## FIREMEN JOIN CHICAGO STRIKE

EMPLOYEES AT THE POWER HOUSES WALK OUT IN AID OF THE TRACTION MEN.

TROUBLE MAY SPEAD FURTHER

IS FEAR UNION TEAMSTERS WILL REFUSE TO DELIVER COAL.

Twenty-Five Cars Are Operated on One Line Under Police Protection, but on All Others Traffic Remains Suspended.

Chicago, Nov. 13.—Twenty-five cars were run on the Wentworth avenue line today without damage to the cars or injury to the non-union employees operating them. This the Chicago City Railway company was able to accomplish with the assistance of the police department.

While there was no active interference with the handling of the cars such as attended the attempts of yesterday, the crowds that lined the streets jeered and hooted the police and non-union men almost without intermission. But two stones were hurled at cars during the day. Neither stone did much damage. At night the officials of the street car company were inclined to view the day's work with satisfaction. They announced that cars would be run tomorrow on the Wentworth avenue line and that attempts would be made to operate other lines.

Situation is Complicated. Shortly after this announcement, however, the situation was complicated for the company by a sudden strike of the firemen and helpers in all of the company's power houses. Two days ago the firemen signed a contract to last a year, but there was a clause in it giving the firemen discretion to go on a sympathetic strike if the company refused to arbitrate with the employees now on strike. The company said it always was willing to arbitrate the question of wages and the firemen signed the contract, which they have now repudiated. The union officials say the strike was ordered because the company declined to accept their offer to consider arbitration, as provided for in the contract. Manager McCulloch was indignant when he received the news of the firemen's strike. He said an agreement with a Chicago union was worth nothing, and declared, "This strike will not cripple us."

Teamsters May Give Aid. The real danger in this last strike lies in the attitude of the teamsters. They may decline to deliver coal if non-union firemen are employed, and the company has but three days' supply on hand.

The state board of arbitration had a conference with officials of the company and union today in an effort to bring about a settlement. Nothing definite was accomplished, but another conference will be held tomorrow. The board tonight said the indications were that the company would agree to arbitrate all questions except recognition of the union.

INJUNCTION PROPOSED.

Strikers Will Seek to Prevent Police from Riding on Cars.

Chicago, Nov. 13.—Organized labor will tomorrow attempt to bring sufficient pressure to bear on the municipal authorities to prevent police from riding on cars of the Chicago City railway during the existing strike troubles. The intention of the promoters of the plan is to have 1200 members of the Federation of Labor and Municipal Ownership League call on the mayor and chief of police and make a number of requests. They will ask that no more franchises be granted the street car companies, but that they be operated under a license system; that policemen be refrained from riding on cars during strikes, and that street car companies be prohibited from using electricity as motive power. Injunction proceedings are proposed to prevent police from riding on cars should the mayor refuse to order them off.

Mayor Harrison said tonight that he could not tell what he will reply until he knows what will be asked. "I will do all I can, however, to prevent disorder in connection with the strike," said the mayor.

Send's Strikers Its Best Wishes. Boston, Nov. 13.—The American Federation of Labor today passed a motion expressing the good wishes of the convention to the striking street railway men in Chicago, and hopes for their success and an early settlement of the dispute.

TAKES A POKE AT THE IRISH.

Joe Chamberlain Says They Cause the Political Corruption Here.

London, Nov. 13.—In a letter to Miss Milner, sister of Lord Alfred Milner, Joseph Chamberlain contends that the argument that political corruption results from a protective policy is absurd. Mr. Chamberlain says:

"Corruption is free from corruption, while in the United States, where there is a good deal of corruption, it is caused by the presence of Irish political organizations. So far as the government of the United States is concerned, nothing of the kind has ever been suggested to me and the general purity of the administration has been increased of late years under the protective system."

"The creation of trusts is also entirely independent of protection. The sentiment is likely to increase with the growing tendency to cheapen production by combinations with larger outputs."

ONLY A HARMLESS POLYPUUS. German Medical Journal Minimizes Operation to Which Kaiser Submitted.

Potsdam, Nov. 13.—The following bulletin was issued today: "The healing of his majesty's wound is proceeding in so entirely a satisfactory manner that

the next bulletin will not be issued until Sunday."

The Berlin Clinical Wochenschrift confirms the statement of the doctors that the operation to which Emperor William submitted was for a harmless polypus. It reports from Bonn that Prince Henry of Prussia declared the illness of the emperor not at all serious. Were it so, Prince Henry said, the emperor would have revealed the truth to the people.

WILL PROSECUTE THE INDIANS.

Murdered Officers Martyrs to Duty, Declares Wyoming's Governor. Cheyenne, Wyo., Nov. 13.—Governor Chatterton today made public the result of his investigation into the responsibility for the recent trouble with the Sioux Indians. He finds that the Indians were violating the state law in slaughtering game and were also slaughtering the cattle of settlers; that the sheriff demanded their surrender; that in reply to this demand the Indians fired upon the sheriff's posse, and that the latter returned the fire. The governor states there can be no question as to where the responsibility lies. The Indians were violating the laws of the state, knowingly and wilfully, and the murdered officers were martyrs to their duty. The governor declares he will insist on a thorough trial, if for no other reason than to vindicate the state law and present their sacrifice in a proper light before the people.

BARRY SERVES NOTICE

WARNING GIVEN BY STATE INSURANCE COMMISSIONER.

Rebating of Premiums Is Unlawful, Makes Policies Void and Lays Conditions Open to Prosecution.

Lansing, Mich., Nov. 13.—"My attention has been called," said Insurance Commissioner Barry in an interview here today, "to the fact, as alleged, that some of the insurance companies authorized to transact business in this state, have been rebating premiums recently. This is about the time of year that companies desirous of making a great show of business written during the year, are wont to indulge in this reprehensible practice.

"The law provides a penalty both for the agent and the company found guilty of rebating, but for obvious reasons it is difficult to secure the evidence necessary to convict. The citizen who is given a rebate and who obtains his first year's insurance for less than his neighbor is obliged to pay for it and becomes a party to an illegal and fraudulent transaction, is very likely to keep the matter to himself, while the agent who does the rebating is also careful to keep the secret.

"An ordinary business man who is not familiar with the insurance laws and court decisions of this state, favors himself that he is getting a bargain when he purchases his insurance at a nominal cost compared with the premium named in the policy.

Is Being Gold-Bricked. "The fact is that he is being gold bricked. Instead of leaving his family a valuable legacy as he supposes, he is in all probability bequeathing them a store of expensive litigation and bitter disappointment.

"The supreme court of this state, in the case of Heffron vs. Daly, which I decided, has by a unanimous opinion written by Chief Justice Hooker and handed down June 30, 1903, used very positive language in passing upon the validity of a life insurance contract in a case in which the agent rebated one-half of the premium and took the contract on the balance. The supreme court refused to enforce the payment of this note, and in reversing the judgment of the lower court, used this emphatic language: 'The contract of insurance was prohibited by law and the act of making it was a penalty. The contract was, therefore, illegal, and being so, no consideration for the note failed.'

"The reason why this contract was held to be an illegal contract, and, therefore, void," continued the commissioner, "was that the anti-rebate law of Michigan was violated when it was entered into. It is plain from the language of the court that the company was given no identity under the illegal contract. If the policy could have been enforced against the company, the consideration would not have failed.

Reason of the Law.

"The reason for the enactment of the anti-rebate law was a desire to preserve the mutuality of policy holders and prevent discrimination between them. It is neither right nor just to use the accumulated funds of policy holders which should be returned to them in dividends to pay a bonus to some agent or give cheaper insurance to a favored few.

"The policy holder who is a party to one of these illegal contracts need not think that he can rest secure in the belief that the company will not take advantage of the fraudulent character of the contract and refuse to pay the face of the policy when it matures. Any policy holder can enjoy the benefit from paying any claim thereunder. The rebating of a premium puts on the policy a cloud which no man who desires to leave his family adequate protection in case of his death, should permit to exist. It is plain from the language of the court that the company was given no identity under the illegal contract. If the policy could have been enforced against the company, the consideration would not have failed.

PRESENTS HIS CREDENTIALS.

Panama's Minister at Washington Is Received by the President.

Washington, Nov. 13.—M. Philippe Buena-Varilla was received by President Roosevelt today as minister plenipotentiary and envoy extraordinary of the republic of Panama. The minister in presenting his credentials delivered a brief address to which the president fittingly responded. The exchange of addresses was impressive, by reason of the circumstances, and the addresses themselves are regarded as felicitous.

Panama, Nov. 13.—The Associated Press correspondent today communicated to Jose Augustin Arango, president of the junta, the first news of President Roosevelt's reception of M. Philippe Buena-Varilla as minister of the republic of Panama. Mr. Arango expressed great gratification, saying this act of President Roosevelt would probably be a consummation of a treaty, and that such negotiation would probably be completed before the Panamanians held a convention to elect their legislature and adopt a constitution.

It is rumored that the situation at Bogota is extremely critical, and that there is a continuance of the manifestations of furious despair over the loss of the isthmus. The feeling against President Marroquin is growing in intensity, and one rumor has it that he has been deposed. The populace of Bogota is talking of sending a big expedition to recapture the isthmus at any cost, in their excitability losing sight of the fatuity of such an attempt.

WAS A FRIEND OF AMERICA.

Berlin, Nov. 13.—The death of William von Polenz occurred today near Dresden, Saxony. The deceased had made numerous visits to the United States and wrote a book entitled "America, the Land of the Future," in which he spoke enthusiastically of that country.

of the Michigan supreme court, life insurance policies are made void if the insured accepts a rebate on his premium.

NO NEWS OF EXPLORERS.

Hubbard and His Party Thought to Have Perished in Labrador.

St. Johns, N. F., Nov. 13.—A steamer which has just returned here from Labrador brings no news of the expedition to explore the interior of Labrador headed by Leonidas Hubbard, Jr., of New York, assistant editor of "Outing." All settlers believe the party have perished.

ULTIMATUM BEARS FRUIT.

Turkey Will Accept the Russo-Austrian Scheme of Reforms.

Constantinople, Nov. 13.—Towik Pasha, the foreign minister, called on the Russian and Austrian ambassadors yesterday and notified them that the Porte's reply to the latest note of the two powers on the subject of reforms in Macedonia would speedily be presented and would be satisfactory.

HANNA CALLS COMMITTEE.

Washington, Nov. 13.—Senator Hanna, chairman of the Republican national committee, today issued a call for a meeting of the committee in Washington Dec. 11, to decide the time and place of the next Republican convention.

ARMY IN MOTION

STRONG FORCE OF COLOMBIANS MARCHING ON PANAMA.

Action of the United States Will Take Its Unknown Except That It Is the Purpose to Prevent Fighting.

Guayaquil, Ecuador, Nov. 13.—General Plaza, president of Ecuador, has called President Marroquin of Colombia, sympathizing with him in the recent events in Panama. President Marroquin has replied, thanking General Plaza and adding that Generals Reyes, Caballeros, Ospina and Holguin are marching on Panama with a large army to subdue the isthmians.

Lima, Peru, Nov. 13.—The Colombian minister to Peru has published a cablegram received from his government, saying that Colombia has taken measures to suppress "the isthmian traitors" and that all parties and all classes have offered the government their lives and properties in defense of national territory.

Fighting Will Be Prevented.

Washington, Nov. 13.—Both Secretary Hay and General Young, chief of staff of the army, had retired when the bulletin announcing that an army from Colombia was marching against the isthmians, came, so that it was impossible to learn what action the government might take to meet the issue which will be raised.

Rumors were current today that the government intended to send United States troops to the isthmus, but positive official denials were made that such was the intention of the administration, which sometime ago asserted its purpose to prevent fighting that would endanger free transit at the isthmus.

Scare at Bocas Del Toro.

Colon, Nov. 13.—Cutters from the American warships here were despatched this morning to stop the German steamer Markomania, which was seen towing a launch toward the harbor. It was thought the Markomania was coming from a Colombian port, but it appears that she had been chartered at Bocas Del Toro to bring the alcalde of that port to Colon. There was a big scare at Bocas Del Toro on the receipt of news that the Colombian government was sending 5000 troops to retake the port, which recently declared its allegiance to the new republic, and the alcalde left on the Markomania for Colon for the purpose of obtaining arms and ammunition with which to equip volunteers to resist the expected Colombian attack. The alcalde, however, has returned to Bocas Del Toro to allay the fears of the populace and to give assurance that the landing of Colombian troops there will not be permitted.

WINDOW GLASS MAKERS UNITE.

Output of All Factories Will Be Controlled by One Company.

Columbus, O., Nov. 13.—Manufacturers of window glass met here today and completed plans for organizing the Manufacturers Window Glass company, which will control the output of practically all the window glass factories in the United States. The company will be capitalized at \$1,500,000. For the present it will be conducted as a selling agency, but the plans provide for taking over all the window glass factories later should it be deemed expedient. The company will have control not only of the hand-made product, but the American Window Glass company, but will also control the product of all the company's factories in which blowing machines are operated.

President Burns, of local union No. 300, and John Phillips, Jr., of the Window Glass Workers' association of America, were called into the meeting and said that "in consideration of the new company agreeing to the Philadelphia wage scale, which means the highest wages ever paid window glass workers in America, they pledge themselves and their organizations to enforce the scale in all factories, and that no plants outside of the new company would be allowed to start before or operate their plants longer than the time agreed upon each year by the Manufacturers Window Glass company."

IOWA FARMERS SUED.

Non-Catholic Lecturer Who Was Mobbed Asks \$50,000 Damages.

Des Moines, Ia., Nov. 13.—Several prominent Grundy county farmers who are accused of mobbing P. A. Seguin for delivering an anti-Catholic lecture were today made by Seguin the defendants in a \$50,000 damage suit. The defendants are William Murphy, J. P. Murphy, J. A. Murphy, James Murphy, Francis Murphy, Wm. McAvary, Jerry Condon, Pat Condon, Jerry Flynn, Patrick Flynn, C. J. H. Murphy, T. D. Murphy, U. O. Hummel and John O. Connors.

## ROOSEVELT FOR VIGOROUS ACTION

HE WOULD HAVE DUG THE CANAL DESPITE THE OPPOSITION OF COLOMBIA.

TOOK THAT STAND IN MESSAGE

REVOLUTION NOW WILL RESULT IN NEW RECOMMENDATIONS.

Was President's Opinion That Time for Trifling Was Past and That Treaty of 1846 Gave Power to Go Ahead With the Project.

Canal Treaty Really Unnecessary.

The president announced the refusal of Colombia to ratify the treaty, and after stating that the treaty had been negotiated at the earnest request of Colombia and subsequently was disapproved by Colombia, said that the powers exercised by the United States, under the treaty of 1846, in the protection of transit across the isthmus are so large that at the same time it had been questioned whether it was necessary now to obtain a treaty for the purpose of building a canal. Continuing, he wrote:

"High authorities on international law hold that the canal can be dug as an incident to the exercise of the power in preventing the obstruction of traffic across the isthmus. Nevertheless, in accordance with our settled policy of dealing with scrupulous fairness and generosity towards our weaker sister republics of the south, in this treaty we went as far as it was possible for us to go in the exercise of making concessions to the United States of Colombia. No further concessions can, or should, be made by this government."

The president then referred to the demand for a canal by civilization or the civilized world and the effort and failure of a private company to construct it. "Events of the last few years," he said, "warrant us in now saying not only that the canal shall not be constructed by any foreign power, but that it is not to be constructed by any private company. It must, therefore, be dug by the government of the United States."

Time for Trifling Past.

He declared it to be his judgment that the time for beginning the canal cannot be much longer delayed, and said: "This nation does not desire to be unreasonable or impatient, but it cannot and will not permit any body of men permanently to obstruct one of the great world highways of traffic; and refusal to permit the building of the canal amounts to such obstruction. Of course, to insist upon unstable terms is equivalent to refusal."

The president considered the question of choice between the Panama and Nicaragua routes, and said that after giving notice that we can no longer submit to trifling or insincere dealing on the part of those whom accident of the position has placed in control of the ground through which the route must pass; that if they will come to an agreement with us in straightforward fashion we shall in return act not only with justice but with generosity, and that if they fail to come to such an agreement we shall nevertheless forthwith take the matter into our own hands."

WINDOW GLASS MAKERS UNITE.

Output of All Factories Will Be Controlled by One Company.

Columbus, O., Nov. 13.—Manufacturers of window glass met here today and completed plans for organizing the Manufacturers Window Glass company, which will control the output of practically all the window glass factories in the United States. The company will be capitalized at \$1,500,000. For the present it will be conducted as a selling agency, but the plans provide for taking over all the window glass factories later should it be deemed expedient. The company will have control not only of the hand-made product, but the American Window Glass company, but will also control the product of all the company's factories in which blowing machines are operated.

President Burns, of local union No. 300, and John Phillips, Jr., of the Window Glass Workers' association of America, were called into the meeting and said that "in consideration of the new company agreeing to the Philadelphia wage scale, which means the highest wages ever paid window glass workers in America, they pledge themselves and their organizations to enforce the scale in all factories, and that no plants outside of the new company would be allowed to start before or operate their plants longer than the time agreed upon each year by the Manufacturers Window Glass company."

IOWA FARMERS SUED.

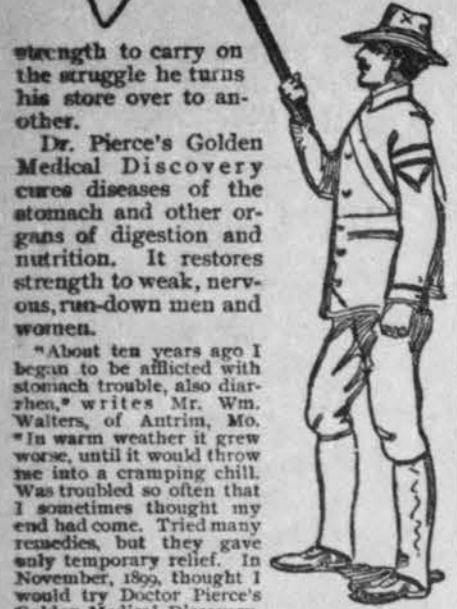

Non-Catholic Lecturer Who Was Mobbed Asks \$50,000 Damages.

Des Moines, Ia., Nov. 13.—Several prominent Grundy county farmers who are accused of mobbing P. A. Seguin for delivering an anti-Catholic lecture were today made by Seguin the defendants in a \$50,000 damage suit. The defendants are William Murphy, J. P. Murphy, J. A. Murphy, James Murphy, Francis Murphy, Wm. McAvary, Jerry Condon, Pat Condon, Jerry Flynn, Patrick Flynn, C. J. H. Murphy, T. D. Murphy, U. O. Hummel and John O. Connors.

STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women.

HE OPPOSES THE NEW LAW.

President of the Gun & Rod Club Discusses Hunting Accidents.  
"You cannot legislate against carelessness in the hopes of preventing hunting fatalities," replied George Williams, president of the Houghton County Gun & Rod Club, when asked yesterday for an opinion of the statute making it a criminal offense to shoot a person in the woods while hunting. "I for one am opposed to the new law, and I do not believe it would stand a test in the courts," he continued.  
"I am afraid there will be many white bones found in the woods unless the law is wiped out," he continued. "A man may be shot and his family and friends will mourn his absence, and perhaps after a time his remains will be found in some lonely spot. A hunter knows that if he shoots a fellow being he is liable to a fine of a thousand dollars or ten years in prison. Self preservation is the first law of life, and that is the first thing one is apt to think of when he shoots and wounds or kills by mistake. Instead of staying by his victim to succor him, if he is wounded, the hunter is more liable to steal away and leave the man to help himself as best he can. Of course if there are witnesses to the shooting, that is a different matter."  
"Shooting at a moving object in the woods is likely to get quickly out of the reach of suspicion. He still has his conscience to contend with, but argues that that could not have been put aside even if he had remained with the man he shot. There are men, of course, who do not resort to such a move in trouble of the kind but there are too many who would. I read the other day of a man who sent a bullet crashing through the window of a cabin at night, mistaking the light for that of a deer's eye. The inmate, a woman, narrowly escaped being hit. It is just that kind of a man who would leave victims, wounded or killed, in the woods to remain until the bones were stumbled across."  
"What is needed are radical changes in the methods of hunting and until they are adopted and enforced by the hunters themselves, fatalities through carelessness will continue. There is no need of a law like the present statute. Good, common sense should be substituted and used by all hunters. You cannot legislate against negligence, but you can prevent fatalities by a change from the haphazard way of hunting. Liqueur or camp should not be tolerated. Imagine fifteen hundred hunters in the woods and 1,480 of them pretty well filled up with booze. What are the results of whisky drinking? Uncertain vision and a suspicious conscience. Everything the hunter hears moving in the woods is taken by him to be that for which he is looking. His aim may be steady at the moment there is the impulse to shoot, and too often it is, but the whisky can be blamed if it is a man he shoots instead of a deer. Liqueur should be cut out."  
"Indecision in dress also should be remedied. I know of one man who went into the woods garbed in a buckskin suit, the height of folly. There should be a radical change in dress. Those brown-colored coats should not be worn, and fur caps should be discarded. The dress should be opposite in character and color to that of deer skin. I should recommend a regulation hunting costume to be worn by all hunters to greatly lessen the chances for mistakes. A white coat or shirt is the best thing to wear over the upper portion of the body. A man can be more easily distinguished in such a rig except when there is snow on the ground, and then he is protected by the sameness of the color."  
"I believe there should be an age limit and that defective sight should be taken

into account when licenses are issued. The person should be able to prove that he is well versed in the use of farm arms before supplied with a license, also that he is able to distinguish one color from another. There are too many boys and inexperienced persons in the woods and too many with defective sight."  
Mr. Williams also remarked that it was dangerous to carry the carcass of a deer on the shoulders through the woods, as there have been cases when the deer has been fired at by hunters in the distance. A deer should always be dragged by the head, a good way being to tie two small saplings together to form a sort of a sled. He says that he has observed that most of the deer that have been killed so far this season have been fawns and does. Only a small number of bucks with antlers have been brought in.  
DEDICATION TODAY.  
Memorial Library at Painesdale Now to Be Opened to the Public.  
The new Sarah Sargent Paine Memorial Library, built at Painesdale, in the South range district, by William A. Paine, president of the Copper Range Consolidated company, in memory of his mother, will be dedicated today. The building has been completed for some time, but its formal opening was delayed until the arrival of Mr. Paine for his regular fall visit in the copper country. Today's event has been looked forward to by the people of Painesdale and other South range towns, who are proud of the beautiful structure. The afternoon and evening will be given up to the dedication.  
In the afternoon a parade, in which the Painesdale band, the fire department and citizens will participate, will be held. The ranks will be broken by the new building. Talks will be given by Rev. Mr. Fruit, pastor of the M. E. church, and other citizens, and Mr. Paine will present the building to the people.

"Jimmie" Duggan, the Houghton pugilist, will fight against an "unknown" at the Atlantic mine location this evening.  
E. D. Leavitt, consulting engineer of the Calumet & Hecla company, has returned to Boston after a short visit at the mine.  
The sale of seats for the production of "Shore Acres," at the Kerdge theater Monday evening, is on at the Kerdge hardware store.  
Rev. R. L. Hewson, of the Tamarack and Kearsarge M. E. churches, will give his popular lecture on "Billy Bray" at the Kearsarge church this evening.  
Adolph Jestala of Hancock will be brought before Justice Finn this morning to answer a charge of larceny preferred by Frank Kela. Kela alleges that he was robbed of \$45 by Jestala last Tuesday evening.  
Nicholas Bray of Laurium expects to put his new sawmill at Lake Gerald, on the line of the Copper Range railroad, in commission shortly after the first of the year. The mill will have a daily capacity of 75,000 feet.  
Ed Lee, the Hancock confectioner and baker, has bought back his old stand on Quincy street which he sold several months ago to A. D. Pettit. The purchase was made from A. J. Scott, who held a mortgage on the place.  
Three trammers narrowly escaped serious injury or possible death by an air blast at the 520-foot level of No. 2 shaft of the Quincy mine at 10 o'clock yesterday morning. Many tons of rock fell. The men managed to escape with a few cuts and bruises.  
County Game Warden W. H. Vivian, Jr., who returned from a trip in the woods Thursday, says that he is satisfied the game laws are not being violated. He came upon many hunters but all were supplied with correct licenses and living up to the law in every way.  
"Shore Acres," James A. Herne's rural play, will be the attraction at the Kerdge theater at Hancock Monday evening. The drama was presented in copperdom a year ago and it was voted in the opinion of the stockholders of the season. Everybody likes "Shore Acres" and a large attendance is assured. It will be presented by a capable company.  
The first indoor baseball game of the season was played in the Amphitheater, at Houghton, Thursday night. The Portage Lake Hardware team of Houghton and the Osceola club were the opposing aggregations. The visitors won by the score of 23 to 15. Eggleston did the twirling for the Portage Lakes, and Edwards pitched for Osceola.  
Regular games in the Houghton County Bowling league schedule were played Thursday evening. On the Deane team at Houghton, the Houghton team defeated Hancock. The Dees of Houghton defeated the Mitchells of Hancock on the Mitchell alleys. In one of the games the Dees ran up a total of 867 points, the highest score of any team in the league to date.  
Joseph Schnitzer of Houghton, who was recently appointed deputy food inspector for the upper peninsula, has returned from Lansing, where he was instructed in his work, and he entered upon his new duties. He is obliged to make the rounds of all the grocery stores twice a year to make tests as to the purity of certain kinds of goods. He began his work at Houghton.  
Two football games may be played at Hancock this afternoon. Thanksgiving Day. The Marquette and Hancock High school teams may be the principals in one of the contests, and the Hancock athletic club and Calumet may play the other. It is believed that Marquette and Hancock would make a good match, as they appear to be about even in strength. Calumet and the Hancock athletic club team played a tie game at Calumet last Saturday.  
Most hunters are having little difficulty in killing one or two deer this season. The number of carcasses brought into town daily by the express companies is proof enough of that fact. The slaughter this season promises to be heavy, as there are more hunters in the woods than last year. No far no hunters in the woods have been reported in this region, although there have been rumors of mishaps. Accidents are expected, however, and it will be strange indeed if none occur.  
A branch of the National Protective Legion was organized at Hancock Wednesday evening by Mrs. C. N. Corners of St. Ignace, state organizer, assisted by Mrs. Courier of Houghton. The charter membership is thirty. W. F. Smith was elected president, Miss Mary Ryan secretary and Mrs. Charles Angier treasurer. There are branches of the order at Calumet and Lake Linden. Each has had several "pay offs" which have been welcomed by those who stick to the order long enough to reap the benefit.  
A jury in the case of Charles O. Olivier, administrator for the estate of Cyrille Boivine, against the Houghton County Street Railway company, a suit for \$25,000 damages for not securing until after 2 o'clock Thursday afternoon. The plaintiff then began to state its case. There is considerable testimony to be gone over and it is not likely that the case will go to the jury until Monday. It is one of the most important cases of the term. Great care was taken on both sides in the selection of the jury.  
The papers read by Calumet educational people at the recent meeting of the Upper Peninsula Education association at Marquette may be re-read in Calumet. There is some talk of holding a meeting for that purpose. It is said that those who gave the papers will be willing to again read them providing an assembly of sufficient size can be gathered at Calumet. The first-class accommodations afforded the traveling public.

**MINING NEWS**  
LODE TO BE EXPLOITED.  
Discovery at Hancock Shows Mineral Possibilities in Copperdom.

The copper-bearing amygdaloid recently discovered in excavating a foundation in the Condon addition to the city of Hancock is so promising that Mr. Condon may decide to trench across the lode at various points. The striking of this decidedly promising copper bed in a well-settled part of a city of 13,000 people, in the heart of the Lake copper district—a town fifty years or more of age—is an apt illustration of the possibilities of future discoveries that exist, not only here but in almost any of the world's other great mineral fields. The "Bis" Mine has been working 3,000 years, with occasional periods of idleness. The mines of Cornwall are at least as old, and modern miners and capitalists are uniting in reopening old mines of Mexico, Peru and other countries. The truth even older mines, in fields that were first opened thousands of years ago, such as South Africa and Egypt. In the light of these facts, and further considering that the Lake copper will make only 20 per cent more copper this year than ever before in its history, the laments of weak-hearted friends and covert enemies, over the decadence of the Lake copper district, are merely ridiculous.  
Calumet & Hecla.

It is asserted in local circles that the production of the Calumet & Hecla is increasing. The truth of the statement will be established by the figures of production secured for the year. The Red Jacket shaft is again in full commission, and the trouble there has not materially reduced production. With the extensive changes under way at the mills, the Calumet & Hecla will not be in position to greatly increase production for several years, and it would then be a very questionable policy to attempt a material increase, further than will come from the operation of the new amygdaloid mine. The truth of the matter is that the Calumet & Hecla has grown about as big as it can grow to advantage, and the efforts of the management for several years past, and at present, are mainly toward reducing costs while maintaining production at a fairly level figure. These efforts are proving successful in both particulars, and the "postal card report" of this company, next spring, should prove a very pleasant document to those capable of reading between the lines. Without cutting wages or sacrificing any slowly but surely reducing the cost of its copper. There is necessarily a limit to the saving that can be effected, but it has been by no means reached as yet.  
Mohawk.  
The shafthouse at No. 3 Mohawk, burned last week, was fully insured, and the principal damage is in the incomplete operation of the shaft. One of the three working shafts of the mine. The shafthouse will be rebuilt, and meanwhile production will be maintained at nearly its former level by increased hoisting from the other shafts, and from levels made on the stockpiles, remaining unmined for just such emergencies. The Stanton management is too wary a bird to be caught unprepared for any sort of disaster or hard luck to which mines are subject.  
Michigan.  
The single stamp at the Mass mill working on Michigan rock will probably crush about 225 tons daily—perhaps as much as 250 tons. When it is seen that the mine can furnish rock to advantage for full time on double shifts, the daily tonnage will be increased to 450 to 450 tons, which is a very respectable figure, though nothing less than a three-stamp mill, with daily capacity of 1,500 tons, was figured on by "boomers" four and five years ago, in the great era of re-opening old and forgotten new mines. The enthusiasts forgot that it took even the Quincy mine nearly fifty years to attain that production. Of course things are done more rapidly nowadays, but even in the Twentieth century it takes time to open a mine in living rock.

Must Turn Over the Books—  
A peculiar case under an order to show cause was heard at an adjourned term of circuit court at St. Ignace this week. John E. Quinlan was elected clerk of Hendricks township last spring. Some little time ago he moved to Newberry, where he is in the employ of the furnace company as clerk in the woods. The Hendricks township board declared his office vacant and appointed his successor. Quinlan declined to turn over the office, claiming that he would be back shortly and that meanwhile his deputy was capable. Circuit Judge Shepard held that the action of the township board was final and that the books must be turned over.

**MAU**  
FURS are distinctively lustrous and beautiful, the workmanship the most perfect possible and the "style" assured. The skins from which MAU Furs are made are selected each season from the choicest and most exclusive offerings of the markets of Europe. No buyer in these markets is more critical and none more particular in his selections than MAU. Many of the best people of many States find it greatly to their interest to place their order with MAU in preference to any foreign or other American furrier.  
A handsomely illustrated Catalogue of the season's styles will be mailed free to any address.

Hydrants Being Covered.  
Houghton Water System Being Made Ready for the Winter.  
Superintendent of Public Works Foley of Houghton is looking after needed precautions to protect the water system from the severe low temperature which has played havoc in other years. All of the hydrants are being covered, and the connections will be made where desired and pipes laid at shallow depth will be given attention.  
The construction of the two concrete retaining walls designed to prevent the water from running to waste, has been completed by Contractor E. McNamara. No more of the work mapped out for the winter season will be done this fall. Next spring the two reservoirs, of which the retaining walls are a part, will be completed. The concrete walls are built across the springs facing the back of the mine. The other three walls of each reservoir will later be constructed of porous material through which the water can filter.  
Mr. Foley, in whose hands has been placed the appointment of a new poundmaster, says that he will select a man for that position until the water works system is prepared for the winter. One of the regular village employes may then be entrusted with that work. Before cows are impounded, however, a barn will be secured to shelter them. Mr. Foley believes that the nuisance of wandering bovines will not be entirely done away with until the council passes an ordinance fining the owners of the cows found in the streets. If such an ordinance is passed, he will see that it is enforced and guarantees that there will soon be a stop to the nuisance.  
HIS FUNERAL THIS AFTERNOON.  
The funeral of the late Thomas Thompson, the veteran lighthouse keeper at Eagle Harbor, in Keweenaw county, who died at the Northern Michigan General Hospital at Laurium of a complication of diseases Wednesday, will be held at 2 o'clock this afternoon at the family residence at Eagle Harbor. The death is regretted by a large number of friends. Mr. Thompson had had charge of Eagle Harbor Light for 30 years. For the last ten years and previous to that was in charge of the range lights at that place for four years. He was known by many Calumet people who never failed to call on him while at Eagle Harbor during the outing season. He treated callers with extreme cordiality. Mr. Thompson was fifty-four years of age. He was born at Edinburgh, Scotland, and came to this country when a young man. Before coming to Eagle Harbor he was assistant keeper at the Stannard rock lighthouse for a number of years. He is survived by his wife and a daughter and a son.  
PLAN NEW BUILDING.  
Officials of the Calumet branch of the Y. M. C. A. are planning a building for the erection of an up-to-date association building on Fifth street. It is rumored that the time is not far distant when plans will be laid with that object in view. The branch has been in need of a larger quarters for the last two or three years, and it was the pet idea of former Secretary S. A. Ackley that a new building eventually be built. The members of the branch are much in favor of the idea and it is said that they would be willing to pitch in and aid a project of the kind at any time.  
George D. Vesterman of Adrian, successor to Secretary Ackley, has taken hold of his new duties. He reached Calumet last week and has been highly recommended to the directors, who feel that he will give satisfaction. He will work along the same lines as his predecessor, who put into practice some radical changes in the conduct of the work. A meeting of the directors was held Wednesday evening to extend a cordial welcome to the new secretary.  
COMES BACK TO LIVE ON WIFE.  
A story is told in Laurium of the return of a miner, who deserted his wife and two children thirteen years ago. The closing down of the mines of the Amalgamated company, by which he was employed, sent him back, it is said, to the land of the living. He was then sent to send for his family as soon as he got a little money ahead, but that time never came. His wife was not long in finding out that her husband had deserted her, and it was not long before she had her share of cash run out. She was then compelled to take in washing to support herself and children. The woman did not upbraid her husband or threaten him on a charge of wife desertion when he came back to her. Now the neighbors say that she will have him to feed and that she also will have to work as hard as ever.  
A VICTORY TO BE PROUD OF  
is the final and absolute cure of a sore throat, in which the rawness and tenderness of the throat, the loss of voice, the inflammation of the lungs, the luxury of a sound throat and robust lungs is most keenly enjoyed by people who have suffered all the consequences of "a little cold, you know," have been rescued from misery and danger by Allen's Lung Balsam.

FROM AN OHIO MINISTER.  
Rev. G. W. Hagen of Clyde, Ohio, says: "I have used Dr. Warner's White Wine of Tar Syrup for sore throat, weak lungs, coughs, colds and all diseases of the kind it surpasses all other remedies. Many thanks to the doctor for his valuable remedy."

NEGRO MURDERS. ANDREW H. GREEN.

"FATHER OF GREATER NEW YORK" IS SHOT AND ALMOST INSTANTLY KILLED.

DEED OF A MANIAC. TRAGEDY THE OUTCOME OF AN INSANE DELUSION.

Shooting Occurs on the Steps of the Home of the Victim, After Which the Assassin Calmly Awaits the Arrival of the Police.

New York, Nov. 13.—Andrew H. Green, the "father of Greater New York," was shot and almost instantly killed on the steps of his home by Cornelius M. Williams, a negro, who is believed to be insane, this afternoon.

The shooting was evidently the outcome of an insane delusion on the part of the negro that Mr. Green had slanders him, for when he was asked why he had committed the murder, he replied, "I did it to save my character."

According to witnesses, the negro must have been waiting for Mr. Green to come home from his office. As Mr. Green started to ascend the steps to his home, the negro, who was standing in the vestibule, advanced toward him.

Williams told a rambling story about a colored woman, Mrs. Bessie Davis, who until recently kept a lodging house for negroes, who, he said, had circulated statements derogatory to his character.

Mr. Green was taken to a police station, where he was subjected to a search and examination, the result of which has led to the belief that he is insane.

He appeared perfectly self-possessed, noted as though he felt he had performed a meritorious deed, and in answering questions spoke like a man firm in his conviction that he had been deeply wronged by the man he murdered.

Williams told a rambling story about a colored woman, Mrs. Bessie Davis, who until recently kept a lodging house for negroes, who, he said, had circulated statements derogatory to his character.

AIMED AT UNITED STATES.

Russian Papers Give Remarkable Explanation of Events in Manchuria.

Odessa, Nov. 13.—The Soviet declares that Russia has reconquered Mukden because the United States government intended to utilize that place as a base of military operations and so compel China to fulfill the terms of the convention between the Chinese and United States governments.

CHILEAN ARBITERS ADJOURN.

The Hague, Nov. 13.—The Venezuelan arbitration tribunal adjourned today since the court will now consider its decision and will notify those interested of the date of its delivery.

STOP TEARING YOUR THROAT!

One dose of Ayer's Cherry Pectoral.

BAD CARTRIDGES COST REBELS DEAR.

GOVERNMENT MUCH INTERESTED IN A SUIT VESTED TO THE NATION.

MUNITIONS CONCERN ACCUSED.

ITS PRODUCT SOLD TO VENEZUELAN PROVES USELESS.

Castro Wins Pivotal Battle Because of Defective Ammunition, Some Like Which May Have Been Disposed Of to Uncle Sam.

New York, Nov. 13.—Robert Leslie Moffett and Arthur United States Senator Thomas E. Evans, successor to Thomas E. Evans & Co., have applied to Justice Clark in the supreme court for an order directing that a demurrer raised by the M. Hartley company, manufacturers of the arms and ammunition, to the complaint filed in the suit brought by Evans to recover \$81,000 for breach of contract and conversion, be struck out as frivolous.

The suit is of the utmost importance because of its bearing on the arms and ammunition purchased of the defendant by the United States government. The defendant sold arms and ammunition to the government in Venezuela and it is charged they were worthless, as well as the ammunition also sold by the defendant.

The motion before the supreme court brings to light strange relations. The plaintiff in the suit alleged that by means of defective arms and ammunition furnished to him by the Hartley company the destiny of the republic of Venezuela passed from the hands of the Matos adherents to the present ruler, President Castro, and the cause of former President Andrade was lost.

The Hartley company owns and operates the Union Metallic Cartridge company of Bridgeport, Conn., at which factory the alleged defective ammunition was furnished.

The Hartley company is also a stockholder in the American and British Manufacturing company, which supplies the United States government with a large amount of ordnance, and is also the owner of the Remington Arms company.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

CHICAGO GRAIN MARKETS.

Chicago, Nov. 13.—In spite of the rather bearish character of the news in general, an inclination was shown among the farmers today to buy wheat in the hope of putting it into storage as a hedge against a depression, and as a result of this improved demand a firm undertone pervaded the pit.

STOP TEARING YOUR THROAT!

One dose of Ayer's Cherry Pectoral.

tion and grew angry and profane, it is said, as he evidently deemed an impertinent question.

At the works of the Union Metallic company an effort was made to learn something of the system of inspection of ammunition sold to the general public, but the officials seen declined to give any information further than to say that when the company supplied to government, as it frequently did on specific orders, an army official inspected such ammunition before it was shipped from the plant.

Buyers Discarded Army Supplies. Inquiry made of General Crozier, chief of ordnance at the war department in Washington, brought the reply that the government did not purchase from the M. Hartley company; that the purchases were from various arms and ammunition companies direct, but that they sometimes sold to the Hartley company arms and ammunition for which the government had no further use.

Bradstreet's and Dun & Co's Weekly Summaries of Conditions. New York, Nov. 13.—Bradstreet's tomorrow will say:

"Quietness and even repression have governed commercial industry this week, but the prevailing pessimism cannot hide the fact that some really encouraging signs are visible. Taken as a whole, general business this week is rather larger, due to an expansion in retail trade at the Northwest, where it is more decidedly settled.

The lumber market is irregular. Coal is rather dull. The eastern shoe shipments are still heavy. Print clothes have been dull and unsettled, and the claim is made that cloths and coarse cottons are selling below the cost of production.

The wheat (including flour) exports for the week total 3,660,000 bushels, against 4,440,000 in this week of last year, and for the nineteen weeks of the current year they are 61,902,000 bushels, against 69,980,000 in 1902.

Dun's Trade Review. R. G. Dun & Co's Trade Review tomorrow will say:

NOT A SICK DAY SINCE.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of them relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Fass, of Fremont, N. C., writes. Only 50c, at The Stafford Drug Co.

PHYSICIANS PRESCRIBE IT.

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. Sold at Desjardins' Pharmacy.

YOU CAN'T WORK.

If your head aches—you're bilious—a sure sign that your liver is out of order, more than likely the result of a weak stomach or constipated bowels. All such sufferers should know that for 50 years...

Hostetter's Stomach Bitters has been curing these ailments without fail. We therefore urge a trial the next time your head aches. The Bitters also cures...

THE OLD RELIABLE ROYAL BAKING POWDER Absolutely Pure THERE IS NO SUBSTITUTE

Upper Peninsula. New Captain Elected.—Henry Schwelmbach has been elected commanding officer of menominee's military company, which is soon to be mustered into the service of the state.

In the Hands of Receivers.—The Federal Leather company, operating a tannery at Manistique, is in the hands of receivers—Geo. H. Orr of Manistique and J. N. Bushong of Gladstone.

Horseman Wants His Pay.—Allie Wooster, a well-known horseman who figured prominently at the recent county fair there, is in Menominee to secure, if possible, a settlement with the management of the association, claiming that there is upwards of five hundred dollars due him.

Sawmills Closing Down.—The sawmills of Menominee are closing down for the season. The boom company ceased operations last week, but most of the mills had enough logs on hand to keep them running until the present.

Run Well in Sugar.—The farmers who have been bringing their beets to the Menominee sugar factory are more than pleased in most cases, as the percentage of sugar shown in the tubers has in nearly every instance run higher than they expected.

Chased by Wolves.—James Otis, a Menominee county farmer, reports an exciting experience with wolves. His cattle and sheep, having come running back to the yard in great fright, Otis, thinking that possibly some dog had been at the pasture, went to give the intruder a dose of shot.

Bears Still Aggressive.—The Hadden-Kodee New York letter was as follows: "The bear crowd extended its operations today to St. Paul. The aggressive sentiment that stock was largely by the same brokers and traders that had been selling first United States Steel preferred and more recently Pennsylvania.

VERY LOW RATES. To International Livestock Exposition at Chicago.

Very low rates for the International Livestock Exposition at Chicago. Via the North-Western line. Excursion tickets will be sold Nov. 29, 30, and Dec. 1, limited to Dec. 7, inclusive.

### SURE COUGH CURE.

It's impossible to escape coughs and colds—the most dangerous diseases of the throat and lungs start from a simple cold or cough. Few would neglect them if they knew of a positive remedy. We have been handling cough remedies for years. By studying we have learned which combinations were most effective and the result is **Tar, Honey, Horchound and Wild Cherry.** We have sold it so long and so largely that we know just what it will do. It thoroughly cures coughs, colds and hoarseness—and costs you nothing if it doesn't. Price, 25 and 50 cents.

## WHAT'S THE SECRET OF HAPPY, VIGOROUS HEALTH?

Simp! Keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it. From personal experience I testify that DeWitt's Little Early Bitters are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Boerne, Tex. Thousands of people are using these tiny little pills in preference to all other pills because they are so pleasant and effective. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by the Stafford Drug Co., Marquette, and H. N. Meloche, Ishpeming.

## YEARS of suffering relieved in a night. Never fails. At any drug store, 50 cts.

Itching piles yield at once to the curative properties of DeWitt's Ointment.

## WANT ANOTHER GAME?

Soo Football Team Doesn't Seem to Know When It Has Enough. Says the Soo News-Record: Manager Chester Hickler of the high school football team has arrived home from Marquette, accompanied by Tony Ryan. They were feeling good, notwithstanding the recent defeat, and are still of the opinion that the Soo team can defeat Marquette. In the game last Saturday everything seemed to go against the boys. They had nobody there to coach them and of course a lack of rooters at their backs had considerable to do with their poor showing.

There is some talk of another game here with the same team and it is not improbable that they will meet on Brady Field Thanksgiving. If they do there is every reason to believe that they will be greeted by a large crowd of spectators, as interest in the game has been aroused here as never before. If a game is played here on that day it is probable that Marquette will be well represented in the crowd, as being a holiday it will be possible for all the enthusiasts to get away from the city. They could charter a special car and come with light expense.

### OPERATING AT ROCK RIVER.

C. R. Brown Is Working a Good Sized Force in the Woods There.

C. R. Brown and Kelsey & Freeman, the latter of Toledo, who have been operating at Rock River for some time past, are now carrying on their business under the name of the Rock River Cedar company. Mr. Brown is managing the operations, having been the man to do, and W. W. Osband is in charge of the business at Rock River, keeping the books, etc. The Rock River Cedar company is employing in the neighborhood of eighty men and will push operations during the coming winter. There are two main camps and a store and in addition there are numerous small camps kept by the men who have the sub-contracts. The cutting has been going on during the past few months, and a good product has been obtained. It is expected that a large amount of timber will be gotten out during the winter. Poles, posts and pulp wood are the principal products, and they are all in good demand. The company of Toledo, take some of the product and the rest is sold on the open market. The Rock River Cedar company controls a number of thousand acres, which they will be no little time cutting over.

### CLOSE OF SEASON AT HAND.

Craft Plying to and from This Harbor Have About Finished Year's Work.

The close of the season of navigation for 1903 is at hand. It has already petered away almost to nothing, and has not been brisk since several weeks ago, but what there is of it is soon to come to an end. A few more freighters are to call, a number of cargoes of coal are yet to be unloaded, several thousand tons of ore are to be sent out, and then the port will lapse into its customary winter quiet, to be broken only by the occasional resumption in the spring of 1904. The Lake Michigan & Lake Superior Transportation company, the Union Transit company and the Anchor line will have a number of craft on Lake Superior before the close of the season, but the freight movement is, nevertheless, practically at an end. The Gould, Oscola and City of Traverse of the first named line are all due for one trip additional. The Union line the Kochester and Nicol are expected to make two more round trips and the Ward, Portage and New York one each, all of these craft, however, not calling at Marquette. The Anchor line craft will also make additional trips. These freighters are running without any regard to schedule, and they will have finished up the last of their season's work within a week or ten days. The ore shipped from this port is going to show a notable diminution in volume this year from the record of 1902. Marquette having contributed, proportionately, a rather large share to the total decrease for the season. Full figures on the ore movement will be available within a few days. The statistics of the coal handled at this port will also soon be in readiness for publication. After this week there will be but a few additional cargoes. The coal movement has been large, and will aggregate upwards of a quarter of a million tons.

### THE ANT.

Facts About One of Nature's Most Indestructive Creatures.

When spring comes with all its wealth of opening buds and new flowers, the ant is preparing for a season of profitable industry. It comes out of its winter quarters and locates a new home where it can store away, during the winter months, the sustenance for the long winter days. Just as industrious as the ant—but in a different way are the countless infinitesimal germs which burrow into the scalp and eat away at the roots of the hair. As they burrow away and form, and if they germs are not all killed, Baldness results. Newbro's Herpicide is the only known remedy which kills the germs. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Stafford Drug Co., special agents.

### HEADQUARTERS FOR RYE BREAD.

At Deschaine's bakery. Made fresh every morning. (11-5-14)

### STORM SASH.

### A SCIENTIFIC DISCOVERY.

Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by The Stafford Drug Co., Marquette, and H. N. Meloche, Ishpeming.

### SAWING SEASON CLOSED.

Year's Operations at the Dead River Mill Practically at an End.

The sawing season at the Dead River mill is closed and the year's operations at the plant are practically at an end, only a few men being employed cutting lath. They will have a few days' run yet, but for the majority of the men have been let go. The sawing came to an end on the 10th. The mill has had a good run and is credited with a cut of about 15,000,000 feet, most of which has been shipped to lower lake ports. There was a cleanup of last winter's cut on Dead river, all the timber taken out by Ferguson Bros, for Kilbee & White, and Reichel Bros, being cut. An excellent class of lumber has been produced, as the timber was excellent in quality. The mill will run again next year on the timber being cut on Dead river, where Ferguson Bros, will again be the principal operators during the coming winter.

### HOW LAW IS EVADED.

Easy Matter for Non-Residents to Secure Resident Licenses.

## MARQUETTE NATIONAL BANK

OF MARQUETTE, MICHIGAN. CAPITAL \$100,000.00. General Banking. Fire Insurance Department.

### HOW LAW IS EVADED.

Nine residents of Ohio have recently paid into the Florence county treasury \$25 each for hunting licenses, says the Iron Mountain Press. There is only one of three conclusions to reach in this case: The Ohio men had no friends in southern Michigan, they are crazy, or they are honest men. If they had friends in the lower peninsula all that was necessary was to send a description of themselves to one of these friends, together with the fee for a resident hunter; then this friend would take this fee to a county clerk with an itching palm, hand over the fee, secure the license and send same to his friend in Ohio, not forgetting to keep out two cents for postage.

### AT THE CHURCHES.

St. Margaret's Mission—Sunday school at the usual hour. St. Paul's—Twenty-third Sunday after Trinity; Services at 7:30 and 10:30 a. m. and 7:30 p. m. Bishop Williams will preach morning and evening. 118 SOUTH FRONT STREET.

### "ARIZONA."

Great American Play Will Be Presented Here Wednesday Evening.

"Arizona," announced for the opera house next Wednesday evening, was presented here two seasons ago with signal success, greatly pleasing the audience. It is generally known as the "best American play ever written." Critics have seen almost a unit in according it this honor. Whether taken as a whole or in part it holds the attention of both the casual playgoer and the one who wishes to go deeper into the story of the passion of the West. The environment is such that one finds ceaseless attraction in this bit of dialogue or that bit of action. The characters are such that the soldier, the cowboy and the woman, one after another occupy the principal place. Having chosen an appealing theme for his story, Augustus Thomas, the author, also selected a collection of people who could not only preserve all the virtue which there is in the central idea, but who would each, by the contrast to the others, carry out the central plan, and make this mimic world seem like a real one. The force of the characters and the excellence of the situations are backed up by dialogue which is always brisk, and the talk of the West should be and which has a lightness and now somberness that is as distinct as the mountains and the shadows that form the background of the scenes.

## High Art Tailoring

Applies to Women's Wear. Ladies' Hand-Tailored Suits with a combination of woman's taste and man's skill designed by the most talented artists of France, cut by New York's most skillful cutters and sewed throughout by men journey-tailors. That's the story of our Suits and Costumes from their inception until the finished product is displayed in the department set aside in our store for the sale of Ladies' Hand-Tailored wear. Every day brings new arrivals; every minute sees departures and the popularity of this line is growing hourly.

This season the styles are particularly bright and attractive and there are some stunning innovations along the lines of cut and drape that would seem almost daring were it not for the perfect harmony of color and design which prevails. Zibelines, Broadcloths, Chevots and Tweeds are the favorites this season for materials, while the three-quarter length coat seems to have caught the popular fancy. For general wear the Blouse effect and Military Cape have their friends also, as well as other new but already sought-for creations.

## LADIES' Hand-Tailored COATS

# Ishpeming and its Environs.

### OFF FOR ESCANABA.

Many Enthusiastic Rooters Will Accompany the Team Today.

The high school football team leaves this morning for Escanaba to take part in what promises to be the hardest fought gridiron battle of the season.

The confidence manifested by Escanaba has spurred on the local team to put forth its best efforts in practice with the determination if possible of humbling the pride of their opponents. It will be considered a virtual victory if the Blue holds Escanaba down to two or three touchdowns. The Sandy City boys have such a big advantage over Ishpeming in size and experience that they seem to have reason for their assurance.

In forecasting the outcome of today's game the fans point to the disastrous defeat suffered by Hancock at Escanaba last Saturday. Ishpeming won by the narrowest of margins at Hancock. The Ironwood defeat has also had a somewhat disheartening effect, in spite of the fact that the home team was opposed by an aggregation made up of many veteran players. But in the face of the somewhat discouraging outlook, the fans are going to meet the expectation of seeing a hard contest. The Hematite lads are expected to put up a game fight, keeping Escanaba busy all through the game.

There was a large sale of excursion tickets yesterday. Many of the teachers' plan to go to Escanaba with the high school students will make the trip. The delegation will no doubt be fully as large as that of last year, if the weather is good.

The snow will have improved the condition of the gridiron, if it is properly cleaned off, by preventing the ground from freezing hard.

### WAS FROM IRONWOOD.

Last Sunday, The Press had an encounter with a crazy man near the Northwestern depot. The peculiarly acting person was evidently from Ironwood, wore a blue bull coat and was armed with a bull rifle. Don't know whether he had on pants or not, nor can we give a description of his face. His face was so disintegrated that all we could see was a mouth. From this mouth a strange language was rolling forth in a steady flow. It sounded something like this: "Didn't do nothing to Ishpeming! Oh, no! Told'em would do it! Forty-one thousand! Whoop! Wererethepeople! 'RahforIronwood! Caught'em on the ground! Wetoalso! Hadsameteamtoo, 'Egosh! Told McLeanwright to stay homeandseesud's'em. Andwedeem'em plenty. Whoop! 'Rah! Ironwood-Ironwood! 'Rah! 'Rah!" There was a lot more of this doggerel, but we had our eye on the gun and made our escape. Upon reaching home we read that Ironwood had defeated Ishpeming 41 to 0. And the next morning we heard that "Bob" Douglas was in town. Then we had our suspicions as to the person who was laboring under an attack of foot ballhydrophobia. We hope Bob reached home in safety.—Iron Mountain Press.

### GENERAL BUSINESS GOOD.

Merchants Say There Is No Reason to Complain on Account of Trade.

An item in yesterday's Ishpeming department relative to trade conditions was in some respects misleading. Merchants dealing in seasonable wares of different kinds say that trade was never better. They report a most satisfactory business, and all look for a record-breaking holiday demand.

It may be true that business is a little quiet at this time in certain lines where household or other necessities are not dealt in, but all the merchants doing a general business have felt no falling off in trade. The laying out of a few hundred men at the mines did not affect business in the least; indeed all who were let out by the mining corporations found work within a few days. The foreigners, who made up a large majority of the discharged hands, at one time left for the woods. The readjustment at the mines resulted in placing many in as good, if not better, positions as they held previously. There are no idle men here and good wages prevail in all lines.

Speaking of the situation yesterday F. Braastad, who does a cash business, and whose trade would perhaps be affected some in case there was a falling off anywhere said: "You can say that my business was never better. Indeed my trade is increasing right along. I believe that the coming winter will be one of the best so far as the general trade of local merchants is concerned that they have ever enjoyed. Why shouldn't trade be good? There are no idle men here, nor do I think there will be any at any time during the winter months; there is work for all who want employment; the business situation looks encouraging. I have prepared for a record-breaking trade and I believe I will have it. My average monthly trade was never as good as it has been this year. Every month shows increased receipts."

### TO ATTEND WEDDING.

P. Fitzpatrick, accompanied by his daughters, Sadie and Loretta, left last evening for New Richmond, Wis., to attend the marriage of Mr. Fitzpatrick's son Fred to Miss Alys Parson. The wedding occurs Tuesday, Nov. 17. The intended bride is one of the most highly esteemed young ladies of New Richmond society. After a brief wedding tour the couple will take up their residence at St. Paul, where Mr. Fitzpatrick has a lucrative position with George Benz and sons. Joseph Fitzpatrick, who is in the employ of the Swift Packing Co. of South St. Paul, will also attend the wedding. Before returning to Ishpeming, Mr. Fitzpatrick and daughters will visit at St. Paul, Minneapolis and Chicago, arriving home about the end of the month.

### TIME TABLE CHANGES.

The L. S. & I. M. & S. E. and Munising railways change time Sunday, the 15th inst. The following trains are affected: Train from Marquette to Ishpeming at 5:30 p. m., Sundays has been changed to 11:25 a. m. The Sunday train leaving Ishpeming at 6 o'clock p. m.; Negaunee, 6:08 p. m.; Marquette, 6:50 p. m., has been discontinued, and the train for Munising daily will leave Ishpeming at 4:45 p. m., Negaunee at 4:33 p. m., Marquette at 5:40 p. m. The Sunday morning train to Munising, returning in the evening, has been discontinued.

### ISHPEMING IN BRIEF.

The Young Men's Dancing club will give a dance at Anderson's Hall tonight. F. P. McClure, the contractor of the new theater, is expected here in a few days. Sleights were out yesterday for the first time this season. Traveling was fairly good in the city. Trombly's orchestra will hold its regular weekly hop Monday evening, the date having been changed from Wednesday evening. Charles Hooper is back from Stephenson, Minn., for a visit with his parents. He is recovering from a recent attack of typhoid fever. A party of mothers and their babies were entertained Thursday afternoon by Mrs. Henry Thompson. Fourteen promising infants were there. Local stockholders of the Mexican Development and Construction company of Wisconsin have been notified that a dividend of 3 per cent has been declared. Peterson will play at full back in Wisconsin's game with Michigan at Ann Arbor today. The former captain of the Blue now seems assured of a permanent place on Wisconsin's line-up. Mrs. Mary Ann Drake, wife of John Drake, the carpenter, died at Fottentham, Canada, Friday, Oct. 23, 1903, aged sixty-five years, and was buried Sunday, Oct. 25, in the Rich Hill cemetery. Mr. and Mrs. Drake were well known in this city, having lived for several years on Wash street in the Sixth ward. They left here about a year ago. Sam Rogers has a fine collection of photographs of all the leading college and university football teams in the country at his barber shop on Division street. It has attracted much attention. Mrs. H. T. Hulst entertained a number of friends at a bowling party at the alleys of the Lake Superior office yesterday evening, in honor of Mrs. Ben Lalonde, who is here from Hibbing, Minn., visiting friends. Nels Majhamu was down from Herman yesterday. He reported that the funeral of John Hammar, who died on a South Shore train near L'Anse a few days ago, was held yesterday at L'Anse, Rev. Heidman of Calumet officiating. Work is going on at the library in spite of the cold and snow. The brick coping is being built up on the side adjoining Main street and along the rear portion of the wall. Considerable remains to be done on the corner, where the entrance will be located. The officers of the local tent of the Lady Macabees desire their members to remember that the meeting nights have been changed from the second and fourth Mondays to the second and fourth Wednesday evenings in each month. A large attendance is particularly desired at the next regular meeting. The change in the weather has caused some delay in the construction of the cement walks at the high school building. The space occupied by the embankment on one side of the building has been covered with cement, which is well dried. However, about as much work remains to be done on the other side. The radiators were put in at the new theater yesterday. Nearly all the wood work has received the first coat of paint. It is thought that the plaster will be dry enough for the decorators to begin work on Monday. The drying process has been delayed somewhat by the failure of the glass for the windows to arrive. It has been shipped, but has been held up in transit. All the other material is on hand. Much of the scenery has been hung. The masons will start work Monday at putting on the second coat of plaster on the offices and the store. When the decorating is finished the theater will be practically complete. Following the installation of the carpets, chairs and draperies everything will be in readiness for the opening. CARD OF THANKS. We, the undersigned, desire to express our heartfelt thanks to those who so kindly rendered their assistance during the illness and death of our beloved wife and mother. We shall ever cherish in our memory those who contributed floral offerings, and especially the Improved Order of Redmen and Dr. T. A. Felch, who so faithfully attended her wants for the past fifteen years. WM. KESKEYS and Family.

## High Grade Groceries!

are the only kind you'll find here; we do not care to carry the doubtful kind of goods that sometimes give satisfaction and often do not. There is a dollar's worth of satisfaction in every dollar's worth of Groceries purchased here; everything in stock is in perfect condition. Do you want

### PURE LARD, GOOD BUTTER, FRESH EGGS?

Here you find them, not in "carloads," but enough to go around each week until our fresh supply arrives. The taste tells what's what.

and Thanksgiving celebrations are in order, the social season will be in full swing. In view of coming events, it will be to your pleasure and profit to inspect the collection of diamonds, pearls, precious stones and every kind of fine jewelry that lovers of good dressing can desire at

## W. J. Roberts, The Jeweler.

## Overcoat Selection

WE'RE not knocking anybody; but if it is a question of overcoat selection, there is just one place to come, and that is here. We'll pass over the question of variety and quantity, and talk about style, price and quality. We show more styles than any other store (not knocking); but in the style, the fit and workmanship there is none to compare with these faultless K. N. & F. overcoats. We are very proud of our showing and you will feel likewise should you buy one. Don't knock, walk in. The latch-string is out, and you'll be in.

**\$25** commands our finest coats.  
**\$12** buys an excellent one.

of 1902 is the finest grown in years; the warm trade winds, sunshine and rains tempered the oils to a degree of perfection; the aroma is most fragrant. He who smokes the **DARANTELLA** Havana cigar will be in the realms of sunshine because of their goodness. Clear seed, Havanas.

JOHN H. KENNING & CO., Makers, Grand Rapids, Mich. (11-10-24)

## Trials of Motherhood

I suffered for nine years with ovarian troubles making life a burden to myself as well as to my family. During that time I had two miscarriages and although we longed for a child to bless our home this seemed impossible. I had constant racking bearing-down pains in the pelvic organs and a pulling through my limbs with frequent headaches. I felt sick at my stomach and vomited frequently and no medicine helped me until I tried Wine of Cardui.

Then my general health improved, the pains gradually lessened and after six weeks I was well. I am now the happy mother of a boy eighteen months old and my husband joins me in sending heartfelt thanks to you for your splendid medicine.

Without it I would have been a childless, instead of a happy and well mother.

Mrs. E. E. Caldwell, Philadelphia, Pa.

## WINE OF CARDUI

Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philadelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. This same medicine is within your reach. Will you take it?

All druggists sell \$1.50 bottles Wine of Cardui.

MODEL RURAL SCHOOLS.

Several Fine Buildings Have Recently Been Erected in the County. Three of the rural districts in Marquette county have lately been provided with modern school buildings.

Disastrous Wrecks. Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles.

Kenton Catches.

Father Eiling of Ewen conducted services at the school house Sunday morning and afternoon. D. McKinnon of Hancock, an old resident of this section, is visiting old acquaintances about here.

COSTLY BATTLESHIPS.

The battleships and cruisers now building in the government yards in England are all costing more than the original estimates, except in one case where a large saving was effected.

LOCAL LACONICS.

Mrs. Elizabeth Lobb, of Munising, was in the city yesterday. The employees of the Negaunee mine received their pay yesterday.

George McDonald and wife arrived home from St. Paul Wednesday evening. Ole Olson, night steward at the Auditorium Annex, Chicago, is here on a visit to his parents.

Mrs. Alvin Greene, of Milwaukee, is here visiting her parents, Captain Samuel Mitchell and wife. Julius Anderson and wife have taken up their residence on a farm near Wallace, leaving Thursday.

George Faulkner, wife and daughter, of Crystal Falls, has been in town for a few days, visiting friends. J. C. Kirkpatrick, Napoleon Marketti and C. L. Sporley left yesterday to spend a few days hunting at Mud Lake.

Werner Nikander arrived home Thursday night from a trip to the towns in the western part of the county, leaving again last night for West Superior. The condition of Nels Anderson, who was accidentally wounded at Swanzy last Sunday, was reported to be a trifle better yesterday.

J. W. Kerr left Thursday for his home at Bay City, after spending a week with friends. He took part in a hunting expedition, being a member of the party that camped north of Michigamme.

Excursion rates will prevail between all stations of the South Shore and Mineral Range roads from Nov. 25 to Nov. 30, inclusive, on account of Thanksgiving. Tickets will be on sale Nov. 25 and 26.

Patrick Lally, who was formerly night operator here but was recently transferred to Ishpeming, left Thursday night for his home at Rhinelander. He is succeeded at Ishpeming by L. A. Dravel, agent at Eagle Mills.

The party of hunters, consisting of J. A. Wasnuth, Thomas Pratten, John Shea, B. K. Webber, William Mitchell and Thomas Gribble, who have been camping at P. B. Kirkwood's homestead at Little Lake for the past week, are expected home today.

Mexican Mustang Liniment

Time-tried and true. A record of healing for sixty years. Good for Man or Beast. Cures hurts and pains anywhere in the body or on the surface. Penetrates as no other liniment can penetrate. Sinks right into the fevered skin and takes out pain. Good for everything that walks. THE GREATEST EMERGENCY LINIMENT KNOWN. Keep it in your house. Keep it in your shop. Keep it in your office. Keep it at your stables. Keep it at your car barns.

LIFE CRUSHED OUT IN SEWER

MICHAEL LANE SUFFERED A TERRIBLE DEATH YESTERDAY AS A RESULT OF A CAVE-IN.

TWO OTHERS WERE INJURED

ROGER TANSY SERIOUSLY HURT, BUT WILL RECOVER.

Accident Occurred Shortly Before Noon in the Blenhuber Avenue Sewer, Near Altamont Street.

Michael Lane was the victim of a distressing accident in which Roger Tansy received serious injuries and John Power was hurt shortly before noon yesterday. The men were caught in a cavern in the Blenhuber avenue sewer, on which they have been working for the past several weeks.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure.

DON'T SPEND HALF OF YOUR WAGES for the winter's fuel. Use coke. It's "The Only Fuel." Fifty bushel to a ton, \$3.50 delivered. The Marquette Gas Light Co.

AT THE NEW ART STORE. Underwear, hosiery, domestic and outing flannels; also boys' sweaters, towels and mittens. Art lessons given free on materials purchased. Mrs. Rose O'Donnell, 509 North Third street.

MAKE HOME LIFE PLEASANT. To do this your house must be well lighted. Use gas for light. We sell all the improved gas burners. Ask to see them. The Marquette Gas Light Co.

How It Happened. The accident and the consequent fatality are to be ascribed to a peculiar set of circumstances. Although the men were working without any timbering to support the walls of their trench, still it is maintained that ordinarily they would have been safe in this procedure.

FATALITY NEAR MUNISING. Hunter Fell from a Tree and Broke His Neck, Dying Instantly. There was a hunting fatality near Munising early this week, but a gun had no part in it.

CITY BREVITIES. Weather forecast: Partly cloudy; stationary temperature; variable winds.

O. J. Larson of Calumet was a Marquette visitor yesterday. The Current Events club will meet this morning at 11 o'clock in Morgan Memorial chapel.

A meeting of the electrical workers' union will be held this evening at 8 o'clock at Siegel's Hall.

There will be an important meeting of the members of the K. of E. at Dwyer's hall at 8 o'clock this evening.

Mrs. F. H. Raikesky of Ishpeming and Mrs. Walter Fitch and Miss Fitch of Chautauque were in Marquette yesterday.

The Hadden-Rodee company will receive bulletins of the Michigan-Wisconsin game this afternoon. They will be followed closely as there is much interest in this great contest.

An alarm turned in about 6 o'clock last evening summoned the hose company to John Kind's residence on West Ridge street. The alarm resulted from a chimney fire that did no damage.

Dan Sullivan, John Manning, and Rush Culver, who had been absent on a number of days' hunt up the lake, arrived home yesterday. They had a good trip and excellent success in the chase.

The China was in port yesterday morning, bound up. The Marquette agents of the Anchor line have been informed that the last of this company's freighters will leave Buffalo, up bound, on the 21st and Erie on the 22nd.

The snow was thawed very little yesterday, although the day was bright and clear. The winds continued cold and the temperature fairly low.

"A Friend of the Family" at the opera house last evening did not fare very well as far as audience was concerned, the attendance being unusually light.

It was thought at Escanaba this week that the safe taken from the postoffice at the time of the robbery was about to be unearthed, two boys having reported that they had found parts of it. However, search was unavailing to uncover the strongbox and it is still to be located. What was done with it remains a mystery, and one of no little importance, as its discovery would doubtless mean additional clues.

The Woman's Christian Temperance union has elected the following officers for the ensuing term: President, Mrs. Dr. Anderson; vice president, Mrs. Dunlop; corresponding secretary, Mrs. Koons; recording secretary, Mrs. M. Hixson; treasurer, Mrs. J. A. Pease. The department workers are: Flower mission, Mrs. Talbot; evangelist, Mrs. Bisset; purity work, Mrs. Bracher; rescue work, Mrs. Coventry.

It is likely that the high school football game will go to Hancock for a game Thanksgiving Day. The Hancock players want the game and it is probable that the Queen City team will accommodate them.

Superintendent E. C. Thompson arrived home this week from the lower part of the state. Accompanying him was Clarence Mudge, sixteen-year-old son of the late Mrs. Lucy Mudge, of Albion. Mrs. Mudge will be remembered, was killed in an accident in Detroit a few weeks ago while on a pleasure ride in an automobile owned and driven by Senator Glazier of Chelsea.

The machine ran amuck and crashed into a tree, Mrs. Mudge sustaining fatal injuries. Mr. Thompson is the guardian of her boy.

Yesterday County Clerk Ross passed the mark of the total number of deer licenses issued for the season of 1902, when the aggregate of permits was 1,756.

Up to last night something over 1,770 had been issued this season. It is likely that the total for the season will be in the neighborhood of at least 1,900 as there remain still ten days in which deer can legally be hunted, and the licenses continue in demand.

Many people who usually hunt have yet to take trip to the woods.

The S. & L. M. & S. E. and Munising railways change time tomorrow, the following trains being affected.

The train from Marquette to Ishpeming at 5:30 p. m. Sundays has been changed to 11:25 a. m. The Sunday train leaving Ishpeming at 6 p. m.; Negaunee at 6:08 p. m. and Marquette at 6:50 p. m. has been discontinued and the train for Munising daily will leave Ishpeming at 4:45 p. m.; Negaunee at 4:53 p. m. and Marquette at 5:40 p. m. The Sunday morning train to Munising, returning in the evening, has been discontinued.

Mary had a little lad whose face was fair to see. Because each night he had a drink Of Rocky Mountain Tea. -Stafford Drug Co.

ASK YOUR GROCER, TODAY, FOR A SACK OF GOLD MEDAL FLOUR.

ITS GREAT FOR GRATES. Coke is the best and cheapest fuel for any purpose. Lump or crushed \$5.50 per ton delivered. The Marquette Gas Light Co.
