Bed Bugs....

Is there anything that will make a man "crawl" quicker than a big fat bed bug? What does a guest think of a place, when he turns down the pillow of a morning and sees one or two of the beasts trekking for cover? We put up a BED BUG KILLER that does the business in great shape. If you use it thoroughly and it doesn't clear out the bugs, we will refund your money. Price 25 cents.

Telephone, and we will deliver it at your house.

COLOMBIA IMPOVERISHED BY THE FOUR YEARS' REBELLION.

ACTION BY POWERS IS FEARED

INTEREST ON THE FOREIGN DEBT NOT PAID SINCE 1899.

Late Reports Also Are That the Congress Will Not Ratify the Canal Treaty, and Negotiations for Nicaragua Route Are Resumed.

Washington, May 13.—A gloomy picture of the plight in which Colombia finds itself as a result of the four years' rebellion is contained in a communication which reached this city today from a source of unquestionable reliability. The government stopped the issue of paper money on March 1, and early in April the government was without funds. Not a cent of interest has been paid on the foreign debt since the war commenced in 1899. It is probable the government will resume the issue of paper money.

Moreover, it was the general opinion that even the small measure of relief which might follow the receipt of the ten million dollars from the United States on account of the canal should not be obtained, as it was not expected that congress would ratify the treaty. At one time last year 22,000 Colombian dollars were required to purchase one dollar's worth of goods in the United States. It was feared the rate would be even higher this summer, for there was over one billion dollars of paper money afloat and it was expected five hundred million more would be issued immediately.

The foreign debt in 1896 amounted to \$2,700,000, on which the interest has not been paid for several years. There is apprehension as to what might happen should the foreign creditors push for the final settlement of their claims.

HAY TURNS TO NICARAGUA.
Complexities in Colombia Upset the Isthmian Canal Plans.

Washington, May 13.—The complexities of the Panama canal situation, obviously multiplied by the reported resignation of President Marroquin of Colombia, are rapidly creating a situation in canal diplomacy in Washington that may cause the administration to turn to Nicaragua and Costa Rica for relief. That the promoters of the Panama deal are fearful of this undesired result was made clear by the arrival of William Nelson Cromwell, general counsel of the new Panama company, from New York.

RENEWS NEGOTIATIONS WITH NICARAGUA.

Secretary Hay has foreseen the new complication and it is known that he has acted upon the foresight to the extent of resuming negotiations with the Washington representatives of Nicaragua and Costa Rica for the purpose of enabling the United States to gain control of the territory adjacent to the Nicaraguan route. Both the Nicaraguan and Costa Rican ministers were chary about taking up the question of drawing new protocols with the United States government because they could not free themselves from the suspicion that the secretary of state was merely using them as clubs with which to force Colombia to accept our terms.

No official verification of the report of Marroquin's resignation has been received either at the state department or by M. Harrand, the Colombian charge in Washington. M. Herran, however, said he would not be surprised if the report were verified, because Marroquin, who is past eighty years old, is extremely feeble and for a long time has been considering the advisability of retiring to private life.

REYES NOT FRIENDLY TO UNITED STATES.
General Reyes, the second vice president of the republic, who will be his successor, is not friendly to the plans of the United States. Moreover, General Reyes appears to be imbued with the idea that the French company is receiving a great deal more for its property than the property is worth. He has taken the position from the outset that if the United States is willing to pay \$40,000,000 to the French company for some badly constructed ditches, imaginary plants and tools and maps and drawings, Colombia, which after all must deliver the goods, is entitled to more than \$10,000,000.

"Secretary Hay will, it is understood tonight, force negotiations with Nicaragua and Costa Rica to the point of obtaining from both republics protocols that will enable this government to proceed with the construction of the Nicaraguan canal whenever it deems to begin operations. The sponsor act, under which the Colombian negotiations have been conducted, provides that the Panama property shall be purchased if the rights incident thereto can be obtained within a reasonable time. It is the belief of Mr. Hay and others connected with the government that a reasonable time has nearly elapsed. Everybody in official life who has had anything to do with the Panama matter is tired of the efforts of the officials of the Colombian government to force some kind of a settlement with the Panama company.

Presidential Succession.
There is no dispute as to the title of General Reyes to the position of "designado" (the one designated by congress to succeed to the presidency in the event

of the death or incapacity of the president.) Following the "designado" members of the cabinet in such order as congress may dictate succeed, then governors of the states. According to the latest designation by congress one of the ministers of the government would follow President Marroquin. There is a general law in Colombia which provides that no officer of the government shall relinquish his office until a successor is elected and qualified and it is assumed here that General Reyes, who had previously been designated by congress, holds to the title of "designado" under that law, although the last congress failed to re-designate him.

It is held here that the call issued by President Marroquin for the special session of congress June 20 will hold good regardless of any change in the administration, just as it would in the United States, so that the attitude of the congress and the Colombian administration would probably be very soon disclosed.

STANDS FOR THE COLBY BILL.

House Refuses to Concur in the Baird Primary Election Measure.

Lansing, Mich., May 13.—The house today refused to concur in the Baird primary bill, passed by the senate yesterday as a substitute for the Colby bill. The latter measure includes the nomination of state officers, which the Baird bill omits.

ARRESTED AFTER TEN YEARS.

Moody Merrill, Boston Defaulter, in Custody at New York.

Boston, May 13.—Moody Merrill, who was arrested in New York today, has been an exile from Boston for nearly ten years. Once he had a high reputation in business, politics and society. According to the police there is an indictment alleging the misappropriation of \$60,000 of trust funds. At the time he left it was alleged the total of Merrill's financial irregularities was \$300,000. He has since been in business in New Mexico, where he has gained much prominence in political circles.

CURE FOR CONSUMPTION.

Important Discovery Announced by the Berlin Medical Society.

Berlin, May 13.—The announcement made today by the Berlin medical society of a new remedy for consumption, called "sanosin," has attracted much attention. Dr. Danelius of Sommerfeld read a paper on the cure before the society. He showed that a number of patients, mostly workmen, had been cured and said they were treated without interference with their work.

CRITICISM FOR DR. LORENZ.

Surgeons in Session at Washington Condemn His Methods.

Washington, May 13.—Fifteen component societies of the Congress of American Physicians and Surgeons held meetings here today. The methods of Professor Adolph Lorenz, the Austrian surgeon, in the treatment of congenital hip disease and club feet furnished the feature of most interest at the meeting of the American Surgical and Orthopedic association. No discussion specially commendatory of Dr. Lorenz's methods was elicited, and some members were adverse in their criticisms, claiming the methods too severe and accompanied by injuries, paralysis and death. Some members, while not approving of the Lorenz practice, expressed great admiration for the professor.

GEN. MILES QUERIES ROOT.

Washington, May 13.—Secretary Root today received a letter from General Miles asking what portion of his reports were given to the press, by whom made public, and to whom furnished. The secretary's reply will be sent tomorrow and will cover the questions asked by General Miles. It has been charged that all of Miles' report was not furnished the press by the war department.

LONG AUTO RACE STARTS.

Paris, May 13.—The Paris-Madrid automobile races were inaugurated today, fifty-eight contestants in the tourist class starting between 7 a. m. and noon. The weather is fine, but recent rains have promised heavy roads. Today's run is from Paris to Pithou, 221 kilometers. The machines will reach Madrid on the 29th. A number of Americans are participating.

LORD MINTO GUEST OF DETROIT.

Detroit, May 13.—For two hours this evening Lord Minto, governor general of Canada, and Lady Minto and party were the guests of Detroit. Thousands of people enthusiastically cheered the governor general and his party as they were escorted by regular troops and militia to the Hotel Windsor, where a reception was held at the close of which the visitors were tendered luncheon.

CLOUDBURST AT JACKSONVILLE.

Jacksonville, Fla., May 13.—Rain the past two days, ended in a cloudburst today, the rainfall being 8.41 inches. Many streets were flooded and much damage was done in the city and to railroads. The total loss may reach half a million.

WEALTHY CHICAGOAN A SUICIDE.

Chicago, May 13.—William E. Congden, a wealthy lumber dealer, committed suicide at his home on Forest avenue today. His body was found by his wife. Despondency on account of poor health is the supposed cause.

DEAD LAY IN HEAPS

MORE THAN 600 JEWS DECLARED BUTCHERED AT KISHINEFF.

SAID STREETS RAN WITH BLOOD

HORRIBLE CRUELITIES AN ACCOMPANIMENT OF THE MASSACRE.

Victim Writes Women Were Slashed to Bits by the Frenzied Russian Mob and That Thousands of Homes Were Fired and Destroyed.

Denver, May 13.—From a letter written by his father, in hospital at Kishineff, Russia, W. King of this city learns that his mother, sister, and brother may have been victims of the recent massacre in which it is declared that hundreds of women and children were slaughtered. King's father was badly injured.

"I can learn nothing of your mother or sister or brother," he writes. "I fear they are among the victims. The streets ran with blood. Children were dragged from their mother's arms and hurled against the side of buildings. Women were caught and slashed to bits by frenzied Christians. The cry was, 'Down with the Jews.' I saw a mother cut open and her unborn babe thrown against a railroad train. Women were held by men while they were mutilated. The number killed is more than six hundred. Thousands of homes were burned and all the property was destroyed. Dead people lay in streets in heaps."

Hundreds of Arrests an Aftermath.

St. Petersburg, May 13.—Additional details of the Kishineff massacre of Jews are printed here daily. Correspondents give the number of victims thus far buried in the Jewish cemetery at forty-four. Eighty-four persons seriously wounded are still in the Jewish hospital.

The horrors reported scarcely bear repetition. In one instance spikes were driven through a woman's head and into the floor, and cases of bodily mutilation have been authenticated. Some thousands persons were arrested, an energetic official having been sent from Odessa to deal with the situation. The reported massacre of Jews at Tivostol is officially denied.

FOOT UP OVER \$1,000,000,000.

Appropriations Made by the Last Congress Show a Heavy Increase.

Washington, May 13.—A volume relating to the appropriations made and the new offices created during the last session of congress has been completed for the second session of the Fifty-seventh congress.

The summary shows a total of \$753,658,506 appropriated. In addition to the specific appropriations, contracts were authorized for public works requiring future appropriations by congress amounting in the aggregate to \$36,980,859, the principal item of which is \$20,426,000 for additions to the navy. The new offices and employments specifically authorized are 11,316, with an annual compensation of \$7,927,539; those dropped number 1,815, compensation \$94,481, a net increase of 9,501 and an increase of \$6,986,158. The largest increases were 5,616 in the naval establishment and 3,354 for the postal service. The number of salaries increased was 341, at an annual cost of \$205,202, and those reduced totaled sixty, amounting to \$600.

The total appropriations of the Fifty-seventh congress were \$1,533,683,092, an increase of \$113,193,567, accounted for in part by increases in the postal service of \$34,000,000; navy, \$17,500,000; rivers and harbors, \$20,500,000; isthmian canal, \$50,000,000; agricultural department, \$2,500,000; legislative, executive and judicial, \$4,200,000; public buildings, \$10,000,000; and Philippines, \$3,000,000. Reductions were made in the appropriations for the military establishment of \$10,000,000 and for pensions of \$10,000,000.

EPISCOPALIANS DIVIDED.

Kansas City, May 13.—The council of the Western Missouri diocese of the Protestant Episcopal church voted today, 25 to 21, in favor of changing the name to "The American Catholic church."

Cleveland, O., May 13.—At the annual convention of the Episcopalian diocese of Ohio today, the question of changing the church name was deadlocked. The clergy favored the change, but the laity opposed it.

Indianapolis, May 13.—The council of the Episcopalian diocese of Indianapolis today adopted a resolution opposing any change in the church name.

Pittsburg, May 13.—By a large majority the Pittsburg diocese of the Episcopalian church today decided against changing the church name.

CONDUCTOR DIES IN WRECK.

Lincoln, Neb., May 13.—A passenger train on the Burlington collided with a freight near here this evening. One trainman was killed, two were injured and the passengers were shaken up. The dead man was William Batten, a passenger conductor.

LARGEST BATTLESHIP AFLOAT.

London, May 13.—The Commonwealth, the largest battleship afloat, was launched on the Clyde today. She is of 16,350 tons displacement and her engines are of 18,000 horsepower.

GENERAL STRIKE THREATENS.

Fifteen Hundred Cooks, Waiters, Butchers and Bakers Out at Denver.

Denver, May 13.—Because of the refusal of various bakeries and groceries to make contracts with the unions, fifteen hundred cooks, waiters, butchers and bakers were called out on strike this morning by the pure food council, nearly all the restaurants in the city are closed. It is feared the movement will inaugurate a general strike of the trades unions of the city.

Machinists Vote for Nine-Hour Day.

Milwaukee, May 13.—The International Association of Machinists, in session here, today took decisive action leading to a straight nine-hour day in place of the fifty-four or fifty-five hours per week rule, which applies in many shops throughout the country. The convention voted to discourage the plan of hours which now obtains, and all new agreements or contracts must conform to a straight nine-hour day. It was decided unanimously to abolish the system of piece work commencing with July 1, 1904.

Compulsory Arbitration on Railroads.

Chicago, May 14.—The railroads have inaugurated a movement of compulsory arbitration in labor dispute, according to the Record-Herald. The Rock Island and Burlington are said to be the leaders in the movement. If the railroads cannot induce the unions to agree to the plan, it is likely a general arbitration board will be selected to represent all the roads territorially allied.

Mobile & Ohio Employees Enjoined.

Springfield, Ills., May 13.—Judge Humphrey, in the federal court, this afternoon issued an injunction restraining E. Clarke and two hundred striking switchmen, yardmen and other employees of the Mobile & Ohio railroad from interfering with the operation of the road by stopping trains, picketing yards or assembling in large numbers.

Railroad Blacksmiths Out.

Chicago, May 13.—Eight hundred blacksmiths and helpers employed in the shops of the Rock Island and Northwestern railroads struck today for an advance in wages.

The laundry workers' union today refused to consider the employers' proposition to arbitrate the differences unless the non-union employees are discharged. This the employers refuse to do.

Quiet Day at Omaha.

Omaha, May 13.—Quiet prevailed today and business in some cases was resumed by places that had been closed by the strike. The injunction against the employers has caused excitement among the business men, and a meeting will be held Friday to consider the situation.

Kansas City Employers Unite.

Kansas City, May 13.—The employers of this city have united to fight the labor unions who use the boycott to gain their ends. The association tonight decided to refuse to deliver goods to those places where non-union men or non-union-made goods are discriminated against.

Hack Drivers Strike at Funeral.

Toledo, May 13.—During the funeral services here today, the drivers of hacks struck and refused to work because the hearse was driven by a non-union man. The officiating undertakers filled the strikers' places just in time to prevent a scene.

Labor Troubles Close Illinois Factory.

Deatur, Ills., May 13.—Six hundred men were thrown out of work at the Mueller factory today by the strike of thirty core-makers for increased wages. When the core-makers struck the firm closed the entire factory.

Efforts for Peace on Great Northern.

St. Paul, May 13.—No strike has been declared on the Great Northern and none will be tonight. The conference, leading to a compromise will be continued tomorrow.

Child Labor at Mines Tabooed.

Harrisburg, Pa., May 13.—Governor Pennypacker today signed the child labor bill, which makes it unlawful to employ children under sixteen about the mines.

Gotham Subway Workers Return.

New York, May 13.—Pending the arbitration of their grievances, most of the six thousand strikers returned to work on the subway today.

HIGH POST FOR WOMAN.

Washington, May 13.—The war department has received advice from Manila that Miss Flo Gilmore has been appointed assistant attorney general for the government in the Philippines. She is the first woman appointed to such an important legal position. She went to the Philippines as a stenographer and gained her present position by good work in the office of the attorney general.

GIVES OFFICERS THE SLIP.

Toledo, O., May 13.—Ex-Deputy County Treasurer James K. Wales, whose arrest on an embezzlement charge was yesterday assured by the officers, has not only failed to give himself up but has eluded the whole police force. The belief is expressed in official circles that the alleged shortages in Wales' accounts will run up into the thousands.

TODAY'S WEATHER.

Washington, May 13.—The following is the weather bureau's forecast for Upper Michigan: Fair, Thursday and Friday; warmer Friday in west portion; light north winds becoming variable.

MICHIGAN MURDER.

Coleman, Mich., May 13.—In a fight over the starting of a fire, John H. Moore, a farmer, is dead and Matt Sentz and his son, neighbors, are under arrest, charged with murder.

Madison, Wis., May 13.—The new cigarette bill, providing for a license of \$300, was killed in the senate today.

BARGAIN BABIES.

If babies were for sale the most inveterate bargain-hunting woman in the world would not look for a bargain baby.

Every woman naturally craves a healthy, handsome child, and her craving can be gratified if she will but remember that the child's health is her own gift, and to give health she must have it to give.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for the use of delicate women.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Sir Thomas Lipton has expressed himself as satisfied with the third Shamrock and there will be no more trials on the other side of the ocean after Saturday.

It is announced that the appropriation for rural mail routes is exhausted and that no additional routes will be established until July 1.

A very fair estimate of the financial situation is to be found in the following statement of the head of a great trust company, who is quoted in one of W. E. Curtis' recent letters.

Chief of Police A. P. English has returned to Menominee from Rathdrum, Kootenai county, Idaho, with Thomas Vroman, who was arrested on charges of conspiracy with attempt to defraud the cedar firm of Rober & Watson.

GOOD FOR CHILDREN. The provision to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe.

TO CONTRACTORS. Sealed proposals will be received by the undersigned until Wednesday, May 20th, 1903 at 12 o'clock m., for furnishing the several classifications of material and labor required for the erection of a church for St. Ignace, Mich.

YOUNG PIGS CHEAP. Nice smooth pigs, 4 to 5 weeks old, \$5.00. Nice smooth pigs, 6 to 8 weeks old, \$5.50. Nice smooth pigs, 2 months old, \$6.00.

Excursion Rates to Fishing Resorts East of Marquette. In Effect Every Sunday. From Marquette, Mich. to Sand River, \$1.00.

Upper Peninsula.

No 12s Men There— There are no idle men in Grand Marais. This was demonstrated last week when boys were hired to load boats with lumber, at \$5.50 per day.

Deer Slayer Arrested— Fir Clark was arrested near Newberry last week by Deputy Sheriff Tracey for violating the game laws.

Fish Law Violators Assessed— State Game Warden Chapman rounded up another group of fish law offenders last Friday on St. Mary's river and brought them to the Soo for trial.

Woman Brought Back from Idaho— Chief of Police A. P. English has returned to Menominee from Rathdrum, Kootenai county, Idaho, with Thomas Vroman.

WE NEED MORE MONEY. In the face of the continually recurring financial "pinches" from which the business of the country is suffering, arguments to prove that our available supply of money is inadequate are hardly necessary.

TO CONTRACTORS. Sealed proposals will be received by the undersigned until Wednesday, May 20th, 1903 at 12 o'clock m., for furnishing the several classifications of material and labor required for the erection of a church for St. Ignace, Mich.

BUILT TO SUIT TENANTS.

HANCOCK TO SPEND \$43,650.

Leopold Building, Houghton, to Have Fifteen Offices on Second Floor.

That the Sum Estimated to Be Required the Coming Year.

Herman Gundlach, copper country manager for Paul F. P. Mueller, the Chicago and Houghton contractor, has received the final plans for the second floor of the new Leopold building which is to go up on the corner of Shelden and Huron streets in the burned district of Houghton. The second floor will have fifteen offices, which will be planned to suit the tenants. A number of applications for offices have already been received, but none have been definitely promised. Each office will be finished in American mahogany and all modern improvements will be provided. All windows will be of plate glass and the entrance way to the second floor will be of richly carved Portage Entry stone. The stairway will be wide. It is likely that all the space will be rented before the building is completed. A person may rent as much or as little space as he desires and the location could not be better. The store and basement will be completed by Aug. 1 and the second floor will be ready shortly after. Mr. Gundlach intends to start the work at once.

FARMERS' INSTITUTES.

First of a Series of Three Held at Hancock Yesterday.

The first of a series of three farmers' institutes conducted under the auspices of the Houghton County Agricultural Society was held at the city hall in Hancock yesterday afternoon and evening. The afternoon session commenced at 2 o'clock with a musical selection, followed by an address on "Clover and Forage Crops," by Leo M. Geismear, of the Michigan Experimental station at Chatham. Mr. Geismear was followed by D. C. Williams, of Chicago, on "Co-Operative Creameries." The evening session was more largely attended. Mr. Geismear spoke on "Farming in the Upper Peninsula," and E. F. Brown, of Grand Rapids, delivered an address on "Cream Gathering."

Institute at Lake Linden Today.

Similar sessions will be conducted at the Lake Linden city hall this afternoon and evening. It is expected the institutes will result in much practical value to those interested in the progress of farming in this community. The program will be as follows:

Musical address "Setting Out an Orchard" by Leo M. Geismear. Address, "Co-Operative Creameries" by E. F. Brown, Grand Rapids. Music. Impromptu address. Evening meeting, commencing at 7 o'clock.

Musical address, "Farm and Home Decorations" by Leo M. Geismear. Impromptu address. Music.

SPORTSMEN TO MEET TONIGHT.

An important meeting of the Calumet Sportsmen's association, organized last year for the enforcement of the game and fish laws, will be held at the Red Jacket council rooms this evening. All members and persons interested in hunting and fishing are cordially invited to be present. The question of the adoption of a constitution and by-laws will be taken up. The subject of a rifle range and target shooting will also be considered, and officers for the ensuing year will be elected. Some of the members favor a change to a gun and rod club with the protection of game and fish out of season as a primary object. A rifle range for practice shooting will undoubtedly be voted for and it is possible that the local militia company will join with the organization in this project. Dr. Joy, president of the association, has declined a reelection and a successor to him will be chosen.

COLLEGE OF MINES BILL.

Ward reached Houghton last evening from Lansing that the house, sitting in committee of the whole, had passed the College of Mines appropriation bill. It was added that the measure would come up for final passage last night and that it was expected to be passed as approved in committee. The message brought much joy to the faculty and students of the college.

FOR... CENTURIES

It has been known that the juice of malt brings health and strength. Physicians are constantly recommending

Bosch's Malt Tonic

It is a food for the starved nerves and a banisher of sleeplessness. Drug stores and dealers sell it.

Bosch Tonic Department LAKE LINDEN, MICH.

FOR ABSTRACTS OF ONTONAGON COUNTY, ADDRESS— EDWARD CARROLL, Official Abstractor for, ONTONAGON COUNTY, MICHIGAN (1-10-11-0)

chairman of the relief committee in Uleaborg in the northern part of Finland, refutes the statements sent out from St. Petersburg not very long ago in which Dr. Roster, a university professor at St. Petersburg, was quoted as saying that the extent of the famine had been exaggerated. Mr. Relander, after a vigorous denunciation of the report, winds up his communication as follows: "He who dares to say that the famine has been exaggerated has no compassion in his heart. Against any statements of the kind I, as one familiar with the circumstances, firmly protest."

TO REMOVE TO MILWAUKEE.

A. T. Hanson, the well-known Laurium attorney, will remove to Milwaukee in a few weeks. He has practiced at Laurium for the past six years and is now serving his second term as one of the county court commissioners. He will leave for his legal affairs here as soon as he returns from the Warren district of Arizona, where he is visiting the property of the Copper Glance, in which he is heavily interested. Mr. Hanson has placed much of the stock in that company in the copper country and he believes it will be a winner.

EAGLE RIVER HOTEL SOLD.

The Eagle River Hotel company has sold its hospitality at Eagle River to Frank Kaiser, treasurer of Keweenaw county, for \$1,200 and the company will now go out of existence. The hotel was built several years ago by Calumet people with the hope that Eagle River would become a popular summer resort. The company lost money on the deal and still has small amounts of stock. Mr. Kaiser will make some improvements in the hotel and will conduct it in the future.

GARDNER FARM SALE POSTPONED.

The sale of the property known as the Gardner farm has been postponed owing to the omission of a part of the description in the published notice of the sale. The notice will have to be republished before the sale can be held. It is thought there will be some lively bidding for the property, which adjoins that of the Calumet & Hecla and Tamarack and is believed to have mineral value.

COPPERDOM BREVITIES.

The Calumet High school orchestra will give a dancing party in the Washington school building Friday evening.

Fred Stoyke, the Houghton plumber, has been awarded the contracts for the plumbing in the new Harrington and Murphy blocks on Shelden street-Houghton.

Hope league, a temperance organization of Finnish children, has been launched at Calumet. It is confined to no religious denomination and its scope will be made as broad as possible.

Alexander Bigelow, the lumberman who killed Edward Kaiser, a well-known Rockland man, on Sunday, May 3, has been bound over to the Ontonagon circuit court. He will be tried for murder.

J. C. McCullom and wife have returned to Calumet from Lansing, where Mr. McCullom has been employed for the past year in the state offices. He has accepted a position as assistant in the Calumet offices of the Calumet & Hecla and the Calumet & Cobish companies.

RECALLS A LAKE DISASTER.

Wreckers Working on the Algoma, Lost Nineteen Years Ago.

Captain Harry Brooks, who with Captain M. Ryan and S. Smith of Duluth have chartered the steamer J. C. Schmitt for the purpose of exploring some of the ancient wrecks of Lake Superior in search of sunken articles of value, was in the city yesterday, states the Duluth News-Tribune. He came up from Houghton to look after his family, who were burned out at their Lakeside home a few days ago.

"We have just completed our first trip," said Captain Brooks, "and it has proved successful. We secured a cargo of 150 tons of scrap iron and other stuff of value from the wreck of the old Canadian ship Algoma, which was wrecked on the east coast near Royale, near the old Rock Harbor lighthouse, nineteen years ago. She is close in shore in not more than twenty feet of water. We took the cargo to Houghton, where we will dispose of it."

The work of the Duluth men on the lost steamer Algoma, wrecked in one of the most thrilling disasters, and one of the most costly as regards human life, in the history of the great lakes. The boat carried about seventy persons, including passengers and crew, and twenty-two were drowned.

The ship was moving up the lake toward Port Arthur from Sault Ste. Marie, in the month of November. A severe northeast gale was in progress, it was snowing hard and Captain Moore lost his bearings. He ran too far to the south and while in the act of bringing the boat around she struck. Her electric lights went out instantly and terror and confusion reigned.

Captain Brooks says that the bones of some of the persons lost in the wreck may still be found on the bottom around the hull, and that the bodies of two other relics of the disaster have been discovered on the shore.

FAMINE IS STILL ACUTE.

Denials of Distress in Finland Refuted by Reliable Advers.

J. H. Jasberg, of Hancock, secretary of the Finnish Central Relief committee, is still receiving letters telling of the great suffering from the famine in some parts of Finland. Although thousands of dollars have been sent to the affected districts the people are not yet beyond danger of starvation. The northern and eastern parts of the country are in great need. The letters tell of the greatest distress are written by well-known and thoroughly reliable men who have taken pains to report the conditions as they are, and the recipient feels that he can rely upon what they say.

The inhabitants in the famine districts live solely by agriculture and when there is a crop failure it is complete. One writer states that without additional aid the people of some of the districts cannot live until next summer. "Worst of all," he says, "a new crop failure is coming. Rye, which is sown in the fall, was left so weak that probably it will be unable to continue its growth in the spring. And enormous gatherings of water have collected in the valleys and are heavily frozen over. The summer frosts will rise from there and will destroy the crop of the year." Konrad Relander,

MINING NEWS

ARIZONA MINING NOTES.

The Atlas Mining Bureau of Douglas, Ariz., says in its weekly market letter: The stock of the Higgins Development company was the sensation of the southwest during the past week. Five thousand shares were put on the market in Bisbee and were taken in less than two hours. Many were disappointed in not getting the stock and fully 20,000 shares could have been placed there. The \$5 is now held at \$15 by the Bisbee people.

Advices from the Dragons state that the Black Diamond smelter has been blown in and is turning out in the neighborhood of fifteen tons of blister copper a day. Additional furnaces have been ordered from the east and will be installed as fast as received. The controlling stock has been acquired by Michigan copper men and they expect to make a custom smelter out of their plant and treat all ores from the Dragons. A large amount of copper and silver ore has already been received at the smelter for treatment for outside parties.

Development work on the Wolverine & Arizona is progressing very nicely and the company is making good headway in their double compartment shaft. The shaft is being sunk on their property located next to the White Tailed Deer claim owned by the Copper Queen. It will be remembered that the Copper Queen in the early days shipped a large amount of rich carbonate ore from this claim and only suspended operations when they opened up their large ore bodies in the famous Queen shaft.

A three-inch streak of green carbonate of copper has been cut by the Copper Queen in their drift. The shaft is now in porphyry and every indication points to getting into a good body of rich ore at most any time. Prospects for getting ore in the drift were never better and the Glance company feels confident they will strike ore in the drift and shaft in a short time.

We are reliably informed that the statements made concerning the boring of a number of diamond drill holes in the Chiricahuas on the Captains Burns property, recently acquired by the Chiricahuas Development company, which is one of the largest and most successful mining operators in that country, associated with prominent mining men of Duluth and Pittsburgh, are true and the gentlemen had the property thoroughly tested before taking hold. Operations ceased as suddenly as they began, and the property was turned over to the owners for a large sum. We look for wonderful developments in the Chiricahuas within a short time and predict that this will be the new field of operations for the investment of a large amount of capital.

Options have been secured by Michigan parties on three promising groups located near the Glance and Marquette & Arizona properties and the deals will in all probability be carried through in a short time. The development companies are being formed in Michigan and money has already been raised to purchase the ground and begin work of developing the property.

The advent of the Standard Oil people in Bisbee is said to be in handling two large groups located near the Copper Queen. Several parties have their property under bond to the company and have been assured that the first payments will be made within the next two weeks. Representatives of the Standard Oil company have also paid visits to the Chiricahuas and the Huncuhas and have been asking prices on claims located in those two ranges. They seem anxious to get properties as near the holdings of the Michigan people as possible.

The Bisbee Miner in a recent issue said: It is said on the best of authority that while showing one of the directors of the Calumet & Arizona through the mine a few days ago the superintendent called his attention to a section which they had begun to stop and already had a six-set cut out, and stated that the entire stoppage showed 60 per cent ore, while the extent of the body shows no indication of being limited. Several developments within the past

few days go to show that the Calumet & Arizona have in sight the richest body of workable ore in the world and the trend of the main ore bodies would seem to indicate an extent absolutely undreamed of. Every indication points to the ore body extending beyond the holdings of the C. & A. company and it is reasonably safe to say that this same ore body will be found beyond the Marquette & Arizona properties.

MINING GOSSIP.

Justice J. B. Curtis, of Calumet, vice president of the Northwestern Development syndicate, who has returned from a visit of several months to the company's gold property in the Larleau district of British Columbia, is well pleased with the property. He was in charge for several weeks after the retirement of Superintendent Brock until Frank Blackwell, the new superintendent, arrived. The mill was closed down on April 1 but it will be operating again in two weeks. The last run through the mill was eighty tons which took seventy-five hours, producing a seven-pound gold brick, valued at \$1,000. Mr. Curtis brought this brick home with him. The rock was taken from the Gold Finch claim and was not selected.

Copper country men have organized the Calumet & Western Development company to buy, sell and operate mining properties. It has 100,000 shares of preferred stock, which will carry 7 per cent interest, accumulative and 500,000 shares of common stock, par value \$10 per share. F. S. Carlton, of Calumet, who is heavily interested in Arizona properties, is president; Joseph Bosch, Lake Linden, vice president; W. B. Anderson, Calumet, treasurer; John Daniell, Calumet, secretary. The stock is being largely subscribed for by copper country and Marquette people and also by Duluth, Detroit and Chicago investors. The board of directors will be comprised of prominent men in the local business and mining world. The com-

BASEBALL SEASON IS ON.

The local baseball season has opened. Numerous minor games have been played and the first match between the big teams will be played at Calumet Saturday afternoon between the Dollar Bays and Calumet. A return game is scheduled for Sunday afternoon at Dollar Bay. The season from present indications will be a lively one. Much of the old interest in the national sport has been revived and each aggregation will be well supported. Fully eight hundred witnessed a practice game at Calumet last Saturday which goes to show that there are still some "fans" left and that baseball will meet with a cordial reception at the copper country metropolis this summer. Dollar Bay and Lake Linden will be just as enthusiastic.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil—Monarch over pain.

HE LAUDS MCKINLEY

ROOSEVELT PAYS ELOQUENT TRIBUTE TO THE DEAD.

HAS A BUSY DAY AT FRISCO

PARTICIPATES IN AND SPEAKS AT VARIOUS FUNCTIONS.

His Prophecies United States Will Be Supreme on the Pacific, Says Foreign Policy Must Be Vigorous and Argues for Big Navy.

San Francisco, May 13.—President Roosevelt was this morning escorted through streets crowded with cheering people to the Native Sons' hall, where a reception was held.

Following this he reviewed several thousand school children. He was then driven through the Presidio, where he saw the quarters of the troops and the fortifications at the harbor entrance.

At the entrance to Golden Gate Park the president turned the first shovel full of earth at the site of the McKinley monument and made a speech in which he paid an eloquent tribute to the late president.

"It is a good lesson for nations and individuals to learn never to hit if it can be helped, but never to hit soft, and I think that it is getting to be fairly well understood that it is our foreign policy. We do not want to threaten; certain, we do not desire to wrong any man. We are going to keep out of trouble if we possibly can, but if it becomes necessary for our honor and our interest to assert a given position we shall assert it with every intention of making the assertion good."

Given Ovation at Banquet.

From the park the president was driven to the Palace Hotel, where he rested until evening. Tonight the president was the guest of honor at a banquet at Mechanics' pavilion.

"Before I saw the Pacific slope," said the president, "I was an expansionist, and after having seen it I fail to understand how any man confident of his country's greatness and glad that his country should challenge with proud confidence our mighty future, can be anything but an expansionist."

He spoke of the greatness of the Pacific and the probable important part it was to play in the world's future. The United States is of necessity a power of the first class on the Pacific, and our position is such as to insure our peaceful domination of its waters.

Great Britain Extends Its Sway in Africa Over 100,000 Square Miles.

London, May 13.—Colonial Secretary Chamberlain announced in the house of commons last evening that as a result of the British military operations in the Sokoto and Kano districts, in Africa, ending with the capture of the Emir of Kano, 100,000 square miles of territory had been added to northern Nigeria and would be administered by the government of that territory.

UNCLE TOM'S CABIN DOOMED.

Prof. James of Northwestern Says It Gives False View of Slavery.

Chicago, May 13.—"I do not want my boy to read 'Uncle Tom's Cabin' until he has studied American history. I believe that the new book of education is justified in ordering the book taken out of the school library."

"The famous work of Mrs. Stowe," said the professor, "does not present a true picture of the conditions that existed in the southern states in the days of slavery. It is so full of exaggeration that if you had a horse worth \$1,000 you would pursue it with bloodhounds that would tear it to pieces? As a matter of fact the slave holders did not pursue their fugitives with dangerous bloodhounds."

Tracked With Small Dogs.

"They had small dogs, entirely different from the big bloodhound, and with these they followed the runaway. The dogs were trained, however, not to hurt the negro, as some of our hunting dogs are trained not to hurt game."

"The book leads to a false impression with regard to the slave-trader. The great mass of the southern people had no respect for the trader and held him in contempt. Many slave holders in the South did not break up the family relations of their black dependents."

"The harm in permitting children of immature minds to read this book consists in that it creates a prejudice against the South that is not warranted by the facts of history. It has produced a prejudice which is being written down, and the harm in permitting children of immature minds to read this book consists in that it creates a prejudice against the South that is not warranted by the facts of history."

Buffalo, May 13.—D. M. Parry, president of the Manufacturers' association, made an address before the national convention of piano manufacturers today in which he attacked conciliatory arbitration as radically wrong in principle.

TRADERS IN PANIC

NEW YORK COTTON MART HAS ANOTHER WILD SESSION.

LONDON CABLES ARE DEMORALIZING

SHOW STRONG ADVANCE WHEN A DECLINE WAS EXPECTED.

Result Is That Shorts Rush to Cover and Bid Up Prices to New High Records, the Volume of Transactions Aggregating 1,000,000 Bales.

New York, May 13.—The Liverpool cables this morning reported cotton futures 10 1/2 points higher than expected, while spot cotton was in good demand with sales of 18,000 bags at 6 1/2. This, coming at a time when many in the trade had been anticipating a declining rather than an advancing tendency, proved utterly demoralizing on the New York exchange and shorts covered from every direction.

Outlook was the excitement during the morning, it was surpassed in the afternoon, when the rush of buying orders was probably the greatest ever witnessed in any cotton market. The prices were forced rapidly upwards and the list as a whole reached new high records for the season. The volume of business was such as to surpass all previous records, the transactions being estimated at fully one million bales.

The market closed a few points off from the top on some options, but firm and excited at a net advance of 10 to 40 points. Sales of 11,311, July at 10.91 and August at 10.53.

IRON SITUATION WORRIES.

Threatened Labor Troubles Also a Factor in Depressing Stocks.

New York, May 13.—The selling which caused this morning's decline in stocks had the appearance of a spilling out of long stocks. There was no new development in the situation today to induce this selling, which was probably due to a carried-over influence from yesterday's events.

The authoritative denial of yesterday's report of a deep cut in the price of steel billets did not put an immediate stop to the selling of the United States Steel stocks and those of the independent companies. Discussions of the iron trade outlook, the form of depreciation of the current depreciation because of iron and of the allegation that the higher level recently prevailing was really artificial and was for special deliveries or other reasons. The course of the prices of the stocks indicates that speculative sentiment is not entirely reassured by the tone of the iron trade reports in the face of the concrete fact of a stagnant demand for pig iron.

The threatened labor troubles on the Great Northern and fear the contest might spread in the railroad world was a depressing factor on the whole market. The special early weakness of the trunk lines showed that the influence of yesterday's reduction in grain rates from Chicago to New York was still a factor. Baltimore and Ohio did not share in the heaviness of this group and in the market's later rally it was marked up a point above last night's. The turbulent speculation in the cotton market and the Illinois State Agricultural bureau's unfavorable crop report continued to exercise some depressing influence. More attention was paid also to the notable delay in planting the crop.

The prospect of additional gold exports overhanging the market and the perception that the day would pass without engagements being made for shipment was a material factor in rallying the market late in the day. There was a material relaxation today in the London money market due to the progress of the settlement of the Transvaal loan. If this shall put an end to the outward movement of gold from New York for the present, the result may be of importance on the financial situation.

The recovery in the market was effected on a much smaller volume of dealings than was the decline, but it was impeded by selling of Rock Island, which was persistent in the face of the late firmness of the general market. The closing was heavy and almost lifeless, as follows, Paine, Webber & Co. reporting the quotations:

Table with columns: Wabash, Pfd, Southern Ry., etc. Lists various stock prices.

IRON NOTES.

The Zenith Furnace company, which is now mining south of the old Cincinnati location at Biwabik, has started a shaft a mile west of the same village and is open about 150,000 tons of good ore. It has found there. This is the smallest deposit of ore ever opened into on the Mesaba range and is an evidence of the thorough manner in which work is now done, as well as of the difference in ideas of what constitutes an ore body from those that prevailed a few years ago in that district. The company has abandoned most of the work it has had under way during the past winter east of the Mesaba station of the D. & I. R. railroad, and has found very little of promise there. This company, however, commenced operations on the Otto opens it proposes to build at its furnace to make their capacity about 300 tons of coke daily, instead of less as was planned.

On account of the immense fleet of upbound coal ships on the lakes, the movement of ore is slightly less than was expected. Ships carrying coal are about fifty per cent longer in time in making a round trip than if they went up light, and the capacity of the ore fleet is diminished thereby. But receipts of coal in Lake Superior are larger than ever in the past; indeed, they are averaging at a rate never seen in the most busy months of preceding years. About eight coal boats are arriving at Duluth daily, bringing from 40,000 to 45,000 tons each day, and receipts for the season to date have been more than 600,000 tons. Much of this is being hurried to mines both in the iron and copper districts, for they were close to the end of their coal piles when the season began. Much of the remainder is taken by ore-carrying roads on all lake ranges, from the western Mesaba to the eastern Menominee. It is not possible that this westbound movement of coal can continue in such volume very long.

E. F. Brown of Iron Mountain, manager for the Peoway Mining Co. was in Iron River last week, by appointment, and secured an option on the Nanaimo mine from the McKinnon Bros. The matter of working the property has, however, to be laid before the company before it is definitely known whether they will follow out Mr. Brown's recommendation. Mr. Brown having secured the option, it is quite certain that he has done so knowing full well that the company will approve of his action and instruct him to begin active operations in getting the property in condition to be worked. This will certainly be doing good news to our people, as the successful operation of this mine will tend to attract attention to the west and north portions of the Iron River district, and may eventually be the means of opening up an entirely new district. The Peoway Mining Co. is one of the largest of the McKinnon Bros. are to be congratulated in getting them to take an option on the Nanaimo-Iron River and Stambaugh Reporter.

April shipments of ore from Minnesota are larger than was expected possible, and will come pretty well up to early anticipations. On other ranges the total is lighter than looked for. Lack of capacity and rolling stock have bothered some of the roads. The new ore dock of the Wisconsin Central has not been completed, nor is that of the Great Northern ready yet, though both will be very shortly. Large numbers of new 100,000-pound cars for the Duluth, Missabe & Northern and Duluth & Iron Range have been arriving the past week. These cars differ from former steel car models in that they are built to dump both sides, from either side the cars feature of importance and one that offered quite a problem to car builders. This will save a good deal of time at the ore docks and will make work there less dangerous. New tracings, both main lines and mine spurs, are going in very fast on all the Minnesota roads. The D. M. & N. has built and will soon connect up a cut-off to its main Hibbing line that will eliminate curves and bridges and shorten the line a mile, also a spur to the Shonango and Chisholm. The latter has shipped over the Great Northern but its new shaft will be connected with the D. M. & N. The same road is also moving and shifting its tracks in the vicinity of the Morris and other mines near Hibbing. The Great Northern has its new line from Kelly lake to Buhl about half graded and will be using it this year. It passes to the south of all the mines of Hibbing district, where much ore had been tied up by its former location. Its double track line of the main Virginia-Duluth line is progressing and its Nushawk extension

ROCKEFELLER IN NEW DEAL.

Owens Colorado Fuel and Iron, Over Which Magnates Fought So Long.

New York, May 13.—John D. Rockefeller is now the reputed owner of the Colorado Fuel & Iron company and investigations of the company's plants now proceeding are being made for Mr. Rockefeller. At the time of the contest for control of Colorado Fuel & Iron a year ago there was a serious break in the relations between W. H. Gates, George J. Gould and the Harriman-Hawley contingent, all of whom were working to secure control. It is now said that Mr. Rockefeller, acting with George Gould, has taken over most of the holdings of the Harriman-Hawley interests.

PICTURES OBJECTS FAR AWAY.

London, May 13.—Henriek Heaton, who has just returned to London from Italy, says that at an observatory near Rome he saw specimens of a new system of electric photograph by which clear photographs can be taken of objects at least twenty miles distant.

THE OLD RELIABLE

ROYAL BAKING POWDER Absolutely Pure. THERE IS NO SUBSTITUTE. Includes an illustration of a woman in traditional dress.

It is soon to start. It is also building to more mines. The Duluth & Iron Range is doing little but enlarging sidetrack facilities, but is doing this all along the road, especially in the Foyal neighborhood.

The Wisconsin Central ore dock at Ashland which was totally destroyed by fire last fall has been rebuilt bigger and better than ever. The dock is now in commission. It is the same length as the old one, 1,884 feet. Together with the approach it is over 4,000 feet. There are 314 pockets in the structure, 157 on each side. Each of these pockets is capable of holding 154 tons of iron ore, thus making the capacity of the dock 48,356 tons.

A SURE THING. It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdstown, W. Va. says "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It is infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by The Stafford Drug Co., druggist, Trial bottles free. Regular sizes 50c, \$1.00.

It adds spice to dreary life, encourages the human heart, lifts one out of despair, breathes new life and confidence. That's what Rocky Mountain Tea will do. Stafford Drug Co.

INCREASED FACILITIES TO POLICY-HOLDERS.

The Mutual Life Insurance Company of New York, the largest, strongest and best company in the world, has established a managing agency in Marquette, Mich., for the care of its business in the peninsula of Michigan and Northern Wisconsin. Increased facilities are thus afforded to the policy holders and agents of the company. Exceptional opportunity is given to bright, energetic men to engage in the business. For particulars concerning agency contracts apply to E. M. Post, manager, Marquette, Mich.

Force! Jim Dumps, although it made him ill, Would of Welsh Rabbit eat his fill. So his good wife, his taste to please, Tried mixing "Force" with melted cheese. "Force" Rabbit now agrees with him, "It's simply great!" says "Sunny Jim." Includes an illustration of a man and a woman.

FIRST CLASS ATTRACTION.
Is Rose Coghlan in "The Second Mrs. Tanqueray."

Rose Coghlan, who appears at the opera house Saturday evening in "The Second Mrs. Tanqueray," a woman who does not need introduction to people familiar with the American stage and its prominent people. She is an artist of mature powers, who has served faithfully and well in difficult parts for years. Her work in Piner's powerful play has everywhere been received with the highest commendation.

As to the play at a cursory glance it would appear that Aubrey Tanqueray's selection of the ladies who were to become the first and second Mrs. Tanqueray was not characterized in either case by the discernment which should be a distinguishing feature of the man whose temperament is clearly defined by Piner. The first Mrs. Tanqueray is described by one of the irrelevant characters of the play as "an iceberg." Her daughter inherits the cold, chaste purity and religious inclinations of her mother, and selects a convent life. Meantime, for fifteen years, her father, widowed with no home ties, has been true to the memory of the mother, until, fascinated by Paula Ray, he makes her the second Mrs. Tanqueray, with eyes wide open to the consequences in a social way. It would require a keenly analytical mind to give a satisfactory solution to all the classes and creeds of Piner's motive, or the moral he intended to bring out in writing this brilliant problem play. As a matter of fact it is the history of a modern Magdalen striving to re-establish herself in the eyes of the world by going through the marriage ceremony with an eminently respectable and aristocratic type of man. Her effort is a failure, owing greatly to the memory of the woman vividly recalling the past and overshadowing and dominating her present. Rose Coghlan's conception and exposition of "The Second Mrs. Tanqueray" makes this most complex character known and felt. In all the moods and caprices she is called upon to express, Miss Coghlan displays a wide range of methods, fitting every situation. Her gowns and jewels are in exquisite taste. Her supporting company and entire production are of the best.

COPPERs VERY QUIET.
Market Yesterday Was Irregular, Showing Evidence of Bear Manipulation.

Paine, Webber & Co. said of the Boston market yesterday:
"The market was irregular and showed evidence of bear manipulation all day. A good many disquieting rumors were circulated, but so far as could be ascertained, they had no basis in fact, and except in a few special stocks prices did not suffer much. Copper's were featureless. They sold off slightly in the morning, but met good buying and recovered. It still seems to be a traders' market and if prices run off a little more we think stocks a purchase for a turn."

Wheat Market Dull.
Laidley said of the Chicago market:
"There is very little to say about the grain markets today, as they were extremely dull and confined to very small range of values. The close tonight is slightly better than yesterday. The receipts and estimates are small, the northwest receipts considerably under those of a year ago. The primary receipts are slightly smaller and the shipments slightly larger than a year ago. The market was undoubtedly helped by the strength of corn and oats. It continues to look to us as if the July option has got to sell a little lower, when it will be safe to purchase."

Fractional Changes in New York.
Dieck said of the New York market:
"The market was weak again this morning. Fears of iron trade troubles influenced considerably professional selling. There was, however, very little liquidation. The denials of the reports of cut in prices were somewhat reassuring, but the professional sentiment continued bearish. In the afternoon there was some covering and in the last hour there was a moderate rally. United States Steel stocks were weak in the morning. Colorado Fuel & Iron advanced sharply in spite of the iron trade rumors. The buying appeared to be for purposes of control. No gold was taken for export and this fact had some little effect. Continued liquidation was seen in Pennsylvania. Missouri Pacific was again strong, being well bought whenever it sold off. Amalgamated Copper acted well. In the leading stocks, the day's net changes were only fractional. A considerable short account shows in some stocks."

The following testimonial was received from Mr. John W. Young, an old soldier and highly respected citizen of Lincoln, Ill., who says, "I had a severe cough and cold and I decided to get some kind of medicine. I purchased a bottle of Hager's Honey and Honeyal, and am pleased to say I am now well. I advise anyone suffering from throat or lung affections to use this valuable remedy. I cannot recommend it too highly." Sold by People's Drug Store.

Mgr., Marquette, Mich.

IMPORTANT CASE.
Munising Railway Company vs. the Lac La Belle Company.

The most important civil case ever tried in the Alger county circuit court will be brought to trial before Judge Steere in the term of court which convenes on the 19th inst., says the Munising Republican. It is a suit for \$200,000 brought by the Munising Railway company against the Lac La Belle company, for alleged violation of contract, by reason of the latter company selling its real estate and timber holdings in this section without stipulating that the timber should all be transported over the line of the Munising railway to Munising bay for manufacture.

This suit grows out of a contract entered into between the Lac La Belle company and E. H. Scott, on June 29, 1895. Mr. Scott at that time was promoting the development of Munising and the surrounding country and had plans consummated for the building of the Munising railway. One of these plans was the contract above referred to. The Lac La Belle company, of which Mr. Scott was one of the heaviest stockholders, agreed to furnish the timber and forest products from the 100,000 acres which the company owned to such persons only as would promise transportation of the same over the Munising railway to Munising bay for manufacture. The Lac La Belle company further agreed that in all sales of lands and timber there should be a stipulation that the said Munising Railway company "shall have exclusive opportunity and right to transport said timber." The contract further provided that the said railway company should give free mill or other manufacturing sites on the shores of Munising bay to such persons as should purchase 2,000 or more acres of the timber lands of the Lac La Belle company.

The Munising Railway company was incorporated July 3, 1895, and, as provided in the terms of the above named contract, the contract was assigned to the railway company by Mr. Scott.

On Nov. 15, 1901, the Lac La Belle company contracted to sell to Joseph H. Berry, trustee, all of the lands and timber owned by said company for the sum of \$212,500. The plaintiff in this suit alleges that this contract failed to stipulate that the Munising railway had the "exclusive opportunity and right to transport said timber to Munising bay," the omission of which stipulation constitutes a breach of contract for which the plaintiff company asks judgment in the sum of \$200,000. Tarney & Fitzpatrick, of Detroit, and Hoyt, Dustin & Kelly, of Cleveland, are attorneys for the plaintiff.

In answer to the plaintiff company's bill of complaint the Lac La Belle company, through its attorneys, A. B. Eldredge, of Marquette, and Harrison Geer, of Detroit, alleges that the Munising Railway company was insolvent up to 1901 and was unable to carry out the terms of the agreement in any way; that in 1901 the railway passed into the control of the Cleveland-Cliffs Iron company, and that the latter company is diverting the forest products of the territory through which the Munising railway extends by transporting said products to Marquette.

The answer of the defendant further alleges that "shortly after the Cleveland Cliffs Iron company acquired control of the plaintiff company and of the Munising company the defendant endeavored to sell the best named company's lands, but through the intervention of William G. Mather, the said Cleveland-Cliffs Iron company refused to consider any proposition for the purchase thereof, alleging that they were burned over and denuded," also that after the said Cleveland-Cliffs Iron company had refused to buy the lands the defendant company applied for a site on Munising bay under the terms of the contract upon which the plaintiff basis its suit, for a charcoal blast furnace with chemical works, the defendant setting forth in its application for such site that they had sufficient capital interested to ensure the erection of such furnace and chemical works, but the plaintiff refused to sell or give the site asked for, and declared that never, with the consent of the plaintiff should any blast furnace with chemical plant be erected on Munising bay, except the same was owned and controlled by the Cleveland-Cliffs Iron company." The defendant company alleges that this refusal to give a site constitutes a breach of contract, and that by this refusal the plaintiff first violated the agreement and therefore the defendant was released from all obligations which the contract might impose upon it. Attorneys for both plaintiff and defendant demand a jury trial.

DEAFNESS CANNOT BE CURED
By local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

HUNDREDS OF GAS RANGES
will be sold this year. All cannot be placed at once, therefore send in your order now. Two dollars places one in your home. Marquette Gas Light Co.

DUE NOTICE SERVED.
Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. H. Harwood, Ishpeming; Stafford Drug Co., Marquette.

NEW OPERA HOUSE.
Architect Spent Tuesday Here Arranging Details of Construction.

M. E. Bell of Chicago, an architect in the employ of Frank P. McClure, the well-known constructor of theaters, was in the city all day Tuesday, conferring with the building committee regarding the construction of the new opera house.

Mr. Bell inspected the site and supervised the laying out of the necessary grade and street lines, which were thoroughly staked out. He also looked over the plans of the new Braastad block in order to make his own plans conform with them wherever necessary. He gave special instructions to the masons in regard to the construction of the wall between the play house and the Braastad block, with reference to the connection of the floor sill.

Mr. Bell expressed his satisfaction with the site in all particulars, saying that it was well adapted to the building of a perfect theater. The width is sufficient to give a stage seventy-five feet wide. Few theaters are provided with one more exceeding sixty feet in width.

The architect investigated the cost of material and labor and other details, using the knowledge to guide him in making estimates. He expects to have the plans and specifications of the building completed in two weeks. The building committee will then be ready to receive bids. Mr. McClure will enter his bid with the others. It is expected that bids will be opened and awarded before the first of June.

The opera house promoters do not intend to lose any time in getting their construction work started. As soon as the contract is let the successful bidder will be asked to begin work at the earliest possible date. It is now planned that the theater will be completed ready for opening some time in September.

PLAN TO FORM A UNION.
Carpenters, Bricklayers and Masons Will Unite in One Organization.

Ishpeming is soon to have another full-fledged labor union. The carpenters, bricklayers and stone masons of the city are planning to unite soon to get ready for the spring campaign in building, which promises to be very active this season. All have been arranged except the final details. The officers of the Marquette union will come here and put the organization on its feet and get it properly started. When that happens a boom in wages and shorter hours will be demanded.

According to the present plan a new schedule of wages will be made out and rigidly adhered to. The rate for carpenters will be set at 34 1/2 cents per hour for a nine-hour day. Bricklayers and stone masons will ask 50 cents per hour for the same number of hours.

Mr. Bell expressed his satisfaction with the site in all particulars, saying that it was well adapted to the building of a perfect theater. The width is sufficient to give a stage seventy-five feet wide. Few theaters are provided with one more exceeding sixty feet in width.

The Friend label in your inside coat pocket is a due-bill on yourself—it entitles you to half the money you would pay for a tailor's attempt to give you equal style.

FRIEND CLOTHING

is in the very nick of fashion. In cut and cloth, in design and detail, in conception and carrying-out, there is never an item slighted.

Friend garments are never stiff and wooden-looking, yet their shapeliness is always permanent and their fit perfect, even to the last day of wearing.

THE FRIEND GUARANTEED CLOTHING IS FOR SALE BY LEADING DEALERS, MARQUETTE.

FOR PRETTY HOMES.
Cleveland-Cliffs Company Makes Its Annual Prize Announcement.

The Cleveland-Cliffs company has just issued an attractive pamphlet containing the announcement of prize awards for the coming season, and a number of half-toned cuts of the premises of the prize winners last year. They are sent to all the tenants occupying the company's houses.

The preface outlines the general conditions and rules governing the contest, as follows:

"For several years past the Cleveland-Cliffs Iron company has been offering prizes to those who have obtained the best results in the keeping of their premises; in vine planting, window box gardening and vegetable gardening. Due to this friendly rivalry between the tenants of the company a great good has been accomplished. Improvement in the homes of our tenants is everywhere apparent, and we feel that the effort to have our people take a greater interest in their surroundings has been a great success. We are proud to say that Ishpeming today is credited with being the best kept mining town to be found in the United States.

"We are sending you this little circular with the idea of getting your cooperation in this work of improvement. While much has been accomplished, we believe we can do still more. We appreciate the value of your assistance, which we respectfully solicit.

"We hope that every tenant will enter the contest this year, and we enclose a blank for your consideration. Should you decide to place your name upon the list, you may call at the general office in person, this to be done before June 1. We are sending you the effort to simplify things for the committee that makes the inspection of the different premises.

"Remember that it is not always the prettiest place that wins. The person who starts with the most modest surroundings is given full credit for what ever effort may be expended. Improvement is considered, and the amount of work done will be fully taken into account.

"Winners of prizes in previous years will not be entitled to the same prize this year, but can compete for a higher prize in the same class or enter the general competition in other classes.

"Those of our tenants who desire trees, shrubs, etc., can secure the same from our Negunee greenhouses at reduced prices by presenting applications for prizes.

"We hope to number you among the prize winners for 1903. The engravings in this little circular will show what some of our tenants have accomplished.

"The prizes can be competed for by all residents occupying property of the Cleveland-Cliffs Iron Mining company in the following locations: Hard Ore, Marquette, Nebaska, Barnum, Junction, North, Salisbury, Bancroft, First and Second Additions to the city of Ishpeming.

"The prizes aggregate \$200 in cash and are distributed as follows: For best kept premises, nine prizes, value \$111. To be distributed according to the condition of the laws, cleanliness and general appearance; houses, fences, walks, back yards and flower gardens to be considered. Three first prizes, value of each \$15. Three second prizes, value of each \$12. Three third prizes, value of each \$10.

"For vine planting, four prizes, value \$30. For the most artistic planting, arrangement and training of vines on houses, porches, out buildings, fences and arbors. First prize, value \$10. Second prize, value \$8. Third prize, value \$7. Fourth prize, value \$5.

"For window box gardening, to be in charge of a committee of ladies. Four prizes, value \$22. Open to all women for the most attractive window box effects; arrangement, design and condition of plants to be considered. First prize, value \$8. Second prize, value \$6. Third prize, value \$5. Fourth prize, value \$3.

"For vegetable gardens, four prizes, value \$20. To be awarded for the best arranged vegetable gardens; care of grounds, quality and quantity of product, and attention to duty to be considered. When gardens are planted, and looked after by boys of the family an extra prize of \$2 will be awarded in addition to the regular prize. First prize, value \$10. Second prize, value \$8. Third prize, value \$6. Fourth prize, value \$5.

"A committee of well-known residents will make frequent inspections, take photographs, and keep careful watch of the progress made.

SAILED WITHOUT A RUDDER.

One of Britain's battleships just recently accomplished the remarkable feat of sailing over 2,000 miles without a rudder, and which reflects the greatest credit on her officers. The record of cures back of Hostetter's Stomach Bitters certainly reflects great credit on the ability of this medicine to cure stomach, liver and kidney disorders, even after other remedies have failed. During its fifty years' experience, it has never been known to fail in cases of dizziness, loss of appetite, insomnia, headache, indigestion, dyspepsia, liver and kidney troubles, or malaria, fever and ague. In view of such a convincing record we feel justified in urging you to try it at once. We know you will be satisfied with the result. The genuine must have our Private Stamp over the neck of the bottle.

ISHPEMING IN BRIEF.

Mrs. A. E. McKenny will leave today for Fort Clinton, O., to spend a few weeks visiting her sister.

J. F. Ryan of Escanaba, district agent of the Phoenix Insurance company, was in the city yesterday.

B. T. McDonald of Detroit was here yesterday installing a large X-ray outfit in Dr. Hottel's office.

The funeral of Mrs. Alphonse Pepin of Suezey, was held yesterday morning from St. Joseph's church.

Louis Miller, president of the Wyoming Curing Mining company, was in the city for a short time Tuesday.

With the exception of two cases of diphtheria, the city is now entirely free from any kind of contagious disease.

William Garceau and Miss Clara E. Ebner, both of the Winthrop, were married yesterday morning at St. Joseph's church.

Miss Mae Cronin, who has attended a conservatory of music at Winona, Minn., for some months past, is home visiting her parents.

The funeral of John Pesola, the man whose body was found Tuesday, will be held today at 1 o'clock from Gill's undertaking rooms.

Walman & Son have moved their carpenter shop to the building on First street formerly occupied by August Lundin's tailor shop.

J. W. Jochim has returned from a visit to Pittsburg. While there he met J. E. McCollins, former superintendent of the Ishpeming schools.

John Bodenna of Calumet, who has been visiting friends here for several days past, left last night for Bisbee, Ariz., where he will take up his residence.

Work on the Cleveland-Cliffs Mack-smith shop has been at a standstill for a number of days owing to a scarcity of brick. The wall is now about half completed.

Among the books recently received at the library are "Red, Blue and Yellow Fairy Tales," by Andrew Lang, and "Middle-aged Love Stories," by Josephine Daskam.

The assessor has been sending out blanks recently to those who pay taxes on personal property. A large number have already made returns and it is expected that all will be in the assessor's hands within a week.

John Bowden, who spent his boyhood days in Ishpeming, was here visiting relatives yesterday. He is located at Red Jacket, where he is engaged as a steam fitter with the Carlton Hardware company, of which John Burder, formerly of this city, is vice president and general manager.

The local hive of the L. O. T. M. entertained about 125 members of the Marquette hives and a large delegation from the Negunee hive yesterday. The visitors arrived in the morning train and remained all day, leaving on the return at 6:55. They made their headquarters at the Swedish Home Hall, where refreshments were served. The occasion was much enjoyed by the local members and their guests.

PAINTING AND PAPER HANGING.

W. J. Gollsworthy, 310 High street, painter and paper hanger. Large assortment of wall paper and paint on hand. First-class work guaranteed. A call solicited. (5-4-1m)

Fifteen days for bargains commencing May 15 and ending June 1. Twenty per cent discount for cash on all kinds of furniture, household goods, stoves, tinware, pictures, wall paper, carpets, etc. Swansen, Warnberg & Co. (5-14-1f)

DEBTS DON'T SHRINK.

Perhaps debts would shrink if they could when a man dies, but they are not built that way. Assets are more sympathetic, and oftentimes melt and disappear. Insurance stands in the gap. 34th year, doing business in 25 States. Nat'l Life Ins. Co. of N. Y. Mutual Organized 1850. J. W. Marshall, Gen. Mgr., Marquette, Mich.

We are selling sixteen-inch pine slabs at \$5.00 per load. Consistent Fuel & Lumber Co. (11-24-1f)

IMMEDIATE ANNUITIES.

The great security offered purchasers of "National" Annuities should command the attention of investors. No fluctuation of income, no care, no danger of loss. Collectible in any part of the world. A permanent letter of credit, good as long as you live, as sure as you live. 34th year, doing business in 25 States. Nat'l Life Ins. Co. of N. Y. Mutual Organized 1850. M. W. Marshall, Gen. Mgr., Marquette, Mich.

WILL VACATE THE SITE.
Swanson, Warnberg & Co. to Get Out the Way of the Theater Builders.

Elsewhere in this issue Swanson, Warnberg & Co., the Cleveland avenue furniture dealers, announce that they will conduct a removal sale, commencing tomorrow and continuing until June 1. The members of the firm are desirous of vacating the premises as soon as possible, so that the construction of the proposed new theater will not be delayed on their account. From present indications they will be obliged to take quarters in their own building, about a block east of their present stand and which is too small to accommodate them properly. It is their desire to reduce their stock as much as possible within the specified time in the hope they will be able to house what is left.

The firm announces a 20 per cent reduction, which will place most of their goods at cost, and in some cases below the cost mark. In the announcements the articles mentioned as coming under the special sale are household goods of all kinds, furniture, stoves, carpets, rugs, tinware, hardware, pictures, wall paper, etc. The stock in all lines is very complete and many bargains can be secured.

Carpenters will be engaged within a few days to remodel the firm's own building. A number of changes will be necessary to put it in condition for the conduct of a retail business. In case the firm later decides to remain here the building will be enlarged. In order to make this improvement another building, now occupying a part of the lot, will be removed.

ACCUSED OF FISHING WITH NETS.

A local business man and one of his employees were arrested yesterday charged with taking trout in nets. The men were at a stream out from Humboldt, when a party of Ishpeming men came along and saw them with the nets and some trout. The accused parties claim they caught some fellows working with the nets and as soon as the guilty ones saw them they ran and left the outfit behind. They will try to prove that they merely took the nets from the river and did not attempt to take any fish with them. The case will be given a hearing before one of the local justices. Game Warden J. C. Downing made the arrests.

PLANS A NEW HOME.

Pat Lyons, the Ninth ward politician, recently sold the lot on which his dwelling has stood for the past thirty years to H. F. Heyn, whose residence is across the street. Mr. Lyons has commenced tearing down his house and barn. He has leased a lot from the Cleveland-Cliffs Iron company near the Barnum barn and will have the house and barn rebuilt on the new site as soon as carpenters can finish the job. Mr. Heyn intends to erect a modern dwelling on the lot. Mr. Lyons regrets very much to leave Barnum street, where he has spent the greater part of his life.

PHILANTHROPY

is not our business. Nor is it anyone's business. And it is a very poor business which pretends to be philanthropy.

Our Business is selling an excellent Remedy known as

IRON-OX TABLETS

They strengthen and tone the nerves, they enrich and purify the blood, they cure constipation and indigestion.

50 Tablets, 25 Cents

THE Iron-Ox Remedy Co. DETROIT, MICH.

CHAMPION.
SUMMER COTTAGE NEAR HERE.

Messrs. Deering and McCormack of Chicago, both prominent manufacturers of farm machinery, are camping in the woods about twenty miles out from Champion. They arrived here last Monday with a complete outfit, including lumber for a cottage. They purchased a large supply of provisions in Champion and several teamloads of stuff were sent to the proposed site of the cottage.

The two gentlemen spent some time in this section last fall with a view to finding a desirable location for a summer cottage. They were accompanied by Fred Schwendeman of Michiganganne, who showed them over the country. It was thought that they would locate on Dead river, north of Ishpeming, but after returning to Chicago they concluded the site out from Champion was about as good as any they had seen.

It is said the Chicago capitalists will spend the greater part of the summer at their new resort. They were accompanied by carpenters and other mechanics, who will remain at the location until the cottage is completed.

ATTRACTIVE GROUNDS.

A number of trees have been set out on the lawn surrounding the Champion Iron company's office. The grounds have been improved, and with the trees the lawn will be very attractive. Over an acre of ground is occupied by the building and lawn. The place overlooks Lake Michigan from the northeast, and from the northwest extends the Beacon grove, one of the most attractive natural parks in this section.

CHAMPION CHIPS.

The board of review of Champion township will meet on Tuesday of next week.

The employees of the Champion Iron company will be paid on Friday of this week for last month's work.

Fred Sleeman has the bowling record of Champion. He recently scored 264 points. Tom Larke's record still remains 248.

Miss Nellie Freely, who is attending the Normal at Marquette, entertained some of her girl friends at her home here Saturday and Sunday.

John George, an old resident of Champion, left Saturday night for California, where he will remain permanently. His family will reside here for the present.

Frank B. Taylor, for some time operator at the South Shore depot here, but now agent of the Copper Range road at Trumountain, was married Monday to Miss Julia Savigney of Republic.

Mrs. Ed. Lind, who spent the past two months or more with relatives in Calumet, returned a few days ago. She was accompanied by her sister-in-law, Miss Lind, who will visit here a few weeks.

William Rickard is the new proprietor of the Champion House. While the hotel business is new to him, he intends to serve his patrons to the best of his ability. Mr. Rickard is an old resident of Champion.

The marriage of Miss Annie Baupied of Champion and Joseph Frechette of Michiganganne will take place at the Catholic church here next Monday morning. After the ceremony the bridal party and invited friends will drive to the home of the groom's mother at Michiganganne, where a wedding feast will be served. In the evening there will be a dance at the Beacon town hall in honor of the event.

MADE YOUNG AGAIN.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again," writes D. H. Turner of Dempseystown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at The Stafford Drug Co.'s drug store.

About June 1 we will vacate our present stand to make room for the new opera house. Goods going at a 20 per cent reduction from May 15 till June 1. Terms cash. Swansen, Warnberg & Co. (5-14-1f)

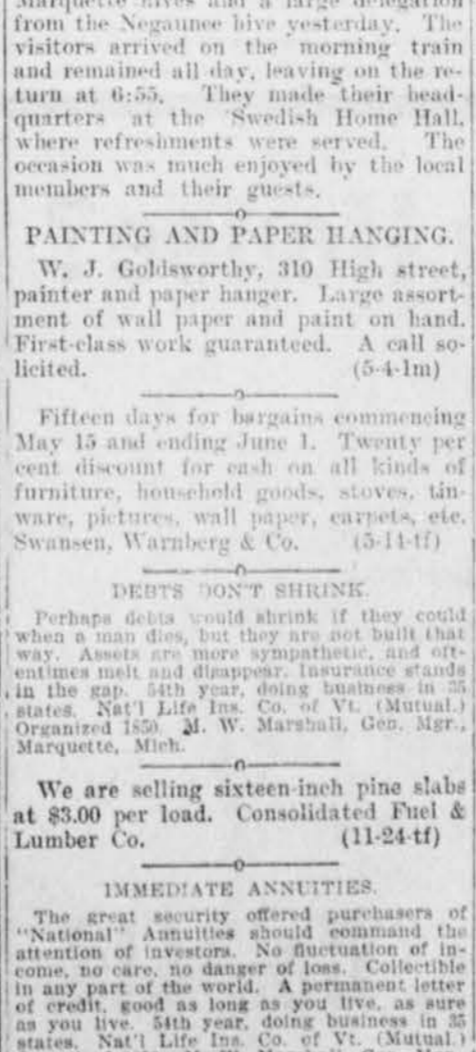

Two million Americans suffer the torturing pains of dyspepsia. No need to Burdock's Blood Bitters cures. At any drug store.

Sifter STOVE POLISH

Never dries out. Polishes stove without soiling the fingers.

Absolutely no waste. No odor. Does not rub off.

All dealers at 5 cents for a big box.

D., S. S. & A. R'y

METER QUESTION.

It is Being Much Agitated—Considerable Opposition Has Developed.

It is evident that the advocates of water meters will not see a system established without dealing with some opposition. Beyond a few who are doing the hardest work in favor of the project the discussion in regard to meters branched at different times has not been treated very seriously. Now that a real experiment is about to be undertaken with the chances favoring the ultimate adoption of the meters for every water consumer the question takes on a different phase. Those who are satisfied with the flat rate begin to realize that it is time to bestir themselves. Objections without end have been raised. Meters will make the city water cost too much and many will be deprived of its use. The expense of installation will be about \$12,000, which will increase the taxes, and finally no need for any change exists. All these arguments, with many lesser ones, are being urged until it would seem that the proposed innovation is doomed to failure from the start.

Meanwhile a number of meters are to be installed as an experiment and those who think the city needs the new system are securing prices and figuring on the probable cost and saving that will result from their adoption. From results thus far reached the result seems to be all in favor of meters. There seems to be no question that there might be a great saving in the consumption of water. It has been estimated that nearly 1,000,000 gallons is pumped out of the lake into the mains every day. This is a big increase over what was used a few years ago and many people are inclined to believe that another year will see a still larger increase. In this event the system of water mains would have to be re-constructed as the pipes now in use are already taxed to their fullest capacity. The city is still paying interest on bonds that were issued when the water system was established and to put in new mains would increase the indebtedness to an exorbitant figure. It is claimed that the next meeting of the council will be held on the subject of the waste, reducing the amount now used by half. The evidence that has been collected from other towns where meters have been given a fair test is all favorable to the system. Water rates of the average consumer have been reduced and the source of supply has been preserved. The meter question was fought out at Ishpeming along the same lines as it has been here, and the results have afforded a complete justification of the claims urged by those who were instrumental in securing its adoption.

Twelve meters are being installed. Some think that no definite results of any value will be attained if less than a hundred are tried as an experiment. However, a start has been made and the committee will probably come before the council at the next meeting and ask for authority to increase the number.

THEY NEED A LESSON

JUNK DEALERS A MENACE TO SAFETY OF SOCIETY AT LARGE.

THEY TEACH SMALL BOYS TO STEAL

MANEY HOPFS TO PROVE FINE AND HOFFENBERG GUILTY.

There is No Doubt That They Knew What They Were About When They Purchased Fountains Stolen by Selim Moffatt.

The authorities hope today to be able to make it very uncomfortable for the two junk dealers arrested Tuesday for having in their possession soda fountains stolen from the Pendill pharmacy by Selim Moffatt and subsequently sold for ridiculously small sums to these fellows, Abraham Fine and Nathan Hoffenberg. Their hearing is set for 10 o'clock at 1329 o'clock in Judge Byrne's court and Marshal Maney hopes to make a case out against them that will result in their being bound over for trial in circuit court. If this result can be obtained Judge Stone will doubtless see that they get an effective discouragement from future operations as "fences" for stolen goods.

In all, five fountains were stolen from Pendill's store. Of these Fine and Hoffenberg each had two, the fifth, according to Moffatt's promise, being returned Tuesday morning, although as yet it has not developed who had it. It is suspected, however, that a third junk dealer is the guilty party, and that Moffatt did not want to give him away, knowing that he would produce the fountain on the first hint of trouble.

All the fountains are out into. Moffatt claims that this work was done by the junk dealers in their efforts to get the copper contained in them into marketable condition and to disguise the identity of the fountains in order to prevent trouble. If this can be proved it is said that it will be easy to make out a good case against both Fine and Hoffenberg. They insist that the fountains as recovered by the police are in just the condition they were when they were received from Moffatt, but doubtless they are lying. The fountains are worth in the neighborhood of \$40 and of course their value as fountains greatly exceeds the value of the metal they contain. They were sold for a few dollars each.

Junk Dealers Need a Lesson.

There was no little comment yesterday in connection with the case. A general hope was expressed that the authorities will be able to hold Fine and Hoffenberg. Of course the latter insist that they were innocent of any knowledge that the fountains were stolen. To hear their tales, there are among the most honest and straightforward business men to be found in the city. The fact remains that they must have known that the fountains were stolen property, even if they were not in collusion with Moffatt, although the fact that he only received a few dollars for all four fountains makes this hypothesis rather improbable. Their common sense, and they possess enough of it for that purpose, must have told them that the fountains were stolen. If they asked questions they must have learned this fact from Moffatt, and if they did not their silence was a practical recognition of it.

These junk dealers are a class who need to be taught a severe lesson in this county. Not only in Marquette but in the up-the-road cities, they constitute a real menace to society. They are avaricious and grasping to a degree almost beyond belief. They will buy almost anything, providing it can be obtained for almost nothing, and they are constantly on the market for old metal, lead pipe, copper wire, and the various other odds and ends of things that lie around ready to tempt the small boy who up to the time of his connection with the junk men may have been guilty of nothing more serious than excessive mischief. It is a matter of common knowledge that some of these junk men have set boys and youths thieving, although it is rarely proved in a satisfactory manner. It is a matter of common sense that

they furnish a unique incentive to petty crime by furnishing ever ready "fences" for the reception of the fruits of small thieving. They are a pack of rascals, and if Marshal Maney can make out a case against the pair who are now in the toils here he will have accomplished a great good. They need a bad scare, and it should be repeated at periodical intervals.

A PLEASING PRESENTATION.

"A Prince of Tatters" Was Given It Last Evening.

Al H. Wilson and supporting company gave "A Prince of Tatters" a pleasing presentation at the opera house last evening before a fair-sized house. The play is easily the best that Mr. Wilson has been seen in here, and it was mounted in an exceptional manner. The supporting company was very creditable, a few members of the cast, prominent among them George Riddell, Fanny Bloodgood and Miss Kate Benoit, contributing especially to the success of the play. In the title role Mr. Wilson has a part well suited to his ability, one that permits him to introduce easily and appropriately his numerous songs, all of which were enthusiastically received last evening.

NEW BOOKS.

List of Volumes Just Received at Public Library.

The following books have just been received at the Public Library: Leith. The Mesaba iron-bearing district of Minnesota, 1903. United States geological survey, monograph 43. Smith. Carboniferous ammonoids of America. United States geological survey, monograph 42. Welsh, C. The right reading for children in the school, the home and the library. (Pamphlet). Michigan state gazetteer and business directory, 1903-4. Palmer, L. A. Grecian days. Sketches of travel in the East. (Boys' library). Hovitt, C. A. In the Michigan lumber camps. (Boys' vacation series). Moore, C. The Northwest under three flags, 1635-1796. Swoope, C. Lessons in practical electricity, principles, experiments and arithmetical problems. (Boys' library).

TIONESTA'S TRIAL TRIP.

New Anchor Line Steamer Is About Ready for Service.

The new Anchor line steamer Tionesta, which will be a regular caller at this port this season, had her trial spin Monday. Says the Free Press in the connection:

"The new passenger steamer Tionesta, the flagship of the Anchor line fleet, and one of the finest passenger boats on the chain of lakes was taken out for her builders' trip Monday afternoon. Vice President E. T. Evans and Western Manager J. C. Evans were aboard to do the honors. The officials of the Detroit Shipbuilding Co., including Secretary and Treasurer M. E. Farr, Superintendent Chas. B. Calder, Superintendent John Langell and Consulting Engineer Frank E. Kirby represented the builders. Mayor Maybury and Police Commissioner George W. Fowle did the honors of the city. In all there were over 100 guests, and the run, which was into Lake St. Clair as far as the Grosse Point lightship and return, after the compasses had been adjusted, was a delightful affair.

"The machinery in the Tionesta worked to perfection; not a journal became heated or a joint loose. The boat answered quickly and on the return was given a speed run the length of Belle Isle, where the engines were turned up to 107 revolutions, and it is estimated that her speed was about sixteen miles an hour. "The Tionesta, although she has beauty in her lines and furnishings, was not built for this alone by any manner of means. She will be a money earner and has sleeping accommodations for 300 persons and a cargo capacity for 5,500 tons of package freight. Her route will be from Buffalo to Duluth, stopping at Erie, Cleveland, Detroit, Sault Ste. Marie, Marquette, Houghton and Duluth. "While not entirely completed the new boat will be furnished and turned over to the Anchor line on Thursday when she will be taken to Buffalo."

Scratch, scratch, scratch: unable to attend to business during the day or sleep during the night, itching piles, horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

WATER IS TAINTED

KILN CONDENSATIONS GIVE IT MANY UNWONTED FLAVORS.

TROUBLE COMES FROM NEW FURNACE

WATER BOARD WILL LOOK INTO THE MATTER IMMEDIATELY.

It Is Likely, However, That the Annoyance Is Simply a Passing One, as Chemical Works Are Not Yet in Operation.

There has been much ado about the condition of the water supply here during the past few days. It has lately been carrying unwonted flavors and it has all attributed to the new Pioneer furnace in North Marquette, which is now allowing the condensations from its eighty charcoal kilns to run to waste, pending the completion of the chemical plant that is to utilize them. These condensations find their way to the lake and the result is quite apparent in the water that is being pumped through the mains to Marquette homes, it is claimed. There has been much fault finding with the supply, and householders, particularly the women, insist that it is tainted. A trace of crocote is most complained of. That there is something in these complaints appears from their general nature.

The water board is to take the matter up immediately. Yesterday Superintendent Kern was instructed to get an analysis of a sample of the water, and it is determined that it carries anything inimical to the public health some summary step will be taken to restore to the supply its wonted sweetness. However, it is most likely that the water will be reported healthful. In addition the board will consult with the furnace officials to determine just how long their condensations are to be allowed to run to waste, and, therefore, when it can be expected to see an end to trouble with the water supply.

It was early anticipated that the lake water might be affected by the furnace plant, and E. B. Palmer, president of the board, consulted with the furnace men in the connection. He was assured that the furnace would put nothing into the lake that would in any way contaminate or spoil the water, and the board has assumed that this would be the case. If it is not steps will be taken to secure the protection of the lake water.

However, members of the board do not anticipate that there will be any trouble over the matter. They realize that the furnace is not yet running in accord with the complete plans of the Cleveland-Cliffs people. The chemical plant will utilize practically all the present condensations, and it is probable that ample provision will be made to keep the remainder out of the lake. The company will likely be ready to cooperate in every way to secure the protection of the city's water.

The particularly aggravating conditions of the past few days are to be attributed in no little degree to the fact that a north wind has prevailed, it sweeping all the water from Dead river and the vicinity of the furnace along the shore and right to the waterworks in take, whence it has been carried through all the mains to the various consumers. If the winds had been from the south, the east or west the water would not have been affected in so great a degree.

There need be no anticipation that the city is going to suffer permanently as to water supply. Such a calamity is not to be thought of. It is probable that after a little temporary annoyance conditions will all be as satisfactory as of yore.

SOO CANAL PASSAGES.

List of the Boats Locked Through on the Up-Bound Trip.

Sault Ste. Marie, May 13.—(Special.)—Up: Arizona and consort, Northern Wave, 9 last night; Bormuda, Grampion, 1:40 a. m.; Strong, Warrington, 5; Wabdo, Gates, 7; Cadillac, 9:40; Neptune, 10:40; Mariska, 11; Eldhorn, 11:30; Empire City, noon; Mataafa, Manila, 4:40 p. m.; Gilbert, 7; Corsica and whaleback, 8.

Consort for the Pathfinder.

The big barge D. Z. Norton, which was purchased by the Huron Barge company from the Wilson Transit company, will be towed by the steamer Pathfinder. The price was not given out, but was about \$140,000. The Norton was built by the Globe Iron Works company and came out in 1898. She is 369 feet keel and forty-five foot beam and carries about 5,500 tons of ore.

The Fayette Brown and the Corsica and whaleback barge No. 105 are due at the South Shore docks today.

The Sacramento is now discharging her cargo of coal at Pickand & Co's dock. The Corsica and A. W. Thompson are waiting their turn.

The ore boats to clear from this port yesterday were the Wade, for Cleveland; the Pioneer, for Buffalo, and the Chattanooga, for Toledo. They were loaded at the L. S. & I. dock.

The Fay and Cobb, now at the L. S. & I. dock, and the steamer Samoa, waiting her turn at the Pickands dock to discharge a cargo of coal, have been chartered to carry ore from this port to Cleveland at seventy-five cents per ton.

AN INDEPENDENT BROILER in your kitchen will add more to the taste of meats than you can ever imagine. See the sample in our window. The Marquette Gas Light Co.

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

CITY BREVITIES.

Weather forecast: Cloudy, with probably occasional light rains; stationary temperature; fresh to brisk northerly winds.

Yesterday's temperature: 7 a. m., 35 degrees; noon, 41 degrees; 7 p. m., 42 degrees; maximum, 46 degrees; minimum, 34 degrees.

J. M. Longyear is in the city this week.

St. Genevieve's guild will meet this evening at 7 o'clock with Miss Tillie Dube, 407 Superior street.

A reception in honor of the new pastor, the Rev. Charles H. Maxson, was held in the parlors of the Baptist church last evening. It was largely attended. Refreshments were served.

The funeral of the late Miss Anna Christiansen will be held Friday afternoon at 2 o'clock, from the house to the Presbyterian church, where at 2:30 services will be held. The interment will be in Park cemetery.

The Soo baseball team is booked to play two games with the Marquette team here on the 30th and 31st. The Lock City aggregation will be strong again this season, but it is expected the locals, too, will be much in the running.

Yesterday occurred the long hoped for change in the weather. It dried up, but the wind remained in the north. The three days' rain operated to advance vegetation in a notable manner, and a little warm weather will now mature it rapidly.

A large delegation of members of Superior and Busy Queen hives of the Maccabees, and busy numbering a hundred or more ladies, spent the day in Ishpeming yesterday as the guests of the hive of the Hematite city. A delightful time was had. The visitors went up on the S. P. dock train and returned at 7:35 last evening.

Two representatives of the Sells Bros. Forepaugh circus were here yesterday, making arrangements for billing the big show. It is booked for an appearance in Marquette the latter part of next month. The advertising car will be along shortly. The Sells-Forepaugh show has never been seen in Marquette, and it is said to possess some unusually interesting features.

W. O. Butler has issued an edition of attractively printed and illustrated folders advertising the So-so-a-gaming club at the mouth of the Yellow Dog river, which will be open again this season under his personal management. The club is run on the hotel plan, and its members are all representative people who want to pay its rates, \$2 per day. Under Mr. Butler's management it has been conducted with notable success during the past few years. Another big season is expected this year.

Bowling seems to have taken a firm hold here. The alleys in the Bacon building are always in demand throughout the afternoon and evening, and bowling terms are heard at every turn down town, as the lately won devotees to the sport discuss the game. The scores are gradually mounting as the bowlers become more and more accustomed to the game, there having been when the Bowler alleys were opened very few old bowlers in the city. The best score made to date is 292, but it is not likely to stand very long, as there is a general desire to earn the distinction of bettering it. The new alleys are first-class in every respect and are conducted in excellent order. The hall in the Bacon block is well adapted to its new purpose, as its height and roominess mean lots of fresh air.

It's like a "dip in the fountain of youth." Touches the cheek so gently that "youth lingers on the face of old age." That's what Rocky Mountain Tea does. 35 cents. Stafford Drug Co.

RUGS MADE OF OLD CARPET

Address M. Iralson, Clifton Hotel.

THE FIRST NATIONAL BANK, OF MARQUETTE, MICHIGAN. ORGANIZED JANUARY 22, 1864. Capital and Surplus, \$200,000.00. PETER WHITE, President. L. G. KAUFMAN, Vice-Pres. CLAUDE W. CASE, Vice-Pres. EDW. S. BICE, Cashier. C. L. BRAINERD, Ass't Cashier. S. B. CRARY, 2nd Ass't Cashier. DIRECTORS: PETER WHITE, L. G. KAUFMAN, CLAUDE W. CASE, S. R. KAUFMAN, N. M. KAUFMAN. UNITED STATES DEPOSITORY. Mather, Walter Fitch, Frederick W. Read, Fred H. Begole, Daniel W. Powell, Dan H. Ball, Frank J. Jennison. "Having produced a peace of mind unknown to him who in time of misfortune must depend on the bounty of his friends, DETERMINE TO SAVE, for will-power is the prime essential. Deposit regularly. Lay aside some portion of each week's or month's income. Deposit extra and unexpected receipts."

1-2 PRICE REORGANIZATION SALE. 1-2 PRICE Boys' Clothing Must Go Now! Two weeks ago we started our reorganization sale with boys' and men's shoes. The success was phenomenal when the people realized what really good things they were getting for their money. In this sale we sold over 400 pairs of men's and boys' shoes. On account of being pressed for room we have decided to close out our entire stock of boys' and children's clothing at half price. This sale is for cash only. We positively refuse to sell anything on credit at these prices. Here is a Partial List of what we Offer You: A small lot of boys' suits were \$1.00 to \$2.00, now 50c. A lot of boys' blue chevrot suits were \$2 to \$5, now \$1.00 to \$2.50. A lot of boys' double breasted brown suits, sizes to 15, were \$1.50 to \$5, now half price. A lot of fine blue chevrots and tricots were \$8 and \$10, now at half price. A lot of black clay worsted suits, ages 5 to 9, were \$5.00, now \$2.50. Youth's long pants suits, ages 17, 18 and 19--will fit a small man, \$9.00, \$10.00 and \$12, now half price. A lot of boys' knee pants for 15c. A lot of boys' knee pants for 20c. All our boys' corduroy pants \$1.25 and \$1.00 grade, now 75c. All our boys' corduroy pants 75c grade, now 50 cents. All our boys' corduroy pants 50c grade, now 35 cents. We must treat everybody alike and will have to refuse credit. We need the money and room, and that is the object of this reorganization sale. P. S.—We still have a number of good things in boys' shoes, sizes 13 to 5. Men wearing sizes 10 or 11 will find a great many exceptional good things in these sizes. 1-2 PRICE Johnson Clothing & Shoe Co. 1-2 PRICE
