

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.) Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

MARQUETTE, MICH., JULY 15.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

No, gentle reader, the senate boxes had nothing to do with the misprint in the governor's binder twice bill. It was the fault of a careless clerk.

However, if the A. O. U. W. claimants only get 50 or 60 per cent, it will be a fact that they will be getting about all they have been paying for.

The Northern Normal enrollment for the summer school has reached 396 students. Call it 400 and an unusually good record.

Until we hear something to the contrary we will assume that the Northern Normal appropriation bill is all ship-shape.

In a stock market way little is expected of the present week. Last week was touted, in advance, as a period that would be marked by great bullish activity.

Mayor Scott of Hancock is dying hard on the municipal lighting plan idea. He still believes that Hancock is making a mistake in not installing a city plant.

Two matters of importance are to come before the New York legislature, which has begun a special session called by Governor Hughes.

The grand lodge of the A. O. U. W. hopes to be able to settle the outstanding claims on the basis of 50 or 60 per cent.

The Michigan Bankers must have enjoyed their visit to the upper peninsula a year ago when they held their annual meeting in Houghton.

As a matter of fact the mere opinion of the attorney general will doubtless be sufficient to settle many tentative candidates.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain condition. Nerve sickness—nothing else.

Dr. Shoop's Restorative

WANTS TO BE SHOWN. Lieutenant Governor Kelly does not propose to lay down under Attorney General Bird's opinion that his vote on the resolution to submit the 40 per cent provision of the primary law to the people was illegal, and that therefore the resolution has no standing.

Under the heading "The Principle Is Wrong" F. L. Baldwin, of the Escanaba Journal, adds the following contribution to the current discussion of the National Protective Legion.

We have only good wishes for the Legion and hope that every member in it may continue to pull out two dollars for one, but it is beyond our comprehension how any system of finance which is in no way creative can pay \$500 for \$250 a member pays in.

AGAINST LEGISLATORS, TOO.

The Mining Journal in its last issue commented on the fact that Attorney General Bird had given an opinion that circuit judges cannot legally be elected delegates to the constitutional convention.

In the attorney general's opinion legislators are also disqualified by the constitution for service as delegates.

An innovation on the Mesaba is the establishment by the Steel Corporation of a pasture at Mountain Iron sufficiently large to accommodate all the cows and horses in town.

Explorations for ore have been resumed at the Lockhart property, Vermilion range, in the reported interest of an Eastern steel concern.

What is proving one of the most extensive fields on the older ranges of the Lake Superior iron region is the territory out from the twin villages of Iron River and Stambaugh.

Iron Notes

There is no question now that, barring labor strikes and other unforeseen obstacles, the Lake Superior iron production this year will reach the expected record-breaking total of 42,000,000 tons.

Wholesale Drugists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system.

A LAUGH OR TWO.

The Atlanta Georgian says that the name Taft presents serious obstacles to the political rhymester—Daily Paper. The Rhymester read this note and laughed. Said he: "That fellow must be daft if he can't see the case of Taft."

Out of the Mouths of Babies.

Though an aristocrat from head to foot, five-year-old Bernice came to kindergarten with her small hands clasped together, an evidence of lack of grooming that astonished Miss Violet.

Woodpecker Would Get Her.

During a camp meeting in a southern town by the colored Methodist church, Aunt Maria Saunders, an aged negro, became very much excited, and in the exuberance of her spirit jumped and began to shout.

"Ach, Look Out, Macbeth!"

Marion Hill tells a good story of the stage in the American Magazine. The chief character is a dull girl whom a persistent manager endeavors to drill as a witch in "Macbeth."

He Wanted Company.

Shortly after 2 o'clock one bitter winter morning a physician drove four miles in answer to telephone call.

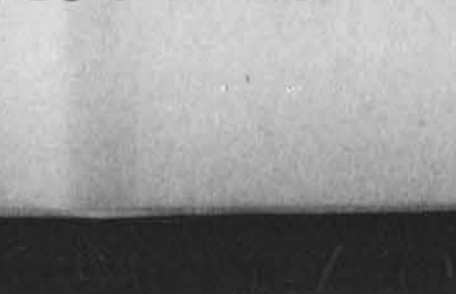

Who's your lawyer?

"Higginotham, but—"

Who's your pastor?

"Rev. Kollogg M. Brown," mumbled the patient.

Copper Country

EIGHT FATALITIES.

Three More Deaths by Drowning in the Copper Country.

Three more drowning accidents have been recorded in the copper country since Saturday morning. Yesterday afternoon William Ferguson, aged nine, son of William Ferguson of Houghton, fell from a small boat in Portage lake, and perished before assistance could reach him.

FORMER M. C. M. STUDENT.

Son of Calumet and Arizona Magnate Seriously Injured.

Walter E. Congdon of Duluth, son of Chester A. Congdon of the Calumet & Arizona directorate, was run over by an ore car at the Conistota mine, Minn., last Thursday and was so badly injured that he suffered the loss of his right foot.

RED JACKET'S PAVEMENT—Hancock Board Meeting Tonight.

The Red Jacket village council, acting on the advice of Engineer Clausen, has advised Manager Smith of the Kettle River Quarries company that the repairs to the Oak and Eighth street crossroads wood block pavement must be made with a sand filler.

ARRESTED FOR TRESPASS.

Six South Range Men Accused of Cutting Champion Timber.

The Champion Mining company, through John Conaghan, land locker for the company, on Friday made complaint against six residents of South Range town, charging them with trespass in having cut timber on land belonging to the company. The men are John Urtalo, Eric Sipola, Henning Kolehmainen, Marco Loundi, Antillio Bertalocini and Peter Romani.

JUDGE STREETER TO THE SOO.

Will Hold Special Term of Chippewa County Circuit Court.

Judge Albert T. Streeter of Houghton will go to the Soo a week from tomorrow to hold a special term of the Chippewa county circuit court. The regular June term of that court adjourned Saturday with two cases tried, and of these the Soo News says: "The two cases still to be disposed are those of Robert D. Perry vs. Victor E. Metzger, bill for an accounting, and David A. Aiken vs. Chase S. Osborn, bill for an accounting. Judge Streeter preferred not to hear these cases and Judge Streeter of Houghton will come here July 23 for the purpose of holding a special session for the hearing of the cases."

SCHOOL DEDICATION COMMITTEE.

Prominent Men Will Prepare for Interesting Event at Calumet.

The Calumet school board has appointed James MacNaughton, general manager of the Calumet & Arizona mine; H. E. Kratz, superintendent of schools; E. J. Hall, principal of the high school; E. D. Johnson, secretary of the school board, and W. J. Galbraith, representative from Calumet in the state legislature, as a committee to plan the program of the occasion of the dedication of the new high school in September.

A SUIT FOR UNCLE SAM.

Anchor of U. S. S. Wolverine Breaks Submarine Gas Main.

There is a probability that the visit of the United States ship Wolverine to Portage lake will result in a suit against the government by the Houghton County Gas company. The gunboat steamed into Portage lake Saturday noon and anchored off Ripley, midway between Houghton and the former place. When the anchor was let go it struck the submarine main which provides gas service for Houghton from the Houghton County Gas company's plant in Ripley. The main broke and Houghton's gas supply was shut off.

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN OFFICERS. DIRECTORS.

duced two million dollars in copper, gold, silver and lead, the work being done through four tunnels which had a total length of 10,000 feet; the greatest vertical depth attained was 700 feet.

terial for it has already arrived; it will be ready for operation some time during the present year, but the present uncertainty regarding getting any kind of building material or machinery would not permit a prediction as to just when.

SHANNON. A director of the Shannon Copper Company says: "The Shannon is now in excellent condition. After paying the last dividend it has considerably more money on hand than it did after paying the previous dividend. In addition it has been spending liberally for development work so as to enable it to meet the increased demands to be made upon them when the new big furnace is blown in—a matter but a few days.

BALAKLALA. It is now planned by the Balaklala management to begin breaking ore in August so as to have a supply to begin smelting operations by September 1. On that date it is planned to start smelting operations and treat both Balaklala and Trinity ores. The tramway to the Trinity will by that time be completed.

FAMILY CARES. This information may be of value to many a mother in Marquette. When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs, the mother's life is far from a happy one. This condition can be quickly changed and absolutely cured by the use of Doan's Kidney Pills.

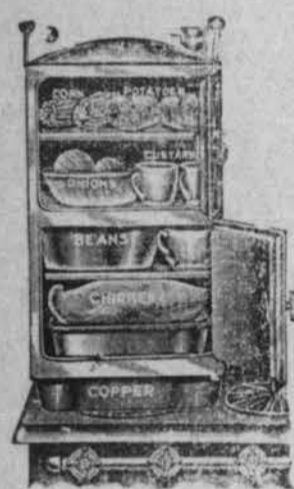

S.S.S. DRIVES OUT RHEUMATISM. The cause of Rheumatism is a sour, acid condition of the blood, brought about by indigestion, chronic constipation, and the accumulation in the system of refuse matter which the natural eliminative organs have failed to carry out.

Today's weather: Fresh to brisk westerly winds; fair weather. Yesterday's temperatures: Seven a. m., 74 degrees; noon, 81; 7 p. m., 74. Maximum, 82 degrees; minimum, 65.

J. E. Reau is in Detroit.

C. M. Bogue left for Chicago last evening.

D. T. Morgan was down from Republic Saturday.

A. J. Yungbluth of Ishpeming spent Saturday in the city.

Stanley K. Chandler, Pine street, has returned from Chicago.

Louis Anderson of Gaylord was a business visitor Saturday.

John Trebilcock was down from Ishpeming Saturday on business.

James Sutherland, of Green Bay, visited friends the past few days.

W. H. Richmond left last night for Chicago, on a business mission.

Mrs. J. LaBlue left Saturday for a few weeks' visit in the copper country.

Frank Perry, of the Soo, was the guest of Marquette friends yesterday.

Arthur Ward, of Munising, was in the city Saturday, on a business mission.

A false alarm was turned in from box twelve Saturday by mischievous boys.

The business at the city market has rapidly increased in the last two weeks.

Mr. and Mrs. Charles Kelsey are home from an extended visit on the Pacific slope.

Miss Olive Mitchell has returned from a two weeks' visit with relatives at Calumet.

J. J. Conolly left last evening for Chicago, where he will transact business for a few days.

Mr. and Mrs. Duncan MacDonald returned yesterday from a two weeks' trip in Colorado.

Louis Grawbower left last evening for Chicago, where he will look after business for a week.

Bernard Sherman, son of J. E. Sherman, is home from a several months' stay in the southwest.

The supervisors' auditing committee met Saturday, to prepare the bills for this week's session.

Dr. R. Jordan and wife of Calumet spent Saturday and Sunday in Marquette, visiting friends.

Mrs. Constant and son left Saturday for the copper country, where they will visit friends for a few days.

Miss Margery Davis left Saturday for Chicago and Crown Point, Ind., to spend two or three months with relatives.

Mr. and Mrs. Peter Beaman, West Ridge street, are the guests of relatives at Milwaukee for two weeks or more.

Mr. and Mrs. James Healy and Miss Margaret Healy leave this morning for a trip to the shrine of St. Anne de Leau-pre.

P. G. Teeple leaves today for Milwaukee to attend a meeting of the agents of the Northwestern Life Insurance company.

James Jamerson has returned from the A. O. U. W. convention in Detroit to which he was a delegate from the Grafton lodge.

Miss Jean McNally, who has been doing the millinery work at Grawbower's store the past season, leaves for Toronto, Canada, this evening.

A delegation of the members of the Marquette council of the K. of C. left Saturday night for Escanaba, where a large class received the third degree yesterday.

A. A. Kienholtz, principal of the high school a few years ago, who resigned his position to go into the book business, has accepted the principalship of the Escanaba school for the ensuing year.

Dick Lambert caught two fine trout at the Black Rocks, Presque Isle, yesterday. They weigh three and a half and one and a half pounds. A number of good sized fish have been taken at Presque Isle the past few days.

Sheriff Rough has been informed that officers from Kenosha, Wis., will be here in the course of a few days for H. E. Ellsworth, who is wanted in that city for forgery. Ellsworth has refused to go to Kenosha except on extradition papers.

At the Ely school the boiler for the new heating plant is being enclosed and work on the radiation is about to be started. E. J. Sink, who has the contract for putting in the plant, expects to finish the job in about two weeks.

Architect D. Fred Charlton of this city has been commissioned by the board of control of the Michigan College of Mines to prepare plans and specifications for the library and museum building to be erected at the Houghton institution next year. The structure will be a strictly fireproof building, and will cost in the neighborhood of \$75,000.

Charles Anderson has left for a visit at his old home in Sweden. It is his first trip across the water since his arrival in the United States some years ago. He plans to remain abroad two months or more. Mr. Anderson has been notably successful in his business life in Marquette. Long in the employ of the late E. Richards, he has been a member of the firm of Anderson & Lindstrom since it embarked in the meat trade on North Third street a few years ago, and subsequently building a business block and adding a grocery department to the business.

Large Crowds to Presque Isle—There was a heavy traffic to Presque Isle yesterday afternoon and evening, the heat driving people from the city. The bathing land gave two excellent concerts.

Four Vags Sentenced—Marshal Manning, Friday night, arrested four vags, who had been making themselves troublesome for the past week. They were arraigned before Justice Byrne Saturday morning and given fifteen days in the county jail.

An Old Timer—The D. S. S. A. railway has been using an engine for the past two months which was leased from the Lake Nebagamon Lumber company. It is of the old duckback style, which was in general use many years ago. The Baldwin Manufacturing company built the engine, and it has stood the wear and tear so well that it will be good for active service some years to come.

It has four pairs of drive wheels. When the engine was first leased it was used as a switch engine, but on several occasions it has been put hauling freights with satisfactory results.

New Freighter Launched—The steamer Wissahickon, the new package freighter of the Anchor line, was launched last week at the Buffalo Drydock company's yards. She is a model package freighter, being some 375 feet long. She will go into commission before the close of the present season, under command of Captain Charles Christie, and will be a visitor at this port from time to time.

Rich Excursion—A good sized crowd attended the A. H. excursion to Birch yesterday. The crowd would have been much larger had not the weather in the early morning been threatening. The excursionists were accompanied by the Hayseed band, minus Hayseed outfit, and it played excellent music. It would seem to furnish a good nucleus for that Marquette band we have all been waiting for.

Stock Company Tonight—The Rita Harlan company makes its first appearance in a week's engagement at the opera house this evening in "The Atone-ment," a comedy drama in a prologue and four acts. It is a play of intense dramatic interest, and its presentation by the Harlan company has been much praised. Miss Harlan is an emotional actress of ability, and is said to be admirably supported. The scale of prices for the engagement will be the same as was in effect for the Mack-Leone engagement, ten, twenty, thirty and fifty cents.

Passed Away Suddenly—Mrs. Matilda Petersonskow, wife of a farmer at Green Garden, passed away suddenly at the home of Christ Nelson, Morton street, a few minutes after 11 o'clock Saturday morning, from heart failure. Mrs. Petersonskow was seated in a chair, talking, when death occurred. She had been at St. Mary's hospital for some time, having been discharged last week, a few days before her death. The deceased was a widow, and is survived by three sons and five daughters. The remains will be interred at Green Garden tomorrow, Rev. Carl Aeppler officiating.

Damage About Made Good—The park, cemetery and street commission has not yet made arrangements for filling the washout on Lake street, but has the matter under advisement. The Marquette & Southeastern road has dumped a sufficient quantity of earth so that teams can now get by, though the margin of safety is a small one. The South Shore has its tracks into the yards west of the gas house in good condition and the Marquette & Southeastern is rebuilding its signal station north of the gas house, so that the damage done by the big storm of three weeks ago has been pretty well repaired.

Will Assemble in Marquette—The geological field trip, a feature of the summer instruction of the Michigan College of Mines students, will be started at Marquette next Monday, when the men will report here to Professor Seaman, of the college faculty. The first few days of the course will be spent in learning the use of the dial and dip compass as applied to geological work. This will consist of running section lines and mapping out the topography of a sketch of country. As the work progresses, specimens of the country rock will be collected, named and their position located on the map. Geological sections and maps will next be made and data collected to explain the geological phenomena of the region. Considerable time will be spent on the iron range between Ishpeming and Michigamme. The students taking the course are required to have credit in surveying, mineralogy, petrography, and historical geology.

**MARQUETTE ON HIS LIST.**  
Major Fitch, Government Engineer, on Annual Trip of Inspection.

Major Graham D. Fitch, government engineer, left Duluth late last week on his annual trip for inspection of the improvement work at the different points in the district of Lake Superior under his charge. He is accompanied by his wife. The yacht Vidette is being used for the trip.

The first place to be visited was Post Wing, a small lumber town on the south shore, where the mouth of the river has been dredged out so that it can be used by boats of light draft. From there the Vidette went to Chequamegon bay and Bayfield, Washburn and Ashland. At Ashland there is some dredging work being done and the breakwater, which is a pile and slab structure, is being replaced by rip-rap construction. Of the remainder of the trip, the Duluth News-Tribune says: "Ontonagon will next be visited, and after that a run will be made through Keweenaw point. Then will come the harbor of refuge at Presque Isle, and Marquette harbor. The last south shore point to be visited will be Grand Marais, where a harbor of refuge is maintained. This will end the inspection on the south shore, as below Grand Marais begins the Detroit district, including the locks at the Soo and the adjacent channels.

From Grand Marais, Mich., the Vidette will be headed for Isle Royale and the north shore of Lake Superior, following the boundary line to Pigeon river. The first stop on the north shore will be at Grand Marais, Minn., where there is a breakwater and dredging and from there the run will be made

(to Agate bay (Two Harbors), where the repairs to the breakwater, recently completed, will be inspected. After that the Vidette will return to Duluth.

At all the points visited Major Fitch will meet with the leading citizens and receive any suggestions that may be offered in regard to the work needed at such points.

**UMBRELLAS.**

We have a full line of umbrellas at marked-down prices. You may need an umbrella very soon. Now is the time to get one at half regular price at Seidenfeld's store.

**LOCAL LACONICS.**

Mayor Winter arrived home Saturday from Cuba City, Wis.

Offs. Boehne, in the employ of Winter & Sness, is riding a motor cycle.

Leola Curbett is spending a few days in Illinois, on a business mission.

Miss Emma Grigg is visiting friends at Mountain Iron, Mesaba range.

Miss Frances Mullen of Mass City is visiting the McAuliffe sisters of Negaunee.

Mrs. Rose Johnson is visiting her daughter, Mrs. Charles Beck, at Escanaba.

Mrs. S. J. Ashton of Chicago is in the city, visiting her sister, Mrs. T. C. Yates.

Oscar Field is enlarging the barn at the rear of his business block on Iron street.

Rev. J. A. Broden is here from New York, to remain several days on a visit to friends.

Miss Norene Riely is home from Chicago, on a visit to her parents, Mr. and Mrs. Jerry Riely.

Miss Mary E. Horrigan has left for the lower peninsula, where she will spend the remainder of her vacation.

A. C. Sness and family went down to their Little Lake homestead Saturday, after spending several days in the city.

Captain J. H. Rough, who spent part of last week inspecting the lead and zinc properties in Wisconsin, arrived home yesterday.

Patrick Hawkins, the Lake Superior & Ishpeming Railway company's section foreman at Little Lake, was in the city Saturday.

The newly elected officers of the Scandinavian society of this city were installed at a special meeting held yesterday afternoon.

The German Aid society of Negaunee will hold its annual picnic, for members and their families only, next Sunday at Cleveland park.

Abel Levine, wife and daughter, arrived home Saturday evening from Milwaukee and Chicago, where they spent the past week or more.

The annual meeting of the stockholders of the Vermillion Land & Iron company will be held at the Breitung House tomorrow afternoon at 2 o'clock.

E. J. Merton, the plumber, has been awarded the contract for the plumbing in the First National bank building. He expects to begin work very soon.

Henry Sahadin has taken a position at the Kikkwood pharmacy. He is a graduate of the Ferris school of Big Rapids, and has just received his papers.

At a meeting of the school board Friday evening the organization for the coming year was perfected, Dr. J. H. Andrus being elected president; Cyril Houle, secretary, and Nicholas Langhin, treasurer.

As will be seen by John Shea's advertisement in this issue, extra inducements in the way of low prices are to be offered this week. A number of special sales are to be conducted. Mr. Shea is anxious to dispose of his stock in as quick time as possible, and he intends to make prices that will attract the buyers.

The payday's will start Wednesday.

when the employees of the Cleveland-Cliffs Iron company's properties will receive their money; Thursday the Hartz fund will pay; Friday the Regent group; and Saturday the Mary Charlotte.

Miss Ephimia Gorling is home from Augustana college, Rock Island, Ill., she having recently been graduated from the art and music departments. Last year at the county fair at Rock Island Miss Gorling carried away seventeen prizes for art exhibits.

The Sunday school society of the Swedish Lutheran church will conduct its annual picnic at Cleveland park next Saturday. A committee has been appointed to arrange a program that will be of special interest to the young folks. Refreshments will be served on the grounds and a large attendance is expected.

A. Bohrer, who arrived here from Detroit, accompanied by his wife, a few days ago, has taken a position with Winter & Sness and will represent the firm at Princeton. Mr. Bohrer was obliged to give up his position in Detroit on account of his health, he having been ill the greater part of the winter, having had two different sick spells, the last being one of pneumonia. He had an excellent place in Detroit in charge of two drug stores, but his physician advised him to do out of doors work for a year or so.

**ISHPEMING**

Through some mix-up in the mails, The Mining Journal's Ishpeming letter was inadvertently carried to Chicago last night. This explains why the Ishpeming department does not contain its usual batch of news items this morning.

The Marquette division of the Ancient Order of Hibernians has invited the members of the Negaunee and Ishpeming divisions to attend a ball on the evening of the 31st inst. It is expected that delegations will go down from both cities.

The Ishpeming Eagles defeated the Michigan baseball team in a game played at Union Park, yesterday afternoon, by the score of 20 to 2. At that, the contest went only six innings, the match being called off on account of high winds. The Beavers won from the Deer Lakes yesterday by the score of 29 to 22.

The Country club, which will hold a meeting tomorrow afternoon, has changed the time of the departure of its buses. The first bus will leave the residence of Dr. Barnett at 2 o'clock, instead of 2:30, and the second will depart from the Peninsula Bank corner at 3 o'clock, which is half an hour in advance of the former leaving time.

### FARMERS CONCERNED.

**WORKING FIVE GANGS.**  
Operators of Gas Plant Will Largely Increase Business This Year.

The Marquette County Gas & Electric company is taking advantage of the favorable weather for the laying of gas mains in both cities. Solicitors working in the towns are meeting with good success in the sale of gas stoves, fixtures, etc., and there is reason to believe that the company's business will be doubled before winter sets in. Five gangs of men are working and more could be employed to advantage, could they be had. For a time there was a delay in the digging of the trenches and with other work, but a large force has been employed for nearly a month past. The company is now paying \$2 per day to laborers working in the ditches. Early in the season \$1.75 was the wage rate, but the men could not be held any length of time at that pay, nor was it possible to procure the number desired. The quality of gas now being produced is excellent, and this fact is the solicitors' strongest argument. For a time the gas was inferior and the consumers had much trouble with it. The company found that the quality of coal used was not the best for gas making, as it contained too much sulphur, and besides the stokers did not seem to work properly. All the defects have been remedied and the management does not expect any further trouble. The company's patrons are buying the very best grade of stoves, so that the results are satisfactory. The second carload of stoves is now being sold.

### SHOULD HAVE PROTECTION.

Baseball Players in Amusing Squabbles Over Umpire's Decisions.

"The next time the City Employees and Business Men's teams play baseball I would advise the calling out of the entire police force to keep the members of the nine from scrapping," said a Negaunee man who took in the contest Friday afternoon at the Union Park grounds. "There was more fun than I have seen at a ball game since the league series of indoor matches at the Adelphi rink a few winters ago. The fun began early and some of the players became so excited over the decisions of the umpires that it looked as though blows would be struck. Some of the players pulled out in the sixth inning, but bystanders were taken in and the contest continued to the end of the ninth.

"The worst feature of the game was the fact that both went outside for players. The Business Men's team was really a 'stack up' at all the best players in town and I did not blame the City nine for kicking. The contest was interesting from the spectators' viewpoint and those on the sidelines got the most fun out of it, as the players on both teams were too much warmed up to see the humorous side of the thing. I think both umpires sympathized with the City team, but most of the close decisions were favorable to the Business Men. John A. Wasmuth and John Larson did the umpiring and it speaks well for their courage that they stood their grounds until the finish."

**WEEKLY EXCURSIONS TO DETROIT AND RETURN \$13.50**

Via the South Shore, leaving on early morning train on Saturday. Same rate to Alpena, Oscoda, Harbor Beach and Port Huron. To Buffalo \$3.50 higher. Limit September 15th, 1907. For sleeping car and steamer reservation apply to ticket agents. (6-22-07)

NEW LAW ON NEW CITIZENS. IMPORTANT PROVISION RELATING TO PASSPORTS.

It Also Fixes the Status of American Women Who Marry Foreigners—Clause in Relation to Foreigners Who Do Not Become Citizens in Good Faith—Thousands of German-Americans Living Abroad Affected by This Provision—Many International Complications Will Be Prevented—Changes in Naturalization.

Washington, July 14.—One of the most important laws passed last winter by congress has just become effective, and a wall of protest is beginning to come in from American citizens living abroad who are affected by it. The new law affecting the citizenship of naturalized citizens of the United States was badly needed. It authorizes the issuance of passports restricted to six months to those who have filed their first papers and resided three years in this country. As the old law stood, a passport could not be issued except to a citizen. It frequently occurs that young men who have filed their first papers are required by business to travel outside the country. They have renounced their allegiance to their own country and can obtain no protection from it, and if no passport can be obtained from our government, they are entirely without protection. While passports are not required in some countries, they are in many others. This section of the new law is not obligatory, but it authorizes the department of state to issue a passport in such a case.

The new law also fixes the status of American women marrying foreigners. There had been more or less conflict in the courts upon this question under the old law, or rather lack of law; and it was deemed desirable that the matter should be regulated by statute. A provision is made by which an American woman can regain her citizenship upon the termination of the marital relation. It was thought best to put this proviso in the new law, because of the great number of international marriages which terminate in a separation between the contracting parties.

Perhaps the most important provision of the law was desired by the state department to guard against complications in which this country often has been involved. It is the desire that the flag of the United States shall protect an American citizen to the fullest extent. It has never been the desire of the state department, however, that foreigners who do not intend to cast their lot permanently with us should endeavor to avail themselves of the advantages of American protection. Many foreigners come here, become naturalized, and then return to their own countries or migrate to other parts of the world without any intention of returning to this country. They have not become citizens in good faith, but they seek to avail themselves of the protection of our citizenship in avoiding responsibility to which they may be subjected in other parts of the world. In the case of Europeans, this subterfuge has been employed thousands of times to avoid military service in their own countries.

This is not right. The citizenship of the United States should not be sought or possessed for commercial or dishonest ends. To guard against this evil, the new law provides that a naturalized citizen who leaves this country and dwells elsewhere continuously for five years shall be presumed to have abandoned his citizenship. This presumption can be overcome, but the presence of such a provision in the new law will prevent those who are not entitled to its protection from dishonestly hiding under the American flag.

Press dispatches from Berlin report that ten or fifteen thousand German-Americans resident abroad are in a state of mild panic over the new citizenship law. They are hard hit by the provision outlined above. These German-born American citizens are fearful that they will be unable to present satisfactory evidence to United States consular officers that they are American citizens within the intent and meaning of the new law. These men, or most of them, never intend to return to the United States. They made enough money out here to pass the afternoon of their lives comfortably in the fatherland. If under the new law they lose their American citizenship they will be in a pretty pickle. Long ago they foreswore their allegiance to the German empire, and they are now in imminent danger of becoming men without a country. Officials of the state department do not express much sympathy for these German-Americans, and for other foreign-born citizens of the United States residing permanently abroad. The new law was designed to deprive just such people of their rights of citizenship.

The value of the new enactment is expected to prove far-reaching. It is calculated to save many international squabbles resulting from naturalized Americans calling upon the government for protection in foreign countries, particularly Turkey, Russia, Italy and Austria-Hungary. Many cases have come up where natives of those and several other countries, who have been naturalized in America, have returned to their native land to engage in business and claim the protection of the American government. In rioting and other difficulties such people cause this country embarrassment with the country in which the trouble occurs.

The new law makes radical changes in the naturalization, expatriation and passport regulations, as existing for several years past. It was enacted on recommendations contained in a lengthy report of a special commission, which was composed of Dr. David Jayne Hill, minister to the Netherlands, chairman; Dr. James B. Scott, solicitor of the state department, and Gaillard Hunt, chief of the passport bureau of the state department. This commission met in Washington last summer, and made a careful study and detailed report on the existing American citizenship situation in all countries of the world. Special reports were obtained from diplomatic and consular officers for their guidance.

Putting the law into effect will be attended with considerable difficulty. Already scores of communications have been received by the diplomatic and consular officials protesting against the law as unfair. The gist of these protests have been sent to the state department. A surprisingly large number of them are from American women who have married foreigners, became separated from their husbands and continue to live abroad. Many who apparently wish to be classed as prominent in certain foreign society circles appear to wish to be considered as Americans in some places, where they live or visit, as English women at others, and still others affect the nationality of the French or German at other places. While wishing to retain their American citizenship, they protest against going on record.

A greater difficulty is being met with the foreign-born American citizens who return to their native country to engage in business and wish to be considered as citizens of that country. When any difficulty arises they wish to appeal to the American government for protection or to obtain satisfaction for themselves, yet they do not wish to be placed on record as American citizens. State department officials are greatly surprised at the number of American citizens or would-be American citizens, living abroad. Circulars of instruction concerning the enforcement of the new law have been sent to every consular and diplomatic office abroad, and the American officials were directed to widely advertise in the local press the fact that such a law was being made effective and all persons interested should apply for information.

In Paris alone it develops that nearly 10,000 persons are interested; in London about 8,000 have been heard from; in Germany inquiries have been made in behalf of nearly 15,000 persons; while the number is equally surprising in Russia, Turkey and the southern European countries. Most interest is manifested in Russia and Turkey, owing to the difficulty foreign citizens are likely to have in those countries.

Ambassador Henry White, at Paris, reports that those inquiring for the most part protest against the new regulations, but as they are beginning to understand the value of them to all bona fide Americans living abroad, they seem to favor them. Consul General Wynne, at London, reports less difficulty in making the Americans understand. Ambassador Thompson, at Mexico City, reports considerable difficulty in picking out the Americans, and this same condition has arisen in Canada, owing to the almost constant immigration, both ways, across the frontier.

The law provides that certificates of nativity shall be issued to all American-born citizens living outside the United States, stating where they were born, their place of residence, and how long they expect to live abroad, and also their occupation. American boys living abroad, when eighteen years of age must register, declaring their intention of becoming citizens of this country, and at the age of twenty-one they are to take the oath of allegiance. All Americans living abroad must register with a consular officer at least once a year.

HOLY KISS SPLITS CHURCH. WHEN NEGRO IS CONVERTED. Majority of Members Demand Rules Be Suspended in Case of African.

Hinton, Okla., July 14.—Whether or not the holy kiss as observed by a church congregation near Hinton shall be given by the white members to a negro convert and applicant for membership threatened to split the church Sunday. A majority of the members, not favoring the kissing rite in this instance, want the rules suspended, while the other faction maintains they can not get to heaven and refuse to kiss a negro. The negro's application has been laid over until next Sunday.

SENATOR MENERY WOULD RESIGN SEAT TO WILLIAMS. Jackson, Miss., July 14.—United States Senator McEnery of Louisiana, who has been spending the summer at Browns Wells, is a great admirer of John Sharp Williams, and in the course of a conversation made the following statement today: "If Mississippi does not appreciate John Sharp Williams enough to send him to the United States senate, he has only to move to Louisiana and I will resign my seat in his favor."

HARVESTER TRUST. WORST MONOPOLY. Declared Highest Type of Combination, Dissolution Will Be Sought.

Washington, July 14.—The International Harvester company of Chicago was pointed out today by a high official of the department of justice as the most perfect type of the latest evolution of the trust. This statement, made after a government inquiry into the harvester trust and company of Chicago, was the result of the government's intention to strike a decisive blow, caused a sensation here.

Radical Move Planned. In this highest evolution of the trust the stocks of competitors are bought up and owned by one corporation. The government proposes to ask for receivers for such corporations who shall sell their properties. This will completely disintegrate them and restore a condition of competition. It is admitted at the department of justice that this new step appears radical, but it is declared that it is the only move left the government in certain instances for the complete breaking up of trusts and monopolies.

The new plan will not apply in all trust prosecutions, for the reason that some of them have proceeded along the lines of evolution farther than others, said a high official of the department of justice today. "Several years ago the written agreement was the basis of organization for all combinations in restraint of trade. Next came the holding company, under which form the Standard Oil company now operates and under which the Northern Securities company did operate, and finally the corporation actually buying the stock of its competitor and owning as one corporation practically all of the corporations engaged in a certain line of manufacturing business.

Various Remedies Needed. "Under the old system of written agreement an injunction or a criminal prosecution was all that was necessary to completely sever the trust which bound together the several independent, only competing concerns which joined together in restraint of trade.

"In the next step, the holding company, an injunction severing the control of the holding company over the subsidiary companies and retaining the latter from paying dividends to the former has been all that was necessary to break the control, in theory at least. There has now, however, arisen a new problem, illustrated by the powder and tobacco trusts, which makes it necessary to go farther.

"Take the Standard Oil case in St. Louis as an example. If the government shall there succeed in dissolving that combination and monopoly, the next step would be for it to use one of its seventy subsidiary companies for the purpose of buying up outright the control of all the others.

"By asking an injunction the government will sever all connections between the present holding companies, which still exist, and the subsidiary companies. By asking a receiver the government will accomplish this much, at least. It will restore a greater degree of competition than the trusts and monopolies now give.

Will Not Disturb Industry. BIDS MARSHALS DEFIANCE. Indian Territory Murderer Challenges Officers to Arrest Him.

Muskogee, I. T., July 14.—Calmly smoking cigarettes and killing away his time by playing solitaire, Jack Baldrige, wanted for the killing of Marshal Sam Roberts at Porum on July 5, is sitting in the underbrush near the Millard Valley Railroad bridge, half a mile from Porum defying United States marshals to arrest him if they dare. Baldrige has eight killings to his credit besides the killing of the marshal at Porum. Following is the text of the "defy" issued to the Porum and Muskogee marshals:

"Here I am by the Millard Valley bridge, sitting in the underbrush. I am not hiding and am not going to run away. At present I am playing cards and smoking cigarettes to steady my nerves. You can come and get me—it's a very short distance. But I will not be responsible for the result or outcome. Roberts was the ninth man I've killed, but shall probably have to finish a few more before I am through with this job."

When it became known that Baldrige was near Porum and had defied the marshals' force, four of the picked men of the Muskogee office were dispatched to the scene. They arrived at Porum, where they alighted from the train and were met by the two marshals at that place, all heavily armed. After spending the day at Porum, and ascertaining the fighting record of Baldrige, the marshals returned to this city on the evening train, for the purpose, it is said of getting more explicit orders from their chief.

MIDSUMMER EXCURSION TO DULUTH. Via the South Shore, leaving July 25th and 26th, return limit July 29th. Fare for the round trip \$9.10. Attractions: Barnum & Bailey's circus at Superior July 26th, and at Duluth July 27th; the "White City" on Park Point; baseball games Houghton vs. Duluth. (7-11-26)

ONCE DRY VALLEY GREEN. Thousands of Acres in New Mexico Made Tillable by Irrigation.

Santa Fe, N. M., July 14.—The citizens of Carlsbad, N. M., celebrated today the opening of Carlsbad irrigation project, which was completed by the United States reclamation service this spring.

Of the entire twenty-nine projects in the West, to cost \$46,000,000, now planned or under construction by the reclamation service, those two in the Pecos Valley are the first to be completed. Both began to distribute water and nourish land this spring, and areas that were barren a year ago are now by this water covered with green ripening crops.

The Carlsbad project cost \$60,000, and it will reclaim 20,000 acres. The canals are fed by reservoirs in the Pecos River, formed by a cement, iron and rock dam. The dam is five miles north of Carlsbad. It is set in bedrock twelve feet below the bed of the river, and it stands forty-five feet above low water. It is 265 feet thick at the base, and forty-five feet thick at the crest. At the crest it is 1350 feet long. Behind the dam the hills of the river recede, forming a lake of 600 acres, with a holding capacity of 6000-acre feet of water (an acre is an acre of water a foot deep). Floods escape by cement spillways.

A few miles above Avalon Lake is Millan Lake formed by damming the river. This lake is a natural depression of the surface, and is three miles long and seven wide. It is twenty-five feet deep at the lower end. It will hold only 16,000-acre feet, but into it flows at low water 100 cubic feet per second, and at flood time 80,000 cubic feet. From Millan Lake water is delivered by the riverbed to Avalon Lake.

The Hondo project waters land that never had been irrigated before. It is about ten miles southeast of Roswell and about sixty miles northwest of Avalon dam. The reservoir is a depression of the earth's surface, and is shut in by low mesas, supplemented by cement gates and paved embankments. Reduced to a circle, the basin is about nine miles in circumference. The embankments are forty-five feet high. At the base they are eighty feet thick, and on top is a roadway twenty feet wide. The reservoir covers an area of more than 1,900 acres and has a capacity of 40,000 acre-feet.

RACE TO PACIFIC COAST. Harriman a Factor in Railroad Competition in Mexico.

Mexico City, July 14.—A lively railroad building contest is on in northwestern Mexico between the Kansas City, Mexico & Orient and the Rio Grande, Sierra Madre & Pacific railroads as to which line shall be first to reach the Pacific coast. The former line is already completed and in operation from the port of Topolampam west for about one hundred miles, and it has considerable track laid from the city of Chihuahua toward the Texas border. The Rio Grande, Sierra Madre & Pacific now runs from Juarez, opposite El Paso, Tex., to Torreon, a distance of about one hundred and twenty miles. It has also built an isolated line from Temoschic to the new town of Madera, a distance of about fifty miles. This line is to be connected with the main line, which is now being built.

The Pacific coast terminus of the road will be either Guaymas or Topolampam. Either of these two places will make the road a direct competitor with the Kansas City, Mexico & Orient. It is said that the Rio Grande, Sierra Madre & Pacific will also have the advantage of being a shorter route and having much lower grades than its prospective competitor. No serious engineering problems are encountered in its construction, while on the Kansas City, Mexico & Orient some of the heaviest construction work ever undertaken in Mexico has to be done where it crossed the Sierra Madres.

Harriman is building a railroad down the Pacific coast of Mexico. The Rio Grande, Sierra Madre & Pacific will connect with this new line, thereby affording the Harriman system a short and direct route between the United States and the Pacific coast of this country. The Kansas City, Mexico & Orient and the Rio Grande, Sierra Madre & Pacific do not parallel each other in the sense that they run close together. For the greater part of the distance they will run within not less than a hundred miles of each other, but when the fact is considered that they traverse a region that is sparsely populated and that their traffic for a long time to come must be principally transcontinental, it will be realized that the rivalry between the two roads will be more or less intense.

BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy, I would have. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by The Stafford Drug Co.

ANNUAL PILGRIMAGE EXCURSION TO CANADA. Annual Pilgrimage to the Shrine of Ste. Anne de Beaupre, Quebec, will leave via the South Shore every day July 13th to 19th, inclusive. Fare for round trip \$25. Good for stop-over at Ottawa, Montreal and other intermediate points. Return limit Aug. 31st. Through sleeping cars. Apply to ticket agents. (7-5-13)

TUXEDO CLUB CIGAR

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the news papers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

The regular fifty-cent and one-dollar size bottles are Home of Swamp-Root, sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE BEST SPRING WATER ON EARTH is used in making "Drei Kaiser" Bottled BEER. Along with the better grade of Malt and Hops. A trial order will convince you. Your doctor will tell you that it is health-giving. U. P. BREWING CO. MARQUETTE - MICHIGAN

Table with columns for 'TIME TABLE', 'WEEK DAYS', and 'SUNDAYS'. It lists train routes and departure times for various stations including Marquette, Munising, and Ishpeming.

Upper Peninsula

Clergyman to Wed— Invitations have been issued for the wedding of Miss May Sawbridge of Stephenson, Menominee county, and Rev. Frederick Lake, rector of the Episcopal church at Negaunee. The wedding will take place at the M. E. church at Stephenson Thursday, July 18, at 7 o'clock, and the young couple will be at home at Negaunee after the first of August.

Kicked by Cow, May Dies— As the result of a kick in the pit of the stomach by a frightened cow, which he was attempting to shield from the attacks of a savage dog, Stephen Lemanski, a well known Menominee citizen, has been lying in a critical condition at his home with small chances of recovery. The force of the blow ruptured several large blood vessels and developed peritonitis, which has spread through the stomach and intestines.

Ironwood Waterworks Burned— Fire destroyed the building occupied by the Ironwood Waterworks company late last week. The blaze is supposed to have been started by sparks. The entire building was burned, and while some of the machinery is in ruins, the most essential part of it is still intact, and the plant will be running in full force in a few days. Fire protection is already furnished. The loss is several thousand dollars. The company supplies both Ironwood and Hurley with water.

Law Favors Immigrants— One clause of the new immigration law which went into effect last week is interesting. Formerly any citizen of Canada, Newfoundland, Cuba or Mexico was exempt from paying the head tax. Under the new law any person, no matter what his nationality, who has lived in any of these four countries continuously for one year immediately preceding the date of entry, is exempt from a \$2 head tax. As an illustration, an Englishman having lived during the past year in Canada, may enter the United States now without paying the tax. However, the law works both ways and a Canadian, Mexican or Cuban who has not lived continuously in his own country for the necessary period would have to pay.

Tie-Makers Win Suit— In a decision handed down by the state supreme court, the verdict has been affirmed in the case of McClintock & Lehigh vs. the Standard Tie company of Detroit, tried at the December term of the Mackinac county circuit court, wherein judgment for \$503 was given the plaintiffs. The litigation involved the inspection of cedar ties shipped to Chicago, which were there inspected with such severity, it is alleged, as to practically make 53 per cent of the timber "rejects" and "seconds." The plaintiffs refused to accept the Chicago inspection and payment, and brought suit to recover.

Soo Carpenters Get Increase— The carpenters at the Soo will be paid at the rate of 36 cents an hour after the first of the coming month. This agreement has been reached with the various building contractors. The present scale is 33.3 cents. Also commencing Aug. 1, the drymen at the Soo will furnish but sixteen quarts of milk for \$1, a material increase over the rate now prevailing, yet reasonable when prices elsewhere in the peninsula are considered. At Marquette, only 12 1/2 one-quart tickets are given for a dollar. The higher prices for food and labor are the reasons assigned for the advance in milk quotations at the Soo.

Appropriations Recommended— Major Graham D. Piteh, government engineer, in charge of harbor improvements on Lake Superior, has recommended that the following amounts be expended at the points mentioned during the next fiscal year: Grand Marais, Minn., \$2,900; Agate Bay, 2,000; Duluth-Superior, \$395,540; Port Wing, 85,000; Ashland, \$47,000; Ontonagon, \$30,000; Marquette, \$10,000; Marquette Bay, \$2,000; Grand Marais, Mich., \$68,200. The major's annual report for the year just ended shows amounts expended in improvement and maintenance as follows: Grand Marais, Minn., \$137,923; Agate Bay (Two Harbors), \$2,642,355; Duluth-Superior, \$106,156.84; Port Wing, \$50,561; Ashland, \$23,389.68; Ontonagon, \$199,901; waterway, Keweenaw Bay to Lake Superior, \$6,119.48; Marquette, \$2,807.39; harbor of refuge, Marquette Bay, \$41; other work and repairs, \$9,250.

Automobiles Tied Up— Before the sun had risen the other morning, fully a dozen Menominee automobile owners and as many Marinette brethren were vainly scouring the twin cities in an attempt to secure gasoline with which to run their machines. For forty-eight hours the twin cities were gasless, not a drop being found, though high prices had been offered. The famine was caused by the failure of a large consignment of the product to reach Menominee on schedule time. Several thousand gallons were shipped from Duluth, but were lost in transit and despite the earnest appeals of Menominee autoists, none was forthcoming. Finally when nearly every automobile in town had been forced out of commission, the gasoline arrived at the Standard Oil company's premises. Ten automobiles were at Poyer's garage awaiting to be refilled and many were scattered through the twin cities with their tanks dry.

Many Resorters at Mackinac— With the accommodations at the leading hostelrys considerably increased, the summer resort season at Mackinac Island is now under way in full blast. The Hotel Ironsides has been enlarged nearly one-half. The Chippewa has been extended out upon the bay one-third its former length, materially increasing the size of the already big dining hall and adding guests chambers on the upper floors. The Island House is a third larger than last season, a new wing having been constructed on the east. In addition, the former modest Hoban boarding house has been enlarged and transformed into a modern hostelry. Most all the men distinguished in public life who have summer cottages on the island are already occupying them with their families, and the typical resorter is represented by many hundreds of visitors. The greatest rush, however, will not set in until the last of July and the first of August.

Labor Shortage Closes Mill— Because of the scarcity of labor in that portion of the peninsula, D. N. McLeod, lumberman, of Rexton, Mackinac county, has been compelled to shut down his sawmill altogether, and unless conditions improve in the respect noted he is apprehensive he will be forced to suspend operations in the woods also.

At no time this season has he been able to get half the number of men he needs, and he says that in his twenty-five years' experience in the lumber industry he has never before known labor to be so scarce. Thirty-five and \$30 a month is being paid for help, the largest wages known in upper peninsula lumbering. Other operators are in the same fix as McLeod, all being handicapped by labor conditions. A similar state of affairs exists across the line in Canada. Operators are paying \$35 a month for lumbermen in Quebec, something never before heard of in that country.

Soo Obelisk Enroute— The obelisk to be placed on Brady field at the foot of Bingham avenue at the Soo as a memorial to the semi-centennial celebration of the opening of the first locks on St. Mary's river, is on its way from the New England quarries. The stone was shipped in charge of three men in the employ of Norton Brothers company, which has the contract for quarrying the shaft and setting it up, and it will doubtless arrive some time this week. The manner of handling the large stone, which weighs some sixty tons, after its receipt at the Soo, furnished something of a problem for a time and several different plans were considered but it is understood that the company finally decided to transport it from the railway tracks to the site where it is to be erected, by means of a large truck purposely constructed for handling great weights of that kind and which the company will forward along with other paraphernalia. The truck is finished with twenty-inch wheels so that it will not injure the streets. Some little time will be required in setting the base and putting the column in place.

Bay Closed to Fishermen— On the first day of July the fishing season in the waters of Green bay came to a close and will remain so until the first day of September. The past season could not be called an especially successful one from the standpoint of returns, although the fishermen's net profits are about the same as usual, owing to the fact that no storms of any consequence occurred and the nets and accessories remained practically intact. The late season was partially responsible for the decrease in the amount of fish taken, but the catches have also shown that the fish themselves are somewhat smaller than in previous years. On the other hand, whitefish and lake trout, especially the former, which were rapidly becoming a rarity, were more numerous this year. A large number of big sturgeon were caught. Weighing from fifty to 100 pounds and bringing good prices, the sturgeon were especially desirable and the capture of one or two on the same day netted a large return. The herring caught this year were in a way a disappointment for although large numbers of them were caught, they were smaller than usual. From now until September the fishermen will spend most of their time repairing nets and making preparations for the coming season.

Views of Representative Harris— Michael B. Harris, state representative from Menominee county, who was quoted in Detroit as making statements to the effect that recent state legislation benefited the lower peninsula only, indignantly denies the story and brands it as untrue. He was quoted also as suggesting that the upper peninsula should send a delegate to the legislature. Mr. Harris says: "I frankly admit I made no such statement to a reporter or anyone else. In conversation with several members of the board of supervisors at the court house, the question arose, as to why the upper peninsula was discriminated against in the passage of very important bills in which the people were vitally interested. I replied that the upper peninsula got what her representatives demanded, and they certainly should know what their constituents desire. Then the question arose as to the advisability of creating a state of the upper peninsula. I stated that I would not favor such a move for the reason that the conditions are so different in the mining districts to what they are in Menominee county that if such a move was made I would prefer attaching Menominee county to the state of Wisconsin where the conditions are practically the same."

Escanaba's High School Instructors— The complete corps of instructors for the Escanaba high school for the coming school term has now been engaged. There are eleven new teachers, only three of the past year's force having signed contracts. A. A. Kienitz, formerly of Marquette in that capacity, is the principal of the school, and will teach history. His assistants are: Elsie M. Griffith, instructor in English; Carl F. Knirk of Midland, Mich., instructor in science; Amy F. Rosenberry of Milwaukee Downer college, instructor in Latin; Carolina A. Supe, instructor in German; Nellie J. Lavigne of Sayre Collegiate Institute of Lexington, Ky., instructor in French; Welfie E. Boren, instructor in mathematics; Maud Sweet of New London, Wis., instructor in mathematics; Anna M. Otten of Comstock School of Education; Evanston, Ills., instructor in English; Ethel A. Adams of Gladstone, instructor in history and English; Corliss Gifford of Ferris Institute, instructor for commercial department; C. A. Schoultz of Ferris Institute, assistant instructor in commercial department; Mabelle H. Bernhard of the Ypsilanti Conservatory of Music, instructor in music; Lucile Williams of the Chicago Art School, instructor in drawing.

Miner Institute Program— Notices have been sent out by A. J. Yungbluth of Ishpeming, secretary of the Lake Superior Mining Institute, stating all the particulars of the thirteenth annual meeting to be held in Duluth and on the Mesaba range from July 24 to 27. Members of the association and their friends will be in Duluth not later than noon on Wednesday, July 24, as a trip to the Great Northern Power company's plant at Thomson is planned for 1:30 o'clock that afternoon. The large manufacturing plants of the city will also be inspected during the afternoon. The visit to the ranges will be on Thursday, Friday and Saturday, returning to Duluth in time to connect with the evening trains for eastern and southern points. "Sampling of Iron Ores" by Professor L. S. Austin of Houghton, Mich.; "Biographical Sketches" by J. H. Harding of Eveleth, and "The Standard Boiler House of the Oliver Iron Mining Company" by A. M. Gov of Duluth, will be the most important of the papers to be delivered to the institute. Spencer S. Ramsey, F. A. Cokefair and other prominent men will also present papers, the titles of which will be announced later. The headquarters of the institute will be at the headquarters of the institute will be at the Spalding hotel, where the members will register and secure lodges, programs, etc. Special rates over all the railroads except those in the state of Minnesota

are offered and plans are being laid for a large and enthusiastic meeting. The "certificate plan" arrangements for rates will be employed by the railroads. The Duluth, South Shore & Atlantic offering round trip tickets from all points on its line for one full fare and the Chicago & Northwestern, Chicago, Milwaukee & St. Paul, and the Wisconsin Central railroads offer round trips for one fare and a third, plus twenty-five cents.

Wireless Telegraphy for Soo— The Soo is to have wireless telegraph service of the greatest efficiency within a very short time. The apparatus is at ready well-nigh ready for shipment. The proposition is being promoted by the Clark Wireless Telegraph-Telephone company of Detroit and Thos. E. Clark, vice president of the company and inventor of the system, states that the work of putting in the station will be begun just as soon as the site has been selected.

"We have been operating on Lake Erie for the past three years and have a station as far north as Port Huron," said Mr. Clark. "Now the marine men are clamoring for a station at the Soo. During the month of June we handled over 3,000 vessel orders on the Lake Erie traffic alone. We have the business of every fleet that operates within the territory that we cover. We shall install a 25-kilowatt station at the Soo, which is stronger by considerable than any we now have in operation. This station will not only be capable of communicating with the station at Port Huron but also with the one at Buffalo and Chicago, and the ones that are later to be installed at Marquette, Duluth and Fort Williams." The Soo station will be supplied with power by the Chandler-Dunbar company. It is the plan of Mr. Clark's company to continue putting in new stations until they cover the entire great lakes region within their system. Marquette, Duluth and Fort Williams are to give attention very soon. Mr. Clark states that the Tinostea and Juniata of the Anchor line and also the steel trust boats will put in wireless apparatus as soon as the station at the Soo is in operation.

School Election Warm— Ironwood last week had the most exciting school election in the history of the city. The different churches were making a fight on the trustees. Candidates who were representing the Catholic church were Frank Lesseloyng and M. A. Fitzsimmons. Those who were put up by the Protestants were A. Heilm, George Brewer and Frank Healy. Lesseloyng and Heilm were the retiring members of the school board. For the first time in the history of the city the women turned out in large numbers to cast their vote. The polling booths were kept open until 9 p. m., and even at that there were several hundreds voters who were turned away. The votes which were cast showed such evidence of error that the candidates decided to call it no election and to allow the two retiring members of the board to serve for another year. If this is found to be contrary to law, a contest will be started which will compel the court to decide who was elected. The voting resulted as follows: George Brewer, 444; A. Heilm, 442; A. Lesseloyng, 431; A. A. Fitzsimmons, 423; F. Healy, 80.

At the annual meeting of the electors of the school district at Menominee Charles Hutchinson was selected as trustee for three years and G. A. Blesch chosen to act as a similar officer for the unexpired term of two years. At the conclusion of the election it was unanimously decided that the city should stand its share of the expense in organizing and maintaining the teachers' normal training school, the institution of which was recently approved and sanctioned by the county board. The only contest made in the election of officers was by A. A. Juttner who after being defeated for the long term, was nominated as an opponent to G. A. Blesch. On the first ballot for the three-year term Charles Hutchinson received 42 votes, A. A. Juttner 33, W. F. Waite, 23 and L. D. Eastman 1. As forty-eight were necessary for a choice— a majority of the entire number cast—a second ballot was taken. This time most of Judge Waite's supporters crossed over to Hutchinson and as a result the city treasurer secured 57 votes, to 37 for Juttner and 15 for Waite. On the ballot for the second trustee, Mr. Juttner received 52 votes and G. A. Blesch 58.

For the first time in several years an uncontented school election was held in the city of Gladstone. Clarence A. Clark was chosen a member of the board of trustees to succeed himself and Mrs. Adine Penock was elected as a member to succeed Dr. Kee. Both were unanimously chosen, with sixty-eight votes cast.

At Escanaba, H. W. Bowle, for the past two years president of the board of education, was re-elected and Attorney Stanley M. Matthews was elected as a new member. There was no opposition.

TAKE THE POSTMASTER'S WORD FOR IT.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by The Stafford Drug Co.

MARQUETTE & SOUTHEASTERN RY. Sunday, June 9th, the summer schedule of the M. & S. E. R'y. goes into effect. Sunday trains will leave Marquette for Princeton and Munising at 8:45 a. m. and 6:20 p. m. For Negaunee and Ishpeming, 10:15 a. m., 3:55 p. m. and 8:20 p. m. For Birch and Big Bay, 8:50 a. m. Sunday trains will arrive from Princeton and Munising 10:10 a. m. and 8:10 p. m. From Negaunee and Ishpeming, 8:35 a. m., 2:30 p. m., 6:10 p. m. From Birch and Big Bay, 7:20 p. m. Week day trains, No. 10 leaves Marquette for Munising and Princeton 6:45 a. m.; No. 31 for Birch and Big Bay 8:50 a. m.; No. 1 for Negaunee and Ishpeming 9:00 a. m.; No. 4 for Munising and Princeton 5:55 p. m. Week day trains arrive at Marquette, No. 1 from Princeton and Munising 8:45 a. m.; No. 32 from Big Bay and Birch, 4:50 p. m.; No. 11 from Munising and Princeton 7:30 p. m. Sunday Excursion Rates— Negaunee or Ishpeming and return, \$ .50 M. & S. E. R'y. stations and return, .75 Munising R'y. stations and return, .100 Tickets on sale for No. 4 of Saturday; No. 6, 8 and 43 of Sunday, good to return Sunday or Monday. # CIRCUIT JUDGES CANNOT SERVE

### SUCH IS OPINION OF ATTORNEY GENERAL IN REGARD TO CONSTITUTIONAL CONVENTION.

## JUDGE STONE OUT OF FIELD

#### Is Also Ruled That State Legislators Are Ineligible—Much Mooted Point Is Now Definitely Settled.

Attorney General Bird has given an opinion that the office of circuit judge is incompatible with service in the constitutional convention. A result of this will be the withdrawal by the circuit judges of the state of their names from any consideration in connection with nomination as delegates. Judge John W. Stone, of this circuit, in this connection writes as follows:

Marquette, Mich., July 13, 1907.

To The Daily Mining Journal:— My name having been mentioned in connection with the position of delegate to the constitutional convention, and having some doubt as to my eligibility, I asked the attorney general for his opinion upon the question.

He had just given an opinion to Judge Sharpe upon the matter, and he sent me a copy of that opinion, holding that circuit judges are not eligible as delegates. I enclose the copy of opinion, and suggest its publication.

This settles the matter of my candidacy. Under no circumstances would I accept a nomination. I thank my friends for their kind words on the subject, I must request them to look elsewhere for a candidate.

Respectfully,  
J. W. STONE.

Mr. Bird's letter to Judge Sharpe follows:

July 11, 1907.

Hon. Nelson Sharpe,  
West Branch, Michigan.

My Dear Sir:—In pursuance of my promise a few days ago to write you what my opinion was with reference to the eligibility of circuit judges for delegates to the constitutional convention will say that I am of the opinion that article 6, section 9, is a prohibition against circuit judges being members of the constitutional convention. Of course, as you know, it turns upon the question as to whether a membership in that convention constitutes an office. While it is more or less a close question, I am impressed that it should be so construed. Again, I think the two offices are incompatible. As a member of that convention you will quite likely be called upon to fix your own salary and you might be called upon as circuit judge, after the work was over, to pass upon your own work such as the self-executing clauses of the constitution and this would result in your being both lawmaker and jurist.

There is a valuable note to be found in the 72d Am. decisions, page 169. If you have not already seen it you will find it very instructive upon this question.

I regret being obliged to come to this conclusion on your account and also on account of some other circuit judges that I know by reputation, but, as you know, these considerations have to be put aside in legal matters.

Very truly yours,  
JNO. E. BIRD,  
Attorney General.

Will Occasion Regret.

That things have shaped themselves so that Judge Stone cannot be a member of the constitutional convention will occasion much regret throughout his circuit. He was not seeking the office, his name being first suggested in the connection by the newspapers, but the suggestion was one that met with a cordial reception and many expressions of a desire that he be nominated were heard. Other upper peninsula judges were also suggested as excellent men to be sent from the other senatorial districts, and the movement to have a liberal representation of judges also was in full swing in the lower part of the state, it being held that these men, because of their ability in law and their judicial cast of mind, would make the best kind of delegates in a gathering of the character of the constitutional convention. However, Judge Stone's example of declining in the light of the attorney general's opinion, to allow his name to be used will be generally followed.

Legislators Also Out of It.

Attorney General Bird, in addition to ruling against the circuit judges' eligibility for the convention, has taken the same position with regard to legislators, and in his opinion sees these words: "The legislature has the same right to increase the emoluments, abolish, extend the term, prescribe or limit the duties, increase or diminish the compensation subject to minor constitutional restrictions in the case of elective offices that they have in the case of appointive offices, and the same consideration of public policy would seem to govern. The case under discussion furnishes an illustration of the extent of this power of the legislature."

"The legislature has already fixed the compensation, prescribed the method of election, the number of delegates, the limits of election districts and the time of service of the delegates to the convention. If called in extraordinary session for the purpose it is within their power to reconsider, amend and even repeal the law providing for this constitutional convention. In addition to this, under the provisions of article 12 of the constitution they have the sole right to impeach members of the constitutional convention."

"Further, it is possible that they may be called as members of the legislature into extraordinary session of the legislature while the constitutional convention is in session. These facts, however, might be said to be the only grounds of incompatibility, and as such would only result in the vacation of office of members of the legislature by the acceptance of the office of delegate to the convention, but read in connection with the discussion and the similar provisions of the constitution, and considering the constitutional duties imposed upon the legislature, they seem to me to be important in arriving at the intention of the makers of the constitution as to the elig-

ibility of members of the legislature to a seat in the convention."

## GRAND GAVE GOOD SHOW.

### Performances Saturday Attracted Large Crowds.

The new Grand theater, which will offer programs of moving pictures and illustrated songs, had an auspicious opening Saturday. The first performances drew full houses, and in the evening the house was not large enough to accommodate all the people who wanted to see the pictures. The latter were excellent and the songs were attractively illustrated and well sung by the theater's soloists. The house will be open for its second day this afternoon and evening, and hereafter the regular daily performances will be given, except on Sunday. There will be frequent changes of bills, and the house is to be conducted in a manner that will encourage the patronage of the best classes of people.

## MOVING TYOGA MILL.

### Cleveland-Cliffs Iron Company Shipping Equipment to Munising.

The Cleveland-Cliffs Iron company is shipping the mill erected in Ontonagon township by the Tyoga Lumber company a few years ago to Munising. The Cleveland-Cliffs company last spring purchased the plant, the company's equipment of various kinds and its timber lands, getting them, it is said, at a bargain. The mill is a single hand one, its machinery being practically new and in excellent condition. It is now being shipped to Munising, where it is expected that it will be re-erected and operated, though possibly not this season. Its operation by the Tyoga company was not a success, and the promoters of that company, Wellsboro, Pa., men, pulled out of the enterprise losers, though it is said that they might have made money if they had stuck to their guns.

## MADE A GOOD SHOWING.

### Marquette Ties Escanaba in One Ball Game, Loses the Other.

Marquette's ball team, the members of which are all home boys, nearly all of them still in their teens, made a good showing in its two games at Escanaba Saturday and Sunday. The first contest resulted in a tie, 7 to 7, after twelve innings had been played. Yesterday Escanaba won by the score of 8 to 6. No details of either match were received. The Escanaba nine has always been strong, one of the best in the peninsula, and this year it is no exception. The club has won every game it has played so far this season with the exception of one match, lost to Rapid River. Marquette will play return games with Escanaba in this city shortly.

## Business Men Defeat Deas.

For the first time this season, or since the organization of the nine, the Den baseball team went down in defeat in a game played at the fair grounds Saturday afternoon. A club representing the business men turned the trick, and by the score of 10 to 5 put a big crimp in the aspirations of the Den fellows to the "championship." It is explained in behalf of the Deas that two of the regular players were in Escanaba as members of the Marquette city team, and that this left a disastrous hole in the line-up. However, the business men say this really cut little figure, and they are willing to show the Deas how easy it was whenever the latter are ready to make the effort to regain their lost laurels. The two teams were made as follows Saturday:

Businessmen—Richardson, catcher; Nader, pitcher; Wirtz, shortstop; G. Hoig, first base; J. H. Foster, second base; Webb, third base; Benzinger, right field; Welsh, center field; Stromach, left field.  
Deas—McGuire, catcher; Osgood, pitcher; Theobald, shortstop; W. Hodgkins, first base; Primeau, second base; McKee, third base; Cahalan, right field; Extrom, center field; Hatch, left field.  
Umpires: C. Perkins and Desjardins.

## SOO CANAL PASSAGES.

### Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 14.—[Special.]—The upbound boats passing the canal the last twenty-four hours were the following: Gratwick (big), 9 p. m.; Norton, Tampa, 9:30; Kensington, 11; oil tanks, 12:40 a. m.; Holden, 1:20; Warren, Caloon, Buckhout, 2:30; Leonard, John Eddy, Pennington, 3; Fresque Isle, Clarke, 5; Harvard, 6:30; Maruba and whaler, 8; Flint, Yronau, 8:40; Faldon, 9; Stanton, Bt. North, Wind, 10:30; Superior City, 11; Manil, Martin, Black and whaler, 11:40; Harvey Brown, 12:40 p. m.; Majestic, 1:20; Maloring, 2:20; Manitoba, 2:40; Superior, 3; Western Star, 2:20; Goodler, 4:10; Ersson, 5:30; Bucard, Wilber Smith, 6; Richardson, Case, 7:30.

## Marquette Port List.

D. S. S. & A. docks: Arrived—Tower, Cleared—La Salle, German, Stephenson, Manda, Pontiac, Cleveland.  
L. S. & L. dock: Arrived—Presque Isle, Tampa, Frontenac. Cleared—Robbins, Ashtabula, Yuma, Squires, Buffalo; Cadillac, Centurion, Cleveland; Toltec, Detroit.

The popularity of Vandenberg's fresh milk and creamery butter, is due to the excellent quality and delicious flavors of the goods. (6-12-1m)

## BUSINESS CHANGE.

County Clerk Frank G. Jenks has sold his merchant tailoring business to Frank Dahlem, who is now in possession of the establishment. The disposing of his business has been in contemplation by Mr. Jenks since he assumed his duties at the court house. The change will not be noticeable at the shop, as Mr. Dahlem has been in charge of the work there since the departure of F. L. Simmons. He has had charge of the cutting all this time to the satisfaction of the large patronage of the shop. He will continue the business in his own name and do his own cutting. He is a cutter of long experience and rare skill, having given universal satisfaction with his work. As proprietor he will keep up a fine stock of cloths, and will guarantee the best for the money to all. Mr. Dahlem is a genial and painstaking man, and there is every reason why he should receive a liberal patronage.

## SERVED AT MANILA BAY.

### Richard Bos, on Wolverine, an Excellent Gunner—Received Dewey Medal.

Richard Bos, who is serving in the capacity of quarter-master on the recruiting ship Wolverine, which left port Saturday morning for Hongkong, has been in the service of the United States navy for the past twelve years. Having been efficient in discharging his duties as a sailor for three years previous to the beginning of the Spanish-American war, he was quickly selected when war was sure to come, to fill the responsible position of operating the lever on one of the six inch guns of the battleship Baltimore. He fought in the thick of the battle at Manila bay, and helped to demolish the Spanish fleet. One of the shots from the Spanish fleet landed in a box of ammunition near the gun he was operating, and the result was a terrific explosion, in which twelve were wounded, including himself.

He was awarded a Dewey medal for bravery. It is made from metal from the guns of the Spanish warship, Vienna Christina, which was sunk in the Manila bay engagement. The Christina was raised shortly after the treaty of peace and brought to the United States. The Spanish warship Don Juan De Austria was raised at the same time. The Don Juan De Austria has been turned over to the Naval Reserve at Detroit.

## PARASOLS AND UMBRELLAS.

A full line of fancy, silk and other grades at half regular price during the closing out sale at Seidenfeld's store, J. J. CARROLL & CO. (6-19-1f)
