The Mutual Life Insurance Company

of New York

Organized in New York State 1842.

Began Business 1843.

The Record of 1908

The fiscal year ending December 31st, was pre-eminently a prosperous one for the policyholders of this Company. In every material respect their interests have been advanced.

Favorable features of the year may be noted as follows:

The assets are now \$539,038,968.13, an increase of \$44,861,947.10. The total net reserve for outstanding policies and annuities is \$433,137,-716.00, an increase of \$13,042,974.00.

The reserve held for payment of deferred dividends and other contingencies (so-called "surplus") is \$85,844,991.20, an increase of \$28,314,221.75. The premium income for 1908 was \$58,994,653.29, an increase of

\$2,355,453.09. The total income for 1908 was \$84,880,026.81, an increase of \$3,705,552.96. The new insurance paid for (not including revived) was \$93,926,992.00.

an increase of \$45,206,942.00. The interest and rents received were \$24,300,559.94, an increase of

On the other hand, the death claims paid during the year were \$21,664,819.77, an increase of \$1,629,213.04.

Increased Dividends.

There has been appropriated for dividends to be paid in 1909 the sum of \$11,092,282.38.

This sum greatly exceeds the largest amount ever before paid as dividends in a single year by any company. The increase made in the annual dividends of The Mutual Life in recent years, as a result of changes and improvements instituted by the Board of Trustees, is unparalled.

In Economy of Management the Company Stands Pre-eminent.

The total expense of management (exclusive of taxes) paid in 1908 was \$7,123,180,69.

This is but 8.39 per cent. of the total income—a lower ratio of expense than any American company doing a general business has heretofore been able to show. It has sometimes been asserted that the decreasing expenses of various companies in recent years are due merely to a smaller amount of new insurance written. This is not true of The Mutual Life. Although there has been an increase in new-paid-for business in 1908 of \$45,206,942.00 over the amount written in 1907, involving an increase of \$432,680.83 in first commissions, the other expenses show reduction aggregating \$738,799.14, making a net reduction in expense of management of \$306,118,31.

WILMERS ADMITS GUILT. Man Arrested Through Efforts of School costs, Mr. Hazel," said Judge Croze. Authorities Is Convicted.

The campaign started some weeks ago by Calumet school officers against the selling of liquor to minors led to one arrest, that of Joseph Wilmers, who has a saloon in Red Jacket, and when the defendant was arraigned upon the charge vesterday morning before Circuit Judge Streeter, he pleaded guilty. Besides the charge of selling to minors he was armigned upon a charge of Sunday law violation, and to this also he pleaded

The discovery, made by a truant officer one night some months ago, of a fifteen-year-old boy reeling drunk on the street, brought about the investigation. It was found that beer and whiskeydrinking was commonplace among a large number of the boys about town. The school people went into the matter farther and they ascertained that the Wilmers saloon seemed to be a favorite rendezvous for a number of the young fellows. Then evidence from a half dozen youths was with difficulty obtained and Wilmers was arrested. Sentence is still to be passed upon him.

The rear doors of the car had been closed. as is always done while the bridge is being crossed, but this did not deter the Hancock man, who swung onto the outside step. His clamor to have the door opened was abruptly quieted when his head struck an iron bridge beam, and when the car crew went back they found him lying in the snow, unconscious and gory. He was taken to the office of Dr. J. G. Turner, where it was found that he had escaped with a few scalp gashes. After these were sewed up and he was revived, he was sent on'

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience

—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally need-

less, and that no woman, except in rare cases, should submit to them. Dr. Pierce's treatment will cure you right in the privacy of

your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Qon't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y., -take the advice received and be well.

Defense against coughs, colds and lung affections is the Chest Protector.

It's easier and cheaper to prevent colds than to cure them-and safer. A good Chest Protector costs little and in security and comfort brings large returns. They are life insurance to many. More of them should be usedand will be when their value is For the winter season we have

a complete line of them. Fleece lined, Chamois lined-all the latest hygienic improvements. You can be suited in price. They cost less than they used to. And less here than elsewhere.
