

WILSON PREDICTS USUAL HARVEST

Secretary of Agriculture Declares the Crop "Scare" Greatly Exaggerated and Not Borne Out by the Government Reports.

Will Be Found When Threshing Time Comes Around That All This Cry of Damage Has Been Made for a Purpose, He Asserts—Havoc in the Southwest Is Not at All Serious, and the Delay in Seeding in the Northwest Is of Little Moment.

Chicago, May 6.—The reports of damage to the crops, which have been so numerous of late, owing to unseasonable weather and the ravages of bugs, have been greatly exaggerated according to Secretary of Agriculture Wilson, who is in Chicago tonight.

Ground Ready for the Seed. "While the weather has been unseasonably cold in some districts, still it has not been severe enough to retard ploughing, and my advice is that the ground in those states has been nearly all made ready to receive seed."

As regards the Canadian Northwest, the claim being made that this year's harvest will be seriously diminished may have some foundation. According to what I consider authentic advices from that portion of the continent the weather has been so cold that ploughing has been almost impossible.

Southwestern Damage Local. "In the Southwest," the secretary continued, "there have been numerous claims for the past three weeks of serious damage being wrought by green bugs. These reports of damage to winter wheat have been grossly exaggerated."

Conditions Elsewhere Excellent. "There is considerable grain grown between Washington, D. C., and Chicago, and from my personal observation of this part of the United States I can state without any reservation that I never in my life saw brighter prospects than are prevailing here at present."

Stockholder Complains. Chicago-New York Air Line Affairs to Get Airing in Courts. Chicago, May 6.—Theodore Nemoy, a stockholder of the Chicago & New York Electric Air Line railroad, today filed a bill in the circuit court seeking to test the validity of a contract entered into between the railroad and the Co-Operative Construction company and certain persons, and to secure the return of stock alleged to have been illegally received from the railroad.

Discrimination Alleged. Lincoln, Neb., May 6.—The executive committee of the Lincoln Commercial club today authorized the filing of a complaint with the interstate commerce commission against six Nebraska railroads, charging discrimination in freight rates against Lincoln.

Discrimination Alleged. Lincoln, Neb., May 6.—The executive committee of the Lincoln Commercial club today authorized the filing of a complaint with the interstate commerce commission against six Nebraska railroads, charging discrimination in freight rates against Lincoln.

Discrimination Alleged. Lincoln, Neb., May 6.—The executive committee of the Lincoln Commercial club today authorized the filing of a complaint with the interstate commerce commission against six Nebraska railroads, charging discrimination in freight rates against Lincoln.

SHOCKING TRAGEDY. NATIONAL SOLDIERS' HOME AT WASHINGTON A SCENE OF MURDER AND SUICIDE.

Washington, May 6.—Wm. Parks, aged forty-seven, of Zanesville, O., an inmate of the National Soldiers' home here, today shot and fatally wounded James Leslie, of Chicago, aged thirty, also an inmate, and afterwards committed suicide. Parks had been drinking, and entering one of the wards was directed to leave by one of the nurses, Sister Paula. Parks immediately drew a revolver and was about to shoot, when Leslie stepped in between them, receiving the bullet intended for the nurse.

Cattlemen's Feud Fatal to One. Dunoon, I. T., May 6.—James Lefitch, a wealthy cattlemen of Leoc, I. T., and candidate for state senator on the Democratic ticket, today shot and killed T. J. Clark, also a wealthy cattlemen, at the entrance to the court house in this city. The tragedy was the result of an old feud.

Arrested, Accused of Killing Nine. Pensacola, Fla., May 6.—Joe Stanley and M. C. Smith, whites, were arrested today, charged with the murder of the Askerman family, near here, about a year ago. The family consisted of father and mother and seven children whose father had been found cremated in their burned home.

NEW YORK STRIKE TAKES BAD TURN

Chicago Building Operations Crippled. Chicago, May 6.—Building operations all over Chicago and suburbs are badly crippled by a strike of 4,000 bricklayers and allied laborers, who walked out today to enforce demands for a Saturday payday. Among the public buildings on which work is practically brought to a standstill is the new \$5,000,000 county building, now nearing completion.

General Tie-Up at Frisco. San Francisco, May 6.—The labor situation in San Francisco today showed no change from yesterday. The street cars are not running. The telephone service is badly crippled. Thousands of iron workers are still holding out for an eight-hour day, and nearly all the big laundries are idle.

Rev. Cooke in Custody. Caught at Saranac Lake With Girl With Whom He Eloped. New York, May 6.—A dispatch from Saranac Lake says that Rev. Dr. Cooke, formerly of Houston, was arrested today by private detectives. It is reported that Cooke and Miss Whaley, the seventeen-year-old girl with whom he eloped, deserting his wife, reached Saranac Lake at noon and went to a boarding house there.

Miss Terry Wedded Again. James Carey, Her Leading Man, Is Actress' New Husband. New York, May 6.—Announcement was made today that Ellen Terry, the English actress, was married to James Carey, her leading man, in Pittsburgh, Pa., May 2. Carey is thirty-five years old, and his wife fifty-nine. Miss Terry had been married twice. It is understood that it was purely a love match.

Tornado in Texas Wipes Out Towns. Wide Area is Swept, and Lives are Lost—Destructive Hail Falls in Missouri. Fort Worth, Tex., May 6.—A storm of wind and rain which was general throughout a considerable area in northern Texas today at some places assumed the proportions of a tornado. At Deport much damage was done, but no persons were seriously injured.

Arrests Follow Lynching. Six Alleged Leaders of a Mob Arrested in the Indian Territory. South McAlester, I. T., May 6.—Six men alleged to be the leaders of the mob that lynched James Williams, a negro, at Sterrett March 31, were arrested at Durant and Sterrett, I. T., today, by United States marshals and brought to this city and held for the grand jury without bail on the charge of murder. Williams had been arrested on the charge of assaulting a girl, and was in charge of United States marshals when the mob overpowered them and hanged the negro. The matter was reported to the department of justice at Washington, and the arrest of the alleged lynchers was ordered.

Carries Many Soldiers. Transport Logan Sails from San Francisco for the Philippines. San Francisco, May 6.—The United States army transport Logan sailed today for the Philippines carrying the Ninth cavalry (colored), 10 enlisted men of the Twenty-seventh battery of field artillery, 100 recruits for Honolulu, and a few marines and seamen for Guam.

Blackhand Band Convicted. Wilkesbarre, Pa., May 6.—Eleven Italians were today declared guilty by a jury on the charge of blowing up the home of an Italian because he refused money to hand of men calling themselves a "Blackhand" society. Sentence was deferred.

MINERS' ATTORNEYS MAKE ARGUMENT

Counsel for William Haywood, Accused of the Steunenberg Murder, Demand That the State Be Forced to Show Its Hand.

Denouncing the Secrecy Observed and Inveighing Against the Danger of "Surprise" Testimony, They Ask the Court to Direct the Prosecution to Bring in a Bill of Particulars Specifying the Overt Acts Alleged—Decision Withheld Until Tomorrow

Boise, Idaho, May 6.—Judge Wood will on Wednesday decide if, on the eve of his trial for the murder of former Governor Steunenberg, William Haywood is entitled to receive a bill of particulars specifying the overt acts charged against him. The motion of the defense for this disclosure of the case of the state was argued at length today, and at the conclusion the court announced that decision would be made at the time stated.

Defendants in the Dark. Mr. Richardson, who opened the argument, contended that the indictment was lacking particularly in that it left the defendants in the dark as to the nature of the case to be presented against them, and the defendants were entitled to a more specific showing of the case. He submitted an extended brief citing a great number of authorities and precedents in favor of his contention.

Mr. Darrow, who closed the argument, said that the purpose of the defense to secure a disclosure of the evidence in the hands of the prosecution, and he asked why the defense was not entitled to such showing. He made a spirited attack upon the attitude of the prosecution towards its witnesses and the evidence, describing it as mysterious, unfair and unjust.

Asks for Fair Play. Mr. Darrow asserted that the only question involved was one of the fairness and justice to the accused. He laid stress upon the difficulty of securing testimony from distant points, and the danger to the defense of "surprise" testimony, and he passionately asserted that the rights of the prisoners were as much in the hands of the prosecution as in the keeping of the defense.

State's Secrecy Defended. Senator Borah closed the discussion with a spirited speech in which he defended the secrecy in obtaining witnesses, instancing the loss of two in Colorado yesterday. He discovered a desire for any man's blood unjustly, and avowed the purpose of the state to do its duty.

Arrests Follow Lynching. Six Alleged Leaders of a Mob Arrested in the Indian Territory. South McAlester, I. T., May 6.—Six men alleged to be the leaders of the mob that lynched James Williams, a negro, at Sterrett March 31, were arrested at Durant and Sterrett, I. T., today, by United States marshals and brought to this city and held for the grand jury without bail on the charge of murder.

Carries Many Soldiers. Transport Logan Sails from San Francisco for the Philippines. San Francisco, May 6.—The United States army transport Logan sailed today for the Philippines carrying the Ninth cavalry (colored), 10 enlisted men of the Twenty-seventh battery of field artillery, 100 recruits for Honolulu, and a few marines and seamen for Guam.

Blackhand Band Convicted. Wilkesbarre, Pa., May 6.—Eleven Italians were today declared guilty by a jury on the charge of blowing up the home of an Italian because he refused money to hand of men calling themselves a "Blackhand" society. Sentence was deferred.

Blackhand Band Convicted. Wilkesbarre, Pa., May 6.—Eleven Italians were today declared guilty by a jury on the charge of blowing up the home of an Italian because he refused money to hand of men calling themselves a "Blackhand" society. Sentence was deferred.

IAN M'LAREN IS DEAD. Noted Author a Victim of Blood Poisoning from Tonsillitis.

Burlington, Ia., May 6.—Dr. John Watson (Ian Mac Laren) died today at Mt. Pleasant, Ia. The cause was blood poisoning, from tonsillitis. Dr. Watson was taken ill at Mt. Pleasant April 25. He was born in Essex in 1850.

Odds Are Ten to Seven. Betting Favors O'Brien in His Fight With Tommy Burns. Los Angeles, Cal., May 6.—Today wound up the preliminary work for Philadelphia Jack O'Brien and Tommy Burns, who will meet Wednesday night for the heavyweight championship of the world. The betting odds remain about 10 to 7 on O'Brien.

No Entries from Ann Arbor. Michigan Not to Participate in the Big Nine Athletic Games. Chicago, May 6.—At a meeting of the managing committee of the inter-collegiate conference today, the following entries were announced as having been received for the games to be held in this city June 1: Miami University, 1; Lawrence University, 1; Cornell college, Mt. Vernon, Ia., 1; Iowa college, Grinnell, Ia., 1; Missouri, 1; Indiana, 14; Illinois, 25; Chicago, 21; Northwestern, 3; Purdue, 31; Minnesota, 22; Iowa, 35; Wisconsin, 30; Notre Dame, 6; Deatur, 14; Ames, 31.

MUCH ANXIETY LEST THEY FIGHT

Mexico and Guatemala at the Parting of the Ways, Diplomatically—Ultimatum of the Former Is Practically Ignored.

Surrender of General Lima Is Refused, and Now in Each of the Countries the Minister of the Other Will Get His Passports—Washington Still Works for Peace, but There Is Grave Apprehension It Will Be Impossible to Avert Hostilities.

Washington, May 6.—Although the telegraph wires have not brought to Washington actual news of the severance of the diplomatic relations of Guatemala and Mexico, the official reports here have no doubt that Mexico took action today that will result in giving to the Guatemalan minister in Mexico passports for his withdrawal. The Mexican minister in Guatemala is now preparing to return home, and the American charge, Philip Brown, secretary of the legation, has been instructed to look after Mexican interests in the Guatemalan capital upon the departure of the Guatemalan minister.

War Clouds Loom Up. The severance of diplomatic relations does not mean war, although the fact that two countries, adjoining causes great anxiety, that there may be at any time invasions from one into the territory of the other by irresponsible bands, and doubtless trouble would result that might easily end in the declaration of hostilities.

Dr. Toledo Herrero, Guatemalan minister, conferred with Assistant Secretary Bacon today concerning the situation, and said he hoped there would be a settlement soon. He declared that under the treaty between Mexico and Guatemala one country had no right to demand the surrender of a citizen of the other. The extradition treaty is intended for the surrender of a fugitive from his own country, but in the case of General Lima extradition could be expected only as an act of courtesy.

Dr. Herrero believes also that if President Cabrera should be disposed to surrender Lima, the Guatemalan courts would hold that there was no authority in law for such action. Dr. Herrero tonight received a message from the Guatemalan minister of foreign affairs in which he says that there is hope the difficulty with Mexico will yet be satisfactorily adjusted.

Mexico City, May 6.—The diplomatic relations between Mexico and Guatemala have not yet been severed. The secretary of foreign affairs, Jose Algora, tonight denied the report that Minister Gamboa has recalled.

Nicaragua Is Given Command. Puerto Cortes, Honduras, May 1, via New Orleans, May 6.—General Juan Escarza of the Nicaraguan army was today appointed commandant of Puerto Cortes in place of the Honduran commandant. The appointment probably ends the lawlessness exhibited recently in which an American negro was seriously beaten. The investigation into the assault upon the negro is still under way.

Shriners Throng Los Angeles. Streets of the City Are Crowded With Wearers of the Fez. Los Angeles, May 6.—Several suburban towns and cities today shared the honor of entertaining the delegates to the imperial council of the Mystical Shrine. The streets were crowded with wearers of the fez. The "Imperial Palace of the Shrine," carrying Avah P. Clayton, head of the order, and many distinguished members of the council from Middle West states, arrived today. The golden key of the city was presented to Potentate Clayton by Potentate Flint of Al Malaiakh temple. Among the delegations which arrived today were representatives of Moolah temple, St. Louis, Ahmed, Marquette, Mich.; Moslem, Detroit, and Medinah, Chicago. The thirty-third annual session of the Shrine will begin tomorrow. The last of the special trains carrying delegations from Eastern cities arrived tonight. According to the registration bureau at the general headquarters, Los Angeles now shelters over 30,000 strangers.

Florida Is for Bryan. Tallahassee, Fla., May 6.—The house of representatives today passed a resolution endorsing Wm. J. Bryan for the presidential nomination.

ALONE IN THE HOUSE. THREE CHILDREN PERISH IN A BURNING DWELLING AT BLIND RIVER, ONTARIO.

Sault Ste. Marie, Mich., May 6.—Three children named Dominique were burned to death today in their home at Blind River. Their mother, a widow, built a fire in the heating stove, and then went to a neighbor's, leaving the children alone. Neighbors discovered the house on fire soon afterward, but were unable to rescue the children. The youngsters ranged in age from six months to five years.

Have No Troops in Korea. Japanese Protests Against Non-Withdrawal of Russian Official. St. Petersburg, May 6.—The foreign office today applied to the war office for information as to what grounds, if any, there were for the reported Japanese protests against the non-withdrawal of Russian troops from Korea, and if troops remain there, what is the reason for it. The officials profess to have no knowledge of the presence of Russian troops in Korea.

Town Burns in Poland. Warsaw, May 6.—Fire today totally destroyed the town of Tyszowce, province of Lublin. Three thousand persons are homeless.

BLOODY BATTLE FOUGHT IN ARABIA

Seven Battalions of Turkish Troops Practically Annihilated by Yemen Rebels. London, May 6.—It was announced this afternoon in a dispatch from Constantinople that seven battalions of Turkish troops had practically been annihilated during a battle with rebels in the province of Yemen, Turkish Arabia. The commander-in-chief of the Turkish forces is urgently calling for reinforcements.

Wave of Revolt Spreads in Morocco. Tangier, May 6.—According to information received here from Morocco City, the whole southern part of Morocco is in a state of rebellion.

Notice Given the Colonies. British Minister Reiterates Preferential Treatment Cannot Be Granted. London, May 6.—David Lloyd George, president of the Board of Trade, was the principal speaker at today's session of the imperial conference. Like Chancellor of the Exchequer Asquith, he held out no hope that the mother country would grant preferential treatment to the colonies. In summing up the situation, he said that the colonies had asked the British government to do what no protectionist country in the world would do, namely, "tax necessities we could not produce ourselves and with which the colonies could adequately supply us for many years."

Paris Denies Reported Pact. British Merchant Marine Not to Hoist French Flag in Case of War. Paris, May 6.—The report circulated on the continent that King Edward VIII here had concluded an agreement providing for the transfer of the British maritime commerce to the French flag in the event of war between Great Britain and Germany is pronounced absolutely untrue.

Queen in Excellent Health. Madrid, May 6.—It was semi-officially announced today that the expected interesting event at the royal palace will probably occur about May 20. Her majesty continues in excellent health.

Revelations in Court Promise to Startle. Pleda of Guilty Entered in Case Concerning Defective Tubes on Warships. Pittsburgh, Pa., May 6.—The case of J. Jay Dunn, Charles L. Close and Frank L. Emmett, former employees of the Shelby Steel Tube company of Greenville, Ill., charged with conspiracy to defraud the United States government in connection with installing alleged defective tubes on the war vessels Pennsylvania, Louisiana, Maryland, Charleston, Nebraska, Minnesota, Vermont, Washington and Tennessee, was called today in the United States district court.

Colored Baptist Clergyman Found Dead at Grand Rapids, Mich. Grand Rapids, Mich., May 6.—Rev. Henry Bryant, a colored Baptist minister of Bridgeport, O., who came here on a trial call, was found dead today in a partly closed folding bed in his boarding house. The bed had closed on him during the night, breaking his neck.

Mine Owner Drops Dead. New York, May 6.—William Alpersen, aged sixty-three, a wealthy mine owner at Siddell, Ill., dropped dead tonight at the home of Edward F. Lockwood, at Mt. Vernon, where he had been visiting.

Madison Deadlock Continues. Madison, Wis., May 6.—At tonight's Republican senatorial caucus one ballot was taken, resulting as follows: Cooper, 11; Eash, 13; Hatten, 8; Lenroot, 9; Stephenson, 6; scattering, 6.

CRUSADE AGAINST DEADLY DISEASE

Doctors from All Over the Land Present at Washington Convention for the Study and Prevention of Tuberculosis.

International Congress Will Be Held in the Same City Next Year, and the Plans for This Are Outlined in Detail—\$30,000 Already Subscribed to a Fund of \$100,000 to Furnish Prizes in the Warfare Against the Great White Plague.

Washington, May 6.—The annual convention of the National Association for the Study and Prevention of Tuberculosis opened here today. The attendance is unexampled in the history of the organization, and a number of distinguished savants, physicians of prominence are present from throughout the United States. There were many interesting addresses delivered today.

The plans for the international congress on tuberculosis to be held in Washington in 1908 were described by Dr. Lawrence F. Flick. It will include a conference of the international bureau for the prevention of consumption. The congress will be in session for three weeks, one of which will be devoted to scientific work in Washington and two weeks to the entertainment of guests and the inspection of institutions throughout the country. There is to be an exhibit in Washington during this time which will give an objective demonstration of everything known in the world as to tuberculosis throughout the world and a course of lectures by prominent workers in the field of tuberculosis from all countries outside of the United States. The plan calls for a fund of one hundred thousand dollars to be subscribed by twenty men, for defrayal of expenses of the congress and the award of prizes in the interest of the crusade against tuberculosis. Thirty thousand dollars of the fund has been subscribed and paid in. The fund of one hundred thousand dollars is to be used exclusively for the scientific part of the congress.

Dr. Flick said: "The exhibit will be a complete pathological and bacteriological picture of what tuberculosis means to man in its devastation throughout the animal kingdom. It will show the ravages of the disease upon man, animals, birds and fishes. It will show the cycle of life of the tubercle bacillus with all its products; the micro-organisms with which it may be related and from which it is derived; and the micro-organisms with which it associates and fraternizes. It will show the method of growth of these micro-organisms; the changes which they produce on the substance on which they grow and the restrictions upon their growth and development in nature. The exhibit will give a statistical demonstration of what tuberculosis has meant to the world in the past and what it means in the present. It will show the widespread operation of tuberculosis in every part of the world and how it has transmuted civilization. It also will show what the crusade against tuberculosis has so far accomplished and what it may accomplish in the future. It will present models of hospitals for consumptives, sanatoria, dispensaries, day-camps, convalescent farms, consumptive colonies, consumptive classes of hotels, and will show the methods which may be derived from these measures. It will show the various appliances and materials used for the prevention of tuberculosis and the manner of using them. The whole world will participate in this exhibit, so that it will be a work of faith, so to speak, of everything which can in any way bear upon the crusade against the great white plague."

So far the committee has announced one prize, namely, a prize of one thousand dollars, to be awarded to the author of the most efficient work done by any volunteer organization since the last congress on tuberculosis; the prize to be awarded at the time of the congress. Other prizes will be announced later on. The United States government and state governments have been asked to participate in the congress with very encouraging answers from many of them.

Folding Bed's Victim. Colored Baptist Clergyman Found Dead at Grand Rapids, Mich. Grand Rapids, Mich., May 6.—Rev. Henry Bryant, a colored Baptist minister of Bridgeport, O., who came here on a trial call, was found dead today in a partly closed folding bed in his boarding house. The bed had closed on him during the night, breaking his neck.

Today's Weather. Washington, May 6.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Tuesday, rain or snow and cooler in the east; Wednesday, partly cloudy; light to fresh north to east winds.

Mine Owner Drops Dead. New York, May 6.—William Alpersen, aged sixty-three, a wealthy mine owner at Siddell, Ill., dropped dead tonight at the home of Edward F. Lockwood, at Mt. Vernon, where he had been visiting.

Madison Deadlock Continues. Madison, Wis., May 6.—At tonight's Republican senatorial caucus one ballot was taken, resulting as follows: Cooper, 11; Eash, 13; Hatten, 8; Lenroot, 9; Stephenson, 6; scattering, 6.

Madison Deadlock Continues. Madison, Wis., May 6.—At tonight's Republican senatorial caucus one ballot was taken, resulting as follows: Cooper, 11; Eash, 13; Hatten, 8; Lenroot, 9; Stephenson, 6; scattering, 6.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Now if Governor Hughes had a big stick like Governor Warner's—

Can't Governor Davidson touch something off under that Madison deadlock?

A little while ago it was Evelyn. Now it's Mabelle. Tomorrow it may be Edythe.

The reading of the will reminds us that "Silent" Smith's money made a very stable noise.

According to all reports southern hospitality at Norfolk is just now largely qualified by the dollar sign.

Marquette wants a harbor tug; Marquette needs a harbor tug; Marquette should have a harbor tug.

What the Soo News doesn't know about water in Michigan railroads isn't worth the time of the layman.

Marquette may wake up. Then again it may not. However, let us hope that it will really wake up, and surprise itself.

We wish the senate would take up the primary reform law amendments. It is about time we had some new sensations from Lansing.

The predatory chicken and the ferocious bossy being under edict of banishment, Presque Isle will no longer hold any terrors for the fearful.

There is much discussion pro and con as to the financial status in which John W. Gates retired from his exhilarating pastime of bucking Wall street. However, there's no use wasting time feeling sorry for John.

Impending, we are informed, is to have twice as many automobiles this year as it had last. And it would have done even better than that, perchance, had it not been for the seismic disturbances in the March stock markets.

The majority in the New York senate stands for indifferent administration of the new insurance laws by officials acceptable to the insurance magnates. If the people stand for the same thing all will be well; otherwise there is likely to be something of a tip-over.

It's decidedly refreshing to see the first genuine prominence because of an embryo movement for a boom club. Most of the notoriety it has heretofore gotten has been because of discrepancies between the first announced election results and the showings on the recounts.

It is said that Escanaba would experience a healthy growth were it not for the quality of water its people are compelled to drink. As it is the birth rate and incoming residents are needed to offset the decimation caused by the germ that flourishes so luxuriantly in the Escanaba water main.

Former Senator Mills of Menominee returned posthaste, after his disorderly retreat, to face his accusers, and he proposes to defend the charges against him in circuit court. Let him have all the credit properly accruing to a man who shows fight. Also it is axiomatic that no one is certainly guilty until convicted.

The Escanaba Mirror remarks that a town that can support over eighty saloons ought to be able to afford a good water system. But the fact remains that after some years of skirmishing the people of Escanaba do not appear to be any nearer compelling the Escanaba Water company to give them good water than they were at the beginning of the fight. There has been a renewed outbreak of disease attributed to bad water at Escanaba, and public feeling in connection with the matter runs high.

The recalcitrant senators would feel easier about Governor Hughes if they had had to deal with a man just like him before. But he is unique. Some of his enemies maintain

that he is a coward, afraid to fight back, but it is doubtful if they believe themselves when they assert this view. The trouble is they don't know how he will fight back, though to the layman he has made pretty clear what he is likely to do. Unless his course belies his words and his whole theory of action in office he will simply let the people settle with the senators who have tripped up his program. This is precisely what these senators fear he will do.

The Mining Journal would respectfully suggest to the park, cemetery and street commission that it include in its plans for street improvement the resurfacing of the block between Front and Lake streets on Baraga avenue. Hundreds of visitors, who come in by boat, and transient tourists get their first impression of the city from this bit of street and for many years it has been in poor and untidy condition. Just now it is decorated with rubbish and ash piles, deposited by the tenants on the north side, and is a sad sight. This block ought to be put in good repair and then kept up, both for the reason above given and because there is a heavy traffic over it.

Nowhere has there been a more sustained fight against corruptionists than in Milwaukee. It is some years since District Attorney McGovern began his war on bribers and bribed, but the end is not yet. F. C. Schultz, accused of bribing former Supervisor Edward F. Straus, has just been convicted, and sentenced by the trial judge to spend eighteen months in the house of correction. District Attorney McGovern and the forces that have stood back of him in Milwaukee county have shown that profit in public employment lies on the side of respect for public trusts, and the lesson has been the more impressive for the reason that it has extended over a period of years, and hasn't been a spasm of prosecution followed by lethargy. Mr. McGovern's continued activity would appear to bear out the wisdom of the Republic electors of Milwaukee county in turning down the regular candidate to endorse him.

Chicago, with the aid of a grand jury, is having an eventful aftermath to its recent election. Former Chief Collins, of the police department, has been indicted by a grand jury for mutilation of the official records of the department and for conspiracy to violate the civil service law. Under Collins' guiding hand a levy was made on the policemen to raise money to defray Dunne's campaign expenses, in clear violation of the civil service law, while the records were mutilated to destroy evidence of orders incriminating Collins of improper and unlawful conduct. As a result of his indictment he is in the shadow of prison walls, as the penalty for his offense is a prison term. Former Mayor Dunne is believed to have been an offender in kind with Collins in efforts to prostitute the administrative departments of the city to political uses. He is reported to have urged Fire Chief Horan to aid in the campaign, by pressure on his men, and for a time there was a belief that he, too, might be indicted, but one of the prosecutors gave the opinion that the action attributed to him did not furnish sufficient grounds for an indictment. The Dunne administration seen in retrospect is a dreary sight. It was one of low ideals and lower practices. Everything we have heard since the election confirms our opinion of the wisdom of the Chicago voters in turning it out, root and branch.

JAPAN'S NAVAL PROGRESS.
An event, which cannot be overestimated, occurred in Japan a short time ago, and that was the launching of a new warship which it is claimed is superior to the British warship Dreadnought. Hitherto Japan has bought her best vessels abroad, and the building of this wonderful progress and advancement in the Japanese navy. The wonderful record of cures made by the celebrated Hostetter's Stomach Bitters during the past 33 years proves conclusively that it is a medicine of superior value, and the best of its class for curing ailments of the stomach, liver, kidneys or bowels. Every sick man or woman should therefore resolve to try it at once. It always cures dyspepsia, indigestion, costiveness, biliousness, headache, sleeplessness, female ill or malarial fever. Don't experiment any longer when you know the Bitters will cure you.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart, or the Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now. Dr. Shoop's Restorative sold by The Stafford Drug Co.

MORE NEWS FROM THE NEW ENGLAND STATES.
If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only refer to Mr. Alvin H. Stimpson, of Williamstown, Conn., who after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. The Stafford Drug Co.

Upper Peninsula

Scarlet Fever Epidemic—
At the request of School Commissioner Parmenter, Dr. S. Edwin Cruse of Iron Mountain visited Granite Bluff recently for the purpose of investigating some disease that was much in evidence in the school. It proved to be scarlet fever in its mild form. All the children in the neighborhood had been exposed. The school was closed.

Will Lay Heavier Steel—
The Chicago & Northwestern road is preparing to rebuild some twenty-four miles of track on its Menominee iron range division. One hundred-pound rails will be employed in the work. Twelve miles will be laid on the Schlesinger branch, east from Siding No. 5; eight miles from Saunders to Iron River, and four miles from Hermansville to Cedar.

Iron Mountain Saloons—
To date the Iron Mountain council has approved the bonds of fifty-three saloonkeepers, the same number as sanctioned business last year. It is probable that several additional bonds will be approved this week. The bonds of five wholesale agents and three druggists have also been accepted. The income of the city from this source will be in the neighborhood of \$27,000.

Saw a Pure White Deer—
Rev. J. W. Sherwood of Wells, Delta county, who has returned from a fishing trip near Kates, reports that while he found the trout season backward and fishing unprofitable in this period of high water and snow, he had the rare pleasure of seeing a pure white deer. The animal was full grown and was a handsome fellow. White deer are very scarce, much so that they are a curiosity. It is not every hunting season that one is killed.

Triple Mining Fatality—
Three miners, William Erickson, William Lind and Frank Roselund, who have been employed at the Dober mine for over a year, were accidentally killed in that property last Saturday afternoon. In company with a companion they were blasting in No. 5 stop, between the third and fourth levels, when there was a premature discharge and they were caught by falling ground. The fourth man escaped by the narrowest of margins. Erickson and Lind were married and leave families.

Man's Disappearance Stirred—
Stambaugh is considerably stirred up over the disappearance of Herman Okrusch, who has been in the butcher business there for some time. Mr. Okrusch left some three weeks ago, ostensibly to go to Milwaukee or Chicago to buy an outfit and stock for a new meat market. The outfit has arrived and is in the C. & N. W. depot, but nothing has been heard of Mr. Okrusch. It is alleged that Nelson Morris & Co., wholesale meats, is a loser by the disappearance of the young man, having a claim, it is said, exceeding \$500.

Killed by Falling Tree—
Andrew Maoringh was instantly killed while at work in the vicinity of Doyle's camp, Schoolcraft county, a falling tree striking him in such a manner as to crush his skull and dislocate his neck. The unfortunate man was engaged in sawing logs with a companion, in close proximity to two fellow employees who were engaged in grubbing out a tree longed along the route of a proposed road. Practically no warning was given Maoringh and his associate and they were unable to get away in time owing to the brush and the two feet of snow that covered the ground. The deceased was born in Austria twenty-five years ago and had been in this country only a few months. He was married less than a year ago. He came to America to found a home and intended to send money to his wife so that she could join him here during the coming summer.

Dog Poisoner at St. Ignace—
James J. Brown of St. Ignace publishes the following announcement: "I will give one hundred dollars reward for the arrest and conviction of the whelp who poisoned my dog." The Enterprise says in the connection: The cowardly sneak who has been poisoning dogs has again got in his work and killed two of the most valuable animals in the state. The magnificent St. Bernard belonging to J. J. Brown was poisoned last Friday in the vicinity of State and Truckey streets, and the valuable hound owned by Charley Barrett met a similar fate on Monday. Mr. Brown's dog was one of the finest specimens of the St. Bernard breed to be found anywhere, and, literally speaking, there was not enough

money in the United States treasury to purchase the animal. He could be seen every day walking back and forth with Mrs. Brown from her store with the proud air of a protector. Everybody knew him and loved him. Strangers would stop in the street, pet him and admire his magnificent physique. It will be a sorry day for the wretch in the mask of a human being who poisoned him if he is ever caught. Charles Barrett's dog was also a high priced, blooded animal and was undoubtedly poisoned by the same cowardly cur. Suspicion rests on a certain man who has long been a resident of this city and the chances are good for securing enough more evidence to show that which the authorities already have to fasten the guilt on him.

Bigger and Better Than Ever—
That portion of the factory of the Escanaba Manufacturing company which was destroyed by fire will be rebuilt bigger and better than ever before and will be in full operation in three weeks. The statement was made by E. M. Judson, manager of the company. Continuing, Mr. Judson said: "In rebuilding we shall construct an absolutely fire-proof building. No wood will be permitted to enter into the construction in any way. The structure will be built of brick, cement, stone and steel." With the butter dish and clothes-pin machines to be transferred from the Crystal Falls factory, which is to be dismantled, the capacity of the Escanaba plant will be materially larger than ever before.

Council Repudiates Contract—
Litigation is in prospect between the city of Manistique and a voting machine company. Under the regime recently supervised and managed by E. M. Judson, the municipality agreed to purchase four machines, one for each ward. The automatic system of recording the ballots was tried at the April election, and it appears to have given much satisfaction, yet the common council has now by majority vote decided not to take the machines. However, the contract appears to be an iron-clad document, and it is not believed the present council will be successful in repudiating its terms. At least it is quite likely the matter will be settled in the courts. The majority aldermen do not appear to have any particular fault to find with the machine, itself, but rather are hostile to a change from the old Australian system of voting.

Says Price Is Exorbitant—
Mayor Wickwire of Manistique has been investigating some of the heritages that have been handed him by previous administrations, and finds that the city has no contract with the Manistique Light & Power company and that the municipality is paying \$800 per year per light for each of the thirty-nine lights in use. The price is exorbitant, says the Mayor, and he has called the attention of the Pioneer-Tribune, and the light committee of the common council has been instructed to confer with the company and secure more liberal rates. Last year the company in question made three propositions to the council on a one, five and ten-year basis. On the one-year contract a rate of \$72 per annum was quoted. This proposition was not accepted and the propositions were withdrawn in April of the same year. The light company then fixed its own rate and the city has to pay the freight, which is nearly \$200 higher than that which the offer originally made by the company for similar service.

Blow to Crystal Falls—
By the purchase of the interests of F. E. Lucas the Escanaba Manufacturing company has come into full possession of the factory of the Crystal Falls Woodwarehouse company, and announcement is made that it is the intention to dismantle the plant and move it to Escanaba for operation in connection with the parent establishment. The removal of the plant will be a serious blow to the Menominee range town. Steady employment has been given a force of twenty-six or seventy hands. Mr. Lucas held 50 per cent of the stock, the remainder having been acquired some weeks ago when the Escanaba Manufacturing company took over the holdings of the Escanaba Woodwarehouse company, which owned the factory at Escanaba and a half interest in the plant at Crystal Falls. Mr. Lucas was one of the original stockholders of the Escanaba Woodwarehouse company, and when he withdrew from that concern several years ago he established a similar enterprise at Crystal Falls. He designed all the butter dish manufacturing machines now in use at the Escanaba plant and also the improved machines in commission at the newer factory. The Escanaba institution is already the largest of its kind in the world, and it produces the bulk of the wooden butter dishes consumed in the United States. Clothes'pins have been an important product of the Crystal Falls factory.

"The Blood is The Life."
Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

MAKE WINTER GARMENTS SAFE
Don't forget to carefully protect your winter furs and woolen goods when putting them away for the summer. It's little extra work and the cost is trifling—so trifling that nobody can afford to neglect the matter.

A Few Moth Balls
rightly distributed will afford full protection. Without them the goods may be damaged beyond repair. Moths start in on their seasonal work in May. Better get the moth balls at once. Use enough to make sure; they cost but 10c 1/2 lb., 15c lb.
Desjardins Pharmacy, 417 North 3rd Street.

City Brevities

Today's weather: Generally fair; stationary temperature.
 Yesterday's temperatures: Seven a. m., 36 degrees; noon, 49; 7 p. m., 36. Maximum, 54 degrees; minimum, 36.
 Marvin Raymond, of Menominee, is here on business.
 T. A. Thoren, of Negaunee, spent yesterday in the city.
 Fred Prime, of Ishpeming, spent yesterday in Marquette.
 Herman G. Radcliffe, of Munising, spent yesterday in Marquette.
 Marquette legion, No. 792, will give a card party at Keough's Hall Friday evening.
 A special meeting of the Knights of Columbus will be held at the club rooms tonight.
 N. J. Fezzy, who has been clerk at the Hotel Brunswick for several months past, left yesterday to fill a similar position at South Range.
 Mr. and Mrs. Simon Toupin left for St. Julien, near Quebec, Sunday morning, called there by news of the sudden death of Mr. Toupin's father.
 Miss Florence Brophy, of Michigan, was pronounced insane in probate court yesterday morning, and was committed to the state asylum at Newberry.
 The Northern Steamship schedule for the coming season will be the same as last, the boats leaving here every Wednesday night at 6:55 after June 1.
 Board of Pardons Here—The board of pardons is to arrive at the Marquette prison today, for a regular sitting. The cases of a dozen or more convicts confined in the institution have been set for hearings and will be disposed of. The board will likely be in session for two days.
 Wrestling Match Tonight—Duncan C. Ross and Tom Connors will wrestle the best two out of three pin falls, catch-up catch-out, in the window of a show at Legion Hall tonight. Danny McBride and Fred Weaver will meet in a boxing bout, and Mr. Ross and Professor Reid will fence. Captain Ross will also give an exhibition of his swordsmanship.
 Has Local Agency—Captain George W. Smith has the local agency for Fred Kaufmann's fashionable tailoring, and opened offices in the Harlow block over Pendill's drug store. He will take orders for shirts to be made to order and will also do a ladies' tailoring business. Captain Smith can be reached by calling Bell phone 45 276.

SOO CANAL PASSAGES.
 Boats Locked Through, Bound for Port on Lake Superior.
 Sault Ste. Marie, Mich., May 6—[Special].—The upbound boats passing the canal the last twenty-four hours were the following: Parks, 8:40 p. m.; Bengor, 10:30. Delaware, midnight; Patfinder, Negaunee, 2 a. m.; Rosedale, Fortage, 4; Tampa, 6:30; Pioneer, Chataqua, 7; Wald, Arroyo, 8:30; Morgan, Major (big), Gratiwick, 9:20; Best, 10:20; J. D. Marshall, Northern Green, Maricopa, Smeaton, 2 p. m.; Westcott, 4; Street, Lozen, Goldfrey, Artee, Mizze, Case, Lake Shore, 5; Schuyler, 5:30; Fitzgerald, 6:30; Occanica, Packer, Craig, 8.

Marquette Port List.
 L. S. & I. dock: Cleared—Owens, Cleveland, Pontiac and Spokane loading.
 Coal docks: Arrived—Rend, Unloading or waiting—Centurion, Thompson, Cadillac.
 Sheltered—Granada.
TAMARACK'S TIMBER DEAL.
 Explaining the action of the Tamarack directors in authorizing the sale of 5,900 acres of timber land to D. J. Norton of Ontonagon, President Bigelow says:
 "Owing to the exhaustion of the pine timber of the upper peninsula, all of the mining companies have had to come to the use very largely of hemlock as a substitute. At the present time there are very large areas of this hemlock timber which can be obtained at a reasonable price. The company purchased in 1903 a tract of such land consisting of 5,900 acres containing hemlock and hardwood timber, such as maple, birch, etc., located near the village of Ontonagon. The company purchased it for the hemlock timber on it, expecting to sell the hardwood timber to the various mills as it was cut. One of the lumber companies which is operating in the vicinity of this tract of land found that it could use the particular kinds of hardwood upon it to very great advantage, owing to its proximity to their present operations, and they have offered us, therefore, a price for the whole tract very much in excess of the price we paid. The land has cost us to date with interest, taxes, etc., about \$85,000, and we are selling it for about \$120,000. It is the intention to invest the proceeds of this sale in other lands containing hemlock timber. It is not the intention of this company to sell any of its present timber lands containing pine, as these lands can probably not be replaced."

NOTES OF COPPER NEWS.
 The News Bureau says: At a depth of 525 feet the main shaft of East Butte has cut into what is apparently the apex of a hidden vein, but that has not been determined, and it may be the ore body belonging to the vein opened up on the upper levels. Manager Wall is of the opinion that it is an entirely new vein. It is between three and four feet wide in the shaft and yields an average of better than 8 per cent copper. The shaft has entirely passed through the iron zone. The company's net receipts from royalties in April were \$10,000.
 The Anaconda company has announced its intention of sinking the High Ore and Anaconda shafts to a depth of 1,200 feet. The High Ore is now down 2,700 feet and the Anaconda nearly 2,500 feet. Development work is being done on the main vein of High Ore at the 2,400-foot level, where a big body of copper glance and high grade ore is being opened.

Local Sentiment With Burns—The Burns-Brien heavyweight championship battle at Los Angeles tomorrow evening is of unusual interest to residents of this city, as Burns, whose right name is Noah Brusso, was at one time a resident of the copper country and gained fame as a hockey and lacrosse player. When Burns took to the prize ring the audience used to make so many

irrelevant remarks about the "ark" that he adopted the nom de guerre of Tommy Burns. Burns and O'Brien met several months ago in Los Angeles before the same club and Burns, according to popular report, had the best of it, though James J. Jeffries, the referee, called it a draw. Burns' position in the limelight from a somewhat obscure fighter, through his defeat of Marvin Hart. He is a rugged fighter, fairly clever, with a good punch, and should, on their past showing, be favorite over the Philadelphia.
Favor League of Four Cities—The plan to include the Crystal Falls and Iron Mountain in an amateur baseball league with Marquette, Ishpeming, Negaunee and Munising, has been abandoned, but a meeting will be held in the near future at which a league of the four last named cities may be arranged. Marquette business men are anxious to see organized ball and many of them express willingness to contribute financially toward making the movement a success. The cities named are all close together and transportation expenses could be kept down to a low figure.
Will Fence in Preserve—It is the intention of the Cleveland-Cliffs Iron company to fence in its big game preserve on Grand island during the coming summer. The game on the island is safe enough while there is no ice in the lake, but as soon as ice forms wolves and cats cross from the mainland and create havoc. A year ago it cost over \$1,000 to kill a wolf that was slaughtering game in the preserve. This year two wolves have been hunted down and now a wildcat is reported to have been committing depredations among the game. The wildcat is said to be of the big Canadian variety, a catamount, which is nearly as destructive as a panther.
Gave Sheriff a Hard Tussle—Sheriff Neuhauer, of Iron Mountain, had an experience in attempting to take a woman patient to the state hospital at Newberry Sunday that he does not care to repeat. As insane people are apt to struggle and seriously injure themselves when handcuffed, it is customary to enclose their arms in a leather muff or to use a straight jacket. As the Iron Mountain woman appeared quiet when they started on the trip Sheriff Neuhauer not only did not restrain her in any way, but neglected the precaution of bringing the necessary appliances along. On the train the patient became violent and led the sheriff what he terms a "dog's life" until he reached this city. She was kept over night in the jail and taken on to Newberry by Mr. Neuhauer yesterday morning, restrained by appliances borrowed from Sheriff Rough.

NATIONAL BISCUIT COMPANY

Ishpeming Department

DEATH OF PATRICK HARRINGTON.

Pioneer Resident of Ishpeming Died Unexpectedly Yesterday Morning.

Patrick Harrington, boarding with Mrs. Daniel Nolan on Johnston street, was found dead in his bed yesterday morning, pneumonia being the cause of his demise. Mr. Harrington was taken ill last Wednesday. He felt unusually well Sunday, and he retired feeling better than at any time during the previous four days.

Mr. Harrington was an unusually strong man and his friends had no thought that his illness would terminate in death. He was a man of excellent habits and saved his earnings, having left a considerable estate. He was sixty-six years of age and is survived by two brothers, Quinlan Harrington, residing at Hancock, and the other in Ireland. The funeral will be held tomorrow morning from St. John's church.

CIRCULATION INCREASING.

Nearly 4,600 Books Drawn from Library for Home Reading in April.

If the present rate of increase in circulation of books from the Carnegie library is maintained throughout the ten months the next fiscal year, ending March 31, will show an increase of several thousand over any previous year in number of books loaned. The number of books drawn in April was 4,560, and in March over 4,600. The increase in April over April of last year was 1,404. The total circulation for January, February, March and April was 17,889. If this rate is maintained during the next eight months the year's total will exceed 53,000, an increase of several thousand over last year.

Since January 1, 250 new borrowers' cards have been given out, increasing the total in use to 2,154, each being good for two books. The reading tables were never as largely patronized as now, by both old and young. At times, particularly in the afternoon after school, nearly every seat in both of the spacious rooms are occupied. The librarian and her assistants are doing everything possible to encourage the use of the tables.

TWO ELECTRIC THEATERS.

Ishpeming to Be Well Provided With Moving Picture Entertainments.

A. C. Schott of Massillon, O., has leased the Voelker frame building on Main street, and is preparing to open a moving picture-illustrated song theater, similar to the one to be opened in the Kennedy block by Lawton & Joyce of Milwaukee. It is expected that both places will be ready for an opening next Saturday or early the following week. Mr. Schott does not intend to make any alterations in the building, but the room is to be redecorated and otherwise improved.

Mr. Schott is to be assisted by his two sisters, both of whom are vocalists. He also is a singer and he intends to make the illustrated songs a strong feature of his entertainments. He proposes to change both the illustrated songs and the moving picture bills twice a week. Several performances will be given daily and the admission prices will be five cents for children and ten for adults.

IS A BIG ATTRACTION.

One of the biggest attractions to be seen in this city the entire season will appear at Ishpeming theater Friday evening, when Richard Carle's and H. L. Bentz's great Western operatic comedy success, "The Tenderfoot," with Oscar L. Figman and Ruth White will be heard. The music of this opera is so characteristic of the Southwest, with its dash and swing and picturesqueness, that it has made the piece a great favorite. The wit is clear and incisive, and Mr. Figman is hailed as one of the greatest of light opera comedians on account of his fine work in it. Miss Ruth White's splendid soprano voice is heard to great advantage in the character of Marjorie. The cast is a strong one, and the chorus somewhat noted for its beauty. The company numbers over a half hundred people.

HIGHLY AMUSING COMEDY.

Miss Isabel Irving comes to the Ishpeming theater tomorrow evening, with Jerome K. Jerome's comedy, "Susan in Search of a Husband," which, it is generally agreed, is one of the daintiest and most refined as well as one of the most amusing plays that has been presented in this part of the country this season. Miss Irving is supported by a company of stars. The seat sale opens this morning.

WONDERFUL ECZEMA CURE.

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors, but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all, blood medicines and body building health tonics. Guaranteed at The Stafford Drug Co., 50c.

Mrs. S. Joyce, 180 Sullivan St., Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Cure. It cured me of a severe case of kidney trouble of several years' standing. It certainly is a grand, good medicine, and I heartily recommend it." The Stafford Drug Co.

OVER 400 MARRIAGES.

Marquette County Third in Upper Peninsula in Number Reported.

According to the last issue of the Michigan Bulletin of Vital Statistics, 423 marriages were performed in Marquette county in 1906. At the close of the year the total number of divorce cases pending was forty-six. At the close of the previous year there were thirty-three such cases pending.

The number of divorce bills filed during the twelve months period was thirteen. Twelve divorces were granted during the year. Houghton county had a greater number of marriages than any other of the upper peninsula counties, 729; Menominee came second with 595; Houghton also led in the number of divorce cases pending at the close of the year, 107. Menominee county had but twenty-seven cases pending.

The marriages in the state totalled 27,335, and the divorce cases pending were 10,476. The returns give 3,189 as the total divorces granted for the year. This number is an increase of 289 over 1905, and is, in fact, the greatest number returned for any one year since the Michigan, under which they are returned by the county clerks to the secretary of state, went into effect in 1897. It corresponds to a rate of 2.5 per 1,000 estimated population, or about one-eighth of the marriage rate for the year. It would not be correct, however, to say, on the basis of these figures, that there was one-eighth as many divorces as marriages in the state in proportion to the population. The marriages are based on the unmarried population at marriageable ages, while the divorces are drawn from the number of married couples in Michigan.

FROM HOPKINS' CURB LETTER.

"The copper share list" has reacted slightly from the best figures of Saturday. This reaction was brought about to some extent by lower metal cables from London, where spot opened off one pound, five shillings, while futures declined ten shillings. The Quincy Mining company declared the regular quarterly dividend of \$4.50, payable June 10th, to stock of record May 10th. Books reopen May 20th. Old Dominion produced 2,084,000 pounds of metal in April; this is considerable less than the March output. The reduction was caused by furnace Nos. 1 and 3 being put down for repairs intermittently during the month. A dividend is expected on Old Dominion during the month of June. The Balkala smelter will not be ready for use before October. This delay was caused to a large extent by unfavorable weather."

The day's prevailing prices were:

ISHPEMING IN BRIEF.

Dr. E. G. Robbins is ill and confined to his home.

Fred Grinnell of Detroit is in the city to remain permanently, assisting F. A. Ellsworth, agent of Grinnell Bros, piano manufacturers.

Michael Conolly is in the city visiting his parents, Mr. and Mrs. James Conolly of Johnston street.

About thirty-five students from the Michigan College of Mines are in the city, to remain several days doing work about the mining properties.

Alex. Bashaw, who was severely injured at the Ohio mine last week, is getting along very nicely, and there is now every reason to believe that he will recover.

A number of men were employed yesterday cutting the surface of the ice on Cleveland avenue between Second and Third streets. The ice is three feet thick in places.

The dancing party conducted Saturday evening by the Star baseball club at the Woodmen's hall was a success socially and financially. Nearly 100 couples were in attendance.

John H. Williams has purchased from John H. Jeffrey the dwelling formerly owned by the latter's mother, the late Mrs. Frances Jeffrey, at 211 Davis street, and will occupy it with his family.

Several of the streets of the outlying districts are reported in unusually bad condition. Washington and Excelsior streets are particularly bad, the mud in places on both thoroughfares being several inches deep.

The Oliver Iron Mining company has placed a fence across the temporary road at its Section 16 mine, used during the winter before the new portion of the thoroughfare south from Washington streets was completed.

The remains of the late Mrs. Frances Jeffrey, which were placed in the vault at the Ishpeming cemetery, were interred

yesterday. Mrs. James Jeffrey, daughter-in-law of the deceased, who resides on the Gogebio range, was present at the burial.

John Lally, who has been in the employ of William Leininger, has resigned his position, and will leave tomorrow for Benji, Minn., where he will take a position with W. A. Ross, an undertaker and furniture dealer.

The funeral of the late Mrs. Patrick Maloney, held yesterday morning from St. John's church, was very largely attended. The pall bearers were five grandsons and a nephew of the deceased, all of whom were born in Ishpeming.

John Eggan returned yesterday from Bessemer, where he visited his father, Thorstein Eggan, whom he had not seen for seven years. Thorstein Eggan was a former resident of this city and is now the express company's agent at Bessemer. John left yesterday for Marquette, where he is in the employ of the Marquette County Telephone company.

The members of the Ladies' Auxiliary of the Ancient Order of Hibernians expect to entertain a large number at their hard time party at the Woodmen's hall a week from tonight. The invitations must be presented at the door. Tickets will be twenty-five cents, including refreshments. Chiford's orchestra will furnish the music.

WANTED—At once, a collector. Well dressed, well appearing man, with fair education. Must be resident of city at least one year. Married man preferred. Call room 8, Dundon block, 5-7-1w

FOUND—Gentleman's watch, John H. Rowe, 819 E. Pine St. 5-6-3d

THINK TWICE. EPIDEMICS DIVERT BUSINESS.

The recent epidemic of diphtheria and scarlet fever in the city have, it is reported, diverted thousands of dollars' worth of business from Chicago. In order to allay the fears of towns and cities near Chicago, which were said to be considering quarantine measures until the epidemic had passed, Health Commissioner Whelan called a consultation of his commercial interests which resulted in active co-operative measures being taken to prevent the spread of disease and stamping out the epidemic. FOR PAROCHIAL SCHOOL.

Rev. Father Langner Will Raise \$5,000 Among His Parishioners.

At the masses Sunday at St. Paul's church Rev. Father Langner, the pastor, outlined plans for the building of the proposed addition to the parochial school, and also advised his parishioners that he expects them to contribute \$5,000 to aid in paying for the structure. The new building is to cost about \$9,000. Of this sum \$4,000 was left by the late John Mulvey. Father Langner said that he plans to make a house to house canvass among the members of the congregation. Payments can be made in five installments, if desired. The pastor would like to have all of the money by Sept. 1, when the building will be completed.

L. E. Chaussee, who has the contract, will break ground this morning for the foundation. He expects to start soon, but found that there was too much frost in the ground. The addition will be forty-four by sixty feet in size. The interior of the present school is to be remodeled. Mr. Chaussee expects to complete the job by the opening of school in September.

NEW BUSINESS BLOCK.

Charles Johnson Will Erect Fine Structure on East Iron Street Lot.

Alderman Charles Johnson, who a few years ago purchased from the late D. McDonald the vacant lot on East Iron street, between the Shea and Field buildings, has decided to erect a business block on the site. The lot is fifty feet wide by 135 feet in length, extending from Iron street to Jackson.

Mr. Johnson intends to build the block from plans of a structure he recently inspected at West Allis near Milwaukee. It will be fifty feet in width by ninety feet in depth and there will be a basement under the entire structure. The first floor will be divided into two store rooms, and the second will be a modern flat, to accommodate four families. The block will be built of solid brick. Mr. Johnson will have no trouble procuring desirable tenants for the store rooms, as the location is one of the most desirable in the city.

The building will be equipped with a steam heating plant and other conveniences. Mr. Johnson said yesterday that he expects to let the contract before the close of the month.

FUNERAL THIS MORNING.

The funeral of the late Mrs. Angeline Maas, who died Friday, will be held this morning at 9 o'clock from St. Paul's church. Three of the sons, Frank, Rudolph and Walter, residing outside of this county, are here to attend the obsequies. Mrs. Mary Maas of Detroit and her three daughters, the Misses Alberta, Angeline and Carmen, are also in the city. Mrs. Maas having been at the family home here for the past two months. Ed. Maas, who resides at Alhambra, Cal., is on his way to Negaunee.

RETURNED FROM MESABA.

Phelix Deloria, who has had charge of the carpenter work at one of the mines at Hibbing, Minn., has returned to Negaunee and will again locate here. Mr. Deloria has a homestead in this district and as he will be obliged to spend the greater part of his time on it during the next two or three years he concluded that he would be better off in Negaunee than on the Mesaba range.

LOCAL LAONICS.

John Arnett has returned from Bay City.

Thomas Pellow left Saturday night for Duluth, to be absent a few days.

Miss Olga Anderson has gone to Chicago, to spend a few weeks with friends.

The Leisen & Hennes company has placed a number of attractive signs in Negaunee.

Ed. Faul has equipped his barber shop with a massage apparatus, operated by compressed air.

Dr. H. W. Sheldon is erecting a building for his automobile at the rear of his residence property.

Mayor Winter was out yesterday for the first time in nearly a week. He was suffering from a severe cold.

John McLaughlin has gone to Bovey, Minn., where he will take a position with the Du Nord Iron Mining company.

The Olver Show company gave an entertainment of moving pictures, etc., Sunday evening at McDonald's opera house.

The laboratory equipment at the Negaunee mine has been moved to the Cleveland-Cliffs Iron company's Princeton property.

A half dozen or more men were employed yesterday cutting down the ice heaps on the south side of Iron street. The north side is now in fairly good condition.

M. C. Quinn and family are preparing to again occupy their old home on East Main street, which has been in the hands of carpenters and decorators the past month or more.

W. A. Knight of Cornum, Mich., visited his son, A. H. Knight, and family here Sunday. He left yesterday for Calumet, to attend the grand encampment of the Improved Order of Odd Fellows.

The Junior high Friday night at McDonald's opera house was one of the most enjoyable functions of the season. About seventy-five couples were present. Dainty refreshments were served.

Several Negaunee men spent Sunday at the trout streams, but very few of them caught any fish. The water is high and at many points it was impossible to fish from the banks of the streams.

"There are still from three to four feet of snow in the woods," said a lumberman in this city yesterday. "The roads are practically impassable for wagons and I doubt if they will be in good condition for at least two or three weeks."

The Passion Play will be produced tomorrow evening in moving picture form at the Mitchell Methodist church. It is New Discovery's power over coughs and colds is simply marvelous. No other remedy has ever equaled it. Fully guaranteed by The Stafford Drug Co., 50c, and \$1.00. Trial bottle free.

IN THE SPRINGTIME.

This following simple prescription, which anyone can prepare at home, is said to cure the kidneys, to filter all poisons and acids from the blood, overcoming Rheumatism, even in its worst form.

Any good druggist can supply these ingredients: Fluid Extract, Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake these well in a bottle, and take a teaspoonful dose after each meal and at bedtime.

Your physician will tell you there is no better or safer mixture known to cleanse the blood and build it up, which everyone should do at this time of year. Readers of this paper can make no mistake by following this simple though valuable advice.

WAS ILL BUT TWO HOURS.

Well-known Negaunee Young Man Died After Returning Home from Work.

Steven Jobe, Jr., who was born and raised in Negaunee and was well known and popular here, died Saturday morning at his home on East Clark street. The young man was employed as fireman at the Maas mine and he worked Friday night, quitting at the usual time Saturday morning. When he arrived home he complained to his mother of not feeling well, saying that he was suffering from severe pains in the stomach. A physician was sent for, but the young man died within a few hours after reaching home. He was twenty-four years of age.

The funeral will be held tomorrow afternoon at 2 o'clock from the Mitchell Methodist church under auspices of Iron Mountain lodge of Odd Fellows, of which the deceased was a member. Services will be conducted by Rev. W. B. Coombe, the pastor. A brother of the deceased, who has been at Lead City, S. D., is expected to arrive today and his sister, Mrs. Wadge, is down from the copper country.

CUBS WON PRIZE GAME.

The prize contest Saturday evening at the howling alley between the Cubs and the Ice Wagons was won by the former, the scores being:

Ice Wagons.....	Tot.
Kirkpatrick.....127	147
Nightingale.....197	136
Erickson.....141	124
Totals.....465	407
Cubs.....	Tot.
Tompkins.....133	145
A. P. Johnson.....169	170
Sporley.....150	162
Totals.....452	477

The Wolves and White Sox bowled last night; the Pikers and Cubs bowled this evening; the Eagles and Ravens Wednesday, B. O. K.'s and Green Sox, Thursday and the Indians and B. O. K.'s Friday.

SUNDAY EXCURSION TRAIN.

The South Shore's summer excursion train between Michigamme and Marquette will be put on next Sunday. The time of the departure of the train from the several points between Michigamme and Marquette will be the same as last year. It will leave Marquette at 10 p. m. and return at 10 p. m. The train will pass through here enroute to Marquette at 1:35. The same rates of fare as prevailed last year will be granted. Excursion tickets will not be good for return on the Duluth train, which leaves Marquette at 11:15 p. m.

MY BEST FRIEND.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous. No other remedy has ever equaled it. Fully guaranteed by The Stafford Drug Co., 50c, and \$1.00. Trial bottle free."

We are now prepared to execute promptly all orders in our ladies' tailoring department, which is now in charge of Miss Mae Grenier, late of Milwaukee. H. J. Peterson. (5-1-17)

AWNINGS.

The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size. KELLY HARDWARE CO., (3-27-17) Marquette.

PIRATING FOLEY'S HONEY AND TAR.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse and substitute. It is the best remedy for coughs and colds. The Stafford Drug Co.

DARANTELLA

350 Broadway, New York

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

Drink the old original Arbuckles' ARIOSSO Coffee, the blend of Brazilian coffees, most wholesome and stimulating, as well as most economical. Anything dearer than Arbuckles' ARIOSSO is extravagant, and no one can sell as good coffee for the same price. People who drink Arbuckles' ARIOSSO Coffee are not dyspeptics with fashionable nerves

who take vacations in Sanitariums, on featherweight rations, but the healthy vigorous manhood and womanhood that constitute the useful majority. The first roasted packaged coffee; sales of Arbuckles' ARIOSSO Coffee for 37

years, exceed the combined sales of all the other packaged coffees. In sealed packages only for your protection. Don't buy loose coffee out of a bag, bin or tin that the roaster is ashamed to seal in a package with his name on it.

If your grocer won't supply write to

ARBUCKLE BROS., New York City.

Scene from "Susan in Search of a Husband." Ishpeming Theater, Wednesday, May 8.

Upper Peninsula

Blow Brunk His Nose—

Breaking out hurriedly to take a line for Captain Stevenson's boat at Les Cimeaux clubhouse, Straits of Mackinac, the caretaker, John Pollock, dashed his face against the edge of a plank that was in his path. The blow knocked him senseless and broke the bridge of his nose.

Four-Legged Chicken—

Preserved in alcohol, a freak chicken which lived an hour after entering the world a few days ago is on exhibition in a store at Norway. It has four legs, four wings and one head. The chicken was one of a brood hatched in the poultry yard of Hendrick Oniel, a Norway man.

Death of ex-Sheriff Roberts—

With scarcely a moment's warning former Sheriff Alex Roberts of Delta county passed away at the home of the family at 816 Wells avenue, Escanaba, from hemorrhage of the brain. Mr. Roberts had enjoyed his usual health recently and was about the city only the day before, attending to his regular business. Mr. Roberts was born in New York fifty-one years ago and at the age of sixteen years came to Delta county. He located first at Fayette where he was employed for some time and later went to Escanaba where he entered the employ of the Northwestern road as an engineer. For eleven years he served as a deputy sheriff during different administrations and in 1900 was elected to the office of sheriff. He served for two terms and retired two years ago to be succeeded by the late Richard Porow. Mr. Roberts is survived by his wife, seven sons, and two daughters. He was a member of the Elks' lodge and of the Institute Jacques Cartier and other fraternal organizations.

County Officer Passes—

Charles J. Semer, treasurer of Delta county and one of the most prominent young businessmen of Escanaba, has passed to his final reward after an illness of five weeks from typhoid fever. Mr. Semer was born in Escanaba thirty-four years ago. All of his life was spent in that city and probably no man in Delta county enjoyed a more extensive acquaintance. He attended the public schools as a boy and after completing his education entered the cedar business. In 1904, against a large field of candidates, he was chosen as the Republican candidate for county treasurer and was elected by a large majority. Last fall he was renominated without opposition and was given a large majority over his independent opponent. At all times Mr. Semer proved himself to be an efficient officer and was one of the most popular officials at the county building. Two years ago Mr. Semer was married to Miss Barbara Will and the home which they opened was a particularly happy one. Surviving him Mr. Semer leaves his wife and one year-old daughter, together with his parents, Mr. and Mrs. John Semer, six sisters and one brother.

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by this firm.

WALDING, KISMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75 cents per bottle. Sold by The Stafford Drug Co.

REO 1907

REO 1907 TOURING CAR \$1,250

F. O. B. LANSING

12-20 horse-power, 94-hood-lane. Five passengers. Detachable tonneau. Two speeds and reverse. REO disc, clutch, 40 miles an hour. Full lamp equipment. Top \$75 extra.

The car that beat 60 cars of double and triple its price, at hill climbing—

The car that won more than 20 cups, medals and trophies from bigger and costlier cars—

The car that holds its class record up Mt. Washington; and that crossed Mt. Hood, and the 12,000 feet Katon Range, in New Mexico—

The car that went from Denver to Boulder, Colorado, (30 miles over rough hilly roads) in 15 minutes better than the railroad schedule—

The car that carried four passengers, 1,050 miles over rough roads without stoppage, motor-repairs or car repairs—

The car that won the National Economy trophy and four other prizes in the same contest; and that carried its passengers at a total cost of 30 cents each per 100 miles—

The car that was penalized 30 per cent, and practically barred out of the great 2-Gallon Efficiency Contest—

The only car that ever crossed this continent and back again on its own wheels—

The \$1,250 car which does all that the average \$3,000 car does—and more than most of them—

That is the car whose merit and real economy are self-evident. That is the car which you cannot afford to overlook. Write for the book that tells why.

HARBOR TUG IS BADLY NEEDED

SINKING OF BUFFALO WHILE EN ROUTE TO THIS CITY CAUSES GREAT INCONVENIENCE.

MAY POSSIBLY BE RAISED

Deck of Shenandoah Collapses Under Weight of Towing Outfit—Whitfish Bay Is Clear but Portage Still Choked With Ice.

The presence of a harbor tug is of vital importance to the welfare of Marquette shipping interests. This season, for the first time in years, steamers have been compelled to bring their transports to the docks unless they could secure the services of one of the fishing tugs, which, owing to the other demands on them, are little to be depended upon. Prior to the opening of the season it was announced that the tug Buffalo, of the Great Lakes Towing company's fleet, which had wintered at Duluth, would be placed in commission at this port. She went down, however, in Portage lake, while enroute here. The Buffalo is an old boat whose valuation is given as \$8,000. It is said that she will be raised and brought to this harbor, but that will take some time and meanwhile boats are occasioned no little inconvenience. Only a few nights ago the steamer Warner, towing the schooner Thompson, whistled for a tug to take in her transport, as she wished to make Cleveland as soon as possible. The Warner was finally compelled to tie up at the breakwater and bring her transport in in the morning. There is some talk of Marquette parties purchasing a tug for harbor service, but the plan has not as yet taken definite form. Scarcely all the tugs on the lakes are now owned and operated by the Great Lakes Towing company, a corporation powerful enough to easily subdue individual competition in any locality where it wants to control the business.

The little steamer Friant, which made trips between this city and the Huron Mountain club for some seasons up to and inclusive of '95, has been greatly missed, and it is suggested that a tug, if owned by local parties, could give a daily service of this character and look after the harbor nights.

Steamer Met With Accident.

The steamer Shenandoah, which was reported to have cleared from this port Sunday night, returned with her transport, the Granada, shortly after. The Shenandoah had hardly cleared the harbor when her entire towing outfit went through the deck. The Shenandoah is an old boat, and her upper deck timbers proved, subsequent to the accident, to be in a very rotten condition. The Shenandoah will go to some port where repairs can be made in a few days, and the Granada will remain here until another boat can be secured to tow her to her destination on the lower lakes. Accidents of this character are much more infrequent nowadays than years ago. They can only occur on wooden boats, and steel has almost entirely supplanted wood in ship construction.

Ship captains making this port say that Whitefish bay is now entirely clear of ice and no obstructions whatever are encountered in the trip from the Soo. The portage, however, near Houghton is still choked with ice.

WEDDED YESTERDAY MORNING.

Medos Desotelle and Miss Cecilia Rundel Married at St. John's Church.

Medos Desotelle and Miss Cecilia Rundel were married at St. John's church yesterday morning at 9 o'clock. High mass was sung and all the rites and ceremonies of the Catholic marriage service were observed. The groom was attended by Clifford LaFaver as best man and the bride by Miss Evangeline Ricord as bridesmaid. Father Jodocy officiated. There was a large attendance. The groom is a pressman in the employ of the Mining Journal company, and occupies a high place in the esteem of the management and his fellow employees. The bride is prominent and popular in French social circles.

Following the ceremony, Mr. and Mrs. Desotelle received the felicitations of friends at the home of the bride's aunt, Mrs. E. T. Page, No. 508 South Seventh street. Relatives and intimate friends were entertained at a bridal supper in the evening. A number of useful and valuable wedding gifts evidenced the esteem in which the young couple are held. They have gone to housekeeping at No. 508 South Seventh street.

CONCERT THIS EVENING.

The following is the program for the Little Folks' concert, to be given in the M. E. church this evening:

—Part I—

Piano duet, "Gladys Walks"..... Myrl Trevillion, Miriam King.

Vocal solo, "The Rose"..... Ethel Price.

Song, "The Sun Bonnet Babies"..... Harriet Knight, Laura Pleyte, Elizabeth Gorman.

Piano solo, "Onion"..... Helen King.

Song, "Nine-Pin Regiment"..... Captain Pearce and Company.

Vocal solo, "Lullaby"..... Lois Foulkes.

Song, "The Bees and Butterflies"..... Edna Lewis, Dorothy Maywood, Ruth Movick, Kathryn Fassbender.

Piano solo, "Rustic Festival"..... Kathryn McKenzie.

—Part II—

Piano duet, "Dance of the Toys"..... Robert Peters and Stanley Schoch.

Vocal solo, "Patter, Little Rain Drops"..... Ethel Price.

Shaking Quakers (by request)..... Chester Pearce and Chorus.

Piano solo, "The Bird's Message"..... Evelyn Gray.

Song, "The Cricket"..... Chorus.

Piano solo, "The Nutcracker"..... Lois Foulkes.

Song, "Good Night"..... Dorothy Maywood and Chorus.

WILL CELEBRATE THE FOURTH.

Mayor Appoints Committee to Take Matter Up With Citizens.

The regular monthly meeting for May was held at the council rooms last evening. Mayor Robertson presided and all the aldermen were present. The minutes of the previous meeting were approved without reading. A bill for \$106 from Johnson & Peterson, alleged to be due in the construction of a sewer between Third and Fourth streets on Bluff, was tabled.

A petition from citizens asking that the mayor appoint a committee to confer with business men for a Fourth of July celebration was accepted, and the mayor appointed as such committee Aldermen Downey, Siegel and Schauer.

On motion of Alderman Asire, \$1,000 was transferred from the general fund to the park and street fund.

A petition from teamsters asking that the wages for team work be placed at \$5 per day was referred to the commission on parks, amusements and streets.

Alderman Downey, chairman of the special committee appointed to consider the matter of the organization of an advancement association, asked for more time. He said that his committee had met with a great deal of encouragement from business men. All that had been approached appeared to be enthusiastically in favor of the project. He had no doubt, the alderman said, that at the next meeting he would be able to report that the organization of the association has been perfected.

"Love is a painful thrill,
Not to love more painful still,
But ah! it is the worst of pain,
To love and not be loved again."

A PRONOUNCED HAY SHORTAGE.

Cornstocks Being Fed to Cows and Straw to Horses—Shipments Held Up.

Marquette is suffering from a hay famine. For several days past there has been absolutely no hay on the market. In two weeks the price rose from \$17 to \$19 a ton. Large consignments are on their way here, but have been tied up somewhere on the road. Owners of cows have secured cornstocks wherever possible and are also feeding mixtures of bran and cornmeal. The horses, however, are suffering the most, as many owners are entirely out of hay and are feeding nothing save straw and oats. Straw has also of late become a commodity hard to secure. With the pastures clear of snow and the weather reasonably mild the grass should help out the dairies in a few days. Speaking of the shortage of hay yesterday morning, a large dealer said:

"Conditions have changed greatly in this locality of late. Last season the hay crop was probably as large, if not larger, than ever before. Many of the farmers raised two crops and it was also of a good quality. The weather was just dry enough for ideal haymaking and the loss through rain must have been comparatively small. Since the Southeastern was put through, however, three years ago, a great deal of the hay that used to come to this city has gone to Negaunee and Ishpeming. Farmers were attracted by the good price prevailing, as the crop to the south was in a measure a failure, and threw so much of their stock on the market, that many of them are now feeling the shortage.

THE INITIAL

The Stetson

The new up-to-date hat of the season. From the artistic standpoint it commands attention. The originality of its lines, and its beauty of texture and finish are the work of artists. It is a "picture," an example of excellence, with many imitators but no rivals.

Every Stetson Bears the Stetson Name

We carry the Stetson, Soft and Derby, in all styles.

ORMSBEE & ATKINS,
Marquette's Largest Clothiers and Haberdashers.

Nester Block, Washington St.

Should the grass hold off much longer positive suffering is apt to result among the cattle. Orders for hay placed long enough ago to insure this city against a shortage under reasonable conditions have not been filled, though many carloads are on the way."

PRINTERS WANTED.

Two good printers can secure good pay and permanent work by applying at once at The Mining Journal office.

NOTICE.

To horse owners and drivers. If you want your horses shod by the most up-to-date and scientific method, by one who thoroughly understands the anatomy of the foot, send them to 109 E. Spring street, or call up No. 379 red, Bell phone, and we will do the rest. Satisfaction guaranteed or your money cheerfully refunded. Bell telephone.

Mining News

QUINCY.

Dividends of \$18 This Year Warranted by Earnings of Over \$25.

It is said by a director of the Quincy Mining company that the quarterly dividend rate of \$4.50 will be maintained through the present year and not less than this amount will be paid as long as the copper metal remains at twenty-five cents or above. The Quincy is producing at the present time at the rate of 20,000,000 pounds per annum and at a cost of not over eleven cents per pound making a profit of fourteen cents per pound on an average price received of twenty-five cents per share. This means total earnings of \$2,800,000 a year on 110,000 shares, or \$25.55 per share against dividends of \$18. This margin of \$7 per share over dividend requirements will be ample to meet any unforeseen difficulties which may bring about temporary shutdowns or interferences in any way with a production of 20,000,000 pounds of copper this year.

A director says: "There has not come to my attention any substantial evidence of any prospective drop in the price of copper, and I believe it will sell between twenty-five and twenty-six cents a pound for the remainder of the year. Our output for the month of April was 100 tons of mineral, compared with 1275 tons for March, thus establishing a new high record, and our present production, which is now at the rate of 21,000,000 pounds a year, should be continued indefinitely. At the prevailing price for copper, Quincy should be able to close the year with a surplus of from \$400,000 to \$500,000 over and above the \$18 which it promised to pay in dividends. The directors will make liberal appropriations this year for re-

construction work. This work of reconstruction should have been done long ago, but, as it was not absolutely necessary, we have waited for such favorable conditions as now prevail."

The last annual report omitted to give some of the statistics which reports in the past have given concerning tons of rock stamped, etc., which led to the surmise that the copper contents of rock made a very unfavorable showing. The reports of the past few years have shown a tendency in that direction but it is authoritatively stated that the apparent lower yield of rock is not so much due to a lower grade of stamp rock as to the very much smaller percentage of mass copper which is now being obtained. Some years ago at least 25 per cent of the refined copper output was made up of mass copper whereas, now the percentage is not over 10 per cent or 12 per cent. The property was never in better condition than at the present time. There is in the treasury a sufficiently large surplus for all its needs and it is facing no large expenditures for reconstruction, as the expenditure necessary for the sinking and equipping of the new shaft will be spread over two or three years and the heaviest expense in connection with it will not appear until 1908 at least.

Quincy costs over the last quarter of 1906, were 10 1/2 cents per pound excluding construction and the figure of eleven cents estimated for the current year is a fair one including construction, having unforeseen accidents such as the air blasts of last year, Quincy's costs in years gone by have been as low as six cents per pound but this was at a time when labor and fuel were very much cheaper and when richer rock was being mined. During the period from organization up to Dec. 31, 1906, Quincy had produced 372,477,987 pounds of copper at an average cost of 9.33 cents per pound and sold at an average price of 14.94 cents per pound, cost not including construction. Its profits from all sources

during that period were \$15,540,532 which together with the amount received for capital stock paid in made a total balance of receipts over expenses of \$17,690,532. Out of this were paid in dividends \$16,470,000, leaving a balance from operations of \$1,220,532. The amount paid in for capital stock was \$2,150,000, of which \$700,000 was paid in last year for 10,000 new shares. Dividends have been paid in every year since 1848 with the exception of two years during the Civil war.

ONTONAGON MINES.

The Adventure produced 9 1/2 tons of mineral during April, an increase of three and one-half tons over the preceding month and the best record which has been made this year. Operations are moving along quite satisfactorily at the mine and still better results are anticipated. Work has been temporarily suspended at the new No. 4 shaft and all energy is centered on extending the openings from No. 3. The tones are found more encouraging than has been experienced for some time.

Michigan turned out 150 tons of mineral last month. During the early part of the month for two or three days no shipments were made to the mill on account of the railroad being blocked by snow and consequently this resulted in a decreased output. The mine is looking good, although operations have been slightly retarded by a scarcity of help, and a good increase in the product will undoubtedly be made during future months.

According to a Boston report the Mass produced 172 tons of mineral during April. This makes the Mass the banner producer of the county during the past month and shows that the company is beginning to reap some benefit from the extra development work which was done last year.
