BRITAIN AND ITALY TO SEPARATELY TREAT WITH VENEZUELA.

VETO JOINT COMMISSION PLAN

BOWEN, CASTRO'S ENVOY, DUE TODAY TO BEGIN NEGOTIATIONS.

Pending the Settlement the British and Italian Ships Will Abandon Blockade, It Is Stated, Whatever Germany's Action.

Washington, Jan. 18.—Minister Bowen, who arrived in Charleston S. C., today on board the Dolphin, is expected in Washington tomorrow. It is understood the representatives of Great Britain and Italy do not feel it incumbent on them to await the coming of Baron Speck von Sternberg before beginning the conference with Mr. Bowen.

Neither the London nor Rome foreign offices are inclined to favor a settlement of their claims against Venezuela by a joint commission, the point being made they are not interested in the claims of each other or of Germany. The plan outlined, and which will be submitted to Mr. Bowen, contemplates the adjustment of the claims of each power by its representative with Bowen, each nation taking up its claims separately but along the same broad general lines of procedure.

Will Not Insist on Cash. It has been agreed that the claims of private citizens for injuries suffered in Venezuela shall be first adjusted. These claims in the case of Germany are believed to aggregate nearly half a million dollars, and those of Great Britain between \$200,000 and \$300,000. The powers will insist upon an early settlement of these obligations, and as far as Great Britain and Italy are concerned they are prepared to accept a reasonable guarantee for prompt payment.

All hope of the United States guaranteeing these obligations have been dismissed, but an effort will be made to secure them either on customs collections in Venezuela or by the proceeds of a Venezuelan loan. Cash payment will not be demanded as far as Great Britain and Italy are concerned, provided a satisfactory guarantee by Castro is offered. Is Solely Venezuela's Envoy. Minister Bowen will act solely as Venezuelan's special envoy. The state department has made it plain that the United States does not intend to take a hand in the conferences, and merely will act as a means of communication between the Venezuelan envoy, Mr. Bowen, and the representatives of the powers. The powers have not committed themselves as yet regarding the raising of the blockade. Intimations have reached Washington that Italy and Great Britain are not inclined to favor a continuation of the blockade after the opening of the negotiations, and that Germany will be requested to give her consent provided Mr. Bowen presents such request. Should Germany refuse the request of Great Britain and Italy, these powers, it was stated today, will not postpone favorable consideration of Bowen's request, but will withdraw their ships.

FORT FIRED 120 SHOTS.

German Cruiser Defeated in Attempt to Take Venezuelan Boat.

Maracaibo, Venezuela, Jan. 19.—There is no connection between Maracaibo and Fort San Carlos, shelled Saturday by the German cruiser Panther and which returned the fire with the result the warship retreated in the direction of Curacao. One hundred and twenty shots were fired from the fort during the engagement. The walls of the fort were slightly damaged. The Panther has resumed her position at the entrance to Lake Maracaibo, where it maintains a blockade. The report the German gunboat at the time of the engagement was trying to force an entrance to the lake in order to capture the Venezuelan gunboat Miranda, which is in hiding there, is generally believed here. The Venezuelan government has given out a statement to this effect.

Bombardment Not Ordered by Berlin.

Berlin, Jan. 19.—The navy department has not received any official advice regarding the bombardment of Fort San Carlos, at the entrance to Lake Maracaibo, by the German cruiser Panther. The officials say, however, assuming that something in the way of a bombardment took place, that no orders on the subject were sent from Berlin. Whatever was done was the result of the initiative of the commander on the spot, to whose discretion the conduct of blockade was left. The government relies on the commodore to observe all formalities usual in applying force and is confident that neither he nor any subordinate commander did anything not strictly in accord with the usages of international law.

Castro Raises \$480,000 Forced Loan.

Caracas, Jan. 19.—The government's forced loan of \$482,000 was subscribed entirely today by banks and merchants of Venezuela. TO MARQUETTE FOR LIFE. Escanaba, Mich., Jan. 19.—George Hardwick, the self-confessed murderer of Anton Peterson on Dec. 2 last, was today sentenced by Judge Stone to life imprisonment in the Marquette prison.

SENATOR PLATT RENOMINATED.

Vote of the Caucus Is 108 to One for Secretary Root.

Albany, N. Y., Jan. 19.—The joint Republican caucus tonight nominated Theodore C. Platt to succeed himself as United States senator by the vote of 108 to 1 for Elihu Root.

UNIQUE CASE OF SUICIDE.

Man Saws Neck on Barb Wire Fence and Strangles Himself in Tree. Albert Lea, Minn., Jan. 19.—Albert Alverson was found dead in a pasture near here today. It was a case of suicide, as seven different places were found where he had sawed his neck on a barb wire fence. Finding this process too slow, he went to a small tree and, pulling two limbs apart, fitted one of them into the wound and with the other at the back of the neck strangled himself.

CHINA ANXIOUS FOR PEACE.

German Minister Belittles the Reports of Boxer Disturbances.

Berlin, Jan. 19.—Dr. Munster von Schwartzstein, German minister to China, now on leave of absence, in a speech at the East Asiatic society dinner at Hamburg today, said: "Germany adheres to the open door policy in China with the fullest confidence in the ability of German merchants to utilize the situation to their advantage. I know that the Chinese government urgently wishes to preserve peace. Local disturbances may continue to break out, but these do not give ground for a pessimistic view of the general situation."

MARCONI OPENS NEW STATION.

President and King Edward Exchange Messages by Wireless Telegraphy.

Southwellfleet, Mass., Jan. 19.—A message was transmitted today by the Marconi system wireless telegraph between Cape Cod and Cornwall, England, between President Roosevelt and King Edward.

President Roosevelt's message was one of cordial greeting and expressive of the good wishes of the American people to King Edward and the people of the British empire. The king's reply was in similar vein, concluding with a hearty wish for the prosperity of the president of the United States.

PRINCESS FREE FROM ARREST.

Louise of Saxony Yields Her Rights for an Annuity of \$7,500.

Berlin, Jan. 19.—The Dresden correspondent of the Tagblatt telegraphs that besides surrendering all her titles, etc., in consideration of the payment of \$7,500 yearly, the crown princess of Saxony has full freedom of movement, so long as the Saxony and Austrian courts are informed beforehand of her intended changes of abode, and she is guaranteed freedom from arrest. It is assumed that the Dresden and Vienna courts knew and approved of her departure from Geneva to Mentone, France, whither she has gone accompanied by M. Girou.

CLEVELAND TEAMSTERS STRIKE.

Coal Wagon Drivers' Demands Refused While People Suffer for Fuel.

Cleveland, Jan. 19.—With the temperature only a few degrees above zero and hundreds of families throughout the city in urgent need of fuel, the members of the teamsters' union, almost exclusively composed of drivers of coal wagons, were refused increased wages today and went on a strike.

Great Strike at Vienna, Austria.

Vienna, Jan. 19.—Twenty-five thousand garment workers and their assistants struck today for an increase in pay and a reduction in hours. They demand a rate of payment which will permit them to live decently.

TILLMAN'S VICTIM DEAD.

News of the Death Shocks the Murderer in His Cell.

Columbia, S. C., Jan. 19.—Editor Gonzales died at 1 o'clock this afternoon. When the bulletin was posted announcing his death, the crowds which had been about the bulletin boards almost constantly since the tragedy increased rapidly and all phases and details of the tragedy were discussed. In his cell, Lieutenant Governor Tillman heard the news with visible emotion. There is universal sorrow over the death of Gonzales and the fact the tragedy took place.

ACCUSED OF MURDER.

Pittsburg Society Woman Charged With Killing Girl Ward.

Pittsburg, Pa., Jan. 19.—Mrs. Letitia Eagle, wife of S. S. Eagle, superintendent of the Pressed Steel Car company, and prominent in social circles, was arraigned in the criminal court today, charged with the murder of her thirteen-year-old ward, Edna Warner, in May last.

TWO KILLED IN ENGINE CAB.

Albany, N. Y., Jan. 19.—A freight engine on the New York Central exploded near Castleton tonight. Engineer Kennedy and Fireman Woolcock were killed. The Lake Shore Limited, loaded with passengers, was stopped just before it reached the wreckage caused by the explosion.

Chicago, Jan. 19.—Lake Forest college was closed for a week today by order of the board of health, owing to the prevalence of scarlet fever there.

COALMEN ACCUSED

CHICAGO GRAND JURY RETURNS FORTY-FIVE INDICTMENTS.

ILLEGAL CONSPIRACY THE CHARGE

BAER OUT WITH A STATEMENT DEFENDING HIS ROAD.

Denies Anthracite Is Being Held and Says Union Has Drowned Out a Number of Collieries—Convention of Miners Opens.

Chicago, Jan. 19.—A true bill was returned this morning against forty-five coal operators and retailers charging conspiracy to do an illegal act injurious to the public trade. The indictments are against corporations and individuals doing business in Illinois and Indiana, as follows: Northern Illinois Soft Coal association; the Retail Coal Dealers' association of Illinois and Wisconsin, and a certain combination of Indiana coal operators with the Crescent Coal & Mining company. Bail was fixed at \$1,500 each.

The jury declares the shortage of coal due principally to the recent anthracite strike, of which it says the corporations and individuals indicted have taken advantage. It adds that bituminous coal could not be mined and stored in sufficient quantities to supply the deficiency in anthracite and that the railroads are believed to be doing all in their power to move coal promptly to market.

Baer Arraigns the Union.

New York, Jan. 19.—President Baer issued a statement today denying the report that large quantities of coal are being held on the Philadelphia & Reading company's lines and presenting figures to support his statement. He said: "Six collieries, with a daily production of 4,000 tons, were drowned out by the miners' union ordering out the pumping gangs, and we were powerless to keep the water out of them during the strike. Two of these collieries are entirely ruined and must be abandoned. The other four are being pumped out and in course of time will again be worked. Their destruction prevents the use of surplus cars, deprives the public of coal and many men of employment. What would have happened had the strikers succeeded in drowning out all our collieries should give the public serious thought."

Mine Superintendent Testifies.

Philadelphia, Jan. 19.—The examination of Colonel R. A. Phillips of Scranton, general superintendent of the mining department of the Delaware, Lackawanna & Western Railroad company, took up the greater part of today's session of the strike commission. He told of the conditions in and about the company's collieries. He believed the men had a right to organize if they wanted to, but no person who is not employed by the company had a right to come in and tell the men of the company what they should do. Much of the witness' testimony was along the same line as that given by the other superintendents.

Miners' Convention in Session.

Indianapolis, Jan. 19.—The United Mine Workers' fourteenth annual convention opened here this morning with over six hundred delegates present. Mayor Bookwalter made a short address of welcome in behalf of the city. President Mitchell followed with a short response and the preliminary work of organization was taken up. The usual committees were named and the convention adjourned until tomorrow morning, when President Mitchell will present his annual report.

Coal for Chicago's Poor.

Chicago, Jan. 19.—The council tonight voted \$25,000 for coal for the poor. It may also establish municipal coal yards.

LUSTY CHEERS FOR MITCHELL.

Enthusiastic Reception Given the Miners' Leader at Indianapolis.

Indianapolis, Jan. 19.—The city and its organized labor societies united tonight in a reception to President Mitchell. A torchlight parade with two thousand men in line escorted Mitchell and the other labor leaders to Tomlinson Hall. An address of welcome was made by the mayor and others. Mitchell was greeted with cheers that lasted for five minutes.

In His Speech the Miners' President Again Declared Himself an American before a Unionist and Briefly Referred to the progress of the investigation before the strike commission. He defended the right of labor to organize, and said that in doing so it "simply follows in the footsteps of its partner, capital." In conclusion, he said:

"I shall be glad if out of the anthracite coal strike shall come a new relationship between labor and capital, one that will recognize the obligations well as privileges that each owes to the other. Then, indeed, will our country be prepared to enter upon its new and greater life."

COAL FIND IN NEBRASKA.

Vein of Anthracite Said to Have Been Encountered at Louisville.

Louisville, Neb., Jan. 19.—A three-foot vein of the best anthracite coal has been located on the edge of this town, at a depth of 170 feet and under a rock formation. There is much excitement.

AGED WOMAN'S BLOODY DEED.

Brains Husband With a Hammer and Cuts Her Jugular Vein.

Oakland, La., Jan. 19.—Mrs. William Hanna last night brained her husband with a hammer and then cut his throat from ear to ear with a butcher knife, following the bloody deed by taking her own life by severing the jugular vein. The woman was aged seventy-eight and the husband seventy-six, and, according to a note left, the woman committed the crime because she feared her husband would die and leave her penniless. The tragedy occurred at the home of a son of the dead people, L. C. Hanna, who lives three miles east of town. The husband was a retired farmer possessed of considerable wealth.

Mrs. Hanna told in her letter that she had hit her husband over the head several times with a hammer and had drawn a butcher knife across his throat. Seven gashes were found in the woman's neck and breast. Falling thus to take her life, the woman severed her jugular vein. It is thought Mrs. Hanna was temporarily insane.

Lover's Quarrel Costs Two Lives.

Newark, O., Jan. 19.—At Joseph Stothart's farm near Outville this afternoon, Elmer Artz shot and killed Zachariah Hunt, aged fifty; shot and injured Mrs. Stothart and her daughter, Mary, and then killed himself with a shotgun. Artz and the girl quarreled and Hunt, who went into the home, was shot down.

Girl Refused to Marry Him.

Spokane, Wash., Jan. 19.—Ella Mont, a domestic, was shot and killed today by Ed Spencer, who then shot himself. The girl refused to marry him.

COLORADO SENATE SPLITS.

Democrats and Republicans in Separate Session—Deputies on Guard.

Denver, Jan. 19.—Two separate senatorial bodies are now in session, one presided over by Lieutenant Governor Haggott, and composed of nineteen Republicans, a majority, and another presided over by President Pro Tem W. H. Adams, Democrat, and made up of Democrats who have unseated Republicans. About fifty deputy sheriffs are stationed outside the chamber, and they are said to be adherents of the Democrats. It is rumored Lieutenant Governor Haggott had telephoned Governor Peabody for troops. This lieutenant governor denies. The doors leading into the senate chamber and galleries are locked and no one is allowed to pass in or out. Judge Gabbert of the supreme court swore in two Democrats in place of Republicans unseated by the Democratic branch of the senate. It is understood no further action by either side will be attempted until the house considers the case pending before that body.

LOOKS LIKE ADDICKS DEFEAT.

Combine of Democrats and Regular Republicans Indicated in Delaware.

Dover, Del., Jan. 19.—The union Republican caucus tonight nominated J. Edward Addicks for both the short and long term in the United States senate, both seats having become vacant some time ago. A committee was appointed to urge the ten Republicans who oppose Addicks to unite in the conference and arrange a division of the two nominations.

The Democrats nominated State Chairman Salsbury for the short term and former United States Senator Kenney for the long term. They then sent a committee to the regular Republicans offering to unite with them in electing a Republican for the long if the regulars vote for a Democrat for the short term. At this point the union Republicans' committee came into the caucus of the regulars. The unions were informed the proposition was refused as long as it includes Addicks. The regulars and Democrats will meet tomorrow.

BALL MAGNATES AT ODDS.

National League Action on Peace Plan Is Still Undecided.

Cincinnati, Jan. 19.—After being in session this afternoon and again until late tonight, the National Baseball league failed to accept the proposed peace agreement. The delegates did not meet until 3 o'clock, and nothing was done except to discuss the opinion of lawyers on the injunction to prevent the ratification of the peace agreement. The night session was devoted to a detailed consideration of the agreement. Final decision was not reached, though it is said all were disposed of except the two last sections, which apply to territory rights and players.

HONORS DONE GENERAL MILES.

American Army Commander Travels Across Siberia in Special Train.

St. Petersburg, Jan. 19.—Lieutenant General Miles, U. S. A., accompanied by Mrs. Miles and party, arrived today from Moscow. General Miles traveled on a special train and was accompanied by an escort through Manchuria. In an interview today the general said he had been impressed with the magnitude and future possibilities of the country which has been opened by the Trans-Siberian railroad.

STEAMER LAHN STILL AGROUND.

Gibraltar, Jan. 19.—An unsuccessful attempt was made this morning to refloat the steamer Lahn, which grounded off Tumbora on Sunday. Her cargo is rapidly being discharged into lighters. Some passengers have landed, but the majority remain aboard.

RICH HAUL BY THIEVES.

South Bend, Ind., Jan. 19.—Robbers entered the jewelry establishment of E. M. Munch last night and stole goods valued at \$5,000.

A Quart Baby.

Now and again there is an item in the newspapers concerning the birth of a baby so small that a quart cup holds it comfortably.

To have fine, healthy children the mother must be healthy, and it is the common testimony of mothers that the use of Dr. Pierce's Favorite Prescription...

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00.

TUESDAY MORNING, JAN. 20.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Senators who sought to change President Roosevelt's convictions by threatening him with loss of the nomination for the presidency in 1904 in case he pressed to a conclusion his demand for anti-trust legislation do not regard the man in the light in which he is seen by the public.

Abram S. Hewitt will be mourned as a man of real ability and culture. Though it has been some years since he was an active participant in the busy affairs of the world, he has always been attentively heard when he has chosen to express himself on matters of public interest.

Whether or not Senator Quarles is justified in his endeavor to repeal the timber, stone, desert and homestead commutation act, is a question that must be threshed out in congress before the public can know all sides of it.

The Mining Journal thinks there is considerable merit in the Escanaba Journal's suggestion of a means to secure the safety of hunters during the deer season. It is unquestionably right in contending that the great majority of hunters who are shot down for deer are killed at close range and in its statement that few of the shooting accidents in the woods can be attributed to the long range of high power guns.

Frederick MacKenzie, who has just passed away at Calumet, had long been a familiar figure in upper peninsula journalistic circles, he having been an editor and owner of a paper for twenty years and previously having had other experience in newspaper work.

The passengers on the St. Louis can hardly be blamed for the attitude they assume in censuring the International Transportation company for allowing the ship on which they took passage to go to sea. It appears that the St. Louis should have sailed for a drydock instead of for New York.

It begins to look as if the senate and house would get together on some bill providing for the establishment of a cabinet department of commerce and labor. There is no doubt that commerce and labor are worthy of this recognition from the national government.

As to the monetary prospects, the indications are for lower rates than prevailed during the last three months of 1902. Until the crop demands assert themselves there appear to be no shoals ahead save the April settlements and the July disbursements.

upper grades are to be filled by promotion and for merit and general efficiency and no consul can be removed except for cause. It is urged, and very likely with a good show of reason, that the American consular service has suffered by making it subject to political favor rather than to merit.

Anti-trust and tariff agitation are not favorable to the stock market. Recent events connected with the coal crisis are also calculated to create political disturbances. These are influences on which the investor, and especially the speculator, must keep a close watch.

The consular service as it is now constituted may not be perfect, but it is a question if the reformers are not reforming entirely too far. It is also a question if the country cannot obtain better and more efficient service by periodical changes than to let the consuls become fossilized in the offices they hold.

Henry Clews, in his weekly letter, notes that the stock market is rather uncertain. The undertone is better, but efforts to promote an aggressive bull movement meet with but indifferent success.

As to the monetary prospects, the indications are for lower rates than prevailed during the last three months of 1902. Until the crop demands assert themselves there appear to be no shoals ahead save the April settlements and the July disbursements.

The New York Commercial Advertiser, commenting on the Montana way, says: Montana seems to be a fine place for an enterprising jurist. A witness testified in court recently that he had been asked by the senator's son to offer a bribe of \$250,000 to a judge of the supreme court as a reward for a statement from him that somebody else had tried to bribe him.

All efforts seem to have failed, but not because of the judge's inflexible integrity. The offers were made under peculiar circumstances. The "judge" was very much intoxicated and a young Clark was in a still worse condition.

The house committee on foreign affairs has decided to report favorably Representative Adams' bill providing for the reorganization of the consular service.

The chief object of the measure is to place the appointment of consuls under the civil service. If it becomes a law appointments will hereafter be made only by competitive examination to the lowest grade; vacancies in the

An Education Without Strain

upon the family purse. There is a way for the father of the family to prepare for the education of the children, and at the same time protect the family in the event of his death.

Our books, "Five Per Cent. Twenty-Year Gold Bonds," and "A Banker's Will," sent on request, contain information that may be helpful and will certainly be interesting to any parent.

This Company ranks First in Assets, First in Amount Paid Policy-holders, First in Age.

abroad and shown very recently striking ability and resourcefulness in meeting a crisis.

Anti-trust and tariff agitation are not favorable to the stock market. Recent events connected with the coal crisis are also calculated to create political disturbances. These are influences on which the investor, and especially the speculator, must keep a close watch.

Upper Peninsula.

Broke Leg in Two Places—Mrs. Frank Martin of St. Ignace slipped when crossing an icy place in her doorway last week and broke one of her lower limbs in two places.

Has a Squeaky Dog Team—Mrs. O. M. McLaughlin of Munising drove Mr. McLaughlin's dog team to Detroit the other day, making the round trip in the quick time of one hour and twenty-five minutes.

Snow Plow and Ice—Michael Ferguson of Munising has been granted a patent on a combination snow plow and road iceer.

Newberry Kilns Being Charged—About half the battery of forty charcoal kilns at the Newberry blast furnace, soon to go into commission, are completed and they are being filled with wood as fast as finished.

Mail Sacks Fell Under the Wheels—A few nights ago mail sacks thrown from the west bound Soo Line flyer at Cooks, Schoolcraft county, by some means fell under the car wheels and sacks and mail were badly mutilated.

Jumped Their Board Bill—Oswald Carlson, Ermer Johnson and Wm. Lafdahl jumped a \$45 board bill at the Johnson House, at Newberry, last week, going to the Soo, where they were arrested the following day by Sheriff Cyr and brought back for trial.

New Route to Munising—The Trenchy branch of the Soo line, running due north from Rapid River, has been completed through to the Munising railway, the junction point being at Eben, two miles west of Chatham.

Pays Fine and Loses Hides—M. Finborg, a Detroit fur buyer, was arrested by a deputy game warden at Newberry the other evening, just as he was about to leave town, for having in his possession a number of fresh deer hides, the deer from which they were taken having evidently been killed out of season.

Killed by Soo Line Train—Last week, at Bovee, western Mackinac, Arthur Wade, a brother of Max Marcus Lehigh of St. Ignace, was killed by a train on the Soo Line.

Rural Mail Delivery Canceled—The projected rural free mail delivery route for Menominee county will become operative on March 2, 1903.

FINDS WAY TO LIVE LONG. The startling announcement of a Discovery that will surely lengthen life is made by Editor O. H. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip. It's invaluable to people with weak lungs. Having tried this wonderful medicine no one need dread Pneumonia or Consumption. Its relief is instant and cure certain. Stafford guarantees every 50c and \$1.00 bottle, and gives trial bottles free.

"Cure the cough and save the life!" Dr. Wood's Norway Pine Syrup cures cough and colds, down to the very verge of consumption.

The crowned heads of every nation, the rich men, poor men and misers. All join in paying tribute to DeWitt's Little Early Risers.

H. Williams, San Antonio, Tex., writes: "Little Early Risers Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure Constipation, Biliousness, Sick Headache, Torpid Liver, Jaundice, Saltaria and all other liver troubles. H. Farwood, Ishpeming; The Stafford Drug Co., Marquette.

How a Woman Got Her Strength Back.

She Took Our Vinol with Good Results. WE WANT EVERY ONE TO KNOW ABOUT IT. READ WHAT WE HAVE TO SAY. COME AND SEE US.

We don't want any one in this city to drag themselves through life in pain and misery for the want of enough strength to feel well and happy. If you feel listless, without ambition and run down, it is a bad sign. You are running grave chances. You are in a condition to be attacked by most any disease.

This feeling of debility is a symptom that your system is generally demoralized. You should take a tonic. You should take Vinol, which we know and will guarantee will restore your strength.

Recovered Money but Not Wife—Frank Navasconi came to Bessemer from Illinois last week to get his wife, whom he said was living with his brother. He put up at an Italian boarding house while the law took its course.

Much Power Running to Waste—C. B. Pride, the paper mill builder of Appleton, is interested in the development of the water powers on the Menominee river and he is busy contracted after having made a survey of the water powers at Chappie rapids and White rapids that there is no better water power in the Northwest.

Much Power Running to Waste—C. B. Pride, the paper mill builder of Appleton, is interested in the development of the water powers on the Menominee river and he is busy contracted after having made a survey of the water powers at Chappie rapids and White rapids that there is no better water power in the Northwest.

Smokers! Try That Celebrated HAVANA PLANTATION CIGAR. You will discover one of the richest smokes you ever had. Sold by all the leading dealers.

A Union-Made Cigar, manufactured by JAEDECKE BROS., Ishpeming Mich. LA FLORA DE LUQUETIA CIGAR. HAWAIIAN VETERAN'S SPECIAL.

Can You Sleep? If not, and you are growing nervous, despondent and run-down, you need Palmto Tablets. They induce natural slumber, build up the nervous system, and make you feel and look years younger.

Dr. Wood's Norway Pine Syrup cures cough and colds, down to the very verge of consumption. The crowned heads of every nation, the rich men, poor men and misers. All join in paying tribute to DeWitt's Little Early Risers.

How a Woman Got Her Strength Back.

She Took Our Vinol with Good Results. WE WANT EVERY ONE TO KNOW ABOUT IT. READ WHAT WE HAVE TO SAY. COME AND SEE US.

We don't want any one in this city to drag themselves through life in pain and misery for the want of enough strength to feel well and happy. If you feel listless, without ambition and run down, it is a bad sign. You are running grave chances. You are in a condition to be attacked by most any disease.

This feeling of debility is a symptom that your system is generally demoralized. You should take a tonic. You should take Vinol, which we know and will guarantee will restore your strength.

Recovered Money but Not Wife—Frank Navasconi came to Bessemer from Illinois last week to get his wife, whom he said was living with his brother. He put up at an Italian boarding house while the law took its course.

BLAIR TO GO FREE.
Prosecuting Attorney Drops the Case Against the Chicago Man.

Gordon C. Blair, of Chicago, one of the principals in the alleged fraudulent sale of lumber to James Pryor & Sons of Houghton, at the time of the beaching of the barge Wilbor at the canal last September, and who was held for trial in the circuit court by Justice Brand on the charge of obtaining money under false pretenses, is as good as a free man. The case will be thrown out of court upon the recommendation of Prosecuting Attorney Larson, who filed his reasons with Judge Streeter yesterday afternoon. In a legal sense, the case is not pressed. Mr. Larson has contended all along that the question involved was a close one. The only thing to be settled was whether Blair, when he advised selling the lumber did so as a mere matter of opinion or with fraudulent intent. Blair claimed he had no intent to defraud and the chances for his ultimate acquittal, according to the evidence in the case, were good. After the formalities necessary Blair will be dismissed. Since his hearing in justice court he has been confined in jail.

Pleas of Not Guilty Entered.
The January term of court was called to order by Judge Streeter yesterday morning. Preliminary work, such as arranging the calendar, granting full citizenship papers, and hearing of motions, was attended to during the day. The first case will be called for trial this morning. The cases in order of trial, with charges and pleas, are as follows: The People vs. Bernard Lencino, plea not guilty of selling liquor without a license; Leo Lesn, not guilty of keeping open on Sunday; John T. Dunn, not guilty of violating screen law; Joseph Stefanie, not guilty of keeping open after hours; Joseph Stukel, not guilty of violating screen law; Frank Knivel, not guilty of violating screen and Sunday laws; Umberto Valtz, not guilty of violating screen and after hours laws; Allen McKinnon, not guilty of violating screen and after hours laws; Joseph Wilmers, not guilty of violating screen and Sunday laws; Dominick Borgo, not guilty of violating screen law; John Jeddia, not guilty of violating screen law; Antonio Negro, not guilty of keeping open on Sunday and violating screen law; Matt Grehek, not guilty of violating screen law; Joseph Stefanie, not guilty of violating screen and Sunday laws; William McKenzie, not guilty of assault with intent to do great bodily harm; Richard J. Kinsman, not guilty of bastardy; John Simmons, not guilty of violating screen law; Adela Roy, not guilty of burglary; James Stanaway, not guilty of robbery; George Linley, not guilty of robbery; John J. Healy, not guilty of forgery; Joseph Mathis, not guilty of embezzlement; Giacomo Vignetto, not guilty of violating screen law; John R. O'Neil, not guilty of violating screen law.

Suit for Damages.
Then comes the case of Charles O. Olivier, administrator of the estate of Cyrille Boovine, deceased, versus the Houghton County Street Railway company, for damages. It is alleged by the complainant that Bovine was killed through the carelessness of the street railway people. The case is one of considerable interest. Gray & Stone are counsel for the defense, while W. A. Burritt is Mr. Olivier's attorney. Another damage suit, which may possibly be tried next Friday and if not just after the case against the street railway people, is that of John Frankovitch versus the Hancock & Calumet Railway company, for injuries alleged to have been caused by carelessness on part of the railway. Other civil cases follow. Several civil cases were either countermanded for trial at this term or stricken from the calendar yesterday. Several civil and criminal cases were continued until next term, among them the liquor cases against Joel Rupp and Albert Kasper.

AGREEMENT EXPECTED.
The Houghton County Street Railway company and the village of Laurium will likely soon come to a satisfactory agreement in regard to a right-of-way of some three hundred feet, the use of which is necessary for the street railway to connect its Lake Linden branch with the main line at Laurium. At present the service is somewhat unsatisfactory, as passengers have to change cars and walk a considerable distance to do it, thereby losing time and patience. The trouble between the village and the company is the snow proposition. The village wants the street car people to pay the entire cost of removing all the snow from the streets over which the cars run. The company is only willing to pay half of it.

NOT COMING TILL FEBRUARY.
Although the Houghton Infantry in-door baseball team would like to play the Macabee team of Marquette before the second week in February, to keep things moving in the baseball line in copperdom, it cannot do so as Marquette's dates are all taken up to that time. A letter to that effect was received by the management of the Houghton team yesterday. Games will be arranged for after Feb. 14. Marquette will play both in Houghton and Calumet. The Houghton Infantry team will take some trip at the latter part of the season, but it has not yet been decided just where. Several are in contemplation. As to the trip to Chicago, which is favored by most of the team, nothing has been definitely settled.

PRESIDENT MAY COME.

Move On to Have Him Extend Summer Trip to Houghton.
A number of the business men's associations of northern Wisconsin have united in an endeavor to induce President Roosevelt to visit their towns during his western trip next summer, says the Iron Mountain Press. As an extra inducement it is planned to have President Roosevelt come through the valley towns, stopping at each one and continuing north as far as Houghton and Hancock. Here he could be met by one of the United States revenue cutters and either taken west to Duluth or go east from that point. The business men of the north will probably be asked to take part in the arrangements after the Appleton meeting, if it is decided at that time to include those cities in the president's trip.

COUNTY AGRICULTURAL SOCIETY.
A meeting of the directors and officers of the Houghton County Agricultural Society was held at the Finnish college in Hancock last evening to draw up a constitution and by-laws, which will be presented for adoption at an adjourned meeting of the society to be held Thursday afternoon in the city hall. President J. H. Jassberg of Hancock is receiving letters from all parts of the county endorsing the agricultural movement, and from all appearances the society bids well to be a great success.

BEARS IN COPPERDOM.
Says Editor Newett in the Lapbenning Iron Ore: A Houghton man was chased by wolves a few nights since and had to take to a tall tree in order to escape being devoured. They were probably bears that were after him. Occasionally these animals get after copper country residents making them take to the tall timber to escape with their house and lot. We believe there should be a law passed to prevent the bears from operating in the mining districts.

AT HANCOCK THURSDAY.
Thursday evening's attraction at the Korredge theatre, in Hancock, will be "The Liberty Bells," a popular new musical comedy. The piece is said to be one of the real novelties of the season and, unlike most comedies of the kind, as it is minus a chorus. The first act takes place in the dormitory of a young woman's seminary; the second act in a cook's kitchen; and the third act on the lawn of a fashionable hotel in Florida. A company of forty people is advertised.

PACKING TOOK FIRE.
Loss by fire was narrowly averted in Joseph Hambitzer's residence, Houghton, at 10 o'clock yesterday morning. While an attempt to thaw out a frozen water pipe leading from the basement to the sitting room overhead was being made, the packing around the pipe at the ceiling took fire. The department was called, but the blaze was out when the firemen arrived. In extinguishing the fire Mrs. Hambitzer was painfully burned about the hand and arm.

SUES FOR DAMAGES.
Suit has been commenced against the village of Red Jacket by George E. Hamilton for damages, the result of an injury to Hamilton's horse a few months ago. The horse stepped into a little rubbish heap in the street and got a nail into its foot. A month or so after Hamilton presented a bill for a veterinarian's services and also for the time the horse lost while it was laid up, but the council refused to pay it.

GREGORY'S PROPOSITION FINAL.
The water problem will be taken up again at a meeting of the village council at Lake Linden Wednesday evening. Mr. Gregory has offered the village all the water from his springs, including all taps, for \$200 per month, and The Mining Journal is informed that he will not alter his proposition. Lake Linden people expect definite action of some kind at the coming meeting.

COPPERDOM BREVITEL.
The students of the Lake Linden High school will give their annual skating party at the Mammoth rink on the evening of Jan. 30.
The Houghton Lumber company is having considerable hemlock and other kinds of lumber stacked upon the Fire Steel and Flint Steel rivers, in Ontonagon county. In the spring the logs will be driven to the lake and then towed to Houghton.
Frank J. Huston, who recently resigned his position with the Lake Superior Produce & Cold Storage company, has left for St. Paul to take a position with the American Tobacco company as a traveling salesman. He will travel in South Dakota. Mr. Huston has scores of friends in Houghton county who regret his departure.

MINING NEWS

WALKER ON COPPER.

Geo. L. Walker says of the copper market: "Those in touch with the market say that offerings are at all times very small, and also that consumers generally admit that their needs have been cared for on a month to three months in advance. Should anything happen to cause a renewal of the buying demand the prospect is that the price of Lake copper would quickly cross thirteen cents. The available stocks of copper in existence at present are estimated by some leading authorities to be just about 100,000,000 pounds. Almost as much as this is necessary to the proper conduct of business. Much of this is in transit, or held by selling agencies to supply any sudden demand that may arise. Casey says there are surplus stocks aggregating nearly 300,000,000 pounds, and that supplies increased more than 100,000,000 pounds last year. His argument is apparently based on an assumption that there was no increase in copper consumption last year as a result of the decline in prices from seventeen to twelve cents per pound. If Mr. Casey will repeat his statements in a school for the blind he may find believers. Every one who has eyes, however, knows better. That there was a tremendous increase in copper consumption last year is a fact that is obvious to everyone who looks about him. The strongest and most satisfactory element in the situation is the fact that the present improvement in metal prices is due wholly to natural conditions. Copper is higher because consumption has overtaken production. A year ago the largest producing interest was embarked on a campaign of destruction, the aim of which was to force its competitors to enter into an agreement to produce less copper and to assist in the effort to maintain prices at an abnormally high level. The campaign was unsuccessful, and those who went forth to smash the price of copper to eight cents per pound were forced to return with drooping crest and battered helmet. It was proved and demonstrated for all time that the agency of warfare could not introduce peace into the copper trade. The law of supply and demand, however, has since produced a harmony of conditions that is much more desirable and satisfactory than the enforced peace could possibly be. The lesson taught by the past year of copper warfare has been a valuable one. It has demonstrated that there is a market for almost unlimited supplies of copper at a price that will yield a fair profit on the output of a major portion of the producing interests of the United States. This experience promises to have a shaping influence on the trade agreement, which will surely be reached later, with the result that the agreement will be a wise one—effective and productive of highly desirable results.

STRONG BUYING IN RANGE.
In connection with the recent advance in Copper Range stock it has repeatedly been asserted that the movement has been almost wholly the outgrowth of manipulation, says the Boston Journal. On the contrary, the fact that much of the buying has come from houses that are rarely identified with manipulative speculation clearly indicates that this claim is not based on fact. Indeed, much of the demand has, according to the best of authority, been for investment account and by people who are in a position to hold the stock for a long pull. In commenting upon this matter, and upon the possibility of a "deal," one who is in a position to well understand the existing conditions of Copper Range and Trimountain, and the possibility of a combine, says: "The time has been when the Trimountain people were inclined to negotiate with the Copper Range company for a union. Such an alliance perhaps would only be natural, both by reason of the location of the properties and the character of their rock. I have no doubt, even now, but what the Trimountain people would take Copper Range upon satisfactory terms. I have, however, no positive knowledge that is so. I do know, however, that the Copper Range people are in no hurry to sell their property; that they have a proposition that is bound to be profitable beyond expectation and beyond original estimates, and that they also feel that with the enormous production of copper that is assured to them during the coming year, this stock on any sort of a market is worth much more than it is now selling for. The relative difference between Copper Range and Calumet is much smaller than many people suppose, and it will not be many years before Copper Range will be counted as a very close second to Calumet & Hecla. This is no wild prediction, but an estimate of conditions, as a result of a personal investigation and the knowledge of actual plans."

MINING GOSSIP.
Whether Copper Range goes into a combine or not, it is practically assured of a dividend during the current year.
The Quincy is getting considerable timber from the state of Washington for mine timbering. Several carloads were unloaded at the Pebawic shaft last week.
New York parties are becoming heavily interested in local copper stocks. This has been pronounced lately, and is now quite a feature of the local market.—Boston Journal.
A member of a prominent Boston commission house, who has been a bear on the coppers says: "The tone to the copper market, while perhaps to some extent artificial nevertheless is strong and inviting."

And now State street says that the recent lifting of Centennial was the result of pool manipulation—pure and simple. And what is more it insists that the pool has now sold out and turned a handsome profit.
Copper declined 2 1/2, 3d at London yesterday to \$33, 28, 1d or spot and \$33, 75, 6d for futures. At New York, however, it was a shade higher. Standard was quoted at 11.62 1/2, Lake at 12.25 @ 12.50, electrolytic at 12.20 @ 12.40 and casting at 12.60 @ 12.35.
The smelter of the United States Mining company is at present treating 400 tons of ore from the United States group and 225 tons from the Centennial-Eureka each day. At present there are 170 men on the pay roll of the Centennial-Eureka and the output could easily be doubled.
The ledge in No. 4 shaft, Trimountain, has been encountered at a depth of 150 feet. Little difficulty was had going through the overburden as the ground was dry. The shaft was put down speedily and permanently, sixteen-inch square timbers being used in the timbering. While No. 4 was being sunk raising was under way in No. 3 from the second level, which will coincide with the first level in No. 4. A small hoist is now in use at No. 4, which will suffice for a time. It may then be replaced by the hoist formerly in use at No. 1 shaft.

NEW CENTURY COMFORT.

ARGUES FOR TREATY

SENATOR CULLOM, ILLINOIS, URGES RECIPROCIITY WITH CUBA.

OF ADVANTAGE TO UNITED STATES

MUCH GOODS FROM AMERICA PUT ON THE FREE LIST.

Is Contended No Home Industry Would Be Injured and Trade Between the Countries Would Show Rapid and Heavy Increase.

Washington, Jan. 19.—The senate devoted two brief executive sessions today to the Cuban reciprocity treaty. Senator Cullom made a statement of its purport and affects. Senator Bacon, also a member of the foreign relations committee, gave notice he would have some amendments to the treaty to offer, and asked the privilege of making them public, following the example of the senate in making the treaty itself public. This request was denied on the ground it would be impolitic and unwise.

Treaty Would Stimulate Trade. Senator Cullom's statement was exhaustive. He produced a mass of figures to show the extent of the commerce between the United States and Cuba, and gave reasons for his belief that ratification of the treaty would cause a rapid increase in the trade between the two countries. He said that on the basis of the commerce of 1901, ratification of the treaty would cause a reduction of about five million dollars in the duty paid on Cuban imports and a corresponding reduction of about half that amount on American articles shipped to Cuba.

The senator contended the United States would secure an advantage in continuing, as the treaty does, the present free list, as under this arrangement there were about three million dollars' worth of American goods admitted into Cuba free of duty, while only about \$2,000,000 worth of Cuban goods came into the United States free. It was important, he said, the free list be continued as at present, for if there should be any change in the Cuban tariff the United States might be deprived of this advantage. Senator Cullom said he did not believe any American industry would be injured by the ratification of the treaty. When Senator Cullom concluded Senator Bacon offered one of the amendments of which he had given notice. It provides that "this treaty shall not take effect until the same shall have been approved by congress." The senate adjourned with the understanding the treaty would be taken up tomorrow during the morning hours.

Change in Sugar Amendment. The official text of the amendments to the treaty made by the committee on foreign relations was made public today along with the text of the treaty. It shows important variation from the text of the amendment as originally printed. According to the official print the proposition of lower rates of duty on sugar imported into the United States from other countries is confined to action by "treaty or convention." Following is the full official text of the amendment:

"Provided that while this convention is in force, no sugar imported from the republic of Cuba, and being the product of the soil or industry of the republic of Cuba, shall be admitted into the United States at a reduction of duty greater than 20 per centum of the rates of the duty thereon as provided by the tariff act of the United States approved July 24, 1897, and no sugar product of any other foreign country shall be admitted, except by treaty or convention, into the United States at a lower rate of duty than that provided by the tariff act of the United States approved July 24, 1897."

Consular Service Attacked in House. The house transacted considerable business today. Several miscellaneous measures were passed. The consular and diplomatic appropriation bill, which took wide range and led to some rather scandalous charges against our consular representatives in Mexico by Mr. Sladen of Texas. Mr. McClellan submitted figures to show that our consulates, compared with those of other first class countries, were unprovided but over-manned. Mr. Grosvenor of Ohio declared the charges against the consular officials unjustified, maintaining it was the opinion of European publicists that we had the most efficient consular service in the world.

Texas Senator Raises Objection. Senator Bailey of Texas today in the senate objected to the consideration by unanimous consent of all bills from the Republican side, on the ground that the senator from New York had interfered with a matter purely local to Texas. A discussion arose which was terminated by Senator Cullom moving an executive session to consider the Cuban reciprocity treaty. After half an hour in executive session, the doors were reopened and Senator Fowler continued his remarks, favoring staked for Oklahoma, Arizona and New Mexico. The senate at 5:20 adjourned until tomorrow.

Binger Hermann's Resignation In. The resignation of Binger Hermann, commissioner of the general land office, to take effect Feb. 1, was placed in the hands of the president today. The nomination of ex-Governor Richardson of Wyoming to succeed him will be submitted to the senate tomorrow.

Senator Mitchell, of the committee which recently visited Hawaii, today introduced a number of bills affecting the government of the islands, salaries of officials, and appropriations for federal buildings and public works.

F. M. Waite Appointed Marshal. The president today nominated Frank M. Waite as United States marshal for the western district of Michigan.

PRESIDENT PRAISES Y. M. C. A. Speaks at Banquet Celebrating Washington Association's Anniversary. Washington, Jan. 19.—President Roosevelt was the guest of honor tonight at a banquet commemorative of the fiftieth anniversary of the Washington Young Men's Christian association. Over three hundred guests were present, among them many notable men. Helen Gould was conspicuous among the persons in the balcony.

hands of the president today. The nomination of ex-Governor Richardson of Wyoming to succeed him will be submitted to the senate tomorrow.

Senator Mitchell, of the committee which recently visited Hawaii, today introduced a number of bills affecting the government of the islands, salaries of officials, and appropriations for federal buildings and public works.

F. M. Waite Appointed Marshal. The president today nominated Frank M. Waite as United States marshal for the western district of Michigan.

PRESIDENT PRAISES Y. M. C. A. Speaks at Banquet Celebrating Washington Association's Anniversary. Washington, Jan. 19.—President Roosevelt was the guest of honor tonight at a banquet commemorative of the fiftieth anniversary of the Washington Young Men's Christian association.

Over three hundred guests were present, among them many notable men. Helen Gould was conspicuous among the persons in the balcony. The president reviewed briefly the progress of the world socially and industrially during the last half century. A hundred years ago there was no need of a Y. M. C. A., he said. Life was simpler. At the forces of evil manifested themselves they had to be grappled with by organized effort, and this necessity caused the growth of the Young Men's Christian association. It was a combination of decency and efficiency. The president sketched the work of the association and spoke warmly of its results and influence.

PLAGUE IN CALIFORNIA. State Authorities Severely Censured by Medical Conference at Washington. Washington, Jan. 19.—Surgeon General Wyman and representatives of the health authorities of nineteen states met in conference here today to consider the subject of bubonic plague in the United States. The conference adopted resolutions declaring that there is danger in bringing the troops through San Francisco. Surgeon General Wyman advised against the adoption of this resolution. Another proposed placing an embargo on the railroads leading out of California unless certain steps were taken by the health authorities toward the suppression of the plague. Neither of these resolutions were adopted.

Some delegates favored radical action. A resolution was offered proposing that the secretary of war be advised there is danger in bringing the troops through San Francisco. Surgeon General Wyman advised against the adoption of this resolution. Another proposed placing an embargo on the railroads leading out of California unless certain steps were taken by the health authorities toward the suppression of the plague. Neither of these resolutions were adopted.

Mazatlan, Mexico, Jan. 19.—The plague fatalities are averaging 33 per cent. Fully a third of the people have fled. The tone of the debate indicates the Centrists will oppose the chancellor's policy. The debate was listened to by crowded galleries. Prince Henry represented the emperor in the court gallery.

IRRIGATION ON A BIG SCALE. Work of Reclaiming 255,000 Acres of Texas Desert Laid Begun. Austin, Tex., Jan. 19.—The Dixie Irrigation company, composed of Texas and Philadelphia capitalists, today began work constructing what is planned to be the most extensive system of irrigation in the United States. It is proposed to place under irrigation 255,000 acres of land, situated in the dry region of West Texas.

The main canal will be 100 miles in length, coming out on the west side of the river, thirty miles from the town of Pecos, and running along the edge of the hills in a southward direction, crossing the Texas & Pacific railroad six miles, seven miles south of Pecos, where they will construct one of the largest reservoirs in existence.

From Toyah lake it will be constructed on and join the Williams canal thirty miles further down the river, and finally empty into the Pecos river six miles below Pecos. This canal will be constructed according to the India lock-dam system, and will be within itself a vast reservoir, capable of storing all the flood water coming down the Pecos river and placing it so that it will be of practicable use to the lands.

Wherever there are hills and valleys lake will be formed, and wherever water can be stored reservoirs will be created. Toyah lake will be turned into a vast reservoir with a capacity of six square acres, with an average depth of twelve feet. This water will be reserved for irrigation purposes.

RAN OVER HIS OWN SON. Eastern Locomotive Engineer Kills His Boy by Accident. South Norwalk, Conn., Jan. 19.—Elmer W. Beach, an engineer on the New Haven road, instantly killed his son, Clarence E. Beach, aged twelve years, on the high bridge over Washington street by an accident which threatens to unbalance his mind.

Beach's home is in New Haven. Mrs. Beach and an only daughter away on a visit, and the youngest, being lonely, secured his father's permission to spend the Saturday holiday with him in the locomotive cab. At Bridgeport the engine was coupled to a long train of loaded freight cars, which was brought to South Norwalk.

Here little Clarence eluded his father's watchful eye and started across the cars to the engine. Only half of the distance had been traversed when the boy slipped on attempting to leap from one car to another, and fell under the wheels. The boy was horribly mangled. A violent tug at the bell cord told the engineer, the elder Beach, that something had happened, and intuition seemed to tell him the worst. He fainted in his cab and recovered only after the coroner arrived. Then the sight of the despoiled body caused him to swoon again.

An hour later he was suspended from duty by an order from the Grand Central station for allowing his son to ride as a passenger with him in the cab, a technical violation of the rules.

EXPLAINS LINER'S DELAYED TRIP. New York, Jan. 19.—Chief Engineer John Philip, of the steamship A. T. Louis today made his official report on the cause of the vessel's delayed trip. He says the delay "was due to the boiler being getting choked up on the fire side, through the tubes leading in the back 'bleed' sheet."

Philip insists that the "boilers are as safe now in regard to any part giving away as they were when built."

KAISER ASSAILED.

Sharp Criticism in Reichstag Draws Reply from the Chancellor.

BERLIN, Jan. 19.—Herr Schaeffler, a Bavarian member of the centre party, discussed in the Reichstag today a telegram sent by the emperor to Prince Regent Luitpold of Bavaria last summer, expressive of his majesty's deep indignation at the refusal of the Bavarian diet to vote \$25,000 for art purposes.

Herr Schaeffler sharply criticized the emperor's action as an irresponsible interference in the internal affairs of an individual state. He finally put a direct question to Chancellor von Buelow as to how he proposed to prevent a recurrence of such incidents. Von Buelow replied that as chancellor he was responsible only for the official utterances of the emperor, which he was required to countersign, and that beyond these limits the emperor had full liberty, like every other Prussian, to express his personal views. Herr Schaeffler having intimated his majesty's action was dangerous to the stability of the empire, Von Buelow said: "I express the hope that the members of all parties will avoid utterances calculated to raise doubts abroad regarding the unity of the empire and regarding the devotion of the people to and their love of the imperial idea. This idea is embodied in the dearest recollections of the German people and it represents our world position. In the future nobody should be left in doubt that our people are holding fast to the imperial idea and that it is unshaken and inviolate."

Germanizing of Poland. Later in the day, discussing the increased expenditures involved in Germanizing the Polish provinces, Chancellor von Buelow said the government considered that the most important of all internal questions, as it was connected with the integrity of the monarchy and German possession only could be maintained by adhering to the Germanizing program. Besides the educational grant, six million dollars would be devoted to extending railroads in these provinces and a royal castle may be erected at Posen. Von Buelow declared the program would be carried out consistently and with resolution. He said immediate results from this policy were not expected.

The tone of the debate indicates the Centrists will oppose the chancellor's policy. The debate was listened to by crowded galleries. Prince Henry represented the emperor in the court gallery.

PASSES ON SOUTH DAKOTA DIVORCES. The supreme court also today again passed upon the validity of divorces granted in South Dakota to non-residents. The case was that of Annie Andrews against Kate H. Andrews, and the question at issue as to which is entitled to administer upon the estate of Charles H. Andrews, whom both claim as husband.

Mrs. Kate Andrews was the first wife. Her husband secured a divorce in South Dakota after remaining there six months. The Massachusetts courts held that the decree had been fraudulently secured, and recognized the first wife as the legal widow. Today's opinion affirmed that holding.

Today's decision also holds the federal constitution not involved in the question and that the general government never had power over marriages to delegate, that control over marriages having always been vested in states. Congress has no power to regulate or prohibit divorces, and that unless the states are permitted to control divorces among their own citizens the subject would be entirely uncontrolled, in which case absolute destruction of society must be the result. As Mr. Andrews had been a citizen of Massachusetts, the courts of that state had jurisdiction, and not the courts of another state.

It was evident that Andrews' six months' residence in South Dakota had been taken up for the sole purpose of securing a divorce. That temporary change of residence did not amount to a domicile nor to a change of citizenship. For this reason, it is held the South Dakota court was without jurisdiction in the divorce proceedings, and its decree wholly void. Nor did it matter if there had been a compromise with the first Mrs. Andrews and if she had been induced to consent for a money consideration as alleged. The fact was the case was one for the Massachusetts courts, and not the South Dakota courts, and they could not be deprived of their power by this means.

SWELLE LIKE A BALLOON. Pancreum in Boy's Lung Lets the Air Escape into Cavities of the Trunk. Baltimore, Md., Jan. 19.—With one of the most peculiar diseases ever recorded, fifteen-year-old Frederick Kellerman is a sufferer at the city hospital. Cellular emphysema is the medical term applied to the lad's ailment. When received at the hospital the physicians discovered that four of his ribs were broken. He had met with an accident in trying to make a horse back. One of the shafts of the wagon pinioned him against a stone wall and crushed his side. One of the broken ribs penetrated the sack which contains the lungs and caused the air breathed in to escape as fast as taken in.

The lad's body from abdomen to chest began to swell until he resembled a balloon receiving gas. The air getting between the flesh and skin caused the body to expand. To save his patient's life Professor Trimble cut into the chest and plugged one of the lungs, thereby cutting off the supply of air from the left body, making a noise which could be heard in the adjoining room. Had the operation not been quickly performed the lad would have smothered to death, as the swelling had already reached the chin and could get no farther.

The boy is now suffering from pleurisy and the chances of recovery are slight.

BOSTON COAL MEN GREEDY. Despite Repeal of Tariff Dealers Make No Reduction. Boston, Jan. 19.—Despite the fact that congress has removed the tariff on coal not one cent of reduction in price has been made by the dealers in this city. Nearly 100,000 tons of foreign coal thus far have been benefited by the drawback, but only the dealer has profited.

The dealers say they are not making money on soft coal at \$10 a ton and are losing on anthracite at \$12 a ton, yet the independent and middle men have been advertising at cut rates for the last few days and soft coal can be bought for \$8 and hard for \$10 at the wharves.

The legislative investigation of the Boston Coal club, which controls the Boston market and the wharf privileges, will begin tomorrow. It is announced tonight that Attorney General Parker will be called on to conduct the case of the committee.

Ladies, if you want a refined and brilliant complexion, free from blemishes; rosy cheeks, bright eyes, take Rocky Mountain Tea. Never fails. 35 cents. The Stafford Drug Co.

ONTONAGON WINS

U. S. SUPREME COURT SUSTAINS A MICHIGAN STATUTE.

FOUGHT BY THE DIAMOND MATCH

HELD LOGS IN TRANSIT TO ANOTHER STATE ARE TAXABLE.

High Tribunal Also Holds, in Second Important Decision, That Divorces Granted in South Dakota to Non-Residents Are Illegal.

Washington, Jan. 19.—The United States supreme court today upheld the validity of the state law of Michigan making taxable logs which are in transit to another state, in the case of the Diamond Match company vs. the village of Ontonagon. The match company sought to restrain the assessment of taxes by the village under this law on the ground that it is an interference with interstate commerce.

Washington, Jan. 19.—The United States supreme court today upheld the validity of the state law of Michigan making taxable logs which are in transit to another state, in the case of the Diamond Match company vs. the village of Ontonagon. The match company sought to restrain the assessment of taxes by the village under this law on the ground that it is an interference with interstate commerce.

Amongst the few movements in stocks worthy of mention, that in Chesapeake & Ohio was the most conspicuous. The buying was based on the assumption that part of Pennsylvania's new capital will be devoted to adding to its holdings of Chesapeake & Ohio. Amalgamated Copper was affected by surmise of a new step of the contending interests in the copper trade. The rise in Great Northern preferred was supposed to be connected with the return to the east of the president of the road, Missouri Pacific was helped by an increase in net earnings for December.

The whole market gave way in a late selling movement and closed easy. Rock Island led the decline, but losses of 1 to 1 1/2 points were made by many leading stocks.

Webber & Co. report the closing prices as follows: Wabash Pfd., 45; Mo Pacific, 112 1/2; N. Y. Central, 152; Manhattan, 153; Southern Ry., 35 1/2; C. & O., 32 1/2; Alton, 35; Southern Pac., 65; Sugar, 130; Reading, 61 1/2; Rock Island, 47 1/2; Metropolitan, 10 1/2; St. Paul, 15 1/2; Erie, 10 1/2; N. E. Ry., 67 1/2; Pfd., 42; C. & P., 23 1/2; C. & W., 27 1/2; Canadian Pac., 130; Pennsylvania, 104 1/2; W. Va. Ry., 35 1/2; C. & N., 120; Illinois Central, 14 1/2; Car Foundry, 10 1/2; Leather, 12 1/2; Republic Steel, 21 1/2; U. S. Steel, 37; Swift, 41 1/2; Pfd., 89; M. & T., 41 1/2; Peoples Gas, 104; Texas Pacific, 41 1/2; X. & W., 104; Smelter, 41 1/2; Northern Pac., 100; Nor. Pac., 116; Pfd., 80; South Shore, 41 1/2; Denver Pfd., 88 1/2; Pfd., 10 1/2.

Range of Money Rates. Money on call, steady, at 4 1/2%; per cent; closing offered at 4. Time money, easier, sixty and ninety days, 4 1/2% per cent; six months, 4 1/2%. Prime paper, 6 1/2% per cent. Exchange, firm, demand at 48.95@48.7 and sixty days at 48.70@48.75. Bar silver, 47 1/2.

BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows Saturday, the quotations being reported by Paine, Webber & Co.:

Wabash Pfd., 45; Mo Pacific, 112 1/2; N. Y. Central, 152; Manhattan, 153; Southern Ry., 35 1/2; C. & O., 32 1/2; Alton, 35; Southern Pac., 65; Sugar, 130; Reading, 61 1/2; Rock Island, 47 1/2; Metropolitan, 10 1/2; St. Paul, 15 1/2; Erie, 10 1/2; N. E. Ry., 67 1/2; Pfd., 42; C. & P., 23 1/2; C. & W., 27 1/2; Canadian Pac., 130; Pennsylvania, 104 1/2; W. Va. Ry., 35 1/2; C. & N., 120; Illinois Central, 14 1/2; Car Foundry, 10 1/2; Leather, 12 1/2; Republic Steel, 21 1/2; U. S. Steel, 37; Swift, 41 1/2; Pfd., 89; M. & T., 41 1/2; Peoples Gas, 104; Texas Pacific, 41 1/2; X. & W., 104; Smelter, 41 1/2; Northern Pac., 100; Nor. Pac., 116; Pfd., 80; South Shore, 41 1/2; Denver Pfd., 88 1/2; Pfd., 10 1/2.

CHICAGO GRAIN MARKETS. Chicago, Jan. 19.—While January wheat was unchanged in price at the close today, May gained 3/4 and July was 1/2 better. Activity and strength were features, coupled with continued heavy buying by the principal long in the market, who bid at every dip and accumulated an estimated limit of two million bushels. The strength during the morning was largely due to buying of May by this interest, which caused nearly all local shorts to cover and some smaller longs to add to their lines. The trade was a big one, but again largely of professional character. May closed at 79 1/2¢. The visible decreased 28,000 bushels. Liverpool was 3/4¢@3/8¢ higher. Outside orders from the Northwest were on both sides of the market, but the bull side was favored. May opened at 78 1/2¢; highest, 79 1/2¢; low, 78 1/2¢; closing, 79 1/2¢. On the coast, forty boatloads were accepted.

The corn market acted heavy most of the day under the influence of favorable weather, liberal country acceptances of Saturday's bids and the absence of any particular demand for the cash commodity. Commission houses acting for country interests generally were on the selling side. The local crowd, with its eye on the wheat strength, bought. This support, however, was sufficient only to steady the market after a fractional decline early. Liverpool was 1/4¢@3/8¢ higher. The visible increased 55,000 bushels, against an increase of 109,000 a year ago. The final figures were 3 1/2¢@3 1/4¢ higher. January closed at 46 1/2¢. May opened at 43 1/2¢; highest, 43 1/2¢; lowest, 43 1/2¢; closing, 43 1/2¢. On the coast, forty boatloads were taken.

Orders were sold liberally early by local traders on the congested car situation.

ANXIETY OVER MONEY MARKET.

Speculation in Stocks Is Dull With the Tendency of Values Down.

New York, Jan. 19.—While today's opening dealings failed to show any undue demand from outside sources, there was no eagerness to sell stocks. The speculative pools desisted from activity, since last week's transaction had pretty well demonstrated the futility of their efforts to attract a general demand for stocks.

Saturday's bank statement, while it was favorable on its face, gave evidence of requirements upon the money market, resulting from the Reading deal, and was accepted as a warning that the resources of the money market, as they become replenished, are likely to be drawn upon by syndicates for the pushing of projects held in abeyance. The realization of these deferred projects overhanging the market had a depressing influence, in contrast to their highly stimulating influence a few months ago. This project of syndicate requirements for money was offset in its effect by a somewhat firmer tone in the money market and an advance in sterling exchange toward the gold export point. The conviction is general that an outward movement of gold this winter is probable. The announcement of the terms of the coming revival loan and the probable requirement for the Panama canal purchase are confirmatory of this view.

Of immediate developments, reports of car shortage and inability to move freight offered were not a favorable influence. The resulting delay in the grain movement is likely to affect the revenue flow in consequence. The shutting down of works on account of coal shortage was also accepted as unfavorable. Secretary Shaw's order requiring the re-substitution of government bonds for other securities deposited against government deposits was regarded as making necessary a transaction in note circulation by the banks.

Amongst the few movements in stocks worthy of mention, that in Chesapeake & Ohio was the most conspicuous. The buying was based on the assumption that part of Pennsylvania's new capital will be devoted to adding to its holdings of Chesapeake & Ohio. Amalgamated Copper was affected by surmise of a new step of the contending interests in the copper trade. The rise in Great Northern preferred was supposed to be connected with the return to the east of the president of the road, Missouri Pacific was helped by an increase in net earnings for December.

The whole market gave way in a late selling movement and closed easy. Rock Island led the decline, but losses of 1 to 1 1/2 points were made by many leading stocks.

Webber & Co. report the closing prices as follows: Wabash Pfd., 45; Mo Pacific, 112 1/2; N. Y. Central, 152; Manhattan, 153; Southern Ry., 35 1/2; C. & O., 32 1/2; Alton, 35; Southern Pac., 65; Sugar, 130; Reading, 61 1/2; Rock Island, 47 1/2; Metropolitan, 10 1/2; St. Paul, 15 1/2; Erie, 10 1/2; N. E. Ry., 67 1/2; Pfd., 42; C. & P., 23 1/2; C. & W., 27 1/2; Canadian Pac., 130; Pennsylvania, 104 1/2; W. Va. Ry., 35 1/2; C. & N., 120; Illinois Central, 14 1/2; Car Foundry, 10 1/2; Leather, 12 1/2; Republic Steel, 21 1/2; U. S. Steel, 37; Swift, 41 1/2; Pfd., 89; M. & T., 41 1/2; Peoples Gas, 104; Texas Pacific, 41 1/2; X. & W., 104; Smelter, 41 1/2; Northern Pac., 100; Nor. Orders were sold liberally early by local traders on the congested car situation.

and most of the sellers bought later. The prices receded 3/4 for May, but rallied and closed at almost the same as Saturday's on coverings. Some elevator interests sold and later one house bought. There was a heavy cash market. The visible decreased 31,000 bushels. January was inactive and closed at 34. May opened at 35 1/2¢; highest, 35 1/2¢; lowest, 35 1/2¢; closing, 35 1/2¢.

SCHWAB REPORTED VERY ILL. Palermo, Sicily, Jan. 19.—It is reported here that the condition of Charles M. Schwab is less favorable than it has been, but it is impossible to get definite information on this matter. Mr. Schwab still remains on his yacht.

New York, Jan. 19.—A close friend and business associate of Mr. Schwab said tonight that the latter is in good health and enjoying himself.

TELEGRAPHIC NEWS CONDENSED.

San Domingo, Jan. 19.—The Dominican government has paid to Minor Powell the balance of the \$50,000 due on the Sala claim. This payment virtually disposes of the matter.

Pittsburg, Jan. 19.—A Baltimore & Ohio engine struck an electric car at Hazlewood crossing, on Second avenue, this morning. Two persons were seriously injured and ten others slightly.

Pittsburg, Jan. 19.—The throttle valve of a stationary engine at the Carnegie works at Duquesne blew out today and probably fatally scalded five men in the engine room.

Winnipeg, Man., Jan. 19.—Henry Toews, who sometime ago shot two school trustees and three pupils, one of the latter dying, died this morning in jail from convulsions.

Cleveland, O., Jan. 19.—Fire early today destroyed two adjoining apartment houses in East Cleveland, resulting in the death of two persons and injury to several others.

Jefferson City, Mo., Jan. 19.—A bill was introduced into the lower house of the legislature today to prohibit the playing of football. The officers and managers of state educational institutions, as well as teachers of public schools, are liable to fine and imprisonment if they permit students to play football.

Washington, Jan. 19.—Admiral Higginson cables from San Juan that the seven victims of the explosion of powder on board the battleship Massachusetts were buried yesterday with military honors. Seaman Dossett's recovery is doubtful. Patterson probably will recover.

Athens, Jan. 19.—Emperor William has officially informed the King of Greece of the approaching visit to Athens of the Crown Prince of Germany, Frederick William.

Pittsburg, Jan. 19.—The building in Fifth avenue occupied by the Merchants Savings & Trust company and several Hebrew families, burned today. Mr. and Mrs. Truffenberg, an aged couple, were burned to death. The loss is \$750,000.

Copenhagen, Jan. 19.—United States Minister Swenson gave his first official dinner this evening in honor of Crown Prince Frederick. The premier Dr. Deuntzer, and several other high officials, together with members of the diplomatic corps, were present.

Omaha, Jan. 19.—Fire this evening in the St. James orphan asylum caused \$35,000 damage. There was a panic among the one hundred inmates, but all were taken out safely.

Pierre, S. D., Jan. 19.—The Democrats today nominated John Bowler of Aberdeen for the United States senate.

St. Louis, Jan. 19.—The jury in the perjury trial of Charles E. Kelley, former speaker of the house of delegates, tonight brought in a sealed verdict. It will not be opened until morning.

Berlin, Jan. 19.—Baron Speck von Sternberg, German charge d'affaires at Washington, left Berlin for Hamburg this evening. He will sail for New York tomorrow.

Springfield, Jan. 19.—Attorney General Hamlin has decided to ask the legislature to pass a law to prohibit the certain so-called co-operative home building companies from doing business in the state.

Springfield, Ill., Jan. 19.—The Illinois & Black Diamond Railroad was incorporated today. The intention is to build from Peoria to Springfield, thence to Harrisburg, in all about 250 miles.

Scranton, Pa., Jan. 19.—The department stores of the Ambrose Muller estate and William Chappell burned tonight. The loss is \$2,000,000.

Grand Forks, N. D., Jan. 19.—A blizzard set in tonight and is raging throughout the west.

BRAIN-FOOD NONSENSE. Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Stafford Drug Co. Price 25c and 75c.

FREE VACCINATION. The board of health recommends that all

Nasal CATARRH

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 66 Warren Street, New York.

CHANGES APPROVED

AMENDED STREET CAR ORDINANCE ADOPTED LAST EVENING.

FURTHER SAFEGUARDS PROVIDED

PROVISION MADE FOR OBTAINING INTERURBAN SERVICE.

Result of Council's Work Acceptable to the Traction People, Who Will Carry Out Their Part of Agreement.

The council at its session last evening accepted the report of the joint committee to which was referred the ordinance extending the franchise of the Marquette City & Presque Isle Street Railway company so that it will run for thirty years from Jan. 1, 1903, and then proceeded to adopt the amended ordinance on its first reading.

The changes suggested by the committee were not many, nor were they particularly important. However, they are all designed to secure a further safeguarding of the interests of the city and its people and they are just as well a part of the ordinance.

President Clark of the traction company was at the meeting, and, although he was not heard in any address to the aldermen, he said that the ordinance as it now stands is satisfactory to the company, which will proceed to carry out its part of the agreement.

The Changes

The first change is noted in Section 4, which now reads:

"Cars will be run regularly upon the lines of such street railway at intervals of not less than thirty minutes during each day between the hours of 6 o'clock in the forenoon and ten o'clock in the evening, unless prevented by accident or other causes beyond reasonable control."

In its previous form this section did not specify how often the cars should be run, it only saying that they should be run regularly except "in the winter season."

It also gave the company the option of substituting other conveyances for the cars, should it see fit.

Section 10, which regulates fares, reads in the new ordinance as follows, there being some slight changes besides the addition, in whole, of the concluding two paragraphs:

"The fares for the carrying of passengers and their baggage upon said street railway and all lines thereof operated under this charter, shall be as follows: For each person over twelve years of age, for one continuous trip over the whole or any part of said lines, not to exceed five cents, or six such trips for not to exceed twenty-five cents, if paid in advance.

"For each child not over twelve years of age, for one such trip not to exceed three cents, or ten such trips for twenty-five cents if paid in advance.

"Children under five years of age shall be carried free when in charge of a passenger over twelve years of age."

"No fare shall be charged for the transportation of any member of the common council committee on streets, sewers and bridges, the street commissioner, or for any policeman or fireman of the city when on duty."

"Said parties and their assigns shall furnish and sell at convenient places tickets for travel over their lines, at the rates aforesaid, and, without extra charge, shall furnish passengers with all necessary transfer tickets necessary to make any of the trips aforesaid."

Interurban Service.

The most important change embodied in the ordinance reported by the committee is probably that found in Section 20, in which provision is made for securing an interurban service for the county when the time is ripe for the improvement.

The committee added a provision from the Lansing charter providing for just such a contingency at that party, and the section now reads:

"After July, 1915, said parties or their assigns shall not lay or extend tracks in any street, avenue or public place in the city, without having first obtained the consent of the common council thereto, anything contained in section one of said ordinance granting said charter, to the contrary notwithstanding.

"The city of Marquette reserves the right to grant any interurban electric railway to be constructed into said city at some future date, permission and authority to run and operate its cars over the tracks and right of way of said street railway, upon such interurban railway paying to such street railway such remuneration as may be agreed upon; and in case said railways are unable to agree upon the amount of such remuneration or as to the arrangements of the operation of the cars of such interurban railway and such street railway, such remuneration and arrangements shall be determined by a board of arbitrators, which board shall be composed of two persons who shall be appointed by said street railway and two persons who shall be appointed by such interurban railway. The four arbitrators so appointed shall choose a fifth and the board of arbitrators so formed shall prescribe such arrangements and determine the amount of the remuneration to be paid aforesaid, provided, that in case the four arbitrators shall fail to choose the said fifth arbitrator for a space of thirty days after said four have been selected, then at the expiration said thirty days, the common council shall select the fifth arbitrator, and the award of any three of said arbitrators so selected shall be binding on the parties.

"The privilege to operate interurban cars over the said tracks and right of way shall be so used as not to prevent said street railway from operating on its established schedule time."

This amended ordinance, through the

agreement of the traction people, will become operative immediately on its second reading.

ANNUAL MEETING.

Lake Shore Engine Works Names Officers and Directors.

The annual meeting of the Lake Shore Engine Works was held at the company's office yesterday, and the following directors were elected for the ensuing year: John M. Longyear, Peter White, F. H. Beagle, J. E. Ball, J. E. Sherman, Howard Greer, Jr., and Albert E. Holter.

The board of directors elected the following officers: President, F. H. Beagle; vice president, J. M. Longyear; treasurer, Peter White; secretary, J. E. Sherman; assistant secretary, J. F. Kern. The company has had a very satisfactory business the last year, and has plenty of work in sight for the future.

AT THE THEATER.

"Evil Eye" Tonight—"Liberty Bells" the Attraction Saturday Night.

At the opera house this evening "The Evil Eye" will be the attraction. As this extravaganza has been here before local theatergoers are too well acquainted with its nature to make extensive comment necessary. It is an elaborate trick, scenic and specialty production, in which the thread of story is the least important element. It details the wonderful adventures of Sid and Nod in a country only to be found in the world of the stage. There is much music and dancing in "The Evil Eye" and it is produced by a big company.

A sterling feature is offered in the re-appearance in this country, after a two years' absence, of The Great Phassey Troupe, which during its sojourn in Europe has been augmented to double its original size and now forms one of the largest and most expensive single novelty features ever brought to this country. It is under the direction of Alfred and Madam Phassey who control the fore-

most and largest school of dancing in England or the continent, and consists of sixteen clever and pretty English girls who excel in singing and dancing and who offer as a finale to their act a full brass band specialty.

The bill at the opera house Saturday night will be Harry E. Smith's new musical comedy "The Liberty Bells." The piece is presented in three acts. The scenes represent a dormitory in a young woman's seminary, a cooking school and a hotel in Florida. The first scene is said to have created a sensation, it representing twenty young girl students indulging in a clandestine midnight supper. All the girls are in retiring costumes, one wearing a suit of pink pajamas. This incident is handled so daintily and with such good judgment, that it has given offense to no one. On the contrary, it has been most highly praised by the New York newspapers for its purity and novelty. The twenty-two young women employed in this production are said to be good to look upon.

SOME REALIZING.

It Developed After a Strong Opening in Coppers.

Paine, Webber & Co. said of coppers: "The strong opening this morning invited realizing in coppers and prices ran off from the highest. A great many traders are understood to be of the opinion that this upward movement in coppers is of the same character as those little flurries of last year which lasted only a few days and departed leaving lower prices than before. The difference is that the metal market is in very much better shape now than it was at any time last year. The leading metal people expect copper to sell higher. If they are right, coppers are a buy on reactions."

Hayden, Stone & Co. wired the Laidley Commission company as follows: "The local market opened strong and active, but the advance did not hold, as many traders bought Saturday intending to sell at the opening. After the stock was taken the market rallied to the highest point on this swing, and there was excellent buying of Mohawk, Utah and Copper Range. The market was very broad. The \$2 assessment on Mohawk is payable today. There is no St. Mary's Land offered under 66 now. The market may hold at these prices for a while but as the public continues to be interested it will sell higher."

Wheat Advances. Laidley said of the Chicago markets: "Higher foreign markets brought a firm opening and buying of some kind as last week easily forced prices up a cent a bushel. There was a little realizing toward the close. The northwest receipts were a little heavier. The market has again broken into new territory, and while there is a great deal of wheat to be sold at eighty one that figure is reached we think it will sell higher."

"The corn market was almost featureless, easing off early, but the last figures were the same as Saturday night. The visible shows a slight increase, with receipts and estimates considerably heavier. The market has now declined

1 1/2 a bushel, while wheat has gone up 4c. We think that the break is about over and that corn can be bought for a good turn.

New York Strong and Dull.

Dick said of the New York market: "The market was strong but dull in the early trading today. Towards the close it weakened and broke on rumors of international complications. The feature was C. & O., in which heavy buying of good character caused a two point advance. There was no real news, but unfavorable Washington developments were predicted. Colorado Fuel was very weak and at the close Rock Island and Erie shares broke badly. The leading stocks declined a point from the top and closed weak. Heavy trading in Northern Securities was a feature on the curb. Money was 4 and 1/2 per cent. Exchange was stronger."

BOAT LINE MERGER ASSURED.

All Companies Except One Agree to Enter Lake Michigan Combine.

Chicago, Jan. 19.—Combination of the various Lake Michigan passenger and break-bulk steamship lines operating out of this city now appears to be reasonably assured. The promoters have been diligently at work on the plan since the close of the active passenger season, nearly four months ago. The deal has made such favorable progress since that time that those behind it are confident, despite failures of previous other attempts, that the scheme will this time be carried to successful consummation before the season of navigation opens this year. Options have been secured on all the lines save one, the Graham & Morton company being the last to fall in line. All options are understood to have been given extending to March 15.

President J. H. Graham of the Graham & Morton line agreed before leaving for California last week to put his boats into the combine at the same time consenting to take an active part in the management of the new trust, and to become its president if prevailed upon to

do so. The achievement of winning over Mr. Graham, who at first was strongly opposed to a merger of any kind, is considered by the promoters to mark its success. The company holding out is a representative line, but it is stated the consolidation will not be balked because of this and at a later date when they are convinced of the sincerity of other lines, it is hoped to get them in.

L. O. Goddard of this city is still managing the local end of the deal for the New York bond investment firm of Charles R. Flint & Co., who have arranged for the sale of the bonds of the new company, which will be either an Indiana or New Jersey corporation. The proposed capital of the company will be nearer \$7,000,000 than \$5,000,000, as at first reported, the increase being necessitated to enable the purchase of valuable docks at lower Lake Michigan and Lake Superior ports.

Early next month accountants of the New York Audit company will come to this city to examine the books of the various steamship companies, and upon their subsequent report the value of the properties will be based, and purchases made accordingly. The contracts involved in the transfer will include specific agreements that the seller shall not engage in the steamboat business on Lake Michigan, again for a period of years.

Will Mean Great Saving. Under a merger there is not only a great saving to be made in operating expenses by the elimination of excessive terminal facilities, many of which are leased at high rentals, but also a greatly reduced salary roll in clerical and managerial forces would be effected. More over, vesselmen contend that freight rates can be fixed along lines of mutual benefit to all concerned. The shipper will know that his competitor is not getting a rebate on charges for transportation of his goods and demoralization of freight and passenger rates will be a thing of the past.

Another that will be the means of building up all classes of business will be a plan to regulate the carrying of freight. Slow boats will be assigned to that traffic and the fast ones to the passenger travel exclusively. By these means promoters of the combination aver that the business can be handled expeditiously and to the great convenience of both shippers of freight and the traveling public. There are more than enough boats to care for even a larger business than the lines have been getting separately and under one management they can be distributed to better advantage.

Best for your stomach, liver, kidneys, and bowels; soothes and cleanses every organ; makes a new being of you, and life worth living. Rocky Mountain Tea. The Stafford Drug Co.

Delicate, dainty, delicious, Malted Milk Biscuit.

Don't fail to attend the auction sale of clothing at the Union clothing store, next to Freeman's livery, every evening this month. (1-15-19)

Perfection of baking, Malted Milk Biscuit.

A Most Delicious Dessert

Shredded Whole Wheat Biscuit is made in the most hygienic and scientific food laboratory in the world. The wheat is spun into light shreds, containing thousands of open pores and is not crushed flat and dense as in the case of other foods. These pores absorb the digestive juices and provide far greater surface for their action than is given by any other food.

The following simple "course before coffee" is much in vogue with club men everywhere. The simplicity of preparation and the little cost, together with the delicious taste of the compotes makes this dessert in rare favor in the home.

Use the Preserves you have in the house and

SHREDDED WHOLE WHEAT BISCUIT

Split and slightly toast the Biscuit, then serve with jam or preserved berries or plums or jellies. Simple, isn't it? Your verdict will be

"Simply Delicious"

For Shortcake—With sharp knife halve the SHREDDED WHOLE WHEAT BISCUIT lengthwise; prepare simplop as for sauce (or bananas or mixed fruit), and set aside. When serving, arrange halves in layers covered with fruit and add sugar and whipped cream.

SHREDDED WHOLE WHEAT BISCUIT is sold by all grocers.

CANCER IS CURED BY X-RAY.

Claim Made by Authorities of the Boston City Hospital.

Boston, Jan. 19.—The authorities of the Boston city hospital announce today that they have cured a number of cases of cancer recently by the use of the X-ray. They also have found a means of curing bad cases of eczema. Several of the cures for cancerous growths were effected after the use of the knife had failed. Among the recent cases cited was a child suffering from eczema on the face, arms and legs, who after a few exposures to the X-ray of about ten minutes each showed wonderful improvement and was soon after entirely healed.

Another case was a middle-aged Boston business man, who was suffering from eczema about the thighs, who was cured after a half dozen treatments.

Another case was that of a woman who had a cancer in her breast and who had been operated upon only to have the cancerous growth come out again. She was considered an almost hopeless case by the surgeons, but after five treatments with the X-ray the cancerous growth softened and in a few weeks had disappeared and the woman is now in fine health.

Still another case was that of a girl who had two cancers on her neck and who had undergone two surgical operations without avail. She was cured in eight weeks.

GOING OUT OF BUSINESS. We wish to announce that we are going out of the grocery business. Our stock will be sold at least cost price, at retail, from now until Feb. 1. KREGG BROS., Mack Building, Washington street. (1-14-19)

Every cough means tearing down of tissues and the accumulation of waste products in the system. The morbid state of the membranes of the air passages in various chronic throat and bronchial troubles and is the favorite condition for breeding the germs of consumption. It is serious; don't trifle with it, and don't waste time and money on inefficient remedies. Our White Pine Cough Syrup cur-sectually and as promptly as an efficient cure can that removes the cause. Cheapest because best. Price 25 and 50 cents.

Mrs. Hughson, of Chicago, whose letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was flimsy, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."

Mrs. M. E. HUGHSON, 347 East Ohio St., Chicago, Ill. Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements. Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started. The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone. More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. Her advice costs you nothing, but it may mean life or happiness or both.

Mrs. Lelah Stowell, 177 Wellington St., Kingston, Ont., writes: "DEAR MRS. PINKHAM:—You are indeed a godsend to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony. I suffered for years with bearing-down pains, womb trouble, nervousness, and excruciating headache, but a few bottles of Lydia E. Pinkham's Vegetable Compound made life look new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health."

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, etc. It dissolves and expels tumors from the uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Golden State Limited. Leave Chicago this evening on the El Paso-Rock Island route and in less than three days you will arrive at Los Angeles. An hour later you can be on the shores of the Pacific, listening to the roar of the surf, drinking in the wine-like air; the bluest of blue skies above you and the most charming landscapes in America all about you. This, mind you, at a time of year when the thermometer at home is way below zero and the newspapers are filled with details of the "greatest snow-storm in years."

Ishpeming and its Environs.

JUDGMENT OF \$100. Ed Nelson Wins His Suit Against Bell Company—It Will Be Appealed. ENTERTAINMENT ANNOUNCED FOR CONVENT HALL TAKES PLACE AT OPERA HOUSE.

The young people of St. John's church congregation, who will give an entertainment this evening for the benefit of the sisters of the convent school, have engaged the opera house and the program will be rendered there instead of at the convent hall, as originally announced. The prices of admission will be fifteen cents for adults and ten cents for children, without extra charge for reserved seats. The entertainment will begin at 8:15 o'clock sharp. Following is the program:

- Remarks: Rev. M. Kehoe. Tenor Solo: Jas. Downing. Banjo Solo: Ernest Ludlow. Recitation: P. J. McGinty. Bass Solo: F. C. Bennett. Guitar and Mandolin: C. Carey and E. Senobb. Vocal Solo: Miss Agnes Flannigan. Intermission: Thomas Sparrow. Monologue: Thomas Devine. Step Dance: Rachel and Reuben. Master James and John White. Flute Solo: Michael Cooney. Soprano Solo: Miss Olga Kellgren. Reading: French Canadian Dialect. Rev. M. Kehoe. Tenor Solo: Arsene Perrault. Piano Duet: Agnes Hughes and Esther Cronin.

CHANGE IN TIME TABLE.

A number of changes have been made in the South Shore time table. The train for Marquette which formerly arrived at 12:25 p. m. is now due at 12:20. The time of the arrival of the night train from Marquette has been changed from 11:30 to 11:50 p. m., and the early morning train which used to get here at 4:10 now comes at 4:07. These changes went into effect yesterday morning at 1 o'clock. There were a number of thoroughly exasperated people around the depot shortly after the train for Marquette pulled out yesterday noon. One fair dandy ran for a block to catch it and when she saw the rear end of the last coach vanishing in the dim distance toward Negaunee she was awfully put out.

ISHPEMING IN BRIEF.

George F. Gallagher was here from Menominee Sunday. John Burder of Calumet spent Sunday here with his parents. George Voyer and wife spent Sunday in Republic visiting friends. The tourist club will give a hop in Anderson's Hall Saturday night, Feb. 7. Presiding Elder Thompson preached for the Methodist congregation Sunday morning. "The Rivals" was played before a packed house last night and gave perfect satisfaction. J. O. Jackson of Houghton and Leo M. Geismar of Chatham were Ishpeming visitors yesterday. The temperature took a drop Sunday night. Twelve degrees was the record of the thermometer early yesterday morning. John Quayle, formerly bookkeeper at the Ishpeming cooperative store, has accepted a similar position at the Finnish cooperative store. Invitations have been issued for the marriage of William Richards and Beatrice Mutton, which will take place Thursday, Jan. 29. The Snowshoe club took a tramp last night. The members gathered at the club house afterwards, played indoor baseball and partook of a light lunch. Charles Crabb is preparing to open a saloon in the opera house block. Painters and paperhangers now have possession of the place and are decorating it in a very tasty manner. Dr. T. A. Felch went to Milwaukee Sunday night to witness an operation upon Mrs. Medlyn, who is taking treatment there in a private sanitarium. He is expected to return this morning. The committee of aldermen who are considering the revisions to the city charter will meet tonight and take action on the various matters they have under consideration. They will also decide upon a date for a special meeting of the council to ratify their decision. The Woodmen have organized an indoor baseball team and will soon be ready to meet other teams. They have a strong battery, with Tom Dyer of the Printers' team in the box and Sib Larson catcher. Tonight the barbers will play the firemen at Negaunee with the above battery.

SELLING PICTURES.

A number of young ladies of the Methodist Sunday school have taken a novel means to raise money for the new church. The Sunday school has pledged itself to contribute a certain amount toward the building fund and the club to which these young people belong have decided to raise their quota by selling photographs of the ceremony of laying the cornerstone which took place last August. The pictures of the various people who took prominent parts in the service stand out prominently. The photograph is an unusually fine one and sells for fifteen cents. The following are the names of the members of the class: Mabel Walters, Mabel Crullin, Susie Austin, Ethel Northey, Ethel Williams, Emily Williams, Sarah Carlyle, Bertha Eddy, Bessie James, Edith Mudge.

SWEDISH LUTHERAN MEETING.

Delegates from the various Swedish Lutheran churches in this district elected the following officers at their recent meeting: E. A. Linder, Marquette, president; E. V. Isaacson, Ishpeming, vice president; A. S. Hamilton, Manistique, secretary; A. E. Monell, Negaunee, treasurer.

HEADS SHOULD NEVER ACHE. Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va.—she writes "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from for two years." Cure Headache, Constipation, Biliousness. 25c at Stafford's drug store.

H. C. Cain and George Trevasik, Voelker block, Ishpeming, are authorized to take subscriptions for the Marquette & Arizona Mining Co. stock. (12-19-14)

KRUPP ALWAYS HUNGRY. With Income of \$3,500,000 He Never Had Enough to Eat.

Interesting reminiscences of the late Frederic Alfred Krupp have recently been made public by a friend who passed much time with him on the island of Capri. Much of his time there was spent in making trips on the water to continue the deep sea investigations in which he was deeply interested. His invariable companions were a noted German scientist who had a villa at Capri, and a young instructor from the University of Krakau, in which Herr Krupp took a great interest and for whose future he had made every arrangement.

He was quite inaccessible to the guests at the Capri hotels who sought him out as a celebrity. So the foreign colony held him to be disagreeable, which was a wholly unjust verdict. In reality Herr Krupp was a moderate, simple, almost shy man, who allowed others to follow their own ways of life and without pretense asked for himself merely the same right. One of the greatest paradoxes in the life of the great iron master was the fact that in spite of his fortune of \$30,000,000 and his yearly income of \$3,500,000, he nearly starved. He ate according to a most rigid Schweninger regime, taking barely enough to keep himself alive, and the poorest laborer that he employed enjoyed more comforts of the table than he. Wine he never touched under any circumstances.

During his whole life his health was poor and that, combined with his great business responsibilities, gave him at forty-five something of the look of an old man. And he always looked more than his age. He was simple and direct in conversation and the requirements of his business led him to express as much as possible in the fewest words. His spoken English only moderately well, although he knew the language as well as his own.

He was absorbed in all works of art and music and his generous encouragement to the artists whose pictures he bought helped many of them on their career. He was especially liberal to the artists at Capri, and "Sold to Krupp" was a familiar legend in the windows of the picture shops in spite of his efforts to put an end to this harmless advertisement.

He also took a great interest in the music of the islanders and used to pay the natives to sing their folk songs in the hotel for the enjoyment of himself and the other guests. One year he took back with him to Germany a house painter and a mason to sing for his guests at home the songs of the natives. He also took with him to Essen, in order that he might undergo the Schweninger cure, the keeper of one of the hotels frequented by the natives. Many of the inhabitants of Capri are said to have reason to remember his generosity, which was frequently of the most unostentatious, even secretive character. And his public benevolence was enough to make him loved by all the island people, whatever the feelings of the foreign colony toward him may have been.—New York Sun.

A CARD. We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. Stafford Drug Co. Desjardins' Pharmacy, The People's Drug Store. (11-16-m-o)

JUST ONE-HALF OFF FOR CASH!

The goods offered are this last fall's purchases and are new, clean and up-to-date. It's CASH we want, and not the goods.

J. Sellwood & Co

SURPRISED THE GERMANS. How an American Boy Got Cheers for the Stars and Stripes.

Jacop Scholl, a son of Matt Scholl of Kansas City, Kas., returned home recently after serving two years with the Ninth cavalry. Scholl saw fighting in the Philippines and in China. In China he fought with the allied forces, and he has many interesting stories of the war in the Orient. He is of German descent, and he speaks the language fluently. In the advance on Peking, the Ninth cavalry was preceded by a regiment of the German infantry. The cavalry overtook the Germans, whom they found resting by the side of a hill, all tired out. Seeing the tired German soldiers, Scholl began to sing a well known German song in the mother tongue. The German soldiers recognized the song instantly, and every man in the regiment looked wonderingly for the American who sang so well one of the songs of their own country. When they espied him, every soldier arose to his feet and gave three rousing cheers for the stars and stripes. It was a most affecting scene, and one that officers of the Ninth say they will never forget.—Kansas City Journal.

The Inward Effects of humors are worse than the outward. They endanger the whole system. Hood's Sarsaparilla eradicates all humors, cures all their inward and outward effects. It's the great alterative and tonic, whose merit has been everywhere established. 7

TO REPAIR THE SHAFT.

Work on the Timbering at the Lucy Will Proceed in a Few Days.

The sheave has been placed in the new shaft house at the Lucy and new timbers will soon be lowered from it for repairing the shaft.

LOCAL LACONICS.

J. A. Cochran and C. S. Arge of Baraga were in the city Sunday.

Rev. Childs of Iron Mountain filled the pulpit at the Episcopal church Sunday.

William Pascoe, a diamond drill operator at Champion, was home over Sunday.

The infant son of Able Huttunen died Saturday. The funeral took place yesterday morning at 10:30.

Edward Brant has resigned his position at John Wasmuth's saloon. He is undecided as to his future occupation.

Joseph Cyr, who has been employed in Peter Cheverette's blacksmith shop, has gone to Gladstone to take a similar position there.

William Lucas and Spot Tourville came home from Houghton Sunday after several months absence. They do not expect to return.

Mrs. Charles Carr of Burlington, Ia., arrived here Sunday to visit her parents, Mr. and Mrs. Michael Sullivan. Her visit is occasioned by the ill health of her father.

Two safe keys were picked up on the street Sunday. They are in the hands of Marshal Gribble who will return them to the owner when he applies and establishes his claim to them.

Dick Stevens, who has been doing mason work at Champion for a number of months, was home Sunday. He will soon finish the work that he is engaged upon and will then return to stay.

The professional men are loud in their condemnation of the drummers and say that the latter got the game Saturday night only by an outrageous steal. It is likely that the traveling men will meet with a cool reception that the frigid atmosphere of the rink will not be wholly responsible for when they come here again to play.

Some of the players whose scrappy tendencies rose to the highest pitch are the ones who have the most to say about the hot headiness of the traveling men. It was an unfortunate occurrence all through and the sooner the differences are forgotten the better it will be for the members of both teams.

The league has been very successful and has aroused a good deal of healthful interest in the sport and it would be truly regrettable to have the association disrupted now.

HIGH TRIBUTE TO THE ARMY.

After making a thorough investigation of the prevailing condition of affairs in the Philippine Islands during the past year, the inspector general of the army, in his report pays a high tribute to the courage and kindness with which military operations have been carried on.

The highest tribute is also paid to the celebrated Hostetter's Stomach Bitters by people all over this broad land, because of its reliability in cases of sick headache, vomiting, heartburn, indigestion, dyspepsia, liver complaints or malaria, fever and ague.

These people having once tried it and proved its value will not accept anything else. If you are a sufferer from any stomach, liver or kidney complaint, you need the Bitters at once. It will surely do you good. Your druggist will supply you with the genuine.

A DIPLOMATIC EXPLANATION.

"But I tell you," said the big, brawny dealer, "coal is very scarce."

"Nonsense!" the little man answered. "There is coal enough. You fellows only tell us that to make us pay the price."

"I'll punch your head if you call me a liar." The dealer started threateningly toward him.

"No, no," said the little man, backing away. "You don't understand me. I only mean that out of consideration for our comfort you are giving us hot air."

AS THE STORK SEES IT.

First Stork—I just left a baby at that millionaire's house.

Second Stork—Funny thing, these human beings. I've just delivered three to one woman in a tenement, and her husband's out of work and they haven't a cent.—Brooklyn Life.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. P. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

C. H. Jennings, Negaunee, is authorized to take subscriptions for the Marquette & Arizona Mining stock. (12-19-01)

ONE HUNDRED DOLLARS A BOX

is the value H. A. Tisdale, Summerton, S. C., places on DeWitt's Witch Hazel Salve. He says: "I had the piles for twenty years. I tried many doctors and medicines, but all failed except DeWitt's Witch Hazel Salve. It cured me. It is a combination of the best ingredients of Witch Hazel with anti-irritants and emollients; relieves and permanently cures blind, bleeding itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Fains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-worked in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail.

Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SOME NEGRO JOURNALISM.

Excerpts from the Columns of "The Guide" of Guthrie, Okla.

The Guide of Guthrie says that it is "the only negro newspaper in Oklahoma that does all its own work by negro printers."

"When you give us your job work it is done by a colored man, but when you give it to the other fellow; the white do the work and the fellow you give it to gets a per cent. Why not give it to us or the white man direct?"

"Why deal with a middle man who make your work and prices uncertain."

The artistic and original way in which the editor manages his paper will be seen from the following clipping. He handles a new item this way:

"A Terrible Condition of Affairs—We are told by Mr. — of Kansas who is touring the country lecturing on the progress of the Negro, that a negro can not stop in Oklahoma any place West of Andarka. If a negro have a ticket for any place West of Andarka the conductor or some one for him will telegram to the people of that place and they will gather there with their guns and winchesters and won't allow him to get off. He says that one was on the train with him that wanted to stop at Mangum, Oklahoma, and more than 150 armed men met him at the depot and wouldn't allow him to get off the train and kept him there until the train returned."

"Cannot it be possible that these outrages are being perpetrated weekly and the territory authorities know nothing of it, and it have never reached the ear of any of these vigilant U. S. Marshals? are can it be they are winking at these outrages. The government at Washington should be made acquainted with these dastard outrages."

He has a happy way of making wedding announcements:

"Guthrie Girls in Mourning—Mr. George D. Johnson, the well known politician of the 5th ward, and Miss Debbie Hyder, of Oklahoma City, were united in the holy bonds of matrimony last Friday night at Oklahoma City, Rev. J. T. White officiating. Mr. Johnson reports a good time, such never witnessed before in his life, he only wish he could be as happy always as he was last Friday evening in Oklahoma City. Miss Debbie's gain is the Guthrie girls' loss."

He agreeably blends the sorrows and pleasures of life:

"Mr. K. W. Preston, who fell dead last week from heart failure, was a member in good standing of Eureka lodge A. F. and A. M., and was laid to rest by his lodge he leaves a widow:

"Call not back the dear departed. Anchored safe where storms are o'er. On the border land we left him. Soon to meet and part no more."

"Prof. A. B. Whitty of Lanston will take unto himself a better half this week."

With boldness he decides the statehood question: Everybody seem to be stirred up over statehood and talking of conventions. The Guide believes it time and money thrown away holding conventions and sending delegates to Washington. Whilst we are not a prophet, or the son of a prophet, yet we think we see the designs on the checker-board as played by the senators in Washington that the Sun of Hope for statehood has gone down, and the senators are just playing to a full house to let them down easy. It will be a great while before the east will allow the west to have six new United States senators."

His editorial comment on the legislature is: "The legislature will meet in less than four weeks. Will the Logan County negro get it in the neck, as heretofore? We will wait and see. The lower house of legislature is Democratic, the senate is Republican. We will watch both branches with a watchful eye and put up treasures for two years hence."

He supports Roosevelt: "President Roosevelt is a stemwinder. He wound up the lily whistles of the southern whites. How unreasonable the white men are of South Carolina. They are asking the president to turn down Dr. Crum, simply because he is a negro. But the president thinks that merit ought to be the standard. It reduced the swelling and inflammation, cut the mucus and shortly the child was resting easy and speedily recovered. It cures Coughs, Colds, La Grippe, and all Throat and Lung troubles. One Minute Cough Cure lingers in the throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. H. Harwood, Ishpeming; The Stafford Drug Co., Marquette."

The Stafford Drug Co. guarantees every bottle of Chamberlain's Cough Remedy and will refund the money to anyone who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for the gripple, coughs, colds, croup and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia.

CLOTHES AND THE MAN. One's Apparel Has Considerable Effect on Wearers, It Is Said. "Clothes may not make the man," said an observant lawyer the other day, "but they have considerable effect upon the wearer." "There is a man who I meet nearly every day on Ann street at the noon hour. He usually wears a rusty brown suit and a derby hat that matches it in rustiness, and he slouches along, dodging right and left as if to avoid collision with better-dressed men." "But often on bright, clear days the man appears in a broadcloth, with patent leathers and a silk tie, walks firmly with head erect, and lets the others do the dodging as he keeps to the middle of the narrow Ann street sidewalk." "I have often seen him in his shabby garb step out into the street to let others pass, but the other day, when he was dressed up, a youth who got in his path was waved aside with a pompous but not ill-humored, "Let me pass, my lad."—New York Times.

Upper Peninsula Brewing Co., Marquette, Mich.

Sour Stomach. No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Kodol DIGESTS WHAT YOU EAT. Gives Health to the Sick and Strength to the Weak. Bottles only, \$1.00. See holding 2 1/2 times the trial size, which sells for 50c. Prepared by Dr. C. DeWitt & Co., Chicago.

NEW ORPHAN HOME

CATHOLICS WILL BUILD ONE HERE
COSTING \$50,000.

SUITABLE SITE ALREADY PURCHASED

DEED RECORDING THE TRANSACTION FILED YESTERDAY.

Building Will Be Erected in North Marquette on Forty to the West of the Normal's Property.

Yesterday Bishop Frederick Eis, of the diocese of Sault Ste. Marie and Marquette, commemorated the thirty-fifth anniversary of the death of Bishop Baraga, the builder of the first orphan asylum on the upper peninsula, by purchasing a fine site in North Marquette for the erection of a diocesan institution for the care of parentless and friendless children.

The deed was filed yesterday afternoon. It transfers from the Marquette Land association, Limited, to the bishop the southwest quarter of the northwest quarter of section fourteen township forty-eight, range twenty-five, the forty adjoining the Normal property immediately on the west.

On this site the diocese will build an institution for the care of orphans that will cost in the neighborhood of \$50,000, and which will be the finest institution of the kind north of the Straits.

The erection of the building will be proceeded with as soon as possible, and it is probable that something will be done toward it this year. The plans have not yet been ordered, but it has been definitely decided to build.

For some time past it has been understood that it was Bishop Eis' intention to erect the proposed institution in Marquette, and the announcement of his final and definite decision will cause undisguised satisfaction.

There will be a disposition everywhere to congratulate the bishop on his wise move, which will certainly mean much for the welfare of his diocese.

Joseph co-operated with Father Terhorst in his good work and they deserve lasting gratitude for the sacrifices they have made for love of the poor waifs.

This work has been very valuable, and at other points in the diocese other similar effort did much to save small children, cast out on the world, for good and useful lives, but the time in the growth of the importance and size of the diocese has now come when it is imperative that some large and centrally located home shall be built to secure the harboring and education of these waifs.

The Baraga institution has done noble work, struggling along under many handicaps and difficulties, but now it is time that it receives assistance from another and stronger asylum.

The expense of building the proposed institution, which will be made a great credit to the Catholics of the upper peninsula, will be borne by the diocese. Already some princely donations have been promised, and so free has been the response to all former appeals for aid for the orphans that it is expected that the subscriptions to the building fund will be many and generous.

No better site could have been found in Marquette county for the proposed asylum than that just purchased by Bishop Eis. It is far enough away from the city to secure the atmosphere of peace and quiet so desirable for an institution of the kind and yet it is near enough to secure all the city's advantages.

Part of the site is a continuation of the ridge on which the Normal is located, and it is probable that the asylum will be built on this elevation, whence it will command a fine and sweeping view of the lake, to the north and east.

Furthermore the site lies in the direction in which Marquette is growing and its value will doubtless increase as the industrial development to the north becomes more pronounced.

THE SECRET OF LONG LIFE.
Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs.

SNOWSHOE CLUB TRAMP.

Send in Your Name if You Are Going Wednesday Night.

The present condition of the snow is excellent for snowshoeing, and while there is not as much timber on the north and west sides of the city as there used to be, and there will very soon be less, still there is some, and an enjoyable tramp may yet be had.

By the way, if you are going with the Snowshoe club on Wednesday evening and have not yet telephoned Charles McCabe, don't wait another minute; a notice that you are, means an order for another stew and steak and all that goes with them, and the chef at the P. M. B. H. must have a little time to prepare for you.

CITY BREVITIES.

Weather forecast: Warmer and snow. Yesterday's temperature: 7 a. m., 6 degrees; noon, 18 degrees; 7 p. m., 20 degrees; maximum, 22 degrees; minimum, 1 degree.

Charles Retaille arrived home last evening from a couple of days spent at Calumet.

William Peters and M. H. Crokers of Ishpeming were down on legal business yesterday.

The W. C. T. U. will meet this afternoon at 2:30 o'clock with Mrs. James A. Pearce, 341 Bluff street.

The fixtures for Werner's new store are being received and put in place. The firm will now be able to occupy the building in a few days.

Among the new corporations to be chartered at Lansing last week was the Marquette Woodware company. Its capitalization is \$10,000.

A chimney fire on Bluff street called out the department about 10 o'clock last night. The alarm created some little excitement owing to the strong gale blowing.

Powell & Mitchell, the Marquette contractors, have been awarded a government contract to build an extension of 512 lineal feet to the east pier of the Grand Marais harbor of refuge. Their bid, the lowest, was \$52,721.79.

Miss Irene Johnson, the male quartet of the high school and Mrs. Brunner gave an interesting concert, arranged by Rev. E. A. Eliott, at the branch of state prison last evening. The several numbers were enthusiastically applauded.

Last evening the council decided to have an electrical clock installed in the city hall. The hall has been without a clock for all these years, with the exception of an antiquated ticker in Recorder Donovan's office. The electric clock will be located in the hall.

This will not be the case when the chemical plant is in operation in conjunction with the stack, as then the smoke will be carefully saved and its valuable constituent parts utilized.

The cold spell continued yesterday and the temperatures recorded in the early morning were among the lowest experienced this year. However, the winter of 1902-03 has not as yet been notable for extremely cold weather. The record is not seriously threatened, although there are still several weeks to come in which the mercury may slide way down below the zero point.

The street committee recommended at the council meeting last evening that a light be placed at the corner of Washington and Seventh streets, a petition from citizens in that neighborhood having been received. The recommendation was approved. The committee also recommended that a light be placed at the corner of Third street and Hewitt avenue, the street railway making a dangerous turn at this point. This recommendation was referred.

Frank Fassbender, residing on a farm near Baneroff and an old resident of this section, died yesterday morning from cancer. He was aged seventy-five and aside from his wife is survived by six sons and one daughter. Mrs. John C. Fassbender, Sr., is a sister and Barth Fassbender of Milwaukee and Jacob Fassbender are brothers of the deceased. The funeral will be held Wednesday morning at 10 o'clock from St. Peter's cathedral to Holy Cross cemetery.

The baseball fans are manifesting considerable interest in the two games to be played at the Casino this week between the Calumet city team and the Maccabees. The contests will take place on Thursday and Friday evenings, and while some of the team's supporters hardly expect it the Maccabees are confident of winning both of them. They realize they will bump up against a hard proposition, especially if Wagner is in the box for the visitors, but they think that as they are much stronger than last season, when they held the Calumet men to close scores, their chances of victory are very favorable.

Large crowds are expected to witness each game, and some fine ball playing is promised in return. It is expected there will be a good attendance from up the road.

Not a dollar need be paid until you're cured. Get a package of Rocky Mountain Tea. If it fails to make you well, and keep you well, it don't cost a cent. 35 cents. The Stafford Drug Co.

Suffered for Over Ten Years. Cured by Dr. Iman's Ladies' Restorative

TALMADGE, MICH. THE IMAN MED. CO., Grand Rapids, Mich.

Dear Doctor: I have been thinking for some time that I ought to write you a few words of praise for your wonderful LADIES RESTORATIVE. It did me worlds of good. I suffered such untold agonies with my menses, and with female complaints, for over ten years, that death would have been a relief to me. I took doctors' medicine and several kinds of patent medicine, but they all availed me nothing. I am so thankful that I learned of DR. IMAN'S LADIES' RESTORATIVE that I want to recommend it to every lady that is suffering from those terrible complaints. Any one wishing to know more about it may address, MRS. L. MORSE, Talmadge, Mich.
