SHAFFER FOR WAR

PEACE PLAN IS REPUDIATED BY THE AMALGAMATED CHIEF

PROPOSALS STILL ON, HOWEVER.

CIVIC FEDERATION CONTINUES TO PUSH THE NEGOTIATIONS.

Honors of the Day Are Easy, the Trust Starting One Plant and Strikers Crippling Another—No Change at Carnegie Mills.

Pittsburg, Aug. 26.—The reports of peace negotiations for the settlement of the strike through the mediation of interested parties received a jolt when president Shaffer tonight declared absolutely that he had no official knowledge of such proceedings and it did not have official sanction. Nevertheless, it is said tonight that the conciliatory committee of the Civic Federation is fully prepared to carry on the negotiations and, if necessary, endeavor to secure the good offices of Archbishop Ireland, Bishop Potter, Daniel Hanna and Seth Low.

Rival Claims Very Conflicting.

In the meantime both sides make claims to victory. The steel people point to the gains they have made in the way of securing men and starting plants, while the Amalgamated officials say that instead of losing ground the association is gaining every day and while the combine has succeeded in starting all the plants it is not turning out merchantable material and is losing money and breaking valuable machinery. The steel people ridicule the claims of the association and point to the failure to induce the South Chicago and Duquesne men to go on strike as evincing that the strength of the Amalgamated has departed.

The surprise of the day was at the Painter plant, which ran full with six mills, the same mills that were running before the strike began. Not a striker could be found anywhere near the mill. A report from Wheeling tonight is that all the men who have been working at that plant since the strike began are in the employ of the Aetna Standard Sheet plant which received orders to dismantle sheet mill No. 1 and ship the machinery to Vandergrift, Pa.

The strikers at Wellsville are jubilant tonight over official news coming to them from Irondele. These reports say that all the men who have been working in the mill, except two, refused to go back to work and were reinstated in the Amalgamated lodge. These two men, with the addition of two others, constituted the entire working force of the mill today.

Confers With Trust Officials.

Chicago, Aug. 26.—J. W. Jenks, professor of political economy at Cornell University and statistician of the United States industrial commission, who has been laboring for a settlement of the steel strike in connection with Mr. Eastley, secretary of the National Civil Federation, and Mr. White, general secretary of the United States Garment Workers' union, was in Chicago today and is reported to have held a conference with the heads of the local steel companies. What may result from the meeting is not known. Professor Jenks declined to discuss the strike situation, and left tonight for the East.

Prices of Steam Pipe Soar.

Chicago, Aug. 26.—Steam-fitting pipe has advanced from 25 to 100 per cent the last two weeks as a result of the steel strike. Dealers say that even if the strike should be ended by Sept. 1 it would be impossible for the mills to fill orders before Jan. 1.

DASHED TO THEIR DEATH.

Breaking of Cable Kills Four Coal Miners in Illinois.

Bloomington, Ill., Aug. 26.—Four miners lost their lives in an accident at the Chenoa coal mine at noon today. Several miners were about to descend in a car when a man and boy took fright and stepped off. They were just in time for the cable holding the car broke, precipitating the four into the bottom of the shaft, 247 feet below. All were killed instantly, their necks being broken.

Mine Disaster in England.

London, Aug. 26.—By a land subsidence at the Donbrieste colliery, Perthshire, ten men were entombed today. A rescue party of four descended, but those also failed to return and it is feared all have perished.

ATE POISONED MEAT.

Menominee Girl Dead and Others of Family Dying.

Menominee, Mich., Aug. 26.—Miss Frances Hartel, the eldest of four children thought to have been poisoned from eating sausage or corned meat, died today. The other three are in critical condition at a hospital and are not expected to live, while the mother and youngest child are very ill at their home.

MISHAP AT THE SOO.

Falling Bridge Probably Fatally Injures Two Men.

Sault Ste. Marie, Mich., Aug. 26.—While workmen were attempting to change the location of a temporary bridge across the canal today the structure fell thirty feet. Ross S. Whalen, his son and Kenneth McLay went down with the structure. McLay will die and the elder Whalen may not recover.

EXCITEMENT IN OIL FIELDS.

Two Men Killed and Big Gusher Running Wild in Texas.

Beaumont, Tex., Aug. 26.—Two men are dead and one of the largest oil gushers in the world is going absolutely wild, utterly defying mechanical skill to stop. The famous oil field presents tonight the possibility of one of the direct calamities that ever visited Texas, should fire join forces with the great gusher. James Smith died while trying to shut off the gusher and John McDaniels died while trying to save Smith. The wild gusher is in the Hogg-Swayne syndicate tract.

GOVERNOR AFTER SHERIFFS.

Impeachment to Be Penalty in Indiana For Permitted Prize Fights.

Indianapolis, Aug. 26.—It is announced today that Governor Durbin will attempt to impeach sheriffs who neglect to stop prize fights. If the governor finds the sheriffs fail to do their duty willfully it is understood he will have the attorney general bring impeachment proceedings.

POCKETS PICKED IN CHICAGO.

Aurora Farmer Loses Paper Worth \$5,000 on Cable Train.

Chicago, Aug. 26.—Nicholas Kranz, a farmer living near Aurora, was robbed of over \$5,000 in notes, etc., on a cable train here today. He believes the valuables were taken by two men who jostled him on the car.

DETECTIVES ON RACK

CHICAGO INVESTIGATORS OPEN THE POLICE INQUIRY.

DRAW OUT STARTLING EVIDENCE.

FICTITIOUS EXPENSE ACCOUNTS ADMITTED BY WITNESS.

Sleuth on Stand Confesses to Drawing Pay to Which He Was Not Entitled and Incriminates His Immediate Superiors.

Chicago, Aug. 26.—Lieutenant Peter J. Joyce, Detective Sergeant John C. Cramer and Detective John J. Tracey, of the city detective bureau, charged with defrauding the city by means of fictitious expense accounts, were put on a trial today before the civil service commission. The charges were preferred by Chief of Police O'Neil.

In the case of Joyce, which was taken up first, Detective Tracey, after strong objection by his attorney, was put on the stand and testified that he and Cramer had been assigned to run down a man named Larkins, charged with horse stealing. They were notified he was under arrest in Cleveland. He admitted that they did not go after Larkins, but arranged with Policeman Gallagher, who was in Cleveland after a prisoner named Lovece, to bring both men back.

Pressed further by the attorneys, Tracey admitted that he had signed and presented a messenger's expense account, making full charges for bringing Larkins to Chicago. He explained that Lieutenant Joyce made out the expense account and attached a notary's seal.

"What did you do with the money?" Tracey was asked.

Upon the advice of his attorney Tracey refused to answer, as it might incriminate him. Chief O'Neil has charged that the money thus illegally obtained was divided among the accused officers. Tracey admitted that the actual expenses of bringing Larkins back to Chicago were only \$27 and that the remainder of the sum received from the state represented the surplus which was to be divided.

The hearing was adjourned until tomorrow.

BOLD HAVANA THEFT.

Postoffice Clerk Robbed of \$4,000 in an Omnibus.

Havana, Aug. 26.—E. C. Westall, chief of the money order bureau of the Havana postoffice, left the office as usual today with the surplus remittance to pay into the treasury. The amount was \$4,000. He took an omnibus and, according to his statement, while reading a paper the packet containing the money, which he had placed on the seat by his side, was stolen. Two boys in the omnibus at the time say they saw a mulatto throw the packet to a negro in the street.

Killed by a Rural Guard.

Martin De Castro, a well known Cuban newspaperman, has been killed at Manzanillo by a member of the rural guard whom he had criticised. The offender is being vigorously pursued.

FRESH DISPUTE AT PEKIN.

China's Envoy on Way to Berlin Is Halted in Switzerland.

Rome, Aug. 26.—According to a Basel (Switzerland) dispatch, the illness of Prince Chun, brother of the emperor of China, who has arrived there on his way to Berlin to apologize for the assassination of Baron von Ketteler, is a pretext for delay. Prince Chun having received orders from Pekin not to proceed, as fresh complications have arisen with reference to the settlement protocol.

MOB BESIEGING JAIL.

Lynching of a Negro Threatened at Fort Smith, Ariz.

Fort Smith, Ariz., Aug. 26.—A negro named Louis Smith was arrested and lodged in jail here today, charged with the assault of a seven-year-old girl. Tonight a mob assembled near the jail, bent on lynching the negro. The officers are passive and it is not anticipated any determined effort will be made by them to thwart the purpose of the lynchers.

Later—The wildest excitement prevails throughout the city. The merchants have closed their stores and nearly every male inhabitant has joined the crowd about the prison. The mob numbers a thousand men. It is believed the prisoner will be burned if taken. The blacks, of whom there are a great number in Fort Smith, have become terrorized and many have fled from the city.

Oklahoma Blacks Expelled.

Stroud, O. T., Aug. 26.—A mob of gamblers and toughs has driven all the negroes from town. In addition, they have torn down the houses of two negroes and burned the buildings and contents. The trouble started from a fight between a negro and a white man.

PARIS DISPLEASED AND AMBASSADOR QUITS CONSTANTINOPLE.

Payment of Three Private Claims, Dating Back Many Years and Aggregating Several Million Francs, Still in Dispute.

Paris, Aug. 26.—The sultan's persistent procrastinating methods continue to disturb the Turkish relations with France. His trade giving satisfaction in the quays question was taken as indicating that he would accept the entire French claims, but M. Constans telegrams that the sultan is still holding out against the payment of three claims, dating back many years and amounting to several million francs, for which M. Constans demanded settlement and declared he would leave Constantinople today unless the matter was settled. This action, however, will only be a manifestation of dissatisfaction and not a rupture of relations.

Constans Takes His Departure.

Constantinople, Aug. 26.—The French ambassador, M. Constans, left here today. It is announced that the sultan agrees to pay the quays company, for interference with its rights, 700,000 francs and to the Frenchman whose lands were seized in Albania 600,000 francs. The quays company renounces for a year the clause in its concession regarding the transfer of the quays to Turkey, only, it is believed, to save appearances for the sultan.

Lawlessness in the Balkans.

London, Tuesday, Aug. 27.—Dispatches from Odessa and Vienna give unconfirmed reports of Kurdish atrocities in the hill districts of Armenia and of fighting between Turks and Bulgarians in Macedonia, several persons being killed. Another dispatch says Bulgarians seized five Turks, drenched them with petroleum and burned them alive.

GOV. STONE A CANDIDATE.

Is Out for the Senate to Succeed Mr. Vest—Sticks to Bryan.

St. Louis, Aug. 26.—Former Governor Stone today declared himself a candidate for the United States senate to succeed Senator Vest, and said he still believed silver should be coined into standard money. Speaking of the proposed reorganization of the Democratic party, said he would not support it. He declared Bryan the most powerful man in the Democratic party today.

FILIPINO CAMP SURPRISED.

General Lukin Wounded and Family Taken Prisoners.

Manila, Aug. 26.—Captain Harold L. Jackson, first infantry, recently surprised General Lukin at Pamotan, in the mountains of the island of Samar. Three of the general's guard were killed and Lukin was wounded but escaped. His family were captured, and a captain and lieutenant were also made prisoners.

BRITISH UNIONISTS COME.

Twelve Workmen Who Will Investigate Labor Conditions Here.

New York, Aug. 26.—On the Anchor line steamship Ethiopia, which arrived tonight, came twelve workmen who have been sent to tour this country and study the trades by an English paper. The men were selected by popular vote. They will visit Washington, Pittsburgh, Philadelphia, Cleveland, East Liverpool, O., Buffalo, Ottawa and Montreal.

KITCHENER REPORTS GOOD PROGRESS IN CAMPAIGN.

SURRENDERS ON THE INCREASE.

LOSSES OF THE BURGHERS OVER 350 SINCE AUG. 10.

Driving of Invaders, Ignoring of the Proclamation and Capture of Small Column, Later Released, Also Noted.

London, Aug. 26.—Lord Kitchener today telegraphed:

"Three officers and sixty-five men who were sent north of Ladysbrand were surrounded on unfavorable ground and captured by a superior force last Thursday. One man was killed and four were wounded. The prisoners were released."

Lord Kitchener adds that he has received letters from Steyn, Botha and Dewet, protesting against his proclamation and saying the Boers intend to continue fighting. The Boer surrenders, Lord Kitchener says, have lately increased.

Nephew of Kruger Taken.

In a later dispatch, received late tonight, Lord Kitchener says:

"Since Aug. 10, thirty-two Boers have been killed and 139 made prisoners and 185 have surrendered, including Kruger, nephew of the ex-president.

"The columns are meeting with no appreciable opposition in Cape Colony. The rebels and armed bands are hiding and avoiding our columns with some success. General Beaton alone having been in contact with the command of Schecher, whom he is driving north."

British Task Difficult Says Stowe

London, Aug. 26.—Mr. Stowe, United States consul general at Cape Town who has arrived here from South Africa, today said:

"The South African problem undoubtedly is difficult and complicated. The topography of the country and the mobility of the Boers, whom the English columns are unable to pursue individually, render the operations most difficult. The British are feeding many prisoners and providing for thousands of Boer families.

"There is a great future for South Africa when peace is secured. The surface of her mineral wealth is scarcely scratched. Undoubtedly England is prepared to solve the problem of reunification, but when that will occur certainly no person at the Cape is able to say."

KRUGER IS UNYIELDING.

Speaks Bitterly of British Proclamation as Black Crime.

London, Tuesday, Aug. 27.—The Daily Telegraph publishes a long interview with ex-President Kruger on Lord Kitchener's proclamation. Kruger spoke vehemently and with intense feeling, rejecting the idea that anything had been changed except the attitude of the British government. He insisted that the tactics of the Boers were still as regular as at the beginning of the war. Their forces were smaller and split up into small parties because the British had split their forces into innumerable small columns. He contended that Kitchener's proclamation itself recognized that the Boers had a regular administration and army. The proclamation could have but one effect—to embitter and intensify the resistance. Having characterized the proclamation as the "blackest crime committed against the Boers," Kruger closed the interview by saying that peace was still possible on the basis of give and take, and the Boers were ready to make reasonable sacrifices and to give satisfactory guarantees on the basis of independence and free pardon to the colonial Afrikaners.

RELATIVES SEARCHING HILLS. Mrs. Nellie Poor and Sons of Chicago Now Missing in New York.

Corning, N. Y., Aug. 26.—Dr. Nellie Poor, the Chicago woman who, with her two sons, caused excitement on an Erie train Thursday night by brandishing a knife, is being anxiously looked for by relatives in the hills about here. After she and her sons were released they disappeared. It has been learned that the woman is well connected in Chicago and has wealthy relatives there. Farmers report that a woman and two boys answering the description of the missing trio have been living in the woods, buying food from farmers.

STRIKERS USING CAMERA.

Injunction Against Picketing Cleverly Evaded at Chicago.

Chicago, Aug. 26.—The striking machinists are using the camera as a means of evading Judge Kohlsaat's injunction prohibiting the picketing of the Allis-Chalmers company's plant. Since there is nothing in the injunction restraining the strikers from taking pictures, the pickets have been furnished with amateur photographers and every time a non-union man enters or leaves the works his picture is taken.

TODAY'S WEATHER.

Washington, Aug. 26.—The following is the weather bureau's forecast for upper Michigan: Fair Tuesday, warmer in western portion; Wednesday, partly cloudy, probably showers and cooler in western portion; variable winds.

MARQUETTE, MICH., AUG. 27

Last year the Cuban teachers who visited Harvard to gain an insight into American methods of teaching were feted and entertained without limit.

At the outset President Shaffer said it would be left for the members of the Amalgamated association in the various plants where that organization has had control to decide for themselves whether they would go out on a strike or not.

THE IRRESPRESSIBLE INDIVIDUAL. A significant manifestation of the existence of a strong and healthy individualism in the ranks of labor, as shown in strikes now on in this country, is pointed out by Iron Steel in this article:

At first view the present steel strike is a contest between two strong organizations, one representing the ownership of many mills and furnaces, the other representing an extensive association of skilled employes.

This assertion was illustrated in the independence of the Amalgamated association lodges at South Chicago, who refused to obey the edict issued by President Shaffer.

MARQUETTE COMMON COUNCIL PROCEEDINGS.

(Official.) Marquette, Mich., Aug. 19, 1901. An adjourned regular session of the common council was called to order by the mayor, the Hon. John W. Taylor.

The petition of Joseph Sullivan and three others, asking for the construction of a sewer in High street, from a point north of Arch street to an intersection with the main sewer in Michigan street, was presented, and, on motion of Alderman Jones, referred to the committee on streets and sewers.

The petition of Joe R. Bourassa and twenty others, asking that Lake street, from Superior street to the center of Fourth street, 100 feet wide, was presented, and, on motion of Alderman Ward, referred to the committee on streets and sewers.

The recorder read a communication from the committee on general arrangements of the K. O. T. M. in this city, the second week of June, 1902, in which said committee requested the council to provide a sewer for the premises owned by the K. O. T. M.

A communication was presented from Frank and Kate Mulvey in relation to fence on Sands road.

On motion of Alderman Ward, the matter of the encroachment on the high way, west of the old Catholic cemetery, by J. C. Fassbender, Sr., was referred to the city attorney for his report.

The committee on streets and sewers, (Alderman Jones being substituted in place of Alderman Ward, who is absent), visited other cities to secure information relative to street paving, submitted to the council a report of the committee.

On motion of Alderman Ward, said report was accepted and ordered placed on file.

The controller presented two bids for the construction of a six-inch sewer in Park street, from the east line of Lot 65 of Moore's addition to the center of Fourth street.

On motion of Alderman Ward, said bids were laid on the table.

The controller presented the special assessment roll for grading and macadamizing Altamont street from McMillan street to Garden street, and Sixth street from Garden street to Fisher street.

On motion of Alderman Ward, the following was unanimously adopted: Resolved, That the special assessment roll for grading and macadamizing Altamont street from McMillan street to Garden street, and Sixth street from Garden street to Fisher street, be approved, and that Tuesday, the 3rd day of September, 1901, at 8 o'clock p. m., be fixed for the consideration of objections to said improvement and for the final confirmation of said roll, and that the recorder give notice thereof as required by law.

On motion of Alderman Ward, the following was unanimously adopted: Resolved, That the grade of Seventh street, between Spring street and Superior street, be, and the same is hereby approved, and that Tuesday, the 3rd day of September, 1901, at 8 o'clock p. m., be fixed for the consideration of objections to said improvement and for the final confirmation of said roll, and that the recorder give notice thereof as required by law.

SHOOTING IS FATAL

MAN KILLED, ANOTHER WOUNDED, EARLY YESTERDAY.

MURDERER JAILED—ALL FINNISH.

"HALF-WAY" NEAR HOUGHTON SCENE OF THE TRAGEDY.

Two Other Serious Affrays Occur on the South Range Road and as Result a German and an Italian Are in Hospital.

A shooting affray, the details of which are not yet known to the authorities, took place shortly after 12 o'clock yesterday morning at the half-way between Houghton and the Atlantic in which one man was killed almost instantly and another man shot in the left arm, that member being completely shattered. Victor Tooskila was the name of the dead man, and a man named Saakari is the person wounded.

Tooskila met his death near one of the Finlander saloons at the half-way shortly after the proprietor had locked up for the night. The party of six men who had been in the saloon, and of which Tooskila and the two Saakarists were members, had scarcely left the place when the proprietor heard two shots in rapid succession and a minute later Tooskila stumbled back to the saloon, where he dropped dead. Saakari was then found to be suffering from the wound in his arm, which was dressed by Dr. Moore of the Atlantic mine.

The men got into a row which came to a height very quickly it is known, but the real cause of it and why the shooting was done is not yet known.

ATTACKED ON HIGHWAY.

Two Men Victims of Unprovoked Assaults Near the Atlantic.

Two mysterious shooting affrays took place Saturday night, the first at 11 o'clock between the Atlantic and Baltic mines and the second about an hour later between the Baltic and Trinitontain. As a result the victims of each affair, being the parties attacked, in each case, are at the Hancock hospital suffering from bullet wounds—Phillip Burckhart from a wound in the groin and Dominick Porto from a bullet in the left side near the hip.

DROPPED TWO GAMES.

Calumet Ball Team Made a Poor Showing at the Soo.

The Calumet baseball team went down in defeat at the Soo Saturday and Sunday to the tune of 1 to 22 and 1 to 19.

The Calumet baseball team was an easy proposition for the Soo Maroons Saturday and yesterday. The Maroons put up an excellent exhibition of the national game both days, but the copper country team was so far outclassed by the local players that neither game was interesting.

BACHELORS' BALL TONIGHT.

Something Unique in Decorations to Be a Feature of the Hop.

What gives promise of being one of the most delightful social successes of the year will be the ball to be given tonight at the Houghton Armory by the Hancock Bachelors.

The usual interior appearance of the Armory will hardly be recognized amid the festooning of pink and green bunting, the Japanese lanterns and umbrellas, ferns, flowers, cosy corners and the maze of electric lights.

"SORE" AT ROBINSON.

It is likely that the Lake Linden ball team will arrange a series of games with the Duluth team to be played at Lake Linden next month.

NEARING THE OLD MINNESOTA.

Michigan Will Soon Reopen that Property and its Master Lode.

A Houghton gentleman who returned yesterday from the Michigan mine says that the crosscut being driven to the old Minnesota workings is being actively pushed, and that it will be a short time now when the "master lode" of the past generation will again be actively producing property.

The second wedding will take place at noon, Robert Middlemass of Lake Linden and Miss Susie Snell, daughter of Captain and Mrs. Snell, being the contracting parties.

This evening at 7 o'clock George H. Roberts, a Quincy mine engineer, will be united in marriage to Miss Ella M. Hollace, daughter of Dr. and Mrs. H. H. Hollace of West Hancock.

It's unfortunate for us, for there are very many nice things we could tell you about our laundry plant, and the high grade work that comes out of it. If it were not for our modesty we could tell you how much brighter, and lighter and better every way our laundry is; we could tell you our superintendents and workers are a little more artistic and skillful than most others, and our system of urged inspection by an expert prevents you from getting anything but perfect laundry work from our shop.

Oscoda lode and the alleged purchase of territory adjacent to the Mohawk which carries the Kearsarge lode. Those close to the management remain reticent regarding future plans, but it is understood nevertheless that matters of importance are in contemplation.

It has been decided by the Mass management to commence operations in the old Mass shaft. It will require six weeks to pump it out, after which drifts will be started toward the Knowlton vein, which is but a short distance.

The New York Times says: "Arrangements are said to be under way for the incorporation of a new copper company with a proposed capital of \$50,000,000. It is asserted that the contents of a heavy sand drift on the surface. Recently an exploratory shaft was located on a lode encountered by the diamond drill, and after sinking a distance of thirty-two feet a cross-cut was extended. This revealed what was apparently three lodes, but practically one, so close were they together. The lode was found to be forty-five feet in width, but of such a character as to lead to the discontinuance of the mine. Forty-five men are employed at the Winona. The drills are in use in No. 2 shaft, one in the fourth level drift and one in sinking. An assessment will probably be called in the near future, as it is understood that the treasury fund is in need of replenishment.

BOYNTON'S MACCABEE PLAN.

The following dispatch from Copper Rapids will be of interest to the copper country members of the Knights of the Maccabees: "Major N. S. Boynton of Port Huron, great commander of the Maccabees of Michigan, recently deposed by the abolition of the office of supreme adviser of the supreme tent, in an interview on the affairs of the order, says he will not accept a reelection to his present position next year except on condition that the members of the order agree to his proposition to extend the jurisdiction of the camp to cover all of the central western states. The supreme tent, he says, has become a close corporation with a few men governing it, and the great camp organization is in no way bound to it. The effect of extending the great camp's jurisdiction would be to drive the supreme tent out of business in these sections, where democratic principles are preferred to autocratic."

This being substantially the estimate which the French financial market places upon the property, the \$150,000,000 price which the Panama company is preparing to ask of the United States appears to be somewhat excessive.

Washing, Aug. 26.—It is announced today that as soon as General Wood, military governor of Cuba, returns to Havana it is expected he will make arrangements for calling an election, and the delegates to the constitutional convention expect the Cuban government will be organized not later than Feb. 4, 1902.

Chicago, Aug. 26.—Delegates at the convention of the Gaelic League of America today adopted a new constitution providing for state leagues to act in conjunction with the national. A resolution was adopted providing that Irish history be taught in the parochial schools. Philadelphia was selected for the next convention of the league, held at the Washington, D. C., elected president. At an open meeting at the Auditorium tonight, Michael Davitt predicted that the Irish national tongue would be revived through the efforts of the organization.

Chicago, Aug. 26.—A moderately speculative business was witnessed today in wheat, within a range of 3/4 to 1 cent. The feeling was a little mixed, but a rather steady tone prevailed. The market rallied but the advance was not maintained. The showing of the visible, a decrease of 702,000 bushels, and large exports were temporary bull helps. Liverpool was 1/2 to 3/4 down. The clearings were 872,000 bushels and thirty boats were reported taken on the coast.

KNIGHTS TEMPLAR ENCAMPMENT DRAWS GREAT THROGHS.
ANNUAL CONCLAVE OPENS TODAY.
GRAND PAGEANT WILL BE ITS CROWNING GLORY.
Route Will Extend Four Miles, 40,000 Knights Will Be in Line and Every Section of the Country Will Be Represented.

Louisville, Aug. 26.—The twenty-eighth triennial convocation of the Knights Templar begins tomorrow and the city is gaily decorated for the occasion. Major John H. Leathers, grand marshal, states that information received during the day has led him to expect that forty thousand knights will be in line. The pageant as planned will extend over a route of four miles and will be the crowning glory of the convocation. Knights from nearly every part of the country, including Honolulu, will be in line. The incoming trains today clogged the tracks about the city throughout the day. By midnight all but a few scattered commanderies had arrived. It is estimated there are ninety thousand visitors here tonight. The hotels are crowded and the visitors also occupy steamboats moored to wharves and Pullman sleepers which have been sidetracked. The various Kentucky commanderies were divided into detachments today and met the incoming delegations and escorted them to quarters.

PUBLIC BUYS STOCKS.
Demand Is Fed by Professionals and Price Changes Are Few.
New York, Aug. 26.—The outside demand for stocks was considerably augmented today. An advance for two weeks, and the evident growth of interest and increasing tendency to buy stocks may always be depended on to produce this result. Equally a matter of course is the tendency of professional traders, who have been accumulating stocks and carefully nursing the market during the rise, to make sure of a portion of their profits. There was some recession in prices today, but the market on the whole took the realizing very well and no serious inroads were made upon prices. In the last hour the prices were generally below Saturday's level. A substantial rally followed, but this again proved somewhat shortlived and the closing was irregular and quite active with the speculative sentiment manifestly much unsettled, final quotations being as follows, as reported by Paine, Webber & Co.

GOLF TOURNAMENT.

Seymour Club Will Hold One Next Saturday, Beginning at 2:30 p. m.

The Seymour Golf club, now playing in its fifth year, will hold an open tournament for the championship of the upper peninsula, commencing next Saturday, the 31st, inst., at 2:30 p. m., at which hour the first event of the tournament will be started. When the scores are handed in, the players will be divided into three groups according to their records, the first, containing those making the highest scores, will play off for the championship, the remaining groups for consolation prizes, by which means all entering will have an opportunity to contest for some prize or other.

In the upper peninsula there are now golf clubs at Ishpeming, Sault Ste. Marie, Calumet, Houghton and Menominee, and representatives of the clubs from each of the cities named are expected to take an active part in this tournament. Marquette being the first city to take up this ancient and honorable game, it is only right that it should first gather the different clubs together in this friendly contest, thereby enlivening the interest already shown in the different places above named and, at the same time, harmonizing golf feeling generally and forming a larger association to promote the future welfare of and interest in the game.

The tournament will be held on the grounds of the Seymour golf club at the head of Spruce street, and it is the desire of the club that as many visitors as possible view the play, which will continue Saturday afternoon from 2:30 to 5:30 p. m., commencing again Monday morning, Sept. 2, at 10 a. m. and continuing until noon, and again the same afternoon from 2:30 on. The grounds will be free to all. Tent will be spread for the benefit of the ladies who wish to avoid the heat and still view the play. If you have never seen a game of golf, do not fail to come. If you have seen a game it follows that you are only called to the hours of play.

SPEAKS ON HAWAII.

Entertainment Announced for the Presbyterian Church.

The first of the series of entertainments announced for the Presbyterian church will be held Wednesday evening, when the pastor will lecture on "Hawaii, the Paradise of the Pacific." While Mr. Rogers speaks modestly of the value of the lecture he says, "You can say that the views will be as fine as anything of the kind ever seen in Marquette." The electric light stereopticon will be used to show upwards of seventy-five beautiful pictures, each as projected on the screen, fifteen feet square.

The political history of the annexation of the island will be fully treated and many interesting portraits will be shown. The lecture will begin at 8 o'clock.

Tickets for the full course will be on sale at the low rate of \$1, there being five entertainments. As admission for two of the programs will have to be placed at thirty-five cents it will be seen that this is an exceedingly low price. The admission Wednesday evening will be twenty-five cents.

STRONG BUT QUIET.

Lively Advance in the Coppers Seems Most Likely.

Coppers were quiet yesterday, but the market is after all very strong, the tone being notably good. Paine, Webber & Co. said:

"Coppers are quiet but strong. The New York market is very strong and active. Reading is talked of for much higher prices, also Union Pacific and American. The market will gradually work to a higher level, we believe, and should be bought on any weak spots."

Hayden, Stone & Co. wired the Laidley Commission Co.:

"Coppers are strong. We notice that the extremely low priced stocks are being bought and quickly advanced by the same interests that have bought the higher priced stocks. The public are not in the market to any great extent and the way stocks have been accumulated shows they did not want any big advance right away. Some big bid is offered after all the Oseola offered. We would buy Oseola and Mohawk to hold for big profits."

SINGLE TAX ORATOR.

Tom Bawden of Detroit, one of the most prominent single tax men in the state of Michigan, who, it will be remembered, was such a prominent figure at the time of the Campus Martius riots at his home city, harangued the people from the street curb near the corner of Front and Washington streets last evening. Mr. Bawden is in Marquette on a vacation, visiting relatives, but he cannot resist the temptation to do a little missionary work for the idea to which he devotes much of his energy and time. He will be heard this evening and, probably, again tomorrow night at the same place he spoke last evening.

Although no announcement had been made of the speaking and Bawden's own voice was the only thing that summoned his hearers to the foot of churches and reasons, he addressed upwards of two hundred men and youths. He was heard attentively, his remarks being closely followed, for the most part by people who were hearing an exposition of the single tax question for the first time.

Of course Bawden is a radical, but, apparently, he is a conscientious and sincere radical, who believes every word that he utters. His evident sincerity and earnestness is what gives him his hold on his audience. He talks rapidly and vehemently, in a strident tone of voice, his remarks being audible many feet from where he stands. His discourse is homely, abounding in common illustrations and colloquialisms. With no pretense to any culture that he does not possess, or of fine speaking, he delivers himself of his utterances as if he thought he were a man with a message.

People are so well informed concerning the single tax, that it is the necessity of entering into details concerning it and, anyway Bawden will be prepared to enlighten the ignorant and satisfy the curious during the next couple of evenings. Perched up on his dry good boxes he can advance numerous good and sufficient, to him and his brethren at least, reasons why the land should be reclaimed from capitalist and corporate hands and restored to "God's children," the huge uncleaned mass of humanity. Taken not too seriously, or not seriously at all, as you may desire Bawden will be found not entirely uninteresting, unpicturesque and unimstructing.

CHARGED WITH LARCENY.
 Old Ishpeming Resident Arrested On a
 Complaint of Calumet Parties.
 Phillip Coombs, one of the oldest resi-
 dents of this city, was arrested Sunday
 afternoon charged with committing
 grand larceny on the complaint of W.
 Wills and R. Karkeek, both of Calumet.
 The arrest is the outcome of a fight over
 a copper prospect located in Ontario on
 the north shore of Lake Superior, which
 is owned by Coombs and the two plain-
 tiffs.
 Mr. Coombs owns a majority of the
 stock of the company which controls the
 land and consequently dictates how
 the property is to be worked. A short
 time ago Coombs purchased for Wills
 and Karkeek a small interest in the
 land. This interest was secured from
 the Duluth people who were anxious to
 get out of the deal. Shortly after Wills
 and Karkeek got their stock they tried
 to persuade Coombs to give them positions
 at the property. They demanded the
 exorbitant salary of \$80 a month. They
 were informed that the company could
 not afford to pay such salaries, and that
 good men could be secured for half that
 amount. Immediately after the two
 were turned down, they commenced to
 make trouble for Coombs, and his arrest
 Sunday was the outcome. Wills and
 Karkeek claim that they have been beat-
 en out of several hundred dollars by
 Coombs and had him arrested on the
 charge of grand larceny, setting forth
 the claim that the property was misrep-
 resented to them. The arrest was made
 by Constable Wills of Calumet. Mr.
 Coombs accompanied the officer to the
 copper country where the trial will be
 held. Before leaving the city he re-
 ceived the services of Attorney W. T.
 Potter, who will defend him. Mr. Pot-
 ter left for the copper country yester-
 day.
 Both Mr. Potter and Mr. Coombs are
 hopeful that they will come out victor-
 ious as they claim that the complainants
 have no case.

VERY MUCH HILL.
 Justice Kennedy Has a "Hilly" Proposi-
 tion to Settle.
 Did John Hill No. 2 break into John
 Hill's saloon? This is the question that
 Justice Kennedy will have to decide
 when the case of Hill vs. Hill is called
 for a hearing Wednesday morning. It
 is a complicated case and many fine
 points of law will be involved before a
 decision can be rendered. Another ques-
 tion the judge must decide is whether or
 not Hill and Hill were partners in the sa-
 loon business last Sunday afternoon at
 5 o'clock. John Hill No. 1 claims that
 he had bought the interest of John Hill
 No. 2, and that the latter had no right
 to occupy his saloon at that time. While
 John Hill No. 2 declares that the deal
 by which his share of the business was
 transferred to John Hill No. 1 did not
 take effect until yesterday, when John
 Hill No. 1 paid John Hill No. 2 \$175 for
 his interest in the business.
 John Hill conducts a saloon on Cleve-
 land avenue, and has for some time
 been engaged in the liquor traffic. He
 is a partner, or partner, by the name of
 John Hill, and for convenience the patrons of the saloon call
 the latter John Hill No. 2. The partner
 tired of the saloon business and
 offered his interest in the Cleveland
 avenue enterprise for sale. It was
 bought by Hill No. 1 for \$175, which
 sum was paid to John Hill No. 2 yester-
 day. The business was transferred to
 John Hill No. 1 Saturday, and according
 to his story John Hill No. 2 was to have
 nothing further to do with the place.
 The key was turned over to John Hill
 No. 1 and all other transfers made.
 Late Sunday afternoon John Hill No.
 1 came down to his place of business
 and was surprised to hear voices from
 inside the building. He was sure he was
 being robbed so called an officer. Pol-
 ice-man James Ames responded and
 ordered the occupants of the saloon to
 open the door. After hesitating for a
 few moments they complied with the
 order. The officer discovered John Hill
 No. 2 with four companions occupying
 a back room, and from the appearance
 of the place a high old time must have
 been in progress before their orgy was
 discovered.
 Upon investigation it was found that
 a window in the rear of the saloon was
 broken and that a man had forced him-
 self in and opened the door for the others.
 John Hill No. 1 accused John Hill
 No. 2 of being the man who broke the
 glass, but the latter denied that he had
 anything to do with forcing an entrance.
 The man who broke the window was ad-
 mitted into the saloon by the name of
 Sallo and he was admitted through the
 others through the front door. Hill
 No. 1 yesterday swore out a warrant
 charging his former partner with house
 breaking. The case was to have been
 heard yesterday afternoon but Justice
 Kennedy was ill and unable to hear it.
 It was postponed until tomorrow morn-
 ing at 9 o'clock. Attorney William Peters
 will appear for the defense.
 John Hill No. 2 will contend that he
 was not the man who broke into the
 place and is therefore not guilty of
 house breaking. He claims that he has
 two witnesses who will swear that Sallo
 smashed the window and that he did
 break into the saloon he will then put
 forth the claim that he did not com-
 mit an unlawful act, as he still was a
 partner in the business.
 John Hill No. 1 is in danger of being
 arrested for selling liquor on Sunday
 for John Hill No. 2 says that he was
 as the present case is disposed of he will
 have John Hill No. 1 taken into custody
 on the above charge.

THE SCHOOL ELECTION.
 The annual meeting of the Ishpeming
 school board will be held next Monday
 at the Division street school building. A
 report covering the business of the past
 year, showing the total expenditures in
 all departments, also a statement of the
 new work done, together with other in-
 teresting information, will be presented.
 One trustee is to be elected. F. J. Eg-
 gan's term expires. He is a candidate for
 re-election. Up to this time no op-
 position to him has developed.
GOOD ADVICE.
 The most miserable beings in the
 world are those suffering from Dyspep-
 sia and Liver Complaint. More than
 seventy-five per cent. of the people in
 the United States are afflicted with these
 two diseases and their effects: such as
 Sour Stomach, Sick Headache, Habitual
 Costiveness, Palpitation of the Heart,
 Heart-burn, Waterbrash, Gaining and
 Burning Pains at the Pit of the Stom-
 ach, Yellow Skin, Coated Tongue and
 Disagreeable Taste in the Mouth, Com-
 ing up of Food after Eating, Low Spir-

ISHPEMING IN BRIEF.
 J. R. Thomson of Irowood was a busi-
 ness visitor here yesterday.
 Will Tucker of Marquette transacted
 business in the city yesterday.
 Thomas Johns of Calumet and in the
 city Sunday, visiting his mother.
 Mrs. W. A. Goodney of Michigamme
 is in the city visiting friends and relatives.
 Rev. J. W. Johnson preached Sunday
 evening at the Swedish Lutheran
 church.
 Mrs. John McCarthy of Calumet was
 in the city Sunday visiting her sister,
 Mrs. Hughes.
 J. C. W. Chipman and Alfred Trebil-
 cock, who spend Sunday at the Soo, re-
 turned yesterday.
 Mr. and Mrs. A. J. Yungbluth will
 leave for Buffalo today to visit the Pan-
 American exposition.
 Mrs. J. McBride of Paulding, Ohio, is
 in the city, the guest of her daughter,
 Mrs. Frank Wentworth.
 Street Commissioner Hanson has a
 gang of men at work laying a new plank
 crossing at the intersection of Main
 and Canda streets.
 Dr. A. Deadman was called to Alpena
 this week on account of the serious ill-
 ness of his mother. He will likely be
 absent a number of days.
 Grand Chancellor Leo L. Caro of the
 Michigan Knights of Pythias will ar-
 rive in the city this morning from Mar-
 quette. A banquet will be held in his
 honor tonight at the Urban House.
 Miss Amy Bostrom and Peter Adolph
 were married last evening at the home
 of the groom's parents on Bank street.
 The ceremony was performed by the
 Rev. Andree of the Swedish Methodist
 church.
 Bertha Jargeson, the infant daughter
 of Sivert Jargeson, died Sunday from an
 attack of cholera infantum. The fune-
 ral will be held this afternoon from
 the residence of the parents, 600 Angu-
 line street.

The merry-go-round, which has been
 doing business here for the past few
 weeks, moved to Marquette yesterday.
 Mr. Smith, who owns the concern, re-
 ports having had a profitable season in
 Ishpeming and Negaunee.
 Charles Johnson, the house mover,
 left yesterday for Mass City, where he
 has taken a contract to move a part
 of twenty houses to be transferred to new
 locations. The contract was divided
 between two men. A number of Mr.
 Johnson's crew will go up later.
 The Rev. Yusela, a Japanese graduate
 of Albion college, occupied the pulpit at
 the Division street Methodist church
 Sunday evening in place of the regular
 pastor, Rev. S. Polkinghorn. Mr. Yu-
 sela will deliver a lecture on Japan and
 its institutions tomorrow night at the
 same place.
 Complaints have been registered with
 the street commissioner in regard to
 the condition of the sidewalks on Division
 street near West Ishpeming. The
 walks are badly in need of repair and
 if the abutting property owners do not
 see to the matter at once the street
 commissioner will lay new walks at
 their expense.
 John Lindberg and wife were assault-
 ed by two Italians Sunday evening.
 The police have arrested Louis Tasson
 and Salvatore Lufria for the assault.
 They claim to be innocent but several
 witnesses are ready to swear that they
 are the men who committed it. The
 men will have a hearing tomorrow
 morning in Justice Peters' court.

A BOOTBLACK WAR.
 There promises to be a war of some
 proportions between the colored boot-
 black and the white man who started in
 the business last Saturday. There are
 not a few who maintain that the "col-
 ored gem" should be liberally treated
 by his former patrons, as he was the
 interesting information, will be presented.
 One trustee is to be elected. F. J. Eg-

HAS RECEIVED PROMOTION. SLOW IN COMING.

John D. Campbell, who for the past twelve years has been the general agent at Negaunee for the Chicago & Northwestern line, will leave this city Sept. 1, to become the special agent of that corporation, with headquarters in Chicago. Mr. Campbell will have complete charge of the road's iron ore traffic in the iron districts of Michigan, Wisconsin and Minnesota. He is succeeded as local agent by August Johnson, who left the employ of the railroad about a month ago to accept the position of assistant cashier of the Negaunee First National bank. Mr. Johnson took charge of the Northwestern office here yesterday. The position that Mr. Campbell takes has just been created. Heretofore the road's iron ore traffic received no more attention than any other class of freight business, but it has reached such vast proportions during the last few years that it has become necessary to create a separate department in order to insure handling it satisfactorily. Mr. Campbell will have complete charge of this department and all business pertaining to rates and the movement of ore will be attended to by him.

In selecting a man to have special charge of iron ore traffic a better choice could not have been made. Mr. Campbell has been in the employ of the Northwestern line for the past twenty years. He is thoroughly familiar with every branch of the business, but is especially fitted for his new position. He has the reputation of being the best informed man on railroad matters in the upper peninsula. Before coming to this city he was agent at Florence, Wis., at which place he lived for a number of years. During his sojourn in this city Mr. Campbell has made a host of friends, all of whom are sorry to see him leave Negaunee, but who rejoice at his promotion.

Mr. Campbell is now in Chicago making arrangements for taking charge of his new office. He will not return until Thursday or Friday, at which time he will close up his business with the local office. Although his office will be in Chicago, Mr. Campbell will be obliged to spend much of his time on the road, and will pay an occasional visit to Negaunee. Whether or not he will move to Chicago could not be learned yesterday, as Mrs. Campbell is at Oscoda, Wis., visiting her parents.

Mr. Johnson's friends were well pleased when they learned of his promotion. Until a month ago he has been engaged in railroad work. At that time he closed his connection with the Northwestern company to become assistant cashier of the First National bank, succeeding Mr. French, who has held that position for a number of years. When it was decided to transfer Mr. Campbell to Chicago, the position of agent was tendered to Mr. Johnson and he accepted it. Mr. Johnson's return to the railroad will necessitate a change in the bank, as Mr. French leaves that institution tomorrow. No one has yet been selected for the position.

OPENED TO BIG HOUSE. McDonald's opera house was packed last night with a fine audience to witness the opening performance of the Seldons Stock company in their well known drama, "The Burglar." The liberal applause fully demonstrated last night that the company made a very favorable impression. The decided hit of the evening, however, was Baby Patti as "Editha." The little actress displayed a versatility remarkable in one so young. The other members of the company most acceptably completed a very capable cast. Specialties by Gorman and Leonard were well received. There are no dull waits between acts to tire you, but bright up-to-date and refined singing and dancing.

Other talent connected with the seldom company help to make a fine program. The repertoire for the week will be as follows: Tonight, "The Little Masquerader;" Wednesday, "East Lynne;" Thursday, "Fanchon, the Cricket;" Friday, "Camille;" Saturday matinee, "The Burglar;" with Baby Patti as "Editha." Saturday night, "Ten Nights in a Bar Room."

Two young men of L'Anse are rivals for the favors of a fair charmer, and they recently engaged in a fistic encounter to settle the question as to which should bask in the smile of the charmer. The girl was out for an evening's walk with one of the young men when the collision occurred, and stood by and watched the "mix-up" with evident pleasure at the thought that she was the source of so much trouble.

Last week the H. M. Loud's Sons company concluded the period of its active operations at Munising, a fact which is greatly regretted by the people of that town. This company has employed from 300 to 500 hands during the time it has been in business at Munising and the relations between it and its men have always been pleasant, the best wages being paid and that regularly every Saturday night. In its withdrawal, Munising loses a good and unusually public spirited company.

The name of the upper peninsula premier wholesale grocery house, located at Menominee, has been changed from Penberthy, Cook & Co. to the Carpenter, Cook company, the interest of the late Frank Penberthy having been absorbed. The company has ambitious plans for the future and is now equipping a new coffee and spice grinding and candy manufacturing plant. The firm is interested in the Menominee & Manistee Transit company, which owns the steamer "City of Marquette" and it will keep her in the fruit trade for years to come.

The Escanaba & Lake Superior road has abandoned the idea, for the time being at least, of getting a terminal on the water front in Escanaba. This information was given The Iron Port by a gentleman who is considered excellent authority in the matter, and who further alleges that the St. Paul railway has not in any way been connected with the project. The last undertaking by the railway people was to secure a right-of-way down Thomas street, but this proved unavailing and it is not deemed expedient at this time to build across the western portion of the city and along the south shore to deep water near the Stephenson company's lumber yard.

The Lake Superior Journal company filed articles of incorporation with the secretary of state the latter part of last week. This week, Thursday, the company will commence the publication of the Lake Superior Journal at the Soo. The paper will enter the field as a weekly, but it is the intention to make it a daily afternoon sheet at an early date. It will be published in politics and will be edited by C. H. Chapman, deputy railroad commissioner. There are said to be over fifty Soo business men stockholders in the new company. The Journal will be an active competitor of the lately consolidated News-Record and its staff will again put three papers in the Soo field.

Captain George Drisco, engineer at the Chicago & Northwestern company's coal dock, had a narrow escape from a horrible death at Escanaba, Friday. The cars at the dock are pulled with a rope attached to a winch or wind head. The man who attends to this windlass was absent from his station for a few moments and Captain Drisco was attending to his ship. In an attempt to straighten a kink in the rope Drisco had both hands caught and was slowly being wound around the winch when his frantic cries attracted a nearby laborer who succeeded in having the engine stopped before it was too late. Captain Drisco is about sixty-eight years old. His hands were terribly bruised, and he was painfully hurt about the right side. He will be confined to his home for some time.

This year the lumbering operations of the Peninsula Bark and Lumber company in the vicinity of Munising will, so Mr. Hill informs the News, be on a larger scale than last season. The company has already completed a new camp just over the hill on the Au Train road and twenty-five men will be put to work there immediately. Lumber is being loaded for the camp on Au Train point where as soon as things are in readiness a good sized force of men will be put in. Arthur Bowman has already commenced operations for the company with about thirty men. The big undertaking at present engaging the company is the blasting of Miners' falls, or rather of the rock that makes the falls. This work is necessary as there is a sheer drop of almost seventy feet to the lake and logs falling that far would be badly split up. The company's Bay Furnace drive is all in and there are a good many pieces. Rain is now necessary before the Anne River and Miners' river drives can be gotten in.

Thursday afternoon the purser of the Lotus was approached at Escanaba by a man who asked for a free ride to Gladstone. He was informed that it was out of the question and that he would have to pay fare or walk. Notwithstanding this rebuff, the fellow sneaked on board and succeeded in reaching Gladstone without being discovered. Then he leaped on the dock and gave the boat crew the merry laugh. His triumph was short lived, however, as the purser "gaffed" him and brought him on board the Lotus again. The man thought he was going to be carried back to Escanaba and he made a hard roar. The purser let him go as soon as the boat had left the dock, thinking that he was perfectly safe and his surprise can only be imagined when the young man took a run and plunged head first over the side of the boat into the water. He was

a good swimmer and struck out for the dock where a ladder was lowered to him. All he said when he climbed up on the dock was, "I am from Arkansas and I'll be d---d if I will go back to Escanaba."

A gentleman who probably knows as much about lands and land titles in Alger county as any one in it says one thing the county needs, needs badly and will need worse, is a complete set of abstracts, the Munising News says. Just now when there are and are likely to be for some time to come many real estate transfers a reliable set of abstracts would be very desirable thing. The gentleman in question believes that not a few pieces of property located in Alger county are not recorded here. Not long ago a case like that came under his observation. It was discovered that property in this county on which the owner had been paying taxes right along was not on the county records. It was, however, on the Schoolcraft records. It seems fair to presume if there is one case of the kind there may be others.

MR. KEATING TALKS

MARQUETTE STREETS AND SEWERS CAN BE IMPROVED.

DETROIT MUNICIPAL ENGINEER.

PROVISION OF GOOD MACADAM ROAD A DIFFICULT TASK.

What Should Be Demanded in a Pavement—Any Standard Material Would Do Here—Specialists Should Have Charge of Specialists' Work.

The Mining Journal representative was favored yesterday with an interview by Mr. P. W. Keating, a Detroit municipal engineer of wide and varied experience, who is spending his vacation here. Mr. Keating's remarks were a detailed exposition of the proper methods of street construction and maintenance, the desirability of the different pavements, of proper municipal records and maps and of an adequate system of alleys. Mr. Keating's suggestions should be read and studied by every good citizen. They will be found to contain much good food for thought and much common sense and valuable advice. Mr. Keating said in substance:

"An inspection of Marquette with a view of determining what the city needs to make it more attractive shows its system of road-making, sewers and engineer's records to be very defective.

"The paving problem," said Mr. Keating, "is a serious one, just as serious in Marquette as in Duluth; just as perplexing in Duluth as in Chicago."

"City officials have wrestled and striven with it. Theories, from those of the country-road-maker to those of the most learned engineers, have been defective and wealth has been lavishly spent in the endeavor to solve it. People, generally, do not realize these facts, but it would be better for municipal officers if they did.

"Every thinking man of common sense can grasp the subject if he will take into consideration that the best pavement is the one which has the following advantages: First—It should be impervious to water; second—It should afford good foothold; third—It should be hard; fourth—It should offer little resistance to traction; fifth—It should be noiseless; sixth—It should be cheap; seventh—It should yield no detritus; eighth—It should be easy to clean; ninth—It should suit all traffic and, tenth, it should be adaptable to every grade.

"Now macadam fills the bill in the second, sixth and tenth instances, but it does not compare with any other form of paving in the conditions enumerated under any other of the remaining seven heads. A good road, a perfectly good

macadam road, should have a firm and unyielding, hard and compact surface, good drainage, freedom from ruts, hollows and depressions, the surface neither too flat to allow water to stand, nor too convex to be inconvenient for traffic, and free from loose stones, fresh material to be put on, whenever practicable, in winter in such a manner as to inconvenience the traffic as little as possible.

How Ruts Are Made.

"Men should be scraped off the surface as soon as it arises and it should not be left in piles on the thoroughfares. The great art of road-making is to construct the surface so that no wet can penetrate from top and so that the dirt cannot work up from the bottom. The foundation must be of a material that will form a uniform and unyielding body. A visible track once made in a road, all vehicles will follow in the same course, each cutting further into the surface and gradually forming two deep ruts. The hardest paved road will wear away if the traffic is all kept in one track.

"If drivers would only vary their track a few inches, different sets of wheels would counteract the effect of others and the road would remain uninjured. This fact is proven by the circumstance that wherever there is a turn in a road, no matter how deep the ruts, and ruts may be on the straight parts, they disappear, because, at the turning, the horses, coming from all directions, naturally vary their course in making the corners and one wheel obliterates the track of the other. The experience of all road engineers testifies to the fact that at these points less material and labor is required than at any other of the roads.

Narrow Tire Nuisance.

"Your city government can, by a proper ordinance and its proper enforcement, put an end to the practice of using narrow wheels for vehicles carrying heavy loads, a practice which is very destructive to roads. The width of surface covered by the narrow tire not being sufficient to bear the heavy weight imposed on it, it has been proved by repeated and careful experiments that wheels with two-and-a-half inch tires cause double the wear on a road than do those which have a four-and-a-half inch tire. Wheels of a large diameter do less harm to a road than those of smaller diameters. Stones will be pushed that and moved out of their places by the small fore wheels of a wagon, whereas the larger hind wheels will pass over without displacing them. Large and broad wheels not only do less harm to the roads, but they make less draught for the horses.

"Repairing a road is not unlike a fire in its incipient stages—a very little properly directed effort will stop the mischief. With particularly great force does this apply to a road the surface of which has begun to get in bad condition, so that constant attention is required to keep it in good repair.

"After rains have softened roads they need hardening to prevent ruts caused by the accumulation of mud. These should be filled when they are noticeable with suitable material. All roads should be rolled in the spring when the frost is well out of the ground.

Drainage Important.

"Drainage for a road should be of two

kinds, surface and sub. The first provides for the speedy removal of surface water or rainfall on the surface, and the second for the removal of water which penetrates below the surface and into the body of the road covering. The defective drainage of a road can only be due to the want of knowledge of the value of efficient drainage to its well-being.

"Concluding, let me say that the great majority of our so-called macadam roads are a disgrace to civilization and that it is undoubtedly true that an immense saving in money would result if their design, construction and management should be left to the intelligent supervision and direction of the educated engineers, instead of to the ordinary run of political roadmasters.

"There is no point upon which a more decided coincidence of opinion exists among all those who profess what may be called the science of road-making than that the first effectual step toward general municipal improvement must be the employment of persons of superior ability and experience as superintending surveyors. The duties of surveyor demand suitable education and talents, and some skill in the engineer's science should also be regarded as a valuable qualification. Needless to say these qualifications must be fairly remunerated."

Relative to Sewer System.

At this point The Mining Journal representative requested Mr. Keating to talk on the sewer system. He said in substance:

"I find on looking over your map on file at the city hall that you are sadly deficient in the arrangement and number of manholes and lampholes in the present sewer system. All public sewers should commence and end, inside the outfall, in a manhole, with the necessary lamphole between them. Manholes should be placed about 400 feet apart at the intersections of streets, and at every change of the sewer's course from a straight line. This is the only arrangement that will permit a sewer inspector to thoroughly inspect and determine any closures or defects.

"When a sewer makes a turn in its course at right angles in a curve, as some of your laterals do, how is it possible for it to be examined? But if it terminates in a straight line and has its source in a manhole, with a lamphole between, a light shown in the lamphole can be seen by the inspector from either manhole, if no stoppages exist. If the light cannot be seen it is an infallible sign that the sewer is, for the time being at least, defective.

Corrections Should be Made.

"An examination of your system should be made at once and the necessary manholes placed in position without loss of time. Courses should be straightened and no connections should be allowed without authority, and the endorsement of an application containing all the data necessary to make a perfect record of the connection. You have carried some of the trunk sewers diagonally across property already platted and accepted by the city. This should never be done without having the right-of-way reserved for examination and repair, for it might be expensive to repair a broken creek underneath a cellar foundation. Sewers on public streets should always be laid in a straight line

and not diagonally across, as is the one on Michigan street, between High street and the trunk sewer. This arrangement interferes with the laying of other conduits, as they have to cross, or perhaps go through, the sewer, and it is due to faulty engineering."

He Discusses Alleys.

At this point, Mr. Keating dropped sewers and discussed alleys at some length. He said, in part: "The early platting of your city was not done with a view of convenience. This is noticeable in the absence of alleys, which make it possible to enter at the back of any premises to store material, wood, coal, etc. These alleys are everywhere regarded as necessary for proper and easy methods of fighting fire and locating telephone and other poles, so unsightly on the streets.

"I notice a piece of property between Third street on the west, Pine street on the east, Fair avenue on the north and the Moore & Sang addition on the south that has not, as yet, been built up. This acreage should be replatted and enough land taken from each lot to provide sufficient alleys. No plats of property, submitted to your council for acceptance, which dedicate the street should be accepted without the dedication of suitable and numerous sufficient alleys.

"Your city engineer should have a complete set of standard grading and paving cross sections of streets and no street should be graded, surfaced or re-surfaced without absolute compliance to the cross section stakes set by that official. This would stop bit and miss grading by incompetent persons and would remedy the defects in your present grades. A standard set of specifications should be adopted to your council and strictly adhered to, under the supervision of your engineer."

The Matter of Records.

Turning to the matter of public municipal records, Mr. Keating said: "You have no public record of what conduits, such as water, sewer, telephone, telegraph, electric light and gas, are placed underground, although the individual boards in control may have records of their own. The city should have a record of all for inspection by plumbers and other mechanics who use the streets in the pursuit of their several businesses. Also that any citizen might ascertain what lays in the streets for on the corners. Through such a record any new corporation obtaining a franchise can without trouble ascertain where to lay pipes without interfering with the conduits already underground.

"Such records consist of intersection maps showing all construction underground and all obstructions, such as fire hydrants, telephone, telegraph and electric light poles, gate boxes, manholes, etc., above ground. With such maps available, a detailed city map can be made and the contours, showing the level of different streets, their courses, etc., run in. No city crosswalks should be built without having them first staked out to the established grades by the city engineer."

FIVE YEARS' SAVINGS.

The person who lays aside one dollar a week the first year, is likely to lay aside two dollars a week the second year, four dollars a week the third year, and so on.

HERE IS THE RESULT OF FIVE YEARS' SAVINGS:

\$1.00	A WEEK THE FIRST YEAR WOULD BE	- - - -	\$ 52.00
\$2.00	" " SECOND " " " "	- - - -	104.00
\$4.00	" " THIRD " " " "	- - - -	208.00
\$6.00	" " FOURTH " " " "	- - - -	312.00
\$8.00	" " FIFTH " " " "	- - - -	416.00
	TOTAL,	- - - -	\$1,092.00

More than a THOUSAND DOLLARS saved up in five years; and this does not include the accumulation of interest, which would be quite large.
