DIE IN TRAIN WRECK

FOUR ARE KILLED IN CHICAGO &
NORTHWESTERN COLLISION.

THIRTY SERIOUSLY INJURED

OMAHA FLYER STRIKES FREIGHT
ON A SIDING.

Responsibility Lies With Same Members
of the Freight Crew—Compa-
ny's Loss Placed at
\$30,000.

Chicago, Dec. 29.—Four persons were
killed and thirty were injured, several
possibly fatally, in a collision on the
Chicago & Northwestern railroad today
at Malta, Ill., sixty miles west of Chi-
cago. The trains in the collision were
the "Omaha Flyer," an east bound pas-
senger train, and an east bound freight.
The wreck caught fire and two passen-
ger coaches, one sleeping car and eight
freight cars were burned. Another
sleeping car was partly burned. The
dead are:
GEORGE W. RUDIO, Omaha, western
agent for the Kirk Soap company.
MRS. G. W. Rudio, Omaha.
E. O. NICHOLS, Council Bluffs, Ia.
E. B. DUNCAN, sleeping car porter,
Chicago.

List of the Injured.

The injured are: Bert Carr, Willett,
N. Y., badly cut and bruised; Fred Dun-
ham, Chicago; George W. Fox, Boulder,
Colo.; H. D. Gray, Evanston, Ill.; Ed-
ward Hinckley, Surprise, Neb.; Mrs. J.
L. Kall, Chicago; Clarence Lauszerus,
Chicago; W. A. Sweeney, Larchford, Ia.;
Marion Wilks, Fremont, Neb.; Mrs.
Eva Hall, Chicago; Lincoln Taft, Chi-
cago; Veronica Rohmser, Millard, Neb.;
F. Larrabee, passenger engineer, leg
fractured; F. P. Corran, fireman; C. W.
Aiken, yardmaster; P. D. O'Neil, special
agent for the Northwestern road;
John W. Wilson, civil engineer on the
Northwestern railroad; W. T. Dawes,
Pullman conductor; John Schoentgen,
Council Bluffs, Ia.; H. L. Miller, brake-
man; L. E. Jameson and wife, Platte-
ne; C. E. Fifer, Racine, Wis.; Miss
Eunice Ellingwood, Omaha, Neb.; A. E.
Jewell, Buffalo, N. Y.; J. W. Woodruff,
Chicago; W. Hickman, sleeping car
porter; J. M. Wilson, Boone, Ia.; Dr. J. W.
Anderson, Cripple Creek, Colo.; W. E.
Riseley, Chicago.

The injured passengers were attended
immediately by surgeons Rochelle and
DeKahl and later removed to St. Luke's
hospital, Chicago, by a special train.
Duncan, the sleeping car porter, was
the only person killed outright. Mr.
and Mrs. Rudio and Mr. Nichols died
from their injuries while being brought
to Chicago. At St. Luke's hospital, it is
stated, while several of the injured are
in a serious condition, all it is believed
by the attending physicians, will recover.

Cars Are Burned.

The freight train had taken a siding
at Malta, but the train was longer than
the siding and the freight locomotive
sprung the main track beyond the
side of the track. The incoming
train from the west was not stopped
until the two locomotives "cornered" at
the switch, the passenger engine being
thrown into the ditch and several coach-
es piling upon the track. The cars
caught fire from the locomotive. A
statement given out by the officials
of the railroad company explains that
the switch at the east end of the siding
was opened through a mistake and that
the responsibility probably lies with
some member of the crew of the freight
train. The statement places the com-
pany's property loss at about \$30,000.

George W. Rudio, in the rear of the
Pullman from Omaha, with his wife, was
fearfully burned by steam, and died half
an hour after the accident. Mrs. Ru-
dio, who was brought to Chicago on a
relief train, was so badly burned that
she died a few minutes after her ar-
rival at St. Luke's hospital.
An hour before the arrival of the re-
lief train B. O. Nichols of Council Bluffs,
Ia., succumbed to his injuries. He
was coming to Chicago to be married
New Year's day to Miss Grace Stewart
of Council Bluffs.

Unable to Check Train.
Engineer Larrabee of the passenger
train said tonight that it was impossi-
ble to check his train till it was too late.
John Schoentgen of Council Bluffs, one
of the injured, said he was asleep when
the crash came but succeeded in crawl-
ing out and afterwards crawled back
and got his clothes and dressed himself
in the snow. He says the townspeople
rescued many of the passenger from the
burning wreck.

Son of Prominent Man.

Indianapolis, Dec. 29.—Ben O. Nichols,
who was killed in the wreck at Malta,
Ill., was a former resident of this city
and a son of Edwin Nichols, a prominent
commission man here. The body will be
brought here for interment.

Illinois Central Accident.

Springfield, Ill., Dec. 29.—A south
bound Diamond special on the Illinois
Central was wrecked this morning at
Starness crossing, three miles east of
here. Engineer McCormick of Clinton
was seriously injured and Fireman John
Wainwright of Clinton was slightly in-
jured.

Landslide Causes Wreck.

Lynchburg, Va., Dec. 29.—A land-
slide on the Chesapeake & Ohio railroad near
Poussy, five miles south of here, caused
a wreck in which the following were
killed.

Conductor E. A. Whitaker; Engineer
George Fisher; Baggage-master Thomp-
son; Express Messenger Shannon. A

man named Baker of Clifton Forge, Va.,
is missing.
Passengers from the scene of the
wreck express the opinion that probably
one or two passengers are buried under
the debris.

FILE PROTEST WITH LONG.

Yosemite Crew Ought to Be Granted
Service Medals.

Detroit, Dec. 29.—A protest in behalf
of 270 Michigan men has been forward-
ed to Secretary Long against the report
of the naval board awards, which are
adverse to granting service medals to
the crew of the Yosemite during the
Spanish war.

TOWN IS INUNDED.

Waterspout Bursts Over Saffee, Moro-
cco, With Disastrous Results.

Tangier, Dec. 29.—A waterspout burst
over the town of Saffee, Morocco. It
inundated the lower part of the town
for twelve hours, sweeping everything
into the sea. Two hundred persons are
reported drowned. There are no Euro-
peans among the dead. The damage to
Saffee is enormous.

WELL KNOWN BANKER DEAD.

Feix G. Farrell Passes Away at Jack-
sonville, Ill., Aged 72.

Jacksonville, Ill., Dec. 29.—Feix G.
Farrell, a well known banker and one
of the wealthiest men in this section,
died here today, aged seventy-two. He
organized the first national bank here
in 1864. Two years ago the bank re-
organized under the name of the Farrell
company.

WILCOX WILL NOT TALK.

Man Charged With Complicity in Mur-
der of Nellie Cropsey Is Silent.

Elizabeth City, N. C., Dec. 29.—An im-
mense crowd attended the funeral to-
day of Miss Nellie Cropsey, whose re-
mains were discovered in the Pasquo-
tank river after a search lasting several
weeks. Wilcox, suspected of complicity
in her death, still refuses to make any
statement.

WAS BOUND TO DIE.

Iowa Man Succeeds in Killing Himself
in Second Attempt.

Hot Springs, Ark., Dec. 29.—Herman
Hoffman of Iowa killed himself at Bar-
ry hospital today. Last Thursday Hoff-
man cut his throat in an attempt to
suicide, and was recovering when he today
seized a table knife and jabbed it in
the opening in his throat, severing the ju-
gular vein.

WILL PRODUCE FLOOD TIDE.

Heavy Rains Over Entire Upper Basin
of Tennessee River.

Chatanooga, Dec. 29.—Heavy rains
over the entire upper basin of the Ten-
nessee river will produce a flood tide.
The weather bureau predicts the river
will pass the danger line here by noon
tomorrow. Flood warnings were sent
from here this morning to Knoxville and
Kingston, and over the lower river as
far as Paducah, Ky.

MAY BE CALIFORNIAN.

Dead Man Found at Pullman, Ill.,
Thought to Be Absconding Cashier.

Chicago, Dec. 29.—Attempts to estab-
lish the identity of the man found in
Pullman with his throat cut last Monday
have led the police to believe the suicide
may be Henry J. Fleishman, the abscond-
ing cashier of the Farmers and Merch-
ants' bank at Los Angeles, Cal., who, it
is said, disappeared Dec. 7 with \$100,000
of the bank's money.

TO OFFER PANAMA CANAL.

Secretary General of Company Leaves
France to Sell Property.

Paris, Dec. 29.—M. Lampro, secretary
general of the Panama Canal company,
has sailed for New York on the French
line steamer "Aquitaine," from Havre.
He will confer on his arrival in the
United States with a number of the
Panama company's representatives, and
overtures for the sale of the canal prop-
erty to the United States then will be
renewed. The company does not intend
to give the slightest ground for any fur-
ther misunderstanding and believes the
definite price put forward now will be
acceptable.

MARCONI SYSTEM ADOPTED.

Wireless Telegraph Line to Be Installed
Between New Haven and Dieppe.

London, Dec. 29.—The wireless tele-
graph system of Mr. Marconi is being
adapted to commercial uses. Arrange-
ments have been made between the Mar-
coni company and the London and
Brighton railway and the corresponding
station of a permanent character be-
tween New Haven and Dieppe. The de-
parture of boats will be signalled, with
information as to the amount of log-
gage, number of passengers, etc., and it
will no longer be necessary for friends
of the passengers to wait hours at either
end when fog has delayed the boats.

Sydney C. B., Dec. 29.—Mr. Marconi,
who has been visiting Louisiana, has
gone to Ottawa, accompanied by Mr.
Murray, premier of Nova Scotia, and
several others he has been inspecting
sites that would answer for wireless tel-
graph stations. Point Perov appears
to Marconi to be well adapted. He says
he intends to erect a permanent station
on Cape Breton.

MAY CALL UPON MILITIA.

St. Louis, Dec. 29.—The Granite City
has declared a quarantine against Mad-
ison, Ill., a town of 7,000 inhabitants,
on account of the alleged prevalence of
small-pox, and may employ the militia
to enforce the regulation.

COURT NEARS PEKIN

WARLIKE PREPARATIONS BY SOME
OF THE POWERS.

AUSTRIANS MOUNT TWO GUNS

AMERICANS, WHO HOLD CRUCIAL
POSITION, HAVE NO ARTILLERY.

If Ministers Are Merely Invited to Dine
With Tsung Li Yamen Instead of
Chinese Emperor In Palace All
Will Refuse.

Pekin, Dec. 29.—A party of Manchus
princes, including Prince Subeksa, col-
lector of taxes on goods entering Peking,
started Saturday to meet the Chinese
court. Prince Su intends to prove his
claim to be sent as envoy to Great Brit-
ain upon the occasion of the coronation
of King Edward.

The dowager empress is making vigor-
ous efforts to assert herself before the
Chinese population with a view to re-
trieving the prestige lost by her during
the last few years.

Program for Court's Return.

The program for the court's return to
Peking provides that the emperor precede
the dowager empress to Peking in order
that he may be enabled to meet the
dowager empress with great honors at
the station when she arrives.
The ministers of the foreign powers at
Peking have agreed that when the Chi-
nese court returns here, if they are mere-
ly invited to dine with Tsung Li Yamen,
as heretofore, instead of with the Chi-
nese emperor in the palace, as recently
stipulated they will refuse the invita-
tion.

Two thousand additional Chinese
troops entered Peking Friday.

The Austrians have mounted two large
guns upon the fortifications surrounding
their legation. The other foreign legat-
ions keep their guns concealed. Al-
though the British are well supplied with
artillery and the Germans can occasion-
ally be seen drilling with field and rapid
fire guns, the Americans, who hold the
crucial position at Chuan Men gate, are
not supplied with artillery.

Applied for Two Guns.

With the approval of American Min-
ister Conger, Major Robertson, of the
Ninth infantry, commanding the legat-
ion guard, applied to the war depart-
ment for two guns. This application was
refused, because when the department
consulted with Mr. Rockhill, special com-
missioner of the United States here, on
the matter, the latter replied that the
artillery was not needed and its presence
would be harmful.

At Nu Chwang the Russians have se-
cured control of the telegraphs and ca-
bles. This action on the part of Russia
is causing disputes between that coun-
try and the foreign consuls at Nu
Chwang.

CHINESE ARE DINED.

Entertainment by United States Min-
ister Conger Causes Sensation.

Pekin, Dec. 29.—A sensation has been
caused in Chinese official circles by a
dinner, given at his residence, by United
States Minister Conger, which was at-
tended by the leading officials of the
Chinese foreign office. Among the offi-
cials present was Ma Tung, a former
"Boxer" leader, and Wang Wen Shao,
one of the Chinese plenipotentiaries.
The dinner was attended by several American
ladies.

It was formerly the custom of promi-
nent officials never to enter the foreign
legation except upon the most formal
occasions, while meeting foreign ladies
generally would have been considered as
degrading as would associating with
Chinese women upon the same footing.

This event is significant of the pro-
gressive tendency of today which has
recently been manifested in several
ways.

KEPT IN A DUNGEON.

Barbarous Treatment of An American
In Austria.

Seattle, Wash., Dec. 29.—Benjamin
Greenburg, a resident of this city, who
was arrested three years ago and thrown
into an Austrian prison, where he was
held for two months, has returned to
this city.

According to Greenburg's story he was
thrown into a damp dungeon by the po-
lice authorities at Ternopol, Austria, and
told that he could be released if he paid
\$1,000. He refused and was kept there
for two months. His plight was dis-
covered by the American consul at Vien-
na and he was released on bail after a
charge had been preferred against him
that he was a Greek named Peter Car-
polsch who had been expelled from the
country several years previously for se-
curing women for immoral purposes.

His case was finally transferred to the
highest courts where evidence was in-
troduced to prove his identity.
"The money I put up as bail to secure
my release while the trial was pending,"
said Greenburg, "has never been returned
to me and I intend to lay the facts be-
fore the authorities at Washington."

CHRISTMAS TREE BURNS.

Causes Destruction of Chicago Apart-
ment Building.

Chicago, Dec. 29.—A Christmas tree in
the Alexander apartment building
caused a fire tonight that destroyed
that structure, causing a loss of \$100,
000. A score of persons barely escaped
with their lives.

MENDOZA IS ROUTED.

Rebel General Has a Brush With Gov-
ernment Troops.

Caracas, Venezuela, Dec. 29.—General
Luciano Mendoza, the president-elect of
the state of Carabobo, who rebelled
against President Castro, marched on
La Victoria and was said to have been
defeated, and who later was reported to
have escaped to the neighborhood of San
Juan de Los Moros, is now said to have
reached Villa de Cura, in the state of
Miranda, where he was routed by the
government troops.

In company with a small number of
followers he escaped and reached La
Puerta, where he was again overtaken
and again defeated. Accompanied by
only forty men General Mendoza passed
Ortiz, in the state of Guario, on the
twenty-fourth. He was proceeding in
the direction of mountains considered to
be almost inaccessible.

CEBU NOW PACIFIED.

Five Insurgent Officers and 175 Men
Surrender to Americans.

Manila, Dec. 29.—General Chatter and
Acting Governor Wright deny there is
any friction between the military and
civil authorities in the Philippines.
Governor Wright said he was satisfied
that the majority of the Filipinos re-
cognize and appreciate what has been
done by the Philippine commission, and
that their leaders were doing all in their
power to bring the remaining insurgents
to a peaceful view of the situation.
Five insurgent officers and 175 men
with six cannons, fifty-one rifles and
seventeen shot guns, surrendered yester-
day to the American authorities on the
Island of Cebu. It is now believed this
island is pacified.

DANES STILL HOLD OFF.

No Developments In Matter of Proposed
Sale of Islands.

Washington, Dec. 29.—There have been
no recent developments of importance in
the matter of the proposed sale of the
Danish West Indies. The United States
has defined its peculiar position very
clearly as to the terms under which it
will purchase the islands but, apparently
through the inability of the Danish gov-
ernment to reach a determination to
close the deal, the negotiations so far
have failed. If any request looking to
arrangements for the plebiscite is in
contemplation by the Copenhagen gov-
ernment its wishes in this respect have
not yet been communicated to the state
department.

DOES THE BRODIE ACT.

Young Man From Middletown, N. Y.,
Jumps From Brooklyn Bridge.

New York, Dec. 29.—John Pinover, a
young wholesale liquor dealer of Mid-
dletown, N. Y., today jumped from the
Brooklyn bridge. He is still alive at a
hospital. Pinover told the doctors that
he simply wanted to see if he could
make the jump and live.
The leap was taken in the afternoon
from the girders near the New York
tower. A government tug lowered a
boat and the man was taken out of the
water, apparently lifeless. At the hos-
pital he was unconscious three hours.

GOVERNMENT WITNESSES.

Ohio and Indiana Postoffice Inspectors
to Testify in Neely Case.

Cincinnati, Dec. 29.—Postoffice Inspectors
Holmes of this city and Fletcher of
Indianapolis left today for Havana,
where they will be witnesses on behalf
of the government in the Neely prosecu-
tion. The case is set for trial Jan. 4.
Muncie, Ind., the home of Neely, is in
the Cincinnati division, and a large
amount of the \$152,000, which he is
charged with having embezzled, was
traced by Inspectors Holmes and Fletch-
er to a certain bank.

BOARDING HOUSE DISAPPEARS.

Structure on Piles Is Destroyed During
A Storm.

Vancouver, Dec. 29.—Twenty Japanese
are missing from Steveston and are sup-
posed to have been killed or drowned in
the destruction of a Japanese boarding
house between Steveston and Point Rob-
erts Thursday. The boarding house stood
on piles and was a vast structure. The
structure now remains. The place is
two miles from Steveston and it was
impossible to reach it during the storm.

AMERICAN COAL SUPERIOR.

Tests in Mediterranean Disturb Foreign
Competitors.

London, Dec. 29.—Tests of American
steam coal in the Mediterranean have
proved that its quality is far superior to
the expectations of foreigners and Eng-
lish competitors. The difference in the
fring values of the British and American
products has hitherto been estimated at
10 per cent. in favor of the English arti-
cle. This has already been reduced to 7
per cent., and the Americans assert their
ability to prove that there is no differ-
ence whatever when their coal is prop-
erly handled and fired.

Statements contained in the official re-
port of M. C. Gurney, British consul at
Marseilles are disturbing English export-
ers. Mr. Gurney declares that the United
States is certain to capture the coal
markets of the Mediterranean in the
event of the passage of a subsidy bill un-
less in the meantime English prices are
greatly reduced. He points out that the
inflated prices of British coal have seri-
ously harmed the British trade and given
the Americans an opportunity of putting
their product on the market, with the
result that old prejudices have disap-
peared. The question is no longer one
of quality but of freight, according to
Mr. Gurney, who fears the Americans
will find a way of staying in the south
European markets, causing heavy loss to
British shipping and British coal owners.

Dragged-Down Feeling

In the loins. Nervousness, unrefreshing sleep, drowsiness. It is time you were doing something. The kidneys were anciently called the reins—in your case they are holding the reins and driving you into serious trouble.

Hood's Sarsaparilla

Acts with the most direct, beneficial effect on the kidneys. It contains the best and safest substances for correcting and toning these organs.

First National Bank

Of Marquette, Mich. Organized January 22, 1864. CAPITAL AND SURPLUS, \$200,000. PETER WHITE, President. L. G. KAUFMAN, Vice-President.

THE MARQUETTE COUNTY SAVINGS BANK

Capital Paid In \$100,000 Surplus 10,000. Receives deposits in sums from \$1 upward. Loans money on real estate and other approved security.

THE MARQUETTE NATIONAL BANK

Capital, \$100,000. A general banking business of deposit and loan.

THE ARLINGTON

ED. MERZ, Prop. Calumet, Michigan. Near all the large copper mines. Best in town!

HOTEL CLIFTON

Street cars pass the door to all parts of the city. Rates, \$2.00 and \$2.50.

LAND! LAND! LAND!

TIMBER AND FARMING LAND, of quality and quantity to suit the purchaser. Enquire of the MICHIGAN IRON & LAND CO., LTD., MARQUETTE, MICH.

THE DRUG HABIT!

is responsible for thousands of nervous wrecks. The habit begins with a feeling that something terrible is about to happen. There comes the wasting of the muscles, the decay of the brain, indigestion and insomnia.

PALMO TABLETS

rapidly fail to overcome this condition. People who had considered their cases hopeless, are today strong and full of all the physical qualities which make men and women happy.

DOMINION LINE

SPECIAL ARRANGEMENT. New service to Mediterranean. New giantic twin-screw steamer of Commonwealth, 2,500 tons, 600 ft. long, from Boston to Gibraltar and Genoa, Nov. 27, 1901.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00. MARQUETTE, MICH., DEC. 30.

It is said that they are having a hot campaign in Cuba, and that meetings which General Gomez attempts to hold for discussion of the issues of the election are interfered with frequently and sometimes broken up. It is pleasing to note that the Cubans are taking an interest in the election which is to determine who will be their first president, but if they showed more regard for freedom of speech there would be better ground for the hope that the government they are about to set up will endure.

It hardly needs to be said that the sensational account given by some of the Washington press correspondents of the alleged roasting given General Miles by President Roosevelt when the former called at the White House a few days ago was lacking in the essential element of truthfulness. If the president had insulted General Miles as he is said to have done he would have shown a lamentable lack of appreciation of the dignity of his office, as also of the respect due from him to the commander of the army. He expressed disapproval of the general's published opinion on the finding in the Schley case, which was an indiscretion that justified censure, but there was nothing insulting either in his language or manner. If General Miles had been scored as roughly by the president as was reported in some of the papers he would have resigned as commander of the army on the spot. That he still retains his station is proof enough that the story concocted by the correspondents was a monument of mendacity built on the slenderest foundation of fact.

The Iron Ore of Ishpeming, published at the home of Mr. Jochim, who is an avowed candidate for the congressional nomination, has these two paragraphs treating on the congressional situation in this district: It is a little early for congressional discussions, but Houghton county will have a candidate, and the chances favor the present congressman. We may be in error in this, but we still chance the prediction. Hon. S. M. Stephenson is being talked of as a candidate for congress by those who believe they are particularly interested in getting them out of the office, but we fail to see it that way. Mr. Stephenson is now devoting his attention to the raising of Angora goats, fine cattle and other things that go to make up a great stock farm. Of course, Sam is still a dangerous element to some of the boys, but he seems disposed to let the bunch start off without him this time. At the same time there are a heap of aspirants who couldn't accomplish so much for us as the old war horse.

But not a word about the candidacy of the Ishpeming aspirant. Does the Ore number Mr. Jochim as a man who, in the event of his being chosen to a seat in congress, would be less servicable to his constituents than "the old war horse"?

A SOUND POLICY. Speaking of the "price policy" of the United States Steel Corporation, the Iron Trade Review has this to say in approval, and outlining the effect it may be expected to have in giving stability to the iron and steel industries: The statement in these columns two weeks ago, that it had been practically decided that the \$4.25 base for old-rang Lake Superior Bessemer ores remain unchanged in 1902, has been an announcement of the position of the United States Steel Corporation. Officers of the steel corporation believe that the interests of the iron trade will be conserved by the continuance of the present basis, though pig iron and all finished products have advanced since the \$4.25 basis was established. That the attitude of this great interest is made known thus early, before details of the ore business of 1901 have been made up or schedules for next year's production discussed, or any formal meeting of the ore interests held, indicates a belief that the situation demands at this time the exercise of a strong standing influence. The intention seems to have been to make the price felt as a factor in shaping the policy of the iron trade for 1902 rather than to have the events of the early months of 1902 give color to the decision concerning ore.

As a matter of fact, much has been determined about the iron trade for 1902, while the 1901 output of Lake Superior ores has been coming down. Leaving out the steel rail purchase, which, with the reservations made for railroads not yet ready to name their requirements, substantially take up the estimated capacity of the mills for 1902, it is fair to assume that 90 per cent of the capacity for foundry and forge pig iron for the first quarter and 75 per cent of the same capacity for the second quarter has been sold. Consumers of ores, therefore, particularly non-Bessemer ores, have already done considerably business in which 1902 ores will enter. The significant fact about the announcement concerning ore by the United States Steel Corporation is not the power which it implies, though this is noteworthy, since the steel corporation has none of the ores to sell for which it has practically made the price; but rather the proof it gives of the sobering effect of great power upon broad-minded men. The same week gave another illustration of the attitude of the steel corporation in the decision of the structural steel manufacturers to make "no advance in prices. There were those who favored an advance. What ever odium might have come from it

would have centered not upon them, but upon the overshadowing interest which popular opinion holds responsible for all that goes awry in the steel trade. It is understood that the steel corporation representatives were strenuous and especially any advance and the proposition was dropped.

It is evident that the United States Steel Corporation purposes to suppress, so far as it can, any tendency to repeat the spectacular performances of 1899. As it is, the producer can know substantially sixteen months ahead what his ore will cost. The foundation is thus laid for a stable market, which as it avoids the dangerous up-swings of the pendulum, will also be exempt from the disastrous dips below cost line, which are still an unpleasant memory of the summer of 1900. How the United States Steel Corporation will act under declining demand is yet to be demonstrated. That the export safety valve will be opened under such a condition while the situation at home will be saved from serious decline or disturbance, seems a reasonable expectation. If this corporation aims to supply the largest possible percentage of the world's wants in iron and steel products, the problem of price becomes a matter of paramount importance. To undertake to give direction to prices calls for a degree of wisdom and insight that has not yet appeared in corporate management; but it would seem that wisdom has been learned from the example of the German iron and fuel syndicates, and it is to be hoped the lesson will long be kept fresh.

We do not look for any such sharing with the public in the economies of concentrated management of the iron industry, as some glowing promises have held out. But it is evident that the country is to be freed from the wide swings of the pendulum that have been so marked in the history of the iron trade thus far, and from the dislocations to business that have always resulted. The receiverships and losses that have come because of these prices, and paper movements in iron are beyond calculation. Labor has suffered untold hardships from the alternations of booms and depressions. Whatever the United States Steel Corporation may do to save the iron trade from both should count strongly in its favor. If it shall maintain prices that fairly average the crests and troughs of the waves of former years, it will have justified its existence. The resultant gain to the public will far outweigh any price reduction that might come from the broadest distribution of all the economies of concentrated management.

Upper Peninsula.

Henry Mills has been appointed postmaster at Ironquois, Chippewa county, vice F. F. Evans, resigned. Little Bay de Noc, down near Escanaba, is now fast in old Boreas' grip and is covered over with ice several inches thick.

The saw mills at Grand Marais this season turned out 45,000,000 feet of lumber, 10,000,000 lath, 22,500,000 shingles, 800,000 pickets, and 5,000,000 feet of hardwood lumber. The Baroness de Pellant of London, England, is on a visit to her mother, Mrs. S. Dugas, and her brother, Eugene, at Menominee. The baroness enjoys an extended acquaintance in Menominee and also throughout the country because of her recent relations with the Hanna family of Cleveland.

A few days ago members of the family of John Gaffney of Escanaba were poisoned by eating cheese. Mrs. Gaffney and three daughters partook of the cheese and all became very sick shortly afterward. A physician was summoned and succeeded in getting them out of danger. It is thought the cheese contained some poisonous substance. Rafael Nash, an Italian, not long over from his native land, had a merry Christmas at the Soo, and now he is minus \$215. In a saloon he met a colored woman with red hair. She evidently was in the saloon in connection with the lunch counter. Nash, attracted by her striking personality and invited her to take a walk. She took the walk but brought along another man, described by Nash as a half-breed. Together the pair, Nash claims, went through his pocket book and took out the money. He reported the hold-up to the police, but the negro and her pal are still at large.

The Iron Mountain fire department is called out to do many queer things. During the year about half of its runs were for the purpose of cleaning chimneys, but a run made one day last week "took the whole bakery." About 4:30 in the afternoon, while the boys were thinking of the Christmas days in the past which had been spent at home with their families, a young fellow rushed into the engine house, yelling for the firemen to hustle to the McKinley flats. They hustled, and when they had reached discovered that the water pipe in the basement of the corner store had burst. They didn't repair the break.

The shipping season for the port of Grand Marais recently closed has been one of the liveliest in years. It opened brisk and continued so throughout the season, vessels coming and going most of the time. There was also considerable log towing, the lumber and logs shipped alone making a grand total of 57,000,000 feet. The Marais Lumber company shipped 42,000,000 feet of lumber and the Hall & Munson Lumber company 15,000,000 feet. The lumber was shipped to the eastern markets, while the logs were towed to Bay Mills. The Marais Lumber company also shipped 12,450,000 shingles, 16,000,000 lath, 800,000 pickets and the largest portion of 50,000 cedar ties. Nearly 400 tons of fish were shipped to the Chicago market, and over 2,000 bushels of huckleberries were consigned to the Twin Cities and Chicago.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said, 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Sumner Hill, N. Y. This remedy is for sale by The Stafford Drug Co.

CONCILIATION MEMBERS ACCEPT.

Ex-President Cleveland's acceptance of his appointment as one of the members of the board for the arrangement of better relations between capital and labor has brought out the fact that all the appointees have signified their acceptance of the trust and pledged themselves to the work it involves. The members appointed are men who do not lightly accept obligations of such importance. Their performance of the duties of the position will not be perfunctory. The representatives of capital and labor can be depended on to work faithfully for the interests they represent, and their thorough knowledge and experience will enable them to grasp the essential points without waste of time. The other third of the board, who are not directly representative of either capital or labor but are expected to act as arbiters between the two in case of disagreement, are men accustomed to probe for causes as well as to observe surface conditions; men whose sincerity commands confidence and whose judgments will be received with respect and consideration, even if at the moment they may not be unqualifiedly accepted. The effort to which these men of action and men of thought have pledged their united services will be watched with earnest hope, if not with confident expectation of success. The other two-thirds of the board, if it assumes a practical form, will be joyfully welcomed.—Cleveland Plain Dealer.

STEEL CRISIS IN WALES.

A crisis in the Welsh steel trade is threatened. A joint conference at Swansea failed to arrive at a settlement respecting the manufacturers' demand for a reduction in wages consequent upon German and Canadian competition. The masters demanded reductions in some branches of work amounting to between 40 and 50 per cent, but the men's representatives absolutely declined to entertain them. The present rates, which the masters seek to revise, were established after prolonged negotiations two years ago. The situation is regarded as serious. Between 8,000 and 10,000 men are affected. The action brought by the Welsh Coal Owners' association against the Miners' Federation in consequence of the new notorious stop days will not be heard till next year.—London Mail.

A WOMAN'S AWFUL PERIL.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cts. Guaranteed. For sale by Stafford.

Kaskola Tablets

Cure Coated Tongues. It's the little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds. Dr. Wood's Norway Pine Syrup.

OUR GUSHER IS NOW IN.

On December 12th the Oil Well of the LAKE SUPERIOR & BEAUMONT OIL COMPANY

COMPOSED OF ESCANABA BUSINESS MEN. STOCK PURCHASERS ABSOLUTELY SAFE NOW. With the coming in of the first well, all risk on the part of stock purchasers has been removed and you now buy stock in a big profit paying oil well.

BUY STOCK NOW. Until the allotment of stock for development purposes is sold, stock can be had at \$1. After this amount is sold, stock will all be withdrawn from the market and none can be had at any such price.

OIL CONTRACTS BEING MADE. Contracts for the sale of oil are being made by the company's representative on the ground and one for (20,000-000) TWENTY MILLION BARRELS will probably be closed by January 1st, which will insure handsome dividends on the stock.

CAPITAL STOCK OF \$500,000. SHARES OF A PAR VALUE OF \$1.00. This company owns in fee simple one of the very choicest tracts of oil land in the Beaumont oil fields. The well is one of the big gushers in the field. Situated only 100 feet from the famous Heywood No. 2 well, with a tested capacity of 148,000 barrels daily, the Lake Superior Beaumont Oil Company has a well of much more than the average capacity.

DIVIDENDS ARE ACTUALLY ASSURED. Dividends by this company are certain almost at once by the fact that already contracts for the sale of oil from the well have been let and others are under consideration and by January 1st a sufficient quantity will have been sold to enable the company to begin marketing the oil at once.

NO SPECULATION IN THIS PROPOSITION. In buying oil stocks, as in any business, particular care should be taken in selecting a company, the management of which you know and who will make an honest effort to give you the best return possible on your investment.

THIS COMPANY IS COMPOSED OF MEN WHOM YOU KNOW. And not like many in which you have been asked to invest that are not only unknown to you but are merely stock speculation concerns and who care nothing for your investment other than to sell their stock. Therefore it behooves you to look well to whom the management is entrusted. Look over the list of officers of this company and you will find men whom you or your banker knows and who are not only reliable but successful business men.

Another point to be remembered as important to your interest, this company will have a representative on the ground to look after the business and secure other oil contracts.

STOCK OFFERED FOR LIMITED TIME ONLY. For a limited time only stock in this company is offered to defray the necessary expense of development purposes at \$1. On the capitalization of this company its stock at this price is equal to two shares of that of companies capitalized at a million and four of those at two million which have been so freely offered to purchasers at advanced prices.

OTHERS HAVE REAPED BIG PROFITS, WHY NOT YOU? In the purchase of many stocks in the Beaumont field, many have reaped big profits by buying when the stock was cheap and before returns began to come in. You now have the same opportunity. Will you take it and on a small investment have an interest in a company that will pay handsome returns? Opportunity comes but seldom and rare, indeed, for those with limited means, and once lost never to be recalled.

ROOM FOR FOUR GUSHERS ON THIS LAND. The company's land is on block 38, among all the big gushers, and there is ample room for three more wells, which will be sunk as rapidly as the demand warrants.

DEMAND FOR THE OIL. The whole world is the market for this oil. Already have shippers gone to European markets where it finds a ready sale against the Russian product which sells there for \$1.50 a barrel. Beaumont oil as a fuel is a saving of 22 cents per coal to oil as fuel. In a short time every house with heating apparatus and cooking range will use oil because of its great saving in both cost and labor.

WHO THE OFFICERS ARE. President, Senator O. B. Fuller; Vice-president, Mayor M. K. Bissell; Secretary, Ira C. Jennings; Treasurer, J. C. Kirkpatrick. Directors: H. W. Keade, J. K. Stack, J. U. Kirkpatrick, M. K. Bissell, Ed. Erickson, R. E. McLean, all of Escanaba. Order your stock through P. Breen, Escanaba, Michigan, or Frank Boney, of Negaunee. Shares \$1, with right reserved to increase the price at any time.

Don't Lose Weight.

If you find you are losing your weight or if you are thin and weak—take Vinol with your meals and see how quickly you will gain flesh. How Mrs. Jennie Gove Gained Seven Pounds. Mrs. JENNIE GOVE, of Biddeford, Me., says: "She was all run down, no appetite, tired and no ambition for work. Her stomach had faint feeling in the morning. We persuaded her to try Vinol, which she did. She gained seven pounds in two weeks. From the first dose she began to feel better and now is strong and has plenty of appetite."

How Vinol Caused a Gain of Over 20 Pounds. Mrs. N. B. JENNER, of Lakewood, N. Y., says that she wishes to make a statement as regards Vinol. "My normal weight is 175 pounds. When I began taking Vinol I weighed not over 100 pounds. Everybody thought I was going to die with consumption. I had three of the best doctors who did me no good, and I was practically given up to die. I could keep nothing on my stomach and vomited day and night. One day Messrs. Clark Bros. kindly sent me a little book on Vinol and my folks decided as a sort of last resort to get me a bottle which I began taking, and to the astonishment of all I began to get better. Have taken not all of two bottles yet, and have gained in weight over 20 pounds and more than that in strength. I am satisfied that I would not have lived a week longer had I not commenced taking Vinol."

Because Vinol is delicious, and because it does contain these much-sought-after medical properties of cod-liver oil without the disagreeable grease, we endorse it, and we unhesitatingly proclaim that it is better than any preparation of cod-liver oil or tonic re-builder we have ever had in our store. Your money back if you don't think so after you use it.

Copper Country Department

SCALDED TO DEATH. Infant Son of Mat Koskila Falls Into Tub of Boiling Water.

The two-year-old son of Mat Koskila of the Wolverine location fell into a tub of boiling water and was scalded to death. Mrs. Koskila had filled the tub to do some scrubbing. She turned away for an instant and the child fell into the tub head first. The infant was so badly scalded that he died soon after.

TOO MUCH SALT. Houghton and Hancock Citizens Say It Is a Nuisance on Streets.

The petition to the common council of Hancock and the county board of supervisors to stop the use of salt on the streets and county bridge by the street railway company, is being signed by a large number of representative citizens. The salt ruins the sleighing and makes the hauling of loads difficult. The condition of the county bridge is much worse than the streets on this account and the streets are bad enough to tax the patience of teamsters. A halt was called in this matter last winter, but the practice has been resumed this season with ruinous effect.

SPINAL COLUMN BROKEN. August Brink Fatally Injured by Being Struck By a Bect.

August Brink, a miner at the Tammarack Junior, was struck on the back by a large rock and the spinal column of the unfortunate man was broken. He was taken to the surface and removed to the Tammarack hospital. The patient was resting easily at last accounts but the mine doctors have no hopes that he will recover from the injury. Captain Will Daniel and Captain Riley were talking with Brink when the rock fell and escaped injury by a very narrow margin. A look which Captain Daniel was holding in his hand was knocked to ground by the rock that injured the miner.

WAS WRONGLY CHARGED. Otto Rokkola Shows Court He Is Not So Bad As Painted.

Mrs. Otto Rokkola charged her husband with all manner of domestic infidelities and caused him to be lodged in the county jail on the charge of non-support. She claimed he did not work and squandered his money in saloons. When the case came before Justice Finn Rokkila turned the tables on his spouse completely. It was shown that he is an industrious and saving man. The fact was also established that the accused had provided in the most bountiful way for his family. As for the claim about squandering money, the defendant showed that he had not spent over \$3 for money in the past year. On the contrary it was proven that he has saved \$600 of his earnings in the past few years. Rokkola was discharged from custody.

WERE AFTER REVENUE. Andrew Hendrickson Is Assaulted by Two Hancock Men.

Andrew Hendrickson, the Hancock Scandinavian citizen who figures frequently in the justice courts as interpreter and attorney, was assaulted by Edward Kulonen and Hans Peterson in a parlor where the assault was committed by "Big Willie." It is claimed that one of the men held the victim while the other got even with Hendrickson. The latter had aided in apprehending both men in times past for offenses and revenue is stated to be the motive of the assault. The two men were heavily fined by Justice Oviar.

ELEVENTH ANNUAL BALL. Party of Brotherhood of Railroad Trainmen to Take Place This Evening.

A special train this evening will carry Portage Lake people to the eleventh annual ball of Red Jacket lodge, No. 367, Brotherhood of Railroad Trainmen, at the Calumet Light Guard armory. The train will return to Houghton at about 3 o'clock tomorrow morning. Music for dancing will be furnished by the Calumet & Hecla orchestra.

R. A. M. OFFICERS. Gate of the Temple Chapter, R. A. M., of Hancock, elected and installed the following officers at the last regular meeting: Thomas Ingram, H. P.; I. H. Richardson, K.; Fred Stoville, S.; Jeremiah Bredt, secretary; David S. Kendall, treasurer; William Bath, C. H.; M. C. Getchell, P. C.; Frank Major, F. A. C.; John C. Jeffrey, M. first V.; Fred Rundle, M. second V.; Hugh B. Bentley, M. third V.; Alfred J. Lord, sentinel. A banquet followed the installation.

HARD COLDS—People whose blood is pure are not nearly so likely to take hard colds as are others. Hood's Sarsaparilla makes the blood pure; and this great medicine recovers the system after a cold as no other medicine does. Take Hood's.

INFORMATION WANTED. The manufacturers of Banner Salve having always believed that no doctor or medicine can cure in every case, but never having heard where Banner Salve failed to cure ulcers, sores, tetter, eczema, or piles, as a matter of curiosity would like to know if there are such cases. If so they will gladly refund the money. The People's Drug Store.

ADDITIONAL HOLIDAY RATES VIA C. & N. W. RAILWAY.

In addition to other holiday rates, tickets will be sold from points on the D. S. S. & A. in Michigan to Chicago and Milwaukee, and intermediate stations on the Chicago & Northwestern railway at fare in one-third for round trip. Dates of sale, Dec. 22, 24, 25, 26, 27, and Jan. 1, with return limit of Jan. 3, 1902. Apply to agents D. S. S. & A. or R. H. Holder, general commercial agent C. & N. W. R'y Houghton, Mich.

CHANGED HIS PLANS. President William Scallion of the Anacosta, who was expected to arrive in Hancock, Saturday in his special car on a short visit to his brother, Dr. J. E. Scallion, changed his plans before reaching copperland and went directly through to New York. He will stop at Portage Lake on his way back from the metropolis and will carry here a short time before returning to Chicago. President Scallion is accompanied on the trip by Miss Margaret Scallion of Hancock, who has been sojourning at Butte for the past six months.

"I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly, and quickly effected permanent cure." C. W. Lenhart, Bowling Green, O.

DESERVING OF ATTENTION.

Mass, Adventure and Victoria Are All Excellent Properties.

J. Ransom Bridge & Co., bankers and brokers of Boston, have issued a circular devoted to the general market and Lake coppers, and in speaking of the Mass, Adventure and Victoria, say: "In the list of Michigan properties which attract the attention of those who make it a practice of buying stocks when they are really cheap, we would call attention to Mass, Adventure and Victoria. These properties were taken over in 1898, when the price of copper ranged between eleven and thirteen cents. The lodes which are being opened up show that there is no question as to the dividend-paying future of the properties. Mass is already producing copper and will start another head of stamps next month. Those who know most about the property say that Mass will surely enter the list of dividend-payers this year. This would mean that the stock is certain to have a big rise in the meantime."

Victoria stock was subscribed for early in 1901 and was placed on the market by the superintendent of Hancock which assures the future of Victoria. The mine now has the deepest shaft in Ontonagon county. We are informed that the lodes, which are on even levels, are all in good order, with the exception of a rich ground. Victoria owns a water power, not only capable of operating the mine and stamp mill, but also can sell power for driving the machinery in adjoining mines. Victoria will have the best of the production, and it is probable that must make her a very valuable property in time, and, since the recent slaughter in the price of copper stocks, Victoria is selling at less than the price at which it was originally put on the market by one of the most conservative banking houses in Boston. On the first of January, 1902, compare the market prices of Victoria and Mass with the prices at which they may now be purchased."

Copper Gossip. Sam Brady, superintendent of the Michigan mine, says the prospects at the mine are excellent. Drifting from the foot of B shaft will be seen beyond the old workings and enter new ground, which is expected to prove rich. Mr. Brady says all the producing mines of the Lake region can make money on twelve cent copper, and that some years ago, when the copper was at a price never dreamed that copper would go to any such figures at seventeen and eighteen cents. "I don't think any Lake mine has a right to live unless it can make a profit on twelve cent copper," said Mr. Brady, "although that would close a good many western mines."

Probably fifteen cents is the general idea of a normal price for Lake copper, and many persons interested in copper from producers' standpoint feel encouraged over the shaping of conditions in the last few days, believing that the price of the copper will be still more than hoped for. Certainly there is a better feeling in copper circles, from the Boston point of view; matters look better; there is cessation in the belligerent spirit of the copper war, and that from a point of view, reconstruction, which may be hoped for. Certainly there is a better feeling in copper circles, from the Boston point of view; matters look better; there is cessation in the belligerent spirit of the copper war, and that from a point of view, reconstruction, which may be hoped for.

ARRIVAL OF AN OCEAN LINER. Landing of Emigrants an Interesting Yet a Pathetic Sight.

It is an interesting and at the same time a pathetic sight to witness the arrival of an ocean liner with the hundreds of "citizens in the rough" which every trip brings to these shores. It is interesting to study the faces and watch the expressions as the newcomers for the first time look on the American shore, and it is pathetic to see the expressions of doubt and fear on those same faces as they seem to be looking forward into the future which with all its burdens and responsibilities has come so close to these people who have left home and friends to try and start a new life under a new and it is hoped better, conditions.

The average steamer which carries only freight and third class passengers is not provided with too many of the luxuries of transatlantic travel; there may be all the requisite comforts, if the bare necessities can be so called, and so there come from such a vessel to the docks a throng of hollow-cheeked, pale and tired looking passengers. For days they have been confined to the limits of the vessel, and with the distress caused by the rough passage with all its torments of seasickness, it is not surprising that the roses which were blooming on the cheeks of many a comely colleen have faded, and a look of anxiety has become prominent.

The throng pours out at the vessel's side down the long gang-plank to the dock, and in a short time the baggage follows them. In one place gather those who come from one port, and so those who are of one nationality assemble for mutual help. The English, who started with the vessel from Liverpool, huddle together, and in another section are the Irish who boarded the steamer at Queenstown—"The Cove of Cork," as it was once known; while on another spot are placed the goods and chattels of the Scotch, and they are seated on their worldly belongings they await the inspection of the United States customs officers.

There are always two or three counters which are piled high with all sorts of "kankee food," with sometimes delicate delicacies tempt the palate of those of Teutonic extraction, and round these they gather and eat their first meal on American soil. The ticket office, where the newcomer can buy a ticket is also the exchange, where for the coin of other lands they get the money which is good the world over for its face value.

The scene on the wharf is one in which the physiognomist would take pleasure, for here to be seen faces which bear all the marks of peoples which have been known since history began to write of the doings of the human race. In the long line which passes the ticket office may be seen the strong countenance of the Briton, followed by a face which bears all the expressions of the Scandinavian races, or the fresh, unmolled face of the Irish girl, girl prelude the weak countenance of the coxswain type from the wide streets of Liverpool or London.

It is a changing panorama which thus goes by. They enter the line foreigners, with nothing to prove their right to this country; they leave it possessing a ticket to some inland point, similar to what would be bought by any American, and they have cut the last bond when they gave up the piece with a portrait of a ruler for the piece with the face of a goddess who has drawn them across seas to follow the light of the sun of promise. Almost Americans, they leave the wharf to be bought by any American, and they have cut the last bond when they gave up the piece with a portrait of a ruler for the piece with the face of a goddess who has drawn them across seas to follow the light of the sun of promise.

Close by stand the barges, to which the drivers call attention by announcing

We Invite the Attention

of the public to our new and greatly improved restaurant service.

TO SETTLE DISPUTES

GREAT BRITAIN WANTS NUMEROUS MATTERS DECIDED.

ALASKAN BOUNDARY HEADS LIST

OTHER CANADIAN BORDER QUESTIONS AT ISSUE.

Efforts Will Probably Be Renewed Before Long for an Adjustment of the Numerous Controversies Existing.

Washington, Dec. 29.—It is expected efforts will be renewed before long for a settlement of the numerous controversies which have long existed between the United States and Great Britain, growing out of the relations along the Canadian border, the Atlantic fisheries, warships on the great lakes, the Alaskan boundary and other questions.

Heretofore, negotiations designed as a settlement of the matters recited have not proved effective, largely because of the cumbersome machinery of the negotiations. This led to the belief that much more could be accomplished by direct negotiations between Secretary Hay and Lord Pauncefote on the main points and the subsequent assembling of a commission representing the United States, Great Britain and Canada to give form to the basis of the agreement rendered.

The British authorities have expected for some time that when the Isthmian canal treaty is once disposed of there will be a renewal of efforts to adjust the Alaskan boundary and other questions, the canal treaty being regarded as one of the main pending issues.

Now that the British government has yielded the Clayton-Bulwer treaty and other points in the Isthmian negotiation, it desires to take up some of the other questions in which it has important interests involved. Lord Pauncefote desires to clear up all the pending differences before his present term as ambassador comes to a close.

At present a modus vivendi exists as to the Alaskan boundary, chiefly for the purpose of avoiding a clash along the border, holding each side in check until a final boundary is determined upon. It seems to be conceded by both sides that the modus vivendi cannot be carried on indefinitely, and sooner or later the main question of establishing a permanent boundary must be settled.

NEW LIGHTER SYSTEM.

Conditions of Commerce in the Philippines to Be Revolutionized.

New York, Dec. 29.—Within two weeks there will sail from this port for Manila a steamer, owned by the Philippine Transportation & Construction company, which will carry the first installment of steam lighters with which it is proposed to revolutionize conditions of commerce in the Philippine islands. The company has built nineteen of these lighters at an average cost of \$28,000. Lighterage charges at Manila now are about 450 (Mexican) a hundred pounds. With these new lighters the company promises to reduce the charges to seventeen cents (Mexican) a hundred pounds. The company, it is stated, has already expended \$500,000 in preparing to do business in the Philippines, where it intends to do island business. The company will establish a line of monthly steamers from New York to Manila, beginning next month. Russell Colgrove who is to be the traffic manager of the company at Manila, gives out the following statement:

"All lighterage at Manila and throughout the islands today must be done with the casco. The casco is a leaky, unstable, native boat of thirty tons burden. Every ounce of merchandise that is taken to or from Manila must be lifted over the vessel's side into the casco by Chinese or native coolies and then lifted from the casco to the wharves again. The casco cannot be worked in bad weather. They are towed in and out of the harbor by launches of Asiatic manufacture. The breakage and waste account through their employment is, of course, great. They are all controlled by the British, German and Chinese merchants, and no American cargo can enter with their aid except at a charge that is prohibitive. These lighters of ours are steam, self-propelling steel barges with a Lloyd rating of A1. They have steam hoists, and they can do their work in any weather, the capacity of each in any ton. Nineteen of them are completed and are now awaiting shipment at the Morgan Iron Works. Nine of them have been taken out to be shipped in sections; the other ten will be shipped as deckload. We will send four on a ship until they are all over. Our first ship, which is owned by this company, will leave here about Jan. 10, and the next a month later. They will go by the Suez canal. With these barges will go a complete machine shop to be set up in

Manila. We are going to be able to repair our own boats and those of other folks, too. We will show our own electric starting plant for the machine shop and a complete outfit of wrecking gear. A full complement of American skilled workmen will be taken along. Our barges will be the only American bottoms out there except naval vessels. We hope to see a lot more there soon."

PRESERVE OLD CASTLE.

Remains of Heidelberg to Be Protected by Alumni and Students.

Berlin, Dec. 29.—No popular movement has ever more strikingly illustrated the passionate reverence of Germany for the historic features of the fatherland than the present attempt of the faculty and alumni of the University of Heidelberg to preserve the castle. Under the leadership of Dr. F. Wolter of Hamburg a vigorous agitation for that purpose is in progress throughout the empire. On Feb. 1, 1902, a great alumni petition protesting against the restoration plans will be presented to the grand duke of Baden, who will be told that the crumbling walls and turrets of the venerable Schloss are graven deep in the hearts of Heidelberg students all over the world.

MAY GIVE YALE A MILLION.

Rumor to Effect That Andrew Carnegie Will Increase Building Fund.

New York, Dec. 29.—Rumors are in circulation to the effect that Andrew Carnegie is getting ready to give \$1,000,000 to increase Yale's building endowment fund. President Hadley of Yale, according to New Haven (Conn.) reports, declines to discuss, deny or affirm the rumor.

Mr. Carnegie also refuses to make any comment regarding either this rumor or his alleged intentions with respect to a magnificent gift to Columbian university.

New York, Dec. 29.—It is reported on Wall street that at an auction sale by Adrian H. Muller & Co. 5 per cent bonds of the Carnegie Steel company sold at 113 1/2, says the Journal. Mr. Carnegie tendered \$10,000,000 in these bonds to the government for the Washington Memorial university for original research. A difficulty—the fact that the proposed gift was in the bonds of a corporation—prevented an immediate acceptance of the magnificent endowment and the sale is believed by some to indicate that Mr. Carnegie has begun to convert the bonds into money in order that the government should be relieved from this embarrassment.

At the present time the ten millions in bonds would be equivalent to \$11,387,500, a substantial increase of the promised endowment.

TO DEFEAT HANNA

MOVEMENT ON FOOT AGAINST SENATOR FROM OHIO.

NO OPPOSITION TO FORAKER

CONTEST AT COLUMBUS EXTENDS ELSEWHERE IN STATE.

Hanna Men Admit They Are Working for the Result Two Years Hence and Charge There is a Conspiracy to Defeat Their Man.

Cincinnati, Dec. 29.—The contest at Columbus this week between the followers of Senator Foraker and Senator Hanna over the organization of the legislature has extended to factional circles elsewhere in the state. The most of the Republican members this year are serving their first terms, and according to precedent they are expected to be members of the next legislature which selects Senator Hanna's successor two years hence.

Seek Control of Positions. While there is no opposition to the reelection of Senator Foraker two weeks hence, it is claimed there is an organized movement to defeat Senator Hanna two years hence. As presiding officers in the appointment of committees and other functions have great influence, the friends of both senators are seeking to control those positions as well as all the other offices, including clerkships, sergeants at arms, etc.

The Hanna men admit they are working for the result two years hence and charge there is a "conspiracy to defeat Hanna." In former years there were contests between the Sherman and Foraker factions and later between the McKinley and Foraker factions, but none of the former factional fights approached the present contest in general interest. There are separate Foraker and Hanna tickets subject to the senate and house caucuses of the Republican members next Saturday. Both sides claim a "sure thing."

Scene of Harmony. The Democratic minority presents a scene of harmony. Colonel James Kilbourne, recently the Democratic candidate for governor, yesterday notified the members from his county not to present his name to the Democratic joint caucus for nomination as United States senator. This leaves Hon. Charles W. Baker of Cincinnati without opposition for the Democratic senatorial nomination.

Party Caucuses at Albany. Albany, N. Y., Dec. 29.—The legislature will meet Wednesday, and probably adjourn until April 1. Party caucuses will be held Tuesday night. Speaker S. Fred Nixon will be the Republican nominee for speaker. Assemblyman George H. Palmer will be the choice of the minority for the same office. Assemblyman J. P. Adams of Chenango will be the majority leader on the floor. Colonel Arthur E. Baxter will again be selected clerk of the assembly.

MISSOURI IS LAUNCHED.

New Battleship Slides Down Ways at Newport News, Va.

Newport News, Va., Dec. 29.—The battleship Missouri was launched at the shipyard here yesterday at 11:12 o'clock. Fully 15,000 people, it is estimated, saw the big defender make the plunge. The launching passed off without a hitch and none prettier or more successful was ever accomplished here.

Miss Marion Cockrell, daughter of Senator F. M. Cockrell of Missouri, was sponsor for the ship and she performed the duty assigned her with the traditional bottle of champagne, using a bottle of product for the purpose. The number of distinguished guests gathered around the sponsor on the christening platform was larger than ever before seen here.

When the big ship had glided off the ways into the water the crowd on the guests' platform gave three cheers for Miss Cockrell, three for the army and the navy and three for Secretary Long, then three for the shipyard.

PROMINENT PYTHIAN DEAD.

Benton Harbor, Mich., Dec. 29.—Dr. John Bell, the ranking Knight of Pythias in the world, and one of the best known physicians of southwestern Michigan, died today.

TODAY'S WEATHER.

Washington, Dec. 29.—The following is the weather bureau's forecast for Upper Michigan: Cloudy Monday and Tuesday; snow buries in the north; variable winds.

"Have you any doubts remaining?" said Mrs. Jones, "I don't. My little boy is completely cured them." "Twill remove any impure thoughts in the human family." 35c. Stafford Drug Co.

DEPARTMENT STORE BURNS.

Victoria, Dec. 29.—Spencer's Arcade, a big department store, was destroyed by fire last night. The loss is \$12,000. The fire was caused by a wire in the carpet department.

COUGHS AND COLDS IN CHILDREN.

Recommendation of a Well Known Chicago Physician. I use and prescribe Chamberlain's Cough Remedy for almost all obstinate, constricted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and coughs and a big department store was destroyed by fire last night. The loss is \$12,000. The fire was caused by a wire in the carpet department.

FOOD CHANGED TO POISON. Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at Stafford's.

WALL STREET STOCKS.

Saturday's Market Was Broad and Active With a Good Demand.

NEW MULTIPLE TELEGRAPH.

French Government Officially Recognizes Prof. Mercadier's System.

Paris, Dec. 29.—The French government has officially recognized the importance and utility of the new telegraph system, known as the Mercadier apparatus, by awarding him the grade of commander of the Legion of Honor. This award is made on the occasion of the New Year's experiments, which have been concluded, between Tours and Bordeaux and Paris. Professor Mercadier succeeded in sending sixteen messages over a wire at the same time, using the Morse alphabet and differently pitched undulatory currents. These experiments proved perfectly successful.

Professor Mercadier says trains on the state railways of France are being provided with his new apparatus, since it insures the greatest possible rapidity of communication in case of accident. "It is only necessary," said Professor Mercadier, "to choose the diapason corresponding with the nearest station, thus avoiding the delays which are often fatal."

The government is convinced that the Mercadier apparatus is cheaper than any other, since it dispenses with the construction of many telegraph lines and the continual presence of mechanics, which is required by the Baudiot quadruple system now used. The new system will also save a great deal of money now paid for salaries, since a child of fifteen years is able to learn the Morse alphabet and the use of the system in a fortnight." Professor Mercadier insists that his system insures the secret transmission of messages, since it would be necessary to possess the whole scale of his micro-telephones in order to tap the wires.

CHINESE REPLACING WHITES.

Pacific Vessel Masters Prefer Celestials for Seamen.

London, Dec. 29.—Reporting to Lord Lansdowne, British foreign secretary, Mr. Brennan, British consul general at Shanghai, states that Chinese are rapidly superseding Europeans and Americans as merchant seamen on the Pacific. This fact is attributed to the quarrelsome nature of white sailors, who are said to be responsible for the lowest rows which occur while they are in port.

The sailing vessels that visit Shanghai, they are chiefly engaged in bringing oil from New York for the Standard Oil company. They carry European and crews of the lowest class, who are a constant trouble when on land, both to their masters and to the consulate. Cases have come to my knowledge where it has paid captains to discharge their white crews and to provide for their passage home by shipping Orientals in their places.

This portends a complete displacement of Americans and Europeans, not only in the transpacific, but also in the Chinese coast trade, by yellow men, who are sober, industrious easily accommodated and amenable to discipline. Fifteen hundred British vessels entered Shanghai port this year carrying Chinese crews. The Chinese sailors caused trouble in only ten cases. This is mainly due to the fact that whereas the Oriental seamen are of one nationality, the Europeans and Americans are of many nationalities, gathered in the low quarters of nearly every part of the world. Each white man considers himself as good as, if not better than his neighbor, while the yellow men quietly submit to the rule of their superiors, however unenlightened and arbitrary. The Chinese are steadily overcoming their indisposition to go on long voyages from China. Many senior hands remain in one service from ten to fifteen years."

GRIEVANCE COMMITTEES MEET.

St. Joseph, Mo., Dec. 29.—The grievance committees of the Brotherhood of Railway Trainmen and the Order of Railway Conductors of the entire Burlington system met here today. A principal trouble is alleged to come from a brakeman who is dissatisfied with the present schedule.

SAYS HE WAS TORTURED.

"I suffered such pain from corns it could hardly walk," writes H. Robinson, Hillsborough, Ill., "but Buckler's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by Stafford, 25c.

J. W. Bryan of Lowder, Ills., writes: "My little boy was very low with pneumonia. Unknown to the doctor we gave him Myer's Honey and Tar. The result was magical and puzzled the doctor, as it immediately stopped the racking cough and he quickly recovered." The People's Drug Store.

RELIABILITY OF STORM SIGNALS.

Right of Boat Captains to Disregard Them to Be Tested in Court.

The right of a ship to sail out in the open lake when storm signals are flying is to be tested in the United States circuit court at Chicago at an early date. The vessel which attains the honor of making a test of this novel question is the schooner Emily B. Maxwell, and the Heywood Rattan company is the concern forcing the issue.

Sept. 11, 1900, the Maxwell sailed out of Charlevoix, Mich., for Chicago with a cargo of lumber. Storm signals were flying, but when the Maxwell left the weather was fine and pleasant. Five hours later the ship was struck by a severe storm, and her deckload, owned by the Heywood company, was swept aboard. It was valued at \$1,000, for which amount suit has been brought. In trying this case Judge Kohlsaat will be called upon to pronounce on the reliability of the storm warnings sent out by the weather bureau. He will have a nice question to determine—the duties of a captain who is in port during a pleasant day when storm signals are flying.

Lake captains have never yet found out whether it was their duty to go and run the risk of facing a bad storm or stay in port and run another risk of losing valuable time. In the Maxwell case there are some side issues of liability, but the main point is the reliability of weather signals.

CHICAGO GRAIN MARKETS.

Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, Dec. 29.—Wheat was lower yesterday, closing with a 1/2 cent loss. The selling was heavy on the local, professional and outside accounts, in which the Northwest took the leading part. There was said to be considerable short covering, but it was not made here. Two boatloads were reported accepted at the seaboard. The trade was unsettled and irregular. The Liverpool advance of 5d in the face of a loss of about 3d here yesterday, was a bull factor early, causing an upturn. In corn, losses of 1/2 cent were established. The market closed tame and was almost wholly professional in character. It was inclined to follow wheat. Country offerings were reported small. Liverpool was 3d higher.

In oats, there was moderate local selling and offerings by small traders. The market was weakened by the other grains. There was a break of 1/2 cent, with the close at the bottom. A weak cash situation had a professional influence.

The leading futures ranged as follows: Wheat: May opened at 82 1/2; highest, 82 1/2; lowest, 81 1/2; closed, 81 1/2. May corn opened at 45 1/2; highest, 45 1/2; lowest, 44 1/2; closed, 45.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Lake captains have never yet found out whether it was their duty to go and run the risk of facing a bad storm or stay in port and run another risk of losing valuable time. In the Maxwell case there are some side issues of liability, but the main point is the reliability of weather signals.

At a joint meeting held Friday evening at Fraternity Hall, the newly elected officers of the local insurance branch of St. Jean Baptiste society and the ladies' auxiliary were installed by President General Henry Routhier of Ishpeming. A short address was made by that officer and by Eugene Bertrand, a corresponding secretary. Dr. Z. Vadnais, financial secretary, A. Archembaud, treasurer, Frank Labonte, Jr., directors, L. Richer, C. Crozier, J. Laroche, conductor, A. Fleury, messenger, A. Verifueille, guards, T. Groggier, G. Charland, sergeant-at-arms, A. Bertrand. The ladies' auxiliary is offered as follows: President, Marie L. Rinette; first vice president, A. Messier; second vice president, P. Crozier; corresponding secretary, Dr. Z. Vadnais; financial secretary, A. Archembaud; treasurer, Frank Labonte, Jr.; directors, L. Richer, C. Crozier, J. Laroche, conductor, A. Fleury; messenger, A. Verifueille; guards, T. Groggier, G. Charland, sergeant-at-arms, A. Bertrand. The ladies' auxiliary is offered as follows: President, Marie L. Rinette; first vice president, A. Messier; second vice president, P. Crozier; corresponding secretary, Dr. Z. Vadnais; financial secretary, A. Archembaud; treasurer, Frank Labonte, Jr.; directors, L. Richer, C. Crozier, J. Laroche, conductor, A. Fleury; messenger, A. Verifueille; guards, T. Groggier, G. Charland, sergeant-at-arms, A. Bertrand.

H. T. McInnes, St. Paul, Minn., who has been troubled with disordered stomach, says, "Chamberlain's Stomach and Liver Tablets do me more good than anything I have ever taken." For sale by The Stafford Co.

A special meeting of the Swedish Crown No. 2 of S. U. S. of A. will be held at the Fraternity Hall Saturday at 8 o'clock p. m. Every member is requested to be present. (12-27-21)

are the best advertisers for Foley's Honey and Tar and all who use it agree that it is a splendid remedy for coughs, colds or sore lungs. The People's Drug Store.

REDUCED RATES FOR THE HOLIDAYS. The Grand Rapids and Indiana Ry. company will sell round-trip tickets to all points Dec. 24th, 25th, 31st and Jan. 1st. Good returning until Jan. 2nd, 11.3 fare for round trip. R. C. Amphlett, Agent, C. L. Lockwood, General Passenger and Train Agent.

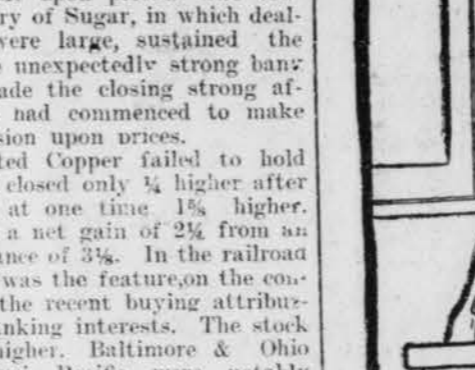

CHRISTMAS AND NEW YEARS HOLIDAYS 1901-1902. For the above occasions the D. S. S. & A. Ry. will sell tickets between all local points at greatly reduced rates. Tickets will be on sale Dec. 23rd, 24th, 25th, 30th and 31st, and Jan. 1st, and will be good for return passage until Jan. 3rd, 1902, inclusive. For further particulars apply to station and ticket agents or Geo. W. Hibbard, General Passenger Agent, Marquette, Mich. (12-7-31)

SAVED HIS LIFE. "I feel I owe my life to Kodol Dyspepsia Cure," writes H. C. Christenson, Hayfield, Minn. "For three years I had dyspepsia so bad that I could hold nothing on my stomach. Finally I was confined to my bed. Doctors said I could not live. I read your advertisement on Kodol Dyspepsia Cure and bought it at my own expense and commenced its use. I began to improve from the first bottle. Now I am cured and recommend it to all who suffer from dyspepsia." H. C. Christenson, Hayfield, Minn. Sold by Stafford Drug Co., 11 N. Michigan, Ishpeming.

Edwente Year Bowlers With Cascares. Candy Cathartics, cure constipation forever. No. 55. If C. C. fail, druggists return money.

GOOD judge must have both experience and learning.

A housekeeper should be a good judge for she too must have experience and learning or she may think that the soaps made to look like Ivory Soap are just as good. With experience she will know that they lack the remarkable qualities of the genuine. Ivory Soap—99 44/100 per cent. pure.

With experience she will know that they lack the remarkable qualities of the genuine. Ivory Soap—99 44/100 per cent. pure.

RELIABILITY OF STORM SIGNALS.

Right of Boat Captains to Disregard Them to Be Tested in Court.

The right of a ship to sail out in the open lake when storm signals are flying is to be tested in the United States circuit court at Chicago at an early date. The vessel which attains the honor of making a test of this novel question is the schooner Emily B. Maxwell, and the Heywood Rattan company is the concern forcing the issue.

Sept. 11, 1900, the Maxwell sailed out of Charlevoix, Mich., for Chicago with a cargo of lumber. Storm signals were flying, but when the Maxwell left the weather was fine and pleasant. Five hours later the ship was struck by a severe storm, and her deckload, owned by the Heywood company, was swept aboard. It was valued at \$1,000, for which amount suit has been brought. In trying this case Judge Kohlsaat will be called upon to pronounce on the reliability of the storm warnings sent out by the weather bureau. He will have a nice question to determine—the duties of a captain who is in port during a pleasant day when storm signals are flying.

Lake captains have never yet found out whether it was their duty to go and run the risk of facing a bad storm or stay in port and run another risk of losing valuable time. In the Maxwell case there are some side issues of liability, but the main point is the reliability of weather signals.

CITY BREVITIES.

Sheriff Penglass had business at Neegaugue Saturday.

Andy Perrin was down from West Superior yesterday.

L. S. Holmes of Duluth spent Sunday with old Marquette friends.

Miss Jemie Gleason of St. Ignace is visiting with Marquette relatives.

A devotional meeting will be held at the Methodist church this evening.

Mrs. C. H. Morse has returned from New York city after an absence of several weeks.

The next dance in the series of Masonic parties will be held Friday evening of this week.

Miss May Richards is the guest of Mr. and Mrs. F. W. Hebard at Pequaing for the holidays.

A. B. Graham got back last evening from the copper country, where he went on a business mission.

Dr. Thomas M. Cunningham is spending the holiday season with J. A. Gonzalez at Grand Rapids.

C. H. Wallen of Calumet yesterday concluded a visit of several days with his parents and friends here.

The monthly meeting of the school board was held Saturday afternoon. No special business was transacted.

Miss Libbie Cox of Ishpeming is the guest of Sheriff Penglass and family. The young lady is studying music at Detroit and is home for the vacation.

A Neegaugue couple—Oskar Pasanen and Wilhelmina Linnakka—were on Saturday licensed to wed. The record of permits granted is still ten behind last year's figures.

Walter Fitch of Beacon, Captains Trebleck and Rough of Ishpeming, Captain Roberts of Neegaugue and David T. Morgan of Republic, members of the county board, had business at the court house Saturday.

Dr. Henry Cunningham and H. N. Ormsbee returned Saturday from Ishpeming, where the night before they attended a dancing party. They were entertained at the residence of Captain W. J. Johnston.

The reporter in writing the article published Saturday had in mind the superior qualities of the company's product in referring to the gas engine works as "the Lake Superior" plant. Of course it was the Lake Shore Engine works that was meant.

Rev. Carl Appeler, pastor of the German Lutheran church, will conduct special services at the church tomorrow evening, beginning at 7:30, and also on New Year's day at the same hour. The services will be appropriate to the ending of the old and the beginning of the new year.

ROBBINS BLOCK. SAM APOSTLE.

18 a street, IshpeMING.

IshpeMING and its Environs.

WAS BADLY SQUEEZED.

Fred St. Arnault Had a Close Call for His Life Saturday Morning.

Fred St. Arnault, whose home is in Neguamee, came to work at the Lake Angelina mine at an early hour Saturday morning. He was working about the motors underground and got caught between a car and a drift timber. His injuries are in the lower part of the body. It is said he was squeezed into a very small space and it was mighty lucky for him that he is a small man. A larger man could not have escaped fatal injury.

St. Arnault was taken to the IshpeMING hospital, where his wounds were attended to. So far as could be judged, the young man will come around all right within a few weeks. He was later taken to his home in Neguamee at the request of his father, who is also working at the Lake Angelina mine.

A DELIGHTFUL PARTY.

One Given by the Midwinter Club Was the Event of the Season.

If all the functions to be given by the Midwinter club are as enjoyable as the initial party at the Anderson hall on Friday evening last the members will get more than value received for the money invested. Last Friday's function was perfect in every respect. The arrangements for it were in the hands of the ladies of the club, and the gentlemen are forced to admit, though reluctantly, that it was because they had nothing to do with its management that the party was such a great success. Several of the latest waltzes and two-steps were played. Old as well as young had a good time. There were more married people in attendance than have been seen at a similar function in some years. And the elder folk enjoyed themselves so well that they didn't go home early. Nearly all remained until the strains of the last waltz had died out.

Most of the young people who are attending college and are home for the holidays were present, swelling the attendance considerably above the regular number included in the club's membership.

The music by the complete Trombly orchestra delighted the dancers. Several of the latest waltzes and two-steps were played.

The date of the next party has not been decided on. It will be a card party exclusively though it is likely the orchestra will be in attendance to render a program of overtures.

PLAYS ALL THIS WEEK.

Nye & McCrumb Theatre Company Will Open Its Engagement Tonight.

As it is nearly six months since a repertoire company has held the theatre at the local theatre the Nye & McCrumb Theatre company, which begins a week's engagement here this evening, should do a big business. The plays to be produced are new to IshpeMING theatre-goers and recruits from cities and towns where the company has appeared within the past month or more are to the effect that first-class performances are given. Manager Nye is not only an actor of ability but also a clever author. Most of the plays to be produced were written by him and critics pronounce them a success. Mr. Nye is surrounded by a clever lot of people and special scenery is used in the production.

Last week at Iron Mountain the company played to record breaking business and all who attended the performances were pleased with them.

The management extends a special invitation to the ladies to come tonight. One lady will be admitted free with each paid thirty-five cent ticket. The reserved seats are on sale at Tillson's and it will be well for those who want the most desirable seats to call early and get them as there promises to be a packed house. The general admission will be twenty-five cents for adults and fifteen for children.

The play tonight will be "The Man of the World," which was written by Mr. Nye and is produced by no other company on the road.

MANY USING SKIS.

Skiing is all the rage with the boys of this city. On the hills, particularly in the vicinity of where the first ski contest took place last winter, slides have been built for the youngsters to spend much time there. If this city does not turn out some expert jumpers within the next five or six years it will be strange, as this sport is rapidly growing in favor. The dealers who handle skis sold a large number of them about Christmas. A number of the carpenters of the city have made skis for old as well as young. It is said that the home made skis are superior in some respects to those obtained at the stores.

HEAVY DEATH RATE.

The death rate in IshpeMING during December will be unusually heavy. Up to Saturday evening nineteen deaths had been registered for the month at the city recorder's office. This is nearly three times as many as occurred in the city in November. There were just seven in that month, but that number is below the average. It is noticed that a majority of the deaths this month are children from a few weeks to two years old. It has been a hard month on the little ones, though no epidemic of any kind has prevailed among them.

For good, substantial goods, in groceries, meats, dry goods, etc., call on us. We can save you money. Finnish Mercantile association.

For fine cider, ale and porter, go to P. H. Donahoe's. (12-19-11d)

WILL REPEAT CANTATA.

The members of the Salisbury Sunday school, who have been laboring hard for the past few weeks, rendered the results of their labor Christmas night in a cantata entitled "The Children of Bethlehem." For the satisfaction of the large crowds that were turned away, the cantata will be repeated on New Year's night. The invitation is extended to all. The admission will be ten cents. (12-27-34)

ISHPEMINGITES DOING WELL.

Charles Farm and John L. Carson Have No Reason to Regret Moving to Soo.

Charles Farm, who recently engaged in the grocery business in partnership with John L. Carson at Sault Ste. Marie, is spending a few days with his family in IshpeMING, having arrived Saturday. He reports that the firm is doing well, even better than expected so soon after starting up. The business is conducted on a strictly cash basis and Mr. Farm says the receipts are increasing steadily. He thinks the Soo is a coming place and that within a few years business of all kinds there will be even better than it is now.

Mr. Farm recently purchased half of the lot on which the block the firm occupies stands. He intends to build on it during the next few months and the new building will be occupied as a meat market by the firm. The block now in use is the property of Mr. Carson, and it was from him that Farm bought the lot.

Mr. Carson and his partner like the Soo very much. It is quite a lively town and with their business meeting their anticipations they have no reason to complain. It is Mr. Farm's intention to move his family from this city early in the spring, and before he finds it convenient.

NEW YEAR'S BALL TONIGHT.

Tonight's ball under direction of the Trombly orchestra will be the last of the year in IshpeMING. The orchestra originally intended to give a ball tomorrow night but owing to the fact that the Degree team of the Neguamee Woodmen wanted the complete orchestra for its party a change in the date was necessary. The ball tonight promises to be well attended. Tickets will be \$1 per couple, with twenty-five cents for each extra lady. This will include an oyster supper, which will be served in the hall by F. W. Beal.

ACCEPTABLE CHRISTMAS GIFT.

A committee representing the French tent of the Maccabees of this city called on the widow of the late A. Rikard, the carpenter whose body was buried in the Lake Superior Hard Ore mine for nearly three months, and presented her with a check for \$2,000, the full amount of insurance the deceased held on his life in the order. The presentation was made on Christmas and it certainly made a very acceptable present for the poor woman.

SAW DEATH NEAR.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and all Throat and Lung diseases. 50c and \$1.00 at Stafford's. Trial bottles free.

TAKEN UP—A helper about a year old. Owner can have same by proving property and paying charges. L. H. Harsay. 12-24-11w

LOST—A large center piece and drawer work dolly, between south Third and Division and South First streets. A reward will be paid on leaving it at John Hargis's store. (12-24-11w)

ISHPEMING IN BRIEF.

The Misses Flora and Irene McNulty of Marquette spent yesterday with IshpeMING friends.

Miss Nellie Wadsworth is home on a visit to her parents, Mr. and Mrs. D. F. Wadsworth. She is located at Menominee.

Frank Fitzpatrick is home on a few days visit to his folks. He is located at St. Paul, where he is engaged in railroad work.

B. J. Youren, who has been at Loretto working at his trade as meat cutter for some time past, is here on a holiday vacation.

Will Finigan, who holds a prominent position with the Oliver Iron company at Duluth, spent Sunday with his parents in IshpeMING.

A. D. Bohrer and wife of Hancock are in the city visiting Captain J. H. Rough and family. Mrs. Bohrer is a daughter of the captain and wife.

Charles Young will leave today on a couple of weeks visit to Milwaukee, Watertown and other points in Wisconsin. He may also spend a few days in Chicago before returning.

M. J. Griffin is home from Wisconsin, where he travels in the interest of raisers of blooded horse flesh. He is doing well on his new job and he rather likes the work, though he would much prefer being nearer home.

The IshpeMING Co-operative society is distributing very attractive calendars among patrons of the house. Pictures showing the different departments of the establishment are printed on it. The calendars are in big demand.

C. W. Blodgett, who held the position of general agent of the Chicago & Northwestern Railway company at Houghton for some time prior to a few months ago, spent Saturday in IshpeMING. He is now in the employ of the Sherwin-Williams Paint company.

Fred Hribernig, the first street tailor, has just added a nice line of cloths to his stock and he is now better prepared than ever to turn out suits or overcoats on short notice. Fred is one of the best tailors in the country and he employs first-class workmen. He will be pleased to have persons intending to buy suits or overcoats call and examine his stock, also his samples from which selections can be made.

The concert given Saturday evening at the opera house under direction of the IshpeMING City band was well attended, though the house was not filled to overflowing, as on Thursday evening. Of course this could not be expected, as most of the music-loving people of the city were present the first evening. The program rendered was appreciated by all. The band cleared up a neat sum from the concert.

OLD BUILDINGS TO GO.

New Structures Will Replace Some Now in Use at the Negaunee Mine.

There will be a general clearing out of the old buildings at the Negaunee mine within the next few months. Captain James Piper yesterday informed The Mining Journal that the construction of a new carpenter shop, also a blacksmith shop, will be started here long.

The exterior work at the new dry is about completed and the carpenters will begin finishing the inside this week. Contractor Andrew Lindquist superintended the erection of this building, but the carpenter and blacksmith shops will be built by the mine carpenters.

Another year will witness a marked change in the buildings and general surface appearance at the mine, as much improvement work is contemplated in addition to what has already been done.

One of the two new high pressure boilers at No. 2 engine house is in position and it will not be many days before the other one is installed and ready for service.

There has been no disturbance of the ground from surface since the cold weather set in. The underground workings are now in such condition that further big caves are not liable to occur, particularly in the vicinity of the buildings.

One is being hoisted from both shafts and the management is in a position to considerably increase the output, so far as the machinery and other equipment is concerned.

The reserved seat tickets for the City band concert at McDonald's opera house on New Year's night are selling rapidly at Perkins' drug store.

It is said that the attendance at the opera house Christmas night, when the Methodist Church Sunday school society rendered a cantata, was the largest that ever assembled there at an entertainment of any kind.

John McEwen has gone to Little Lake, where he will have work for himself and his team during the remainder of the winter.

Chas. Replige, Atwater, O., was in very bad shape. He says: "I suffered a great deal with my kidneys and was required to try Foley's Kidney Cure."

For the above occasions the D. S. S. & A. R'y. will sell tickets to all points in lower Michigan via Mackinaw City at greatly reduced rates.

A DELIGHTFUL PARTY.

One Given by the Masonic Lodge Pleasantest Had in Many Seasons.

The old as well as the young people who attended the party Friday evening under direction of the Masonic lodge at its rooms in the Kirkwood block had a happy time. There were over fifty couples present.

The early part of the evening was taken up with an exhibition of stereoscopic views, showing scenes in the Spanish-American war, also the English-Bosnian war.

The members of the Eastern Star served a dainty lunch at intermission. Among those who left to spend their vacation with home friends are Uncle Stephen Davey and James Verellino.

Joseph Hodge recently purchased a new driving horse at Ishpeming. He now sports a very fine team.

Mrs. C. Barnes is in the city visiting her parents, John Bartle and wife. She is now living in Wisconsin.

Will Saw, who is located on the Mesaba range, spent the past few days with his mother and sisters here.

David Versallene is home from Swanzev for a two weeks' visit. He came to spend the holidays with his parents.

George Ryan, who is railroading at Ironwood, returned to that place yesterday after spending a few days with his people here.

John Nicholson, who was injured while railroading near Duluth a few weeks ago, is home on a visit to his people. He is able to be around on crutches.

Charles Murray of St. Ignace, who is working in the copper country, stopped over here on a short visit to friends Friday. He was on his way home to see his folks.

A party of young folks enjoyed a sleigh ride to Cascade Thursday night. Upon their return courses of dainty dishes were served at the home of one of the party.

John McEwen has gone to Little Lake, where he will have work for himself and his team during the remainder of the winter.

Chas. Replige, Atwater, O., was in very bad shape. He says: "I suffered a great deal with my kidneys and was required to try Foley's Kidney Cure."

PRINCETON PENCILINGS.

John Francis, the general clerk of the grocery, is visiting his parents at Ishpeming.

Nellie and Mamie Gaborie, also their uncle, John Savage, from Escanaba, are visiting at the home of Joseph Gaborie.

The mine was closed down for the holidays to make needed repairs and thus many employees were permitted to visit their homes at distant places and enjoy a vacation at their own firesides.

All the employees of the Princeton Mining company were given big, plump turkeys for Christmas. Judging by the happy smiles of each all were well satisfied and appreciated the kindness of the company.

The weather, which had been very cold for a week or more before Christmas, has moderated. The roads are good and it is now very pleasant for the men and teams working here about in the woods.

The Misses Lizzie Thomas and Annie Johnson, who are taking business courses in lower Michigan, the former at Cleary's Business college and the latter at the Ferris Institute, Big Rapids, are at home to spend the holiday vacation.

The schools were closed Tuesday last for one week's vacation. Miss Parks returned to Ishpeming to visit her parents during the vacation and Mr. Bishop concluded to remain in Princeton and enjoy a well-earned rest before again taking up his duties.

All the children of the location were given a sleigh ride Christmas afternoon through the kindness of H. Sperr, the merchant, and the mail carrier, Geo. Tolman. As the day was pleasant all enjoyed it very much.

Among those who left to spend their vacation with home friends are Uncle Stephen Davey and James Verellino.

Joseph Hodge recently purchased a new driving horse at Ishpeming. He now sports a very fine team.

Mrs. C. Barnes is in the city visiting her parents, John Bartle and wife. She is now living in Wisconsin.

Will Saw, who is located on the Mesaba range, spent the past few days with his mother and sisters here.

David Versallene is home from Swanzev for a two weeks' visit. He came to spend the holidays with his parents.

George Ryan, who is railroading at Ironwood, returned to that place yesterday after spending a few days with his people here.

John Nicholson, who was injured while railroading near Duluth a few weeks ago, is home on a visit to his people. He is able to be around on crutches.

Charles Murray of St. Ignace, who is working in the copper country, stopped over here on a short visit to friends Friday. He was on his way home to see his folks.

A party of young folks enjoyed a sleigh ride to Cascade Thursday night. Upon their return courses of dainty dishes were served at the home of one of the party.

John McEwen has gone to Little Lake, where he will have work for himself and his team during the remainder of the winter.

Chas. Replige, Atwater, O., was in very bad shape. He says: "I suffered a great deal with my kidneys and was required to try Foley's Kidney Cure."

SICK MADE WELL WEAK MADE STRONG.

Marvelous Elixir of Life Discovered by Famous Doctor-Scientist That Cures Every Known Ailment.

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy is Free to All Who Send Name and Address.

After years of patient study, and delving into the dusty record of the past, as well as following modern experiments in the realm of medical science, Dr. James W. Kidd, 2538 First National Bank building, Port Wayne, Ind., makes the startling announcement that

DR. JAMES WILLIAM KIDD, he has surely discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving boon.

His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run.

The cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health.

neuritis, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Headaches, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, scurvy, and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once.

To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

Editor Lynch of "Daily Post" Phillipsburg, N. J., has tested the merits of Foley's Honey and Tar with this result: "I have used a great many patent remedies in my family for coughs and colds, and I can honestly say your Honey and Tar is the best thing of the kind I have ever used and I cannot say too much in praise of it."

BUILDING ACTIVITY

IT IS INDICATED FOR MARQUETTE THE COMING SEASON.

WILL NOT BE BOOM. HOWEVER

STEADY WORK THAT IS PROMISED FOR THE CONTRACTORS.

Residences to Constitute the Great Bulk of the Structures to Go Up, and for This the House-Renters Will Be Thankful.

Talks with contractors and other gentlemen posted in that line, lead to the belief that the coming year will be an active one in building, but not to an astonishing extent. There will be a number of residences, one or two business buildings and probably a manufacturing structure, in addition to the school buildings and the depot.

The contractor, however, is just like the real estate agent, the architect and everyone else except the holder of real estate, who wants to unload at high prices—he does not want a boom. He wants activity, steady work and not a tremendous burst that would result in overdoing things, leaving after it several years of stagnation.

A building boom would crowd every contractor beyond a reasonable limit, would bring in a large number of new builders and would generally demoralize affairs. That is what the contractors do not want to see. At the present time there is little doing in the way of building, but enough projects are planned to assure steady work for some time to come after the season opens in the spring. That is exactly what the contractors want, and they feel that it will continue, the conditions in the city and the prospects for growth being such as to assure steady work during the building season.

One class of people in the city undoubtedly would be glad to see a building boom. These are the house-renters. They feel that there is a dearth of houses in Marquette, that rents are higher than they ought to be, making the cost of living high, and that a building boom would result in getting rents down to a lower basis. There is no question that desirable houses are very scarce, and it would seem that there is a golden opportunity for investment in the way of the construction of dwellings or flats or apartment houses.

OLD BROCTON WINE. Can be procured at Stafford Drug Co.'s store. (10-19-tf)

MINING LEASE FILED.

Oliver Company to Develop the Race-track Property at Negaunee.

A lease from Captain S. S. Mitchell and other members of the Mitchell family to the Oliver Mining company has been filed at the office of the register of deeds. The conveyance runs for fifty years from and after the first of May, 1901, and is for an undivided one-half interest in the mineral rights of the lands at Negaunee known as the "race-track" property. Except for the first two years, the Oliver Mining company agrees to pay at least \$3,500 per annum in royalties, the royalty being 15 cents per ton of 2,240 pounds for all Bessemer ore above 58 per cent, in metallic iron and 7 cents for all other ore, the Bessemer ore to be graded one-thousandth of phosphorus for one unit of metallic iron. Provision is made for an accounting of such rights in the property as the same may determine George Maas and others involved in the litigation now pending, to be entitled.

INSTRUCTS AND ELEVATES.

"Toll Gate Inn" a Play of the Refined Type—Here Jan. 7.

The introduction of such plays as "Toll Gate Inn" to the stage is a refreshing indication of the passing, to a certain extent, of nonsensical, boisterous, so-called comedies and the sensational melodramas with improbable if not impossible plots, and the substitution of a class of theatrical productions that instruct and elevate.

Perhaps no better play of this latter class is before the theatre-going public of today than "Toll Gate Inn," which will be at the opera house Thursday evening, Jan. 2, after an absence of two seasons. Dealing in theme with colonial times, it tells a charming story of life among the green hills in Vermont during the Revolutionary period, when our gallant Continental boys defended their homes and aided valiantly our country against the attacks of the red coats.

The play by reason of its picturesque scenes, quaint and historic costumes, must be correctly staged and intelligently interpreted to be thoroughly appreciated, and Manager William L. Malley has gathered together a company of superior ability, including William Beach, a romantic actor of recognized standing, whose work has received high praise from the leading dramatic writers. A carload of scenery, accessories and costumes are also supplied, and a sumptuous production is promised.

A thousand things by it are done far better than most things do one. We refer to Rocky Mountain Tea made by Madison Medicine Co. 35c. Stafford Drug Co.

PRESENTS TO CUSTOMERS.

On New Year's day I will give the following prizes to my customers: First prize, a \$10 meerschaum pipe; second prize, a \$4.50 amber cigar holder; third prize, box of \$4 cigars; fourth prize, a \$3.75 briar pipe; fifth prize, a five-pound box of candy, valued at \$3. One ticket free with each ten-cent purchase. (11-15-tf) FRED DONCKERS.

STRENGTH IN STOCKS CONTINUES.

Good Buying Demand Lifts the Coppers to a Still Higher Notch.

Copper stocks again were strong Saturday, and good gains were left at the end of the short session's trading. Concerning the market, Paine, Webber & Co. said:

"The continued strength of coppers after the advance of the past few days is an encouraging symptom. It proves that the people who bought stocks on the break expect to get better prices for them. There is a good buying demand in nearly all the coppers, and the indications point to higher prices next week. Nothing official is being given out regarding a settlement of the war in the copper market and it is safe to predict that nothing will be given out until the stock market has discounted it."

Hayden, Stone & Co., who wired the Laidley Commission company, were not so optimistic over the outlook. In its market letter the concern said: "The local coppers were firm today in sympathy with the New York market and Amalgamated. We think the rally has been a very fair one and should be inclined to take profits on this advance, as with the present metal conditions we do not believe they will make large returns on present prices."

Walker Bros said of the Wall street stocks: "The market today showed further good buying. The commission houses have been more active during the day and, in fact, during the past two days than for some time. The leading issues more particularly were strong and there was activity and strength in the Colorado Southern issues on vague rumors of consolidation. On the appearance of the bank statement, which was decidedly more favorable than anticipated, there was some profit-taking which for a short time depressed the market, but the losses were very quickly recovered and the market closed very strong at about the top of the day and week. The shorts were forced to cover in Sugar, and there was a better feeling in regard to Amalgamated, which was strong. The indications are for a strong opening next week."

Hookey wired from New York, "I am told Amalgamated will be much higher between now and Monday night."

Wheat and Corn Lower.

Paine, Webber & Co.'s Chicago correspondent said of the grain markets: "Wheat—May closed 81½; Friday's close, 82. Liverpool was ½d higher. Primary receipts, 648,000, against 444,000. Shipments, 155,000, against 240,000. The clearances were 416,000, and for the week 4,300,000. The market opened higher on the strong Liverpool market, but the support seemed slack and the offerings increased in volume. When the steam is not on the market feels the effect of the large stocks. Speculation is on the whole quite bullish, but the load is large."

"Corn—May closed 66¼; closed Friday at 66½. Liverpool was ½d unchanged to a quarter higher. Primary receipts, 383,000, against 799,000. Shipments, 301,000, against 386,000. The market continues dull and the tone is heavy. Prices are not receiving much support from the cash situation, as the demand is not sufficient and cash stuff is pressing more or less for sale. The

speculative interest is manifestly curtailed by the high price."

PATTERSON THERE.

Marquette's Deputy Commander Attends a Maccabee Conference.

A number of deputy great commanders of the Maccabees met with Major Boynton Friday and Saturday at Saginaw and were in session discussing important questions relative to the work during the ensuing six months.

As is well known Major Boynton and his followers are seeking to carry the great camp of Maccabees out of Michigan and extend it to all sections of the country for the reason that the membership in this state is so large as to make it impossible to much longer keep up the increase and the assessment rate down. Mr. Boynton stated at the conference that the Maccabees are practically favor of expansion outside of those under the influence of the supreme tent, a rival order. Situated down, it is a fight between the grand and supreme officials on the question of going outside Michigan, the latter at present having complete jurisdiction beyond the state limits, and not wishing to abdicate.

Among the deputy great commanders present at the meeting was James Patterson of Marquette.

REAL ESTATE TRANSFERS.

Since the last report real estate transfers have been recorded at the office of the register of deeds as follows:

Laura H. Clark to Alexander Bentli—Northwest quarter of the northwest quarter of Section 9, 47-29, Humboldt township.

Erick Erickson to Alfred Simon—Forty acres in Section 8, 45-23, Scandia township.

United States to John Grant—East half of the northwest quarter of Section 14, 42-26, Forsyth township.

Michigan Land & Iron company to W. H. Johnston—Fractional northwest quarter of Section 15, 46-28, Ely township.

United States to John Cocklin—Southwest quarter of Section 5, 50-28, Champlain township.

Alex. I. McDonald to Charles J. Dexter—South half of the northeast quarter and north half of the southeast quarter of Section 12, 50, 29, Michigan township.

Edward Arnold to George M. Mashek and Edward Arnold—Lands in Section 12, 42-25, Forsyth township.

Lillian A. Wilkerson to Oliver Mining company—Lot No. 2, Block 34, Pioneer Iron company's addition, and five acres in Negaunee.

Frank Lattrell to Alexander Lattrell—Lot No. 47, Penny & Vaughn's addition, Marquette.

James Lattrell to Alexander Lattrell—Lot No. 47, Penny & Vaughn's addition, Marquette.

Emeline Johnson to Raphael Pumpel—Fractional south half of the northeast quarter of Section 8, 45-20, Republic township.

The beautiful presents that Fred Donckers is going to give away on New Year's morning can be seen in his window today. (12-28-34)
