CUBAN RECIPROCITY

ACTIVE CANVASSING CONTINUES AMONG HOUSE REPUBLICANS.

THIRD CAUCUS TO BE HELD TODAY

MAJORITY IS CLAIMED AGAINST THE PAYNE PLAN.

Mr. Payne and Associates Do Not Concede This and Express Belief That Concession Will Be Ultimately Granted.

Washington, March 5.—Speaker Henderson and Representative Cannon of Illinois today discussed with the president the subject of Cuban reciprocity and the sentiment thereon in the house.

Active canvassing continued among the Republican members today preliminary to a third caucus on Cuban reciprocity to be held tomorrow night.

Cabinet Members Called On.

During the day several members of the cabinet were called on by Mr. Towney, of the ways and means committee, who has proposed a rebate plan as a substitute for Payne's reciprocity plan.

Later in the day Representative Towney called at the White House and had a conference of nearly an hour and a half with the president.

President's Position Clear.

The president is understood to have made his position quite clear and in so doing is said to have removed several misapprehensions which have been abroad of late.

IMMIGRATION BILL

HOUSE COMMITTEE ORDERS A FAVORABLE REPORT.

VOTE ON SHIPPING BILL

SENATE FIXES A WEEK FROM MONDAY AS TIME.

House Continues Debate on Bill to Classify Rural Free Delivery Service but Adjourns Without Action.

WASHINGTON, March 5.—The house committee on immigration today unanimously ordered a favorable report on the general immigration bill. It codifies all existing laws and perfects administrative features.

As finally agreed to the bill increases the head tax from \$1 to \$1.50. Another general provision extends to five years the period during which immigrants may be deported if they become public charges.

The educational test, which was proposed as a feature, was omitted in the final draft and will be incorporated in a separate measure.

Shipping Bill in Senate.

It appears likely now that the senate will reach a vote on the pending shipping bill one week from next Monday.

Senator Frye, in charge of the measure, endeavored today to secure an agreement for the time of taking a vote that date was mentioned as being satisfactory to the minority members of the commerce committee.

Senator Clay of Georgia addressed the senate today in opposition to the bill and had not concluded when the senate adjourned.

He made a forceful and interesting argument, which was given careful attention by his colleagues.

Early in the session the senate passed the legislative, executive and judicial appropriation bill, the second of the big supply measures to be acted on at this session.

Lodge's Amendment in House Bill.

Senator Lodge's amendment has been incorporated in the house Philippine bill, which provides that whenever it is certified to the president that the existing insurrection in the Philippines shall have ceased and peace is established, a general election shall be called for the choice of delegates to a popular assembly.

Legislative power conferred on the Philippine commission in all that part of the archipelago not inhabited by non-Christian tribes, shall cease and be vested in a legislature consisting of two houses—the Philippine commission and the assembly. Three resident commissioners to the United States are to be elected.

PREFER AMERICAN AGENTS.

Yankee Business Firms Find European Representatives Slow.

Frankfort-on-Main, March 5.—The big American insurance companies are introducing Yankee agents throughout Europe. Many other American concerns, notably the flour trust, are following their example.

American manufacturers have discovered that the native representatives are too slow and that they frequently employ dishonest devices to retard the sale of American goods in favor of home articles.

RICH FIND MADE IN KLONDIKE.

Prospector Discovers Valuable Bedrock When Abandoning Claim.

Vancouver, B. C., March 5.—A special dispatch from Dawson tells of one of the richest finds reported for a year in the Klondike.

Richard Butler, owner of Discovery mine, was about to abandon his property when he discovered an old bedrock, many feet below the first one, from which he took out \$15,000 in one day.

One pan of earth alone washed out \$600 in gold.

Other claims are now being prospected for in this bedrock.

NEW BOOK BY THE PRESIDENT.

His Manuscript of "The Deer of North America" Just Completed.

Washington, March 5.—President Roosevelt has just put the finishing touches upon the manuscript of a new book which will soon be published.

It is devoted to scientific research into the habits and habitat of the deer family, including the elk and the antelope of the western prairie.

Most of this copy was prepared before Mr. Roosevelt became president and it now needs only slight revision before going into the hands of the publishers.

The title of the book will be "The Deer of North America."

SUSPECT RUSSIA'S DESIGNS.

Norwegians Are Alarmed at the Activity of the Czar's Spies.

Christiania, March 5.—Alarm again prevails in Norway over the presence in the country of large numbers of wandering Russian spies in the guise of sea shavers.

A Russian general staff officer was recognized at Kongsberg Monday while pretending to seek work. He speedily disappeared.

Barrister Sahlgren of Christiania, arrested in Paris at the instance of the Norwegian government on a charge of embezzlement, has been found guilty of offering his services to the Russian government in the capacity of a spy.

Incriminating documents were discovered in Sahlgren's home. The country's apprehensive distrust of the attitude of the czar's government cannot be exaggerated.

MISS ROOSEVELT TO SEE CUBA.

President's Daughter Invited to Visit Governor and Mrs. Wood.

Washington, March 5.—Miss Alice Roosevelt, whose experiences of travel and society are already far beyond the ordinary, even for a daughter of the president of the United States, has accepted an invitation for a visit of several weeks to the governor general of Cuba and Mrs. Leonard Wood, at the governor's post.

Miss Roosevelt will leave for Cuba next Sunday, accompanied by a maid and chaperoned by Mrs. Harriet Blaine Beale, who is also to be a guest of Governor and Mrs. Wood.

As in the case of her proposed trip to London, the Cuban visit is of unofficial character, but will necessarily lead to much entertaining in honor of the daughter of the president.

CHINESE REBELLION SPREADING.

Propaganda of Insurrection Includes Overthrow of Manchu Dynasty.

Hong Kong, March 5.—The rebellion in Kwang Si province is spreading rapidly. Signs of unrest are already apparent at Kwe-Lin and Nan-King, the newly opened river treaty ports.

The Canton victory has dispatched troops to the scene of the disturbances and has stationed over 1,000 men at Kwe-Lin and Nan-King for use in case of eventualities. The rebels are believed to be former soldiers of Marshal Su, who were disbanded on his promotion.

Their propaganda, which has spread far and wide, includes the overthrow of the Manchu dynasty, the founding of a Chinese dynasty and helping the oppressed and needy Chinese.

The French are said to be secretly supporting the rebels.

Pekin, March 5.—The government has ordered Marshal Su to resume command of the rebellious soldiers in Kwang Si province. It is doubtful if he will be able to control them, as it is necessary

DOCK SCANDAL IN THE PACIFIC.

Russian Government Will Investigate Naval Contract Frauds.

St. Petersburg, March 5.—The Petersburgskaja Gazeta repeats a story of an amazing scandal in connection with the projected Russian Pacific port at Delni Talenwanan.

The story is taken from a local Siberian newspaper. It is alleged that the undersecretary of finance, M. Kokotzoff, has discovered that the huge piers specified in the contract are represented merely by masts in the sea showing where they should be constructed.

It has also been found that the docks intended to hold the largest ocean-going ships are too small to accommodate even ordinary coasting vessels.

Buildings intended to serve as warehouses and magazines were so badly put together that many of the ceilings fell in before the structures were completed.

The government has ordered all credit for the works to be stopped and has recalled M. Sakharoff, the chief constructor to St. Petersburg.

CUBA SHOULD BE ANNEXED.

Editor of Havana Paper Gives Views Regarding Island.

Washington, D. C., March 5.—Don Antonio San Miguel, the editor of La Lucha of Havana has been in Washington for several days in consultation with those interested in the solution of the Cuban question.

San Miguel expresses the opinion that the annexation of Cuba to the United States is the only step which will place the island upon a permanently peaceful and prosperous basis.

He believes it to be a matter for regret that the policy of the government of occupation did not direct the trend of local sentiment toward such an arrangement from the beginning of American military administration.

He holds at that period annexation might have been virtually forced without fear of provoking popular interest.

At that time Cubans, as well as resident Spanish property-holders of Cuba, would have welcomed a civic administration based upon the general territorial laws of the United States.

Now, however, he claims, it would be hard to bring about the annexation of the island through popular vote of its people unless full statehood could be guaranteed.

In the late canvass for president of Cuba, La Lucha supported General Maso and opposed his successful candidate, General Palma.

He thinks the latter's election, brought about by American influences, was a mistake, claiming that Palma will only be able to sustain himself in office so long as American troops remain at his disposition.

The Cuban gendarmes, as now organized, he says, cannot maintain order, nor protect the plantations from the depredations of bandits, who, to the number of 500 or 600, scattered in twenty or more bands through the sugar and tobacco belts, continue as in old Spanish days to collect black-sheep from the wealthy planters and to harass small farmers.

These bands, he says, are composed of the same class of men that were drawn upon by Gomez and Maceo in 1895 to form the nucleus of the last Cuban revolution, and by designing parties might again be welded together to form a formidable opposition to General Palma's coming regime.

TRADERS SELLING COPPERS. Death of Lewisohn Adversely Affects the Boston Market.

All coppers are weak, said Hayden, Stone & Co. of Boston yesterday, partly in sympathy with the New York market and on liquidation by people who feel that the death of Leonard Lewisohn may throw a cloud over the market. Mr. Lavin apparently wants to shake out the speculative element in Trinity. Paine, Webber & Co. said: "Floor traders offered copper stocks down this morning, their apparent object being to get some cheap stocks. On the decline there was good buying all around the room. The trading element is now understood to be on the long side of the market and consequently bullish. Copper is working a little firmer in London and there is a good sized short interest in Amalgamated. It looks as if everything favored a substantial rally. We believe that good coppers are a buy at this level."

New York Bull bet Firm.

Of the New York market, Lidenburg, Thadman & Co. said: "The market was very narrow today, but after the first hour the tone was steady and a number of the specialties scored advances. Prominent among these were the Colorado Southern issues, which were unusually active. Chicago & Northwestern, both common and preferred, sold at record prices. The strength of the market was rather surprising in view of the higher rates for call money, still the monetary situation is improved in some ways. Of the gold engaged for export, only a small proportion will go by tomorrow's steamer and the loss to the banks in the sub-treasury operations has been reduced by the government purchase yesterday of \$1,000,000 of bonds. Then, too, some authorities think that there has already been a considerable reduction in loans this week. The market, however, is professional and most of the trading represents the business of pools, managers and chaps."

Grains About Stationary.

W. H. Laidley & Co. said of the Chicago markets: "The cables on what about followed us and the market opened at last night's prices but remained exceedingly dull and quiet. The Southwest sent in bull news and bought some wheat, causing a slight rally toward the close. The receipts here were considerably over the estimates. The Northwest receipts were light on account of bad weather and may continue so for some time. The primary receipts and shipments were light, and the clearances were fair. New York reported a small export demand. While the bulls may be able to put the price of wheat up on damage reports, we are daily getting near the new crop and the market will eventually sell lower. For the present, it is a waiting market and small profits should be accepted."

Corn opened at last night's close, up on unresponsive cables, but turned strong upon good buying. Toward the end of the session the prices eased off and closed at near last night's. The receipts here were above the estimates, with the primary receipts and shipments light. The high price of our corn is developing big shipments from other countries, which mitigates against our exports. We believe the price is high enough for the present and we advise the market's sale upon bulges.

"Oats opened slightly lower than last night, had a small rally and then turned weak, closing slightly under last night. There is no doubt that the May option is cornered and that the manipulators can put the price anywhere they please. The contract stock here is only 430,000 bushels. We look for higher prices. Buy on the breaks and do not forget the spread between the July and September options."

TODAY'S WEATHER. Washington, March 4.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy. Thursday; probably snow or rain in northwestern portions; Friday generally fair; variable winds.

NEW YORK STOCK MARKET. Speculative Sentiment Is Reassured Over the Money Outlook.

New York, March 5.—Speculative sentiment was somewhat reassured today over the money outlook, and the rather acute weakness with which the trading ended last night was overcome after a time. It was in evidence during the morning but the market gradually settled back into its recent condition of dullness and spottiness, specialties again coming to the front. There were some fairly sensational gains here, which served to keep the undertone of the narrow market steady.

The money market failed to show the sudden contraction of supplies which was dreaded yesterday as a result of the unexpectedly heavy demands converged upon the New York market. The movement to San Francisco had some puzzling features about it, and the application to the Washington authorities for permission to transfer from \$50,000,000 to \$60,000,000 to San Francisco aroused surmises as to other possible demands beside the traction merger.

Closing prices of stocks are reported by Bigelow & Co. as follows: Union Pac. 107 1/2, N. Y. Central 102 1/2, Southern Ry. 96 1/2, St. Paul 131 1/2, Rock Island 75 1/2, Northern Pac. 64 1/2, St. Louis 63 1/2, Reading 67 1/2, B. & O. 68 1/2, Metropolit. 67 1/2, C. & N. 67 1/2, Canadian Pac. 112 1/2, T. Range of Money Rates. Money on call, steady, at 2 1/2 to 3 per cent. Prime mercantile paper, 4 to 4 1/2 per cent. Exchange, steady, demand \$1.87 1/2, 60 days at \$1.85 1/2. Bar silver, 64 1/2.

CHICAGO GRAIN MARKETS. Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, March 5.—Wheat today was unsettled, closing 1/2 to 3/4 higher, but showing reactions of 3/4 to 1/2. The best prices reached, May sold between 76 1/2 and 76 3/4, opening at 76 1/2 and closing at 76 1/2. Around the top prices leading lots started to unload and the market weakened. The selling was general at a late hour with profit-taking a feature. The Southwest turned seller late. The cash business was dull. The advices from the Northwest were bullish and had more or less influence on the market. The local receipts were thirty-seven cars.

Corn was irregular but the market held within 1/2 to 3/4. Profit-taking was general for the day. A strong feature was the cause of the set-back late in the day. The bull party in corn was again on the buying side and there was a moderate demand from the Southwest, which coupled with the further talk of decreased receipts at all points, and smaller country offerings was a strengthening influence. The local receipts were larger than expected—113 cars. Liverpool was unchanged on the nearby future and 3/4 higher on the deferred.

Oats ruled fairly active at times. May was bid up 1/2 early by local interests but the increased offerings carried the price 1/2 lower and the close was easy at a net loss of 1/2. Distant months advanced 1/2 but lost it and closed a shade easier. Selling on advance was the selling of May by the same brokers who have been at it for several days. They also bought July.

The leading futures ranged as follows: May, opening at 76 1/2 to 3/4; highest, 76 3/4; lowest, 76 1/2. May corn opened at 61 1/2 to 3/4; highest, 62 1/2; lowest, 61 1/2; closed, 61 1/2 to 3/4. May oats opened at 44 1/2; highest, 44 1/2; lowest, 44; closed, 44 1/2 to 3/4.

Receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 52,000 32,000. Corn, bushels, 85,000 31,000. Oats, bushels, 155,000 108,000.

Troubles that Lead to Insanity and Suicide Result from a Diseased and Disorganized Nervous System.

PAINE'S CELERY COMPOUND The Great Banisher of Nervousness in all Its Forms.

Are you a victim of melancholia, and do you brood from day to day? Does the shriek of the steam whistle, the rattle of wheels, or the clangor of bells cause you to start and shiver? If this is your condition, be assured your case is extremely critical. It is fitting that you should investigate your condition at once. If you are sleepless, depressed in spirits, if your mental movements are slow, if you are subject to terrifying hallucinations and an aversion to food, we say with all earnestness, beware of insanity and suicide.

The science of medicine has, thank Heaven, furnished a means for the banishment of all the troubles referred to. Paine's Celery Compound is the great restorer and builder of the weakened and shattered nervous system. This marvelous prescription of Professor Edward E. Phelps, M. D., D. D., begins its work directly on the nerves by having them up; it strengthens tissues and muscles; it causes pure life giving blood to flow freely to every part of the body, carrying health, vigor, joy, and happiness into each hour of life. Beware of remedies that have no merit or reputation to commend them, they simply aggravate existing troubles. Ask your druggist for Paine's Celery Compound, the medicine that never disappoints.

WILL RETURN TO NOME.

Charles Lind and Isaac Gustafson Will Leave for Alaska in May.

If there is wealth in the Nome gold district for Charles Lind and Isaac Gustafson of this city they are going to find it. They have planned to leave here in May with a view to spending the summer, and possibly next winter and the following summer, at Nome.

Both have claims in the district, and with the knowledge of the country which they possess and the experience they have had up there it will be strange if they do not come out with a good stake. Lind is owner of a placer claim that gives promise of good things and a quartz claim he filed on a short time before leaving should also turn out well as some very rich quartz was discovered on it.

It is the only quartz claim in the district. Mr. Gustafson has a placer claim a short distance from the one on which Lind filed and they are on the same creek.

The Ishpemingites feel certain that their next trip to the gold fields will result in big winnings for them. They are familiar with the country and the methods employed in working the claims. If they are as rich as they expect it will be a question of but a short time when they will reap a rich reward.

At the time Mr. Lind came away the Pioneer Mining company which is composed of John Brynteson, the Jofret Lindberg and Erick Lindblom, threatened to bring suit against him. Lind was working for the company when he struck the rich quartz. The laws of Alaska are such that the owner of a placer claim has no right to quartz found on such a claim unless a separate filing is had. As soon as Lind made the discovery he filed and the Pioneer people were provoked about it. It would seem that as Lind has the law on his side that he will have little difficulty holding the claim.

Stock Company Organized.

The partnership of the three men comprising the Pioneer Mining company has been dissolved and their holdings recently passed to control of a stock company. A number of New York capitalists have become interested in the enterprise and a large number of the shares of stock will be placed in that city. The company is capitalized with \$6,000,000 shares, having a par value of \$1. The stock is being sold at fifty cents a share and it will be non-assessable. One million shares will be held as treasury stock.

Brynteson and Lindblom are not taking large blocks of the stock, though they are still interested. Lindberg is one of the heaviest stockholders in the corporation and at a meeting held recently he was chosen president of the company. He will remain at Nome and assist in the management of affairs.

In view of the big money which the three partners pulled out of the claims it would seem that the stock should sell readily. During the three summers they operated the claims their gross earnings footed up over \$2,400,000. Their operating expenses amounted to twenty-six per cent of the gross, leaving a net profit divided among the three partners during the three seasons, of a little over \$800,000.

Men who are in a position to know are satisfied that Brynteson and Lindblom have saved the greater part of their wealth, but Lindberg has gone through quite a snug fortune. The new corporation owns twenty-six claims, all of which will yield gold.

In a circular sent out by the promoters of the company it is stated that the claims will be worked with the aim of winning big profits for the share holders. Machinery and modern appliances of different kinds will be put in. It is thought that the percentage of profit will be larger under the new corporation's management than it was under the old. Last year Brynteson and Lindblom did not go to Nome at all, being satisfied to enjoy life in the states and abroad and receive their share of the profits sent them by Lindberg.

WILL REPAIR BIKES.

John Connors and John Downing, two young and well known men of this city, have formed a co-partnership and will engage in the business of repairing bicycles. They have had considerable experience in that line and understand the business thoroughly. During the past three or four years the men have worked from time to time at Alex Erickson's shop. The boys are now looking for a desirable location. They have purchased a complete equipment of tools and expect to be ready for business within a week or so.

FRENCHMEN HOLD MEETINGS.

Representatives of the French American voters of Ishpeming have held a couple of meetings during the past week and another will be held tomorrow evening. On Saturday night the delegation will again assemble to decide on the date for a public meeting to be held for the purpose of discussing municipal politics. The Frenchmen intend to ask for recognition, and it is quite likely they will decide to give their entire support to one party. The public meeting will be called for some evening next week.

BALL ON ELECTION NIGHT.

A ball will be given here on election night, April 7, under auspices of Jacques Cartier tent of the Macabees. It is the intention of the arrangement committee to invite members of the society at other places in the county to attend and to make the ball one of the biggest affairs of the kind that has taken place in the city in a long time. The complete Trembley orchestra has been engaged to furnish the music.

A COMMITTEE NAMED.

Local Elks Will Invite Delegates from Other Lodges to Meet Here.

The members of the local lodge of Elks are manifesting some interest at the next annual reunion of the society to be held at Salt Lake City, Utah, in August, and it is quite possible that a number of them will take the trip.

At the regular meeting Tuesday evening a committee was named to represent the lodge at a meeting to be held soon for the purpose of devising a plan to have all lodges of the upper peninsula to attend in a body. The committee is composed of Dr. J. H. Andrus, Dr. C. M. Leonard and George B. Sedgwick.

The committee was instructed to invite the other lodges of the upper peninsula to send delegates to this city at a time to be designated by the local committee. The men who are manifesting the greatest interest in the trip do not believe it wise to call the meeting at a very near date. It is their idea that the matter be thoroughly discussed at the lodge sessions, with a view to arousing interest among the members. In this way the delegates will come to the meeting prepared to state about how many can be expected to turn out from each lodge.

The local members seem to be very favorably impressed with the proposition of the Escanaba Elks and the railway officials outlined in this department one day last week. Sleeping cars will be a reasonable figure, and porters, cooks, and other attendants go with each car. In case a sufficient number take the trip to fill six cars a special train will be made up, composed entirely of upper peninsula Elks. It is figured that the members can live in the cars, going out and returning, to take a trip to Salt Lake at such a small outlay and many of them count on going.

BYE TO GIVE AN EXHIBITION.

Noted Skier Will Endeavor to Make a New Record Sunday Afternoon.

Gustav Bve, the noted skier and jumper, will give an exhibition at the Bryant hill next Sunday afternoon, commencing at 5 o'clock. It is thought the slide will be in good condition for jumping, even should the soft weather continue the remainder of the week. It is the intention to place fresh snow on the slide Saturday and Sunday morning.

Bve has fully recovered from the injury he received while making a jump a few days after he arrived in this city and he thinks he will make a new record, if not for himself, at least for the hill. His best jump is ninety-three feet, which he made in Sweden. He has jumped seventy-one feet on the local hill, and that with his arm in bad shape.

The members of the club are anxious to see a large crowd out. Tickets for seats in the grand stand will be sold at fifty cents each and the proceeds will go to Bve. All the best local jumpers will assist in the exhibition.

The world's record of 108 feet was broken about three weeks ago in a contest at Christiana, Norway. Albert Wuller, a Norwegian, made the phenomenal jump of 117 feet.

ISHPEMING IN BRIEF.

George Voyer was down from Republic yesterday.

Dr. G. D. Beech of Beacon was an Ishpeming visitor yesterday.

Mrs. G. G. Barnett entertained the members of the Pioneer club at her home Monday evening.

Wagons will soon be in order here if there is not a change in the weather. Much of the snow that fell Sunday disappeared yesterday.

A competent girl to do general housework can find a desirable place at 310 West Euclid street. Good wages will be paid the right party.

The interior of W. J. Roberts' jewelry store in the Mine Workers' Union hall is being repainted and otherwise improved in appearance. Mr. Roberts has a very neat store.

Mrs. C. E. Thompson of Duluth was called home on account of sickness in her family. She is the daughter of Mrs. Anthony Sveek of Lake street.

J. McLennen of Duluth was a Hemetia City visitor yesterday.

Members of the Ishpeming Light Guard have begun hustling the sale of tickets for the company's second annual ball to take place at the Anderson hall on Easter Monday, the 31st inst. The boys intend to make the party a big social success.

A meeting of the members of the "Nezamee & Vicinity Blacksmiths' association" will be held tomorrow evening at 8 o'clock at J. C. Altschwaeger's blacksmith shop on East Cleveland avenue. The officers of the association will be pleased to see a large attendance of the members.

Local political talk is beginning to warm up. No less than a half dozen citizens are mentioned for the mayoralty, though none have yet announced that they stand ready to accept the nomination on any of the tickets. Candidates for ward offices are slow in coming out, though it is certain that the next ten days or two weeks will see a number of them hustling for support at the caucuses.

CURES WEAK MEN FREE.

Insures Love and a Happy Home for All.

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, varicocele, etc., and enlarge small weak organs to full size and vigor. Simply send your name and address to Dr. Knapp Medical Co., 2125 Hull Bldg., Detroit, Mich., and they will gladly send the free receipt with full directions so any man may easily cure himself at home. This is certainly a most generous offer, and the following testimonial taken from their daily mail, show what men think of their generosity:

"Dear Sirs:—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sirs:—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory."

"Dear Sirs:—Yours was received and I had no trouble in making use of the receipt directed, and can truthfully say it is a boon to me. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain, sealed envelope. The receipt is free for the asking and they want every man to have it.

The old shaft on the Pike property at Wakefield has been shut down, throwing about 150 men out of employment. It is reported that too much water was encountered to insure profitable working of the shaft. The Pike is located on the north shore of the lake at Wakefield.

More than 100 wildcats have been killed this winter in Baraga, Houghton and Keweenaw counties. Baraga county holds the palm, however, as regards the number of wolves slaughtered, several hundred dollars in bounty money having been disbursed at the county treasurer's office.

The postoffice at Little River in Menominee county has been discontinued for the reason that no one could be induced to accept the appointment when W. B. Bigger resigned. The farmers want rural delivery and Congressman Sheldon has assured them that they will get it as soon as the road connecting the county and state roads is completed. The mail addressed to Little River will be delivered from the Menominee postoffice.

Anders August Bergquist, a farmer of Stonington, Delta county, is dead. His was a very peculiar case. The man had for years been in the habit of eating food red hot of the stove. In this way he had fairly burned out his mouth and stomach and several times had been compelled to go to the hospital for treatment. It seems to have been an inextinguishable habit, which nothing could break him. The climax came the other day when he drank boiling water to such an extent as to cause his death.

A company composed of a number of Iron River's citizens has been organized with a capital of \$5,000, for the purpose of erecting a shingle mill and putting in a cedar yard for the handling of posts and poles. The business men's association has donated the use of the Mackinac land north of the stove factory, and active operations will be at once commenced erecting the mill. The company has already secured enough timber to keep the mill running for several years.

Employment will be given to from fifteen to twenty-five men, and the new enterprise will be of much value to the town. The company is already in the market for cedar bolts, posts and poles.

The order promulgated by the Soo police department, closing saloons on Sunday, was rigidly obeyed last Sabbath. One effect of the order was noticeable on a section of the south side that is gradually coming to be the Soo's "Little Italy." The saloons in the vicinity did a big keg beer business Saturday night and little parties of Italians could be seen hauling kegs of beer on sleighs to their various homes for Sunday consumption. The police expected some trouble from this condition, but the keggeries resulted in no disturbances. As a result of conditions on this side of the river, Soo, (Ont.) third parlors did a good stroke of business. Notwithstanding the rotten condition of the ice, many took a chance and picked their way to the other side, where the rules were not so strenuous. Some also went over on the train.

Those who suppose that the Northwestern and St. Paul railroads are engaged in a cat and dog fight over the ore hauling of this district, says the Crystal Falls Diamond Drill, are greatly mistaken and as an evidence of the friendly feeling existing between these two companies we may point to the fact that the new spur track now being built to the Great Western mine is a joint track and that the expense of its construction will be shared equally by each road and not, as generally supposed, be borne wholly by the St. Paul, although the construction of it is under the direction of the St. Paul officials. This means that the ore from the Great Western mine will be hauled by both roads and that the company will thus be assured of good dispatch in the movement of its ore as the railroad companies will be more anxious to see that cars are supplied when two roads have access to a property than when one road has the monopoly.

The Escanaba Iron Port says that a certain physician, which it names, "recently discovered another case of small-pox in Rapid River. The health authorities instituted an investigation, and three reputable physicians were engaged to diagnose the case. All three refused to confirm the doctor's theory, making affidavit in direct contradiction to his expressed opinion. The patient, one Callahan, had been quarantined in the pest house, and upon learning of the physicians' verdict demanded his release, and was given his liberty by the health authorities. There are circumstances in connection with this and other alleged small-pox cases which reflect no inconsiderable discredit upon the physician against whom the allegations are made. It would appear from information furnished by men of unquestioned veracity that he has attempted to force three 'small-pox' cases upon the community

in development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run. The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares (par value \$1.00) each, fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public. Do not lose this opportunity. GREAT DEVELOPMENT

In Florence—The Splendid Showing of the Banner and Ozark Has Stimulated All Other Mining Enterprises.

J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho.

In an interview with The Star reporter, Mr. Taylor said: "The Banner is working sixty men in getting their mine ready to start as soon as the hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$60.00 ore in another drift. This property was bought by a New York syndicate composed of Henry Clews, Arbuclle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property today is hard to estimate as they have a million dollars worth of ore blocked out.

"The Ozark mine lying north of the Banner is also drifting on a twenty-four foot ledge on the 100 foot level, and there is no question but that it will develop into a great mine, as it has the richest ore in the camp and has a greater showing as far as developed than the Banner. They expect to get the mill now on the property started by the first of March and add stamps enough as soon as the roads will permit in the spring to make their capacity 100 tons per day, and with these two big mines with others that are getting ready to start, the people of Florence are looking for a great boom in the spring. The town of Florence is full of mining men looking for bonds on property where the owners are not able to do the necessary development work to put the property on a paying basis but as usual the prospectors' idea since the development of the Banner and Ozark is such that they are hard to deal with in the way of price, but the people who are looking for the property have made liberal offers since the Banner and Ozark started, and I am satisfied will pick up most of the best properties between now and spring."

CRUSADE AGAINST SALOONS.

Rev. C. M. Gilchriese and Members of His Congregation After Liquor Men.

According to Rev. C. M. Gilchriese, pastor of the Mitchell Methodist church, the liquor dealers of Negaunee have been conducting their business for some time past in direct violation of the law.

The law relative to the closing of saloons on election day. He will remind his honor of the fact that the saloons must be closed all day and that according to the law they cannot be opened at 3 o'clock, after the polls close.

Will Appeal to the Governor.

Rev. Gilchriese further stated that in case the municipal officials do not perform their duty as laid down in the law an appeal will be made to Judge Stone.

Preacher Knows the Saloon Law.

In his remarks last Sunday Rev. Gilchriese created quite a stir among the members of his congregation. He reviewed the condition of affairs as he found them in making his midnight rounds of the city.

A Civic Federation.

The organization of a civic federation is something that Rev. Gilchriese will endeavor to bring about. The object of the organization will be to enforce the liquor law in every city and town in the county.

HAD TO QUIT HAULING.

John Delchamp, who has a contract to supply the Champion Iron company with something like 1,000 cords of wood, to be used at the North mine engine house, was compelled to quit work last week on account of the soft weather.

The roads were almost impassable and his teams could not pull loads over them. About 700 cords have been taken out up to this time. Mr. Delchamp is in hopes of being able to get out the balance before the break-up, but realizes that he will have to do some lively work to complete his contract.

BAD WEATHER FOR LOGGING.

The soft weather last week almost completely knocked out the logging work at the camps out from Champion.

The hauling of timber was abandoned for a time and during the last two or three days of the week it was impossible for the logs teams to go over the road between the town and the camps.

A few days more of such weather would have resulted in a general break-up. As winter weather cannot be much longer expected, operations will be pushed at all the camps with a view to finishing up the work as rapidly as possible.

John Marsh, who has the stripping contract at the North mine, spent the latter part of last week here looking over the work. Mr. Marsh is busy at other points and does not spend a great deal of his time here. The contractor's force at the mine at present numbers thirty-two men.

Joseph Coran, who has conducted a blacksmith shop down town for some time past, has sold out to Alphonse Virgin of Calumet. The consideration was \$300. Mr. Coran will soon leave for the copper country, where he will look around for a desirable location with a view to opening a shop.

Charles Carter spent the latter part of last week at Quinnessee. He was called over on account of an accident his father met with while working in a mine. Mr. Carter fell about thirty feet. He was not seriously hurt, though he suffered a great deal for the first couple of days or so after the accident.

A foreigner who created a disturbance up town Saturday evening was arrested by Officer Charles Lavigne. The fellow showed fight and attempted to strike the officer over the head with an ugly looking billy he carried in his pocket. Lavigne was too quick for him and got in the first blow, which was sufficient to take all the fight out of the fellow.

BLEW OUT BRAINS

FRANK W. COTTLE KILLED HIMSELF YESTERDAY.

WAS FORMER RESIDENT HERE

UP TO 1879 BOOKKEEPER AT THE FIRST NATIONAL.

Tragedy Was Enacted at Elkhart, Ill., and Followed the Discovery of a Shortage Which Wrecked the State Bank.

Frank W. Cottle, who will be well remembered by the older residents here, committed suicide at Elkhart, Ill., yesterday afternoon, blowing out his brains with a revolver.

Mr. Cottle was for several years, prior to 1879, connected with the First National bank, being assistant cashier and bookkeeper.

He resigned his position twenty-three years ago and removed to Illinois. Five years before that time he was married to Miss Nellie Gay, daughter of the founder of the charcoal iron furnace at Connelleville.

Frank Cottle was fifty-six years of age and is survived by his wife and five sons. He had been cashier of the State bank at Elkhart for many years and was counted as one of the best bankers in that section of Illinois.

Story of the Tragedy. An Associated Press dispatch to The Mining Journal from Springfield last evening gave the story of the tragedy as follows:

"Another scene in the drama of the closing of the State Bank of Elkhart was enacted this afternoon, when Frank W. Cottle, the cashier, whose alleged shortage of \$32,000 caused the suspension of the bank, blew out his brains at his residence. The tragedy occurred at 4:45 o'clock. Mr. Cottle had been suffering with an attack of pleurisy since Saturday. His son had gone after a drink of water for him, and soon after leaving the room heard the report of a pistol. Instantly surmising that his father had shot himself, the son dashed upstairs into the room, closely followed by the others of the family. The sight they beheld was a horrible one. Cottle lay in bed with a terrible hole from a 44-caliber revolver in his left temple, his brains bespattering the bed and walls of the room. He had died instantly."

HIS UPPER PENINSULA TRIP.

Secretary Day, of Sunday School Association, Tells of It.

"If there had ever been any doubt in my mind as to the efficacy of prayer it would have been effectually dispelled by an incident which occurred during my trip through the northern peninsula, said Alfred Day, general secretary of the Michigan Sunday School association, at Detroit the other evening. He had just returned from upper Michigan.

"Mrs. Mary Foster Bryner, of Peoria, Ill., and myself were holding a series of meetings throughout that country, and at Manistiquette conducted services all day Sunday as a sort of preliminary to the Sunday school convention which was to be held Monday forenoon and afternoon, the departure of the train for Gladstone, our next stop, precluding the possibility of an evening meeting Monday.

"The Sunday evening service was a union meeting in the Presbyterian church, and so great was the fervor that the superintendent of the Sunday school suggested general prayers that the train Monday evening might be late enough to enable us to hold an evening meeting. Whether it was the result of those prayers I am unable to state, but the fact remains that the train was twenty-five hours late, much to the delight of residents of Manistiquette who are interested in Sunday school work.

"In direct contrast to our reception there was that accorded at another town in the upper peninsula, which I will not name. The two ministers there learned we were coming, and one of them, in-lined with the idea that we were a hoax, wired us to pass their town by, as he desired having nothing to do with us. I wrote back, telling him we had decided to hold a convention in that town, and if he did not see fit to aid us we could go ahead alone.

"Seeing we were determined, he finally relented sufficiently to offer us the use of his church, without any fee, however, also refusing to make any announcement of the convention. When Mrs. Bryner and I reached there we sent out circulars to all the teachers in the town, announcing the convention, and asking their co-operation, and as a result at the afternoon meeting there were about fifty children, while in the evening there were as many adults, including all the teachers in the town. There was marked enthusiasm, and the most gratifying feature of it all to us was the fact that the two ministers were profuse in their apologies, and expressed their delight when they saw how much good the meetings had accomplished."

AT SIX THE YEAR ROUND.

Plan on Foot to Continue the Early Closing Regulations.

There is a movement on foot, agitated both by merchants and clerks, which has as its aim the closing of the stores at six o'clock the year round, instead of only during the winter months. The plan has the endorsement of many of the business men and will in all probability be carried through. The people have now become accustomed to doing their trading during the day time, and the evenings of Saturday nights, except, of course, on Saturday pay-days, and the continuance of the scheme would make no material difference. As it is, the merchants and their employes have longer hours to work, week in and week out, than in other lines of industry, and it is the hope of many of them that the early closing rule will be continued in force.

CONCERT AT CITY HALL.

Senior Class of the High School Will Entertain on Saturday Evening.

The senior class of the high school will entertain its friends at a concert Saturday evening. The affair will take place in the assembly room at the city hall, and judging from the program which has been prepared and the recognized merit of those who will take part in it, a musical treat is indicated. Instrumental and vocal numbers will be rendered as follows:

- Piano solo Hazel Boyton. Quartet Misses Hager and Tacker, Messrs. Powell and E. Cornell. Solo Jessie Williams. Mandolin club Ward Powell. Violin solo Prof. Otto Kluge. Piano solo Mlle. Olivier. Solo Norma Ross. Banjo duet M. Reynolds and H. N. Ormsbee. Quartet Misses Johnson and Withey, Messrs. Allen and Tucker. Violin solo Prof. Otto Kluge. Solo George Tucker. Mandolin club The admission will be twenty-five and fifteen cents, and the public generally is invited to attend.

MODJESKA AND JAMES.

Shakespeare's "Henry VIII" to Be Presented Friday Evening.

The appearance of Modjeska and James in "Henry VIII" on Friday evening is naturally the principal topic of playgoing gossip just now. It is expected that the performance will be almost as brilliant in the light of a dramatic spectacle as in that of the histrionic genius of the two famous stars. The pomp, glitter and royal extravagance, which the imagination conjures up in reading the play, would lead one to look for some magnificent stage pictures in the coming production, especially since it is one of Shakespeare's enterprises, from whom the public has become accustomed to expect so much. There are several scenes in which these managers are said to have excelled themselves. One of these is the banquet hall in Cardinal Wolsey's palace, which was afterwards known as Whitehall and now used as one of the offices of the British government. The ecclesiastical court at Blackfriars, when Queen Katherine makes her sublime defense in the divorce proceedings, is another. That which has attracted the most comment, however, is perhaps, the closing scene of the play, which represents the triumph of Anne Bullen and the christening of the infant Elizabeth. Mr. James will be seen as Cardinal Wolsey and Madame Modjeska as Queen Katherine. The supporting company, which numbers over fifty people, includes many of the best known artists in the legitimate field.

ANENT THE "NEW PAPER."

The Soo News-Record has this to say concerning a rumor which has been current here for some weeks: "It is being very quietly talked that Marquette is to have another daily newspaper. If so, we trust that the gentlemen behind the scheme have plenty of capital and are outsiders. It would be a good thing to get their money in circulation and we know of no better way than to make such an investment. We also hope the money is coming from the outside because it would be almost cruel for local capitalists to burn their money in any such enterprise. There is about as much room for another daily in Marquette as there is for a pulp in linds."

SOUTH SHORE STOCK.

The recent strength in Duluth, South Shore & Atlantic stock occasioned considerable gossip in speculative circles. There was a well defined rumor that the Pennsylvania company was purchaser of common stock, and the following from the Boston News Bureau would indicate that the present controlling power was not to be caught napping: "A prominent Broad street operator gave out most of the buying orders in Duluth, South Shore & Atlantic, which caused a sharp rise in these shares. Montreal also bought. An old story was revived about the Canadian Pacific company increasing its holdings of the shares of the smaller company."

POLLOCK'S PROBLEM.

C. S. Pollock has got the boarders at the Spalding agitated over the discussion of a very grave question of longevity. Mr. Pollock has a printed slip for authority that a man's bones are calculated to live 400 years, and his epidemics only 900. He has submitted to his friends the question of which way he should try to reach an average—whether to try to stretch out the longevity of the epidemics or reduce the endurance of his skeleton. His friends have passed the question up, and Mr. Pollock is still staying awake nights, cogitating over it.—Duluth Herald.

FIRECRACKER QUESTION.

Merchants Puzzled as to Whether to Purchase Heavy Explosives.

The merchants who handle goods of that nature do not know where they are at the firecracker problem. Some are about the time when they order their stocks for the Fourth of July trade, but not knowing whether the authorities will permit certain varieties of explosives to be discharged within the city limits they are puzzled as to whether or not it would pay them to purchase giant firecrackers and the like. If 1902, the merchants who laid in stocks of them will stand to lose, since their sale would be greatly curtailed, and in order to prevent this they desire to know just what the city officials intend to do. The matter was brought up at the council meeting the other evening, when it developed that the giant firecracker question rests with the mayor or the council, the consent of either only being necessary according to the provisions of the charter. However, the council was not disposed to take action on the matter, since there is an aldermanic election this spring, and manifested a disposition to at least put the question off until the new council takes hold. With the mayor, the matter stands in the same light. His successor is to be elected at the coming election, and should assurances be given to the merchants now that the matter will be a question of what regulations would be prescribed for the fireworks feature of the celebration on the Fourth. It looks very much as though the merchants would have to figure out the problem for themselves, or at least to delay making purchases until the new regime takes the reins.

NOT SO WARM.

Weather Last Month Was a Couple of Degrees Below the Normal.

Observer Patrick, of the weather bureau, has issued his report of the meteorological conditions observed at the Marquette office for the month of February. Strange as it may seem, the mean temperature for the month was one and six-tenths degrees below the mean temperature for February for the past thirty-one years. The mean temperature last month was 21.6 degrees above zero, while the mean for the thirty-one years is 23.2 degrees. The highest temperature recorded here during February was 46 degrees above zero, on the 26th, and the minimum was 18.5. The mean atmospheric pressure the greatest daily range was twenty-six degrees, on the 19th, and the least daily range was two degrees, on the 28th. During the past thirty-one years the highest mean temperature experienced here in February was 32 degrees, in 1880, and the lowest was 12 degrees, in 1885. The mean atmospheric pressure for the month just closed was 29.96, the highest being 30.52, on the 11th, and the lowest 28.90, on the 28th. The prevailing direction of the wind in February was northwest and the highest velocity was thirty-eight miles, from the southwest, on the 25th. The total movement of the wind was 7,602 miles. The total precipitation for the month was 1.24 inches, which compares with 1.96 inches as the average for the past thirty-one years. There were but two clear days in February, the others being classified as follows: Cloudy, 13; partly cloudy, 11.

ABOUT THE SAME HERE.

The Soo Record compares the present indoor baseball fever to the roller skating craze of several years ago, and says that Houghton, through Marquette, Manistiquette and Hancock will be very, very weary of indoor baseball before long. The real secret of the Record's plaint is that the Maroons of the Soo, know that they are outclassed in the pastime by the clubs in the towns above mentioned. Any one of the clubs could make the Soo aggregation "very, very weary of indoor baseball," if they could succeed in inveigling them onto a diamond. The Record complains that the youthful editors of the papers in the towns above mentioned devote too much space to exploiting the fact that Houghton is a patron saint to editors in small towns during the long winter months. Gold nuggets are not found in potatoes here, neither are there indications of oil in this vicinity. Then too, Sugar Island is not in our territory, so the overworked scribes of Manistiquette feel as kindly disposed toward indoor baseball as the metropolitan papers. If so, the Stone incident which has monopolized their columns all winter. Baseball is a healthful recreation, and as long as the Manistiquette club continues to larrup all comers as it has thus far the fact will be quite popular here.—Manistiquette Pioneer-Tribune.

LADIES OF THE MACCABEES.

Emma E. Bower, great record keeper of the Ladies of the Maccabees, was made out her statement for the year 1901, and some idea of the immense amount of business transacted by this Michigan organization can be gained by the following: Membership, Jan. 1, 1901, 47,250; Membership, Jan. 1 (social), 15,291; Number of deaths, 1901, 289; Receipts for 1901, 229,380.43; On hand Jan. 1, 1901, 76,423.32; Assessments in 1901, 281,874.51; Death claims paid, 254,275.00; Disabilities paid, 7,975.00; Other disbursements, 46,548.41; Amount represented in certificates, 42,000,000.00; Reserve fund, 56,715.00; Assets, Jan. 1, 1902, 97,011.52; Liabilities, Jan. 1, 1902, 57,211.69; Cost of official organ, 4,681.30.

TAILOR SHOP MOVED.

R. F. Brunner, the tailor, who had been located in the stand on Washington street ever since he purchased the business from A. Boulson, has removed to quarters in the bending block. Mr. Brunner occupies rooms on the second floor, his display quarters being in the well-lighted room formerly occupied by the Western Union telegraph office, and his work rooms to the rear. The place has been renovated and will make a good location for the tailoring business. Mr. Brunner is enjoying a good patronage. He has received a consignment of the latest cloths for suits and trousers.

The Duluth Evening Herald mentions the fact that at the last meeting of the county poor board "one applicant was given transportation out of the county. The case was a provoking one. Some months ago Kitty Havison was taken by her father from Marquette to Hibbing. A little later the father deserted his child, and went, nobody knows, whither. It seems that Havison has done the same thing before."
