OFF ON LONG TOUR
PRESIDENT LEAVES FOR A TRIP OF 14,000 MILES.
WILL BE GONE TWO MONTHS
VISIT WILL EXTEND TO TWENTY-TWO STATES.
At Harrisburg a Great Crowd Greeted Him and in the Alleghenies He Rides in Engine Cab—Is Due in Chicago Today.

Washington, April 1.—President Roosevelt and party left Washington for their western tour at 9:05 o'clock this morning.
Harrisburg, Pa., April 1.—President Roosevelt's train arrived here at 1:10 o'clock p. m. and remained here for 15 minutes. The run from Washington to Harrisburg was uneventful. The president was greeted here by a great crowd, including members of the Pennsylvania legislature and the city officials. In response to addresses of welcome, the president spoke for about five minutes upon the prosperity of the state and country.
Has Ride in Locomotive Cab.

Pittsburg, April 1.—President Roosevelt viewed the scenery around the famous horseshoe curve this afternoon from a seat in the cab of a locomotive attached to his special train, and after a ride of about fifty miles expressed himself delighted with the experience. When his special reached Altoona at 4:50 o'clock this afternoon the president alighted from his car and walked rapidly to the front of the train, where he shook hands with the crews of both locomotives that were to pull the train over the Allegheny mountains. He then climbed into the cab of the rear engine. As he took his seat the president remarked that, being a member of the Brotherhood of Locomotive Firemen, he thought he ought to take his turn at feeding the furnace, but he did not do so. When Galitzin, the crest of the mountains, was reached, the front locomotive was detached and the remainder of the run was made with one engine. There the president climbed down from his lofty seat and after again shaking hands with the engineers and firemen went back to his car dust and grimy, but enthusiastic over his novel ride. Outside of his ride on the engine the president passed an uneventful day, devoting a large part of it to reading. Brief stops were made at Baltimore, Harrisburg and Altoona, but only one place did the president make a speech. A large crowd met his train at Harrisburg, and although no speech was scheduled for this place, the president appeared on the platform at the rear end of his car and delivered a short address which was received with many cheers. In part he said:

"I go away from Washington with a light heart, very largely because of the admirable work done by the gentlemen on the anthracite strike commission. And surely, no publication by any association designed purely to teach a moral lesson to our people can be better worth reading and learning than the document containing the conclusions of those men; and if, as a people, we will take to heart the lessons taught therein, it will be better for us all."
Tour Will Be a Record-Breaker.
The tour of President Roosevelt is to be a record breaker. The distance to be traveled amounts to about 14,000 miles. As the trip is to continue for sixty-six days, more than 200 miles must be covered each day. The actual traveling, however, will be done in about forty days, or at the rate of about 350 miles a day, including the many stops. This is said to be the longest tour both in time and distance ever undertaken by a president of the United States. President McKinley's tour to the Pacific coast, which was cut short by Mrs. McKinley's illness, was planned at about 10,000 miles. In 1902 Mr. Roosevelt made a campaign swing around-the-circle which lasted sixty-three days and embraced about 35,000 miles of travel. But Mr. Roosevelt was not a president then.
One thing the president insists upon, and that is that there are to be no spectacular features in connection with this trip, which will be made through twenty-two states and territories. He doesn't want to be in the center of the stage all the time. If he could have his way about it he would go alone without newspaper men or photographers. "I want to get out in the woods and the mountains and live in the open air and have a little genuine rest and a good time," says Mr. Roosevelt.
However, even the president of the United States cannot have his own way about newspaper men and photographers and the public has its rights, and the press must serve the public, so there will be newspaper correspondents on the train and a whole battery of photographic cameras.
While on this 14,000 miles tour of the country President Roosevelt and his party will use from first to last a magnificent special train of six cars provided by the Pennsylvania Railroad company and the Pullman people. Barring accident, the same cars will be used throughout the entire journey. The entire train is composed of: The president's private car, a compartment sleeping car, a Pullman sleeper, a dining car, a combination smoking and baggage car, one full baggage car.
In each state about half a dozen of the prominent local newspapers will be permitted to send a man on the train till it passes into the next state. At Cincinnati the president will put on

his corduroys and go out to sleep on the ground and have a gunless look at the elk, bear, deer and other game in the Yellowstone for a fortnight. Thence he will go down through Nebraska to St. Louis, where he will shake the hand of the only living ex-president of the United States—Grover Cleveland.
GRAVE REVOLT IN ALBANIA.
Heavy Loss Inflicted by Turkish Troops in Two Days' Fighting.
Constantinople, April 1.—Details of the disturbances in north Albania show that the revolt which has broken out there against the reform scheme of the powers is a serious affair. There was serious fighting Wednesday and Thursday at Mirovitz in which the Albanians were repulsed by the Turkish garrison with great loss.
Reinforcements by Special Train.
Salonica, European Turkey, April 1.—Special trains with troops on board are proceeding from Monastir and other places to Albania, where severe fighting recently broke out. It is reported here that there were two hundred casualties. Sixteen battalions of the Anatolian Redifs have been ordered to Salonica.
Vienna, April 1.—The rebellion in Macedonia is considered here to have begun already, and the situation is expected to become worse. The Albanian movement is regarded as especially dangerous because the sultan will hardly dare to suppress it, he being surrounded by Albanian guards at the Yildizlik. It is, therefore, thought that the reform plan will remain a dead letter in old Serbia.
The report is confirmed that M. St. Cherhina, Russian consul at Mitrovitz, was shot by Albanian soldiers. It is estimated there are twenty thousand Albanians under arms, and a general rising would be extremely serious.
It is stated that the king of Greece has abandoned his intended visit to the Danish court at Copenhagen on account of the threatening situation in the Balkans.

KING EDWARD MAY VISIT POPE.
Is Coming to Rome and Hope of the "Vatican Runs High."
Rome, April 1.—Although no official confirmation has yet been received, the news that King Edward will visit Rome at the end of this month has produced a great impression at the Vatican. The ceremonial initiated by the German emperor forms a precedent for the proposal which may be adopted on the king's visit. The rule is for non-Catholic sovereigns to leave the quiral and go to the residence of their representative at the holy see, whence, from neutral ground, they can proceed to the Vatican. King Edward, however, has no representative at the holy see, but all the diplomacy of the Vatican is being brought into play to secure an interview between the king and the pope. It is remembered that the pope sent a special mission to the accession of King Edward, which was accepted on the king's behalf by the Earl of Denbigh as a special envoy to the papal palace.

CHICAGO ALDERMAN ACCUSED.
Former Partner of E. J. Novak Charges Him With Accepting Bribes.
Chicago, April 1.—Edward J. Novak, a member of the city council, was today accused of corruption and misuse of power as a state legislator and city councilman. The accusation was made in the hearing of a libel suit brought by Novak against August Geringer, editor of a Bohemian newspaper. John Panoch, former partner of the alderman, made the charge against Novak from the witness stand. "Novak told me he secured \$7,000 in the legislature," said Panoch. "He said he got \$6,000 on one bill, \$700 for voting for another and compensation in connection with a third measure. He told me that he made \$7,000 above his campaign expenses." Panoch also said that Novak told him (Novak) had received \$2,500, besides some stock, for voting for an ordinance that passed by the city council.

DEATH IN BIG FOUR WRECK.
North Manchester, Ind., April 1.—A Big Four passenger train crashed here on into a southbound freight at full speed north of here tonight. Engineer Hays was instantly killed and brakeman Will Hagen is missing. Baggage man Sevey was probably fatally injured. The engines were almost demolished. Several passengers were injured.
RAIL MILL ON AMERICAN PLAN.
Berlin, April 1.—An expenditure of five million dollars has been decided on by the Krupp company in extending its works, chiefly for erecting a great rail mill at Reinhausen according to the American system. Ores will be unloaded from boats to furnaces, coming out finished rails without cooling.

VICTIM OF QUEER ACCIDENT.
Buffalo, April 1.—Nelson Saunders of Detroit was killed here this afternoon. He leaped over the platform of an Elmwood avenue car on which he was riding, as a car passed on the opposite track. The edge of the car struck Saunders' head, crushing his skull.
CAMBRIDGE WINS BOAT RACE.
Putney, England, April 1.—Cambridge won the annual boat race from Oxford today. Cambridge led from start to finish. The water was smooth, there was a light wind and rain was falling. The time was 19 minutes, 32½ seconds.
CUP CHALLENGER AGAIN WINS.
Gourock, April 1.—In a trial spin today, with a strong wind blowing, Shamrock III again defeated Shamrock I and demonstrated that, going close-hauled, she is easily faster than the old boat.

MANY MEN ARE OUT
FIRST OF APRIL MARKED BY STRIKES BY THE SCORE.
WALKOUTS IN NUMEROUS CITIES
WORKERS IN MANY LINES QUIT TO ENFORCE DEMANDS.
Trades Associated With the Construction of Buildings Chiefly Involved, but in Soft Coal Fields Thousands of Diggers Are Idle.

Chicago, April 1.—Five strikes, involving over five thousand men, were inaugurated here today, in addition to a spread of the tanners' strike begun yesterday. The trades involved are the marine firemen, oilers, water tenders, excavating teamsters, tailors, and steam fitters. The demands of the unions are for increased pay and the betterment of the conditions of labor.
Strikes in other cities were launched today as follows:
Six hundred brewers at Columbus, O.
Five hundred painters at Cleveland.
One thousand employes in the building trades at Greenwich, Conn.
Seven hundred structural iron workers at Cincinnati.
The furnace bricklayers of the United States Steel corporation at Homestead, Pa.
One hundred plasterers at Reading, Pa.
Bricklayers at Sharon, Pa., and at Indianapolis.
Three hundred carpenters at Oswego, N. Y.
Three hundred building tradesmen at Saratoga, N. Y.
Building tradesmen at Wheeling, W. Va.
Over eight hundred carpenters at Schenectady, N. Y.
Two hundred and fifty painters and decorators, 200 steam fitters and 325 glass blowers at Milwaukee.
Ten thousand bituminous miners in Indiana.
Fifteen hundred miners and the union plumbers and tinmiths at Shamokin, Pa.
One thousand miners in the Fifth Ohio coal district at Bellaire, O.
In Michigan, all the bituminous coal mines were shut down pending the result of the conference between the operators and miners tomorrow.

FATALLY HURT IN AUTO RACE.
Count Wm. Eliot Zaborowski, a Native of Iowa, Killed in France.
Des Moines, Ia., April 1.—Count William Eliot Zaborowski, who was killed in an automobile race near Nice, France, today, was a native of Boston and a member of the well known Eliot family of Des Moines. He came by the name of Zaborowski and the title of count through a native of Poland who married his aunt. His uncle had been banished from Poland and had located in New York, where he became wealthy through the purchase of property. When he died, he left all to his nephew, William Eliot, upon the express condition that he assume his name and title. In 1891 Eliot eloped with Baroness De Steurs, wife of the minister from the Netherlands to France. In South Dakota later, the baroness secured a divorce and married Eliot. She was a daughter of the late Henry Carey of Boston and a granddaughter of John Jacob Astor. Both Eliot and the baroness were worth several million dollars in their own names.
His Companion Also Killed.
Nice, April 1.—Baron de Pallange, who was Zaborowski's companion, died tonight of injuries he received when thrown from the car. Witnesses say that Zaborowski was very nervous when he started in the race. At the first turn of the road his machine met with an accident. The shock was terrific. Zaborowski was shot from his car and struck a wall beside the road. He fell to the ground, dead. Pallange was thrown to the left.

WARSHIPS ATTACK PORTS.
Government Cruisers Engage the Rebels at San Domingo.
Washington, April 1.—Consul General Maxwell, at Santo Domingo, cables tonight that government warships are engaging the land batteries, which are in the possession of revolutionists. He says the situation is critical and that he has taken a number of refugees into the consulate for protection.
San Domingo, April 1.—The Dominican warship Presidente, flying the flag of President Vasquez, arrived off port early today and signalled for a pilot, who went on board. The cruiser then left San Domingo after exchanging cannon shots with the fort. No damage was done. The situation is becoming very serious.
THREE BIDS FOR BIG FIGHT.
San Francisco, April 1.—Bids for the Jeffries-Corbett fight were opened today. The Yosemite club of San Francisco offered \$20,000, or 70 per cent of the gross receipts; the San Francisco club, 67½ per cent of the gross receipts, and Paddy Carroll of Chicago, \$30,000 for a fight in Havana in December or \$25,000 in Atlanta in June. Choice was not made.

difficultly. At some places there was friction, but it is expected all will be straightened out in a few days.
In the region where the Reading's collieries are situated there was some trouble regarding the establishment of three shifts of eight hours each among the firemen as ordered by the commission. Until today the firemen have worked twelve hours, and it is alleged by some firemen that in making up the third shift men were taken from the other two shifts, increasing the work even though the hours have been reduced.
WABASH INJUNCTION DISSOLVED.
Court Order Forbidding Strike Annulled—Is Prospect of Arbitration.
St. Louis, April 1.—In the United States district court today Judge Adams handed down a decision dissolving the injunction granted on March 3, restraining the officials of the Brotherhoods of Locomotive Firemen and Trainmen and other labor leaders from influencing in any way or ordering the men employed on the Wabash system to strike. The injunction dissolved was granted by Judge Adams on allegations made to officials of the Wabash system that the defendants were conspiring to interfere with interstate traffic.
In rendering his decision today, the court provided for an amicable settlement was sounded by Judge Adams himself. "I cannot conclude this opinion," he said, "without expressing the sincere wish of the court that if the parties are unable to adjust their differences by such mutual concessions as are necessary to that end, the offer made in open court by the defendants' counsel to submit the questions in dispute to the board of arbitration provided for by the act of Congress of 1898 will be speedily accepted and another instance of a rational and intelligent adjustment of a business difficulty will be exhibited to an expectant public."
Grand Master Harahan, of the Firemen, would not say what step would be taken next. It is said both sides are making every effort to reach an amicable settlement. It is also said that George J. Gould, who is here, will assist in the effort to settle the trouble.
Later—Mr. Gould will not remain to assist in the effort to settle the differences with the trainmen. In a statement issued tonight he suggests waiting until President Ramsey's return from Egypt.
In a statement expressing satisfaction with the decision, Grand Master Harahan said: "Judge Adams will go down in history, long after the colliery lid has closed over his remains, as being the most fearless and honest judge who ever occupied the federal bench."
Declared a Great Labor Victory.
Pekin, Ill., April 1.—Commissioner of Immigration Sargent considered the Wabash decision of great value to labor organizations, and regards it as "a great victory for organized labor."

"IMPOSSIBLE," for you to enjoy motherhood," says the doctor. Sometimes he qualifies the statement, and says: "Impossible without an operation." Yet both these "impossibles" have been made possible by the use of Dr. Pierce's Favorite Prescription. Many times the hindrances to motherhood are to be found in womanly diseases or weaknesses, which are perfectly and permanently cured by "Favorite Prescription."

This great medicine for women cures irregularity and dries debilitating drains. It heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I wish to add my testimony to hundreds of others as to the value of Dr. Pierce's medicine," writes Mrs. Ida M. De Ford, of Latona, Hubbard Co., Minn. "I have doctor'd with a great many physicians—some specialists; have twice been in a hospital for treatment. My case has been regarded as a hopeless one, and they knew not what the trouble was. Heart was bad; stomach all out of order; tired out; severe pains in all parts of the body; sinking spells, and nearly every ailment a woman could have. I took many a bottle of 'patent medicines' without effect. I began taking Dr. Pierce's Favorite Prescription, and ten months afterward I gave birth to a ten-pound boy. All physicians had stated as a fact that I never could bear a child. Both the baby and myself were strong, and I got along splendidly—thanks to your medicine."

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

MARQUETTE, MICH., APRIL 2.

Entered as small matter of the second class in the postoffice at Marquette, Mich.

It is said that the president may convene congress in extraordinary session in November. Of course the purpose of such session would be to secure action on the Cuban reciprocity treaty, in which the senate, in its magnanimity, determined that the house must concur. There have already been false reports of special sessions and this may be another of them, although it is not unlikely that the president's great desire to get something done for Cuba may lead him to convene the houses some time in the fall.

The Soo papers have recovered from their disappointment at their non-success as advocates of Otto Fowle's nomination as mayor by the Republican party, and they are giving the candidate, ex-Sheriff Swart, their united and zealous support. It is predicted by people acquainted with conditions at the Soo that the fight will be close. Both Mr. Swart and Mr. Lipsett, the Democratic nominee, are widely and favorably known, and they each have distinct elements of strength. The Soo is fortunate in one respect. Whatever the outcome, it seems destined to get a pretty good mayor.

When Corbett jolted McGovern into the land of slumber at San Francisco Tuesday night he did something that endless argument and persuasion through the past several months had been unable to accomplish. He satisfied a whole army of ring followers that his first victory over the doughty Teddy was no "mistake," no "accident," but the legitimate result of his superiority as a fighting man. If there is no gratitude at the result of the fight on any other score there should at least be some satisfaction that it will end the interminable discussion about the merits of the contest in which the first-honor men first met.

Governor Taft, of the Philippines, in all probability, now recalls with regret that seat on the federal supreme bench that he declined because he felt that his greatest duty called him to the eastern islands. He has been at his old post only a few months since his visit to the states yet he is ready to come home. Poor health, which constantly interferes with keeping the proper officers in tropical possessions, has persuaded him that he must soon give up his office, and it is given out on excellent authority that he will be succeeded by General Leonard Wood, of Cuban fame, about three months hence. Governor Taft has succeeded wonderfully on his Philippine mission and his success has been of inestimable value to his country.

The National Council of Women, having decided to hold its convention in the color belt, finds itself placed in a position which must result either in discourtesy to its hostesses or the betrayal of its principles. The members must do what their constitution gives no place for if they continue in their resolve to meet in the south—they must recognize caste and color differences. This organization both in the United States and in Canada has established a precedent for orderly and harmonious work and in consequence have been able quietly to accomplish many reforms, but the situation which will arise in New Orleans will undoubtedly give rise to troubles which will threaten to disintegrate all harmony. If the council is wise the acceptance of New Orleans' invitation will be retracted and honest reasons given which will respect the southern white woman's prejudice and

President, Vice President, Cashier.

preserve the principles of the National Council intact.

Reports of the behavior of the Shamrock III in her first trial shows that she promises, when properly tuned up, to be a foe worthy in every way of the best defender that the New York Yacht club can send against her. In a test this week she demonstrated her marked superiority over the first Shamrock, which wasn't at all a slow boat. By the time the new Reliance is ready for her initial trials interest in these events will be at the fever heat. It is to be hoped that the new American craft prove the fastest in the fleet of possible defenders. It would be discouraging to have to feel that our yacht builders had gotten so far along that they are unable to improve on their own work.

The good roads movement is getting a start in Missouri. A correspondent of the Mexico Intelligencer tells of a farmer who started to market the other day with a load of chickens. "He got about two miles from home," says the chronicler, "and stuck in the mud. He worked all day, but made little progress. He went the next day with four horses, but failed to pull his load out and his wagon, chickens and all, are still stuck. He travels two miles every day to feed his mud-bound poultry." The yearly taxes that farmer would have to pay for good roads—if the people of his county could be induced to vote for good roads—would be a mere trifle compared with the loss in time and money he has suffered because of that stranded load of chickens.

ROBBED THE GRAVE.
A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Stafford Drug Co., drug store.

DUE NOTICE IS SERVED.
Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get it will recognize the genuine DeWitt's Witch Hazel Salve as never disappointed, because it cures. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

SIMPLE REMEDY FOR CATARRH.
Just Breathe Hyomei Four Times a Day and Be Cured.
If a few years ago some one had said you can cure catarrh by breathing four times a day with a healing balsam, the idea would have been ridiculed and it remained for R. T. Booth, that eminent investigator, to discover in Hyomei this method of cure.
Hyomei has performed the most miraculous cures of catarrh and is today recognized by leading members of the medical profession as the only advertised remedy that can be relied upon to do just what it claims.
The complete outfit of Hyomei costs but \$1.00 and consists of an inhaler, a medicine dropper and a bottle of Hyomei.
Breathe Hyomei through the inhaler for a few minutes four times a day and it will cure the worst case of catarrh. It soothes and heals the mucous membrane of the air passages, prevents irritation, and effects a complete and lasting cure.
The treasurer of the American Life Insurance Company, J. R. Nugent, of New York city, writes, "Hyomei has completely cured my daughter of catarrh from which she has been a sufferer for years."
In Marquette there are scores of well-known people who say they have been cured of catarrh by Hyomei. If it does not cure you the Stafford Drug Co. will return the money you paid for Hyomei. This is the strongest evidence that can be offered as to their faith in the remedy.

MINING NEWS
WINONA COPPER COMPANY.

Annual Report Shows Encouragement for Active Operations.

The directors of the Winona Copper company report operations for the calendar year 1902 as follows:
Received on account of assessment No. 1.....\$80,744.00
From sale of 101,188 pounds copper, at 12 1/2 cents.....13,027.96
Expended at mine, \$48,059.11
Boston office and general expenses 5,410.93
Selling, freight and brokerage 1,415.07
Interest on loans 175.58
55,061.59

Balance of receipts.....\$48,710.37
Deficit Dec. 31, 1902.....9,617.13

Assets and liabilities Dec. 31, 1902, were: Assets, cash \$28,670.16; copper on hand, sold \$13,927.96; supplies and cash at mine \$8,114.01, total \$49,812.13; liabilities, indebtedness at mine \$9,204.40; accounts payable \$1,414.89, total \$10,118.89; balance of assets, \$39,693.24.

John Stanton, president, says: "The underground work during the year was confined to drifting on the lode in the direction in which the previous work had indicated the probability of discovering paying ground, and in making preparation for a mill test, which would determine the yield of the rock that could be taken from the copper bearing portions of the lode through which the levels had passed. The only stamp that could be made available was the head in the Atlantic Mining company's mill then engaged in stamping rock from the Champion mine. This head was not ready for our use until early in December, when it began to stamp rock from our mine with quite satisfactory results. These results warranted the directors in adopting a policy of active exploration of the territory towards our southern boundary, both by extending the lower levels, and by sinking another shaft from the surface at a suitable distance from the shaft now in use. An assessment of \$1 per share (\$100,000) on the capital stock of the company, payable March 12, 1903, has been called for, in order to provide funds for the purposes named."

F. W. Denton, the agent, reports results from Dec. 6, 1902, to March 1, 1903, and these three months show:
Tons stamped.....12,895
Mineral obtained, pounds.....43,6144
Per cent. use copper in mineral.....33.8
Fine copper (19.5 pounds per ton) 281,587
December and January mass, 51,904 pounds, at 38 per cent., 19,752

Total fine copper product, pounds 301,339
He continues: The crusher broke in February, reducing the production to 4,100 tons. All of the rock sent to the mill was obtained from the second, third, fourth and sixth levels, with the exception of 103 tons, which came from the stockpile on the surface. The stamp rock came from all of the levels opened to the south of No. 2 shaft. The stopes thus far hold very well and seem to indicate, as the drifts did, that the lower part of the mine is the best. The copper occurs associated generally with slips running at various directions with the general strike of the vein. In the fourth level stope the width has reached in places forty feet. The copper ground is more or less lumpy and separated by bars and barren vein or trap, and therefore, to avoid mixing this worthless material with the copper rock and at the same time avoid the hoisting and stamping of it, we are working the stopes on the filling method. By this is

WILL PUT ON MORE BOATS. SOME LIVELY CONTESTS.

Union Transit Line Negotiating for Two or Three New Steamers.

Nominations for Aldermen and Supervisors Made at Hancock.

L. R. Robinson, general agent of the Union Transit company at Duluth, informed The Mining Journal while he was here this week that besides the boats in commission last year the company will have two or three new vessels on the route this season.

Negotiations for the new steamers are under way.

The company intends to open the season in this region with a rush. W. D. Loftus, the new agent, who will handle business at Portage Lake and Torch Lake points, is expected at Houghton Saturday.

He is an old railroad and steamboat man. An office has already been opened on the second floor of the Kroll building at Houghton. C. B. McCrea of Houghton has been retained as clerk and assistant.

This territory will be under the supervision of Mr. Robinson, who is in charge of all western agencies.

The ports of call this season will be the same as last, the report that the boats would not make Detroit being without foundation.

The boats are ready to start at a moment's notice and they will leave the docks at Buffalo for Lake Superior as soon as the ice will permit a passage.

Mr. Robinson says the prospects for a good business this year are bright.

The boats will have heavy eastbound shipments in breakfasts from Duluth and copper from this region from the start.

The company will handle Cabinet and Hecla as well as some other copper as usual. Gus Larson of Dollar Bay, who had the contract to load and unload all Portage Lake freight, including copper, for the company last year, has been awarded the contract for this season.

Mr. Robinson scouted the reports to the effect the Union Transit company would not be in line for business this season because of the sale of the Northern Steamship company's six freighters to a syndicate of Eastern railroads.

The Union Transit people never thought of selling out, and it does not look at all as if they have been frozen out.

Mr. Robinson says the prospects for a good business this year are bright.

HALL CAINE'S POPULAR PLAY.

"The Christian" at the Kerredge, Hancock, Saturday Evening.

Hall Caine's popular play, "The Christian," will be presented by Liebler & Co.'s company at the Kerredge theatre, Hancock, Saturday evening.

Those who witnessed the production when it visited the copper country two years ago will surely see it again, as it gave much satisfaction and was considered one of the best attractions that ever came here.

The theme of "The Christian" is a natural story of human love. The play is presented in a prologue and four acts.

The scene of the prologue is laid in the biting ground in the ruins of Pell Castle, Isle of Man. Two years pass. The first act of the play takes place in the saloon of a London music hall; the second act in the club rooms of St. Mary's Magdalen's church; the third is in Glory Quayle's apartments in the Garden House, Clarendon Inn, London, and the fourth in the club rooms of John Storm's church.

Twelve young people will be graduated from the Houghton High school this year. All but three are girls.

Arrangements for the commencement exercises have not been made owing to the recent resignation of Miss Merrick, the Latin teacher, which set the preparations back a week or two.

It is not known yet whether the commencement will be held at the Kerredge theatre and preparations are now under way for them.

The graduation this year will be a week earlier than usual and on that account the final examinations will not be held until the week following the commencement.

Will Carleton, the poet and author, one of America's best known writers, has consented to address this year's graduating class of the Lake Linden High school at the commencement exercises on the evening of Thursday, June 18.

Mr. Carleton's coming is being awaited with more than ordinary interest. The class is unusually large this year, numbering sixteen young people.

It is to whom the Lake Linden High school has the honor of the Superintendent White and the school board to select a speaker of note to address the graduating class in order that it may be given the best send-off possible.

The school's patrons expect a rare treat in Mr. Carleton's address.

Miss Lee Clough has been chosen valedictorian of this year's graduating class of the Lake Linden school and she will be given the gold watch promised the valedictorian by the E. F. Sutton company.

Miss Clough's standings in her work throughout the four years in the High school are the highest. Other honors have been bestowed as follows: Edna Hoskins, salutatory; Gertrude Hollister, Greek honor; Latin honor, Mina Frenette; Florence Francis, German honor; Nellie Reagan, French honor; Bessie Pearce, English honor; Edmond Elyvean, mathematics.

This year's class to be graduated from the Calumet High school will be the largest in the history of the institution. Forty-seven young people, mostly girls, will receive diplomas.

SETTLEMENT OF THE WAR.

After three weeks' negotiations a peaceful settlement of the Venezuelan controversy has been effected, by which the blockade is to be raised at once and property taken from Venezuela to be returned to her.

It is always best if such disputes can be settled in this manner. The best way to settle any disturbances of the stomach is to take a dose of Hostetter's Stomach Bitters at the very first symptom.

It has a tonic and stimulating effect upon the entire system, assisting the different organs in the proper performance of their duties. Good health is the result.

It also cures headache, nausea, belching, loss of appetite, indigestion, dyspepsia, grippe, and malaria, fever and ague. Try a bottle and see for yourself. Your druggist will supply you with the genuine.

A SWEET BREATH.

is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order.

There is no remedy in the world equal to Koldol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders.

Mrs. Mary S. Crik, of White Plains, writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Koldol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength, and can eat whatever I like." Koldol digests what you eat and makes the stomach sweet. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Headache, burns, cuts, bruises, sprains. Instant relief.

MAN STARTS INSURANCE.

so when he stops. Insurance takes his place. If man starts insurance, his earning or productive value stops when he stops. Insurance is an idea which, if carried out, projects a man's value beyond his grave.

Fourth year, doing business in 35 States. Nat'l Life Ins. Co. of N.Y. (Mutual) Organized 1859. M. W. Marshall, Gen. Mgr., Marquette, Mich.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all druggists.

Hall's Family Pills are the best.

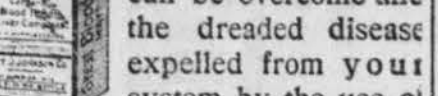

A THOUGHTFUL MAN.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physician could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c. at Stafford Drug Co.'s drug store.

A lazy liver makes a lazy man. Burdock Blood Bitters is the natural, never failing remedy for a lazy liver.

MINING NEWS

(Continued from Page Two.)

meant the filling of the stopes with the barren rock picked from the rock blast, and where there is not sufficient to fill the stopes, the foot or hanging walls or barren vein, as may be most convenient, is blasted especially for filling material. This method seems well suited to this vein and enables us to obtain a profitable grade of stamp rock.

At present we are lengthening the various stopes to determine whether we can profitably mine a large percentage of the vein already opened, or whether it will be necessary to leave standing large blocks of barren ground. I think it is safe to state that if we find a sufficiently large percentage of the copper ground already opened as good as our first stopes we can make a profitable mine out of such ground.

The ground already opened is not sufficient to make a mine, but the indications at the extreme south ends of our longest levels are favorable for an extension of the vein to the south. The sixth level has thus far been as good, if not better, than the fourth and at the present writing the breast of the drift is showing considerable copper.

For the future operations I would advise the continuation of the stoping now going on, making our monthly output about 5,000 tons of stamp rock, and conducting this stoping in such a manner as to determine, as far as possible, the percentage of pay ground in the portion already opened. Owing to the angle at which the lode crosses the south boundary, the length of the mine at this end would increase rapidly with the depth, so that if the copper holds to the south, boundary, we should have ample ground for a mine. The results of milling the rock show heavy losses in tailings from the mill, owing to the large quantity of very fine copper. This very fine copper could be partially saved by special treatment.

We have in the stock pile at No. 2 shaft about 5,200 tons of very carefully selected rock which can be easily crushed and shipped to the mill. During the year the crosscut east from No. 2 shaft at the sixth level to the conglomerate underlying the Winona lode was finished. The distance between the two is 345 feet, but nothing of value was out. So far, therefore, the best showing is in the south end of the original Winona lode, and the prospects of developing a paying mine are certainly better than ever before.

MINING GOSSIP.

It is reported that Osceola will within a week or two put two additional shafts into commission.

Copper was 25, 9d higher at London yesterday, with spot and futures quoted at 153, 17, 6d. The New York market remained unchanged, with Standard quoted on the metal exchange at 13.75, Lake and electrolytic at 14.75 @ 15, and casting at 14.50@15.

One head at the Aradian mill is being supplied from the Aradian mine, the other two heads handling Trimmontain rock. The Aradian is operating on the mill, and is securing, it is said, a production of about twenty-five tons of refined copper monthly.

Baltic rock is officially declared to be running twenty-four and one-half pounds of copper to the ton. Four stamps at the Baltic mill are now treating 1,640 tons of rock daily. The mineral yield, exclusive of mass copper, is thirty-one pounds per ton stamped, which compares with an average of twenty-eight pounds last year. Changes are under way at the mill having in view its greater capacity. It is expected that eventually the mill will treat 2,000 tons daily.

The sharp rise which has taken place in the price of copper during the last few weeks, states a London cable, has proved a revelation to the trade at large. Consumers appear to have placed too much reliance upon the idea that the upward movement was mostly of a speculative character, with the result that they are now at the mercy of the possibilities of the American situation, which has become more obscure since the suspension of the Amalgamated production returns. Consumers experience great difficulty in covering their needs for near delivery. The trade as a result is entirely at the mercy of the copper magnates, who can enforce their own terms.

Speaking of the discrepancy between prices of copper quoted by the leading selling agencies and those on the New York Metal exchange, the president of one of the largest producing mines in the country says: "It is not strange that prices on the New York Metal exchange are one-half cent per pound under producers' quotations. A buyer of the metal on the exchange does not know what he is getting. Hereafter a purchaser could be delivered the product of the South Range mines of Lake Superior containing arsenic, or other inferior grades, and under the circum-

CHINA NEWS GRAVE

STEAMER ADVICES SHOW REBELLION IS RAPIDLY SPREADING.

IMPERIAL GOVERNORS POWERLESS

TROOPS ARE PUT TO ROUT WITH HEAVY LOSS.

City After City Falls in Kwangsi, the Capital Itself is Besieged and Adjoining Provinces Are Being

Victoria, B. C., April 1.—News was received today by the steamer Empress of Japan that after defeating the imperial troops with heavy loss, the Kwangsi rebels had laid siege to Liu Chow, where Governor Wang Chih Chen, who had been deposed and ordered to Pekin, is surrounded. Kweilin, the provincial capital, is also in a state of siege, and three rebel armies were approaching that city to aid the besiegers in making a joint attack.

Victoria, B. C., April 1.—News was received today by the steamer Empress of Japan that after defeating the imperial troops with heavy loss, the Kwangsi rebels had laid siege to Liu Chow, where Governor Wang Chih Chen, who had been deposed and ordered to Pekin, is surrounded. Kweilin, the provincial capital, is also in a state of siege, and three rebel armies were approaching that city to aid the besiegers in making a joint attack.

Spreading to Other Provinces. The rebellion in Kwangsi is very formidable, and news has come from Yunnan and Kueichow that several cities within the borders of these provinces have been occupied by rebels. The authorities of these cities, for the sake of self-preservation, opened the gates as soon as the rebels appeared, and offered them welcome. Some magistrates of Kwangsi, finding themselves powerless to resist the attacks of the rebels, have surrendered and even ordered the people in their jurisdiction to help them with money and provisions.

A Peking correspondent says that Governor Wang has sent a secret dispatch to Yang Lu, grand secretary, asking that General Su be cashiered, as his forces are aiding the rebels and not only communicating military secrets but giving them arms and munitions and uniforms. Another report from the capital says the governor has resigned, alleging he finds the task of suppressing the rebellion beyond his powers.

Ten Bankers Commit Suicide. Victoria, B. C., April 1.—Advices from China today state that a commercial crisis threatens Peking. Several foreign banks refused credit to several exchange shops. This, with the scarcity of specie, has led to the suicide of ten Chinese bankers.

GOV. ODELL BALKS BRIBERY. Threatens Prosecution and Assembly Passes Bill Increasing Liquor Tax.

Albany, N. Y., April 1.—The most sensational incident of the legislative session attended the passage in the assembly yesterday of the Raines bill, which makes liquor licenses in Manhattan cost \$1,200 a year. In Brooklyn the license will cost \$750. Through out the state there is an increase of 50 per cent in the liquor tax.

Before the assembly convened Governor Odell summoned sixteen Republican assemblymen to the executive chamber and threatened them with criminal proceedings if they bolted the bill. "I want to say to you," said the governor emphatically, "that I know all about what has been going on in regard to this bill during the last few days and if the occasion arises which makes it necessary I shall bring the matter to the attention of the district attorney of this county."

This threat explained the presence at the state capitol of a corps of special detectives who were supposed to be guarding the person of Governor Odell. Instead it developed that they had been employed by the governor to spy on certain assemblymen. In this connection it is reported that various members of the assembly were to get from \$5,000 to \$7,500 each for voting against the excise bill.

The statement is also made that the sixteen men summoned before the governor were warned by legislative leaders that if they attempted to defeat the bill a resolution for a bribery investigation would be introduced. The governor's ultimatum had the desired effect. The bill was passed by a vote of 84 to 61, and the \$150,000 boodle fund which the saloonkeepers had raised was thus of no avail to them.

FOREIGN TRADE CLINCHED. Washington, April 1.—A review of the world's commerce for 1903 by Frederick Emery, chief of the bureau of foreign commerce of the state department, says there is ground for substantial encouragement regarding the permanency of the export movement of the United States in manufactured goods and of the success of American competition in the markets of the world. Not only, he says, has the foreign customer been tempted into buying from us as of

prices, but he has been so impressed by the superiority of things American as to bid against the domestic purchaser, thus demonstrating the fact that export trade is to become a staple factor of the country's industrial and agricultural prosperity.

SALT TRUST WINS SUIT. Contract to Pay Independent Plant to Remain Idle Held to Be Void.

Detroit, Mich., April 1.—The Wayne circuit court today directed a verdict for the defendant in the suit of the Walston Salt company of Algoma, Mich., against the National Salt company, to enforce a contract made with the Walston company by the National by which \$1,000 per month was to be paid the Algoma company for remaining idle. The contract was made in 1899. Judge Donovan holds that the contract was a violation of the Sherman anti-trust act, and therefore void. He says that as to past transactions there is no recovery, but that the courts will not enforce the contract. The ruling is of great importance to the National Salt company, which is now in the hands of a receiver, as it will serve to annul a number of contracts of similar nature.

Freight Rebate Admitted. Chicago, April 1.—The interstate commerce commission today heard evidence on the charge that the railroads by giving a rebate on the salt rate between Michigan points and Chicago to certain producers had practically created a monopoly of the salt industry. During the hearing several witnesses admitted the rebate. Special Agent Marchand said he was not ready to cross-examine the witnesses, and the hearing was indefinitely postponed.

DR. HUNTER'S CHARGES IGNORED. Washington, April 1.—Dr. Hunter, formerly United States minister to Honduras and Guatemala, was again at the state department today and finally managed to see Secretary Hay and renew the charges he had tried to bring before the department alleging a conspiracy in connection with the killing of Fitzgerald on the part of J. J. McNally, formerly consul general at Guatemala City and now consul at Liege, Belgium. The secretary heard Hunter, but reached the conclusion the minister had no new presentation of facts which in the slightest degree affected the department's original decision as to whether the blame lay. Accordingly the case will not be reopened and McNally will not be disturbed.

TELEGRAPHIC NEWS CONDENSED. New York, April 1.—The prices of all grades of refined sugar were reduced ten cents today. Paris, April 1.—A brother of Mile. Emma Tourret was wounded in the forearm today in a duel fought with Marcel Prevost, the novelist. Mile. Tourret is the woman who on Monday fired two shots from a revolver at M. Prevost. Washington, April 1.—An order was issued by the war department today providing for the inspection of the militia of the United States preliminary to equipping it with new rifles, etc. The inspection will be made under the direction of the department commanders, who will designate the officers to make the inspections within their departments.

Bloomington, Ills., April 1.—County convention of Modern Woodmen were held throughout the state today to select delegates to the state convention. Reports from central Illinois indicate an overwhelming sentiment against the radical increase in rates proposed by the national committee. The question will be settled at the head camp meeting at Indianapolis on June 10. San Francisco, April 1.—The transport Sheridan sailed today for the Philippines, via Guam. She carries two battalions of the Eighteenth infantry and a squadron of the Thirtieth cavalry.

New Haven, Conn., April 1.—The Henry James Teneyek prize was awarded tonight to William Pickens, colored, a member of the Junior academy class. Mexico City, April 1.—President Diaz opened congress tonight. A brilliant assembly, including many Americans of distinction, was present. The president's message dwelt on the prosperity of Mexico and discussed the proposition of a fixed relation between gold and silver among the countries employing the different standards.

Ann Arbor, Mich., April 1.—Herbert S. Jennings, assistant professor of zoology at the University of Michigan, has been offered a fellowship at the Carnegie institute, but has not yet decided to accept. The fellowship includes a table at the zoological station at Naples, Italy, and \$1,000 to carry on research work. Quincy, Ills., April 1.—The Quincy Gas & Electric company has been sold to a New York syndicate which controls plants at Port Huron and Alpena, Mich. Schuyler, Wis., and other places. The Quincy plant is capitalized at \$600,000, with a bond issue of an equal sum.

Efingham, Ills., April 1.—In a fight here today between students of the Austin and Photography colleges over the possession of a cannon stolen by one body from the other last night, several were injured, among them Wm. Morgan of Sault Ste. Marie, Mich., of the photography college.

Newark, N. J., April 1.—The plant of the Western Oil & Manufacturing company was totally destroyed by fire tonight. The loss is \$200,000.

TODAY'S WEATHER. Washington, April 1.—The following is the weather bureau's forecast for Upper Michigan: Showers, Thursday; brisk to high east to south winds; Friday, fair.

Now's the time to take Rocky Mountain Tea; it drives out the microbes of winter; it builds up the stomach, kidneys and liver. A wonderful spring tonic that makes sick people well. Stafford Drug Co.,

MAY PROBE CHICAGO & ALTON. Legislative Investigation of the Reorganization Proposed in Illinois.

Springfield, Ills., April 1.—A legislative investigation of the Chicago & Alton railroad reorganization was proposed today in the state senate by a resolution introduced by Senator Evans. The resolution, which under the rules went over until tomorrow, sets forth that the Chicago & Alton Railroad company was organized in 1893 with a capital of \$30,711,019 and was assessed by the state board at \$10,499 per mile; that the same road, with a small increase in mileage, is now operated by the Chicago & Alton Railway company, capitalized at \$61,086,800 and assessed at only \$10,000 per mile, and that the Chicago & Alton Railroad company, capital \$41,000,000, still exists but is not assessed and refuses to make the reports required by law. The resolution provides for a special committee to investigate these matters and empowers it to summon witnesses and compel the production of such books and papers as may be necessary to inquire into the matters above set forth.

WALL STREET STOCKS. New York, April 1.—The stock market dropped back into an apathetic condition today. It moved in an extremely sluggish and halting manner throughout the day. This was a disappointment to such speculators as had hoped that yesterday's advance heralded the beginning of a continued upward movement.

The high money rate today was evidently a deterrent influence on speculation. Yesterday's buying in the face of a high money rate was based upon the assumption the corner would be turned today in the money difficulty and easier conditions would begin with the disbursement of the April dividend and interest money. When the call money market was seen to be quite as stiff as yesterday, there was some selling of stocks by yesterday's buyers. The whole market was strictly professional, and the suspicion got abroad that yesterday's advance was due more to professional manipulation and covering by shorts than to any other cause. Some benefits to the money market is expected from the payment of the government interest. There was perceptible today in the speculative sentiment a recurrence of the fear that heavy corporate requirements are waiting to absorb any increase in the credit resources. The disturbance in the loan market today was attributed to the payment of the subscriptions for the Chicago & Northwestern's new stock. In time money, the lenders show a disposition to restrict their loans to within the six months' period, the obvious purpose being to have the maturities come due the fall demand from the interior for funds begins to withdraw money from New York again.

The dissolution of the Wabash injunction caused some liquidation in the Wabash. Sugar suffered from a reduction in the price of the refined grades to meet yesterday's cut by competitors. There was a violent and unexplained break in Colorado Fuel, with an effective rally. The market closed dull and irregular, as follows, Paine, Webber & Co. reporting the quotations:

Table with columns for stock names and prices. Includes Wabash Pfd, N.Y. Central, Southern Ry., Sugar, Rock Island, etc.

Range of Money Rates. Money on call, firm, at 6 1/2 per cent; closing, 7 1/8. Time money, steady; sixty and ninety days, 5 1/2 per cent; six months, 5 3/4. Prime paper, 5 1/2 to 6 per cent. Exchange, steady, demand at 48 1/2 and sixty days at 48 3/4 to 48 5/8. Bar silver, 49 1/2.

CHICAGO GRAIN MARKETS. Chicago, April 1.—Wheat ruled dull throughout the entire session today and the trading was featureless with the price changes confined within a narrow range. The opening was firm on fears of manipulation in May, the anxiety being caused by orders received from the East for the sale of "puts" on four million bushels, supposed to be for the account of a local trader, and there was a disposition among scalpers to buy. May was unchanged to 1/4 higher, opening at 73 3/4 to 74; but, after selling at 72 1/2, the market changed front and under a considerable selling pressure the price receded to 72 1/2. Bradstreet's report showing a large decrease in the world's visible supply caused a rally later in the day, and during the last half hour the demand became quite animated, which resulted in a firm close. May being 1/4 to 1/2 higher, at 73 3/4 to 74, after touching 73 1/2. July closed 1/4 to 1/2

up. Liverpool was unchanged to 1/4 lower. On the coast twelve boatloads were taken. Corn ruled moderately active and irregular. May, closing at 7 1/2, while July gained 1/4. Changing was again a conspicuous feature, with selling of May and buying of July at 1/4 to 3/4 difference. Professionals sold July with considerable freedom, floor traders being the principal buyers. The cables were weak, the decrease in the available supply was small, and the cash situation was unimproved, all of which worked against the price. Liverpool was steady to 1/4 lower. At the seaboard eighteen boatloads were accepted. May opened at 43 1/2 to 44; highest 43 1/2; lowest, 42 1/2; closing, 43. Oats weakened 1/4 to 1/2 early on selling by cereal interests, but turned strong on buying by one of the large traders, the price advancing 3/4 to 1/2 more than regaining the loss, and closing strong at the top, with net gains of 1/4 to 3/4. May opened at 33 1/2 to 34; highest, 33 1/2; lowest, 33; closing, 33 1/2. The receipts and shipments were as follows: Receipts, Shipments, Flour, barrels, 50,000 33,000 Wheat, bushels, 42,000 49,000 Corn, bushels, 125,000 167,000 Oats, bushels, 365,000 398,000

GOVERNMENT CROP REPORT. Fall Sown Grains Are Growing Well but Rain Delays Seeding. Washington, April 1.—The agricultural department's crop bulletin, issued late this afternoon, states that the March weather conditions were generally favorable for the growth of grains and grasses in all districts east of the Rocky mountains, but that outside of New England and portions of the Middle Atlantic states and the lake region, spring work is retarded by excessive rains and the consequent wet soil condition. Reports from all sections indicate that winter wheat is in very promising condition generally. The crop has wintered well and is now making vigorous growth in all sections. Some spring wheat has been sown in Washington, but no seeding of spring oats has been begun as far north as Michigan, but has been retarded to a considerable extent by wet ground. Fall sown oats are making vigorous growth in Southern states, with excellent results. Very little corn has been planted north of the Gulf states, where the early planted is up and the stand is fair to good. Serious injury to the peach crop by frost is reported from nearly all sections east of the Mississippi and from Oklahoma and northern Texas. Other fruits are more promising, although the abnormally high temperatures in the lake region have forced the buds to such an extent that frosts at this time would be very damaging.

BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Table with columns for copper stock names and prices. Includes Adventure, Arnold, Atl., Anaconda, etc.

BOSTON STOCK SALES. The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

Table with columns for stock names and prices. Includes Adventure, Arnold, Atl., Anaconda, etc.

ROOT DEFENDS COL. HOWZE. Washington, April 1.—Secretary Root today considered the recent charges against Lieutenant Colonel Howze, alleging the abuse of Filipinos under his command in 1899. The secretary also today addressed a letter to the editor of the New York Evening Post, replying to a letter which went into the charges in considerable detail. The secretary said these charges were made soon after the alleged outrages were said to have occurred and were presented to Governor Taft and General MacArthur. The latter made an investigation and reported that they were without foundation. Since the revival of the charges, another investigation has been made by the judge advocate general with the same results.

FEDERAL FINANCES. Washington, April 1.—The public debt statement shows that at the close of business on March 31 the total debt, less cash in the treasury, was \$939,003,919. The increase for the month is \$1,631,021. The increase is accounted for by a corresponding decrease in the amount of cash on hand. The cash balance on hand is \$374,921,988.

The receipts for March were \$45,435,434 and the disbursements \$44,987,587. For the past nine months the receipts exceed the expenditures by \$33,829,223. The total of the 3 and 4 per cent bonds offered the treasury department in exchange for 2 per cent consols, under the secretary's announcement, is \$7,732,000 to date.

THERE IS NO DEBATE with disease; there is no dispute with death; there is no reduction in debts; there is no cancellation of liabilities. Safety therefore can be assured only by insurance, that is to say, a contract for the case made and provided for by doing business in 25 States. Nat'l Life Ins. Co. of N.Y. (Mutual). Organized 1850. Paine's Celery Compound

Does a Happy Work for Our Women in Springtime.

It Makes Them Strong, Vigorous, Vivacious, and Bright.

Let us reason together, dear reader, if you are one of the many plodding along from day to day, weary, worn, exhausted, and anxious. If you are sleepless, nervous, despondent, rheumatic, neuragic or burdened with any of the spring ills that result from foul and impoverished blood, let us give you the positive assurance of certain and speedy

MISS OLIVE J. MERRILL.

the cure. Paine's Celery Compound, nature's true spring medicine, is what you need to prepare you for the joys and pleasures of life; nothing else can give you the blessings you so earnestly pray for. Its use means perfect freedom from the grave sufferings and perils that must come later if you waste precious time. Miss Olive J. Merrill, Kirksville, Mo., writes for your encouragement:—

"I suffered very much from nervousness, sleeplessness, and rheumatism, was induced to use Paine's Celery Compound. It perfectly met my troubles and happily banished them. Since using the Compound I am better in health than ever before in my life."

Miss Madge E. Sisson, Castile, N. Y., gratefully writes as follows: "I was very weak and nervous, and father called in a doctor. I was treated, but instead of getting better, I got weaker and was obliged to take to my bed. I had no control of my nerves, and at times I suffered with spasms. My pastor brought me Paine's Celery Compound, and I commenced to use it, and began to grow stronger. To the astonishment of my friends I was perfectly cured, and today I am stout, hearty, and strong, sleep well, and feel well."

AT DESCHAINES BAKERY. Try a sample of our Cream Bread. It is strictly homemade. (2-26-1f)

LAST ICE REPORT.

It Shows That the Opening of Navigation Is at Hand.

The last ice report of the department of agriculture, dated March 31, gives the following summary of ice conditions: "The reports from the regular and display stations of the weather bureau on the lakes indicate that the ice fields have rapidly disappeared during the week and that the ice is confined to the harbors at Duluth-Superior, Chequamegon bay, St. Mary's river, northern Green bay, some fields at the Straits, and the extreme east portion of Lake Erie.

"The ice at Duluth averages 23 inches, while in Chequamegon bay it ranges from 16 to 22 inches; Whitefish bay is clear of ice; the ice is rapidly decreasing in St. Mary's river, and Hay lake is open below Six Mile Point; in the northern portion of Green bay the ice is breaking up and would move out with northerly winds; no trouble is anticipated in entering Escanaba harbor through the ice; a large field of broken ice is reported between Mackinaw and Waugooshance which boats can get through with some trouble; no ice is reported in Lake Huron or the rivers; in Erie the ice is confined to the extreme eastern portion of the lake, with some open spaces of water showing; considerable ice has passed down the river during the week; the inner harbor is open, but strong northeast winds are needed to break up the field and move it out into the lake; the opening will probably be delayed at this port for some time longer on account of this field.

"In comparison with the same period last year the ice is thicker at Duluth and not so honeycombed; more ice in St. Mary's river and in the northern portion of Green bay, and the field at Mackinaw is larger than reported last season; in the other lakes the conditions are about the same.

The details for Lake Superior follow: "Duluth: Harbor ice going rapidly; now averages twenty-three inches; considerable open water on Duluth side of Superior Bay; north shore navigation open since the 26th; there is quite a field of broken ice about seven miles out in the lake.

"Two Harbors: No ice in harbor or lake; boats now running to Duluth on North Shore route.

"Washburn: Harbor ice sixteen inches; ice somewhat cracked but not moving; practically no snow on the ice.

"Ashland: Harbor ice twenty-two inches thick; freezing nights keep top ice firm.

"Houghton: Portage Lake open for a half mile opposite Houghton; ice soft but intact; Ship Canal clear; some loose ice behind the breakwater, Lake clear; Eagle Harbor: Ice breaking up; no ice visible in the lake.

"Pequaming: Ice ranges from eight feet to thirty thick and extends northeast for twenty miles.

"Marquette: Harbor and bay clear of ice; none visible in the lake.

"Munising: Harbor ice sixteen inches thick.

"Grand Marais, Mich.: Small amount of broken ice in harbor; none visible in the lake.

"Whitefish Point: No ice in sight.

"Sault Ste. Marie: Hay Lake open below Six Mile Point; open water at

Bay Mills and Round Island; remaining ice rapidly disappearing."

S. H. VAUGHN PROMOTED.

He Is Now Division Freight and Passenger Agent of the St. Paul.

S. H. Vaughn, who has been well-known on the upper peninsula as the commercial agent of the St. Paul road, with headquarters at Houghton, has been promoted to the post of division freight and passenger agent with headquarters at Milwaukee. He will spend a couple of weeks in this region showing his successor, Herbert E. Stewart, who has been traveling agent on the Superior division of the St. Paul, over his new territory.

Mr. Vaughn has been with the St. Paul road and its predecessors since 1882. He entered the employ of the Milwaukee & Northern in that year and continued with that road until it was absorbed by the C. M. & St. P. in 1890. For some time he was traveling agent on the Superior division and went to Houghton as commercial agent in December, 1899. He moved his family to Houghton and has since resided there. Mr. Vaughn's new position comes in the nature of a promotion both as regards scope of the work and finances. He succeeds W. E. Tyler, who has been transferred to Chicago. Mr. Vaughn's territory embraces the Superior division in Wisconsin and the upper peninsula of Michigan.

IRON NOTES.

At the Clifford property of the Antoine Ore company much development work has been done during the winter in the way of sinking, raising, drifting and cross-cutting. A new shaft-house has also been erected. The mine is now in fine condition and if the conditions warrant it will make a heavy shipment this season.

With dock improvements now under way, intended and provided for by appropriations, at the various ports on the upper lake, by the United States Steel corporation and other railway interests, there will in another year be capacity for shipping 40,000,000 net tons of ore alone in a single season. Most of these improvements will be made at Duluth.

The head offices of the Champion mine of the Marquette range are to be moved to Duluth, and Walter Fitch, who has been its manager, will superintend the opening of new mines for the Oliver-Snyder interests on Mesaba and other ranges. Gradually Duluth is becoming the center for mining operations on all the iron ore ranges of Lake Superior, whether they are in Minnesota, Wisconsin or Michigan.

Open the door, let in the air, The winds are sweet, the flowers are fair.

Joy is abroad in the world for me, Since taking Rocky Mountain Tea, Stafford Drug Co.

Hordes of Immigrants Coming.

All Records Likely to Be Broken by the Influx This Year.

New York, April 1.—"It looks as if the year 1903 would break all previous records for immigration into the United States," said Commissioner Williams at Ellis island today. "Last year we took in, roughly speaking, 750,000 immigrants at all the ports of the United States. Of these 451,637 entered the port of New York, an average of more than 1,200 a day every day in the year."

The ever-increasing horde of incomers is so great as to tax even the well-systematized and energetically run bureau. Employees are working overtime daily and the clerical force is so swamped with the ever-increasing work that they are forced to do duty on Sunday and at night. This week alone, according to cable advices, the population of the United States will be increased by 18,000 more newcomers. Each pays a \$2 head tax, so that Uncle Sam will be \$36,000 richer next Saturday. Last year 57,000 immigrants arrived in March. This March there have been 65,000 arrivals. This week twenty-one vessels were due—eleven with passengers aboard.

"It is remarkable," said Mr. Williams, "how the character of our enormous immigration is changing. Where once they came from northern Europe, Scandinavia, Germany and Ireland, now they come from eastern Europe and Italy in constantly increasing numbers. Last May we had 90,000 arrivals, which, I think, is the record month. Feb. 28 last was the record day, when we admitted 6,800."

MAYAS TROUBLE MEXICANS.

Indians of Yucatan Continue Their Bitter War for Independence.

City of Mexico, April 1.—Notwithstanding that the Mexican troops have achieved many victories over the Maya rebels of Yucatan the Indians still occupy their original capital, Chan Santa Cruz. Advices state that the federal troops cannot approach the Maya capital. There are now 8,000 troops engaged in fighting the Mayas. These are under the command of Generals Vega and Martinez.

It is estimated that the rebels number 15,000. They are well armed, securing weapons and ammunition from the English traders of Belize or British Honduras. The Mexican government has been for two years trying to acquire British Honduras by purchase. Negotiations are still under way. It seems that the longer the Maya war lasts the more anxious is Mexico to buy British Honduras and the more anxious Mexico appears the less agreeable is England to part with her colony.

The Mayas are not to be compromised with as yet. They are fighting for independence and will accept nothing less.

HOW LONG DOES COKE LAST? Both questions answered in our big ad. Do not miss it. The Marquette Gas Light Co.

OPTICIANS CANNOT AID those persons who are so short-sighted as to neglect insurance. 5th year, and doing business in 35 States. Mutual Life Ins. Co. of Vt. (Mutual) Organized 1850. M. W. Marshall, Gen. Mgr., Marquette, Mich.

A FRIEND

said recently: "I buy all my boy's clothes now with what I save on my own." He used to have all his clothes made-to-order, but now he has learned that a certain make of ready-to-wear garments will give him all that he can ask for in style and durability.

He always looks for this label,

GRABOWER'S BIG STORE

EXCLUSIVE EASTER EFFECTS!

If there is one department we've more pride in than another, it's our Millinery department. The new Millinery gets first showing at our ANNUAL SPRING OPENING. The dates are April 9th, 10th and 11th.

Paris, London, Vienna and New York have contributed to this collection of Spring Headgear. Though we are not direct importers, our artists are in close touch with Europe and America's best, and make copies that would deceive the elect. Equally fine and fundamental will be the difference between our millinery and the ordinary kind. That we will show a much larger and more varied line, will surely be proven at our grand opening.

Our artists are busy working both night and day preparing exclusive and novel effects in this line which we will show, such as are seldom seen at the beginning of the season. The utmost care has been taken in choosing qualities and styles. The latest novelties are here at the very lowest prices

AT GRABOWER'S BIG STORE!

We are pleased to announce that we have completed arrangements by which we are made exclusive agents in our city for the new DOROTHY DODD SHOES that are now causing so big a sensation all over the country. Our first Dorothy Dodd opening display will be today and tomorrow. Your attendance upon this occasion will afford us pleasure and you an opportunity to see these much-talked-of Shoes. We also carry a complete line of Utz & Dunn's Shoes.

SOROSIS SHOES

The retail profit on these shoes is so small that many dealers discontinue their sale on that account.

Until we establish proper representation in your city we will deliver all orders for Sorosis shoes free of express charges, direct from the factory, or nearest representative. All styles, \$3.50.

SOME SPECIAL HAND-MADE STYLES FROM CUSTOM DEPARTMENT, \$5.00 AND UPWARDS. If your dealer does not keep them, send for self-measurement blank and copy of our new Novelties, containing a splendid love story, "The Sharpness of Steele," by Julian Street, with five beautiful illustrations. Address, SOROSIS SHOE CO., NEW YORK, BOSTON, OR LYNN, MASS.

SHOE TALK.

Our spring line of Shoes is now ready for inspection. We can show you Shoes for men, women, boys and girls in any style and price. We have the "Eaton" \$3.00 shoe for men. We have the exclusive sale in this city for the "Dorothy Dodd" \$3.00 shoe for women. We have the "Little Giant" School Shoes for boys and girls. We have the "Red School House" Shoes for children. Come in and buy a pair of our Shoes and make your feet glad.

A BONANZA CHANCE

3,000 Shares Only at 50c. A Wonderful Strike

The GOODSSELL MINING AND MILLING Co. mines are located five miles southwest of the Silver King and Daly West mines of Park City, Utah, and has seven claims in one body with 3,600 lineal feet of the same apparent Contact Lode, and same character of ores as the Silver King. The mine office is located at American Fork, Utah, where the ores are brought 18 miles on down grade road to railway and only 30 miles to Salt Lake City smelters. We expect 2 railway to our mines within a year. The Silver King Co. has paid \$6,400,000 dividends, and now pays \$100,000 per month. We have hopes of doing half as well.

TELEGRAM.

American Fork, Utah, March 8, 1903. B. W. Goodsell, Chicago: "Have now ten feet of ore, all high grade. Congratulations all." Wm. L. Goodsell, Treas. Mr. B. W. Goodsell, President Goodsell Mining & Milling Co., Chicago, Ills.: My Dear Sir—I take pleasure in stating to you that I am well acquainted with the ground which your mining company controls in American Fork, Utah. Have visited same many times, and am also acquainted with the Miller mine adjoining your property, and also the Dutchman, and I do not hesitate to say that in my opinion you have a very good property and chances for a very big mine, such as the SILVER KING, in Park City, and the DALY WEST mine. There is no question but your property is situated on the same mineral belt as these big mines above referred to, and I congratulate you on your success in securing such valuable ground. Yours very truly, P. A. H. FRANKLIN.

NOTE.—Dr. P. A. H. Franklin of Utah is one of the greatest mining operators in the West. He is a man of sterling qualities and his recommendation of a mining proposition would command millions in New England with investors. To have him gratuitously proffer to us the above statement makes it worth double that of a report that was made for pay. Dr. Franklin has for years been trying to obtain the Miller property adjoining ours, and his statement that we have the Silver King and Daly West lode, confirms what our company has known to be the case, and this valuable letter will be gladly received by all our stockholders. Very Respectfully, B. W. GOODSSELL, President.

We need only a small amount of funds to put on machinery and extra buildings, and to carry us over until the snow is gone, and shipments made early in May. After that no more stock will be offered at less than par. This stock should be worth \$3.00 per share within a year. Last chance to buy this stock at 50 cents per share. No lot of less than 100 shares accepted.

GOODSELL MINING AND MILLING CO. B. W. GOODSSELL, President, 33 So. Canal Street, Chicago, Illinois.

Ishpeming and its Environs.

CITIZENS' MASS MEETING.

Tonight at Swedish Home Hall—All Voters Invited.

The Citizens' party will hold a mass meeting tonight at 8 o'clock at the Swedish Home Hall for the purpose of perfecting an organization. W. T. Petter, chairman of the city convention, will preside. Ward committees will be selected and the whole machinery of the campaign will be started. No circular letter of invitation will be issued, but the meeting will be open to all and those who are in sympathy with the party will assist in naming the committees. After the formal business is disposed of a number of speeches will be heard.

Withdraws from the People's. George R. Persons was endorsed by the People's convention Tuesday night as candidate for alderman from the Seventh, but as soon as he was informed of the new honor that had been thrust upon him he hastened to decline to be considered in any way the People's candidate.

Yesterday morning Maurice Laughlin informed The Mining Journal that he would refuse to stand on the People's ticket as the candidate for supervisor from the Ninth. Rowell Jacob, who was nominated for constable on the People's ticket in the second ward, refuses to allow his name to be used. His father said last night that the boy is not of age, that he was nominated without being consulted and is adverse to taking any part whatever in politics as he is too busy working in the shop. There are now several vacancies on the People's ticket. They will probably be filled by William Andrews and J. D. West, who were empowered to do the work.

James Nugent, who was nominated for constable in the Fourth ward on the People's ticket, has no aspirations for the office and announces his withdrawal.

Best in the City.

The residents of the Fifth ward say that they can lay claims to a greater number of statesmen and politicians in office than any other precinct in the city. The people of the Fifth are proud of so many distinguished citizens. Yesterday a number of them got together and counted up the following list: C. J. Byrns, representative in the legislature; E. Skoglund, county treasurer; W. T. Petter, city assessor; J. H. Quinn, city assessor; Joe Hoop; J. H. Quinn, secretary of the state board of barbers' examiners; Eric Johnson, candidate for mayor on the People's ticket; Abram Hirwas, poundmaster; John Delbridge, the city recorder, was a resident of this ward at the time of his election, but has since removed to the Sixth. If there are any political plums of any description that are not already claimed it is a pretty safe prediction to say that a Fifth ward candidate will be after them.

INDORSED BYRNS.

County Convention of Woodmen Favored Him for Director.

At the county convention of the Modern Woodmen of America at Republic yesterday the following resolutions were adopted by a unanimous vote: "Whereas, the Woodmen of the county of Marquette feel greatly honored with the recognition accorded our esteemed neighbor, Hon. C. J. Byrns, who is so favorably mentioned for the office of director of the local camp; and "Whereas, we feel the neighbors of Michigan have acted wisely in advocating the candidacy of so loyal a Woodman and worthy neighbor, it gives the Woodmen of Marquette county special pride in endorsing Neighbor Byrns for said office. We feel that in our state deputy we have one who is faithful to every trust; who is always alert to advance the interest of Woodcraft, and especially the neighbors of Michigan; therefore be it

"Resolved, That the delegate representing Marquette county and the camp at Ovosso, Mich., May 6, 1903, use all honorable means to secure a delegation from Michigan favorable to the candidacy of said Neighbor Byrns."

By adopting the following resolution the convention gave its approval of the readjustment plan. "Whereas, the members assembled in convention at the Marquette county camp held at Republic this first day of April, 1903, realize that readjustment of the present rates of the Modern Woodmen of America are necessary; therefore be it

"Resolved, That the delegate representing the county of Marquette be instructed to use all honorable means to support and endorse some adequate plan of readjustment at the state camp, to be held at Ovosso, Mich., May 6 next."

John Hosking was chosen as the county delegate to the state camp with C. E. Sundstrom of Michigan as alternate. The next meeting of county delegates will be held at Michiganville April 1, 1903. The Ishpeming delegation at the Republic consisted of E. A. Doty, John Lutey, John Hosking, Stephen Collick, E. Swanson, W. Nault, G. B. Youren, James Allen, P. Hoot, Charles White.

MAKES A CLEAN SWEEP.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Bueken's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guaranteed to give satisfaction by Stafford Drug Co., druggist.

We are selling sixteen-inch pine slabs at \$3.00 per load. Consolidated Fuel & Lumber Co. (11-24-11)

GOOD FOR CHILDREN

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heats and soothes and cures permanently by enabling the lungs to contribute pure life-sustaining oxygen to the blood and tissues. H. Harwood, Ishpeming, Stafford Drug Co., Marquette.

ADMINISTRATION ASSAILED.

Speakers at People's Convention Criticize Alleged Extravagance.

The "extravagance" of the present city administration will be the rallying cry of the People's ticket if the speakers at the mass convention at Andrews' Hall Tuesday night sounded the key note.

William Andrews started the speech-making. He had been elected permanent chairman of the party and nominated for municipal judge and he rose to express his thanks. However, that was only a preliminary and he was soon going at full swing on a characteristic speech. The city administration, the corporations and the poundmaster all received his attention and a liberal amount of caustic criticism. He referred to the surplus fund in the treasury, saying that it would not suffice to meet the expenses until taxes are collected again and then "the people of the city of Ishpeming will have to borrow from the banks."

J. D. West reminded the audience that he was the only member of the council who voted in opposition to the appropriation of \$300 at the time of the visit of the legislative junketers. He thought the law-makers who journeyed hither were junketers in the original sense of the word and that the people's money was squandered in their entertainment.

Thomas J. Dandon spoke on the city's finances. The report of the finance committee showed that over \$17,000 had been spent on the highways, but little improvement had resulted in their condition. Matt Wasley was called upon and delivered a short speech. The remarks of all the speakers were well received and the convention appeared to be fully in sympathy with them.

Eric Johnson, the People's nominee for mayor, is the proprietor of a second-hand store at the corner of Cleveland and First streets. He is a resident of the Fifth ward, and has never occupied a city office.

A NOTED HUMORIST.

Curtis G. Morse, the noted Boston humorist and monologist, who appears with the Daring Swedish Ladies Quintet in this city tomorrow night, is one of the very few American entertainers who have had the honor of appearing in a private entertainment at Windsor Castle before the present King Edward and the lamented Queen Victoria. Mr. Morse is a most finished artist in his line, and his humorous "Mr. Dooley" monologue; his pathetic rendition of the mortgage scene between the "widow" and "David Harum"; and his thrilling recital of "The Fight in the Wilderness," a masterpiece of descriptive elocution, will all be enjoyed quite as much as the singing of his fair associates.

FROM AN AUCTIONEER.

Col. C. H. McDonald of Greenview, Ills., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my heart, becoming irritated and hoarse as follows. When troubled in this way, I always use Hart's Honey and Horehound. It is the only remedy that has ever done me any good and it positively cures." Sold by the People's Drug Store.

ISHPEMING IN BRIEF.

Ed Locher, Steve Malloney and Jean Coffey left for Hibbing Tuesday evening.

Part of the force at the Cleveland Lake is idle on account of repairs to the shaft.

Work on the new Braastad block was suspended the greater part of yesterday on account of the unfavorable weather.

Roy Trebilcock entertained a number of his friends Tuesday evening at a party held in observance of his birthday.

F. P. Tiblson's residence has been removed to its new position and the site for the new library will be cleared in a few days.

Rev. S. Polkinghorn, wife and daughter, expect to leave Saturday morning for a visit to England. They will probably be absent for about two months.

George A. Newett, who left Tuesday night, will probably go to Arizona before returning, and is negotiating the purchase of two big mining claims there and will be absent on his mission for two or three weeks. One of the claims in which he is interested has already been optioned.

Extensive repairs have been in progress at the electric light station for the past few days. They have interfered with the operation of the machine that supplies the current for the street lights. The improvement will not be completed for several days, which means that the streets will be in darkness for a few nights longer.

The practical joker was not much in evidence yesterday, although it was the day when he was supposed to be particularly active. However, a number of the innocent were deceived by some of the ancient gags and attempted to pick up pocket books that were nailed to the sidewalk or gathered up worthless parcels that appeared to be lost.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength. (4-1-11)

The ladies of the Episcopal church will hold a market at the Guild hall Saturday forenoon. Pasties, pies, cakes and all kinds of pastry will be on sale.

IT IS SAID THAT "ESAU" has learned a new one on exhibition in London. He has had his life insured in a Live Stock insurance company. The first step in knowledge is to know enough to insure, and the second is like unto it, to know where, when and doing business in 3 States. Nat'l Life Ins. Co. of Vt. (Mutual) Organized 1853. M. W. Marshall, Gen. Mgr., Marquette, Mich.

PAINFUL PERIODS

are overcome by Lydia E. Pinkham's Vegetable Compound.

Miss Menard cured after doctors failed to help her.

"Lydia E. Pinkham's Vegetable Compound cured me after doctors had failed, and I want other girls to know about it. During menstruation I suffered most intense pain low in the abdomen and in my limbs. At other times I had a heavy, depressed feeling which made my work seem twice as hard, and I grew pale and thin. The medicine the doctor gave me did not do me one bit of good, and I was thoroughly discouraged. The doctor wanted me to stop work, but, of course, I could not do that. I finally began to take Lydia E. Pinkham's Vegetable Compound and felt better after taking the first bottle, and after taking six bottles I was entirely cured, and am now in perfect health, and I am so grateful for it."—Miss GEORGE MENARD, 637 E. 15th St., New York City.—25000 Forfeit if original of above letter proving genuineness cannot be produced.

Lydia E. Pinkham's Vegetable Compound cures female ailments when all other means have failed.

MESABA AFFECTED.

The stock craze is not confined to Marquette county or the copper country, as the following from The Virginian of Virginia, Minn., shows: "Everybody seems to be going stock crazy. The mania not only affects the people of Virginia, but people of nearly every other town of any size in the country. There are, of course, many good propositions on the market and there are also a great many more that are not worth the ink used to write up the certificate. People who have money to invest should be careful. There are wild cat schemes in mining just the same as in oil. Oil is not to be found in every well that is sunk, neither is there iron ore, gold, silver or copper found in every drill hole."

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall, European plan. Rooms, \$1 per day; with bath, \$1.50.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. Stafford Drug Co., Desjardins' Pharmacy, The People's Drug Store.

TO MEET APRIL 18.

Session of Executive Committee, Firemen's Association, Called.

T. J. Flynn, secretary of the Upper Peninsula Firemen's Association, was in Houghton Monday to meet and confer with Caspar Brand, the association's president.

The upper peninsula departments are interested in the following bill to provide for the payment of a certain per cent of the gross premiums received by certain underwriters and fire insurance agents for the benefit and maintenance of voluntary fire departments.

Aid for Volunteer Firemen. "The people of the state of Michigan enact: Section 1.—There shall be paid on the first day of February in each year to the treasurer of any city or village, or town containing an unincorporated village, having or maintaining a regularly organized fire department, as hereinafter provided, for the support and maintenance of such fire department, the sum of one per cent of the gross amount of all premiums which, during the year or part of a year ending on the next preceding first day of January, shall have been received by such underwriter or agent or by any other person for him, or shall have been agreed to be paid for any insurance effected or agreed to be effected or promised by him as such agent or otherwise, against loss or injury by fire in any such city or village, or town containing an unincorporated village.

"No person shall, in any such city, village or town, as underwriter, agent or otherwise, effect or agree to effect, or procure to be effected any insurance upon which the above duty is required to be paid until he shall have executed and delivered to such treasurer a bond in the sum of \$1,000 with such securities as such treasurer shall approve, conditioned that he will render to such treasurer on the first day of each February a just and true account, verified by his affidavit, of all premiums which during the year ending on the first day of January preceding such report, shall have been received by him or any other person for him, or agreed to be paid for any insurance against loss or injury by fire in any such city, village or town which shall have been effected or agreed to be effected by him, and that he will, on the first day of each February, pay to the said treasurer two per centum upon the full amount of such premiums.

For Support and Maintenance. "Every person who shall effect or agree to effect any fire insurance in any such city, village or town without having executed and delivered such bond or who shall willfully omit to pay such duty shall, for each offense, forfeit one hundred dollars, which shall be paid into the treasury for the support and maintenance of such fire department. In case the fire department of any such city, village or town be a voluntary department, or part paid, or either, having a treasurer or treasurers, all moneys received or collected by virtue of this section shall be paid to the treasurer of such department for the support and maintenance thereof exclusively.

Who Shall Benefit Thereby. "But in case any city, village or town shall have and maintain a system of waterworks with sufficient pressure for fire purposes, with one or more hose companies or not less than ten active members, each having not less than 500 feet of sound rubber, leather or other hose, with one or more hose carts kept fit and ready at all times for actual service, such city, village or town shall not be required to maintain a fire engine and the fire department shall be entitled to receive the two per centum named in this section.

Property Owners Liable. "The owner of any property situated in any city, village or town within this section who shall insure the same in any company not authorized to do business in this state, or in any company authorized to do business in this state but

through agents or persons not residing in such city, village or town, and who has not complied with the provisions of this section in regard to filing bond, shall be liable to the city, village or town in which such property is situated for the percentage of premiums on the insurance on such property, and such percentage may be recovered in a civil action brought in the name of the city, village or town the fire department of which is entitled thereto; and all actions to recover such percentage may be so brought."

LEFT THE FIELD.

Firemen Claimed Unfair Treatment in Tuesday Night's Game.

The last indoor baseball game of the season, played at the rink Tuesday night between the city team and the Houghton team, terminated in an unsatisfactory manner. The firemen were at the bat in the first half of the ninth inning when the trouble arose. The score then stood 13 to 14 in the firemen's favor. The home team insisted that two of the visitors had been put out and the umpire backed up the claim by declaring them out. The firemen failed to see the matter in that light and as neither team would yield the point the firemen picked up their belongings and left the rink. The game was fairly well played as far as it went. Gibbs and Carr were the firemen's battery and Lacombe and Scanlon were the mainstays of the home team.

MADE SUPERINTENDENT.

O. B. Warren, of Hibbing, has accepted the position of superintendent of the Higgins, the new property in section 4, 58-17 which is being opened by the United States Steel company. Mr. Warren was connected with the Mahoning mine at Hibbing for a number of years previous to last summer when he accepted a position with the Donora Iron company. This company was taken over by the United States Steel company this winter. Mr. Warren had charge of the Penobscot at Hibbing with his former employees, but as the Steel company has decided to abandon that property for the present Mr. Warren has been transferred to the Higgins, Virginia, Virginia, Minn.

IT WAS A JOKE.

George J. Maas informed The Mining Journal yesterday that the account of his invention for improving Holland's dykes, which was published in the Milwaukee Sentinel and reprinted in The Mining Journal, is entirely misleading. He says that a friend told the yarn to a reporter as a joke, but the newspaper man took it seriously and wrote up the fake story as a tale founded on truth. The account appeared on the first page of the Sentinel and Mr. Maas was much surprised and embarrassed when he found that he had been given so much attention. He denies the statements in regard to the invention.

LOCAL LAONICS.

Tim Curran is here visiting friends. Miss Grace Eggle is here from Ann Arbor, visiting her brother, N. G. Eggle. O. Haagsma of Hancock has taken a position in the office at the Cambria mine. Tom Collins has moved his meat market to Mrs. Chris Sporey's building on Jackson street. Mrs. Chris White of Green Bay was here yesterday, attending Miss Minnie Rasmussen's funeral. Mike Curley and Fred Nightingale, who had been visiting friends here for several days, left Tuesday night for Duluth. Work has been commenced on the erection of Octave Yvondra's residence on Peck street. E. Gagne has the contract.

Peter McBride and wife left Tuesday night for Hibbing, where Mr. McBride expects to work for Captain Samuel Hoar, who is engaged on his new sand shaft proposition. The members of the two high school girls' basket ball teams have displayed some artistic posters announcing the game Friday night. They are the work of high school girls. No tickets will be sold at the door, but they must be secured in advance.

A GREAT SENSATION.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c. and \$1.00. Guaranteed by Stafford Drug Co., druggist. Trial bottles free.

It's the little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds. Dr. Wood's Norway Pine Syrup.

SPRING OPENING. Tuesday and Wednesday, APRIL 7th and 8th. Come and see the elegant HATS. A cordial invitation is extended to all. MICHIGAMME, MICH. The Misses A. and L. Stedele.

Champion.

INCREASE IN WAGES.

Station Agents, Operators and Lever Men on St. Paul Get More Pay.

The conference between the committee representing the Order of Railway Telegraphers and the officials of the Chicago, Milwaukee & St. Paul Railway company, which lasted from early in January until March 12, resulted in a better schedule of wages for the station agents, operators and lever men. The new schedule went into effect April 1. Copies have been received within the past few days. Only those whose stations are affected by the change are provided with them. The new schedule is declared to be the best in vogue on any railway system in this country. The increase in wages averages about fifteen per cent, and twelve hours constitutes a day's work. One hour will be allowed for dinner. Men compelled to work dinner hour will be paid overtime. All time worked over the twelve hours will be allowed at the regular wage rate. However, an employee must put in thirty minutes or over before he gets an hour. If he works less than thirty minutes the extra time will not be granted.

No operator shall receive less than \$50 per month and overtime. Operators and agents are expected to be on duty all day. There are two specified times at which they may begin work. One is at 6:30 a. m. and the other an hour later. The time for beginning work is determined by the superintendent of the division. Each operator and agent will receive a "good morning" call at the appointed time. At quitting time they must respond to a "good night" from the dispatcher. The time is kept by the latter official. The agents are also expected to keep their own time and that of their men and report the same to the dispatcher on a certain day in each month.

Agents who are obliged to attend to pumping stations will receive an extra compensation of \$7.50 per month. At some of the smaller stations the agent has many duties; he is custodian of the switch light and obliged to keep them in order and place them upon the switches. Where from two to four lights are used \$4 per month extra will be allowed. For each additional light above four fifty cents is given.

No agent will be obliged to shovel snow from platforms or scrub depots. One of the best features of the new schedule is the rule governing the removal of agents from stations. Whenever there is an opening all employees qualified for the position are notified a certain number of days in advance and given an opportunity to apply for the place. Under the old system the oldest agent was entitled to the position. According to the new plan the oldest employe among the applicants will get it. If it is later determined that the new agent is incapable of holding the position he shall be permitted to return to his former place.

The schedule for joint agents, such as Mr. Fiske of the local station, has not yet been issued. It is understood that the St. Paul officials will meet the officials of lines with whom they have joint stations and agree on a schedule. It will be from thirty to sixty days before the joint agents receive full instructions.

In the new schedule the employes feel that they have been treated most liberally by the company. The representatives of the Order of Telegraphers have promised that the corporation will not be taken advantage of by members of the organization. The officers of the order will keep tab on their members and they will, in a measure at least, be responsible for the actions of men working under the schedule.

At many points where passenger trains arrive late in the evening the agents and operators will put in more extra hours than similar employes at other points. They are expected to remain on duty until the last train out has reached the first block station. For instance, the local men will not receive their "good night" call until the late passenger is reported at Republic. At the latter place the agent does not get his call until the train reaches the next block station below. This rule applies all along the system. In many cases this gives the agent or operator an hour overtime as it requires more than thirty minutes to make the run between the two stations.

THE WOMEN MOVED.

Albert Clouthier, a woodsman, who arrived here the latter part of last week, undertook to take possession of the Beacon House on short notice. He spent a night down town and during the forenoon of the following day strolled up to the Beacon. He acted strangely from the time he entered and the women became frightened. When the fellow began chasing them through the house they began to scatter and all went into the street. Deputy Sheriff Marchand was sent for. He had no trouble handling Clouthier, who was as meek as a lamb when the officer took hold of him. The fellow was slightly demented. He was taken to Marquette for examination.

FINE BOWLING RECORD.

El Larke has set a rapid pace for the members of the Beacon club who are trying for records at the bowling alley. One evening recently he scored 238 points, just twenty points more than the best record of his brother, Tom, who stands second on the list. El bowled a perfect game until he reached the fifth frame. He then knocked down but nine pins. He had had luck again in two more frames, but he wound up by taking ten down on the last frame. Mr. Larke is easily the star bowler of the club.

WE CARRY EVERYTHING IN THE VEGETABLE LINE AND ONLY THE CHOICEST Pine Apples, Navel Oranges and Bananas.

It's not how much, but how good, at GEO. HAUPT'S GROCERY, NEGAUNEE.

Sold Only at PEOPLE'S DRUG STORE, Marquette.

HOTEL DEE HOUGHTON, MICH. (European Plan.) SACKRIDER & M'KENZIE, Proprietors. PEOPLE'S DRUG STORE, Marquette.

EDUCATORS OF NOTE

WILL ASSIST WITH INSTRUCTION OF NORMAL SUMMER SCHOOL.

FIRST CLASS MEN WILL BE HERE

PRINCIPAL WALDO PLANS AN UNUSUALLY ATTRACTIVE FEATURE.

President Hall of Clark and Professor M. V. O'Shea of Wisconsin Already Engaged to Deliver Lectures to the Students.

Principal D. B. Waldo, of the Northern Normal, already has under consideration plans for the summer school of 1903, which it is proposed to make the most successful of the series. These summer schools are not the least important of the Normal's work, giving, as they do, to the upper peninsula teachers an opportunity to get instruction in special courses in an environment that enables them to combine work and recreation in a satisfactory manner.

Last year the total attendance of the summer school was about 120, and this summer it is expected to be considerably larger. All the principal cities and towns of the upper peninsula are usually represented and each county sends its quota of students. The cost is as low as to be within the reach of all teachers. The various boards of education recommend the work as a first class means of keeping their teachers abreast the times and in touch with the best educational methods. They are always highly gratified to have them enrolled in the summer schools.

The session this summer will, as usual, last six weeks, beginning July 6 and continuing until August 14. The major part of the work of instruction will be in the hands of the members of the regular faculty, who will conduct courses in their various departments arranged with the demands and the limitations of the summer school particularly in mind. There will be a wide range of work open to the students, who may be assured of finding many things which they will specially want.

Principal Waldo has projected an unusually attractive feature for the summer school of 1903. It has, as remarked, six weeks, and he is planning to have in attendance each week one man of acknowledged position in the educational world who will instruct and lecture for two or three days in connection with the work of the regular Normal teachers. The lectures will be given in the afternoon, and will be free for all members of the summer school. Some of them will likely be of more or less popular interest, with the result that they will attract townspeople.

Prominent among the men with whom Mr. Waldo has completed arrangements for this special work is G. Stanley Hall, president of Clark university at Worcester, Mass. President Hall is regarded as one of the best posted men on general educational topics in the country, being ranked in this respect with President Eliot of Harvard, President Butler of Columbia and United States Commissioner of Education Harris. He is an educator of wide reputation, and his visit to the Normal will be a real event.

Professor M. V. O'Shea, of the educational department of the University of Wisconsin, is another of the men with whom Principal Waldo has made definite arrangements to come to Marquette. He is likewise an educator of high rank. President L. H. Jones, of the Ypsilanti Normal, who is a speaker at the Upper Peninsula Educational association's meeting here last fall, will be at the Normal one week, and it is likely that Professor R. D. Salisbury, of the department of geology in the University of Chicago, will deliver a series of lectures on physiography, on which he is an authority. Definite arrangements with him, as well as with a couple of other men whom Mr. Waldo has in sight, have yet to be completed.

This new feature of the summer school work will make the session much more interesting and valuable than it has been heretofore and it should be a great drawing card, as far as attendance is concerned.

FOR FINNISH RELIEF.
Balance of the Martiniague Fund Turned Over for That Purpose.

Last summer a fund was collected here for the relief of the sufferers in the Martiniague and St. Vincent catastrophes, remittances being made from time to time to the Hon. Don M. Dickinson at Detroit. As calls were received by him money was duly forwarded to the national committee at Washington. So generous was the response, however, that when word was received that no more money was needed there was still a considerable balance on hand, which has just been distributed pro rata. Marquette's share was \$23.40. The original list of the local subscribers being lost and at the suggestion of several who had contributed, it was decided to turn this sum over to the fund for the relief of the famine sufferers in Finland, which has accordingly been done. This action will doubtless meet with the approval of all the original contributors.

FIRE WOOD.
Good dry hardwood, block or split dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-14)

DR. HOLMES ONCE SAID:
"It is better to be young at 69 than old at 25." A good way to be young at 69 is to receive an Endowment taken at 25. Other ages just the same. It is a question of doing it now. 5th year, and doing business in 25 States. Nat'l Life Ins. Co. of Va. (Mutual). Organized 1850. M. W. Marshall, Gen. Mgr., Marquette, Mich.

HOME FROM EXTENSIVE TRIP.

Mr. and Mrs. S. C. Armstrong Have Been Away a Number of Weeks.

Mr. and Mrs. S. C. Armstrong have just returned from an enjoyable visit with Mr. Armstrong's family in Missouri, where Mr. Armstrong met many former classmates and friends with a great deal of pleasure in Mexico, Bowling Green, Palmyra, Hannibal and New London. While in Kankakee, Ill., Mr. Armstrong met Mr. and Mrs. F. L. Haw, who formerly lived in Marquette. Mr. Haw is now a freight conductor on the I. L. & N. road. This line is doing a fine belt line business. It has a first class roadbed and is doubleheaded out of Kankakee with from eighty to a hundred cars, a single locomotive hauling from fifty-five to eighty cars. They are mostly refrigerator, fruit, oil tank and flat cars, the latter loaded with machinery. Mr. Armstrong says the coal furnished by the Illinois Central and I. L. & N. roads is far inferior to that used on the South Shore line.

A COMEDY DRAMA.

"The Man from Sweden" Will Be Presented Here Saturday Evening.

Knute Erickson, in "The Man From Sweden," who will be seen at the opera house Saturday evening, is winning favor and success in an unmistakable manner with his clever portrayal of Carl Anderson, the good natured Swedish-American. The play is the best he has ever been seen in and Mr. Charles Newman, the author, seems to have striven for novelty with considerable success. He has succeeded in getting away from the stereotyped plot and has actually written a comedy drama without introducing those impossible comedy characters hitherto so familiar in plays of this sort. The play deals with men and women of today and several characters entirely new to the stage are introduced. Many sensational scenes and climaxes are presented and the scene in the Minnesota woods, with a blizzard raging, is one of the most thrilling scenes ever presented on the stage.

PURCHASE OF STONE.

Father Pinten Buys All That Is Left in the Grace Furnace.

Father J. G. Pinten, acting for the cathedral parish, yesterday closed a deal with the Lake Shore Engine works for all the stone left in the old Grace furnace plant, recently purchased by that company. This stone will be used in the erection of the girls' parochial school and parish building that is to be put up at the corner of Superior and Fourth streets. The site, a square lot of 150 feet, was recently purchased from Mrs. Olive Harlow.

The stone in the Grace furnace is of first class grade and color. Much of it is fine building material. It resembles in color and grade the stone that was used in building St. Peter's cathedral, and so the girls' school will harmonize with the church directly across the street. Father Pinten says that there is stone enough for the erection of the entire building that he has in mind. The new school will be a slightly and dignified structure.

The stone will be hauled to the site at once, a start being made without loss of time. Plans for the proposed building are now being perfected.

CONTROLLER BAY'S REPORT.

It Is Deserving of a Careful Perusal by All Taxpayers.

Controller Bay's report, published in The Mining Journal this morning, is worthy of a careful perusal by all taxpayers in the city of Marquette. Every now and then some one asks the question, "where does all the money go?" The controller's report is designed especially to answer it and it does answer it, carefully and fully, for anyone sufficiently interested to give the figures a little study. Marquette's scheme of city government gives the taxpayers extraordinarily good opportunities for keeping track of the city's affairs, and if anyone is insufficiently informed in regard to them it is because he is too heedless to read the reports of council proceedings, published regularly, and to inspect the complete annual statement.

Controller Bay's report gives an account of every cent expended by the city in the year just closed. The accounts are arranged under schedules, in a logical manner. It shows the ledger balance on the 10th of March, in which the city indebtedness appeared at \$380,500 and a full analysis of the several accounts. It contains a full statement of the city's assets and liabilities, a statement of salaries and wages, a schedule of city property and a statement of the estimated amount to be raised by taxation this year, which is \$109,900. The controller's report includes embodied the marshal's report, and the annual statement of the street commissioner, the treasurer, the electric light and power, park and cemetery, fire and water and library commissions.

DON'T!
Don't get the notion that the curative power of a medicine exists in the name. It must be in the medicine itself. You may not have heard of Re-Go Tonic Laxative Syrup. It is not made of figs because the laxative principle of figs are the seeds, yet it is as pleasant to take as figs are to eat and is a certain cure for biliousness, constipation, indigestion and stomach troubles. The name is Re-Go, which in Sanskrit means "good." The merit is all in the medicine itself. Sold by the People's Drug Store.

DO YOU WISH TO KNOW
the secret of economy? Two words explain it, "Use Coke." See our big ad. The Marquette Gas Light Co.

VALLEY OF THE ONTAGON.
A beautifully illustrated poem of copper country scenery, in colors. Size, 6 by 2 in.; cover, gold and embossed. Price 50 cents, postage prepaid. Address, Rev. W. E. Brown, St. Ignace, Mich. (7-19-10)

MARQUETTE & ARIZONA MINING CO.—NOTICE TO STOCKHOLDERS.
After March 25 a fee of one dollar will be charged for each certificate issued upon a transferred certificate. The Marquette & Arizona Mining Co. (3-23-11)
Jos. J. Wirtz, Sec'y.

WILL VISIT MARQUETTE.

State Press Association Will Come Here from the Soo.

The Michigan Press association, which will hold its annual outing this year at the Soo, some time in the latter part of June, is planning to extend its visit to the upper peninsula to Marquette and the copper country. The association has just asked General Passenger Agent Hibbard of the South Shore what he can do for it, and of course he can do everything. If the Michigan newspaper men want to pay the Queen City and the copper country a visit the South Shore road will afford them every facility for doing so. It is probable that a special train will be run for their accommodation. It is suggested that the party spend a few hours in Marquette and then go on and pay a visit of a day to the copper country. Returning, the party will go to Menominee via the Northwestern, thence via the Frankfort ferry, to the lower peninsula. The proposed joint would give a representative body of lower Michigan newspaper men an excellent opportunity to become acquainted with the North country, and the results could not help but be beneficial to all concerned. At present only a few upper peninsula newspaper men belong to the Michigan Press association, but it is expected that this will be all changed after this summer, many of their number planning on going in at the next meeting.

COPPERS DID BETTER.

The Tone of the Whole Market Showed Improvement Yesterday.

Paine, Webber & Co. said of the Boston market: "The tone of the whole market showed improvement today. Though there is very little change in prices, the selling pressure was not so heavy and the buying demand was fairly good. Money rates continued higher and consequently free selling may be expected on the first rally. For the present we would buy only the best of the coppers, and on rallies we would take profits. Coppers are the cheapest stocks on the list."

Hayden, Stone & Co. wired the Laidley Commission company: "Our market has been very dull and without feature. We cannot see a chance to have a good market until the money situation clears. In the meantime we look for little change in prices, as on a fifteen cent copper market we think coppers are cheap."

Chicago Does Well.

Laidley said of the Chicago market: "What opened at about last night's close, to a shade higher, and, while the market was extremely dull throughout, prices remained firm and toward the close advanced the last prices being 1/2 cent above yesterday. The clearances were fair. Breadstuffs showed a decrease of over 4,000,000 bushels, which was considerably larger than expected and was a very bullish factor. The cash demand was also much better. We believe that May wheat is going to have a fair advance and that it should be bought on every little break."

"Corn opened firm at about last night's close. The feature was the changing over from May to July, the large elevator interests selling the May and buying the July option on a heavy scale. The latter option closed at about last night's figures, while the May was off 1/2 of a cent. Breadstuffs' report showed a decrease of 4,000,000 in the world's visible supply. We continue very bullish and we advise the purchase of the July option for a good turn."

"Oats followed other markets, opening slightly higher, easing off somewhat and then turning strong, closing 1/2 over yesterday's close. The receipts were very much smaller than the demand. We think prices should be better."

New York Market Irregular.
Dick said of the New York market: "The market has been feverish and irregular today. The rally was checked by the further flurry in the money market. Money reached 15 per cent in the afternoon. This was due to April disbursements. The national city bank put out large sums at 6 per cent, but this was quickly taken. There was very little news of importance. Some persistent selling of Colorado Fuel, based on the new bond issue, broke that stock badly. It recovered part of the loss at the close. This was about the only feature. The market showed several professional drives and very little long stock came out. The closing was dull but firm."

IN ALL WALKS OF LIFE.

Herpicide Is Used to Cure Dandruff.

E. H. Lyons, New York, N. Y., says: "I am very fond of Herpicide and enjoy using it. It is refreshing."

Dr. J. H. Bush, Toledo, Ohio, writes: "Newbro's Herpicide has given better satisfaction than anything I have ever used."

Mrs. Borkey, of Chadron, Neb., says of Herpicide: "It cleaned my head of dandruff and stopped my hair from falling out. It is the best remedy for dandruff I ever used, and I have used a great many."

E. S. Coleman, Ann Arbor, Mich., says: "I have used two bottles of Herpicide and derived benefit therefrom." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agent.

CITY BREVITIES.

Today's weather: Showers and colder. Brisk southerly winds shifting to westerly.

Yesterday's temperature: 7 a. m., 28 degrees; noon, 34 degrees; 7 p. m., 37 degrees. Maximum, 37 degrees; minimum, 27 degrees.

Ed Carney, of the Ishpeming Iron Ore, was a Marquette visitor yesterday. The pupils on the second floor of the Froebel school have purchased a fine picture of St. Gaudens's Lincoln for the hall.

There was a heavy hail and snow storm yesterday morning, and the day, as a whole, was dark and dismal, although the snow quickly melted from the ground.

Marshall Gribble of Negaunee brought Nat Mars to the county jail yesterday to serve sixty days. Mars was arrested at Swanzy for brawling, and was taken to Negaunee for trial.

County Clerk Ross will issue the ballots for the state election to the various supervisors today. The supervisors must call in person for the ballots, as they cannot legally be shipped to them.

John M. Lindstrom, proprietor of the Marquette Hardware company, has started the erection of a modern double dwelling on Fourth street near Hewitt avenue. The building will be for rent. It is expected to have it finished in June.

The deliverymen defeated the fishermen in the ball game at the Casino rink last evening. The score was 17 to 12. The batteries were: Ryhlohn, Becraft, and O'Donnell, for the deliverymen; and Osgood, Gilbert, Murray, and Baker, for the fishermen.

Mrs. Stay Ward, residing at 221 Bluff street, died last evening. She was aged sixty-four and is survived by husband, five sons and two daughters. Since 1888 she had been a resident of Marquette. Announcement of the funeral will be made later.

County Clerk Ross was recently notified by the secretary of state that the two amendments to the state constitution to be submitted to the people at the polls at the spring election on the 6th are to be two separate and distinct ballots. This will make three state ballots.

The death of David P. Kimball, 217 Bluff street, occurred yesterday as a result of an illness with pneumonia. He was aged fifty-six years and had been a member of the Willis A. Gorman post, G. A. R., of Duluth. The notice of the funeral arrangements will be given later.

The steamer Northwest will stop here during the forthcoming season, but she will only touch at this port on her downbound trips. She will be in port here an hour, between 8:30 and 9:30 o'clock, each Wednesday morning. She will leave Buffalo for the head of the lakes on her first sailing on the 20th of the month.

The Salvation Army's self-denial week begins on the 5th and ends on the 12th of April. In the interim the members of the army practice the most rigid self-denial, at the same time asking their friends for assistance in helping along their good work throughout the world. The Marquette branch of the army has issued appeals for this aid.

Grafton lodge, A. O. U. W., will receive its second big class for this year at its lodge rooms this evening. It is expected that upwards of twenty candidates will be initiated. The lodge is meeting with excellent success in getting new members and it is regarded as almost certain that it will win honors in the competition instituted by the grand lodge.

George Ellwood and Miss Rachel Catherine Sowers were united in marriage at the Brunswick Hotel last evening by Rev. J. M. Rogers, pastor of the Presbyterian church. The couple left on the 10:30 train for Houghton, where Mr. Ellwood will engage in business. The groom has been employed at George Preston's barber shop in the Savings Bank block for some time.

The spring and summer agreement adopted by the merchants to regulate the closing of the stores has gone into effect, business being carried on last evening for the first time on a Wednesday night for some months. The new arrangement provides that the stores be closed at 6 o'clock each evening except Wednesdays, Saturdays and railroad and Pioneer fairs pay days, the latter occurring on the 16th of each month.

The Marquette lodge of Odd Fellows, No. 108, had as its guests last night a delegation of about forty or fifty members of Ahmeek lodge of Ishpeming. The visitors came down on the train arriving at 7:35 and left on their return at eleven. They brought with them their degree team, which conferred the initiatory degree on a class of candidates. A banquet and smoker followed the work. The visit of the up-the-road Odd Fellows was in return for that recently made to Ishpeming by Marquette members, and it was equally as enjoyable.

On May 2 will be held an examination for the positions of clerk and carrier in the postoffice service in Marquette. The subjects and the points are as follows: Spelling, ten; arithmetic, twenty; letter writing, twenty; penmanship, twenty; copying from plain copy, ten; United States geography, ten; reading addresses, ten. The age limits are eighteen and forty-five years. Applications for examination must be filed by April 18 with Miss Augusta Zerbel, clerk of the postal board. Further information regarding the examination can be obtained from Miss Zerbel.
