GOES BACK INTO FOLD. Sentence of Excommunication Against Fr. Crowley to Be Recalled. Chicago, Nov. 27.—The announcement was made today by Thomas A. Moran, attorney for Archbishop Feehan, that the sentence of excommunication pronounced against Father Jeremiah J. Crowley would be recalled within a few days. This is expected to put an end to the case against the deposed priest, and the injunction proceedings begun against him to prevent his worship in the Holy Name cathedral will be withdrawn.

AN URGENT NEED. REFORMS MUST BE MADE IN SECOND CLASS MAIL SERVICE. DEPARTMENT WILL CORRECT ABUSES. POSTMASTER GENERAL'S REPORT REFERS TO MATTER. Substantial Reforms Will Be Accomplished So Far as Is Possible by Administrative Action—Other Matters of Interest.

Washington, D. C., Nov. 28.—Postmaster General Charles E. Smith has issued his annual report for the fiscal year ending June 30, in which it is shown that the expenditures of the department exceed the receipts by \$5,923,727.48. While the expenditures in the ordinary development and through various extensions of the service are \$7,814,652.88 greater than for the preceding year, the deficit is \$1,611,901.22 less. Under present prosperous conditions the annual increase of receipts is fortunately larger than the inevitable increase of outlay, and for several years the deficit has been steadily growing smaller.

**Monday's number of the Menominee
Herald contained the announcement that
the paper has passed from the owner-
ship of H. O. Fifield, who has conducted
it for nearly twenty-four years, to that
of Messrs. Harmon & Andrews, by whom
it will hereafter be published. The tra-
dition throughout the state will regret
to learn that Mr. Fifield has retired
from a paper with which he has been so
long and creditably identified. He has
been one of the most industrious and
conscientious newspaper workers in this
peninsula, and in his long term of ser-
vice has well earned a respite from the
arduous labor of making a good paper
as the Herald has been under his man-
agement. It is not stated what
business Mr. Fifield intends to engage
in, but it is very certain that he will
not long sit with folded hands. "Blank"
is too full of ambition and energy, even
if much thinking has rendered him
slightly bald, to be content in the role
of a gentleman of leisure. If he is out
of the newspaper harness "for keeps"
it can be truly said of him that he will
be missed—and that is no small tribute
of appreciation in this bustling, and
somewhat unfeeling, age.**

THAT DEBT IS PAID.

The Detroit Journal is of the opinion
that our government has fully cancelled
its debt to Great Britain for the friendly
part taken by the government of that
country during our war with Spain. Its
reasons for so holding are lucidly set
forth in this article by the subject:

English writers remind us frequently
that the government of Great Britain
declined to join certain European powers
in a demand that we confine the Span-
ish war to this continent. As in duty
bound, we have felt very grateful for
this evidence of friendly feeling on the
part of the English. But if the story
that Sir Thomas Wemyss Reid tells
is true, we have returned full pay-
ment for the obligation of saving our
national life three years ago. Sir
Thomas says a cabinet member of Pres-
ident McKinley's administration told
him that "almost daily unofficial appeals
were made to the government of the
United States by representatives of
European powers to take some steps
end the Boer war."

We have taken no steps looking to in-
tervention, and the result is that the
Boer nation is now an outlaw, to be shot
to death, starved, poisoned, or caught
in a trap, just as Great Britain may be
able to effect it. The fact that we were
helping to create a nation in Cuba, while
Great Britain is destroying one in South
Africa, does not lessen the importance
of the return obligation. If the Sir
Thomas story is founded in fact the
score is even again, and Great Britain
has to account to us for the aid and
United States Bank of Good Will to
draw against in the future as a result of
her action, or lack of it, in the Spanish
war.

A PATRIOTIC DUTY.

Addressing the Good Government club
at the state university recently, Senator
Fairbanks of Indiana dwelt on the duty
of young men to interest themselves in
politics. "I believe it is the duty of
every man, and especially of educated
men, to mix in politics—that is to look
out for good government," said he.
He explained that he did not mean to
advise young men to engage in politics
for the purpose of getting public posi-
tions, for office-seeking is full of disap-
pointments, but to aid in making sure
that unworthy and incompetent men
shall be prevented from obtaining posi-
tions of high public trust.
The senator commended his hearers
well. The duty of actively participat-
ing in politics cannot be too often or too
strongly impressed on the young men
who are being fitted for careers of use-
fulness in our educational institutions.
The class of our youth who are getting
their educations in resorts where they
unconsciously acquire a vicious ten-
dency are early taught how they can use
ballots to give us bad government. But
with the young men who are afforded
better opportunities in an educational
way the rule has been to rather dissuade
them from paying much attention to
politics lest they might be contaminated
by the nastiness that has become a fea-
ture of our political methods, mainly
through the indifference to their duty as
citizens of the bulk of our business and
professional men.
The schools and colleges are the places
where this pernicious and unpatriotic
idea can best be combated, and it is
encouraging to note that many of the
wisest and best of our leading thinkers
are coming to see this, and are seeking
to impress the youth of our day with a
sense of their obligations as citizens.
They are being told that it is their duty
to attend the primary meetings and con-
ventions of the parties to which they
belong, and to make their power and
influence felt for pure and honest gov-
ernment, instead of being led to believe
that a distaste for politics is the mark
of a superior mentality and high mor-
ality.
If free institutions are to be preserved
to the American people it can only be
through the combined effort of the wis-
est and best of the voters. It will
hardly be denied that as the political
parties are now managed and controlled,
the most effective vote is found among

the classes who regard the ballot as a
means of achieving results which do not
make for good government. This should
not, and need not be the case. It will
quickly cease to be so when the good
citizens fully realize that it is their duty
to take an active part in politics and to
make as effective use of the ballot for
the common good as the vicious class
makes of it to secure protection for
evil-doers.

CUBA'S FUTURE.

Cuban annexation is coming, in the
opinion of a Mr. A. L. Barrett of Ha-
vanna, who is now at Washington, but
not until the people of the island have
had their fling at self-government. The
better class of Cubans—by which is
meant the bulk of the business and pro-
fessional people there—would prefer to
have the island annexed to the United
States at once, but the masses have so
long yearned for independence that they
would not be satisfied if denied an op-
portunity of seeing what they can make
of the experiment of governing them-
selves in their own way. When they
have tried that for a time it is Mr.
Barrett's belief that they will be not
only willing but eager to get under the
protection of the stars and stripes.

One thing that will operate to
strengthen the sentiment favorable to
annexation in Cuba is the prosperity
of Porto Rico is enjoying under our
rule. Reports from that island set forth
a very satisfactory state of affairs there.
Good order prevails, the people have be-
come quite reconciled to the new order
of things, life and property are more
secure than ever before and the resources
of the island are being developed with
an energy and at a rate that is a re-
velation to the natives. With Porto Rico
as a basis of comparison, the independent
government to be installed in Cuba will
have to render a good account of itself
to keep down the growth of annexation
sentiment among its people.

But what the future may bring forth
in that country need not greatly con-
cern us in the United States. We have
done our duty, and more, in dealing with
Cuba, and can leave the rest to time and
providence. If the Cubans are capable
of governing themselves so well as to
keep their island and its affairs from be-
ing a source of annoyance and disquiet
to us we shall have cause to be well
pleased. We don't need Cuba, and if
Cuba can keep from needing us, save as
a friendly neighboring power, the change
from the past will be in the nature of a
blessed relief.

Upperr Peninsula.

While bound for the woods to hunt
Napoleon Lacombe shot and killed
a wolf within two miles of Stephenson.
Anton Michaels, an Iron River boy,
is laid up with a broken leg as a result
of playing football. He was under the
heap.

A large black bear and two cubs were
shot a few days ago by Harry Perry
and Andrew Finley, who were hunting
deer near Crystal Falls.
John Johnson, for many years an em-
ployee of the Chapin mine at Iron Moun-
tain, dropped dead while at the super-
table the other evening.

A movement has been launched at the
Soo which has for its end the purchase
of a \$4,000 pipe organ, to be installed in
the Central M. E. church.

At Iron Mountain, the Chapin, Pewabic
and Cundy mine officials announce
that a Thanksgiving turkey will be
given to every man in the employ of
the various companies.

The common council of Crystal Falls
has declared for municipal lighting, and
it has been decided to establish a plant
to be operated in conjunction with the
water works system. The improvement
will cost about \$25,000.

The largest deer reported killed in the
upper peninsula this season has been
brought in by George Robinson of On-
tomagon. It weighed 286 pounds. The
next largest was shot by James Burt of
Tonginton near Ashby. Its weight was
257 pounds.

There are a number of cases of scarlet
fever at DeTour, and the aid of the
sheriff of Chippewa county has been
necessary in enforcing the quarantine
established. One man—George Kelly—
has been arrested for disobeying the
regulations and will have his hearing on
Friday.

The First National bank block at
Ironwood has been sold by H. H. Camp
of Milwaukee to D. M. Classner, for
\$82,500. The block is the most impor-
tant and best paying in the city, and its
transfer is the largest real estate deal
made there in years.

Mrs. Charles Manning of Munising is
the second upper peninsula huntress to
be reported successful in hunting deer
this season. She has just returned
from camp with three, having cancelled
all her coupons before her husband had
had a shot at prospective game. Mrs.
Manning is an excellent shot with a
rifle and spends much of her time in
the woods.

The tale of the "ghost" that frightened
the miners at the Aragon property at
Norway a few days ago, brings to light
a recent scare at the Crystal Falls
mine. Some days since the mine agent,
Emerson McNeil, was besieged by many
of the employes who flocked to the of-
fice and requested their pay. The sur-
prised officials made inquiries and ascer-
tained that "spooks" had been met with
in a certain part of the workings. The
men were persuaded to await an invest-
igation, which was made immediately.

The result was that the "spooks" were
found to be a flock of bats which had
taken possession of an old store. The
miners returned to work.

At Menominee, the Carpenter-Cook
company, wholesale grocers, has bought
a couple of sawmill "burners," tall cylin-
dical affairs of iron, in which sawdust
and other mill refuse is consumed, and
will move them to its property up the
river, where with a "burner" previously
purchased, the three will provide an ex-
cellent place for the storage of grain.
A roof will be built over the trio of
these improvised elevators, whose com-
bined capacity will be 200,000 bushels.

In contrast to the general practice in
the upper peninsula, Colonel D. N. Mc-
Leod, instead of just beginning opera-
tions in the lumber woods, has just
finished harvesting his season's cut of
logs in Luce county. During the summer
and fall, he put in 15,000,000 feet for
the Hall & Munson company of Bay
Mills, in addition to building and
equipping ten miles of railway. In
the tract there are still about 20,000
feet remaining uncut which Mr. McLeod
will lumber next summer. It is a very
unusual thing that, logging operations
are conducted during the warm months.

Great interest is being taken at
Manistique in the projected Traverse
City, Leelanaw & Manistique railroad
and ferry line, the establishment of
which is expected to add much to the
prosperity of Manistique as a transfer
port. The railroad is to be constructed
from Traverse City to Northport, a dis-
tance of thirty miles through a fruit
belt second to none in the state, and
from Northport a ferry line to Manis-
tique completes the project. Three
townships traversed by the road have
voted the issue of \$30,000, as the inaugu-
ration of the service means much for
the farmers and fruit growers in the
Leelanaw peninsula, giving a market in
the west where the agricultural products
command better prices than in Chicago
or Detroit. It is proposed to have the
line completed and in commission by
next fall. It is to be an independent
system, but will be operated in con-
nection with the Grand Rapids & Indiana
railway, a feeder of the Pennsylvania
system.

After having walked two miles with
wounds that would have killed a less
hardy man, Fred Pieralta, a Finlander,
is lying at death's door in a hospital at
Anassa, Iron county, while the author-
ities are searching for his assailant, a
countryman named Hemming Wirta.
The two men were chopping wood near
town and became engaged in an alterca-
tion which resulted in Wirta attacking
Pieralta with an axe. The first
blow struck Pieralta over the left eye,
the axe being driven into the skull.
The second swing of the axe chopped
through the shoulder blade, and the as-
sailant fled to the woods, leaving his
victim stretched on the ground. Pier-
alta revived and managed to make
his way to town. The frequency of
these murderous attacks has aroused
considerable feeling in the county, there
having been about a score within the
past few months.

The possibilities of the upper penin-
sula in an agricultural way are well il-
lustrated by the experience of T. T.
Ferguson. Two years ago he came to
the country he has now secured a dollar,
now he owns 200 acres of land six miles
north of Newberry. Sixty acres are
cleared and under cultivation, while the
revenue he has derived from the sale of
the hardwood and other timber has sup-
ported himself and family and has paid
for the carrying of his farm. This season
Mr. Ferguson harvested 1,600 bushels
of potatoes, worth nearly a dollar a
bushel, besides a considerable amount of
hay and other products of the soil. He
has a good comfortable log house, two
barns, two teams of horses, two cows
for their own stock, and is making good
money. Within a few years he will
have a cleared farm under cultivation
and will be established in an independent
position. There are thousands upon
thousands of acres of land in this pen-
insula suitable for agricultural purposes
and can be obtained at almost ridicu-
lously low prices—there is no need of
going to the far west in search of
homes.

HOW TRUTH TRAVELS.
BAY CITY TO CALIFORNIA.
The P. L. ABBEY CO.,
Kalamazoo, Mich.

Gentlemen:
I was troubled with nervous Dyspepsia
for several years, and really found no relief
until I tried a sample box of your Kaskola
Tablets at my former home, Bay City,
Mich. This time was about May, 1908,
since then I have never been without them
and curiously hope that some day in the
future you will place the article on
the market for sale.
I am confident that any sufferer, who
will give Kaskola a fair trial, will be
speedily convinced of its merits and that
it will do all that is claimed for it.
Very truly yours,
J. F. KNOWLTON,
114 10th St., Sacramento, Cal.

Kaskola Tablets are guaranteed to cure
any case of dyspepsia. You can
have your money back if you are not
fully satisfied, whether you use one box
or a dozen. They are the only digestive
tablets which enable the stomach to digest
starchy foods, which cause a large por-
tion of the intestinal suffering that is in-
creasing so rapidly.
Nearly all druggists sell them; price 15
and 50 cents. If yours don't write us
for free sample and instructive booklet.

UNITED STATES ACADEMIES TO MEET ON GRIDIRON.

PRESIDENT WILL WITNESS GAME.

PREPARATIONS FOR CONTEST RAPIDLY NEARING COMPLETION.

Contest to Take Place on Franklin Field Saturday—All Who See Game Will Be Guests of Pennsylvania University of Academies.

Philadelphia, Nov. 27.—Preparations for the army and navy football game on Franklin Field Saturday, which will be witnessed by President Roosevelt, are rapidly nearing completion. Never before in the history of football in this city has there been such a great demand for tickets. All who will see the game will be guests either of the University of Pennsylvania or the academies, no tickets being sold for the contest.

Following out the custom of the past two years the university tendered Franklin Field as a neutral ground for the contest. Pennsylvania bears the entire expense. The university retains about 10,000 tickets and the Annapolis and West Point academies will distribute the remainder of the 23,000 cards.

Several colleges invited. President Roosevelt will arrive Saturday morning, accompanied by a number of government officials. The party will be escorted to the grounds by army and navy officials. During the first half of the contest the president will sit with the followers of one of the academies, and during the ten minutes termination he will be escorted across the field and occupy a seat with the sympathizers of the other academy during the remainder of the game.

Invitations have been sent to the Harvard, Yale, Princeton, Columbia and Cornell teams to witness the game and members of each team have signified their intention of being present. Although the event is expected to bring together the most distinguished assemblage that has ever seen a football game.

Young Corbett Gains Favor.

Hartford, Conn., Nov. 27.—The fight for the featherweight championship of the world, between Terry McGovern of Brooklyn, the present holder of the title, and Billy Rothwell, better known as "Young Corbett," of Denver, took place Saturday afternoon before the N.Y. Athletic club, has caused an unusual stir in sporting circles.

So many excellent reports of the fitness of "Young Corbett" are current that the opinions of the staunch adherents of the champion have been slightly shaken. None of the New York contingent has shown any signs of being shaken.

McGovern was his cry, but there was no response. McGovern said he was in perfect condition and he would be the winner.

Indianapolis in American. Indianapolis, Nov. 27.—W. H. Watkins, president of the old Indianapolis ball club, said today that Indianapolis would be held as a member of the new American association at a meeting of the association to be held in Chicago Friday.

STOLE COPY OF REPORT.

Isthmian Canal Commission Scribe Charged With Theft.

New York, Nov. 27.—Carl H. Hoffman, who was employed as stenographer by the Isthmian Canal commission at Washington, was charged before United States Commissioner Shields today with having, on Nov. 19, stole a copy of the final report of the commission to President Roosevelt.

NEGLECTED HIS DUTY.

Albany, N. Y., Nov. 27.—Police Captain Thomas J. Diamond of New York, who was put on trial here on a charge of venue from New York county, was today found guilty on a charge of neglect of duty in having failed to suppress the disorderly houses in his precinct, and was fined \$1,000.

SERVICES WERE IMPRESSIVE.

London, Nov. 27.—Requiem service, for the repose of the soul of Count Von Hatzfeldt-Wildenburg, the late German ambassador to the court of St. James, was celebrated at the Roman Catholic church here today, and was attended by most of the diplomatic corps of the high court and foreign officials.

FOUR MORE BODIES RECOVERED.

Death List as Result of Detroit Explosion Now Twenty-Three.

Detroit, Nov. 27.—When the search of the ruins of the Penborthy Injector company's plant, which was wrecked by a boiler explosion yesterday, was completed tonight the death list reached a total of twenty-nine. In addition to the list of dead already published the following are announced: James Thomas, William Mann, Thomas J. Millane, Charles Luth.

At 6 o'clock tonight the searchers finished examining the debris. Only two bodies were found today. Both were terribly mangled. Employers reported missing kept turning up during the day until at 6 o'clock tonight Secretary Childs said only two remained unaccounted for.

The prosecuting attorney this afternoon began an examination into the cause of the explosion. Professor Cooley of the University of Michigan today and announced by Professor Hunt to make an expert examination of the wrecked boiler, came in this afternoon and went immediately to the scene of the explosion. He inspected the exterior of the boiler but said as yet he could venture no opinion with regard to the cause of the explosion. Professor Cooley will begin a detailed examination tomorrow.

The injured were reported resting early tonight with the exception of John Klimovsky, who will probably die before morning.

STOLE HIS OWN CHILD.

Laundry Man at Windsor, Ont., Arrested for Kidnaping.

Detroit, Nov. 27.—John W. Watts, proprietor of the Windsor Laundry, Windsor, Ont., was arrested yesterday afternoon at the request of the authorities of Springfield, Ill., on a charge of kidnaping his four-year-old daughter. Officers from Springfield, accompanied by Mrs. Watts, arrived in Windsor today and announces they will endeavor to extradite Watts.

Mrs. Watts secured a divorce from her husband two years ago, according to Detective Jones, and the court awarded her the custody of the child. Three months ago Watts disappeared with the child, who had gone to spend the day with him. The child is not in the custody of the Windsor police, who did not understand that she was also to be apprehended.

John Watts is resisting extradition. His hearing Saturday is to determine whether he can be extradited.

HUNTERS INTENTIONALLY SHOT.

Indians Trying to Rid Woods of City Sportmen.

Janesville, Wis., Nov. 27.—Rumors of a startling misadventure, which threw a light on the alleged accidents in killing of white hunters through reckless shooting on the part of their companions, have reached this city.

It is now alleged that in several instances Indians have intentionally shot men down. The invasion this fall by thousands of sportsmen has resulted in a wholesale slaughter of deer at the very door of the Indian wigwam.

Half-civilized Indians this fall informed old time hunters that the only way to rid the pineries of city sportmen is to scare them out by means of a new set of halles here and there wherever a hunter happened to be lying in wait.

CHINESE HONOR M'KINLEY.

Fund for Erection of Monument in Shanghai Is Raised.

Washington, Nov. 27.—The state department has received a report from the consul general at Shanghai stating that the guilds of silk, tea and cotton piece-goods dealers have contributed of their own initiative to a fund to erect a monument in Shanghai to the late President McKinley and announce they are doing this to show their appreciation of the man and his attitude toward China.

It is said that never before has such an action been taken by the Chinese people on behalf of any but a Chinese person.

PRESIDENT HILL'S VIEW.

New York, Nov. 27.—President Hill, of the Great Northern railway, said today regarding the correspondence of the governors of the Northwestern states on the railway commission:

"When the gentlemen get through telegraphing each other they will find that the Northern States company is entirely within its rights and is not violating any of the laws of Montana or Minnesota."

REVISE PRESBYTERIAN CREED.

Washington, Nov. 27.—The members of the section of the committee of twenty appointed to consider a revision of the creed of the Presbyterian church assembled here today and probably will hold their first session tomorrow. The section now here will prepare a new statement of the faith, which will be brief and simple, for popular use.

NEGLECTED HIS DUTY.

Albany, N. Y., Nov. 27.—Police Captain Thomas J. Diamond of New York, who was put on trial here on a charge of venue from New York county, was today found guilty on a charge of neglect of duty in having failed to suppress the disorderly houses in his precinct, and was fined \$1,000.

EIGHTY ARE KILLED

(Continued from Page One)

Several Detroiters Injured.

A special to the Tribune from Adrian gives the following Detroit persons among the injured:

George Sweeney, F. B. Richardson, express messenger on immigrant train, head cut and both legs mangled; Mary Dolman, injuries slight; H. B. Whitney, Dolman railroad dispatcher, seriously injured.

The responsibility for the accident is laid on the crew of the limited. It is said that the train passed its meeting order with the regular west bound train, the immigrant. They were to have met at Seneca but the limited ran by and struck the west bound train a mile east.

At this hour, owing to imperfect facilities for getting the news, it does not seem likely that a complete list of the dead and injured, or any details of the wreck, will be at hand before tomorrow morning. It is estimated that upwards of 500 persons were on the two trains.

All the immigrants on train No. 13 are believed to have been enroute from New York to the West. The depot at Seneca and two comparatively uninjured coaches are utilized as temporary hospitals. One relief train is enroute to Detroit in addition to those dispatched to Peru and Adrian.

ENGINEER STRONG'S STATEMENT.

Engineer Strong makes the following statement:

"I was running sixty-five miles an hour when I saw the light of the immigrant train. I shut down to fifty miles. We had seven coaches and a baggage car. I jumped and so did my fireman. The first car was strong and was not smashed. The second collapsed and not a soul escaped."

William Stearns, editor of the Adrian Press, returned from the wreck at 2:30 p. m. and telephoned the Associated Press:

Stearns said the cause of the disaster was the misreading of his order by Engineer Strong of the Continental Limited. The order read "Pass at Seneca" but Strong understood it to read "Sand Creek." The conductor of the train read the order rightly. He did not know the engineer misunderstood it and supposed his train was going on the siding. Finding the train running rapidly he himself put on the air brakes just as the engineer set the brakes to try and avert the force of the collision.

SEVEN DEAD FROM ONE CAR.

The engineer's leg was broken and he was otherwise injured. Seven dead were taken out of one car of the Continental Limited. All on that train who were killed, except one that died between the smoker and the dining car. The bulk of the injured persons were taken to Peru, Ind., and Montpelier, O., on the tracks of the Detroit, Lima and Northern, and the Cincinnati and Northern tracks were utilized in getting around the wreck.

Stearns said that the scene of the wreck beggars description. The right was bitterly cold, and as there is but one farm house adjacent to the scene there was but little shelter for the sufferers.

Many are in an extremely chaotic condition and there is scarcely any facilities for identifying the dead, and the railroad will not permit the use of its wires, the only ones available for carrying the news.

TO CURTAIL PRODUCTION.

Lead Producers Confer With American Smelting Company.

New York, Nov. 27.—Large lead producers of the country are here conferring with representatives of the American Smelting Company with reference to the business for the coming year.

The object of the conference is to arrive at an understanding with regard to the price and production of ore. It is understood the conference will favor the curtailment of the production and the adoption of a sliding scale of prices for ore, which will be regulated by the price of refined lead.

CIRCLES OF GOLD.

Three Sisters of Mercy Will Be Crowned at Chicago Today.

Chicago, Nov. 27.—Three sisters of mercy, Rev. Mother Genevieve M. Grandin, Mother Angela Martin and Mother M. Scholasticum, will celebrate their golden jubilee in this city tomorrow. During pontifical high mass each will be crowned with a circle of gold in recognition of their service.

The celebration marks one of the most memorable happenings in the history of the order. But only before in the history of the religious community has such an event been commemorated, and that was thirty-four years ago when an order of nuns in Baltimore celebrated the golden jubilee of three of the members of their community.

GEAT NORTHERN ROBBER.

Bob Collins Is Arrested and Admits Taking Part in Holdup.

Great Falls, Mont., Nov. 27.—Deputy Sheriff Seider has arrested at Neihart a man known as Bob Collins, believed to be C. C. Hanks, alias Camilla Hanks, alias "Deaf Charlie," a partner of Harry Longbaugh, Kid Curry and George Parker in the Malta, Mont., Great Northern train robbery. Collins does not confess his identity but admits he helped rob the train and has \$12,500 buried.

RURAL DELIVERY ORDER. Service is to be Brought into Classified Civil Service. Washington, Nov. 27.—The president today signed an order bringing the rural delivery service into the classified service and the order will become effective immediately so far as 250 clerks, special agents and route inspectors of that service are concerned; but it provides that until regulations are formulated for the appointment of rural carriers, such employees shall not be treated as with the classified service. These carriers number 6,000 and are steadily increasing. Rural carriers will not have to undergo a scholastic examination. Appointments will be made from persons residents of the neighborhood, wholly for their fitness and irrespective of personal or political considerations.

WALL STREET STOCKS.

Bears Attack Market and Succeed in Reducing Price Level.

New York, Nov. 27.—There was a good deal of hesitation about speculation on the stock exchange today. There were a number of conspicuous advances, which failed to attract any considerable following or to reflect any marked influences on the general list.

The selling pressure, however, was not acute and there was moderate realizing whenever the strength of the market permitted, but it was not urgent and was not pushed at the expense of values. The bears made an attack on the market late in the day, encouraged by the manifest hesitation in buying, and succeeded in reducing the price level considerably, especially at points where it had been advanced in the morning.

There was more or less speculation based on the rumors that the president's forthcoming message was to take a strong ground for federal control or restriction of the great corporations, including the Northern Securities company. There was some revived apprehension of further gold exports, induced by a further recovery in foreign exchange, the hardening of money rates in London and the renewed decline in sterling exchange at Paris.

All these developments go to intensify the pressure upon New York for gold. The expressed confidence of Berlin financiers, according to cabled reports, that further gold was to go from New York to that point, was also a disquieting influence.

Closing prices of stocks are reported by Paine, Webber & Co. as follows: Wash., Ptd., 41 Union Pacific, 90 1/2 N.Y. CHICAGO GRAIN MARKETS.

Features of the Day in the Wheat, Corn and Oats Pits. Chicago, Nov. 27.—The wheat trade today was only moderate in volume and was largely local, a good share of the same being in the way of evening up over the holiday. The fluctuations were limited to 1/4 cent range and the tone prevalent was fairly steady, the close showing 1/4 cent advance.

The outside markets, particularly at St. Louis, were firm, doubtless on account of the dry weather. The flour news from the Northwest was bullish and the cables were relatively steady, all of which tended to give support to the market.

At Liverpool, spot was steady to 3/4 lower with the futures 1/4 cent lower. The clearings were fair—425,000 bushels and eighteen boatloads were reported taken on the coast. The local receipts were ninety-nine cars.

Corn was only moderately active, with the undertone a little easier early, but the market rallied sharply later, the close showing 1/4 cent gain on December and 1/2 cent on May. The trade was mainly local. Flour traders and commission houses were sellers, while professionals, credited with being long, bought. The cables were lower.

At Liverpool spot was 3/4 cent lower, with the futures 1/4 cent. The feature was the buying of May under 64 by commission houses. The receipts were fifty-four cars.

Oats were traded in liberally and the prices were irregular, weakening slightly early but advancing and closing at the top with a gain of 1/4 cent on May and 1/2 cent on July. December showed no improvement and September lost 1/4 cent.

The leading futures ranged as follows: December wheat opened at 71 1/2% highest, 72 1/2% lowest, 72 1/2% closed, 72 1/2%.

A CHARMING PLAY.

Few plays of recent years have attained the popular vogue enjoyed by "Barbara Frietche," which will be presented at the opera house next Tuesday evening. Miss Frances Gaunt will be the heroine and the promises of the management include a large company of excellent actors and an extensive assortment of scenery and costumes. The "Barbara Frietche" of the play is the daughter of a staunch Confederate family, of Frederick, Md., with a brother serving in Stonewall Jackson's brigade. She is loved by Jack Negley, the son of a neighbor, who is also a Confederate, but her own affections have gone out toward Captain Frank of the Union colors, whose forces are holding the town when the scene opens. Barbara is at first loyal to the faith of her family, but is gradually influenced by her love toward Federal tendencies. She incurs the displeasure of her father and the enmity of her friends. The girl, however, is determined upon her choice and consents to elope with the captain. They meet at a minister's house in Hagerstown, but just as the marriage ceremony is about to be performed, the captain is called to join his regiment for an immediate battle with the rebel troops. The battle takes place, the captain is shot by Arthur Frietche and is carried to Barbara's home. The elder Frietche, learning that his daughter's lover is in his house, storms at Barbara, but at last yields to her entreaties. She nurses and watches over the patient and helps him back to life, but the tragic end, so familiar to those who have read Whittier's immortal poem, is only deferred until the last thrilling incident of the play.

BWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

CITY BREVITIES.

Today's weather: Generally fair; slight change in temperature; light to fresh variable winds.

Yesterday's temperature: 7 a. m., 27; noon, 28; 7 p. m., 27. Maximum, 29; minimum, 25.

Gad Smith got back yesterday from a trip to Detroit and Grand Rapids.

Joseph Sellwood of Duluth was among yesterday's visitors in the city.

County Superintendent of Schools Davis was a Negaunee visitor in Marquette yesterday.

The city schools, closed last evening for Thanksgiving, will not open until next Monday morning.

Charles Hanck played with the Ishpeming orchestra last night at a dance given in the Hematite City.

About 100 couples were present at the dance in Fraternity Hall last night given by the Ideal orchestra.

An enjoyable social dancing party was held at the A. O. U. W. hall last evening under auspices of the Hibernians.

L. L. Wright, a member of the state board of education, was in the city yesterday from Ironwood. He paid a visit to the Normal school.

A little and rather unexpected rush for hunting licenses set in yesterday which brought the number of permits made out this year to 1,530.

A small delegation of Marquette people left last evening for Escanaba to attend the big dance held under auspices of the locomotive firemen.

Snow fell thick and fast for a couple of hours yesterday, making navigation on the lake exceedingly dangerous. The fog horn was again in commission.

John D. Chubb of Chicago, the architect who drew the plans and specifications for the new South Shore depot here, arrived in the city yesterday.

Bishop G. Mott Williams is home from Detroit, where he was called, with Mrs. Williams, by the death of the latter's father, Mr. Bidde, some days ago.

Sunday hours will be observed at the postoffice today. No mail will be delivered by the carriers, and the office will be open between 12 and 12:30 o'clock p. m.

The steamer Continental is unloading a cargo of two thousand tons of coal at the Pickands dock. The boat will be the last one to take on ore in the lower harbor this season.

Returns by rounds from the McGovern-Corbett fight will be received by the Western Union this afternoon for a party of well known gentlemen greatly interested in sports.

Up to the present, 351 couples have this year been licensed by the county clerk to be united in marriage. Yesterday licenses were issued to Alfred Paris of Ishpeming and Sarah Brooks of Pound, Wis., and Benjamin Korkala and Emelia Rasmussen of Republic.

Bishop Eis is at Iron River, where this morning he will dedicate the handsome Catholic church just completed in that thriving Iron county village. The dedication will be a memorable event and will mark an epoch in the town.

The bishop will be assisted by Rev. J. M. Langan of Escanaba and by several other priests of the Marquette diocese.

John Hager is now a full-fledged licensed embalmer under the provisions of the new law. He received notice from Lansing yesterday that he had passed the examination, and he was also the recipient of his permit.

The monthly meeting of the teachers of rural schools will be held Saturday at Ishpeming and in this city. At the former place the session will convene at the high school building at 9 o'clock in the morning. The Marquette meeting will be held at the city hall, commencing at 1:30 in the afternoon. County Superintendent Davis requests that all teachers be present.

General Henry M. Duffield of Detroit who is a member of the McKinley National Memorial association, has selected the following upper peninsula committeemen to assist him in raising money by subscription for the monument to the late president to be erected at Canton: J. M. Longyear, Marquette; Chase S. Osborn, Sault Ste. Marie, and Thomas B. Dunstan, Hancock.

C. K. Warne, physical director of the Y. M. C. A. of Waterloo, Iowa, says of the concert given in that city by the Schiller quartet: "A better quartet I have never heard. Mr. Butterworth as a basso is unequalled among all the bass singers I ever heard. I can draw a much larger house for them should they ever come here again." The Schillers will be at the Methodist church on the evening of Dec. 12.

The Pioneer and Chattanooga arrived yesterday to take on cargoes of ore for the lower lakes. They will be loaded at the I. S. & I. dock. The Pioneer brought up a cargo of coal. The clearances yesterday were the Kaliyuga and Republic, for Ashtabula; the Dovereaux, for Buffalo, and the Trevor, Marcin and Fayette Brown, for Cleveland. Some of these boats had been in port for over a week, but the Brown only tied up to one of the South Shore docks the day before. However, it is taking down a cargo of hard ore, the loading of which is not so much affected by the freezing weather.

SKOGBERG MAKES A HIT.

An Ishpeming Clerk Speaks on Labor Organization.

In yesterday's mention of the talk George Skogberg gave at the entertainment Monday evening under direction of the local Clerks' union The Mining Journal did not do full justice to the speaker.

"A look at this gathering of clerks and their friends brings to mind the old, old story of the fellow who was asked to speak to the convicts in one of our large state prisons. When he faced the great gathering of prisoners, he commenced by using the old familiar phrase: 'Fellow Citizens! I am glad to see so many here.'"

"I hope that you are not looking for a long and carefully prepared address," as your chairman called it. That would be expecting more than I am prepared to give. What little I have to say will be a few scattered thoughts on 'Success and Successful Organization.'"

"We have been very fortunate here in Ishpeming, in that we have had opportunities to hear some of the leading orators in the United States. Such men as General Gordon; Kennon, the traveler; Dr. Huiis; Dr. Henson; United States Minister Thomas; Dr. Swenson; Louis Beauchamp; Eugene V. Debs and many others. Men who receive \$100, and more than that, every time they appear before an audience.

"Every year we go to the high school and listen to orations that are the climax of two years of careful training. The compositions that we then hear are, in many instances, the best efforts of the high school teachers and the delivery has been planned and practiced days and nights. For months before the young man or woman is ready to go on the platform. All this fine oratory has naturally made us very critical and correspondingly hard to please. Talk is cheap, but not always, Charles Spurgeon refused an offer to come to the United States and deliver fifty lectures for \$50,000. He thought he could do better by remaining in London, continuing his work among the poor people of that great city.

"I suppose that very many of you have read Lieutenant Governor Northcott's address at the Springfield Labor Day celebration. 'The watchword of the century,' he said, is 'organization.' He spoke of the concentration of capital. The wealth of the nation has increased from \$1,000,000,000, or \$200 per capita, in 1800, to \$90,000,000,000, or \$1,200 per capita in 1900. This enormous wealth is not evenly divided. Four thousand millionaires own one-fifth of the entire national wealth, while one-half of the people have comparatively nothing. Mr. Northcott says that 'the trusts are the natural results of industrial evolution, and if properly co-operated with labor are not evils to be combated. The solution of the century's problem will come when the trusts and combinations of capital co-operate with the Federation of Labor. The organization of each will make possible the co-operation of both.'"

"Soon after President Roosevelt had taken the oath of office we read in the newspapers that President Gompers of the Federation of Labor called at the executive mansion and found the new president very friendly to organized labor. My friends, those who are indifferent, or ashamed of labor unions, are simply showing how far they are behind the times and how ignorant they are of the success and advances made by the national organization known as the Federation of Labor, of which the clerks' union is a part. According to the most prevalent idea among men, he that makes the most money is the most successful. Man's success or happiness is not measured by his bank account.

"The highest and best sense in which a life is successful is with respect to everyone. The successful life is a happy one, availing itself of the many advantages of personal culture; that has an eye for the beauties of nature all around us, enjoying the sweetness and comfort of home, no matter how simple the material furnishings may be. Character, true, sterling, Christian character, is in itself success. Without it even the millionaire is a failure. Will the time ever come when this high standard, and true standard, will be generally recognized? 'There is but one way,' says Dr. Lyman Beecher, 'of securing universal equality to man—and that is to regard every honest employment as honorable, and that for every man to learn, in whatsoever state he may be, therewith to be content and to fulfill with strict fidelity the duties of his station, and to make every condition a post of honor.' Yes, why shouldn't there be this universal equality of man, when we know that there is but one step from poverty to wealth and one step back from wealth to poverty.

Robert Morris, the financier of the revolution, who advanced \$1,400,000 which made our independence possible, spends three years in prison for debt. Our own John Brynteson borrows a few dollars and goes to Alaska, now he is a Millionaire. Not because he is brighter and more ambitious or better qualified to manage millions, but owing to circumstances with which we all are familiar. We do not suppose and we care not to believe that Mr. Brynteson today looks down on his former partners as being inferior to himself in brain and character.

"How about our own occupation? Is the position of a clerk an exalted or a lowly calling? If we are to judge by a series of essays on 'A successful clerk' recently published in the Chicago Dry Goods Reporter, one would come to the conclusion that it requires the eloquence of Demosthenes; the kindness of Eugene Field; the poise; the patience of a trained

OFF FOR CHICAGO.

Ishpeming Sent a Large Delegation to the Thanksgiving Football Games.

The Hemitte city will be well represented at Chicago today. In the neighborhood of forty persons, including the members of the Ishpeming High school football team, left last evening for there. There was a large crowd at the South Shore depot to see the footballists off. The extra sleeper in a special palace car chartered for their exclusive use. A few friends were taken along to fill up the extra berth.

The trip will be a great treat for the boys, as only two or three of them were ever in Chicago before. In Tuesday's paper it was mentioned that \$300 had been raised within a couple of hours on the previous day. Since then more money has come in, swelling the total to a sum sufficient to pay all the expenses of the trip, so that it will not cost the boys a dollar.

The St. Paul train leaving the upper peninsula last night was the heaviest that has gone from this section in some time. There were four sleepers attached, besides the other coaches. It is said that the extra sleeper from the copper country was well filled and that there were very few berths left in the regular sleepers.

If the Michigan and Wisconsin teams had come together today there would have been a much larger delegation from this section. It is the opinion of football enthusiasts up here that both games will be rather one-sided. It is expected that the Michigan and Wisconsin teams will doan their opponents without any difficulty and that the score is likely to be large on the part of the winners.

CHURCH BAZAAR TODAY.

The young ladies of the Swedish Lutheran church are conducting a two days' bazaar at the Young People's society hall. The bazaar opened yesterday afternoon and it will close this evening. A large number of ladies called yesterday afternoon to make selections of goods offered for sale and last evening a pleasing entertainment was given and refreshments were served. The admission price charged was ten cents. The same price will be charged this evening, when a program entirely different from the one given last evening will be rendered.

ISHPENDING IN BRIEF.

Hon. Sam Stephenson of Menominee was a visitor in Ishpeming Tuesday evening.

Paul Presentino left last evening for Duluth, where he will spend Thanksgiving with friends.

Thanksgiving services will be concluded this afternoon, commencing at 2 o'clock, at the Swedish Lutheran church. Harold Trovick received a carload of cutters and sleighs yesterday. He always keeps a large stock of these goods on hand.

Miss Mary O'Brien, day operator at the Bell Telephone office, has been ill and unable to attend to her work during the past few days.

Mrs. A. Sandberg and her son Ed left last evening for California, where they will spend the winter visiting relatives. They go to Kingsburg.

Miss Mae Kalink, who is teaching school at Michigamme, is spending a few days at her home here. The school has closed for the week.

Al English, chief of police at Menominee, was an Ishpeming visitor for a short time Tuesday. He was on his way to the Marquette prison with a criminal who was sentenced for life.

The large display windows in F. Braastad & Co.'s dry goods and clothing departments are being closed in. By closing this it is thought that there will be no frost on the glass during the cold weather.

A. H. Fordyce, the blacksmith on Bank street, is now prepared to do repairing of all kinds, as well as horse shoeing. He announces in this issue that he can also supply the trade with sleighs, cutters, wagons, etc.

The banks of the city will be closed today. Notices to that effect were posted in the windows of the institutions yesterday. There will be no work underground at any of the mines and all the merchandise stores will be closed.

The St. John's Church bazaar, the purpose of which is to liquidate the debt of \$3,000 contracted for the steam-heating apparatus, decoration of the interior and other improvements, will open Dec. 16, and will be continued until the 21st, inclusively.

The bricklayers who began work at Grace church early in the week are doing very well, considering the condition of the weather the past few days. The carpenters have the roof timbers in position and it will not be many days now before the building is enclosed.

The bazaar given Tuesday afternoon and evening by the ladies of Grace church was a great success. The attendance was very large and a number of articles were disposed of. The supper is said to have been one of the finest ever served in the city by any church or other organization.

The turkey shoot to take place today north of the street car line between the city and Union park will attract a large crowd if the weather is favorable. The shooting will begin at 9 o'clock and will be continued all day. A large number of turkeys have been provided and every marksman who breaks a clay plate will get one.

The Carpenter-Cook company now has two warehouses besides its main building on Bank street filled with goods. The Hampton warehouse on the old foundry site has been rented and will be used regularly hereafter. Seven carloads of goods were piled into the place Monday and Tuesday. Several large consignments were previously unloaded there and the place is packed full from floor to roof.

Where to Stop When in Detroit. Hotel Metropolitan, Woodward ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

The crowds do not visit our store for mere curiosity. Can't you guess? It's bargains. We have snaps in clothing and dry goods. Finnish Mercantile association. (10-25-1f)

Simply send your name and address to Dr. L. W. Knapp, 229 Hill Bldg., Detroit, Mich., and he will gladly send the free receipt with full directions so that any man may easily cure himself at home. This is certainly a most generous offer and the following extracts taken from his daily mail show what men think of his generosity. "Dear Sir:—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy and you cannot realize how happy I am." "Dear Sir:—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory." "Dear Sir:—Yours was received and I had no trouble in making use of the receipt as directed and can truthfully say it is a boon to weak men. I am greatly improved in size, strength and vigor." Weak Backs

Omega Oil The weak spot in many men and women is the back. It gets tired out before the other parts of the body. It gets tired and aches terribly after a day's work or night's pleasure. A tired, weak back pulls a person right down and renders life miserable. The kidneys are often supposed to be the cause, but usually the muscles and tendons in the back have been strained. Omega Oil is the proper and only permanent remedy. Rub it into the pores of the back, and a feeling of renewed strength and vigor will come immediately, and a few such treatments will fix you up all right again. Omega Oil takes out soreness and inflammation. It invigorates and freshens all the muscular tissues. It contains ingredients that you never used before.

THANKSGIVING OFFERINGS. NEW YEAR'S BALL.

Public School Children Gather Them for Distribution Among the Poor.

The degree team of the Negaunee camp of the Modern Woodmen of America will give the New Year's ball here this year. The date is New Year's eve. The boys intended to give a ball on the third of last July but gave way at that time to the fire department. The hall had been engaged by the Woodmen and the firemen appreciated their kindness in then giving it up to them.

Last year's New Year's ball was given by the Woodmen and it is the purpose of the members to try and hold that date for their annual function every year. The degree team has given some very successful parties during the past three or four years and this one will be no exception. The ball will take place at McDonald's opera house as usual.

A meeting will be held within the next week or ten days, when a committee will be named to make all arrangements for the party, including the hiring of an orchestra, etc.

PLAY AT CHAMPION TODAY.
The Negaunee high school football team will play the Champion Juniors at Champion this afternoon. The boys will go up this morning and it is expected that a good-sized delegation will accompany the team, as a very low rate of fare has been granted by the South Shore road. The members of the local eleven have had several good practice meetings since their game with the Marquette team and it is expected that they will put up a strong battle. It is said that the Champion team has a slight advantage in weight, and as the aggregation is a strong one the local men expect a hard game.

A NEW TRAIN.
The Chicago & Northwestern Railway company has put a complete new train into commission on the run between Ishpeming and Marquette. The cars are new and were never used before they were sent up here. The train consists of a baggage car.

LICENSES ISSUED.
Up to yesterday noon just 163 deer licenses had been issued to deer hunters who went into the woods from Negaunee. Two of these were issued to non-resident hunters, who came up from Chicago. Thomas Trathen sent the county clerk seventy-nine applications for licenses and City Recorder William Mitchell sent in eight-four. This year's record is larger than that of a year ago. It is said, however, that less deer have been killed this far by Negaunee hunters than were brought in last year up to within three days of the closing of the season. During the first week of last season the meat markets were flooded with deer and the price paid the hunters dropped considerably. For a time the dealers had so much venison on hand that they stopped buying it.

NO WORK TODAY.
There will be no work at any of the mines of the city today. All the men who can lay off will take a day's rest. Some will have to work as usual at the mines, but a large majority of the men will be idle. The timber hands, the engine house men and a few others, will be on duty as usual.

ASTOUNDING DISCOVERY.
From Coopersville, Mich., comes word of a wonderful discovery of a pleasant tasting liquid that when used before retiring by any one troubled with a bad cough always ensures a good night's rest. "It will soon cure the cough too," writes Mrs. S. H. Humberger, "for three generations of our family have used Dr. King's New Discovery for Consumption and Colds." It's an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles 50c and \$1.00 at retail.

A. W. Reckmeyer & Co., the reliable Detroit furriers, are being represented by Miss L. Leary at the Nelson House at Ishpeming today. (11-26-1f)

Miss Margaret Lemme has gone to Baraga on a two weeks' visit to her folks.

The teachers and pupils of the schools will be given the usual Thanksgiving vacation.
Arthur Utberg has been suffering from a sore throat, the greater part of the past week. For a time he was seriously sick.

Mrs. Morrison of Crystal Falls, who spent the past two weeks here visiting her sister, Mrs. Rowland, returned home Monday evening.
Miss Agnes Lamoon was ill and unable to teach at the school here during the week. Miss Laura Smith filled her place temporarily.

The dancing party at Woodmen's hall Thanksgiving night under the management of some of the boys promises to be largely attended.
New officers will be elected for the ensuing year by the local camps of the Woodmen and Royal Neighbors at the regular meetings next week.

E. F. Bradt was a business visitor in the other end of the county early in the week. His exploratory work out from here will be kept up during the winter season.
Ole Olson will leave Sunday evening for Foster City on the Metropolitan branch of the Chicago, Milwaukee & St. Paul line, where he will take charge of the station.

The boys and girls of the village have had fairly good skating on the river and at School lake during the past week. At the lake quite a large space is kept clear.
Donny Bodelte, his brother, and Peter Paquin, the latter of Michigan, came in from the woods near here Sunday with six deer. They had been out less than three days.

The members of the Republic Social club were entertained last Friday evening by Mrs. F. D. Verran. The organization is composed of the members of a few families who meet at regular intervals at the homes.

The Woodmen netted over \$50 on the entertainment and supper they gave at the society's hall Wednesday night of last week. The function was one of the pleasantest given here in many months. The attendance was unusually large.

Miss Mollie Carlson, a popular young lady of this village, was married Tuesday evening to Oscar Carlson of Calumet. The ceremony was performed by Rev. A. A. Dahlberg, pastor of the Swedish Lutheran church, at the home of the bride's mother, Mrs. M. Carlson. The nuptials were witnessed by relatives and a few of the contracting parties more intimate friends. The groom is in the meat business at the copper country town. The newly wedded pair left Wednesday for Calumet, their future home.

BRAIN-FOOD NONSENSE.
Another ridiculous food fad has been branded by the most competent authorities. They dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at The Stafford Drug Company.

TO FREE SHIP BY AIR

CAPT. REID TO TACKLE JOB OF RELEASING SMEATON.

WILL TRY A NOVEL SCHEME

BIG MONEY IN IT FOR HIM IF IT IS SUCCESSFUL.

Air Is to Be Pumped Into the Hold to Force Out the Water Through the Holes in the Bottom and Thus Float the \$300,000 Schooner.

Captain James Reid, the noted wrecker of Sarney, Ont., has entered into a contract with the Pittsburgh Steamship company, a marine branch of the steel trust, to release the big schooner John Smeaton, stranded on the shore near Au Train, around the point of the bay from here.

Some few days ago the tug, Favrite, Schenck and Besobed were sent to the scene of the wreck, but despite all their efforts they were unable to budge the schooner. Heavy haulers were fastened to the stranded craft, and fast to the other end the tugs would make a race under all steam, in every case, however, being stopped with a terrific jolt as the lines became taut.

He proposes to pump air into the hold of the Smeaton, after securely caiking every crack and crevice—no thought to be a difficult task, as the boat is of steel—and in that manner to force out the water and float the ship, something, it is said, which never before has been tried on the lakes.

The crew of the Smeaton is still on board, under the principle that possession is nine-tenths of law, and coal and supplies have been taken to the men from this port.

SEASON'S CLOSE NEAR. But Few More Boats Will Make This Port This Season.

The procession of incoming boats is practically a thing of the past for this season at Marquette. A few more vessels are expected to take on cargoes of iron ore at the L. S. & I. dock—those now loading at the South Shore docks being the last scheduled for the lower harbor—and on their arrival this week the course of the boats for the few remaining days of the season will all be outgoing, unless some craft should put in for shelter.

There is a possibility that some of the boats now awaiting their cargoes here may be forced to stay in Marquette all winter. Because of the ore being frozen, as was pointed out yesterday, loading is unusually slow, and there is a chance of long continued storms keeping vessels, even after securing their cargoes, in port until it is too late or too unsafe to venture out on the long trip to the lower lakes.

On Dec. 5 insurance on hulls and cargoes expires, and boats that find themselves out in the lake by noon of Dec. 5 will have to take all chances without insurance unless the owners notify the underwriters beforehand.

There is still much freight to go up the lakes and to be brought down, and the delay at ports has been so great

during the month that some lines cannot carry the rest of the freight within the next few days, and must either charter other boats or make no attempt to get the stuff moving.

SPREAD AT POOK HOUSE. Acceptance of New Building the Occasion of Little Celebration.

The handsome new pook house was formally turned over to the county by the contractors, Lipsitt & Sinclair, yesterday, and the event was made the occasion of a little celebration in which the supervisors, county officials and a number of invited guests participated.

The county board assembled about 11 o'clock, and after the transaction of some of the business which came before the monthly meeting an adjournment until 2 o'clock in the afternoon was taken. Sleights were in readiness, and into these the supervisors and guests, the party numbering between fifty and sixty gentlemen in all, climbed and were soon speeding on the way to the poor farm.

The inspection over, the party adjourned to the men's dining room, where two long tables fairly groined under the weight of the good things provided by the committee and prepared by Captain Barney and assistants. Over an hour was spent at the tables, an enjoyable smoker following the catering to the wants of the inner man.

On the return to the court house to finish up the work of the meeting, a vote of thanks was tendered to the committee and to Mr. White for the jolly good time provided.

UNION SERVICES. To Be Held This Morning at the Presbyterian Church.

As is the custom on Thanksgiving in this city, the Presbyterian, Baptist and Methodist congregations will unite in union services today. They will be held at the Presbyterian church.

At 9:30 o'clock in the morning, praise services will be conducted in the church parlors by the young people. The Epworth league and the Baptist Young People's Union will be the guests of the Y. P. S. C. E. of the Presbyterian church, but the leaders in all three will take part in the services.

The union church services will be held at 10:30. Presiding Elder Thompson, of this Methodist district, will deliver a sermon appropriate to the occasion, and will be assisted in the services by the pastors of the churches. Special music that will help to make the services unusually attractive has been arranged for. A double choir will render a pleasing program, the following singers taking part: The Misses Johnson and Ross, soprano; Messrs. Tucker and Conklin, tenor; Mrs. Kane and Miss Tucker, alto, and Messrs. Allen and Cunningham, bass.

At St. Paul's. There will be a Thanksgiving service and sermon in St. Paul's cathedral this morning at 10:30 o'clock.

BY ONE MAJORITY. John Milroy Is Re-elected Superintendent of the Poor.

At the monthly meeting of the county board of supervisors yesterday, John Milroy was re-elected superintendent of the poor for the third district. His opponent was David Dalton. An informal ballot was taken, Supervisors Richard and Hodgson officiating as tellers, and it resulted:

Milroy, 19
Dalton, 18

The ballot was made formal, and Mr. Milroy was declared duly elected. Two of the members of the board, Messrs. Agnew and Stumblad, were absent.

At the session of the supervisors held in October, the selection of a superintendent to fill the vacancy, Mr. Milroy's term having expired, was among the matters that came up for consideration. Mr. Dalton was announced as a candidate, and was declared elected to the office by a vote that gave him a very small majority.

In the meantime, in order to figure as a candidate for the place, Mr. Dalton resigned from the county board, and as a result is now out of office altogether. The new supervisor from Humboldt township is Matt Antio, who was recently appointed to the position and duly qualified at a special meeting held in the town hall a few days ago.

GAME LAW A FAILURE. Found Impossible to Prevent Its Violation Says Warden Morse.

In line with the article in The Mining Journal of recent date stating that the provision of the new game law limiting the killing of deer to three to each hunter was not having the effect of curtailing the annual slaughter, as was hoped, State Game Warden Morse in an interview at Lansing says it is practically impossible to enforce that restriction. According to that official there is too much hunting in parties, and the shipping tags are passed from one member to another. It is believed, also, that unsuccessful hunters arrange to purchase carcasses from those who have already shot the number allowed. Even with many deputies in the woods, it is said there would be much lawlessness in this respect.

COPPER STOCKS STRONG. Course of Amalgamated Again Ignored by the Lake Securities.

The action of the Boston stocks yesterday was again very encouraging to the local holders. The trading was not as active as it could have been, but the market was strong and the close showed an improvement all through the list, the net changes being in practically every case gains of from a fraction to a point or two. The course of prices latterly has been very cheering to the Marquette speculators, who are now again inclined to believe they may have a little Christmas money after all. At any rate, it would seem that were it not for the weakness of Amalgamated, which puts a damper on any extensive bull boom, the Lake coppers would soar up with a rush, as the conditions for a good rise, could not well be better. The general belief here is that Amalgamated is at the bottom or very close to it, and that with the rally in that stock the other coppers will climb upward also.

As Noted by the Brokers. Paine, Webber & Co. said: "The improvement in the coppers today was based largely on further favorable reports regarding the condition of the metal market. Calumet & Hecla has sold over one thousand tons of copper this month at no less than 16 1/2. The report that the United Metal selling company would force consumers to buy copper for advance delivery is calling attention to the strength of the people who are behind the metal market. There are few unfavorable things left to happen and the tide is pretty much in 'flowing' for a time at least. We should cling to the good medium priced coppers and buy them whenever they are off a point or two."

Hayden, Stone & Co. wired the Laidley Commission company: "Coppers today were quiet and dull, but pretty strong. It certainly looks as though if it were not for the weakness in Amalgamated that they would advance easily. Copper Range and Trimonite are up and the rest of the list is fractionally higher than last night's closing. The borrowing demand for Calumet by people close to Lawson makes some think he will try and break that stock several points at the first opportunity."

Stanton on Copper. The following from the Boston News Bureau was telegraphed from Boston by Paine, Webber & Co.: "John Stanton says: 'I know nothing of the reported cut in the price of refined copper, and have heard of none which has been sold under 17 cents per pound. There is nothing, in my opinion, to warrant any cut at the present time. I do not put much faith in the reports that anti-trust legislation is to be employed to block the efforts of the Amalgamated Copper company to tighten out the copper situation. There is as much strength to the present copper market as to the market of the recent past, and I see no motive for a change in quotations.'"

Paine also stated that "New York gossip is that the United States Metals Selling company will send notice to the copper trade that it has no more metal for delivery before March 1, but it will take orders up to Dec. 10 for delivery after May 10 at 17 cents. A sale of over 100,000,000 pounds has been clinched."

At London yesterday, copper closed 5 shillings off at 65 for spot and 62 1/2 for futures. The sales were the largest for some time, and a London special says: "It is believed here that the Rothschilds are quietly buying copper on all declines."

Wheat and Corn. A. R. Jones & Co. said of the Chicago grain markets: "The wheat market is still slow, but with a very strong undertone. Perhaps the strongest feature today, aside from sympathy with the coarse grains and provisions, was a smart advance in December and cash wheat at St. Louis, said to be based on cash demand and drought damage, but more likely on the covering of a big short interest in the market. Speculative interest, however, was rather light except at the opening, nevertheless there was a good deal of wheat offered and it closed at best prices. There is no mistaking the fact that wheat is strong in itself and there is no questioning the existence of a goodly short interest."

Corn started rather easy, with considerable offered on the lower cables; but on the other hand, there were receipts of only fifty-one cars compared with 294 last year. The early dip was quickly recovered and more, and then the trade was slow until provisions set the pace and the other grain soon followed in line. Apparently no one cared much to open new contracts to stand over the holiday, as Friday might see corn moving more freely and thus remove the best support of the market. It is said that nothing but a shortage of cars prevents a freer movement now."
