

QUAKERS TOO MUCH FOR CORNELL ELEVEN

Big Thanksgiving Day Game Won by Strong Pennsylvania Team by Score of 12 to 4, Ithacans Getting Field Goal.

Victory was the thirteenth in fifteen games played to the credit of the Quaker team—this year it had forward pass developed to perfection and it was employed to good effect—Cornell came back strong in second half—scores of other games.

Philadelphia, Nov. 28.—History repeated itself on Franklin field this afternoon, as Pennsylvania again won the annual football game with Cornell, the score this year being 12 to 4. It was Pennsylvania's thirteenth victory in fifteen games played with the Ithacans, the New York state team having won one contest and tied another.

The teams were not on the field five minutes before it was seen that Pennsylvania, barring accidents and fukes, was likely to win. She went at Cornell hammer and tongs from the jump and all during the first half the play was close to Cornell's goal. Twice Pennsylvania carried the ball over the Cornell line by hard work, only to have touchdowns disallowed, because of holding. Once the Quakers lost the ball two feet from the goal on downs, and another time, when the ball was only two yards from a score, they were again penalized for holding. In this half the Quakers were penalized several yards and held Cornell to one first down. Pennsylvania clearly outplayed Cornell, and yet, owing to her holding proclivities, was able to make but one touchdown. The conditions were practically reversed in the second half, although Pennsylvania made another touchdown to a field goal by Cornell. In this half the Ithacans seemed to gain strength and several times they endangered the Pennsylvania goal.

Pennsylvania's principal play was the forward pass, which she worked almost to perfection. Keimath was accurate in his throwing, and a Pennsylvania wide usually on the spot to receive the ball. In the second half Cornell did most of the forward passing, but the play did not bring the substantial results it did to Pennsylvania.

The Quakers' second touchdown was the result of one of Cornell's forward passes being blocked. The ball was on Pennsylvania's fifty-yard line, and Searlet, for Pennsylvania, intercepted the throw. Draper was on the ball in a flash and, with a clear field, ran sixty-five yards for Pennsylvania's score. Cornell's field goal came late in the second half. Cornell got the ball in midfield and worked it to the twenty-third-yard line. Unable to make further headway, Caldwell, who had replaced Gardner, dropped back to the thirty-five-yard line and kicked a beautiful goal at a difficult angle.

St. Louis Wins Championship. St. Louis, Nov. 28.—St. Louis University won over the University of Nebraska this afternoon in a game which was to decide the championship of the Missouri Valley. St. Louis made four touchdowns in the first half and two in the second. Except for one brief period, the game was St. Louis' all the way. The St. Louis' backs took great holes in Nebraska's line and took full advantage of the holes made for them by their linemen. Nebraska's defense proved surprisingly weak.

Nebraska's only opportunity to prevent a shut-out came in the first half, when it took a magnificent brace and carried the ball from the center by means of a one-yard line, assisted by a forward pass for thirty yards, from Wells to Johnson. With only one yard to gain and two downs to make it in it seemed certain that Nebraska would score. A smash to the right of the line failed to make it, however, and the ball went to St. Louis four inches from its goal line. Chalupka, Nebraska's right tackle, sustained a broken wrist shortly after the game was started. Hart was shifted from guard to tackle and Perry went in at guard.

But one incident tended to mar an otherwise cleanly played game and that was the removal of Brennan, St. Louis' right tackle, early in the first half, on the charge of slugging. It was Brennan's last intercollegiate game and he sobbed as he was led to the side lines by members of his team. Dewey took his place.

Haskell Indians Defeated. Omaha, Nov. 28.—Before the largest crowd which has ever attended a football game in Omaha, Creighton University defeated the Haskell Indians by a score of 9 to 6. The game was characterized by open plays, and both teams gave evidence of having been well coached in all the points of up-to-date football.

Notre Dame Defeats St. Vincent's. Chicago, Nov. 28.—Notre Dame University won a hard fought game from St. Vincent's college here today, the count being 21 to 12. The local eleven led in the middle of the second half by a score of 12 to 11. McDonald then ran forty yards for a touchdown for Notre Dame and a few minutes later Ryan kicked a goal from place.

hurt, Thomas J. Burke, probably fatally. At McKeesport about 2,000 people engaged in riot over a game of football between local teams. The police stopped both the game and the fight before anyone was seriously hurt.

Football Player Injured. Topeka, Kas., Nov. 28.—Alpheus Stothower, the halfback on the Wellington, Kas., football team, ran into a buggy on the side line in a game in his home town today and suffered concussion of the brain. The injury may prove fatal.

Football Scores. Des Moines—Ames, 13; Drake, 0. St. Joseph—Kansas, 4; Missouri, 0. Salt Lake City—University of Utah, 13; Colorado college, 10. Denver—School of Mines, 5; University of Colorado, 4. Pittsburgh—Western University of Pennsylvania, 6; State college, 0. Easton—Lafayette, 31; Dickinson, 0. Marietta, O.—Marietta, 63; Ohio University, 0. Lancaster, Pa.—Gettysburg, 6; Franklin and Marshall, 0. Washington—Georgetown, 0; George Washington, 0. New York—Fordham, 35; Holy Cross, 0. Columbus—Ohio State University, 16; Ohio Wesleyan, 0.

ALLEGED MURDERESS INSANE

Under Indictment for Killing W. S. Guerin, Mrs. McDonald Will Likely Go to Asylum.

Chicago, Nov. 28.—Mrs. Dora McDonald, the widow of Michael C. McDonald, and who is under indictment for the alleged murder of Webster S. Guerin, developed symptoms of violent insanity today, twice attempting to commit suicide at the home of her mother, Mrs. Martha Feldman. It was stated tonight that Mrs. McDonald will probably be sent to an insane asylum instead of being brought into court to answer to the charge of murder.

This morning Mrs. McDonald's brother, Emil Feldman, traced fumes of escaping gas to her room and found her unconscious. She was restored with difficulty, and then she attempted to leap from the window. Mrs. McDonald was taken to the home of her sister, where she is being closely watched. The suit brought by Mrs. Mary McDonald, the first wife of Michael C. McDonald, to break the will of her husband, is to be called for hearing tomorrow morning.

AMADOR IN WASHINGTON

Will Be Entertained by President Roosevelt in Capital Today.

Washington, Nov. 28.—President Amador, of Panama, arrived here this evening to pay his respects to President Roosevelt before his return to the isthmus. Tomorrow President Amador will be driven through the city and at 2 o'clock President and Mrs. Amador will call on President Roosevelt. An hour later President and Mrs. Roosevelt will return the call at President Amador's hotel. There will be a dinner at the White House in the evening and later a reception will be given for the guests.

EUROPE TO INDIA BY RAIL

Important Project Strongly Advocated in St. Petersburg.

St. Petersburg, Nov. 27.—The Novoe Vremya advocates the appointment of a commission to study M. Lessar's project for a railway to India, remarking that M. Lessar has long been a partisan of an Anglo-Russian approach. "If the project is carried out," says the journal, "the journey from London to Karachi via Baku, Krasnovodsk, Mery, Kutchshka, Newchaman and Sukhona, could be accomplished in seven and a half days. The section from Kutchshka to Newchaman, seven hundred kilometers (437 miles), alone remains to be constructed. This could be comparatively easily done as very few bridges would be required and much of the necessary material is already at Kutchshka and Newchaman." The Novoe Vremya dwells on the political and economic advantages of the railway for both Great Britain and Russia, pointing out that the Bagdad railway, if the Germans succeed in completing it, will reduce the journey from Vienna to Bombay to nine and a half days, which would vitally menace British interests.

The construction of this connecting link a traveler would be able to take the train at Zebruggue, or any of the continental termini, to Calcutta and Bombay. His route would lie through Vienna and Warsaw, and thence to Baku, in the Caucasus. He would be traveling on a great trunk line comparable in magnitude, however, that the traditional policy of railroads has been altered, and nothing has happened of late that would render the opening up of the country any less perilous from its point of view. Still, if ever an ameer does give his assent, his proposal, the line, by virtue of the Anglo-Russian convention, will be exclusively under British control.

The most general objection to linking the Indian and Turkestan railways is based on military reasons. A power which has to defend a mountain barrier does not care as a rule for the multiplication of communications across that frontier. But this aversion applies only to the piercing of a frontier. Every power is ready to run as many railways as it can to its own side of the defensive line in order to facilitate the concentration of its forces.

GERMAN CHANCELLOR ANSWERS CRITICISMS

Replying to Reichstag Leader, He Makes an Energetic Defense of the Army, Emperor Wilhelm and Himself.

Declares That Unworthiness in Army Will Be Sharply Rooted Out by Kaiser, Who Zealously Guards Morality in Army and Nation—Denies Existence of So-Called Court Camarilla, Also That He Dissolved Last Reichstag to Protect Himself.

Berlin, Nov. 28.—Today's sitting of the Reichstag was notable for an energetic speech by Chancellor Von Buelow in defense of the army, emperor and himself. Replying to Dr. Spahn, the leader of the Center party, who asserted that the conditions prevailing in the army recalled those of ancient, heathen Rome, the chancellor declared that it has been imagined that the whole army was relected by a few instances of unworthiness, the rooting out of which the chancellor assured the house, would be sharply attended to by emperor, than whom no one strove more zealously for a high tone of morality in both the army and nation. It was the crown prince, he said, who had called the father's attention to the articles disclosing corruption, with the result that immediate action was taken in the matter. The chancellor pointed out that neither the chancellor nor the ministers could take such a step without holding proofs of their assertions. Von Buelow emphatically denied the existence of the so-called court camarilla, which is widely alleged to have been influencing the emperor's decisions, and he also denied the assertion that he dissolved the last Reichstag in order to protect himself against personal attacks relative to his supposed participation in the intrigues.

SMALL FAVOR TO ENGLAND

New Reciprocity Treaty Is So Regarded—We Admit Only Works of Art.

Washington, Nov. 28.—A pitifully small concession is that made to the united kingdom by America in the new reciprocity arrangement, according to the admission of the American officials. But after all it is pointed out it was the best that could be done under the law. Details of the agreement reached between Ambassador Reid and the British foreign office have not yet reached the state department, but the scope of the matter is fully understood here. As stated in the cable despatches the united kingdom agrees to admit a number of commercial travelers and in return America agrees to admit at reduced rates of duty, works of art originating in the united kingdom.

The value of the concession made by America is measured in comparatively small figures. Last year the total value of dutiable works of art imported from Great Britain into the United States was \$740,016. The rate of duty was 20 per cent ad valorem and under the new arrangement this has been reduced to 15 per cent, which in round figures would amount to an abatement of duty to the amount of \$107,000 per annum. The British works of art imported into the United States were valued at about half the French imports and amounted to about double those from Italy. The British concession of free samples for commercial travelers is similar to that made to Belgium, Nov. 10, 1906, and requires the deposit of the amount of the duty or a bond for the same as a preliminary to the free admission of the samples, the duty or bond to be withdrawn at the pleasure of the traveler upon leaving the country. The samples are, it is said, to be used solely "for the purpose of obtaining orders and not for sale."

Of course it is well known that in most cases there is no duty imposed upon goods imported into Great Britain, so the value of the new arrangement will be found in the privileges conferred upon agents for houses dealing in beer, tobacco, confectionery, preserves and all of the forms of sugared conserves. Great Britain wishes to obtain much more than the mere concession made in the arrangement just completed, but it was found that the president was strictly limited in his powers by the law to cases "where reciprocal and equivalent concessions are made in favor of the United States." Having given the United States free admission for all other forms of goods, within its power, the British government had nothing to offer in this case but free "drummers' samples." The British merchants wanted an abatement of the duty on spirits, which would have been of immense value to the Scotch whisky trade, but the president could not regard the abatement of the restrictions upon drummers' samples as at all equivalent and he was obliged to confine his concession to that noted notwithstanding the fact that Great Britain last year took more than 50 per cent of the total American exports to Europe, the British total being \$583,000,000, while our total imports from the united kingdom amounted in value for the same period to but \$210,000,000 of dutiable goods.

HOLDS LAW UNCONSTITUTIONAL

Grand Forks, N. D., Nov. 28.—Judge Templeton, of the state district court, today decided that the North Dakota statute authorizing the seizure of liquor imported into the state to be used as a beverage is unconstitutional. He held that the law violated the commerce clause of the United States constitution.

WEATHER FORECAST

Washington, Nov. 28.—The following is the weather bureau's forecast for Upper Michigan: Fair Friday; warmer Saturday; light to fresh northwest winds, becoming variable.

RECOMMENDS DEATH PENALTY.

R. Meade Shumway Found Guilty of Murder of Mrs. Martin.

Beatrice, Neb., Nov. 28.—The jury which heard the case against R. Meade Shumway, charged with the murder of Mrs. Sarah Martin, near Adams, Sept. 3, this afternoon found the defendant guilty and recommended the death penalty. Mrs. Martin, the wife of Shumway's employer, Shumway was left alone with her wife while the husband was at a primary election. The husband discovered the mutilated body of his wife on his return to the farm. Shumway was missing, together with \$200 in cash. He was caught in Missouri a week later and was returned to Nebraska.

DIRECT HAL BRINGS \$10,000.

New York, Nov. 28.—Direct Hal, the pacer, one of the holders of the world's team, or pole record, of 2:03 1/4 for one mile, was sold for \$10,000 to Howard Cobb, of Ithaca, N. Y., at the Old Glory horse sale today.

Nancy Hanks, the famous trotter, now twenty-one years of age, which held the trotting record of 2:04 from 1892 to 1894, went for \$1,500, while Todd, a trotting stallion with a record of 2:14 1/2, sold for \$30,000. High Bird sold for \$9,400.

VISITED MONTPELIER, VT.

Roosevelts Spent Thanksgiving at Old Madison Home—Taft's Holiday.

Washington, Nov. 28.—President Roosevelt spent today at the old home of President Madison near Montpelier, Va. With him were Mrs. Roosevelt, Mr. and Mrs. Longworth, Ethel and Quentin Roosevelt. The party was escorted through all parts of the mansion and listened to many stories concerning the historic spot. The president was particularly interested in visiting the tomb of President Madison and remained near it for some time. The party returned this evening.

Taft's Thanksgiving.

Ufa, European Prussia, Nov. 28.—On board the train bearing Secretary Taft and his party to Moscow tonight were drunk today to President Roosevelt and Emperor Nicholas. In honor of Thanksgiving the Russian passengers presented an elaborate cake, bearing Russian and American flags, to the American secretary of war. Responding to the presentation speech, Taft said that he was impressed with the resources and fertility of Siberia and the appearance and character of the people. He prophesied a future development for Siberia as great as, and similar to, that of the American western states, and he said he believed it would become the leading section of the country in agriculture.

Thanksgiving in London.

London, Nov. 28.—Whitehall Reid, the American ambassador, spoke optimistically of the financial outlook and Field Marshal Sir George Stuart White eulogized President Roosevelt in the warmest terms at a Thanksgiving dinner of the American society tonight. White, in lauding President Roosevelt, spoke of him as one whose honesty and unreservedness appealed strongly to Englishmen. Lord Justice Moulton toasted the American ambassador, referring to him as an example of the highest type of journalist. He praised the restraint the American newspapers exhibited during the financial crisis in that country.

Americans Observe the Day.

Mexico City, Nov. 28.—Thanksgiving Day was observed by the 10,000 American residents in this capital in the usual manner. The celebrations culminated in a gorgeous charity ball at which President Diaz, members of his cabinet and other prominent officials were present.

Holiday in Paris.

Berlin, Nov. 28.—Three hundred Americans celebrated Thanksgiving by dining together tonight at the Zoological gardens. President Hadley, of Yale, and Prof. Schofield, of Harvard, made speeches. A telegram of greeting was sent to President Roosevelt.

OTHER CITIES QUERIED.

Chicago Law and Order League Takes New Step for Sunday Closing.

Chicago, Nov. 28.—The Chicago Law and Order League today invoked the aid of the police officers in nineteen large cities of the United States in its campaign against the Sunday sale. Telegrams were sent to the officials, asking whether Sunday closing is enforced in their communities, and five answers were received tonight. Others are expected to reply before noon tomorrow. It is planned to use these replies at a big mass meeting which has been arranged in the interests of the Sunday closing movement. The messages will be thrown upon a huge screen by a stereoscopic machine. An object lesson to Chicago citizens and officials.

VICTIMS IDENTIFIED.

Seven Men Lose Lives in Fire in Kansas City Rooming House.

Kansas City, Nov. 28.—The seven men who lost their lives in the fire which destroyed a rooming house early this morning have been identified as follows: Patrick Tucker, Adolph Summerbeck, Michael Harlan, Thomas Lane, John Sheen, Jack Sheehan and "Frenchy," a porter in a restaurant. Adolph Summerbeck had relatives in Cedar Rapids, Iowa, who are said to be wealthy. The owner of the building in which the fire occurred lives in Springfield, Ill. The fire department had ordered the building remodeled, under threat of condemnation.

CORTEL YOU'S STEP IS REASSURING

Closing of Subscriptions to Treasury Certificates Taken to Mean That He Believes Crisis Nearly Over.

Allocments Said to Be About \$35,000,000, and This Is the Limit, Unless Strong Representations Are Made—Individual Subscriptions Rejected and Banks Get the Issues, Which Will Be Used to Secure More Bank Notes.

Washington, Nov. 28.—The announcement by Secretary Cortelyou last night that further subscriptions to the one-year treasury certificates will not be received is regarded here as indicating that the secretary considers the crisis in the money market practically over. The official figures of the amount of certificates allotted, have not yet been given out at the treasury, nor has it been stated whether further allotments will be made for subscriptions already received. The amount of allotments made, however, is said to be about \$35,000,000, and this is probably the limit, unless strong reasons are presented by the banks which have already made subscriptions as to why allotments should be made to them. All individual subscriptions having been rejected, it is anticipated that nearly the whole \$35,000,000 allotted will be used to secure new issues of bank notes. As these issues will be retired within less than a year they will not constitute a permanent inflation of the bank note circulation.

SUPPORT TO SHIPPING BILL.

Roosevelt Is to Urge Rehabilitation of Merchant Marine.

Washington, Nov. 28.—The president in his coming message will urge the enactment of a new shipping bill. Senator Gallinger will introduce, in the senate, the measure which will have the official support of the administration and it will be introduced, simultaneously, in the house.

"There will be a determined effort in the new congress to secure some positive legislation for the rebuilding of the merchant marine," said Senator Gallinger today. "It will be remembered that the enactment of a bill designed to rehabilitate the American merchant marine was defeated in the closing hours of the last congress, only by a partisan filibuster in the senate. The leader of the filibuster, however, has now passed into private life.

Ultimate Victory Predicted.

"It is significant, in the movement for encouraging the merchant marine, that it is constantly winning new supporters among public men in both houses of congress. This fact points to ultimate victory. "But it is the part of wisdom to recognize that not everything can be achieved at once. It is probable that all that will be seriously attempted in the new congress will be the enactment of some substantial ocean mail legislation, particularly for the creating of new lines to South America and across the Pacific Ocean.

"Another object lesson is that the most effective department, since last March, has found it necessary to direct the United States mails for South Brazil and Argentina via Europe, because of the wretchedly inefficient and irregular service furnished by the foreign tramp steamers now plying between South America and New York. This, in effect, thrusts the United States 3,000 miles further away than they are, to the great injury of the trade. Recently a subsidized steamship, sailing from South America direct to Europe, conveyed a party of merchants, who were going to place in Europe orders for \$25,000,000 worth of manufactured goods and other articles. Most of those orders might have come to this country if transportation facilities were adequate.

Democratic Support Pledged.

"Alone of maritime nations, the United States makes a great deal of money, \$3,000,000 or \$4,000,000 a year, out of its ocean mail system. Great Britain spends \$5,000,000 or \$7,000,000 a year in steamship subsidies, and Japan \$4,000,000 or \$5,000,000. From \$3,000,000 to \$4,000,000 a year would create American steamship services from the Atlantic and Gulf coasts to South America and from the Pacific coast to Japan, China, the Philippines and Australasia. Some of us can see no reason why the profit derived from our ocean mail service should not be used to assist in building up steamship lines to carry our mails across the seas.

"At the close of last session I received important assurances that such a bill, carefully drawn, would receive the support of several of the ablest and most influential of the Southern Democratic senators, and I believe that will command a practically united support on the Republican side."

KILLED AND WAS KILLED.

Millington, Pa., Nov. 28.—Julius Derr, an employe of the Pennsylvania railroad, was shot and fatally wounded today by an unidentified Italian laborer, who was pursued by a party of hunters and shot dead. The Italian, who had been drinking and was disorderly, shot Derr when ordered from a railroad station. When pursued the Italian took refuge under a railroad bridge, drew a revolver and began firing at his pursuers, who returned the shots, killing him instantly.

JUMPED TO DEATH.

Student of Iowa State College Met Tragic Fate Near Davenport.

Davenport, Ia., Nov. 28.—The body of Irwin Robinson, of Bluegrass, Ia., a senior at the Iowa state college at Ames, was found this evening beside a railroad track here. He disappeared after leaving college to spend the Thanksgiving vacation with his fiancée, Katherine Carlin, who lives near Davenport, and when he failed to arrive in time for dinner a search was made for him. Robinson had evidently been killed by jumping from the train as it passed the Carlin home, early in the day. He would have graduated from college in February and was to have been married to Miss Carlin soon afterwards.

ABE HUMMEL ILL.

Former Wellknown New York Lawyer Sick in City Prison.

New York, Nov. 28.—Abraham Hummel, formerly a wellknown lawyer in the criminal and divorce courts here, is seriously ill in the Blackwell's Island, New York City prison, to which he was sentenced to serve one year's imprisonment recently, after his conviction on charges of conspiracy in connection with the Dodge-Morse divorce proceedings. Hummel, the prison authorities said today, is suffering from kidney trouble and a weak heart, but the report that he was dying is denied.

SOUSA SERIOUSLY ILL

March King Victim of Ptomaine Poisoning—Now in Auditorium at Chicago.

Chicago, Nov. 28.—John Philip Sousa, the noted bandmaster and composer, is seriously ill at the Auditorium hotel here, from the effects of ptomaine poisoning contracted in Milwaukee two days ago. He was unable to conduct a concert given by his band here tonight, being confined to his bed by the care of a physician and a trained nurse. Sousa was taken ill at Milwaukee Tuesday night, after a hearty meal of prairie chicken. He was so ill that evening that after half the program had been played he was forced to return to his hotel. At Madison last night he attempted to lead the band, but before the performance was completed he was forced to take to his bed. The band arrived in Chicago this afternoon and Sousa was at once placed in the care of a physician, who diagnosed the case as serious.

HARRIMAN SAID TO OWN OKLAHOMA AND GULF.

Texas Outlet to the Middle West Needed to Meet Frisco Competition.

Austin, Tex., Nov. 28.—The Missouri, Oklahoma and Gulf railroad, which is being built from Lawrence, Kan., to Denison, Tex., is said to be the property of E. H. Harriman and associates. According to a semi-official announcement made by those who are actively connected with the building of the new road, it is being financed through Mr. Harriman. It is a notable event in the history of the railroad industry in Texas and the Southwest a direct outlet to the Middle West and the Northwest. It will connect with the Houston and Texas Central at Denison, and will cross the new line which will connect with the Union Pacific. The construction work is now in progress south of Wagoner, Ok., more than 125 miles of the road being finished between that place and Denison, leaving a gap of about forty-five miles yet to be built between the two places. The final location of the route of the road north from Wagoner to Lawrence is now being made.

The building of an outlet for the Harriman lines in Texas was made necessary by the recent completion of the Lawrence and Brazos Valley line between North Texas points and Houston. The traffic of the Rock Island, the Frisco and the Colorado and Southern, which formerly went to the Houston and Texas Central, is now being turned over to the Trinity and Brazos Valley.

BREWERY FIRE IN CHICAGO.

Chicago, Nov. 28.—The Tossetti Brewing company each suffered a loss of \$100,000 in a fire that destroyed the malt houses of both plants this afternoon. The fire is thought to have originated in the Mollin plant from sparks from a passing locomotive. It was communicated to the Tossetti establishment through the igniting of gas which escaped from the storage tanks in the latter's malt house.

WILL NOT FIGHT FORAKER.

Wheeling, W. Va., Nov. 28.—Llewellyn Lewis, president of the Ohio Federation Labor, in an interview tonight denied the report from Cleveland that the organization will fight Senator Foraker. He says Taft was the only man mentioned and that Gompers' action against Taft was endorsed.

PENROSE FAVORS CHICAGO.

Philadelphia, Nov. 28.—United States Senator Penrose said today that he favors Chicago as the place for the next Republican national convention. He is a member of the committee and will vote for Chicago.

TAFT'S MOTHER SERIOUSLY ILL.

Milbury, Mass., Nov. 28.—Mrs. Louise M. Taft, mother of Secretary Taft, is again seriously ill here. Mrs. Taft was stricken in October and for a time her condition was critical. Recently she was believed to be well on the way to recovery, but she has now suffered a relapse.

VILLAGE HIT BY FIRE.

Flaxton, N. D., Nov. 28.—Fire today destroyed the business portion of Columbus, twenty miles west of Flaxton. The loss is \$50,000. The village has a population of 700.

AL KAUFMAN WON OVER SULLIVAN

Fight at Colma, Cal., Went Full Twenty-Five Rounds to Decision by Referee in Favor of Heavyweight.

Victor's Showing, However, Was Disappointment to Those Who Have Believed Him a Possible Champion, as He Failed to Produce a "Knockout Punch" and His Desperate Efforts to Put His Opponent Away Came to Naught—Sullivan Claimed an Injury.

Colma, Cal., Nov. 28.—Al Kaufman, of this city, was awarded the decision over Jack (Twin) Sullivan at the end of the twenty-fifth round. The decision was clear cut. The fight up to the tenth round was practically an even affair. After that, however, Kaufman forged to the front and was never in danger again. Sullivan did his best work in the early rounds, and for a time he looked as though he might win. It was a give and take affair up to the tenth, with Sullivan having the better of it.

In the sixteenth Kaufman cut loose. He forest Sullivan from one end of the ring to the other, landing, almost at will, with lefts and rights to the jaw. He tried to put Sullivan out, and in doing so weakened himself and showed that he lacked that one requisite—a knockout punch. From this time on one round was the repetition of the other. Sullivan showed great gameness throughout the balance of the fight. In almost every one of the following rounds it seemed certain he must go to the mat from the grueling shower of right and left swings to the jaw, but he always took the scratch, although apparently in great distress. He stilled continually to save himself from punishment. Kaufman thereafter devoted his attacks to Sullivan's stomach, and during the last few rounds put in several vicious punches, any one of which seemed powerful enough to put out any ordinary man.

The fight itself, as Kaufman was concerned, was a great disappointment to the spectators, inasmuch as it developed the fact that the Californian does not, by far, display the championship caliber with which he has been credited. The fight also developed the fact that Kaufman lacks both vim and viminess. After the fight Sullivan claimed that he had injured his right hand during the sixth round, but if such was the case it was not apparent to the spectators. Kaufman was the aggressor throughout, and clearly outfought Sullivan in all but a few rounds. The decision was an eminently just one.

Fight to a Draw.

New Orleans, Nov. 28.—A ten round bout tonight-between Frank Carsey, of Philadelphia, and "Kid" Taylor, Chicago, resulted in a draw.

OUR XMAS TREES FROM CANADA.

Larger Demand Than Ever Before in Charlotte County, N. B.

St. Stephen, N. B., Nov. 28.—The woodlands of Charlotte county are being stripped of fir trees for export to America to be used as Christmas trees. The cutting this year has reached larger proportions than ever before, and almost every village and town in the county has its small bands who cut the trees in the woods and sell them to local agents, the latter contracting with American dealers to supply them to the thousand.

The American buyers have found that it is much cheaper to get their trees from Canada than from Maine, the Canadian stumpage price and wages for labor being much below the American rates, and with no duty imposed on the exportation of the trees the conditions all favor Canada. It is estimated that about 150,000 trees to the American market during the next month for the Christmas trade. Dealers in all the large American cities have agents here contracting for the trees and the prices offered are generally regarded as high.

While the Canadians will supply the trees to the American market the large amount of money for shipping the trees will go to American railroads, largely from the American side of the line, Calais being the chief center. This will enable the dealers to take advantage of the low American freight rates.

PROSECUTION STATED CASE.

Georgetown, Ky., Nov. 28.—In this afternoon's session of the Powers' trial the witnesses for the commonwealth were called and an attachment was issued for those who did not answer. The indictment of Caleb Powers found by the Franklin county grand jury April 17, 1900, was read and Attorney Williams stated the case of the prosecution. Judge Sims, for the defense, reversed his statement until he closed the testimony for the commonwealth, and court adjourned until tomorrow.

MARQUETTE, MICH., NOV. 29.

Entered as mail matter of the second class  
 in the postoffice at Marquette, Mich.

Yesterday the least that people could  
 be thankful for was that it has been no  
 worse.

At last reports the Ontonagon lid was  
 still on tight; Escanaba is yet to hear  
 from.

Dr. Bradley appears to recall that  
 many a good man was double-crossed  
 in a much better cause.

If half the criticisms we have heard  
 are justified the person worst hit of all  
 who lost through the Jamestown show is  
 the one who paid the admission price.

Congressman Fordney believes that  
 tariff revision is responsible for much  
 of the disturbances in business and in-  
 dustry. Mr. Fordney should try another  
 believe.

Governor Warner has a cousin in the  
 copper country, and that cousin has just  
 been appointed a deputy oil inspector; ergo,  
 Governor Warner should be cer-  
 tain of at least one copper country vote.

Even Northwestern university, whose  
 faculty has ruled out football, favors a  
 seven-game schedule for the western con-  
 ference teams. Perhaps Northwestern  
 is ashamed of the showing the west made  
 against the east this year.

Doubtless the critics of the adminis-  
 tration will point to Secretary Cortel-  
 you's decision to make no more allot-  
 ments of the emergency government se-  
 curities as a proof that their issuance  
 was not necessary and was ill-advised.  
 The "antis" are overlooking none of these  
 fine points.

Deputy Game Warden Eddy of the Soo  
 is keeping up his old-time pace against  
 the violators of the laws regarding com-  
 mercial fishing. Mr. Eddy has for some  
 years past been one of the bright spots  
 in the state game warden's department.  
 'Tis a pity that more of the deputies  
 do not accept him as their model.

Some time ago Mr. Cudahy, the Oma-  
 ha packer, announced that the price of  
 meat products was reduced 10 per cent.  
 The other packers promptly said that  
 Mr. Cudahy was not speaking for them.  
 They insisted that prices couldn't go  
 off. They had to pay too much for crit-  
 ters, etc. However, prices are off 10  
 per cent now. Mr. Cudahy evidently  
 had the correct view of the situation.  
 This time the announcement of the re-  
 duction is made from Chicago. It is  
 said that the consumer ought to feel it  
 by the end of the week. That should  
 mean today or tomorrow. The consumer  
 will be found ready for it. He has be-  
 come oppressed in mind and purse-lean  
 paying fancy prices. He will appreciate  
 a reduction with all the appreciation  
 that's in him. Let's hope there is no  
 mistake about it this time. If there is  
 we are afraid the local butchers will be  
 sadly bothered.

The report that there have been more  
 fatalities during the hunting season this  
 year than for some years past will  
 doubtless occasion surprise in this re-  
 gion, where it has been believed that  
 the number would prove to be fewer than  
 usual. This expectation has doubtless  
 been due to the fact that there have  
 been fewer fatalities in this and neigh-  
 boring counties than in other years. In  
 Marquette county there have been, for-  
 tunately, no deaths of hunters, and, in-  
 deed, no serious accidents. But if the  
 showing hereabouts has been better than  
 the average, at other points it has been  
 worse, as the thirty-one deaths and  
 much larger number of accidents re-  
 ported to date show. The hunters still  
 have much to learn about the safe hand-  
 ling of fire arms and about waiting un-  
 til they know what they are shooting at  
 before they shoot.

As much as for anything else Presi-  
 dent Roosevelt is loved for the enemies  
 he has made. Now if those same en-  
 emies insist in adopting Governor Hughes,  
 and godfathering his presidential candi-  
 dacy, by the same token that Roosevelt is  
 loved Governor Hughes will be left  
 stranded, high and dry. On the other

hand if the governor is only allowed to  
 go his own way, and permitted to speak  
 for himself, when he judges that the  
 time for talking has arrived, he will  
 doubtless develop into a prime presi-  
 dential favorite. He is a big man and a  
 man highly thought of, but no man is  
 big enough to carry the load of "sup-  
 port" which just now is volunteering its  
 services for him. The presidential situa-  
 tion is involved in obscurities and per-  
 plexities, but one thing may be taken  
 for granted: the people are going to be  
 acutely suspicious of the tainted politi-  
 cians and financiers found among the  
 more radical of the anti-administration  
 forces. The best way these gentry can  
 secure their ends and further the elec-  
 tion of the man of their choice is by  
 shouting for some other fellow.

Tomorrow marks the end of the  
 Jamestown exposition. Monday it is on  
 the cards to have it go into the hands  
 of a receiver. The liabilities are nearly  
 \$3,500,000; the assets but \$710,000.  
 Therefore the exposition is bankrupt to  
 the tune of \$2,855,000. The federal gov-  
 ernment will lose its loan of nearly a  
 million dollars, and it is an open secret  
 that a lobby is preparing to descend on  
 Washington to try to unload on the gov-  
 ernment \$2,000,000 additional of the ex-  
 position's debts. That congress will give  
 any serious attention to this preposter-  
 ous demand is, however, highly improb-  
 able. The exposition was a financial  
 disaster from whatever viewpoint re-  
 garded. Everything connected with it  
 lost money. The concessionaires all de-  
 clare that they either ran behind or no  
 more than broke even, and local people  
 who launched into various catchpenny  
 enterprises in connection with the fair  
 have succeeded in acquiring only expen-  
 sive experience. Nor does it appear  
 that financial failure is in any degree  
 compensated for by artistic success, or a  
 valuable exploiting of the resources of  
 the state or nation. At its best the ex-  
 position seemed trifling and insignificant  
 besides the world's fairs of recent mem-  
 ory, and it was a long time getting to its  
 best. Its earlier periods were spoiled by  
 its incompleteness and unorganized  
 condition, things which gave it a  
 black eye and contributed to its financial  
 doom. Mismanagement has been written  
 all over the enterprise, and its record is  
 one that occasions sincere regret that it  
 was ever started. It's quite too bad that  
 after the triumph of St. Louis we did  
 not go out of the exposition business for  
 one full decade, at the very least.

**THE SOUTH'S CLAIM.**

There has been a growing dissatis-  
 faction in the South at the political ob-  
 scurity of that section of the country  
 and Southern leaders have repeatedly  
 deplored what they termed the inability  
 of the North to forget the war, which  
 resulted in relegating the South to the  
 back corner of the political arena. There  
 have been no Southern presidents for  
 fifty years. Consequently they claim  
 that section should be given a chance at  
 the White House now.

This feeling has lately found definite  
 expression in formal action taken in  
 Tennessee. A committee was appoint-  
 ed at the convention held in Nash-  
 ville, Tenn., Nov. 12, to consider the  
 nomination of a Southern Democrat for  
 the presidency. No names were mentioned.  
 It was purely a sectional boost. This  
 committee has been doing considerable  
 work in spreading information and call-  
 ing attention to the little recognition  
 that has been accorded the South. It  
 claims that the greatest successes of  
 the party have been under Southern lead-  
 ership, but points out that although dur-  
 ing all these years the South has fur-  
 nished a majority of the electoral votes  
 for the Northern candidates, it has fur-  
 nished no presidential nominee since  
 1844, when James K. Polk made the run.

The claim is made that the South  
 has been discriminated against; that  
 not only are all the executive and cabi-  
 net officers Northerners, but that all the  
 appointees in the consular service come  
 from the same section. The Tennessee  
 Democrats demand for the South an  
 equal representation. They stand, they  
 say, for a united country, with sectional  
 lines obliterated. They ask the full and  
 free participation of the South in all  
 affairs of government.

This is a hard slap for Bryan. If  
 the idea should become too prevalent  
 he would be useless to the party be-  
 cause of sectional reasons. He repre-  
 sents the West, but Nebraska can hardly  
 be said to be a part of the South. Just  
 when he believes he has the situation  
 securely in hand and announces that he  
 will accept the nomination if it is ten-  
 dered him, confident that it cannot get  
 away from him, the Tennessee break  
 comes. It is likely to prove contagious,  
 for the Tennessee sentiment is not re-  
 stricted to that state.

But what can the South expect?  
 The "solid South" is the Democratic  
 stronghold. A true Southerner would  
 vote the Republican ticket as willingly  
 as he accepted the fourteenth amend-  
 ment. The Democratic party has no  
 need to cater to the South. The entire  
 vote will go to the party anyway. So  
 why not distribute favors where they  
 will do the most good, where they will  
 win away Republican votes?  
 It will be interesting to watch the  
 spread of the Tennessee idea. Under  
 present conditions, with Bryan in the  
 field and ardently supported by many,  
 it may prove difficult for the South  
 to convince the convention that it needs  
 attention. Instead of uniting the coun-  
 try it may prove that the Tennessee idea  
 is far from unifying in the Democratic  
 party. The South will get a Democratic

**Best by Test**

**CALUMET**  
**Baking Powder**  
**Pure-Wholesome-Reliable**

Used in millions of homes and guaranteed to be a perfectly pure and  
 healthful baking powder, leaving in the food no Rochelle Salts,  
 no Tartaric Acid, no Alum, no Lime, no Ammonia, Because  
 by the use of modern chemical methods the materials are  
 so accurately proportioned and perfectly mixed that  
 a complete neutralization occurs.

**Calumet is made of the finest materials it is possible to select. \$1,000.00 is offered for anything injurious to health found in Calumet Baking Powder. Recommended by leading physicians and chemists.**

**Calumet Baking Powder is the only high grade powder sold at a moderate price. Do not be deceived or misled by clever or tricky advertising or house to house canvassers. It is impossible to make a baking powder that will excel Calumet. It sells at an advance over the cheap, injurious powders, of which there are many now on the market, but a big saving over the Trust powders.**

**Calumet Baking Powder complies with the pure food laws of all states.**

Where economy and health is an object, Calumet should always be used.

presidential candidate only when it be-  
 gins to go Republican.

**CONSCRIPTS IN AMERICA.**

That troublesome question of what is  
 the matter with the army will not down.  
 Nor do we wish it to down until it is  
 answered satisfactorily. America can-  
 not have a good army until it is so con-  
 stituted that American born men will  
 serve in all its ranks, because they en-  
 joy the service.

The suggestion made by Adjutant  
 General Ainsworth in his annual report  
 to the secretary of war that conscription  
 may be necessary to fill the ranks will  
 not be taken seriously. Conscription is  
 a feature of unenlightened and wasteful  
 despotism or at last resort in times of  
 extreme need. All men are not equally  
 well fitted to become soldiers and in a  
 country like ours where only a small pro-  
 portion of the able-bodied are needed for  
 military service any form of conscrip-  
 tion would prove not only irritating to  
 the citizenship, but unproductive of the  
 best results from the point of view of  
 the army.

Military life is attractive to many  
 men who are of an adventurous disposi-  
 tion. The problem before those who are  
 seeking to fill the ranks of our army is  
 to make its life typically military, to  
 offer to recruits a career satisfying to  
 a love of daring, filled with opportunities  
 for advancement to the man possessed  
 of soldierly qualities. This means that  
 drill must be varied not with house work  
 and janitor service, but with feats of  
 skill and endurance which will add to  
 a military reputation; that the door must  
 be opened to promotion from the lowest  
 to the highest ranks.

If life at army posts could be changed  
 from a monotonous and fruitless grind  
 to an integral part of a career in which  
 advancement would be the reward  
 of ability and work, of conscious and  
 active preparation for service and re-  
 ward, the trouble with the army would  
 disappear.

**MUNISING**

**Y. M. C. A. MATTERS.**

The contest for new members for the  
 Y. M. C. A. closed this week. The team  
 captured by E. Finkbeiner won by the  
 narrow margin of three new names. It  
 secured twenty new members and Hitt's  
 team secured seventeen. The total  
 membership is now 102, which puts the  
 association on a firm basis.  
 Because of a delay in the arrival of  
 the music, the minstrel show will not  
 be given until after the holidays. Elaborate  
 preparations are being made, however,  
 and the committee promises some sur-  
 prises.

D. C. Everest, who is now in Chicago,  
 is looking up the billiard table propo-  
 sition, and it is possible a table may  
 be installed before the holidays.

**ELECTS OFFICERS.**

The retiring president, Hans Hansen,  
 called a meeting of the Viking Ski club  
 for Tuesday evening, to hold the annual  
 election of officers. The result was as  
 follows: President, A. Christofferson;  
 first captain, Albert Quall who succeeds

himself; second captain, T. Holter; sec-  
 retary, Oscar Oie; treasurer, J. H. Pe-  
 terson. Hans Hansen, Ezra Finkbeiner  
 and A. Bjornstall were elected trustees.  
 The membership fee was placed at  
 three dollars alike for boys and men.  
 Ladies will be admitted to membership  
 for one dollar.

The comfortable club house occupied  
 last year is available and will be used.  
 Mr. Christofferson, the new president,  
 is an enthusiastic worker for the suc-  
 cess of the club. He was the local de-  
 legate to the national tournament at Ash-  
 land last year.

**H. S. LITERARY SOCIETIES.**

The high school literary societies held  
 their annual election of officers this week.  
 The following were elected by the Min-  
 erva society: President, Joseph Four-  
 chard; vice president, Regina Drolet;  
 secretary, Fannie Blairdell; treasurer,  
 Ruth Baldwin. The Olympics selected  
 these officers: President, William Clark;  
 vice president, Winnie Barbour; secre-  
 tary, Clinton Wise; treasurer, Emil Bris-  
 sette.

**MUNISING ECHOES.**

H. B. Freeman spent Wednesday in  
 Marquette.

Frank Toher is managing a sawmill  
 at Carlshead.

Mrs. W. Bokman and family spent  
 Thursday at Shingleton.

Mrs. H. B. Freeman has returned from  
 St. Luke's hospital at Marquette.

Oscar Oie and A. Quall spent Thanksgiv-  
 ing with their parents in Ishpeming.

O. La Bounty, W. O. Frost, and P. O.  
 Osterhus left Thursday on a short hunt-  
 ing trip.

Mrs. W. O. Frost and Miss Florence  
 McDougall spent Thanksgiving in Mar-  
 quette.

Master Ward Jenks, of Marquette,  
 visited his grandparents, Mr. and Mrs.  
 A. Ward, the first of the week.

The second annual Thanksgiving ball  
 was given by the local Elks Wednesday  
 evening at the Munising Opera House.

Miss Inez Thornton, who is attending  
 the Northern Normal at Marquette, is  
 spending her Thanksgiving recess at home.

Mr. and Mrs. F. G. Jenks of Mar-  
 quette were the guests of the latter's  
 parents, Mr. and Mrs. A. Ward, Thanksgiv-  
 ing.

The Munising Paper company has  
 closed down its mill for a week. The  
 new intake pipe will be connected up and  
 some repairs made.

The Great Lakes Veneer company's  
 plant has been closed-down this week,  
 while some repairs are being made and  
 new machinery installed.

A union Thanksgiving service was  
 held in the Presbyterian church. Owing  
 to the illness of Rev. Steinger, who  
 was to deliver the annual address, Rev.  
 H. E. Shier preached.

Dr. K. Christofferson of the Soo, who  
 was the guest of a Munising hunt-  
 ing party for the past ten days, came  
 in to eat turkey with his parents Thurs-

day. He will return to the Soo early  
 next week.

Mr. and Mrs. H. E. Shier and Miss  
 Mary Bourne are entertaining at their  
 cottage at Au Train. Miss M. Temple-  
 ton of Marquette, Miss Frances Googins  
 of Chicago, Eugene S. Paulus and  
 Herman Hitt of this city are the guests.  
 A six o'clock Thanksgiving dinner was  
 served.

A wrestling match is being arranged  
 to be pulled off at the opera house some  
 time in January. O. R. Treidway, man-  
 ager of the opera house, has a letter  
 from D. T. McMillan, a former resident,  
 now residing at Duluth, who has accept-  
 ed a challenge from Eddie Syre of Mil-  
 waukee. McMillan desires to meet Syre  
 here, and he writes that the match will  
 be a clean one and on its merits.

Reginald Day, who has been teaching  
 the school at Thomasville, commonly  
 known as Indian town, has accepted a  
 position in the office of the Munising  
 Paper company. It is probable that  
 school at Thomasville will be closed for  
 the rest of the year, as the people there  
 are not disposed to give the teacher  
 suitable living quarters. The attendance,  
 too, has been dropping, showing a lack  
 of interest on the part of the pupils  
 and parents.

Horace Banta, Ted Walters, and Stowe  
 Elliott, make up a hunting party which  
 is occupying the McCann hunting lodge.  
 Rev. J. S. Steinger, pastor of the M.  
 E. church, has been confined to the house  
 with inflammatory rheumatism during  
 the past week. He was unable to take  
 charge of the services Sunday. In the  
 morning there was no preaching service  
 but in the evening the Epworth league  
 conducted a temperance service. Mr.  
 Steinger expects to conduct his ser-  
 vices as usual on the approaching Sun-  
 day.

**PILES CURED IN 6 TO 14 DAYS.**

PAZO OINTMENT is guaranteed to cure  
 any case of Itching, Blind, Bleeding or  
 Protruding Piles in 6 to 14 days or  
 money refunded. 50c

Many sufferers from nasal catarrh say  
 they get splendid results by using an  
 atomizer. For their benefit we prepare  
 Ely's Liquid Cream Balm. Except that  
 it is liquid it is in all respects like the  
 healing, helpful, pain-allaying Cream  
 Balm that the public has been familiar  
 with for years. No cocaine nor other  
 dangerous drug in it. The soothing spray  
 is a remedy that relieves at once. All  
 druggists, 75c, including spraying tube,  
 or mailed by Ely Bros., 56 Warren street,  
 New York.

**DEPUTY GAME WARDEN HAD EVENTFUL TRIP**

**J. B. EDDY HOME IN SOO AFTER CAMPAIGN AGAINST VIOLATIONS OF COMMERCIAL FISHING LAW.**

J. B. Eddy, general state deputy game and fish warden, has returned to his home, following an absence of several weeks of strenuous work among the fishermen on Lake Michigan.  
 Saturday night, Nov. 16, Mr. Eddy drove out to Nine Mile point about 12 o'clock to watch for certain parties who were expected to come and lift their nets, remaining there walking the beach, all night. Charles N. Smith of East Tawas, chief deputy state game warden, left in the morning for Harbor Springs in company with one of the local deputy sheriffs, where they hired a launch and left for Nine Mile point to join Mr. Eddy. Arriving there he was taken on board, and while still watching the net, they noticed two boats of Charles N. Smith's launch had a fish reel for nets and several fish boxes exposed to view so they were able to get very close to the two boats, one of which was a gasoline launch and the other a small steam tug, the Seagull.  
 At this point the occupants of the fishing boats began to get scared and started to get under way first. In order to increase their chances of escape they ran directly across the bow of the Seagull, and in passing the latter, one of the deputies noticed a large catch of trout together with their nets, while the gasoline boat was apparently empty. The chase of the smaller craft was here abandoned and their attention turned to the tug which had in the meantime got under way and was steaming off. A high sea was running off the point, and for a while it seemed almost an impossibility to get the two boats close enough together to board the tug.  
 The pursued dodged back and forth and although a much slower boat than the other, were able to elude the officers. The latter finally ran close enough to pull one of the fish boxes full of nets off the stern of the other boat and discovered that they were trout nets. Finally the pursuing boatmen ran the nose of their craft up against the stern of the other, from which position they could not get away. J. B. Eddy boarded the tug at this point, whereat the fishermen started to throw him overboard. He pulled a gun on them to calm them down, and the capture was practically completed. At the point of the gun the tug engineer stopped his engines and Mr. Smith came aboard, the two boats then starting for Petoskey where they arrived about 3 o'clock Sunday afternoon, quite a crowd awaiting them at the dock. Five boxes of nets, 2,575 pounds of fish, and the boat were confiscated and the men, William and Warren Harris, Mike Sheares, Herman Tysver and Albert Arnold, were arraigned Monday, before a local justice.  
 The original object of their trip was also caught and convicted, the total amount of fines paid to Justice Kreiger for the wardens' arrests aggregating \$150.41, a pretty reasonable two days' work.  
 Wednesday at 5 a. m. following Messrs. Smith and Eddy left Petoskey with a gasoline boat, well supplied with extra gasoline and provisions and headed out into Lake Michigan. The sea was running high and after buffeting the wind and waves for about six hours ran into High island, a distance of fifty-four miles from Petoskey. Complaints had reached the department from time to time that the Eddys were being grossly violated at this point. As soon as they landed there was a great scurrying with the Indians and whites alike, fish nets were buried in the sand and ripe fish spawn was covered and the whole island at once became the scene of great activity and industry. The wardens commenced their search for kegs of salt fish. At first, four were found buried under hay in a warehouse, then a long search through the wet bushes and woods brought to light ten more kegs and the search was continued when bunches of three or four would be found secreted in thickets in cedar swamps and other al-

Presque Isle avenue, yesterday afternoon, nine and a half pound boy.  
 Mr. and Mrs. Alec LaVallee entertained a party of friends at dinner at their home on Bluff street yesterday.  
 Keough's club will give a masquerade ball tonight at Keough's Hall. Sullivan's orchestra will furnish the music.  
 Mr. and Mrs. A. J. Neault, of Chicago spent Thanksgiving in Marquette with relatives and friends, leaving for home last evening.  
 Mr. and Mrs. James Maney and children of Duluth are in the city visiting at the home of Mr. Maney's mother, Mrs. M. P. Maney of Fisher street.

**Meet This Afternoon**—A meeting of the Ladies' Aid society of the Presbyterian church is to be held this afternoon at 2 o'clock at the home of Mrs. F. O. Clark of Fourth street.

**Aid Society Meeting**—The Ladies' Aid society of the Methodist church is to hold a meeting at 2:30 o'clock this afternoon at the home of Mrs. E. C. Quarters of 616 North Front street.

**Baptist Meeting**—The Ladies' Aid society of the Baptist church is to hold a meeting at 2 o'clock this afternoon with the Misses Leeman and Mrs. Smith. Tea is to be served at the meeting.

**St. Mary's Guild Meeting**—A meeting of St. Mary's Guild of St. Peter's cathedral parish will be held at 2:30 o'clock this afternoon at the home of Mrs. Josephine Freiberg of Rock street.

**Guild Meeting**—The Young Woman's Guild of St. Paul's Episcopal church is to hold a meeting at 2:30 o'clock this afternoon at the home of Mrs. C. M. Gooding of 436 East Michigan street.

**Marriage License**—A marriage license was granted by the county clerk Wednesday to Emil J. Erickson and Miss Ragna J. Asgaard, both of Ishpeming. They were married yesterday at Ishpeming.

**Concert Tonight**—The "Little Folks" of the Methodist church are to give their concert tonight at the church. The little ones have rehearsed their parts diligently and it is not to be doubted that the concert will be a great success.

The demand for Vandenberg's fresh milk and creamery butter is increasing daily. (11-20-17)

most inaccessible places. The wardens had nothing to guide them in their search, only a freshly broken twig here and there. The search was continued, covering several miles of territory, until thirty-four kegs of fresh and salted fish were brought to light and the state mark placed thereon. While the search was being made the wind freshened into a gale and came blowing from the north-east. The gasoline boat was compelled to run several miles for shelter over under Beaver island. The rain came with the wind and the night resembled Egyptian darkness. About 10:30 the wind changed and blew a gale from the southwest, leaving the launch without shelter. The little craft made a fight and ran for open water. Many very shallow reefs are at the north of High island, all of which were unknown to the pilot of the little craft. Once the boat floated into the gravel for an instant then a ponderous log came and carried her clear across this shoal into shoals, but turbulent waters; the anchor was cast and the storm was weathered until daylight. The seas were so heavy that the boat could not reach High island, and she then made her way into Beaver island harbor, leaving Smith and Eddy marooned on High island with their thirty-four kegs of fish. They found an Indian who owned a sailboat, but he refused to go. They were forced to press him into service and take his boat and succeeded in working their way into Beaver island harbor late Thursday night, following several hours' fight with the wind and waves. Wet, tired and hungry they anchored the sail boat in the harbor and began their inquiries for the gasoline boat. As soon as they were assured of her safety and the excellent condition of her cabin from her experience of the night previous, they arranged for the crew at the hotel and all went to bed. At 5 o'clock Friday morning they went down to unload their fish and found that the boat had been blown down during the night. A few moments later it was discovered that the gasoline boat had been cut adrift from the dock and was swung at anchor in the harbor. Those who sought to destroy this boat had not discovered she had anchor out as well as having a line on the dock. An examination of the gasoline boat showed that she had been broken into, a fire set in waste and rags saturated with kerosene oil piled on top of a five-gallon can of gasoline. There was also three barrels of gasoline on the boat, one of the barrels having a faucet which was opened and allowed to run over the deck. The engine room of the little boat was so wet that the fire went out before the gasoline can exploded, doing but little damage aside from charring one side of the boat and burning two overcoats hanging in the cabin. A further examination showed that the parties who attempted to burn the boat had broken the engine in many places, destroying all oil cups, sparking device and several castings. Had the launch been burned where it was anchored, it would have burned the dock and the tug Giken lying on the opposite side, with several men sleeping aboard, had she been set adrift and burned the wind would have taken her a few rods across the harbor to a saw mill dock where many thousands of feet of lumber was piled and the mill, lumber docks and all, would have been destroyed. The launch was towed to Charlevoix for repairs and the sail boat was discovered on the south end of High island, about eight miles from the place where she had been left at anchor. She was found with her sails up, anchor gone and no fish aboard. She was rescued from the beach and turned over to the owner. Mr. Eddy then began a search for the fish which he found Saturday morning about five miles from the harbor, secreted in a dense cedar swamp. Farmers were hunted up, but all refused to haul the fish to the harbor, all apparently knew that if they did, they would create enemies. Mr. Eddy then used his official authority and pressed a farmer and his teams into service for the purpose of recovering stolen state property. The fish were safely landed and sold.

I ain't feeling right today.  
 Something wrong I must say.  
 Come to think of it, that's right.

# Don't Worry

The doctors tell us, it's WORRY that kills us. Worry pulls us down faster than we think. Mothers worry themselves sick over their children. A young fellow in love, if the girl says no, can't eat and gets thin. The man that's afraid something is the matter with him without knowing just what it is, loses his sleep and runs down generally. The man in debt gets no comfort out of life at all, unless he has security.

If you cut out the worry you can easily take care of your health. If you've made a mistake that bothers you, make it right as soon as you can. If you CAN'T make it right, tell somebody about it; get the best advice you can. GET RID OF THE WORRY, and you can cure a whole lot of the ills of the body with pure water and fresh air if you use them right. Pay a doctor ALL THE TIME to keep you WELL; don't wait until you're sick before you call him in.

ALL YOUR DEBTS PAID AND A BANK ACCOUNT BESIDES is what you want to try for. A bank account takes the WORRY out of the future.

### ECONOMY IN CONGRESS.

#### THIS THE WATCHWORD FOR THE COMING SESSION.

Leaders Declare That the Public Demand is for Retrenchment—Many of the Plans for Appropriations Will Have to Be Revised—A Long Session With Not Much Important Legislation Expected—President will Avoid Anything That Will Increase Financial Unrest—Measures for Currency Reform to Be Taken Up Early.

Washington, Nov. 28.—Economy will be the watchword of the first session of the sixtieth congress, which will open next Monday. The leaders in both senate and house who are now here agree that expenditures must be kept down to the lowest point possible. They are emphatic in saying that the people of the country would not stand by a spendthrift congress even if the conditions of the United States treasury warranted excessive appropriations. The public demand, they assert, is for retrenchment. The carrying over of this policy means that numerous legislative programs for the expenditure of large sums of money will have to be revised. The estimates of the several executive departments are larger than ever before, and they do not begin to represent the demand for money that had been planned.

The composite view of the legislators now here also is that the session, while it will probably be long drawn out, will not result in a great deal of important legislation. Congress seldom does unusual things at a session immediately preceding a presidential election, and at this time there is the further consideration that the country's condition is in a nervous state. Speaker Cannon's motto will be "Economy and no conservatism." His ideas will dominate the house of representatives and there is every reason to believe that the senate will adhere to the same general plan. Even the president is just now disposed not to ask too much of the legislators, but is determined not to let the session pass without getting something done. He has no thought at this time of pressing for any legislation that might tend further to increase the financial unrest.

The message will ask for currency legislation. It is not known definitely whether the president will propose any particular plan. Leaders in congress have assumed him that they will take up the subject promptly, and he is willing to trust them to work out the legislation. He knows what he wants to accomplish, but he is not certain, it is said, about the best method of doing this.

The president will not abandon his advocacy of a federal incorporation law. He has been advocating this for the last two years. He regards it as essential to the proper control of corporations doing an interstate business. In his message he will also ask for a modification of the Sherman anti-trust law which will permit pooling between railroads. Persons who have talked with the president recently say he is disposed to give the interstate commerce commission authority to supervise all future issues of securities by railroads.

Many bills calling for legislation that failed of enactment during the last congress will be introduced early in the session. Some of them are—  
To make Porto Ricans United States citizens.  
The ship subsidy bill.  
Reduction of the tariff on products of the Philippines.  
Copyright revision.  
Codification of federal revised statutes.  
Removal of customs duties on works of art.  
Swamp reclamation similar to irrigation statute.  
Anti-injunction bill.  
Eight-hour bill.  
Retirement of superannuated federal clerks.  
To establish postal savings banks.  
To establish parcels post.  
For the federal inspection of grain.  
Appalachian and White Mountain Forest reserves.  
To throw the open range of the West into federal reserves.  
Publicity of campaign affairs.  
Some of the bills for new legislation

that will be introduced at the opening of the session are:

For the removal of customs duty on print paper and ground wood pulp.  
For reform in the currency.  
For the federal incorporation of all corporations doing an interstate business.  
Permitting railroads to enter into pooling arrangements.  
For preliminary steps toward the construction of a ship canal from Great Lakes to the Gulf of Mexico.  
For the reorganization of the post office department, providing among other things, for a director of posts who shall hold office permanently.

In addition to these proposed measures, much legislation of importance will be proposed in the appropriation bills. It is the present intention of the administration to ask authorization for three more battleships and several smaller craft; the agricultural department will ask for more money with which to administer the meat inspection law; the war department would like to have ten additional regiments of infantry added to the standing army and provision made for their support; the navy department will be compelled to ask for money with which to equip the battleship fleet back from the Pacific ocean; the war and navy departments have joined hands in asking for increased pay for both officers and men of the army and for the officers of the navy; the agricultural department will ask for more money for use in carrying out the forest reserve policy of the government; the department of justice wants authority and money to reorganize that department and for the employment of a few high grade lawyers to assist the attorney general in the trust prosecutions under way; the department of commerce and labor would like to have commercial agents attached to our embassies abroad.

If one were forced to make a prediction as to what will become of the more important pieces of legislation that died last winter, the probability is that they will not fare much better at the coming session than they did at the last. If such a thing can be possible, the administration will make a stronger plea than ever before that a reduction be made in the duty on products of the Philippines entering the United States. The house will no doubt pass the bill promptly, as it did at the last session, and the senate committee will take care of it, as it did last session, and proceed to pigeonhole it. The insular bureau believes that if the bill can ever be brought out of committee in the senate it can be passed. Most of the new Republican senators, it is believed, will support it if they ever get a chance. There seems to be all prospect of legislation making the Porto Ricans citizens of the United States. They will probably have to continue to be content as citizens of no country. While heroic efforts will be made by the Democrats to force action on legislation providing for publicity in campaign contributions, it is probable that the party in power, with an election confronting it, will not be disposed to let the proposed legislation go through.

The proceedings incident to the organization of a new congress will be rather quiet this year for the reason that there are no contests worth mentioning. All the old officers of the house will be re-elected. Not the slightest opposition to the reelection of Joseph G. Cannon as speaker has arisen. The Democrats may have a little flurry over the choosing of a floor leader, but it seems reasonably certain that John Sharp Williams will be again installed in the position. A good deal of interest will center in the announcement of the make-up of the new committees of the house. It is to be the watch as they existed in the last congress. Mr. Cannon will put in all of next week working on his committees and it seems probable that he will be prepared to announce the make-up of the committee on banking and currency the first of the session so that it may get work on a currency bill.

The senate being a continuing body will be ready for work the minute the vice president brings down the gavel a week from next Monday noon. Fifteen new members, thirteen of whom have never been seen on the senate floor, will necessitate a rearranging of the committees. All the newcomers will have to be satisfied with modest places for the first two or three years.  
Ordinarily congress does not attempt to

do any serious work until after the Christmas holidays, but the call for currency legislation may force it to take up this topic at once. In accordance with the custom of recent years the president's message will be sent in Tuesday, shortly after noon.

### CUBAN POLITICS TANGLED.

#### Hopeless Split in the Liberal Party—Presidential Elections in December, 1909.

Havana, Nov. 28.—With the completion of the enumeration of the population of Cuba, there has been accomplished the first step in the direction of the termination of the American intervention and the reestablishment of the Cuban republic. While officially described as a census, this enumeration was actually an enforced registration of voters, the determination of the population of the island being of secondary importance compared to that of registering all persons entitled to the electoral franchise, to insure the purity of the election of the next Cuban president. No pains have been spared to accomplish this, but pending the difficult task of tabulation the results probably will not be known for some weeks. Taking precedence of all other features of the census is the preparation of the registration lists by municipalities and wards. These, naturally, will be subject to much revision involving considerable delay. Whether the rest of the census will be tabulated here or in Washington is not yet decided, but it is probable that the latter course will be adopted on account of the superior facilities possessed by the United States census bureau. An estimate by one of the most accomplished statisticians in the service of the provisional government places the population of the island at 2,000,000, of whom about 400,000 are foreigners not entitled to the franchise.

To speculate on the outcome of the next election is futile owing to the confusion consequent on the dissensions in the Liberal party and the undefined attitude of the Conservatives. Had the election been held a year ago there is no doubt that the Liberals would have an overwhelming victory and that Alfredo Zayas would have been president of Cuba. Now the Liberal party is hopelessly divided between the followers of Jose Miguel Gomez and Zayas and an excellent opportunity is afforded the Conservative to organize and nominate a leader who will command the respect of the country. The active support of the best native element interests and the moral support of the great foreign property interest, should they obtain the consent of such a man as General Mario Menocal to run for the presidency there can hardly be any doubt that he would attract a great following from the better class of Liberals and would be easily elected. General Menocal's personal business interests are such, however, that it is very doubtful whether he could be tempted to enter the political arena.

An element that may prove to be of prime importance in the coming election is the health of Gomez. It is rumored that the general is afflicted with a dangerous ailment which may compel his retirement from the field, in which event a reconciliation of the Siguelista and Zayista factions is not improbable. Coincident with the completion of the enumeration is that of the new electoral law on the commission of which Colonel Crowder is the head, having been working for months on the subject and the approval of Governor Magoun before being promulgated, so that if tranquility is maintained, which there appears to be no reason to doubt, nothing stands in the way of carrying out the present program of the government, which is to hold the municipal elections in May of June and the presidential election in the following December, thus paving the way for the inauguration of the Cuban president in May and the withdrawal of the American troops in July if conditions should then make it certain that their presence was no longer needed.

A singular feature of the present situation is the utter apathy with which Cubans appear to regard the preparations for the restoration of their republic. At no time since the intervention began has political discussion been so languid.

### PRODUCT OF MANUFACTURES.

Annual Output Valued at \$15,000,000,000—Exports Worth \$1,086,000,000.

Washington, Nov. 28.—Fifteen billions of dollars represent the value of the annual production of manufactures in the United States. After careful estimates were made by experts, Colonel John M. Carson, chief of the bureau of manufactures, was able to make this statement in the annual report of the operations of his bureau just made public. The figures do not represent finished products entirely, but include products in various stages of progress.  
Last year the aggregate value of domestic merchandise exported was \$1,834,000,000, an increase of nearly \$136,000,000 over the preceding year. In this classification "manufactures ready for consumption" are credited with \$1,086,000,000 and these figures are generally accepted as the extent of the exports of manufactures. The report of the bureau, however, groups this classification with those of "foodstuffs partly or wholly manufactured," and "manufactures for further use in manufacturing." The aggregate exports of which last year were \$2,000,000,000 and this amount added to "manufactures ready for consumption," makes the aggregate value of manufactures exported in the year ended June 30, \$1,086,000,000, or more than 58 per cent of the entire exports for that year. Special significance is attached to the increase of nearly \$20,000,000 in the exports of completed manufactures, in view of the fact that the exports of cotton cloths declined more than \$21,000,000, which being entirely in the cotton trade with China. The people are feeling and in that country growing out of alleged outrages against Chinese residents in the United States is assigned as a contributory cause for this decline.

The cottonseed product exports for the year were upwards of \$40,500,000, an increase of \$9,000,000 over 1906.  
The success attending investigation by experts sent abroad has led to the adoption of the policy of specializing investigations of trade conditions in foreign markets.  
One of the obstacles to the enlargement of the export trade is the uncertainty of transit between pieces of production and the seaboard. Merchants in the Orient especially complain that calculation cannot be made as to when goods ordered in the United States will be delivered and in consequence order go to European houses that should come to those of this country. The bureau has been in correspondence with managers of railway and ocean steamship companies with a view to securing more reliable and rapid transit for merchandise destined to foreign countries.  
Demands made by business men for

## Why turn on the heat when the mercury drops if there is no wisdom in wearing a GORDON CAP

Fits the head

The Derby is a new seamless English Golf style, made from finest imported English tweeds and blue or black Kerseys. With fur bands, \$1.50; Hand made, \$2.00. Ask your hatter.

the extension of the parcels post to foreign countries is discussed. It is claimed that this extension would open markets for considerable numbers of American business men for lack of transportation facilities, but which are open to their competitors who have the advantage of the parcels post system.

### RESIGNS FEDERAL OFFICE.

Washington, Nov. 28.—Ernest G. Timme, auditor of the treasury department, has resigned. His successor has not yet been named. Timme, who resigns for personal reasons, was appointed the fifth auditor of the treasury department in 1892, and is from Kenosha, Wis.

### DEFEATED RELAY TEAM.

Fall River, Mass., Nov. 28.—Alfred Shrubbs, the world's champion professional long distance runner, defeated an American relay team of three men here today in a ten-mile race. Shrubbs covered ten miles in 52 minutes flat—one minute and thirty seconds behind his record for the distance.

### U. S. ENGINEER DEAD.

Detroit, Mich., Nov. 28.—Bernard-Hugo Muehle, for thirty-seven years an assistant engineer in the United States service, and one of the authorities on harbors between Detroit and Buffalo, is dead at the age of sixty-six.

### GOES TO WESTERN ROAD.

St. Paul, Nov. 28.—George Goodall, since 1892 general superintendent of the Great Western railway, has resigned to take a similar position on a western road.

### POWERS JURY COMPLETED.

Georgetown, Ky., Nov. 28.—The jury which will try Caleb Powers was completed this afternoon. There are eight Democrats and four Republicans on the jury.

### HOP TOMORROW NIGHT.

The usual Saturday night hop will be held at Presbytery Hall tomorrow evening, with the full orchestra in attendance.

## Upper Peninsula

### Rate Discrimination Charged—

People living in towns on the Upper Michigan border are complaining of railroad rate discrimination. While they are charged forty cents for the transportation of a ten-pound package to Chicago or Milwaukee, shippers in Wisconsin border towns are taxed only twenty-five cents for the same service. The Michigan railroad commissioner will be asked to investigate.

### Promoted by Uncle Sam—

Miss Florence M. Ogden, money order clerk in the Iron Mountain postoffice under three administrations, has received promotion from the authorities at Washington that she has been promoted to similar duties in the much larger postoffice at Springfield, Ills. Such transfers are decidedly unusual, less than half a dozen having been made since the department came under civil service rules.

### Killed an Albino Deer—

White deer are by no means plentiful in Upper Michigan, still it generally happens that at least one freak of this kind is bagged each hunting season. This fall it is Enoch Westerlund of Marquette, Gogebic county, who as a trophy of the chase has brought in an albino doe. The animal was shot a few miles out of town. It weighed 125 pounds. The mounted skin of a white deer that was killed three years ago by a local hunter is on exhibition in a Marquette place of business.

### Signed With Winnipeg—

Frank Switzer, who has been a member of the Soo hockey team, has signed to play with Winnipeg, and will join that aggregation in a few days. Winnipeg is said to have one of the best teams in the Canadian northwest and Switzer's friends are confident he will make good. Since the international league went to the bad the hockey players of the Soo have received offers from all over the country. It looks as if they will be all taken away from the Lake City.

### Broke Canal Record—

The steamer W. M. Mills, one of the new boats which came out a few months ago, broke all canal records this week, when she passed the locks with a cargo of 415,000 bushels of wheat, bound from Duluth to Buffalo. The cargo weighed over 12,000 tons, and is valued at nearly half a million dollars. The Weitzel lock has received the last boat of the season and the water has been pumped out. The Poe lock will handle all the remaining business until navigation closes, in connection with the locks on the Canadian side.

### Child's Horrible Death—

Falling down No. 2 shaft at the Great Western mine, the seven-year-old son of William Cole of Crystal Falls was dashed to a horrible death when the little fellow struck the rocky bottom, 800 feet below. It was one of the most shocking fatalities ever occurring on the Menominee iron range. The father of the child was underground at the time, and when the body had been picked up and taken to the nearby pump-house where Cole was employed he was horrified to recognize the remains as those of his small son who, blithesome and gay, he had left at home only an hour or two before. The bereaved parent carried the little corpse to surface. The youngster had been at play at the mouth of the shaft with a small companion. The boys were rolling

a piece of pipe to and fro. The Cole child was standing with his back to the shaft, and when he tripped over a timber he was plunged headlong into the dark and gloomy depths of the mine workings.

### Addition to Tie Plant—

The work of constructing an extension to the Northwestern tie preserving plant at North Escanaba, by which the capacity of the plant will be considerably increased, has been begun and will be completed during the winter months. The extension will consist of another large vat and its appurtenances. It is expected that the new equipment will be ready to be placed in commission early next spring. At the present plant only the creosote process of treatment can be employed, and it is suitable only for soft wood. With the addition of the new process, it will be possible to treat ties of maple, birch and other hardwoods. The Escanaba tie preserving plant is one of a very few similar institutions now in operation in the United States. The experiment has been watched with much interest and many railway officials have been visitors at the plant.

### SOO CANAL PASSAGES.

#### Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Nov. 28.—[Special.]—The upbound boats passing the canals the last twenty-four hours were as follows: Joseph Gilchrist, 11:30; Northernland, 3; Midland, Prince, 8; Serria, 9; Saunders 11; Ellwood, 1; Rosemont, Pellett, Haddington, 3; Wells, 5:30; Turret Cape, 1:30; Townsend, 5:30; Steinbrener, Robbins, Glenellah, 7.

Constipation, indigestion, drive away appetite and make you weak and sick. Hollister's Rocky Mountain Tea restores the appetite, drives away disease, builds up the system. 35 cents, Tea or Tablets. The Stafford Drug Co.

Some dealers are invariably out of what you ask for and offer you a substitute which they claim is just as good. This dealer is working for his own profit. Go to the honest dealer, who will sell you what you ask for and not try to sell a substitute in order to make a larger profit.

# HON. S. B. HERMAN IS WELL AGAIN

## Noted Oregon Statesman Restored to Health on Recent Eastern Trip.

Hon. Shiller B. Herman, distinguished statesman and legislator of Portland, Oregon, who was recently on an eastern trip, is among those strongly in favor of L. T. Cooper, in the discussion over Cooper and his medicines, which has raged for the past year in cities visited by the young man on his educational campaigns, as he calls them.

Cooper was explaining his new theories and medicines to Boston people during the Oregonian's visit to that city, and in a recent interview Mr. Herman said: "My trip east accomplished more for me than I ever believed possible. It has actually been the means of restoring my health. While in Boston I heard a great deal about this man Cooper and his medicines, and one morning I talked with a Boston banker who told me that he had been relieved by Cooper's medicines after ten years' chronic dyspepsia. For the past twenty years I have been a fearful sufferer with nervous dyspepsia. It has been so bad that it all but forced me to resign from the legislature.

"I was feeling wretchedly that morning, and I made up my mind to try the medicine. I had seen leading physicians without number both East and West. They had been unable to help me in the least, and I no more believed this Cooper medicine could help me than it could bring a dead man back to life. I really don't know why I bought it. It was like a drowning man clutching at a straw.

"To make a long story short, it has been astonishingly successful in my case. Today I am enjoying a sound stomach and perfect health for the first time in twenty years. I can eat heartily without the slightest inconvenience afterward. I have a fine appetite, and sleep well. I am no longer moody and depressed, and my nervousness has entirely disappeared.

"Any man who has chronic dyspepsia owes it to his family to try this medicine."

To all our experience as druggists, we have never seen anything to surpass the famous Cooper preparations.

—Peoples Drug Store, Ishpeming, Mich.

# Ishpeming Department

## ISHPEMING'S SEWER SYSTEM WELL HANDLED

### MAINS ARE FLUSHED AUTOMATICALLY EVERY THIRTY HOURS FROM FIFTY-SIX TANKS, EACH DISCHARGING 250 GALLONS, OR A TOTAL OF 14,000 GALLONS.

The arguments for and against the installing of a sewer system in the Sixth ward have given rise to many discussions as to the efficiency of the system in other parts of the city. It has been asserted that the sewers are not properly flushed, but an investigation would seem to show that the plan adopted by the board of public works is as good a one as is practicable, with the present water supply.

The members of the board of public works and their superintendents have given the matter of cleaning the sewers much study. The method employed is all that can be desired, as any one who will take the trouble to investigate it will ascertain. There are fifty-six automatic flush tanks in the system, with no dead ends anywhere. They were originally set to flush the sewers through twenty-four hours, but the drain on the water system was too great to permit of this. The tanks hold 250 gallons each and with fifty-six in use a total of 14,000 gallons is poured into the sewers every thirty hours, the time it now takes to fill the tanks.

A few years ago, when the matter of flushing the sewers was first considered, the water supply was limited. After the introduction of meters the supply began to increase, and the sewers were then flushed at regular intervals. For the first two years or so the meters were in use it was possible to flush the sewers only once a week.

Under the present system, each tank is connected with the water main by jet meters. They have a hard rubber disc in the end, with an outlet about as large as the lead in an ordinary pencil. When the flush tanks are opened automatically the discharge is equal to that which flows from a six-inch pipe, and the 250 gallons in each tank passes into the sewer in about ten seconds. The traps in the tanks are set so that all of them do not empty at the same time.

In addition to the 14,000 gallons of water passing through the system every thirty hours there is a constant flow of a much greater quantity of water from Partridge Creek, which enters the system at the Consolidated Fuel & Lumber company's yards on Third street. The volume of water entering at that point has never been measured, but it amounts to many thousand of gallons daily.

When the proposed extension to the Sixth ward is finished the system will be quite complete. The main trunk sewer is six feet in diameter, none of the principal laterals are less than twenty inches. There are 252 catch basins in the city.

Frequently complaints are heard regarding the discharge of gases from the catch basins. This is more noticeable in the fall of the year than at any other time. The board of public works has several times found it necessary to remove catch basins in parts of the city where the houses are not connected with the system, because of the abuses practiced by the occupants. All sorts of filth has been dumped into or near the openings of the catch basins, necessitating much extra work on the part of the highway department to keep them clean.

## ATTRACTIVE PARADE.

### Hancock Elks Will Be Given Big Reception Tomorrow Evening.

The members of the Ishpeming lodge of Elks are showing much interest in the parade to be given tomorrow evening, preceding the minstrel performance at Ishpeming theater by fifty members of the Hancock lodge. Some of the Hancock Elks will arrive on the afternoon train, the others reaching here at 6:30. The parade will be under direction of Captain S. H. Collick, who will be aided by three or four other military men.

A delegation will meet the Hancock party at the station, escorting them to the lodge headquarters in the Anderson block, where they will be served with lunch. The parade will start from the hall at 7:30. Captain Collick intends to counter march the Elks from a point on Main street above the Sellwood block to the intersection of Cleveland avenue, in order that those in the front may view the procession. A large quantity of roman candles, red and green fuses, calcium lights, etc., arrived yesterday. The fuses for the streets will burn for fifteen minutes.

The arrangement committee decided at its meeting early in the week to place the banquet in E. C. Cooley's hands, but inasmuch as an unusually large attendance of Elks is expected, Mr. Cooley, with the consent of the committee, has turned the affair over to the ladies of Grace church. It is expected that from 200 to 300 Elks will be entertained.

The advance sale of seats will open this morning.

## BALL A GREAT SUCCESS.

### Nearly 400 Couples Attended Firemen's Party Thanksgiving Eve.

Only once before during the seventeen years that the Ishpeming fire department has conducted annual parties was the attendance larger than that which assembled Thanksgiving eve at Braastad's hall. The largest crowd that ever attended a firemen's ball was present. There were in the neighborhood of 1,000 people present. Wednesday night nearly 400 couples attended. The floor was so crowded that the dancers had little room. Almost half of the dancing space was taken up by people who could not be accommodated with seats.

The hall was attractively decorated with ground pine, American flags and firemen's lanterns and trumpets. The dancing started at 9 o'clock and continued until nearly 5 o'clock yesterday morning, most of the dancers remaining until the last extra waltz.

The ladies of Mrs. F. J. Baker's division of the Presbyterian church, who served supper, received much praise for the manner in which they handled this feature. The patronage was larger than the ladies expected.

## OPERA WELL RECEIVED.

### Ishpeming Talent Greeted by a Packed House Last Evening.

The fifty Ishpeming people who last evening produced Willard Spenser's comic opera, "Miss Bob White," were greeted by the largest audience that had assembled at the theater in some months. The opera was enthusiastically received and the players were obliged to respond to certain calls. The principals took their parts well, and some of the drills were unusually well executed. The costumes were as attractive as are seen with most of the traveling opera companies, and many of the stage pictures were effective. In the third act special lights, with Japanese lantern decorations were used with excellent effect.

The opera will be repeated this afternoon, starting at 2:30, and another large audience is expected. The prices will be fifty cents for adults and twenty-five for children, good for seats in any part of the house.

## DID RAPID WORK.

Contractor Wilson has suspended work on the Republic high school. The walls have been extended to the top of the first story and practically all of the rough material needed for the building has been assembled. Mr. Wilson did unusually quick work, as his men worked less than forty days, including the time taken for the excavating, which was done under contract by William Treblelock. Mr. Wilson will resume operations early in the spring and he expects to complete the building by the first of July.

## BLUFF STREET SEWER.

William Treblelock, who is to install about 3,000 feet of ten-inch sewer pipe extending from South Main street to W. H. Johnston's residence, passing through Bluff street, has excavated the trench for all but 200 feet of the distance. There has been a delay in the arrival of the pipe, which was shipped from Akron, O., Nov. 6. The work can be completed within one week after the pipe arrives.

## ISHPEMING IN BRIEF.

George A. Newett left Wednesday night for Chicago and other points, to be absent a few days.

Dr. Gibson of Republic attended the funeral of the late Mrs. Ellen R. Kennedy in this city yesterday.

Albert Quall came up from Munising to spend Thanksgiving with his parents. He will return home today.

William G. Mufur left Wednesday night for Ely, Minn., where he will spend a few days visiting relatives.

Mrs. Michael Powers left Wednesday night for Hibbing, Minn., where she will spend a short time visiting her two sons, John and Gregory.

The Misses Ames Powers, Catherine O'Brien and Ruth Alley, are in the city on their Thanksgiving vacation. They are teaching in Baraga county.

Alfred and Arthur West and their sister, Miss Anna M., spent Thanksgiving with her brother-in-law, Dr. M. D. Roberts and family, at Hancock. Alfred returned last night, but the other two will remain until this evening.

The Rough Riders and the Beavers did not play the game of football announced

The price of the Inner-Player is very reasonable and we will take your old instrument in exchange as part payment. Let us demonstrate this wonderful instrument to you at our store.

217 Main St. CABLE PIANO CO., Ishpeming

## Upper Peninsula

### Logging Camps Closed.

In keeping with the times, Charles Hebard & Sons, lumbermen, of Philadelphia, are greatly curtailing woods operations in Upper Michigan. A number of logging camps have been closed, and some 250 men have been discharged. The winter's cut of timber will be much smaller than usual, and it is understood the big sawmill at Pequaming will be operated next season on single shift only.

### Woman's Remarkable Escape.

Kicked in the face by a horse, Mrs. Albert Gross, wife of a farmer near Grand Marais, came within an inch of death. Had the blow from the iron-shod hoof struck the base of the temple, it is believed it would have been fatal almost instantly. As it was, the woman was knocked unconscious and she will carry to her grave the marks of the encounter. The horse was a stray animal that had wandered into the farmer's orchard. It attacked Mrs. Gross when she attempted to drive it from the premises.

### Kicked by a Deer.

Richard Hartwig of Hermansville, is perhaps the first upper peninsula man in history to get kicked in the face by a deer and then allow the animal to escape. A severe bruise on Hartwig's cheek, corroborated by the statements of his two hunting companions, furnishes the proof for the story. The Hermansville hunter, after securing a couple of rabbits near the camp where he was hunting and becoming tired of the strenuous work, entered a thick clump of bushes and sat down to wait until a deer came along. While he was partly in a doze, the object of his wait crashed through the brush, planted one of its hoofs almost full on the hunter's face and then dashed away. Hartwig claims he was up in an instant and attempted to draw a bead on the deer, which had darted into the woods.

### Blou Accidents Challenge.

Eddie Blou, the Escanaba wrestler who defeated Peterson, champion catch-as-catch-can wrestler of the head of the lakes, in a mixed wrestling bout with the members of the Escanaba Athletic club, has again agreed to meet the Duluth wrestler within a period of three weeks. It arrangements for the second meeting of the two men are made the bout will be similar to that first arranged, giving each wrestler an opportunity to show his skill in both the Cornish and catch-as-catch-can styles of the game. Blou has established his reputation principally as a Cornish wrestler, but by staying with Peterson for eleven minutes fifteen seconds in the catch-as-catch-can style of the game he displayed a versatility that was most pleasing to his friends, and should the two men meet again Blou will be the favorite in the betting.

### Believe He Will Turn Up.

According to a southern Michigan paper, the people of Columbiaville do not believe James Purdy, the cattle buyer who mysteriously disappeared at the Soo last month, was murdered. They expect to hear of his turning up in some other part of the country in the near future. Last spring Purdy sold his forty-acre farm west of Columbiaville to Henry Blue for \$2,900. The amount he received in cash was \$2,500 and a note for \$400 was given payable Nov. 5. Prior to leaving home Purdy told Blue that when the note became due to take enough coal to the Purdy house to last the winter and pay the balance of the note to his wife in money. Further attachments papers have been placed in Sheriff Conley's hands to serve on Purdy's Columbiaville property. The parties making the attachment are Imhoff, Lauer, Fieldhouse & Co., supposed to be Buffalo parties. The belief in Columbiaville is that, worried by business matters, Purdy has merely gone away. Mrs. Purdy who is watching every mail and is

## Negaunee Department

### SEVERAL BUILDINGS NEARING COMPLETION

**OLIVER IRON MINING COMPANY HAS EXPANDED LARGE SUM FOR IMPROVEMENTS AT REGENT MINES--CONTRACT HAS BEEN AWARDED FOR NEW STEEL SHAFT HOUSE.**

All but one of the Oliver Iron Mining company's new buildings at its Regent group of mines are practically completed, and most of them will soon be in use. The exterior work is finished at all of the buildings, and the ground has been broken for an addition to the engine house at the Blue mine. The latter will be the last of the structures to be erected this year and will complete a group of buildings that will serve the mines for several years to come. The addition to the Blue engine house will be forty-two by eleven feet in size, brick veneer between the joists and sheet iron outside.

The buildings now being finished are two dry houses, one at the Blue, and the other at the Prince of Wales, a combination office and warehouse building, boiler and engine houses, and a combination blacksmith, machine and carpenter shop at the Prince of Wales. The dry houses will be among the finest in the Lake Superior region, having all the very latest improvements, including steel lockers, shower trays, etc. Each building has 250 lockers. It is expected that the men can use both dry houses within two weeks.

Considerable new equipment has been purchased for the combination shops building and a new hoisting engine, drums and air compressor are to be installed for the Prince of Wales. The boilers are now being bricked in and the compressor has not yet been delivered. It will be two or three months before the new plant will be ready for operation. The new coal trestle recently completed by Henry Harquette, Marquette contractor, at the Prince of Wales property, has been filled. It is 360 feet in length and has a capacity of over 5,000 tons.

The Oliver Iron company recently gave the American Bridge company a contract for the construction of a steel shaft house at the Prince of Wales. Work was started on the job a few days ago. The piers are now about completed, and part of the steel has arrived. A crew will arrive here within a few days to begin the construction work.

The contract for the erection of the addition to the Blue engine house has not yet been let. The company will put in the foundation.

### BOYS DOING DAMAGE.

Youngsters Annoying People in Certain Parts of the City.

The old store building on Park street, owned by the Oliver Iron Mining company, has been badly damaged by boys living in the neighborhood. Practically every window has been broken and if the youngsters are not soon curbed, the company will have to spend a considerable sum repairing the structure.

The Mining Journal has been advised that the boys who are using the Oliver Iron Mining company's property as a target have also been annoying a number of people in that part of the city for several weeks past. They seem to take particular delight in damaging fences. The names of most of the boys are known to some of the property owners, and they will have some of them arrested if they do not mend their ways. It is said that some new fences that were put in during the early part of the season have been damaged, the boys evidently making no distinction between the old and the new.

### LARGE CROWD AT BALL.

Negaunee was well represented at the Ishpeming fire department's seventeenth annual ball at Brastad's hall Thanksgiving eve. Most of the Negaunee people returned on a special car leaving Ishpeming at 3 o'clock. Another party went to Ishpeming last evening to witness the production of the comic opera, "Miss Bob White," by local talent.

### DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news papers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospitals and in private practice, and has proved so successful in every case that it is a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### TAXES TO BE HIGHER.

Rate Will Be \$2.07 Per \$100 Valuation, an Advance of Thirty-one Cents.

There will be an increase of thirty-one cents on each \$100 valuation in Negaunee's taxes this year. The rate last year was \$1.76 and this year it will be \$2.07. Even at the latter figure the rate will be considerably lower than the rate in Ishpeming, where the taxes will be higher than ever before.

The total sum to be collected here will be \$128,635.31, compared with \$102,587.27 last year. In Ishpeming over \$210,000 is to be raised, but the increase there is proportionately less than the increase here.

The advance in taxes in Negaunee is largely due to the erection of the new school. The school district was voted a larger sum than was ever before raised for school purposes and the greater part of the difference in the total of the tax rolls this year and last is found in the school fund's increase.

The expenditures in the highway, water and electric light departments were also heavier than usual last year, and the coming year will probably see further increases in the three departments, as much new work is contemplated. The work in the highway department last season was the most important, as well as the most substantial, ever done. The roads and streets were repaired with greater care and at greater expense than during any previous season, but in the end the city will be money ahead by raising the standard of this work.

No heavy outlays will be necessary the coming year, nor for some years, in fact in repairing the roads and streets gone over last season, but there will be nearly as much new work to do next summer as was done last. The Palmer road will need attention, and there will be a demand early in the spring for improvements on other highways.

### HUSTLING THE WORK.

About seventy-five extra men are employed at the power station of the Marquette County Gas & Electric company, aiding in installing new machinery at both the electric and gas plants. The erection of two additions to the main building, one at the rear for the new boiler, and the other at the front for the batteries, switchboard, etc., is being pushed. Both are solid brick structures. The addition at the front was enclosed Wednesday. The batteries and equipment for the switchboard arrived early in the week and their installation will be started at once. The new turbine will be placed on the foundation within a few days, but it will be nearly two months before it will be ready for operation. One of the new cars has been out of commission for two or three days past. The motors are being removed from it and are to be placed in the new snow plow.

Rings Dyspepsia Tablets do the work. Stomach trouble, dyspepsia, indigestion, bloating, etc., yield quickly. Two days treatment free. Ask your druggist for a free trial. The People's Drug Store.

### LOCAL LACONICS.

Arthur Sawledge arrived here from Chicago yesterday, on a few days' visit to his parents.

Sleighs and cutters were in use yesterday. The first sleighing of the season started in on the 12th and lasted for more than a week.

The Mitchell Methodist and Presbyterian church congregations united yesterday morning in attending Thanksgiving services at the Presbyterian church. The church was filled.

The moving pictures of the White-Thaw tragedy attracted large audiences to the Bijou theater yesterday afternoon and evening. They will be the leading attraction at the house again tonight.

The stores of the city were open yesterday until noon. A few closed a little earlier, but the agreement in effect between the business men and their employes was that the stores should close at 12 o'clock.

Will Stromer won the turkey offered at Orr & Tompkins' alleys as a prize to the bowler having the largest score in three games during the week before Thanksgiving. In his first high game he put down 234 pins and in each of the other two his score was 221, making a total of 676.

The second of the series of dancing parties given Thanksgiving eve by the league team of the local camp of the Modern Woodmen of America was an enjoyable affair, but the attendance was not as large as it would have been if such a large number of the young people had not taken in the firemen's ball at Ishpeming.

There was no work at any of the mines yesterday, and as a result many of the day in the woods, "sawyer hunting." The hunters are not sending in as many deer as were received here a week or so ago, nor are the consignments of carcasses passing through here enroute to lower peninsula points as large as they were early last week.

The entertainment given last night by the Sunday School society of the Mitchell Methodist church attracted an unusually large audience. A number of the children, as well as several adults, took part in the program, which was one of the best ever given under the society's auspices. The proceeds will be used to purchase Christmas books for the children.

### HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 50 cents per bottle. Sold by The Stafford Drug Co.

Some manufacturers do not advertise because they know their goods are not the best, but depend on the unscrupulous dealer who for the extra margin of profit substitutes theirs for the advertised article, claiming they are just as good. Don't be fooled--insist on getting what you don't for.

## Upper Peninsula

### Banner Crop of Peas--

A crop of 325 bushels of peas was the yield harvested this fall from ten acres of land on the farm of Eph. Palmer at Fickford, Chippewa county. It is believed this establishes a record for Upper Michigan.

### Prominent Deer Hunters--

W. D. Cantillon, general superintendent of the Chicago & Northwestern railroad; his brother, Joe Cantillon, manager of the Washington baseball team; Charles Comiskey, president of the Chicago Americans, and a number of friends have been hunting deer in Gogebie and Vilas counties. It is said that every man in the party has been successful in bagging at least one deer.

### Turkey Shoot Hit--

It is a strange thing these days when the prevailing financial stringency is not held responsible for the abandonment of some project or other involving the expenditure of capital. About the limit in this regard is reported from Pentago, a sawmill town in Iron county, where "owing to the stress of the money market the big turkey shoot advertised for Thanksgiving Day" was declared off until another year rolls around. It is expected that when this news reaches the ammunition factories an extensive curtailment will be ordered in the production of cartridges.

### Mining Fatalities--

It was in peculiar manner that John Bjorki, a trammee, met death at the Dunn mine at Crystal Falls. A chunk of ore striking a steel bar which he was manipulating, the rod was knocked out of the man's hand with such force that when it hit him on the chin he was killed instantly. Working on his first shift, Adam Pampula, a trammee at the Pabst mine, Gogebie range, met with instantaneous death when falling ore struck him. He had only recently arrived from Finland, where a wife and four children were anxiously looking forward to the time when he would have earned money enough to send for them.

### Made Complete Getaway--

Had the three men who escaped from the Chippewa county jail been swallowed by an earthquake they could not have disappeared more completely. Although every effort to locate them has been made not a trace of the men can be found. If they did not leave by boat they are probably somewhere in Canada. Many theories are advanced as to where the men obtained the saws with which they cut the bars. One is that the women from Trout Lake, who were on the second floor and had been visited by friends during their imprisonment, passed the saws through a hole in the floor. Deputy Sheriff Andrew Taylor said that he did not believe the saws were secured in this manner. He is inclined to the belief that they were smuggled in by somebody who called at the jail to see the men. Sheriff Lipsett was in the building. Part of the time he was sitting in the office, reading. The window through which the men escaped is but a short distance from the door leading from the office into the yard, but so silently did they work that not a sound was heard. There were eight or nine prisoners in the jail at the time who knew of the plan to cut the bars, but they remained silent. "We have no trace of the men," said Lipsett, "but we are leaving nothing undone that will lead to their recapture." Deputy Sheriff Taylor believes the men went directly from the jail to the river. As a result of the jail delivery the officers have come to the conclusion that new bars should be placed on all the windows of the county bastille. The bars installed in modern jails have a steel jacket that makes it impossible to saw the metal without making enough noise to attract the attention of persons anywhere in the vicinity. It is also argued that an examination of the bars every day by the turnkey would be a good thing.

### DOWNWARD COURSE.

Fast Being Realized By Marquette People.

A little backache at first. Daily increasing till the back is lame and weak.

Urinary disorders quickly follow; Diabetes and finally Bright's disease. This is the downward course of kidney ills.

Philip Coombe, living at 115 Vine St., Ishpeming, Mich., says: "I was a miner for many years and the hard work told on my back. I gradually contracted kidney trouble and had a great deal of suffering from backache. The kidney secretions showed unmistakable proof of kidney trouble. My rest was frequently broken at night and many a day I have arisen in the morning tired and unrefreshed. Always looking for a remedy for my trouble, I finally got Dr. Doan's Kidney Pills and the result of their use was a cure, which has proven permanent. I have recommended Doan's Kidney Pills on many occasions."

Plenty more proof like this from Marquette people. Call at The Stafford Drug Co.'s store and ask what their customers report.

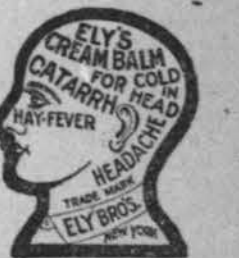

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name--Doan's--and take no other.

Mining Journal Wants Bring Results

### MORE PRISONERS TO MAKE OVERALLS

CIGAR CONTRACT EXPIRING FIRST OF THE YEAR NOT RENEWED BY BOARD OF CONTROL.

### L. S. SHAUER GETS CONVICTS

Franklin Cigar Co. Given Four Months in Which to Close Up Business—Long Fight by Cigar Makers.

The board of control of the Marquette prison has lately closed a contract that will result in a marked change in the employment of the convicts. A five year contract with the Franklin Cigar company expires the first of January next. It was the decision of the board not to renew this contract. Instead the men were given to another contractor at the prison, L. S. Shauer, who is engaged in the manufacture of overalls. Although the contract of the Franklin company expires the first of the year, the company has been given four months to allow it to work up raw material contracted for, dispose of stock and make other arrangements, withdrawing from the prison. Thus it will be sometime after May 1 before the convicts now manufacturing cigars are put to work on overalls. The new contract is an advantageous one for the state, as the income from the contractor will be much larger, number of men being equal, than was obtained under the terms of the old cigar contract.

When the change in the employment of the convicts is finally made there will be but two industries at the Marquette prison, the manufacture of overalls and the manufacture of packing boxes and crates, which is now being carried on by the Marquette Box & Lumber company, a concern under the management of W. B. Ransom in which Marquette capital is largely interested. The larger part of the men will be employed on the overall contract, to which the entire new shop building, the lower floor of which is now occupied by the Franklin Cigar company, will be given up. This is the shop erected to replace the structure destroyed by fire a few years ago.

### Should Please Cigar Makers.

The cigar makers of the state should be pleased by the decision of the board of control to put an end to cigar making at the Marquette prison, as the making of cigars there has been a constant cause of vexation and concern to them for many years past, and they have done considerable agitating from time to time in an effort to have it abolished. For the most part they were unsuccessful, but they scored a fleeting victory about two years ago, when one of the trades unions in the lower part of the state secured a ruling by the supreme court that under the constitution it was illegal to teach trades in the prisons of the state. As a result of this ruling, Attorney General Bird instructed the officials of the Marquette prison to put no more men at work on the cigar contract, unless they were cigarmakers before they entered the prison, cigar making being ruled to be a trade within the meaning of the constitution. The making of cigars continued, however, as there was nothing in the ruling to prohibit their manufacture by the men engaged on the contract, who had already learned the trade.

In the last state election the people voted on a constitutional amendment covering this question. The proposition was "shall the constitution be amended so as to permit the teaching of trades to convicts?" On this square issue the force of organized labor was thrown against the proposal. However, the amendment carried by a large majority, the people generally being for it. The amendment carried in all the counties in the state, as it is now recalled, though there may have been two or three exceptions. This amendment removed the embargo on the teaching of trades to convicts, and left the boards of control free to employ them as they wished.

The question of convict labor will doubtless be considered by the present constitutional convention. The expression of the people in their vote on the amendment referred to will likely be the convention's guide, and the present system will probably be retained.

### Prison Boards Follow Policy.

The prison boards and prison officials follow the established policy in regard to the employment of convicts. They do not initiate. Their attitude is that of men who simply carry out orders. It is, so far as has been ascertained, the desire of the people and legislature that the convicts be employed on productive labor, and the boards take steps to employ them on the best terms they can get. Many protests are addressed to the boards and prison officials, but they are powerless to take any action in regard to them.

### SERVICE IS WELL ATTENDED.

Large Gathering from Three Congregations at Baptist Church.

A large gathering, in which were represented the Baptist, Methodist and Presbyterian congregations of the city, attended the Union Thanksgiving service at the Baptist church yesterday morning. Rev. J. M. Rogers, pastor of the Presbyterian church, presided at the service and the benediction was delivered by Rev. Ames Maywood, pastor of the Methodist church. Rev. Maxson presided at the Union Thanksgiving service at Ishpeming.

Rev. Maywood's sermon was based upon the text "Blessed is the Nation Whose God is Jehovah. In it he reviewed the history of the nation from the military standpoint, then the political, industrial, intellectual and social and finally the religious, telling the part that religion had played throughout. The music was given by the Baptist church choir, with two anthems.

It is deliciously palatable, agrees with the weakest stomach, contains the most soothing, healing, strengthening and curative elements. Makes you well and happy. Hollister's Rocky Mountain Tea, 35 cents, Tea or Tablets. The Stafford Drug Co.

### IS PAINFULLY HURT.

James Carpenter Falls from Ladder and Ailments in Box of Scrap Iron.

James Carpenter, of 342 Morton street, was seriously injured yesterday when a ladder from which he was working at a second story window at his home slipped. As he fell his feet became entangled in the ladder and he struck on his face in a box of scrap iron which was standing directly beneath the window. At the time of the accident Mr. Carpenter and his son, William, were adjusting storm windows to the house. The younger Carpenter was in the basement of the house getting out the windows when he heard a crash. He ran outside and found his father attempting to extricate himself from the box of scrap iron. Mr. Carpenter had mounted the ladder and was clearing away the snow and ice from the outer window sill when the ladder slipped. He suffered a number of deep, painful gashes about the head and a number of bruises which will confine him to his home for some time.

### VERN CHAMBERLAIN STILL IN THE LEAD

INDICATIONS ARE THAT MARQUETTE BOY WILL WIN WASHINGTON TRIP CONTEST.

In a communication dated Nov. 25 from the Northwestern Farmer, the Marquette paper which is holding the Washington trip contest, Vern Chamberlain is informed that he is leader in the contest, which still has two months and a half to run.

### Seven Districts in Contest.

The contest, which is a method adopted by the paper to get new subscribers, was started several weeks ago. The Marquette paper announced that in February it would take seven boys to Washington and the seven were to be chosen from seven districts in the upper peninsula and northern Wisconsin. All the boys in these seven districts were invited to get new subscribers, each subscription counting for a certain number of votes.

The boys who receive the largest number of votes in the various districts will be the ones to go. The party will be under the care of C. W. Mason, editor of the paper, and on the trip the boys will not only visit a number of historic and other points of interest and see the senate and congress in action, but it is also promised that each of them will be presented to President Roosevelt. United States Senator William Alden Smith is president of the company which issues the Northwestern Farmer and while the party is in Washington the boys will be his guests.

### Chamberlain in Lead.

Vern Chamberlain, who is the son of Frank Chamberlain of 131 Rock street, was one of the first boys to become interested after the contest was announced and from the start he has been working faithfully. Several weeks ago David Murray also entered the contest and it is stated that he also is among the leaders. In the letter which Chamberlain received is stated, "This places you again in the lead in the race and you are somewhat ahead of any other contestant."

### MASSONIC BALL LAST NIGHT.

First of 1907-08 Series to Be Given by Masons Held Last Night.

The first ball of the 1907-08 series, which is to be given by the Marquette Masons, was held last night in the Masonic lodge rooms in the Opera House block and was well attended. Following the custom of former years a series of ten balls is to be given by the lodge and the Thanksgiving ball marked the beginning of the series. The balls are in the hands of an arrangement committee composed of George W. Tucker, chairman; K. P. Brooks, Clarence Brown, Harry Price and J. B. Reedy. The music last night was furnished by the Sullivan orchestra. Late in the evening refreshments, consisting of cold ham and tongue, celery, bread and butter, olives, pickles, fruit and coffee, were served.

The remaining balls of the series are to be held Dec. 6, and in 1908, Jan. 1, Jan. 17, Feb. 7, Feb. 21, March 6, March 20, April 3, and April 24.

### SILVER ANNIVERSARY.

Marquette Order of Modern Woodmen of America Plan Celebration.

The silver anniversary of the organizing of the Modern Woodmen of America is to be celebrated by the lodges of the order early in January. It is stated that most of the lodges throughout the country will celebrate the day on Jan. 4, but it was announced recently that the Marquette lodge will hold its exercises on some other date. The reason is that the regular meeting falls on Jan. 4 and also on that date a class of candidates are to be initiated into the order. The celebration in Marquette will probably take place some day in the week following Jan. 4.

A number of plans are now being made by the local order for the celebration. Recently the preparations were placed in the hands of an entertainment committee. This committee is composed of C. H. Krieg, A. W. Moore and E. Peterson. Additional plans are to be discussed at the regular meeting of the order which will be held a week from tomorrow.

It is a well known fact that persons living in the Pine forests do not suffer from kidney diseases. One dose of Pineules at night usually relieves backache. 30 days' treatment, \$1.00. Your money refunded if not satisfied. Sold by The People's Drug Store.

### STORM SASH.

We make all sizes on short notice. Don't wait. Consolidated Fuel & Lumber Co. (4-27-11)

### PIANO TUNING.

Telephone Bell 676 for G. R. Watts. Pianos tuned by the year at reasonable rate. (11-23-1m)

When you ask for an advertised article, see that you get it. Refuse imitations.

### TO HOLD TEACHERS' INSTITUTE MONDAY

SCHOOLS WILL BE CLOSED IN AFTERNOON—PUBLIC INVITED TO THE EVENING SESSION.

The Marquette Teachers' Institute for the teachers of the schools of the city is to be held at the high school Monday afternoon and evening. The regular morning session in the various schools will be closed in the afternoon for the institute.

The institute is one of a series that is being given throughout the upper peninsula and following the one to be given here, another is to be held the following day at Ishpeming. The afternoon session Monday is primarily for teachers. The evening session will be of general interest and both the teachers and others interested in the schools have been asked to attend.

Addresses are to be made by Prof. Laird of the department of pedagogy of the Ypsilanti Normal school, Professor Scribner, superintendent of schools at Ishpeming and Prof. Kaye of the Northern State Normal. They will speak both in the afternoon and in the evening.

### MARQUETTE HAS ONE TOO.

Merced Hotel Man Has Stuffed White Deer, Says Milwaukee Paper.

A report published recently in a Milwaukee paper is that a hotel proprietor by the name of Frank McGinnis of Merced has on exhibition at his hotel a stuffed white deer, said to be one of the few rare specimens of the white deer now left in the country. In this connection it is not probably known that Marquette has a white deer. The one in Marquette is owned by F. LaBonte and is on exhibition in a glass case in his saloon on North Third street.

In the report from Milwaukee it is stated that the white deer owned by the Merced hotel man was shot in Manitowish county some years ago and is the only one ever shot in that county. The LaBonte deer was killed a number of years ago and has been in Marquette ever since. It is pure white and is an excellent specimen. The Merced hotel man, it is stated, places the value of his deer at \$1,500. While no definite sum was stated, it is said that Mr. LaBonte does not place any such value as this upon his deer.

### ENGAGEMENT CLOSES TOMORROW.

"Michael Strogoff" to Be Given Tonight by MacLean Bryant Company.

"Granstark" was given last night by the MacLean-Bryant company and drew a full house. The play is one of the best offerings of the company and it was well received. The company is meeting with more and more favor. At the Thanksgiving matinee yesterday "Prince Kaif" was given and it pleased a large audience. Tonight the celebrated Russian play "Michael Strogoff" is to be presented. The story relates the terrors and the fearful sufferings of victims of the Siberian prison system. At the matinee tomorrow "The Silent Witness" is the offering and tomorrow night "Heart of the Ozark" will be given. The Saturday night performance closes the company's Marquette engagement.

### KILLED MUSKRAT.

William Molby Kills One With Kick in Barn of Alex LaVallee.

William Molby, who is employed at the LaVallee bakery as delivery boy, yesterday bagged a fullgrown, well-fed muskrat in the barn behind the LaVallee residence on Bluff street. He uncovered the animal's retreat when he moved some boxes in the barn and as it started to run away he managed to dispatch it with a well directed kick. The pelt is being held as a trophy by Oliver LaVallee.

How the animal came to be so far away from water when it was discovered is a problem for the nature fakirs. It appeared to be in good condition and it is improbable that it was driven into the city by hunger. It is suggested that it was probably making its way to some waterway retreat when it was overtaken by daylight and sought refuge in the barn.

LAMPHER FUR LINED COAT

### Fur and Fur Lined Coats

We show the best makes in Fur and Fur Lined Coats. Fine imported Kersey Shells, Murmot, Russian Mink, Blended Muskrat Linings with Blended Musk and Otter Collars and Facings.

# People Are Talking About This Great Genuine Closing Out Sale!

As they have never talked about any selling event before, and all their words are words of praise, those who have been here have come again, and they have advised their friends to come also, for they realize that they will never get such a buying chance as this again.

## Ladies Come Tomorrow For Coats, Skirts, Furs

Come with the crowds tomorrow, come for Stylish Coats, Skirts, Fine Silk Waists, Fur Scarfs, Muffs, Fur Sets and Fur Coats, at prices that are actually marvelous. All garments new and stylish, the cold weather just at hand, and a chance to get the very garments you want at a saving of a third to a half. Surely such an offer cannot help but create the most intense interest. No wonder the crowds come; no wonder tomorrow will make most of these stylish, high grade, perfectly tailored garments change their ownership. Come without fail—tomorrow for unmatched garment values.

302 Front St., Next Door to First National Bank. **J. J. CARROLL & CO.**
