RAILROAD HEAD AT WHITE HOUSE

Charles S. Mellen of the New York, New Haven & Hartford System Holds a Conference With the Nation's Executive.

Interstate Commissioner Lane and Attorney General Bonaparte Also Are Callers on the Same Mission-Diligent Study Is Being Given by the President to the Issues Involved, and in Due Time He Will Make Known What Legislation He Will Ask.

Washington, March 19.—An interview between President Roosevelt and Charles S. Mellen, president of the New York New Haven & Hartford railroad, for the purpose of discussing the railroad situation took place at the White House today, and lasted about thirty-five min-

No statement of the particular ques discussed was made at the White House, and Mr. Mellen declined to talk. To all question bearing on the coneference he referred his inquirers to Secretary Loeb, adding that anything he might say might be construed as having a bearing on the present situation. Following the departure of Mr. Mellen, Interstate Commerce Commissioner Lane came to the White House and held a talk with the president about railroad matters. Attorney General Bonaparte also conferred with the president.

Generally there has been but lit-

the approach to unanimity in these recommendations The president has referred his callers who want information as to his attitude to his public declarations on this general subject, and has told them that he means to be consistent with what he has already said. The president says frankly that he is learning all he can regarding the railroad situation, and that he intends to continue to consult with railroad people and others on the

subject. It is understood that Mr. Roosevelt is making inquiries on some points pertaining to federal supervision and control of the railreads or the question of the appraisement of the physical valuation of such properties and to matters of the issues of various forms of indebtedness. As to the last named he regards it as perfectly proper, and he sees no objection to the proper issue of obligations for equipment, terminals and betterments, but he thinks there should be careful scrutiny to see that stocks or

bonds are issued for such purposes. Seeks All Information Available.

The president has not reached a final determination as to whether he will make any recommendations to congress for legislation on any of these matters. His position is that he is simply pursuing diligently a study of these questions and obtaining all information available before acting. The president has made it plain to his

callers that he cannot be expected to outline his policy in informal talks with them, and that inferences as to his attitude must not be drawn from what he says in these casual talks. When he has made up his mind and is ready to tell the public just what his attitude is on particular questions, and specifically, on railroad issues, he will do so in a INDICTMENT OF BRIBE GIVERS BY speech or in a message to congress. Some expressions from him are expected on the railroad question during the next few months. The president is scheduled to make four speeches between now and the middle of June, and it is expected that he will have something to say on the railroad question in one of these speeches.

RUMORED ULTIMATUM

Boiler Makers Said to Have Threatened Strike on Harriman Railroads.

C'eveland, O., March 19 .- According to reports a secret meeting of the executive of Boilmakers & Iron Shipbuilders wa held in this city today, and as a result, it is said, a strike probably will be ordered within forty-eight hours on all the railroads controlled by E. H. Harriman and his associates. Harriman, it is said, has been given forty-eight hours to agree to the demands made on the Alton road by the federation.

New York, March 19 .- As far as could be learned in this city tonight, no formal demand had been made by the boiler makers of the Alton upon the executive officers of that road. E. H. Harriman said that he had before "heard nothing about it." He would not comment on the situation.

Chicago, March 19.—The rumors of strike of the boiler makers on the Harri man lines probably grow out of the strike of boiler makers in the shops o the Alton railroad at Bloomington, Ills This strike occurred six week ago, and it is said that the places of the strikers have been filled. The management re fused to reinstate the strikers, and threat was made to call out all the other men on the Harriman systems.

TRAINMEN REJECT

BIG STRIKE THREATENS WESTERN LINES UNLESS FURTHER CON-CESSIONS ARE OFFERED.

Chicago, March 19.—The trainmen and conductors on all the railroad lines west of Chicago have rejected the recent offer of the general managers of the systems for an increase of wages. The official canvass of the referendum vote, which had been in progress for a fortnight, will begin tomorrow. It is stated fur-ther that the trainmen have voted to strike if their demands are not granted. Unless the railroad managers offer further concessions, a strike of 50,000 men is likely. Another conference between

The managers have already offered to submit the entire controversy to arbitration, but it is stated that this proposition has also been rejected by the vot-ing members of the union. It was exfers of the railroad managers would carry with it a strike vote. As the mat ter now stands the strike vote has been carried, but no order to quit will be issued until further efforts to reach an adjustment have been made.

A reaction followed quickly, in which STRIKES WITH TERRIFIC FORCE part of the early losses were made up but the market continued weak and al ternate periods of decline and reaction followed during the rest of the day Alarming reports as to the stability of two unnamed commission houses contributed largely to this condition, and the prices were extremely irregular, some active stocks showing pronounced gains while at the same moment others

were recording sharp losses. announcement of failures was a gratifying event, and this, with an active covering movement, restored confidence somewhat. There was a violent rebound in the last hour, when many active stocks regained their opening level. At the close, however, there was a very sharp recession from this rally, although from the lowest levels the prices generally showed substantial recoveries.

Weakness and Uneasiness Acute.

Today's nervous stock market was re garded as a natural consequence of the emoralization of last week, but the veakness and uneasiness were much nore acute than were expected and gave rise to fears at times that the market was breaking away from control again and was slipping back into frenied conditions.

There are always some strongly held ecounts which are held through a slump like that of last week and protected in a spirit of assurance that they an be closed out to better advantage by waiting for the frightened selling of weaker holders to be ended. Such reaction as that of yesterday, following the reduction of the uncovered short account, adds to the weakness of held-over bull accounts and to the urgency for closing them out. The selling during the first hour today aroused suspicion toat very arge accounts of this kind were being forced to liquidation, without regard to the ability of the market to absorb heavy offerings.

### HANCOCK PAVING.

Council Will Meet March 25 to Open Contractors' Bids.

The Hancock city council will hold special meeting March 25 for the purpose of opening and considering the ten-ders of contractors for the pavement of for some time. It was the intention of terday conferring with W. D. Calverley the council to open the bids at a meet- of the board. They returned yesterday and after giving the husband and wife ing held Monday night, but as only two afternoon. The question of the municipal electric lighting plant was foremost at Monday night's meeting. Mayor Scott reported that he had investigated the matter and helieved it would cost \$25,000 to ported that he had investigated the matter and believed it would cost \$25,000 to establish a plant with a capacity of sixty are lamps. Alderman Ryan said that

that the plant could be started for \$9,-000. He did not submit the figures. Alderman Ryan also wanted to subnit the question of a municipal plant to the people at the election to be held the Houghton office since its establish. April 1. Mayor Scott and several of the aldermen believed this inadvisable. as the council has not sufficient information at hand to properly inform the vo-ters of the merits of the question. The issue would have to be submitted as an authority for bonding in a stated sum, and as the council has not as yet actual figures on the cost the voters could not

decide the question legally. But Alderman Ryan insisted on having his resolution voted on, and when the vote was taken the proposition had failed to pass. The council then dropped he matter without any definite action, though with a tacit understanding that the question will be submitted to the people later on at a special election, and in the meantime City Attorney Finnegan will bring the matter through the varius necessary legal phases.

The Houghton council held a special neeting Monday night and decided to purchase a lot for \$500 to add to the rounds about the water works reser-

OF WILCOX, ARIZONA.

This company owns ten claims, or about 200 acres of mineral lands in Cochise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000. The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona. Samples of ore from this mine which have been assayed at the Michigan College of Mines by Professor L. S. Austin have shown an ore value of \$134.14 per ton of copper and silver.

The Board of Directors consists of some of the most prominent and substantial business and professional men in the state of Michigan whose very names are a guaranty as to the reliability of the company, and whose standing may easily be ascertained in any bank through the reports of Dunn or Bradstreet.

The developing work has now progressed to such an extent that the Board of Directors has decided to erect their own smelter and for the purpose of building this smelter and making some other necessary improvements a limited amount of stock will be sold. The first allotment of this stock is now offered to the public at 75 cents per share. No less than 50 shares sold. At least one-half of the amount must accompany all orders, the balance may be paid in two equal monthly installments. Five per cent discount will be allowed for cash within 30 days. In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, ose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition, it cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

## Banking by Mail **BEGIN TO SAVE NOW**

Three important questions must be answered when you think of starting a bank account, especially if it be a savings account into which you put your hard earned dollars.

#### When? Where?

WHEN? The time to start is now-perhaps you think you only have a little money and it isn't worth while—that is a mistake. One dollar starts an account and once started it

WHERE? Naturally you want your money to be absolutely safe-then select this bank-its strength and continued growth proves that it has the confidence of the people.

HOW? Write to us for a copy of our Booklet, "Banking by Mail"-it tells you HOW in a few words and you'll be surprised how easily you can bank your savings even though you live out of town.

Logan & Bryan telegraphed from New York yesterday as follows: "The market is closing at quite substantial recovery from the low point today. The closing prices in places show quite a less from yesterday's final fig-ures. The tone all through today was neryous, but, barring some unsettling in-fluences, we think stocks should be and the general prosperity of the city. The above bought on the pronounced reactions,"

# Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California-Cascara Sagrada-offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible wer to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Billousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and

"For myself, I do not see why it should be up to the agricultural society to bear the full expense of fitting out and transporting this car. There are others who would be benefitted by the advertising as well as the members of the association. Take the land companies, for instance. They have lands for sale and are advertising them by pamphlets and in different publications. What better advertising could they ask than that, which this car would give them? Suppose each land company in the upper peninsula would put up a sum of money, say \$100. The car would be stocked with exhibits of choice products from the farms of the upper peninsula and it would be sent out in charge of a crew of men. Visiting the State fair at Detroit, different country fairs, the Wisconsin state fair, if the finances would allow, and possibly one or two others on a regular circuit, the farmers and residents of other sections would be brought face to face with the agricultur al possibilities of the upper peninsula. "We all know what these possibilities

are, for we have abundant evidence of them in the crops each year. But people in other parts of Michigan and the surrounding states think that the upper peninsula is a barren region, of rocks and thick woods, good for nothing but lumbering and mining. If they could be brought to realize that we can grow good products up here, I have no doubt that the fertile lands of this peninsula would be cultivated far more extensively

than they are at present. "It is to the interest of these land companies, of the business interests of the upper peninsula, in general, in fact, to have this advertisement of our agricultural resources made, and if they will contribute a small sum for the project it certainly will be made, as we are willing to take hold, if the financial end were taken care of. That is one reason why I included in my motion the provision
