

JEROME AGAINST A SOLID WALL

Rules of Evidence He, Himself, Built Around the Story of Evelyn Nesbit Thaw, Obstruct the Prosecutor's Attacks.

However, While in Nearly Every Instance the Defense Wins Its Point as to Law During the Day's Ceaseless Argument, the District Attorney Craftily Gets Before the Jury Knowledge as to What the Witnesses Would Have Said if Permitted.

New York, March 11.—On the first day of the state's case in rebuttal at the Thaw trial, District Attorney Jerome today came to a temporary standstill against the practically solid wall the rules of evidence have built around the story of Evelyn Nesbit Thaw.

Mr. Jerome began to attack this story as soon as court opened this morning. There ensued a well waged verbal battle between the prosecutor and Mr. Delmas, at the end of which Justice Fitzgerald upheld the rule laid down at the beginning of the trial, that Mrs. Thaw's story was admissible only as tending to show the effect it might have had in unbalancing the defendant's mind, and that its truth or falsity is not material.

Mr. Jerome tried to avoid this rule by declaring that he was endeavoring merely to show by inference—by circumstantial evidence as to facts and details in the story—that Mrs. Thaw could not possibly have told the story to her husband. Although he will doubtless be blocked by the same rule when the time comes to his attack on the district attorney may attempt in the same way to prove an alibi for White on the night he is alleged to have maltreated Miss Nesbit.

Day Devoted to the Arguments. Nine-tenths of the day's session were spent in argument, and in nearly every instance Mr. Delmas won his point as to law, while Mr. Jerome in the very argument itself got before jury a perfect knowledge as to what his witnesses would have testified to had they been permitted. Mr. Delmas objected to ten witnesses during the day, but aside from drawing from the state's eye-witnesses to the tragedy the opinion that Thaw seemed rational the night he shot and killed White, little real headway was made.

Liming up all his forces in rebuttal, Mr. Jerome decided to open his case on the defense by attacking the story told the jury by Evelyn Nesbit Thaw. He called to the stand Frederick W. Long fellow, formerly an attorney for Thaw, and asked him first concerning the case in which Ethel Thomas is alleged to have sued Thaw for damages because of "emul treatment." Mr. Delmas objected to the questions on the ground of the professional privilege of lawyer as to client, but before Justice Fitzgerald had sustained the objection and ruled out the evidence, Mr. Jerome declared: "The story of the girl tied to a bed post and whipped by Thaw is the story of Ethel Thomas. This poor girl is now dead."

Here Mr. Delmas interposed an objection to the district's attorney's remarks, and the latter began an attack along a different line. He showed Mr. Longfellow a photographic copy of the affidavit Evelyn Nesbit is said to have signed in the office of Abraham Hummel, one allegedly while abroad in 1903 because she "would not tell lies against White." Mr. Jerome followed this up by asking the witness if Mrs. Thaw had not turned over to him certain papers to which she had subscribed. Mr. Longfellow said she had.

JAKE SCHAEFFER TAKES THE TITLE

Championship of the World at 18.1 Balke Line Billiards Is Lost by George Sutton in a Hard Fought Game.

Chicago, March 11.—"Jake" Schaeffer of Chicago won the world's championship at 18.1 balke line billiards from George Sutton here tonight in thirty-three innings. Schaeffer's average was 12 32-30ths. When Schaeffer scored his 500 points, the former champion had reached the 448-mark. Sutton's average was 12 16-30ths. It was an up-hill fight for Schaeffer, as Sutton was in the lead the entire distance, with the exception of the first and ninth innings, up to the thirty-first inning, when Schaeffer made a brilliant run of an even 100 points, giving him the lead. The score at this point stood 440 for Schaeffer to 432 for Sutton.

FAMILY, STARVING, HE WIPES THEM OUT

DRESDEN (SAXONY) MAN KILLS FIVE CHILDREN AND HIS WIFE AND HIMSELF.

Dresden, March 11.—A crime of particular horror has occurred here. Herday Wilsdorf, a retired forester, today shot and killed five of his six children and wounded the sixth child. He then killed his wife, after which he committed suicide. The police found indications that the elder members of the family had agreed to end the lives of all owing to the scarcity of food.

DOUMA'S LIFE HANGS BY MERE THREAD

RUSSIAN PARLIAMENT'S EXISTENCE EXTREMELY PRECARIOUS.—PROCEEDINGS FARCICAL.

St. Petersburg, March 11.—The lower house of parliament reassembled this morning in session for the examination of the credentials of the members. Protests were submitted against the election of several entire deputations. The caucus of the Constitutional Democratic deputies was held today to discuss important questions of the manner of receiving the declaration of policy from the cabinet, which Premier Stolypin is expected to deliver this week. It was decided to avoid any pretext for extreme measures against the administration.

ELECTIONS IN SPAIN.

Madrid, March 11.—The election returns indicate that the Conservative senators will be in the majority when they take office next month.

JAKE SCHAEFFER TAKES THE TITLE

Championship of the World at 18.1 Balke Line Billiards Is Lost by George Sutton in a Hard Fought Game.

Chicago, March 11.—"Jake" Schaeffer of Chicago won the world's championship at 18.1 balke line billiards from George Sutton here tonight in thirty-three innings. Schaeffer's average was 12 32-30ths. When Schaeffer scored his 500 points, the former champion had reached the 448-mark. Sutton's average was 12 16-30ths. It was an up-hill fight for Schaeffer, as Sutton was in the lead the entire distance, with the exception of the first and ninth innings, up to the thirty-first inning, when Schaeffer made a brilliant run of an even 100 points, giving him the lead. The score at this point stood 440 for Schaeffer to 432 for Sutton.

PREMIER AT SOFIA SHOT AND KILLED

PRIME MINISTER OF BULGARIA ASSASSINATED WHILE WALKING IN GARDEN.

Sofia, Bulgaria, March 11.—M. Petkoff, premier and minister for the interior, was assassinated here today. M. Petkoff, with other ministers, was walking in the Boris garden when he was attacked by an unknown man, who fired a revolver. The premier was wounded by three bullets, and died instantly. M. Goumdaieff, minister for commerce and agriculture, who was one of the ministers accompanying M. Petkoff, was wounded in the arm.

MINERS REVOLT AGAINST AGITATORS

MEN IN THE NEVADA GOLD CAMPS TO FORM A UNION OF THEIR OWN.

Tonepah, Nev., March 11.—The miners here have decided to sever their connection with the Industrial Workers of the World, and form a union of their own. At Goldfield great excitement has been caused by labor troubles. Nearly half of the population is patrolling the streets. John Silva was killed last night, and Joe Smith, of the Industrial Workers, is under arrest.

TODAY'S WEATHER.

Washington, March 11.—The following is the weather bureau's forecast for Upper Michigan. Rain or snow, Tuesday; Wednesday, local snows and colder.

ILLINOIS MAN A SUICIDE.

Refused Reemployment He Ends His Life With Carbolic Acid.

Kansas City, Mo., March 11.—William A. Cross, late of Tiscola, Ill., a book-keeper formerly in the employ of D. P. Cullen, railroad contractor, of Cedar Rapids, Ia., committed suicide in Cullen's room in the Savoy Hotel tonight because Cullen refused to reemploy him. Cross took two ounces of carbolic acid after Cullen had ended their interview by leaving the room. When Cullen returned several hours later he found Cross kneeling by the bed. Cullen did not disturb Cross, and again left the man. When the contractor returned to the room to retire for the night he found Cross still kneeling by the bed, and upon shaking him, discovered that he was dead. Cross and his wife had separated recently.

PREMIER AT SOFIA SHOT AND KILLED

PRIME MINISTER OF BULGARIA ASSASSINATED WHILE WALKING IN GARDEN.

Sofia, Bulgaria, March 11.—M. Petkoff, premier and minister for the interior, was assassinated here today. M. Petkoff, with other ministers, was walking in the Boris garden when he was attacked by an unknown man, who fired a revolver. The premier was wounded by three bullets, and died instantly. M. Goumdaieff, minister for commerce and agriculture, who was one of the ministers accompanying M. Petkoff, was wounded in the arm.

MINERS REVOLT AGAINST AGITATORS

MEN IN THE NEVADA GOLD CAMPS TO FORM A UNION OF THEIR OWN.

Tonepah, Nev., March 11.—The miners here have decided to sever their connection with the Industrial Workers of the World, and form a union of their own. At Goldfield great excitement has been caused by labor troubles. Nearly half of the population is patrolling the streets. John Silva was killed last night, and Joe Smith, of the Industrial Workers, is under arrest.

TODAY'S WEATHER.

Washington, March 11.—The following is the weather bureau's forecast for Upper Michigan. Rain or snow, Tuesday; Wednesday, local snows and colder.

LAWMAKERS HEED ROOSEVELT'S PLEA

President Wires the Governor of California, Urging That Stop Be Put to Further Legislation Aimed at Orientals.

Washington, March 11.—President Roosevelt has again appealed to the legislature of California to stop all Japanese legislation. The nation's executive has sent a telegram to Governor Gillette, urging the legislature to suspend all legislation aimed at Orientals, and expressing fear that the action of the senate in passing the two Japanese bills and resolution may render ineffective his efforts to secure Japanese exclusion by friendly agreement, whereupon his request action be delayed until receipt of letter from him is acceded to.

FIRST UNDER THE NEW LAW.

Electric Railway Appeals to the Interstate Commerce Commission.

Washington, March 11.—A complaint was filed with the interstate commerce commission today that is unique, thus far, in that it is the first case to be brought to the attention of the commission under Section 15 of the railroad rate law, which confers authority on the commission to establish through routes and joint rates. The complaint was filed by the Chicago & Milwaukee Electric Railway company, which operates a line between Chicago and Racine, Wis., and against the Illinois Central. The traction line requests the commission to compel the defendant to enter into a joint rate and tariff arrangements with it for the transportation of commodities originating at or destined to points in the petitioner's territory and to fix a just division of such rates.

BACK TO PUBLIC DOMAIN.

President to Restore 30,000,000 Acres of So-Called Coal Lands.

Washington, March 11.—It was announced today that President Roosevelt will sign an order shortly restoring to the public domain approximately 30,000,000 acres recently withdrawn as coal lands. The land to be restored was part of a withdrawal aggregating 64,000,000 acres. Since the withdrawal experts of the geological survey have been engaged in ascertaining the coal-bearing value of the lands, and while the lands are still classified as coal lands, it is understood that their value as such does not warrant their exclusion from public entry. The location of the lands and the details of the order are withheld until it has received the president's approval.

RUSH FOR PENSIONS.

Already Nearly 200,000 Applications Under the New Law.

SOLD DISEASED MEATS.

Eastern Packing House Pleads Guilty and Is Fined \$3,000 and Costs.

Burlington, Vt., March 11.—The Consolidated Rendering company of Boston, which owns and operates the Burlington Rendering company's plant in this city, pleaded guilty today to four indictments charging selling and having in its possession diseased meat, and was fined \$3,000 and costs. MUST VOTE AT PRIMARIES. Otherwise Be Fined—Prospective Legislation Aimed at Illinois Citizens. Springfield, Ill., March 11.—Citizens of the state who consider their time too valuable to be wasted by voting at the primaries of their respective parties, or who do not believe in "mixing in" politics to the extent of casting their votes at such elections, may find themselves assessed yearly as a penalty for non-action if a bill introduced today by Representative Krape of Freeport becomes a law. RATE REDUCTION PLANNED. Proposed Nebraska Laws Hit Sleeping Car and Express Companies. Lincoln, Neb., March 11.—The railroad committee of the house this evening after the representatives of the Pullman Sleeping Car company in opposition to the bill providing for a 33-1-3 per cent reduction in rates, commended the bill for passage, as well as the bill reducing the charges of express companies 20 per cent. This Hits Insurance Companies. Jefferson City, Mo., March 11.—A bill passed by the legislature, giving the state superintendent of insurance power to revoke the licenses of companies removing suits from state to the federal courts, was sent to the governor today from the senate.

CHARGES OF GRAFT UNDER INVESTIGATION

PENNSYLVANIA'S NEW CAPITOL, BUILT FOR \$4,000,000, COST \$9,000,000 TO FURNISH.

Harrisburg, Pa., March 11.—The legislative inquiry into alleged gross extravagance, over-charges, etc., in the ornamentation and equipment of the new state capitol began here today. The new capitol was built at a cost of four million dollars, and nine millions were spent in its equipment. WILL RETAIN HIS POST. Washington, March 11.—It was officially announced recently that Frank Steinhart, American consul general at Havana, had tendered his resignation, to go into effect about the beginning of March, the consul having decided to embark in private business. It is now said at the state department that Mr. Steinhart has consented to remain at his post until July 1 at least. While no reason is given officially for this extension of his incumbency, it is understood the explanation is to be found in the indisposition to make a change in that important office before the Cuban elections in July.

COLOR LINE WILL NOT BE DRAWN

WHITE AND NEGRO RAILWAY MAIL CLERKS WILL CONTINUE TO GETHER ON THE SAME RUNS.

Washington, March 11.—The postoffice department does not intend to draw the color line in the matter of white and negro railway mail clerks working together on the same runs. Although intimation has been given the superintendent of the railway mail service that the white clerks in the Middle West are preparing to request the department to effect a change so as to put negroes on runs which it will not bring them in proximity to whites, it was stated today that no such discrimination could be made. The particular objection which it is said the white clerks have to association with negroes on long runs, is that they are obliged to eat and sleep in the same car, the regulations of the department permitting a clerk on such a run to remain in his quarters. At certain terminals there are provided dormitories in public buildings where the clerks may stay if they see fit to do so, but these are open to negro clerks, as well as whites, and the department does not see wherein it has any province in the matter. BRIEF HONEYMOON COSTLY. Bride of a Denver Man Disappears With \$6,000 of His Cash. Chicago, March 11.—Mrs. Sophie Wambaugh, formerly Miss Sophie Finlan of Denver, who was married in court last Friday after she had been arraigned on the charge of obtaining \$3,000 from her prospective husband, William Wambaugh, disappeared today after obtaining another \$3,000 from her husband. Wambaugh told the police that he had spent more than \$6,000 on his wife since he met her in Denver last week. COSTLY FIRE IN MINNESOTA. Brainerd, Minn., March 11.—The New Ransford Hotel with its annex, valued at \$200,000 and containing property valued at \$200,000, was burned today. Fire broke out in the hotel and spread to the annex, where five of the leading stores of the city were located. All the city officials and many professional men had their offices on the second floor of the annex. PRESIDENT'S SON IMPROVING. Washington, March 11.—Archie Roosevelt, the president's son, who is ill with diphtheria, continues to improve. There was no setback, and he rested easily today and this evening. Tonight his condition was gratifying to the family and physicians.

BIGELOW PLAN KNOCKED OUT

Calumet & Hecla Interests, Reinforced by the Iron Mining Men, Score the Triumph in Desperate Legislative Fight.

Lansing, Mich., March 11.—[Special.]—Senator O. B. Fuller of Delta announced this afternoon that he would move to recall from the governor the bill amending the mining stock law. This would mean the end of the attempted copper coup aimed at the Calumet & Hecla interests by the Bigelow syndicate, and both houses would be very glad to have the matter settled that way. Senator Fuller wants the legislator who introduced the bill in the senate. Subsequently, Mr. Fuller carried in effect his announced intention, and on his motion recalling the amendment the senate made no objection. During the day Representative George Lord of Detroit introduced a bill granting permission to mining companies in the future to purchase stock only in non-producing mines, but not seeking to affect present conditions. Iron Men Given Hearing. Emphatic opposition to the proposed amendment by prominent iron men at the hearing before the governor this afternoon was what aided the copper country men to win out. R. C. Flannigan, of the Oliver Mining company; W. P. Belden, of the Cleveland Cliffs Iron company; F. A. Bell of Negaunee, and A. C. Dunlop of Cleveland, all testified against the proposed legislation. Representatives Gordon of Marquette, Knight of Norway and Monroe of Ironwood were not present at the hearing.

ABE RUEF TO STAND TRIAL

State Supreme Court Denies a Writ Holding Up the Proceedings.

San Francisco, March 11.—The state supreme court this morning denied the application made by the attorneys of Abraham Ruef for a writ of prohibition to prevent Judge Dunne from proceeding with the trial pending the disposition of a writ of error to the United States supreme court. The decision of the court is: "We are satisfied that a writ of error, if it was properly granted, does not operate as a stay of proceedings in the court having jurisdiction over the indictment. The petition is denied." In other respects, as well, this was the most eventful and for the defense the most disastrous day thus far in the prosecution of alleged municipal graft in San Francisco. On top of the action of the supreme court, Judge Dehaven, of the United States district court, refused Ruef's petition for a writ of habeas corpus, having in view practically the same end, and denied Ruef the right to appeal from this decision. Mayor Schmitz demanded a separate trial, and his case was set for hearing tomorrow, but to follow the trial of Ruef. Ruef's counsel filed an affidavit of bias against Judge Dunne, and announced that tomorrow they would ask a change of venue.

SOUTH CAROLINA SCORES.

Government Not to Stop Assisted Immigration Within the Law.

Washington, March 11.—South Carolina officials and others interested in the attitude of the administration towards assisted immigration, temporarily at least, held conferences today with President Roosevelt and Attorney General Bonaparte at the White House and with Secretary Straus at the department of commerce and labor. The result of the conferences, according to statements made by former Governor Heyward of South Carolina, was entirely satisfactory to all concerned, and the opinion was expressed that, according to explanations made by the government officers, the new immigration law will not deprive the states of any rights conferred by any former laws which may not have been repealed by the existing law. TEMPERANCE FORCES WIN. Statewide Prohibition Issue to Be Submitted to the People of Oklahoma. Guthrie, Okla., March 11.—Statewide prohibition will be submitted as a separate constitutional provision to the people of the state, the constitutional convention having adopted the proposition today. Statewide prohibition will become part of the constitution if the majority of the votes on this separate issue are in favor of it.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., MARCH 12.

Entered as mail matter of the second class at the postoffice at Marquette, Mich.

After Dowie, who?

Busy council session, that.

Escanaba is enough to make the cheek of even Mr. Rutledge blanch.

Speculators, investors, et al, are duly grateful for yesterday's breathing space.

The legislature seems to be just as far away from game law legislation as ever.

A crying copperhead need appears to be legislators who will stay by the legislature.

On the present lineup it appears certain that one or the other of the Johns will win.

We cannot expect to remake our municipal charter without having some little confusion.

This is the eighth week of the Thaw trial. However, we are assured that there will be a ninth week.

Representative Byrns is now a step nearer to the nomination as secretary of state, or whatever else he wants.

However, what the copper country thinks of Mr. Gordon isn't a marker to what the Second district thinks of him.

The willingness of a number of aldermen to resign suggests that they have not found public service all it is cracked up to be.

Representative Gordon says that he knew John F. Ryan when he was a water boy in Houghton county. But did Ryan know Gordon?

Negaunee's latest report on its experience with meters is of a nature to persuade that, after all, the Marquette water board is on the right track.

It is the general comment in connection with the lately ended career of Elijah III that his trouble began coincident with his attempt to mix religion and finance.

The absolute withdrawal of Mr. Neidhart bears out the Mining Journal's prediction that when the lines were finally drawn it would be Godwin vs. Robertson for mayor.

If the Second district of Marquette county could only have looked a few months ahead Mr. Button's majority in Negaunee might have been at least 305, instead of only five.

Current comment indicates that the general public believes the U. S. Standard voting machines must be found a great deal better than the Abbott, to justify the wide difference in the price.

Messrs. Byrns of Ishpeming, Stannard of Ontonagon, Edwards of Houghton and Bennett of the Soo appear to have been the only upper peninsula representatives who really represented the home folks.

What would Button have done, had he been elected? This query has been frequently heard in connection with the mining legislation at Lansing. There is general assent to the proposition that his course could not well have been more distasteful to the men who defeated him than was the one of Gordon, whom they elected, while the probabilities are that it would have been much saner, safer and conservative.

Colonel Bates of the M. N. G. is reported to have been satisfied with the showing made by Company I of Ishpeming in the inspection last week. There seems to have been some discordant elements in the company which are now to be discharged, and it is hoped that all signs of friction or apathy will disappear. It would be greatly regretted if Company I became disorganized so soon after being formed. There would be in such a development a certain reflection on the personnel, as well as on

the city of Ishpeming. The former would appear to be irresolute and lukewarm about what, they having embarked in the organization, is a public duty, and the latter would appear not to have given the company, which only lately it was after so insistently, a proper support. The Mining Journal hopes that Company I will come out of its official inspection with flying colors, and that it will increase in size and become highly efficient in drill and tactics.

Michigan's proposal to remain in the "Big Nine" with the understanding that she will not be governed by the regulation that "Big Nine" colleges will play only five football games has not been pleasantly received by other members, and it is doubtful whether they will agree to continuing relations with her on any such terms. There appears to be a strong probability that Michigan will be asked to observe all the conference rules or step out. In that event she is most likely to step out.

Irwin L. Lenroot of Superior is a passive candidate for senator, to fill out Spooner's term. Judging by the sort of run he made for governor he will continue very passive. Governor Davidson is another passive candidate, and a heavier one. The active candidates to date are Ike Stephenson of Marquette and Senator Hatton of New London, but there may be other at any time. The candidacy of Ike Stephenson is not everywhere received with favor. The Milwaukee Journal says that his election would be nothing less than payment in full for his staggering contributions to the campaign funds from time to time; that he has no other possible claim on the office.

As a sample of the ignorance with which some of the lower state papers have commented on the mining legislation pending at Lansing the following from the Detroit Journal is interesting: "Calumet & Hecla is beset by competitors greater than itself—high, powerful, inexorable. The United States Steel corporation already controls the iron output of Michigan completely. Competition is dead. It has two Titan allies. They make an imposing Trinity, these colossi of greed—the Steel Trust, the Amalgamated Copper company and the Standard Oil company. Beyond all question it is this alliance against which the Calumet & Hecla, with all its tremendous wealth, is fighting." It chances, however, that W. H. Johnston, Marquette county agent for the Steel trust, is among the men who have labored zealously to prevent the governor from signing the bill. Also T. F. Cole, president of the Oliver Iron company, the Steel Trust again, has protested against it being made a law. The Detroit Journal is shooting miles wide of the mark. As a general proposition the lower state papers have displayed a lack of understanding of the true inwardness of this matter only comparable with the density of the legislature in regard to it.

VOTING MACHINES AGAIN.

Between the ubiquitous agent and the common councils the voting machines have had their full share of the limelight in Marquette county the past year. They are with us again, this time through Mayor Winter's veto of a resolution passed by the Negaunee council authorizing the use of the U. S. Standard machines in the April election. His veto is based on two grounds, first, the apparent satisfaction of the Negaunee people with the Abbott machine, which sells for \$250 less than the U. S. Standard, and, secondly, the probability that an attempt to familiarize the voter with the latter device on short notice would result in throwing the spring election into confusion. Mayor Winter's veto will stand, it is said. This development means that the only trial of the U. S. Standard machine will have in this county this spring will be its use in the special election on water board bonds here, which will be a limited trial, at the best. On the other hand the Abbott machine will be severely tested in the April election in this city. It will have to handle a big vote in each of the five wards. If it does this satisfactorily, and if the people vote favorably on the question of purchasing machines, the council cannot well do otherwise than purchase the Abbott.

FOUND AT LAST.

J. A. Harmon, of Lizmore, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say: Take Dr. King's New Life Pills." Guaranteed satisfactory. 25c. at The Stafford Drug Co.

MEXICO ALMOST READY.

Despotism holds an intermediary place in national development. It is the successor of anarchy, the predecessor of democracy. The first thing necessary for a community is order. Order once firmly established the people may proceed to work out in detail the problems of community life. But order must be maintained throughout this process or they fall back into anarchy and must begin all over again under the guidance of the strong man who before all else will crush disorder.

Mexico is now passing through the intermediary stage. In President Diaz, who since 1877 has maintained order, she has a despot of the best, a ruler who having achieved his first great task has had the wisdom and the strength to essay other tasks which under a lesser man would have been left to future generations. Consequently Mexico during the thirty years of his power has been a veritable political forcing house. Institutions and industries which neighboring Latin-American countries will not know for a century at the least now seem firmly established there. And now at last there is appearing that guarantee of future security, a well to do, conservative middle class.

It is upon the existence of this so-called middle class that order depends. So long as there are only the rich and powerful and the poor and weak, a nation will be torn by feuds and civil wars. But when a large middle class appears, a class whose prosperity and even existence depend upon the maintenance of order, upon playing the game fairly according to rules which experience has proved good, then the despot may be safely dispensed with, then the check is provided for the ruthless ambition of the strong.

A few years more of Diaz, a few more years in which the middle class may grow cognizant of its power and function, and Mexico may be trusted to govern itself. But President Diaz is now seventy-six years of age. The race is a close one.

Mining News

SITUATION AT BISBEE.

Non-Union Men Organize to Counteract Western Federation.

The Bisbee Industrial association has been organized by non-union miners with the object of counteracting the advent of the Western Federation. The organizers are old men of the camp who are satisfied with the management and not willing to be dictated to by any labor organization or be branded as scabs by union leaders at Denver. They say they can think for themselves and propose to do so. The membership is sufficient to keep the mines up to the usual production. This organization will effectually break up the union attempt to organize the Bisbee camp and end the unsettled conditions which have prevailed during the past several weeks.

Development Operations Affected.

With the mines in Bisbee only working a few men to keep the shafts from being ruined, and the Spray shaft, one of the largest properties of the Copper Queen company, closed down entirely while repair work is being done, activity in mining circles in the Warren district is practically suspended, according to Dr. Robert Ferguson, a member of the Copper Queen medical staff at Bisbee, who is visiting in El Paso today, says the El Paso News. In speaking of conditions he said: "While the companies have made no announcements, it is understood they will never recognize a miners' union in that camp. It has always been an open camp and both union and non-union miners could get employment and were treated alike. I left Bisbee last night and I am confident the business men are with the companies in the stand they have taken against the union."

OLD DOMINION.

The Old Dominion now has sulphides on the fourteenth level in three crosscuts, 100 feet apart. The proving of the rich sulphide ore by No. 3 crosscut, makes this strike one of the most remarkable ore developments in extent in Arizona copper mining for many years. A Globe correspondent reports: "No. 3 crosscut, fourteenth level, of the Old Dominion, has reached the sulphide vein, and the vein at point of contact contains the same high-grade glance as opened by No. 2 crosscut. This crosscut, No. 3 is 100 feet further west. A magnificent step is being opened in crosscut No. 2, where the ore body at present is fifty feet wide. The Old Dominion is now producing ore from its own mines to the full capacity of its smelter, and custom shipments are increasing. There are 15,000 tons of ore in the stock pile at the smelter."

FOR CATARRH, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

TWO IN ONE WINTER.

C. E. Emerson, of Pittsfield, N. H., had two attacks of pneumonia in one winter. He writes that two physicians said he could not recover from the last attack. After they had given up hope he began taking Foley's Honey and Tar, which brought him out all right. He writes that he surely thinks Foley's Honey and Tar is the grandest remedy for throat and lung troubles. The Stafford Drug Co.

CUTICURA GROWS HAIR.

Assisted by light dressings of Cuticura Soap and Purified by Cuticura. Assisted by light dressings of Cuticura, the great Skin Cure. This treatment at once stops falling hair, removes crusts, scales, and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails. Complete external and internal treatment for every humor, from pimples to scrofula, from infancy to age, consisting of Cuticura Soap, Ointment, and Pills, may now be had of all druggists for one dollar. A single set is often sufficient to cure the most distressing cases. Sold throughout the world. Cuticura Soap, 25c. Ointment, 50c. and Pills, 50c. (In form of Chocolate Coated Pills, 50c. per trial of 100.) Foster Drug & Chem. Corp., Sole Trade, Boston. 50¢ Sold for "The Great Humour Cure."

trict is practically suspended, according to Dr. Robert Ferguson, a member of the Copper Queen medical staff at Bisbee, who is visiting in El Paso today, says the El Paso News. In speaking of conditions he said: "While the companies have made no announcements, it is understood they will never recognize a miners' union in that camp. It has always been an open camp and both union and non-union miners could get employment and were treated alike. I left Bisbee last night and I am confident the business men are with the companies in the stand they have taken against the union."

"As an evidence of the confidence of resuming operations at the mines soon, yesterday morning the Warren Electric Street Railway company began to build the railroad from the new town of Warren to Bisbee. This railway line is to be built at a heavy expense. It is owned by the Calumet & Arizona Mining company and shows that this company, at least, is not alarmed over the situation. The smelters at Douglas will not need to close for three months, as the Copper Queen company has enough ore piled on the ground near the smelter to operate it that long. The Calumet & Arizona company is shipping ore in from Cananea, which will supply its smelters and keep them operating. The Copper Queen is also busy shipping the old slag dump, an accumulation of hundreds of tons of half-smelted ore from the old smelters at Bisbee to the smelters at Douglas, where they are being treated and are producing slag. There is enough of this slag to operate the smelters at least two weeks."

Speaking of the new town of Warren, Dr. Ferguson says it has had a marvelous growth. The site was opened up for settlement by an American, and the first residences in the southwest have already been started. A perfect sewer system is being put in, electric lights, street railway and modern city conveniences are being installed.

Miners Leave for Mexico.

The Bisbee Review says: When the eastbound train pulled out from the local depot last evening there were on board sixty miners in a special car, who had been hired by Sam King to go to work at the Greene Gold and Silver property in Chihuahua, Mexico.

On account of the difficulties of keeping American miners in Mexico, the Greene company is always importing men, but during the last few weeks the employees have left in unusually large numbers, returning to their homes in the states, and the supply has fallen far short of the required number. Owing to the fact that there is a great deal of surface work in that locality at which they can find employment, Mexican will not go to work in the mines, so it was determined to secure men from the United States.

RAVEN.

Plans regarding the development of the Raven claims in Butte are more comprehensive than at first supposed. If the Butte Coalition and Amalgamated companies dispose of their fractional holdings in the Snoozer and Old Glory claims to certain individuals, then it is proposed that these individuals put their holdings, with a large amount of cash, into the Raven company, taking therefor stock of the latter company. It has been suggested that the management of the consolidated company be given to either Amalgamated or parties identified with that company, as their great experience and facilities for doing business in the Butte camp are unsurpassed. This would be along the lines of the Old Dominion plan, when that company enlisted the services of the Phelps-Dodge people to such good advantage.

With sufficient cash in the treasury Raven would sink a shaft of its own to great depth, and completely develop from that shaft all three claims, which are entirely surrounded by properties belonging to the Amalgamated company. If the Amalgamated parties decide to handle the company, it might be considered better to work the Snoozer and Old Glory claims through the Buffalo shaft, and the Raven through the "Poulin" shaft, which latter shaft bears the same relative position regarding the Raven veins that the Buffalo does toward the others. Considering the ore bodies already exposed on the 1200 and 1500-foot level by crosscut from the Buffalo shaft and the recent rich strikes at a depth of 3200 feet on the Mountain Consolidated, which adjoins the Raven and Snoozer on the east and south, the latter might be considered a better plan. The fact that the Amalgamated is now working the Pacific through the Buffalo shaft, and the current gossip in Butte to the effect that the "Poulin" shaft will soon be reopened and worked, show the interest taken in that particular locality by the Amalgamated company.

OLD DOMINION.

The Old Dominion now has sulphides on the fourteenth level in three crosscuts, 100 feet apart. The proving of the rich sulphide ore by No. 3 crosscut, makes this strike one of the most remarkable ore developments in extent in Arizona copper mining for many years. A Globe correspondent reports: "No. 3 crosscut, fourteenth level, of the Old Dominion, has reached the sulphide vein, and the vein at point of contact contains the same high-grade glance as opened by No. 2 crosscut. This crosscut, No. 3 is 100 feet further west. A magnificent step is being opened in crosscut No. 2, where the ore body at present is fifty feet wide. The Old Dominion is now producing ore from its own mines to the full capacity of its smelter, and custom shipments are increasing. There are 15,000 tons of ore in the stock pile at the smelter."

FOR CATARRH, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

TWO IN ONE WINTER.

C. E. Emerson, of Pittsfield, N. H., had two attacks of pneumonia in one winter. He writes that two physicians said he could not recover from the last attack. After they had given up hope he began taking Foley's Honey and Tar, which brought him out all right. He writes that he surely thinks Foley's Honey and Tar is the grandest remedy for throat and lung troubles. The Stafford Drug Co.

CUTICURA GROWS HAIR.

Assisted by light dressings of Cuticura Soap and Purified by Cuticura. Assisted by light dressings of Cuticura, the great Skin Cure. This treatment at once stops falling hair, removes crusts, scales, and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails. Complete external and internal treatment for every humor, from pimples to scrofula, from infancy to age, consisting of Cuticura Soap, Ointment, and Pills, may now be had of all druggists for one dollar. A single set is often sufficient to cure the most distressing cases. Sold throughout the world. Cuticura Soap, 25c. Ointment, 50c. and Pills, 50c. (In form of Chocolate Coated Pills, 50c. per trial of 100.) Foster Drug & Chem. Corp., Sole Trade, Boston. 50¢ Sold for "The Great Humour Cure."

THE VALUE OF PERSONAL KNOWLEDGE. Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of The Well Informed of the World. A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort. A Knowledge of Facts, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made. This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

A REMEDY THAT WILL

When we put out a remedy of our own it is just as good as we know how to make it, and there is enough of it to do good. Tar, Honey, Horehound and Wild Cherry is in liberal sized bottles and one bottle will cure an ordinary cough. If it fails to give perfect satisfaction, we do what we would expect you to do under reversed circumstances—refund the money.

Price, 25 and 50 cents.

Copper Country

IN THE JUSTICE COURTS.

George Ellenich of Calumet Bound Over on Charge of Forgery.

The justice courts of the copper country have been more or less busy with minor cases the past week, the approach of spring being usually coincident with an increase in crime.

George Ellenich, the youth who presented an alleged forged dividend check at the Tamarack store and received something over \$157 on it, has been bound over by Justice Jackola. He will be tried at the June term of the circuit court.

Curley Alippo of Franklin has paid a fine of \$10.25 in Justice Oliver's court in Hancock on a charge of assault and battery. Justice Oliver will on March 12 give a hearing to Gust Devchillo, charged with selling liquor without a license. Steve Ipeha, charged with creating a rough house in Stepanich's boarding house in Hancock, will be given a hearing the same day.

Marshall Trudell of Red Jacket raided an alleged disreputable house at that village last week, and brought to light a shocking state of affairs. There were seven young children, being reared among the most debasing surroundings. Several women and a man were drunk and asleep in the house at the time of the raid. Two women and the man were arrested and fined.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their doctors a picture of a busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made, and the suffering patient gets no better. The doctor, by wrong treatment, but probably worse, a proper medicine like Dr. Pierce's Favorite Prescription, directed by the cause, will have entered removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless. Its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attending debility, functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorates the stomach, liver and bowels. One to three a dose. Easy to take as candy.

PORTAGE LAKES HOME TODAY.

Champion Hockey Team of the International League Returning.

The Portage Lake team, champions of the International Hockey league, will arrive at Houghton today from Chicago where the men have been resting since the Pittsburgh series. The seven will be received with an ovation, though up to last evening no especial program had been prepared for the reception. In the past the Portage Lakes have been regarded with a banquet, but nothing had been said regarding a similar function on this occasion.

The champions have but two more games to play, these with Calumet Thursday and Friday nights, the first at Calumet and the second at Houghton. The season closes in the Canadian and American Soos at the same time. The season has been a great one for Portage Lake. At the beginning the team was handicapped by the lack of defense men and the prospect was not bright, but as soon as the full seven was lined up, the team began to show championship form. Only at the Canadian Soo did the Portage Lakes suffer any series defeat this season.

While the games with Calumet this week will have no effect on the championship, Portage Lakes having won that already, it is expected that they will attract big crowds. An old-time rivalry exists between Calumet and Houghton, and "Cooney" Shields and his men would give anything to defeat the champions. It is understood that the Portage Lakes will go into these contests with a determination of giving Calumet the worst beating a hockey team ever received. But the Calumet team, though the last in the league, can play good hockey, and the Portage Lakes will have to play a classy article to take the match, by anything better than a fair margin.

There is a suspicion in Houghton, too, that these games will be worth seeing for another reason. The players have said nothing, but Houghton fans remember last season's Portage Lake player was injured in the closing game with Calumet last season, and they believe the Portage Lakes are human enough to look for revenge.

Pickings from Puck.

The Toronto Star says: "Doc" Gibson writes to Berlin, promising a "franchise" in the International league if Berlin wants to go in next year. He says Toronto, Calumet and New York are ready to come in.

Billy Baird, the point player of the Ottawas, has gone to Portage la Prairie to help that team win the Manitoba championship. He began the season with the Pittsburgh Portage Lakes hockey club in the middle of the winter. "The greatest team in the world" is the slogan of Tom Hodge and Riley Horn the advance men of the Wanderers hockey team of Montreal, champions of Eastern Canada, and challengers for the Stanley cup, who are now on tour for the West. They met Manager Milne of the Mutual Street rink this morning and made arrangements to play the Toronto professionals here Monday night. The Toronto team will be strengthened for the game by Dumart, the Berlin wing, and Crowley of Peterboro. Arrangements to play games with Berlin and Guelph on Monday and Tuesday are already completed, and Peterboro may also come to terms. The team is now in great form and will take the Thistles," said Hodge. "If we had been in the same condition when we met the Thistles in Montreal they never would have taken the cup."

Minor Sporting Matters.

One of the most spectacular exhibitions of ice skating ever seen in the Portage Lakes region will be the Amphitron tonight and tomorrow night. Norval Baprie, speed skating champion; John McCullough, former amateur champion of the world and one of its most versatile fancy skaters; G. Bellefleur, former Canadian amateur champion, and G. Simmond, Norwegian amateur, will participate. They will have speed races forward and backward, pursuit and obstacle races, fancy and trick skating, jumping on skates and Baprie's and goose turn. This latter is one of the most marvelous exhibitions of the control of skates that has been seen in a number of fast home skaters and challenges them to catch him in the rink. He puts up a whirlwind exhibition of speed, dodging and jumping, showing his skates to be almost a part of himself.

The first game of the amateur hockey championship between Houghton and Dollar Bay was played last night at the Amphitron. The series will be of three contests. The winner will be the champion of the Michigan Amateur Hockey league, will secure the Amphitron cup, and must defend it against all challenges. It is expected that the Toggery Shop team from the Soo will challenge for the trophy this winter.

The Montreal Wanderers-Kenora Thistles game for the Stanley cup, Friday of next week, will be only two games, and total goals will govern. There is a possibility that the Wanderers will play the Portage Lakes in Houghton, if they lose at Kenora. They would hardly take the chance if they won back the cup, as in that case they would have everything to lose and nothing to gain.

Houghton county cricketers are again talking of the game for next summer, and it is pretty certain now the Houghton County league will be in existence again.

IN THE WAY OF AMUSEMENT.

"The Royal Chef" Tomorrow Night—Other Bookings.

"The Royal Chef" one of the successful comic operas which were presented here three years ago, will be seen at the Kenora theater this evening and at the Calumet theater tomorrow night. Harry Hermans replaces Dave Lewis in the title role. Schubert Bros. promise an elaborate production.

Manager Kerzede has booked the Bostonian Juvenile Opera company for an early appearance. In the light of the success of the Polar Juvenile company two years ago, the company should do well in the copper country.

Isabel Irving, in "Susie" in Search of a Husband," at the Kenora theater, and "The Girl and the Governor," Rose Knott, in "Alice SR-by-the-Fire," Al Wilson, in "Metz in the Alps," and Annie Russell, in "A Midsummer Night's Dream," are productions soon to be seen in the copper country.

Father says: "Say, Mother: can't you make us some more of those fine doughnuts I will bring some a pair of Cudaly's Peacock Lard again?" 11-27-28

FIGHT ON THE MINES BILL.

Copper Country Still Agitated Over the Matter Yesterday.

The fight over the mines bill, recently passed in the state legislature, and now only awaiting the signature of Governor Warner to become a law, continued to agitate the copper country yesterday. It is the biggest sensation which has come up in years in this district.

In every brokerage office, in every other place of business in the county, crowded with talk on the subject. It was noticeable that the disinterested observer that almost the unanimous opinion is in favor of the Calumet & Hecla. The adherents of the Bigelow syndicate appear to be very few.

Political talk grows out of the affair, and it is openly asserted that Dr. Abrams of Dollar Bay, the copper country advocate of the bill, which would prevent the Calumet & Hecla from voting its controlling interest in the Osceola, Centennial and Allouez, has cooked his own political goose. He represents a district in which there are large Bigelow interests, but even there the people seem to favor the Calumet & Hecla as against the Bigelow people. In that event, Dr. Abrams is early shutting off a prominent legislative career.

There are few new legislators who have taken hold as has Dr. Abrams at Lansing. He has his place on prominent committees, has introduced some important legislation and has made himself felt in every way. His present antagonism to what is considered in the copper country a movement favorable to the interests of the people of the copper country may mean his retirement after this term.

Johnnie Gordon, the Marquette county representative, who is the colleague of Dr. Abrams in the movement, comes in for considerable execration in the copper country, too. Those who condemn the bill chortle when they talk of what will happen to him in the iron country, having at times had interests in the copper country and Houghton counties, and living for a time at both Calumet and Houghton. He was a successful man in business and politics, and had many friends.

Mr. Walls was sixty-one years of age or would have been May 12, the date of his birth in Cornwall in 1846. He was only three years of age when he came to the United States with his parents, and he spent his boyhood in Pennsylvania. In 1863 the family moved to the copper country, settling in Keweenaw county. Mr. Walls took up mining as an occupation, later entering mercantile life as a salesman. The firm of Watson & Walls was formed in 1873, Isaac C. Watson being the senior member. It has the largest mercantile concern in the copper country for many years.

From 1877 to 1879 the firm operated the Allouez mine on tribute, and produced an average of 1,000 tons of copper per year.

The gradual suspension of mining operations in Keweenaw county caused this firm to go out of business in the '80's, and Mr. Walls moved to Calumet, where he again engaged in business. He soon became active in local politics, and continued that activity almost until his death. He was treasurer of Calumet township from 1880 to 1888. In the latter year he was elected register of deeds, and he held that office for six years, retiring Jan. 1, 1905, in favor of Clyde MacKenzie, the incumbent now.

On his retirement to private life Mr. Walls devoted his time to making his permanent home in Houghton, and to his residence in East Houghton and had since devoted his time to caring for his private interests, which are reported to be large. His health had latterly not been of the best, and he and Mrs. Walls departed at a few weeks ago to Florida in an effort to secure the benefits of a change of climate. Reports were favorable of his condition, and only a few hours before the receipt of the telegram announcing his death the family had received a letter stating that Mr. Walls was improving. The telegram came, then, with an even greater shock.

Mr. Walls is survived by his wife, three daughters—Mrs. John Martin of Calumet and the Misses Mayne and Adell—and one son, Master Jack. Four sisters—Mrs. J. L. Wadsworth, Mrs. J. W. Karkke of Houghton and Mrs. W. H. Hosking of Calumet—survive. One brother, John Walls, lives in Montana.

The funeral tomorrow afternoon will be in charge of the Lodge of Masons, of which the deceased was a member. It had not been decided yesterday whether the interment would be made at Calumet or Houghton.

A BOSTON OPINION.

How Michigan's Frenzied Legislation Strikes a Financial Wreath.

"Lennox" writes in the Boston Statist as follows: The main question of interest that was discussed yesterday was the action of the Michigan state legislature in the bill which is evidently aimed at the Calumet & Hecla's proposed absorption of the Osceola, Centennial and Allouez properties.

The action which is alleged to have been initiated by Judge Haire of the Detroit bar is not only thought of on the street, but familiar to the mining law have pointed out that a law passed at this time, after the purpose of the company has been achieved, must from its very nature be retroactive, and since the actions that have been taken by the company have been taken by authority granted it by the Michigan legislature, through amendments to its charter, it is hard to see how the matter can be prevented at this time. The unseemly haste with which the measure was passed through the legislature is also cause for much adverse comment, and it savors of an intention to amoy and thwart that is not liked.

This action, taken presumably at the instigation of those who were so active in the formation of the first combination, which had its object the absorption of the entire copper industry of the Michigan country, is the strongest evidence that has been offered yet of the entire and complete success of the Calumet & Hecla in maturing their plan to acquire the Osceola, Centennial and Allouez properties.

The success of such a law as that proposed by the interests who have been active in the matter would simply mean that the Osceola stock would be sold back to interests favorable to the Calumet & Hecla, who could then form a company under the laws of another state that would operate as a single head. By means of the Osceola, the Calumet & Hecla management would have been effected. Their interest in other properties arose and is maintained from the fact that they saw the entire copper industry of Michigan menaced by a gigantic corporation, who would form a big link in the copper industry of the country, and which, from the volume of copper controlled, would be in a position to exert an influence more or less baneful, and possibly destructive on independent interests, however large.

Calumet & Hecla was forced to act in self-defense, and it did. Its acquisition of the neighboring properties would mean that they would be operated as commercial enterprises—for the production of copper and dividends instead of for speculative purposes. But the Calumet & Hecla had or has any purpose to shut down the mines or to curtail the production of copper in any way is a false and malicious charge. The ascendancy of Calumet & Hecla means better business for the copper country, the prospecting of unknown territory and the conserving of the rights of all, in all respects. It means—and all those who have ever been at the Lake will appreciate the full force of this—the continuation of many a small business, which is now precarious but that would be destroyed if the mines of the Lake country passed into a single control which would substitute one big buying agency with a single head as a substitute for those who now make a living by trade in the necessities of the mines. There is a mile of residences in East Houghton that are the result of and directly dependent upon small businesses such as above described.

Those legislators who take part in thwarting a consummation devoutly desired by all having the real interest of the Lake at heart, would unquestionably have to answer to their constituents for what they do. In short, it is my opinion—and it is my opinion—that the question of control is not a matter for state interference, but for the shareholders of the Osceola company. They own the property and they have its future in their own hands. They know what they want, and they should be allowed to take their choice without prejudice, whether for the one or for the other.

The tendency of the times to run to the legislature for every small ailment is one of the most crying abuses of the present time, and if it is enjoined in the present case it will be another striking example of what we have already seen too much of.

WM. WALLS DIES IN FLORIDA.

Former Merchant and Register of Deeds in Houghton County.

William Walls, retired merchant and former register of deeds of Houghton county, died at St. Augustine, Fla., Sunday afternoon after a brief illness. The news was received by the family in Houghton Sunday evening. The remains will arrive in Houghton tomorrow, accompanied by Mrs. Walls, who was present at the end, and the funeral will be held Thursday afternoon from the late residence of the deceased.

The news of Mr. Walls' death was received with sincere regret in the copper country. He was one of the best known and most highly respected men in the district, having at times had interests in the copper country and Houghton counties, and living for a time at both Calumet and Houghton. He was a successful man in business and politics, and had many friends.

Mr. Walls was sixty-one years of age or would have been May 12, the date of his birth in Cornwall in 1846. He was only three years of age when he came to the United States with his parents, and he spent his boyhood in Pennsylvania. In 1863 the family moved to the copper country, settling in Keweenaw county. Mr. Walls took up mining as an occupation, later entering mercantile life as a salesman. The firm of Watson & Walls was formed in 1873, Isaac C. Watson being the senior member. It has the largest mercantile concern in the copper country for many years.

From 1877 to 1879 the firm operated the Allouez mine on tribute, and produced an average of 1,000 tons of copper per year.

The gradual suspension of mining operations in Keweenaw county caused this firm to go out of business in the '80's, and Mr. Walls moved to Calumet, where he again engaged in business. He soon became active in local politics, and continued that activity almost until his death. He was treasurer of Calumet township from 1880 to 1888. In the latter year he was elected register of deeds, and he held that office for six years, retiring Jan. 1, 1905, in favor of Clyde MacKenzie, the incumbent now.

On his retirement to private life Mr. Walls devoted his time to making his permanent home in Houghton, and to his residence in East Houghton and had since devoted his time to caring for his private interests, which are reported to be large. His health had latterly not been of the best, and he and Mrs. Walls departed at a few weeks ago to Florida in an effort to secure the benefits of a change of climate. Reports were favorable of his condition, and only a few hours before the receipt of the telegram announcing his death the family had received a letter stating that Mr. Walls was improving. The telegram came, then, with an even greater shock.

Mr. Walls is survived by his wife, three daughters—Mrs. John Martin of Calumet and the Misses Mayne and Adell—and one son, Master Jack. Four sisters—Mrs. J. L. Wadsworth, Mrs. J. W. Karkke of Houghton and Mrs. W. H. Hosking of Calumet—survive. One brother, John Walls, lives in Montana.

The funeral tomorrow afternoon will be in charge of the Lodge of Masons, of which the deceased was a member. It had not been decided yesterday whether the interment would be made at Calumet or Houghton.

The Superior & Montana Mining company has elected officers as follows: President, Edward Uthoff; vice president, Charles Chynoweth; secretary, W. Frank James; treasurer, John Holman. The directors are the officers and M. J. Foley, Thomas Bastian and John J. Lervise.

The Pantan & White company of Calumet, which has taken over the Ryan Estate store and is enlarging the build-

ing announces that it will be ready for business May 1. John D. Cuddihy and J. J. Sullivan of Calumet make the announcement as president and secretary of the concern. Pantan & White, the Duluth merchants, are the principal owners.

Christ Stark of Lake Linden has begun suit in the Baraga county circuit court against Thompson and Maxey, Baraga county game wardens, who it is alleged illegally confiscated a deer shot by Stark last fall. The case was the subject of an investigation by the game warden this winter, and he exonerated his subordinates. Now Stark, supported by other Lake Linden men, members of the same hunting party, will see what the courts will do about the matter.

MEN ARE POWERLESS.

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasite germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Next the Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. The Stafford Drug Co., special agent.

THIS IS WORTH REMEMBERING.

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk health by taking any but the genuine. It is in a yellow package. The Stafford Drug Co.

"What shall we have for breakfast?" "Why Cudaly's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-cod)

BIG DEAL IN TIMBER.

Calumet & Hecla Invests Three Quarters of a Million.

The Calumet & Hecla Mining company has purchased of the Keweenaw Land association, limited, the timber on 20,176 acres in Ontonagon and Houghton counties, reports the Ontonagon Herald. The consideration as given in the contract is \$750,000. Of this amount \$250,000 is paid down, a like amount is payable on or before Jan. 1, 1908, and the third payment is due a year subsequent to the time. The company has until April 1, 1942, to take off this timber. It lies to the northwest from Ontonagon, between the Copper Range railroad and the lake and the major portion of it is in Houghton county.

This is simply another illustration of the policy of expansion which has been inaugurated by the big mining company. Millions of feet of timber are used annually for mining purposes and the Calumet & Hecla is making provision for the same and a scale which shows that it realizes that it is only a question of a short time when it will be almost impossible to acquire timber in this locality. This is one of the biggest purely timber deals of recent years. The land contains many million feet of timber, some of it being pine.

Woodman Loses a Leg.

Ferdinand Olson had his right leg so badly crushed that amputation became necessary. He was employed as a sawyer in the camp of Forslund & Magnusson at Houghton and was shortly after going to work in the morning met with the accident. After saving the tree Olson and his companion stepped back to what they deemed a safe place, but instead of falling in the direction he had planned the tree gave a sudden lurch to one side, striking Olson, crushing his leg like an eggshell and then bounded forward fifteen or twenty feet.

A conveyance was secured, and Olson was taken to Rockland as rapidly as possible and the leg was amputated now about six inches below the hip by Dr. E. J. Evans. Olson rallied from the ordeal and is said to be getting along

City Brevities

Today weather: Threatening with rain or snow; stationary temperature. Yesterday's temperatures: Seven a. m., 26 degrees; noon, 36; 7 p. m., 37. Maximum, 43 degrees; minimum, 23.

W. C. Hoch left last evening for Duluth, to visit for a few days. S. T. McReavy and O. Grubb of Mangum were in the city yesterday. Red Cross Legion, No. 209, give a dance and card party at Legion hall this evening.

Mrs. C. R. Brown of Munising, a former Marquette resident, is here for a few weeks' visit with friends.

Lee M. Geismar, superintendent of the state experimental station at Chatham, spent yesterday in the city.

Miss Florence Foard has returned home from Escanaba, after an extended visit with friends in that city.

Judge J. W. Stone left last evening for Chicago where he will go to Florida and other southern points on a month's vacation trip.

Charles G. Mingsy of Sault Ste. Marie, was in the city for a short time yesterday on his way to the copper country, where he will visit for a few days.

There will be a meeting of the Marquette Chapter of the Daughters of the American Revolution this afternoon at 3 o'clock in the rooms over Stafford's drug store. Members of other chapters will be welcome.

Miss Grace Spalding, who is in charge of the art department at the Northern Normal, expects to leave Friday for New York, where she will sail for Florence, Italy, there to spend a three months' leave of absence doing art work. Miss Spalding expects to replace much of the material she lost in the Normal fire, over a year ago.

Candidate in Fifth—Herman Schauer, of North Marquette, announces that he will be a candidate for alderman in the Fifth ward. This is the precinct in which former Mayor Ward will make a run. It is also reported that Alferman Gustafson may be a candidate.

Death of a Boy—Clifford Peterson, youngest son of Mr. and Mrs. Andrew Peterson, 384 Morton street, passed away at 7:40 last evening from abscess of the brain. The boy was aged twelve years and was a mainly athletic fellow. He was ill only two weeks. The funeral arrangements had not been completed last night, pending advices from relatives out of town.

End of Fiscal Year—Today the fiscal year of the city of Marquette ends and the heads of the different departments will begin to put the finishing touches on their annual reports. For about two weeks past there has been more than the wonted activity about the city hall, the preparations for the annual reports being the cause of the extra work.

Politics Hot in Munising—Munising people who came up on the early morning train yesterday report that the train was held for fifteen minutes to permit the trainmen and other to vote. They went to the polls, but the "harmony" election was being opened up with a row over the election board, and they could not get their votes recorded. Not having time to wait to see things settled they pulled out for Marquette without having a voice in the election.

"The Old Clothes Man"—Tonight at the Marquette Opera House, "The Old Clothes Man" will be the attraction. The play is by James Kyrie McCurdy, who appears in the leading role. The play is devoted to incidents of New York and is described by the press agent as "a splendid melodrama of a new type." Specialties are introduced incidental to the play and in the final act Danny Dougherty and Kid Sharkey give a boxing exhibition of three rounds.

Spring Conditions Continue—Spring conditions continued yesterday and the street commissioner was kept busy carrying for the water which ran down the streets. A force of men was at work digging trenches at the curbs and the street railway company also had a crew at work clearing ice from the tracks. Although a number of sidewalks are entirely clear of snow for the most part the pedestrian is compelled to wade through a couple of inches of slush. Several wagons were brought from their winter storage and used in the business portion of the city yesterday.

Island Free of Wolves—A. O. Jopling is in the city. He reports that Grand Island is now free of wolves, the three animals that invaded it last week having been driven off. Two more carcasses of deer were found, making eight in all that have been killed by the wolves in the Cleveland-Chief game preserve this winter. Mr. Jopling is of the opinion that the trouble with these marauders can only be ended by building a strong wire fence along the land side of the island. At present the time the stretches of low shore are fenced, but the wolf cliffs are not. The ice and snow pile up, however, and it is made easy for the wolves to get onto the island. There are a number of the animals still prowling around on the mainland, opposite the island.

He had no coat upon his back, But had one on his tongue, And Roney Mountain Tea, 'Tis said, Kept him from being lung. (Bad breath.) —The Stafford Drug Co.

Mining News

OSCEOLA. Majority of the Stock Available for the Calumet & Hecla.

There has been war and rumors of war in the matter of the forthcoming meeting of the Osceola Consolidated Mining company, says the Boston Statist. The general opinion is that the Bigelow forces will not give up without waging battle with the Calumet & Hecla forces, which are looking for the control of the property. Proxies have been solicited on all sides and the indications now are that the Calumet & Hecla will have little or no difficulty in getting control of the company by a small, but comfortable majority. The contest for the proxies of the stock which is held in the Lake region was sharp and severe, and the Calumet people got the best of it, the Bigelow support being mainly those who were interested in the company off-dialy and a certain number of old line shareholders who stayed by the management. The Boston contest has been about a stand-off, but there have been many proxies issued to the Calumet & Hecla people—so many that the general opinion which leans to the outside through semi-official sources is that the management is feeling especially well over the matter.

The large holdings that were picked up in the open market by the Calumet people are estimated to have been in the neighborhood of 40,000 shares at the time that it was announced the control of the property would be sought. Since that time both sides have been buying shares in the open market wherever possible. The shares that the Calumet & Hecla have acquired will be clear gain toward the desired end, while those that the others have bought will also be an aid. It was rumored early in the week that both companies were after a large block of stock held in Michigan which it was said totalled 6,000 shares. The opinion is that it finally changed hands and went to the Bigelow interests, but the price has not yet been stated. The fact that the Calumet & Hecla did not pay the high figure demanded for the block in question is taken to mean that they did not virtually need the shares and were willing to see them pass into other hands rather than be held up. That both interests will be able to secure representation on the board of directors no doubt is held, but this will be a doubtful advantage.

When the shares were selling in the neighborhood of 162 there was a standstill order that kept the price always at that level and what stock was exchanged at that period when into a bag. The ownership of the bag was variously ascribed, but just what interest bought the stock around that figure remains unknown. It is understood that both parties were buyers of the stock around that figure, but it has been especially noticeable that just as soon as the Calumet & Hecla buying went out of the market the price of the shares fell and has not since recovered. Osceola, in fact, had acted languidly for a long time before the present general slump same upon the market, much the same as the Centennial and Altonex did after it became generally known that the Fay interests and the Calumet & Hecla interests were in harmony. These facts all taken together make for the certainty that Calumet & Hecla interests are resting pretty well satisfied with what has been accomplished, and are not paying any fancy prices for stock at this time.

According to Lake information, there is nothing to be done of a radical nature in the management of the properties except that Osceola and Tamarack rock will be treated separately.

QUINCY.

In view of the fact that the Quincy Mining company has been a dividend payer since 1848, making disbursements every year since that time to stockholders, with exception of two years during the Civil war, the following general summary of receipts and expenditures from 1906 is of interest:

Table with 2 columns: Description and Amount. Includes items like For location previous to 1856, For Quincy vein, 1858, not now worked, Openings and explorations on 2,800 feet Peavale ledge, Real estate, stamp mill, etc., Mining, smelting and marketing expense, Balance carried down, Total, Receipts, From capital stock paid in, From capital stock paid in (scrip), From capital stock paid in (10,000 share increase), Proceeds copper and silver, Interest, From investments, Sales real estate Hancock, Total, Balance receipts over expenses, Dividends 1-78 inclusive, Balance.

GREENE-CANANEA.

The energy imparted to operations at the Greene-Cananea by the new directing head, Dr. L. S. Ricketts, is shown by the fact that active work has been started on the permanent operating shaft. The shaft will be of three-compartment size and will be after the latest and most approved pattern; equipped with all the latest modern appliances and up-to-date in every way. The company has been busy determining the position of the big permanent ore bodies, which underlay the present workings. The new shaft will be located beyond the original America and is placed with the idea of making it central to all the known veins that have been opened in the property. These formations are at present opened down to a depth slightly exceeding the 100-foot level, and connection will be made with them at the 175-foot level of the new shaft. No final depth has been decided for the shaft, but it will be made to connect with the present openings at once so that shipments of ore can be made. The shaft will then be sunk and lateral workings extended as rapidly as possible. This will make Cananea Central a steady factor in the production of the Greene-Cananea.

The company already has under way a railroad to connect the smelter of the company with the mine. This will enable the use of some of the high-grade ore at once and it will be a very advantageous point, as it has valuable quantities in addition to its copper values.

Cobalt Gossip

W. H. Limney, manager of Nipissing mines, estimates that the company derived profit of \$90,000 from ore shipped during February.

Mr. Schoonmaker, a geologist of repute, confirms the report from the camp of a good discovery of native silver in Bucke township, one strike having been made on the Wonderland claim and another on the Labrosse property. The latter strike gives an assay of \$4.50 ounces to the ton, it is stated.

A Toronto despatch says that a party of New York, Boston and Buffalo capitalists, under the guidance of Charles L. Denison, president of the Buffalo mines, who have been inspecting various properties in Cobalt, have returned, and expressed confidence in the camp. They visited the Buffalo mines, Nipissing, Kerr Lake, Foster and Jacobs.

The legislature voted \$25,000 for a government sampling plant at or near Cobalt. Ores will be tested there for any person at a nominal cost. The fight against the new tax in mines is being carried on with a good deal of activity. Hundreds of signatures are being obtained, protesting against the measure, and considerable development work has been done on it. Superintendent Dobbins has at present a gang of twenty men employed there.

Harlan & Co. announce that there has been a merger of the Silbert Consolidated and Gold Forty companies, whose properties are in the Larder Lake district. By their acquisition of the Gold Forty they have, says Mr. Harlan, secured one of the very best prospects in the Larder Lake district. This claim is located a short distance from where the rich discoveries were made, and these claims are held at very high prices.

A despatch from Ottawa says that holders of Nipissing stocks all over Canada have received circulars from the Nipissing Mines company inviting them to send proxies in favor of W. H. Orr and C. M. Baynton for use at the annual meeting to be held at Augusta, Maine, on Monday, April 15. Thousands of shares have been purchased by Canadians within the last three months, and a movement is on foot to send a Canadian representative to the meeting rather than send proxies to the company.

The Larder Lake district and Temagami reserve appear to be chief objective points of the thousands who are flocking to Cobalt. Within the past few months there has been a very noticeable improvement in the different camps, for development is being carried on by shafts and drifts. The project to establish a concentrator is being looked upon with favor, and it is felt that if any practical steps are taken, there will be a very general support. The concentrator would include a sampling mill to enable shippers to determine the value of their ore before shipping it. Another need in Cobalt, and one which will doubtless be soon remedied, is a more extensive telegraphic service.

It is the understanding that the prospects favor the declaration of a quarterly dividend of 15 cents per share by the directors of the Nipissing Mines company at a meeting which will be held

JEWELRY AUCTION. Don't forget the auction sale every afternoon and evening of jewelry, Watches, Clocks, Silverware, Vases, Decorated China and Bric-a-brac. Everything going at your own price. We are going out of business. Harris & Co., Jewelers, Marquette. (2-22-1f)

HUMAN TRAITS IN ANIMALS.

Trainers Assert They are Affected by Attitude of Audience.

In reading Bostock on the "Training of Wild Animals," says John Burroughs, in Outing, my attention was arrested by the remark that his performing lions and tigers are liable to suffer from "stage fright," like ordinary mortals, but that "once thoroughly accustomed to the stage, they seem to find in it a sort of intoxication, well known to a species higher in the order of nature." And furthermore, that nearly all trainers assert that animals are affected by the attitude of an audience, that they are stimulated by the applause of an enthusiastic house, and perform indifferently before a cold audience. "If all this is not mere fancy, but is really fact, capable of verification, it shows another human trait in animals that one would not expect to find there. Bears seem to show more human nature than most other animals. Bostock says that they evidently love to show off before an audience. "The conceit and robed opinion of themselves, which some performing bears have, is absolutely ridiculous." A trainer once trained a young bear to climb a ladder and set free the American flag, and so proud did the bear become of his accomplishment that whenever anyone was looking on he would go through the performance by himself, "seemingly simply for the pleasure of doing it." Of course there is room for

much fancy here on the part of the spectator, but bears are in so many ways—in their play, in their boxing, in their walking—such grotesque parodies of man, that one is inclined to accept the trainer's statements as containing a measure of truth. Self-confidence, self-control, an authoritative manner, count for just as much in our dealing with the animals as with men. How a bold, unhesitating manner will carry you through a pack of threatening dogs, while timidity or parleying endangers your calves. Act as though you were the rightful master of the place and had come to give orders, and the most threatening dog gives way. Flee from a snarl, a cross dog, a butting sheep, and your danger is vastly increased. Even an insolent rooster or a bellicose pander will strike you then. I have even found that the best way to deal with the live bee is by bold and decisive manner. I would even recommend the same course with yellow jackets, if you are bent on demolishing their nest, do it by a sudden bold stroke and not by timid approaches. All kinds of bees seem disconcerted by a sudden onslaught.

MEDIAEVAL WAGES.

In the middle ages and the renaissance the artist was very much like the craftsman. Michelangelo and Leonardo da Vinci received £26 a month, but Cimabue and his assistant got together only the equivalent of 19s. a day.—Revue des Deux Mondes.

MAYORALTY TIMBER.
Charles T. Kruse and C. L. Anderson Have Been Suggested.

A number of prominent citizens have been mentioned as the nominees for the nomination for mayor on the Citizens' party ticket, but most of them are disinclined to enter the field, and several have positively announced that they will not accept the nomination under any circumstances. Charles T. Kruse and C. L. Anderson, the former assistant manager of the Lake Angeline mine, and the latter manager of the Lake Superior Heating company, are the latest to be mentioned. The Superior Posten of last week advocated Mr. Anderson's nomination, asserting that the Scandinavians, or rather the Swedes, as the Posten puts it, were entitled to the office. It was suggested in the same paper that in case Mr. Anderson would not enter the race an effort should be made by the Swedish voters to secure for George Skogberg the nomination of municipal judge on the Citizens' party ticket. Mr. Anderson has since stated that he is not a candidate for mayor, and will not accept the nomination.

Mr. Kruse has been out of the city the past few days, but some of his friends doubt that he will be a candidate for the office. He has been many times mentioned for mayor during the past ten years or more, but has never taken the matter seriously.

The ward caucus will be held a week from next Monday or Tuesday evening. It is evident that there is no one very anxious to accept the nomination for mayor on the Citizens' ticket, but it is certain that Mayor Roberts, who will doubtless head the People's ticket, will not be elected without opposition. There is a different feeling relative to the nomination for municipal judge, as this office is considered the "fattest" of the city jobs. The man who gets it will not have to bother about re-election for some time, as each patron is entitled to two cards, drawing one book at a time on each card. The total increase during last year was 119 patrons. The library employees considered this a big increase, as during the two or three previous years the list remained almost at a standstill. At the close of last year there were 2,029 names on the borrowers' list.

The total number of books borrowed for home reading during 1906 was 37,600, but if the rate of increase is as great during the remaining ten months of the year as was in January and February, over 50,000 books will be drawn during 1907, representing an increase of about 30 per cent. In January of this year 4,402 books went out, and 3,387 were drawn during the corresponding month of last year. The circulation last month was 4,063, compared with 3,274 in February of 1906.

GROWING RAPIDLY.
Large Increase in Library Patronage the Last Two Months.

If the increase in the number of books borrowed from the Carnegie library during January and February is maintained throughout the year the twelve months ending Dec. 31 will show a record not equaled during any previous year since the opening of the library. Sixty new patrons were added during the two months. This means 120 cards, as each patron is entitled to two cards, drawing one book at a time on each card. The total increase during last year was 119 patrons. The library employees considered this a big increase, as during the two or three previous years the list remained almost at a standstill. At the close of last year there were 2,029 names on the borrowers' list.

The total number of books borrowed for home reading during 1906 was 37,600, but if the rate of increase is as great during the remaining ten months of the year as was in January and February, over 50,000 books will be drawn during 1907, representing an increase of about 30 per cent. In January of this year 4,402 books went out, and 3,387 were drawn during the corresponding month of last year. The circulation last month was 4,063, compared with 3,274 in February of 1906.

DEATH OF BUSINESS MAN.
Gust Carlson Passed Away Yesterday Morning, After Two Months' Illness.

Gust Carlson, an old and well known resident of this city, died at an early hour yesterday morning. He had been ill about two months, the greater part of which time he was confined to his home. His death was expected as it was known for more than a week that he was sinking rapidly, and that he could not recover. Death was due to a complication of diseases.

The deceased had been a resident of Ishpeming since 1879, having come to this city direct from Sweden, where he was born in 1854. During his early years here he worked at his trade as stone mason and brick layer and about fifteen years ago, he engaged in the retail business, conducting the Railroad saloon on First street. Less than four years ago his wife died, leaving him with five children. The funeral will be held tomorrow afternoon at 2 o'clock from the Swedish Lutheran church.

"THE SPIRIT OF '76."
Ben Jerome, the composer of the music of "The Royal Chef," the big Shubert musical comedy which will be seen at the Ishpeming theater Thursday evening, tells an interesting story of how he came to write "The Spirit of '76" march, which is becoming as famous as any of the Sousa two-steps. Mr. Jerome is a thorough American, both in spirit and intent. He happened to be in a town in Illinois one day when the parade was in progress through the city with a big military band preceding it. "The band played different national airs of America; I noticed," said Mr. Jerome, in speaking of it, "that there was not a tune played by the band which had the least martial spirit about it. I was myself at a great opportunity there for a fine military march, to the air of which the soldier boys could swing themselves along. The need of a proper march number became deeper and deeper imprinted in my mind, and I set myself to work at it at a nearby town. I then decided that I would write the much-needed march. I went home and for two days I worked and worked and the result was 'The Spirit of '76' march. So that the soldier boys themselves are indebted to me for the melody, to the tune of which I hope they will often march."

"OUT IN THE STREETS."
Rehabsites Will Produce Three-Act Play Evening of Election Day.

Members of the local tent of the Junior Rehabsites will produce the three-act drama, "Out in the Streets," at the Ishpeming theater the evening of April 1. This will be the society's seasonal annual entertainment. Last year a novel program was given and a large audience attended. The net proceeds of the entertainments are placed in a fund to be used for an outing for the younger members of the society.

"Out in the Streets" was produced in this city by members of the Temple of Honor lodge over fifteen years ago. Some of the people who took part in it then are aiding the members of the Rehabsites at the rehearsals. The play contains a strong moral and there are many excellent comedy lines and situations through the three acts.

ROMANTIC IRELAND.
The expert moving picture photographer has now searched out the most interesting scenes of this most interesting country. They are being exhibited in this country only by Lyman H. Howe, whose company will be at Ishpeming theater next Friday evening. No quaint scenes of nature or native human characters could be imagined. The complex life story of Ireland and its people is told here in pictures as it has never been told before. For it is told with all that fine animation that cold type can never express. A part of the series showing Ireland's famous castles such as the Blarney, etc., speak of historic Ireland. In addition to these features, Mr. Howe will present others, which are sensational in the extreme. Notable among such are the ascent of the Dolomites and a cruise on an Atlantic whaler.

BIDS WANTED.
Bids are wanted for the construction of the Y. M. C. A. block at Ishpeming, Mich. Plans and specifications can be seen at the secretary's office in the McKee block, second floor. Bids must be in by noon of Tuesday, April 2, 1907. The committee reserves the right to reject all bids.

THE COMMITTEE.
(3-9-1w)

HOW'S THIS?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.
WALDING, KISSAN & MARVIN, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the mucous membrane of the system. Testimonials sent free. Price, 75 cents per bottle. Sold by the Stafford Drug Co.

NO CASE ON RECORD.
There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. The Stafford Drug Co.

DARANTELLA
210 Kansas Street, Ill.

FROM HOPKINS CURB LETTER.

"The copper metal displayed much strength in the London market, but outside of Amalgamated, little change is shown in the copper share list. It is claimed that the stocks of metal are rapidly diminishing and that further advances in price seem a certainty. Instances are cited where consumers have recently asked sellers for a price on metal in 1,000,000 pound lots. Calumet & Hecla bars are now open for orders at 26 1/2 cents, and several small lots have been disposed of on this basis. Other producers will open their books for orders within the next thirty days."

Yesterday's prevailing prices were:

HAD FINE MEETING.

The Odd Fellows of the county who attended the all-night session conducted by Ahmeck lodge of this city last Friday evening declare it to have been the most enjoyable meeting of its kind ever held by any branch of the organization in this county. There were delegations present from Marquette, Negaunee, Champion and Michiganville, the former, about forty strong, coming up by special train on the South Shore line. The society's hall in the Sellwood block was not large enough and an adjournment was taken to the Woodmen's hall, where the work was exemplified. Supper was served at midnight at the Wabney house.

AMATEUR BALL TEAMS.

Several baseball teams will probably be organized in the spring. The indoor game has been the means of stimulating interest. A fan yesterday said that he has talked with a number of ball players that there will likely be five or six teams, including the Pythians, Orlans, New York Stars, Teanesters and City nine. None of the teams will be very fast, but the contests should be sufficient to arouse interest and attract good crowds. An effort will be made to have the diamond at Union Park improved.

DEEP DRILL HOLE.

The diamond drill the Cleveland-Cliffs Iron company has had in operation on the Braustad lot, corner Cleveland avenue and Second street, since last fall, is being removed. The hole was bored to a depth of over 1,800 feet. It is said to be the deepest hole that was ever put down in this city.

ISHPEMING IN BRIEF.

The city employees will be paid today.

El. Clark arrived home yesterday from a business trip in Milwaukee and Chicago.

Carpenters began work yesterday on a new veranda at F. Braastad's dwelling on Cleveland avenue.

W. S. Nelson and Miss Laura Carlson, who spent last week in the cities for F. Braastad & Co., have returned.

The ladies of Grace church will conduct a pantry sale next Saturday morning. The time and place will be announced later.

Frank Vivian, who has been ill and confined to his home, is able to go out again, but it will be some time before he will resume his work.

Miss Tekla Farm may be heard in a concert here the week after Easter, as

Arrangements to that end are now being made by the Swedish Lutheran church choir.

The ladies of Calvary Baptist church will conduct a pantry sale Saturday morning between 10 and 12 o'clock at the Grand Union Tea company's store.

The choir of Calvary Baptist church will give a concert at the church the evening of the 22nd. Some of the city's best musical talent will assist the choir. The admission will be thirty-five cents.

There will be dancing following the indoor baseball game between teams composed of teamsters of Ishpeming and Negaunee at Braustad's hall tonight. The admission will be twenty-five and ten cents.

A number of people in the business district of the city took advantage of the soft weather yesterday and removed the snow from their sidewalks. The snow and ice are over a foot in depth at many places.

The advance sale of reserved seat tickets for "The Royal Chef," which opens tomorrow morning, promises to be quite large, judging from the interest manifested in the engagement by local play-goers and the number of advance orders being received from out-of-town.

John Nolan, who recently gave up his position as diamond drill foreman for the Cleveland-Cliffs Iron company in the Swaney district, and who is now in charge of a drill job for the Sullivan Machinery company at Amasa, Menominee range, spent Sunday with his family in this city.

Do Away With Food Adulteration

The People Have a Right to Know What They Are Eating.

Too great attention cannot be given to the food we eat. The health of our families depends on this food. Are we to submit to the atrocities of the food adulterators? No. We must have laws to protect us and those laws must be enforced.

It is of interest to note that there is at least one article of food about which we can know everything. This is Malta-Vita, popularly called "The Perfect Food." The pure, all-grain product, in which every element of food necessary to the proper nutrition of the human body is found.

In the manufacture of Malta-Vita the whole of the wheat is thoroughly cleaned, cooked in the purity of absolute cleanliness and then mixed with the finest malt extract, made from especially selected barley. The cooking and steaming of the wheat gelatinizes the starch, and the malt extract, a powerful digestive agent, converts this starch sufficiently to make unnecessary the use of any foreign sweetening agent and the weakest stomach digests and assimilates it without effort. Rolled into starch, and the malt extract, from the intense heat, Malta-Vita comes from the ovens crisp and brown, positively the most delicious food in the world. All grocers, 30 cents.

REO 1907

REO 1907 TOURING CAR \$1,250
F. O. B. LANSING

18-20 horse-power, 34-wheel-base. Five passengers. Detachable tonneau. Two speeds and reverse. REO disc clutch, 40 miles an hour. Full lamp equipment. Top \$75 extra.

The car that beat 60 cars of double and triple its price, at hill climbing—

The car that won more than 20 cups, medals and trophies from rugged and costlier cars—

The car that holds its class record up Mt. Washington; and that crossed Mt. Hood, and the 12,000 feet Katon Range, in New Mexico—

The car went from Denver to Boulder, Colorado, (30 miles over rough hilly roads) in 15 minutes better than the railroad schedule—

The car that carried four passengers 1,650 miles over rough roads without stoppage, motor-repairs or car repairs—

The car that won the National Economy trophy and four other prizes in the same contest; and that carried its passengers at a total cost of 30 cents per 100 miles—

The car that was penalized 30 per cent, and practically barred out of the great 2-Gallon Efficiency Contest—

The only car that ever crossed this continent and back again on its own wheels—

The \$1,250 car which does all that the average \$3,000 car does—and more than most of them—

That is the car whose merit and real economy are self-evident. That is the car which you cannot afford to overlook. Write for the book that tells why.

Mayor Winter Opposes Any Experiment With U. S. Standard Machines.

The aldermen were yesterday officially notified by Recorder W. H. Mitchell that Mayor J. H. Winter had vetoed the resolution passed at the regular meeting of the council last Thursday evening authorizing the free use of the U. S. Standard voting machines in the April election. At the council meeting Mayor Winter expressed himself as favoring the purchase of the Abbott machines, which had been successfully used in the November election. He said yesterday that he had two reasons for favoring the Abbott machines. For one thing they cost nearly 100 per cent less than the U. S. Standard machine, also he finds much sentiment among the voters against the use of the U. S. Standard in the coming spring, as they are more complicated than the Abbott. Many of the voters express doubt of being able to learn how to manipulate them prior to the election. Some have told the mayor that they thought complications would surely arise if U. S. Standard machines are used on such short notice. As a great many of the voters have made up their minds that the Abbott machines are preferable to any other, the mayor believes that they would be indifferent and perhaps hostile to the use of the U. S. Standard machine. It is necessary for them to vote properly with the U. S. Standard machines.

Organization Will Hold Important Session—Annual Election.

The annual meeting of the Negaunee fire department will be held this evening at 8:30 o'clock. Considerable important business, including the election of officers and the appointing of committees for the department's annual ball, to be held Easter Monday at McDonald's opera house, will be transacted. So far as The Mining Journal can learn the present officers will be re-elected without opposition. Chief Julius Johnson has made an excellent officer, and the members of the department are practically unanimous in favor of his re-election. Mr. Johnson is said to have been as considerate of the interests of one company as the other. Some of the former chiefs were accused of being partial to the company in which they held membership. Dr. B. J. Keller is the treasurer of the department and O. J. Lacombe is secretary. Arrangements for the department's ball have practically been completed. The reception of deciding where the supper shall be served. The Negaunee orchestra has been engaged, tickets have been issued and are now being offered for sale by the members. Among the committees to be named tonight will be the floor and reception committee, also the door keepers and ticket sellers. The arrangement committee, composed of the officers of the organization, was appointed some time ago.

TO BOWL TONIGHT.

Green Sox and Ravens Rivals for Second Place, Will Meet.

The members of the several teams participating in the bowling league contests are manifesting much interest in the match between the Green Sox and Ravens this evening at Orr & Tompkins' alleys. The Wolves have finished their series and are now safe in first place. Saturday evening the members of the Wolves team bowled to settle who should have the league prize, a handsome shaving set, William Koski, winning. The Green Sox and the Owls bowled last evening and tomorrow evening the Stars and Eagles will meet. Thursday evening Negaunee will complete and Friday evening the match between the Green Sox and Ravens will be completed. The Wolves will bowl. William Mitchell was the winner of the gold job offered as a prize by Mr. Perkins.

WILL RESIDE IN FOURTH.

Captain Joseph Hodgson of Ishpeming, who recently accepted the position of assistant superintendent of the Mary Charlotte mine, and who will assume the duties of his new position a week from tomorrow, the 20th, expects to soon move his family to Negaunee. They will probably occupy a dwelling owned by Fred Pearce on East Main street. Captain Hodgson's ability as a politician is well known here, and it is now being freely predicted that when he gets located in the Fourth ward he will make his influence felt. The opposing political factions have been very evenly divided in the Fourth and it is always a question as to which set of candidates will win. Captain Hodgson has been a member of the board of supervisors, as representative from the Second ward, Ishpeming, for a number of years past, but he plans to resign as soon as he moves his family to this city.

TEMPERANCE ADVOCATES OUT.

Some of the temperance advocates of Negaunee and Ishpeming were busy in this city Sunday afternoon and evening. It is said that some of their number looked into a number of places on Iron street, and thought might be unlocked were tried. It was rumored yesterday that some evidence of violations of the liquor law was obtained, and that arrests are very liable to be made.

SAVED HER SON'S LIFE.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppeck. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work, and is now a well-to-do man. I am glad to say that Dr. King's New Discovery saved his life." Guaranteed best cough and cold remedy by The Stafford Drug Co., 50c and \$1. Trial Bottle free.

SKYSCRAPERS TO OUTLAST PYRAMIDS.

Since the announcement that fifteen new skyscrapers are to be constructed in New York City at a cost of \$40,000,000, the question has been asked, "How long will a modern skyscraper last?" Engineers and scientists point out that unless some unknown danger arises they will stand as solid and enduring as the Pyramids. This question has also been asked in the past. "What can I do to regain my health," and the answer has been proven hundreds and hundreds of times. "Use Hostetter's Stomach Bitters." During the past 53 years it has made an unequalled record of cures of such ailments as poor appetite, indigestion, headache, bloating, heartburn, flatulency, costiveness, dyspepsia, indigestion, liver troubles, colds, grippe or malarial fever. Try a bottle today. The genuine has our Private Stamp over neck.

No Change Necessary In Rexall Remedies

The new Pure Food Law requires every patent medicine manufacturer to tell just what dangerous drug is in his medicine. Certain periodicals interested in patent medicine reform have declared that the formulas of many patent medicines will have to be changed before the manufacturers will dare conform with this law. These periodicals also declare that the public will never know of these changes, and never know what these remedies formerly contained.

This suspicion, however, cannot rest upon Rexall Remedies. You have absolute proof that Rexall Remedies have not been changed to conform with the new Pure Food Law, because you know the formulas of these remedies four years ago! The Rexall formulas were never secret. The thousand Rexall druggists have always known all the Rexall formulas and given them to every customer who asked for them.

No one Rexall Remedy was ever claimed to be a "cure-all"—each of the 300 remedies is designed to cure a certain human ailment—and does it. These 300 remedies were selected from among thousands because they were the most reliable and successful cures in the world. Far from wishing to conceal the formulas of these remedies, we are proud to tell just what they are, and always have been.

That's where the Rexall plan goes further to safeguard you than does the Pure Food Law. Even now you'll only know the dangerous drugs in other patent medicines, while you have always been able to know the complete formulas of Rexall Remedies!

The Rexall guarantee has been the greatest evidence of the sincerity back of the Rexall Remedies. For four years Rexall druggists have offered to return the money to any one who brought back an empty Rexall bottle or package and said they were not satisfied.

We, as one of the Rexall druggists, feel a genuine satisfaction in having been able to supply this community for four years with one line of medicines which the United States Government by its new Pure Food Law shows were always made right and sold right, and have deserved every bit of the faith you have had in them.

The Pure Food Law may necessitate changes in other patent medicines, but it only endorses Rexall Remedies.

THE STAFFORD DRUG CO., Druggists

The Rexall Store

LOCAL LACONICS.

Mrs. J. B. Maas has been critically ill the past few days. Mrs. Albert Maas of Ann Arbor is in the city visiting relatives. A daughter was born Sunday to Mr. and Mrs. Harry Trembath. Miss Suess of Milwaukee is here visiting her sister, Mrs. George J. Maas. Harry Freeze, business manager of the Frank Tucker Stock company, is in the city. The employees of the Marquette County Gas & Electric company were paid Saturday. John Siegel of Marquette visited his father-in-law, Ed. Labeau, in Negaunee Sunday. Anthony Broad and wife of Crystal Falls, former residents, are visiting relatives in the city. The members of the Bridge Whist club were entertained last evening at the home of Thomas M. Wells. Mrs. Patrick Manning and two children are here from Crystal Falls on a visit to her mother, Mrs. Dominick Disotte. Frank Hosang, who attended the funeral of his sister, the late Mrs. Ferdinand Winter, in this city Saturday, has returned to his home at Dollar Bay. Special street car service will be given Thursday evening for the accommodation of Negaunee people attending the production of "The Royal Chef" at Ishpeming theatre. The curtain will ring up at 8:15 sharp. Some of the superfluous snow has been removed from Iron street the past few days. More will be taken away before Saturday, when the dog rakes place. The snow is from three to four feet deep in places. GAS AND ITS CENTENARY. Gas as a practical illuminant passed its century mark on Jan. 28, that day in 1807 there was in London "a new and singular spectacle," according to the account of a visitor, "the whole range of Pall Mall, from St. James' to Cooks-park street, was lighted up by means of lamps filled with gas instead of cotton and oil, and certainly in a style of much superior brilliancy." This was the first instance of street lighting by coal gas in London or in any other city. The merit of the enterprise is due to Winsor, a German company-promoting expert who was specially interested in the question of economic fuel. His pamphlets however, contained so much extravagant fanaticism and quackery that they retarded rather than furthered his schemes, which met with an extraordinary amount of opposition even from enlightened people. Sir Walter Scott wrote that there was a madman proposing to light London with smoke. Awful consequences were predicted. The gas would poison the air and blow up the inhabitants; it was expensive, dangerous, offensive, and unmanageable; the pipes conveying it would be hot and apt to produce conflagrations. The lamp-lighters to a man opposed the new mode of street lighting, and it is curious to notice the great hesitation as to its possibility expressed in contemporary scientific and popular literature. When a chartered company was at length formed in 1810, the shareholders were pitted as idiots, and David Pollock, for thirty years its governor, received some extraordinary answers in doggerel rhyme from otherwise sober and staid individuals whom he had asked to take shares.—Chicago News.

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

Advertisement for ARBUCKLES' ARIOSA COFFEE. Includes an illustration of a man roasting coffee beans and a testimonial: "Our food was good—meat, fish, fresh bread, etc., but nothing seemed to warm and strengthen us as much as a cup of ARIOSA Coffee, which we kept in the original package and ground as needed." "Talk about 'roasted fresh daily,' the way to get a cup of coffee that tastes like coffee, with all the delicious flavor and aroma intact, is to buy Arbuckles' ARIOSA and grind it as you want to use it. Warning: it is a little different the flavor and... THEY DRANK ARBUCKLES DEEP AND OFTEN, AND IT MADE THEM GREAT... makes the grinding coarse. Coffee loses its identity as coffee after being ground or when exposed to the air. Never buy loose coffee out of a bag, bin or tin. If it were good the roaster would not be ashamed to sell it in a package with his name on it. The sale of Arbuckles' ARIOSA exceeds that of all the other packaged coffees combined. It is the best coffee for you, and costs you less. If your grocer won't supply, write to ARBUCKLE BROS., New York City.

NEW BOARDS ARE APPOINTED

WARM FIGHT ON CONFIRMATION OF MAYOR CULVER'S APPOINTMENTS FOR COMMISSIONS.

TWO ALDERMEN RESIGN

Resignation of Nelson Cadarette and M. W. Shea Accepted by Council—New Boards of Registration Are Named.

Police Commission—Joseph Fay, five years; George D. Mearns, four years; Henry Hallam, three years; Herman Bittner, two years; J. A. Mahlot, one year.

Park, Cemetery and Street Commission—Michael W. Shea, five years; Nelson Cadarette, four years; Michael H. Ford, three years; Alfred E. Archambeau, two years; Peter White, one year.

After one of the warmest fights ever developed at a meeting of the city council of Marquette, the above appointments of Mayor Culver for the two new boards created by the recently enacted legislation revising the city charter, were confirmed. The confirmation was only secured after the friends of the movement had exerted themselves to the utmost and had brought every means at hand into full play. Twice a motion to suspend the rules and act on the appointments was lost, failing a two-thirds majority of the council. A resolution was adopted naming Francis M. Moore, Joseph Fay and Lester Clark election commissioners for the coming election.

New Registration Boards. Attorney Hill then brought up the matter of registration. He said, on account of the changes in the wards, council action would be necessary. He suggested that it would be well for the council to call a meeting of the different boards of registration some time this week, at which arrangements could be made for having the rolls rewritten. He said that as the present aldermen do not represent the new wards, the appointment of new boards of registration would be necessary. A recess of five minutes was taken after which a motion was adopted naming the following boards of registration in the several wards: First ward, Edward J. McCarthy, Thomas L. McCarthy; Second ward, Edward J. Corbett, Peter J. Donovan; Third ward, Frank J. Jenks, Mervin E. Asier; Fourth ward, Harry L. Siegel, Ernest H. Bush; Fifth ward, Emil Gustafson, Alex. B. Campbell. The boards of registration will meet at the city hall tomorrow night and arrange for the rewriting of the rolls, the recorder being authorized to engage two clerks to do the work.

The resignation of Alderman Cadarette was taken from the table and accepted. Michael W. Shea tendered his resignation to the council and that also was accepted.

The appointment and confirmation of the members of the police and park, cemetery and street commissions last night, is the last step in the revision of the charter and removes the possibility of the appointments becoming an issue at the coming spring election. The appointments are given ten days in which to qualify for the office and their appointment becomes effective as soon as they go through the formality.

Mayor Culver reported that the members of the water board had decided to submit the question of a bond issue to the voters at the regular election April 1 instead of at a special election as originally intended.

The resignation of Nelson Cadarette as a member of the council was then read and on motion of Alderman Ball was laid on the table.

A petition signed by the eight supervisors of the city was presented, in which the opinion was expressed that the city would be represented just as well on the county board by five as by eight men. The supervisors requested that the charter be again revised so as to abolish the office of supervisors at large, as established in the recent legislation, and that one supervisor be elected from each ward. The petition was referred to the city attorney with instructions to prepare a bill embodying the suggestions of the supervisors, and forward it to Lansing for introduction into the legislature.

The United States Standard Voting Machine company petitioned the council to give its machines a trial at the regular spring election. The representative of the company stated in his communication that the trial at the proposed special election, at which but one question would be voted upon, would not be a fair test for the machines, and asked that two United States Standard machines be used at the regular spring election, with three Abbott machines. The petition was referred to the committee on purchases.

The special committee on publishing the city's annual report reported and recommended that the work be given to The Mining Journal company. A motion to that effect carried.

Alderman Siegel presented a resolution rescinding the resolution passed Feb. 18 fixing the places of registration and election in the eight wards, the substitute resolution designating the places of registration and election as follows:

- First Ward—Lake Superior Carriage works, Clamout street.
- Second Ward—City market building, Baraga avenue.
- Third Ward—Hodgkins' livery office, Pine street.
- Fourth Ward—City hall, Washington street.
- Fifth Ward—Building at 825 North Third street.

Motion Is Again Lost. Mayor Culver stated that the water board would probably have a communication to make to the council in regard to voting on bonds and a ten-minute recess was taken.

During the recess, Alderman Cadarette and Jenks put in their appearance. On the council reconvening, Mayor Culver announced that he would substitute the name of Nelson Cadarette for that of Harry L. Siegel in his appointments for the park, cemetery and street commission. Alderman Siegel then moved that the rules be suspended and the council proceed to consideration of the appointments. On the roll call, Alderman Reichel voted in the negative and Alderman Cadarette refused to vote, the motion again going down in defeat. The announcement of the result was greeted

by a round of applause from the gallery. Alderman Shea moved that when adjournment be taken it be to the evening of Wednesday, March 13, at 8 o'clock, and the motion carried. Another recess of ten minutes was taken.

SMITH VICTORIOUS IN MUNISING ELECTION

WAS MOST EXCITING IN HISTORY OF VILLAGE—WINNER'S MAJORITY BUT NINE IN VOTE OF 600.

Advises received by The Mining Journal from Munising last evening indicated the success of most of the Smith ticket in the village election yesterday. Smith won over Burns, the incumbent, for village president by a majority of nine votes, polling 293 to 284 for Burns. Larson, candidate for clerk on the Smith ticket, won over a rival candidate running on slips by about 100 votes. Detailed advice on the other offices could not be had, but it was said that most, if not all, of the candidates on the Smith ticket pulled through by scant majorities.

The election, which followed fruitless attempts to harmonize the factions at Munising, was the hottest and most fiercely contested ever held in Munising. Smith and Burns went into a caucus a week ago last Saturday night, agreeing that the candidate defeated should not head an opposition ticket. The caucus was large and closely fought, the Smith forces winning. Another ticket, headed by Burns, was trotted out in a few days, irregularities at the first caucus being charged.

The election yesterday showed that much heat had developed. The vote polled was the largest ever gotten out at Munising, running about 600. The contest was punctuated by challenges, there being some fifty of those during the day, and it is reported that many men who came in from the woods were not permitted to vote. The balloting was at times attended by disorderly scenes, and the election as a whole was punctuated with fights. There was considerable drunkenness. Rigs were pressed into service by the rival candidates, and no one had to walk to the polls. It is reported that \$1,000 or more was spent on the campaign. There was much betting yesterday, one Smith man covering a wager of \$100.

The ball was started off in a lively manner the first thing in the morning, at the opening of the polls, by virtue of his position Mr. Burns presided as chairman at the proceedings at which the election board was named. R. R. Stewart was named as the Burns man on the board; G. S. Collins to represent the Smith faction. A viva voce vote of the electors present was taken to determine which of these men should serve. The result Mr. Burns held to be in favor of Stewart. There was a roar from the Smith men, and a division of the house was demanded. It is said that this showed the pronounced lack of strength to the voters with the Smith men. However, Mr. Burns again declared the election of Stewart. Again there was an uproar, the Smith men demanding a ballot. This was agreed to, and the Smith men left the polling place. Those inside locked the door and refused admittance to the Smith men. The broke in the door. At this stage the sheriff took a hand in the proceedings, and Mr. Burns, ruling stood, Stewart serving on the board. During this incident excitement ran high. It was the most exciting event of the day. As a result of the row the polls did not open until about 8:30 a. m.

APPOINTMENTS ARE MADE.

Masters and Engineers Being Named by Boat Owners. It will not be long now until the masters and engineers of the different boats will be reporting to fit out their craft for the season. As the time for opening navigation approaches, appointments are being announced, and last week brought out a long list. The following boats visit Marquette occasionally during the summer, and the masters and engineers named for them are given:

Anchor Line, Erie & Western Transportation Co., Buffalo, Junata, Captain Edward Martin, Engineer William Wilson; Tomesta, Captain John Doherty, Engineer John Wise; Japan, Captain H. Cronkhite, Engineer E. Stevenson; Delaware, Captain H. O. Miller, Engineer John Jordan; Mimcy, Captain Angus McKenzie, Engineer F. Reibahn; Colorado, Captain L. Wright, Engineer Tim Griffin; Mahoning, Captain Geo. J. Delaney, Engineer W. A. Black; Schuyler, Captain Joseph Corcoran, Engineer W. Garrity; Susquehanna, Captain Charles Nelson, Engineer Al Edgar; Lehigh, Captain Frank Bloom, Engineer John Healy; Clarion, Captain M. Boggan, Engineer Al Welch; Alaska, Captain J. J. Lohan, Engineer William Erskine; Wissahickon (building), Captain Charles Christy, Engineer not appointed; W. H. Becker, Cleveland, E. L. Robbins, Captain C. M. Ennes, Engineer Charles V. Culver; James Laughlin, Captain Geo. A. Symes, Engineer William Millington; W. G. Pollock, Captain H. G. Haybarger, Engineer Edward Reilly; J. M. Rhodes, Captain Thomas G. Simmons, Engineer James Norton; E. L. Robbins, Captain not named, Engineer James Connors; Francis Widlar, Captain Henry Hinsdale, Engineer George Allen; Edward W. Ohl, Captain F. B. Chilson, Engineer John Quinn.

Calumet Transportation Company—George A. Flagg, Captain A. McArthur, Engineer William Newcombe; R. S. Warner, Captain V. L. Horner, Engineer August Romzek; schooner S. D. Warriner, Captain George A. Brock; schooner A. W. Thompson, Captain F. C. Hart; E. D. Carter, Erie, Pa.—J. H. Bartow, Captain A. E. White, Engineer William Taylor; E. D. Carter, Captain C. H. Wilson, Engineer W. J. Kelley; Panay, Captain C. H. Wilson, Jr., Engineer John Stevens; Lazon, Captain W. W. Williams, Engineer H. E. L'Hoste; Franklin Transportation Co., Cleveland—William F. Fitch, Captain B. W. Landfaer, Engineer William Miller; schooner A. Maitland, Captain William Langell.

It flows like fire through your veins; it does the work; if you're wasting away day by day, take Hoffister's Rocky Mountain Tea. 35 cents, Tea or Tablets. The Stafford Drug Co. (3-12-14)

LUMBER. If you are thinking about building, now is the time to get prices. We furnish everything from the rough stuff to the finest interior. Consolidated Lumber Co. (2-1-14)

Any old price goes this week at Harris' auction sale. Last week. (3-12-24)

ROBBER WANTED. To work in The Mining Journal office. Apply at once. (3-12-24)

CONFERENCE BETWEEN OFFICIALS AND TRAINMEN RESULTS IN NO AGREEMENT YESTERDAY—WILL MEET AGAIN. Yesterday it was announced by the officials of the D. S. S. & A. railroad that the company has increased wages of engineers of the road by an amount equal to that decided upon by the representatives of the railroad and the engineers at a meeting held in Chicago recently. The South Shore was not represented, but President Fitch said yesterday afternoon that there was an agreement with the engineers of the road to the effect that if the increase granted by the Chicago conference was reasonable the South Shore would grant a like increase. The amount of the increase varies, but it is said to be close to ten per cent for all classes of engineers. About one hundred men on the South Shore and twenty-five on the Mineral Range branch are affected. The arrangement is retroactive to February 1, and the pay the engineers receive at the payday this month will be computed on the new scale.

The wage question between the South Shore and the conductors and trainmen has not yet been settled. The first conference between the officials of the road and representatives of the men was held yesterday morning in President Fitch's office. There was a several hours discussion but little headway was made. The conference will be resumed Thursday morning. The terms of the trainmen's requests have not been made public, but it is reported that they call for such a marked increase in the wage scale that the officials will not grant them. As the officials of the road have repeatedly expressed their willingness to increase the wages of the men an amount which they consider reasonable it is expected the conference will have an amicable ending.

SOCIAL HOP. Given by the Ladies' Auxiliary of the L. U. S. C. at Fraternity Hall, Monday evening, April 8th. Card playing at 8:50; dancing at 10:50. Tickets, 25 cents; supper, 15 cents. (3-12-14)

ST. PATRICK'S DAY. Committee Preparing Program for Concert Saturday Night.

The committee of Division No. 4, A. O. U. L., which has in charge the preparations for the observance of St. Patrick's Day is now at work on the details, and the program will be completed in a few days. The observance will take the form of a lecture and musical program at Baraga auditorium on the evening of Saturday next. Sunday morning at 9 o'clock the members of Division No. 4 will attend high mass at the cathedral, in a body.

Rev. Hugh Floyd of Eveleth, Minn., will be the speaker at the Baraga auditorium Saturday night. Father Floyd, who is parish priest in the Minnesota town, has a widespread reputation in Minnesota as an orator. He is described as being a deep thinker of broad views, who keeps well up in current events and is qualified to speak intelligently on any subject. His topic for Saturday night has not yet been announced, but he will undoubtedly take a broad theme suited to the occasion.

Besides Father Floyd's address there will be several vocal and musical numbers in the program. Sweet's orchestra will furnish music for the occasion.

BAY CITY MAN TO OPEN GARAGE HERE

F. H. FENNER TO ENTER AUTOMOBILE BUSINESS IN MARQUETTE ON LARGE SCALE THIS COMING SEASON.

F. H. Fenner left yesterday for Bay City after a few days' visit with his brother, J. H. Fenner, Marquette manager of the Consolidated Fuel & Lumber company. Mr. Fenner has practically decided to open an automobile garage here and he will return in a few days to complete the arrangements. Mr. Fenner is the proprietor of a garage in Bay City, where he has been in the business for the past seven or eight years. He will conduct the Marquette establishment in addition to his Bay City business and will divide his time between the two cities. An experienced automobile operator and machinist will be placed in charge of the Marquette garage and Mr. Fenner will give his attention in the way of supervision. A location for the enterprise has been practically decided upon, but the deal has not yet been closed and the proposed location has, consequently, not been made public. Mr. Fenner says, however, it is centrally located, a building suitable for the business being already on the ground. It is understood that should the venture be successful, a building will be erected at a later date.

Marquette automobile owners will welcome the establishment of a garage here, as relieving them of the necessity of personally taking care of their machines. The garage will take care of the machines, storing them when not in use, keeping them in condition, relieving the owner of all these duties. It is also probable that Mr. Fenner will have a few machines on hand for rental purposes and, should he do so, there is little doubt that they would be called upon frequently.

Marquette will be Mr. Fenner's headquarters for his upper peninsula agency. He holds the commission to represent the Ford, Jackson and Winton cars in this entire territory and will work from this city. During his short stay here, Mr. Fenner succeeded in interesting a number of local people in the cars, which he is representing, and he has a number of prospective buyers in view. Among them are reported to be Austin Farrell and J. E. Ball.

On his return to Marquette, Mr. Fenner will lose no time in getting his establishment in condition and it is expected that by the time the snow has all disappeared in the spring, the garage will be open and ready for business.

Last week of the Harris auction sale. (3-12-24)

THIS IS WORTH REMEMBERING. We do all kinds of upholstering, and always carry a full line of samples of furniture coverings of the latest patterns and do all kinds of furniture repairing; also renovate hair mattresses, and make them as good as new. We make and hang Window Shades, we make Picture Frames, we sell Cedarwood Furniture and Carpets, and we sell the best Carpet Cleaning Soap on earth. We sell Carpets, Rugs and Portieres, and as good Furniture as is made in this country, at a reasonable price. Last but not least we are manufacturers' agents, and can sell you as cheaply as any furniture house in Chicago, Grand Rapids or Detroit, assuming all risk of breakage and placing the goods in your home. When in need of anything in our line give us a call. HAGER BROS. CO., LTD. (3-7-14) 118 South Front St.

REPUBLIC IRON COMPANY. The annual meeting of stockholders of Republic Iron company will be held at the office of the company, Arcade building, S. E. corner 15th and Market streets, Philadelphia, Pa., on Wednesday, March 20th, 1907, at 12 o'clock M., when an election will be held for directors to serve for the ensuing year, and for the transaction of such other business as may lawfully come before the meeting. D. BREWER GEHLY, Secretary. (3-6-20)

"Preventics" will promptly check a cold or the Grippe when taken early at the "sneeze stage." Preventics cure seated colds as well. Preventics are the candy coat cure for colds, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early Colds with Preventics and stop Pneumonia. Sold in 5c and 25c boxes by The Stafford Drug Co. (3-12-24)

In a Proven District

SUNSET MINING AND MILLING CO.

OF WILCOX, ARIZONA.

This company owns ten claims, or about 200 acres of mineral lands in Cochise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000.

The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona. Samples of ore from this mine which have been assayed at the Michigan College of Mines by Professor L. S. Austin have shown an ore value of \$134.14 per ton of copper and silver.

The Board of Directors consists of some of the most prominent and substantial business and professional men in the state of Michigan whose very names are a guaranty as to the reliability of the company, and whose standing may easily be ascertained in any bank through the reports of Dunn or Bradstreet.

The developing work has now progressed to such an extent that the Board of Directors has decided to erect their own smelter and for the purpose of building this smelter and making some other necessary improvements a limited amount of stock will be sold. The first allotment of this stock is now offered to the public at 75 cents per share. No less than 50 shares sold. At least one-half of the amount must accompany all orders, the balance may be paid in two equal monthly installments. Five per cent discount will be allowed for cash within 30 days. Make all orders payable to:

O. E. PETERSON
