

## JOHN TILL, HEALER, TELLS OF HIMSELF

**Sued for Heavy Damages by a Former Patient, Wisconsin's Plaster-on-the-Back Specialist Testifies in Circuit Court.**

**He Isn't a Doctor at All, He Says, but Just a Humble Blacksmith Who Diagnoses All Cases by Passing Hands Down the Spinal Cord—His Panacea for Ills a Composition of Tallow and Oleum Tiglium, Better Known as Croton Oil.**

Barro, Wis., March 9.—The secret of the composition of the ointments and plasters used by John Till, the "healer" of Altona, is out. In an examination before County Judge C. W. Meadows under the discovery statute in the \$25,000 malpractice suit instituted by Patrick Sullivan of Milwaukee, Till stated under oath that his plasters were composed of tallow and oleum tiglium, the latter being the pharmaceutical name for croton oil. When desired in the liquid form for an ointment or liniment, olive oil or linseed oil is substituted for the tallow.

**Cold Water Washes Told.**  
Another ointment is composed of alcohol, fish oil, and ammonia. The only instructions given to patients are to use no intoxicating liquors, eat nothing sour and not to wash in cold water.

Till further stated that he was not a doctor but a blacksmith; that he had not gained his knowledge from any doctor or printed medical books to be had in any medical library; that his diagnosis is based upon his feeling of the nerves from the affected parts of the body where they pass through the spinal cord at the back of the neck; that his ability to diagnose cases by merely feeling the back of the neck of the patients was born in him and was not possessed by any other person to his knowledge; that he was taught to distinguish and cure the several diseases by another blacksmith in Austria who treated him when he was a youth.

**Exhibits Two Beans.**  
He refused to divulge the proportions of the several ingredients used, but declared that his system of medicine is contained in a book written for him by hand by his vulcanizer, Joe Smith. He expressly and emphatically denied the use of croton oil but named it under its pharmaceutical name as one of his ingredients. He exhibited two beans, claiming one of them to be a croton bean and the other to be a tiglium bean and maintained that they were not the same.

He denied any recollection of having treated the plaintiff Sullivan, but admitted that all sufferers from locomotor ataxia, from which Sullivan was suffering, were treated by him in the same way by the application of his tiglium plaster or liniment to the back of the patient from the shoulders down.

**ACCEPT OPEN-SHOP POLICY.**  
Pittsburg Steamship Company's Engineers Sign Contracts for Season.

Cleveland, March 9.—Practically all the marine engineers employed by the Pittsburg Steamship company will cooperate with the company in establishing and maintaining the "open-shop" policy upon the Great Lakes. The number of engineers employed by this company constitutes only a small proportion of the total number employed upon the lakes, but they represent a company operating more boats than any other individual member of the Lake Carriers' association.

The Lake Carriers' association late last year took a stand for the open shop policy and the unions will be eliminated, if possible. Of the 152 engineers employed by the Pittsburg Steamship company, only five refused to sign the contract with the company, which committed them to assist in enforcing the new policy. While no other meetings are to be held, it is said that the engineers employed by other boat lines are signing similar boat contracts.

F. B. Smith, chief engineer of the Pittsburg Steamship company, tonight declared he had engineers enough to man the fleet, while William E. Gates, national president of the engineers' association, declared this untrue.

**SAVED A NEWSBOY'S LIFE, NOW GETS A FORTUNE.**

Chicago, March 9.—Saving two small boys—one the son of a wealthy Italian, but disguised as a newsboy—from the hoofs of a wild runaway nine years ago, has now brought a legacy to Mrs. William M. Reese of Lake Bluff, Ill., whose husband is connected with the National Bank of the Republic. At the time of the rescue she was Miss Adelia Lawrence, residing with her parents at 1224 Wilcox avenue.

The newsboy, whose gratitude stood the test of passing years, was Dominick Todebska and his relatives are of Italy's finest families, residing in Messina, the latter's life being crushed out by the recent earthquake. Before death he had arranged that his personal property go to the Chicago woman. Not long ago a personal one of the Chicago newspapers requested the address of Mrs. Reese. She sent it to the place requested and now she receives notice that an agent of the dead newsboy will call upon her for the proper transfer of property some time in April.

Mrs. Reese was shocked at her experience at the time of the runaway that she was ill for many months. The reward that now comes is a complete surprise.

## FEARFUL CRIME IS CHARGED.

**Woman Said to Have Killed Boy by Holding Him on Hot Stove.**

New York, March 9.—Majorie Miles, the housekeeper of William Johnson, a cabinet maker of Williamsburg, is held without bail to await the action of the grand jury on a charge of having caused the death of Johnson's three-year-old boy, Arthur, by holding him on a hot stove. The accused woman said in court that the child was unruly and she had threatened to sit him on the stove but had not intended to injure him.

## STRUCK BY AN AUTOMOBILE, THEATRICAL MAN IS DEAD.

New York, March 9.—William H. Bishop, well-known theatrical circles as a manager and owner of such old-time stage successes as "The Black Crook," "What Happened to Jones" and "The County Fair," is dead here from internal injuries sustained several weeks ago when he was struck by a heavy automobile truck. Mr. Bishop was sixty-four years of age.

## ILLINOIS MAN KILLS WIFE; MISTAKES HER FOR BURGLAR.

Mattoon, Ill., March 9.—Mistaking his wife of four months for a burglar when she returned to their bedroom, where she had left him asleep for a few minutes, Roy Matthews, a young farmer, shot and mortally wounded her at an early hour in the morning.

## BIG INDUSTRY IS WON FOR THE CANADIAN SOO

**Citizens Voting Almost Unanimously to Give a Monetary Bonus, Shipbuilding Plant Employing 2,000 Men Is Assured.**

Sault Ste. Marie, Mich., March 9.—As the result of the vote on a by-law to bonus the Soo Drydock company in the Canadian Soo, the concern will build at once a drydock large enough to accommodate all vessels on the lakes and will follow with a shipbuilding plant at which six 600-footers can be built for the company \$5,000 a year for twenty years, and the Dominion government guarantees 3 per cent on the investment for ten years. Several allied industries are to follow and two thousand men will be employed. The by-law carried by almost a unanimous vote. The men behind the deal are John O'Boyle, contractor, and J. J. McFadden and M. J. O'Brien, owners of mines at Cobalt. The Soo plant will be the largest shipbuilding plant on the Canadian side.

## PROLONGED STRIKE SETTLED, SHOE FACTORIES RESUME WORK.

Brockton, Mass., March 9.—The factories of the W. L. Douglas Shoe company have resumed activity with the return of the 425 stitiches who had been on strike since March 1, causing the enforced idleness of about 1,500 operatives. At a conference between the strikers and their employers a satisfactory agreement was effected.

## BIG CAR SHOPS FOR TACOMA.

Tacoma, Wash., March 9.—President A. J. Earling of the Chicago, Milwaukee & St. Paul road announces that great car and locomotive works will be located here. It is understood that work on the plant, which will employ several thousand men, will begin at once.

## BANKS ARE LIABLE, RULES HIGH TRIBUNAL.

**It Is Their Duty to See That the Signatures on Checks Are Genuine, Decides the Supreme Court of Massachusetts.**

Boston, Mass., March 9.—In a decision set down by the full bench of the supreme court, the plaintiff's exceptions were sustained in the suit of the Boston Marsh company vs. the National Bank, National Exchange bank, Second National bank, National Suffolk bank, International Trust company, Old Colony bank, and the City Trust company, seeking to hold the defendants liable for amounts paid by them on checks drawn by the plaintiff, a depositor, where the signatures of the payees were forged. Nearly all the checks had been deposited in other banks, and passed through the Boston Clearing house to the defendants with the indorsement guaranteed by these other banks. In some instances the payees of the checks were fictitious or non-existing persons, which fact was not known to the plaintiff because of a scheme which had induced him to make the checks, and in other instances the payees were actual persons whose indorsement, it was alleged, had been forged.

The court holds the banks are liable because it was their primary duty to see whether there was a forgery of an indorsement upon any check, and the drawer's negligence in allowing the checks to be drawn, through fraud, is not the proximate cause of the payment of the checks by the bank on which they were drawn. The amount involved is about \$50,000. The superior court ordered verdicts for the defendants, and the case went to the supreme court on the plaintiff's exceptions.

The court says, "When a definite order is made in the check, the duty of the banker is absolute, as a general rule, to pay only in accordance with the order. If the payment is to be made to the order of a person named in the check, and if he orders the payment to be made in another person it is the duty of the banker to see that the signature of the payee is genuine. This rule applies as well to payments made by a banker through the clearing house as to payments made over the counter."

## HOME FOR PASTOR'S FAMILY.

Chippewa Falls, Wis., March 9.—Through the generosity of citizens a memorial residence has been presented to the Rev. S. Brown's family. Mr. Brown was the late pastor of the Presbyterian church and was stricken with apoplexy while saying benediction at a church service.

## THEY HOLD THEIR OWN WITH GIGANTIC RIVAL

**Independent Concerns Engaged in the Steel Trade an Important Factor in the Nation's Greatest Manufacturing Industry.**

**Possessed of Many Millions of Capital and Owning Their Own Mines or Assured of Ore Supplies Through Contracts, They Are in a Position to Compete for Business; and That They Get Their Share Is Shown by Their Prosperity.**

New York, March 9.—Reports current in the past weeks that the steel industry is on the verge of a final fight—whether these reports be true or not—has directed attention toward the men who lead the two opposing elements—the trust and the independents. In each group are found steel experts and financiers who made their pyrotechnic mark into prominence about a decade ago, in the days when Pittsburg was transformed into a "city of millionaires" and New York into a Mecca for the newly-fledged Croesuses.

Of "independents" the Pennsylvania, Cambria, Lackawanna, and Republic companies represent combined interests. Strictly speaking, Jones & Laughlin Steel, Pittsburg Steel, Inland Steel, Youngstown Sheet & Tube, W. P. Snyder & Co., United Iron & Steel Co., M. A. Hanna & Co., Pickands, Bateman & Co., Corrigan, McKimley & Co., Brier Hill Coal & Iron company, Page Woven Wire company, and Sharon Steel Hoop company are really independents. There are many similar companies in different lines.

## Prosperity Shows Ability.

Their prominence in the trade, their future prospects, and their ability to build and construct mills, plants, and furnaces are signs of being self-reliant. They are independent, and are independent of having contracts over periods extending from a few to many years with firms or corporations that market their own raw materials. Among the independents there are some of the brightest, keenest, and best trained men in the industry. They are independent because of their own choosing, and the prosperity of their organizations clearly reflects their abilities.

Pittsburg, acknowledged practical center of iron and steel, has always had ready capital, and has always been capable of constructing, managing, and superintending manufacturing establishments and the skilled labor required to turn out the product. The fact that the Steel corporation is in effect operated by Pittsburgers and that Pittsburgers are almost always chosen when vacancies occur goes to prove this assertion. The indifferent success of various enterprises with working headquarters away from Pittsburg is further proof.

## Dean of Manufacturers.

The Jones & Laughlin company's existence dates back to 1856. Of the older generation, Willis L. King, vice president and general manager, is a representative. B. F. Jones, Jr., the president, is only forty-four years of age, a graduate of Yale, thoroughly democratic, and popular with the thousands of employees. Jones & Laughlin had an opportunity to enter the Steel corporation but the senior Jones had a great pride in his organization, and with the hearty co-operation of his partners, the offering offer made was declined. The company is building a great plant on the Ohio a few miles below Pittsburg. Ultimate cost will be approximately \$25,000,000, while the entire properties of the company could not be duplicated for \$40,000,000 to \$50,000,000.

## Vice President King is really the dean of American steel manufacturers. He has been with the Jones & Laughlin thirty-nine years, and is perhaps more intimately known by a larger proportion of iron and steel people than any other man. No conference in the last twenty or more years has been considered complete without his presence. He cares nothing for "society," but enjoys the companionship of a few chosen friends.

In appearance, he is not unlike the picturesque southern colonel, having a large head covered with bushy gray hair, a full face, with a heavy mustache and gray chin whiskers, and a girth that marks the contented. He has often been spokesman for the iron and steel interests after important meetings.

## W. P. Snyder's Interests.

William P. Snyder is the directing force in W. P. Snyder & Co., by far the most important independent ore and pig iron producers. Mr. Snyder's connection with the industry dates back to 1880. Eight years later, he organized the firm of W. P. Snyder & Co., which has remained unchanged in the last twenty-one years. In the early '90s, the McClure Coke company was organized, and Mr. Snyder was vice president until 1895, when the property was sold to the H. C. Frick Coke company. With the late Henry W. Oliver, he formed the Oliver-Snyder Iron & Steel company, operated as an independent plant until taken over by the Steel corporation in 1901. Mr. Oliver was a pioneer in developing the bringing of ore direct from the Northwest to the producers, instead of buying it through Cleveland ore merchants, and this idea was largely responsible for the marked changes in the iron and steel industry in the last seven or eight years.

Mr. Snyder's interests have a pig iron capacity of 1,000 tons daily, ample ore supplies for fifty years; 1,850 acres of Connelville coke, and immense ore mines in Minnesota and own three and operate six other lake carriers. They are building a 600-foot steamship, the largest on the Great Lakes, with carrying capacity of 13,000 tons; and own and operate four blast furnaces.

## WOMAN MAY BE THE HEAD OF CHICAGO'S PUBLIC SCHOOLS

Chicago, March 9.—Chicago will have a woman superintendent of schools if a campaign now under way by the women principals results in victory. The principals have combined to have Mrs. Ella A. Young, head of the city normal school, elected superintendent to succeed E. G. Cooley, resigned.

## SENATE'S DIGNITY FEELS DEEP SHOCK

**Secrets of Executive Session Are Going to Be Guarded Even Though It Is Necessary to Expell a Few Members.**

**Sitting in Their Seats in Fear and Trembling, New Wearing of Togas Are Lectedured by Elder Statesmen Regarding the Sacredness of the Star Chamber Sittings, the Proceedings of Which Somehow Have Always Managed to Leak Out.**

Washington, March 9.—The secrets of executive session are going to be guarded, even though it cost the senate its kingdom of dignity; even though it lose for a few statesmen the opportunity to gas. Yes, sir; somebody is going to be expelled if this thing doesn't stop. "We perfectly understand," explained a senator, as he lifted up his toga with his left shoulder and smooched out. It wrinkles with a caressing touch, "that you newspaper men are really the guilty ones. We understand that you disgracefully and contemptuously worm yourselves into the confidences of unsuspecting senators, acquire from them bits of information which in themselves mean little, and ultimately piece together a narrative of the essential facts. This is most reprehensible, and it seems to threaten the senate with the painful necessity of punishing some of its own members because of falling victims to your wiles."

It was Pittsburg Steel company that made the famous 110,000-ton billet contract with Republic Iron & Steel several years ago, which was so favorable to the fortunes of Pittsburg, and now, the president of Republic, soon resigned. It was reported that previously the Carnegie Steel company attempted to check the growth of the company, but that Rowe surprised the Steel corporation by making the deal with the Republic. It was understood that the company contracted with the Pennsylvania Coal & Iron company, controlled by M. H. Hanna & Co., for 6,000 tons of pig iron a month, to May 1, 1911, at a price based on producing cost of iron, and a profit ranging from 12 to 12 per cent according to production costs, the extreme price, however, being 87 per cent. Such contracts give an idea of the shrewdness of the Pittsburg Steel management.

There are a number of others who might be mentioned in some league. Such a list would include James Campbell, president of the Youngstown Sheet & Tube company, which has been a success from the beginning; Henry C. Fowkes, connected with pig iron manufacture since a teen, who, with his associates, sold the Carnegie group of furnaces to the Carnegie Steel company in 1897, and helped build the Midland Steel company and James G. Butler, Jr., president of the Bessemer Furnace association. Reference should also be made to the prominence of Edinboro, Pa., manufacturers of tin plate; the La Belle Iron Works; and the Pope and McKeesport tin plate companies.

## NEW STEEL CENTER.

Five thousand men now employed in the Big Works at Gary.

Chicago, March 9.—Recent developments in the iron and steel industry have directed attention to Gary, Ind. It is principally because of Gary that Chicago has been made the steel pipe base point for the West. Gary is shipping steel rails. There are five thousand men employed in the works operating in shifts eight hours each. Four blast furnaces and two open-hearth furnaces are in blast. Other departments will be opened soon.

New plant will effect a saving of the cost of one ton of the finished product, against the average cost in the Pittsburg district. It will have an additional advantage in the Western markets of smaller freight bills. This advantage would be \$2.00 a ton, or the freight rate on a ton of pig iron for this city is the same extent that Pittsburg has been heretofore. No definite announcement on this point has been made yet, but it is easy to figure a total advantage of 84 cents a ton for Gary over western competitors in a great and growing section of the country.

There can be no doubt for many years to come about the control by United States Steel of the industry in the West, regardless of changes in the tariff or extent of the price schedule. Gary has no immediate coke supply. The old theory was to locate furnaces near where coke was produced. Now nearer to ore supply is more important.

## LA FOLLETTE HOLDS HIS SEAT.

Wisconsin Senator Likes His Place in the "Cherokee Strip."

Washington, March 9.—Senator LaFollette continues to hold his seat in the "Cherokee strip." All the other Republican insurgents, some of whom are insurgents no longer, have moved across the aisle and in the new congress will mingle with the Republican leaders. Mr. LaFollette didn't care to move, but there is a popular impression in Wisconsin that the placing of Mr. LaFollette in the Cherokee strip was a part of a hazy scheme concocted by Senators Aldrich, Hale and others. The "Cherokee strip" is that part of the senate floor on the extreme end of the Democratic side. As there are more Republicans than Democrats in the senate it was necessary, in order that there should be an equal division of seats, that some Republicans sit with the minority. Naturally, these seats were assigned to new senators.

Senator LaFollette is to have five quarters in the senate office building. He is preparing to move and will be in his new office before the end of the week. One of his neighbors will be Senator Penrose of Pennsylvania. Since Penrose attacked LaFollette a few weeks ago for failure to attend committee meetings there has been a decided coolness between the two men. In fact, they do not speak as they pass. It is doubtful if the proximity of their working quarters will bring them together as friends as neither is of forgetting or forgetting disposition in political matters.

## EXPLAINS TO PRESIDENT TAFT.

**Weather Chief Moore Tells How the March 4 Blizzard Happened.**

Washington, March 9.—Just how it happened that there was such a blizzard in Washington on March 4, despite his telegrams to Mr. Taft on the night of March 3 that the weather would be clear, has been explained to the president by Willis L. Moore, chief of the United States weather bureau. Mr. Moore admitted that he had waited for several days in some timidity before attempting to "pay his respects" to Mr. Taft. However Mr. Moore had an explanation, which he brought to a climax with all sorts of proof that no such "high" and "lows" ever before produced such a snowstorm.

## STAIN OLD TOWN IS "DRY."

Valparaiso, Ind., Without Saloons for First Time in Six Decades.

Hammond, Ind., March 9.—Valparaiso, the county seat of Porter county, Indiana, and the home of the Valparaiso university, is completely dry, the last two saloons having closed their doors. This is the first time that the staid old college town has been without a saloon more liquor sold over a bar there unless the majority of the people vote for it two years hence.

## GREUSOME DISCOVERY IS MADE BY FAMILY.

**Grave of a Wisconsin Young Woman Visited, It Is Found That Thieves Who Steal Her Body Unknown Have Stolen the Body.**

Janesville, Wis., March 9.—The grave of a young woman buried in Luther Valley cemetery in the town of Avon, Rock township, has been broken into and robbed of its contents. Every effort to locate the ghouls thus far has failed, though the district attorney, the sheriff, and the chief of police of Janesville have been working on the case. Feb. 15 last Miss Hendrick Hingbold, daughter of a farmer, died suddenly, though it is believed, from natural causes. She was buried the day following in the Lutheran cemetery of the town. Sunday members of her family were shocked to find that the grave had been tampered with. It showed every evidence of having been opened, and to their horror, investigation has now revealed that the body has been taken away.

## WANTS SKIRTS CUT SHORTER IN THE INTEREST OF HEALTH.

Cleveland, O., March 9.—The passage of an ordinance prohibiting women from wearing skirts that touch the ground, when they walk was urged by Councilman Flower last night at a meeting for the consideration of a resolution calling for the purchase of anti-spitting signs for street corners. "Women should not wear skirts that touch the ground," he said. "Return in this direction is in line with the steps the city has taken in an effort to prevent the spread of tuberculosis."

## ODD POINT HOLDS UP NEW LAW'S ENACTMENT.

Illinois to Observe Date of America's Discovery as Holiday, Just When Columbus Arrived Is a Matter of Dispute.

Springfield, Ill., March 9.—When did Columbus discover America? A bill is awaiting Governor Deenen's signature making Oct. 12 a legal holiday in Illinois, in commemoration of the historic event. D. E. Bradley, a printer, has written a letter to the governor informing him the date should be Oct. 21. Professor Elias Colbert, former director of Dearborn observatory, says Oct. 22 is the correct date.

## INDIANA LEGISLATURE ENDS.

Legalized Sunday Ball, but Failed to Repeal Local Option Law.

## ALLEGED ROBBERS GET AWAY; DIG THROUGH WALL OF JAIL.

Fargo, N. D., March 9.—By digging through a brick wall in the Cass county jail, Frank Morrison, indicted by the federal grand jury for several North Dakota postoffice robberies, and George Deare, charged with the robbery of the Mapleton (N. D.) depot, gained their liberty. The men are classed as the craftiest as well as the most desperate men ever held in jail here. Rumors of assistance from outside are about, it being believed they belong to an organized gang which came to their rescue.

## PENNSYLVANIA THE HOME OF NUMEROUS CENTENARIANS.

Harrisburg, Pa., March 9.—Among the 112,291 deaths registered in the state bureau of vital statistics of the department of health in 1908 there were ten at an age beyond 100 years. Two were above 110 years, one of them being 115 years. Seven of the ten were women. Four were natives of Pennsylvania, one a negro of Virginia, three of Ireland, one of Scotland, and one of Hungary. In only one of the deaths was acute disease in any way responsible. The census of 1900 credited Pennsylvania with sixty-five persons more than 100 years old in a total population of 6,253,000. A census of the Roman empire A. D. 74 showed 129 persons more than 100 years of age in a total population of 9,000,000.

## WILL TAKE TO AFRICA BIG STOCK OF DRUGS

**Medicines Enough for a Regiment of Men Will Be Carried by Colonel Roosevelt's Expedition to the Equatorial Jungles.**

However, They Will Be in the Form of Tablets Very Largely and Together With Surgical Instruments Enough to Do the Work of an Ordinary Hospital Will Fit Into a Suit Case—Cures for Snake-Bites Prominent Among the Remedies.

## Major Edgar A. Mearns, United States Army, retired, medical director of the Roosevelt expedition, dictated the selection of medicines to be carried. There are 15,000 doses in tablets, nearly 40 per cent of them quinine. The other medicines are to ward off diseases most prevalent in equatorial Africa. Chemicals to make swamp water pure and palatable, cures for snake-bites, stimulants, opiates, knives and bandages.

## These supplies, packed in unbreakable anti-rattle bottles of a vulcanite composition. It is a case like those used by the Roosevelt expedition in the American firm whose principal offices are in London, though its plant is in New Jersey. The firm supplied Livingston, Stanley, Emin Pasha, and the Duke D'Abuzzi and other explorers with medical chests.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Published daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.40; Per year, by mail, \$12.00.

MARQUETTE, MICH., MARCH 10.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Evidently there is to be some measure of real revision.

It's a cold day that cannot turn up a sensation at the state capitol, or at least a near sensation.

The state awfully hated to see Mr. Newberry lose his cabinet job, but will welcome him back home.

Do our Ishpeming friends remember that the Marquette-Alger county league is an amateur organization?

Hugh Jennings and his Detroit Tigers are off on their spring training trip, the first step in a new pennant hunt.

We have no doubt that the banker convicts thoroughly enjoyed finding the shortage in the accounts of the Western Pennsylvania penitentiary.

If all the counties where local option fights are in progress should go "dry," Michigan would be, as nearly as we can figure it out, half "dry."

It should not be overlooked that it is now Mr. Roosevelt's business to keep out of all publications except the magazine of which he has become the editor.

Speaker Cannon and his friends may be confident that they will overcome the insurgents, but it is noticed that there is some little apprehension about the situation.

The feelings of no considerable body of citizens will be hurt if the ways and means committee follows out President Taft's suggestion in regard to imposing an income tax.

Former Secretary Straus, of the department of commerce and labor, is to be appointed ambassador to Japan. And what's to become of Ambassador O'Brien of Grand Rapids and Michigan, pray?

There's room in the Civic league for all the voters, no matter what other leagues they may belong to. Its objects are good and are confined to the things enumerated in the constitution.

Mr. Hopkins of Aurora, Ill., appears to be the only citizen of his great state who has any overpowering confidence that Mr. Hopkins will be elected to fill the existing vacancy in the U. S. senate.

There's to be no speed limit on the president's auto in the District of Columbia. But then if the stories we read in the newspapers are true there doesn't appear to be much of a speed limit on any of them.

There is now being made in the Wisconsin legislature a determined effort to end the quiz into the campaign methods of the candidates for senator. It is proving highly embarrassing for many prominent citizens.

Colonel Fowler, the retiring collector of the port of New York, is reported to incline to the opinion that his is a civil service job and that he cannot be removed to make a place for Mr. Loeb. The fact seems to remain that he is removed.

When Mr. Platt of New York ventures the prediction that Mr. Roosevelt of Oyster Bay is permanently out of politics and can be regarded as a negligible quantity in New York state affairs we are inclined to believe that Mr. Platt's wish is the true parent of his thought.

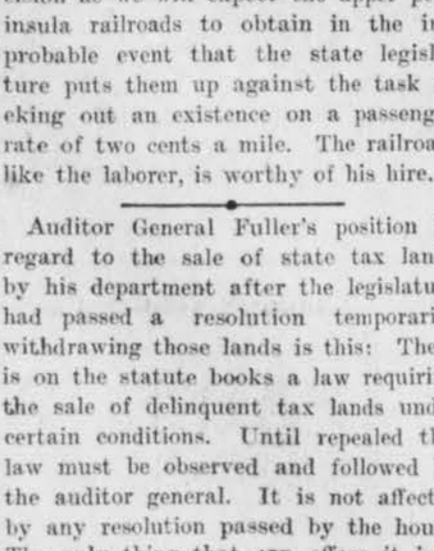

However, the war revenues, if they are levied at all, will be levied with the hope that it will soon be possible to repeal them. When business again reaches high tide there should be a sufficient return from the ordinary sources of revenue to defray all the ordinary expenses of government.

There has been considerable talk lately of the return of the University of Michigan to the Western conference. There are not lacking indications that the sentiment in favor of such a step is constantly growing among the student body. It is generally hoped by the Alumni that it can soon be brought about and the faculty also favors the resumption of the old relationships. All that seems necessary is an opportunity for Michigan to get back into the fold.

5% DEBENTURES. Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANQUETTE, MICH.

The High Road to Consumption

Neglected Asthma and Bronchitis Inevitably Result in Consumption. Cure Them Today by Using Abbey Syrup, the Wonderful European Remedy.

Asthma is almost invariably associated with Bronchitis. Every asthmatic has catarrh of the nose, throat and bronchial tubes. When too long neglected, Asthma becomes chronic, attacks are of almost nightly occurrence, reducing the vitality, totally unfitting the patient for active occupation, and rendering him incapable of throwing off the effects of germ-infection. Consumption quickly follows.

To these sufferers Abbey Syrup, Cloister Santeo Paolo, comes as a wonderful relief, allaying the irritation, strengthening the tissues, stopping the cough, besides acting as a nerve-builder and tonic. Perfect health has been restored in many cases where relief was absolutely desired.

Not only for Asthma, but for every kind of throat, chest and lung trouble, Abbey Syrup is an infallible remedy. Bronchitis, Croup, Whooping Cough, Influenza, Colds and Coughs yield to its wonderful power.

This is the original remedy and is sold and especially recommended in Marquette by all druggists.

Upper Peninsula

Neither Team Missed a Word—A recent spelling match between teams of the Iron River and Crystal Falls High schools resulted in a tie, neither team missing a word out of over 700 proposed by Professor Darling of Florence, Wis. A return match will take place at Crystal Falls Friday evening, March 12, and it is expected that the winning team will challenge the Florence champions.

Has Much Timberland—The Gogebie Lumber company, in which Albert Stedley and Elmer L. Maddox, of Grand Rapids, are largely interested, owns 31,990 acres of timber land, mostly hardwood and hemlock, in Gogebie county, of which 5,000 acres were purchased in the early winter. The company has built a mill at Marquette, and this season will cut 8,000,000 or 10,000,000 feet of lumber. It is estimated there is enough timber on the tract to last ten or twelve years. J. K. V. Agnew, formerly of Grand Rapids, is in charge of the active lumbering operations.

First Slot Machine Case—In the first slot machine case ever to come before Judge Steere in circuit court at the Soo, Earl Lynd, who conducted the saloon at Strongs for Alex. Clark, pleaded guilty to having one of these machines in operation and was sentenced to pay a fine of \$25 and costs. The arrest was the result of the work done in Chippewa county by Rev. C. H. Rutledge. Judge Steere, in discussing the case, said that it was the first of its kind, and that he had held the other defendants guilty, when the officers desired to take action they had seized the machines and destroyed them, thereby saving the cost of prosecution and effectually breaking up the business.

Free Delivery Granted—Postmaster Crane has been notified by the postal department that Manifesto has been granted the boon of free delivery, but owing to the fact that there is a large deficit in the postal branch of the government active measures will not be taken until after the close of the fiscal year, which occurs in June. Mr. Crane has taken up the matter with Congressman Young, who will make an effort to secure the utility prior to the time stated by the department. The proposed rural free delivery route in Hiawatha township has also been sanctioned by the department, but will also be non-operative until July unless Congressman Young is enabled to secure concessions from the department. Manifesto has been granted free delivery for a number of years and now since the receipts have exceeded the \$10,000 limit all are anxious to have the service instituted as soon as possible.

Mining Fatalities—Frank Shober is dead at Stambaugh, Iron county, having been killed in Baltic shaft No. 2 by falling to the bottom, a distance of 500 feet. He was on the surface, loading drills into the skip. He had one foot on the skip and the other on the shaft head, in some unaccountable manner the skip was suddenly lowered to the bottom of the shaft. Shober lost his balance and fell. He was a married man, about thirty years of age, and leaves a wife, two children and a father to mourn his untimely death.

Otto Messinger, a well known resident of Ironwood, also is dead as the result of an accident. While working in the new shaft at the Newport mine, he fell one hundred feet down the shaft. He leaves a wife and four young children. Carlo Pozzetti, a young man, about eighteen years old, died at the Twin City hospital from injuries sustained earlier in the day through a fall in a "raise" at the Montreal mine, west of Hurley.

Iron Ore Outlook—That 30,000,000 tons of ore will be forwarded from the Lake Superior region this year is the prediction that comes from a leading sales agency in the Eastern part of the continent. The estimate is based on the fact that the three seasons mentioned, has the ore production reached 30,000,000 tons, the nearest approach to that output being the 27,500,000 tons forwarded in 1902.

It is the general belief of mining men that there will be very little if any change in the ore quantities. An important factor in this connection is the fact the United States Steel corporation controls the bulk of the ore tonnage. The much of the remainder is in the hands of other consuming interests which mine only for their own needs, and a very considerable proportion is held by such big independent concerns as Pickands, Mather & Co., the Cleveland-Chiffs Iron company, Corrihan, McKinney & Co., M. A. Hanna & Co., Ogilby, Norton & Co., and the Schelsinger and Breitung companies which sell in the open market but which are in position to maintain prices on a proper basis.

It is the opinion at the mines that while there may be a shading of quotations on the part of some interests, the tonnage so affected will be comparatively limited and the general level of prices will approximate that of last season. There is ample realization of the fact that available supplies of the grade demanded by the furnaces are in a few strong hands, and there is seen no disposition to sacrifice holdings. Thus on the principle that if one is not needed this year will be taken the next year, the producing interests are inclined to sit back and allow matters to run their course.

The prevailing prices last year were \$4.50 per gross ton for old range and \$4.25 for Mesaba Bessemer and \$5.70 for old range, and \$3.50 for Mesaba non-Bessemer, with credits allowed or demerits deducted as the iron content ran above or below the basic figures of 65 units of natural iron for Bessemer and 61.5 units for non-Bessemer ores. Tentative sales of a few hundred thousand tons are reported to have been made on

Government Buildings

During one of the sessions of the congress which has just closed Representative Champ Clark, of Missouri, offered some pertinent suggestions regarding the government buildings and the methods of locating and constructing them.

Mr. Clark suggested that the government ought to invest its money in business buildings, for business purposes; buildings adapted to the business the government has to do in them, not for the architectural adornment of communities.

lucky enough to get them, or to serve as monuments to the congressmen who rolled through the appropriations to build them.

There is a good deal of common sense in this suggestion. During recent years government architects have apparently tried to follow out this very suggestion, but not infrequently such plans are thwarted by congress itself, when, through the influence of over-zealous members, appropriations have been secured to provide for more lavishness and elaborateness in architecture than are really warranted by the local needs for a government building.

The nation now has hundreds of millions invested in government buildings scattered throughout the country, many of which could have been built for less money and still have been better adapted for the purpose for which they were intended.

As a matter of fact a postoffice in a county seat village does not require to be an architectural model. It is just as apt to look out of place there as it is to adorn the town. It ought to be built with reference to giving light and convenience and facilities for the business. Its location should have more reference to the railway stations than it generally has and less to the interests of rival real estate-owning cliques which want it to "boom" their sections of the town.

And when the postoffice is also to be a courthouse and perhaps the headquarters of various federal officials, the combination is not one which economical-ly lends itself to the purposes of the artistic designer. Utility in such a case ought to be the first consideration.

The truth is that the public buildings have been too much a political and too little a business affair. Mr. Congressman "fixes" a town which isn't very friendly to his re-nomination by getting a public building. The town isn't satisfied with the building it needs; it wants a handsome one than the next town in either direction. The architects like to do, though on the whole their achievements have not justified a high rating of their artistic talents.

A TAFT LETTER.

The following extract from a letter of the president shows not only the spirit in which Judge Taft prosecuted his work in the Philippines, but the imperturbability with which he regarded criticism: "You may perhaps have seen Roosevelt's speech at Harvard in which he flatters Root and Wood and me. I confess that while I value the good feeling and generous spirit he manifests toward me in saying such things, for once in my life I agree with the Evening— in depreciating the representation that we are sacrificing ourselves when we ought to be rejoicing in the opportunities we have for such interesting work. I am not a martyr, nor am I sacrificing anything. I count myself very fortunate to be where hard work may do some good. If the thing were put to Roosevelt in this way, I know he would agree, but he was led away by what he regards as the unjust criticism and lack of appreciation of us. No one ever did work in a public way which accomplished anything that he did not encounter the opposition of good, conscientious men, as well as that of the politician and the seagull; and it is useless, in my judgment, to pay much attention to such opposition, though it appears in respectable journals.—Century.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

MEN!

The greatest asset you have is your strength. You can't afford to give out. It is a vital necessity that you have your nervous and muscular system in perfect order to withstand the constant wear and tear of your daily work.

The finest tissue builder and strength creator is Vinol, a Cod Liver preparation that has the greasy, nauseating oil eliminated—only the valuable medicinal properties being combined with peptonate of iron. Its use will keep you in health and strength.

DEBILITY results from a weakened condition due to imperfect digestion, lack of nutrition or overwork. Vinol strengthens the digestive organs, creates a healthy appetite and makes new blood. You lose that fatigue, weakness and run down feeling when you take Vinol. BRAIN FOG won't attack you if you repair used-up nerve force with Vinol. Vinol puts strength into your system—it gives you vitality and energy—it nourishes your brain and body and keeps you in a perfect state of health—it quickly re-establishes strength after any severe illness. DYSPEPSIA is due to derangement of the digestive organs and their inability to assimilate nourishment. Vinol strengthens the overtaxed and weakened digestive nerves and helps your stomach do its work.

NERVOUSNESS is a complaint that can be readily overcome by using Vinol. It repairs broken down nerve tissue and builds strong, healthy nerves that enable you to withstand the worries and annoyances unavoidable in business.

VINOL QUICKLY CURES A COLD AND STOPS A COUGH

YOUR MONEY BACK IF VINOL FAILS TO HELP YOU THE STAFFORD DRUG CO., Marquette, and J. E. O'DONOGHUE, Druggist, Negaunee.

And at the Leading Drug Store in every Town and City in this State.

This basis since the first of the year, but there has been no general buying movement to date nor are many reservations expected for fully two months yet.

Lawyer Phillips has owed me twenty dollars for twenty years. Collect it and I'll give you half." And the merchant, knowing how bad was the debt, winked at a waiting customer.

The old man found the lawyer in the middle of a group of prospective clients and influential citizens. Thrusting through the group, he called, in stentorian tones: "Mistah Phillips, suh!"

"Well?" queried the lawyer, much annoyed. "Mistah Boyd done told me that you've owed him twenty dollars for about a hundred years; and he wants to know kin you pay him, suh?"

The lawyer hurried to Billy's side. "You idiot," he said, sotto voce, "do you want to ruin my business? Here!" and he thrust a ten-dollar bill into the old man's hand. "Back to the merchant toddled the old man.

"Well, Billy," said the merchant, "did you get it?" "I got my half, all right," he chuckled; "but you'd better look out when you go back to get your half—his' right smart hot over it, suh."—Success Magazine.

A Great Scholar.

The new minister in a Georgia church was delivering his first sermon. The early janitor was a critical listener from a back corner of the church. The minister's sermon was eloquent, and his prayers seemed to cover the whole category of human wants.

After the services one of the deacons asked the old dicky what he thought of the new minister. "Don't you think he offers up a good prayer, Joe?"

"Ah, mos' substantially does, boss. Why, dat man axed de good Lord fo' things dat de oder preacher didn't even know he had!"—Everybody's Magazine.

Dr. Whipple, long bishop of Minnesota, was about to hold religious services at an Indian village in one of the western states, and before going to the place of meeting asked the chief, who was his host, whether it was safe for him to leave his effects in the lodge. "Whitey safe," granted the red man. "No whitey man in a hundred miles from here."—Argonaut.

HEALS S.S.S. OLD SORES

Before any sore can heal, the cause which produces it must be removed. As long as the blood, from which our systems receive their necessary nourishment and strength, remains impure and contaminated with disease germs, any old sore on the body will remain open, and resist every effort made to heal it. The nerves and tissues of the flesh around the places are continually fed with unhealthy matter and nature is simply disposing of the poison from a leak corner of the church. The minister's sermon was eloquent, and his prayers seemed to cover the whole category of human wants.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Classified Want Directory

HELP WANTED. WANTED—Washing done by the day, for people at home. Address Mrs. L. Shorkey, corner Sixth and Hilda. 3-10-17.

WANTED—Men—our illustrated catalogue explains how we teach on Northern trade in a few weeks, mailed free. Moler Barber College, Chicago, Ill. 3-5-17.

WANTED—Railway mail clerks. Salary \$80 to \$85, 44. No "lay-offs." Examination in Marquette May 10th. Common education sufficient. Candidates prepared free. Write immediately, Franklin Institute, Rochester, N. Y. 3-5-17.

WANTED—Book-keeper by a mercantile establishment in Marquette. Apply by mail, "Bookkeeper," Mining Journal office. 3-5-17.

WANTED—50 wood choppers to cut chemical wood. The Stephanoos Co., Wells, Mich. 3-24-17.

WANTED—Plumbers at Cleveland Chfs camps, Ramsey and Dorsey, Mich. Board 18 cents per meal. Apply at camp. 3-25-17.

LOST AND FOUND. LOST—A gold watch and chain pin. Initials S. N. on pin. Reward at 209 Washington St. 3-25-17.

Copper Country

MAY BUILD SANITARIUM.
Project to Erect Building to Treat Consumption Gets an Impetus.

It is highly probable that Houghton county will erect a building which will be used as a sanitarium for the treatment of tuberculosis cases exclusively.

Representatives of the Houghton County Anti-Tuberculosis Society and the Houghton County Medical Society attended the meeting with the purpose of asking for the use of the old poor house, which has been abandoned since the erection of the new building.

In presenting the petition Dr. Scallan stated that from known facts regarding the occurrence of the disease in Houghton county, an estimate that there are now something like four hundred cases in the district would not be far from the way.

Supervisor Goggin of Redridge, who is a member of the building committee of the board, which supervises the erection of the new poor house, is wholly familiar with the condition of the old building.

Supervisor Goggin of Redridge, who is a member of the building committee of the board, which supervises the erection of the new poor house, is wholly familiar with the condition of the old building.

POISONED BY GAS.

Allowe Woman Is Dead and Two Others Are in a Serious Condition.

Mrs. Anna Waati is dead and her ten-year-old daughter, Laura, and Andrew Koivela are in a serious condition, suffering from the effects of coal gas poisoning.

John Lehto, a cooper for a grocery, noticed the odor of gas when he approached the house Monday morning.

When his knock was not answered he suspected that something was wrong, and he found the door open. After he had spread the alarm the three persons were taken from the house in an unconscious state.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Minneapolis, Minn.:— "I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women, I felt sure it would help me, and I must say it did help me wonderfully. Within three months I was a perfectly well woman."

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

Houghton club, but this contest was again postponed. The Ishpeming gunners will probably make their trip to the copper country next Sunday.

The newly-elected officers of Hancock branch, No. 2, of the French Naturalists society are: President, Frank C. Mayotte; vice president, Archie Radner; secretary, Charles E. Rouleau; assistant secretary, P. C. Andet; corresponding secretary, C. O. Oliver; treasurer, A. Connelly; directors, Felix Verille, A. Drape, Joseph Cassin, August Gauthier, Charles Anger, Joseph Fournier, A. Paul, Biquette.

The first administration of the newly-incorporated village of Ahmeek, Keweenaw county, is headed by Maurice Kennel as president. The other officers are: Clerk, J. A. Hamilton; treasurer, John Albert; assessor, Robert Bickley; Joseph Lesh, Pat Donegan, Alex. Grandroth, John Grentz and Joseph Kessner. They were nominated at a caucus last Saturday and were elected without opposition Monday.

Instillates are to be conducted in the copper country by Herbert Moninger, a city banker, Sunday school teacher, the latter part of this month. The first will be in Houghton on Sunday, March 28. Another will be held in Lake Linden the following day, and the third one will be conducted in Calumet the day after the Lake Linden meeting. Dr. H. Albert, also a well-known Sunday school worker, will accompany Mr. Moninger.

Mining News

BIGELOW PROPERTIES.

Tamarack and Isle Royale the Best-Cliff Mine a Valuable Asset.

It will not be of interest to a great many, and particularly to those who have opinions to the contrary to learn that all of the Bigelow properties sold to the Calumet & Hecla, the Tamarack and the Isle Royale were the two best assets in the district.

Although the Tamarack is the deepest mine in the world, and the cost of taking it into production is very high, it is not generally known that there is copper enough in this property to maintain production at the present rate for at least twenty years. Tons of copper are still in the open level, and this fact together with the rich ground which the company owns to contain, places Tamarack in an ideal position to be worked into one of the best mines in Keweenaw county.

Two members of a party of five young men who ate supper at a Calumet restaurant recently and refused to pay for it were each fined \$5 in the court of Justice Armit Monday afternoon. The two are Arnold Hovler and Dennis O'Brien. Warrants have been issued for the other three.

Abbie Mikola and Emil Palo of Calumet are under bonds of \$1,000 and \$200 respectively, and are to be tried upon charges of larceny at the next term of court. Their hearings were held in the court of Justice Jackola, before whom Matt Omas charged them with having robbed him of \$50.

The Ontario Herald states that a wrestling match is being arranged and will be held there shortly between Joe Peterson of Espolite and William Frank of Ontonagon.

Word has been received in Calumet that Will McKinnon, son of the late Douglas McKinnon, has been initiated into the Tau Beta Pi fraternity at the state university.

George Warner, Phil Engle and Tony Kammarschen of Lake Linden have returned from a rabbit shooting trip to Rice lake, in Keweenaw county. They report a successful hunt.

One of the recent basketball games between class teams of the Hancock High school was marred by an accident in which Earl Eggelston was the victim. He suffered a broken arm.

It is stated that Verrille Bros., architects, intend to erect a flat building at the corner of Ethel avenue and Quincy street, Hancock, on a lot that they recently purchased from A. L. Levy.

Gas Paulson, a Calumet saloon keeper, has been found over for trial in circuit court upon a charge of violating the liquor laws. It is alleged that he kept his place of business open after hours.

Senator Smith has returned to Lansing, after a brief visit at his home in Hulbert. Before he left he stated that he thought the final adjournment of the present session would occur some time in May.

A public supper will be served at Kautli's Hall, Hancock, by the women of the Hancock Norwegian Lutheran church a week from next Saturday night. The supper will be followed by an entertainment.

Miss Pearl George, daughter of James George of Ontonagon, and Paul Kaiser of Gus Kaiser of Rockland, were married at the bride's home last week and will make their future home at Rockland.

The meeting of the Republican city committee, at which dates for the coming ward caucuses and the city convention will be named, will be held at Hancock tonight. It will take place in the office of Justice Olivier.

Rev. H. C. Shaw, pastor of the Lake Linden M. E. church, has announced that he will deal with the subject of socialism in a sermon at the church next Sunday evening, and will compare it with the doctrines of Christ.

Revival services are being held this week at the Hurontown M. E. church. Rev. Frank Watters of Atlantic preached Monday night. The services last evening.

A number of complaints have been made in Red Jacket regarding the dangerous condition of the sidewalks brought about by the fact that at many places snow is packed to a point level with the tops of fences. The iron picket points protrude some inches above the surface of the snow and are a menace to pedestrians.

Upon evidence gathered by agents of the anti-saloon league a warrant was issued by Justice David Armit for the arrest of James Archie, a Laurium saloonman. The charge is that Archie kept his place of business open on election day in violation of the law. He is Rev. C. H. Rutledge, the temperance worker of Ishpeming.

The Ancient Order of Hibernians of Hancock have decided to purchase the property at the corner of Quincy and Mesnard streets owned by Mrs. Tom Mesnard, and upon which the lodge recently took an option. At a meeting this week a committee composed of Richard T. Looney, Dan A. Welland and Eneas McEnty was named to carry out the transaction.

In this week's issue of the Houghton Gun Club, Hugh Swift and John G. Pryor finished with the scores of fifty-seven each. It had been expected that a team of marksmen from Ishpeming would compete with a team of the Houghton club, but this contest was again postponed. The Ishpeming gunners will probably make their trip to the copper country next Sunday.

WHERE YOUR VALUABLES ARE SAFE. THE CITIZENS NATIONAL BANK. CAPITAL \$50,000.00. Why be satisfied with doubtful protection for your valuables? Put them where they are absolutely secure by renting a Safe Deposit Box in our Fire and Burglar-Proof Vault. \$2.50 and up per year.

ESTABLISHED 1880. PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS. Members: New York Stock Exchange, Boston Stock Exchange, Chicago Board of Trade. Direct Private Wires to All Markets. Curb Stocks Given Special Attention. Marquette Office, W. H. Schweitzer, Resident Manager. We solicit your stock business. Our daily quotation sheet and market letter sent for the asking. Office open from 7:30 a. m. to 8 p. m.

The principal property of the Tintic Mining & Development Company is the Yampa mine in Big Horn, Utah, adjoining the Utah Consolidated. The Yampa mine is a prominent producer. It has its own smelter and copper concentrators. It is producing about 1,000 tons of ore per day and is outputting better than 1,000,000 pounds of copper per month, and this production should gradually increase as the property is well developed and has an immense amount of ore blocked out. The company issues no financial statement; in fact, it is run as a close corporation. A large amount of the stock is held by two or three interests and it has been intimated that stock ownership is held by people identified with the Utah Consolidated. The company also has an ownership of about 2,000 acres of land in the Tintic district upon which more or less money has been expended, but without any showing of ore that the property is of any value is the Yampa mine, which could probably be sold for more than the present selling price of the Tintic shares.

Concerning the Chumung property in New Mexico, in which the Cole-Ryan people are large interested, James J. Phegan of Hornbower & Weeks, of Boston, who has returned to the East after an inspection of the mine, is quoted as saying: "I was greatly impressed with the developments at the mine. The company has three shafts and about 27,000 feet of workings. No attempt has been made to stop any ore and only such ore as is expected to be produced is being concentrated. This property consists of 1,200 acres, adjoining Atlantic and a five-year option has been taken on the property from the owners, the St. Mary's Mineral Land company. On Dec. 10, 1908, the first diamond drill hole was sunk and since then three shafts have been searching for copper. Now a well defined lode carrying good copper values has been encountered."

Mr. Sherman the senate will have a presiding officer thoroughly familiar with parliamentary procedure. He has often been called to the chair in the house, and has always ruled to the satisfaction of that body. He is prompt and fair, and an expert in his line. He will be entirely at home in his new office.

Mr. Roosevelt took hold valiantly, but was soon in distress. The rapid driving from the floor was too much for him, and there was some puzzling as to what would take place in case of a fistfight. Mr. Hendricks, who followed, had many years before been a senator, but was not a parliamentarian, and had his livelihood made from his new duties.

Notes of Copper News. The stockholders of the Quincy Mining Company have paid in full, to date, \$2,450,000. The company has expended for real estate and improvements, \$6,290,535, the cost of which has been met for the most part from the sales of copper. Up to the close of 1908 the Quincy had produced 42,574,400 pounds of copper, for which was received \$92,150,878. The company has paid eighty-six dividends amounting to \$18,450,000 and it has surplus of quick assets today amounting to \$91,364.

**PAYING POULTRY**

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry—making it pay, yet poultry, exactly the same as with stock—horses or cattle—you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition.

INTERNATIONAL POULTRY POWDER is away ahead of any other poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACKAGES FOR \$1.00.

**City Brevities**

M. R. Spencer went to Chicago on business last evening.

William Leighton, of Grand Marais, was in the city yesterday.

A. Peterman, of Munising, was in Marquette on business yesterday.

Frank Fisher has gone to Minneapolis, where he expects to remain for some time.

Miss Augusta Pimean has returned from a month's visit in the copper country.

Arthur Hoard, who has been in the Cobalt district, went from Marquette to Duluth last night.

The regular meeting of Queen City tent, No. 448, K. O. T. M. M., will be held at Keough's Hall tonight at 8 o'clock.

As usual on Wednesday evenings, the Marquette City band will play at the ice rink this evening from 7:30 until 10 o'clock.

The Woman's Christian Temperance union will meet with Mrs. M. W. Anderson, 412 E High street, this afternoon at 3 o'clock.

The ladies of Superior live, No. 217, L. O. T. M. M., will hold a special meeting for initiation of new members at Fraternity Hall at 3 o'clock this afternoon.

Alton T. Roberts has leased the Julian M. Case home on East Ohio street, and will move there in the near future. Mrs. Case and mother, Mrs. Sophia Peck, will go to Detroit about April 1.

William Davis, the ladies' tailor, has returned from a six weeks' tour in the East. His rooms in the opera house block, which have been closed during his absence, will now be reopened, and he will soon be ready for the spring campaign.

Mrs. Wm. J. Reynolds of Laurium has been a guest at the residence of E. P. Monteth, Spruce street, the past few days. Mrs. Reynolds' husband was elected village president of Laurium in Monday's election, defeating Paul Boehm, who has held the office a number of years.

Dr. and Mrs. H. J. Hornbogen and Miss Pearl Powell returned home last night, from their European trip, in the course of which Dr. Hornbogen pursued a course of special study at Vienna. Dr. W. Powell and grandchildren went on the afternoon train yesterday, and met them at Soo Junction.

**Nothing Done Yet**—The special committee appointed at the last council meeting to look into the sanitary condition of dairies supplying milk to this city, has done nothing as yet, but is planning to take a day and visit the various dairies in the near future.

**Quotations Interrupted**—No quotations were received at Paul Webber & company's office from 12:30 yesterday until late in the afternoon, owing to a fleet storm having put the wires out of commission between Marquette and Chicago. Buying orders were sent by mail last night.

**Fiscal Year Ended**—Officially, this is New Year's day for the city of Marquette, the fiscal year having ended yesterday and another having begun today. All the city officers and commissions are now busy preparing their annual reports, which must be printed and in the hands of the public before the spring election.

**Tax Roll Returned**—City Treasurer Byrne has made his return of the city, state and county tax rolls for Marquette to the county treasurer. The amount of the city roll was \$115,880.17, of which \$6,889.53 is unpaid and delinquent. The state and county roll for the city called for \$67,721.28, of which \$3,785.51 remains unpaid and is now delinquent.

**Sale of Bankrupt Stock**—The stock of the Hebbard drug store, on Baraga avenue, will be sold at bankruptcy sale this afternoon at 2 o'clock. The sale will be conducted by George W. Pearl, brother of C. F. Pearl, referee in bankruptcy. E. H. Withey will attend the sale to represent the interests of Charles Maynard, of Maran, Mich., who holds a chattel mortgage on the stock, to satisfy which it is to be sold.

**To Investigate Taxes**—At the meeting of the Commercial club, held Monday night, a committee of five was appointed to investigate the relative tax rates in the cities of Marquette, Negaunee and Ishpeming. The committee consists of C. F. Patton, D. H. Ball, Shields McCarthy, H. O. Clark and A. H. Palmer. It is the general belief in this city that the taxpayers of Marquette are paying more than their share of the state and county taxes, and the report of the committee will be awaited with interest.

As the tax rolls will not be made up until next October, the committee may not report for several months, as it is desired to make a thorough investigation.

**Mrs. John Kraemer Dead**—Word was received yesterday of the death of Mrs. John Kraemer, sister of Mrs. Anton Manthel and Mrs. Henry Hallam, of this city, at a hospital in Spokane, Wash., where she had undergone an operation. Mr. and Mrs. Kraemer resided at Whitefish, Mont. The deceased was the daughter of Mr. and Mrs. John F. Maek, and was born at Morgan, near this city, in 1839. Twenty years ago she was united in marriage and until twelve years ago Mr. and Mrs. Kraemer resided in this city. Besides the husband, two sons, aged sixteen and nineteen, are left to mourn the death of their mother. Other sisters and brothers of the deceased are Mrs. William Malburg and John F. Maek, Jr., of Detroit; Mrs. Charles Lang, of Houghton, and Henry Maek of Los Angeles, Cal.

**INSURE WITH PETER WHITE & CO.**

United States Court House and Post-office, Marquette, Michigan, March 10, 1909. Sealed proposals will be received at this building until 2 o'clock p. m. Wednesday, March 17, 1909, for furnishing fuel, lights, water, ice, miscellaneous supplies, washing towels, hauling ashes, and sprinkling streets for this building during the fiscal year ending June 30, 1910, or such portion of the year as may be deemed advisable. The right to reject any and all bids is reserved by the treasury department. God Smith, custodian. (3-10-12)

**NEARLY ONE HALF LESS IMMIGRANTS**

INTERESTING FACTS AND FIGURES GLEANED OUT FROM REPORT OF IMMIGRATION RESTRICTION LEAGUE.

According to a recent publication of the Immigration Restriction League, 782,870 immigrants came into the United States during the fiscal year ending June 30, 1908, as compared with 1,285,349 during the preceding year. Within the year 305,073 foreigners returned to their native land, leaving a net immigration for the year of 387,797 persons. Twenty-six per cent of the immigrants confessed themselves to be illiterate, that is, unable to read and write in their own language.

The Teutonic and Celtic races, hailing from northern and western Europe, made up 33.8 per cent of the immigrants; Slavic and Iberic races, from southern and eastern Europe, 36.4 per cent, and Asiatic immigrants, 3.6 per cent. The proportion of Teutonic and Celtic immigrants increased about 4 per cent over the preceding year and that of Slavic and Iberic immigrants decreased about 8 per cent. The average amount of money brought into the United States by each immigrant was \$227.8, an increase of nearly 85 per cent over the preceding year. Nearly 31 per cent of the total immigration, including the women and children, had no occupation, while about 48 per cent were farmers, laborers or servants. About 80 per cent of the immigrants settled in the states east of the Mississippi and north of the Potomac and Ohio rivers, and 18 per cent went into the southern and western states.

There were 110,547 of the immigrants from southern Italy, 103,387 were Hebrews, 68,105 were of Polish extraction, 73,038 were Germans, 24,378 were Magyars, 11,572 were Scandinavians. Of the total number of immigrants, 1.7 per cent were declared and returned to their homes. But 4 per cent of the Teutonic and Celtic immigrants were unable to read and write in their own language, while the number of Slavic and Iberic immigrants, unable to read and write, ran over 40 per cent.

Speaking of the number of foreign born dependents and delinquents in the penal and charitable institutions of the United States, the report says:

"The report of the commissioner general shows that a foreign-born population (which in 1906 constituted 15.6 per cent of the total population) furnished in 1908, 134,694 persons, or 21.9 per cent of those in all the penal, reformatory, insane and charitable institutions of the United States, or 15.6 per cent of the criminals, 20.8 per cent of the paupers, and 29.5 per cent of the insane." (The proportion of the foreign-born to the total population has remained practically constant for several decades.)

"It further appears that, of the 15,323 alien criminals, 8,197, or 53.5 per cent, had committed serious crimes as distinguished from minor offenses. The total number of aliens in 1904 in these institutions was 44,985 as against 60,501 in 1908, an increase of 15.51%, or about 34 per cent. The alien criminals increased from 9,825 to 15,323, the insane, from 19,761 to 25,206; the paupers, from 12,396 to 19,572. The criminals increased from 4,124 to 8,197 in grave offenses, and only from 3,701 to 7,126 in minor offenses."

The report further states that "the view that our type of national character is in serious danger from alien stocks in this country, has been confirmed by a recent study by Alfred P. Schultz, just published, called Race or Mongrel. In this book, Mr. Schultz shows that all the great races of history, such as the Chaldeans, Assyrians, Medes, Persians, Phoenicians, Indians, Egyptians, Greeks and Romans were great only so long as, like the Jews, they kept their race free from mixtures with alien types."

The Immigration Restriction League is a strictly non-partisan and non-sectarian organization, with members from all parts of the United States. It advocates more careful selection of immigration, but not the exclusion of any immigrants whose character and standards fit them to become citizens.

The sale of matches made of white phosphorus has been prohibited in England by act of parliament.

**NATURE'S WARNING.**  
Marquette People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously. But nature always warns you. See if the color is unhealthy— If there are settlements and sediment, Passages frequent, scanty, painful. It's time then to use Doan's Kidney Pills. To ward off Bright's disease or diabetes. Doan's have done great work in this locality.

Mr. Brown, 306 S. Jennie St., Escanaba, Mich., says: "About two years ago I began to suffer from pain in the lower part of my back, and after a hard day's work I was so lame I could hardly straighten. In the morning upon arising, I felt lame and sore and the kidney secretions were often scant. A friend advised me to try Doan's Kidney Pills, and I accordingly procured a box. My kidneys were sore and the pain in my back disappeared. Recently when I had a return of pain, I again used Doan's Kidney Pills, and am glad to say that they promptly relieved me. I gladly tell of the great benefit I derived from this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

**Lid Is on the Saloons—**

There may have been quieter Sundays in Crystal Falls in the past than last Sunday was but if so no one remembers any of them, reports the Crystal Falls Diamond Drill. Not a saloon was open so that any noise could be heard or anyone seen within. It is quite probable that there was some sneaking about the back doors, but if there was any it was carefully covered up and anyone admitted kept extremely quiet. Many of the saloons, especially those of Charles Carlson and John Bauer, were so manifestly closed as to remove all doubt. Mr. Carlson had his building open to public view and he was away from his place of business entirely. There was considerable of a scurrying about among the saloon keepers to watch one another and see that no one was open. Charges and counter charges were made that this one or that one was open on the day.

**Wedded a Half Century—**

Mr. and Mrs. Richard Welsh of Dairter township this week celebrated their golden wedding at the family home. In all of Chippewa county there is no more honored or respected couple. Mr. and Mrs. Welsh went to Chippewa in the spring of 1879, and for the past thirty years have been continual residents of the county. Mr. Welsh was born in the county of Mayo, Ireland, Sept. 28th, 1835, immigrating with his parents to Canada in 1844. The family settled in the county of Leeds, and this was their home until 1855, when they moved to the county of Bruce. On March 9th, 1859, he was united in marriage to Mrs. Hannah Hembroff at the home of the bride in Owen Sound, Ont. Mrs. Welsh was born in the county of York, Ont., March 11th, 1836, going to Owen Sound with her parents in 1842, where she resided until her marriage. The couple have been blessed with six sons and three daughters. All of the children were born under the same roof and all are still living, as follows: Joseph N., Albert H., William H., Rebecca A., Richard S., Robert S., Hannah M., Martha and Arthur. Mr. Welsh is a resident of the Soo, Arthur lives in Neshanawauk, Minn., and Robert is a captain in the United States army, now on his way to the Philippines. All of the other children are residents of Dairter township.

**Alleged Smuggler Arrested—**

William F. Nank, a special employe of the United States treasury department, stationed at Detroit, has been in the Soo for several days, investigating an alleged case of smuggling into the United States by way of Sugar island, reports the South St. Marie News. As a result of his work he made complaint against Charles Ferris, an Assyrian, secured a warrant and went to Escanaba, where he effected the arrest. Before the United States commissioner in Escanaba Ferris waived examination and was bound over with \$500 bond. If the charges are true, Ferris has been fixed up in an interesting case. He had been living in the Soo and about a month ago went to Escanaba. It is alleged that he would go down to Sugar island, where he would cross the river from Payment to Garden river. From there he would take a train to wherever he wished to secure his goods. Upon his return it was a very easy matter to cross the river at Payment. It is alleged that he would sell goods around Sugar island for a few days and gradually work his way back to the Soo. He peddled such articles as jewelry, wooden goods, soap-combs, dress patterns, pipes, ladies' silk shirt waists, etc. It is believed that this traffic has been carried on extensively by other Assyrian peddlers as well, for an extended period, but nothing has yet developed of the other investigations. It is thought that this arrest will effectively break up the business. If convicted, Ferris can be sent up for two years.

Although there have been 63,453 Chinese admitted into the Transvaal there are but 17,000 there at present.

**NOTICE. JOSEPH ZALK**

You will save dimes and dollars by calling at 222 S. Third St., between railroad tracks and Spring St. I am now located with a complete line of Stoves, Furniture and Household Goods, bought, sold and exchanged! also repair work done. Bell phone 304 black. (1-2-14)

## MARKETS

### NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:  
 "The list was dull during the greater part of today's session, but in the last hour efforts to depress prices succeeded to a moderate extent and general reactions were recorded, with the close unsteady. It is expected that the ways and means committee will finish the tariff bill this week, and as March 15 shows near the feeling of unsteadiness and meanness is becoming more acute. Little significance was attached to the selling in the last part of today's session and it is not thought that the market will be more than a scalp for an affair for some time."

**Wiring from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market:**  
 "The market showed no life today and gradually sagged all through the session. Steel and Anthracite were both weak in New York and this had a bad effect on all other metals. We do not think the decline has any significance and advise the purchase of stocks on any sharp reaction. Barret in the corner, left here today under care of an officer of the department of immigration of the Dominion government. He was to be met at the boundary by an officer of the immigration of the United States, but it is understood here that he will be taken care of by the police here in Chicago. The story told to the police here about Lubiez was that he had been conducting a fake orphanage in Chicago; that he had attained women in the habit of coming to Chicago, and that he was engaged in collecting money in that city and had used the money collected wrongfully. The charge of obtaining money under false pretenses was preferred against him, and eventually he made his way to this city, one of the alleged men coming to the city at the same time. The disappearance of the man while in this city and her subsequent marriage to Baligrodski, Catholic priest of the Independent Polish Catholic church, attracted considerable attention a month ago."

**ABUSED HIS DYING FATHER. NOW WILL BREAK STONE.**  
 Green Bay, Wis., March 9.—While Rev. Father Duffy was administering the last sacraments to Peter Molinde on his deathbed, Peter Molinde's son Thomas became so disturbing and used such abusive language toward the dying parent and members of the household that it became necessary to summon Sheriff Devely. Young Molinde was arrested and in municipal court pleaded guilty to using obscene language. Judge Monahan committed him to ninety days in the workhouse. He will break stones

## MARCONI MONOPOLY DENOUNCED.

**Status of Wireless Telegraphy Debated in the German Parliament.**  
 Berlin, March 9.—The present status of wireless telegraphy came up in the Reichstag last evening during the debate on the public appropriation. Herr Eiselberger pointed out that while 150 ships had been fitted out with the Marconi system only seven had been fitted out with the German system. The United States, he said, was the first country to recognize the danger of a monopoly by a single system and it gave the German company the right to erect a station on the American coast. The time had come, he said, when the German postoffice would follow the example of the United States in trying to break the present existing monopoly. The requirement of the Marconi company that an English company have charge of the instruments aboard ships, he declared, meant with serious results both from a practical and a military standpoint. Herr Von Krafke, secretary of the imperial postoffice, said that as the English wireless stations refused to communicate with ships having other than the Marconi system, the German ships would not be able to receive messages from the Marconi apparatus. As England had not joined in the international agreement, English ships were not under any obligation to respond to a German vessel carrying another system. It will be a great thing, he said, to have the German postoffice follow the example of the United States in trying to break the present existing monopoly. The requirement of the Marconi company that an English company have charge of the instruments aboard ships, he declared, meant with serious results both from a practical and a military standpoint.

**Is the Gift of One of the Wealthiest Armenians in New York City and Is Declared to Be the World's Masterpiece of the Weaver's Art.**  
 New York, March 9.—Public announcement was made recently of the gift to the White House of a Persian rug of the conservatively estimated value of \$50,000. As interesting as was the rug is the donor, who goes by the name of H. H. Topakyan, one of the richest and best known Armenians of New York city, and one of the leaders of his people in this country.  
 The rug is said to be the finest of its kind in the world. It is only six and one-half feet long and four and one-half feet wide, from fringe to fringe, and yet it is declared to be the world's masterpiece of the weaver's art and its conservative value is \$50,000. The texture is of imperial silk, and throughout the rug are woven pearls, turquoises, rubies and other oriental stones.  
 Mr. Topakyan personally designed the rug and superintended its manufacture, and it took several years to get the various parts together. The rug has been handsomely framed in a mahogany frame at the order of ex-President Roosevelt and hung in the private office of the president.  
 Mr. Topakyan is one of the leading foreign business men of New York city. He has a large store on Fifth avenue. By thrift and energy he has built up an extensive fortune and has become a leader among Armenians in America. He has a large collection of decorations given to him by the sultans of Turkey by the shah of Persia and by the Venezuela government for distinguished services rendered. During the World's Columbian exposition at Chicago in 1892 he acted as imperial Persian commissioner and at his own expense he built the Persian Turkish pavilion at the fair, receiving forty-eight diplomas and forty-eight medals for the unique exhibits he gathered from both countries. He once gave the Chicago museum a valuable antique carpet. His desire to present a satisfactory memorial to the people of his adopted country led to the gift of the wonderful rug, which now hangs in the White House.  
 Mr. Topakyan has a beautiful summer home called "Persian Court," at Marriestown, N. J., which is one of the most beautiful private homes in the United States.

**JAPAN TO ANNEX KOREA?**  
 This View Held in the Capital of the Hermit Kingdom.  
 New York, March 9.—The Times, in a special from Seoul, Korea, says: It is now accepted in diplomatic circles here that Prince Ito will not return to Korea. His successor as resident general of Korea will be understood, the Forstnerki, minister of war in the Japanese cabinet. He is in the close confidence of the emperor of Japan, and has held his portfolio in many successive ministries, however great the changes were. His nomination would excite the most apprehensive among the Korean officials. It is accepted generally that Japan has now determined to annex the kingdom. No one puts any credence in the official denials, which are made at every opportunity, and the appointment of Forstnerki will be regarded as a definite step toward ending the present regime. Of course no one can prophesy how Japan will manage to bring this about. There are a hundred ways in which it could be so arranged as to appear to be the logical end of a gradual process. Tokyo was powerless to avert. The emperor may die or may be induced to abdicate, or a revolutionary movement might be allowed to grow to such proportions that the intervention of Japan would seem the only means of preserving order. The precise means employed will be determined when the moment comes, but there is a general feeling among foreigners here that this will not now be long delayed, and before many months are passed this country will be annexed to the Japanese empire.

**WOULD FLY ACROSS OCEAN.**  
 General Plans an Aerial Cruise from Spain to America.  
 New York, March 9.—Joseph Brucker, formerly commissioner to Germany for the St. Louis World's Fair, announces that he has under consideration a plan to send the first steerable airship across the Atlantic ocean. He is relying on the approval and cooperation of King Alfonso of Spain. Mr. Brucker's plan is to start his expedition from Cadiz, Spain, or some other coast town, drift with the trade winds to the Canary, Madeira and the Cape Verde Islands and then directly across the ocean to the West Indies. He proposes to start about July 25, taking advantage of a full moon, and says that the voyage should be made inside of five days.

**NOT ACCEPTING NEW RECRUITS.**  
 Uncle Sam's Army Now Has Its Full Complement of 77,753 Men.  
 Washington, March 9.—For the first time in many years the United States is not seeking men for its standing army. It is now recruited up to its full complement of 77,753 men. "We are not accepting any new recruits, only re-enlistments," said Captain W. C. Graves, twentieth United States Infantry, in charge of the recruiting stations at Los Angeles. "Two weeks ago orders were issued to the recruiting stations throughout the country to discontinue advertising in any way for recruits. The number of enlistments for new recruits was reduced to a minimum. It was asked to what he attributed this change. The managers and crew were taken off the island after having been there a month."

**ELKS PLAN IMPOSING TEMPLE.**  
 Minneapolis Lodge of the Order Proposes to Build Costly Structure.  
 Minneapolis, March 9.—The Minneapolis lodge of the Elks will erect a magnificent building for lodge rooms and club house. The structure will cost from \$150,000 to \$250,000. The plan has been long under discussion, but the structure is now assured. A committee has been appointed with authority to purchase a site for the building. Members of the committee says that the club house will be built as soon as the site is purchased. The committee has not decided whether the site of the club house had best be either place of three or more persons, disguised by having their faces painted, discolored, colored, or concealed, is unlawful."

**ROOSEVELT'S FORMER GUARD TO GET A JUICY PLUM.**  
 Denver, March 9.—"Jimmy" Sloan, formerly ex-President Roosevelt's closest companion and body guard for five years, has been rewarded and within the next few weeks will resign from the United States secret service to become United States marshal for the southern district of Illinois.

**CHINESE STUDENT IS TREASURER.**  
 Madison, Wis., March 9.—Guoktai Chao, class of 1916, of Shanghai, China, has been elected treasurer of the Madison chapter of the International club to fill the vacancy incident upon the resignation of Yu-jong L. Sun, 10, of Srehow, China.

**SWINDLED CHICAGO PEOPLE.**  
 This Charge Against a Priest of the Independent Polish Church.  
 Winnipeg, Man., March 9.—Antonio Lubiez, a priest of the Independent Polish Catholic church, who attained some notoriety recently in this city and who was charged with receiving money in the department of immigration of the Dominion government. He was to be met at the boundary by an officer of the immigration of the United States, but it is understood here that he will be taken care of by the police here in Chicago. The story told to the police here about Lubiez was that he had been conducting a fake orphanage in Chicago; that he had attained women in the habit of coming to Chicago, and that he was engaged in collecting money in that city and had used the money collected wrongfully. The charge of obtaining money under false pretenses was preferred against him, and eventually he made his way to this city, one of the alleged men coming to the city at the same time. The disappearance of the man while in this city and her subsequent marriage to Baligrodski, Catholic priest of the Independent Polish Catholic church, attracted considerable attention a month ago.

**STOP SALE OF UNEMPLOYED.**  
 Police Find Law Interferes With New York Plan to Aid Idle.  
 New York, March 9.—The proposed "sale" of unemployed men at the Park side Presbyterian church in the Flatbush section of Brooklyn was not held because of police interference. It had been announced that groups men with their faces covered by masks to avoid the humiliation would be auctioned off to the public to the highest bidder. The police stopped the sale by virtue of a section of the penal code which says that "an assemblage in public houses or other places of three or more persons, disguised by having their faces painted, discolored, colored, or concealed, is unlawful."

## Marquette County Savings Bank

SAVINGS BANK BUILDING, MARQUETTE.

**OUR SAVINGS PASS-BOOKS** are issued for depositors as low as a dollar and up to any amount. When money remains three calendar months we allow interest thereon. Interest begins on the first of the month following date of deposit; but when a deposit is made during the **FIRST FIVE DAYS** of any month interest begins on the first of that same month. We credit and compound interest twice a year, June first and December first. If the depositor cannot call on these dates, his interest will be attended to just the same as though he were present. For further particulars you are invited to call.

**Special attention to BANKING BY MAIL. Send a postal for booklet.**

**NORWAY STIRRED BY GEN. BOOTH.**  
 Aged Salvationist Begins Campaign Before the King and Court.  
 Christiania, Norway, March 9.—General Booth, commander-in-chief of the Salvation army, has begun a great religious campaign in Norway. He spoke here at the National theater, which was filled with a high-class audience, King Haakon and members of the court being present. General Booth was introduced by ex-Premier Loveland and the white-bearded salvationist made a profound impression, speaking with amazing eloquence and vigor.

**LIKES AMERICAN POLICY.**  
 Japanese Statesman Praises President Taft's Inaugural Address.  
 Tokyo, Japan, March 9.—Count Okuma, former president of the progressive party, has written a signed article for the Tokio Mainichi, in which he unreservedly praises President Taft for his policy as embodied in his inaugural address. In regard to that portion of the address dealing with the treaty rights of aliens, Okuma says that it would be a matter for universal rejoicing should the delicate relations between the federal and state constitutions be adjusted in a manner thoroughly compatible with national credit and honor and the standing of the United States as a highly civilized power.

**PLenty OF COAL LEFT.**  
 Michigan Supply 11,870,000,000 Tons, According to Federal Expert.  
 Detroit, March 9.—Michigan still has a coal supply of 11,870,000,000 tons, according to Marius R. Campbell of the United States geological survey, the state's original supply of coal was 12,000,000,000 tons, contained in area of 11,000 square miles of coal producing territory. Up to the end of 1897 the production of the state had amounted to 13,842,943 tons, which, including the waste involved in the mining operations, represented a total exhaustion of only 21,000,000 tons, leaving still available, as stated, 11,870,000,000 tons. The use so far, is only 0.175 of 1 per cent of the total original supply.  
 Coal in Michigan is said to have been known in the Jackson field in 1834, followed by other mines at Grand Lodge in 1838, but the output were trifling until 1890, when the geological survey records a production of 2,329 tons. All of the coals produced in Michigan are of the dry non-coking bituminous variety. Such coals as is made in the state is from coal brought from Ohio and Pennsylvania by the railroad.  
 Though the coals of Michigan are, as a usual thing, of a lower grade than those coming from Ohio and Pennsylvania, with which they have to compete, yet so rapid has been the development and increase in population in the cities along Lake Michigan and Lake Huron, and the Detroit and St. Clair rivers, that local markets for them have been created, and the increase in production during the last ten years is unrivaled proportionately in the coal mining industry of any United States state. With nearly 12,000,000,000 tons yet to draw upon the day will come when Michigan will be one of the most important coal producing states of the Union.

**FURIOUS STORMS IN EUROPE.**  
 CAUSE SCORES OF FATALITIES.  
 Vienna, March 9.—A total death list of more than 200, with millions of dollars' worth of property destroyed, will result from the blizzard that has raged throughout a large part of Europe. It is known that more than 150 persons have been killed in avalanches in the Austrian mountains alone. The storm was the most severe in recent years and the suffering in its path is such as to call for public recognition.  
 In conclusion he says: "Japan's real motive was proven on the occasion of the visit of the fleet and is now under the control of the estimate Americans. Local anti-japanism is not of serious concern and will disappear when they cease to be hunted by a needless suspicion. The true American sentiment will ultimately prevail, especially under the guidance of the great-minded statesman who Japan is, unfortunately, the object of unwarrantable suspicion."  
**Visit of the Fleet Is Cited.**  
 In conclusion he says: "Japan's real motive was proven on the occasion of the visit of the fleet and is now under the control of the estimate Americans. Local anti-japanism is not of serious concern and will disappear when they cease to be hunted by a needless suspicion. The true American sentiment will ultimately prevail, especially under the guidance of the great-minded statesman who Japan is, unfortunately, the object of unwarrantable suspicion."

**WIRELESS FOR PHILADELPHIA.**  
 Philadelphia, March 9.—One result of the wire prostration due to the blizzard will be the establishment by the city of a wireless plant on top of the city hall tower. The top of the tower is 337 feet from the ground, and a powerful wireless outfit would put Philadelphia in touch with any municipality or sea station operating a wireless plant within a radius of 1,000 miles. Profiting by the example furnished by the plant in which Baltimore now finds itself—cut off entirely from wire communication with the outside world—city officials today, began the work preliminary to the erection of a plant that will keep Philadelphia in touch with the outside world no matter how badly the land lines are prostrated.

**A REMARKABLE RUSSIAN SECT.**  
 Among the numerous religious sects in Russia, the most remarkable and influential are the Subbotniks and Sabbatans. They first appeared in the reign of Catherine II, towards the end of the eighteenth century. The members of this sect practice the rite of circumcision, do not believe in Christ, accept only the Old Testament, and observe the Sabbath on Saturday. They also slaughter cattle and fowls according to the Jewish law, use praying shawls, and wear zizit (fringes), praying with covered heads from Hebrew prayer books, with a Russian translation. They are industrious, hospitable, and can read and write. Up to 1820 they lived, for the most part, in Moscow, Saratov, Tula, and elsewhere. In the reign of Alexander I, they enjoyed freedom. Nevertheless, the

**PROSPEROUS MINING FIELD.**  
 During the past few years there have been developed in the Iron River-Stambough district a greater number of mines than in any other portion of the old ranges. The deposits opened contained tens of millions of tons of ore. Much exploration is still in progress, and the existence of further ore bodies of important proportions has already been determined. Within a radius of a mile and a half there are seven diamond drills in commission in Sections 19 and 24, 43-35, territory which lies just to the north-east of Iron River. Three of these are at work on the Boyington and Spies properties for Pickanis, Mather & Co., and the others are testing land holdings for the Florence Iron company, a subsidiary concern of the Industrial Securities corporation of New York. The Florence company has already located one or more quantities in the Hall tract and is preparing to open the property for production. Deep drilling has been done in the Blair field, to the east of Stambough village, the past several years, in part for Corrigan, McKimley & Co., and it is the understanding that very valuable discoveries have been made. Near the James mine, which lies in section 3, 43-25, an excellent strike of ore has been made at the McFarland property, and a good showing is reported from the track the Gleason Exploring company is testing. In other portions of the Iron River-Stambough region exploratory operations are in progress, prominent among which is the work of the Cleveland-Cliffs Iron company, and there is expectation of further decidedly important developments. It would appear, in fact, that this western spur was materially the richest portion of the Menominee range.

**WHEN DINNER IS OVER**

**LA VERDAD**

Cigars compose the smoker's new course. They are a fitting climax to an elaborate banquet or a simple home meal.

Gladstone, the famous English statesman, always smoked a clear Havana cigar.

**LA VERDAD** adds digestion. It is the best aid to digestion. It soothe the tired nerves and instill energy.

It quickly absorbs. Gives Relief at Once. It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts., at Drug-gists or by mail. In liquid form, 75 cents. Ely Brothers, 56 Warren Street, New York.

**BABY NAMING TORTURES.**

Perplexity in Some States Over Deciding What to Call the Infant.

The Medes and Persians were an unyielding and arbitrary people, but it is not recorded that they had such an inhuman law as this, a regulation that the baby must be named within ten days. The name must be decided in that time, and if not decided in that time, it cannot be changed without proceedings so difficult and vexatious that most people will prefer to leave the name as it stands, or will change it without legal sanction.

Surely no one should be obliged to name his baby within a year. Not only the board of health, but doctors, nurses, friends and relatives—especially relatives—should be forbidden under pain of temporary ostracism from asking that embarrassing question, "Well, what are you going to name the baby?" If you don't name him or her as soon as it is born they are scarcely able to disguise their pity for you. The doctor, perhaps, is not to be blamed as much as the others. The law prods him on. He has got to get it on the books within ten days. If he does not he will not be thought a punctilious inquirer. The board of health will have its eye on him. But for the others there is no such excuse. Their action is contra bonos mores and quite unparliamentary. Their inquiries are oppressive and unjust. They incur not charity nor the rudiments thereof. They do not have the first conception of the torture the laggard parent has endured.

First of all, there's the dictionary. It's long enough—the Lord knows! But no one realizes how few good names it contains until he has attempted to get one out of it. He thumbs it for weeks and months together. Always with the same result. He finds the largest number of the names of the family genealogy and the genealogies of all the collateral branches. Result? Not better! He calls in his friends—even his enemies. But they cannot help him. He becomes a subject of melancholy and a hopeless pessimist. But this is not all. Possibly a boy is expected—and after great tribulation a baby's name is selected—but the baby turns out a girl. Or vice versa. The process must begin all over again, and with the knowledge that what was accomplished in months must now be done in days—ten days! The parent may escape nervous prostration, but who will doubt that his vital forces have been impaired? And who should be surprised that names selected under such duress and in such a hasty manner, always stand out as odd names? Yet folks are surprised when a change is made. Clearly the law is villainous, and the manners of our friends and relatives are beyond description. There should be a change.—New York Globe.

# Negaunee Department

NEGAUNEE MEN OWN DESIRABLE TRACT

SHAREHOLDERS OF CORPORATION IN CONTROL OF WARNER FARM, ON CASCADE RANGE, HOPE SOON TO HAVE LAND EXPLORED.

The German Mining corporation, composed of thirty-nine Negaunee men, who recently purchased the Warner farm on the Cascade range, is negotiating with a mining company with a view to leasing the property. A proposition submitted by a well-known concern was rejected at a meeting held last Sunday, and another proposition is now being considered. The Negaunee men believe there is one on the tract, which comprises 250 acres. In a test pit put down last summer to a depth of less than eight feet ore that assayed 48 per cent in iron was found. Outcroppings have also been located several feet below the surface. The tract is favorably located and has been found on two or three different points not far distant. The Volunteer mine is immediately west of the tract. Alex Maitland owns holdings to the north, where ore has been found, and the Swanzey range lies to the east. Longyear & Hodge, who had several drills in operation for more than a year, until a few months ago, on the Pittsburg & Lake Superior iron company's land, put down several holes south of the Warner tract, but the result of the test was not made known, though it is generally believed that ore was found.

**No Activity on Range.**

There is no activity to speak of in the Cascade district, nor is it expected that work will be conducted on a very extensive scale at any of the properties during the present year. All of the open pit properties, including the Moore, owned by the United States Steel corporation, the Star West, owned by Corigan, McKimney & Co., and the Richmond, owned by the Consumers' Ore company, are idle, as is also the Volunteer, which a few months ago passed into control of the Tomlinson interests of Duluth. The Empire property, in which the Negaunee men have an interest, is the only mine at which any work is now being done. This is an underground proposition and the work is largely of a development nature. It is generally expected that operations will be resumed at the Richmond after a month or two, but it is not certain that anything will be done this year at the Moore or Star West, both of which are well equipped with machinery.

**ENJOYING THEIR TRIP.**

Negaunee Couple Now in California Delighted With That Country.

John Shea and wife, who have been absent from the city for several weeks on a tour of the West and Southwest, have spent some time in Los Angeles, Calif. They like the country immensely and judging from the tone of Mr. Shea's letters they may locate there. Since their arrival in Los Angeles they have met a number of former residents of Negaunee. Among them are Charles Thorp and family, Edith and Ed Barabe, Edward Maas, John May, Christ Fox, Captain John Bartle and his son John. The latter live a short distance from Los Angeles, but they come into the city frequently. Mr. Bartle, Jr., has done exceptionally well in the West and is now modern methods. Mr. Uchida is not taking any parlor course in the science of how to run a modern hotel either. Every day he is in the thick of the fray, either in the kitchen watching the chefs or in the corridors near the desk, or talking with the bellboys, or perhaps watching the bartender exemplify his art.

**JAP LEARNS HOTEL BUSINESS.**

Will Run Hostelery in Native Country Same as American Man.

E. Rinechi Uchida, a Japanese student of the American hotel system, has been living at the Hotel Astor for two months taking a laboratory course in all the branches, from acting proprietor to "bell hopping" and dishwashing by modern methods. Mr. Uchida is not taking any parlor course in the science of how to run a modern hotel either. Every day he is in the thick of the fray, either in the kitchen watching the chefs or in the corridors near the desk, or talking with the bellboys, or perhaps watching the bartender exemplify his art.

**PATENT ON CANDLESTICK.**

August Magnusson, a well-known Negaunee miner, who is at present employed at the Rolling Mill property, has secured a patent on a miner's candlestick that is a big improvement over anything ever seen in the business. The stick contains two springs, one for the adjustment of the candle, and the other for extinguishing the blaze when the candle burns to the edge of the holder. It is impossible for the candle to fall out. Mr. Magnusson a short time ago secured a patent on a monkey wrench. He sold it and the wrench is now being manufactured.

**HAVE CHANGED HALLS.**

The Negaunee Light Infantry, which has been meeting in the Boulton hall, has moved to the Kirkwood Hall. The organization is to have a room to be used for club purposes, with the privilege of drilling in the mail hall. Racks will be put in for the guns and other equipment.

**DARANTELLA**

# CALUMET Baking Powder

Received Highest Award World's Pure Food Exposition Chicago, November, 1907

What does this mean? It means that Calumet has set a new Standard in Baking Powder—the standard of the World. Because this award was given to Calumet after thorough tests and experiments, over all other baking powders. It means that Calumet is the best baking powder in every particular in the world. And this means that Calumet produces the best, most delicious, lightest, and purest baking of all baking powders. Doesn't that mean everything to you?

# ISHPEMING

**ISHPEMING IN BRIEF.**

The Duluth Ski club will conduct its last tournament of the season next Sunday afternoon.

George Duquette, who conducts a barber shop at Princeton, was called to Ishpeming yesterday on account of the illness of his wife.

President—Joseph Montor.

First Vice President—Leon Gurnmond.

Second Vice President—Pierre Lemere.

Recording Secretary—P. Bernard.

Financial Secretary—Godfrey Troche.

Assistant Secretary—O. Mesnard.

Treasurer—Joseph Barabe.

Assistant Treasurer—O. Jandron.

Organizer—Victor Mesnard.

Sergeant-at-Arms—Julius Gagnon.

Directors—Charles Belang, Medard Gauthier, Dick Choquette, Pierre Lemere, Ishpeming Joseph Chalfoux, Matt Yaque and Godfrey Troche, Sr.

The society is in excellent condition, having 203 members, with a cash balance in its treasury of \$4,126.70.

**LOCAL LACONICS.**

Hugo Muck spent the past few days with his sister at Green Bay.

A carload of maple flooring was received yesterday for the new high school building.

Abel Levine has returned from a two weeks' business trip to Chicago, Detroit and other points.

The No. 2 bowling team of the city was defeated by forty-seven pins by a team at the Bank street alleys Monday evening.

The Negaunee bowling team, which defeated a team from Escanaba a few weeks ago, expects to visit the Sandy City the latter part of the month.

Thomas H. Harris, who travels for the American Candy company, covering the greater part of Minnesota and a portion of the upper peninsula, arrived home yesterday morning after a month's absence.

The Negaunee lodge of Odd Fellows will entertain members of the Marquette and Ishpeming lodges tomorrow evening at its hall on Iron street. Following the meeting a lunch will be served and there will be short talks, musical numbers, etc.

Dan Shea, acting treasurer of the Negaunee Division of the Ancient Order of United Workmen, has received a draft for \$1,000 payable to Miss Josephine Shea, beneficiary of her father, the late John Shea, who died a few weeks ago. Miss Shea is at present visiting in Chicago.

Dave Mayotte, Delore Deshetel, Joseph Desharland and Henry Deshetel, who attended the funeral in Negaunee Monday of the late Joseph Larpard, left that evening. Messrs. Mayotte and Deshetel are residents of Green Bay and Joseph Desharland lives in Chicago. Henry Desharland resides in Escanaba. Mr. Mayotte is spending a few days at Tremont before returning home, while Joseph Desharland is to visit at Escanaba for a short time. The latter is an engineer on one of the lines running out of Chicago.

**FROM MORGAN'S CURB LETTER.**

Today's market has been fitful and erratic. It opened strong and fairly active, but lapsed into dullness after the first hour of trading. As the market became less active, the prices weakened, and shortly after the noon hour the heavy selling made its appearance in the New York market, one broker disposing of about 20,000 shares around the room. Amalgamated lost a point and a half. Steel common a fraction more than a point, and the Boston list followed in sympathy. Market news is very meagre, and the uncertainties still existing regarding tariff revision continue to be the principal topic of conversation. For the present, we look for nothing more than a trading market, but still incline to believe that the big money is to be made on the long side. Wire advices from Bisbee, Ariz., are to the effect that Denn Arizona and Shattuck-Arizona will start up tomorrow. The former gained half a point on this report, but the news was without effect upon Shattuck. The close was easy, at slight recoveries from the low point.

Yesterday's prevailing prices were:

Bid.	Asked.

# FOUR SENTENCED TO U. P. BRANCH PRISON

**PENALTIES METED OUT TO ALL FOUND GUILTY OF CRIME DURING FEBRUARY TERM.**

## A BUSY DAY IN COURT

**Jury Returned Verdict for Plaintiff in Cairbre vs. McQuillan Case—Ad-journed to March 16.**

The February term of circuit court was adjourned until March 16, yesterday afternoon, and last evening Judge Cooper left for Chicago, and from there will return to his home in Ironwood. It is thought that Judge Stone will be able to complete the work of the term. In addition to finishing the Cairbre-McQuillan case yesterday, the prisoners convicted of crimes during the term were sentenced and motions in other actions not of general interest, were heard, making it a very busy day in the court room.

The most interesting feature of the day's business was the sentencing of Richard Morris, charged with burglarizing the residence of A. J. Yungbluth at Ishpeming, and stealing therefrom valuable jewelry. Morris was given a sentence of from six to fifteen years in the upper peninsula branch prison, at Marquette, with a recommendation that he serve seven and one-half years in expiration of his term. Before sentence was pronounced Morris was closeted with Judge Cooper for some time, at the latter's request, but what was said between them is entirely a matter of speculation. Upon being asked in open court if he had anything to say before the sentence of the court was pronounced, he asked that he be sentenced to the Jackson prison, and not to the Marquette institution. This request was refused, Judge Cooper stating that even if Morris were sentenced to Jackson, he would, in all probability, be transferred to Marquette within a short time. Morris received his sentence with very bad grace, and looked daggers at the officers and Prosecutor Bell, as he rushed over to say something to his attorney, C. F. Button. A few minutes later, this conversation was interrupted by the sheriff, and Morris was forced to return to the jail, apparently in an ugly frame of mind.

In passing sentence on Edward Peterson, who was Morris' confederate in the Yungbluth burglary, the court stated that he believed that Peterson's wrongdoing was largely the result of being mixed up with Morris, and advised him to hereafter keep out of the company of such men, if he did not want to become as bad as Morris and spend half of his life in prison. Peterson was then sentenced to from six months to five years in the Marquette prison, with a recommendation that he be paroled at the end of six months.

### New Trial Refused Talo.

After the jury had retired yesterday forenoon to deliberate on the Cairbre-McQuillan case, Judge Cooper heard the motion of Attorney T. J. Dundon for a new trial in the Nicholas Talo murder case. Mr. Dundon argued that the testimony and evidence introduced at the trial did not warrant a verdict of first degree murder, and cited a number of decisions to support his point. He further said that the verdict itself showed that the jury misapprehended the effect of the verdict returned, in that the prisoner was recommended to the leniency of the court, when no leniency was possible under the law, his imprisonment being the sentence that must necessarily be imposed.

Prosecuting Attorney Bell spoke against the motion, stating why, in his opinion, there was ample reason for the jury returning their verdict of first degree murder. After hearing the arguments, the court took the matter of granting a new trial under advisement until after dinner.

About the middle of the afternoon Judge Cooper announced that he had given the motion of Mr. Dundon careful consideration, and also the evidence submitted in the case, and that the motion for a new trial for Talo would be denied. The court stated that there seemed to him to be just reason for returning a first degree murder verdict, especially because of the testimony of the wife of the deceased, who had testified that her husband had been threatened by Talo earlier in the evening on which he was shot, and that Talo and two others were waiting for Pettola when he came out of Huttilla's house.

Life imprisonment in the Marquette prison was the sentence then pronounced on Talo, through an interpreter. When the prisoner was asked if he had anything to say, he asked that his sentence be made as light as possible. The court expressed his sorrow at not being allowed any discretion in the length of sentence, but said there was but one sentence that could be given him. As Talo left the court room, tears were in his eyes, and for the first time since he was arrested, he seemed to realize the seriousness of the crime he had committed.

### Other Sentences Imposed.

Joseph White, who had pleaded guilty to stealing jewelry belonging to Miss Annie Fagan, of the Colonial Inn, in this city, was sentenced to a term of from six months to five years in the Marquette prison, with a recommendation that he remain in that institution for one year.

Robert Ray, who pleaded guilty to stealing a fur from a Marquette girl several months ago, was sentenced to spend ninety days in the county jail. This completed the criminal docket of the term, and the four men to be taken to the branch prison will be allowed to begin their sentences as soon as the officers can take them there.

### Cairbre Wins Suit.

The case of Bernard Cairbre against his stepson, Dr. James McQuillan, of Superior, for money alleged to have been loaned the defendant during his college days, went to the jury about 10 o'clock yesterday, and at 3 o'clock in the afternoon, a verdict was returned in favor of the plaintiff, Cairbre, for \$1,794.83. At the first trial of the case in the Marquette county circuit court, the jury returned a verdict in favor of the defendant.

## IT'S THEIR NIGHT TONIGHT.

**Ladies Will Have Exclusive Use of Guild Hall This Evening.**

Tonight will be ladies' night at the Guild Hall; that is, ladies will have the exclusive use of the gymnasium and plunge room and concurrent use of the bowling alley and other departments. Director Burdett will be on hand to give the ladies instruction in gymnastics and swimming. A large attendance is assured, as many of the ladies cannot conveniently visit the Guild Hall at any other time.

The total membership is now 250, over fifty members being received on Monday and Tuesday. The board of managers wishes the public to understand that they are welcome to call and inspect the Guild Hall at any time, but especially from 7 to 9 o'clock each evening, excepting Wednesday. Major Burdett or any attendant or member of the board will be pleased to show visitors through the different departments and to answer any inquiry either in person or by telephone.

### HOUSE COMMITTEE FAVORS IT.

**But Upper Peninsula Legislators Oppose Two-Cent Fare Bill.**

The house committee on railroads is favorably inclined to the Fields bill which would place upper peninsula railroads under the provisions of the two-cent fare law and it is expected the bill will be reported out within a day or so, is the statement made by the Laing Republican.

"There will undoubtedly be strong opposition to the bill as most of the upper peninsula legislators have never been in favor of forcing the roads to accept less than three cents a mile. If the bill goes through the South Shore will have to cut its price to two cents a mile as its earnings already exceed \$1,200 a mile, while the Copper Range is within two dollars of that amount, according to its last report.

"The house railway committee has reported out the bill which provides for the naming of a commission to establish regulations for governing the transportation of explosives. This commission will consist of representatives of some 158 railroads in the country and the regulations will be in accordance with those prepared by the interstate commerce commission, the idea being to make uniform regulations for all states."

### THEATRICAL.

**"Latimore-Leigh" Stock Company.**

"The Flower of the Rank" was successfully presented by the Latimore and Leigh Stock company at the opera house last evening. The members of the cast, as far as represented in the play last evening, made fully as favorable an impression as in the play given the night before. In the two performances already given, the Latimore and Leigh troupe has shown itself to be considerably better than the average stock company on the road. The offering tonight will be "The Orphan's Prayer." The company will go to Negaunee tomorrow night but will return the following day and performances will be given Friday night and Saturday afternoon and evening.

### "The Alaskan."

"The Alaskan" which is an absolute departure from the customary stories of foreign islands, mythical palaces in the clouds, fairyland, and other imaginings, so often used as the foundation of comic operas and musical comedies, is to be the attraction at Marquette Opera House tomorrow night, when William P. Cullen's splendid company presents its offering of last year with many new and novel features. As those who were fortunate in seeing it last year know, "The Alaskan" is not a musical comedy, but is in fact, a comic opera. With a well-told story of life in far off Alaska, it expresses an atmosphere of that much heralded country, permitting the introduction of pictures and conditions that are unusually interesting. In the presentation this year there have been many new features added. While the best of last season's features are naturally retained, as far as costumes, scenic addition and other accessories go, the present production will have taken on a new life.

### WORK BEING RUSHED.

**Lumbermen Are Making Things Count During Ideal Sleighing.**

Throughout the upper peninsula of Michigan, the lumbermen are rushing their winter's cut of timber to the landings, thereby taking advantage of the present ideal sleighing.

### STATE UP AGAINST IT.

**Hasn't Got Money Enough to Buy Postage Stamps Even.**

The condition of the state treasury is such that its employes have to buy even the postage stamps for the commonwealth, Clerk Paul King having dug down in his trousers pockets last week to provide some 800 to pay the postage on the daily shipment of house journals, which otherwise would not have reached interested readers throughout the state, says the Laing Republican.

The senate journal is being mailed out with a few remaining stamps and what will happen when the supply is exhausted is no one knows. Saturday the representatives, senators and employees of the legislature were obliged to leave for home without their usual ten-day stipend. It is hoped that enough cash will come in this week to allow for the resumption of payments.

### ROCKER WOOD

**At \$5.00 per load. Nothing better for the cook. Consolidated Fuel & Lumber Co. (6-6-4)**

## UPPER PENINSULA IS WELL TAKEN CARE OF

**DECLARED BELOW THE STRAITS THAT TWELFTH DISTRICT HAS RECEIVED MORE THAN ITS SHARE OF POLITICAL PATRONAGE.**

In an attempt to refute the statement often made by upper peninsula men that this part of the state is only attached to the lower peninsula for purposes of taxation and to increase the Republican majority, and is being deprived of its share of the political and other plums emanating from the capital, a down state exchange has compiled a list of the upper peninsula men on the pay roll of the state. The writer declares that an examination of the record shows that the twelfth congressional district is the leader in the number of places in the state administration, which its residents hold. The list submitted is as follows:

John W. Stone, Marquette, supreme court justice.  
O. B. Fuller, Ford River, auditor general.  
L. L. Wright, Ironwood, superintendent of public instruction.  
Chase S. Osborn, Sault Ste. Marie, regent of the university.  
Alfred C. Lane, appointed from Houghton, state geologist.  
J. B. Montgomery, appointed from Champion, superintendent of state public school.

William A. Cotton, Escanaba, member of the state board of education.  
William J. Oberdorfer, Stephenson, member of the state board of agriculture.  
Robert H. Shields, Houghton, member of board of state tax commissioners.  
Roger M. Andrews, Menominee, commissioner of mineral statistics.  
Theodore A. Felch, Ishpeming, member of the board of registration in medicine.  
Norman W. Haine, Houghton, member board of control, Michigan College of Mines.  
William Kelly, Vulean, member board of control, Michigan College of Mines.  
James MacNaughton, Calumet, member board of control, Michigan College of Mines.  
M. M. Duncan, Ishpeming, member board of control, Michigan College of Mines.  
Lucius L. Hubbard, Houghton, member board of control, Michigan College of Mines.  
J. C. Kirkpatrick, Escanaba, member board of trustees of Newberry asylum.

R. C. Ferguson, Sault Ste. Marie, member of board of trustees of Newberry asylum.  
Charles J. Byrns, Ishpeming, member board of trustees of Newberry asylum.  
Perry Leighton, Newberry, member board of trustees of Newberry asylum.  
F. P. Bohm, Newberry, member board of trustees of Newberry asylum.  
Frederick S. Case, Marquette, member board of trustees of Newberry asylum.

Ira Carley, Stephenson, member of board of control of Marquette prison.  
Otto C. Davidson, Iron Mountain, member board of control of Marquette prison.  
Edward C. Anthony, Negaunee, member board of control of Marquette prison.

Alfred O. Jopling, Marquette, member of Mackinac Island state park commission.

John R. Bailey, Mackinac Island, member of Mackinac Island state park commission.

Joseph H. Hooper, Ishpeming, member of board of examiners of barbers.  
Colonel James N. Cox, Calumet, assistant adjutant general and secretary military board.  
Colonel W. H. Thielman, Calumet, inspector general, National Guard.

Robert J. Bates, Sault Ste. Marie, brigadier general of the National Guard.  
Charles H. Chapman, Sault Ste. Marie, judge advocate, National Guard.  
W. E. Knox, Sault Ste. Marie, major, member of governor's staff.  
Robert P. Dunstan, Hancock, lieutenant colonel, governor's staff.  
Captain George A. Curry, Ironwood, member of governor's staff.

### COMMUNICATED.

To the Editor of The Mining Journal:—Will you kindly permit me to state a few words to the general public who might take steps to prevent the leaving of Gene Sullivan, known as Marquette's leading musician. Mr. Sullivan is known to every one in Marquette and has furnished music to many who have attended his Saturday night hops. He is about to leave for Escanaba and will probably make that place his future home. He expects to leave Saturday morning to lead the orchestra for the "Isle of Spice," which will be seen in that city Saturday night. He will then look over the musical lion, and expects to return sometime next week.

While it is true that prices on all grades of timber have improved but little over one year ago, when the low ebb of several years was reached, the actual cut of logs will be nearly up to the normal point.

In a large number of instances the Michigan lumbermen are banking very strongly on the improved conditions of trade. Notwithstanding the fact that forest fires destroyed a large quantity of good timber, the output this year will probably equal the record of previous years.

### WON TWO OUT OF THREE GAMES.

The teams trying conclusions in a league match at the bowling alleys last evening, the Superiors defeated the Repeaters, winning two of the three games. The scores were:

Repeaters.....	178	156	130	464
Gooding.....	136	161	115	412
Carr.....	155	145	124	424
