HEAVY RAINS IN OHIO.
Cleveland, June 30.—The rainfall
records for June in this city have been
broken, the total precipitation thus far
being 9.66 inches. Reports from the
agricultural districts of northern Ohio
indicate that the continued wet weather
is resulting disastrously to the corn and
potatoes.
STRIKERS GET DEMANDS.
Pittsburg, June 30.—After a lengthy
conference today between the wage com-
mittee of the machinists in the Pitts-
burg district and the employers, a scale
for a year was agreed to. The wages
will be increased five per cent.
NEBRASKA BANK IN TROUBLE.
Lincoln, Neb., June 30.—The German
state bank of Murdock was closed today
by the state banking board because of
alleged irregularities. The capital is
\$5,000, and the deposits \$37,000.
A MORSEL FIT FOR LUCULLUS
can be prepared by broiling a steak or chop
over such a bright, clear fire as is made
with our coal. It is the standby of the ex-
perienced cook, who knows just how to
depend on her fire for broiling, broiling
and stewing purposes. Its long contained com-
bustion and strong steady heat make it the
coal par-excellence for cooking.

KING GROWS BETTER
EDWARD PASSES FAIRLY COM-
FORTABLE DAY.
DISCOMFORT IN WOUND IS LESS
BONFIRES LIGHTED THROUGHOUT
KINGDOM IN CELEBRATION.
Dinner to Poor of London Will Be Held
July 5 and Will Be Attended
by Prince and Princess
of Wales.

London, June 30.—A general feeling of
relief as the result of the favorable
report of the condition of the king ven-
ded itself tonight by the touching of
of three thousand bonfires throughout
the United Kingdom originally prepared
for the celebration on coronation to-
night. The signal to light the fires was
given by a rocket that was sent up from
Earl's court and burst in a cloud of
stars one thousand feet overhead. In
response the bonfires rose from every
elevation of any consequence from the
Lizard to the Orkneys.
Dinner to Poor July 5.
The arrangements for King Edward's
dinner to the poor of London, to be
held July 5, are rapidly being completed.
The Prince and Princess of Wales have
arranged to visit a number of localities
where the poor are to be entertained,
and if the king's condition continues to
improve the queen will probably make
the rounds with them.

Bulletins Issued During Day.
At 10 o'clock the following official
bulletin on the king's condition was is-
sued: "His majesty slept well. Dress-
ing the wound gives much distress, but
there are no bad symptoms of any
kind."
Seven p. m.—Bulletin.—The king had
a fairly comfortable day. Discomfort
in the wound has been less. In view
of the king's continued improvement no
further bulletins will be issued tonight.
Dublin, June 30.—The principal
streets of Dublin were illuminated to-
night in honor of the king's satisfactory
progress and were so crowded with peo-
ple that vehicular traffic had to be
stopped. Some disturbances were cre-
ated by a mob of Nationalists who had
to be charged and dispersed by the police
several times.
STRIKE ON UNION PACIFIC.
Machinists Obey Order to Walk Out—
1,700 Men Are Affected.
Omaha, June 30.—The order author-
izing the strike of all the machinists on
the Union Pacific system went into ef-
fect at 10 o'clock this morning. There
were few men left to walk out in Omaha
and Council Bluffs, however, the machine
shops having closed down Friday. Seven
hundred men are out at Cheyenne. The
machinists at Grand Island, Neb., and
Evanston, Wyo., failed to strike. There
will be about 1,700 men affected by the
strike.
Omaha, June 30.—The order for the
strike of the Union Pacific machinists
was generally obeyed today. Already
the number of men at work has been
greatly depleted by the closing of the
shops at Omaha, Cheyenne, North Platte,
Armstrong and Kansas and the curtail-
ment of work at a number of the small
shops by the company. The machinists,
however, include as strikers the entire
regular force of all these shops. The
railroad officials say the men have no
cause to strike, that their going out is
the work of agitators and express the
belief that all will return as soon as
they consider the matter.

STRIKE THREATENS IN CHICAGO.
Freight Handlers Refuse Concessions and
May Quit Today.
Chicago, June 30.—Unless the general
managers of the railroads reverse their
decision regarding the scale of wages,
ten thousand freight handlers will in all
probability quit tomorrow morning in
all the railroad warehouses and freight
shops in Chicago. In the freight han-
dlers strike, it is highly probable that
other unions will be drawn into the
struggle through sympathy. The reply
of the railroads included an amended
scale of wages to take effect after three
months. The men refused to consider
the concessions and declare that unless
they are granted better terms they will
quit work. From the railroads it was
learned tonight that all have determined
not to make further concessions.

WITNESS CONFESSES CRIME.
Sensational Turn at Inquest Over Death
of Murdered Mail Clerk.
Council Bluffs, Ia., June 30.—Otto W.
Roderick of South Omaha caused a sen-
sation at the inquest over the remains
of Clark Moyer, the mail clerk whose
dead body was found on the street Sun-
day morning, by confessing that him-
self and two companions killed Moyer
by beating him to death. Roderick,
the witness called, and said his party
met Moyer on the street and the
latter passed insulting remarks.
Roderick then struck Moyer in the face
with a club from the effects of which he
later died. Roderick is under arrest
and the police are looking for his com-
panions.
STRIKE ON IOWA CENTRAL.
Boiler Makers and Helpers Demand
Shorter Hours and More Pay.
Marshalltown, Ia., June 30.—Two
hundred employees of the Iowa Central
shops walked out this afternoon. The
machinists, boiler makers and their
helpers and blacksmiths' helpers are in-
volved. The boiler makers want ten
hours' pay for nine hours' work and the
helpers want an increase of twenty-five
cents a day. The meeting today failed to
ratify the proposition made by the em-
ployers. Tomorrow the employees of the
car shops, roundhouse and other de-
partments will declare a sympathetic
strike.

BAD FIRE IN SOUTH DAKOTA.
Larimore, S. D., June 30.—The busi-
ness portion of Conway was wiped out
by fire this afternoon. The loss is
from \$60,000 to \$70,000 and insurance
\$30,000. Three general stores, a drug
store, two hardware stores, a meat mar-
ket, two hotels, a tailor shop, one dwell-
ing and a millinery store were burned.

CRONJE TAKES OATH.
Famous Boer General Becomes Subject
of King Edward.
Jamestown, St. Helena, June 30.—
General Cronje, the Boer commander,
who with his army was captured by
Lord Roberts at Paardeburg, Orange
Free State, in February, 1900, has taken
the oath of allegiance to King Edward.
Many remaining prisoners are following
his example.
MOTION FOR NEW TRIAL.
Jesse Morrison's Attorneys Apply for
One but Will Be Refused.
Eldorado, Kas., June 30.—The attor-
neys for Jesse Morrison, who was Sat-
urday found guilty of the murder of
Mrs. Olin Castle, today filed a motion
for a new trial on the ground that a
change of venue had been refused. The
motion will be heard Monday when it is
believed it will be overruled and Miss
Morrison formally sentenced. Under
the verdict her punishment will be for
ten years to life imprisonment.

POLITICS IN MINNESOTA.
Republican State Convention Will Be
Held Today.
St. Paul, June 30.—The Republican
state convention will meet tomorrow.
Senator Nelson will be temporary and
State Senator Wymann permanent chair-
man. The convention will nominate a
full state ticket. The present governor,
lieutenant governor, state treasurer, at-
torney general and railroad commis-
sioner will probably have no opposition.
The present auditor declines a renomi-
nation and there is a hot contest for the
place. Five candidates for supreme
court clerk are making a lively fight
for the nomination.

ASKS FOR WARSHIP STOP INTIMIDATION
U. S. CONSUL AT CAPE HAYTIAN
CABLES ONE IS NEEDED.
GUNBOAT MARIETTA SENT TO SCENE
PRESIDENT FIRMIN HAS FLED
FROM ISLAND.
Several Persons Killed in Bombard-
ment of Town Sunday by Govern-
ment—American Inter-
ests in Danger.
Washington, June 30.—A cable has
been received from United States Con-
sul L. W. Livingston at Cape Haytien
requesting an American warship to pro-
tect the interests of the United States
during the present revolutionary crisis
in Hayti. The gunboat Marietta, now
at San Juan, Porto Rico, was immedi-
ately ordered to Hayti. A cablegram from
Minister Powell at Port au Prince this
afternoon said he had received a tele-
gram from Cape Haytien saying that the
Haytian admiral had fired on the city
and that several persons had been
killed. The minister's dispatch also said
that President Firmin had left Cape
Haytien under protection of the foreign
consuls on the Haytian vessel. Another
cablegram said the Haytian minister of
foreign affairs had informed Minister
Powell that the government had ordered
the arrest of Admiral Killeck.

WITNESS CONFESSES CRIME.
Sensational Turn at Inquest Over Death
of Murdered Mail Clerk.
Council Bluffs, Ia., June 30.—Otto W.
Roderick of South Omaha caused a sen-
sation at the inquest over the remains
of Clark Moyer, the mail clerk whose
dead body was found on the street Sun-
day morning, by confessing that him-
self and two companions killed Moyer
by beating him to death. Roderick,
the witness called, and said his party
met Moyer on the street and the
latter passed insulting remarks.
Roderick then struck Moyer in the face
with a club from the effects of which he
later died. Roderick is under arrest
and the police are looking for his com-
panions.

STRIKE ON IOWA CENTRAL.
Boiler Makers and Helpers Demand
Shorter Hours and More Pay.
Marshalltown, Ia., June 30.—Two
hundred employees of the Iowa Central
shops walked out this afternoon. The
machinists, boiler makers and their
helpers and blacksmiths' helpers are in-
volved. The boiler makers want ten
hours' pay for nine hours' work and the
helpers want an increase of twenty-five
cents a day. The meeting today failed to
ratify the proposition made by the em-
ployers. Tomorrow the employees of the
car shops, roundhouse and other de-
partments will declare a sympathetic
strike.

BAD FIRE IN SOUTH DAKOTA.
Larimore, S. D., June 30.—The busi-
ness portion of Conway was wiped out
by fire this afternoon. The loss is
from \$60,000 to \$70,000 and insurance
\$30,000. Three general stores, a drug
store, two hardware stores, a meat mar-
ket, two hotels, a tailor shop, one dwell-
ing and a millinery store were burned.

HORSE THIEVES KILL OFFICERS.
Sheriff and Deputy Shot to Death While
Attempting to Make Arrest.
Guthrie, Okla., June 30.—Sheriff Bul-
lard and Under Sheriff Coburn, of Roger
Mills county, were killed today in a bat-
tle with horse thieves while the officers
were attempting to arrest the members
of a band of outlaws. The fight con-
tinued half an hour, the outlaws finally
surrounding the officers and riddling
them with bullets. The band escaped.
MAN OF MANY CRIMES RELEASED.
Al Beard Wanted for Murder and Bank
Robbery Set Free.
Lincoln, Neb., June 30.—Al Beard, ar-
rested at Kansas City seven weeks ago
and turned over to the Nebraska au-
thorities on the charge of murdering
John J. Gillilan, was today, on motion
of the county attorney released. Beard
at the time of his arrest was sought by
Minnesota on the charge of murdering
a policeman and Iowa for alleged bank
robbery.

MORO MURDERERS KILLED.
Two Natives Who Slaughtered American
Soldiers Pay Penalty.
Manila, June 30.—Two of the moros
who murdered Private Lewis have been
killed while resisting arrest. Dato
Adta Adma had promised to deliver the
murderers of Lewis when they were
captured. The mutilated bodies of the
two moros were subsequently brought
into the American camp suspended from
poles. A patrol of native constabulary
was attacked June 28 by forty Igorrote
tribesmen at Bagabag, province of Nue-
va Viscaya, in northern Luzon, and a
running fight ensued.

**STRIKERS GUILTY OF OFFENSE
WILL BE PUNISHED.**
MORE MINERS RETURN TO WORK
MONEY AND PROVISIONS BEING
SENT TO WEST VIRGINIA.
President Mitchell Adjusts Differences
in Illinois Fields—Knows Noth-
ing of Move to Settle
Trouble.
Wilkesbarre, Pa., June 30.—The
citizens' alliance society offers re-
wards aggregating \$5,000 for the
conviction of persons engaged in
boycotting, hanging effigies and other
criminal acts of intimidation prejudicial
to the rights of American freedom. At
strike headquarters it is claimed the of-
fering of such large rewards will cause
irresponsible detectives to arrest in-
nocent people in the hope of securing re-
wards.
The officials of companies operating
mines in the Pittston district say a num-
ber of old engineers and pumpmen re-
turned to work this morning and that
more have applied for work. At strike
headquarters it is stated only five pump-
men reported for work. Replying to
the reported claim of some of the small
operators that unless the old men return
at once they will resume with new men,
the miners' officials declare the compa-
nies have no notion of starting up as they
cannot get men enough.

Aid Sent to Strikers in West Virginia.
Indianapolis, June 30.—Money and
provisions are still being sent to the
striking miners in West Virginia. None
is being sent to Pennsylvania because
it is said the miners there have sufficient
for several weeks more. Secretary Wil-
son says the operators need not expect
the miners to weaken as they are pre-
pared for a long siege.

WANTS GOVERNMENT'S DATA.
Pacific Cable Co. After Records of Sur-
veying Party in 1899.
Washington, June 30.—A proposition
has been made to the government by
which the Pacific Cable company agrees
to finish laying the cable across the Pa-
cific a year earlier than contemplated
and give this government the benefit of
reduced rates in exchange for interma-
nental developed in the surveys by the
United States by the steamship Nero in
1899 for a practicable submarine cable
route across the ocean. The proposi-
tion is under consideration and it is said
there is a possibility of favorable ac-
tion.

JEANNE LANGTRY WEDS.
Daughter of Famous Actress Marries
Member of Parliament.
London, June 30.—Ian Z. Malcolm, a
member of parliament and formerly as-
sistant private secretary to Lord Salis-
bury was married this afternoon to Miss
Jeanne Langtry, the daughter of Mrs.
Langtry, the actress, at St. Margaret's
church, Westminster. The attendance
was very large. King Edward sent the
bride a present with a note in his own
handwriting.
WILL REMAINS VALID.
Denver, June 30.—By the unanimous
opinion of the supreme court today Den-
ver is declared entitled to the \$2,000,000
willed it by George W. Clayton for
founding Clayton college for boys.

IRON ORE MEN ON STRIKE.
Duluth, June 30.—Over two hundred
miners at Spartan on the Mesaba range
struck today for an advance in wages.

SENATORS IN FIGHT
BAILEY ATTACKS BEVERIDGE ON
FLOOR OF CHAMBER.
WAS OUTCOME OF BITTER DEBATE
TEXAN CLAIMED TO BE INSULTED
BY INDIANAN.

**Belligerents Are Parted by Members
Before Any Serious Injury Was
Done—Bailey Threatens to
Kill.**
Washington, June 30.—Senator Bailey
of Texas assaulted Senator Beveridge of
Indiana tonight just after the senate ad-
journing its executive session. The af-
fair was the result of a bitter con-
troversy which the two senators had
during the afternoon in which Beveridge
said Bailey had made an unwarranted
attack on Solicitor Pennington of the
department. Bailey demanded that
Beveridge retract the language uttered
at that time. The latter declined and
Bailey declared that he would make him
withdraw them. Beveridge still refused
and the Texas instantly sprang upon
him, seizing Beveridge, who is hardly up
to the average in physique, and seized
him by the throat with both hands. The
rush was so sudden and fierce that the
chair in which Beveridge was sitting was
pushed back against the desk and the desk
toppled over. Before the assault went
any further the senators sitting near
had moved between the desks. Hans-
brough seized Bailey by one arm and
Spooner seized the other. The Texas
senator is a powerful man and it was
with great difficulty the senators were
able to drag him away and when they
succeeded a part of the Indiana senator's
neckwear was ripped and torn away in
the vigorous grasp of Bailey. Senator
Bacon of Georgia and Assistant Door-
keeper Layton assisted in pulling the
Texas further away. Bailey meanwhile
struggled to get free and lunging to-
ward Beveridge. As the Indiana senator
was heard to utter something like a
threat about killing.

STEAMERS ARE SAFE.
Portland and Jennie Were Sighted by
Ship Centennial.
Port Townsend, Wash., June 30.—The
steamer Centennial reached port this
morning bringing news of the safety of
the steamers Jennie and Portland, also
that the story of the loss of the revenue
cutter Thetis is untrue. The informa-
tion was secured by the Centennial from
the whaler Belvidera. The Belvidera
was in sight of the Portland and Jennie
and left them to return to Nome, only
after her officers had assured themselves
that they could render no assistance to
the beleaguered vessels. At the time
they were last sighted the Portland had
been out of Seattle, Nome-bound, fifty-
two days and the Jennie forty-eight.
Signals from both vessels announced that
the passengers were well and food and
water plentiful and the general con-
ditions cheerful. The messages, how-
ever, carried the admission that the feel-
ing of cheerfulness was greatly argu-
mented by the arrival of the Thetis
standing by ready to respond to any
urgency signals.

WANTS GOVERNMENT'S DATA.
Pacific Cable Co. After Records of Sur-
veying Party in 1899.
Washington, June 30.—A proposition
has been made to the government by
which the Pacific Cable company agrees
to finish laying the cable across the Pa-
cific a year earlier than contemplated
and give this government the benefit of
reduced rates in exchange for interma-
nental developed in the surveys by the
United States by the steamship Nero in
1899 for a practicable submarine cable
route across the ocean. The proposi-
tion is under consideration and it is said
there is a possibility of favorable ac-
tion.

JEANNE LANGTRY WEDS.
Daughter of Famous Actress Marries
Member of Parliament.
London, June 30.—Ian Z. Malcolm, a
member of parliament and formerly as-
sistant private secretary to Lord Salis-
bury was married this afternoon to Miss
Jeanne Langtry, the daughter of Mrs.
Langtry, the actress, at St. Margaret's
church, Westminster. The attendance
was very large. King Edward sent the
bride a present with a note in his own
handwriting.

WILL REMAINS VALID.
Denver, June 30.—By the unanimous
opinion of the supreme court today Den-
ver is declared entitled to the \$2,000,000
willed it by George W. Clayton for
founding Clayton college for boys.

IRON ORE MEN ON STRIKE.
Duluth, June 30.—Over two hundred
miners at Spartan on the Mesaba range
struck today for an advance in wages.

When a woman is nervous her imagination gives fantastic and threatening shapes to the most familiar objects. By day she starts in fear at every sudden or unfamiliar sound. By night the furniture of her room takes on affrighting forms of ghost or goblin. You can't reason with the nerves. Neither logic nor love can quiet them. They must be nourished and then the outcry of the nerves will cease as naturally as a hungry child ceases to cry when fed.

Dr. Pierce's Pellets cure biliousness.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per month, by carrier, \$3.00 Per year, by mail, \$30.00

MARQUETTE, MICH., JULY 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

J. P. Morgan is said to have formed a coal trust. Who cares? What trust could rub it in harder than the present combination or agreement of the operators?

Watch perityphlitis. Its a ten to one shot that it will soon be the most popular disease in America.

Major Gardner's famous expose of Philippine administration has petered out to the discredit of the major and the vindication of Secretary Root.

Some of our exchanges convey the impression that the upper peninsula is inhabited by postmasters.

The Philadelphia debates and the successful issue of the Isthmian canal legislation would be sufficient in themselves to make the session of congress just drawing to a close one of the most notable in the country's history.

The proceedings of no session have been more closely scanned, nor have congressional debates ever been followed with greater eagerness.

The city of Menominee is the best example of this condition. Normally Republican, it has gone Democratic in recent city elections simply because Republicans have refused to vote the straight Republican ticket.

A hard fight for nominations before a convention or even a fight on the convention floor is no detriment to a party. It merely indicates that a healthy condition exists and that chances for election are good.

Such points of party discipline should be enforced in Menominee. The party is as well off if the holder is in the ranks of the opposite party.

Under the head of "Palaver of Politicians" the Detroit Free Press of Saturday gave this piece of misleading information relative to the attitude of the Marquette county delegation in the state convention on the lieutenant governorship.

The few out-of-town Republican politicians who were left over from Thursday's convention were still busy yesterday talking over what had happened, and a few interesting incidents were brought out.

The impression is probably general that the upper peninsula press, as a body, is taking prominent part in the present congressional campaign in the interest of one or the other candidate.

This would naturally be expected to be the case, as the fight is one of the most closely contested that the district has ever seen, and certainly the warmest since Congressman Sheldon laid Sam Stephenson of Menominee cold and low.

When a woman is nervous her imagination gives fantastic and threatening shapes to the most familiar objects.

You can't reason with the nerves. Neither logic nor love can quiet them. They must be nourished and then the outcry of the nerves will cease as naturally as a hungry child ceases to cry when fed.

glance over last week's exchanges showed that the large majority of them had no editorial comment on the situation, a considerable number had merely perfunctory, uncolored mention and but a small minority were unmistakably in the fight.

The Marquette people kept up the appearance of making a fight for the Newberry man as long as they thought necessary to make it seem that they were acting in good faith.

President Roosevelt has taken a step that may be fraught with important results in instructing Attorney General Knox to submit an opinion as to whether the combination controlling the coal output of the United States has an illegal existence.

The Marquette county delegation was solidly for Mr. Dutcher while that gentleman remained a candidate for the nomination. It was honest and sincere in the support it gave him.

What the other fellows say. Before the caucus Patsy was willing to bet \$1,000 that he had the vote of Schoolcraft county in his vest pocket.

The upper peninsula postmasters who have been hustling day and night in the interest of Mr. Sheldon for several weeks past will doubtless be glad when the night of the caucus comes.

Mr. Sheldon is reported as saying that his delegates will go to any candidate in preference to Mr. Wright.

A plea for harmony. The Menominee County Journal, apparently tired of the ceaseless dividing which is the distinguishing mark of Menominee county politics.

Now that the date for the Republican convention has been announced, it is time to get out of the race for fear that his candidacy should defeat a Houghton county man.

The Houghton Gazette says that there is a sort of a contest on in Schoolcraft county relative to the congressional delegation.

The several counties in the district are entitled to representation in said convention as follows:

Alger 3, Baraga 2, Chippewa 7, Delta 9, Dickinson 7, Gogebic 6, Houghton 22, Iron 4, Keweenaw 2, Luce 2, Mackinac 3, Marquette 10, Menominee 14, Ontonagon 3, Schoolcraft 3.

Not true. Under the head of "Palaver of Politicians" the Detroit Free Press of Saturday gave this piece of misleading information relative to the attitude of the Marquette county delegation in the state convention on the lieutenant governorship.

The few out-of-town Republican politicians who were left over from Thursday's convention were still busy yesterday talking over what had happened, and a few interesting incidents were brought out.

The impression is probably general that the upper peninsula press, as a body, is taking prominent part in the present congressional campaign in the interest of one or the other candidate.

This would naturally be expected to be the case, as the fight is one of the most closely contested that the district has ever seen, and certainly the warmest since Congressman Sheldon laid Sam Stephenson of Menominee cold and low.

When a woman is nervous her imagination gives fantastic and threatening shapes to the most familiar objects.

By day she starts in fear at every sudden or unfamiliar sound. By night the furniture of her room takes on affrighting forms of ghost or goblin.

You can't reason with the nerves. Neither logic nor love can quiet them. They must be nourished and then the outcry of the nerves will cease as naturally as a hungry child ceases to cry when fed.

and one each from Seney and Harrison. They claim the cause for the contest was on account of the First ward caucus, where the Young delegates were elected by acclamation.

There is no question about the action that will be taken in the several conventions when the facts are known.

One of the most disgusting and unwarranted affairs that has ever occurred in the political history of Manistiquette was the "rump convention" of last Saturday afternoon.

The chairman chosen denounces their action as unwarranted and states that they had no cause for electing a contesting delegation anywhere.

The action of the bosses has purified the political atmosphere of Schoolcraft county very much.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure.

Republican convention. A convention of the Republicans of the Twelfth congressional district of the State of Michigan is hereby called to meet at the theatre in the city of Marquette on Tuesday, the 15th day of July, 1902.

The several counties in the district are entitled to representation in said convention as follows:

Alger 3, Baraga 2, Chippewa 7, Delta 9, Dickinson 7, Gogebic 6, Houghton 22, Iron 4, Keweenaw 2, Luce 2, Mackinac 3, Marquette 10, Menominee 14, Ontonagon 3, Schoolcraft 3.

PROJECT NEW ICE RINK.
Those Interested in Hockey Contemplate Erecting One.

Considerable is being said about building a large ice rink in the twin cities. It is proposed to build a rink with a seating capacity of 2,000 on the Quincy sands, if the site can be secured there. Contractors Parker & Hamel are said to be somewhat interested in the project, although the whole matter is still in the embryonic stages. Failing to secure a location on the Quincy sands the promoters of the enterprise state the rink will be built in Houghton. Hockey interests are concerned in the enterprise. A team has been selected for next winter with the confident expectations that it will defeat all comers. The move for a new and larger rink is for the purpose of affording a better opportunity to play the game and to accommodate all who desire to see the events. Last season closed with the hockey fever at the highest pitch and with good facilities it is reasoned that next winter will see great hockey at Portage Lake. There will be no lack of patronage by the public, which is thoroughly enthused with the game.

EIGHT EVENTS SHOT OFF.
Hancock Gun Club Holds Another Interesting Match.

Eight events were shot off at the eighth shoot of the Hancock Gun club, as follows:
Ten blue rocks—Warder, 6; Peltó, 5; Behrens, 7; Clark, 4.
Ten birds—Behrens, 5; Dodge, 4; Warder, 8; Felto, 2; Gallon, 4.
Ten birds—Quayle, 2; Warder, 6; Hogeboom, 9; Dodge, 5; Behrens, 8.
Ten birds—Fuller, 6; Dodge, 4; Hogeboom, 9; Quayle, 6; Warder, 7.
Ten birds—Dodge, 6; Quayle, 6; Finley, 8; Hogeboom, 6; Fuller, 1.
Fifteen birds—Dodge, 9; Warder, 10; Behrens, 12.
Fifteen birds—Peltó, 9; Warder, 13; Dodge, 7; Quayle, 1; Gallon, 8.
Fifteen birds—Quayle, 5; Hogeboom, 13; Dodge, 6; Peltó, 7; Gallon, 6.
Fifteen birds—Hogeboom, 11; Fuller, 6; Swelt, 5; Behrens, 10.
Fifteen birds—Finley, 2; Dodge, 10; Hogeboom, 12; Swelt, 4; Peltó, 8.
Twenty-five birds—Dodge, 15; Behrens, 19; Warder, 21; Peltó, 19.

LACROSSE AS PLAYED BY INDIANS.
Saturday's lacrosse game between the Portage Lake and Calumet teams recalls the fact that Hancock was given an exhibition of the game as played by the aborigines on the same grounds five years ago. The event was on the Fourth of July and the Indian teams were from L'Anse and the Indian Mission. They marched up Quincy street to the grounds painted like savages. The game abounded with all of the interest of Indian lacrosse. The goal was a post, instead of a net as in the Canadian national game. A nine from the teams also played baseball with the White Caps, Hancock's champion ball tossers in those days. The Hancockers were the victors.

HIGH ROLLERS WON.
Friday evening Bushill's High Rollers of Lake Linden defeated Harrington's Stars of South Lake Linden in a bowling match at the latter's alleys. The games were very interesting from start to finish and the best side won. The High Rollers won the two first games and the Stars the third. In the second game the High Rollers broke the team record for Houghton county, 916 pins against 892 the former record. Charles Kottenbell, Frank Kaiser, Alex Barbeau, Thos. Goldsworthy and John Pfeiffer were the line-up for the High Rollers and Dollie Cuddy, James Prisk, Cleo Lafave, George Hartman and George Fernetie for the Stars.

RECALLS OLD DAYS.
Henry Bartel was in a reminiscent mood yesterday when he was speaking of a late spring. His mind rolled back to 1857, when he saw from eighteen inches to two feet of snow on the ground in Hancock on the eighth and ninth of June. Following this the steamer Lady Elgin and other boats were caught and held in the ice at the Entry and held a day and a night. Men were snowed in at the mines in Keweenaw county. The first boat landed at Eagle River that season the last of May.

TO ORGANIZE RUNNING TEAM.
The hose meeting to organize a running team for the Negaunee tournament, called at Hancock city hall for Sunday afternoon, was postponed until this evening. Only a few appeared at the meeting Sunday on account of so many being out of town for the day. A number stand ready to join the team, having expressed their willingness to do so. A general invitation is extended to all interested to attend the meeting tonight.

SETTLE TOWNSHIP MATTER.
The township boards of Hancock and Stanton are "settling together" and will agree on the boundaries of the two towns in a few days. A joint meeting will be held for this purpose. The controversy over the division of Hancock township will be settled out of court.

SAVES A WOMAN'S LIFE.
To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Stafford. Price 50c and \$1.00. Trial bottles free.

ORGANIZE CO-OPERATIVE STORE.

Plans Being Prepared for One at Tri-mountain Location.
A co-operative store is being organized at the Tri-mountain location with a capital stock of \$50,000, in shares of \$10 each. Captain Chynoweth of the Tri-mountain mine is encouraging the project and shares are being rapidly taken by residents of the location and others. The company owning the store on the location will take shares to the extent of \$15,000 and have offered their stock in trade to the new concern for the sum of \$25,000. A meeting will be held Thursday and the prospects are favorable for the perfection of the organization at that time.

COMMENCED DRIVING PILES.
Contractors Whitney Bros. of Superior have commenced driving piles for the approach of the Copper Range road to the county bridge. A snowload of square timber to be used in constructing the approach has been received at the old lime kiln dock, where the structure is being started from. Work is being prosecuted vigorously along the line of the Copper Range extension to Calumet, and the cars will be running before snow flies.

ROCKLAND WILL CELEBRATE.
Rockland will celebrate the glorious Fourth in a becoming manner. Calumet is the only town in Houghton county to have done so on the nation's birthday. A fine list of athletic sports is announced in addition to the regular features of the celebration.

COPPERDOM BREVITIES.
George H. Nichols has returned from a trip to Ohio.
Miss Olga Klement of Portage, Wis., is the guest of Miss Lula Braun.
Henry Ernst is driving the Val Blatz wagon, in place of the late Cyril Bovin.
John Hultman of the Franklin has moved from Back street to Front street.
George Coleman of West Hancock is entertaining his brother and family from Racine.

BARAGA BALL TOSSERS WIN.
Defeated Lake Linden in a Fast and Snappy Game.
George Werner and eight members of the Lake Linden baseball team, accompanied by St. Joseph's singer and 200 rooters from the stamp sand town, came to Baraga Sunday noon and departed as the shades of evening fell, leaving with a tale of woe to relate. The Lakes had a weary time of it. They were up against a team and a pitcher who could give points to many of the teams in the state leagues. The way they bent their backs and wrenched their shoulders trying to connect with the ball successfully made one think of a man after a butterfly with a buggy whip. The things Captain Roubillard's braves did to this bunch are too numerous to mention. The score ended up to them was due to two of the most scathery hits possible, and they may consider themselves lucky to be counted in the score column at all.

Werner, the pitcher, the pretzel youth, the boy with the turban locks (by the way, he has had since his last appearance here), would be admired by the crowd if it were not for his dirty playing. His spiking Dorey, and a little later the same attempt on Tribble, did not set well with the crowd. Such playing never gains the esteem of the fans in any civil and common way.
Then, too, there were the rooters—it would be too bad to mention them. In appearance, however, they were the swiftest that ever happened. A minute description is precluded by lack of space but suffice it to say that they dragged their colors home in the dust, and the tune of the Dead March. Following is the score:
Baraga 8 11 3
Lake Linden 3 7 6
Batteries: Berryman and Denomine; Werner and Neugebauer. Umpires, Hill and Brown. Attendance, 600.

DOLLAR BAY DEFEATED.
Franklin Ball Club Wins Game Sunday by Score of 12 to 7.
The Franklin ball tossers defeated the Dollar Bays Sunday by a score of 12 to 7. The Dollar Bays withdrew at the end of the sixth inning on account of a close decision by which they were not benefitted. Features of the game were a three base hit by Funky, which brought in three men, and the batting of the Franklins. The game took place on the Franklin field and was witnessed by a large number. The Dollar Bays are the old adversaries of the Franklins and warmed their jackets last year. Outside of the Portage Lake mine they are probably the two best teams in the county. The star of the Franklins is evidently in the ascending now. The team looked fine togged out in their new suits. The batteries: Franklins, Hocking, Kelsey and Sullivan; Dollar Bay, Wester and Cruze. Umpires, Goulett and Pantera.

DREDGE ENROUTE TO PORTAGE.
Pryor's dredge No. 1 is on her way to Portage Lake, having left Sandusky harbor last Thursday in tow of Pryor's tug Nethen and the tug Shenck of Toledo. They are expected to arrive here Tuesday or Wednesday. The dredge will reinforce the dredge at work on the government dredging contract in Portage Lake. One dredge is working at the Entry and another will be sent to the ship canal to operate. Dredge No. 1 has been at Sandusky for the past two years, engaged on a government job taken by the Pryor firm in the harbor there.

SETTLE TOWNSHIP MATTER.
The township boards of Hancock and Stanton are "settling together" and will agree on the boundaries of the two towns in a few days. A joint meeting will be held for this purpose. The controversy over the division of Hancock township will be settled out of court.

PECK'S KING OF OINTMENTS

At the cost of only a two-cent stamp included in a letter, to pay for the postage, a trial box of one of the most efficacious remedies known to modern science may be procured. This is Peck's King of Ointments, the sovereign remedy for ulcers, old sores, running sores and fever sores. For that most annoying affliction, itching piles, it is the best remedy extant. This ointment has made many remarkable cures after every other means of relief had failed. Everyone who gives the ointment a fair trial will heartily endorse all its makers claim for it. It is put up in two-ounce glass jars at 25 cents. If your druggist does not keep Peck's King of Ointments it will be sent by mail, postpaid. The well-known reputation of the proprietors of this wonderful ointment, Peck Bros., Grand Rapids, Mich., confirms in the strongest manner the high character of this remedial agent.

deducted next Sunday by Rev. C. A. Marvin. The meetings will be held in the large assembly room in the Hall block in Houghton.
L. Danto of Hancock street, who broke his leg in the fall of the Lake Superior Iron & Metal company six weeks ago, is able to walk with the aid of crutches and is taking occasional airings on the street.
Trimountain location is one of the busiest places on the South range at present. The contractors are rushing up thirty-five new houses. The sound of the hammer and saw is heard all over the location.
At the Good Will Farm recently there was one more baby than dead. An unknown visitor noticed the deficiency and supplied the want anonymously. The management hopes the person will call and see how nicely the crib fills the bill.
Joseph Allen of Hancock, recently a resident of Lake Linden, was presented with a handsome gold emblem of the Junior Temple of Honor and Temperance by the members of the Lake Linden Temple. He was superintendent of the local society for the past eight years.
Messrs. Kitts, Francis and Wing furnished mandolin music for the meeting at the Y. M. C. A. Sunday afternoon. I. Yohannan, a native of Persia, appeared in the costume of the people of the higher class in that country and made an address. He also spoke at the Norwegian Lutheran church in the evening.
The second annual excursion of the Club Jacques Cartier to the canal will take place today, by the large Pilgrim. The Quincy band will accompany the party. The boat will leave Hennes' dock at 9:30 and Close & Bawden's dock at 10, the Atlantic dock at 10:30. Tickets are fifty cents. A good time is assured to all.
Saturday afternoon the members of the Lincoln Lodge, Sons of St. George of Lake Linden, attended the peace celebration at Calumet in a body. A special train left Lake Linden at 1 o'clock going to Calumet by way of Hancock, where it took on the Hancock and Houghton lodges. A large number of people of Lake Linden and South Lake Linden also attended the celebration.

VACATION DAYS.
Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds, "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, Swift, Tex. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits. Harwood, Ishpeming; Stafford Drug Co.

A little life may be sacrificed to an hour's delay. Cholera, infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.
All who use atomizers in treating nasal catarrh will get the best result from Ely's Liquid Cream Balm. Price, including spraying tube, 75 cts. Sold by druggists or mailed by Ely Bros., 56 Warren St., N. Y.
Messrs. Ely Bros.—I sold two bottles of your Liquid Cream Balm to a customer, Wm. Lambertson, 1415 Delachaise St., New Orleans; he has used the two bottles, giving him wonderful and most satisfactory results. Geo. W. McDuff, Pharmacist.

THE COPPER HANDBOOK
1902 EDITION.

The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows:

- I. History of Copper.
- II. Chemistry and Mineralogy.
- III. Metallurgy.
- IV. Glossary of Mining Terms.
- V. Copper Deposits of the World.
- VI. Copper Deposits of the United States.
- VII. Leading Foreign Mines.
- VIII. Lake Superior Mines.
- IX. American Copper Mines.
- X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance. The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be

SENT ON APPROVAL
and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded.

MAY ADJOURN TODAY

CONGRESS HAS ABOUT WOUND UP ITS LABORS.

PHILIPPINE BILL REPORT ADOPTED

ELKINS SUPPORTS RESOLUTION TO ANNEX CUBA.

West Virginia Senator Declares Project Is for Best Interests of Both Countries - Hanna and Platt Reply.

Washington, June 30.—With the final adjournment probable tomorrow, the house worked under high pressure from noon until far into the night.

Report on Philippine Bill Adopted.

The conference report on the Philippine civil government bill, which was considered the last obstacle in the way of adjournment was adopted by a strict party vote with the single exception of McCall of Massachusetts, who voted with the Democrats.

WHEAT AND CORN DAMAGED.

Wabash River Overflows, Ruining Many Acres of Cereals.

La Fayette, Ind., June 30.—Heavy rains of the past thirty-six hours have caused a rise of twenty feet in the Wabash river.

Terre Haute, June 30.—The Wabash river has gone into the bottom lands many miles, ruining thousands of acres of corn now too late to replant.

Danville, Ills., June 30.—A heavy wind and rain of the past forty-eight hours has ruined the wheat crop and seriously damaged wheat and corn.

La Porte, Ind., June 30.—The Kankakee river has overflowed covering miles of contiguous territory.

CZAR PROUD OF HIS NEW SHIPS.

Russian Ruler Says American Built Vessels Are Satisfactory.

GOVERNMENT OF PHILIPPINES

BILL PROVIDES LEGISLATURE OF TWO HOUSES BUT IS NOT EFFECTIVE UNTIL PEACE HAS PREVAILED TWO YEARS.

Washington, June 30.—The Philippine civil government bill as finally agreed upon today provides for a legislature of two houses, one a Philippine commission, and the other an assembly elected by the natives, except the moros and pagans.

Annexation of Cuba.

Early in the session Senator Elkins of West Virginia delivered an earnest speech in favor of the annexation of Cuba maintaining that it would be in the best interests of both countries.

BAILEY ASSAULTS BEVERIDGE.

Hot words between Senator Bailey of Texas and Senator Beveridge of Indiana on the floor of the senate was followed after adjournment by an assault on the Texas upon the Indiana senator.

TWO FIGHTS IN ONE NIGHT.

Chicago, June 30.—Philadelphia Jack O'Brien fought two men tonight, and was given the decision over both, each bout lasting six rounds with a thirty-minute intermission.

IRON-OX

"It is with real pleasure that I certify to the efficacy of Iron-Ox Tablets.

Having been in the Retail Drug business thirty-seven years, I have never sold any proprietary medicine that has given me such satisfaction to my customers, or has been such an 'easy seller.'

Iron-Ox Tablets the best cure for constipation, an unequalled, nerve tonic

50 Tablets, 25 Cents

DEFENSE OF CANAL

U. S. FACES VEXATIOUS PROBLEM IN ISTHMIAN WATERWAY.

COLOMBIA CAN DELAY CONSTRUCTION

MAY REFUSE TO CEDE LANDS NEEDED FOR WORK.

South American Republic Is Not Friendly to Government and Projected Treaty May Not Be Successful.

Washington, June 30.—Now that the legislative battle over the isthmian canal is ended the United States faces the real problems of construction and defense, and before these questions can be solved the diplomatic skirmishes with isthmian governments must be brought to a successful ending.

Must Treat With Colombia.

The question of where coal stations shall be located for the use of the canal must be immediately settled in view of the fact that in the treaty to be negotiated with Colombia a provision will be inserted, if the administration can accomplish it, by which this government will obtain ownership or a lease of the necessary sites.

Range of Money Rates.

Money on call was firm at 3 1/2 to 6 7/8 per cent. Last loan at 4 and closing offered at 3 1/2.

CHICAGO GRAIN MARKETS.

Chicago, June 30.—In wheat today net gains of 1 1/2 to 1 3/4 were established for the day but the closing prices were as much as 3/4 from the best prices touched.

FUNERAL SHIP IS PREPARED.

Annapolis, Md., June 30.—The cruiser Brooklyn, which is to convey the remains of Lord Pauncefote to England, arrived here yesterday.

GARDNER CLAIMS UNFAIRNESS.

Officer Who Asspersed Comrades Cannot Prove Charges.

Manila, June 30.—Major Gardner has testified before the commission investigating the charges made by him against officers and soldiers in the province of Tayabas that the report made by him to Governor Taft, in his civil capacity as governor of Tayabas, was based on evidence that he possessed.

FLOODS DID MUCH DAMAGE.

St. Louis, June 30.—The lowest estimates placed on the damage wrought within a radius of 150 miles of Alton, Ills., by the storm of wind and rain is \$1,000,000.

FALLING HAIR

Save Your Hair with Shampoos of CUTICURA SOAP

And light dressings of CUTICURA OINTMENT, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp, when all else fails.

Complete Treatment For Every Humour, \$1, consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales, and soften the thickened cuticle; CUTICURA OINTMENT (50c.), to instantly allay itching, inflammation and irritation, and soothe and heal; and CUTICURA RESOLVENT PILLS (25c.), to cool and cleanse the blood.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, tasteless, odorless, economical substitute for the celebrated liquid CUTICURA RESOLVENT, as well as for all other blood purifiers and humour cures.

DEFALTER GIVES HIMSELF UP.

Salt Lake, June 30.—Alexander A. Robertson, a member of the city council and paying teller in the Wells Fargo bank, who disappeared Saturday and whose accounts at the bank showed a shortage of between \$85,000 to \$90,000 has given himself up to the police and is now in jail.

BOXING IN LONDON.

London, June 30.—In the boxing contests tonight Parkes of the Polytechnic club won on points from Dodge of Harvard, heavyweight. For middleweight Weak of Yale was defeated by Wattners of the Lynn club. Cates of Kansas was bested by Warner of Highgate in the lightweight class.

ROWDY BALL PLAYERS SUSPENDED

Chicago, June 30.—President Johnson of the American league has suspended for an indefinite period Captain McGraw and Joe Kelley of the Baltimore team, whose actions on the field at Baltimore Saturday caused Empire Connolly to forfeit the game to Boston.

TODAY'S WEATHER.

Washington, June 30.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Tuesday and Wednesday. Light variable winds.

DULL MARKET FOR COPPERS.
 Situation Is Thought to Be Due to Manipulation.
 Hayden, Stone & Co. wired the Laidley Commission Co.: Nothing to say on coppers. Dull, flat market and very few sales.
 Paine, Webber & Co. said: Amalgamated began a rally with a decline and prevented a day in the other coppers, but its weakness had less effect on the rest of the list this time than it has heretofore. New York pronounces the character of the buying of Amalgamated this afternoon as good. The metal market is made to appear unnecessarily weak. We think the copper situation is being subjected to a good deal of manipulation and we believe those who buy good coppers will make money.
 Higher Prices Expected for Wheat.
 W. H. Laidley & Co. wired the Laidley Commission Co.: Wheat had very much higher and excited opening owing to the phenomenal rain fall and closed near the top. Northwest receipts were heavier and seen to continue to decrease. Statistics, however, cut very little figure as the weather conditions govern the market entirely. The indications at present are for a clearing up, west of the Mississippi. Should the rainy weather continue very much higher prices may be expected for wheat.
 Corn opened excited and very strong. The visible supply showed an increase. Statistics were ignored entirely. The July option is in such a manipulated condition that the bulls can put the price anywhere they please. We expect to advise the purchase of September for a good turn.
 Oats opened higher in sympathy with the rest of the grains and upon the bad reports and continued to advance to a close two cents above Saturday. Cash oats continue to be firm, cover the July option and country reports are so very bad that unless a change comes in the weather very shortly higher prices may be expected. It is clear, however, we favor selling July oats.

New York Market Steady.
 Walker Bros., wiring Paine, Webber & Co., had this to say of the New York stocks: The market today opened steady with some strength in specialties. There was little commission house business, but the traders bid the prices up and forced the shorts to cover. C. F. I. was quite strong, but reacted from the highest point. Sugar was bid up by the shorts and a number of the specialties advanced in the same way. During the middle of the day call money advanced and caused a little reaction but it did not last long. The market closed without features and the transactions generally were light.
 Largest and Best Sale of Jerseys in This Country for Years.
 The recent auction sale at Hood Farm, Lowell, Mass., dispensed 154 beautiful Jerseys to breeders and farmers all over the country from Maine to Oregon, it being the largest and most successful sale of American-bred Jerseys that has been held in this country for years. There was an attendance of over 500, there being fifty-eight bidders, comprising the best known Jersey breeders in the country. The sale was conducted by Peter C. Kellogg of New York. The forty-eight cows sold brought \$9,165, an average of \$190.63; seventy-seven heifers and calves sold for \$5,890, and thirty-nine bulls and bull calves brought \$2,895. Thirty head by the great show bull Hood Farm Pogs sold for \$3,810; nineteen by Toronto for \$2,907; eight by Sophie's Tormentor for \$2,206, an average of \$287; eight by Brown Bessie's Son, \$1,200; and eight by Chromo, \$824. Three young heifers by Hood Farm Pogs, thirty-nine brought \$655, an average of \$218.
 The remarkably good prices brought by the young heifers of Hood Farm Pogs Ninth show that breeders appreciate the great merit represented in this young bull and his progeny. None of these heifers are in milk, their average age being about fourteen months. One of them brought \$330, this being the highest price paid for any female not in milk. Hood Farm Pogs Ninth is retained at the great show of Hood Farm Pogs. He is a son of the famous cow Figgis, by the great show bull Hood Farm Pogs. Figgis herself was the great plum of the sale and was bought by the well known banker and copper magnate, Thomas W. Lawson of Boston. The price paid was \$875.
 This sale reduces the Hood Farm herd to a more convenient basis for business, and young stock from the great producing sires and dams at Hood Farm will continue to be in demand among progressive breeders. Besides others, the herd now contains thirty daughters and granddaughters of Hood Farm Pogs, thirty-six daughters and granddaughters of Sophie's Tormentor and ten daughters of Hood Farm Pogs Ninth.
 The famous imported Berkshire boar Sambo, which Mr. Hood himself brought in England two years ago, was purchased by Charles F. Mills of Springfield, Ills., for \$150, and about fifty other choice Berkshires were sold at average prices which showed that the demand for this breed of hogs is good.
 When your system is wasting away with melancholy thoughts, restless nights, sorrowing days, renew life's glorious pleasure with Rocky Mountain Tea. 35 cents. The Stafford Drug Company.

TREAT YOUR KIDNEYS FOR RHEUMATISM.
 When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Plover, Wis., says: "After unsuccessfully doctoring three years for rheumatism with the best doctors, I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." People's Drug Store.

 CITY BREVITIES.
 Weather forecast: Generally fair; stationary temperature; variable winds. Yesterday's temperature: 7 a. m., 54 degrees; noon, 60 degrees; 7 p. m., 60 degrees; maximum, 62 degrees; minimum, 52 degrees.
 Louis Corbit of Negaunee was here yesterday.
 The Beavers will meet this evening at the usual place at 8 o'clock.
 Assessor T. A. Thoren of Negaunee was a Marquette visitor yesterday.
 The W. T. C. U. will meet at 341 West Bluff street, with Mrs. Pierce, today.
 Miss Lulu Gilchrist of Negaunee is visiting Miss Edna Thompson, 609 Pine street.
 Mrs. Frank Ward left last night for Duluth for a two weeks' visit with friends.
 Mrs. A. D. MacDonald has just purchased two Rock street dwellings from Mrs. Valerie Dion.
 T. J. Foley has the popular Anheuser-Busch beer on draught at his place. There is a big demand for this brew.
 A party of ten young men spent Sunday at Sydney Ormsbee's camp, under the chaperonage of Mrs. Ormsbee.
 Mr. and Mrs. Howard Kelsey concluded a couple of days' visit with relatives and friends here yesterday, returning to their home in Houghton.
 Miss Eliza Bosworth returned to her home in Marquette Sunday morning, after an extended trip in Europe and Cuba. She visited in New York before coming back here.
 Mr. and Mrs. A. McDonnell leave for Traverse City today. Mr. McDonnell has been busy with contracts for the Marquette & Southeastern people for a number of months past.
 County Clerk Ross has issued marriage licenses to William D. Harmon of Marquette and Marie P. Horan of St. Ignace and to Rodias Wiseman of Marquette and Amelia Evenson of Republic.
 A general convention of the Lutheran synodical conference, which embraces six synods and has over 3,000 ministers will be held at Milwaukee from July 25 to 29. It will be attended by Rev. Carl Aepler of this city.
 The Friant sailed for the Huron Mountain club yesterday morning, returning in the evening. The steamer carried a number of guests to the resort, including Hempstead Washburn of Chicago and Mr. Hamilton of Detroit.
 A cement walk is to be laid in front of the Mack block, corner of Washington and Third street, during the next few days. The old walk was worn and the new one will be made of concrete. The work will be done by the appearance of this portion of Washington street.
 It is expected that the hop to be given by the Royal Arcanum the night of the fourth will be a great success. The public is invited. The admission will be fifty cents a couple. The ideal orchestra will furnish the music and Joe Hogan will do the prompting.
 The school for the German children of the German Lutheran church will meet regularly 9 a. m. in the basement of the church structure. The German lessons for children of English speaking and other parentage are given at 1:30 p. m. at the same place.
 The harbor tug Schneck, Captain Bowen commanding, is resident in the city of new point. The crew and passengers have been busy the past two weeks loading the craft a new dress and as a result of their work, she looks greatly improved and all hands are proud of her.
 Arrangements are practically completed for the merchants' picnic on July Fourth and indications are the affair will be a banner event in every way. One of the features of the day will be a baseball game between the South Side and the North Side Marquette teams for a purse of \$25.
 Justice Byrne sent a couple of seven-year-old boys to the county jail yesterday to serve sentences of two days imprisonment. The youths were picked up for being drunk. The imprisonment is expected to be a warning to them to mend their ways. Both of the boys are the victims of bad associates.
 The Chicago & Northwestern road will resume its sleeping car service between Chicago and Marquette on July 15. A Pullman drawing room car will leave Chicago daily at 8 p. m. and will arrive here at 8:05 a. m. It will leave for the south on the evening train departing from here at 6 o'clock and will arrive at Chicago at 7:30 the next morning.
 J. H. Russell of Jackson, father of Mrs. Arthur Palmer, who is visiting his daughter here, was fortunate enough to catch a five-pound trout off the rocks near Middle Island point yesterday. The Mining Journal can safely say that this is no "fish" story, as Mr. Russell brought the trout right to the office and exhibited it for the benefit of the admiring members of the staff. As far as The Mining Journal knows, this is the first five-pounder to be landed this year. Mr. Russell is to be congratulated.
 A well known gentleman of the city who last year in the copper country pulled off the only successful horse race meet of the season is contemplating giving a donkey show here and at Ishpeming within a short time. It will differ in many respects from anything of the kind ever had here, will be given under the American association rules and will, aside from trotting and pacing, consist of running and hurdle races. Horses from as far distant as Chicago

Women as Well as Men Are Made Miserable by Kidney Trouble.
 Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.
 Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.
 Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

POTATO PATCH FOR EACH.
 Scores of Prospective Homesteaders to Each Tract of Restored Lands.
 The officials of the land office have been fairly deluged with letters asking for information concerning those lands in the old Bay de Noquet grant which have been restored to the public domain and which will be subject to entry next month. The communications come not only from upper peninsula points, but from places as far distant as California and other nearby states, and the officials have been kept busy sending out replies.
 A rather amusing feature in the matter is the fact that the lands which will be available for entry only constitute about twelve hundred acres, located about thirty miles up the lake shore from Marquette. The acreage restored to the public domain is considerably larger than that, but much of it was years ago entered upon, and these entries, long held up, will now stand as valid.
 As it is, there are only about eleven homesteads available to the general public—three of 160 acres each, one of 120 acres, four of 80 acres, two of 40 acres and one of 20 acres. If all the applicants succeeded in obtaining a portion of the lands, it is doubtful if each would have enough for a fair-sized potato patch. A number of prospective homesteaders have been up to inspect the lands, and while it is said that none of the homesteads are particularly valuable, any more so than others available in the upper peninsula, there promises to be a great rush for entries when the time comes.

DIED AT A RIPE AGE.

Father of John L. Van Brocklin Passed Away at Ninety-Four.

J. L. Van Brocklin returned Sunday from Reading, Pa., where he was called early last week on account of the death of his father, Philip C. Van Brocklin. Although the deceased was not known here the following clipping from the Reading Daily Times will be of general interest on account of the remarkable old age to which members of the family have lived:

"Philip C. Van Brocklin died of old age and general debility at the residence of his son-in-law, William B. Miles, 1542 Mineral Spring road, aged ninety-four years, three months and twenty-eight days. Mr. Van Brocklin was an old iron master and was well known throughout this state, New York, Vermont and Canada.

"Mr. Van Brocklin and wife celebrated their sixty-fifth wedding anniversary Sunday, June 1. Both were remarkably well preserved for their age, although for the past year the deceased had been failing. They were married in Paris, Ont. He was born in Camden, N. J., ten years ago. Mrs. Van Brocklin is her eighty-second year and is at present enjoying good health.

"Mr. and Mrs. Van Brocklin are the last of their families. The former came from a family that was noted for its longevity. All his brothers and sisters lived to be more than ninety years of age. The couple were the parents of twelve children, seven of whom, three sons and four daughters, are living. They have sixty-three descendants."

MAY BUILD FOUNDATION.

Members of Methodist Church Congregation Saving Money for the Society.

At the time the members of the Division Street Methodist church congregation decided to build a new church it was not thought that the men would take such an interest in the improvement. A few weeks ago an attempt was made to sell the old building as it stood. It was soon found that this could not be done to advantage, so the men decided to tear down the building themselves and dispose of the lumber. This seemed like a big job and it was predicted by many that the site could not possibly be cleared in less than three or four weeks. In just two weeks from the time the work was started the last piece of timber was removed.

The members now propose to tackle a much bigger contract, that of excavating for the foundation. This work was started yesterday morning with a large force of willing hands, most of whom are on the night shift this week. The dirt flew and it is expected that every day until the task is finished. There is five feet of muck and about as many feet of rock to be removed.

The members are now talking of building the foundation. This will be a big undertaking as the dimensions of the building are to be in the neighborhood of 100 feet square. The depth of the basement will be from eight to ten feet. About the foundation of the church by the members, the total saving to the society will be nearly \$3,000. This will reduce the cost of the church just that much.

The foundation will probably not be completed for about two months. When it is finished, all services and meetings will be held in the basement.

C. J. BYRNS A CANDIDATE.

Present Representative Wishes to Be Returned to State Legislature.

Charles J. Byrns is a candidate for renomination to the state legislature from the Second district of Marquette county. So far as at present known, Mr. Byrns will have no opposition, so that his nomination will be by acclamation.

Mr. Byrns has made an efficient representative. He did a great deal of work in the house last term. He not only worked in the interest of his district but the upper peninsula generally, but he also labored hard on all matters pertaining to the welfare of the state. Byrns was up and doing when other representatives were inactive. He was at Lansing but a short time when his friends at home were satisfied that he would give a good account of himself. No important bills were introduced that he did not investigate and he was early recognized by other members of the house as being a man capable of sound judgment.

Byrns' popularity can best be judged from the fact that people living in other parts of the state frequently came to him for assistance in preference to going to their own representative. He was a member of some of the most important committees and he left the capital with a fine record.

No representative who ever went from the upper peninsula did more for those who sent him than Byrns. During his one term he was successful in landing three positions for Ishpeming people. Before the legislature convened he had a movement well started for placing Victor Vanhala in a good position. He next looked after Miss Annie Trombly and yesterday his successful work in the interest of Joe Hooper was announced.

There is perhaps no man in this section better known among the politicians of the lower peninsula than Byrns. His his work in connection with fraternal societies has brought him in contact with nearly every man of prominence in the state.

M'GINTY-KALINK.

Two Well Known Ishpeming People Joined in Wedding Yesterday.

The wedding of Mr. William McGinty and Miss Gertrude Alida Kalink occurred yesterday. The marriage took place in St. John's church, which was prettily and artistically decorated by the friends of the bride with ferns, palms and marguerites. The strains of Mendelssohn's wedding march played by the church organist, Miss Nellie Kennedy, the bride entered the church on the arm of the best man, Mr. Patrick J. McGinty, brother of the groom, preceded by the groom and the bridesmaid, Miss May Kalink, niece of the bride. The bride wore a gown of pale green foulard, trimmed with emerald chiffon and velvet, and she carried a white ivory-bound prayer book. The bridesmaid wore pink foulard with cream lace trimming and carried cream peonies. The ceremony was performed by Rev. Father Kehoe. It was followed by Lambeth's mass during which Mr. Edward Hickey rendered the solo "Ave Maria."

The church was thronged with friends of the contracting parties. After the mass, the wedding party proceeded to the home of the bride's father, Mr. John Kalink, 124 West Superior street, where a dainty breakfast was served to the immediate friends and relatives of the happy pair. The house was decorated with ground pine and marguerites. The wedding party and friends accompanied Mr. and Mrs. McGinty to the station and gave them a liberal shower of rice, after appropriately decorating their baggage.

Mr. and Mrs. McGinty left on the 12:25 train for an extended trip to the East. On their return, they will be at home to their friends at their residence, 110 Barnum street.

ABLE RIVER PILOTS.

Slick Work Done on Freight Ferries as Well as on those for Passengers.

Everybody knows about the dandy pilots of the ferries on the North and East rivers, who, whatever the wind and whatever the state of the tide, bring their boats into their slips trip after trip with such a neatness of handling that you can scarcely believe when the big boat strikes the bridge. But there are other pilots on the rivers who do remarkable work of this sort, too, of whom very few people hear; the same being the pilots of the big tugboats that haul down the great boats with railway freight cars.

There is one landing for carlats at the freight yards of the New Haven road, in Mott Haven, within plain, close view from the new Willis avenue bridge over the Harlem, and people passing over this bridge when a tug with floats happens to be approaching always stop and line up along the side of the bridge to see it make the landing.

Up the narrow Harlem, from the East river, comes the big tug with two great unweildy floats, each carrying eight or ten cars, lashed one to either side. Big as she is she looks small and she is small compared with the long, wide, blunt-ended floats. But the tug has got the power, and the man at her wheel knows how to handle it; and, whether the tide is ebb or flood, or whatever the wind may be he brings the two great scoops up the narrow river, and puts 'em in the slips where they belong just as neatly and surely as he would put himself in there alone. The river is so narrow that a man can't come at the slips straight from open water in front, but has to come up and halt and turn and work his way in. But this he does in a manner to command admiration.

With those two great, bulky barges strapped to him he comes up the river to pretty nearly opposite the ends of the slip, coming along just as quietly and easily as can be, and then he begins manipulating his tow to get it headed around toward the slip. You can hear from where you are standing on the bridge over the river, every now and then, the deep, sonorous sound of the engine room gong, as the man in the pilot house pulls on the finger-hold, and instantly with the sound of the gong comes the churning of the water under the tug's stern, as the screw is turned in answer to the signal; for the man in the pilot house and the man in the engine room work together.

There's no hurry or worry about it all, but to the accompaniment of an occasional musical gong strike or two, and the churning of the tug's propeller, you see what sort of a scene of her was her smokestack and pilot house rising above the roofs of the cars on the floats, but now here she is, with no gingerbread work about her, but an able boat and with a steamboat man in the pilot house, sure.—New York Sun.

FIREMEN CALLED OUT.

The firemen were given an early call yesterday morning. A blaze was discovered in the South Shore company's south side office by members of a train crew who pulled in about 5:30 o'clock. The blaze started in a cuspidor, which was partially filled with sawdust. The sawdust, which had caught fire, caused the trouble.

The alarm was turned in by one of the railroad men from a box on First street. When the firemen arrived they were unable to locate the fire as the man who gave the alarm did not wait to let them know where to go. While the railroad men forced the door of the office and extinguished the blaze, a hole burned in the floor made up the greater part of the damage.

IN BUSINESS AT HUMBOLDT.

H. C. Cain, who is engaged in the manufacture of ice cream here, is considering the advisability of opening a general merchandise store at Humboldt. He was up there one day last week to look the ground over and he met with no little encouragement. His idea is to put in a stock of groceries, provisions, notions, miners' clothing, boots, etc. In case he starts in it is possible he will put up a building as the old store structure at the location is rather large and is in bad repair. There are now a good number of men employed at the mines near Humboldt and a business such as Mr. Cain has in mind should pay. There is no store there at present and the people are said to be anxious for some one to start in.

ELECTED NEW OFFICERS.

At the regular monthly meeting of the Young People's society of the Swedish Lutheran church held last Friday evening the following officers were chosen for the ensuing term: President, A. W. Johnson; vice president, George Skogberg; recording secretary, Otto Swensson; financial secretary, Albin Hasselblad; treasurer, M. W. Broman; organist, Amanda Anderson; librarian, Victor Vall; assistant librarian, John Forsberg; program committee, Oliver Johnson, Nellie Kellgren, Teckla Forsberg, Lottie Isaacson, Harriet Bengtson and M. W. Broman; auditing committee, George Skogberg, Oliver Johnson and J. O. Viking.

THE MUNISING EXCURSION.

The excursion to Munising on the Fourth, via the Lake Superior & Ishpeming, Munising line, and Marquette & Southeastern, will be well patronized by Ishpeming people. Many have a curiosity to go over the Marquette & Southeastern line and they will have no better chance this season. There will be no observance of the natal day here and with a rousing celebration at Munising it is certain that all who take the trip will have a good time. The round trip fare from this city and Negaunee will be only \$1. The train will leave the local station at 7 o'clock in the morning and the run down will be made in about two hours. Returning a special train will leave Munising after the fireworks display. Tickets will be good for return until the evening of the 7th. The Negaunee Orchestra band will furnish music.

The Hot Weather Test makes people better acquainted with their resources of strength and endurance. Many find they need Hood's Sarsaparilla which invigorates the blood, promotes refreshing sleep and overcomes that tired feeling.

Ladies! See our big line of shirt waists. Going at reduced prices. All the late patterns. Finnish Mercantile association.

ISHPEMING IN BRIEF.

Miss Ella Mullins is home to spend her summer vacation with her people. A number of the members of the Lake Laurie club spent Sunday at the camp. F. A. Harper of Chicago is in the city visiting at the home of Cornelius Kennedy and family.

Mrs. William Verran and her three children are here from Rossland, B. C., on a visit to relatives. Mr. Verran is publishing a paper at Rossland.

C. H. Hall of Evanston, Ill., formerly of this city, passed through here yesterday en route to Houghton where he will spend a few days with C. H. Moss and wife.

J. T. Quine, who has been at his home here for about three weeks nursing an injured limb, has returned to the Appleton mine at Loretto, to resume his work.

Mrs. N. Krogman entertained the members of the Ishpeming Literary club yesterday afternoon. The function was in honor of Mrs. H. O. Young, president of the club.

A number of the taxpayers are figuring on laying cement walks at their homes. E. P. Bigler recently put one in at his place. C. J. Byrns and M. L. Lee are now making similar improvements.

The Sunday school society of the Swedish Lutheran church has postponed its picnic, which was announced to take place on the Fourth at the Cleveland park. Another date will be decided on within a few days.

Solicitors are out in the interest of Wright & Sons of Milwaukee, who will publish an illustrated book on Ishpeming and Negaunee. They are meeting with excellent success. Several hundred copies of the publication will be sold here.

The grounds surrounding the new school building at the Winthrop are to be improved. The plat will be planted with grass seed, an iron fence will be built and cement walks are to be laid from the street to the building. The school board figures on spending several hundred dollars.

A meeting of the Upper Peninsula Medical association will be held in this city on Tuesday and Wednesday, July 15 and 16. A large number of the physicians of the peninsula are expected to attend. On the evening of the 14th the visitors will be tendered a banquet at the Nelson House. A visit to the underground portion of some of the mines will be a feature of the entertainment program. Dr. Hicks of Menominee is president of the association.

The river is so narrow that a man can't come at the slips straight from open water in front, but has to come up and halt and turn and work his way in. But this he does in a manner to command admiration.

With those two great, bulky barges strapped to him he comes up the river to pretty nearly opposite the ends of the slip, coming along just as quietly and easily as can be, and then he begins manipulating his tow to get it headed around toward the slip. You can hear from where you are standing on the bridge over the river, every now and then, the deep, sonorous sound of the engine room gong, as the man in the pilot house pulls on the finger-hold, and instantly with the sound of the gong comes the churning of the water under the tug's stern, as the screw is turned in answer to the signal; for the man in the pilot house and the man in the engine room work together.

There's no hurry or worry about it all, but to the accompaniment of an occasional musical gong strike or two, and the churning of the tug's propeller, you see what sort of a scene of her was her smokestack and pilot house rising above the roofs of the cars on the floats, but now here she is, with no gingerbread work about her, but an able boat and with a steamboat man in the pilot house, sure.—New York Sun.

ABLE RIVER PILOTS.

Slick Work Done on Freight Ferries as Well as on those for Passengers.

Everybody knows about the dandy pilots of the ferries on the North and East rivers, who, whatever the wind and whatever the state of the tide, bring their boats into their slips trip after trip with such a neatness of handling that you can scarcely believe when the big boat strikes the bridge. But there are other pilots on the rivers who do remarkable work of this sort, too, of whom very few people hear; the same being the pilots of the big tugboats that haul down the great boats with railway freight cars.

There is one landing for carlats at the freight yards of the New Haven road, in Mott Haven, within plain, close view from the new Willis avenue bridge over the Harlem, and people passing over this bridge when a tug with floats happens to be approaching always stop and line up along the side of the bridge to see it make the landing.

Up the narrow Harlem, from the East river, comes the big tug with two great unweildy floats, each carrying eight or ten cars, lashed one to either side. Big as she is she looks small and she is small compared with the long, wide, blunt-ended floats. But the tug has got the power, and the man at her wheel knows how to handle it; and, whether the tide is ebb or flood, or whatever the wind may be he brings the two great scoops up the narrow river, and puts 'em in the slips where they belong just as neatly and surely as he would put himself in there alone. The river is so narrow that a man can't come at the slips straight from open water in front, but has to come up and halt and turn and work his way in. But this he does in a manner to command admiration.

With those two great, bulky barges strapped to him he comes up the river to pretty nearly opposite the ends of the slip, coming along just as quietly and easily as can be, and then he begins manipulating his tow to get it headed around toward the slip. Enduring Paints

Patton's Sun Proof Paints endure in any kind of weather. They are appreciated most in the worst climates. They are guaranteed to wear well for five years—but very likely you need not have to repaint them unless you wish to. They endure because the ingredients are pure, the proportions (Patton's secret) are correct, the mixing and grinding done by powerful, exact machines. More about paint in our free book of paint knowledge. Send for it.

Liberal inducements to paint dealers.

TWO NEW BUILDINGS.
Engine and Boiler Houses Will Be Erected at the Hartford Mine.

J. Wahlman & Son of Ishpeming, have been given a contract to erect a new boiler house at the Hartford mine, which is owned and operated by the Oliver Iron company. A new engine house will also be built, but the contract has not yet been let.

The foundation of the boiler house was completed a short time ago and the building contractors had men on the grounds yesterday. Masons are working on the foundation of the engine house and it will be completed soon. The two buildings will be about twenty feet apart.

Both structures will be much larger than the combined engine and boiler house now in use at the mine. Both will be frame, covered with iron.

When the new buildings are completed and equipped with larger machinery than is now in use operations at the mine can be conducted much more extensively than at present. The underground work will soon reach a stage of development where larger machinery is absolutely necessary. The present plant will meet all requirements until such time as hoisting ore is started.

The Hartford will develop into a fine mine. There is a large body of ore there and within a year or two the working force will be considerably larger than at this time.

BROUGHT THEM TO TIME.
The Austin & Western people woke up when they received City Attorney E. A. Bell's letter advising them that the city would not accept the rock crusher recently purchased from them if the missing fly wheel was not here by July 1. The wheel arrived Saturday and it is now expected that the plant will be operating steadily today or tomorrow.

COST OF THE BOER WAR.
It has been generally conceded that England would eventually conquer the Boer forces in South Africa, but when the end comes, she will find the cost to have reached an enormous figure. There are many persons who also spend large sums of money in a vain search for health. They take all kind of medicines, which at the best only give temporary relief, and the patient is as far from recovery as at the start. The result is different with those who use Hostetter's Stomach Bitters for indigestion, dyspepsia, heartburn, constipation, biliousness, insomnia or malaria, fever and ague. It positively cures. Hundreds of persons have said so, and many prominent physicians and druggists always recommend it. Be sure to try it. Our Private Stamp is over the neck of the bottle.

LOCAL LAONICS.
The board of supervisors will meet in regular monthly session tomorrow at Marquette.

Mrs. George Weatherly of Bay City, is here visiting her daughter, Mrs. E. F. Richards.

D. McDonald has men at work erecting a new building at his farm in the Cato river district, east of the city.

Mrs. William Wilton has returned home after a short visit with her daughter, Mrs. Archie McDonald at Houghton.

Bert Spear has gone to Hibbing, Minn., where he will take a place at the mine of which Captain Earl Walton, late of this city, has charge.

R. G. Quinn has been in Milwaukee the past few days completing arrangements for the removal of his family to that city at a near date.

George Partridge, an old soldier from Evansville, Ind., is in the city visiting Thomas Long and family. Mrs. Long is the old gentleman's niece.

Walter Evers is working at the Negaunee Co-operative store. He expects to be employed there until school opens, when he will resume his studies.

Captain Samuel Mitchell and Ben Neely, Jr., got home yesterday morning from the lower peninsula, where they attended the Republican state convention.

Tom Long entertained a few of his friends at his home Saturday evening. The "blowout" was in honor of the twenty-fifth anniversary of his marriage.

A regular monthly meeting of No. 2 hose company of the Negaunee fire department will be held tomorrow evening. No. 1 company will meet next Monday evening.

F. C. Curran has gone to New York where he will spend a few weeks studying music under Professor Virgil. His place will be filled during his absence by Miss Julia McLaughlin.

The Metropolitan Life Insurance company wants a collector for Negaunee. Application should be made to J. P. Sherer, manager of the district agency, at Ishpeming.

According to Theophile Roy, who recently took the census here there are 462 milk cows, to say nothing of calves, in the city. He found 235 horses, 32 hogs and 245 sheep.

Archie Orr, jeweler at Perkins' drug store, left Sunday evening for Laporte, Ind., where he will spend a few days assisting his family to pack up their household goods preparatory to moving to this city. They will occupy rooms in the Sundberg block.

Dancing at the Negaunee Orchestra band's picnic Saturday next will start at 1:30 p. m., and will be continued until late in the evening. As that will be the only picnic that day it is expected that the attendance will be large. Refreshments will be served on the grounds.

NEED MORE HELP.
Often the over-taxed organs of digestion cry out for help by Dyspepsia's pangs, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at Stafford's drug store.

PAYMENT WAS PROMPT.
The record keeper of the English text of the Macabees has already turned over to Mrs. Moll, mother of the late Edward Moll, a check for \$2,000. This is the amount of insurance the deceased carried in the society. It is seldom that any fraternal society makes as prompt payment as was made in this case. Just six days elapsed between the time when the proofs of death were sent from this city to the great record keeper and the time when the check was in the hands of the local official.

AUCTION TONIGHT.
Max Hershowitz, having bought the bankrupt stock of Simon Benyas, will begin to dispose of it tonight at an auction sale to be conducted in Mrs. Sporeley's building, Jackson street. Bartley Duchaine will be the auctioneer. The public is invited to be present. (7-1-1d)

CIVIL WAR CORRESPONDENTS.

How Browne and Richardson Got Into Confederate Prison.
The recent death of Junius H. Brown at his home in this city recalls a dramatic episode of the civil war in which he was one of the prominent figures. It was his fate to stand as a representative and martyr of the army newspaper correspondents, and also as a hostage on behalf of his country in a war prison.

Mr. Brown was just entering his career as a journalist in Cincinnati when the anti-slavery agitation became acute and he ardently espoused the side of free labor. Such was the excitement in the West at the firing upon the national emblem at Sumter that the war carried a market for him of slight build and delicate, he was easily persuaded to accompany the troops to the field and report their doing and sufferings to his home paper. The 1-bune was soon added to his list. After he had followed Fremont's army across Missouri, Brown was ordered to the Mississippi under Admiral Foote and General Grant and Sherman gave him a new field of labor. After Donelson, Shiloh and Memphis had been fought the siege of Vicksburg succeeded. Mr. Brown, with several colleagues and a detachment of men, was ordered to the main army by a short cut down the Mississippi. A fleet of armored gunboats had passed down a few days before to protect the crossing of the army, but the night had been stormy and the garrison unprepared. About May 2, 1862, the little expedition started, with about 100 officers and men, in charge of two large provisions. The Confederates were on the alert, and the moonlight was unfavorable on both shores to give a better illumination of the river and a half the little expedition became a plain target for both heavy ordnance and musketry. The barges took fire, the tug exploded and about half of the detachment were killed or wounded. Those able to do so threw over hay bales and took to swimming for their lives. The enemy, however, came in boats, and at the point of the bayonet all were made prisoners and taken to the jail in the beleaguered fortress.

The authorities at Richmond were especially pleased at the capture of two Union correspondents (Albert D. Bell and another from the World, and ordered that they be sent to Libby prison in the hope of a desired exchange for some well-known Southern civilians then in Northern prisons. It is usually optional for a commanding general to detain privileged non-combatants or to release them on parole, but in this case superior orders forbade a release.

It happened that about the time of their arrival in Richmond the business of exchanging prisoners of war was drifting into an agonizing and stubborn dispute—Secretary Stanton and General Butler on the one side and Secretary Seddon and Colonel Ould on the other side contriving to suspend all exchanges and entail suffering and mortality on the prisoners, for which each side laid the blame on the other. President Lincoln gave his personal attention to an effort brought for an exchange of two Virginians caught running the blockade for Richardson and Browne, but the time was unpropitious; the advance of Lee to the upper Potomac on the one hand and the investment of Vicksburg delayed it. Then the inmates of Libby began to dig tunnels out to liberty, and the officers were removed far inland to Salisbury, N. C. Not until twenty months after their capture, during which they endured privations and abuse enough to have driven less stout hearts to feeble insanity or death, did they regain their freedom, and then not through the favor of the exchange officers, but by escaping and making a journey of 200 miles across snowy mountains, ill-clad, and chiefly at night.

Richardson and Browne finally arrived at Knoxville, Tenn., the former to find his young wife dead and his children committed to the care of strangers. The close of the war soon after led both to book and newspaper writing as a profession. Browne contributed to several leading periodicals on a variety of topics, and produced such wonderful results in curing Catarrh. Send for testimonials free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, price 75c. Hall's Family Pills are the best.

CATARH CANNOT BE CURED
With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, price 75c. Hall's Family Pills are the best.

ACTS IMMEDIATELY.
Colds are sometimes more troublesome in summer than in winter, it's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung troubles. Harwood, Ishpeming, Stafford Drug Co.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

USE ALLEN'S FOOT-EASE.
A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet, and makes walking easy. Cures swollen, sweating feet, ingrowing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe stores for 25c. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

PARIS TO NEW YORK BY LAND.

Thin Strip of Water Between France and the United States.
In Harper's for April, Harry de Windt, the famous traveler, writes of the trip on which he is now engaged. "From Paris to New York by Land," Mr. de Windt is expected to arrive in this country in August. Here is the outline of this seemingly impossible journey.

"From Paris to New York by land!" exclaims the insular Briton, who, from sheer force of habit, cannot dissociate a trip to the United States from gigantic liners and a stormy sea. "Why, the thing is impossible! Surely to get from France to America! Surely to cross the Atlantic ocean!" This view is perhaps excusable, for the world is wide, and since the inception of my proposed journey I have met cultivated people unaware of the fact that France and the United States are only actually divided by a narrow strip of sea, but little wider from shore to shore than the strait of Dover.

Bering strait, however, is far away, and to reach it entails an arduous journey, parts of it almost as wild and inaccessible, as, say, central Greenland or unexplored Tibet. At present, in darker Siberia, the traveler must be prepared for physical hardships from intense cold to starvation. He must face the risks attendant upon sled trips in the polar regions; furious blizzards, shifting ice and a pathless waste of some 1,500 miles, with few resting places. Such hardships as exist are made worse by the risks attendant upon sled trips in the polar regions; furious blizzards, shifting ice and a pathless waste of some 1,500 miles, with few resting places. Such hardships as exist are made worse by the risks attendant upon sled trips in the polar regions; furious blizzards, shifting ice and a pathless waste of some 1,500 miles, with few resting places.

FIRST TRAIN TODAY

MARQUETTE & SOUTHEASTERN GOES INTO COMMISSION.

FROM MUNISING TO ISHPEMING

ROUTE IS VIA THE MUNISING AND L. S. & I. LINES.

Something Concerning the Cleveland Cliffs Company, Owner of the New Road, and What It Is Doing for This Section.

Beginning with today, the Marquette & Southeastern road will go into regular commission, the first passenger train starting from Munising and running to Ishpeming over the new route, a distance of seventy-five miles. The service will be daily. Departing from Munising at 7 o'clock a. m., the train will arrive at Ishpeming via the Munising railway, the Southeastern and the L. S. & I. at about 10. Leaving Ishpeming on the return, the train will start at 4:25, arriving at Munising at 7:25. The Marquette station will be on Lake street, near the Lake Shore Engine works.

In connection with the inauguration of train service over the new line, the following article, descriptive of the interests of the Cleveland Cliffs company, owner of the Marquette & Southeastern, will be of interest. It is taken from an issue of the American Lumberman and was written by a gentleman who made a special trip to this section to investigate the resources of the company.

The interests of the Cleveland Cliffs Iron company in the upper peninsula are both various and extensive. The company owns the Munising railway, the main line of which extends from Little Lake, where it connects with the Chicago & Northwestern to Munising—a distance of thirty-eight miles. The east branch of this road, which when completed, will be thirty miles in length, runs through a large tract of cedar of great value.

The Marquette & Southeastern railway runs southeast from Marquette and makes connection with the Munising railway at Lawson, ten miles east of Little Lake. This road also runs through an extensive section of heavily timbered hardwood and hemlock. A portion of the country through which it runs was settled as early as 1860, and is quite densely populated with an intelligent farming element, the farm lands being under a high state of cultivation. When completed the road will be twenty-seven miles in length, and like the Munising railway, it will connect with the Chicago & Northwestern at Little Lake.

The Lake Superior & Ishpeming railway, also largely owned by the Cleveland Cliffs company, runs from the mines at Ishpeming to the company's ore dock at Marquette, and is twenty miles in length. It is the road over which is shipped the ore from the company's mines to its dock, 1,550,000 tons of ore having been transported during the year 1900.

By the construction of these three railways, having a total length of 115 miles, direct connection is made between the mining industries at Ishpeming and Negaunee and the timber lands about Munising. These several lines of railway make connection with the Chicago & Northwestern, the Duluth, South Shore & Atlantic, the Manistiquette & Northwestern and the "So Line." They run through hundreds of thousands of acres of timber lands (a goodly portion of which is owned by the Cleveland Cliffs company), thus making high class markets readily accessible to all settlers along the company's lines.

Iron Mines at Ishpeming. Ishpeming is distinctively a mining city located in the center of one of the richest iron regions of the world. The entire country roundabout is honey-combed with mines, and a great portion of the life of each male resident is spent from 200 to 1,000 feet below the surface of the earth.

The Cleveland-Cliffs company owns and controls seven working mines in this region besides a vast amount of mineral territory as yet undeveloped, thus insuring for many years the permanency of iron ore mining in the Lake Superior field.

The mines owned by the Cleveland-Cliffs company have sent to market up to the first of the year 1900, 10,941,548 gross tons of iron ore. To this should be added 1,300,487 tons, the output for 1900, making a total to January 1, 1901, of 12,242,035 gross tons.

The company's mine and tenement buildings at Ishpeming are kept in excellent condition. The latter are models of neatness; and for the purpose of adding to the happiness and contentment of the mine employes, William G. Mathers, president of the company, has of late been offering prizes for the best kept premises, and for the best gardens, shows of flowers, vines, etc. It was in pursuance of this idea that Mr. Mathers established the nursery and greenhouses at Negaunee where the tenants of the company might secure trees, shrubs, flowers, etc., at the actual cost of raising them. The company has handsomely furnished club rooms for its employes in a centrally located office building at Ishpeming. This club embraces in its membership the heads of departments and all the mechanics in the company's employ.

The Cleveland-Cliffs company is the only mining organization in the Lake Superior field that reduces any portion of its ore locally, having fine charcoal furnaces at both Gladstone and Marquette (the Carp River plant), while it is also constructing another and much larger furnace in the latter named city. The Gladstone furnace has a capacity of 125 tons of iron a day.

Interests at Marquette Extensive. At Marquette the company's interests are not only extensive but rapidly increasing in value and variety. The ore from its mines at Ishpeming is transported over its own railway to its own ore dock at Marquette, there to be loaded

upon its own ore carrying vessels. These vessels, fourteen in number, are among the largest on the lakes and ply between Marquette and Lake Erie ports. The ore dock is 1,200 feet in length and has a capacity of 30,000 tons. There was handled over the dock last year a total of 1,550,000 tons.

The furnace which the company is constructing at Marquette will be the largest in this country if not the largest in the world making pig iron through the charcoal process. An idea of the immensity of this plant may be obtained when it is stated that it will cover about eight acres of ground when completed, notwithstanding the fact that it will be very compactly built. The pumping capacity will be 15,000,000 gallons a day, which is several times the capacity of the waterworks system of the city of Marquette.

The main buildings will number five, all of them of large dimensions. The capacity of the furnace will be 150 tons of pig iron daily, and the cost of the plant when completed will be \$800,000. Its construction was begun last June, and it will be completed next year. The furnace will be 12 by 70 feet. The "stoves" are three in number and sixteen feet in diameter by seventy-one feet in height. The boilers have already been installed and are of 4,000-horse power. The engine house is 50 by 125 feet. The chimney is 140 feet high and the standpipe will be ninety-five feet high, with a capacity of 90,000 gallons, and will constantly be fed by the pumping engines. All the water used by the furnace will be taken from Lake Superior, and, in this connection, an intake pipe 1,700 feet long, with a well at the shore end, will be utilized.

All the buildings will be of the latest style of construction for their several purposes and will be chiefly of steel. In addition to the steel work, however, an enormous number of brick will be used in the construction of the furnace. It is figured that 6,000,000 red brick alone will be used in the work, besides many million fire brick. The red brick are being supplied by the brick yards at Munising. There will also be erected a large chemical plant in connection with the furnace for the making of wood alcohol and acetate of lime.

With the furnace completed and in operation, with its own railroad bringing ore to the plant from its own mines at Ishpeming, and hardwood from its own lands near Marquette for use in making the charcoal, and with its own fleet of steamers to transport to lower lake ports not only the pig iron produced at Marquette but ore from the mines as well, the Cleveland-Cliffs company is the greatest independent iron ore producer in the country.

Has Great Land Holdings. The railway lines owned by the Cleveland-Cliffs company run through heavy timber, comprising elm, black, yellow, white and curly birch, curly and birdseye maple, beech, ash, cherry, hickory, hemlock, cedar, tamarack, balsam, red oak and spruce. The land is rich and gently rolling and the soil is a level loam, producing, when cultivated, wheat, rye, oats, barley, peas, clover and timothy in great abundance while vegetables and fruits grow luxuriantly and yield abundantly.

The company's land holdings in the upper peninsula comprise altogether 250,000 acres, 180,000 of which is hardwood timber land lying chiefly along the line of the Munising railway and contiguous to Munising. Most of the timber land was purchased over a year ago for the purpose, chiefly, of bringing about the introduction into this section of the upper peninsula of woodworking establishments of all kinds, but also with a view to securing cordwood for use in the charcoal blast furnaces in the vicinity. In fact the company has large forces of men on the east branch of the Munising railway cutting wood for use in its furnaces.

The state experimental farm for the upper peninsula is located at Chatham on the line of the Munising railway. A large population engaged in the vast iron and copper mining industries in the upper peninsula, producing nothing but minerals and consuming largely, offers a splendid market for all agricultural products at exceptionally good prices. These industries and the charcoal blast furnaces located in the vicinity using vast quantities of mine timber and cordwood make it possible to market every portion of the forest product, in connection with woodworking factories.

Free Sites and Cheap Lands. It is the object of the company to provide an easy and modern method for assembling at Munising, Marquette and other points on the lines of its railways this vast body of timber both for manufacture and distribution, and to place settlers upon the lands at low prices and on easy terms. The timber and forest products will be sold at reasonable prices, with a contract for their delivery by rail or factory at moderate freight rates. It is the desire of the company to establish all kinds of woodworking and other industries on its lines of railway; and it will furnish, as far as possible, free sites to those desiring to locate factories or woodworking establishments of whatever kind. Among the factories which might with profit locate at or near Munising and make use of the valuable hardwoods of Alger county are furniture, broom handle and woodenware factories. A maple flooring mill located there would have at hand an almost inexhaustible supply of maple, while a veneer plant would also find it profitable to locate in the neighborhood where it could make excellent use of the maple, birch and other appropriate woods.

The company also aims to place settlers upon the lands and, with a view to colonizing, will send representatives to assist in getting up parties and meeting those who may desire to locate. As an inducement to homeseekers it offers for sale to actual settlers, at low prices and on reasonable terms, fine tracts of heavily timbered land, with a contract to cut and deliver the timber on cars at remunerative prices. Some of these lands adjoin the state experimental farm at Chatham, on the line of the Munising railway. Homeseekers locating in the neighborhood of the experimental farm, or in fact anywhere along the line of the Munising railway, could keep in close touch with the scientific investigators at the farm and derive undoubted benefit from the experiments carried on there.

These lands will be sold in forty and eighty-acre tracts at 25 per acre, the

terms of payment being \$40 cash down for a forty-acre tract, with the balance payable in five equal annual installments with interest at 6 per cent annually. These are first class farming lands, and even a cursory examination will show a good opportunity is in this way afforded a poor man to obtain a home, as he can make good wages while clearing his farm and he has work at home every day in the year.

Work of Great Magnitude. The Cleveland-Cliffs Iron company has begun and is actively bringing about the development of a large and extremely rich section of the state of Michigan. It is a work of great magnitude, work which quickly and successfully can be done only by those who control large aggregations of capital. By the construction of railroads, the offering of inducements for the location of manufacturing, the fostering of improvements of various kinds and the selling at low prices and to actual settlers of excellent farming lands, a corporation can in from two to five years do more for human progress, add more to the total wealth of the country and accomplish more that will conduce to the contentment and happiness of thousands of people by the action of individuals and in the ordinary way be accomplished in a quarter of a century.

CARNIVAL AT ESCANABA.

Elks Will Hold High Jinks July 14 to 19, Inclusive.

Escanaba Elks are planning to give Escanaba one of the most unmitigated starts it has ever received July 14 to 19, inclusive. They intend to wake the city up so hard that the convention will be off again for a number of years. They are straining every nerve to make their forthcoming carnival the greatest public show that has ever been given on the upper peninsula and they are confident of success. The Elks are meeting with every co-operation from the people of Escanaba and the surrounding country and they assure their friends of a royal welcome on the carnival days. The Mining Journal acknowledges the receipt of a couple of complimentary tickets to the performance and a cordial invitation to send a representative, which it hopes to be able to do.

The Iron Port, in its last issue, said in part of the carnival: Beginning July 14 and lasting until and including July 19, the Escanaba lodge of Elks, No. 354, will hold one of the greatest mid-summer carnivals ever seen in any city of the North-west. Arrangements for the celebration are rapidly being completed. The location for the Midway grounds and other carnival features have been secured, all of the Elk committees are hard at work, contracts with the various companies which will exhibit at the Carnival have been signed, and the final details of the event are being arranged.

The main attraction will be the unsurpassed exhibits of the Bostock-Ferrari company. This great carnival company is world-famous. It was the chief feature at the Midway of the Buffalo exposition, where thousands and thousands of people from all parts of two Americas visited it, and marveled at its wonders. Since closing its engagement at the exposition, the company, complete in every detail, has exhibited in many of the largest cities of the United States. Everywhere it has been royally received, and every carnival at which the company has appeared has been an unqualified success. It is now under contract with the Escanaba Elks to exhibit at Escanaba during the Carnival week, beginning July 14 and ending at midnight, July 19.

Of special features there will be many in the Midway. One of the grand attractions, which seen once will never be forgotten, is the astonishing wild animal exhibit, which has been imported directly from Europe. Another mystery in the truest sense of the word will be the Crystal Maze, costing \$25,000, into which the spectator barely enters before he is hopelessly lost amid mazes of mirrors. Electric, the wonderful flying woman, Sapho in poses plastique, Edison's animated pictures will all be found on the Midway.

The Turkish theatre, with its Congress of Native Turks, Arabs, Syrians and beautiful Egyptian entertainers; the German village, the dog and pony circus, the Moorish palace, the Japanese tea gardens, Indian fakirs, balloon ascensions, high dives, the slide for life, troops of Arabian horsemen, strangely garbed peoples from the Orient, the Temple of Light and Music will all serve to make Carnival week one of pleasure, merry-making, and instructive amusement.

Preparations are being made to receive a multitude of visitors during the week. Special rates have been secured on all routes of travel to Escanaba from all parts of the great Northwest. They will be supplemented by excursions on special days. Thousands will visit the Carnival from miles around and the Elks and citizens of Escanaba promise that they will be royally entertained.

Those who have friends living in Escanaba should not fail to pay them a visit during Carnival week, for it will be a long time before such satisfactory railroad rates are again secured. Neither should those who, during the hot month of July, long for a breath of fresh air, fail to visit the shores of Lake Michigan, where the waters are always blue and the air cool.

CELEBRATED WOODEN WEDDING.

Mr. and Mrs. S. A. Hauch, 329 West Washington street, celebrated their wooden wedding last night. The house was tastefully decorated with ground pine, roses and carnations. The feature of the evening was progressive pedro and a violin solo by Professor Kluge. The guests present were: Mr. and Mrs. J. J. Wirtz, Mr. and Mrs. J. Thomlinson, Professor and Mrs. Kluge, O. M. Williams of Sault Ste. Marie, Mr. Gowlin, Mr. McConnell and Mr. Mesner, Messrs. Sinclair, Swinton, Patrick, Mapes, McKay and Roberts. The honors of progressive pedro were given to Mrs. Sinclair, ladies' first prize, and men's first prize to Mr. J. Thomlinson. Dainty refreshments were served.

O ye people! have ye wasted the golden moments of never returning time in seeking a substitute for the genuine Binky Mountain Tea made by the Madison Co., Stafford Drug Co.

MOVING FINISHED.

Things Will Soon Be Shipped at Stafford's New Stand.

Stafford finished moving from his old store at the corner of Front and Spring streets to his new stand at the corner of Front and Main yesterday, after a couple of days' arduous toil. Goods were placed in the proper cases as they were taken from the drays, so the new store looks much more settled than might be expected. However, there remains considerable work to be done before the formal opening, although business is being carried on continually.

An inspection of the store, even with the interior in its present disturbed condition, serves to show how admirably Mr. Stafford will be fixed when everything is in order. The arrangement of the stock and furniture will be unusually convenient, both for patrons and clerks, and the ensemble will be one of the most artistic store interiors to be found on the upper peninsula.

FOXY SHERWOOD.

Gave Notable Evidence of His Versatility at State Convention.

M. J. Sherwood opened the eyes of some of his lower Michigan friends at the state convention last week, judging from the following from the Detroit Free Press of Saturday:

The upper peninsula situation gave Myron J. Sherwood a fine opportunity to show his versatility. Some time before the delegates from Marquette left for Detroit James Russell, of the Mining Journal, told Sherwood that he would have to place Dutcher in nomination before the convention. Sherwood took so much time in preparing his oratorical masterpiece that he did not arrive in Detroit until just before the convention was called to order. Then Russell told Sherwood that he would have to switch and nominate Maitland. Sherwood was equal to the occasion. He mounted the rostrum and calmly told the delegates that there never had been any disagreement among the northern representatives. All was as peaceful as a church social.

The scrapping among the upper peninsula men in the state convention was a reflection of the closeness of the fight over the congressional nomination up north, each side being determined to get every vote, as was shown by the fuss made over the two votes from Luce county, and the three votes from Schoolcraft. The friends of Congressman Sheldon were anxious to get their men seated in the state convention, because the action of the Detroit gathering would be regarded as a precedent for the congressional convention. The Schoolcraft vote was split, the Sheldon and Young men being each given a half vote. The Sheldon people had feared that they would be ousted entirely, and the Sheldon men went home thoroughly satisfied with what had been done.

D. M. & M. LAND GRANT.

Annual Report of the Commissioner Gives Interesting Information.

E. W. Cotterell of Detroit, land commissioner for the Detroit, Mackinac & Marquette Railroad company, has just made public his report for the year ended Dec. 31, 1901. This company received from the state of Michigan 1,327,047 acres of land in the upper peninsula, which were pledged as security for bonds of \$4,500,000 issued by the railway. The railway was sold under foreclosure in 1886 and now forms part of the Duluth, South Shore & Atlantic railway. Under the instrument securing the bonds, only 25 per cent of the proceeds of land sold were applicable for the payment of interest, the balance being applied to the expenses of the trust and the retirement of the bonds. Mr. Cotterell's report is here compared with the report of the previous year.

Receipts	1901.	1900.
Disbursements	\$389,403	\$100,898
Surplus	311,065	90,720
Interest on land grant bonds	\$ 78,338	\$ 70,178
Surplus	232,727	60,420
Interest on land grant bonds	\$ 17,918	\$ 9,758
The company has available for land		
Cash	1901.	1900.
Bills receivable	\$ 1,703	\$ 32,547
Total	\$ 41,502	\$ 286,578
Total	\$ 43,205	\$ 318,025

In the disbursements above are included \$250,000 for canceled bonds, which makes the total amount canceled \$1,780,000, and the issue outstanding Jan. 1, 1902, \$2,771,000.

Of the land grant there has been decided or contracted for 120,165 acres at an average value of about 54 cents per acre. During the year 1901, 3,140 acres were sold for \$12,312, at an average price of \$3.95 per acre. In addition to the sales mentioned, there were 1,320 acres applied for and part paid, but not included in the results of acreage or cash receipts for sales.

STOCKHOLDERS ATTENTION.

There will be a meeting of the stockholders of the Saults Head Development syndicate this evening at 8 o'clock at Samuel Byrne's office in the Harlow block. Important business will be transacted and every holder of stock under the old organization is requested to bring his certificates and have them exchanged for certificates of the syndicate. The exchange is designed to simplify the business and get things on a better working basis. Stockholders who cannot attend can get their certificates under the new organization by sending their old certificates and addresses to C. F. Button, the Saults Head mine shaft is 100 per cent better than shown in the previous report. The grey copper ore shows up satisfactorily. The report of the mining expert who recently examined the property will be read at the meeting tonight. (7-1-1d)

PLANTS AT REDUCED PRICES.

We have a surplus stock of plants which we offer for sale at reduced prices. Call early and get first choice. Stafford's Greenhouse. (6-28-2d)

Bites are a terrible torment to the little folks, and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.
