One of the others seized the satchel containing the cash intended for the quarrymen and jumped into his own rig. The man with goggles followed, and the three lashed the horse to a run and disappeared before Burns could recover from the attack.

A posse hastily organized came upon the highwaymen two miles from the scene of the robbery. One of the robbers was crippled by a shot and was an easy victim, while the leader, the man with goggles, was captured after his ammunition had been expended. The third man escaped and is yet at large with \$1,700 of the stolen money. The prisoners are strangers here and absolutely refuse to talk.

OFFERED QUESTIONS FOR SALE.

Columbus, O., June 3.—Cly M. Runyan and Bert M. Steele were arrested this afternoon at the instigation of the state's attorney general and taken before the supreme court for alleged contempt. The men are accused of having secured copies of the questions prepared for the state bar examinations to be held tomorrow and having offered to sell them to students of the University of Michigan and other institutions. They will be given a hearing tomorrow.

Willowmore, Cape Colony, via Cape Town, June 3.—Commandant Sheeps, with 700 men, attacked Willowmore Saturday, but was beaten off after nine hours' fighting. Jamestown is threatened by Fouché's commando.

Much Uneasiness in England.

London, June 3.—The uncertainty with regard to recent operations in South Africa is causing a good deal of uneasiness in this country. It is believed that the responsibility for the concealment of news does not lie with Lord Kitchener. The British commander is certainly not, even in his most exuberant moments, a communicative man, but during the latest phases of the war it is reported in usually well-informed quarters that he has sent home the fullest information. He has, however, also told the authorities at the war office that it would be unwise to give to the world any information which could be telegraphed back, mentioning instances of important facts which he has sent here being known to the Boers a few days later. This suggestion on the part of Lord Kitchener has been seized upon by the home officials to suppress almost all the news he has forwarded.

Meanwhile the daily list of casualties are anxiously studied, but these lists do not fully indicate the actual number of deaths of British soldiers caused by the war. A good many men invalided home have died in England without being included in the list. At the present moment hospitals in the United Kingdom are crowded with patients, a large number of whom are suffering from enteric fever contracted in South Africa.

War Office Denies Withholding News.

London, Tuesday, June 4.—The war office made the following announcement last night: "All information received from Lord Kitchener respecting recent engagements in South Africa has been communicated to the public."

BECOMES UNIVERSITY PRESIDENT

Professor Remsen Takes Dr. Gilman's Place at Johns Hopkins.

REWARD FOR THE LYNCHERS.

California Governor Will Pay \$5,000 for Conviction of Modoc Mob.

San Francisco, June 3.—Governor Gage has offered a reward of \$5,000 for the conviction of the Modoc lynchers, to be divided as follows: One thousand for each of the ringleaders and \$400 for each of others engaged in the lynching. The governor is much wrought up over the bravado of these vigilantes, who, to get rid of objectionable neighbors, use the lawless means heretofore employed only for the most desperate crimes.

Besides thefts the lynchers were guilty of mutilating and killing cattle and horses. The mob came from twenty miles around, and after lynching the five men departed as silently as they came, leaving no trace behind.

All Lassen county is in secret sympathy with the lynchers, the governor's reward will not bring out the guilty men.

STOCKS ACTIVE AND STRONG.

Good Net Gains End a Day Recalling Wall Street's Boom Period.

New York, June 3.—Speculation in stocks was again very animated today and showed substantial expansion over that of Friday. Both in the character and volume of the trading, the market bore close resemblance to that in the boom period.

Buyers last week were very heavy sellers to take profits today, and this selling caused a very general reaction after the opening advance, which was fairly common to the whole list. Some of the stocks most conspicuous in the opening advance did not do more than hold their own in the later dealings. Others continued to advance, while still others which were strong early last week and then reacted renewed their strength in the late dealings. The net result of the day's trading is a substantially higher level of prices.

At the close after a day of great activity and variety, the steel stocks closed on the down grade with only fractional net gains. Very conspicuous strength was shown by St. Paul, Union Pacific, Southern Pacific, Missouri Pacific and in the final dealings, the Readings and Erie. There was a development of great speculative activity in Sugar, which advanced an extreme of 5 points. Amalgamated Copper gained 3 3/4 points.

Closing prices, as reported by Paine, Webber & Co., were: Am Zinc, 14 @ 15; W Union, 15 1/2; U S Oil, 11; U S Stl., 11; Bisc. Com, 11; Tin, Com, 11; Oil, Pfd., 11; W & H., 11; Wab. Pfd., 11; M & T, 11; Alton, 11; N & W., 11; Tex Pac., 11; So Rwy., 11; N Y Cent, 11; Erie, 11; Sugar, 11; C B & Q., 11; Rock Isld, 11; St. Paul, 11; B R T., 11; Rubber, 11; C F & I., 11; Am Tob, 11; Cont Tob, 11; O & W., 11.

*Asked. New York Central's New Chief. New York, June 3.—At a meeting of the directors of the New York Central railroad today, Wm. H. Newman, president of the Lake Shore, was elected president of the New York Central & Hudson River railroad to succeed Samuel R. Callaway, resigned.

Sugar Prices Go Up.

New York, June 3.—Arbuckle Bros. today advanced all grades of refined sugar 10 points.

Talk of a Corner Causes a Net Advance of a 3-8 Cents. Chicago, June 3.—In wheat, a sharp advance in July was the feature of the day. It was up as much as 3 3/8 from the low point on Saturday and closed with a net gain of 2 3/8. Longs and shorts were buyers. July opened at 74 1/2 to 75, reached 78 1/2 as high and closed at 77 1/2; September was 1/4 lower, while June closed 1 1/4 better. There were no cash sales at Chicago and only six loads at the seaboard. July was strong on talk of manipulation in that month, while September was lower on the appearance of rain in parts of the Northwest. On the upturn in July some large local professionals unloaded good lines. Sensational damage reports were received from Kansas, showing need of rain. The cables were higher, Liverpool being unchanged to 3/4 better.

Corn was fractionally lower and devoid of marked features. July sold between 44 1/2 and 45 1/2 and closed at 45; September at 44 1/2 and 45 1/2 to % at the close, and June closed at 44 1/2, nominal. The cash trade was dull here, and only twelve loads were reported taken on the coast. At Liverpool, spot was 1/4 higher, with futures up 1/2.

Oats were fairly active and irregular. The opening was weak on reports of rain in the West and predictions of more. The rally in wheat carried prices up after but they yielded again toward the close and finished with a loss of 1/2 @ 3/4. The trade was scattered. The cash sales were 85,000 bushels and the seaboard clearances 314,000.

The leading futures ranged as follows: September wheat opened at 72 1/2 @ 73 1/2; highest, 74 1/2; lowest, 72 1/2 @ 73; closed, 73 1/2. September corn opened 45 1/2 @ 46; highest, 45 1/2; lowest, 44 1/2; closed, 45 1/2.

The movement of grain was as follows: Receipts Shipments. Flour, barrels, 20,000 19,000 Wheat, bushels, 46,000 481,000 Corn, bushels, 91,000 520,000 Oats, bushels, 927,000 368,000

FORBIDDEN TO SPECULATE.

Employee of the Southern Pacific Must Steer Clear of Business Ventures. Tacoma, Wash., June 3.—The Southern Pacific railroad has issued a circular addressed to all employees in the service of the road forbidding them to engage in oil or other ventures and commanding that they give all their attention to the business of the company. The circular, which is signed by President Hays, reads: "No employee of the Southern Pacific shall hereafter be a director or officer of any oil company or other outside corporation or engage in any outside business, but must give his entire time to the service of the Southern Pacific company."

SMELTER TRUST INVESTS.

Gets Control of All the Gold Ore Treatment Plants in Colorado. Colorado Springs, Colo., June 3.—A New York syndicate, backed by the American Smelting & Refining company, has bought all the chlorination and cyanide mills in Colorado, and will get possession on June 10. The consideration is \$3,500,000. The plants will be turned over to the smelter trust for a larger sum, commonly reported at \$5,000,000.

The mills are twelve in number. They are now engaged in treating Cripple Creek low-grade ores, their daily capacity being 2,425 tons. The list is as follows: Standard and Colorado, Philadelphia, Rocky Mountain, National, El Paso and Dorcas, at Florence; Atlas, at Boulder; Brodie and Aregun, at Cripple Creek; and Gillett, at Gillett.

Charles L. Tutt, president of the Standard and Colorado, Philadelphia Reduction Works, is reported at the head of the deal. Negotiations for the control of these mills began over a year ago, and were the result of a quarrel between the smelter trust and Colorado Springs & Cripple Creek Short Line managers.

CALIFORNIA FIG SYRUP CO.

AN EXCELLENT COMBINATION. The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from scenna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

JULY WHEAT BOOMS.

Talk of a Corner Causes a Net Advance of a 3-8 Cents.

Chicago, June 3.—In wheat, a sharp advance in July was the feature of the day. It was up as much as 3 3/8 from the low point on Saturday and closed with a net gain of 2 3/8. Longs and shorts were buyers. July opened at 74 1/2 to 75, reached 78 1/2 as high and closed at 77 1/2; September was 1/4 lower, while June closed 1 1/4 better. There were no cash sales at Chicago and only six loads at the seaboard. July was strong on talk of manipulation in that month, while September was lower on the appearance of rain in parts of the Northwest. On the upturn in July some large local professionals unloaded good lines. Sensational damage reports were received from Kansas, showing need of rain. The cables were higher, Liverpool being unchanged to 3/4 better.

Corn was fractionally lower and devoid of marked features. July sold between 44 1/2 and 45 1/2 and closed at 45; September at 44 1/2 and 45 1/2 to % at the close, and June closed at 44 1/2, nominal. The cash trade was dull here, and only twelve loads were reported taken on the coast. At Liverpool, spot was 1/4 higher, with futures up 1/2.

Oats were fairly active and irregular. The opening was weak on reports of rain in the West and predictions of more. The rally in wheat carried prices up after but they yielded again toward the close and finished with a loss of 1/2 @ 3/4. The trade was scattered. The cash sales were 85,000 bushels and the seaboard clearances 314,000.

The leading futures ranged as follows: September wheat opened at 72 1/2 @ 73 1/2; highest, 74 1/2; lowest, 72 1/2 @ 73; closed, 73 1/2. September corn opened 45 1/2 @ 46; highest, 45 1/2; lowest, 44 1/2; closed, 45 1/2.

The movement of grain was as follows: Receipts Shipments. Flour, barrels, 20,000 19,000 Wheat, bushels, 46,000 481,000 Corn, bushels, 91,000 520,000 Oats, bushels, 927,000 368,000

Employee of the Southern Pacific Must Steer Clear of Business Ventures. Tacoma, Wash., June 3.—The Southern Pacific railroad has issued a circular addressed to all employees in the service of the road forbidding them to engage in oil or other ventures and commanding that they give all their attention to the business of the company. The circular, which is signed by President Hays, reads: "No employee of the Southern Pacific shall hereafter be a director or officer of any oil company or other outside corporation or engage in any outside business, but must give his entire time to the service of the Southern Pacific company."

Gets Control of All the Gold Ore Treatment Plants in Colorado. Colorado Springs, Colo., June 3.—A New York syndicate, backed by the American Smelting & Refining company, has bought all the chlorination and cyanide mills in Colorado, and will get possession on June 10. The consideration is \$3,500,000. The plants will be turned over to the smelter trust for a larger sum, commonly reported at \$5,000,000.

The mills are twelve in number. They are now engaged in treating Cripple Creek low-grade ores, their daily capacity being 2,425 tons. The list is as follows: Standard and Colorado, Philadelphia, Rocky Mountain, National, El Paso and Dorcas, at Florence; Atlas, at Boulder; Brodie and Aregun, at Cripple Creek; and Gillett, at Gillett.

THE COMING OF HEALTH

Out of the Green Mountains of Vermont, with their gently sloping heights, their rich verdure, their crystal streams, and sparkling cascades—out of their roots and herbs and leaves and flowers, allied with kindred medicinal vegetation from other parts of the world—comes the greatest of all known medicines, SMITH'S GREEN MOUNTAIN RENOVATOR, bringing health to the sick, strength to the debilitated, and happiness and long life to the hopeless.

IT COMES TO MAKE THE SICK WELL AND THE WEAK STRONG.

It comes to the impoverished blood, bringing it new life and sending it coursing through the system charged with nourishment and electrical force—the electricity of high vitality.

It comes to the nervous—to those whose nerves get tired and worn from long strain in the counting-room, at the typewriter, at the desk or counter, in the factory, in the workshop, or in social or household duties—it comes to them, gives them quiet and repose and a sense of increasing confidence, sturdiness, and ability.

It comes to the tired brain—to the brain that has more responsibilities than it can justly perform; the brain that thinks and throbs and grows tired and aches and longs for a rest that it never gets—it comes to the tired brain with soothing, sustaining effect, enables it to act without worry, and brings it into pleasurable health again.

To the tired stomach—overburdened, weak, unable to prepare for digestion the food that comes into it—to the tired stomach it comes to relieve, to assist, to befriend. It makes digestion easy and assimilation certain.

To the liver, to the kidneys, and to all the correlative parts of the body, it comes to remove the obstructions, the poisons, and to clear the way for natural and healthy action without strain or effort.

To sufferers from Rheumatism, Malaria, Scrofula, Catarrh, Anemia, or other affections of the blood or skin or tissues—to the jaded, worn, and broken down and emaciated—to these it comes like a great force, bringing with it such vitality as makes the eye bright, the step elastic, the muscles strong, the heart glad, the nights restful, and the days' duties a round of delight. All this it does with an energy that never ceases, but which is ever mild and gentle and sure in its action.

It comes to the muscles of the arms, the loins, the back—the muscles that have been strained beyond the point of natural weariness and have become so tired that they never get rested—it comes to them and gives them new strength, new vigor, and a feeling of rest and reserve power.

It is called by many "The Body Builder." It builds up the nerves and muscles and tissues that have been wrecked by illness and suffering. It builds the shrunken body and features and gives them the fullness and glow of joyous health.

ENGLISH MONEY IN ZINC.

Control of the Joplin-Galena District to Pass Into British Hands. London, June 3.—English capitalists are about to secure control of the Missouri zinc and lead fields, known as the Joplin-Galena district. Negotiations have just been concluded in London whereby the Anglo-American Zinc & Lead company, a recently organized Delaware corporation, disposes of its entire issue of first mortgage gold bonds, amounting to \$8,000,000, to a syndicate of English underwriters who will float them on the London market.

According to William C. Wakefield of New York, who effected the sale on behalf of George M. Bellau, Samuel T. Kerr, Archibald McCullagh, John Winfield Scott, Edwin J. Housston, Clement J. Griscom and other men, representing the Anglo-American company, the transaction remains only to be formally sealed when the bonds arrive from New York next week.

When seen by the correspondent tonight Mr. Wakefield declined to discuss the details of the deal, beyond stating that it will give the English investors control of seventy-two individual working properties, representing seven-eighths of all the zinc and lead-mines in the Joplin region. He added that the funds derived from the sale would be expended in the development of present properties and the acquisition of new ones.

Arrangements are pending in London for the formation of an "International Underwriting syndicate," composed of British and American capitalists. The syndicate purposes engaging in a sort of reciprocal promotion business, finding English sovereigns for American enterprises and American dollars for English ventures.

HIGHER PRICES. They Are Confidently Expected for Coppers.

Yesterday found the copper market in very good condition. The tone was excellent and there were gains in most of the favorite stocks. The feeling was notably one of confidence and higher prices are generally touted. Paine, Webber & Co. said:

"The action of the coppers today makes it very plain that, barring some unforeseen accident, they are on the eve of a very substantial advance. The market is bare of offerings of good medium priced coppers and the buyers outnumber the sellers three to one. The South Range stocks look most attractive to us at this moment, but Mohawk, Atlantic, Wolverine and some of the others bought at this level should shortly show excellent profits. There is no longer any question that we have a bull market in Boston and New York. This means that good stocks should be bought on all reactions."

Hayden, Stone & Co. wired the Laidley Commission Co.:

"There is a very good tone to the market, but we believe we will have a much better market after the Amalgamated deal goes through. We cannot see why Osceola will not have a good advance when it begins increasing its output. We think it will sell at par before long. Reports from Adventure and Mass are favorable and Adventure has been well bought. The public are now much more interested in coppers than they were before the break in the New York market."

A. R. Jones & Co. said of what:

"At the start this morning it looked as though wheat would have a setback. July was hammered by locals, but they couldn't supply the demand from people who bought last week and finally took to cover. But the fun did not end here. The shorts rushed to cover in a wild bulge from 76 1/2 to 78 1/2. No one pretenses to know the real cause of the July strength, beyond that it is a case of manipulation. Wheat looks higher and we would not be surprised at 80 cent wheat tomorrow."

NEW ROLLING STOCK. South Shore Road Buys Ten Refrigerator Cars.

A couple of new refrigerator cars were received here by the South Shore road yesterday. They are part of an order of ten and the remainder will be along in the course of the next few days. The cars were built by the Wells, French company of Chicago. They are of large size and of modern design. They are painted white. They will be a great addition to the company's rolling stock. It is said that the South Shore road is about to receive a number of new passenger coaches.

RESOLUTIONS OF RESPECT.

At a regular meeting of S. M. Stevens' Lodge, No. 150, Brotherhood of Locomotive Firemen held June 2, 1901, the following preamble and resolutions were unanimously adopted:

"Whereas, it has pleased the Great Architect of the Universe to remove from our midst our late brother, Edward Williams; and

"Whereas, it is but just that a fitting recognition of his many virtues should be had; therefore be it,

"Resolved, by S. M. Stevens' Lodge, No. 150 that the charter be draped for thirty days; for our late deceased brother, and it be placed on the records of the lodge of the Brotherhood of Locomotive Firemen that while we bow with humble submission to the will of the Most High, we do not the less mourn for our brother who has been taken from us.

"Resolved, That in the death of Brother Ed Williams this lodge laments the loss of a brother who was ever ready to proffer the hand of aid and the voice of sympathy to the needy and distressed of the fraternity, an active member of this society, whose utmost endeavors were exerted for its welfare and prosperity; a friend and companion who was dear to us all; a citizen whose upright and noble life was a standard of emulation to his fellows.

"Resolved, That the heartfelt sympathy of this lodge be extended to the family in their affliction.

"Resolved, That these resolutions be spread upon the records of the lodge, and a copy thereof be transmitted to the family of our deceased brother and to The Mining Journal of Marquette.

BILLINGS IN THE NET.

Arrested for Not Having His Screen Fully Removed.

Another chapter in the story of the fight which certain saloon men are making against the Sunday closing law was enacted yesterday noon, when Marshal Farm arrested James Billings. The charge against him is that on Sunday the screens which hide his bar from the gaze of the curious were not opened as wide as the marshal deemed necessary, for full compliance with the law. He is not charged with keeping his place open on the Sabbath, as was noised about town after he was "took." Billings was arrested shortly before one o'clock yesterday afternoon and was at once taken before Justice Kennedy. The justice put him under \$200 bonds until next Monday, when he will have his examination. He furnished bonds and was released from custody.

There is a great deal of amusement over the arrest of Billings. It seems that Deputy Marshal Prin was at his place Sunday morning and looked through the opening made by drawing back the screens, and reported to his superior officer that the place was clear. Farm told his deputy to have the curtains drawn a little more and Prin got Billings out of bed that night. Jim thought everything was well until yesterday, when he was arrested, and he was a thoroughly surprised man when Farm took him into custody. There is hardly enough evidence against Billings to even hold him for examination and it is more than likely that he will be treated as Joe Pope several weeks ago. Prin states that the screens were pulled back far enough to allow of an easy inspection of the entire saloon and that it was unnecessary for him to be further drawn.

Many of the saloon keepers are deeply incensed against the marshal and there is no one who will envy him his job. It is doubtful if there is another man who is so cordially hated in this city at the present time, but he has only obeyed orders. The marshal is in a queer fix, for the saloon men swear that they will have him removed and the administration will certainly cut his neck if he does not perform his duty. He is in a similar position to that of Gene Field's printer, who set type all night and played cards for the beer all day, and of whom Field remarked that he would like to be a printer if it were not for the night work. Almost anyone would enjoy being the marshal if it were not for the Sunday work and the excursions through the alleys he is obliged to take.

AN UNUSUAL FINDING.

The coroner's jury in the case of Nicholas Peters, who was killed in Michigan last Friday morning, has returned a verdict finding the accident due to "negligence on the part of the company. The testimony taken at the inquest showed that powder was stored in a shack ten feet by six, which was built between two trees and had a plank roof laid on loose. There were two boxes in this shanty, one 6 by 2 feet and the other 4 by 2 by 2 feet in dimensions. In these boxes the powder was stored. The shanty was about five feet away from the forge at which young Peters was employed. Five minutes before the explosion one of the men employed about the mine took a stick of powder from the box and went his way. That is all that can be learned concerning the accident.

The force of the explosion was terrific. A large hole was made in the ground about the shanty, both of the trees were uprooted and all the trees within a radius of fifty feet were denuded of their leaves. Peters himself was seriously injured about the head and body, there being a large hole torn in his left side and another in his head. The funeral was held from the Grace church in this city Sunday afternoon. There were short services in Michigan and a large number of mourners followed the remains to the grave.

SHAMROCKS CHALLENGE.

The Shamrocks wish to challenge the Settlers to a game of ball next Sunday at the park. Just who composes the Shamrock team is not known, but that they mean business is not open to doubt. One of the members of the team states that his aggregation is very anxious to meet the old boys and just as soon as a game can be arranged. The Settlers have not been thinking of playing again as a number of their men have left for other fields and this leaves the team in a broken-up condition, but it is likely that they will give the Shamrocks attention and do their best to give the people who make the trip to the park to witness the game their money's worth. By their game of Thursday the Settlers showed that they were still in the race and it would be a pity if they concluded to drop out at this time, for they have considerable support in the city.

NOW HAVE A LAUNDRY.

The Latest Addition to High School's Science Department.

The latest addition to the equipment of the domestic science department of the high school is a laundry. It is without doubt the finest in the upper peninsula. It is practically built and all its furnishings are substantial. An unoccupied room has been utilized for the laundry and although it is of small dimensions, the furniture has been conveniently arranged and a large number of students can be accommodated at one time.

Neither Miss McIntyre or Mr. NeColin considered the science department complete without a laundry and they have been working to the end that one might be established for some time.

In the laundry there are four soap stone tubs, supplied with hot and cold water. In addition there is a large starching table at which several girls can work at one time. Along one side of the room are ranged five closets, where supplies may be kept.

Here one may see flat irons, clothes, washing powder and everything used in the best of laundries. A large gas stove is part of the equipment and the ironing table is most convenient.

SECURED QUARTERS.

The committee on hotel accommodations for the fire department at the annual tournament to be held in Crystal Falls next August made a flying trip to that town last week, and at the meeting of the fire department held Sunday reported that they had secured ample accommodations at the Lockwood House. This report was accepted at this meeting Chief John G. Lacy and Henry Routhier were chosen delegates to the annual convention of the Upper Peninsula Firemen's association, which will be held at the same time as the tournament. William Quayle and William Trembath were chosen as alternates. The fire fighters are much pleased with the success which their committee had at the Falls. The Lockwood is the best hotel in that place and the Ishpeemings are fortunate, indeed, in getting room there. The members of the committee, Messrs. Quayle, Trembath and James Bryson, state that they were very favorably impressed with the preparations which are under way for the tournament at Crystal Falls, and are sanguine of the success of the event.

RELIGION LOSING GROUND.

The country is becoming agitated over religion. Periodically some one arises and declares that it is decaying. This results in countless discussions until the agitation runs its course, and still religion flourishes. It always will, for it is something the world needs. One of the finest recommendations of Hostetter's Stomach Bitters, the great American stomach strengthener, lies in the fact that it has lived for fifty years in spite of hundreds of imitations, and is renowned for its cure of constipation, dyspepsia, biliousness, malaria, fever and ague, and sees to it that the living elements of the food are assimilated with the blood. There is nothing "just as good." See that a Private Revenue Stamp covers the neck of the bottle.

ISHPEMING IN BRIEF.

Charles T. Fairbairn left Sunday night for Virginia, Minn.

N. M. Nelson left for Minnesota last night for a stay of a few weeks.

Patrick H. Donahue is reported very sick with a complication of troubles.

Mr. and Mrs. H. F. Heyn left Sunday night for a few days stay in Duluth.

Pete Denn went to "Mulligan's" on a fishing trip Sunday and returned last evening.

Miss May Martin has resigned her position in the dry goods department of Kalin & Skud's store.

Representative and Mrs. Charles J. Byrns and their son Frank have returned from Lansing.

Mr. and Mrs. Richard Champion of Jasper street are to be congratulated upon the birth of a son.

Alderman James H. Lavry of the Tenth is wearing an expansive smile. It is a girl, and a healthy one at that.

There was a regular meeting of the Barbers' union last evening at which much important business was transacted. The confirmation class of the Bethany Swedish Lutheran church was photographed in Nelson's gallery yesterday morning.

Mrs. Sven Johnson left yesterday morning for Montevideo, Minn., where she will spend the summer with friends and relatives.

Very attractive paper has been posted on the local bill boards announcing the Marquette street fair, which occurs on the first of July.

Representative William McKay of Caro, who spent the past few days in the city with his daughter, Miss Nellie, left for his home yesterday noon.

The funeral of the child of Mr. and Mrs. Thomas P. Sullivan was held from St John's yesterday afternoon at two o'clock. Interment was in the city cemetery.

Dr. C. M. Leonard returned yesterday morning from a three weeks' tour of the East. The doctor spent some time at the Pan-American and reports it as very fine. He dropped off at his home in Detroit for a few days.

A summer kitchen attached to what is known as the old Groytebak place, situated on the Negatone road near the Anthony Powder company's plant, was entirely destroyed by fire early Sunday morning. The origin of the blaze is a mystery. The loss is \$200 and no insurance was carried.

Mr. and Mrs. Leverett Ropes and two children have arrived in the city from South Carolina for a stay of a few weeks with Mr. Ropes' father. Mr. Ropes has been absent from the city for the past eight years, and has spent almost the entire period in the southern states. Since his departure he has worked up to

an important position as a mining engineer. He and his family will visit the copper country and the head of the lakes district before their return to the south.

George Wanek and Will Fish spent Sunday at Marquette. These gentlemen were rather unfortunate and all owing to the fact that they come from Menominee. They intended to return to their heartstones on the train leaving Marquette at six, but missed it and likewise the excursion train at ten. Some kind man told them that the late train left at 10:55 and they put in an appearance at that hour, only to find that it had left five minutes previously on time. They managed to catch a hotel open, however, and spent the night there.

OLD PIONEER GONE.

Mrs. Caroline Muck Died at Her Home Here Sunday Morning.

One of Negaunee's oldest residents, Mrs. Caroline Muck, passed away at her home at the corner of Brown avenue and Cherry streets early Sunday morning. The cause of her death was paralysis, a stroke of which prostrated her last Thursday morning. She was seventy-three years of age and leaves six children, Charles, who is a resident of this city; John and Ida, who live in Chicago; Mrs. George Huber of Champion; Mrs. Joseph Leller of Ishpeming and Mrs. Dunn, who lives at Hurley. Mrs. Leller, Mrs. Huber and Charles were at her bedside when she died. John and Miss Ida are expected from Chicago this morning.

Mrs. Muck had been a resident of this city, with the exception of ten years which she spent in Chicago, for the past thirty-five years. She leaves a host of friends throughout this section. Her husband, John Muck, who was one of Negaunee's best known citizens, died some five years ago. Mrs. Muck had been identified with everything which had the city's best interests in view for so many years that her loss will be deeply felt. Though she lived to a good old age, she has a mother living in a Wisconsin city, who is now ninety-seven and is in good health.

The funeral will be held this afternoon from the residence, Rev. Wood conducting the services. The remains will be laid to rest beside those of her husband in the city cemetery.

WHERE THEY WILL MARCH.

Marshal Thomas H. Harris, who will have charge of the Maecabe reunion to be held in this city next Friday, has given out the route which the grand procession will follow. Starting soon after the arrival of the 10:13 train in the morning, the marching column will move down Gold street to Iron, thence on Iron to Jackson, on Jackson to Cyr, on Cyr to Iron, on Iron to Pioneer avenue, on Pioneer avenue to Main street, on Main to Mitchell avenue, on Mitchell avenue to Case street and on Case to the city square, where the exercises of the day will be held. In the parade there will be all the visiting Maecabees and numerous bands. Marshal Harris and his aides earnestly desire that all residents along the line of march will decorate their houses with either the Stars and Stripes or the colors of the "Bees"—red, white and black.

Plans for the reunion are rapidly taking form, and from every indication the meeting will be the largest and most enthusiastic ever held by the order in this county. The committee on decoration has carefully considered its work and states that this item in the general celebration will be well up with any on the list. Other committees are reporting encouragingly, and if Friday is a fair day nothing can mar the festivities.

LOCAL LACTION.

On account of so many depredations being committed by sheep killing dogs, farmers are putting up flocks of different sizes and tones on their farms. It is said there is not a dog in the world with sufficient courage to attack a flock of sheep well supplied with bells.

It is rumored at Ann Arbor that the Everett people who have secured the franchise for a road between Ann Arbor and Adrian, are giving them three years' time, was for the purpose of heading off any competition in that direction after they have completed the Hawks-Angus line to Detroit, which, it is understood they will secure.

John Schmitt of Rush, Shiawassee county, during an illness, believed that he had only a short time to live and made haste to deed a farm to Charles Schmitt, his brother. Death has not claimed John, who is again on his feet, and now he wants his farm back. Charles feels disposed to remain proprietor, and the original owner has begun suit in chancery to have the deed cancelled.

The dry goods merchants of Kalamazoo, with scarcely an exception, have had their tax assessments raised this year from \$1,000 to \$10,000 each. The discovery has been made that a large amount of personal property that was on the rolls last year has been hidden this year. It is estimated that the shrinkage from this source will be \$300,000. Nearly every business block in Kalamazoo has been raised from \$1,000 to \$8,000, according to location.

Miss Kate Chapman of Bay City recently received a fraternity pin from a seminary, which she formerly attended in Philadelphia. A friend loaned the pin before going abroad. Japan was one of the countries visited and while there the pin was lost. The person who found it discovered the name of the makers on it, and sent it to Philadelphia, and the makers in turn sent it to the seminary. The roster of the school was searched, and the initials "K. C." found, which resulted in having it sent to the owner in Bay City.

Another large Michigan sugar factory is to be established. The new plant is to be built at Caseville, located at the junction of the Pigeon river with Saginaw bay. The company has sixty acres of ground at this place, where a plant with a capacity of 450 tons a day is to be built. Contracts have already been made for beet from over 4,000 acres of neighboring land, which experts say is excellent for the raising of sugar beets. The crop of 1902 is provided for, and it is expected that the factory will be running in the fall of that year.

Monroe business people are very enthusiastic over the proposed best sugar factory as it is considered the best proposition ever offered Monroe. The benefits to be derived from a 600-ton factory are many and the effect would be felt not alone in the city but throughout the county. Many hundred tons of beets have been raised in that vicinity and the results have been most gratifying, the average tonnage per acre exceeding fifteen tons while the beets averaged 14 1/2 to 15 per cent of sugar. The company which is to build the factory at Monroe agrees to pay \$4.50 per ton for 12 per cent beets and 34 1/2 cents per ton for each additional per cent of sugar. This would net the farmer from \$5.33 to \$5.50 per ton.

TRIOUBLED SESSION.

BUT THE ALDERMEN TRANACTED MUCH BUSINESS.

FRITION OVER TRIVIAL MATTERS.

EMPLOYES GET TEN-HOUR PAY FOR NINE-HOUR DAY.

Important License Ordinance Approved and Shea's Old Citizen Labor Measure Unanimously Adopted.

"Crusher evenings" have had an injurious effect on the common council, which has contracted a habit of disposing of its business but slowly and of accompanying its deliberations with interminable wrangling, usually over points of notably minor importance.

The city fathers were in session a couple of hours last evening, but the volume of business transacted was hardly commensurate with the length of the meeting, this being due to the great amount of bickering among the members.

The park and cemetery commission asked for \$5,000 to be expended during the ensuing year, urging that \$1,500 be made available for its immediate use, the pay roll calling for some \$375 at once. Alderman Donovan moved that the communication be referred to the park and cemetery commission. An amendment was offered to the effect that it go to the finance committee.

A discussion ensued as to which committee has reviewed this annual appropriation in the past. It was ascertained that the finance committee had considered it, so that Alderman Donovan's resolution called for a departure from the ordinary mode of procedure. This momentous question was discussed at great length and, at times, with some vehemence, the mayor's gavel ever and anon making a merry tattoo. Finally it was brought to a vote, the result being a tie, six to six, whereupon his honor declared the motion lost. Then \$1,500 was voted from the general fund for the immediate use of the park and cemetery commissions.

The entire matter did not amount to a row of pins, but the aldermen discussed it as earnestly as if much had been at stake. Half a dozen of their number prefaced their votes with formal statements of their positions on the question.

More Pay, Less Work. The city's employees on the streets and in the quarries petitioned for more pay and less work. They have been working ten hours. They asked for nine hours work at the present wage rate. They asserted that in Ishpeming the desired schedule prevails and that in the copper country, the Soo and at the head-of-the-lakes the streets and quarry men get ten hours pay for eight hours work. Their petition was granted.

A petition from John R. Van Evers, praying that the South Shore road be granted permission to move Pickands & Co.'s coal office from its present location on the site of the proposed new D. S. S. & A. depot to the company's property on the east side of Spring street, between Joe Mack and Shea Bros' places, the lot which seems to be a continuation of Spring street, was referred to the street committee.

High street between Hewitt avenue and Crescent street will be opened. Alderman Ward, on the committee, reported favorably on the petition of Peter Patenaude and numerous other residents in this section of the city and the matter was referred to the finance committee with instructions that its members arrange regarding the procedure by which the proposed improvement shall be accomplished. The opening of this thoroughfare will be a great convenience for many people.

An ordinance relating to the route of the Marquette & Southeastern road about Light House point was approved on a second reading, with but one negative vote, that of Alderman Ball.

An Important Ordinance. An important ordinance, designed to supplement and strengthen those drawn to protect local business men, was introduced and it was responsible for prolonged and, frequently, aimless discussion.

It proposes to tax every merchant \$25 the first year and \$5 yearly thereafter for the privilege of conducting his business, the money to be refunded by means of tax credits. In accordance with its provisions every traveling trader who opens a store for the display of goods and the transaction of business will be liable to a stiff license, while, practically, the home merchants will not be affected.

Alderman Donovan, who introduced the ordinance, first proposed to refer it, but, Mayor Mangum being anxious for quick action, he finally moved its adoption. Alderman Ball demurred, offering an amendment that it be handed

back to the city attorney for further investigation as to its validity. It was suggested that the city attorney had drawn it with the intention of making a valid ordinance and then the discussion was on. The ball rolled merrily, again, at times with some little warmth, until Mr. Brown assured the council that the ordinance would stand. Finally it was adopted without opposition.

Plattenberg Turned Down. Bids on the 500-foot Fisher street sewer were opened. Eric J. Johnson bid fifty cents per lineal foot, \$1 for the solitary lamp hole, price for rock work to be determined when the occasion should arise. John Plattenberg bid forty-nine cents per lineal foot and \$2 for the lamp hole.

A motion giving Plattenberg the contract was put, but Alderman Shea offered an amendment letting it to Johnson. This amendment was in favor, the vote for it being ten to three, but, as one more vote was required, the matter goes over to the next meeting. The reason for the preference for Johnson did not appear on the surface, but there is no reason to doubt that he will get the contract. Mr. Plattenberg volunteered a few remarks from the gallery apropos the situation, but he had not asked permission to speak and the mayor called him out of order. Controller Bay's batch of monthly bills was approved, with one exception, that, amounting to \$18, rendered by ex-Street Commissioner French on account of tools, owned by him, which were used up or lost in the city's service. This \$18 was referred to the committee on claims and litigation for investigation.

Alderman Ward read a long list of names of property owners who will be called on to rebuild dilapidated sidewalks in divers portions of the city within the next few days. Improvements along this line are greatly hindered, the street commissioner asserted, by the inability of Read and Sambrook to furnish timber in sufficient quantities.

Citizen Labor Ordinance. Alderman Shea took the floor with the citizen labor ordinance which ex-Mayor Neidhart vetoed a number of months ago. It provides for discrimination in favor of residents of Marquette for employment on public works. As read last evening, it was identical with the measure previously vetoed, but it was unanimously approved.

The profile for the proposed Park street sewer was filed and the controller instructed to prepare a roll for it. A resolution providing for the spreading of back assessments on a number of special rolls on the general tax roll was approved.

Alderman Donovan presented a resolution authorizing the park and cemetery commission to negotiate with the owners for the purchase of the strip of Front street realty which it is proposed to incorporate in Lakeside park. It was unanimously passed.

Before adjourning the council resolved itself into the committee of the whole. A liquor license of the prospective proprietor of a Finnish saloon for Lake street was considered. There is great reticence on the part of the council to approve of it, there being a fear that such action will amount to adding another wild resort to an already unsavory neighborhood. The license is now in the hands of a special committee.

CITY BREVITIES.

Today's weather: Possibly showers; winds mostly fresh southeasterly. Yesterday's temperature: 7 a. m., 52 degrees; noon, 55 degrees; 7 p. m., 52 degrees. Maximum, 57 degrees, minimum, 45 degrees.

J. C. Wood was down from Ishpeming yesterday.

Dr. E. E. Lamb was down from Republic yesterday.

Mr. and Mrs. W. W. Oliver of Escanaba were here yesterday.

F. M. Sackrider of Houghton called on his Marquette friends yesterday.

Mrs. A. L. Lathrop, station agent at Bruce's Crossing, was here yesterday.

Considerable sodding is being done at the Froebel school. It will serve to make the premises more attractive.

A force of men has been busy the past few days repairing a breach in the south wall of the South Shore company's Main street cut.

A \$100,000 mortgage from the Mining railway to the American Trust company of Cleveland was filed at Register Primeau's office Saturday.

County Clerk Ross has issued marriage licenses to Fred A. Russell of West Superior and Florence E. Glasier of Marquette and Alphonse LaVasseur and Clara Pellissier of Marquette.

Ex-County Treasurer Adam Kangas has embarked in the grocery business in Marquette. He is located on Washington street, opposite the city hall. Mr. Kangas is an old groceryman, formerly being a partner in an Ishpeming store.

There was a notable change in the weather yesterday, which was one of the few absolutely fair days which has been enjoyed for the past couple of weeks. It is generally predicted that June will be a favorable month, in marked contrast with May.

The yard of the court house and county jail is one plot of greenward which is kept fairly free of the golden dandelion, but it requires the united effort of Sheriff Pengelase's numerous boarders to keep the weed in subjection. A number of men were engaged in warring on

the pest yesterday. They spent all the daylight hours grubbing away at the blossoms.

Superintendent Thompson has heard from the three new high school teachers, whose appointments were announced in a recent number of The Mining Journal. Without exception they have signified their intention of taking the Marquette positions.

The recital which Mile. Olivier and her pupils will give at the Morgan Memorial chapel Wednesday evening will merit attention. Interesting selections of ensemble vocal music will be heard. Tickets will be twenty-five cents. There should be a good attendance.

The Escanaba board of education has secured Principal D. B. Waldo of the Northern Normal to deliver the commencement address at the exercises marking the graduation of the class of 1901. They will be held in Peterson's opera house the evening of June 26.

The Brotherhood of Locomotive Firemen desires to extend its thanks to all members of the B. of L. E., the B. of R. T. and the shop men, who assisted it at the funeral of the late Edward Williams Sunday. The obsequies were attended by a large number of railroad men.

Elgin Boyer, Charles Delongchamps, and Charles L. Heckman, all of Marquette, were sworn in as regulars in the U. S. army by Lieutenant W. F. Hase last week, on the occasion of his last visit here. They enlisted for the cavalry and they were sent to Montana post. The recruiting station here is still open, at Dr. Youngquist's office, where applicants for the physical examination may apply at any time.

The board of review, composed of Mayor Mangum, City Controller Bay and the supervisors of the several wards, is reviewing the Marquette assessment roll for the year 1901 at the council chamber of the city hall this week. The first session of the board was held yesterday. Taxpayers, who may desire to protest or be heard concerning the valuations affixed to their properties, will appear before the board later in the week.

The forty-foot launch, owned by W. J. Light of Calumet, propelled by a twelve-horsepower Superior engine, was taken to Houghton Sunday, it making the run without difficulty and in good time. The Lake Shore Engine works also delivered a twenty-two foot launch to Manager Utter of the Munising Tannery Co. at that city Sunday. This craft is equipped with a three-horse power Superior motor. The hull was built by the Pierson Boat Construction company of Duluth. In this connection it may be remarked that F. H. W. Bailey's launch,

the Mudjokeewis, is still the fastest gas craft in these waters. It is speedier than F. H. Begole's new boat and it was generally admitted, on a comparison of the running capacities of the two boats, that it could take the Light launch into camp.

Auditor-General Powers is sending out circulars to all the county treasurers in the state relative to the cancellation of tax purchases. It seems that a former employe is sending out postal cards claiming to have information entitling various parties who have purchased lands or tax titles from the department to a refund. This information he agrees to disclose for a stipulated sum, depending upon the amount of the refund. The auditor-general desires to put a stop to this, as he says that the department stands ready to adjust such claims free of charge when the proper application is made.

The nuptials of Alphonse LaVasseur and Miss Clarinda Pellissier were celebrated at the French Catholic church last evening in the presence of a large assemblage of friends and relatives, the interior of the edifice being tastefully decorated for the event. On the conclusion of the ceremony the bridal party adjourned to the home of the bride's parents, 200 Superior street, where an abundant wedding luncheon awaited it. Close friends and relatives partook of the repast and spent the evening merrily until the departure of the 10:40 train, when the young couple left for Ishpeming, their future home. Among the gifts was \$50 in gold, the remembrance of the groom's brother, Louis LaVasseur.

A CARD.

We wish to express our heartfelt thanks to the many dear friends whose words of kindness and acts of love and tender sympathy made our late bereavement possible to bear. We feel that particular gratitude is due the members of the B. of L. E., the B. of L. E., and of the railroad shops, for their beautiful floral tributes and public expression of regard for the memory of our beloved son and brother, who was so suddenly taken from us.
