

Mexican Cities Razed by 'Quake

CHILPANGINGO AND CHILAPA, THE FORMER THE CAPITAL OF A STATE, ARE LEVELLED TO THE GROUND WITH REPORTED DISASTROUS LOSS OF LIFE.

A THIRD POPULOUS TOWN, MIDWAY BETWEEN THEM, IS BELIEVED TO HAVE SUFFERED A SIMILAR FATE—SHOCKS ARE THE MOST VIOLENT IN HALF A CENTURY—EARTH CONTINUES TO ROCK AT INTERVALS, AND A PANIC PREVAILS THROUGHOUT THE STRICTLY ZONE, 24,000 SQUARE MILES IN EXTENT—TOWNS DESERTED BY THEIR INHABITANTS.

Mexico City, April 15.—The towns of Chilpancingo and Chilapa, state of Guerrero, Mexico, were completely destroyed by the earthquake last night. Eleven persons are known to have been killed, and twenty-seven injured. Among the dead at Chilpancingo, is the wife of Postmaster Guerra and a child of Postmaster Aleman.

The utmost panic prevails everywhere, and people are fleeing to the open country. The earth continues to rock at half hour intervals, and many minor shocks are continuing the work of destruction of the first earthquake.

Awful Loss of Life Reported. City of Mexico, April 15.—The National Bank of Mexico has received a telegram saying that many scores of lives were lost in the destruction of Chilpancingo and Chilapa. The telegram adds that both cities were completely destroyed. In governmental circles the report is not credited. It is admitted that both cities were leveled to the ground, but it is not thought the death toll is in the hundreds, as stated. The houses are massive affairs, built of stone in order to resist earthquakes.

The federal authorities here have been appealed to by the governors of the districts of Bravos and Chilapa for tents, as the inhabitants of the stricken cities are now living in the open, having constructed dwellings of palm leaves and branches. The governor of Guerrero has dispatched military engineers and troops to the destroyed districts. Both cities are so far removed from railways that it is impossible to obtain accurate and rapid intelligence.

Chilpancingo is the capital of the state of Guerrero, and four years ago was visited by an earthquake which killed and wounded many and destroyed a large part of the town. The population is 7,498. The population of the city of Chilapa is 15,000, and that place is the home of a bishop of the Catholic church who administers to ecclesiastical affairs in the entire region. No word has been received from the bishop's palace, and it is not yet known whether or not he is a victim of the shock.

Third City May Be in Ruins. Midway between Chilpancingo and Chilapa is the town of Chilpancingo. It is believed that this city also has suffered a similar fate. Reports from Chilpancingo are not yet received.

FORAKER'S GAME. HE DOESN'T EXPECT NOMINATION FOR THE PRESIDENCY. Has Lost Much Popularity in Ohio and Merely Wishes to Strengthen Hold on the Senate.

Columbus, O., April 15.—Here in Ohio not so much importance is attached to the contest between Secretary Taft and Senator Foraker over the Ohio nomination for the Republican presidential nomination as in other states. It may be that this will prove the beginning of an historic fight between the progressive and reactionaries in the Republican party for the party supremacy, but to the Ohio people who have seen Senator Foraker in several squabbles in his party it is only a political play on his part to force the hand of an element in his party that promises trouble for him, and to compel it to grant him without opposition the thing that he really wants right now. That is a re-election to the senate. For few here in his own state believe that Senator Foraker really desires the Republican nomination for the presidency. It is not generally believed that he even wants the nomination, or the endorsement of his own state. For both his friends and his enemies find it impossible to believe that the senator thinks he could by any possibility be elected to the presidency even if he should get the nomination, in view of his opposition to the railway rate legislation and other congressional matters in which he has vigorously opposed President Roosevelt. Right here at home there is enough opposition to him in his party to make sure that he could not get the endorsement of his state unanimously.

Eleven years ago Foraker kicked up just such a dust as this in Ohio regarding Republican presidential endorsement when it was known that McKinley wanted it. Foraker pretended that he wanted it. Of course to be of the most value to him McKinley must have the endorsement of his state unanimously. The best that Foraker could hope for in that day would have been to prevent the McKinley endorsement from being unanimous. Senator Hanna then in full control of the party organization in Ohio, and manager of the McKinley boom, knew what Foraker wanted. The nomination of the state for the United States senatorship to succeed Calvin S. Brice was a cheap price for Hanna and McKinley to pay for the unanimous endorsement of the state for McKinley for the presidential nomination and it was given without the slightest objection.

But at that time Mr. Hanna held the Republican organization in this state in a vice-like grip. He could make a bargain like this with Foraker and deliver the goods. No one doubted his ability to do so. The fact of the matter is that

Chilapa is located the city of Tixtla. As no word has been received from that place it is feared that it also has been destroyed. According to the movements of the earthquake, Tixtla would be in a direct line, and if the city has escaped it was only by a miracle.

All communication with the west coast has been cut off since the moment of the first big shock, and it is not known to what extent that region suffered. The nearest big town—Acapulco, 131 kilometers southwest—has not been heard from. Both the volcanos Colima and Jorullo are in this region, and people fear that the earthquake may cause these mountains to become more active and to destroy much property and many lives.

Extensive Area Affected. Messages from as far north as San Luis Potosi and as far south as San Juan Bautista, in Tabasco, report feeling the shock in varying degrees. As no place up to date has loss of life or property reported except in Guerrero, from there it is believed that the last tremble was greater in extent than any that has preceded it during the last half century.

The boundary line of the northern zone of the present earthquake, according to reports received up to this time, shows that it extended across the country in a northwesterly direction over 400 miles, and that the southern extent of the shock covered over six hundred miles, making in all 24,000 square miles affected by the last shock.

Shocks Recorded at Albany. Albany, N. Y., April 15.—The strongest and longest earthquake recorded on the seismograph at the museum here since the instrument was installed began at 1:14 o'clock today and continued for more than two hours. The record was much more pronounced than that made by the San Francisco earthquake last year. The maximum vibration was so severe as to swing the pendulum clear off the recording cylinder.

Vienna, April 15.—The meteorological station in this city today reported a violent earthquake at a distance of 6,250 miles.

There is no one here now with that kind of a hold on the Republican state organization. It may be doubted whether Secretary Taft would enter into such an agreement with Senator Foraker. It is reported that he has indeed refused to enter into such negotiations. But even he should want to make a deal like that to whom would Senator Foraker look to see that the promises were carried out? Surely Senator Diek, who was elected by the organization to succeed Senator Hanna's place, could not carry out an agreement of that kind.

The fact of the matter is that the Republicans in Ohio restive now. They do not brook management by anyone. They are suspicious of leaders and their deals. Roosevelt is still popular with them, though he would hardly secure the 250,000 plurality he got in 1904 if he were to run now. They were suspicious of Senator Foraker before he went to the senate. His work here in behalf of the corporations had caused them to lose faith in him. Already under a cloud in this state for using his official power to secure advantages for the corporations, Senator Foraker's career in the senate has naturally tended to make him more and more unpopular, and his course as to the railway rate bill and his opposition to the president in that matter and the Brownsville matter have operated to make him still more unpopular with a large element of his party. For this reason the senator knows that there is real trouble in store for him in the matter of securing a return to the senate. For several years the Republicans have been nominating a candidate for the United States senate, when one is to be chosen, in their state conventions. Without some manipulation to prevent the election of unfriendly delegates it would hardly be possible to have a state convention of Republicans in Ohio right now that would not manifest decided objection to Senator Foraker as a candidate to succeed himself in the senate. Senator Foraker understands this and is naturally anxious to make a deal with Secretary Taft's friends by which he can secure their support. Predictions are made here that such a compromise will be made and that Taft will get the presidential endorsement and Foraker the senatorial endorsement—each without opposition. Two things stand in the way of that, however. They are the well known disposition of Secretary Taft to make no political deals, and the present disposition of the Republicans of Ohio to refuse to be handled in political deals. It looks just as though Secretary Taft would not make such a deal if he could and he could not if he would.

It is not clear how Senator Foraker proposes to have the question of supremacy in the Republican party in the state between Secretary Taft and himself submitted to a party vote. Ohio

has a fairly good primary election law so protected that there is little chance for crooked voting, but the law does not contemplate the submission of such questions as this under it, and the cost of the primary election, which naturally would be considerable, could not be paid out of the public treasury. The primary election would have to be a purely voluntary matter, privately conducted without protection of law, and the expense would have to be borne by the party alone. Though Senator Foraker has challenged the Taft managers to a contest of this kind, it is probable that it will not be attempted. It is notable that the friends of Senator Foraker here are all saying that the proposition is not practicable, and it is likely that Senator Foraker will modify his proposition somewhat.

MARY BAKER EDDY'S TRUSTEES. Move to Be Substituted at Plaintiffs in the Suit Against Her. Concord, N. H., April 15.—Henry M. Baker, Archibald McClellan and Josiah E. Fernald, trustees of the estate of Mrs. Mary Baker G. Eddy, filed a motion in the superior court today, asking that the "next friends" of Mrs. Eddy, plaintiffs in the original suit, be ordered forthwith to show cause why the motion of the trustees for leave to intervene and be substituted as the plaintiffs in place of the said "next friends" should not be granted.

MIKE SCHRECK IS VICTOR. Tonopah, Nev., April 15.—Mike Schreck tonight knocked out John Wille in the nineteenth round.

DUNNE HELPED BY POLICE FORCE

Thousands of Dollars Contributed by the Department to the Democratic Campaign Fund in Chicago's Recent Mayoralty Contest.

Hearing Held by the Civil Service Commission Is Productive of Interesting Revelations Possible to Result in the Prosecution of Chief Collins—However It Develops That Assessments Have Always Been Made, Whichever Party Has Been in Power.

Chicago, April 15.—The police department of Chicago contributed thousands of dollars to the Democratic campaign fund in the recent mayoralty campaign, and it has contributed in like manner to which ever party was in power as long as the chief of police, Collins, of the force can remember, according to revelations made today before the civil service commission by police officials.

According to the civil service commission, all the men who engaged in the collection of the fund, and even the patron who contributed, are made liable to indictment by the grand jury under the provisions of the civil service act. One of the sections in the act provides that any person disregarding any of the provisions of the law shall be fined not less than \$1,000 nor may be imprisoned in jail for not exceeding six months. The commission has signified its intention to sift the matter to the bottom, but it is said that it will not prosecute the under officials, who, it is asserted, merely carried out the commands of Chief Collins.

Captain McWeeny said that when he was commanded to subscribe to the fund, he was provided with as many blank envelopes as there were men at his station, into which the money was to be put. When returned by the men, according to McWeeny, some of the envelopes contained \$10 bills and a great many \$5 bills.

Inspector Revere said that in all he had collected about \$2,700 from the officers admitted under him. Inspector Kelly admitted having obtained \$2,000 from those under his charge. He was asked if he considered Chief Collins' request for contributions as a command.

"Yes, I took it as an order," replied Kelly, but I could have disobeyed if I wanted to.

Both inspectors testified that the money was given to E. H. Roach, former commissioner of public works. The investigation will be continued tomorrow.

New Mayor Installed. Fred A. Busse was installed as mayor tonight. His inauguration marked the accession of the first Republican mayor to hold the office in ten years. Mr. Busse also becomes the first four-year mayor in the history of the city. The inauguration ceremonies were simple.

Second Choice Wins Rich Turf Event. GLORIFIER FIRST UNDER THE WIRE IN THE \$10,000 CARTER HANDICAP AT ACQUEDUCT.

New York, April 15.—Glorifier, J. H. McCormick's big chestnut horse, fresh from a successful winter campaign at New Orleans and second choice in the betting, won the \$10,000 Carter handicap at Acqueduct today, beating Roseben a length and a half, with Don Diego third. Demand, the favorite, finished fourth, and Oxford, also heavily favored, followed closely on his heels in fifth position. The time for the seven furlongs was 1:28 1-5.

THAW COUNSEL NOT YET NAMED. Clerk of Court Gets Notice to Retain the Exhibits in the Case.

New York, April 15.—Dan O'Reilly, of Harry K. Thaw's counsel, today served notice on the clerk of the supreme court not to deliver any exhibits in the Thaw case to anyone claiming to be Thaw's counsel until the question of who is to be the counsel of record is settled.

ORIENTAL LIMITED DITCHED AND BURNED. THREE MEN PERISH IN WRECK ON THE GREAT NORTHERN IN NORTH DAKOTA.

St. Paul, April 15.—The Great Northern westbound train leaving St. Paul Sunday morning jumped the track near Devil's Lake, N. D., at 1 o'clock this morning. According to a statement issued at the general office in this city by a mail clerk and a number of passengers were badly injured. It is not known whether any one was killed. A special dispatch from Lakota, N. D., says that several passengers were killed or injured and that the wrecked train was destroyed by fire.

DECLARED CONSTITUTIONAL.

New York's Transfer Tax Law Upheld by the U. S. Supreme Court.

HELD TO BE A TRUST. Stores Company Operating in New Mexican Mining Camps Convicted.

Washington, April 15.—New York's transfer tax law was today declared constitutional by the supreme court of the United States.

Las Cruces, N. M., April 15.—The Santa Rita Stores company, operating a series of general stores in mining camps in southern New Mexico, was convicted today under the Sherman act by a jury in the United States court of conspiracy in restraint of trade. Suits were brought on complaint of Turner & Sons, a rival concern doing business in the same mining camp, the complainants charging the intimidation of mine employees to compel them to trade at the company stores. In addition to conviction of breaking a federal statute, the Santa Rita company must pay \$25,000 damages to Turner & Sons as a result of a civil action brought recently in Securo county.

COUSIN OF THE PRESIDENT. George W. Roosevelt, Consul General, Dies at Brussels.

Washington, April 15.—The state department received a despatch today announcing the death of George W. Roosevelt, cousin of President Roosevelt, at Brussels, where he was consul general. He was born in 1844, and served with distinction in the Civil war.

VAST DOMAIN RESTORED TO CHINA. PEKIN, April 15.—The Russian and Japanese troops have now completely evacuated Manchuria according to the terms of the treaty of Portsmouth, only retaining a certain number of railway guards. All military movements have ceased, and the Manchurian towns, etc., which were under Russian or Japanese control have been returned to the Chinese authorities. Since the handing over of Mukden to the Chinese the evacuation of Manchuria by the Japanese had been in progress gradually, the Chinese local authorities stepping in and taking over the administration of the places evacuated by the Japanese.

INNOCENT MEN EXECUTED. Roumanian Troops Accused of Horrible Barbarity in Peasant Revolt.

Bucharest, April 15.—The Adevurul publishes some dreadful particulars concerning the repressive measures made use of recently in the suppression of the peasant revolt. It appears that at Viatu, when the soldiers appeared the peasants fled to forests, leaving only some helplessly old men. The soldiers arrested twenty-five of these and executed all under martial law.

TRIPLE ALLIANCE'S PLEDGE. Italy to Support Germany in Event of War With Britain?

Rome, April 15.—It is asserted in a present meeting at Rapallo between the Italian minister for foreign affairs, Signor Tittoni, and the German Chancellor von Bismarck, the reciprocal pledge of the members of the triple alliance was discussed at some length, particularly in view of the possibility of Italy being obliged to support Germany in case of an Anglo-German conflict.

HON. PETER WHITE IN MADISON, WIS. SEES THE GOVERNOR AND SENATORS IN CONNECTION WITH THE BOUNDARY DISPUTE.

Madison, Wis., April 15.—[Special.]—Hon. Peter White of Marquette, Mich., arrived in Madison today, accompanied by his granddaughter, Miss Fannie Jopling, and will appear before the legislative committee on state affairs Tuesday morning in regard to the disputed boundary between Northern Michigan and Wisconsin, involving title to the territory including the Balsam and Montreal rivers, including the city of Hurley. Mr. White spent the afternoon meeting senators and visiting with Governor Davidson. He had a long chat with former Governor Hoard, whose father was a missionary to the Oneida Indians in Mr. White's native county, Oneida, New York, and who has no longer the right to break peace without reference to the other. As in the case of the other, Mr. White's explanation of the success of this plan, Mr. Carnegie referred to the League of Peace formed by the six nations

Universal Peace in Kaiser's Hands

HE ALONE OF ALL MEN HAS THE POWER TO ABOLISH WAR, DECLARES ANDREW CARNEGIE AT THE NATIONAL CONGRESS WHICH OPENS AT NEW YORK.

LEAGUE OF NATIONS IS ADVOCATED BY THE SPEAKER, AND HE IS OPTIMISTIC IT IS NOT WITHOUT HOPE IN THE NEAR FUTURE—PRESIDENT WARNS IN LETTER THE WORK IN VIEW MUST BE PRACTICAL, AND WITH SECRETARY ROOT SAYS THAT TOO MUCH MUST NOT BE EXPECTED OF THE COMING INTERNATIONAL CONFERENCE AT THE HAGUE.

New York, April 15.—Warned by President Roosevelt and Secretary of State Root that if success is to crown the efforts of those who are working for the future might be along practical lines, and that they must not be insisting upon the impossible, put off the day when the possible can be accomplished, the national arbitration and peace congress, which is meeting in this city under the presidency of Andrew Carnegie, began today its real activities with two crowded sessions in Carnegie Hall.

Secretary Root also took occasion in his speech to point out the propositions which the United States government will make at the coming conference. The Hague. He warned his hearers not to expect too much at this second conference. The president, in a letter to the congress, expressed the hope that the coming conference might result in the adoption of an international arbitration treaty. Mr. Root, after reading the hope, declared that the United States thought it proper to urge again the discussion of the limitation of the armament of nations on land and sea, and the abolition of the practice of using force in the collection of debts owed by one nation to the citizens of another.

Mr. Carnegie, in his address to the congress, paid a tribute to President Roosevelt, and expressed the wish that Mr. Roosevelt might be the peacemaker of the future. He declared, however, that Emperor William is the man among all men who holds the peace of the nations in his power. In this connection, Mr. Carnegie said that it was unjust to speak of the emperor as a menace to the peace of Europe, and that in his twenty years upon the throne the German ruler had split no blood nor caused an international war.

At the afternoon session today the speakers were Secretary Root, Governor Hughes of New York, Mayor McClellan of New York city and Andrew Carnegie. It was at the afternoon session also that the letter from President Roosevelt was read. Tonight the speakers included Baron De Tonnelle de Constant, a member of the French senate and the head of the international arbitration committee, and Secretary Straus, of the department of commerce and labor, who spoke upon "The peace of the nations and peace within the nations." Mr. Straus also spoke of the Nobel peace prize, which was conferred on President Roosevelt. People throughout the world, the secretary declared, applaudingly approved the selection.

PRESIDENT ROOSEVELT'S ADVICE. President Roosevelt, in his letter to the congress, urged that its efforts be devoted to the practical side of the question it had undertaken to discuss.

"An impassioned oration about peace," he declared, "which includes an impassioned demand for something which the man who makes the demand either knows or ought to know cannot, as a matter of fact, be done, preposterous to gain, but a loss for the cause of peace, for even the noblest cause is marred by advocacy which is either insincere or foolish."

The president closed by stating what he hoped to see at the coming conference at The Hague—the adoption of a treaty among the nations adopted, and the Hague court greatly increased in power and permanency, the judges in particular being made permanent and given adequate salaries.

Secretary of State Root, speaking partly in behalf of the president, dwelt upon the hope that The Hague peace conference would see another long step toward the attainment of international arbitration. He added a few words of warning concerning the anticipations of what this second conference is to do, and told his hearers not to expect too much from it. He declared that the government of the United States has been of the opinion that the possibility of an agreement as to the limitation of armed forces by land and sea, and of war budgets ought to be further considered and discussed at the coming conference.

"There are serious difficulties," added the secretary, "in formulating any definite proposal which would not be objectionable to some powers, and upon the question whether any specific proposal is unfair and injurious to its interests, each power must be and is entitled to be its own judge. Nevertheless the effort can be made—it may fail in this conference, as it did in the first, but even if it fails one more step will have been taken towards ultimate success."

Mr. Carnegie, in his address, took a more optimistic view of the immediate outlook for universal peace. Speaking for the arbitration and peace congress, he declared himself a convert to the League of Peace idea, the formation of an international police, never for aggression, always for protection to the peace of the civilized world. War nowadays, he said, involves the interests of all nations, and therefore one nation has no longer the right to break peace without reference to the other. As in the case of the other, Mr. White's explanation of the success of this plan, Mr. Carnegie referred to the League of Peace formed by the six nations

Universal Peace in Kaiser's Hands

HE ALONE OF ALL MEN HAS THE POWER TO ABOLISH WAR, DECLARES ANDREW CARNEGIE AT THE NATIONAL CONGRESS WHICH OPENS AT NEW YORK.

LEAGUE OF NATIONS IS ADVOCATED BY THE SPEAKER, AND HE IS OPTIMISTIC IT IS NOT WITHOUT HOPE IN THE NEAR FUTURE—PRESIDENT WARNS IN LETTER THE WORK IN VIEW MUST BE PRACTICAL, AND WITH SECRETARY ROOT SAYS THAT TOO MUCH MUST NOT BE EXPECTED OF THE COMING INTERNATIONAL CONFERENCE AT THE HAGUE.

New York, April 15.—Warned by President Roosevelt and Secretary of State Root that if success is to crown the efforts of those who are working for the future might be along practical lines, and that they must not be insisting upon the impossible, put off the day when the possible can be accomplished, the national arbitration and peace congress, which is meeting in this city under the presidency of Andrew Carnegie, began today its real activities with two crowded sessions in Carnegie Hall.

Secretary Root also took occasion in his speech to point out the propositions which the United States government will make at the coming conference. The Hague. He warned his hearers not to expect too much at this second conference. The president, in a letter to the congress, expressed the hope that the coming conference might result in the adoption of an international arbitration treaty. Mr. Root, after reading the hope, declared that the United States thought it proper to urge again the discussion of the limitation of the armament of nations on land and sea, and the abolition of the practice of using force in the collection of debts owed by one nation to the citizens of another.

Mr. Carnegie, in his address to the congress, paid a tribute to President Roosevelt, and expressed the wish that Mr. Roosevelt might be the peacemaker of the future. He declared, however, that Emperor William is the man among all men who holds the peace of the nations in his power. In this connection, Mr. Carnegie said that it was unjust to speak of the emperor as a menace to the peace of Europe, and that in his twenty years upon the throne the German ruler had split no blood nor caused an international war.

At the afternoon session today the speakers were Secretary Root, Governor Hughes of New York, Mayor McClellan of New York city and Andrew Carnegie. It was at the afternoon session also that the letter from President Roosevelt was read. Tonight the speakers included Baron De Tonnelle de Constant, a member of the French senate and the head of the international arbitration committee, and Secretary Straus, of the department of commerce and labor, who spoke upon "The peace of the nations and peace within the nations." Mr. Straus also spoke of the Nobel peace prize, which was conferred on President Roosevelt. People throughout the world, the secretary declared, applaudingly approved the selection.

PRESIDENT ROOSEVELT'S ADVICE. President Roosevelt, in his letter to the congress, urged that its efforts be devoted to the practical side of the question it had undertaken to discuss.

"An impassioned oration about peace," he declared, "which includes an impassioned demand for something which the man who makes the demand either knows or ought to know cannot, as a matter of fact, be done, preposterous to gain, but a loss for the cause of peace, for even the noblest cause is marred by advocacy which is either insincere or foolish."

The president closed by stating what he hoped to see at the coming conference at The Hague—the adoption of a treaty among the nations adopted, and the Hague court greatly increased in power and permanency, the judges in particular being made permanent and given adequate salaries.

Secretary of State Root, speaking partly in behalf of the president, dwelt upon the hope that The Hague peace conference would see another long step toward the attainment of international arbitration. He added a few words of warning concerning the anticipations of what this second conference is to do, and told his hearers not to expect too much from it. He declared that the government of the United States has been of the opinion that the possibility of an agreement as to the limitation of armed forces by land and sea, and of war budgets ought to be further considered and discussed at the coming conference.

"There are serious difficulties," added the secretary, "in formulating any definite proposal which would not be objectionable to some powers, and upon the question whether any specific proposal is unfair and injurious to its interests, each power must be and is entitled to be its own judge. Nevertheless the effort can be made—it may fail in this conference, as it did in the first, but even if it fails one more step will have been taken towards ultimate success."

Mr. Carnegie, in his address, took a more optimistic view of the immediate outlook for universal peace. Speaking for the arbitration and peace congress, he declared himself a convert to the League of Peace idea, the formation of an international police, never for aggression, always for protection to the peace of the civilized world. War nowadays, he said, involves the interests of all nations, and therefore one nation has no longer the right to break peace without reference to the other. As in the case of the other, Mr. White's explanation of the success of this plan, Mr. Carnegie referred to the League of Peace formed by the six nations

which combined forces in China during the Boxer troubles. After paying a tribute to President Roosevelt, Mr. Carnegie went on: "Would that the great peacemaker of the future might be Theodor Roosevelt. At this moment, however, it is not in his hands, but in those of the emperor of Germany, alone of all men, that the power to abolish war seems to rest. His invitation to form a union of nations for this purpose would result in more than six nations gladly responding to his call. As in the temporary league of nations in China, so in this grander league a German general would again rightfully command the forces."

Exception Taken to German's View. Secretary Straus was followed by Professor Hugo Munsterberg, of Harvard University, who spoke from the standpoint of a German. He declared that Germany always favors peace, and made the statement that the Germans do not consider military service a burden. Andrew Carnegie took exception to this last statement, and said: "I wish you would go to the mills at Pittsburgh and ask thousands of men there why they came here. It is too late in the day for any professor to tell me that conscription is not a burden."

Governor Hughes, in his address of welcome on behalf of the state, took occasion to denounce the barbarity of war, declaring that it had been robbed of its individual heroism and much of its valor, and had become merely a matter of scientific reckoning and genius to invent death-dealing implements.

MARQUETTE, MICH., APRIL 16.

Entered as mail matter of the second class
 in the postoffice at Marquette, Mich.

Well, how do you like 'em?
 What's the use of being his honor, the
 mayor of Ishpeming, anyway?

We should say that Mayor Robertson
 has made a mighty good start.

The spring poet bids fair to starve to
 death, this year of Our Lord 1907, wait-
 ing for a market.

It is the ice, not the wage, question
 that is delaying the opening of naviga-
 tion this spring.

However, there is no doubt as to the
 future political status of Mr. Harriman.
 He will have none.

We weep for the Standard Oil. It
 goes without saying that it cannot ap-
 peal to the "unwritten law."

Things are coming to a pass where, as
 a precautionary measure, captains of in-
 dustry will have to be their own stenog-
 raphers.

Garoline's up another cent. Evidently
 the free alcohol competition hasn't yet
 had an opportunity to get in full work-
 ing order.

Marquette's ship of state is off on an
 other voyage. May it be more peaceful,
 and more conducive to even tempers,
 than of the past two years.

"Flapdoodle" is the word an English
 paper applies to the arguments in the
 Thaw case. Well, we thought that At-
 torney Delmas' plea was something like
 that.

With great unanimity the New York
 papers suggest that the first Thaw trial
 from beginning to end affords an excel-
 lent example of things that ought to be
 avoided in the second trial.

If the baseball magnates do not for-
 get this spring's experience in the glow
 of the warm summer days to come they
 will adjust their schedules in 1908 so as
 to miss the snapper in the tail of the
 winter season.

There is no sentiment in the district
 attorney's stand on the question of bail
 for Thaw, but why should there be?
 Thaw belongs in the Toms until he is
 acquitted, convicted or committed to an
 insane asylum, and there he ought to be
 kept until his next trial.

What's become of Representative
 Lord's proposed amendment to the min-
 ing laws? Can't we talk it over to-
 gether, in peace and leisure? Because it

was vicious to try and railroad an
 amendment to the mining law to serve
 a private interest it does not follow that
 the law as it stands is beyond reproach.

We are a little surprised to learn that
 Alderman Schauer of the Fifth ward was
 formerly a newspaper man. From the
 fact he struck April 1 we concluded that
 he was formerly a politician.

Also, we are assured, when the time
 comes Senator Smith will "rally" for the
 direct nomination of U. S. senators.
 Senator Smith of Washington, D. C. we
 mean, not Senator Smith of Houghton
 county.

His honor, the mayor, seems in a fair
 way to fulfill his promises to be mayor
 of all the people. There has been noth-
 ing unduly factional about his attitudes
 or his disposition of appointments to
 date. On the contrary he gives rich
 promise of being just the mayor we have
 been looking for.

Alderman Asire, Mayor Robertson's
 selection as president of the council, is
 an ideal presiding officer. He is digni-
 fied and quick in his decisions, and when
 he is in the chair business is disposed
 of rapidly. He has had considerable
 experience as president of the council for,
 as The Mining Journal remembers it, he
 served in that capacity under Mayors
 Mangum, Russell and Green.

However, in the case of the United
 States vs. the Standard Oil company, the
 government is still a good way from
 collecting any part of the possible \$30,-
 000,000 maximum fines that can be
 levied against the defendant as a result
 of the outcome of the Alton rebate case.
 There is not a single quip or curl in the
 law that the oil trust attorneys will not
 hide behind before giving up the fight.
 But it may be remarked that on the
 present status of the case all the advan-
 tage is on the side of the government.

From all appearances we will this
 season have one of the latest openings
 of navigation experienced in recent
 years. It will be early May, at the
 best, before the movement of ore can be
 carried on in any considerable volume.
 Fortunately there are no complications
 over labor, so as soon as the lakes are
 clear of ice, and the channels open, the
 shipowners can make an energetic start
 on the season's work. If the \$2,000,000
 tons of ore, which are estimated as the
 probable movement in this product, are
 carried by water, the season, as long as
 it lasts, will be far the busiest since the
 lakes became a highway of commerce.

It is an interesting fact that all the
 appointive positions in the disposal of
 the mayor and new commissions have to
 date gone to either the incumbents or to
 men who have had former experience
 in city office. The police commission re-
 tained all the old force. The park
 cemetery and street commission retained
 the heads of departments who were in
 office when it was organized. The four
 officials on whom the mayor and council
 agreed Saturday night, and who were
 appointed and confirmed last evening,
 were all former city officials, with good
 records. So far the disposition of the
 "spoils" has been of a nature to be gen-
 erally satisfactory, though, of course,
 there is the usually minority of dis-
 graced citizens—men who didn't land
 and friends of men who didn't land.

BITTEN BY SPIDER.

Through blood poisoning caused by
 a spider bite, John Washington of Bos-
 queville, Tex., would have lost his leg,
 which became a mass of running sores,
 had he not been persuaded to try Buck-
 len's Arnica Salve. He writes: "The
 first application relieved, and four boxes
 healed all the sores." 25c. Guaranteed
 by The Stafford Drug Co.

Mr. S. L. Bowen, of Wayne, W. Va.,
 writes: "I was a sufferer from kid-
 ney disease, so that at times I could
 not get out of bed, and when I did, I
 could not stand straight. I took Foley's
 Kidney Cure. One dollar bottle and
 part of the second cured me entirely."
 Foley's Kidney Cure work wonders
 where others are total failures. The
 Stafford Drug Co.

For Catarrh, let me send you free, just
 to prove merit, a trial size box of Dr.
 Shoop's Catarrh Remedy. It is a snow
 white, creamy, healing antiseptic balm
 that gives instant relief to Catarrh of
 the nose and throat. Make the free test
 and see. Address Dr. Shoop, Racine,
 Wis. Large jars 50 cents. Sold by The
 Stafford Drug Co.

A CARD.

This is to certify that all druggists
 are authorized to refund your money if
 Foley's Honey and Tar fails to cure your
 cough or cold. It stops the cough, heals
 the lungs and prevents serious results
 from a cold. Cures in grippe coughs,
 and prevents pneumonia and consump-
 tion. Contains no opiates. The genuine
 is in a yellow package. Refuse sub-
 stitutes. The Stafford Drug Co.

A Lansing dispatch says that the
 next matter of state legislation in which
 the governor will manifest a special in-
 terest will be the amendment of the pri-
 mary election law. Some weeks ago the
 house committee on primary elections
 voted against the inclusion in the pro-
 posed amendment of the law the direct
 nomination by the voters of candidates
 for the United States senate. At the
 time it was commented, with some won-
 der, that neither Senator Smith or Gov-
 ernor Warner had raised a voice for the
 direct nomination of U. S. senator. How-
 ever, we are now informed that on this
 question the governor stands where he
 has always stood, and is prepared to ex-
 ercise his influence for the amendment
 of the present law to cover senatorial
 nominations. The governor's influence
 was never greater than it is just at this
 juncture. He is fresh from bowling over
 his enemies in the railroad passenger
 rate fight. If he exerts himself to the
 utmost in favor of including U. S. sena-
 tors among the public officials to be nom-
 inated directly he ought to be able to
 line up enough doubtful members of
 both houses to assure approval of
 the proposed reform. Friends of the
 plan are confident of his ability to do
 this.

TAFT A LITTLE BACKWARD.

The Foraker end of the Ohio contest
 is about the liveliest thing in the coun-
 try just now. Foraker's first gun was a
 clarion battle call, in which defiance
 and confidence in the Foraker destiny
 were breathed. Senator Dick has
 "rallied" and Foraker partisans
 throughout the state. They are stirred
 by a magnificent courage to win or die
 in the last ditch.
 How fares the other side, the Roose-
 velt-Taft end of the prospective battle
 of the ballots? Secretary Taft is repre-
 sented by Washington dispatches as re-
 gretting with reluctance the prospect
 of having to engage in an open contest
 with the senator, while the president is
 said to be urging him to take the stump
 and give Foraker well defined battle.
 Secretary Taft's position in regard to
 the presidential nomination has ever
 been conservative. He has not until
 lately been an avowed aspirant. He
 does not like the idea of engaging in a
 scramble for public favor, and he is now
 represented as being averse to following
 the president's suggestion that he en-
 gage in a personal contest with Foraker
 to determine their respective strength.
 But the issue has been made. Chal-
 lenges have been exchanged and the
 idea has gotten abroad that the people some-
 how must pick between Taft and For-
 akar. Under the circumstances Secre-
 tary Taft has little choice but to lead
 his friends, and organize them into an
 effective political machine. Leaderless
 they would, perhaps, fall easily before
 the united and organized forces of the
 enemy, and who so fit to lead as Taft?
 The president's reported insistence that
 Taft conduct his campaign in person
 doubtless reflects his experience in the
 success that follows on aggressive ac-
 tion.

The point has been made that there is
 no feasible way of testing the compara-

A Woman's Back

Has many aches and pains caused by
 weaknesses and falling, or other displace-
 ment of the pelvic organs. Other symp-
 toms of female weakness are frequent
 headache, dizziness, imaginary specks or
 dark spots floating before the eyes, grow-
 ing sensation in stomach, dragging or
 bearing down in lower abdominal or pelvic
 region, disagreeable drains from pelvic
 organs, faint spells with general weakness.
 If any considerable number of the above
 symptoms are present there is no remedy
 that will give quicker relief or a more per-
 manent cure than Dr. Pierce's Favorite
 Prescription. It has a record of over forty
 years of cures. It is the most potent
 purifying, tonic and strengthening prep-
 are known to medical science. It is made
 of the glyceric extracts of native medi-
 cinal roots found in our forests and con-
 tains not a drop of alcohol or harmful, or
 habit-forming drugs. Its ingredients are
 all printed on the bottle-wrapper and at-
 tested under oath as correct.

Every ingredient entering into "Fav-
 orite Prescription" has the written en-
 dorsement of the most eminent medical
 writers of all the several schools of prac-
 tice—more valuable than any amount of
 non-professional testimonials—though the
 latter are not lacking, having been con-
 tributed voluntarily by grateful patients
 in numbers to exceed the endorsements
 given to any other medicine extant for
 the cure of woman's ills.

You cannot afford to accept any medicine
 of unknown composition as a substitute
 for this well proven remedy of known
 composition, even though the dealer may
 make a little more profit thereby. Your
 interest in regaining health is paramount
 to any selfish interest of his and it is an
 insult to your intelligence for him to try
 to palm off upon you a substitute. You
 know what you want and it is his busi-
 ness to supply the article called for.

Dr. Pierce's Pleasant Pellets are the
 original "Little Liver Pills" first put up
 by old Dr. Pierce over forty years ago,
 much imitated but never equalled. Little
 sugar-coated granules—easy to take as
 candy.

ive strength of these two Republican
 giants. The Ohio political machinery
 was not framed with such a contest in
 mind. The state conventions have been
 accustomed to pass on the senatorial
 candidates. The only way to determine
 conclusively whether a majority of the
 voters of Ohio favor Taft or Foraker
 would be to submit the question in a
 direct primary. But there is no way of
 legally taking such a vote. If it were
 taken without sanction of the law there
 would be a tremendous expense to be
 footed by someone, and there would be
 no positive guarantee of the integrity
 of the announced result.

One school of political reasoners say
 that the main thing about which Forak-
 er is concerned is a renomination to the
 senate. He is, they assert, playing for
 terms. He doesn't want the presidential
 nomination principally because he be-
 lieves it would be of no avail for him.
 He doesn't want the Ohio delegation to
 the 1908 convention because he doesn't
 believe it would profit him anything.
 But he would like to be returned to the
 senate, and would make terms with
 Taft to that end, should the occasion of-
 fer. It will be seen that the Ohio situa-
 tion is intricate and complicated. About
 the only thing in it beyond dispute is
 the undeniable hostility between the
 president and Foraker.

ISHPEMING

TWO-MEN LEAGUE.

One Series of Bowling Contests Com-
 pleted and Another Started.

John S. Olson, John Gray and Frank
 Bengtson were the winners of first prize
 in the three-man bowling league contests
 recently completed at the Bank street
 alleys. The team composed of Ben Em-
 blom, David Lind and John Grummett
 took second prize. The winners of first
 prize have a big lead over all of the
 other teams. The record throughout the
 series was much above the average, and
 in most of the games all of the members
 of the team bowled in good form.
 Twelve two-men teams have been or-
 ganized and a second league series has
 been started. Each team is to play
 twenty-two games. The teams will be
 composed of the following: John S. Ol-
 son and John Gray; Arthur Erickson and
 Joe Fitzpatrick; C. Wallenstein and C.
 Westrom; Buff Hansen and John Talo;
 August Norrell and George Peterson; P.
 J. Deen and W. J. Hosking; Con Thomp-
 son and Al Watters; Charles Sandberg
 and H. Trosvig; Benny Emblom and
 John Grummett; O. Lindberg and C.
 Skoglund; David Lind and Ed. Herman-
 son; Tom Roberts and Guy Rohar.
 August Norrell had the highest score
 in the ten-pin game during March, his
 total being 255, defeating Jelmur Jus-
 sia by one pin. John E. Cassin had
 the highest score in the five-pin game,
 his best record being seventy-four. Mr.
 Cassin has been the winner of first prize
 each month since the records have been
 offered for the highest score in the five-
 pin games.

ISHPEMING IN BRIEF.

George E. Culwell of Norway was an
 Ishpeming visitor yesterday.

T. J. Dardon and wife of Hancock are
 in the city on a few days' visit to relatives.

Mrs. John Goldsworthy of Ely, Minn.,
 is in the city visiting Richard Matthews
 and family.

H. J. Wessinger, an official of the Ol-
 iver Iron Mining company, was here from
 Duluth yesterday.

Thomas Flannigan, Jr., came down
 from Virginia, Minn., Saturday, remain-
 ing over Sunday visiting his parents.

The liquor dealers of the city, who
 plan to continue in business the coming
 year, are getting their bonds ready. A
 few have already filed them with the city
 recorder.

New plate glass windows were placed
 in the front of the W. H. Hopkins
 company's office in the Jenks block yester-
 day, taking the place of the glass that
 was cracked some weeks ago.

The brokers reported very poor wire
 service yesterday on account of the storm
 which extended as far south as
 Chicago, taking in all of Wisconsin. Sev-
 eral inches of snow is said to have fallen
 in Milwaukee and at other points be-
 tween there and this city. The after-
 noon trains arriving here were belated.

Old residents of Ishpeming, Mich., and
 there are many of them on the range,
 are doubtless well pleased with the
 change they made in their residence af-
 ter reading of the storm which visited
 the upper peninsula of Michigan the first
 of the week. Only two feet of snow
 fell. Up here the people are trying on

their last year's straw hats—but they
 haven't put them on yet—The Virginian.
 Michael Hickey of this city and Miss
 Mary Elizabeth Butson of Negaunee,
 were united in marriage yesterday morn-
 ing at 6 o'clock at St. John's church,
 Rev. J. A. Keul, the pastor, performing
 the ceremony. Following the marriage
 the bridal party partook of a breakfast
 at the home of the groom's parents, cor-
 ner Lake and Pearl streets. Mr. and
 Mrs. Hickey will keep house on West
 Division street.

PENNY POSTAGE.

A bill was recently introduced to per-
 mit packages to be sent through the
 mails as first-class matter up to four
 pounds, and the postage to be two cents
 for the first ounce and one cent extra
 for each additional ounce. This is the
 first step toward penny postage, which
 must ultimately come. The first step
 toward good health is made when the sick
 man or woman takes the first dose of
 Hostetter's Stomach Bitters, and if giv-
 ing a fair chance will ultimately make
 them well again. At least this has been
 the experience of thousands of others
 during the past 53 years, and it is just
 as effective today. Start at once, you'll
 find it excellent in cases of flatulency,
 cramps, sour risings, dyspepsia, indiges-
 tion, costiveness, female ill or liver trou-
 bles. We guarantee it pure.

The excellent quality of Vandenberg's
 fresh Aerated milk is due to the perfect
 care of cattle, and fine ventilated stables.
 (4-12-1w)

Blew Out His Brains—
 Leaning his forehead upon his wrist
 and placing his hand over the muzzle
 of a rifle, Oscar Parker of Ingalls com-
 mitted suicide. Death came instantly,
 the trigger of the rifle having been
 touched by the foot of the unfortunate
 man. The ball passing entirely through
 his hand and crashed into his brain. The
 suicide occurred in a cabin about four
 miles from Ingalls, near a shingle mill
 operated by a brother of the dead man.
 Grief over the recent death of his
 mother is supposed to have led to the
 suicide, the victim having been a bachel-
 or fifty-eight years of age.

BOSTON'S BARBER REGULATIONS.

Board of Health Orders Sterilization of
 All That Barbers Use on Customers.

A special despatch from Boston, May
 9, 1900, to the N. Y. Sun gives new
 regulations of the Boston Board of
 Health as to barber shops: "Mugs,
 shaving brushes and razors shall be
 sterilized after each separate use there-
 of. A separate, clean towel shall be
 used for each person. Material to stop
 the flow of blood shall be used only in
 powdered form and applied on a towel.
 Power pulls are prohibited." Wherever
 Newbros' "Herpicide" is used for face or
 scalp after shaving or hair cutting, there
 is no danger of infection, as it is anti-
 septic, and kills the dandruff germ. Sold
 by leading druggists. Send 10 in stamps
 for sample to The Herpicide Co., Detroit,
 Mich. The Stafford Drug Co., special
 agent.

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition. It cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

City Brevities

Today's weather: Rain or snow and colder. Yesterday's temperatures: Seven a. m., 28 degrees; noon, 34; 7 p. m., 33. Maximum, 36 degrees; minimum, 28.

F. H. Glover, of Munising, is a Marquette visitor.

E. E. Johnson of Newberry spent yesterday here.

Peter Trudell, of Negaunee, passed yesterday in the city.

O. C. Olson, of Duluth, is transacting business in Marquette.

George Henderson, of Ishpeming, was in Marquette yesterday.

Mrs. J. E. Williams, of Ishpeming, is the guest of Marquette friends.

Miss Clara Waters has gone to Negaunee, for a visit with friends.

A. C. Cameron arrived home Monday from a visit to friends in Canada.

Miss Hazel McCarthy has gone to Antigo, Wis., for a visit with friends.

Miss Jessie Longtime has returned from a month's visit with friends at Escanaba.

A marriage license has been issued to John William Myllymaki and Ailina Launka, both of Ishpeming.

A special meeting of the Ladies' Aid society will be held at the Baptist church this afternoon at 3 o'clock.

Dr. Gregory of Marinette and Dr. Sawbridge of Stephenson, secretary and treasurer respectively of the Kimberly-Williey Mines company, were Marquette visitors yesterday.

Peter White and his granddaughter, Miss Nancy Jopling, are in Madison, Wis., this week. Mr. White is there in connection with the boundary dispute between Michigan and Wisconsin.

The Senior class of the high school will give a dancing party at Fraternity Hall the evening of the 20th. Sweet's full orchestra will furnish the music. Twenty-four dances compose the program.

By permission from Washington, the postoffice will be closed this afternoon from 2:30 to 4 o'clock to allow the members to attend the funeral of the late Maximilian Bielenberg. There will be a mail collection, but no delivery.

Prof. Otto H. Kluge has resigned his position as leader of the Ideal orchestra, which he has filled for several years past, and will henceforth conduct an orchestra of his own. His advertisement will be found in another column.

Storm's Range Was Wide—The recent storm covered a wide area. A. W. Shilling, of the Marquette weather bureau, received a letter, from his brother, Harry, at Washington, D. C., yesterday, containing the information that snow had recently fallen in that city. Little snow falls in Washington at any season of the year, and it is very exceptional to experience a low temperature in April, as vegetation is then well under way.

Light Station Blocked by Ice—C. W. Clifford, of Detroit, second assistant at the Standard Rock Light station, is the first of the crew to arrive in Marquette. Mr. Clifford says that the base of the station is still surrounded by a heavy rim of ice and that it may take some time before the crew can take possession. They will wait until the ice breaks up thoroughly before attempting to enter the lighthouse.

Alumni Association Meeting—The annual meeting of the Alumni association of the Marquette High school was held at the high school building last evening, the following officers being elected: President, Mrs. H. J. Hornbogen; vice president, Miss Miriam Rose; secretary, Miss Irene Connell; treasurer, Miss Alice Ward. It was decided to hold the usual reception for the seniors. Commencement this year will occur the evening of Thursday, June 20th, and the reception and dance will be held the following evening.

Silver Wedding Anniversary—Mr. and Mrs. William Green, 220 Crescent street, were pleasantly surprised last evening by a party of their friends, the occasion being their silver wedding anniversary. After the congratulations and expressions of good wishes were over the guests and their hosts settled down to an evening's pleasant social enjoyment. A toothsome luncheon was served. Mr. and Mrs. Green were the recipients of numerous handsome and costly gifts appropriate to the occasion. The affair was one highly gratifying to them, and very pleasant to their friends who planned it.

Three Orchestras Now—The orchestra situation in Marquette is becoming complicated, to say the least. Where but a few months ago there was but one, the Ideal, there are now three competing for business. The first split was when Algernon Sweet, a young violinist in the Ideal, embarked in business for himself, at the head of a group of players. Now Prof. Kluge has resigned from the Ideal, and will conduct Kluge's orchestra. And there is still the Ideal, the oldest of them all, with which Charles Giel is the leading figure. There is no doubt about their being orchestras enough to go around in Marquette; and a brass band is in the incubator.

Plans New Greenhouse—E. R. Tauch, for the past seven years employed with the Stafford Greenhouses, informs The Mining Journal that he has resigned his position and will start work on a new greenhouse, as soon as the weather permits. It will be located on North Third street, near Park. The material is already on the ground, and it is expected that the house will be ready for occupancy about a month hence. Mr. Tauch has had a long experience as a gardener and horticulturist, and is recognized as a first rate man at his business. He will develop a large stock of the popular flowers and plants, and will also sell nursery products.

Nets May Contain Dead Fish—Though the fishermen have set their nets as far out as the Standard Rock Light station they have as yet been unable to lift any of them, owing to the state of the weather. As many of the nets have been submerged ten days it is believed that they will contain a number of dead fish. How long a fish will live when taken in a net depends greatly upon the way it is gilled. Some of them die in about two hours, and others live for days. Owing, however, to the low temperature of the water at this season of the year a fish that has been dead for several days is still fit for the market. The catch, it is believed, will be a heavy one, owing to the length of time the nets have been set. Several attempts have

been made to lift, but they could not be carried out, on account of the heavy sea.

High Price of Lumber Deters Building—There would be a great deal of building in this city this summer were it not for the high price of lumber," said a local contractor yesterday. "Lumber that could be bought for \$9 a thousand feet five or six years ago, now commands \$22. Many people who desire to build are holding off for a drop. I do not think that the hoped for fall in price will ever take place. It should be fully realized that the present price of lumber is not a local condition, but one that prevails in nearly every part of the country except in several of the timber districts of the south. But bringing lumber here from Georgia would be a great deal like carrying coals to Newcastle. The freightage would more than make up the difference in original cost. There is going to be a lot of building in Michigan cities the coming season and Marquette should fall in line."

STRONG ATTRACTION.

Is "45 Minutes from Broadway," Here Thursday Night.

There is absolutely no doubt about "Forty-Five Minutes from Broadway," the attraction at the opera house Thursday night, for which seats are now on sale at Bigelow's. It is one of the strongest offerings of the kind that has ever been booked for Marquette. It is one of two companies, identical in strength and salary list, now presenting this success in all houses wherever it goes, and in its wake have followed a succession of commendatory criticisms.

At Duluth the company that will be seen here scored a big hit. The Lyceum was crowded for both presentations. The Tribune said "The delectable Corinne and the inimitable Scott Welch, assisted by a company adequately supplied with ability, furnished to Duluth theatergoers the most joyous three hours of the season. Corinne as Mary combines humor and womanliness admirably. In her songs, "Mary Is a Good Old Name" and "So Long Mary" she quite roused the audience out of its habitual conservatism. Corinne has strengthened the structure of her popularity here, and she'll find a glad welcome any time she feels like coming again. The indescribable record of full houses wherever it goes, are as potent to charm as ever. Corinne has been on the stage quite a spell—but Corinne is but a Laiee yet."

In regard to other members of the company the News-Tribune says: "And Scott Welch we haven't met him before, but will never consent to part with him now. He is a comedian whose humor manifestly bubbles from the heart. As Kid Burns, he was a joy, and his curly blonde head and the smile that shows all his white teeth are personal properties that will flag appreciation wherever they appear."

"Edwin Walter, prosecutor and man about town, is quietly able. Eugene MacGregor, as heir-at-law, is well cast. He catches the significance of masculine hysteria in manner to be appreciated. Susan Chisnell, as the plaintive Mrs. Purdy, scored a hit."

"Here's to George M. Colman, long may he dispense his Celtic humor—and long may there be a Corinne and a Welch to express it. It was something new and strange, his making a new sort of comedy with a servant for star, instead of low comedian, and the public is properly appreciative."

AN ATHLETIC ACTOR.

Is Frederick Stanton in George Aie's Great Play, "The College Widow."

Mr. Frederick Stanton, of Henry W. Savage's "The College Widow" company, at the opera house Saturday night, who plays the role of the giant foundryman, Silent Murphy, drafted from his commercial labors for the more exhilarating occupation of guard on the Atwater College football team, is peculiarly fitted for his part. Mr. Stanton is a graduate of Cornell University and is a seasoned veteran of three years standing on the football team of that institution of learning. In stature he is well adapted to the role, standing six feet in height with shoulders and chest that might well make a blacksmith pale with envy. Mr. Stanton's athletic experience is not alone confined to the gridiron. He won honors while at college, both as a basketball and baseball player, and is an enthusiastic devotee of the strenuous life. Since leaving college Mr. Stanton has been prominent in the theatrical world, Silent Murphy being one of his most successful character portrayals. In spite of his busy life on the road, he still finds time to keep in good physical condition through the medium of long walks and sparring bouts with the members of the company, among whom are several enthusiastic physical culture exponents.

AT THE BOWLING ALLEYS.

The concluding round of the three-men contest will be played this week. The Politicians—Jenks, Godwin and Kleefeld—are still in the ascendant, but the Bantams—Lawton, Conklin and Jewson—are putting up a game fight, and a close finish is expected. The team standings are as follows:

	P.	W.	P.C.	Av.
Politicians	18	12	666	488
Bantams	15	9	600	501
Hoboes	18	10	555	485
Ringers	18	10	555	480
Lambs	18	9	500	498
Hoodlums	18	8	444	475
Merchants	15	5	333	489
Roxalls	18	6	333	468

Individual averages of 100 or over are as follows: Poard, 185; Van Iderstine, 177; Miller, 177; Jenks, 171; Conklin, 170; Elliott, 170; Lawton, 169; Dunster, 169; H. B. Bell, 167; H. O. Bell, 164; Werner, 162; Godwin, 161; Brooks, 161; Foley, 161; Jeanson, 161; Ransom, 160.

Schedule for this week: Tuesday, team No. 2 vs. No. 7; Wednesday, 1 vs. 8; Thursday, 3 vs. 6; Friday, 4 vs. 5.

No other remedy on earth is so good for children as Hollister's Rocky Mountain Tea; makes them eat, sleep and grow. Bright eyes, rosy cheeks. 35 cents, Tea or Tablets. The Stafford Drug Co.

DOLLARS BURNED.

It amounts to that or \$2.50 saved by using Pea Coal at \$5.00 per ton. It will hold fire in your furnace longer than any other fuel. Jas. Pickands & Co. Ltd. Both Phones No. 90. (3-23-17)

TODAY'S WEATHER.

Washington, April 15.—The following is the weather bureau's forecast for Upper Michigan: Snow, Tuesday and Wednesday; brisk northwest winds, diminishing.

Storm warnings are displayed on the upper lakes.

SUTTON DEPARTS FROM PARIS.

Paris, April 15.—George Sutton, the

American billiard player, who recently conducted a school for billiards in this city, and against whom the police issued an expulsion order under the law for the prevention of gambling, left Paris this morning.

FURNITURE WILL BE MUCH CHEAPER

MARQUETTE RESIDENTS CAN SHORTLY BUY SOLID MAHOGONY AT PRESENT COST OF VENEER, SAYS A GRAND RAPIDS MAN.

"In the course of a few years residents of Marquette will be able to buy high grade furniture at a much lower figure than at present, though I do not look for any reduction in the price of the cheaper varieties," said William E. Stevenson, of Grand Rapids, yesterday. "It is the prevailing impression that mahogany is not only a valuable wood, but that it is constantly growing scarcer and that the price is rising. Many people are holding on to their old mahogany suites under the impression that in time they can be disposed of at a fabulous sum. Only the other day a woman said to me 'That table is solid mahogany and my children will be able to get a lot of money for it when the mahogany trees are all cut down.' Now the fact of the matter is that there are more mahogany trees standing today than all other species combined. If that woman's children wait until mahogany becomes scarce they will discount Methuselah in age. As the tropical belt passes around the earth at its largest circumference it is naturally by far the largest, against squalling in area both of the temperate zones, and the tropical belt is almost entirely covered with mahogany forests, not only on the mainland but also on the islands.

"In Uncle Sam's new possessions, the Philippines, there are untold millions of mahogany trees. The hut of the natives are to a great extent constructed of that wood. A short time ago I saw at a Grand Rapids factory four planks torn from the floor of a Philippine cabin. They were the finest dark mahogany. The price of mahogany in the future will depend purely upon the cost of transportation and that is lessening daily. Native labor in the Philippines is cheap and the wood can be brought to shipping points at a very low figure. With mahogany at a high price there was very little solid mahogany furniture put on the market. Almost all was a veneer. This was particularly true of piano cases. Within the past two years there have been more solid mahogany piano cases put out than in the decade previous, due to the fact that the manufacturers have found it almost as cheap to build solid cases as veneer. A decade ago mahogany brought a much higher figure than black walnut. Today walnut commands the higher figure of the two. In fact, walnut is today the most expensive wood used in furniture construction. The walnut groves have almost entirely been cut away, and from now on the price of this wood will rise rapidly. Mahogany is still dearer than oak, but it will remain so but a few years. The oak belt is rapidly growing smaller and the yearly cut decreasing.

"The beauty of mahogany lies in the fact that from it you can secure almost any effect. The general impression that it is a stark wood is entirely erroneous. Mahogany shades from a light cream color to an ebony tint. It is also of various degrees of hardness. The lighter shades are known as tuna mahogany, and I have seen bedroom sets made from it that were almost as light as birch. This renders mahogany the most valuable wood for furniture construction. No matter what the choice of the household in tints, they can be secured in mahogany. What is more it is the most

A REMARKABLE MIXTURE.

For those readers of this paper who have any form of blood disorder, who want new, rich blood and plenty of it, try this: Fluid Extract, Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. Any good prescription pharmacy can supply the ingredients at small cost.

"This is said to do wonders for many people whose skin and complexion show the condition of their blood, or who are sickly, weak and run down physically, and is known to relieve serious, long-standing cases of Rheumatism and chronic backache quickly.

Make some up and try it.

lasting of all woods in various degrees of temperature, as it is one of the few woods that never warp."

GIANT STURGEON WERE SLAUGHTERED

VISITOR FROM THE WEST IN MARQUETTE TELLS OF THE DESTRUCTION OF GREAT GAME FISH.

"Much of the fish and game of this country have fallen victim not to the pestilence but to the idiosyncrasy of man," said George V. McCurdy, of Kalama, Cowlitz county, Washington, at the Brunswick, yesterday. "I have in mind particularly the giant sturgeon of the Columbia river," continued Mr. McCurdy. "Very few people are aware that the Columbia is the largest legitimate stream in the world. The Amazon, of South America, is nothing but a succession of lakes and its current from source to mouth is barely visible. The Mississippi is longer than the Columbia, but does not possess anything like the latter's breadth and depth. Eighty miles from its mouth at Kalama, where the giant transport takes across the Northern Pacific trans-continental, the Columbia is two miles in width and a mile deep. Giant ocean steamers can plow their way far above that point. Well, when the salmon fisheries first became a great element in the food supply of the country about twenty years ago, the fishermen found the river alive with sturgeon, the largest food fish in the world. People in this locality consider a two-hundred-pound sturgeon a monster. He wouldn't be much more than a minnow in comparison with the sturgeon of the Columbia. I have seen with my own eyes sturgeon pulled up on the dock at Kalama that were nearly twelve feet long and weighed nine hundred pounds. This isn't a fish story, there are hundreds of men now living along the banks of the Columbia who have seen the same sight. Well, these great fish were a source of annoyance to the salmon fishermen. They were as the great eating as any in the world, but a market had not been opened for them, and the fact was not appreciated by the fishermen. The sturgeon would become entangled in the salmon nets and tear them in shreds. As soon as the fishermen located a sturgeon, they would pound it over the head with an oar, run a sharp knife along its abdomen and with the remark, 'That sea bass will trouble us no more,' allow the big body to float away in the darkness. A decade ago the banks of the Columbia were covered for miles with the decaying bodies of sturgeon. These big fish were the great bull and cow sturgeon, the breeders. A sturgeon has to attain an age

of about twenty years in the Columbia before it spawns. When you destroy the source you inevitably destroy the supply. The big sturgeon in the Columbia have been ruthlessly slaughtered. The smaller ones have no chance, as they are being scooped up in the salmon nets. Like the buffalo of the plains, the sturgeon of the Columbia will soon be little more than a memory."

SITUATION AT THE SOO.

Water Has Been Let Into the Ship Canal—In Readiness for Boats.

The slides in the upper gates of the ship canal at the Soo have been opened, thus letting in the water. en are now employed cutting away the ice in front of the gates and within a short time everything will be in readiness to lock through a boat, were it to appear. There is little change in the ice conditions. The work on the government cut at West Neebish, which will alleviate the difficulties of the passage through the narrow channels of Hay lake, is seriously hindered by the scarcity of coal. Several days ago one of the Great Lakes Towing company's tugs made an attempt to break a channel to the place, but was unsuccessful, and another attempt is now being planned. Blue ice 18 inches was encountered in many places, the average thickness being but 12 inches. All the men employed in the digging of the cut are temporarily laid off, and unless warmer weather brings relief soon, serious complications may result. The weather here has remained cold, strong cold winds prevailing.

The announcement by the engineer at the canal that boats could be handled within a 24 hours' notice brought visions of summer time and the passing of the huge leviathans of the lakes to the eyes of those locally interested in the marine world. The men employed on the locks during the season of navigation have been kept busy all winter. Every fall the locks are prepared for winter, the water in them as well as the approach in the canal is pumped out. Besides this and the other routine of the winter work, the foundation for a movable dam has been constructed.

They will be completed next winter, and when the widening of the canal project materializes the necessary dam will be in readiness. The Massachusetts, which has been lying at the government pier since the ice blockade last December, is fitting out and will be in readiness to move as soon as conditions permit. Considerable delay that will be avoided this season has been experienced in the past by the substitution of oil for water in the pressure pipes in the locks. Oil will be kept in the pipes all summer, and no delay will be experienced in the fall when formerly the substitution was being made. Everything is in readiness for the opening of navigation, and as soon as the boats begin to arrive to lock them through as fast as they come.

REV. KILLGORE'S CAMPAIGN.

Dr. R. F. Killgore, the Virginian evangelist, preaching now at the Baptist church in a union effort, is a new type of speaker in northern Michigan pulpits. He possesses a family likeness to his part of the country, and yet he strikes one as absolutely unique. That "he strikes one" and every one is quite true. The hearer, especially if already a church member, smart from a blow, the more striking because he feels that it is deserved, and concludes neither to like the message or messenger; then the next moment he is won by the beauty and the soulfulness of the appeal to the higher nature. Mr. Killgore for ten years or more has been engaged in union evangelistic work, and has been remarkably successful. For a number of years he has been in the service of a mission society whose constituency is several million Christians. During this time, appointed to work in Michigan, there have been similar results, and this has been particularly true of his work in the upper peninsula. The meeting last night was full of promise for a campaign of public interest and profit.

SUED BY PASSENGER.

Claiming that the South Shore Railway company compelled her to ride in a freight car from Sault Ste. Marie, Mich. to this city, Dec. 2 last, when she had a ticket calling for proper accommodations and transportation between the two places, Mrs. Amelia Sandberg has sued the company for \$3,500 damages for ill health that is alleged to have followed the exposure claimed, says the Duluth Herald.

In her complaint, filed with the clerk of the district court this morning, Mrs. Sandberg alleges that she had, previous to boarding the train at Sault Ste. Marie, just finished a very long ocean voyage from Europe that had left her tired, weak and nervous. She claims that she purchased a ticket in the regular manner for passage to Duluth and the ticket was accepted on the train. She claims, further, that the train was so overcrowded when it left the Soo, that she was pushed along and compelled to ride in a freight car in which there was no fire, nor any seats for the passengers to sit down. She claims that the odors from the car were very bad, and that when, after a fire was finally started, the smell was almost unbearable, she suffered very great discomfort.

It is claimed that the weather was very cold and that, before the fire was started, the snow blew in at the side of the door and the windows, causing the plaintiff to suffer greatly.

Mrs. Sandberg makes the claim that for some time after the train left the Soo there were vacant seats in some of the cars suitable for her use and that the company should have provided her with such.

Rome, April 15.—At the consistory today, Pope Pius appointed Cardinal Martinielli chamberlain of the sacred college.

Talk about your breakfast foods, A thousand you can see; I wouldn't have them as a gift; I'd have Rocky Mountain Tea. The Stafford Drug Co.

AWNINGS. The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size. KELLY HARDWARE CO. (3-27-4f) Marquette.

Ishpeming Department

(Additional Ishpeming on Page Three.)

MANUAL TRAINING INSTRUCTOR. Man from Oak Park Assumed Charge of Ishpeming School Yesterday.

E. F. Geiger, who has been employed as an instructor in the manual training school at Oak Park, Ills., for the past year, arrived in the city yesterday morning. He was engaged by the Ishpeming school board a few days ago to succeed A. W. Avery, who resigned to accept a position at the Detroit University school. Mr. Geiger assumed charge in the afternoon and today he will begin looking into the grade of work taught here. He said that his first impression of Ishpeming was not a pleasant one, as the weather was a little the worst he had seen this year. After examining the equipment he expressed himself as well pleased with it, but said that so far as he could judge the methods of teaching were somewhat different than are employed at the Oak Park school, which, he said, is undoubtedly the finest manual training school in this country. The students are obliged to start and finish their work on the stroke of the clock and the discipline is the strictest he has ever seen during his experience in educational work. He said he liked the feature of the Oak Park system, as he knew from experience that the very best results are obtained by it.

Mr. Geiger is a graduate of Ann Arbor and he and Mr. Avery were classmates. Prior to taking a position at the Oak Park school he was employed two years as instructor in a manual training department in an Iowa town. He was also employed for a time in the mechanical department of the Western Electric company of Chicago.

Miss Moulton, a teacher at the high school faculty, will teach next year at Duluth. Her resignation has been accepted by the board.

MAY SUSPEND OPERATIONS.

Negaunee Man Writes of Conditions at Famous Homestake Mine.

Arthur Jobe of this city, who has been employed as engineer at the Homestake mine at Lead City, S. D., the past two or three years, has advised relatives in Negaunee that he may leave there for one of the mining districts of Arizona. The Homestake mine has been idle nearly a month, due to fire underground. Mr. Jobe writes that so far as can be ascertained the fire has been extinguished, but the workings are so highly charged with gas that the men cannot work in any part of them. Several attempts have been made daily for two weeks past to enter the mine, but the workmen get down in the shaft but a few feet when they are obliged to return to surface. All possible means of ventilating the workings in the hope of driving out the gas have been tried, but with little or no success. The management is rather puzzled to know what next to do, and the impression prevails at Lead City that it may be weeks or perhaps months, before mining operations can again be resumed. A large number of the workmen have already left the place and it is anticipated that many more will go to other fields within a week or two, if there is no immediate prospect of a resumption.

ISHPEMING MAN WINS PRIZE.

Patrick Collins has been notified by Grinnell Bros., manufacturers of pianos, that he was the winner of third prize in a contest recently conducted by the firm. The persons submitting the largest number of words correctly spelled from the letters contained in the firm's name was to receive a \$500 piano, the second prize was \$150 and the third prize \$75. W. G. Lewis of Dollarville, Mich., won first prize and Nettie J. Crinon of Greenland took second. Mr. Collins sent in a list of 631 words.

COOKING DEMONSTRATION.

A. P. Sweetman, representing the Standard Lighting company, gave a demonstration of cooking on his company's stoves yesterday at the office of the Marquette County Gas & Electric company. He did most of his work with one of the company's improved ranges. A batch of four large loaves of bread was baked in thirty minutes and only fifteen feet of gas were consumed, costing at the rate charged by the Ishpeming concern, one and seven-eighths cents.

SEAT SALE OPENS TODAY.

The advance sale of seats for "Forty-Five Minutes from Broadway" at the Ishpeming theatre tomorrow evening, will open this morning. It will draw one of the largest audiences that has assembled at the theatre for months. The attraction is repeating this season its wonderful success of last year, playing to capacity nearly everywhere it is presented.

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

AN INSIDIOUS DANGER. One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. The Stafford Drug Co.

"Preventives" will promptly check a cold or the Grippe when taken early or at the "sneezing stage." Preventives cure seated colds as well. Preventives are little candy cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early. Check with Preventives and stop Pneumonia. Sold in 5c and 25c boxes by The Stafford Drug Co.

"Let us have some Cudahy's Peacock Bacon and calves liver for supper. Mama's say young and old." (11-27-06)

VANDEVENTER STRIKE.

Cuba City Paper Says Ore Will Run 60 per Cent in Mineral.

The Cuba City, (Wis.) News-Herald of Friday had the following to say of the recent ore strike in two holes put down on the Vandeventer lead and zinc property near that city:

"In drilling the southeast forty of the Vandeventer, some of the richest cuttings in the district were produced from three holes and at shallow depths from 20 to 35 feet. The holes were shot and chunks of ore from 2 to 10 pounds in weight were taken out. These pieces are very rich and from the purity of their appearance will assay over 60 per cent metallic zinc. Similar to the Dall and Meekers Grove mines in character, the body seems to average six feet in thickness and its length and breadth have not yet been determined. The 10 pound pieces are remarkable as being the largest ever taken from a drill hole in the district. Manager R. A. Fox, who has been in charge of the strike, is very conscientious and painstaking. It is very much pleased to furnish this evidence of ultimate success to his company, whose confidence he enjoys."

ORE SHIPMENTS DELAYED.

Trains Were Moving and Steam Shovels Working a Year Ago This Time.

If the weather prevailing here the past week does not soon change the ore shipping season will open some days later than usual. Ore trains were moving from the mines to the docks a year ago this time and a few steam shovels were in operation. On the 19th of April there were over a half dozen steam shovels working at the stockpiles of this city and a few shovels were also in operation in Negaunee. The Lake Superior & Ishpeming Railway company had five crews working in this city on the 19th, and all of the tracks leading to the mines were open.

There is very little ore at the lake ports awaiting the arrival of the first boats. This will probably result in a slow start at the ports, as the boats may begin to come in before it will be possible to load any quantity of ore at the mines. There is now more snow on and near the mine tracks than during any time of the winter, though it is not of the kind that will take a great while to remove. A number of shovels are ready for work and they would have gone into commission last week if the weather had been favorable.

STREET CARS HAMPERED AGAIN.

The third installment of the April storm started in yesterday morning and continued the remainder of the day, several inches of snow falling. The snow was wet and extremely heavy and soon caused trouble for the street railway men, who got the cars through to the depot only twice after dinner. The wind blew a gale of from twenty-five to thirty-five miles an hour on the plains near Union Park and the snow blew into the tracks about as fast as it could be shoveled out. The city's big plow was kept on the road all day, opening up the thoroughfares to the cemetery. Nelson mine location and also the Badger hill district. The big plow has been in operation during three days of the past week, an unusual record for April.

BROTHERHOOD ENTERTAINMENT.

At the last meeting of the Ishpeming branch of the Modern Brotherhood of America an unusually fine musical and literary program was given by members of the organization and invited friends. Following the entertainment the ladies served refreshments, including coffee, sandwiches, tea, cream, cake, fruits, etc. The officers of the lodge greatly appreciate the services of those who aided in the entertainment. The Ishpeming branch has had a steady growth in membership during the past year and a number of applications have recently been received.

ANNUAL SKI MEETING.

The annual meeting of the Ishpeming Ski club will be held in the Woodmen's hall Thursday evening at 8 o'clock. Officers will be elected for the ensuing year and the annual reports of the secretary and treasurer will be presented. At the conclusion of the business session there will be a lunch and smoker. The organization is in a healthy condition financially, and its membership is the largest in its history.

WARMING ARBUCKLES SLIGHTLY

MAKES THE GRINDING EASY

If you want to drink real coffee, buy a sealed package of Arbuckles' ARIOSA and grind it in your own kitchen as you want to use it. Roasted coffee loses its strength and flavor if exposed to the air, and even its identity as coffee after grinding. Loose coffee sold out of a bag, bin or tin is usually dusty and soiled by handling. Don't take it!

Compiles with all requirements of the National Food Law, Quarantine No. 2041, and U. S. Warehouse.

The General Condemnation of So-Called Patent or Secret Medicines

of an injurious character, which indulge in extravagant and unfounded pretensions to cure all manner of ills, and the

National Legislation Enacted to Restrict Their Sale

have established more clearly than could have been accomplished in any other way

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

FROM HOPKINS' CURB LETTER.

"A featureless market today with prices starting out at about the low figures for the day. Under the lead of amalgamated and North Butte the entire list secured a moderate advance. Superior & Pittsburg worked down to 17 1/2. Our best advices from Bisbee are to the effect that the stand taken by the different companies is so firm that it will discourage any demonstration. Officials figure the number of men out at 715; of this number 400 are from Copper Queen and the rest are distributed between Calumet & Arizona, Denn, Shattuck, Arizona and Superior & Pittsburg. The mines are working steadily but with somewhat reduced forces. The operators take the stand that their plants will be closed down rather than to give in to the demands of the union."

Table with columns: Bid, Asked, American, Watten, Deuth Mining, Lake Superior & Ariz., Wolverine & Arizona, Superior & Pittsburg, Ariz Com, Shattuck, Globe Com, Camanche Central, Old Hundred, North Butte Egen., Barnes-King, Utah Apex, Nevada Utah, Butte & London, Butte Exploration, East Butte, Black Mountain, Keeweenaw, Hancock, Nipissing, Superior, Davis-Daly, Boston Ely, Boston & Cobden, Calumet & Globe, Superior & Boston, Calumet & Montana, Chiricahua, Comanche, Troy-Man, Haven, McKinley, National Mining, Athol.

Negaunee Department

MAY INSTALL NEW BOILERS.

Improvements at Municipal Power Station Will Be Substantial.

The board of public works and lighting committee, instructed at the last regular meeting of the city council to inspect the machinery at the municipal power station with a view to determining what new equipment is necessary, may recommend that a battery of new automatic boilers be installed. When the plant was inspected one day last week the members of the board and committee agreed that there is considerable room for improvements to both the water and electric plants, as it is very evident that the operating expenses are greater than they would be with more modern equipment. As previously stated, the electric light engine is not powerful enough to meet the increasing demands upon the plant and it is to be replaced by a turbine generating set, with about thirty-three per cent greater power.

O. D. McClure, master mechanic of the Cleveland-Cliffs Iron company, has been engaged to inspect all the equipment and to recommend what improvements are advisable at this time. It was the unanimous opinion of the city officials who inspected the plants that there is considerable room for improvement in both departments and particularly the boiler room. One of the boilers, installed about four years ago, has saved the city a large sum in fuel during that period, as it does not consume as much coal as the others, but even at that it is not in the same class with the latest improved automatic boilers, which will doubtless be installed if it is decided to make a change.

A member of the committee said yesterday that he thought the new boilers would pay for themselves in five or six years, as they will not only consume less fuel, but less labor will be required to operate them. The installation of the new engine for the electrical department, he said, was an absolute necessity, and he thought that while this change was being made other improvements could also be made to advantage. The board and committee will submit recommendations, together with a report from Mr. McClure, to the council at the May meeting. It is expected that the council will instruct the board and lighting committee to go ahead with the work.

AT PAROCHIAL SCHOOL.

Addition Costing About \$8,000 Will Be Built by St. Paul's Congregation.

At a meeting of the board of trustees of St. Paul's congregation Sunday afternoon, L. E. Caussee was awarded the contract for the erection of an addition to the present school building, the total cost of which, including a steam heating plant and other equipment, will be about \$8,000. The addition will be on the north side and will be one story high, sixty-five feet in length by forty-four wide, with three school rooms, with a basement, where the furnace will be located and a large play room provided. The toilets, etc., will be on the main floor. Work on the structure will be started within a few weeks, as it is desired that the building be ready for occupancy by the opening of the fall term in September.

Pesides erecting the proposed addition the old school will be thoroughly remodeled and the heating plant to be installed will be of sufficient size to heat both buildings. There are four rooms in the present structure, two on the first floor and two on the second. It is the purpose of the board to confine all of the school work to the first floor, using the old rooms and the three new ones. The two rooms on the second floor of the old building will be converted into a hall, to be used for school entertainments, etc. Some changes will be made in the windows of the old building and the main entrance to the school will be in the new part, a few feet from the south wall of the old building. Two grades will be conducted in each room. The eighth grade will probably be the highest taught in the school. Both parts of the building are to be provided with new furniture, including blackboards, etc. The latest improved sanitary drinking fountains are also to be installed. The fund to be used in paying for the improvements was started by the late John Mulvey, who at his death over two years ago, left the congregation \$4,000, with the request that it be used only for the improvement of the school. This sum has been drawing interest ever since. The school trustees will have to raise some money, as the amount on hand is not sufficient to pay for the improvements.

SOME UNIQUE POSTERS.

The members of the Glee club of the high school are distributing some attractive handpainted pictures advertising the production of the comic opera, "The Mikado," Friday evening at McDonald's opera house. Most of the posters were made by the members of the freshman class. The advance sale of reserved seats started at Perkins' drug store, and from present indications the house will be packed to the doors. The reserved seats are selling at fifty cents each.

BACK FROM THE MESABA.

Mrs. Philip Abbott and children have returned from Chisholm, Mesaba range, where her husband has been a boss at the Crofton mine ever since they left here last year. Mr. Abbott has resigned his position and will return to Negaunee with a week or two. The family did not like the place and their return to Negaunee has been contemplated for the past two or three months. They will occupy their own dwelling, as soon as it is vacated. Prior to going to Chisholm Mr. Abbott was a foreman at the Columbia mine, a position he held for several years.

LOCAL LACONICS.

Joseph Matthews, Jr., who has been in Chicago for several years past, is in the city, visiting his father.

The announcement that Archie Orr was elected a member of the board of trustees for St. Paul's church was erroneous.

J. Williams, who left this city some time ago for South Dakota, has returned, and may decide to remain here permanently.

Frank B. Leonard, the factory representative of the W. W. Kimball Piano company, of Chicago, is in town again. He sold to James Gleason the piano received at O'Donoghue's store yesterday.

John Ward has taken a leave of absence as passenger conductor on the Chicago & Northwestern line and will spend a week or more in this city, visiting relatives. Mrs. Ward has been here since last week.

Mrs. Hawkins and family leave today for Butte, Mont., where they will reside permanently. Mrs. Hawkins has placed the sale of her residence property with K. C. Cooley. She has a sister residing at Butte.

O. J. Lacombe, who in partnership with his brother, Joe, of Chicago, had planned to open a saloon in the Pearce block May 1 has bought out Thomas Corrigan, who has conducted business in the Hakenjos building on the eastern end of Iron street the past year, and will open there May 1.

Iron street presents a more unsightly appearance now than at any time during the winter. Large drifts of snow are banked along the thoroughfare and particularly on the outer edges of the sidewalks. In a few places the snow thrown up from the walks is six or seven feet high. It is not likely that any great quantity of the snow will be hauled away, as one or two days warm weather is all that will be needed to thaw it.

DOING BUSINESS AGAIN.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and generally debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best of all tonic medicines. Guaranteed by The Stafford Drug Co. 50c.

AWNINGS.

The News—No pure drug Cough Cure laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for twenty years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label, or package. For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison-marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks here! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by The Stafford Drug Co.

Public Warning! We shall not be responsible if any person takes any but the genuine Foley's Honey and Tar for coughs and colds. Imitations are worthless and may contain opiates. The genuine Foley's Honey and Tar in the yellow package contains no opiates and is safe and sure. The Stafford Drug Co.

The Use of Malt Extract in Food

Cooked Wheat Treated With It and Then Baked Crisp and Brown Is Nutritious and Delicious.

Remarkable results are secured by treating whole wheat with malt extract, as illustrated by the widely known food product, Malta-Vita, sometimes called "The Perfect Food."

In the preparation of Malta-Vita we have these two factors:—(a) the whole wheat, steamed and cooked in absolute cleanliness and containing every food element necessary to the sustenance of the human body, (b) pure malt extract of the wheat into maltose, or malt sugar, an active digestive agent. The result is a perfect food, rich in all the nutrition that builds up bone and blood, brain and muscle, healthy tissue and nerve force.

And Malta-Vita is good to eat. There's nothing like it nothing that can take its place. After being mixed with the milk, the wheat is rolled into wafer-like flakes—very grain a little flake—and then baked in great, clean ovens under most intense heat. From the ovens they come crisp and brown, "done to a turn," the most delicious, the most healthful food in the world. All grocers, 10 cents.

WANTED—Good barber. Good wages. Salvatore Bertucci, Negaunee, Mich. 4-15-17

The Cough Cure His Great-Grandmother Used

Cure your children's coughs with the oldest and best-known cough remedy in the world—the same one their great-grandmothers used and had faith in.

DR. D. JAYNE'S EXPECTORANT

is the same today as when it was first prescribed by Dr. Jayne 77 years ago. This remedy has relieved and cured coughs so successfully for generations that it is to-day the standard cough cure in thousands of homes all over the world. Don't neglect your children's coughs—don't neglect your own cough. The system is quickly weakened by a constant irritating cough, and laid open to pneumonia and other pulmonary diseases. The best time to cure a cough is right now, and the best remedy is Jayne's Expectorant.

Three sized bottles, \$1.00, 50c., 25c.

Jayne's Tonic Vermifuge is a safe cure for worms, a reliable children's remedy, and a tonic for the whole family. Jayne's Sensitive Pills is an effective liver regulator. A laxative, purgative, cathartic and stomach tonic.

DO IT NOW!

Why not invest your money in a comfortable home where the bears of Wall Street will not have a chance to wrest it from you, and there is no danger of being "wiped out." Any money spent in this direction will return a greater amount of interest and less worry than can be had otherwise. The constant growth of the country and scarcity of timber is sure to cause the price of lumber to advance year after year, so that any repairs made now will mean a saving of from 20 to 50 per cent. If you contemplate building or remodeling, do not fail to get our prices before placing orders elsewhere. Large stock always on hand.

PROMPT DELIVERY.

Consolidated Fuel & Lumber Co.

42-PIECE DINNER SET, HAVILAND BEST CHINA; scalloped edges, with sprays of gold; set complete **\$17.00**

Men's Hats.

NEW STYLES, NEW SHAPES, NEW BLOCKS, are here for your try on.

The proper shaped hat adds a great deal to the features of a man. Too much precaution cannot be exercised in selecting the correct shaped hat. Two men may wear the same size hat, but their heads may be shaped different entirely. The advantage offered in our hat department is properly fitting the head. That's our strong card, and, moreover, we charge no more for the "correct" hat for your head than the store with the limited stock.

The GORDON Hat, in various Cady shapes, Fedoras, Telescopes and Crushes **\$2.50** and **\$3.00**

The GIMBEL Hat, also a popular one **\$3.00**
Cheaper Hats from **50c** up.

JNO. B. STETSON Hat, comes in striking shapes as well as conservative style **\$4.00** and **\$5.00**

Men's Shirts.

Distinctly new patterns in Madras and Silk Shirts.

We offer the famous Ferguson & McKinney Coat Shirts, with two pair of cuffs, for **\$1.50**

Other makes from **50c** up.
WILSON BROS. special Shirts **\$1.50** and **\$2.00**

Union Suits.

Musing ribbed and plain Union Suits, light and heavy weight, per suit **\$1.50** to **\$3.00**

Gloves.

"Updegraf" dress or street gloves, fine Kid stock, all of the nice shades, price **\$1.00** to **\$2.00**

Fancy Neckwear.

Don't neglect that trifle, and yet important, make-up. Our patterns are of the conservative kind **25c** to **75c**

Daily Necessities at Great Saving.

18c doz.
Glass Tumblers, plain or fancy.
19c
Electric Globes, size 2, 4, 6, 8, 16 and 24
\$2.19
Toilet Set, six pieces, beautifully decorated.
9½c
Gillette's Spanish Saffron, large size box.
Palm Olive; bar
7c

15c
Four-pound package Johnson's Washing Powder.
2 for 5c
Wiggle Stick Blue—considered much better than the liquid.
5c Box
Large size Magic Yeast Cakes.
4½c
Glass Lump Starch—best quality.
15c
Gilt Edge Shoe Polish.

MAYOR'S SLATE IS UNCRACKED

APPOINTMENTS ALL CONFIRMED AT MEETING LAST EVENING.

COUNCIL PREPARES TO FIGHT

Will Appear in Court the 19th and Show Cause Why Recount Should Not Be Granted in Contest for Recorder's Office—City Matters.

Controller—Franklin E. Bay. City Attorney—George P. Brown. Health Officer—Zacharie Vadnais. Harbor Master—Anton O. Kruger. President of the Council—Merwin E. Asire.

Members of the Light and Power Commission—John H. Lewis and Henry R. Harris, the latter to fill vacancy caused by the resignation of John Robertson.

Member of the Board of Park, Cemeteries and Streets Commission—Peter White. Member of the Board of Trustees of the Peter White Public Library—John W. Stone.

Member of the Board of Police Commissioners—John Carlson. Market Keeper—Timothy T. Hurley.

The slate as prepared at the informal session Saturday night went through without a crack at the first regular session of the new common council last evening. With the exception of three instances, all the appointments were confirmed by a unanimous vote.

Alderman Donovan remained silent on the vote confirming the appointment of Franklin E. Bay as controller; Aldermen Corbett, Donovan and Downey voted against the confirmation of Dr. Vadnais as health officer, and Alderman Asire modestly refrained from voting for himself as president of the council.

Mayor Robertson presided, and all the aldermen were present save E. G. Jenks, whose absence was subsequently explained when his resignation was received. The mayor's desk had been decorated with American Beauty roses.

The first matter taken up was an ordinance of considerable scope in the matter of committee appointments and the rules governing the new administration. This provides for a committee to run the rock crusher, notwithstanding the fact that the late amendments to the city charter place the street commission in entire control of all improvements governing the streets and sidewalks. As the charter takes precedence over any municipal legislation that may conflict with it, the committee apparently is liable to find itself a superfluous body.

Standing Committees. The appointments were then read, and on motion of Alderman Asire were voted upon separately.

The mayor announced the standing committees as follows, the first named of each to act as chairman: Finance and Taxation—Asire, Williams

and Peters. Parks, Cemeteries, Streets and Sewers—Williams, Siegel and Schauer. Claims and Litigation—Schauer, Ekstrom and Corbett. Police and Public Order—Asire, Donovan and Reichel.

Ordinances and Rules—Corbett, Ekstrom and Reichel. Public Buildings and Property—Reichel, Williams and Peters. Purchases, Salaries and Wages—Peters, Schauer and Asire. Licenses and Trade Regulations—Donovan, Downey and Siegel.

Railways and Public Conveyances—Downey, Campbell and Donovan. Public Health—McCarthy, Campbell and Ekstrom. Harbors—Siegel, Corbett and McCarthy. Pounds—Campbell, McCarthy and Downey.

City Hall Janitor. The committee on public improvements recommended that Charles E. Johnson be appointed janitor of the city hall. Alderman Siegel moved as an amendment that Thomas Price be appointed janitor. The amendment was lost 5 to 7, and on the vote on the original motion Mr. Johnson's appointment was confirmed 7 to 5.

On recommendation of the committee on public health, Joseph Knapp was unanimously confirmed as keeper of the dump grounds. John E. Flynn was appointed poundmaster by the same method of procedure on the recommendation of the committee on pounds.

The resignation of John Robertson from the light and power commission was accepted and filed. Attorney C. F. Button was allowed \$10 attorney's fees for legal services in overhauling the demurrer in the case of Lachlan Johnson vs. the City of Marquette.

The request of twenty-four residents on Champion street for permission to withdraw their names from a petition asking for the opening of the street, was referred to the committee on streets. An offer from the United States Standard Machine company, of Rochester, N. Y., to sell the city five voting machines at \$200 each, subject to approval after being tested at the November election, was tabled. The council then adjourned until Monday, April 29.

Recordership Contest. Immediately subsequent to adjournment, the council reconvened as a canvassing board to take up the matter of the injunction proceedings of Edward McCarthy demanding a recount of the vote cast for the office of recorder in the Second and Fourth wards.

A few days ago Judge Stone granted an order requiring the council either to recount the votes or to show cause why it should not recount them on the 19th of this month. City Attorney Hill stated that in his opinion the only question involved was whether a recount was set in motion by the steps taken by Mr. McCarthy. He was firmly of the belief that Mr. McCarthy took action twelve hours too late. In support of this contention, Mr. Hill read at length from the statute governing it.

On motion, the council decided to appear and show cause why a recount should not be granted, and it appointed Mr. Hill to represent it.

A marvelous preparation containing the constituent elements of life, Hollister's Rocky Mountain Tea cures when all else has failed. 35 cents. Tea or Tablets. The Stafford Drug Co.

NEWS FROM THE "ADAMLESS EDEN"

MRS. MARY F. HAYDON WRITES REGISTER OF DEEDS PRIMEAU FROM FALFURRAS, TEXAS.

PAYSHIGH TRIBUTETOCOUNTRY

First Carload of Early Vegetables Raised in United States This Season Shipped North on Date of the Letter, April 10.

Mrs. Mary F. Haydon, a former resident of Marquette as there, has written an interesting letter to Register of Deeds Joseph H. Primeau. Mrs. Haydon is the originator of the so-called "Adamless Eden," a project which won for her national celebrity. In looking over the entire country she decided that the "Land of Heart's Delight," at Falfurras, Southern Texas, was the proper place to start her "Eden."

While the press has been rather inclined to poke fun at the idea, it is certainly because of ignorance in not clearly understanding the plan which Mrs. Haydon had in mind. She wishes to provide a place where women of small means, possibly with a number of children to raise and support, can bring their little families, and setting upon a few acres of land, make a living and provide them with good educational advantages. Mrs. Haydon also believes that away from the influences of cities the children will have a better chance to grow into upright and noble men and women. Writing from Falfurras, under date of April 10, Mrs. Haydon says in part:

Shipment of Early Produce. "Today, April 10, the first carload of early vegetables raised in the United States this season will be shipped to Fort Worth and from thence north. Possibly some of them may reach you at Marquette. The car is loaded with beans, new potatoes, green peas, beets and squash. A neighbor of mine planted a fall crop of watermelons last October and in December and January cleared \$10,000 from eighty acres. The first carload brought \$1 each. A young man near me made \$700 from three acres of tomatoes harvested in January. As high as \$1,500 has been realized from an acre of onions costing \$100 to seed.

Falfurras being in extreme southern Texas, several hundred miles nearer the equator than southern California, about on a parallel with Key West, Florida, and near the Gulf of Mexico, its climate is as mild as that of Florida and is free from many of the objectionable features of that state. The soil is an alluvial deposit from some great water course which existed many hundreds of years ago. It is a rich loam, containing more or less sand. The climate is semi-arid and semi-tropical. Being semi-arid the farmer does not have to contend with excessive rains. He can always count on

saving everything that he grows. On account of the warmth, something is being harvested every month in the year. The mild winters enable us to grow truck in November, December, January and February. It is during these months that prices are highest. A great deal of artesian water is found, but we generally have to go down about eight hundred feet.

Sorghum is being raised in great quantities. During the past few years corn, peanuts and peas have been raised with great success. Alfalfa that was planted last fall is doing exceedingly well. Corn yields from twenty to twenty-five bushels to the acre without irrigation. Cotton is a staple. It can be counted on to yield on the average as the seasons vary one-half bale to the acre. Among the smaller fruits are strawberries, blackberries, dewberries, figs and grapes. "The days are very warm here from 10 a. m. to 4 p. m., then the gulf breeze springs up and at night it is so cold that you have to sleep under blankets all the year round."

DEER DIED IN STREET.

Animal Chased Into City by Dogs Late Yesterday Afternoon.

A deer, which had evidently been chased by dogs, entered the city from the south late yesterday afternoon and dropped dead from exhaustion in front of the Baraga school, corner of Baraga avenue and Fourth street, about 5:20 o'clock. The animal, a young doe, was first seen on the south side an hour earlier. It was being chased by a setter dog at the time, but was running easily and showed no signs of exhaustion. It evidently became confused by its strange surroundings and circled about. Boys on Bluff street caught it at one time, but realizing the remoteness of its strength it tore itself loose and sprinted toward Baraga avenue. When again headed in front of the school house it wheeled suddenly in its tracks, staggered and sank down. When the lady who was pursuing it reached it it was dead.

There are scars on the animal's flanks and sides that indicate that it may have been pursued by wolves, though it is more probable they were received passing through a barbed wire fence. The body of the animal was taken to the city hall, and will be hauled to the dump this morning.

This is the second deer that has entered an upper peninsula city this spring. A few weeks ago a deer pursued by dogs entered Menominee. A woman drove the animal off and took charge of the animal. She intended to keep it as a pet, but the state claimed it and it was taken to the Soo to be placed in a public park.

CARD OF THANKS.

Opening of Exquisite Millinery

TODAY AND TOMORROW

GRABOWER'S BIG STORE

TODAY AND TOMORROW

THE charming Hats which will be shown at Grabower's Store will win the admiration of hundreds of discriminating dressers. WE INVITE YOU TO COME and see what we are showing—it is a gathering of stylish head pieces, made by expert designers, that is well worth traveling a distance to see. And aside from the rich Hats shown, there's a pleasantry in the price question, too, that will meet with universal favor; the savings are evident when you compare qualities with that shown at other stores.

A magnificent choosing is offered in the Hats we show at \$4.50 to \$10.00. Lively creations that cannot be duplicated elsewhere for double our price, and you'll readily realize the truth of this assertion when inspecting this elegant exhibit and will make comparison in styles and qualities. We never show duplicates, so come early to get the choice of the newest in Hat fashion seen in our Millinery department.

FRONT STREET.
