

STRIKE DANGER REVIVES AGAIN

Looks Now as if There Will Be a Walkout of the Forty-Five Thousand Trainmen of the Railroads of the West.

Four-Hour Conference With General Managers Is Without Result, and Representatives of the Brotherhoods Will Meet Today to Consider the Advisability of Calling Out the Men—Peace Is Possible, They Say, Only by Offer of Satisfactory Concessions.

Chicago, March 27.—The 45,000 trainmen of the Western railroads seem nearer a strike tonight than at any time since the negotiations were begun, two months ago, with the general managers for an increase in wages and a shorter work day.

The conference today between the representatives of the men and the railroad officials lasted four hours, but was without final result. Immediately after the conference broke the representatives of the men got together to consider the advisability of calling a strike in order to bring the railroads to terms. Just what decision was reached is not known tonight, as the union men declined to discuss what had taken place at the meeting. They were a unit, however, in declaring that a possible settlement of the controversy can only be reached by the general managers offering concessions.

Another meeting of the union men has been scheduled for tomorrow morning, and the general belief tonight is that a strike will be called within the next forty-eight hours unless the railroad officials request another conference to try to settle the matter without resorting to a fight.

Union Chiefs Determined. P. H. Morrissey, chief of the trainmen's organization, said tonight: "We have been instructed by the men we represent to call a strike unless the offer of the roads was satisfactory to us. The vote by which this attitude was reached carried the strike proposition by a tremendous majority. We are not satisfied, and the men are not satisfied. We must continue to fight until our demands are met."

A. B. Garrison, chief of the conductors, also declared that further conference would be held with the general managers.

Railroad Officials Hopeful. The railroad officials are not quite so pessimistic over the situation as are the representatives of the men. After the failure of the opposing interests to reach a settlement, and when the men were securing that a strike was inevitable, Secretary Sisson, Thompson, of the General Managers' association, said they had not given up hope as yet of a peaceful adjustment of the difficulty, but the railroads had conceded a great deal already and expressed the belief that the union officials will see their way out to accepting the general managers' proposition, and that another conference will be held.

NEW TURN TO THE SITUATION. Railroads to Demand Arbitration Under the Erdmann Law.

Chicago, Thursday, March 28.—The United States government will be asked to intervene to prevent the strike of conductors and trainmen on the Western railroads, and if the plans of the general managers do not miscarry, the whole controversy will be submitted to arbitration for settlement. Late last night the general managers gave out a statement in which they declare that they will demand arbitration under the Erdmann act, as a strike of the men would interfere with interstate commerce, the railroad officials believe they can prevent a strike by asking the government to take command of the situation.

The Erdmann act, passed in 1898, provides for the arbitration of labor difficulties, where interstate commerce is involved, by the chairman of the interstate commerce commission and the commissioner of labor.

UNION ORGANIZER REMOVED. Railway Mail Clerk's Brotherhood Promoter Loses His Position.

Los Angeles, March 27.—Hugh G. Shaugh of this city has been dismissed from the railway mail service for his part in the organization of the Brotherhood of Railway Mail Clerks. It is said A. H. Stephens, superintendent of the railway mail service on the Pacific coast says: "The action of the department in the Shaugh case indicates that the department will not tolerate the brotherhood." It is also said that C. L. Hobbs and Marcus L. Shaugh, officers of the brotherhood in San Francisco, are to be dismissed for their part in the movement.

HER CONDITION MUCH BETTER. New York, March 27.—The condition of Mrs. Charlemagne Tower, wife of the American ambassador to Germany, who is ill in the Hotel Manhattan, was much improved today.

WRESTLER SUFFERS BROKEN RIB. Lincoln, Neb., March 27.—In straight falls at catch-as-catch-can wrestling,

Oscar Wasmen of St. Louis tonight defeated Duncan A. McMillan of Seattle. McMillan had a rib broken in the first fall.

ASKS DAMAGES OF \$2,500,000. W. R. Hearst Sues the Chicago Tribune on the Ground of Libel.

Chicago, March 27.—W. R. Hearst today filed against the Tribune five suits of \$500,000 each for libel. The suits are based on five articles in the Tribune yesterday, each article being an extract from the speech delivered by Secretary Root at Utica, N. Y., Nov. 1, 1906.

GIVES \$100,000 MORE. Mrs. Russell Sage Adds to Her \$250,000 Donation to the Y. M. C. A.

New York, March 27.—At a meeting today of the international committee of the Young Men's Christian association, it was announced that Mrs. Russell Sage had added \$100,000 to her recent donation of \$250,000 for the building of a home for the committee.

SCHMITZ THREATENS SUITS FOR LIBEL

FRISCO MAYOR DENIES PUBLISHED CHARGES HE HAS GAINED \$662,000 FROM BOODLE. Washington, March 27.—A committee representing the Illinois Manufacturers' association called on the president today by appointment, and extended to him an urgent invitation to address at Springfield, Ill., at the earliest possible date, a convention of representatives of the manufacturing and mercantile interests of the Middle West.

The conference lasted over an hour, during which there was a free discussion of the railroad situation. At its conclusion, the committee gave out the following statement: "The committee submitted to the president that the present railroad financial situation was creating a feeling of timidity and apprehension to such an extent that it threatened an immediate curtailment of banking and business credit, which had been heretofore extended to the business interests of the country at times when the greatest demand for further expansion of credit prevailed for the development of the increasing needs of the manufacturing and mercantile industries of the country."

It was shown to the president that the manufacturers, in the enjoyment of their unprecedented credit, had largely extended their business in the making of purchases necessary to fill orders which require many months for their completion, and that the manufacturing and mercantile interests were apprehensive that a feeling of distrust was getting a foothold which would lead to financial curtailment and such restriction of credit as to threaten dangerous results to the great prosperity that now existed in all avenues of industry.

Urged to Make Public Address. "It was urged upon the president that very great good would come to all interests alike if he would signify his willingness to express in a public address, as soon as possible, the reasons of his creative and constructive policy. The president was informed by the committee that, though the country's prosperity was very great, it would soon become seriously impaired by the creation of uneasiness on the part of banks and investors, and that such a course of action was necessary to prevent the supply of the necessary moneys to satisfy existing wants as well as to meet the unparalleled development of the manufacturing and transportation interests of the country."

The president inquired carefully into the prevailing mercantile conditions, and expressed himself as most anxious and determined to do all in his power to protect, preserve and encourage all legitimate business interests of every kind. "At the close of the meeting the president thanked the committee for their frank statement of existing conditions and their appeal to the committee, and promised that within a few days he would determine whether his present engagements would permit him to accept the committee's invitation to make a public address, which would be as anxious to do if he possibly could."

HUGHES MAKING PROGRESS. Governor's Triumph Over the Machine Indicated at Albany.

Albany, N. Y., March 27.—After a fortnight of disheartening and discouraging reverses the situation here has changed and for the first time since his administration opened Governor Hughes has begun to make substantial progress toward the completion of his legislative program. It was in the Kelsey case, of course, that the best progress was made. A week ago the enemies of the governor had secured control of the senate judiciary committee, which was conducting this trial. By a vote of 6 to 5 they had overthrown the governor's friends and adopted a course hostile to him.

Afterward the governor regained control of the situation. Then it was that the "Old Glory" resorted to heroic measures. Senator John Raines, the man who had organized the senate against the governor and provoked the first minority declaration from the governor, burst into the Kelsey trial and roundly denounced the friends of the governor for their methods and demanded that the whole procedure of the trial be reversed.

Back of Raines was the influence of his position as leader of his party and president pro tem of the senate. For many years his Republican associates have obeyed him without dissent. When the committee retired to decide in private session what action was to be taken it was realized that the future of the governor with the legislature was to be decided. If Raines won, thereafter, not only would he lead in hostility to the governor, but he would lead a victorious opposition. But Raines did not win, instead he failed to detach a single vote from the governor's forces and his leadership was pushed aside by the Hughes senators. Henceforth he was made the leader of a minority.

Now it is less significant to examine the character of that minority. It was not a division by politics. Three Democrats and nine Republicans were present at that session, but two of the three Democrats voted with Governor Hughes. On

TRADE INTERESTS FEARFUL OF PANIC

Committee of the Illinois Manufacturers' Association Calls at White House and Has Extended Conference With the President.

Executive Is Asked to Take Action Alleviating the Feeling of Distrust, Possibly in the Form of a Public Address Reassuring to the Nation, and He Expresses Himself Anxious and Determined to Do All He Can to Foster Legitimate Business.

WASHINGTON, MARCH 27.—A committee representing the Illinois Manufacturers' association called on the president today by appointment, and extended to him an urgent invitation to address at Springfield, Ill., at the earliest possible date, a convention of representatives of the manufacturing and mercantile interests of the Middle West.

The conference lasted over an hour, during which there was a free discussion of the railroad situation. At its conclusion, the committee gave out the following statement: "The committee submitted to the president that the present railroad financial situation was creating a feeling of timidity and apprehension to such an extent that it threatened an immediate curtailment of banking and business credit, which had been heretofore extended to the business interests of the country at times when the greatest demand for further expansion of credit prevailed for the development of the increasing needs of the manufacturing and mercantile industries of the country."

It was shown to the president that the manufacturers, in the enjoyment of their unprecedented credit, had largely extended their business in the making of purchases necessary to fill orders which require many months for their completion, and that the manufacturing and mercantile interests were apprehensive that a feeling of distrust was getting a foothold which would lead to financial curtailment and such restriction of credit as to threaten dangerous results to the great prosperity that now existed in all avenues of industry.

Urged to Make Public Address. "It was urged upon the president that very great good would come to all interests alike if he would signify his willingness to express in a public address, as soon as possible, the reasons of his creative and constructive policy. The president was informed by the committee that, though the country's prosperity was very great, it would soon become seriously impaired by the creation of uneasiness on the part of banks and investors, and that such a course of action was necessary to prevent the supply of the necessary moneys to satisfy existing wants as well as to meet the unparalleled development of the manufacturing and transportation interests of the country."

The president inquired carefully into the prevailing mercantile conditions, and expressed himself as most anxious and determined to do all in his power to protect, preserve and encourage all legitimate business interests of every kind. "At the close of the meeting the president thanked the committee for their frank statement of existing conditions and their appeal to the committee, and promised that within a few days he would determine whether his present engagements would permit him to accept the committee's invitation to make a public address, which would be as anxious to do if he possibly could."

HUGHES MAKING PROGRESS. Governor's Triumph Over the Machine Indicated at Albany.

Albany, N. Y., March 27.—After a fortnight of disheartening and discouraging reverses the situation here has changed and for the first time since his administration opened Governor Hughes has begun to make substantial progress toward the completion of his legislative program. It was in the Kelsey case, of course, that the best progress was made. A week ago the enemies of the governor had secured control of the senate judiciary committee, which was conducting this trial. By a vote of 6 to 5 they had overthrown the governor's friends and adopted a course hostile to him.

Afterward the governor regained control of the situation. Then it was that the "Old Glory" resorted to heroic measures. Senator John Raines, the man who had organized the senate against the governor and provoked the first minority declaration from the governor, burst into the Kelsey trial and roundly denounced the friends of the governor for their methods and demanded that the whole procedure of the trial be reversed.

Back of Raines was the influence of his position as leader of his party and president pro tem of the senate. For many years his Republican associates have obeyed him without dissent. When the committee retired to decide in private session what action was to be taken it was realized that the future of the governor with the legislature was to be decided. If Raines won, thereafter, not only would he lead in hostility to the governor, but he would lead a victorious opposition. But Raines did not win, instead he failed to detach a single vote from the governor's forces and his leadership was pushed aside by the Hughes senators. Henceforth he was made the leader of a minority.

Now it is less significant to examine the character of that minority. It was not a division by politics. Three Democrats and nine Republicans were present at that session, but two of the three Democrats voted with Governor Hughes. On

the other hand Senator McCarren lined up with John Raines instead of being a division along party lines, it was a division along moral lines, it was a division between the friends and the enemies of reform as embodied in the Hughes idea. This Raines, McCarren and "Lou" Payne's man Smith were opposing Senator Armstrong, and Senator Page, who forced the gas investigation and secured the candidacy of Governor Hughes.

For the precise significance of this division is of the utmost importance. Yet this situation has it reverse side. These legislators, headed by John Raines, are masters of every parliamentary device. They are not, moreover, fighting from mere pique; they are fighting for political existence. If Raines ultimately fails to control a majority of the Republicans his leadership is over; if Grady and McCarren cannot hold the Democrats their ascendancy is over. New men and new ideas are perilously near to dominating the state senate, where old ideas and old operators have dominated over the long and scandalous past. Hence the fight must be bitter. Every effort known to these skillful leaders will be exerted to block the governor. There is no illusion entertained by these men. If they are beaten in this fight their public career is ended for many years to come, and Raines is already an old man.

PRESIDENT PLANS FEDERAL CONTROL

Scheme for Regulation of the Railroads, Will Be Presented to the Next Congress—Details Mapped Out at an Important Meeting Held at the Executive Mansion.

Washington, March 27.—An important conference was held at the White House tonight, at which the railroad situation generally was discussed. Those present were Secretary Kertouyou, Secretary Gailard, Assistant Secretary Grant Bacon, Chairman Knapp and Special Counsel Kellogg of the interstate commerce commission and all the members of that commission except Messrs. Prouty and Cockrell, who are out of the city.

The conference lasted two and a half hours. After the conference adjourned it was stated that the meeting was called to outline a scheme to be presented to the next congress for the federal regulation of the railroads of the United States.

Andrew Carnegie's Tribute. Washington, March 27.—Andrew Carnegie lunched with the president today, and expressed the following opinion on the railroad situation:

"I absolutely endorse the president's attitude towards the railroads. He is the best friend they have, and they ought to realize it. If they do not accept his moderate measures they may be confronted by a man in the White House who will approach the question from a different standpoint. I regard the president's influence as to railroads wholesome and conservative."

Marvin Huggitt to Call Today. Marvin Huggitt, president of the Northwestern railroad, arrived in Washington tonight, and will call at the White House tomorrow to discuss the railroad situation with President Roosevelt.

STOCK MART NOT BAROMETER. Ambassador Bryce Sees Continued Prosperity in the United States.

New York, March 27.—James Bryce, the British ambassador, in New York as the guest of the Chamber of Commerce, takes an optimistic view of industrial and financial conditions in the United States. In the course of his address he spoke about the oscillations in the stock market. He said that when a bold alpine climber started out to scale a mountain with his equipment his relatives surrounded him and begged him to be careful and avoid all unnecessary risks.

"The timid European might be tempted to address such entreaties to you," he added, "but I have had enough experience in the English Board of Trade to know that it would be useless. The oscillations of stock securities are as inevitable as the change in temperature. All we can do is to treat them with serenity. I believe those oscillations which recur from time to time do not affect the permanent prosperity or stability of great undertakings or commerce as a whole. They do not indicate anything unsound in the condition of the country. I believe there is no contingency which might arise which you can not grapple with and this is ground for satisfaction for us in England as well as for you here."

"I rejoice as a friend and as a lover of America that I can look forward with confidence to an era of continued prosperity for you and of constantly expanding commerce."

NOTABLE OVATION TO MELBA. New York, March 27.—Mme. Melba received a remarkable ovation last night at the Manhattan Opera House when she sang her farewell. The conclusion of the performance was the vast audience cheered, stamped, applauded and overwelmed the prima donna with flowers. Finally Mme. Melba announced: "I will remain a few minutes longer I will sing a few little songs for you."

She sang a song and stage hand rolled an old black piano upon the stage. Melba took her place before it and sang a number of Tosti's love songs. Her audience would not permit her to stop and it is probable that she would still be singing had she not finally fled into the wings, saying as she ran: "I am tired now and too deeply moved by this demonstration to sing more." Oscar Hammerstein gave a banquet to Melba after the audience left. The table was set on the stage.

COURT HEARS OSCEOLA'S SIDE

Arguments in Behalf of Bigelow Control Are Made at Grand Rapids, and Case Is Formally Submitted for Adjudication.

No Intimation Is Given When Decision May Be Expected on the Application for an Injunction Against the Calumet & Hecla, but the Attorneys for the Latter Are Much Encouraged Over a Remark Dropped by the Judge During Course of the Hearing.

Grand Rapids, Mich., March 27.—[Special.]—The Calumet-Osceola hearing is finished, and the matter of making a temporary order forbidding the Calumet & Hecla from voting its shares and proxies of Osceola stock rests with Federal Judge Knapp.

The Calumet & Hecla people felt much encouraged over a remark dropped by the judge during the course of the argument of Willard E. Keeney for the Calumet & Hecla. Mr. Keeney was discussing the right of individuals or corporations to take action under the injunctive power of the Sherman anti-trust law, holding that such action could only be started by the federal authorities.

"You need not discuss that question further, at least until you hear what the opposing counsel may have to say," remarked the judge. Messrs. Kierschner and Allen F. Rees, general counsel for the Calumet & Hecla, were visibly elated over the remark, seeming to feel that it showed a disposition on the part of the judge to look with favor on their contentions.

Mr. Keeney then took up the Michigan anti-trust law, arguing that this state expressly permits the owning by mining companies of stock in other companies, referring to the 1905 law, which it is said was passed with the intention of allowing the Calumet & Hecla to form a merger of copper companies.

"In conclusion, I may say, as I did in opening, that this cause is merely an attempt on the part of minority Osceola stockholders to maintain themselves in good positions," added the attorney.

Bigelow Management's Position. H. E. Boynton took up the Osceola side shortly before noon. He argued that the act of the court in taking jurisdiction was perfectly right. He claimed that the Osceola directorate did not know of the Calumet & Hecla intention to dominate the Osceola annual meeting, set for March 14, until Feb. 21.

"Under the Osceola's by-laws, it was then too late to call a special meeting of the stockholders in order to secure authority for what has been done," said Mr. Boynton.

"The things were left open to us. One was to try and have the law of 1905, which allowed one mining company to own stock in another, to be changed. This was done, but the bill was recalled from the governor two days before the Osceola annual meeting. There was then nothing for us to do but to have recourse to the courts," Mr. Boynton said that the long bill of complaint had been drawn up between 9 o'clock one night and 9:30 o'clock the next morning.

The attorney for the Osceola argued that the Calumet & Hecla's intention to get control of the lake copper output was shown clearly by its actions, by the speech of Vice President Livermore at Detroit and by its annual report. That a corner of lake copper would be in restraint of trade, he held, was shown by the affidavits presented. He denied that the Bigelow interests were actuated by selfish motives in starting suit.

Mr. Boynton's argument and that of Attorney Denison were short, and the case went to the judge late in the afternoon. No intimation has been given as to when a decision may be expected.

BLAMED FOR TRAIN WRECK. High Officials of the New York Central Arraigned for Manslaughter.

New York, March 27.—Indictments charging manslaughter in the second degree were returned today against the New York Central railroad, L. I. McCormick, general superintendent, and Alfred H. Smith, vice president, in connection with the wreck of the Brewster express on the Harlem division last month. McCormick and Smith entered pleas of not guilty and were released on \$10,000 bail each.

ADHERES TO FORMER RULES. Postoffice Department Insists Rural Mail Boxes Be Conveniently Located.

Washington, March 27.—In a decision rendered today, Fourth Assistant Postmaster General DeFraw insists upon adherence to the regulations requiring that boxes on rural mail routes be erected by the roadside so that the carriers can easily obtain access to them without deviating from their routes or dismounting from their vehicles. Failure to comply with the regular rules in this respect, the decision states, is likely to result in discontinuance of the delivery of mail by rural carriers.

CHICAGO SWIMMING EVENTS. Chicago, March 27.—The Chicago Athletic association team won every event except the plunge for distance in the swimming championships of the Central Association Amateur Athletic union tonight. Corbin of the Central Y. M. C. A. team won the plunge for distance.

DIES ON WEDDING TOUR. James Henry Smith, New York Capitalist, Succumbs at Tokio.

New York, March 27.—A despatch from Tokio today announces the death of James Henry Smith, one of the wealthiest capitalists of this city. He was on a wedding tour around the world. His bride was the divorced wife of Wm. Rhinelander Stewart.

RICHARD MANSFIELD VERY ILL. New York, March 27.—The announcement that Richard Mansfield, the actor, has abandoned his tour through the country owing to illness was made today by B. D. S. Stevens, Mr. Mansfield's manager. Mr. Mansfield is now so ill from nervous exhaustion that he is confined to his bed at his home in this city, and his physicians, after a consultation today, ordered that he take a long rest.

Mr. Mansfield, it was stated tonight, will be kept closely confined to his home until the first of May, when he probably will be taken to his country estate in England.

REFORMS PROMISED REVOLTED PEASANTS

ROUMANIAN WAR CONTINUES DESPERATE, BUT TROOPS ARE SLOWLY RESTORING ORDER.

Bucharest, Roumania, March 17.—Plenty of troops have been concentrated here to protect the capital, and reinforcements are being distributed in the disturbed districts of the country as speedily as possible. It is reported that some two hundred peasants were killed or wounded today in conflicts with the troops in Moldavia. The measures proposed by the government to meet the demands of the revolted peasantry and end the civil have been announced in the form of a proclamation issued in the name of King Charles.

Order generally has been restored in the provinces of Moldavia, but fresh disturbances have occurred in the Dolj district and several other places in Wallachia. The disorders at Nzaceni have been suppressed by the killing or wounding of twenty-five men. At this point the troops dispersed 500 incendiaries. There is still serious fighting in the Vlaszka district, where bands of plunderers who still retain refuge in villages are being shelled by troops.

Monarch's Estates Invaded. Vienna, March 27.—Press dispatches from Cernowitz, on the Moldavian frontier, say that conditions in certain parts of Roumania are still most serious. The number of persons reported to have broken out on the estates of King Charles at Boiana, and troops have been sent to the royal domains. It is rumored that large numbers of peasant rioters have been killed in conflicts near Braila and Papiulesca, and it appears that a large number of rioters, on trying to enter the town of Galatz, were repulsed by soldiers near Losaveni with a loss of twenty men killed; then the peasants turned their attention on Braila.

Sanguinary fighting is reported also at Vlasta, near Stareski, and at Crevat, but these reports probably refer to occurrences of Monday and Tuesday, as owing to the censorship all dispatches have to be mailed to the frontier. Information reaching here late tonight indicates that peace is slowly being restored.

Shocking Atrocities Reported. Berlin, March 27.—According to the Lokal Anzeiger the situation in Wallachia has grown worse. The number of persons killed daily is growing enormously. Three hundred persons have been killed in an encounter between the peasants and military at Stareski, and there have been two bloody battles at Mastamesti, in one of which Lieutenant Jollison lost his life. The peasants in the lieutenant's body to pieces and danced around the bloody remnants with wild music. Similar atrocities are reported from the districts of Dambrovitz and Dolj, where numerous villages and farms have been burned.

Hungarians in Danger. Budapest, March 27.—The municipal council of this city today passed a resolution calling the attention of the government to the danger in which the Hungarian residents of Roumania find themselves, and asking it to intervene with the Roumanian government with a view to ending the state of anarchy in that country.

MENACING CROWDS PARADING STREETS. PERIL OF EUROPEANS IN MOROCCO BECOMING INCREASINGLY SERIOUS—WARSHIPS ARRIVE. Tangier, March 27.—Two French cruisers have arrived here from Toulon. The commander will hand a list of the French claims this afternoon to the representative of the sultan. The situation at Morocco City is becoming more serious. Hostile crowds are parading the streets. Europeans do not dare to go out of their houses without an escort.

Prospective Occupation Not Suspended. Lalla Marnia, Algeria, March 27.—The French military mission has returned here from Oudja and report that the town is calm and the people do not suspect the forthcoming occupation. The Moroccan garrison in Oudja consists only of a small escort for the governor, and there is very little probability of any resistance to the French column. The

THAW INQUIRY BEGINS TODAY

First Session of the Commission in Lunacy Will Be Held This Afternoon—All the Hearings to Be Open to the Public.

Unexpected Change in the Personnel of the Body Occurs When Former Judge O'Brien Resigns, and Attorney David McClure Is Appointed in His Stead—Investigation Will Be Pressed to the Speediest Possible Conclusion—Jury Excused Until Monday.

New York, March 27.—After the jury which has been trying Harry K. Thaw for more than two months past was excused today until next Monday, and the members of the lunacy commission named yesterday afternoon by Justice Fitzgerald had been sworn in, there came a sudden announcement late in the afternoon that former Supreme Court Justice O'Brien, chairman of the commission, had resigned.

In a letter to Justice Fitzgerald Mr. O'Brien stated that upon reflection he was forced, because of the condition of his health and professional engagements previously entered into, to decline to serve as a member of the commission. The announcement of his resignation came as a complete surprise.

Justice Fitzgerald immediately made a new order appointing David McClure, a well-known attorney of this city and a member of former Police Commissioner McAdoo's advisory committee of citizens, to fill the vacancy. Mr. McClure met the other members of the commission this afternoon, and was selected chairman. Later he announced that the first session of the commission would be held tomorrow afternoon. The sessions will be public.

Thaw Brought Into Court. When the Thaw jury arrived this morning, Justice Fitzgerald was engaged in conference with the members of the commission appointed yesterday. All being present, Justice Fitzgerald administered the oath of office to the commissioners and had an hour's talk with them concerning the case and their duties in connection with the inquiry they were about to undertake. Afterward the three commissioners filed in and took their places, and Thaw was brought into court. The jury was then discharged until next Monday.

Following the proceedings in court Justice Fitzgerald had another conference with the three commissioners originally selected. The commission reassembled at 3 o'clock p. m., but Mr. O'Brien was not present. After a conference with Justice Fitzgerald, Mr. O'Brien's resignation and the appointment of Mr. McClure as his successor were announced. Messrs. McClure, Olney and Putzel conferred for some time, and finally announced that the first formal session will be held tomorrow afternoon. The inquiry will be pressed to the speediest possible conclusion.

Europeans of Oudja left all their personal property locked up in their houses. Genoa, March 27.—Prince von Buelow, who is at Rapallo, spoke reassuringly to his friends today concerning the Moroccan situation, saying that it was not so bad as reported by some people. Germany, the chancellor said, did not look with disfavor upon the occupation of Oudja, if this occupation were temporary, nor would any other country be opposed to such a step. France was acting for the protection of the interests of other countries in Morocco, and the chancellor concluded, Germany's interests are identical with those of France.

WRECKERS AT WORK? Second Fast Passenger Train Is Derailed on the Pennsylvania Road.

Pittsburg, March 27.—The Keystone express, eastbound on the Pennsylvania railroad, was derailed near Welmending early today. The engine, two mail cars and the combination smoker left the track, but no one was hurt. It is believed that the train was intentionally derailed, and that it was done by the same parties who wrecked the Chicago Limited train at Stewart.

Engineer and Fireman Killed. St. Paul, March 27.—The Northern Pacific passenger train for St. Paul, which left Duluth at 11 o'clock last night, was derailed at Carlton today. The engineer and fireman were killed. Two or three of the passengers were slightly injured. The cause of the wreck is said to be the stoppage of the drain pipe, water undermining the track.

LINCOLN DAY CELEBRATION. Springfield, Ill., March 27.—Governor Deneen today sent to the legislature a memorial suggesting that the citizens of the state join in a general celebration in observance of the one hundredth anniversary of the birth of Abraham Lincoln, Feb. 12, 1900. He suggested that a resolution be created to formulate plans for the participation of the state in what is intended to be a national celebration.

ASSASSINATION AT MOSCOW. Moscow, March 27.—Dr. Jolios, editor of the Russki Vostokosti, was assassinated today by an unknown youth, who shot him with a revolver. The murderer escaped. Dr. Jolios was a member of the parliament.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month by carrier \$1.00; per year, by mail \$10.00.

MARQUETTE, MICH., MARCH 28.

Entered as mail matter of the second class the postoffice at Marquette, Mich.

What are the issues, anyway?

We wonder if there's any water in Walter's platform in the new Fifth?

The road of the voting machine is as hard as the highway of the transgressor.

If the stock market could speak it would say, "Much obliged, Mr. Cortel-you."

Just about this time last year the municipal campaign opened in real earnest.

But, it must be admitted, those paper losses are not pleasant things to have in the house.

At least Mr. Thaw should be gratified with the personnel of the commission that is to pass on his sanity.

Marquette's spring campaign has progressed so far without any casualties. Indeed no one has been even seriously injured.

The burning question in the marts of trade is whether or not the present recovery in stocks simply foreruns a drop into another sub-cellar.

Mayor Winter has been renominated at Negaunee. On account of the excellence of his administration he will doubtless be the big end of all bets.

What's the use of being an election commissioner, anyway? The salary is the same as paid the mayor, and the office is handicapped by the same impossibility of pleasing everybody.

By general consent Governor Warner is terribly in earnest about his proposed lower fare bills. Yet he is the same Warner whom the Democrats were telling in 1904 was a railroad hireling.

When Marquette gets along to the time that it is willing to contemplate government by a commission, a la Galveston and Memphis, it is quite probable that it will be prepared to insist that the commission be elective.

There is some talk of legislating Road Commissioner Earle out of office. Perish the thought! Mr. Earle is at least agitating the good roads question, and it is a good one to have agitated. Besides if he were legislated out of his present position who would know where he would bust out next?

If the Marquette penitentiary was not bounded on the north, south, east and west by mountains of trap rock, available for quarrying for good roads purposes, if ever the state decides to put the convicts in the rock-breaking business, Road Commissioner Earle's Keweenaw prison scheme might receive more consideration.

W. R. Hearst is reported in Chicago, with a retinue of editors, sub-editors, cartoonists and paraphraser, to manage Mayor Dunne's campaign. If Chicago shows a proper resentment against this attempt to infringe on the principle of home rule this outside interest in its municipal campaign will react very unfavorably on the man it is designed to help.

In New York police graft has been gotten down to such a fine point that receipts are given for the blackmail collected for failure to observe the Sunday closing law with impunity from the police; and this too when Police Commissioner Bingham is generally conceded to be making a conscientious effort to clean up the department.

The Calumet & Hecla attorneys at Grand Rapids Tuesday were brutally frank in their statements of belief that the motive actuating President Bigelow and General Manager Haire of the Oscoda in their fight against C. & H. control was fear of losing their remunerative jobs, but the fact remains that this is about the way in which the upper peninsula has called the matter up.

The meeting called to discuss the proposed amendment to the constitution affecting prison labor was simply attended, but perhaps the slim attendance does not betoken so much a lack of interest in the question, as a disinclination to turn out to dry meetings on wet nights. The Mining Journal doubts not that the majority of people have minds of their

own on this prison labor problem, and will be at the trouble to express their next Monday.

Detroit Saturday Night, the new weekly, has hit the trail of the indecent variety theater in the state metropolis. It alleges that the bills are, under an alleged police censorship, horribly immoral, and makes out a strong case for the contention. Detroit Saturday Night is embarked on a commendable piece of work that has been overlooked by the daily papers, and its strong presentment of the offense against public decency in the tolerance by the police of the theaters complained of will doubtless be attended by results.

By some people the fact that the constitutional amendment to remove the prohibition on teaching trades in the prisons is being sought in part to pave the way for a trial of the binder twine industry is overlooked. The opinion has been given that under the present constitutional provision it would be illegal to establish a binder twine plant at Jackson prison. Such a plant, Governor Warner believes and maintains, would be successful in giving the farmers of the state a product which will compete with the product of a trust, saving them annually much money, would be a considerable money earner for the state, and would not compete with any Michigan industry of importance, as practically all the binder twine in the state is brought in from other states. Governor Warner's plan contemplates working the convicts for state accounts, instead of on contract, and has many advocates among men opposed to the present contract labor system in the prisons. It is, however, impracticable unless the present prohibition on the teaching of trades in prisons is raised. The repeal of the constitutional provision would not mean the permanent adoption in Michigan of the contract, or any other, system for prison labor. On this point there should be no misunderstanding. It would simply give the legislature full, instead of restricted, power to deal with the prison labor problem. In this light the present proposal is simply to remove an arbitrary embargo on the teaching of trades fixed by a constitutional provision half a century ago, as a preliminary to grappling with the general problem involved in the light of present day knowledge.

No person in voting for the amendment is voting finally on the question; he is simply paving the way for its consideration by the legislature, before which all parties in interest can have adequate hearings.

A GOOD PERSONE.

Of all the dramatic personae in the Thaw trial, which has the past several weeks filled numberless thousands of columns of newspaper space, the most impressive figure is that of Justice Fitzgerald, and if the public has gotten the impression that he is a fair-minded and just judge it has been because of his noise in trying moments, his self-repression and his evident desire to do the right thing by all the parties to the case.

Justice Fitzgerald's work has been no sinecure. The counsel for the defense and the "learned district attorney" have both been carrying much steam. The nervous wear and tear of the trial has made them edgy. They have been continually sparring with one another, and even with the court. The "learned district attorney" has on occasions come perilously near to affronting the court in a manner which would bring him into contempt, and in a number of instances the judge was hard put to restrain his choler. But he did so, and thus, while the trial has been charged with a super-heated atmosphere, it has proceeded to date in a decorous manner, and it has been evident that Justice Fitzgerald has been desirous only of giving the "square deal."

His disposition of the motion for a commission to determine the sanity or insanity of the defendant has been an eminently judicial one. As has been noted in the public press, the attorneys for the defendant have made an impressive showing in favor of the theory that he is sane. He is shown to have advised his lawyers coherently and well in regard to matters coming up during the progress of the trial. On the other hand the district attorney submitted strong affidavits bearing out the theory that the defendant is now, and will be indefinitely, in an insane condition of mind. Between these strong conflicting affidavits Justice Fitzgerald was unable to choose, and elected to follow the wise middle course of appointing a disinterested commission to pass on the question involved.

In view of the publicity the case has been given it is well the commission is so strong. The finding of the three men on it will be accepted as conclusive, and the public will be confident that if Thaw is adjudged insane the burden of the evidence points to that conclusion. If he is adjudged sane, the present trial will, it is generally admitted, result in an acquittal. In any event Justice Fitzgerald appears to have done his full duty.

THE GLASGOW IDEA.

The current number of the North American Review contains an article on Municipal Glasgow written by a native of that city who is not in sympathy with the extension of municipal enterprises which has made Glasgow a subject of study for the rest of the world. To an impartial reader he does not seem to prove his case in the data which he presents, and least of all in his arguments against the street railway system.

The street railway, he admits, are in good financial condition. They are the envy of all street railway managers in the country. They have the longest

mileage and the largest revenue of any street railway in Great Britain. Yet he is dissatisfied because instead of dividing profits with the people inside the corporate limits through a contribution to the city's revenue they divide profits with the people outside the city limits and with visitors by reducing the rate of fare. This subject of course is one of controversy. Should a municipal undertaking be run for profit and so reduce taxes or should it be run for the purpose of stimulating the growth of the community by affording service at the lowest possible rate?

Glasgow has chosen the second alternative and this is the result as described by this observer. The number of inhabited houses within the corporation limits decreased from 163,002 in 1904 to 102,888 in 1905. But the decrease, he admits, is unusual, the seventh time only since 1872. Glasgow began to municipalize forty years ago. During fifteen years inhabited houses in "old" Glasgow have increased 7.9 per cent. Inhabited houses in the marginal area have increased 85 per cent. During the year 1905 the population within the municipal area increased by only nine persons.

Any one who knows what European cities were forty years ago with their crowded centers will find no reason for pessimism in this lack of growth in "old" Glasgow. New York would consider itself blessed if the population of its crowded tenement districts could be cut in half. And evidently that is what the street railways of Glasgow are tending to do for it. Here are some more of the writer's figures. Forty years ago the population of the city was 437,850. Today it is 80,000. Forty years ago the valuation of Glasgow was \$8,615,585. Today it is \$28,852,850. Today Glasgow is second only to London as the greatest and wealthiest city in the United Kingdom. Evidently municipal street railways have not retarded it much.

But this does not measure all of Glasgow's growth. The writer says: "The corporation tramways have extended a considerable distance into the country districts and have actually extended the city." And then he speaks of the surrounding "network of populous industrial and agricultural towns." Would Glasgow have benefited more by reducing its taxes at the expense of the surrounding districts, or is it profiting more by building up those districts and getting the trade which their population bring it? And at the same time it permits its poorer inhabitants to live where they can have light and air.

Upper Peninsula

Iron Mountain Nominations—

The People's party of Iron Mountain has nominated the following candidates: For mayor, Thomas H. Barron; city clerk, John B. Calvi; treasurer, Jacob Quist.

Menominee Democrats' Ticket—

The Democrats of Menominee have placed in nomination the following ticket: Municipal judge, Joseph F. Cuddy; assessor, Louis Leisen; city treasurer, Ernest Franke.

Appointed Assistant Pastor—

James Thomas, a well-known Ironwood young man, has been appointed assistant pastor of the First M. E. church at Albion. Mr. Thomas has been a student at the Albion college for some time.

M. E. Pastor Resigns—

Rev. John Murdoch, pastor of the First M. E. church at Iron Mountain, has tendered his resignation to Presiding Elder Collins and it has been accepted. It is the intention of Mr. Murdoch to retire from the ministry after many years of earnest endeavor to improve earthly conditions. He will probably remove from Iron Mountain to his former home in Canada. His successor has not yet been named.

Mining Company Taxes—

An instance typical of the proportion of the taxes paid by corporations in the mining communities of upper Michigan is noted at Norway, Menominee range. The total amount of taxes raised in that city for state, county and school purposes for the year 1906 was \$59,684. Of this sum the Steel Corporation paid \$27,763.70, while the Cambria Steel's Penn. Iron Mining company contributed \$16,344.96, making a total for the two companies of \$44,108.66. The balance of \$15,575.35 was distributed among the smaller mining companies, such as the Saginaw, Brier Hill and Munro, and the scores of owners of other real estate and personal property of the city. It does not require keen observation to note that the companies bear a very respectable proportion of the burden of taxation.

Fingers Crushed to a Pulp—

Roy Sablin, who operated a "jack" machine at the Soo tannery, received painful injuries while at work. His hand was caught in the "jack" and before he could extricate himself two of his fingers were crushed to a pulp; his arm fractured above the elbow and his head injured.

Father of Twenty Children—

Ovid Rivord, an Alger county man who lives on the east branch of the Munising railway where it crosses Stett's creek, is believed to be the North country's most prominent member of the anti-race suicide society. He has been married twice. By his first wife he has the father of ten children and he has just become the parent of still another daughter—the tenth child by his second wife.

Arrested for Forgery—

Peter Thompson, a plumber, is in the Gogebic county jail at Ironwood, awaiting trial in the circuit court on the charge of passing forged checks. The officers say that when arrested Thompson did not deny his guilt, but said that he was drunk at the time the alleged crime was committed and did not know what he was doing. Thompson is a man well along in years, and has evidently traveled about the country extensively. He was generally known about the city as "Pete the Plumber."

Bonding Propositions—

Two questions of more than ordinary interest to the people of Escanaba city Delta county will come before the voters at the election next Monday, when the question of bonding the amount in the sum of \$24,000 for good roads and \$8,000 to be used in building a new county building at the poor farm will be decided. At the Soo the people are to be given the opportunity of voting on the proposition to bond the city for \$20,000 for the building of a new fire hall and hose house.

Defends City Water—

E. Olmsted, superintendent of the Delta County hospital, says that he does not believe typhoid fever and winter cholera at Escanaba is caused by the city water. He said that the fact that many are sick from these diseases who do not use the water confirms him in this opinion. As an illustration he mentioned the case of his brother, who is janitor at the hospital and who has had two severe attacks of the winter cholera during the past five or six weeks and he uses nothing but the artesian well water at the hospital.

Not a Candidate for Mayor—

Municipal politics at Crystal Falls have been given an unexpected turn by the announcement of State Senator M. H. Moriarty that he will not stand for reelection as mayor of the city, to which position he was chosen last spring. It had been considered that he would take the executive office again, and prior to the receipt of his declination of the proposed nomination no other candidate had been suggested. Mr. Moriarty gives as his reason the fact that the legislature will doubtless not adjourn until the first part of June, and it would be impossible for him to absent himself from his senatorial post at the state capital in order to attend, as mayor of the city, the meetings of the Crystal Falls board of review when the local taxes are equalized next May. R. B. Webb, hardware merchant, probably will succeed the state solon as municipal executive.

Pickford's Oil Well—

Thomas C. Kelly of Findlay, O., the head of the contracting firm of drillers of the Van Campen oil well at Pickford, Chippewa county, recently visited the Soo and the oil well and surrounding country. Mr. Kelly is a man of very extended experience in oil matters hav-

RAMLEH TURKISH CIGARETTES. Most smokers prefer mildness in fine cigarettes, if it can be secured without sacrificing the tasty flavor and delicious fragrance of Turkish Tobacco. That's why you like the mildness of mild cigarettes and the flavor of strong cigarettes—but you seldom find both in one cigarette. It is because RAMLEH Cigarettes are "tasty" without being heavy and smooth without being too mild, that they suit the taste of smokers of all classes. You'll probably find RAMLEH the very cigarette you've been looking for. Why not try them to-day? 10c. for 10 Sold Everywhere. S. ANARGYROS, Manufacturer 111 Fifth Avenue New York

ing followed the business in New York, Pennsylvania, Ohio, Indiana, Kansas, Canada and other places for nearly thirty years and he has made a decided success in his undertaking. While in Chippewa county he carefully examined the sands pumped from the well at Pickford at different depths and gained full knowledge of the rock and stratification after which he visited Manitowlin island and inspected the oil properties there, returning then to the Soo. Before leaving for home Mr. Kelly expressed his entire satisfaction with the outlook for the Pickford well and gave it as his opinion that the well would soon become a successful producer. He passed his judgment upon his own observations and experience in such matters. He admits that he has drilled some dry holes. He says the drilling will be resumed as soon as the weather will permit. New cables and other apparatus to take the place of parts worn by last fall's work have been shipped.

Cat Swallowed Hat Pin—

City Engineer Mellharge of the Soo is the possessor of a large Angora cat, which, it would appear, could easily vie with an ostrich when it comes to the matter of appetite. The cat is a playful pet in the Mellharge home and for some time has appeared to take great delight in pulling hat pins from ladies' hats and using them for playthings. A short time ago it was noticed that a large lump was forming on the side of the cat's neck, the cause being unknown, although generally attributed to the scraps common to animals of the feline family. The other day it was discovered that this lump was a swelling and that it had broken. Upon further examination a steel point was discovered within the effected spot. By pulling on this steel point a hat pin eight and one-half inches in length was drawn from the cat's body. Puss has swallowed the hat pin headfirst and it was so long that it went only part way down the throat, thus leaving the point to irritate the throat and cause the ulceration. The cat is now doing well and Mr. Mellharge is inclined to believe the "nine-lives" theory regarding cats.

Upper Peninsula Fatalities—

Beating his way west on the D. S. S. & A. railroad, George Kelly fell beneath the cars at Trout Lake and was so badly injured that death ensued three hours later. He had a mother and a brother in Detroit.

John McCarthy, employed in the mill of the Sisco & Howe Lumber company at Ironwood, is dead as the result of a peculiar fatality. His pike pole accidentally struck a chain, unhooking it and causing nearly a whole carload of logs to roll down upon him, literally crushing out his life. The accident was a peculiar one, inasmuch as it is generally a very difficult matter to unhook the binder chains on one of these loads of logs and one might ordinarily pound upon one of them for hours with no perceptible effect. McCarthy was a single man about twenty-six years of age and lived at Hurley.

Riding to surface safely in the ore skip, Oscar Macky, employed at the Bristol mine at Crystal Falls, missed his footing when alighting and plunged downward to the bottom of the shaft. His body was horribly mangled. At the Windsor mine of Pickands, Mather & Co. on the Gogebic iron range, the lives of two men were crushed out in consequence of a fall of ground. The names of the victims or the details of the accident were not ascertained.

"Preventives" will promptly check a cold or the Grippe when taken early or at the "sneeze stage." Preventives cure seated colds as well. Preventives are little candy cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early Colds with Preventives and stop Pneumonia. Sold in 5c and 25c boxes by The Stafford Drug Co.

THIS IS WORTH REMEMBERING.

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk health by taking any but the genuine. It is in a yellow package. The Stafford Drug Co.

COBALT IS RICH BEYOND ALL DREAMS

C. G. BUSH TELLS OF FORTUNES WHICH ARE BEING MADE IN THE GREAT CANADIAN MINING CAMP.

"I do not believe that \$250,000,000 would cover the intrinsic value of the mines operating in the Cobalt district today and one billion comes nearer the figure for the entire district, including the surrounding camps."

"The richness of the Cobalt camp is beyond the wildest dreams of any man," continued Mr. Bush. "Imagine, if you can, walking about 150 feet on the surface of the earth and never stepping off a vein of silver fourteen to eighteen inches wide."

"Silver is, of course, the predominating metal, but in mining silver other metals are extracted. The silver ore is wonderful in its richness. It is native and is mixed with calcite, cobalt, arsenic and other elements."

"The Nipissing is a wonderful property. It has forty-seven veins, and I know of one or two veins on it which are worth as much as the entire amount for which the property is selling on the market today."

"The town of Cobalt has a floating population of about 6,000 to 8,000 people, and the entire camp has a floating population of about 15,000. As in all booming mining camps the people are coming and going all the time."

"The Cobalt region has been primarily a poor man's camp. I believe more poor men have been made rich by the discovery there than in any other camp in the world."

"The Canadian mining laws are not as bad as they have been painted, although they are bad enough. They are conflicting and the man staking out a claim and wishing to comply with all the conditions before him find it a score of Philadelphia lawyers."

"Cobalt proper is not yet a proved region by any means, for there is much to be shown there yet. The tide is now moving westward and northward."

"Gold is now entering into the calculations, through the discovery of large deposits of the precious metal in the Larder Lake region. This region is wonderfully rich in gold deposits."

"THE LION AND THE MOUSE." Charles Klein's Great Play Here Tomorrow Evening.

Mining News NORTH BUTTE.

A Butte mining engineer of prominence is quoted as follows: "The North Butte is the best property in the Butte camp today without exception.

"No matter what the stock market may do North Butte is bound to go ahead and to develop into one of the biggest and richest mines in the Butte camp.

RAVEN. TO CURE ANY DISEASE.

The Cause Must Be Removed, Same Way With Dandruff. Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly.

Moderate Price Calumet Baking Powder \$1.00.00 will be given for any substance injurious to health found in a can.

MARKETS STOCKS IRREGULAR.

Open Strong and Close at Small Net Gains or Losses. New York, March 27.—The early spurt in prices today which added 3 to 5 points to the recoveries of 3 to over 7 points in yesterday's market had decided effect in putting down the buying demand.

The unimpaired condition of the Erie and the wide decline to a level materially lower than was touched in the weaker period of the recent selling gave clear evidence of further liquidation.

The money market showed palpable relief, which was attributed to the measures adopted by the United States treasury department. Profit-taking which would tend to advantage at today's higher prices was increased by the belief that the stock exchange authorities would decide to close the exchange from Thursday until the following Monday.

Among mining men no doubt is held that North Butte will turn into the big rival of Boston & Montana and there is no one who does not much desire the addition of the North Butte to his holdings.

The discovery of rich ore in the Berlin property is also another factor, and when that ground is thoroughly opened up it should prove another source of big revenue.

The Denver bridge at the power house was rebuilt. The Denver bridge at Presque Isle drive was rebuilt.

Chicago Grain Markets. Chicago, March 27.—The sentiment in the wheat pit was bearish all day. It was based upon private reports that light showers had fallen in different localities in Kansas, and the temperature there was considerably below that of the last ten days.

Copper Metal Prices. New York, March 27.—Copper reacted in the London market today, with spot closing at \$98.15 and futures at \$101. Locally, however, the market continued unsettled and more or less nominal.

Logan & Bryan's Wheat Summary. Logan & Bryan wheat concerning yesterday's wheat market: "The wheat market was fairly strong today. From the Kansas crop report it would seem there has been little damage from the green bugs in that state.

The charges he makes are that I spent about \$38,000 on the streets of the city in a wasteful and extravagant manner. I do not know just exactly what the sum was that was spent six years ago on the streets but it was my impression that it was somewhat less than the sum stated.

When I took possession of the office the city had no tools of any kind to work with. I was compelled to purchase everything in this sort required. We purchased a stone crusher that year and erected the building with concrete foundations at a cost of about \$9,000.

It is also charged that I used my teams on the street work. This is true to a certain extent, but teams were hard to get at that time and it became necessary for me to use my own teams some of the time.

The principal source of soreheadedness seems to lie in the fact that I voted "No" on the mayor's anti-sunium appointments. I did so because I thought I did right and can assure the people that I shall always vote "No" when I believe it to be right even if I be the only one, and I am willing to go before the people any time on that record.

HAS DIFFICULT TASK.
Finance Committee Has Not Yet Completed Its Annual Report.

Mayor Roberts, who is chairman of the finance committee of the city council, has been busy the past few days, preparing the annual financial report, which under the charter must be presented to the council before April 1. The task is a most difficult one and the mayor is doubtful whether he will have it completed before Saturday, which is the last day on which a meeting can be held this month. With all of the aldermen employed as members of the boards of registration on Saturday it will be impossible to hold a meeting that day unless it is called after 8 p. m. The mayor said that he did not wish to call the aldermen together on Good Friday, and as his work will not be completed by this evening he is yet undecided when to get the council together.

Mr. Roberts stated that the books of the city recorder and treasurer have been balanced, but a mere statement showing the debit and credit in each fund is not the kind of a report he desires to give the council. In former years a detailed report of the receipts and expenditures of each fund have been given in the annual report, and in order to get the correct balances it is necessary to go over the books for the entire year. The committee tried to engage an expert accountant to do the work, but was unable to procure one in the city so that the mayor, Alderman Gregg and Recorder West tackled the job. Mayor Roberts stated yesterday that the task was large enough to keep two expert accountants busy the greater part of a week. He declares that while he does not claim to be an expert bookkeeper, he said he thought that he would get through the task all right. In the trial balances to be presented the following debits and credits in the several funds will be shown:

—Debits—	
Cemetery fund.....	\$ 701.68
Water	7,180.55
Police	6,672.56
Bond	15,000.00
Interest	4,118.52
Street lighting.....	9,829.65
Cash on hand.....	60,251.26
Total	\$103,754.02
—Credits—	
General fund	\$ 25,109.59
Liquor fund	20,998.00
Poll tax	1,781.65
Highways	4,228.61
Soldiers' relief	485.02
Library	6,712.53
Sewerage	18,243.17
Fire	5,165.12
School	23,939.73
Total	\$103,754.02

The amount of cash now on hand in the city treasury is \$60,251.26.

EXCELLENT PRODUCTION.
Henry B. Harris' production of "The Lion and the Mouse" at Ishpeming theater Tuesday evening was most favorably received. The company is exceptionally strong, and the production was staged with a most careful attention to details, the scenery and furniture being especially attractive. Miss Josephine Lovett as Shirley Rosmore and Paul Everton as John Burkett Ryder, the two principal characters of the play, are artists of exceptional ability; their work in the second and third acts being notably strong. At the completion of the third act, in the great denunciation scene, the company received a number of well deserved curtain calls.

HOLIDAY TOMORROW.
Tomorrow, Good Friday, will be generally observed as a holiday in Ishpeming. There will be no work at the mines and the mercantile establishments will be closed all day. The barber shops will remain open until 9 o'clock this evening and will close at noon tomorrow, remaining closed the balance of the day. There will be services in all of the churches of the city in the morning, and at several of them in the evening. Entertainments will be given in the First Methodist Episcopal church, also the Salisbury Methodist church, and at the former an old-fashioned English supper will be served.

FOUND AT LAST.
J. A. Harmon, of Lizemore, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say: Take Dr. King's New-Life Pills." Guaranteed satisfactory. 25c. at The Stafford Drug Co.

ENTERTAINMENT GOOD FRIDAY.
The Ishpeming branch of the Mine Workers' union will give an entertainment and social in its hall on Cleveland avenue tomorrow evening, at 7:30 o'clock, for the members and their families. The officers of the organization expect a large turnout of the members, as the committee has arranged a most pleasing program. There will be no admission charge.

WILL START EARLY.
Work will be resumed on the county road between Negaunee and Marquette as soon as the frost is out of the ground. The county road commission desires to get an early start so that the work can be completed to both the Negaunee and Marquette city lines before the close of the season. Last season about a mile of the worst portion of the road was rebuilt. There is still over six miles of the unfinished portion between the west end of the section completed and the Negaunee city line and the distance between the eastern end and the Marquette city line is about four or five miles. There are some heavy bridges or culverts to build and it is thought that the work will be less expensive to the mile than was the work finished last summer. Some trouble was experienced last season in getting as many men as could have been worked to advantage at a time when the season was favorable. The work was continued a little longer than would have been the case if an earlier start had been made and all the men needed had been available.

MORE NEW PIANOS.
Including Most Beautiful Interior Grand Self Player Ever Shown in U. P.

The Kimball Piano Agency, on Canada street, have just received a new shipment of Upright Grand Pianos that surpass, if possible, anything that has ever been brought to the Marquette range. Their special sale is progressing with great success. A great many are taking advantage of the big reductions in price, paying for their instrument on time, thereby affording themselves the pleasure and the advantage of the use of the instrument while paying for it. In this way one does not miss the money and the instrument is paid for.

In this last shipment there is a beautiful mahogany Interior, or Self Player, in a very artistic Colonial case. It can be used as any piano or adjusted in a moment's notice to be operated by anyone without any musical knowledge, enabling them to play the most classic or popular music equal to the finished pianist. This instrument should be seen by every one, as Interior players are taking the place of the exterior player in all the large cities. The Kimball Interior player has many advantages over any other instrument of the kind that has ever been devised. We are assured that for the remaining three days of this week the prices on the entire stock of pianos and organs in the Kimball store will be greatly reduced, and from now until April 1, just three days, any family not provided should not fail to take advantage. When the Kimball Piano Co. undertake to do a thing they do it and it will not be their fault if there is a home in Ishpeming not provided with a piano on Saturday night.

Be sure and remember the place—Canada street, next to the American express office.

When the Hair Falls

Stop it! And why not? Falling hair is a disease, a regular germ disease; and

Ayer's Hair Vigor

Mining Journal Wants Bring Results

JEWELS GIVEN HERE.
In the upper peninsula items of yesterday's Mining Journal was the announcement of the presentation of a jewel to C. W. Lightfoot of Gladstone by the lodge of that place. It was claimed for the Gladstone man that this was the first jewel ever presented to an upper peninsula Pythian holding membership in the society for a quarter of a century. The members of Zenith lodge of this city yesterday afternoon presented to the Ishpeming branch presented two of its members, Charles Moore, the veteran Chicago & Northwestern engineer, and James N. St. Clair, now of Duluth, with similar jewels about two years ago at the completion of this twenty-fifth year of membership.

HOW'S THIS?

THINK TWICE.
EPIDEMICS DIVERT BUSINESS.
"The recent epidemic of diphtheria and scarlet fever in the city have, it is reported, diverted thousands of dollars' worth of business from Chicago. In order to allay the fears of towns and cities near Chicago, which were said to be considering quarantine measures until the epidemic had passed, Health Commissioner Whalen called a consultation of big commercial interests which resulted in active co-operative measures being taken to prevent the spread of disease and stamping out the epidemic."—From American Carpet & Trade Record, Philadelphia, March 10, 1907.

There is no greater source of infection than that related to the handling of carpets that are often sold from such homes in infected districts and cities. They as a rule are bought up by the City Rug Factories and lend their presence to infect other innocent patrons. In having your rugs made up from old carpets you will avoid all this risk by shipping to a well known sanitary factory that insures you against any chance of this kind we refer to

ISHPEMING

ISHPEMING IN BRIEF.

The official ballots for the municipal election next Monday are on exhibition at the city recorder's office. Cleo Meilleur, cashier of the Ontonagon bank, for several years a business man of this city, was here yesterday. The snow and ice were removed from a great many of the sidewalks yesterday. The warm temperature reduced the snow considerably. The juvenile Bostonians will begin a three nights' engagement at the Ishpeming theater this evening, appearing in the comic opera, "The Gypsy Girl."

John Garvey, a former resident, now the Chicago & Northwestern Railway company's ore superintendent on the Menominee range, was in the city yesterday. Mike Tasson, the poundmaster, who received an injury to his leg on the street car line while returning from the ski tournament, Feb. 22, last, is able to be out again.

The street lighting committee of the city council held a special meeting last evening with a view to determining what price the city should pay for its lighting service the coming year. H. F. Hetzel, auditor for the Interstate Iron company, spent Monday and Tuesday at the Lake Angeline office examining the company's books. He and Captain Thomas Walters left last night for the Mesala range.

The high school orchestra will furnish music between the acts at the comedy drama, "Out in the Streets," to be produced next Monday evening at Ishpeming theater by members of the Junior Recreates. Specialties will also be introduced by some of the young people taking part in the play. Special services are to be conducted this evening at 7:30 o'clock, also tomorrow morning at 10:30 and tomorrow evening at 7:30, at the Norwegian Lutheran church. The services on Easter Sunday will be at 10:30 and 7:30. Rev. J. August Lellehi, the pastor, will preach this evening on the Lord's Supper.

Negaunee Department

NOT CANDIDATE FOR MAYOR.

James A. Goodman Will Not Head an Opposition Ticket.

In spite of the fact that only one ticket was nominated in Negaunee Tuesday evening much interest is manifested in the election. Some of the leaders of the faction opposing the Taxpayers' ticket made an attempt Tuesday night, following the caucuses, to arouse sentiment in favor of a second ticket, and James A. Goodman, one of the publishers of The Iron Herald, was asked to make the run against Mayor Winter. Mr. Goodman announced to The Mining Journal last night, however, that he would not enter the race, that he would not take the proffered nomination under any consideration, and that as far as he was concerned there would be only one ticket in the field. There was some doubt expressed yesterday as to whether the two nominees in the Third ward, Hugo Muck for supervisor, and Louis Villeneuve for alderman, are entitled to a place on the ballot, or whether they would be compelled to run on slips. Theodore A. Thoren, a member of the board of election commissioners, said that the nominees are entitled to a place on the ballot, even if there are no other nominees, and that they will run under the head of the People's ticket. The party has until tomorrow noon to fill out the vacancies, but there is some question of the legality of filling a complete city ticket, when the party failed to hold its convention.

The legality of the nominations in the Third ward is not questioned, as a caucus was held and Messrs. Muck and Villeneuve were the regular nominees.

At the Taxpayers' convention Tuesday evening five of the twenty-five delegates were for Dan Cushing for treasurer and two voted for H. Salvage, this being the only contest, though it required but one ballot to give Charles Olson the nomination. The nominee is a deserving man. He has been in poor circumstances a long time, owing to his poor health, and he is an old resident of the city. The failure of the People's party to nominate a complete ticket Tuesday evening is said to be largely due to the fact that the leaders could not agree on a candidate for mayor. It is said that Thomas S. Collins was not the unanimous choice. Some wanted John Wasnuth, and others favored Hugo Muck. While this may be true to a certain extent, the fact still remains that the sentiment for a second ticket was not as strong as the leaders of the party expected it would be when the campaign opened. Mayor Winter's record has been so satisfactory to the taxpayers that it is generally conceded that the man who ran against him would have something of a task, as Mr. Winter is a much stronger candidate today than he was a year ago. His work the past year has been of a character to commend him to the people who have the best interests of the city at heart.

IN THE SALOON BUSINESS.

Oral and Joseph Lacombe, the former of this city and the latter of Chicago, will engage in the saloon business in the Pearce block May 1. Joseph has been employed as bartender and has also conducted a saloon of his own in Chicago, and Oral has been engaged in that work since last fall, holding a position with D. McDonald. Both have been raised here and are well known. Oral, who has been engaged in the painting and paper hanging business for some years past, does not intend to continue in that line the coming year.

WORKED LIKE A CHARM.

Mr. D. N. Walker, editor of that spicy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals sores, burns and skin diseases. Guaranteed at The Stafford Drug Co. 25c.

DIED IN CHICAGO.

Former Negaunee Woman Passed Away Tuesday, After a Short Illness.

Phil Hogan received a message Tuesday evening announcing the death in Chicago of his sister-in-law, Mrs. James Hogan, who was a resident of Negaunee for more than twenty years prior to sixteen years ago. The deceased was well known here, as she visited relatives in the city a number of times since locating in Chicago. The announcement of her death came as a surprise to Mr. Hogan and his family as they did not know that she was critically ill. The remains will be received here this morning and will be accompanied by the husband and son, Thomas Lowmyer, and two daughters. The funeral will be held tomorrow morning at 9 o'clock from St. Paul's Catholic church.

FINE BOWLING RECORD.

Negaunee Man Has Larger Score Than One Recorded at National Tournament.

Frank Tompkins, one of the proprietors of the Negaunee bowling alleys, established a new record in this county in three successive games Tuesday evening, he having a total of 640 pins. In the first game he bowled 194, in the second 233 and in the third 213. The previous high score in this county in three successive games was held by a Marquette man, who recently scored 625 pins. At the national tournament being held this week at St. Louis the highest score recorded to date in three games is 624, so that Mr. Tompkins' record is considerably above the average.

The White Sox defeated the Hustlers Tuesday evening by a large score and the B. O. K. team won from the Ravens in a total of eighteen pins, the scores being as follows:

White Sox—				
Wentela	155	172	148	475
Bergland	168	171	170	509
Koski	161	131	158	450
Totals				1434
Hustlers—				
Johnson	114	154	147	415
Squires	177	162	203	542
Rogers	138	112	133	383
Totals				1340
B. O. K.—				
Poppe	135	137	187	459
Kirk	148	133	131	412
Totals				871

TO LOCATE IN CALIFORNIA.

Colon Kemp and his stepson, William Richards, left Tuesday evening for Grass Valley, Cal., where they expect to reside permanently. They have a number of relatives there and positions have been promised them at a gold mine in the city. Mrs. Kemp and the other members of the family will join them within a few weeks, or as soon as she is able to dispose of her home on Lombard street, and other interests.

WILL MANAGE HOTEL.

Nicholas Vesina has purchased the interest of Clifford Duganias in the Montreal House, and will take the management of the place May 1. Mr. Duganias has conducted the hotel, also the liquor business in the building, with considerable success for the past four years, but he is retiring on account of ill health. It is possible that he will move to Marquette, where he resided a number of years before engaging in business here.

AWNINGS.

The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size. KELLY HARDWARE CO. (3-27-tf) Marquette.

LOCAL LACONICS.

John Savage, a former resident of Negaunee, now employed as timber inspector for the Pittsburg & Lake Superior Iron company, called on old friends in the city Tuesday.

Frank Conway left yesterday for Hancock in response to a message informing him of the death of his brother, John, an old resident of that city. The deceased was very well known here, he having frequently visited his brother's family.

The yard employees of the Chicago & Northwestern Railway company were presented with a box of cigars by Manager McCorkindale of the street railway system. Mr. McCorkindale appreciated the way the railroad men handled the new street cars which are now being unloaded at the power house. The cars are attractive in appearance, the upper portion being dark yellow and the lower part an olive green. The name of the company is printed on both sides of each car, and the word Negaunee appears on one end and Ishpeming on the other. If the cars are in commission Sunday and the weather is favorable the line will do a big business.

Father says: "Say, Mother; can't you make us some more of those fine doughnuts if I will bring home a pair of Cudahy's Peacock Lard again?" (11-27-eod)

Ladies' Tailoring and Dressmaking

I have engaged Mrs. H. V. Johnson of Milwaukee, who has had many years experience as a ladies' tailor and dressmaker, and will conduct parlors on the second floor of the Neeley block, where Mrs. Johnson will be pleased to receive callers. Rooms will be open for business Monday morning, March 25.

Easter Opening and Spring Fashion Exhibit!

Our spring stocks are complete, and we assure you the most magnificent aggregation of the choicest novelties of the season. A wealth of beauty which has never been surpassed. A most complete line of Foreign and Domestic Fabrics ever shown in the Upper Peninsula. Everything new and snappy.

Your Easter opportunities are at their best now. All assortments are unbroken. Price range is complete

Easter Neckwear

Your Easter Gown would not be complete without the addition of something pretty for the neck. Price range up from

Twenty-Five Cents

Sellwood's STORE OF QUALITY

POST OFFICE BLOCK

Women's Oxfords

The new line of Oxfords arrived just in time for you to provide yourselves with new footwear for wear with your Easter gown. A splendid assortment to sell at, from

\$1.50 to \$3.50

DR. HARKIN TALKS TO COUNTY BOARD

PROJECT OF ESTABLISHING SANITARIUM FOR TREATMENT OF TUBERCULOSIS ADVOCATED.

MATTER IS DEFERRED

Members of Board Decide to Leave It to New Body—Last Meeting of Present Board—Vote of Thanks to Chairman Trebilcock.

The last meeting of the county board of supervisors as it is at present constituted was held at the county court yesterday. The coming spring election will change the membership of the board considerably, and a number who occupied seats yesterday will be succeeded by others when the board convenes after election. The members extended a vote of thanks to Captain John Trebilcock, the chairman, for his efficient service. Little but routine business was transacted yesterday. The feature of the meeting was the address of Dr. F. McD. Harkin, who spoke on the subject of the state crusade against tuberculosis and suggested that Michigan should take some steps toward the establishing of a sanitarium for the treatment of the disease in the upper peninsula. Dr. Harkin opened his address by explaining the apparent discrimination against St. Luke's hospital in the distribution of county charges. He said that the tuberculosis patients are sent to St. Mary's for treatment and on this account there are more patients sent there than to St. Luke's the latter institution having no facilities for caring for those afflicted with the disease. The doctor said that there is now but one tuberculosis patient in the hospital at the expense of the county, the others who had been there having succumbed to the disease recently.

Dr. Harkin scored the practice of sending patients to southwestern states. He said the climatic treatment could not work good results, as the patient, far away from home and among strangers, could not care for himself and, becoming homesick, his constitution is weakened and with it the power of resistance and, consequently, the disease is able to make even greater ravages upon the system. He said it has been proved that patients can be treated just as well at home as they can in Colorado, Arizona, New Mexico or any of the other southwestern states. Even, he said, upper peninsula patients should not be sent to the state institution, if their relatives could not visit them often. If an upper peninsula sanitarium were established the home environment would be present, friends could visit the patients and encourage them and he predicted excellent results. He urged the board of supervisors to appoint a committee to confer with similar committees from other counties in the upper peninsula, with a view to establishing a sanitarium for Marquette county along other counties to do the same; for associated counties, or for the entire upper peninsula.

After the conclusion of Dr. Harkin's talk, Supervisor Powell thanked the doctor on behalf of the board and said that the facts presented had enlightened him considerably. He said that he thought, however, that the matter should be deferred until after the new board had come into office. Supervisor Youngbluth also expressed his appreciation of the talk, and suggested that the members of the board do all in their power, as individuals, to further the work of the committee having the matter in charge. Mr. Powell then moved that the matter be deferred until the next meeting of the board and then be taken up as unfinished business.

On the opening of the session of the board yesterday a petition was presented from a number of freeholders in the two townships of Richmond and Negunee, asking that a portion of Richmond township consisting of Sections 10, 11 and 12 of Town 47 N. R. 26 west, be detached from Richmond township and attached to Negunee township. All legal requirements had been complied with by the petitioners. Attorney Bell explained the statute to the supervisors and also explained the situation which prompted the petition. He said there are a number of settlers in Richmond township in the sections it is proposed to detach and there are also a number of settlers across the line in Negunee township. In neither case were there enough for a school and the families were therefore without educational advantages. With the settlers gathered in one township a school would be provided.

County Superintendent of Schools Stearns also spoke on the matter, corroborating Mr. Bell's statements. Supervisor Frederickson of Richmond township and Supervisor Peterson of Negunee township said there was no objection in either township. The petition was therefore granted.

The report of the special committee appointed to have an audit of the county books was read. It was accompanied by the report of J. A. Dresser, the auditor engaged by the committee to do the work. Mr. Dresser reported that he found the books of the county clerk and county treasurer in excellent order. He reported the books of the treasurer tallying with those of the townships and the accounts in the auditor general's office. He examined the books of the justices and found them correct. The dockets of Justices Byrnes of Marquette and Trathen and Verran of Negunee had not been written up for three or four months, however. He said there was no excuse for ignoring the law in this respect and called the attention of the committee to it. He also criticized the practice of assessing rejected taxes on the general role, leaving property owners who taxes had been rejected on account of error go without taxation. The report was accepted.

The legislative committee, which has been delegated to take steps toward a revision of the state game laws, reported on the meeting held at the court house on Feb. 6. It reported that the committee appointed at the meeting to draft the proposed revisions into a bill had completed its work. The committee presented a petition from J. M. Longyear and fifteen other freeholders of Powell township, in which it was stated

gen last year. Just figure that out, one death every three and a half hours, day and night.

Asks Universal Support. Dr. Harkin asked the aid of every individual, regardless of his profession, in the campaign of education against the disease. He said lawyers, preachers and leaders of fraternal organizations should speak on the subject and in every school there should be a short course each term on the causes of tuberculosis and the means of preventing the disease. He emphasized the necessity of a rigid inspection of cattle, for, he said, it was proved that the presence of tuberculosis bacilli in milk results in thousands of deaths among children each year. He said the disinfection of infected houses is not given sufficient attention and that only in the control of the bacilli could tuberculosis be controlled. "Tuberculosis is not hereditary," he said. "A weakness of the tissues, which makes the individual more susceptible to the disease, may be inherited, but the germs are not, and if the bacilli can be kept out of the system, the disease can be prevented." He made a plea for plenty of fresh air and sunshine as the most effective weapons against the germs. He then took up the treatment of the disease. Formerly, he said, physicians dosed the patient with drugs, cod liver oil being a favorite. This treatment is no good, however, and with the discovery that in the combating of the bacilli lay the fight against the disease more safe and sane methods were adopted. The resisting power of the individual against the bacilli must be increased and this can be done by plenty of fresh air and sunlight and well cooked, nourishing food. This method of treatment is known as the sanitarium method. A series of buildings are constructed, the patients being divided into three classes, the incipient cases, advanced and hopeless. The incipient cases are kept in separate buildings. It has been found, he said, that of the incipient cases between 60 and 70 per cent can be cured and as high as 75 per cent; the percentage of cures in the advanced cases runs about 40 to 50 and in the hopeless cases an isolated cure is considered an achievement. He also spoke of the rest treatment, and Dr. Reich's method of increasing the resisting power of the individual system.

Climatic Treatment Ineffective. Dr. Harkin scored the practice of sending patients to southwestern states. He said the climatic treatment could not work good results, as the patient, far away from home and among strangers, could not care for himself and, becoming homesick, his constitution is weakened and with it the power of resistance and, consequently, the disease is able to make even greater ravages upon the system. He said it has been proved that patients can be treated just as well at home as they can in Colorado, Arizona, New Mexico or any of the other southwestern states. Even, he said, upper peninsula patients should not be sent to the state institution, if their relatives could not visit them often. If an upper peninsula sanitarium were established the home environment would be present, friends could visit the patients and encourage them and he predicted excellent results. He urged the board of supervisors to appoint a committee to confer with similar committees from other counties in the upper peninsula, with a view to establishing a sanitarium for Marquette county along other counties to do the same; for associated counties, or for the entire upper peninsula.

After the conclusion of Dr. Harkin's talk, Supervisor Powell thanked the doctor on behalf of the board and said that the facts presented had enlightened him considerably. He said that he thought, however, that the matter should be deferred until after the new board had come into office. Supervisor Youngbluth also expressed his appreciation of the talk, and suggested that the members of the board do all in their power, as individuals, to further the work of the committee having the matter in charge. Mr. Powell then moved that the matter be deferred until the next meeting of the board and then be taken up as unfinished business.

On the opening of the session of the board yesterday a petition was presented from a number of freeholders in the two townships of Richmond and Negunee, asking that a portion of Richmond township consisting of Sections 10, 11 and 12 of Town 47 N. R. 26 west, be detached from Richmond township and attached to Negunee township. All legal requirements had been complied with by the petitioners. It reported that the committee appointed at the meeting to draft the proposed revisions into a bill had completed its work. The committee presented a petition from J. M. Longyear and fifteen other freeholders of Powell township, in which it was stated

FISHING SEASON WILL OPEN SOON

NETS BEING PUT IN CONDITION AND TUGS FITTED OUT PREPARATORY TO STARTING OUT FOR SPRING CATCHES.

The fish houses of John Parker, H. F. Handford and Peter Anderson on the lake shore between Washington and Main streets, are just now scenes of great activity. The forces reported this week and the preparations for the opening of the season are progressing rapidly. Each fisherman has received a large quantity of new nets, and the work now being done consists mainly in cording these nets, repairing old ones and in other ways putting the equipment in order for the first trip of the season. It is not expected that the first trip will be made by any of the tugs until the latter part of next week, at the earliest, and then they will not venture far. Although the ice has almost disappeared from the harbor and from the lake within vision, there are still large quantities floating in the open lake and until the fishermen are reasonably certain that they will not encounter ice in large quantities they will not go out. None of them are anxious to buck ice, the damage to the boats being far greater than the gain in time would offset. The tugs, however, are being fitted out, and they will be ready to go into commission in a week or ten days. The Marquette fleet consists of the Ethel B., owned by H. F. Handford; the Theora, owned by Captain Parker, and the Columbia, owned by Peter Anderson. The crews have already reported and they are working on the boilers and engines. Some repair work is necessary on every boat in the spring, and a week's work, at least, will be necessary on each tug before it will be sent out on the first trip. Marquette fishermen are interested in State Game Warden C. H. Chapman's movement to have a general revision of the game and fish laws, especially those relative to commercial fishing. Mr. Chapman criticizes the large number of local acts relative to game and fish protection, many of them contradictory and inconsistent, and he urges that all good local acts be incorporated in the general laws. In this he is backed up by the Lake Superior fishermen in general. Four years ago the state legislature passed a law which has worked considerable hardship on fishermen in waters in this vicinity. The law had for its object the preserving of herring and line fishing in Munising bay and adjacent waters and prohibited fishing with nets in the bay, in Lake Superior, as far south as Grand Portage and as far northwest as Laughing Whirlpool point and two miles north of Grand Island. Munising fishermen took up the matter and their attorney had several conferences with the officials of the Cleveland-Cliffs Iron company during the past few years. As a result of the present session the legislature will probably be asked to modify the onerous law. The modified law, instead of which net fishing will still be prohibited, will extend from a point near Sand point across to Trout point on Grand Island and half a mile out from and around the latter, to a point between Williams' island and Grand Island and extending to a point on the mainland opposite Williams' island. This leaves the fishing grounds around Grand Island and outside of Trout point and the deep water fishing around Williams and Wood islands open to net fishing. The Cleveland-Cliffs Iron company merely desires to protect game fish in the shallower waters around Grand Island and in Munising bay and has assented to the proposed change. The change, if made by the legislature, would be welcomed by fishermen here and at Munising. Last season was not by any means as prosperous for fishermen as some former years and the right to fish in these waters would be welcomed. A number of nets were seized last year in waters in which, under the proposed new law, net fishing would be allowed in the future.

ANNUAL REPORT OF STREET COMMISSIONER

MUCH WORK DONE ON STREETS AND SIDEWALKS OF MARQUETTE DURING FISCAL YEAR ENDING MARCH 13.

Robert R. French, street commissioner, has filed with the controller his report for the fiscal year ending March 13, 1907. Mr. French reports a large amount of work in the way of building streets and concrete walks, together with extensive work on the Lake Shore boulevard. Following is the statement of receipts and expenditures:

Receipts for streets, sewers and bridges:
Cash on hand March 13, 1906 \$ 600.41
Spec. rolls for concrete walks 11,133.72
Spec. rolls for wood walks, linn, and stone sold 1,554.28
General fund 16,980.00 \$30,288.41

Receipts for Lake Shore boulevard and breakwater:
Cash on hand March 13, 1906 \$ 463.39
From general fund 500.00
From general fund since April 17, '06 5,817.05 \$ 6,813.34

Total receipts \$37,101.75
The total expenditures for streets, sewers, walks and bridges were \$30,173.74. In the general street work, the facts presented had enlightened him considerably. He said that he thought, however, that the matter should be deferred until after the new board had come into office. Supervisor Youngbluth also expressed his appreciation of the talk, and suggested that the members of the board do all in their power, as individuals, to further the work of the committee having the matter in charge. Mr. Powell then moved that the matter be deferred until the next meeting of the board and then be taken up as unfinished business.

On the opening of the session of the board yesterday a petition was presented from a number of freeholders in the two townships of Richmond and Negunee, asking that a portion of Richmond township consisting of Sections 10, 11 and 12 of Town 47 N. R. 26 west, be detached from Richmond township and attached to Negunee township. All legal requirements had been complied with by the petitioners. Attorney Bell explained the statute to the supervisors and also explained the situation which prompted the petition. He said there are a number of settlers in Richmond township in the sections it is proposed to detach and there are also a number of settlers across the line in Negunee township. In neither case were there enough for a school and the families were therefore without educational advantages. With the settlers gathered in one township a school would be provided.

County Superintendent of Schools Stearns also spoke on the matter, corroborating Mr. Bell's statements. Supervisor Frederickson of Richmond township and Supervisor Peterson of Negunee township said there was no objection in either township. The petition was therefore granted.

The report of the special committee appointed to have an audit of the county books was read. It was accompanied by the report of J. A. Dresser, the auditor engaged by the committee to do the work. Mr. Dresser reported that he found the books of the county clerk and county treasurer in excellent order. He reported the books of the treasurer tallying with those of the townships and the accounts in the auditor general's office. He examined the books of the justices and found them correct. The dockets of Justices Byrnes of Marquette and Trathen and Verran of Negunee had not been written up for three or four months, however. He said there was no excuse for ignoring the law in this respect and called the attention of the committee to it. He also criticized the practice of assessing rejected taxes on the general role, leaving property owners who taxes had been rejected on account of error go without taxation. The report was accepted.

The legislative committee, which has been delegated to take steps toward a revision of the state game laws, reported on the meeting held at the court house on Feb. 6. It reported that the committee appointed at the meeting to draft the proposed revisions into a bill had completed its work. The committee presented a petition from J. M. Longyear and fifteen other freeholders of Powell township, in which it was stated

gen last year. Just figure that out, one death every three and a half hours, day and night.

Asks Universal Support. Dr. Harkin asked the aid of every individual, regardless of his profession, in the campaign of education against the disease. He said lawyers, preachers and leaders of fraternal organizations should speak on the subject and in every school there should be a short course each term on the causes of tuberculosis and the means of preventing the disease. He emphasized the necessity of a rigid inspection of cattle, for, he said, it was proved that the presence of tuberculosis bacilli in milk results in thousands of deaths among children each year. He said the disinfection of infected houses is not given sufficient attention and that only in the control of the bacilli could tuberculosis be controlled. "Tuberculosis is not hereditary," he said. "A weakness of the tissues, which makes the individual more susceptible to the disease, may be inherited, but the germs are not, and if the bacilli can be kept out of the system, the disease can be prevented." He made a plea for plenty of fresh air and sunshine as the most effective weapons against the germs. He then took up the treatment of the disease. Formerly, he said, physicians dosed the patient with drugs, cod liver oil being a favorite. This treatment is no good, however, and with the discovery that in the combating of the bacilli lay the fight against the disease more safe and sane methods were adopted. The resisting power of the individual against the bacilli must be increased and this can be done by plenty of fresh air and sunlight and well cooked, nourishing food. This method of treatment is known as the sanitarium method. A series of buildings are constructed, the patients being divided into three classes, the incipient cases, advanced and hopeless. The incipient cases are kept in separate buildings. It has been found, he said, that of the incipient cases between 60 and 70 per cent can be cured and as high as 75 per cent; the percentage of cures in the advanced cases runs about 40 to 50 and in the hopeless cases an isolated cure is considered an achievement. He also spoke of the rest treatment, and Dr. Reich's method of increasing the resisting power of the individual system.

Climatic Treatment Ineffective. Dr. Harkin scored the practice of sending patients to southwestern states. He said the climatic treatment could not work good results, as the patient, far away from home and among strangers, could not care for himself and, becoming homesick, his constitution is weakened and with it the power of resistance and, consequently, the disease is able to make even greater ravages upon the system. He said it has been proved that patients can be treated just as well at home as they can in Colorado, Arizona, New Mexico or any of the other southwestern states. Even, he said, upper peninsula patients should not be sent to the state institution, if their relatives could not visit them often. If an upper peninsula sanitarium were established the home environment would be present, friends could visit the patients and encourage them and he predicted excellent results. He urged the board of supervisors to appoint a committee to confer with similar committees from other counties in the upper peninsula, with a view to establishing a sanitarium for Marquette county along other counties to do the same; for associated counties, or for the entire upper peninsula.

After the conclusion of Dr. Harkin's talk, Supervisor Powell thanked the doctor on behalf of the board and said that the facts presented had enlightened him considerably. He said that he thought, however, that the matter should be deferred until after the new board had come into office. Supervisor Youngbluth also expressed his appreciation of the talk, and suggested that the members of the board do all in their power, as individuals, to further the work of the committee having the matter in charge. Mr. Powell then moved that the matter be deferred until the next meeting of the board and then be taken up as unfinished business.

On the opening of the session of the board yesterday a petition was presented from a number of freeholders in the two townships of Richmond and Negunee, asking that a portion of Richmond township consisting of Sections 10, 11 and 12 of Town 47 N. R. 26 west, be detached from Richmond township and attached to Negunee township. All legal requirements had been complied with by the petitioners. Spring Footwear For Men, Women and Children. Our Spring Footwear has been selected after most careful study of designs submitted by the foremost shoe manufacturers in this country. Our own ideas have been blended with theirs to such an extent that we are able to offer an unusually exclusive assortment. While utmost consideration has been given to the style feature great stress has been brought to bear on the most important point—that which constitutes best values.

Women's Shoes and Oxfords. This season brings many smart and becoming designs in Women's Footwear. There are no radical changes, the style seeming to be the perfection of the efforts striven for last season. Black leathers are prepared. The short vamp effects, military heels and arched insteps will be much in vogue. We direct attention to our special values at 3.50 and 4.

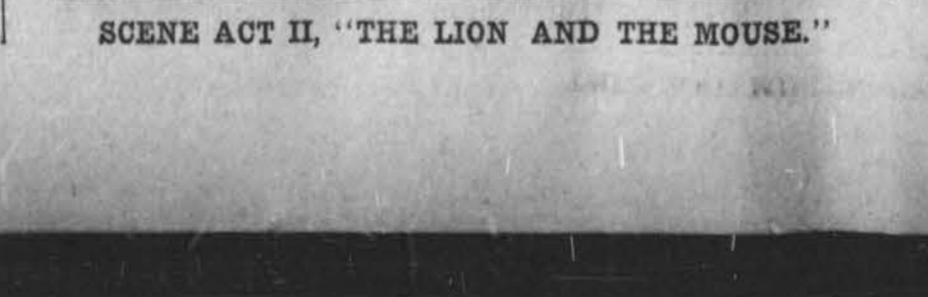

Rose's Shoe Store. 304 S. Front St. The Store of Quality. Marquette.

CARPETS IT'S AFFORDABLE. CLEANED AND DISINFECTED at the Steam Laundry. The new and harmless process. Carpets called for and delivered in three hours. F. H. FENNER - Marquette.

Needham Bros. & Williams. Marquette, Mich.
