St. Paul, May 26.—Archbishop Ireland, in a Memorial Day sermon preached at the cathedral today to members of the G. A. R. and officers and enlisted men from Fort, Snelling, glorified a just war and took the ground that nothing will so bring home to the people a sense of righteousness and awaken in them he spirit of disinterested self-sacrifice o necessary to the life of a great and igh-minded nation. The archbishop said

"A pure and high-minded patriotism will ever keep a people great and noble. It will teach them that the voice of duty must be supreme in the soul. You can ever trust a people of whom it is said 'They love earnestly their country; and when you read of a people, 'They have allowed the sweet rose of patriotism to wither and decay,' you can say in all truth, the nation is ready to die. Swans Are Domestic-G. H. Lambert, of Milwaukee, Wis., who was at the Marquette, Saturday, said that should the swans now staying near the Chocolay bayou once breed there, they would in all probability make the bayoutheir permanent abiding place. The swan, he laims, is one of the most domestic of pirds in its affection for localities. Its oming instincts are as strong as those of the carrier pigeon and it will return o the spot where it has bred indefinite-

Mr. Lambert at one time had large of a stock farm near Burnett, Dodge county, Wisconsin, which containd a pond inhabited by swans. He says but the flock had its inception in ingle pair of young swans that had een placed in the pond fifty years beore by a former owner. The swans ever deserted the soot. Mr. Lambert explains the arrival of the swans in this ocality on the theory that they were briven from their former home through ts destruction by a storm, or emigrated to escape from enemies of either the feathered or animal species.

# CURES

The first symptom of Contagious Blood Poison is usually a little sore or ulcer which does not always excite suspicion because of its insignificance; but as the poison becomes more firmly rooted in the blood, the mouth and throat ulcerate, copper-colored spots appear, a rash breaks out on the body, the hair begins to come out, glands in the neck and groins swell, and often ulcerating sores form on the limbs, hands or face. But this is not all: if the poison is allowed to remain it works down and attacks the bones, causing necrosis or decay, and makes a complete physical wreck of the sufferer. It will not do to tamper with a disease so powerful as Contagious Blood Poison, for every day the virus remains in the blood the trouble is progressing toward a more dangerous stage, and may in the end get beyond the reach of any treatment. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the greatest of all blood purifiers. This remedy attacks the disease in the right way by going down into the blood and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system and cures this humiliating and destructive disorder permanently. The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood, and the sufferer completely restored to health. S. S. S. is not an experiment, it is a success and has cured thousands of cases of Contagious Blood Poison in every stage, and being entirely free from minerals, is a safe as well as certain treatment. If you are suffering with this debasing disease get the poison ations at greatly reduced prices during a few moments hung head downward in out of your blood with S. S.
