

PRISONS YAWN FOR MEN HIGH UP

Prosecution on a Gigantic Scale to Be Undertaken by the Government in Connection With Alleged Thefts of Coal Lands.

Scores of Secret Agents at Work for Nearly Two Years Are Said to Have Piled Up Amazing Evidence of Frauds Involving a Million Acres in Colorado, Utah and Wyoming—Criminal Proceedings, Then Civil Suits, in Store for Many Culprits.

Washington, Sept. 1.—Criminal and civil suits on a more gigantic scale than ever before undertaken in land fraud cases are promised by the government to be begun in the next few months against several big corporations which are alleged to have gobbled up the entire coal supply of those three states.

Following the California and Oregon prosecutions, in which the government was eminently successful, the entire force of the government was turned on these states, with the result that when it shows its hand a startling line of evidence will be displayed.

The investigation has already demonstrated that an enormous acreage of public land has passed unlawfully into the hands of individuals and corporations and that the coal supply of these states is now owned almost completely by three or four big corporations.

The administration proposes trying to obtain jail sentences against those responsible for the frauds and will endeavor to regain possession of the lands illegally taken by civil suits.

Denver Seat of Operations. Denver is the seat of the present operations of the government forces at work on the alleged frauds, and it is learned here that for nearly two years 100 secret agents have worked from Denver in the states where the interior department has been led to suspect fraud.

The work of these men has been rewarded by results far beyond their expectation and certainly beyond those of Washington officials, who have been surprised at the evidence dug up. This evidence is now in shape for the department of justice to take hold of.

Judicial machinery has already been started in Colorado, Wyoming and Utah. Earl Cranston, district attorney at Denver, a son of Bishop Cranston of the Methodist church, is entrusted with the prosecution of the offenders and he is to be assisted by the able special counsel provided by the department of justice.

Fifty-Six Already Indicted. At the recent sitting of the federal grand jury in Denver indictments were returned against fifty-six persons for land frauds. Many of the indicted men have been prominent in the business affairs of the state.

Old Methods Followed. The investigations carried on quietly by the secret service men have revealed the land grabbers in Colorado, Wyoming and Utah followed the methods that were adopted by the land grabbers in Oregon. Men were hired to take up land and as soon as they got possession of it they turned it over to the corporation or individual that was employing them.

In this way, it is alleged, at least 1,000,000 acres of coal and timber-bearing land in the three states passed illegally from the government to corporations.

The criminal prosecutions and the civil proceedings the government is about to undertake are the most important of recent years. The evidence in hand shows that the corporations have in some instances mined most of the coal found on the illegally acquired land and have in many instances cut the timber off. Whether the government will attempt to recover the value of this coal taken out of the ground and the timber sold is now under consideration.

pitance of \$5,000,000 a year, which was the amount the church could collect for mission work. Bishop Johnston put the millions spent annually on the United States navy in the same column with the \$5,000,000 he said was spent annually for chewing gum and the many times greater amount for tobacco and liquor. Support of the navy, however, he justified later as making for peace.

NATIVES REFUSE TO WORK.

Serious Revolt Against the Congo Free State Government. Brussels, Sept. 1.—Passengers by the Congo mail steamer which arrived to-night report a serious revolt against the Free State government. The natives everywhere have refused to do the work which is demanded in lieu of taxes. In the Aruwimbi district white officers were attacked and wounded. Several native soldiers were wounded.

PREMIER IS SLAIN

MIRZA KHAN KILLED BY AN ASSASSIN. Persian Minister Is Shot Down in Street of the Capital City, and Two Soldiers Die With Him—Anarchy Grows—Roads Are Unsafe for Travel.

Tehran, Sept. 1.—Mirza Ali Asghar Khan, premier and minister of the interior, was shot and instantly killed as he was leaving the national council last night. Two soldiers were killed at the same time, and an assemblyman was shot in the leg. One of the assassins committed suicide, one was arrested and the others escaped.

It is believed that the effect of the news of the murder of Mirza Ali Asghar Khan, added to the interior troubles, will be disastrous, and that the anarchy will gain in strength. Already the roads are so unsafe that the German consul, who is going to Bushirt, has asked the government for an escort. A Russian has arrived at Isfahan, having been robbed of everything he possessed.

Mirza Ali Asghar Khan had played an important role in the affairs of Persia. Twice he held the office of grand vizier, the last time from August, 1898, to September, 1903, when he was exiled. This followed closely upon the sudden death of Hakim El Mulk, one of his bitter rivals, and the confidential servant of this official, who expired mysteriously within a few hours of each other, the result of poison, it was said. After living in exile in Europe for more than three years, the shah early in the present year recalled Mirza Ali Asghar Khan.

THIRD DOUMA BEING CHOSEN.

Not Satisfactory to the Emperor, Its Life Will Be Cut Very Short. St. Petersburg, Sept. 1.—The preliminary elections for the third Russian duma, which meets Nov. 14, are now in full progress, the voters being engaged in the several steps leading up to the selection of the provincial electoral colleges, which meet Sept. 14 to choose the parliament representatives.

Although the final step in the elections is only a fortnight away, the public interest is far less than in the two preceding campaigns. This is due in part to the natural decline of interest in the third meeting of the new institute, but more largely to the changes in the electoral law affecting the hitherto dominant position of the moderate liberal and radical parties, which have played the principal role and embraced the most prominent leaders in the political struggle.

The third duma, however, is looked upon here as sealing the fate of Russia's experiment in parliamentary government. Although the constitutionally committed the ideal of a representative institution, the emperor was grieved and disappointed by the results of the second elections, neither of which produced a body capable of working in harmony with his chosen advisers, and should the changes in the election law still fail to bring forth a more satisfactory institution the revocation of a fourth duma during the present crisis will not be surprising.

Under the law, the intent of which is to eliminate, as far as possible, the revolutionary and ignorant elements which brought about the downfall of the first two parliaments, no votes have been placed on the land owners and property-holding city dwellers, whom experience has proven to be the most conservative class in Russia, and the uneducated peasantry, who were given an exceptional status in the first suffrage scheme, but whose representatives were easily swayed by revolutionary arguments and the cry of "free land" have been relegated to a subordinate position.

JIM HOWARD INNOCENT

Not the Slayer of Goebel, Asserts Caleb Powers, Goaded Into Making a Statement.

Georgetown, Ky., Sept. 1.—Goaded by the statement here yesterday in the opening speech of Judge S. W. Hager, Democratic nominee for governor, that he would not pardon Caleb Powers, convicted for conspiracy in the murder of Governor William Goebel, Powers today issued a written statement saying that he at last learned the name of the man who killed Goebel and is not Jim Howard, who is serving a life sentence for the crime.

ROYAL BRETHERAL CELEBRATED.

Paris, Sept. 1.—A solemn Te Deum was sung in the Greek church today in celebration of the betrothal of Prince George of Greece to Princess Mary Bonaparte.

RUSSIAN CZAR VISITS CAPITAL

For the Second Time Since "Red Sunday," Jan. 22d, 1905, Emperor Nicholas Ventures Into St. Petersburg.

With the Empress and His Suite, He Attends the Consecration of a Church Erected to the Memory of His Grandfather, Assassinated in 1881, and No Untoward Incident Occurs to Mar the Occasion—Elaborate Precautions Taken.

St. Petersburg, Sept. 1.—For the second time since "Red Sunday" (January 22, 1905) Emperor Nicholas today entered the capital, on this occasion to attend the consecration of a church to the memory of his grandfather, who was assassinated in March, 1881. The date of the trip coinciding with the conspiracy trial just closed here plainly was designed to praise the loyalty of the army and the people. It was a complete success, and no untoward incident occurred.

The imperial party arrived from Peterhof unannounced, not a single salute being fired during their whole stay. The emperor and his party disembarked from their yacht at the admiralty and entered an unobtrusive launch, landing at Grand Duke Constantine's palace. Then they proceeded the remainder of the way to the memorial church in carriages.

Through the church faces the Nevsky Prospect is immediately approached from the Neva across a drill ground, where a new road flanked by rows of flags had been made for their majesties. After walking around the church and saluting the guards, the emperor entered the edifice by the south door. The scene inside was one of great splendor, recalling the old time court balls. The emperor and the empress occupied the so-called patriarch's place at the right of the altar, where they were visible only from the diplomatic lodge. Premier Stolypin was the only minister to attend the ceremonies. Mr. Riddle, the American ambassador, and Sir Arthur Nicolson, the British ambassador, and the civic element were conspicuously absent.

STRIKE AT THE PORTLAND MINE.

Refusing to Take Out Mine Owners' Recognition Cards, Men Quit Work. Cripple Creek, Colo., Sept. 1.—Rather than take out mine owners' recognition cards, 125 men out of 450 employed by the Portland Gold Mining company quit work tonight. These include seventy-seven of eighty timbermen and helpers who had demanded an increase of fifty cents a shift. The timbermen have been carrying \$4.00; helpers, \$3 a day. It is predicted that between three and four hundred men will refuse to take out cards on Monday, and will quit work.

St. Ignace, Mich., Sept. 1.—In memory of General Thomas Williams, commander of Fort Mackinac, 1852-1856, killed in battle, Aug. 5, 1862, there has recently been dedicated at Mackinac Island a tablet commemorative of the life of one of the nation's most gallant soldiers. General Williams was the father of the Right Rev. G. Mott Williams of Marquette, formerly of Detroit and Milwaukee, bishop of the Marquette Episcopalian diocese, which embraces the entire upper peninsula, and he met a heroic death, being killed while leading his troops at the battle of Baton Rouge early in the days of the Civil war. The tablet has been erected at the east side of the entrance to the south Sally port of Fort Mackinac.

General Williams was born in Albany, N. Y., in January, 1815, where his father was then residing, the family home in Detroit having been broken up by the British conquest of that city. Killed in 1862, he thus was forty-seven years old at the time of his death. He was the fourth son of John R. Williams of Detroit, many times mayor of that city, major general of the territorial and state troops, and like his son at one time in the regular service.

Thomas Williams' first military experience was in the Black Hawk war at the age of sixteen, when he served in the capacity of trumpeter. At eighteen he was sent to the United States Military academy at West Point, where he graduated as No. 12 in his class—the class of Hooker, Sedgwick and the Confederate General Van Dorn—in 1837, when he at once joined the Fourth artillery in Florida during the operations against the Seminole Indians. Subsequent service was in garrison at Detroit and New York harbor, duty as instructor in mathematics at West Point, camp life at Bordenstown, and aide-de-camp to General Winfield Scott, whom he accompanied through the Mexican campaign. After the Mexican war he received the brevet of captain and major, while still a first

WEATHER FORECAST

Washington, Sept. 1.—The following is the weather bureau's forecast for Upper Michigan: Fair, Monday and Tuesday; light west winds, becoming variable.

BASEBALL

STANDINGS OF THE CLUBS.

Table with columns for National League and American League, listing teams like Chicago, New York, Philadelphia, etc., with W, L, P.C. statistics.

SCHEDULES FOR TODAY.

National League. Philadelphia at Boston, Brooklyn at New York, Cincinnati at Pittsburgh, Chicago at St. Louis. American League. Detroit at Chicago, St. Louis at Cleveland, Washington at Philadelphia, Boston at New York.

GAMES PLAYED YESTERDAY.

National League. St. Louis 7, Chicago 3. Batteries: McElynn and Noonan; Reulbach and Moran. Cincinnati 1, Pittsburgh 2. Batteries: Weimer, Smith and McLean; Willis and Gibson. Second game: Cincinnati 2, Pittsburgh 4. Batteries: Coakley and McLean; Leever, Cannitz and Gibson. Game called on account of darkness. American League. Chicago 3, Detroit 1. Batteries: White and Sullivan; Mullen, Schmidt and Payne. St. Louis 10, Cleveland 2. Batteries: Pelly and Stephens; Liebhardt and Clarke.

SATURDAY'S SCORES.

The results of the games played Saturday were as follows: National League. Philadelphia, 5; Brooklyn, 1. Second game: Philadelphia, 3; Brooklyn, 7. Chicago, 2; Cincinnati, 1. New York, 3; Boston, 2. Second game: New York, 9; Boston, 6. Pittsburgh, 5; St. Louis, 4. American League. Chicago, 2; Cleveland, 2. Detroit, 3; St. Louis, 0. Philadelphia, 3; New York, 0. Washington, 1; Boston, 0. American Association. Milwaukee, 7; St. Paul, 3. Toledo, 4; Indianapolis, 2. Second game: Toledo, 5; Indianapolis, 3. Columbus, 3; Louisville, 0.

NATION'S CHIEF BUSY WITH PEN

Mr. Roosevelt Devoting Several Hours' Time Each Night Now to Preparation of Addresses He Will Deliver Shortly.

Terminating Vacation With a Dash to the Middle West and South the Last of This Month, He Will Make Half a Dozen Set Speeches of National Importance, First at Canton, and Will Give as Many More Talks of Less Formal Nature.

Oyster Bay, Sept. 1.—To prepare half a dozen addresses, each of which will be read very generally by a nation of eighty million people, and all to be delivered within a week from Sept. 23 to Oct. 6, is a task to which President Roosevelt is now devoting several hours' time each night. Besides half a dozen set speeches, the president will be called upon for as many more talks, and these, too, require some attention, although not finished preparation.

The president is to terminate his vacation with a dash to the Middle West and South. He will participate first in the ceremonies attending the unveiling of the national monument to the late President McKinley at Canton, O., Sept. 20. Naturally this address will be memorial in character, but of national breadth and interest. At Keosauqua, Mr. Roosevelt will speak again, the following day, and while no intimation has been made as to the character of this address, it is believed it will deal with problems of the day. At this place the president will begin his cruise of the Mississippi. The river trip will be punctuated with functions at St. Louis, where another prepared speech will be delivered, also at Cairo and Memphis, where the cruise will end. On the way by train back to Washington there is indication the president will yield to the importunities which are coming to him for more talk, and that he will speak to the people at Nashville and Chattanooga, or some other point. Already there are indications that a tax will be made on the president's stored-up vitality, gained from the three and a half months he will have spent at Sagamore Hill.

MILWAUKEE'S OLDEST BANKER.

Samuel Marshall Dies at the Age of Eighty-Seven Years. Milwaukee, Sept. 1.—Samuel Marshall, founder of the Marshall and Tisley bank and the oldest banker in Milwaukee, died today at his home, on Prospect avenue at the age of eighty-seven years. An attack of kidney trouble, accentuated by old age, caused his death.

NEW YORK FIRE COSTLY.

New York, Aug. 1.—A fire originating in a mysterious explosion today destroyed the interior of the five-story factory of Herman Jacob & Sons, East Twelfth street. There was a stock of goods in the building worth \$100,000, and in addition to this all the machinery was destroyed.

WILHELM'S BUSY SUNDAY.

New York, Sept. 1.—Prince Wilhelm of Sweden put in his customary busy day in New York, in spite of the fact it was Sunday. He attended divine services on board the cruiser Flygia, entertained a small party of friends at luncheon on board the ship, and was almost mobbed by the crowd when he came ashore, motored through Central Park and this evening gave a small dinner at the Hotel Astor.

STILLINGS NOT IN DISFAVOR.

Oyster Bay, N. Y., Sept. 1.—Recent published rumors that Public Printer Stillings had displeased the president and was to be supplanted were made the occasion today for the issuance of a statement complimentary to Mr. Stillings by Secretary Loeb.

GOPHER OFFICERS HELPLESS.

Pugilists from Minneapolis and St. Paul Pull Off Fight on Wisconsin Side of River.

St. Paul, Sept. 1.—A dozen Minnesota sheriffs boarded a steamboat carrying two prize fighters which left here this morning to prevent the pulling off of a match that had been scheduled to take place somewhere between Minneapolis and this city. The boat dropped down the Mississippi river, and a landing was made on the Wisconsin side, where the fight took place while the Minnesota officers looked on, powerless to prevent the contest. The fight was between Ben Tremble of St. Paul and Griff Jones, a Minnesota negro. Tremble was given the decision in the fourth round.

ATTACKS TWO DENTISTS.

Washington, Sept. 1.—While under the influence of gas today, preparatory to having a tooth extracted, George W. Bowers, aged twenty-eight, rose on the chair and violently attacked Dr. R. B. Leonard, who was treating him, severely beating and knocking him down. The doctor's call for help brought Dr. W. H. Winder, who was treated in similar fashion. Winder subdued Bowers by striking him heavily with a hammer. Dr. Winder was arrested. Bowers will recover.

LAST LADY ELGIN BANQUETS HELD

Survivors of Memorable Disaster on Lake Michigan Will No Longer Unite in Annual Event Now Long Given.

Death Has Gradually Reaped the Harvest of Years Until Scarce a Dozen Remain to Tell at First Hand the Story of the Awful Collision Which Cost 300 Lives, and These Are too Enfeebled to Attend Their Customary Reunion.

MOTHER SPANKS SON; RESULTS ARE TRAGIC.

Blow from Shingle in Administering Chastisement Strikes a Percussion Cap—Explosion Follows, and Both Woman and Boy Are Badly Injured. Cheboygan, Mich., Sept. 1.—Mrs. Fred Williams, living at Bear Hunt, on Crooked lake, near this city, was severely injured, and her seven-year-old son was probably fatally hurt when a dynamite cap in the boy's hip pocket exploded while the mother was spanking him for a minor offense today. The little boy had been out in a field, where his father was using dynamite to blow up stumps, and had slipped one of the percussion caps which Mr. Williams was using in his pocket. He later returned to the house, where his mother called him in to be punished for some childish misdeed.

MAY RAISE SOLDIERS' PAY.

Washington, Sept. 1.—No attempt will be made in the legislation which it is hoped congress will pass at the next session providing for an increase in the pay of the army, navy and marine corps and the revenue cutter service, to rectify existing inequalities. The bill introduced by Representative Capron providing for this purpose at the last session has been carefully studied and modified by representatives of the three departments concerned—the war, navy and the treasury—represented respectively by Adjutant General Ainsworth, Assistant Secretary of the Navy, Newberry and Assistant Secretary of the Treasury Winthrop. The bill has been boiled down until it provides only for a percentage increase in the several grades. This percentage ranges from 10 per cent for highest grades to 25 per cent for lowest grades of the lowest grades.

MURDEROUS BURGLAR TAKEN.

Shot by a New Yorker Whose Family He Tries to Asphyxiate. New York, Sept. 1.—A burglar who was shot early yesterday morning by Charles Verrel after he had tried to murder the entire Verrel family by turning on the gas in the flat in which they lived in Eighty-fourth street was today identified as Henry Hoffman by his wife. The police have been looking for Hoffman, believing him to be the murderer of Sophie Hiecker, who was killed in the residence of her employer Aug. 3.

UNDER THE INFLUENCE OF GAS, PATIENT FIGHTS FIERCELY AND HAS HIS SKULL CRACKED WITH A HAMMER.

Washington, Sept. 1.—While under the influence of gas today, preparatory to having a tooth extracted, George W. Bowers, aged twenty-eight, rose on the chair and violently attacked Dr. R. B. Leonard, who was treating him, severely beating and knocking him down. The doctor's call for help brought Dr. W. H. Winder, who was treated in similar fashion. Winder subdued Bowers by striking him heavily with a hammer. Dr. Winder was arrested. Bowers will recover.

MARQUETTE, MICH., SEPT. 2.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Evidently Teddy is going to put Governor Warner's aims, objects and purposes before the people of the copper country in a friendly spirit. Good for Teddy.

President Harahan may stand on his dignity now, but from all accounts he sat down on the floor, and rather violently, too, when Stuy Fish jolted him the other day.

Most of Attorney General Bird's opinions have been sustained, when put to the test. Therefore there is no doubt that he has said the last word on the Gordon bill for the restriction of the liquor traffic in Marquette.

It comes as a shock of surprise to learn that a state salon of Representative Gordon's reputed shrewdness fathered a law that has turned out to be anything but what he thought it was. We didn't suppose anything like this would ever happen to Gordon.

Labor day will be observed in the customary manner. It will be a holiday for general business and a play day for labor, particularly union labor.

Lieutenant Governor Kelley thinks that no matter how stiffnecked the "Boxers" in the senate may be in regard to the 40 per cent provision in the present primary law they will hesitate to deny the people a referendum vote on the general question involved.

We are promised some interesting data when we get the text of the resolutions that Mr. Fish was reading at the time the Illinois Central directors' meeting broke up in a bout of fistfights.

MEANS THE STATUS QUO. All doubt as to the significance of Representative Gordon's law for the restriction of the liquor traffic in Marquette was removed by Attorney General Bird's opinion published in Saturday's issue of The Mining Journal.

There were only seven deaths reported from tetanus, a number smaller than that for the corresponding month of 1906.

There were reported to the department of state for the month of July, 2,591 deaths, which, based on an estimated population of 2,611,792, gives an annual death rate of 117 per 1,000 of population.

Important causes of death were as follows: Pulmonary tuberculosis, 194; other forms of tuberculosis, 33; typhoid fever, 37; diphtheria and croup, 15; scarlet fever, 8; measles, 10; whooping cough, 18; pneumonia, 70; diarrhoea and enteritis, under two years, 147; meningitis, 37; influenza, 4; cancer, 123; violence, 260.

The number of deaths from violence was unusually large for the month of July. Of the total number, 62 were from railway accidents, and 64 were from accidental drownings.

There were only seven deaths reported from tetanus, a number smaller than that for the corresponding month of 1906. No cause for the tetanus was assigned on the certificates, but at least four were caused from the careless handling of explosives on the Fourth of July.

There was but one death returned from smallpox for the month, although 24 cases were reported to the state board of health. The active crusade carried on against this disease by the board of health has almost resulted in the stamping out of deaths from this cause, and great credit is due Dr. Shumway, secretary of the state board of health, and all local health officers for the prompt and active measures taken by them for the restriction of the spreading of this disease.

Work of the Stork. There were 4,917 births reported as having occurred during the month of July, giving an annual birth rate of 182 per 1,000 estimated population. This is an increase of 338 from the number returned for the month of June.

of saloons to twenty-five is so slight as to be hardly worth while taking into consideration. The pressure brought by the saloon men and property owners, in particular, against such a step is certain to be much greater than any pressure brought in favor of the council taking advantage of the provisions of the law permitting it to restrict the liquor business here.

Representative Gordon professes much disappointment over this development. He asserts that he intended that the limitation of saloons should be made mandatory on the council and that it was his belief that the measure was drawn to effect this result. He asserts that he has had opinions from subordinate officials in the attorney general's department that it would do this. Some thirty other bills modeled on his are, he says, defective if the law applying to Marquette is not good, as he intended.

It is rather surprising to find that a legislator of Mr. Gordon's long experience was not able to have a law enacted that would carry out his ideas. Any good lawyer could frame such a law. Mr. Gordon says that Assistant Attorney General Chase told him that his bill was as strong in its provisions as it could possibly be made. Perhaps that gentleman didn't thoroughly understand what Mr. Gordon wanted. Evidently there was a misunderstanding and a slip-up somewhere. At the time it was being considered and after it was passed by the legislature there was considerable stir over the Gordon bill, on the assumption that the proposed reduction in the number of saloons was made mandatory. If it had been understood that it was left optional with the council no one would have given the measure a second thought.

As many people will be pleased at the failure of this piece of legislation to come up to Mr. Gordon's ideas on the subject are disappointed, and perhaps more. There is no doubt that limitation of saloons would for a time be a hardship to a number of property owners who now lease to saloon tenants. Also it would affect adversely other local interests, and besides, even with the provision for a \$750 license, it would cut down the revenues from the saloons. In favor of limitation it can be argued that it would limit the saloons to the business districts, taking them out of the residence districts; it would also make for a higher class of saloons and simplify the effective policing of the city. There is much to be said on both sides, so much that it can hardly be asserted that there is any overwhelming sentiment either for or against the Gordon plan, but rather an honest difference of opinion as to its merits.

THE IRREPRESSIBLE BIRD. The irrepressible John S. Bird, attorney general, than whom no official is more awake in guarding the state's interests, has commenced another suit in the name of the people. The defendant this time is the Western Union Telegraph company, from whom the attorney general wants to collect \$75,000 for the state coffers. The offense is the failure of the company to file its articles of incorporation with the secretary of state and to pay the franchise fee, for which sin of omission the courts will be asked to make the defendant company pay a fine at the rate of \$1,000 a month for the period during which the Western Union has violated the law, or \$75,000.

What is alleged here is a violation of one of the technicalities of the law, rather than any great moral wrong against the people. Presumably Attorney General Bird has a good case or he would not bring the suit. However, of vastly more significance to the general public than this suit are his opinions on the present system of taxing the telegraph and telephone companies of the state, which he holds are escaping their just share of taxation, to the detriment of other taxing interests. Indeed Mr. Bird has urged Governor Warner to bring this matter before the special session of the legislature, addressing him on the subject as follows:

"You will see the importance of it when you are informed that the Western Union Telegraph company has physical properties in this state worth \$1,250,000, upon which it paid, on July 1, a specific tax of \$3,401, or \$2.72 on \$1,000 valuation; while its poorly paid employees residing in this state paid \$16.46 on \$1,000 of property which they owned.

"The Postal Telegraph company has physical properties in this state worth \$304,000, upon which it paid to the state treasurer, on July 1, a specific tax of \$638, or \$2.10 on \$1,000 valuation; while its employees residing in Michigan were obliged to pay \$16.46 on every \$1,000 worth of property they owned.

"The American Telephone & Telegraph company owns physical properties in this state worth \$300,000, and it paid a specific tax thereon, on July 1, of \$72, or 24 cents on \$1,000 valuation.

"A little while ago there was called to my attention the case of an old lady whose sole means of support was a lifelease on a small farm. The income was small and had been entirely used in her keeping, and the taxes (at the rate of \$16.46 per \$1,000 valuation) had been allowed to accumulate, until she was in danger of losing her farm. The guardian of the old lady consulted with the public authorities and it was decided to take her to the poor house until the rents would pay the taxes. No other solution suggested itself. The strong and inexorable tax-hand of the state was reaching for the taxes or the farm. The taxes had

become a lien and could not be remitted. The approaching hand could not be turned aside by the tears of the old lady—nothing would satisfy it but payment.

"She could not afford to hire a lobbyist; so, in order to satisfy this demand, the old lady will in a few days be hurried over the hills to the poor house."

"If the old lady had been assessed at the same rate of taxation that the American Telegraph & Telephone company is assessed, her taxes would have been 96 cents instead of \$65 last year, and she could have paid it; but, as it is, she will go to the poor house in order that these demands may be paid.

"I hope when the door of that poor house closes behind this trembling old lady, it will shut with a bang loud enough to reach the ears of every Michigan legislator; and I hope it will ring in their ears until this outrageous discrimination ceases to exist."

The condition which Attorney General Bird thus forcibly outlines is one concerning which there is common knowledge. It is a grossly unfair condition, and one that reflects on every legislature that has permitted it to continue. It should be terminated speedily, either at the special session or at the next regular session. There is absolutely no defense for the inequitable light taxation the telegraph and telephone companies are suffered to get off with.

MARQUETTE LOSES TO NEWBERRY; SCORE 9-5

VISITORS MAKE NINE RUNS IN THREE INNINGS AND THEN ARE SHUT OUT FIVE MORE.

The Marquette baseball team was defeated yesterday by the fast aggregation from Newberry in anything but a good contest. Long before 2 o'clock the crowd began strolling into the grounds, and when time was called for the game to begin the grandstand was well filled and crowds four abreast stood on the third and first base lines ready to coach their respective teams to victory. More than a thousand people saw the game.

Newberry started the ball rolling in the second inning piling up two runs to Marquette's one, and played a steady game throughout while the locals played loosely and lost many chances. Scholtus certainly was not in his regular form as Newberry had little trouble in locating his batters. James pitched winning ball, although wild at times, and held the home team to a few scattered hits. Both pitchers are credited with twelve strikeouts.

tu was out Hamilton to Gromley. Gilbert took three strikes.

The score: R. H. E. Marquette . . . 10 11 10 10-5 7 5 Newberry . . . 0243 0000-9 11 3

Marquette was weakened materially by the absence of LaFave from the game and this in some measure accounts for the fact that Scholtus' work was not up to standard. It was reported that James, Newberry's pitcher was a ringer and had been imported. It is said that James is not his name and that he is a former University of Michigan pitcher.

American Association. Columbus . . . 6 11 1 Toledo . . . 5 10 3

Batteries: Hall and Blue; Suthoff, Eels and Land. Second game: Columbus . . . 8 12 2 Toledo . . . 1 5 1

Batteries: Upp and Fohl; West and Land. Louisville . . . 1 3 1 Indianapolis . . . 4 7 2

Batteries: Frantz and Hughes; Briggs and Livingston. Kansas City . . . 4 10 3 Minneapolis . . . 6 9 1

Batteries: Swan and Leahy; Freeman and Graham. Second game: Kansas City . . . 5 11 2 Minneapolis . . . 4 14 0

Batteries: Ream and Sullivan; Edmondson and Basler. Milwaukee . . . 5 8 2 St. Paul . . . 2 6 3

Batteries: Goodwin and Beville; Frey and Sugiend. Second game: Milwaukee . . . 8 12 2 St. Paul . . . 0 3 4

Batteries: Schmeiberg and Roth; Essicks and Laughlin. 2,591 PERSONS DIED IN JULY IS REPORT

DEATH RATE LOWER THAN FOR SAME MONTH LAST YEAR—TUBERCULOSIS CLAIMS LARGEST NUMBER OF VICTIMS.

There were reported to the department of state for the month of July, 2,591 deaths, which, based on an estimated population of 2,611,792, gives an annual death rate of 117 per 1,000 of population.

Important causes of death were as follows: Pulmonary tuberculosis, 194; other forms of tuberculosis, 33; typhoid fever, 37; diphtheria and croup, 15; scarlet fever, 8; measles, 10; whooping cough, 18; pneumonia, 70; diarrhoea and enteritis, under two years, 147; meningitis, 37; influenza, 4; cancer, 123; violence, 260.

The number of deaths from violence was unusually large for the month of July. Of the total number, 62 were from railway accidents, and 64 were from accidental drownings.

There were only seven deaths reported from tetanus, a number smaller than that for the corresponding month of 1906. No cause for the tetanus was assigned on the certificates, but at least four were caused from the careless handling of explosives on the Fourth of July.

There was but one death returned from smallpox for the month, although 24 cases were reported to the state board of health. The active crusade carried on against this disease by the board of health has almost resulted in the stamping out of deaths from this cause, and great credit is due Dr. Shumway, secretary of the state board of health, and all local health officers for the prompt and active measures taken by them for the restriction of the spreading of this disease.

Work of the Stork. There were 4,917 births reported as having occurred during the month of July, giving an annual birth rate of 182 per 1,000 estimated population. This is an increase of 338 from the number returned for the month of June.

Work of the Stork. There were 4,917 births reported as having occurred during the month of July, giving an annual birth rate of 182 per 1,000 estimated population. This is an increase of 338 from the number returned for the month of June.

Copper Country

YANTIC REACHES PORTAGE LAKE.

Voyage from Detroit Enjoyed by the Hancock Naval Reserves.

The U. S. S. Yantic, with the Hancock Naval Reserves aboard, arrived in Portage lake from Detroit at 4 o'clock yesterday afternoon. The boat was delayed an hour because of the fact the big liner Junia had obstructed the channel by grounding at Princess point, subsequently releasing herself, without injury. The Yantic was given a noisy welcome, and after trying up at her dock she was visited by hundreds of people. This afternoon a reception will be tendered on board the boat to the people of Hancock and Houghton.

Describing the cruise from Detroit a special dispatch to The Mining Journal from the Soo, dated Saturday evening, said: The U. S. S. Yantic, commanded by Captain H. S. Goodell and named by the Hancock Naval Reserves, arrived at the Soo Saturday afternoon at 4:30 o'clock, having left Detroit Thursday morning. The trip to the Soo was made under ideal weather conditions, and the ship steamed up St. Mary's river fresh and clean like a craft newly launched, instead of one equal in years to the oldest man of her crew.

The officers of the ship are as follows: Captain, H. S. Goodell; navigator, A. E. Rees; executive officer, J. C. Cannon; chief engineer, W. M. Gibson; assistant engineer, Lewis; second assistant engineer, M. J. Walsh; paymaster, J. E. Bland; assistant paymaster, H. L. Baur; surgeon, Dr. R. B. Harkness; watch officers, Farmer, Henry Hecker, L. P. Cook. Messrs. Bland and Lewis are from Detroit, and Mr. Hecker is from the Benton Harbor division of the Hancock.

Captain Perry of Detroit accompanied the ship to the Soo as pilot, and Engineer Van Liew of Portage Inlet is assisting Mr. Gibson. Chief Boatswain's Mate Wilson, Chief Quartermaster Uley and Gunner's Mate Clark of Detroit accompanied the ship seaward in the capacity of instructors.

The Hancock-Reserve sailors have taken hold of their unaccustomed duties with a will and an apparent desire to learn which has won the favor of the officers and their so far brief experience has shown that they will rapidly work into most commendable efficiency. They have been working every minute they have been aboard, as the ship has proved an ideal subject for a practical demonstration in sea house cleaning. The Hancock boys have scrubbed decks, hauled on lines, hoisted boats, climbed

BIG CORPS OF TEACHERS.

The staff of grade teachers at Calumet now consists of 140 instructors, in addition to the principals of the nineteen schools included in district No. 1. The High school has twenty-one teachers. In addition there are four superintendents. Never before has the school had the services of a sanitary inspector. However this year Miss Nina Luttrell will have charge of this work in the Calumet schools, and her duties will cover all arrangements pertaining to the sanitary condition of the pupils and buildings. The High school building will not be completed for another month. The plans for the dedication of this structure include an address by President Angell of the University of Michigan.

ATTRACTIONS FOR THE FAIR.

Preparations for the entertainment of the visitors to the Houghton County Agricultural fair are well along. To date several good acts have been engaged. There will be ballet-ascensions by Bonassians, exhibitions by jugglers and tight rope artists and a high diving act by a well-educated dog.

LABOR DAY CELEBRATION.

The members of the several unions of Houghton and Hancock will march this morning from Montezuma street, Hancock, to Lias Park, Houghton, where an address will be delivered by P. H. O'Brien of Calumet. The Portage Lake and Lake Linden bands will furnish music.

COPPERDOM BREVITIES.

R. L. Polk of Detroit is visiting with friends in Calumet. The Calumet I. O. O. F. will picnic at the Tamarack Park today.

Fred Bennett of Ishpeming is making a business visit in Hancock. William Martin of Denver, Colo., is visiting in the copper country.

Dory races will be held at the Ontonagon Yacht club this afternoon. Miss Ida Bellanger of Hancock left Saturday for a short visit in Chicago.

The new train law will be rigidly enforced in this portion of the state.

Horace J. Stevens of Houghton arrived yesterday from a business trip to Chicago. Miss Florence Roehm has returned to Calumet after a month spent at Yellowstone Park.

The Calumet & Hecla band will give a promenade at the Light Guard Armory Friday evening.

The common council of Hancock will not meet tonight. It will assemble tomorrow night instead.

William E. Curtis, the noted newspaper writer, arrived in the copper country yesterday morning.

Miss Nora Kelley has returned to Houghton after visiting for the past ten months in Juanaquato, Mexico.

Mrs. G. L. Clausen and son Elmer left for Chicago yesterday after spending the summer months in Houghton.

Fifty-seven new dwellings are being erected by Contractor Uelsh for the different mining companies at Calumet and vicinity.

Rev. Luther K. Long of the Calumet Congregational church will give a Labor Day address at that church this morning.

Miss Hulda Granwald of Ishpeming has returned to her home after visiting at the home of W. H. Johnson, at Dollar Bay.

Seven salaried keepers arrested at Kenyon by Sheriff Beck were on Saturday bound over the next term of circuit court.

Mr. and Mrs. O. D. Fellows entertained last Friday evening at their home in Tri-mountain in honor of their second wedding anniversary.

Miss Edna Smith who has been visiting Miss Bertha Horwitz for the past two weeks has returned to her home in Salt Lake City, Utah.

The socialists of the copper country will celebrate at Electric Park this afternoon. An address will be delivered by P. H. O'Brien of Calumet.

L. J. Butler, for the past few years a student at the M. C. M., has accepted a position with the Schemm Furnace company on the Mesaba range.

Railroad Commissioner Glasgow, accompanied by Engineer Burt arrived in the copper country Saturday to inspect the various railroads of the district.

The wedding of Miss Agnes V. Ruppe, daughter of Peter Ruppe of Calumet, to R. L. Polk, Jr., of Detroit will be solemnized on Wednesday evening at the home of the bride.

Dr. W. J. Allen of Laurium leaves this week for Detroit, where he will probably open a dental parlor. Dr. Allen was tendered a farewell party by a number of friends last Friday.

Attorney C. A. Marsch of Calumet is in Detroit, where he is looking after the mineral exhibit at the state fair in place of James L. Naukvers, whose illness prevents him from looking after the work.

The only expected change in the M. E. pastors in this district as a result of the conference which will be held this week in Detroit is the appointment of Rev. Richard Carleton to the Kearsarge district.

A new train is now in operation on the Copper Range railroad. It runs from Houghton to Painesdale, leaving at 6:45 a. m., and departing from Painesdale at 7:40 a. m., arriving in Houghton at 8:30 a. m.

Mr. and Mrs. Frank Ogden of Rockland street, Calumet, announce the engagement of their daughter, Miss Cassie Ogden, to Tilford S. Harvey of Tamarack. The nuptials will be solemnized late in October.

At the tournament held at the Portage Lake Golf club Friday afternoon the team composed of R. M. Edwards, V. R. Thompson and Benjamin Barry defeated the team made up of F. W. Nichols, C. H. Moss and Graham Pope by one hole. The players were restricted to the use of but two clubs, which they were compelled to choose before starting the match.

TO SARATOGA SPRINGS AND RETURN \$22.50. Via the South Shore and connections, account National Encampment G. A. R. Tickets on sale Sept. 30th and 7th. Return limit Sept. 17th. Extension until Oct. 6th on payment of one dollar at Saratoga Springs, will permit of side trip excursions to New York, Boston, etc., at low rates.

For particulars apply to agents. (8-31-07)

Thousands Have Kidney Trouble and Never Suspect It.

Prevalence of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disease is the most common disease that prevails, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you feel a twinge in your back, or have a smarting in fifty-cent and one-dollar druggists.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer, 233 West Broadway, New York, N. Y. Write mentioning this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Mining News

OLD DOMINION.

President C. S. Smith of the Old Dominion company states that the next important addition to the smelting plant will be the erection of a furnace for treating the fines—and steps have already been taken to install this furnace during the coming fall or early winter.

Another water jacket furnace will be erected as a reserve, to insure the continuous operation of the 700-ton rock pit of repairs being made on one furnace at any time without reducing the output of copper. The construction of another and larger steel stack and an additional dust chamber will be deferred until such time as the further enlargement of the smelter is deemed advisable.

The plans and specifications for a central electrical power plant have been completed. The plant will have a capacity more than sufficient to meet all requirements for electricity, not only for the Old Dominion property, but the power will be transmitted to the Grey and Buck eye shafts to run the hoists and other machinery. It will be the largest and finest electrical plant yet installed anywhere in Arizona. Included in comprehensive plans for the smelter is the installation of the new pumping plant of 8,000,000 gallons' capacity and enlargement of the smelter power plant and construction of the new water supply system.

Asked as to the company's intentions in regard to the distribution of dividends, President Smith said that the statement recently published by the company according to the annual report to pay quarterly dividends of \$1 per share on an 18-cent copper market was probably true. The profits derived from the sales of copper during the past year have largely gone into new construction and for the purchase of machinery and other supplies. These extraordinary expenses will soon be over and the company will then be enabled to accumulate a reserve fund of goodly proportions.

The reduction in the price of copper has had a considerable effect on the earnings of the Old Dominion company as it has of all the copper companies. The Old Dominion sells its copper to the American Metal company every month based on the quotations of the Engineering and Mining Journal. The company has been selling its copper at an average of about 18 cents per pound, a seven cents difference in the price obtained between March and August. This makes a difference to the Old Dominion of \$1,000,000 upon an output of 2,000,000 pounds of its own copper.

In the face of the enormous amount of construction work the company is now doing at Globe in building two new furnaces, constructing power houses, sinking shafts and doing other underground development, it is not surprising that another dividend of \$1 per share will be declared in October. After this year it is expected that the cost of Old Dominion copper will be well under ten cents per pound and its output in the neighborhood of 3,000,000 pounds monthly.

It is expected that the cost of Old Dominion copper will be well under ten cents per pound and its output in the neighborhood of 3,000,000 pounds monthly.

The Quinny is the first of the copper companies to reduce dividends with the decline in the price of copper. The only other companies to have taken dividend action recently have been the Colorado companies—North Butte, Butte, Coalition and Calumet & Arizona—and they all maintained their rate, but all these companies have been paying considerably less in dividends than they have been receiving. This will not maintain their regular dividends on 18-cent copper. In the case of the Quinny company, however, it was practically paying out its full earnings with quarterly disbursements of \$4.30.

It has been reported that the Quinny can earn \$12 per share per annum, and in placing the stock upon a \$10 per annum dividend basis the directors placed the stock back upon the old dividend basis existing previous to last February when the rate was raised to \$18. For the fiscal year ended Dec. 31 the Quinny earned \$13 per share, and paid out \$12 in dividends for the year. If the dividend to be declared three months hence is \$2.50 the Quinny stockholders will have received \$14 per share for the year.

The dividend record may be briefly given as follows: In first three-quarters of 1907, \$12.50; 1908, \$12.50; 1909, \$8; 1904, \$5; in 1903, \$5.50; in 1902, \$7; in 1901 and 1900, \$9. In February of 1906 the disbursement was changed from semi-annual to quarterly payments. Continuation of \$2.50 quarterly dividends would mean a total payment of \$14 for full year of 1907, which compares with previous high payments of \$12 in 1907, \$20 in 1896, \$12 in 1895, \$10 in 1894, \$14 in 1893, \$17.50 in 1892 and \$14 in 1891. The dividend record has been very irregular. Quinny directors voted on Nov. 19, 1906, to increase the capital stock from \$2,500,000 to \$2,750,000 and the 10,000 new shares were payable Jan. 15, 1907, when the increase took effect. The first dividend on the increased capital was paid March 11, 1907, of \$4.30.

President Todd of Quinny company says with regard to reduction of dividend that the directors are merely taking general and that cautious and conservative policy, in view of the uncertainty of the market for copper, is being adopted. The directors took the ground that there has been marked falling off in consumption of copper metal and that it was impossible at this time to foresee definitely what the future of the copper market might be. So far as the Quinny is concerned it has earned considerably more than the \$2.50 dividend declared and could readily have made the distribution equal to or larger than the previous one.

Mr. Todd admitted that the company, in common with other producers, had been making no sales lately and stated positively that it had not cut prices. What the copper market would do in the near future he nor any one else was able to state at this time.

VICTORIA.

The predictions made last May by certain interests that Victoria was being bought for control and that the price of its shares would probably go to 25 have not been realized. As a matter of fact the stock at 6 is about the low figure of the year. In the meantime the company is making an excellent showing.

Treasurer Graves says the difficulty in getting trammers is a serious matter, but the management has had to contend with during the last two or three months, considerable time being lost by the stamp mill each week on that account. The mill is working very well indeed. The management was changed some months ago and several improvements have been made; as a result, the mill is now stamping 350 tons of rock per day and could probably stamp 400 tons if trammers to supply the rock could be had, while a year ago the same amount of rock would have produced only 25 tons of copper.

Four new Willey cables have been put in the mill recently in place of eight pigs and more copper is now being saved; the loss of copper in the tailings is only one-sixteenth of 1 per cent. The new cylinder for the stamp, which is expected to increase the capacity to 700 tons per day, was not delivered until August, although the contract called for its delivery Jan. 20.

The stoves in the mine also as well as they have at any time. There are no lodes on the property south, between the present workings and the eastern sandstone; a crosscut south from the nineteenth level is being run to test these lodes; it is 1,000 feet long now and has cut three lodes, but they did not carry copper in commercial values, where copper is abundant. No lodes have been found as yet, as it will be much more satisfactory in looking for the Baltic and other lodes to run a tunnel north, and this has been started from the south side of the shaft, and is now about 400 feet long on the property it should be the first one found, but in any event, the tunnel will be used to prove up all the lodes until it meets the line of the crosscut south from the nineteenth level.

According to the annual report the stamps of refined copper per ton of rock stamped in 1906 averaged 13.94. With the mill stamping 350 tons of rock a day the 1907 output of the Victoria ought to amount to about 1,500,000 pounds of refined copper.

A Cobalt despatch says: The great gain the camp will experience by the installation of the North Cobalt smelter is not as yet fully realized. Not only will fuller values be given for silver and zinc, but the rate will be made for nickel, cobalt and other side products. Heavy freight returns will also be cut, and here can be shipped in bulk instead of being sacked as heretofore. At the Victoria, with production of 700 tons of rock a day, the greatest success has been obtained in treating 500 tons a. A corps of engineers to start work on the smelter is expected within the next few days, and Samuel Newhouse and others, connected with the scheme, are expected about Sept. 4. The government railroad is now building a station at North Cobalt.

Extensive discoveries of gold-bearing quartz have been made in the Altitude region that will equal, if it does not excel in value, the wealth of Cobalt. This is the opinion of W. H. Prickett, a British mining expert who has been exploring the Cobalt region in the interests of a large financial house in London. Samples from the islands of the Altitude lakes assay forty-seven ounces of gold to the ton, worth \$999.65. Mr. Prickett has stated and secured seven 40-acre claims on these islands, which he proposes to lease. He had twelve men at work stripping the fissures, which vary in width from eight to twenty feet. He will also erect a 20-stamp mill on the ground immediately. Mr. Prickett says there are 3,000 people in the district prospecting now and he expects there will be many other rich finds when the T. & N. O. extension is open for traffic.

ANNUAL STOCKHOLDERS' MEETING. Mineral Range Railroad Company—Hancock & Calumet Railroad Company. Notice is hereby given that the annual stockholders' meetings of the Mineral Range Railroad company and the Hancock & Calumet Railroad company, for the election of directors and the transaction of any other lawful business, will be held at the office of said companies, 302 Nester block, Marquette, Mich., on September 19, 1907, at 2 o'clock p. m.

A. E. MILLER, Secretary. (8-17-28)

Upper Peninsula

May Use Tarvia—

Whether tarvia, a pavement surfacing material which is being adopted by cities throughout the country in the place of crude tar, will be ordered placed on the new pavements in Escanaba, will be decided by the members of the street committee of the city council. Tarvia which is, in reality, refined tar, it was found by John G. Zane, general manager for the Northern Construction & Engineering company, who has returned from a tour of inspection through the larger cities of Illinois, Wisconsin and the lower peninsula, is being used in every city visited by him in preference to crude tar. The preparation, it is claimed, costs but little more than crude tar and is far more satisfactory, making a more nearly dust proof surface and being more durable. As soon as the members of the street committee have decided whether crude tar or tarvia shall be used in Escanaba the material will be ordered by Mr. Zane and will be spread on the streets within a short time. All of the apparatus for spreading the material was ordered by Mr. Zane during his absence from the city and will be delivered before the tar or tarvia can be received.

A \$25,000 price deposited in the Meridian Savings bank of Marquette, Conn., fifty five years ago in the amount of V. B. Linsley of Escanaba, now superintendent of the Peninsula division of the Chicago & Northwestern railroad, has grown to the sum of \$53,011—almost fifteen times the original amount. Mr. Linsley was seven years of age when the deposit was made for him Sept. 30, 1852. The account was opened by his grandfather. The incident was forgotten when the young man launched out into the world for himself, and it was recalled only this week on the receipt of advice from the bank.

Recently in looking over the books of the institution it was found by W. H. Catlin, treasurer of the bank, that \$5,000 placed to the credit of W. B. Linsley in 1852 had never been disturbed. The matter was called to the attention of Mr. Linsley in a letter asking him to forward his handbook in order that the interest might be regularly computed. Mr. Linsley was unable to produce the book, as it probably had never been placed in his possession, but he suggested that the deposit might have been made for him by his grandfather. The account was again looked up and a few days ago Mr. Linsley received a duplicate handbook with the entry of \$5,000 on his credit on the date of over a half century ago. The interest figured to July 1 of this year, amounting to nearly fourteen times the original sum. Owing to the sentiment attached to the deposit Mr. Linsley will allow the account to remain indefinitely in the bank where it has grown so steadily.

Because of the great period through which interest on the deposit was figured it is interesting to note the rate that was paid at different times. In 1852, when the deposit was made, the interest was 5 per cent; from 1853 to 1862 it was 6 per cent; in 1863, 5 per cent; in 1864, during the closing months of the Civil war, first 5 per cent and subsequently 5 1/2 per cent; from 1866 to 1869 6 per cent; in the years from 1870 to 1873, when the severe financial crisis swept over the country, the rate was pushed up to the highest point of 7 per cent; in 1874 the rate was 6 1/2 per cent; from 1875 to 1878 6 per cent; from 1879, 5 1/2 per cent; from 1880 to 1882, 5 per cent; 1883, 4 1/2 per cent; from 1884 to 1888, 4 1/2 per cent, and since 1891, 4 per cent.

In his letter Treasurer Catlin says that the account of Mr. Linsley is one of the oldest on the records of the bank, which was established in 1851. Mr. Catlin himself has a handbook No. 12; the number of Mr. Linsley's is 214 and between the two there are now but six books out.

WORKS WONDERS. A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Scabies, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Marquette testimony proves it.

Edman Hurley, carpenter, 306 W. Washington St., Marquette, Mich., says: "For skin eruptions and skin sores of any kind Doan's Ointment is the best preparation I know. I had an eruption on my hands and arms that bothered me for years and was often so bad that I could scarcely bear the touch of my clothing. The ointment was great and I tried salves, ointments and washes of all kinds but nothing helped me until I got Doan's Ointment at the Stafford Drug Co. store. One box served to drive the trouble away so that it has never reappeared."

For sale by all dealers. Price 50 cents. Fester-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

City Brevities
 Today's weather: Fresh, variable winds; fair.
 Yesterday's temperatures: Seven a. m., 65 degrees; noon, 70; 7 p. m., 67. Maximum, 81 degrees; minimum, 64.

W. Belden of Ishpeming was in the city Saturday.

Wilbur Van Evera left for a visit at McKinley, Minn., last night.

Gust Carlson of Munising visited friends in the city yesterday.

Miss May Egan of Amboy, Ill., is the guest of Marquette friends.

Mile. L. Olliger has returned from an extended trip to the Pacific coast.

Ernest Rankin has been visiting his family here the past few days.

Thomas J. Flynn, of the Negaunee Iron Herald, was in the city on business Saturday.

On account of this being Labor Day Sunday hours will be observed at the postoffice.

P. M. McCauley, an Escanaba alderman, was among the Marquette visitors yesterday.

Mrs. L. G. Stevens and her son, Percy Stevens, left last night on the Juniata for Detroit.

Miss Carrie Reiding and Miss Maud Dimes left last night on the Juniata for Detroit.

Walter Beal of Chicago, who has been visiting in the city, left Saturday night for Buffalo.

Miss Grace Spaulding of the Normal school faculty left for a visit in Chicago Saturday night.

The Juniata was in port yesterday evening from 6 until 7 o'clock. She was bound for Buffalo.

Miss Louise Jacobson and Miss Nora Dunn, both of Michigan, are visiting friends in the city.

Roy Young, of Lake Linden, is in the city, having come down to visit his parents over yesterday and Labor Day.

The Skandia ball team defeated the Wetmore club yesterday afternoon by a score reported to have been 3 to 2.

Miss Elizabeth Nys left yesterday for Mohawk, where she is to teach. Miss Nys is a graduate of the Normal school.

E. W. Christy of Pittsburg, Pa., who has been enjoying an outing at the Huron Mountain club, left for his home yesterday.

Miss Edith Russell left last night for Houghton, where she will have charge of one of the city kindergartens the ensuing year.

Ben C. Hughes, representing the Michigan Catholic of Detroit, who has been in Marquette, left yesterday afternoon for Negaunee.

Mr. and Mrs. S. A. Burt, who have been visiting Mr. Burt's mother, left for Detroit last night. They are former Marquette residents.

W. C. Calverley of Houghton and E. C. Anthony of Negaunee attended a meeting of the board of control of the Marquette prison here Saturday.

S. E. Byrne, Jr., of Houghton, and children have been in the city the past two days, visiting relatives. Mr. Byrne is the manager of Paine, Webber & Co.'s Houghton office.

Clarence Mudge of Detroit, who spent a year in the city residing with the family of E. C. Thompson, former superintendent of schools, has been visiting here for the past few days.

Miss Renee of Ashtabula, N. C., who has been visiting Miss Susette Williams the past month, left last night on the steamer Juniata for Detroit. She will visit Canadian friends before returning home.

Miss Catherine Mosher sang a solo, "The Way of Peace," at the Methodist church last evening. She is gifted with a fine voice of great volume and sweetness, and she possesses dramatic ability as well.

The Misses Mahel and Gladys Brown daughters of City Attorney Brown, left Saturday for Cheboygan where they are to visit their uncle, Will A. Brown. Later they are to go to Petoskey, where they will teach in the public schools.

The members of Division No. 4 of the A. O. U. are asked to meet at the hall at 7:30 o'clock Tuesday morning, preparatory to proceeding to the South Shore station to escort the remains of the late Father Flammigan to St. Peter's cathedral.

M. J. O'Brien and wife spent Saturday in Marquette, going to Ishpeming on the evening train. Mr. O'Brien was formerly in charge of Paine, Webber & Co.'s Marquette office and now manages the company's Calumet office. He is also general manager of his firm's offices in this district.

Cargo of Coal--The steamer Toltec from Cleveland arrived in port Saturday with a cargo of soft coal consigned to F. B. Spear & Sons.

Examinations Today--Examinations for those who have failed in the Eighth grade will be held at the Ely building this afternoon at 4 o'clock.

Bills Are Audited--The auditing committee of the board of supervisors was in session Saturday and audited the bills to be presented at the supervisors' meeting which is to be held next Thursday.

Meeting Postponed--The Ladies' Society of the Brotherhood of Locomotive Firemen has postponed the meeting which was to have been held tomorrow afternoon until the afternoon of Tuesday, Sept. 17. The meeting is to be held at Keough's Hall.

Grand Chief of Honor Tomorrow--Members of the Degree of Honor are requested to attend a special meeting to be held tomorrow afternoon at Keough's hall, to meet the grand chief of honor, Miss Mary M. Baxter of Detroit, who will discuss matters connected with the order.

Arrived Crippled--The Rappahannock arrived in port yesterday in a crippled condition. Her rudder was broken and her troubles were augmented by the fact that she was towing the schooner Montazuma. Both boats are now at the South Shore docks. The Rappahannock is to leave Tuesday.

Going to Gould City--Rev. J. M. Rogers, pastor of the Presbyterian church, is to go to Gould City Tuesday and in the evening he will conduct a service followed by a celebration of the Lord's supper. At the close of the meeting Mr. Rogers will meet the members of the church to discuss matters relating to the

coming of a new and permanent pastor for the Gould City Presbyterian church.

"Touched" at Fair Grounds--A young man reports being "touched" at the fair grounds Saturday. He lost a pocketbook containing \$20, in one bill, and a ticket to Detroit. He is satisfied that the money was taken by a pickpocket, and reports that one or two others suffered minor losses in the same way. In another column this particular victim advises that he has been appreciative of the return of the ticket and pocketbook or the money.

Lodges as Escort--The members of the Ancient Order of Hibernians, the Knights of Columbus and the Catholic Order of Foresters have been notified to be at the South Shore depot Tuesday morning to meet the special car bearing the remains of Rev. Father Flammigan. The body will be taken to St. Peter's cathedral under the escort of the three lodges and will lie in state there until 10 o'clock when the funeral services will be held.

Bijou Bill--There will be two matinee performances at the Bijou today, at 3 and 4 o'clock and the regular evening performances at 8 and 9 o'clock. The bill will include Ball & Zell comedy acrobats and contortionists; Joe Carroll, singing and dancing; Zanfretta and Mansfield in their successful playlet, "A Crazy Messenger;" illustrated song, "I Once Had a Sweetheart Just Like You," by J. J. Ryan and the usual moving pictures. Since its reopening Manager Ross' theater has enjoyed an excellent business, and his patrons greatly appreciate the improvements.

TOMORROW IS FIRST DAY OF COUNTY FAIR
 MANY EXHIBITS ARE NOW IN PLACE AND ALL PLANS AND PREPARATIONS COMPLETE.
 MANY RACE HORSES AT TRACK
 Larger Number Than Have Ever Been Seen at Past Fairs Are to Be Here This Year--The Speed Program.

The Marquette county fair opens tomorrow and continues throughout the week until Saturday. Most of the exhibits have been placed and preparations that have been going on for weeks at the race track are now complete.

Improvements.

Fast of the grandstand and near the barns the new windmill has been erected. It has been finished and in operation for the past ten days. The new cement walk extends from the entrance to the grounds past all of the exhibit buildings to the grandstand. It is of the same width and general character as the ordinary city cement sidewalk and is a great improvement to the grounds.

The newly erected dining hall is a frame structure just south of the exhibit buildings and in line with them. It is now equipped with a kitchen and is fully furnished. The new hall supplies one of the needs keenly felt in past years.

\$1,500 in Prizes.

The race track is in excellent shape and there are more horses here now than have been at any of the former fairs. The association this year has offered \$1,500 in prizes and the purse has attracted an unusually large number of owners. A number of the horses have been at the track for the past three weeks and have been in training there. Today a number are to arrive from neighboring cities.

There will be more horses this year in the races than have ever before been seen here and to accommodate them it has been found necessary to build a half dozen new stalls. The races will be held the three last days of the fair--Wednesday, Thursday and Friday and there will be two races each day. All the events will be under American trotting rules. The races will be mile heats, the best three in five. Today is the last day upon which entries for the races may be made.

Speed Program.

Wednesday, the first day of the races, the speed program will be a 2:35 trotting race and a 2:20 trot or pace. Horses now at the track eligible for Wednesday's races are Emma, Red Light, Phil Arnot, Silas Sam, Emma Sweet, Red Light, Billy Mack, Lady Ark, Sorrel Bob, Reuben and Air Motor.

The program for Thursday includes a 2:30 trotting or pacing race and a free-for-all. Horses now at the track eligible for the races Thursday are: Sorrel Bob, Phil Arnot, Silas Sam, Emma Sweet, Red Light, Billy Mack, Bourdon C., Lady Arkwood, Echo Medium, Reuben and Air Motor.

On Friday there will be a 2:25 trotting or pacing race and a 2:10 trotting or pacing race. Horses now at the track eligible for Friday's races are: Red Light, Billy Mack, Sorrel Bob, Air Motor, Billy Sunday, Bourdon C., Echo Medium and Reuben.

Railroad Excursions.

All the Marquette railroads will run excursions during the fair. The round-trip announced by the South Shore from any point on its lines is a fare and a fifth. Following are the round-trip rates on the L. S. & L. Munising Railway and the Marquette & Southeastern railway.

Ishpeming and Negaunee.....	\$.50

POLARIS MINERAL WATER delivered to any part of the city in sterilized one-gallon bottles. Telephone, Bell, No. 217. Polaris Water Co., Marquette.

WE ARE
 The only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money at home. Consolidated Fuel & Lumber company. (4-27-17)

OUR sort of School Clothes, the Xtragoood Make, puts a boy on his metal and his manliness stands right out. They are just right. Don't think of buying cheap or inferior Clothes for a School Boy. It won't pay. It never pays! Our School Suits cannot be made better or priced lower. Our prices and qualities agree.

Our sort of School Clothes are made from the most durable Cheviots and Cassimeres, sewed with silk; linings strong; buttons on with linen thread. Every point where strain comes is reinforced. Nothing omitted that would add to the appearance or durability of the Suit. And yet we name moderate prices.

\$3.50, \$4.00, \$5.00, \$6.00 to \$8.00

The celebrated McMillen Suits, the strongest rough and tumble Suits a boy can wear. Look well too. \$5.00, \$5.50 and \$6.00.

Setting A Good Example

It is needless to more than briefly comment on the advantages of saving some part of one's income. The good resulting from the laying aside of the little, and the evil attached to the utter lack of the saving instinct and practice, are both too apparent. If the parent will devote a small stated sum and deposit the same monthly in the name of the child, and so continue for a term of years, the inevitable is the inculcating in the little one's mind the value of "BEING READY FOR A RAINY DAY," aside from the benefit accruing from the moderately large "nest egg" that results.

Marquette National Bank.

Marquette, Michigan.

THEATRICAL

Moving Pictures.

Beginning tomorrow night, Thomas A. Edison's moving pictures are to be shown at the opera house for three nights. Many of the scenes are thrilling and exciting and there will also be an abundance of comedy. There will not be a picture that will offend the taste of anyone. Some of the pictures are in color and all of them are as nearly realistic as it is possible to make them. It is announced that all the scenes shown will be accompanied by elaborate effects. A different program will be given each night.

"The Flaming Arrow."

Next Thursday night Lincoln J. Carter's sensational drama, "The Flaming Arrow," will be given. As the title would indicate, the play deals with events that occur on the western plains and the Rocky Mountains. It is not as blood thirsty as the title would indicate, but is full of pathos, deep heart interest, adventure and side-splitting bursts of laughter which relieve the more serious part of the story. The play is typically a border drama and exploits Indians and cowboys, but is, without said to be one of the most rational and interesting plays of the kind ever produced. It is claimed that the scenery employed in the production is of surprising fidelity to the locale of the play. In the second act, in which an Indian council is held, there is a remarkable realistic reproduction of a council fire, with flames leaping upward apparently in the most natural manner. The weird Indian music and the scenes of the dancing and war-whoops; the fantastic movements of the ghost dancers and a total eclipse of the moon, all tend to make this act one of interest and novelty.

A MISUNDERSTANDING.

One Exists in Regard to the Opening of West Park Street.

Taxpayers who have signed a petition for the opening of Park street, between the west line of Palmer's addition No. 3 and Lee street, complain that there is considerable misunderstanding in regard to the matter. It has arisen from the fact that the Superior Lumber company has protested against the project of opening East Park street, because it would cut through land now occupied by their plant, and has suggested that instead of opening East Park street the city make East Crescent street, a block further south, ready for traffic. The Superior Lumber company has not protested against the opening of West Park street, as mentioned above, and indeed has no interest in connection with its improvement, as several blocks lie between its plant and Lee street. To open West Park street it would be necessary to cut a plat of ground which has not yet been laid out into lots, owned by the Richards estate.

BUSINESS MEN IN THEATRICALS.

The New York Herald of July 8th says: "It's strange what strides the stage has made during the past five years, not to speak of a century. Business men have now taken a hand in the pie, and find it a very profitable investment. John T. Raymond, during his grand struggle through numberless difficulties, was backed by some of the solid business men of Boston. Dunstan Farrum, who has electrified this country and at the present time is the talk of the entire east, in 'The Virginian,' was furnished the necessary funds by a large printing establishment in New York. And now a leading business man of Chicago has taken hold of the comedy fare, 'The Irish Pawnbrokers,' and having engaged an extraordinary good company will appear in all the principal cities in a trip across the continent. Prior to their run in San Francisco they will take in some of the minor towns and thus make the journey to the coast with more ease. Theatrical men, look sharp. The business men will crowd you out."

FRENCH BAZAAR CLOSES.

Announcement is Made That Miss Pelletier Wins Popularity Contest.

The French Catholic Bazaar closed Saturday night and the last announcement was that Miss Pelletier had won the popularity contest. She was awarded the diamond ring. Miss Pelletier as representative of the French Catholic parish was the opponent of Miss O'Reilly who was chosen to represent St. Peter's parish. Throughout the ten days that the bazaar was held the voting for the young women was at all times brisk and kept fairly even. Within the three days before the voting closed, however, Miss Pelletier forged ahead. It was said that Miss O'Reilly's supporters were planning to send in an avalanche of votes during the last hours of the contest, but these were not forthcoming and she was unable to overcome Miss Pelletier's lead before the voting closed. From the contest alone the bazaar realized \$895.

The bazaar, which was conducted by the ladies of the French Catholic parish was for the purpose of raising funds to complete the new French church, and a little more than \$7,000 was needed. Although the entire amount was not realized, the bazaar has been pronounced an entire success. The total amount cleared is about \$5,700. It will be necessary to raise something more than \$2,000 for the completion of the church, which it is planned will be dedicated the first Monday of December. The dinner given Saturday night to the Hibernians and their visitors was the most successful one given. Although a number of extra tables had been provided, it was necessary to turn away many who came to enjoy the chicken dinner prepared under the direction of Mrs. Longtime.

MORE NEW BOOKS.

Announced That Library Will Be Closed on Account of Labor Day.

Another small invoice of books has just been received at the Peter White public library and are already in circulation. Most of them are in literature, with a few new titles in the latest fiction. The list follows:
Benson—Beside Still Waters.
Boyles—Langford of the Three Bars.
Dixon—The Traitor.
Galsworthy—The Country House.
Lee—Gerald S.—The Child and the Book.
The Lost Art of Reading, or the Book and the Book.
Police—History of Comparative Literature.
Woodhull—Epic of Paradise Lost—An Essay.

Another installment of books is expected to arrive in a few days. Notice will be given of their arrival and the list published in The Mining Journal. As today is a national holiday, the library will be closed.

500 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Marquette Port List.

D. S. S. & A. docks: Arrived—Rappahannock, Montezuma, Cleared—Colgate, Rouan, Poe, Frisk, Cleveland, L. S. & L. dock: Arrived—Spokane, Pontiac, Iniquos, Cleared—Ispheming, Andaste, Buffalo, Cadillac, City of Glasgow, Nyanza, Cleveland; Abyssinia, Toledo; Presque Isle, Ashtabula. The Toltec and Brown are at the coal docks.

DECISION IS GIVEN IN IMPORTANT CASE

JUDGE KNAPPEN RULES FOR COMPLAINANT IN MARGARETHA LONSTORF VS. G. J. MAAS.

LARGE INTERESTS INVOLVED

Court Holds That Mrs. Lonstorf Is Entitled to One Third Interest in Undivided Half of Fee of Maas Mine at Negaunee.

Judge Knappen of Grand Rapids handed down the 10th of last month his opinion in the case of Margaretha Lonstorf, of Milwaukee, versus George J. Maas, of Cleveland, and George J. Maas, suit for an accounting for the latter's half interest in the fee of the lands comprising the Maas mine. It was favorable to the complainant, and the court has entered a decree adjudging her entitled to one-third of the interest reserved by the defendant, subject to the lease of the Cleveland-Cliffs iron company. Although the opinion was handed down over three weeks ago the Marquette attorneys retained by the complainant were only appointed on Friday last and then bargained of it judicially, the usual notification being in some manner overlooked.

The case was argued at Grand Rapids the latter part of July, being submitted for the complainant by Ball & Ball and A. B. Hinckley, Young & Bell and W. P. Belden appeared for the defendants. The proceedings were started in the spring of 1903 and preparations for the trial had been going on the greater part of the intervening time. Many depositions had to be taken and in other ways the preparation of the case was a big task. If an appeal is taken, which is said to be unlikely, the rehearing of the case will occur in the U. S. court of appeals at Cincinnati.

Parties Were Partners.

The parties to the case—George J. Maas is the real defendant, the Cleveland-Cliffs iron company being merely a nominal one—were partners in the exploitation of the Maas mine, a mineral lands on which Mr. Maas proved the large and valuable iron deposit which the Cleveland-Cliffs company is now engaged in opening as the Maas mine. In accordance with the terms of a contract made in 1898, and made a matter of record five years later, in 1903, when the Lonstorf's saw there might be trouble over the settlement, Margaretha Lonstorf, who was represented in the negotiations by her son, George Lonstorf, agreed to convey half the expense of conducting the proposed explorations, and to take a one-third interest in the property. There was included in the contract between the parties this provision: "Said first party (the defendant) further agrees that in case he secures options on lands in the vicinity of the above described premises (land which the defendant furnished) for other lands, he shall acquire his purchase options under circumstances so disconnected from options for leases as to justify an expectation that nobody would ever question his right to do so." It may be true that the defendant, in the case of the lease and the fee was true from the defendant's standpoint, but it was not true in fact.

Great Sum Involved.

Involved in the case is a great sum, making it one of the most important affecting Marquette county interests that has been up in many years. The minimum royalty on the half interest in the fee involved is \$10,000, but the property is operated on the projected scale the royalty will doubtless be greatly in excess of that figure. The Lonstorf's are fighting for a good stake.

A. O. H. REUNION.

Dark Horse Wins Two of the Afternoon Track Events—Others Not Held.

Most of the visiting members of the Ancient Order of Hibernians who attended the reunion Saturday remained in the city until yesterday and a number of them attended the initiation held by the Knights of Columbus. The reunion was one of the most successful events ever held by the order in the upper peninsula.

Saturday morning the members of the local lodge and the visitors paraded the town square. It was a dark horse who won both the 100-yard dash and the 220-yard dash, taking 25 prizes in each event. The name he gave was Johnson and it is said that he is from Ishpeming. Theo. B. Catlin, Jr., took second prize, 85 in the 100-yard dash and the second place in the 220-yard dash fell to Bruno Primeau. Leo Stafford won the first prize, 83 in the boys' 100-yard dash. The running long jump, the ladies' race, and the 400-yard dash were not held. The baseball game between the Den team and the Invigibles resulted in a tie after seven innings had been played. The score was 8 to 8.

Supper was served to the Hibernians at the French Catholic bazaar and after it was over a dance was held at Legion Hall.

DETROIT AND RETURN \$7.00

Via the South Shore. Tickets on sale Sept. 9th, 12th, 16th, 21st, connecting at St. Ignace with steamer of the D. & C. N. Co. To Buffalo \$2.00 higher. Limit three weeks. For sleeping car and steamer reservations apply to ticket agents. (8-15-32d)

HUCKLEBERRY PICKERS.

Commencing Monday, August 5th, the M. & S. E. railway will put into effect a 25 cent rate for the round trip from Marquette to Eagle's Nest, (near Harlow's mill) and Eagle Mills, tickets on sale week days only, good for return day of sale.
Train for Eagle's Nest leaves Marquette at 8:50 a. m., arrives at Eagle's Nest at 9:20 a. m. Returning leaves Eagle's Nest at 4:05 p. m., arriving at Marquette 4:50 p. m.
Train for Eagle Mills leaves Marquette at 9:30 a. m., arrives at Eagle Mills 9:30 a. m. Returning leaves Eagle Mills 4:40 p. m., arrives at Marquette 5:20 p. m.
These rates will give pickers a cheap rate to the huckleberry patches at Harlow's mill and Eagle Mills. (8-3-31)

PONTIFICAL MASS FOR FR. FLANNIGAN

FUNERAL SERVICES OF WELL-KNOWN CHICAGO PRIEST TO BE HELD HERE TOMORROW.

WILL BE ELABORATE CEREMONY

Deceased Cleric a Brother of R. C. Flannigan of Norway and Leaves Behind Him a Fine Record for Useful Work.

The funeral of the Rev. Father Flannigan, one of the best known and most influential priests in the west, whose death was briefly announced in The Mining Journal's telegraphic columns Friday, will be held in this city tomorrow morning. The funeral cortege leaves Chicago this evening, occupying a special car on the C. & N. W. train. The remains will be accompanied to Marquette by a party of some twenty of thirty Chicago priests and other mourners. The funeral service will occur at St. Peter's cathedral at 10 a. m., and will be one of the most elaborate church ceremonies that has been seen in this city of late years. Bishop Eis will conduct a pontifical high mass, assisted by the visiting clergy. Following the service interment will be made in the Holy Cross cemetery.

The active pall bearers for the obsequies are Fathers F. A. Purcell, Joseph R. Kearney, Peter Shewbridge, Paul Burke, D. J. Grimmins, D. J. Tuohy, Thomas Shewbridge, John Doran, F. R. Reynolds and J. O'Shea, all Chicago clergymen and friends of the deceased. The list of honorary pall bearers contains the names of some seventy prominent Chicagoans, including such men as Governor Deneen, Frank Adams, Charles Walker, J. O'Shea, Edward Shurtleff, E. W. Burke, John P. Hopkins, Medill McCormick, and J. T. Harahan. Father Flannigan was a brother of R. C. Flannigan of Norway, and was well known by reputation to upper peninsula people and personally by many. His fatal illness was contracted at Mackinac Island, where he suffered an attack of pneumonia. He was taken to Chicago, but lost ground quickly. His age made him an easy victim to the disease, he being sixty-nine years old.

A Strong and Good Man.

The deceased was the oldest priest in point of service in Chicago, and his strength of character and native talents made him as well the leader of the Chicago priests. Although his life work was done in Chicago, his career opened in Marquette, he having been reared in this locality. He early dedicated his life to the priesthood and after five years' study at Montreal he was ordained. Prior to 1867, when he went to Chicago, he spent two years in this city.

In Chicago he proved an indefatigable worker and a giant at getting results in the early upbuilding of the Catholic church in that then young city. His only break in his long service there was prior to 1870 when he was sent to Joliet for about a year, to organize a parish. In 1873 Father Flannigan was assigned to a district now including South Chicago and Hyde Park, as well as much other territory. In ministering to the wants of the Catholic people of this large district and in the material upbuilding of the church he had a task which made great demands on him, but which he discharged zealously and effectively. Later on he did the pioneer work in the district now including Englewood. In these early days the personal trials and hard duty he underwent were only to be compared with missionary work in unbroken country, so extensive and onerous were the responsibilities placed on him. The extent of territory he had under his charge can be appreciated by the statement that it has since been carved up into nineteen distinct parishes. Father Flannigan ever devoted his own means most generously to the church work.

For the industrial peace of the city Father Flannigan was a great and beneficent influence. Possessing the entire confidence of both workmen and their employers, his wise counsels of moderation and brotherly love were several times potent to bring about the settlement of ugly disputes. A more modest man never lived, and it was with difficulty that Father Flannigan could ever be led to speak of his own work. His death has been the signal for fine tributes from people of all creeds and from the Chicago press. His was a fine life and a great work and he has gone to a great reward.

Remains Lie in State.

The Chicago Inter-Ocean said in its issue of Sunday: "The body of Father Flannigan will lie in state in St. Anne's church Sunday afternoon after 2 o'clock. The office of the dead will be chanted at 8 o'clock Sunday evening by various priests of the archdiocese under the direction of Bishop Muldoon. On Monday morning at 7:30 a mass will be said, at which only the children of the parish are expected to be present. After the children's mass the doors will be closed. Admission to the principal ceremony of the day will be at 9:30. Absolution will be pronounced by Archbishop J. E. Quigley."

"In accordance with the great request of Father Flannigan, there will be no sermon or eulogy pronounced. Instead, he asked the prayers of all, especially his friends and neighbors. After the requiem mass Monday the casket will remain in the church until 5 o'clock Monday evening. During all the time the casket is in the church it will be in charge of a guard of honor chosen from the men and women of St. Anne's parish. At 8 o'clock Monday evening a special train conveying the cortege will leave over the Chicago & Northwestern railroad, arriving at Marquette, Mich., Tuesday morning. At 10 o'clock Tuesday forenoon solemn requiem mass will be said in the Marquette cathedral by Bishop Eis, a lifelong friend of Father Flannigan. Immediately after the mass interment will be made in the cemetery at Marquette, where repose the parents of Father Flannigan. A large number of the priests of Chicago will accompany Bishop Muldoon to Marquette. It is understood that Father Flannigan had distributed most of his property in charity of late. Whatever estate is left will go in greater part to the poor. Father Flannigan left a will, in which he nominated Father Kelly as his executor for the term of three (3) years. The polls of said election will be open from 8 o'clock a. m. until 8 o'clock p. m. of said day. The annual meeting for said public schools will be held at the city hall on said day, at 8 o'clock p. m., for the transaction of such business as may lawfully come before such meeting. By order of the Board of Education Public Schools City of Marquette. Dated Aug. 12, 1907. H. J. HORNBOGEN, Secretary.

TIRED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

MRS. AUG. LYON

Ishpeming Department

EXPLORING LANDS NEAR CHAMPION

BUCKEYE COMPANY BEGINS WORK WEST OF CHAMPION MINE—CAPTAIN JOHN THOMAS IN CHARGE.

The Buckeye Exploring company has a crew of men at work on lands under its control immediately west of the Champion mine. Captain John Thomas, of this city, formerly superintendent of the Princeton mine on the Swaney range, is in charge of the work. At present operations are confined to test-pitting, but one or more diamond drills are to be operated. The property under control of the Oliver Iron Mining company, which is operating the Champion mine, does not extend very far in a westerly direction from the mine, and it has been developed up to a short distance of the line. Thus the Buckeye company feels reasonably certain that the Champion formation will be found to extend to its land.

Some explorations were made near where the Buckeye people are now working some years ago, but the pits were not sunk to a very great depth, nor was any drilling done. The best part of the Champion ore body is found at depth; several hundred feet from surface. Mining men familiar with the formation believe that the Buckeye company will find a body of marketable ore, perhaps identical with that coming from the Champion, if it goes deep enough. About a dozen men are now working, but more are wanted.

Champion Short of Men.

The Champion mine is not being wrought as vigorously as the Oliver company would like to work it, there being a scarcity of men. There are at present less than 200 employed, and at least twice that number could be given places. There has been no time since operations were resumed nearly a year ago when as many men as desired have been available. Only a small percentage of the miners who worked there when the mine was operated formerly returned, and very few new workmen have come in. The Champion is one of the best mines in the county to work in. As a rule the men like it there, and it would be difficult to find a mining location where general conditions are more favorable. The company has a fine lot of dwellings, all of which are in good repair. The overhauling of the houses has been going on ever since operations were resumed, the dwellings being put in good condition as fast as they have been needed. With a working force of from 500 to 600 men Champion would again be one of the liveliest mining camps of the county.

Taking on New Life.

The coming year should see considerable change in the industrial situation in the western end of the county. With the Humboldt starting up, that location will take on new life, and divided all the working men the Breitung interests will need can be procured. Indications for a resumption of operations at the Bessie mine, Humboldt, and the old Conrad, south of Clarkburg, are favorable. Both properties are now being pumped out, and what the water is raised they are to be thoroughly inspected. If they are found in the condition that the parties having them under option expect preparations for a resumption of mining work will be started without delay. A new shaft is being sunk at the Bessie mine, and the American mine, wants 100 or more men. The company is soon to begin attacking the ore bodies in the Boston mine, adjoining the American on the west, and the management expects to mine considerably from this mine, more than will be put out this season. A dozen or more new dwellings are to be erected at the location. Work on the buildings is to be started within a few weeks.

WON BY GOOD MARGIN.

Ishpeming-Negaunee Men Defeated Iron Mountain Team Saturday.

The golf match between eight members of the Ishpeming-Negaunee club and a similar number from the Iron Mountain organization Saturday resulted in a victory for the Marquette county players, by twenty-four up. Barbour of Ishpeming was matched against Leonard, winning by six up; Maas defeated Blayman by three up; Will Newett played an even game with Hampton; Skelley defeated Dr. Smith by eight up; Wells defeated Unger by two up, and Perkins won from Millman by three up.

Mr. Perkins had the best score of the day, he having covered the eighteen holes in forty-one strokes. This is a remarkably good score as the grass is high in places. George A. Newett conceded to be the best player in the club, was not in the city, otherwise he would have been a participant in the match. The visitors left the city for home on the evening train. They expressed themselves as being highly pleased with their entertainment here. Dinner was served at the club house and in the afternoon the ladies served tea, coffee and other refreshments.

POISONED BY CANDY.

Child of Ex-Police Officer Succumbs, After Few Days Illness.

Elsie, five-year-old daughter of Ed. Honkala, until recently a member of the Ishpeming police force, died Thursday night as the result of being poisoned by candy. The child ate some ornamental nuts, which she purchased in one of the candy stores, and was taken seriously sick in less than two hours. A younger child, a boy aged two years, also ate some of the candy, and was very sick. He would likely have died if the mother had not taken the candy from him after he had taken a bite or two of it. A physician was called as soon as the children were taken ill and he found that they had been poisoned. The girl suffered considerably from Sunday until her death. The funeral was held yesterday afternoon from the Finnish Lutheran church, corner Third and Third streets.

DOUDNA-CAVANAUGH NUPTIALS.

Ishpeming Man Takes Lake City, Mich., Girl as His Bride.

The following announcement of the marriage of Dr. Hugh Doudna, of this city, to Miss Ethel Cavanaugh of Lake City, Mich., is from the Missaukee Republican:—"The marriage of Miss Ethel Cavanaugh, daughter of Mr. and Mrs. James Cavanaugh, to Dr. Hugh Doudna of Ishpeming was solemnized at the bride's home in this village on Wednesday afternoon at 2:30 o'clock, in the presence of about forty guests. The ceremony was performed by the Rev. Wynn, and the wedding march from Lohengrin was played by Miss Florence Wood. The ring ceremony was used. The guests were assembled in the spacious parlors, decorated with sweet peas and asters arranged with ferns, and the contracting parties stood in the archway between, which was decorated with smiles and white asters. The bride wore white roses, and her gown was white net over organdy. After congratulations and best wishes, light refreshments were served, and the newly wedded couple left on the 5 o'clock train for Marquette where they will spend a few days before going to their home at Ishpeming."

Dr. and Mrs. Doudna occupy Mrs. James Treblelock's home on North Third street. Mrs. Treblelock, her son Roy, and two daughters will leave soon for Ann Arbor, where the children will attend the university. Mrs. Treblelock will remain there during the school term, if not until the young folks have completed their courses.

FRANK ISAACSON'S FUNERAL.

It is some years since a more imposing funeral has taken place in Ishpeming under auspices of either the Scandinavian or Swedish Home society than the one held yesterday afternoon, when the remains of the late Frank Isaacson, a member of the Light Guard band, who was killed Wednesday morning at the Cleveland-Chiffs iron company's "J" Shaft mine, were interred in the local cemetery. The Ishpeming band, out of respect to the veteran bandman, cancelled its engagement at Marquette, and volunteered its services at the funeral. The band was placed at the head of the procession, and the Light Guard band occupied a position toward the rear of the line. Both bands played impressive funeral marches. It is some time since the Swedish Home society, which directed the obsequies, has had such a large number of its members in line at a funeral, and the turnout from the Light Guard society was also large. The funeral procession was viewed by hundreds of people, the sidewalks being crowded in places along Third street. Services were conducted at the Swedish Methodist church by Rev. O. W. Carlson, the pastor.

The funeral of the late Mrs. John Hooper, Sr., will be held this afternoon, the cortege leaving the family home, 321 South Main street, at 2 o'clock. Services will be conducted at the First Methodist Episcopal church by Rev. C. L. Adams, the pastor.

MAKING GOOD HEADWAY.

Superintendent Fox of the Vandeventer lead and zinc mine Saturday advised the officers of the Ishpeming company that the foundation for the new mill is about completed and that the building for the machinery has been shipped from Joplin, Mo., and it is expected to arrive in Cuba City within a few days. Mr. Fox also reports that the new air compressor in operation and that the underground workings are looking well. In the neighborhood of 300 feet of drifting and crosscutting has already been done and the quantity and quality of the ore at the end of the drifts remain about the same as it was shown up in other parts of the district. A new hoisting engine has been ordered and will soon be received.

CITY TEAM WON AGAIN.

The Ishpeming City baseball team defeated the Stars yesterday afternoon at Union Park, the score being 3 to 0. The game was well played and was interesting from start to finish. A fairly large crowd attended. This afternoon the city and Marquette teams will cross bats, the game starting at 2:30. The admission will be twenty-five cents, ladies free.

NOTICE OF ANNUAL ELECTION

Of School District No. 1, Ishpeming, Michigan.

Notice is hereby given that the annual meeting of School District No. 1 of the city of Ishpeming, Michigan, will be held in the Central school building on Division street, Monday, September 2nd, 1907. The annual meeting will be called to order at 10 o'clock in the forenoon, when the reports of the assessor and director of the district will be read, and such other business as may legally come before the meeting may be transacted at this time. The polls will be open at 10 o'clock in the forenoon of said day, and will remain open until 5 o'clock in the afternoon, for the purpose of submitting to the vote of the qualified electors of said district the following:

- 1st. The election of one (1) trustee to serve for the period of three (3) years.
 - 2nd. Shall the board of trustees cause to be spread on the tax roll a special tax of two mills on the dollar for the years of 1908, 1909, 1910 and 1911, for the purpose of liquidating the cost of erecting the new High school building, situated on the school property on East Division street, in the city of Ishpeming?
- The qualifications of voters for trustees are:
 First—A taxpayer.
 Second—A parent or guardian.
 Taxpayers only can vote on the special tax proposition.

J. G. WELSH, Director.

Ishpeming, Mich., Aug. 20, 1907. (8-26-1w)

"What shall we have for breakfast?" "Why Cudahy's Peacock Ham and Eggs, of course; they are always served here, especially at this season of the year." (11-27-e-4)

MISS FARM TO SING.

Miss Clara Farm, who has been visiting in the city the past few weeks, has been engaged to sing the illustrated songs at the Grand theater for a few evenings, starting tomorrow night. It is certain that Miss Farm will prove the best drawing card the little play house has ever had and crowded houses will be the rule.

ISHPEMING IN BRIEF.

Frank P. Needham is spending a few days in Chicago, on business.
 Mrs. Thomas P. Dordon is down from Hancock, on a visit to relatives.
 Mrs. W. J. Whiting has gone to Escanaba to spend a week with relatives.
 An indoor picnic is to be conducted this afternoon at the First Methodist Episcopal church.
 Mr. and Mrs. Eric Olson of Marinette, Wis., are in the city visiting Herbert Nelson and family.
 Mrs. Peter S. Fahy, who spent last week in the city, returned to Crystal Falls yesterday.
 Otto Leonardson, a former resident, now in the job printing business at Marinette, Wis., is visiting friends in the city.
 Miss Ethel Hamby, sister of Mrs. Frank P. Needham, this city, will be supervisor of music and drawing in the public schools at Toledo, Ia., the coming year.

George Cahill and wife left last evening for Escanaba, where they will spend a short time with relatives. They were accompanied by John Deneen, Mrs. Cahill's father.
 The Ishpeming branch of the Woman's Christian Temperance union will meet tomorrow afternoon at 2:30 o'clock at the home of Mrs. W. B. Shaver, North Maple street.

Richard Moody, for some years past in the employ of the Anthony Powder company, has taken a position with the Du Pont company, which recently took over the Anthony concern.

John H. Mortley and family arrived home Sunday from a seven weeks' visit to Owen Sound and other points in Canada. They made the trip both going and returning by boat.
 The choir of the First Methodist Episcopal church will give a service of song this evening, commencing at 7:30 o'clock, entitled "Saved at Sea." The admission will be twenty cents for adults and ten for children.

A part of the crew employed at the new high school has been transferred to the Y. M. C. A. foundation, a circumstance being necessary on account of the non-arrival of three iron columns that were expected some days ago.
 Woodward Sears, bookkeeper in the Ishpeming office of the Wallace H. Hopkins company, was called to his home on account of the death of his father. The telegram conveying the announcement of the death was thirty-six hours in transmission, due to the operators' strike.

The annual meeting of School District No. 1 will be held this morning at 9 o'clock at the Central school. At 10 o'clock the polls will be opened for the election of one trustee. Thomas H. Bargh is the retiring member of the board, and he is a candidate for reelection.

Henry Nankervis has left the city on a vacation, which he will spend with relatives at Ironwood. He has not enjoyed the best of health for some time past and he intends to take a much needed rest. Ernest Hunt of Cheboygan, Mich., takes Mr. Nankervis' place in the City drug store.

There will be no work at the mines of this city today, and all the mercantile establishments, banks, etc., will be closed. The Mine Workers' union will conduct its annual picnic at Cleveland park. If the weather is favorable there will be a large attendance both during the afternoon and evening.
 In the list of instructors to be employed in the high school this year, published in Saturday's issue of The Mining Journal, the name of Miss Louise Lamb was omitted. She is to teach German. Miss Lamb has been in Germany studying for the past two years and she has had one year's experience as a teacher.

A party of twelve spent last week at P. J. Denn's camp in the Dead river district. It was composed of Louise, Ella and Leo Mathy of Chicago; Louise, Genevieve and Petie Denn, Hilda, Albert and Axel Swanson, Mabel Sundblad of this city; Martha Saladin of Negaunee and Agnes Zeiler of Republic.

Superintendent A. E. Buzzo came to Crystal Falls last Monday evening from Ishpeming on business. Mr. Buzzo has been a great deal of the world since he left Crystal Falls five years ago. He has been at contract work all over the nation. His last job was at Chicago, where he drove a big ten-foot tunnel under the city. He was one and one-half years finishing the work.—Diamond Drill.

The books of the city recorder and deputy treasurer were checked up Friday and they agreed, the balance to the credit of the city in the bank being \$39,129.01. Both the highway and water fund are overdrawn, the former \$6,939.13, and the latter \$5,048.45. There is a credit of over \$20,000 in the general fund, and some of the other funds have small balances. The sum received this year for poll tax was \$1,476.30.

Father says: "Say, Mother, can't you make us some more of those fine doughnuts if I bring home a pair of Cudahy's Peacock Lard again?"

Lake Shore Engine Works

Upper Peninsula

Railroad's Big Work—
After the operation of work trains and steam shovels most of the summer, the work of graveling its forty-five-mile stretch of track between Wakefield and Watersmeet has been finished by the Chicago & Northwestern Railroad company. Some time will be required to complete the ballasting, however, and several hundred men are still engaged on that work. It is a costly but a well-nigh completed improvement.

Cow's Peculiar Death—
John Greig, of Arvon, Baraga county, has had the misfortune to lose a valuable cow in peculiar manner. The animal was lying in the bush, and in attempting to brush away a fly which had been hovering about its head, she had her horns entangled in the branches of a nearby tree. In attempting to release herself her neck was broken, and when found late in the evening she was dead.

Wolf Hunt in Menominee—
Although Menominee county is more extensively settled than any other county in Upper Michigan, farmers are complaining of losses by wolves. Only recently a big timber wolf was seen on the farm of Frank Lewis, near Stephenson. While a boy was sent to the house after a rifle, the wolf sneaked into the woods and all trace of it was lost. Some sheep have been killed in the neighborhood and it is surmised that it was the work of wolves and that this particular wolf was after one of Lewis' pet lambs. A hunt party will be formed and the best run down and shot if possible.

Bond Issue Not Attractive—
Escanaba's \$13,000 issue of special paving assessment bonds, which were recently authorized by the council, have not proven attractive to investors, despite the fact that interest at the rate of 6 per cent is offered. Inquiries concerning the issue were received from several different sources but when it was learned that the bonds were based upon special paving assessments no offers were made. It is now likely that the council will be forced to pass another resolution placing the general credit of the city back of the issue and buyers can then be obtained, it is believed, at considerably less than 6 per cent.

Incendiarism Alleged—
Charged with setting a fire which destroyed the barn of Nels Olson, a farmer living near Bark River, Delta county, Jacob Peterson, a resident of the district for many years, was arrested by Sheriff Aronson and locked up at the county jail. Peterson strenuously denies his guilt and all efforts that have been made by the officers to secure a confession have proven fruitless. When the barn of Olson was destroyed, burning a quantity of hay, unsifted grain and farm implements, suspicion was at once directed toward Peterson, who it is claimed as the result of a recent quarrel with Olson had vowed that he would be revenged. It is claimed that Peterson made such threats not only to Olson

at the time of the quarrel but to other neighbors with whom he discussed the affair. Other suspicious circumstances connected with the fire were reported to Sheriff Aronson when he arrived on the scene. Some time ago Olson purchased his farm from Peterson, who, however, retained a small plot of ground a short distance from the farm house. Peterson, it is claimed, was about the Olson home considerably and at times it is claimed that the language used by him was rough and unsuitable for children to hear. Peterson was warned to remain away, but he persisted in coming until on one occasion it was claimed he made remarks reflecting upon the character of Mrs. Olson and he was then forcibly ejected. From that time, it is claimed, Peterson had sworn he would be revenged in some manner and when the fire was discovered in Olson's barn the suspicions of several people were directed against Peterson. To add to their suspicions it is claimed that while the fire was in progress a coat belonging to Peterson was found hanging on a post adjoining the burning building and which it is claimed by Olson must have been left there by the owner during the night, as it was not there in the evening and Peterson had not approached the premises in the daylight in some time.

Labor Agitators Not Wanted—
For the purpose of keeping labor agitators out of the district, and particularly emissaries of the Western Federation of Miners, a committee of vigilantes has been organized at Crystal Falls, Menominee iron range. Its membership includes business men and representative miners from each of the mines in the field. This action is the outcome of a largely attended mass meeting of citizens called by the mayor and held for the purpose of devising ways and means of combating an invasion threatened by outside agents of the notorious labor association which has its headquarters at Denver. Drawing the highest wages in the history of the district, the miners are contented, and it is determined to keep them so. Corrigan, McKinney & Co., an independent concern, is much the largest operator in the field. Speaking at the mass meeting, prosecuting attorney Watson made a very impressive talk to the laboring men in which he told them of the conditions that exist on the Mesaba range; impressions that had been gleaned from actual observation of the conditions there. He especially scored the methods of the Western Federation and made it plain to all that the purpose of the meeting was not to oppose organized labor but to oppose the Western Federation because it is a bad organization, and bad labor organizations should be opposed by organized and unorganized labor alike.

Legal Tangle in Soldier's Case—
It is not at all certain that the civil courts will try Private Cyrus Gillette, the Fort Brady soldier who shot and killed a young woman while firing at a fleeing deserter. The man has been operating by a military court-martial. Taken into custody by the sheriff, it would be possible to start habeas corpus proceedings in the United States court for his release, on the grounds that the civil courts have no jurisdiction and on the other hand no attempt was made to open the mine until 1898, when the DeSoto iron company was organized and purchased the property from the former operator. The mine was reopened the following year, the Michigan river being diverted to a new channel for a distance of nearly a quarter of a mile permitting the unwatering of the workings. Only two of the bodies of the twenty-eight miners who met their doom have ever been recovered.

the further ground that a man cannot be placed in jeopardy for the same offense, and that may be done. This proceeding would have the same effect in settling the matter as would an action in the United States court by the civil authorities to secure possession of the mine, and the military officers refuse to turn him over to the civil authorities. It is held by some authorities that it would not be a case of placing Gillette twice in jeopardy for one offense should the civil court now place him on trial on a charge of which he has already been acquitted, but that the civil court will be trying him for another offense, an offense against the state, whereas the military court tried him for offenses against the United States only. Several supreme court decisions are quoted in defense of this stand. In other words, Gillette offended two different parties, by one act, the United States and the state of Michigan.

Will Divert River's Course—
Danger existing of the stream suddenly breaking through and flooding the underground workings of its Loretto and Appleton mines, five miles east of Norway, Menominee range, the Loretto iron company has decided to divert the Sturgeon river into a new channel. This property is developed beneath the beds of both the Sturgeon and Pine rivers, and there is constant menace, notwithstanding precautions always in force that without warning the waters will burst through the roof of the Loretto mine, drowning the workmen and inundating not only the Loretto openings but those of the Appleton, which connects with them on the east. Not only will the jeopardy to both life and property be removed by shifting the course of the Sturgeon, but by changing the channel of the stream ore bodies will be made available whose mining now is too perilous to undertake. The work mapped out will require six months or more to complete, and it will be expensive. The Loretto mine was opened in 1893, and altogether it has produced more than 1,000,000 tons of ore. It is owned by the Chicago men interested in the granite quarries at Amberg, just across the Wisconsin line, and it is operated independently, the company having no close affiliation with any steel manufacturer. The lenses of ore are not particularly large, but the product is of excellent grade and the property is undoubtedly yielding satisfactory returns. The Appleton, a new acquisition, is being opened through Loretto ground.

This changing of the river channel will not be the first instance of the kind on the Menominee range. Similar work has been necessary at the Mansfield mine, an iron county property, now owned by the United States Steel corporation, but in this case the work was not done until after there had occurred the greatest fatality ever known in the Lake Superior iron region. In September, 1893, owing to the carelessness of the management, the mine openings at the Mansfield were raised under the bed of the Michigan river so high in following a rich vein of ore that the stream broke through, filling the entire workings in less than five minutes and drowning twenty-eight miners like rats in a trap. Following the disaster despite the known value of the ore deposit no attempt was made to open the mine until 1898, when the DeSoto iron company was organized and purchased the property from the former operator. The mine was reopened the following year, the Michigan river being diverted to a new channel for a distance of nearly a quarter of a mile permitting the unwatering of the workings. Only two of the bodies of the twenty-eight miners who met their doom have ever been recovered.

Negaunee Department

DEMAND FOR TIMBER IS UNPRECEDENTED

JOBBERS ARE PREPARING FOR AN EARLY START WITH THEIR OPERATIONS—ALL CLASSES OF TIMBER WILL BE MARKETABLE THE COMING SEASON.

According to a prominent Negaunee timber jobber the approaching season will be one of the best operators in this region have had in years. The demand for all classes of lumber is unprecedented, and it is predicted that timber of any quality or any size will sell at higher prices than were paid last season, this despite the fact that the prices prevailing last year were the highest on record. The advance from the opening of the season to the close was in the neighborhood of from 25 to 30 per cent. The Negaunee man said that the increase this year will not be as great as last, but so far as he could judge there will be at least a 10 per cent advance.

"Practically everything that the jobbers cut is now bringing good money," he said. "Timber that neither the jobbers nor the consumers would look at a few years ago is now being picked up at astonishingly high prices. Nothing seems too small to be sold and every quality of timber that grows in the woods is marketable. The smaller pieces of timber are being purchased principally by the operators of lath mills, a number of which have been erected in this section during the past year. No less than four new lath mills have been put up north of the Escanaba. Each of these is cutting from 30,000 to 50,000 laths per day.

A. G. Johnson, agent of the Chicago & Northwestern Railway company, left last night for Chicago, to be absent a few days on business.

LOCAL LAOCONICS.
Mrs. William Neely has gone to Chicago, to visit with relatives and friends.
Andrew Nichols of Green Bay has taken a position as meat cutter in Muck's market.
Miss H. Swanson, who has been singing at the Wonderland for some weeks past, has returned to her home in Chicago.

STRIKE A FIZZLE.
President of Federation of Miners Leaves Mesaba Range.

The miners and other people on this range will be interested in the report concerning the Mesaba range strike, and the departure of the federation president from the scene, taken from Mesaba One.

C. E. Mahoney, president of the Western Federation of Miners, has become disgusted with the so-called strike of the miners of the Mesaba range and has returned to his home in Denver. Mahoney is a man of considerable more interest in the granite quarries at Amberg, just across the Wisconsin line, and it is operated independently, the company having no close affiliation with any steel manufacturer. The lenses of ore are not particularly large, but the product is of excellent grade and the property is undoubtedly yielding satisfactory returns. The Appleton, a new acquisition, is being opened through Loretto ground.

HOW'S THIS!

COOK WITH GAS

SCHOOLS OPEN TOMORROW.

Expected That All Rooms Will Be Well Filled, With 200 in High School.

The schools of Negaunee, both public and parochial, will open tomorrow morning for the fall term. The work the opening day will consist principally of getting the children located in the several rooms. The afternoon session will be brief, as there is to be a general teachers' meeting at the high school auditorium, when matters pertaining to the work in the various departments will be discussed.

Miss Enel Taylor, of this city, will be the only new instructor in the high school. She is a graduate of the Michigan University and has had experience. Last year she was principal of a school at Saline, Mich.

A new kindergarten, making the third in the city, will be opened in the Park street school, with Miss Margaret Murphy in charge. Miss Murphy has done first grade work here, but she has a certificate for kindergarten work from the Ypsanti Normal. Miss Katherine Matheson of Grand Rapids, Mich., succeeds Miss Grace Jewell as kindergarten teacher at the Jackson school.

Miss Louise Schurtz has been engaged as one of the four teachers in the departmental work in the seventh and eighth grades. Miss Schurtz taught last year at Morgan Park, Chicago. Miss Alma Ransom of Marquette is also to teach in that department, taking the place formerly held by Miss Penelope.

There is one vacancy to be filled, Miss Mina Eccles of Marquette was engaged to take charge of a second grade room, but on Friday evening last she sent in her resignation, accepting a place at Ishpeming. She informed Superintendent Schurtz that she could not secure accommodations in Negaunee and that she was giving up the position on that account.

All of the rooms are going to be well filled and some of them will be crowded, particularly in the seventh and eighth grades. There were 125 pupils enrolled in the high school last year, but it is expected that there will be 200 this year. With the latter number in attendance it will be necessary to put in temporary seats.

WHY GRAHAM CRACKERS ARE HEALTHFUL.
Graham flour is the whole kernel of the wheat, ground without bolting, or, in other words, without being sifted through bolting cloths.

DARANTELLA
10c Havana Cigars, 10c

S.S.S. KILLS THE GERMS OF SCROFULA

Through the blood, diseases are carried from one generation to another. Parents transmit them to their children, and so it goes on down the family line for years and years unless the taint is removed from the blood. Especially is this true of Scrofula, for it is a disease that is "bred in the bone," and unless the blood is purified and every trace of the trouble removed the miserable disease will finally undermine the entire health and wreck the life of its victim. The usual symptoms of Scrofula are enlarged glands or tumors about the neck, which often burst and become discharging ulcers, weak eyes, Catarrh of the head and throat, skin diseases, etc. The trouble being so firmly entrenched in the blood often attacks the bones, resulting in White Swelling or hip disease, while a waxy, pallid appearance of the skin, loss of strength and energy, and often lung affections, show that the disease is entirely destroying the bright red corpuscles and rich, nutritive qualities of the blood. Scrofula being a constitutional disease, one affecting the entire circulation, must be treated with a remedy that builds up and strengthens every part of the system, which has so long been denied the strength and nourishment it should have received from the blood. S. S. S. is the best of all blood purifiers and the greatest of all tonics, and is therefore the ideal remedy for Scrofula. S. S. S. searches out and destroys all germs, taints and poisons, gives strength, richness and vigor to the blood and cures Scrofula permanently. It so thoroughly removes the trouble from the blood that no signs of it are ever seen again, and posterity is started out in life with a clean, pure blood supply, which is their rightful inheritance. S. S. S. while thorough, is gentle in its action, and the healing vegetable ingredients which compose it build up every part of the system. Book on the blood and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

ZIEHR MAY BE BARRED.

Cornish Wrestler Considered in a Class by Himself at Calumet.

According to the Calumet Evening News, Joe Ziehr, the Cornish wrestler, may be barred from future tournaments in Houghton county, because there is no one in that section who can give him a run for the prize money. The News says: "Now it is suggested that in the way of paying tribute to the prowess of Joe Ziehr in the Cornish wrestling game, that he be barred from all future tournaments in the copper country, unless some one is found to meet him who may be considered in the class of the Calumet wrestler. It is argued that Joe has such a walk-away in the ordinary matches that it destroys the interest as there is no possibility, except by an accident, that any one else would get the first prize and there is not much incentive for the wrestlers or spectators to turn out when it is a foregone conclusion that the only contest will be for second and third places.

For the last three years Ziehr has not been vanquished and has not felt the mat upon his back since he was thrown at Houghton in 1903 by Tim Harrington. In spite of the fact that he was downed on that occasion, it is claimed by many of the experts that the Calumet man is Harrington's superior and that another match would demonstrate this fact. From the time of the meeting at Houghton, Ziehr has captured everything offered in the upper peninsula and it has grown quite tiresome watching him on the prizes with such regularity and ease, with no one else having a look-in for the first money. For this reason it has been suggested that in future tournaments Ziehr be barred or a man of his caliber obtained to wrestle with him. Harrington and Carkeek are the most favored of his opponents in meets to come and if they cannot be persuaded to engage in the game with Ziehr the latter will be compelled to occupy a position of solitary grandeur with no one left to conquer."

HOW TO COOK ASPARAGUS.

The ordinary method of preparing a bunch for the table is to lay it on its side in a pot of water and boil it. Most folk cut the binders and allow the stalks to float around in the vessel like derelict logs in a Maine freshet. When served the tips are as mushy, while the stalks are too hard for mastication. This is criminal negligence. Worst—it is criminal ignorance. It takes five years to get an asparagus bed started, and as the roots are glutinous requiring a vast amount of rich food assiduous care and constant attention, a meal of it is entitled to our highest respect. Buy an agate ware or porcelain pot six inches in diameter and nine inches high. Place the bound bunch of grass therein on end, first having trimmed the bottom even and square. If the bunch be seven inches high pour in water until only two inches of the tips remain above the surface—that is, give it five inches of water. Then let it boil and boil until the stalks are perfectly tender. Pierce them with a fork to find out. The tips will in the meantime be cooked by the steam and will be firm yet tender when served. Then you will have a delicious asparagus, each stalk and tip a morsel fit for gods and goddesses. The stalk is quite as tasty as the tip; yet by the old method of cooking most of the former is too hard for mastication by anything less powerful than a rock crusher.—New York Press.

WHY GRAHAM CRACKERS ARE HEALTHFUL.

Graham flour is the whole kernel of the wheat, ground without bolting, or, in other words, without being sifted through bolting cloths. Being the whole of the wheat, it therefore contains all the nutriment of the wheat, and the additional virtue of increasing the activity of the digestion. Graham Crackers are the most delicious food made from this flour, and are especially desirable for persons of sedentary habits or occupation, because their stimulating effect materially helps the digestion. The use of Graham Crackers is also a convenient way of furnishing variety to the diet, which alone helps greatly toward good appetite and digestion. The Graham Crackers baked by the National Biscuit Company are different in flavor and better than any of the old-fashioned kinds. They are made scientifically by perfected processes, which preserves the natural sweetness and goodness of the wheat, and gives them a delicious nutty flavor entirely lacking in the Graham Crackers made in the old-fashioned way. They are packed by the National Biscuit Company in moisture and dust proof packages, and are consequently not only crisp, fresh and clean, but have lost none of their original flavor. A package with easy reach of the children and a package on the table at every meal will do much toward keeping the family in good health and spirits. To get them, simply ask anywhere for a package of Red Label Graham Crackers made by the National Biscuit Company.

COST \$700 TO GET NYANZA OFF ROCKS

WORK WAS DONE SATURDAY BY WRECKING TUG FAVORITE IN ABOUT AN HOUR'S TIME.

WAS IN PERILOUS POSITION

Wrecker Now at Work at Grand Marais Where She Is Trying to Float the Beached Schooner Galatea.

It took the tug Favorite just about an hour Saturday morning to release the boat Nyanza from her perilous position on the rocks off the shore of Presque Isle, and the cost of the job to the owners of the Nyanza will be \$700.

Was in Great Danger. The Favorite was sent for Friday, the day the Nyanza went aground when the efforts of the Marquette harbor tug Halladay to release her proved futile. She arrived in port the same night from Grand Marais and went to work on the stranded vessel at daybreak the following morning. As there was no wind on the lake while the Nyanza was aground, she was practically uninjured though it was said that she would probably have been beaten to pieces had the wind come up.

She was aground at the stern and from the shore appeared to be riding on an even keel. The Favorite pulled her off into deep water without trouble, attaching a cable to her stern and backing her off the rocks. Yesterday the Nyanza sailed from the L. S. & J. docks, having loaded Saturday and Saturday night. When she went aground she had no cargo and when she sailed she took out about 3,000 tons. Her capacity is about 3,200 tons.

Work Is Costly. The regular charge made by the Favorite for wrecking is \$600 a day and in addition to this she charges \$50 an hour for each hour that her dipping shovel is in use. The regular crew consists of twenty-one men, but she now has a list of forty-two.

After releasing the Nyanza the tug Favorite returned to the lower harbor, where she tied up to the north side of No. 4 dock. She was coaled there, through one of the ore chutes, the coal being unloaded just as is the usual practice with ore. During the few hours she was at the dock the Favorite was visited by many people. She cleared in the afternoon for Grand Marais, where she will resume work on the schooner Galatea, which she expects to soon release.

The Favorite is a new boat and her visit here was the first she has paid to Marquette. She is the most powerful wrecking steamer on the great lakes, and was built for the Great Lakes Towing company. She went into commission last spring and when not busy on wrecking jobs is stationed at St. Ignace, which is regarded as the most favorable strategic point for a big wrecker, as it is centrally located for Lakes Michigan, Huron and Superior.

The steamer is of steel throughout and while a fire might become seated in some of her wooden upper works, it could do but little damage and in no event could interfere with the boat's operation. The engine room of the steamer is one of its particular features. It is of great size, as it contains not only the powerful three-cylinder engine, but a lighting plant and a complete machine shop, including powerful steam shears, lathes, punches and other equipment. The Favorite's equipment permits her mechanics to turn out all sorts of work, and one of her crew remarked Saturday that it would be possible, if necessary, even to build a boiler on her.

The Favorite is equipped with a great crane forward, by which a big bucket can be operated. This is used particularly for taking the cargoes out of wrecked crafts. She has a number of auxiliary engines; air compressors and powerful pumps. She carries a large stock of "jacks," much heavy timber and various other material used in wrecking operations.

Is Engaged on Unique Job. According to her officers the Favorite is now engaged on a unique job, the release of the Galatea. This vessel is a schooner that went on the beach at Grand Marais some two years ago. She was cast high and dry and as a result of the work of the winds and the waves she was drawing, when the Favorite's crew essayed the task of getting her off, seven feet of sand, instead of any water. She was jacked out of the sand and has been moved seaward toward the water, the Favorite's officers said Saturday. It is proposed to finish the job of releasing her with sand pumps, by which a channel through which she can be taken to deep water will be dredged. The job is said to be the first one of the kind that has been done on fresh water. The dredging by the sand pumps will proceed rapidly and it was asserted Saturday that the Galatea will be afloat in a few days. The Galatea is now owned by the company owning the Favorite, and it is said that the expense of wrecking her will exceed her value.

Prior to tackling the Galatea the Favorite pulled off the schooner Wayne, which went on the rocks at Misery bay. The Wayne was pretty well hung up, but the powerful engines of the wrecker got her into deep water without much difficulty. The Wayne now lies at a dock at Grand Marais, with water in her hold. When the wrecking of the Galatea is finished it is the plan to have the Favorite tow both schooners to Cleveland, where they will be repaired.

The captain of the Favorite is Captain Cumming, who formerly commanded the big tug Tomlinson at Escanaba. Her chief engineer is George Bartley, Jr. Mr. Bartley got his first papers from C. M. Gooding of this city in 1888, and has ever since had them renewed in this inspection district.

Mrs. Olivier will reorganize her classes Monday, Sept. 2nd, and kindly requests the pupils who desire admission to report as early as possible at the studio in the opera house block. (9-2-11)

You will always find two first-class barbers at the Nester block barber shop, 8-28-11 D. CRONKRIGHT.

SCHOOLS OPEN TOMORROW.

Large Amount of Cleaning and Repairing in All of the Buildings.

A considerable amount of cleaning and repairing has been done in all the schools of the city during the vacation, and all of them are now in readiness for the opening tomorrow. In all the schools the seats, desks and chairs have been stained and varnished. At the Hampton street school four new cupboards have been installed and at the Olcott school a new flag pole has been erected. A new steam plant has been installed at the Ely school and a steel ceiling in the eighth grade room. The outside steps of the Nester addition school have been repaired and a cement walk laid to the street. The Fourth street school has been painted inside and out, and other improvements have been made.

All the work was done under the direction of Edward Quarters, superintendent of janitors and buildings.

LABOR DAY TO BE CELEBRATED TODAY

EXERCISES IN FRONT OF CITY HALL TO BE HELD IMMEDIATELY AFTER PARADE.

Today is Labor Day and the celebration to be held in the direction of the Carpenters' and Joiners' Union. Immediately following the parade the exercises of the day are to be held in front of the city hall. A number of addresses are to be made and among others Mayor Robertson and George Tucker are to speak. In the afternoon a number of athletic events, including a baseball game are to be held at the new fair grounds. Following is the program at the fair grounds and the prizes to be given:

Line of March. Parade to form on Baraga avenue between Third and Front streets. Starts at 10 o'clock, going south on Third to Fisher street, east on Fisher to Front, north on Front to Ridge, east on Ridge to Pine, north on Pine to Hewitt, west on Hewitt to Third, south on Third to Bluff, west on Bluff to Fifth, south on Fifth to Washington and to the city hall where exercises are to be held.

Prizes: 1st prize, \$2; second, \$1. Wheelbarrow race for boys and girls—Prizes \$1, 75 cents, 50 cents. Climbing greased pole—Prize, \$2. Putting 16-lb. shot—Prizes, \$2, \$1, and 50 cents. Single horse dray race—Prizes, \$5, \$2.50.

Catching greased pig—Prize, the pig. Egg race—Boys and girls—No prize. Stick races for boys and girls—Prizes, \$1, 50 cents. A dinner which is to precede the athletic events will be served at the grounds and in the evening a dance will be held at the city hall. Modiste Biopelle is marshal of the day and Stephen Yarbuck is his assistant. Following are the committees in charge of the celebration: Entertainment and reception committee—Robt. McKenzie, Fred Maris, R. J. Doro and Fred Hoar. Arrangement committee—W. Freulingsdorf, Ole Everson, J. Kimball, J. Shurland and W. Henry. Dance committee—Julian Kimball, Fred Lovie, Fred Saunders, Gus Strum and John Blom.

DEATH OF YOUNG MAN.

John Fitzgerald Dies Suddenly After Being in Apparent Good Health. John Fitzgerald, the eighteen-year-old son of Henry Fitzgerald, died suddenly Saturday night at the home of his parents, 317 Spring street. Throughout the day he had been around as usual, and apparently was in excellent health. He made no complaint of feeling badly, but retired early.

About 11 o'clock his mother had occasion to enter his room and discovered that he was seriously ill. She aroused the other members of the family, but before any could leave the house for a physician, he died. Young Fitzgerald suffered an attack of pneumonia in the spring and had never fully recovered. He had been in the railroad service for several years and was well known here. Besides the parents, two sisters, Ruth and Margaret and one brother, Bernard, survive him. The funeral will be held from the residence tomorrow.

LIVED HERE 36 YEARS.

Death Yesterday of Mrs. Nora Deasy at the Home of Patrick Deasy. Mrs. Nora Deasy, widow of the late John Deasy, who died yesterday afternoon at 5:30 o'clock at the home of her son, Patrick Deasy, 112 Jackson street, had lived in Marquette for the past thirty-six years. At the time of her death, which was caused by old age, she was eighty-four years old.

Mrs. Deasy is survived by three sons, Patrick, John, and Thomas, and one daughter, Mrs. S. Kimber. The funeral arrangements have not yet been announced.

DEATH OF AGED WOMAN.

Mrs. Frank Dionne, in Apparent Good Health, Passed Away in Chair. Mrs. Frank Dionne died suddenly last night at 9 o'clock at her home, 528 Bluff street. Although feeble from old age, she was in apparent good health and died while seated in her easy chair. At the time of her death she was eighty-four years old and besides her husband, she is survived by six children. The arrangements for the funeral have not yet been announced.

BANQUET HELD AFTER K. OF C. INITIATION

MORE THAN TWO HUNDRED VISITING MEMBERS ATTENDED CEREMONIES HELD YESTERDAY.

More than two hundred members of visiting lodges attended the initiation ceremonies of the Knights of Columbus in Marquette yesterday when a class of seventy new members were admitted to the order.

Attended Mass. At 8 o'clock in the morning the members of the local lodge, their visitors and the candidates met at Legion Hall and marched in a body to St. Peter's cathedral where they attended the 9 o'clock mass which was celebrated by Rev. Father Pinten. Following the mass Rev. Father McCabe of Iowa Springs, Colo., preached the sermon. After the services the knights and the candidates marched back to Legion Hall where at 10 o'clock the first degree was conferred upon the candidates.

At 1:30 o'clock in the afternoon the second and third degrees were conferred at Legion Hall and in the evening a banquet was held at the Baraga auditorium, 300 at Tables.

The banquet in the evening was served by the ladies of the cathedral parish and there were 300 seated at the tables. Mr. McKnight of the Grand Rapids lodge presided as toastmaster. The banquet lasted nearly three hours and was wholly enjoyable to all those who attended it. Addresses were made by the following knights: Martin of Green Bay, Le-Billets of Menominee, Gallagher of Green Bay, Cuddy of Menominee, Bishop Eis, and Rev. Father McCabe.

WAGNER FUNERAL TODAY.

The funeral of Hon. George Wagner, who died at his home on West Ridge street Friday morning will take place this morning. From the house the body is to be taken to St. Peter's cathedral where a solemn high mass is to be celebrated at 9 o'clock. The burial will be in the Holy Cross cemetery.

Now is the time to order your kindling wood if you want it dry for winter. Call at or phone to 615 Champion St. Bell No. 78. H. J. KEOPP & CO. 8-30-11

"Let us have some Cudahy's Peacock bacon and calves liver for supper Mama" say young and old. (11-27-10)

There is no business in the world today safer or more profitable than mining. Statistics show that there is 45 per cent less failures in mining than any other industry, and dividends of 25 to 100 per cent are not at all unusual. The Grand Traverse & Arizona has been pronounced by the best expert testimony to be one of the best in the southwest. Look in the window as you go into the Stafford Drug Co.'s store and examine some ore taken from this mining company's shafts. (8-25-11)
