The funeral of the late Thomas B. Dunstan of Hancock, was held from the home of the deceased's mother, Mrs. James Dunstan, at 2 o'clock yesterday afternoon. Rev. J. E. Curzon of Trinity Episcopal church, Houghton, officiated at the residence, delivering the funeral oration. In force, Mr. Dunstan was a member of the Keeweenaw lodge. The remains arrived yesterday and the funeral services will be held at St. Patrick church at 9 o'clock this morning, interment taking place in the Catholic cemetery.

GOOD BASEBALL GAME.

Hurontown Team Defeats Calumet in Close Contest.

The best baseball team Calumet can produce was defeated at Hurontown Sunday afternoon by the Hurontown team, the score being 8 to 9. Ten innings were played and the winning run was scored at 8:15. Hurontown had the lead at 8:15 in the eighth inning. Calumet led the game up to the eighth inning. In the seventh the score was 8 to 2 in its favor; in the eighth Hurontown made 6 to 8; and tied the score in the ninth. Brand brought in the winning run in the tenth. The batteries for Hurontown was Wagner, Mutter and Wedge. Wagner pitched the first six innings and Mutter who caught during that time succeeded him. For Calumet Wester and Sampson was the battery. The game was witnessed by a large number. Its result places Hurontown well to the front for the championship honors in the county this season. The team is a strong one.

HANCOCK SUFFERS THE MOST.

Reduction of Isle Royale Force Hard Blow to Copperdom Merchants.

It may seem strange, although it is a fact nevertheless, that Hancock will suffer more than Houghton by the reduction of forces at the Isle Royale mine. It is the general impression that Houghton will miss the money more than Hancock of the men who will have to go elsewhere to seek employment. As the property is nearer Houghton than Hancock that impression is the logical one, but it is stated at Hurontown that Hancock merchants do more business there than Houghton. Hancock business men have solicited the trade and evidently have gone after it harder which accounts for it all. In the neighborhood of 100 men were laid off at the mine. A number of married men were included. Most of the miners have already left the location for the South range, where they expect to find employment at the new mines. It is no trouble for a miner to move. He would just as soon work at one place as another and can usually find work without much trouble elsewhere when thrown out of a job. Hancock merchants will certainly feel the loss of some of their Hurontown business. It is not known at the mining location whether curtailing of operations at the Isle Royale is temporary or not.

LOSS WAS SEVERE.

Fire in August Tangen's Grocery Store Does Considerable Damage.

August Tangen, the West Hancock grocer, estimates his loss from the fire in his store early Sunday morning to be about \$2,500. He is insured for that amount. His entire stock was destroyed. The insurance is placed in the Lavigne & Mason, J. N. Mitchell and W. Frank James agencies. James Hosking, of Hosking & Vial, places his loss on household effects at about \$150 and Hosking & Vial, bakers, in the building adjoining the grocery store, at \$150 with no insurance. W. H. Mason of Hancock owned the two buildings which are insured for \$1,000. The loss on the structures is \$500. Charles Penn, living in the apartments over the grocery, had his goods insured for \$500.

Florida location has somewhat of a shady reputation and the officers intend to keep a close watch on it. The sheriff says that the saloonkeepers will be arrested for harboring prostitutes if he finds any more of it.

BOAT IS STAUNCH.

Iroquois Gives Good Account of Herself in the Blow.

Captain Worden of the steamer Iroquois is well pleased with the conduct of the white boat during her trip up the north shore the first of last week. The Iroquois left the Duluth harbor in the face of a stiff northeaster Tuesday afternoon. A large crowd congregated at the piers to see her go out of the canal, as the waves were rolling through that afternoon with great force. The Iroquois was warped around the end of Singer's dock and as soon as headed into the canal the line was cast off and she was driven ahead under full head of steam. After leaving the canal the Iroquois made good time in spite of the heavy sea, and arrived in Port Arthur the next morning at 7 o'clock. At midnight she ran out of the storm, which seemed confined entirely to the upper end of the lake.

WRITES WORDS OF PRAISE.

Editor Curtis of "Knighthood" Compliments Copperdom Pythians.

W. W. Curtis, editor of "Knighthood," the Knights of Pythias' official paper, who visited Hancock and Houghton Pythian lodges several weeks ago, has written as follows about the two lodges: "On the evening of April 16 the G. O. G. paid a visit to Hancock lodge No. 109. This lodge, though but a year old, now stands among the foremost in the grand domain a great amount of the credit for this being due to Brethren Webster Dook, E. W. Taylor, W. H. Taylor, W. H. Dodge, F. M. Lundy and several others, who have devoted lots of time and energy to placing this lodge on a solid basis. The lodge has many applications before it, new ones being presented at each meeting. On the evening of the writer's visit the knights' rank was conferred in an impressive manner by the new team which has been preparing the work. A number of this enthusiastic lodge attended the great meeting in Chicago and brought home many new ideas with them, which they have brought into their work, and it will be but a short time ere this lodge will be able to confer the work in a manner that will put to shame the older lodges of the lower peninsula. The lodge is nicely located in spacious rooms and has a fine outfit of robes. Brother Taylor is endeavoring to outstrip Brother Dook in the amount of zeal and enthusiasm that he can put into the work, and as a result everything is hot all the time. A number of the lodge members belong to the uniform rank company across the lake at Houghton. They are finely equipped with uniforms and a bright future seems to be in store for them. On the evening of the writer's visit large delegations were present from Calumet, Lake Linden and Houghton. The writer acknowledges many favors at the hands of the Hancock members and hopes to pay them another visit at no distant date. There are a number of endowment rank members here, and it is expected a section will soon be organized."

JAS. M. EVANS IN COURT.

Former Hotel Superior Man Accused of Trying to Kill Wife.

The following concerning James M. Evans, formerly proprietor of the Hotel Superior, will doubtless be of interest to Marquette people, particularly to those who still have good reason to remember the man's career here. The article is from a recent issue of the Chicago Inter-Ocean.

James M. Evans was arrested yesterday on a charge of attempting to kill Georgia M. Evans, his wife, in their apartments in the Majestic apartment building, Rush street and Walton place, last night. Mr. Evans is president of the Evans Multiphase Rotary Engine company, with offices in the Stewart building, an inventor of prominence and a retired real estate dealer and hotel proprietor in Chicago. Mrs. Evans is beautiful and well known in North Side society.

When Mrs. Evans secured the warrant from Justice Bradwell for her husband's arrest her eyes were blackened and she bore other marks of rough treatment. She asserted that the bruises were received in a struggle in their apartments and that her husband beat her and jumped upon her while she was in bed. She says she became unconscious and was aroused by her husband's efforts to throw her from the window of their flat on the fifth floor. She broke away from him and, clad only in her night dress, fled from the room. Mrs. Evans ran down the five flights of stairs, climbed the man in the hallways, and escaped into the street.

Go to Friend's Home.
 Though it was only 10:30 o'clock she did not meet any of the other tenants of the fashionable flat building. Too frightened to return to her rooms, she says, she continued the flight to the home of a friend, Mrs. Thornton, at 274 State street, where she remained until morning.

In the flight of several blocks on the streets she again escaped observation, and was not molested on account of her strange street attire.

Mr. Evans, when arrested and placed under \$1200 bonds, denied the accusations of his wife, but refused to make any explanation. He declared that the true account of her bruises would come out when the case was heard, May 27. There has been trouble between the couple before, and at least two divorce bills have been prepared for filing in the courts and then destroyed on promises of better good behavior.

Mr. Evans since his retirement from business, has devoted himself almost exclusively to mechanics. The couple were married in the South some years ago. Mrs. Evans is a number of years the junior of her husband and he is about forty years of age. The only child in the family is an eight-year-old son of Mr. Evans by a former marriage.

Murder Threat Alleged.
 Mrs. Evans, when she secured the warrant, said that she had retired early Wednesday night, but was awakened about 10:30 o'clock, when her husband came into the bedroom. After walking up and down the room several times, she says, he suddenly declared: "I've sent the boy away so that he would not hear your name."

Before she could inquire the meaning of the unusual remark, she says, he continued in the same deliberate voice: "I'm going to kill you."

With that, she says, he attacked her furiously. She says that finally, when she was losing consciousness, he tired of this attack and picked her up in his arms. The cold air as he carried her to the window, she says, revived her. With a final struggle she wrenched herself loose and Mr. Evans stumbled and fell.

Before he could catch her again, Mrs. Evans says, she had fled from the house. Mrs. Thornton furnished her with clothes yesterday morning in which to come down town and consult attorneys. Mrs. Evans was considerably weakened by the alleged beating. Mr. Evans was placed under bonds and he returned immediately to the Majestic and refused to see callers.

LIQUOR LAW CASE POSTPONED.
 The case against James B. Wheeler, the Grand Marais agent of a Minneapolis brewing company who is charged with violation of the liquor law, has been continued at the Alger county circuit court now in session at Au Train. The prosecution is based on the recent decision of Judge Stone and the case has gone over until the state supreme court has passed on the ruling. Concerning this latter phase of the matter, the Gladstone Delta, which apparently is not fully cognizant with Judge Stone's decision, in its last issue says: "The suit to determine whether a foreign brewer must pay a wholesale liquor dealers' tax in Michigan, known as the People vs. Vanolis, has been argued and the supreme court has admitted supplemental briefs. It is not a question so easy of determination as some of The Delta's newspaper neighbors have said."

FOR THE WORKINGMAN
 At the noonday meal nothing can compare with pure, high grade beer as a refresher and strengthener. And there is none superior to the Upper Peninsula Brewing Co.'s brew. It's the perfection of brewing. Purity and maturity unite in making this excellent product equally beneficial for table and medicinal uses. Gives strength and vigor, or uniform quality and highly palatable.

Upper Peninsula Brewing Co. MARQUETTE, MICH.

At any rate some of the best legal minds in the state—and others—are working on the problem; and while the Marquette luminaries may be right in supposing that judgment should be given against the brewers, it is by no measure certain that the law, as it stands, is not with them. There are so many strange vortices and sinuosities in both statute and case law that even those who have a "cinch" sometimes get cast in court. And a lawsuit is never done until it is ended, but one thing is beyond a reasonable doubt—if the foreign brewer must pay a tax in each municipality where he does business, so likewise must the Michigan manufacturer."

NO FEATURE TO COPPERS.
 Little Trading and Indications the Summer Dullness Is Setting In.
 Hayden, Stone & Co. yesterday wired the Laidley Commission company: "There is nothing to say on the copper. There is no feature to the market until summer dullness appears to be under way. Traders bid up Mohawk at the opening, but the stock has since sagged off."

Paine, Webber & Co. said: "Sales of Lake copper at 124 cents were reported and have been made today, and 122.70 was bid for it on the metal exchange at the closing. Amalgamated acted today as if it were being raided by some one who was interested in accumulating the stock. Mohawk was bought freely at the opening for New York stock. There are very few good copper stocks left for sale around the present level of prices. Public interest is coming into the market slowly and the outlook favors a continuing advance in prices. We believe there is good money to be made in buying Copper Range."

Grain Markets Firmer.
 W. H. Laidley & Co. said of the Chicago grain markets: "Wheat opened a shade lower, on slightly lower cables and continued favorable weather. It turned strong, however, on the big increase in the visible and is sympathy with corn, and closed a little higher. The tone was strong during the entire session. We believe that wheat should be bought upon all recessions from present figures."

"Corn opened strong and a little higher, on stronger cables and light receipts, and continued strong during the entire session. The market is very tight, but there is something like eleven million bushels less than a year ago. With the new crop several months off, corn is certainly a purchase upon every break of better good behavior."

"Oats opened at about Saturday's close and remained dull and inactive, closing without any change. The visible supply shows a decrease of 600,000 bushels, but as long as the market remains in its present manipulative condition we cannot see that there is much to it one way or the other, but would prefer selling upon the bulge."

Wall Street Stocks.
 Walker Bros., in advice to Paine, Webber & Co., said of the New York stocks: "The market today opened fairly strong, but not very active and soon there was a good deal of profit-taking and the prices sagged off. The coal stocks were the weakest and sold off. Canadian Pacific was the feature and advanced early on large transactions. The market during the afternoon was dull and closed just about steady."

 County Clerk Ross requests that all bills against the county be filed at his office not later than Thursday evening. The auditing board will go over the claims at a session to be held Saturday morning. The board of supervisors will meet on Wednesday, June 4.
 Claude W. Case has been summoned to Au Train as a witness in the case of The People vs. Alexander McKay, charged with violation of the election law. Mr. Case was temporary chairman of the caucus at Munising at which McKay is charged with having voted twice.
 E. S. B. Sutton, William Chandler and A. F. Sharpe of the Soo and Byron S. Wain, W. B. Cady, T. W. Bruce and W. W. Knapp of Detroit, all interested in the Soo water power case, the trial of which opens this morning at the circuit court, were arrivals in the city yesterday.
 W. J. Kramer, sales agent for Miller, Warzenhof & Co., clothing manufacturers, of Cleveland, is in the city. D. Seidenfeld handles large quantities of this firm's goods, which meet with ready sale and give good service. Mr. Seidenfeld has sold these goods for over twenty years and the fact that he is doing a constantly increasing business shows that the Cleveland manufacturers make suitable and durable clothing.

The Munising Republican mentions the fact that John McNulty, while last week lifting his pond net in Au Train bay, was surprised to find among other fish two which Judge Steere later identified as rainbow trout. They weighed five and four pounds, and were the first ever caught in those waters. It is added that one of the trout was presented to a Marquette gentleman whose circuit court had, presumably, called to Au Train.

Louis Saam, the Hancock horseman, was in the city yesterday on business connected with the horse race meet to be held here during succubee convention week. He stated that about ten horses would be entered from the copper country, and that altogether there would be about fifty speedy steppers that would take part in the races. Mr. Saam declared that the meet would be the greatest ever held in the upper peninsula.

A well known resident who up to a short time ago was in the mercantile business here had a close call from drowning last Saturday afternoon while angling for trout off the old Grace furnace dock. A small section of the wharf collapsed, and the fisherman was thrown into the water. Fortunately his young son was with him, and the lad by means of boards managed to assist his father so that the latter finally was able to get out. The gentleman says that but for the efforts of the boy he would in all probability have lost his life.

DO NOT NEGLECT THE LITTLE ILLS OF TODAY

The Use of **PAIN'S CELERY COMPOUND**

Will Eradicate from the Blood and System the Seeds of Disease.
 As grains of sand make our lofty mountains, drops of water the mighty ocean, and as our massive buildings are made of one brick piled upon another, so do the little ills of life contribute to the building up of deadly diseases in the body.
 Experienced medical men claim that fully three-fourths of our men and women enter the summer season with little ills and symptoms of disease, which must develop into serious and fatal troubles if not banished at once. The little ills and pains of today build up the alarming and fatal diseases that follow days and weeks of neglect.
 Wise and intelligent people who have looked into the claims of Paine's Celery Compound and followed its remarkable cures of relatives, friends and neighbors, with faith and confidence, to banish their symptoms of coming troubles, to cleanse the blood, to reestablish nerve force, energy and bodily strength, so that they will be in condition to withstand the enervating effects of the coming hot weather.

In every community where Paine's Celery Compound has been used at this season to banish disease, it is regarded as a godsend. Workers in offices, shops, factories and weary and run down wives and mothers in their homes have thanked Heaven for Dr. Phelps' marvelous prescription, because it made them well. Try a bottle or two, ye who are ailing and sick; it will give you what you most stand in need of—health and new life.

English capitalists were interested with Foley and they left him completely in the lurch. He has confidence in the mine and has doubled his profit on the property. NOT CLOSING PROMPTLY.
It is said that certain merchants of this city are not closing their stores promptly at 8 o'clock. The 6 o'clock closing on Friday night, which has been observed all right, but it has been noticed during the past couple of weeks that it is quite possible to get into some of the stores anywhere from five to forty-five minutes after the regular closing time. The doors are left locked in some cases and a few who lock the doors stay around and answer raps.

WILL SOON MOVE HERE.
Captain James H. Rough of the Maas mine, and his family, will soon move from Ishpeming to this city. They will occupy the Kruse residence, which was purchased by the Cleveland-Cliffs Iron company at the time the land on which it stands passed to the corporation. A number of carpenters and painters have been employed at the dwelling for the past few weeks. It will be some time yet before the work of remodeling it is completed. The captain will have one of the neatest homes in Negaunee. The interior is being entirely remodelled and the decorations will be in keeping with the other work being done there. The house is large and the family will have ample room.

CAN WORK MORE MEN.
Joe Richardson has taken charge of the loading of ore for the Cleveland-Cliffs Iron company at the Volunteer mine. At the time the mine was closed a year or more ago there were something like 40,000 tons of ore left in stock. The loading of this was started a few weeks ago. Mr. Richardson has about twenty-five men on the job, but could work several more. He would like to get fifteen or twenty good men. The loading is being done by hand and it will take some time to clean out the pile.

FOUND \$20,000 IN GOLD.
A pot of gold, supposed to have been buried during the Civil war and worth about \$20,000, was recently found in an old spring by a poor farmer. No doubt the discovery brought him in his pocket, but really nothing when compared to the happiness enjoyed by sickly people who have been restored to health by Hostetter's Stomach Bitters. This sovereign remedy is backed by fifty years of cures, and is highly endorsed by many prominent physicians throughout the country. It is a specific remedy for indigestion, liver, kidney and stomach disorders, such as headache, heartburn, loss of appetite, indigestion, constipation and biliousness. Be sure to try it. The genuine must have our Private Stamp over the neck of the bottle.

LOCAL LACONICS.
Herbert Buzzo has given N. Anderson a contract to erect a dwelling for him on Clark street.
The Lake Superior & Ishpeming Rail-way company is preparing to extend a branch to the Maas mine shaft. Some work is being done below the Carp hill.
The Nye Theatre company played Sunday evening at the opera house for the benefit of the women's tournament fund. The attendance was good, considering the weather.

THE NAME MADE PING-PONG.
"The value of an odd, catchy name has never been more strikingly illustrated than in the game of ping-pong," said an Englishman the other day. "Table tennis has been played in England for at least twenty years, and yet it never became a craze until some bright fellow simplified the rules somewhat and put the game on the market under the name of ping-pong. At once it leaped into popular favor. So they took it up as a fad, and in this country people who have never heard

L'Anse and Baraga.

John T. Gunniss and M. L. Derrig of Duluth were L'Anse visitors Tuesday last.
Professor A. D. Chisholm of L'Anse has accepted the superintendency of the Ontonagon schools for the coming year.
David Levitan has leased the S. T. Harris house on the hill and will move with his family to their new home this week.
There was \$86,500 realized from the tax sale held by the treasurer of Baraga county this month. This beats all previous records.

The many friends of Mrs. Curry will be pleased to learn that she has so far recovered from an attack of fever as to be able to sit up again.
Wm. Van Norden of Kalamazoo, Angus Smith of Detroit and C. H. Worcester of Marquette were among the arrivals at the Thomas House last week.
The tug Allington of the Hebard fleet with a crew of men are booming a lot of logs that were banked at L'Anse last winter. The logs will be taken to the Pequaming mill.
Mrs. John O'Connor entertained a number of young people last Tuesday evening at her home. Cards and dancing were indulged in and a nice luncheon was served.

P. R. McKernan returned last week from Mt. Clemens, where he went as a delegate of the L'Anse K. of P. lodge. He blew through the Windy City and saw the Park Garden at Milwaukee on his way home.
Ringling Bros' and Buffalo Bill's bill posters have decorated the hill boards and barns in this vicinity, and the small boys who cannot get to Houghton to see the shows takes consolation in looking at the pictures.
Richards & Pringles Minstrels are billed to appear at the L'Anse opera house Thursday evening. As this is the first minstrel troupe to show here for about a year there is little doubt that the company will bring out a good sized audience.

Lightning struck the residence of Joseph E. St. Germain at Baraga last Monday evening, shattering the chimney and damaging the partitions somewhat. Fortunately none of the family were close to where it passed down. The damage done amounts to about \$100.
Russell Smith, son of Mr. and Mrs. J. B. Smith of L'Anse, who recently got his "sheepskin" from the College of Mines at Houghton, has accepted a position with the Mahoning mine near Hibbing, Minn., and left for his new field of labor Tuesday last.

Mrs. M. Berg of Baraga, who lost a pocketbook containing \$28 at L'Anse about a week ago, has got it back with the contents, minus \$3 which she awarded an honest youth who found it and took it to his mother, the mother keeping it until she found the owner.
Wendell Krusch, the noted trapper of Negaunee, was again at the county clerk's office last week with a wolf's pelt to get the bounty. He mourns the fact that the wolves are about extinct in the vicinity of this camp and says he will soon fold his tent and take his pet wolf and eagle and move to the neighborhood of the lakes near the Sturgeon Falls where it is understood there are a few wolves left.

John E. Brennan and Miss Lillie Thomas of L'Anse made a quiet snark on their friends Thursday afternoon and were married at the parlors of the Thomas House in the presence of relatives and a few friends. The wedding took place about 4 o'clock. The pair were at once driven to Baraga to catch the 5:45 train for Chicago, where they will spend about ten days. Their driving to Baraga to take the train did not have the effect they figured on, for before they were out of the village limits the telephone was at work and there was a delegation of their Baraga friends at the depot to meet them with open arms, hats of rice and lots of old shoes. The young couple are well and favorably known throughout the upper peninsula and it is the wish of their many friends that they will enjoy a happy and prosperous wedded life. They will be at home in the Turner residence after June 1.

Burns, cuts and other wounds often become troublesome sores. Even where delay has aggravated such injuries De Witt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yanketown, Ind. "After using many remedies I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. COLTER RAN FOR HIS LIFE.
Hunter Released With Savages in Pursuit—Escaped but Never Recovered.
One of the most remarkable instances of the escape of a white man from the Indians was that of John Colter, a famous hunter and trapper. On the day in question he and his companion were surrounded by 600 savage warriors. The companion was instantly killed and Colter was captured. His foes had no intention of saving his life, however; they wanted the sport of putting him to torture, or at least of playing with him as a cat plays with a mouse. The chief asked if he could run. He said, "Not much." He was released and told to save his life if he could.
Colter darted away at high speed and most of the 600 savages set off after him. There was a plain before him six miles wide, bounded on the far side by a river fringed with trees. Colter had always been famous as a runner, and his practice now stood him in good stead. He made straight across the plain for the stream, and the yells of his pursuers lent him wings. His foes had removed every shred of clothing from his body, and the plain was covered with prickly pears, so that his unprotected feet were lacerated at every stride.
Half way across the plain he glanced back and saw that only a few Indians were following him. Again he ran on, and soon realized that one of his pursuers was nearing him. He redoubled his efforts, and blood gushed from his nostrils and flowed down over his breast. The fringe of trees were near, but a hasty backward look showed him the pursuing brave close upon him with spear raised. Moved by a sudden impulse Colter stopped, turned and faced the savage with outstretched arms. The Indian was taken aback at this unexpected movement that he stumbled and fell. This was Colter's opportunity. He ran back, seized the spear, and pinning his antagonist to the ground, ran on.
Other savages came on, fiercer than before at the death of their comrade. Colter reached the trees, plunged into their midst and then into the river and swam to a pile of driftwood that had lodged. He dived beneath it and stuck his head up between two logs covered with smaller timbers and brush. The Indians came up and searched for several hours, but failed to find him. Again and again they walked over the drift wood. Luckily they did not fire it, as he feared they would. At last they went away. They Colter swam out and fled through the forest.
Seven days he went on, living on roots and berries, with no clothing, until at last he reached a trading post on the Big Horn river. He never fully recovered from the effects of his terrible experience.—Youth's Companion.

WILL BE HEADED BY THE NEGATIVE BAND.

School Children and Veterans Will Take Part and Ranks Will Be Broken at the Theatre—Decorations of the Graves.

In accordance with the usual custom here, Memorial Day—next Friday—will be appropriately observed under the auspices of the old soldiers, resident of Marquette, who fought in the memorable struggle to preserve the Union.

The parade preceding the exercises at the opera house will form at 9:30 o'clock sharp on Washington street between Front and Third streets and will march in the following order:

- Negative Band. Spanish-American War Veterans. G. A. R. Veterans. School Children. Speakers, Clergy and City Officials in Carriages.

The line of march will be north on Front street, to Arch; east on Arch, to Spruce; south on Spruce, to Ridge; west on Ridge, to Third; south on Third, to Washington, and east on Washington, to the opera house.

At the conclusion of the exercises at the theatre, the Civil war veterans and the Spanish-American war veterans will be entertained at luncheon by the ladies of the city. The place at which the dinner will be held will be announced later, as also will the make-up of the program to be rendered at the opera house.

HOLDS UP A CONGRESSMAN. "At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-round medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by Stafford.

VOTES, NOT DELEGATES, COUNT.

Boynton Maccabee Explains That Expansion Is Far Ahead in the Race.

A Maccabee who declares himself for "Boynton and expansion" sends The Mining Journal a copy of the Port Huron Herald, of last Friday evening, containing a table giving the returns on the expansion issue as far as received. According to this summary, it looks as though the issue will carry by a good majority despite that it requires a two-thirds vote.

The gentleman explained that although there will be 946 delegates to the great camp—one for every tent in the state—there will be many more votes. The votes cast by each delegate being based on the membership of his tent. Great Record Keeper Watson, it was explained, was claiming an anti-expansion victory because the majority of the delegates who had taken the pains to reply to his letters had declared their opposition to expansion. He had failed to state, however, how many votes these delegates will cast and as it is known that the strength of the "antis" lies among the smaller tents no reliance, it was asserted, could be placed in Mr. Watson's figures.

According to the Herald's statement, tents in twenty-five different counties had been heard from. These numbered 273, with a total vote of 1,161, of which 881 would be cast for expansion and 150 against it. Should the ratio be retained in the returns received from the other counties, the anti-expansionists would seem to be in for a bad defeat. The tents in Wayne county, numbering forty-seven, will be entitled to 229 votes, the table shows. Of this number, 198 will be cast for expansion and 22 in opposition to the issue.

SOCIAL HOP TONIGHT.

The ladies of Superior hive, 217, L. O. T. M., will entertain at a social hop tonight. The party will be held at Fraternity Hall, and the Maccabees, members of other fraternal organizations and the public generally are cordially invited to attend. The music will be furnished by the ideal orchestra, which guarantees that it will be of the best, and refreshments will be furnished at the hall by the ladies. Admission to the dance will be but twenty-five cents, with fifteen cents extra for supper. The hop is primarily given in order to augment the convention fund. It will be the last opportunity of the dancers of the city to help out in this regard, and for that reason an unusually large attendance is hoped for.

CLAUDE W. CASE RESPONSIBLE.

A writer in the Soo Journal writes entertainingly of his visit to the state asylum at Newberry. He wonders why it is that with all the real or supposed advantages the Soo had to offer, she did not get the asylum. According to those best informed the Soo might easily have won out had it not been for the heroic efforts in behalf of Newberry of Claude W. Case, now of Marquette, but recently of Munising.

A STRONG TEAM.

Fred Stickey and Will Schweitzer—Now Managers for Mr. Laidley.

The Laidley Commission company's branch office in this city will hereafter be in charge of W. H. Schweitzer and Fred Stickey as resident managers, the growth of its business having decided Mr. Laidley to give Mr. Stickey an associate in conducting it. Mr. Schweitzer is thoroughly posted on stock market affairs and is a young man of excellent business ability. He and Mr. Stickey are popular, trustworthy and in every respect competent to serve both the commission company and the public well, and they will make a strong team for the work confided to them. With Mr. Laidley in close touch with market movements at his post in Chicago and two such able representatives in charge of the branch office of his company here, Marquette dealers in stocks and grain will be given a service that should satisfy them. No city in the state has better and fear as good.

ITS OWN LIGHTING PLANT.

L. S. & I. Installs and Puts It Into Commission at the Dock.

The L. S. & I. dock is no longer being illuminated by the city electric light plant, the railroad companies own system having gone into commission. A 500-light machine has been installed in the engine house directly south of the dock, between the street railway tracks and the Presque Isle road, and it is giving excellent service. Current is being furnished to some twenty arc lamps, and in addition a number of incandescents will be installed under the dock at intervals for its entire length. It is likely that the railroad yards and other portions of the company's property in the vicinity of the dock will later be connected with the system, and it may be that a larger dynamo will be put into service. With the company itself lighting the dock, some twenty arc lamps owned by the city are released from service and will doubtless be made use of during the time of the Maccabee convention, when it is understood to be the plan to have an electric illumination on an elaborate plan.

HEADS COMING OFF.

Troubles at Lake Erie Docks Causing a Cut in Boat Crews.

Because of the shortage of cars and the congestion of boats in the ore and coal trades at Lake Erie ports, vessel owners are beginning to cut down their crews. In some cases all members of crews except captain, mate, engineers and cook are being laid off. At one dock in Toledo more boats are waiting for coal than can be loaded in two weeks.

Harbor Gossip.

The steamer Rubert and consort, the schooner Sage, sought shelter here yesterday, coming in about 10 o'clock in the morning and leaving port in the evening. The vessels presented a rather thrilling sight as they rounded the breakwater on the way in, rolling badly despite that both were loaded. During most of the day the lake was in a state of great nervousness and the waves almost continually dashed over the breakwater.

The steamer Watson and consort Antrim, which are comparatively new in the trade, yesterday took out nearly 11,000 tons of ore. They were loaded at the South Shore docks, as were also the old steamer Continental and schooner Holland and the steamer Helena. All five boats cleared for Cleveland.

From the L. S. & I. dock yesterday the steamer Frontenac took out a cargo of ore for Cleveland. This was the only vessel to arrive at the upper harbor during the day, but last night a good-sized bunch of boats got in.

The steamer China arrived about midnight last night on her way up the lake. She discharged a consignment of pack-ice freight.
