

HARRIMAN DEAL UNDER HOT FIRE

Government Attorney Kellogg, Arguing Before Interstate Commerce Commission, Sharply Criticizes Financing of the Alton.

Characterizes It as a Shining Mark of Wall Street Manipulation—Liabilities of the Road Increased \$80,000,000 to Pay for Improvements Costing a Much Smaller Sum—Bonds Worth Par Taken Over by the Syndicate at Half the Actual Value.

Washington, April 5.—After a two days argument the interstate commerce commission today concluded its hearing in the investigation of the transactions of E. H. Harriman in Southern Pacific and Alton securities, and took the case under advisement.

There were three addresses today, one by Attorney John G. Milburn in defense of Mr. Harriman's course, and one each by Special Attorneys C. A. Severance and Frank Kellogg in criticism of it.

Mr. Milburn enlarged upon the contention that the Union Pacific and Southern Pacific had not been competing lines before consolidation, but urged that even if they were, one of them had the right to purchase the property of the other.

As to the Alton deal, Mr. Kellogg said, the liabilities of the road had been increased to the extent of \$80,000,000, "for which," he declared, "the syndicate did not give the company one dollar aside from a moderate equipment."

Mr. Kellogg would not say that other roads had not made similar expansions, but that this was an example to be brought to the attention of congress. All the improvements could have been made by a comparatively slight increase of the road's interest account.

The government attorney claimed that the Alton bonds had been sold to Mr. Harriman and his friends at sixty-five cents on the dollar, when they could have been made to bring par.

Mr. Kellogg said that in the recapitulation of the road the losses of the original stockholders, which had inured to the benefit of the company to the extent of \$11,000,000, had been utilized as the starting point of that transaction.

PROHIBITION WAVE

Stringent Regulations in South Have Reduced Use of Whisky.

Bristol, Tenn., April 5.—The sentiment against the liquor traffic is growing rapidly in the mountains of this southern region, and many towns are voting out the open saloon.

When asked as to whether or not the stringent regulations had reduced the use of whisky in the mountains, the old-timer said they certainly had, and that there was now much less drunkenness in western North Carolina.

J. R. WALSH INDICTED AGAIN.

Mismanagement of Bank Charged by the Federal Grand Jury.

Chicago, April 5.—The federal grand jury today returned a second indictment against John R. Walsh, former president of the Chicago National bank, charging mismanagement of that institution.

AUTOMOBILE KILLED A MAN.

Kenosha, Wis., April 5.—The jury in the case of Edward Collier, charged with manslaughter in the fourth degree for running down and killing of William Dryer while driving an automobile, brought in a verdict of guilty today.

FOUND DEAD IN HER ROOM.

Wardrobe Mistress of the "Peter Pan" Company Sufficed by Gas.

Chicago, April 5.—Mrs. Mary Meighlor, wardrobe mistress of the "Peter Pan" company, now playing in this city, was today found dead in her room at 236 State street. She was accidentally asphyxiated by gas. The body was identified by Miss Maude Adams, head of the company with which Mrs. Meighlor was engaged.

TODAY'S WEATHER.

Washington, April 5.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Saturday and Sunday; fresh southeast winds, increasing.

WHITEHOUSE REFUSES TO GIVE OUT NAMES

IDENTITY OF THE PRESIDENT'S INFORMERS OF PLOT AGAINST HIM IS NOT DISCLOSED.

Washington, April 5.—Secretary Loeb declared today that no names were mentioned at the White House yesterday when reference was made to some public men who had been present at a dinner and had told the story of the alleged combination to accomplish the defeat of the president's policies in the coming presidential campaign.

It was stated afterward at the White House that knowledge of the "cabal" came to the notice of the president some time before the dinner at which the whole scheme was laid bare.

Labor Committee Enters Protest. New York, April 5.—The executive committee of the organization known as the Moyer-Haywood Protest conference announced tonight that it had sent to President Roosevelt a letter protesting against the president's reference to Moyer and Haywood in the letter addressed to Representative James S. Sherman.

NO CHANGE IN CIRCUITS.

Topeka Ball Club Must Remain in the Western Association.

Topeka, Kas., April 5.—President Shively, of the Western Association of Baseball Clubs, today received a telegram from Chairman Hermann, of the national baseball commission, stating that the commission had decided not to disturb the circuits in the West at present, and that the Topeka club must remain in the Western association for the time being.

CARNEGIE DONATES SIX MILLIONS MORE

ENDOWMENT FUND OF CARNEGIE INSTITUTE IS MORE THAN DOUBLED IN SIZE.

Pittsburg, April 5.—W. N. Frew, president of the board of trustees of the Carnegie Institute, today made public a letter he had received from Andrew Carnegie, in New York, announcing that Mr. Carnegie has made an endowment of \$6,000,000 to the institute. This gift is in addition to the \$4,000,000 given by Mr. Carnegie some time ago.

GOVERNOR GIVES APPROVAL.

Maximum Rate of Fare in Pennsylvania Two Cents a Mile.

Harrisburg, Pa., April 5.—Governor Stuart today signed a bill making the maximum rate of fare on the railroads within the state, two cents a mile.

GOVERNOR GIVES APPROVAL.

Maximum Rate of Fare in Pennsylvania Two Cents a Mile.

Montreal, April 5.—George Champolier lost the lightweight wrestling championship of America tonight to Eugene Tremblay, a local wrestler. Tremblay won the first and third falls.

JEROME YIELDS IN THAW CASE

Prosecutor Will Not Apply to the Supreme Court for a Writ of Prohibition or Mandamus Further Halting the Proceedings.

He Reaches This Conclusion After Consultation With Eminent Counsel—Trial Will Be Resumed on Monday, When Mr. Delmas Will Begin His Summing-Up Address, and It Will Be Pushed to an Early Termination—Disagreement Is Expected.

New York, April 5.—The trial of Harry K. Thaw for the murder of Stanford White will proceed Monday morning, when Mr. Delmas, leading counsel for the defense, will begin his summing-up address to the jury.

ORDERS GO TO TROOPS; RIOTERS' WORK STOPS

WITH MILITIA HELD IN READINESS, TURBULENCE ENDS AT LORAIN (O.) SHIPYARDS.

Lorain, O., April 5.—With the members of Company B of this city under orders to close to the seat of the trouble, and three companies of Cleveland troops under orders to respond to a call at any moment, quiet prevails tonight at the yards of the American Shipbuilding company, a scene of rioting for two days past.

The district attorney has many witnesses still under subpoena, but it is said that he has decided not to call them, and will press the trial forward to an early verdict, or what is regarded as more likely, a disagreement of the jury.

CUTTING OFF AMBASSADORS.

Attitude of the United States Makes Change in Chile's Plan.

Washington, April 5.—Chile's failure to send a minister to Washington to replace Mr. Walker-Martinez, who did not return here after the Pan-American Conference of Rio de Janeiro last summer, has caused much comment in the United States.

WILL INVOLVE 150,000 MEN.

Railroad Brotherhoods Now to Ask Higher Pay on Eastern Lines.

Chicago, April 5.—The Tribune says that the next big movement for higher wages of the railroad men will be directed against the Eastern roads, and the leaders of 150,000 employes are already preparing to take action.

U. S. CONTROLS BACON SUPPLY.

Decrease of Production One Year Would Deprive Many of Meat.

Washington, April 5.—The great corn belt of the United States holds the world in its grasp. The information comes in a roundabout way to the department of commerce and labor, through consular sources, but since it is British authority it may be accepted as true.

HIGH PRAISE FOR JAP TROOPS.

Infantry Largely Responsible for Victory Over Russia, Says Gen. Bell.

Washington, April 5.—Major General Bell, chief of staff, in a letter to the president commenting on the Russo-Japanese war, ascribes Japanese success in a large measure to the way in which the Japanese infantry were trained.

BIG DEBT WIPED OUT.

Mormon Church Pays Up \$7,000,000—Issues Address to the World.

Salt Lake City, April 5.—President Joseph F. Smith announced today that the Mormon church had completely paid up its \$7,000,000 bonded indebtedness. A lengthy address to the world was adopted, setting forth the principles of Mormonism, protesting against the criticism brought against the church, proclaiming loyalty to the United States and declaring that the church has kept the pledge given when statehood for Utah was made possible on the condition that

STORM HAVOC IN THE SOUTH

Tornado Sweeps for Upwards of Three Hundred Miles Across Portions of Three States Bordering the Gulf of Mexico.

A Score of Lives Are Lost and Many Persons Injured—Four Towns in Louisiana, Mississippi and Alabama Are Devastated in Part, Causing an Aggregate Loss of Probably Half a Million Dollars, and Crops Throughout the Zone Are Severely Damaged.

DEPOSED FROM THE PRIESTHOOD.

Dr. Tuckerman of Boston No Longer a Member of the Episcopal Clergy.

Boston, April 5.—It was learned tonight that Rev. Gustavus Tuckerman of this city and formerly of New York and St. Louis was last Tuesday formally deposed from the priesthood of the Episcopal church by Right Rev. Dr. David A. Greer, bishop coadjutor of New York, with which diocese Dr. Tuckerman has been canonically connected. Dr. Tuckerman's relations with the Episcopal church were severed because he could no longer accept the teachings of that communion regarding the doctrine of Holy Trinity and Virgin birth, and he is now a minister of the Unitarian denomination.

ACTION TAKEN AT HIS OWN REQUEST.

New York, April 5.—"Mr. Tuckerman was deposed from the priesthood of the Episcopal church at his own request," said Bishop Greer to the Associated Press tonight. "There is no way for a man to resign from the church except by active deposition by the bishop, and it was Mr. Tuckerman's own solicitation that I pronounced him deposed last Tuesday. There is nothing whatever in his moral character that can be criticized. He simply desired to leave the church to enter social settlement work in Boston. He is a man of high character and mind. I simply complied with his desire."

NEW ORLEANS, LA., APRIL 5.—A score of lives were lost today in a tornado which swept across a portion of three Gulf states and which was traceable for 300 miles.

The tornado began at Alexandria, La., instantly killing four persons there, probably fatally injuring three and seriously injuring thirteen others. Then it killed five persons at Jackson, La., while at Bayou Sara, La., at least a half dozen others fell victims. There was one fatal injury at Jackson. The tornado next appeared at Carson, Miss., where great property damage was done, and the last heard of it was about noon, near Selma, La., where one death, that of a negro, was reported.

Among the whites killed were: Omer Deck and Matthew Dunn of Alexandria and three female inmates of the Jackson insane asylum, names unknown. Miss Mary Lea, of Jackson, La., was fatally injured.

Alexandria a heavy hail storm added to the general discomfiture. The main portion of the town escaped the worst of the tornado, which cut a path through the northern part of the city. About a score of homes were completely wiped out and fifty others were fatally damaged. Altogether probably 100 buildings were seriously wrecked, including several business houses.

At Bayou Sara, passengers on the steamer Betsy Ann had a thrilling time. The vessel was forced to almost a total wreck. While timbers both from the steamer and from the shore fell through the air, the crew got all the passengers safely ashore.

The details are meagre from Jackson, La. The main part of the town was almost wholly wrecked, with a loss of about \$200,000. Several residences also were destroyed.

MINNEAPOLIS CARPENTERS OUT.

Minneapolis, April 5.—The Carpenters' union of this city tonight voted to strike to enforce its demands for an increase in wages of five cents an hour, and thereby have tied up \$800,000 worth of buildings. About 1,700 men are affected.

MINNEAPOLIS CARPENTERS OUT.

Chicago, April 5.—The Tribune says that the next big movement for higher wages of the railroad men will be directed against the Eastern roads, and the leaders of 150,000 employes are already preparing to take action.

U. S. CONTROLS BACON SUPPLY.

Decrease of Production One Year Would Deprive Many of Meat.

Washington, April 5.—The great corn belt of the United States holds the world in its grasp. The information comes in a roundabout way to the department of commerce and labor, through consular sources, but since it is British authority it may be accepted as true.

HIGH PRAISE FOR JAP TROOPS.

Infantry Largely Responsible for Victory Over Russia, Says Gen. Bell.

Washington, April 5.—Major General Bell, chief of staff, in a letter to the president commenting on the Russo-Japanese war, ascribes Japanese success in a large measure to the way in which the Japanese infantry were trained.

Tornado Sweeps for Upwards of Three Hundred Miles Across Portions of Three States Bordering the Gulf of Mexico.

A Score of Lives Are Lost and Many Persons Injured—Four Towns in Louisiana, Mississippi and Alabama Are Devastated in Part, Causing an Aggregate Loss of Probably Half a Million Dollars, and Crops Throughout the Zone Are Severely Damaged.

New Orleans, La., April 5.—The death list from today's tornado is growing, and will reach twenty in Louisiana alone, according to reports late tonight. A report comes from the state insane asylum at Jackson, La., where nearly all the patients were left without shelter, that twenty of them were seriously injured.

NEW ORLEANS, LA., APRIL 5.—A score of lives were lost today in a tornado which swept across a portion of three Gulf states and which was traceable for 300 miles.

The tornado began at Alexandria, La., instantly killing four persons there, probably fatally injuring three and seriously injuring thirteen others. CITY AT FIRE FIEND'S MERCY.

Water Main Bursts at the See, Forcing the Suspension of Pumping.

Sault Ste. Marie, Mich., April 5.—A water main burst today, necessitating the shutdown of the plant, leaving the city without fire protection and its twelve thousand people without water except that carried from the river.

BURNS WITH ITS CARGO.

Steamer City of Troy Destroyed at Dobbs Ferry, N. Y.

Dobbs Ferry, N. Y., April 5.—The steamer City of Troy burned to the water's edge here tonight. The sixty-five passengers were landed safely. The steamer was completely destroyed with its cargo of freight and thirteen horses. Edwin's Gould's dock, to which the City of Troy was tied when it was found impossible to control the flames, was also burned.

NO CONFLAGRATION THERE.

Santiago, Cuba, Sends Denial of Tale of Flames' Disastrous Work.

Santiago, Cuba, April 5.—Reports published in the United States that a serious fire had broken out here, that Santiago was in uproar, that families were destroying their homes and that it was feared the whole city might be laid in ruins, are in every respect utterly untrue. The entire story, with all its imaginative details, is absolutely fictitious. There has occurred here a fire not worthy of mention as a news item, and nothing more.

FIRE AT MONTREAL CAUSES HEAVY LOSS

ENGINEERING BUILDING AT M'GILL IS DESTROYED—FINEST OF ITS KIND IN AMERICA.

Montreal, April 5.—The McDonald Engineering building at McGill University was destroyed by fire today. The loss is estimated at between one-half and three-quarters of a million dollars. It was supposed to have been the best equipped structure of its kind on the continent.

WISCONSIN DEBATERS WIN.

Victorious Over Both Those of Iowa and Nebraska Universities.

Madison, Wis., April 5.—The University of Wisconsin debaters tonight defeated those of Iowa University. Wisconsin had the negative of the question: "Resolved, that municipal ownership of street railways is more desirable than regulation of operation and rates by a state board."

Lincoln, Neb., April 5.—The debaters from the University of Wisconsin were awarded the decision over the representatives of the University of Nebraska in tonight's oratorical contest. The question was: "Resolved, that the cities of the United States should seek a solution of the street railway problem through private ownership." Wisconsin had the negative. W. J. Bryan presided, and made a brief address.

St. Paul, April 5.—Minnesota won the debate tonight from Illinois, taking the affirmative of the question: "Cities should seek a solution of the street railway problem through private ownership."

Iowa City, Ia., April 5.—Iowa was defeated tonight in the annual debate by Minnesota. The question involved was private ownership of railroads, Minnesota supporting the negative.

COLLEGE LOSES BEQUEST.

New York, April 5.—The appellate division of the supreme court today declared invalid the provisions of the will of George W. Catlin as far as they relate to the College of Agriculture and Mechanic Arts, by which the college loses revisionary interests of \$26,000. The decision was based on the ground that the college is not an incorporated body, and therefore cannot act as a trustee to hold property.

STABS FIVE MEN ASLEEP IN BED

WAR VETERAN RUNS AMUCK AT SOLDIER'S HOME—TWO OF HIS VICTIMS DYING.

Dayton, O., April 5.—Wm. H. Huffman, a veteran of the Civil war, ran amuck at the Soldiers' Home last night, and stabbed five veterans while they were asleep. Huffman thought the men were plotting to kill him. The guards had a terrible struggle before they overpowered him. Two of his victims are in critical condition.

SENSATIONAL SUICIDE AT SAN FRANCISCO.

San Francisco, April 5.—Almost with his last breath Percy I. Wells, a civil engineer of Waltham, Mass., arose from his deathbed at a hotel this afternoon just as he was about to sign his will, and dashed his head against the wall with such force that he died a few moments later. Wells had been in Guatemala for two years, engaged in road work. He arrived in San Francisco April 2 in the last stages of consumption. He became crazed with grief when told that he could not live to reach home and see his mother and sister before dying. He sent for an attorney to draw up his will, and every effort was made by the physicians to keep him alive until the document was provisionally made. A few minutes before it was ready, Wells suddenly arose from the bed and hurled himself head foremost against the wall.

WILL RAISE FUND OF \$100,000.

Kansas City, Mo., After the National Republican Convention.

Kansas City, April 5.—The Tiger Republican club of Kansas City, Mo., appointed a committee of prominent citizens today to raise \$100,000 to bring the national Republican convention of 1908 to this city.

CHINA TO ASK BIG LOAN.

London, April 5.—The Shanghai correspondent of the Post says that the Chinese government proposes to raise a foreign loan of \$7,500,000 for the purpose of securing and equipping arsenals and for the construction of a railroad from Peking to Kalgan, 125 miles northwest.

ATHLETE BREAKS A RECORD.

New York, April 5.—Harry Hillman of the New York Athletic club broke the 220-yard American indoor low hurdle record tonight. His mark was 261.3 seconds, a fifth below the former record, which he also held.

SAYS THE CZAR WILL ABDICATE

Emperor's Mind Has Given Way Until He Is Incapable of Performing Even Smallest Duties, Declares a British Newspaper.

Grand Duke Michael Will Take the Reins as Regent During the Infancy of the Czarevitch, Parliament Will Be Abolished and the Revolution Will Be Crushed With an Iron Hand, It Is Asserted—However, Russian Diplomats Discredit the Story.

London, April 5.—The Mirror claims to be in a position to announce upon the "highest authority" that the emperor of Russia purposes to abdicate within a month, and that Grand Duke Michael will be appointed regent during the infancy of the czarevitch.

For the past three or four weeks, the paper says, events in this direction have been proceeding with lightning rapidity in St. Petersburg, but the secret has been well kept. Continuing, the Mirror says: "Late the emperor's mind has given way even more completely, and he has shown himself incapable of performing the smallest duties of his rank."

The lower house of parliament is to be abolished, and there will be formed a military dictatorship with the object of stamping out the revolution and putting an end to the anarchy in Russia. The paper declares further that a marriage has been arranged between Grand Duke Michael and Princess Victoria of Schleswig-Holstein, and the visit to London of the dowager empress of Russia was chiefly for the purpose of negotiating this alliance.

Count Benckendorff, Russian ambassador to Great Britain, in an interview regarding the story expressed surprise thereat, and said that he had heard nothing officially or otherwise to confirm these statements. He did not believe them, but on the contrary discredited the story entirely. Baron Sternberg, Russian consul general here, said it was "all rubbish."

EXCITEMENT IN CUBA.

Secretary Taft's Expected Arrival Tomorrow Is Eagerly Anticipated.

Havana, April 5.—There is much subdued excitement here over the expected arrival Sunday of Secretary Taft because of the belief that he will make a definite statement regarding the date of the end of the American intervention in Cuba. Conservative newspapers recognizing that the enmities engendered during the revolution of last August are not abated, express no hope of the early withdrawal of the American authorities, while the Liberal organs declare the country pacified and ready for new elections. The Liberal general have still failed to establish party harmony.

WORLD'S FAIR PLAN OPOSED.

Steel Manufacturers of Germany Protest Against Proposed Exposition.

Essen, Prussia, April 5.—At a general meeting of German iron and steel manufacturers, held here today, unanimous objection was voiced against the proposed world exposition proposed in Berlin in 1913, the twenty-fifth year of Emperor William's reign. It was characterized as futile and unprofitable.

BOMBARDMENT CEASES.

American Cruiser Reaches the Port Where Bonilla Is Pinned Up.

San Salvador, April 5.—The cruiser Chicago has reached Amapala, where President Bonilla is said to be shut in by the forces of Nicaragua, and when she entered the harbor the bombardment of the town ceased. Salvador is quiet.

AVALANCHES OCCASIONED.

Alps on the Austro-Swiss Frontier Violently Shaken by Earthquake.

Genova, Switzerland, April 5.—There were two earthquakes today in the Rhoetikon Alps, on the Austro-Swiss frontier. They caused numerous avalanches, and sections of forest land were swept away by landslides.

WILL RAISE FUND OF \$100,000.

Kansas City, Mo., After the National Republican Convention.

Kansas City, April 5.—The Tiger Republican club of Kansas City, Mo., appointed a committee of prominent citizens today to raise \$100,000 to bring the national Republican convention of 1908 to this city.

CHINA TO ASK BIG LOAN.

London, April 5.—The Shanghai correspondent of the Post says that the Chinese government proposes to raise a foreign loan of \$7,500,000 for the purpose of securing and equipping arsenals and for the construction of a railroad from Peking to Kalgan, 125 miles northwest.

ATHLETE BREAKS A RECORD.

# Copper Country

### TWO ATTEMPTS AT SUICIDE. FIRST NATIONAL OF LAURIUM.

#### Insane Inmates of County Jail Sought to End Their Lives.

Sheriff Beck found it necessary Thursday to manacle two insane patients in the county jail in order to frustrate their attempts at suicide. Their hands are now confined in huge leather muffs. The first man to try to put an end to his own career was a stranger who walked to the jail a few days ago and announced that he was insane. The sheriff decided that the man was suffering with a mild attack of the tremors and he justly sawed committed him for thirty days that he might receive proper treatment. His insanity speedily became manifest and took the form of suicidal mania. He begged the sheriff and the other prisoners to kill him. The attempt he made yesterday was along new lines, including drowning as a finale.

A man from Kenton was the second would-be suicide. He was brought in two days ago. He tried to open the veins in his wrist with a knife so that he might bleed to death, but the sheriff caught him in the act. There are in all four insane prisoners in the county jail at this time, the most interesting being Joe Hamel, the matricide.

#### New Bank to Open in Temporary Quarters Next Tuesday.

R. Bruce Patton of Lake Linden, cashier of the new First National bank of Laurium, and David Leveque, its assistant, are making preparations for the opening of the institution in C. A. Anderson's building on Third street. These will be temporary quarters, and will be used until the bank building is erected at Third and Recla streets. The bank will open in the temporary quarters next Tuesday morning.

The new building will be started as soon as spring weather conditions permit. It will be a three-story brick structure. The First National will occupy the entire third floor. The second floor will be divided into office rooms, and it is possible the third floor may be used for lodge purposes, though the original plan call for office rooms on that floor also.

#### LAURIUM BANK OPENS UNDER FAVORABLE AUSPICES. Its officers and directors are solid businessmen of Calumet, and its prospects as a business enterprise were recognized immediately on the announcement of the project by an over subscription of the stock. Mr. Patton, the cashier, has had a long banking experience in the Lake Linden institution, and comes to his new work fully equipped.

#### COPPER COUNTRY SPORTS.

#### "Grasshopper" Adopted as League Soubriquet—Minor Sporting Notes.

A few weeks ago an ill-advised writer on the Detroit Times applied the word "grasshopper" to the Northern-Copper Country league as a term of derision, a reference to the long jumps which the teams will have to make this season. The Mining Journal was willing to adopt that name as the colloquial designation of the league, and now the Duluth Herald seems to agree, saying: "The problem of a suitable nickname for the Northern-Copper Country league has been solved. It is too much of a mouthful to reel off the 'Northern-Copper Country league' every time reference is made to the four club circuit. It would be almost as easy to say the 'Duluth, Winnipeg, Calumet and Houghton league.' But why not call the organization the 'grasshopper league' owing to the long jumps?"

This brings up the question of nicknames for the teams. The Winnipeg Maroons could well be called the "flying grasshoppers," owing to their location in the most distant corner of the circuit. The Duluth "leucists" would fit the White Sox very well owing to the migratory qualities which they will have to adopt. There are only two well known kinds of grasshopper left, and the Houghton Giants would have to worry along under the name of the "Calopteni ferrumbrum," while the Calumet Aristocrats could be called the "Lucustae viridissima," which are respectively the green and brown grasshoppers. But if they started advertising a match between the Houghton Calopteni ferrumbrum and the Calumet Lucustae viridissima, the authorities might step in and prevent it.

The Hancock independent baseball team, which put up a good article last season, has re-organized. William J. Ryan will again be manager, captain and first baseman.

Frederick Lake star left wing player of the Portage Lake hockey team, who had been visiting in Houghton since the close of the season, has left for his home in Mooseman, Man.

# ROYAL BAKING POWDER

## Makes delicious hot biscuit, griddle cakes, rolls and muffins.

### An absolutely pure, cream of tartar powder.

ROYAL BAKING POWDER CO., NEW YORK.

#### USING IRON WIRE.

#### Michigan State Telephone Company Finds Copper Too High.

The Michigan State Telephone company is using iron wire to restore the lines between Calumet and Houghton, several miles of which were destroyed in the sheet storm of a week ago. The company shipped to Manager Forbes at Houghton ten tons of this material and it is replacing the old copper wire. The officials of the company declare that copper wire is too high at present to be used in such an extensive repair job, that the price is prohibitive. It is an odd fact that in the copper country, copper cannot be used in such a familiar service as telephony, in which it is the material most used. The iron wires are not as good service, of course, but are not as durable.

#### FATAL ACCIDENT AT VICTORIA.

#### One Miner Killed and Another Injured in Blast.

Onnen Keskinen was instantly killed and Nester Elander was badly cut and bruised, the result of a blast while at work in the Victoria mine. The men were partners, and were engaged in digging powder from a missed hole. They were cutting around the hole, and accidentally struck the powder. Keskinen received the full force of the blast, being instantly killed. He leaves a wife and four small children.

Coroner Fisher of Calumet has concluded the inquest into the death of Dominick Tomasi, who was killed Thursday morning in No. 5 shaft of the Calumet branch of the C. & H. The verdict of the jury was that death was accidental. The facts showed that there was either a misunderstanding in signals or a defect in the signal transmission. The jury, however, did not fix the responsibility for the fatality.

#### DEATH OF MRS. J. E. SCALLON.

Mrs. J. E. Scallon, wife of Hancock's best known physician, died Thursday night after a long illness. Her demise was not unexpected, as the malady with which she suffered was known to be fatal. Mrs. Scallon was a daughter of the late Michael J. Finnegan, a former retired farmer and politician of Houghton. Her husband, one son and two daughters survive. Her brother is J. T. Finnegan, city attorney of Hancock. The arrangements for the funeral will be completed today.

#### FIRE IN GARTNER'S STORE.

A furious blaze broke out in Jacob Gartner's big store in Hancock Thursday night at 10 o'clock, and for a time it had the appearance of a fire which would have serious results. The fire department performed the swiftest extinguishment on record, however, getting the blaze under control within a few minutes. The damage amounted to only a few hundred dollars. The cause of the fire is not known. It broke out in the third floor in the house furnishing department.

#### FUNERAL OF MICHAEL FINN.

The remains of the late Michael Finn will be interred in the Catholic cemetery in Hancock Monday morning, after funeral services conducted by Rev. Father Atfield at St. Patrick's church. The Hon. Dan J. Conroy, city attorney, will officiate at the funeral. At the meeting of the city council, Thursday night, Mayor Scott appointed a committee to draft suitable resolutions and to arrange for a proper expression of respect by the city at large.

#### BASEBALL LEAGUE SCHEDULE.

Dr. Glass, president and secretary of the Northern-Copper Country Baseball league, has issued copies of the schedule for the coming season. It will be published by the evening papers Monday and by the morning papers Tuesday. Dr. Glass advises The Mining Journal that throughout the season all official statements and notices from his office will be given alternately to the morning and evening papers for first publication.

#### COPPERDOME BREVITIES.

Justice Olivier of Hancock will today conclude the hearing of Henry Auger, arrested on a charge of shooting William McDonald. It is thought that Auger will be bound over to the circuit court on a charge of assault with intent to commit murder.

The hearing of Britta Hantajarvi, the young woman who was the mother of the babe whose dead body was found in the Hancock ravine two weeks ago, was held in Justice Olivier's court Thursday afternoon. It was adjourned until Monday, pending the transcribing of the testimony. The girl is charged with murder.

The Calumet lodge of Elks has chosen the following officers: Exalted ruler, Josiah Harper; leading knight, Fred Guak; loyal knight, Carl Fiedel; lecturer, Knut Albert J. Davey; chaplain, Dr. C. H. Rappaport; secretary, William Johnson; re-elected; treasurer, C. E. L. Thomas; trustee, James Wiggins; representative to grand lodge, John Foley; alternate, Jerry J. Sullivan.

#### BITTEN BY SPIDER.

Through blood poisoning caused by a spider bite, John Washington of Bonquette, Wis., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." 25c. Guaranteed by The Stafford Drug Co.

"Preventives" will promptly check a cold or the gripe when taken early or at the "sneeze stage." Preventives cure seated colds as well. Preventives are little candy cold cure tablets, and Dr. Shoop, Candie, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early Colds with Preventives and stop Pneumonia. Sold in 5c and 25c boxes by The Stafford Drug Co.

# Mining News

### COPPER REVIEW AND OUTLOOK.

#### D. Houston & Co.'s Monthly Comment—No Reduction Seen in Demand.

D. Houston & Co.'s New York circular says: There is practically little, if any, material change to record in the actual market for copper, where consumers secure the most of their supplies, notwithstanding the recent violent fluctuations reported in London. The movement at that center is a purely speculative one, and beyond whatever sentimental effect may be attached thereto it has no influence in moulding the course of the market here. Conditions, as far as the copper situation is concerned, remain in the same sound position as heretofore, and there is no attempt apparent on the part of the leading producers to solicit business at any concessions from the prices above mentioned. The undertone is firm, although calm, and it conditions continue as promising as previously noted, there seems to be no reason under such circumstances to expect any radical recession in the market.

During the first half of March, a large volume of business was transacted at full prices, but towards the end of the month the market quieted. Large quantities were taken by consumers for May and June deliveries, and a limited amount for July. It is understood that some of the prominent producers have sold the bulk of their product up to July, and are consequently entirely out of the market at present for any big contracts requiring early or nearby deliveries. Consumers continue very anxious to obtain deliveries on time, and the melting of copper proceeds at a heavy rate. There may possibly be some falling off in certain lines of manufacture, but consumption is still maintained on an enormous scale, and there are plenty of channels of distribution for all the metal that is being produced.

The electric demands of the age should be kept constantly in view. The requirements arising from this source alone will prove a factor of huge importance, and when electrical expansion gets under full headway it will furnish a tremendous impetus to the demand for copper. If the execution of certain projects should be delayed somewhat on account of stringent monetary conditions or other disturbances, nevertheless the carrying out of far-reaching improvements must be ultimately undertaken, and with the encouraging prospects looming up there is abundant reason for an optimistic feeling regarding the future of copper. There is a tone of progression in the air, and nothing short of an overwhelming disaster can effectually setback a general forward movement.

London tried its hand at manipulating Standard copper lately, and succeeded in creating wide fluctuations in the speculative warrants traded in on the English exchange. The total foreign stocks of copper in public warehouses the middle of March amounted to only 8,125 tons, and yet on this insignificant quantity of ready supplies the London sales of Standard last month aggregated 25,400 tons. However, these fluctuating values do not represent the trading basis for the fine grades used by the consuming trade, but reflect the sentiment of speculative operators who take a flyer in copper warrants much the same as professional speculators deal in stocks. The price of refined copper is no longer controlled by the market movements in London, but is governed by copper market values and conditions at New York.

#### CALUMET & HECLA-OSCEOLA.

At the hearing before Judge Knappen at Grand Rapids recently, comments the Boston News Bureau, the Osceola people alleged that Calumet & Hecla through its efforts to secure control sought a monopoly of Lake copper, and that this monopoly would naturally work a hardship to the government in the purchase of copper for cartridge cases. To this Calumet replied that it did not seek a monopoly, and that if it was successful in securing the Osceola company, it would even then control less than one-half the output of Lake copper now placed at 225,000,000 pounds per annum.

In reply to the Osceola assertion that Calumet & Hecla was seeking the control of Tamarack, Isle Royale and Almek, Calumet replied that it did not want either Tamarack or Isle Royale and had made no effort to secure a stock interest in either of the three companies mentioned. It is understood that Calumet & Hecla might be able to make Almek a valuable adjunct to its scheme of expansion on the Kearsarge lode, but up to this time it has made no effort to secure any interest in the shares of that company.

An amusing development in connection with the hearing, one which has an important bearing on the question of "monopoly" by the Calumet & Hecla, was the filing of an affidavit by the latter showing that the Osceola people, so far as they were interested in the Lake Superior Smelting company, were being

#### ing east large quantities of Montana electrolytic cathodes and were making in their smelter a 40 per cent admixture with Lake Superior copper and selling the product as "lake copper." The Osceola people finally admitted that this was being done.

The Calumet & Hecla people stated and somewhat reluctantly that the only real difference in the product of that company and that of the other Lake companies was one of refining, and that if the other mines would take the same pains, secure as efficient talent and spend like amount of money, they could if they would, secure a refined product equal to that of the Calumet & Hecla refinery.

Several law points were raised, among them being the allegation that under the Sherman anti-trust laws the Calumet & Hecla could not legally own and vote its control of Osceola, to which Calumet counsel replied that in such a matter the state had the sole right to bring action; that the individual could bring suit for damages, if there were any, but that the bill itself could be brought only in the name of the state.

#### TEXAS RANCH IN FOUR COUNTIES BRINGS \$1,000,000.

San Antonio, Tex., April 5.—The L. X. ranch of 200,000 acres in Potter, More, Carson and Harteleson counties, has been bought by R. S. Allen and Company of Houston, for \$1,000,000. The property was bought from the American Pastoral company of London, England. The L. X. ranch is one of the best in

# Not a "Prospect" But a Mine

## In a Proven District

# Sunset Mining and Milling Co.

### Of Wilcox, Arizona.

This company owns ten claims, or about 200 acres of mineral lands in Cochise County, Arizona, and within one-half mile of the new acquisition to the Calumet & Arizona, the Casey property, for which absolutely undeveloped property the said company paid \$100,000.

The Sunset Mining & Milling Company's property is being rapidly developed under the able and conscientious management of Mine Superintendent George H. Wilson. The ore which is taken out is being shipped to the nearby smelters for treatment and everything indicates that in the near future this will be one of the richest mines in Arizona. Samples of ore from this mine which have been assayed at the Michigan College of Mines by Professor L. S. Austin have shown an ore value of \$134.14 per ton of copper and silver.

A limited amount of stock in this excellent mine is now offered to the public at only 75 cents per share. This offer is good a few days only. For further information apply to:

# IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition, it cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are napping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

Today's weather: Generally fair; stationary temperature.  
Yesterday's temperatures: Seven a. m., 20 degrees; noon, 25; 7 p. m., 22. Maximum, 24 degrees; minimum, 20.

Andrew Hartvigh and John C. Johnson left yesterday for West Baden, Ind. J. D. West, recorder at Ishpeming, was a business visitor here yesterday.

The ideal orchestra will give a social dancing party at Fraternity Hall tonight. Morgan Wright is down from the Mesaba range, visiting his father, B. W. Wright.

Miss Margaret Probst arrived home yesterday from a six weeks' trip in Florida.

Mr. and Mrs. C. O. Lindberg and son, of Houghton, are the guests of Marquette friends.

The tugs Theora and Columbia took a run out on the lake yesterday. They will soon begin fishing.

County Clerk Elliott yesterday issued a marriage license to William Joseph of Nadeau and Miss Jennie Cons of Negaunee.

A special meeting of Our Lady of Victory Court of Foresters will be held at Fraternity Hall this afternoon at 3 o'clock.

E. E. Johnson, general manager of the Newberry furnace, left yesterday morning for that place, after a few days' visit in the city.

The special program of Easter music given last Sunday will be repeated at the services at the Presbyterian church tomorrow morning.

Walter Yeazel, clerk at the Hotel Marquette, has been absent in Troy, O., the past few days, called there on account of the death of a sister. He is expected home today.

William Mason of Powell township and Jacob Herig of Marquette claimed assessor's bounty at the county clerk's office yesterday. The amount of bounty is \$3 a head.

Thomas Scadden, superintendent at the Kimberley-Willey mines, has returned to the properties, after a period of illness. He reports that excellent progress is being made with the new mill.

Otto Linberg, a former resident, was in the city yesterday. He has been graduated from the Michigan College of Mines and has accepted an important position as mining engineer in Mexico. He leaves soon for his new post.

The board of canvassers, George A. Newett, James E. Sherman and F. M. Moore, will meet Tuesday of next week to canvass the election returns. County Clerk Elliott is tabulating them, in preparation for the meeting.

George P. Meyers, of the U. S. Standard Vining machine company, is still in the city. Before leaving he would like to get assurances that his machine will be tested in the next election held here. Twenty U. S. Standard machines were among the makes tried in Chicago Tuesday.

Delivery on June 1—Superintendent Retailic while at Dayton, O., closed a contract with the Dayton Globe Iron works for the delivery of the parts for the repair of the water wheel at the power station. Delivery has been promised by June 1, and it is planned to complete the installation of the new parts that month.

Will Act at Once—Edward McCarthy, who intends to ask the courts for a writ of mandamus to compel the council to recount the votes in the Second and Fourth wards on the office of recorder, was yesterday undecided whether he would wait the return of Judge Stone, who is on a vacation trip south, or go to Lansing, to the supreme court, to seek the order. He said, however, that he expected to begin action without delay.

Must Tax Automobiles—The assessing officers throughout the state have received letters from the tax commission instructing them to assess automobiles and in many cases giving lists of the owners of machines. The commissioners also furnish lists of incorporated companies and vessel owners. The assessing officers are requested to return to the board reports on the personal property mentioned.

Furnace Yard Flooded—The backing up of the water by ice driven into the mouth of the Carp river by the wind raised the level of that stream and the furnace yard of the Carp furnace was overflowed a foot and a half to two feet in depth. The operation of the plant was slightly interfered with yesterday, but no damage of any consequence was done. The water was high enough to flood the bottom of some of the kilns to a depth of about a foot, and reached over to the furnace buildings.

May Term Postponed—F. M. Moore, deputy clerk of the United States court, yesterday received notice from Judge Loyal Knappen of Grand Rapids of the postponement of the May term of U. S. court, which was to open here on Tuesday, the 7th of the month, until the 18th of June. Judge Knappen has a press of work in the lower part of the state, which made the postponement desirable. All of the upper peninsula attorneys having business in the next term were agreeable. Mr. Moore has already notified most of the attorneys in the upper peninsula of the postponement.

Crew Goes to Make Drive—Oliver Morris left this week with a crew of thirty men, to drive the Lavigne creek, emptying into Huron bay. Some 12,000,000 of logs, owned by the Hobards, are banked on this stream, and the drive will commence as soon as weather conditions are favorable. When it is finished Morris will open a summer camp at Point Abbeville. He conducted lumbering operations there for the Hobards during the winter just closed. The crew Morris took on the drive this week is said to have been one of the best that has gone out of Marquette for a similar purpose of late years.

Product of Thorough Study—The subject of the lecture to be given this evening at the Baptist church by Rev. Charles H. Maxson is one to which he has given special study. During his university course and later in journeys through Great Britain, France, Germany and Italy, he studied the architecture of the great cathedrals. Beginning with the most primitive form of worship, the pictures will illustrate the development of church architecture through different periods down to St. Peter's in Rome and St. Paul's in London. A portion of this lecture was recently given before one of

the literary clubs of this city and it was received so enthusiastically that Mr. Maxson has been induced to repeat it. The price of admission will be twenty-five cents.

Anchor Line Receiving Freight—F. B. Spear & Sons, the local agents, have been notified that the Anchor Line is now ready to receive freight, subject to forwarding on the first steamers, to the various ports at which the company's steamers touch. The expectation is that the first boat will leave Cleveland about the 10th. The company will have three passenger steamers in commission this season, the Tionesta, Junista and Japan. Its fleet of freighters consists of fourteen boats, including the three passenger steamers. Of this number the Wissahickon is building, and will not be in commission at the opening of the season. It is a 5,000 ton boat.

Doctor Wonder Has Ore—The Goldfield Daily Tribune makes announcement of an important strike of ore at the Doctor Wonder property, in which many Marquette men became interested some weeks ago through F. H. Begole. Superintendent Palmer wired that while trenching to find the ledge his men disclosed a three-foot vein running 330 to the ton. It was added that now that the rich portion of the property has been located, three shifts of men will be put to work immediately. Commenting upon the strike, Henry Weber, a prominent mining man of Goldfield, said: "They simply wouldn't help but have ore. The Doctor adjoins the Vulture on the west and has the same ledge. The Vulture was the first Wonder district property to ship. The Doctor will take rank with all the rest of them as a producer of high-grade."

# MUSICAL SERVICE.

Arrangements have been made for the following musical program, to be given under the auspices of the Epworth league, at the Methodist church tomorrow evening at 6:45 o'clock.  
Opening hymn ..... Audience.

Violin solo ..... Professor Kluge.  
Closing hymn ..... Audience.  
Benediction ..... Audience.

# DELINQUENT TAXES.

Marquette Made Far the Heaviest Return for This County.

Deputy County Treasurer Wright has prepared for The Mining Journal a statement of the delinquent taxes for the year lately closed, compiled from the returns made to his office. Marquette has the distinction, such as it is, of making the heaviest delinquent returns, they being \$8,541.73 for all taxes. The total delinquent returns from Ishpeming city were \$916.02 and from Negaunee city \$268.75. Michigamme township returns \$1,496.36 and Powell \$2,212.90. The percentage of state taxes returned as delinquent is three and eight-tenths per cent.

The following table shows the total delinquent returns for the several cities and townships:

Champion township	\$ 1,876.55
Chocoma township	396.13
Ely township	926.25
Forsyth township	804.44
Humboldt township	882.88
City of Ishpeming	916.02
Ishpeming township	2,234.56
Marquette township	308.47
Marquette city	8,541.73
Michigamme township	1,496.36
Negaunee city	268.75
Negaunee township	307.28
Powell township	2,212.90
Republic township	706.40
Richmond township	242.69
Sands township	227.71
Skandia township	590.28
Tilden township	343.68
Turin township	888.17
Wells township	663.40
West Branch township	326.42
Total	\$24,981.07

## MARKETS

### BIG FINANCIERS BUYING.

Stocks Are Strong and Close With Gains Despite Extensive Profit-Taking.

New York, April 5.—Operations for an advance were aggressively pursued in the stock market today, and wide additions were made to yesterday's gains in prices. No changes in conditions from those of yesterday were apparent beyond the continuance of the relaxing tendency in money. This was, in fact, regarded as the keynote of the situation, and gave impetus to the movement in stocks.

Commission houses reported a general revival of interest in the market on the part of clients of the speculative class, an element regarded from the stock market point of view as making up the general public, whose entry into the market is regarded always as marking an important stage in the speculation. The appearance of this element was taken advantage of for some heavy profit-taking on the part of the more professional party. The manner in which this profit-taking was absorbed proved an impression to speculative sentiment and was assumed to indicate the re-entry into the market of some large financial powers which have led great speculative movements in the past.

The size of individual transactions, the congestion of dealings in a few special stocks and the sensational movements in such stocks gave this impression of participation in the dealings by organizations or individuals possessed of resources far beyond the ordinary. Enormous operations centered in the Harriman Pacific and in Reading, suggesting a resumption of market operations by forces which have been quiescent in the trading for a considerable time. Southern Pacific shared fully in the movement, a

motive for which was found in its extraordinary showing of net earnings for February published yesterday. The rebound in the prices of copper in London was responded to by a rise in Amalgamated Copper here. A helpful factor in the strength of the market was the settlement without a strike of the wage dispute on the Western railroads. It was significant of the changed attitude of speculation that no account was taken of the increase in the operating cost to the railroads involved in the advance in wages granted in the settlements.

The large selling to take profits during the day was skillfully conducted, but the market closed irregular and considerably below the best prices.

Paine, Webber & Co. wired concerning yesterday's Boston market:  
"Our market was somewhat slow in responding to the advances in the New York market, but gains were made in principal stocks, such as Range, North Butte, Osecola, Old Dominion, etc. The speculation in the London metal market has turned and good advances are made from day to day. It looks as if the recent raid was bear manipulation. We

hear of no important sales of the metal in this country under 23 1/2 cents. Money is getting easier and we expect a higher level will be reached on all the better class of stocks before any reaction of consequence. Amalgamated and Anaconda act as if some party was working up a good short interest which they may be compelled to cover several points higher."

### CHICAGO GRAIN MARKETS.

Chicago, April 5.—Prices in the wheat pit advanced more than a cent a bushel today because of increased reports of damage by the green bug. The reports came from all parts of the Southwest, the most sensational from Oklahoma and Missouri. A local crop expert now in Oklahoma reported today that the crop of that region has been seriously injured because of increased reports of damage by the green bug. The reports came from all parts of the Southwest, the most sensational from Oklahoma and Missouri. A local crop expert now in Oklahoma reported today that the crop of that region has been seriously injured because of increased reports of damage by the green bug. The reports came from all parts of the Southwest, the most sensational from Oklahoma and Missouri. A local crop expert now in Oklahoma reported today that the crop of that region has been seriously injured because of increased reports of damage by the green bug.

Corn.—An active demand by commission houses and cash interests caused a strong market. The sharp advance in wheat, small local receipts and the increased demand for cash grain were the principal reasons for the strength. The close was strong, the May up 1/4. May opened at 45 1/2 @ 1/2; highest, 46 1/2; lowest, 45 1/2 @ 1/2; closing, 46 1/2.

**CENTENNIAL.**  
In his annual report to the directors, President Fay of the Centennial says: "At the last annual meeting it was stated that we expected to have our No. 2 shaft equipped and ready for service early in the fall, but owing to unavoidable delays in delivery of our machinery, this was impossible. Being unable because of insufficient air power to increase both opening work and production at the same time, it was decided last fall to take advantage of the high price of copper to increase our production, and also make a test of the lode to determine the average value of the ground opened. This test has given us further proof of the value of the ground north of No. 2 shaft, and as the construction and equipment for this shaft is practically completed the important

## TODAY WE WILL SHOW YOU THE RIGHT THING IN SKIRT STYLES

The season's choicest offering by the foremost maker of women's clothes  
At \$6.50, \$7.50, \$10, \$12, \$13.50

Made from the best product of foreign and domestic looms

We make a special showing of these Printzess skirts because of their worthiness. They have every point that claims your attention--Style--Quality--Price.

### THEY ARE THE TOP NOTCH OF SKIRT VALUES

Here are the smart new fabrics for spring: Checks, Stripes and Plain Cloths in the fashionable shades and latest combinations, tailored into a variety of stunning styles. Pleated Skirts—every one of them—for nothing else is recognized this spring. But in the **PRINTZESS** lines the pleated skirt takes scores of forms, grouped pleats, strapped pleats, cluster pleats, double and single box pleats, all of them bearing the stamp of distinctive designing and high class tailoring. Cloth quality is an important feature in these **PRINTZESS** skirts. You will find only high grades used, the fabrics that hold their shape and good looms through long service. **PRINTZESS** prices are right prices—full and generous values for every dollar. These skirts prove it.

MINE TO CLOSE DOWN.

Operations Will Be Suspended Today at the Section 21 Property.

The Oliver Iron Mining company will today suspend underground and surface operations at its Section 21 mine at the Winthrop. The reason given is that there is an over production of the grade of ore mined at this property. It is a non-Bessemer and very similar to the ores mined at a number of the company's properties on the Mesaba range, as well as at some of the larger producers on the Mesabian range. The entire stock ground at both shafts at Section 21 is now completely filled and there is no room to stock any more of the ore. The tonnage on hand is the largest that has ever been in stock at this mine.

The suspension at this property has been under consideration by the officials of the company for some weeks. The Mining Journal is advised that the close down is final, so far as this season is concerned. The pumps are to be kept in operation for the present. The suspension will affect over 200 men.

The announcement of the closing of Section 21 will be a great surprise to the people of this city, though when a person looks at the enormous piles of ore at the shafts it is not wondered at. A great deal of the ore now in stock is moss covered, it having been there for a great many years. The company has many large stockpiles at other properties on the different ranges, and it is possible that curtailments will be ordered at other points. It is altogether likely that a reduction will be made in the force at the Regent mine, Negamie, at a near date, as there is an enormous accumulation of ore of similar grade at that mine, much of which has been standing for years.

HIGHWAY IMPROVEMENTS.

Board of Public Works Submits Detailed Report to the Council.

A complete report of the receipts and expenditures, together with the amount of material used in the several departments, as well as many other items of interest, is included in the annual statement submitted to the common council by the board of public works.

The total expenditures for new work during the twelve months ending Feb. 28 were \$12,064.98. The cost of removing the garbage was \$2,847.19, and the cost of sprinkling the streets last season was \$989.

Among the bills payable the heaviest individual item was for freight on gravel, the total sum paid the Chicago & Northwestern company being \$2,221.44. The next heaviest item was for lumber, brick and cement for walks, this totaling \$1,449.25. The sum collected and deposited with the city treasurer to the credit of the highway fund was \$2,314.72. Of this, \$1,765 was for toll taxes, \$218.65 for money advanced for the building of concrete sidewalks, and \$334.42 for miscellaneous collections.

Nearly 12,000 Feet New Road.

The number of lineal feet of new streets built in 1906 was nearly double that of the previous year, the total being 11,778 feet, as compared with 6,001 feet in 1905. The number of feet on each street and road built was as follows: Negamie road, 4,681 feet; West Ishpeming road, 1,960; South Second street, 495; Bank street, 920; North Pine, 1,820; cemetery road, 705. The cost per lineal foot was \$1.11, compared with \$1.53 the previous year; the difference being due to the fact that most of the streets repaired last year were narrower than those improved the previous year. The cost of repairing Division street in 1905 raised the average considerably.

The year 1906 leads the three previous years in the amount of lineal feet of both wood and concrete curbs and sidewalks constructed. The total number of feet of wood curbing set last year was 4,066, and the total of concrete sidewalks and curbs put in was 8,535 feet. During the previous year 6,244 feet of walks and curbs were built, in 1904, 6,219 feet, and in 1903, 4,248 feet.

The total sum expended in cleaning and repairing the sewerage system for the year was \$897.42. Of this amount, \$418.34 was for labor, the balance for teams, material, etc. The number of sewer permits in force at this time is 672, forty-six of these having been given during the year.

Water Department Shows Loss.

The total expenditures in the water department for the year was \$13,889. The collections for water rates footed up \$15,220.89, miscellaneous collections, tolls and permits, \$288, a total of \$15,509.04, showing a loss of \$239.79. The number of fire hydrants in use in the city is 128; the number of water permits issued to date, 1,570.

There are twenty-seven miles of water main. The number of meters in use is 1,235. Of these, 1,275 are five-eighths inch in size; twenty-one, three-fourths inch; twenty, one inch; three, one and one-half inch; seventeen, two-inch, and one, one-third inch. The total number of water meters in the city is 1,281, and the percentage of the metered service is seventy-one. The number of persons exempt from paying water taxes is sixty-two.

The total amount of main pipe laid up to Feb. 28, last, was 142,874 feet. Of this amount, 15,226 is fourteen-inch pipe; 3,512, twelve-inch; 3,353, ten-inch; 5,807, eight-inch; 753, six-inch; 75,214, four-inch; 1,088, three-inch; 7,017, two-inch; 470, one and one-fourth inch, and 6,347, one-inch.

VICTIM OF PNEUMONIA.

Matt Makki, a young man residing here for two years past, died last evening at 5 o'clock at the Ishpeming hospital, pneumonia being the cause. Makki spent some time at the hospital, suffering from the disease, and about three weeks ago left practically cured. He resumed his former place at the Cliffs Shaft mine, and worked seven shifts, when he was taken down with a relapse. He returned to the hospital a few days ago, but he was then in worse condition than that he had been during

SKULL FRACTURED.

Henry Rusa, a miner employed at the Cleveland-Cliffs Iron company's Moro mine, sustained a bad fracture of the skull Wednesday, a chunk of ore having fallen from the roof of the stope in which he was working. He had been unconscious ever since, though the physicians at the Ishpeming hospital, where he is being cared for, have hopes of his recovery. Rusa is a married man and has a family residing on Greenwood street.

James Roberts, employed as a miner at the Lake Angeline mine, had an eye badly injured Thursday, a piece of steel having penetrated the ball. He departed that evening for Milwaukee, where he will be placed under the care of a specialist.

BACK FROM THE WEST.

J. N. Olson, cashier of the Carpenter-Cook company, arrived home yesterday from a month's trip to the principal points in California and other western states. He spent some time at Portland, Oregon, visiting Charles Amberson, formerly shipping clerk at the Carpenter-Cook company's Ishpeming house, who is now engaged in the retail grocery business. He reports that Mr. Anderson is doing well.

CRAVING FOR DRINK DESTROYED.

The best aid to temperance is something that will strengthen the drunkard's wrecked nervous system and cure his unnatural craving for drink. We believe that any man who really desires to be cured of the liquor habit can cure himself by using Urine. This remarkable discovery has made so many cures among our customers that we are glad to sell it under an absolute guarantee to refund the money if it does not cure. It is in two forms: No. 1 that can be given secretly, and No. 2 for those who wish to be cured. It is not only the most reliable treatment known, but it is also the most economical, as it costs only \$1 a box and there is no detraction from the usual duties, while if cure is not affected, there is no expense whatever. Mail Orders filled. The Orrine Co., Washington, D. C., or The Stafford Drug Company.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine. Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25 cents.

WILL HAVE TWO TEAMS.

A second degree team has been organized by the members of Zenith lodge, Knights of Pythias, and it will begin work during the coming week. The old team, which competed in the upper peninsula contest at Gladstone last year, performing the ritualistic work without an error, is still intact. Prior to the next regular meeting in June it will compete against the new team to determine which will represent the lodge at the Hancock meeting. Competent and impartial judges will be selected, and it is thought that the rivalry between the two teams will make the work of both of high order.

FROM HOPKINS' CURB LETTER.

"A further advance of 15 shillings for metal came from London this morning and the buying movement was continued with all the leading issues in good request at steadily advancing prices. Superior & Pittsburg was well taken between 19 and 19 1/2 today with the buying much better than the selling. Greenecan was wanted in big blocks with the southwest now arrayed on the buying side of the market. This stock was yesterday listed on the Boston Stock Exchange, but trade on the curb continued on a very large scale. Balakalala was also listed on the Boston exchange yesterday and promised to become one of the most active stocks on the list. Nipissing is selling ex-dividend and is in good demand. Arizona Commercial has scored a big advance this week selling up from 21 early in the week to 26 1/2 today."

Table with 3 columns: Bid, Asked, and various stock names like American, Warren, Wolverine & Arizona, etc.

ISHPEMING IN BRIEF.

John P. Outlwaite has a new driving team. M. C. Quinn was down from Beacon yesterday. J. S. Kennedy of Ironwood transacted business in the city yesterday. George Nelson and wife, who spent the winter in California, arrived in the city yesterday. Miss Agnes Welsh has taken a position as cashier in the John W. Gately company's store. Men were employed yesterday repairing a leak in the water main at the intersection of Main street and Cleveland avenue. John W. Gately arrived in the city last evening on his annual visit to his Ishpeming store. He will leave this afternoon for Calumet. Mr. and Mrs. E. R. Fredeen, who accompanied the remains of her sister, Miss Josephine Davidson, from Evanston, Ills., early in the week, left for their home last evening. The concert given Thursday evening at the Bethany Lutheran church by Miss Tekla Farm and R. W. Fellow attracted an audience that filled the auditorium. The program was an excellent one, and was much appreciated. Arthur Airo, the Finnish music teacher, Thursday lost a pocketbook containing \$50 in currency, somewhere between West Superior street and the postoffice. He announces in this issue that he will pay a liberal reward for its return to Alex Pantti's store. An enlarged picture of the exterior of the new Ishpeming high school, also the manual training and new grade schools on either side, has been received by the school board from Architect J. D. Chubb of Chicago, who drew the plans for the new structure. The picture has been framed and it will be given a place in the auditorium of the new building.

CARD OF THANKS.

We desire to publicly thank our friends and neighbors for their expressions of sympathy, and for favors extended during our recent bereavement. We feel under many obligations to those who aided us at our home, as well as to friends for the beautiful floral tributes. We assure all that their efforts to lessen our burden of sorrow shall never be forgotten. MRS. MRS. WM. DAVIDSON, MR. AND MRS. E. R. FREDEEN.

TO THE PUBLIC AND CITIZENS OF ISHPEMING.

We, the undersigned officers of the Sunco Mining & Milling Company, hereby testify that all treasury stock of said company has been withdrawn from the market, and that only such stock as has been contracted for can be purchased through our fiscal agent, O. E. Peterson, Calumet, Mich. Any stock offered for less than 75 cents per share is unauthorized. By order of the board, F. C. DEINZER, President, FRANK A. RASCH, Secretary. (4-6-3d)

Upper Peninsula Invests in a Tug.

The tug Cisco of Fairport has been purchased by Captain Curson of Manitowish and will be used by him in fishing in the vicinity of Beaver Island. Captain D. F. McCauley will command the craft. Poor Farm for Gogebic—The Gogebic county board of supervisors has decided to purchase a site for a poor house in the vicinity of Sienens, about half way between the cities of Ironwood and Bessemer, and erect buildings thereon during the coming year.

Would-Be Train Wreckers' Work.

Two unsuccessful attempts have been made at Crystal Falls within the past six months to wreck the Milwaukee road passenger train, both of them occurring a short distance beyond the bridge crossing the Paint river. The work is ascribed to boys living at the Laumont mine location. The case has been turned over to the detective department of the company, and arrests are expected. It is regarded as remarkable that in at least one instance a disaster was not occasioned. In the initial attempt a stout post, braced against a tie was embedded in the roadbed, and so elevated that it would catch the pilot of the engine. This plot was fortunately discovered in time to prevent the train from possibly being hurled into the ditch. In the second instance, a railroad frog was fastened to the track, and only because a heavier locomotive had been substituted for the lighter engine usually on the run was a bad wreck averted; the obstruction being thrown to one side as the pilot wheels struck it. Boys were seen hiding behind stumps near the right-of-way, but before they could be apprehended they had scampered to safety through the woods.

### NEEDS NEW ENGINE.

Plant at Municipal Electric Station to Be Improved This Summer.

The patronage of the municipal electric lighting plant has now reached a point where a new engine at the power station is necessary in order to maintain the best of service. At the meeting of the council Thursday evening Alderman Driscoll moved that the matter be referred to the board of public works and electric light committee for investigation, with instructions to submit its recommendations at the next regular session.

According to the report of the clerk of the board of public works forty-nine incandescent lamps were added to the circuit last month, making a total now in use of 4,471. There are at present forty-nine lamps and eleven commercial arcs in use. The total receipts in the electrical department in February were \$1,776.84.

The expenses of operating the machinery at the lighting plant, exclusive of labor, during March, was \$328.09. Ninety-two tons of coal, at \$3.40 per ton, were consumed, costing \$313.34; twenty gallons of cylinder oil at forty-five cents per gallon and twenty-three gallons of engine oil at twenty-five cents were used. The operating expenses in the electrical department were heavier than the sum charged to the water works system, although the power for both plants is furnished by the same boilers. The coal charged in the water works department was eighty tons, the total expenditure being \$277.55. The pay roll in the water works department footed up \$151.06 and for the electric light plant \$139.40.

For labor performed on the streets and highways last month there was a total expenditure of \$471.05; this included the removal of snow, plowing of roads, cutting drains, etc. The expense this month will be considerably lighter, as only a few men are at present employed on the streets. The committee on streets and highways specified in its report the cost of hauling snow from Iron street at \$40; opening drains to catch basins, \$45; opening the road to the cemetery, \$18; cleaning sidewalks, \$30; and plowing roads, \$328.

Aside from the meeting and accepting of the report of the board of public works and street and highway committee, allowing of bills and the canvassing of the vote of Monday's election, no business of special importance was transacted.

The council will hold its meeting for the appointment of city employees, etc., Thursday evening next. It is not anticipated that there will be many, if any, important changes, and it is predicted that all of the present appointive officers will be retained.

### SUPT. SCHURTZ REENGAGED.

Negaunee School Superintendent to Be Retained at an Increase of Salary.

Orr Schurtz, who has held the position of superintendent of the Negaunee schools for the past six years, has been reengaged for the coming year, with an increase of \$100 to his salary, which next year will be \$1,900. Mr. Schurtz's work has been very acceptable to the board of education and public at large.

The advance in salary was entirely unsolicited on Mr. Schurtz's part, as was also the increase of a similar amount given him at the close of his last year's service. With the additional work the superintendent will have during the coming year, on account of the erection of the new school and the many changes made necessary after its completion, the members of the board felt that he will more than earn the extra money.

None of the school teachers have yet been engaged for the new year, but all of the present corps who plan to remain here next year will be asked to send in their applications to the board prior to their meeting and meeting. It is not anticipated that there will be many changes, as the present teachers are said to be doing very satisfactory work.

## Kennedy's Laxative Cough Syrup

CONTAINS HONEY AND TAR. Relieves Colds by working them out of the system through a copious and healthy action of the bowels. Relieves Coughs by cleansing and strengthening the mucous membranes of the throat, chest, lungs and bronchial tubes.

### FEW CALLED FOR PAY.

Striking Employees of Marv Charlotte Mine Do Not Want Wage Settlement

The Marv Charlotte mine employees, who have been on a strike all week, and who have not yet made up their minds to accept the ten-hour work day, are asked to call at the office and procure checks for the money due them. It was announced Thursday that all the men who desired to leave could obtain their money yesterday, but very few of them called for it. Superintendent Foley said yesterday that he will be pleased to have the men call without further delay.

Several of the men went to the mine yesterday morning, but the turnout was not as large as on the two previous days, indicating in a measure that the workmen are satisfied that the officials mean to stand pat and that have no intention of resuming work under the eight-hour plan. The men employed in the shafts did not resume work yesterday, but it is likely that a start will be made Monday morning. Mr. Foley said that the company will work the mine very shortly in spite of any action taken by the men. He does not anticipate any serious trouble, and he said that any of the old hands who desire to return under the arrangement will be allowed to do so.

### TRIALS OF COMMERCIAL MEN.

One of the Oldest Travelers Making His Region Go With New House.

G. H. Richmond, who has traveled in the upper peninsula for the past thirty years, was in Negaunee yesterday, calling on old friends and patrons. He is starting on his first trip for the Marquette company of Appleton, Wis., which is a concern in business for about five years, having resigned his position with the W. D. Messenger company of Chicago, for whom he had traveled a number of years. Mr. Richmond has a large trade in the upper peninsula. His line is always accepted with all the large merchants, as well as the small ones, as he sells paper goods of all descriptions.

"I traveled here before the Breitung House of this city or the Nelson House at Ishpeming was built," said Mr. Richmond. "I made many trips to Negaunee when the hotel accommodations were so poor that the traveling men were obliged to stay at Ishpeming and either drive over or make the trip on the trains. I was here during the time the Breitung was being built, some twenty-six years ago, and I remember how much pleased the people of the city, particularly the business men, were because of its erection. There were two small hotels, or rather boarding houses, in the town, at the time, but these were always so badly crowded that the traveling men seldom had a chance to find quarters at either place.

"I traveled through this region at times when there was anything but pleasure in reaching the different towns. It was all right when I was young, but I would not care to repeat my experiences. Only the young man can stand the work of the average commercial man, even at this time, when the hotels are good and the railway facilities excellent. The big wholesale concerns, as a rule, expect too much of their salesmen. Some of them have their business down so fine that they make life miserable for their traveling representatives. The men in the city office, who have direct supervision over the traveling men, usually think they know more about the conditions on the road than the salesman. There are so many things that the road man has to account for that he has his hands full. In the old days the judgment of the traveling man was nearly always accepted by the house managers, but now in a majority of cases the traveling man has to live up to the letter of his instructions. This is because many of the wholesale houses make mistakes. When they have a good, trustworthy salesman on the road, they should be governed by his judgment, as he is the one who meets the trade and it is he who has to satisfy the customers in order to hold the business for the concern."

### ICE WAGONS WON.

In Thursday evening's league bowling contest at Orr & Tompkins' alleys the Ice Wagons defeated the B. O. K.'s, the scores being as follows:

Ice Wagons	118	134	173	425
Kirkpatrick	115	124	150	389
Nightingale	153	182	196	531
Totals	386	440	519	1345

B. O. K.'s	117	135	131	401
Papke	130	144	144	418
Kirk	116	135	121	372
Totals	383	418	396	1197

### MAYOR WINTER'S VOTE.

In the election returns published Tuesday Mayor Winter was given credit for his full vote. Instead of his total being 447 it was 477, or seven larger than the vote received by any of the other candidates on the ticket. Recorder Mitchell and Charles Stranberg, one of the candidates for constable, received 470 votes, the other, running on the ticket having received from 467 to 469.

### THE U. S. AND JAPAN FRIENDLY.

As proof of the friendly feeling between these two countries it is announced that Japan has appropriated a large sum of money for exhibits at our Jamestown exposition, and will also send two warships to represent them in the naval festivities. Officials in both countries firmly believe that the slight differences now under discussion will be satisfactorily adjusted. As proof of the wonderful merit of Hostetter's Stomach Bitters we point with pride to the thousands of cures it has made during the 53 years it has been before the public. A better plan, however, is to prove it for your own satisfaction by trying a bottle of it. It guarantees it absolutely pure, and you'll find it excellent in cases of colds, grippe, general debility, spring fever, dyspepsia, indigestion, costiveness or malaria.

## The General Condemnation of So-Called Patent or Secret Medicines

of an injurious character, which indulge in extravagant and unfounded pretensions to cure all manner of ills, and the

### National Legislation Enacted to Restrict Their Sale

have established more clearly than could have been accomplished in any other way

### The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

### Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

### LOCAL LACONICS.

Mrs. William F. Anderson is visiting friends in Chicago.

Mrs. T. C. Yates and her son Charles are visiting relatives in Chicago.

J. A. Kertzer of Virginia, Minn., was a visitor in the city yesterday.

Jacob Arnett, who has been in Big Rapids, has returned to his home.

Thomas M. Wells has left for Mexico, where he is interested in a mining property.

Duncan Clark's female minstrels will be the attraction at McDonald's opera house tonight.

William E. Rough of Bovey, Minn., visited Captain J. H. Rough and family here Thursday.

Miss Jennie Ethier has returned from a visit with her brothers, Fred and William, in Milwaukee.

Mrs. Michael Ryan and her daughter, Mrs. Miller, of Ironwood, are in the city visiting Captain J. F. Foley and family.

L. E. Chaussee, the contractor, recently lost a check on the streets for \$801.60. Its payment has been stopped.

Claude Mitchell, who left here last fall for Arizona, is now located at Evelyn, Minn., where he is doing diamond drill work.

The Eight to Twelve club will give the next of its series of dances next Friday evening at McDonald's opera house. The Negaunee orchestra will furnish the music.

"Tracy the Outlaw" a comedy drama, which has been on the boards for the past two years, is billed for McDonald's opera house next Tuesday evening. The company carries its own scenery. Popular prices will prevail.

C. O. Lindberg, a graduate of the Michigan College of Mines, is spending a few days with friends in Negaunee. He will leave shortly for Mexico City, where he takes a position as engineer with Car-

penter & Brennan, consulting engineers for the Syndicate Corporations of New York and other Eastern companies associated in gold, silver and copper mines in Mexico.

James F. Foley received a message yesterday from Dr. Scallon of Hancock announcing the death of his wife. The deceased is a niece of Mrs. Foley. She was known to a number of Negaunee people, as she frequently visited the Foley family.

### UNNA DEFINES A CAUSE.

European Skin Specialist Says Dan-druff is Caused by Parasites.

Upon that theory, proved beyond a doubt, a cure for dandruff was sought after. Scientists, chemists, druggists and physicians all "took a hand" and the successful issue is the present product known as "Newbro's Herpicide."

This remedy actually kills the parasites that infest the hair bulb, does its work most effectively and contain not an atom of substance injurious to any tissue than the germ alone. Herpicide causes the hair to grow as nature intended it should, soft and abundant.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. The Stafford Drug Co. special agent.

### AWNINGS.

The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size.

KELLY HARDWARE CO., (3-27-1f) Marquette.

### Train Crew's Narrow Escape—

It has developed that the recent wreck on the Duluth, South Shore & Atlantic road at Brum's Crossing was attended with a remarkable escape from death on the part of the trainmen and from disastrous loss on the part of the company. Two locomotives, attached to a long string of freight cars, plunged across a high trestle on the ties. It was when the "double-header" was within a few rods of the trestle that the rails spread, and both engines ploughed ahead and clear across the structure before their momentum was checked and without any break in the connection with the cars, the caboose and only one car remaining on the track. No one was injured, but the train crew are still shuddering over what might have been their fate under ordinary circumstances. The trestle is forty to fifty feet in height and had the locomotives run off it is probable that the whole train would have been pulled over with them. The track was badly torn up and traffic was delayed for hours.

## Rheumatism

Relieved in 24 Hours or Money Refunded.

If you have Rheumatism, Gout, Sciatica or Lame Back try "Smith's Potassium Compound". It stops the pain, removes the cause and when that is done there is no fear of deformities. Trial package mailed free by addressing John A. Smith Co., Milwaukee, Wis. Money refunded if the first 50c bottle fails to satisfy you. At Druggist's 50c.

## COOK WITH GAS

### BERRY BROS. BUY BOYNE CITY PLANT

IRON FURNACE OPERATED BY CHARLES SCHAFFER TO CHANGE HANDS MAY 1.

### IS A SUCCESSFUL PLANT

Detroit Concern Will Be Largest Producer of Charcoal Pig Iron in the Country—Work Under Way at the Chocolatey Plant.

Berry Bros. of Detroit, who are primarily a big yarn and cloth house, will shortly be the largest manufacturers of charcoal pig iron in the country, in addition to turning out a large quantity of charcoal by-products. Announcement was made recently of the plans of Berry Bros. for a resumption at the Chocolatey plant, but this is not their only project for increasing their iron output. They have closed a deal for the Boyne City furnace, having purchased it from Charles Schaffer and the estate of the late Noah Gray, and will come into possession of the plant the first of next May. When they have taken over this plant and when the Chocolatey furnace is in operation Berry Bros. will have a string of five furnaces, located at Marquette, Newberry, Boyne City, Manistique and Ashland, and their production of pig iron will run close to 500 tons a day. After Berry Bros. the Cleveland-Cliffs Iron company, with three furnaces, two at Marquette and the third at Gladstone, will be the largest producer of charcoal pig iron, but its production will run considerably under that of the Berry Bros. furnaces.

The Boyne City plant is in excellent condition, and is understood to have been a big money-maker for Mr. Schaffer and his business associate, the late Noah Gray. Some months ago Berry Bros. asked for an option on the plant. Neither of the owners were particularly desirous of selling, so they placed a high figure on it, with little idea that it would be purchased. However, Berry Bros. asked for an option on the plant, even at the high price proposed, and when Mr. Schaffer was in Mexico recently they wired him that they intended to take the plant at the option figure.

The Boyne City furnace has been in operation for about three years past. It was originally located at St. Ignace, being known as the old Martel shaft. It was purchased by Messrs. Schaffer and Gray and moved to Boyne City. As re-erected the plant was modern and efficient and it had been continuously in operation, with a fine record of production. The product of iron has run along about eighty tons a day. At Boyne City the charcoal was furnished by an independent company, on a fifteen years' contract, which contract was covered by the option given Berry Bros. The company furnishing the charcoal runs a by-product plant in connection with the

kilns. Mr. Schaffer says that in purchasing the Boyne City plant Berry Bros. get a small furnace without a peer. It has been reported that the new owners intend to materially enlarge the plant.

**Force Busy at Chocolatey.**  
At the Chocolatey furnace the preliminaries looking to putting the stack in blast have been gotten underway by E. E. Johnson, the superintendent of the Newberry plant, and who will also have charge of the Chocolatey furnace. About fifteen men are now employed on the premises, engaged in repair work on the buildings, and it is reported here that this force will be doubled next week. The men are driven to and from work each day.

The plans of Berry Bros. are understood, though no official information has been given out on the subject, to contemplate the erection of a big battery of kilns, and inasmuch as it is Berry Bros. policy to install chemical plants at all of their furnaces it is expected that such a plant will in time go in at Chocolatey. The undertaking of actual work at the furnace and the understanding that more men will be put on next week shows that the Detroit concern intends to push preparations for a resumption in an energetic manner. The big blowing engine at the plant is said to be serviceable, but much new machinery and equipment will have to be installed.

Charles Schaffer, who, through the sale of the Boyne City plant, is temporarily out of the iron business, is an old time iron man in this region, having been engaged in the industry, directly and indirectly, for over a quarter of a century past, or since 1879. In the interval he has operated continuously, either making charcoal or iron, or both, in this and other counties, and he has been highly successful. Yesterday a Mining Journal man asked Mr. Schaffer if he had any plans for the future, and the way he answered suggested that perhaps he wouldn't be out of the harness long.

Mr. Schaffer and the late Noah Gray scored two notable successes in the iron business during their nine years' association. They conducted the Carp furnace with fine results, until they disposed of the business to the Cleveland-Cliffs Iron company. Also their judgment was fully borne out by the quick success of the Boyne City plant, which has now been sold to Berry Bros.

In this connection it is perhaps not amiss to say that when the Chocolatey furnace goes into blast Marquette will, with its three furnaces, be the greatest charcoal iron center in the country, with its production running about 300 tons a day.

#### DEATH WAS SUDDEN.

Mrs. Philip L. Hopkins Passed Away Yesterday Afternoon.

Friends of the deceased and of Mr. Hopkins were greatly shocked yesterday afternoon to learn that Mrs. Philip L. Hopkins, of 126 W. Bluff street, had passed away suddenly of heart disease. Mrs. Hopkins had not been ill to speak of, and her demise was entirely unexpected. She was widely known and liked and her husband has much sympathy in his affliction. Mrs. Hopkins also leaves three children, Amy, John and Philip.

It's virtues have been established for many years, and thousands of people have been made happy by taking Holister's Rocky Mountain Tea, 35 cents, Tea or Tablets. The Stafford Drug Co., 3-16-11 HAGER BROS. CO., LTD.

#### AMENDMENT CARRIED. Marquette County Gave Majority for Prison Labor.

It was supposed, judging from the vote on the question in Marquette, that the amendment to the constitution to permit the teaching of mechanical trades in the prisons of the state would be defeated in the county by a very sizable majority, but such did not prove to be the case, as the figures compiled by County Clerk Elliott show it to have been carried by the small margin of 35 on a total vote of 3,835.

Marquette and Ishpeming gave majorities of over 200 for each city against the amendment, but Negaunee turned up a majority of over 100 for it, and it carried in all but three of the townships. It was the favorable vote in the townships that saved the amendment in the county, as the majority in the cities was over 300 against it.

The vote in the cities was as follows: Marquette, for 404; against, 676. Ishpeming, for 330; against, 798. Negaunee, for 239; against, 116. In Turin township the amendment was defeated 13 to 19; in Marquette township, 13 to 23; in Humboldt township, 17 to 19.

In Marquette considerable work was done against the amendment, and the majority of over 200 against it occasioned no surprise. At Ishpeming it is supposed that some work was also done against it, and in Negaunee the most of the work appears to have been done for it. In the townships it is likely that the voters heard little about the amendment, either pro or con, and the majority for the proposal is perhaps due to the tendency of voters where they know little about constitutional amendments to vote yes.

There has been much inquiry here as to whether the amendment carried in the state at large, but no figures have yet been announced, although it is reported that it has pulled through. It is one of the most important amendments voted on of late years. If it has carried the present system of convict labor will be retained. If it has been defeated there will have to be an entire change from the present methods of keeping the convicts busy.

#### SUNDAY AT THE CHURCHES.

First Church of Christ, Scientist—Sunday service at 10:30 a. m., subject, "Are Sin, Disease and Death Real?" Felix Hall, Opera House block.

There will be services at the Presbyterian church at 10:30 o'clock tomorrow, with preaching by the pastor, Rev. J. M. Rogers. In the evening, at 7:30, an illustrated service will be given. Views will be shown illustrating the home mission Sabbath school work in the West, in the anthracite coal region of Pennsylvania and in the mountains of the South, also among the immigrants newly arrived at New York.

#### SPECIAL NOTICE.

We will sell you whatever you need in the line of furniture, carpets and rugs at exactly the same prices and terms as you get from any Catalogue house in the city of Grand Rapids, Chicago or Milwaukee. We deliver goods in your home and save you breakage and cost of handling. We represent the same factories as the Grand Rapids Catalogue houses do, and we are on the ground to make good any errors. Give us your orders instead of sending away. You will not regret it. Bring Catalogues with you. 3-16-11 HAGER BROS. CO., LTD.

#### GRAND ISLAND INVADED AGAIN. Another Wolf Is Discovered, But Is Shot in Short Order.

Grand island, the Cleveland-Cliffs Iron company's big game preserve off the Lake Superior shore at Munising, was invaded by another wolf Thursday, or at least the animal was sighted on that day, but on this occasion an end was put to the career of the beast in short order, apparently before it had succeeded in committing depredations such as had been perpetrated by its predecessors. A hunt was organized at once, and at noon yesterday William Johnson, a fisherman, employed on the island, was fortunate enough to get shot at the wolf. The bullet sped true, and the animal fell in its tracks. While it was the general opinion that the invader had crossed from the mainland on Thursday, making the trip over newly formed ice, some of the men at the island were of the belief that the animal possibly was one of two smaller wolves which gained access to the game preserve some time ago and which it was supposed had been driven back to the haunts whence they had come. However, no evidences were found that deer had been killed within the recent past, and the major view entertained is that the animal was discovered almost as soon as it had landed. The beast was a female. It was the third or fourth wolf found in the game preserve since ice formed last December. Only in the first instance, however, was any particular havoc wrought, this by a wolf much larger than the one shot yesterday. It is probable that a wire fence will be built along practically the entire shore line of the island during the coming summer.

#### ICE IS SOLID.

Soo Tug Gave Up Attempt to Reach West Neebish.

Conditions reported from the Soo do not look much like an immediate opening of navigation. The tug Thompson of the Great Lakes fleet was sent out Thursday morning to open a channel through to West Neebish, but a short distance below Beaver Park encountered blue ice from eight to ten inches in thickness, and after a half hour spent in attempting to buck into it turned around and sailed back to the Soo. The Thompson's attempt was made because of shortage of coal at the West Neebish operation of Grant Smith & Co.

Two boats, the Weston and the Rogers, are reported at De Tour, but it is said that judging from the conditions of the ice in Bay Lake they will not get through to the Soo in less than a week or ten days, unless the weather changes to exceptionally favorable conditions.

At Duluth the Pittsburg Steamship company is making preparations to move its boats to the docks, where they can be loaded in readiness for an early start down the lakes. There is still much ice in Duluth harbor and it will not be possible to move the boats until next week. It is expected that the D. M. & N. road will begin moving ice next week.

#### DOLLARS BURNED.

It amounts to that or \$2.50 saved by using Pea Coal at \$5.00 per ton. It will hold fire in your furnace longer than any other fuel. Jas. Rickards & Co. Ltd. Both Phones No. 99 (6-22-11)
