

HOUSE DEFEATS RAILROAD PLAN

By a Decisive Vote, the Michigan Assembly Refuses to Concur in the Proposed Ten-Cent Over-Charge on Trains.

Found That It Would Hit Fraternal Orders Hard, the Tuttle Bill Goes Back to Committee, Doomed to a Painless Death—Proposition to Put the Clerk of the Supreme Court on a Salary Basis Is Lost, but Is Due to Come Up Again.

Lansing, Mich., May 17.—[Special.]—The proposition to allow the railroads to charge a penalty of ten cents for failure to buy tickets was again whalloped in the house today when that body refused to concur in the senate amendment to the Cranston mileage book.

The fraternal orders today discovered that the Tuttle bill would hit them hard, and the bill was sent back to committee, where it will meet a painless death. It provides that insurance societies might offer a lower rate to the members of unions or fraternal societies in bunches of 100.

Things are drawing rapidly to a close. The bills are filled with boxes tonight and the members are packing their "mats" preparatory to rapid adjournment after Wednesday noon.

NATIONAL HOUSE IS VASTLY AMUSED

Southern Editorials Attacking an Ohio Member, and to Which He Is Unable to Reply Owing to a Ruling of the Speaker, Occasion Uproarious Merriment.

Washington, May 17.—A ruling by Speaker Cannon today prevented, perhaps, the reopening in the house of the words of the Civil war, H. Hollingsworth, of Ohio, sought to justify, as a matter of privilege, his recent resolution objecting to the placing of the portrait of Jefferson Davis on the silver service to be presented to the battle-ship Mississippi because of editorials in certain Southern newspapers hurling all sorts of epithets at him.

The speaker declared that as the editorials did not attack Mr. Hollingsworth, the reopening of the subject could not continue. The result of Mr. Hollingsworth's attempt was to get into the Congressional Record a number of uncompromising remarks about himself and with nothing to offset them.

Philippine Tariff Bill Considered.

The consideration of the Philippine tariff bill was postponed in final action upon it was prevented, owing to the lack of a quorum. Amendments were offered by Mr. Underwood, of Alabama, continuing in force for two years the export duties, after which they shall be reduced one-fifth each year for five years.

Steel Merger Assailed Again.

Should a resolution of Mr. Barleson of Texas, which was adopted, be complied with, the attorney general must furnish to the house information regarding the steps taken by him to annul the contract whereby the United States Steel corporation absorbed the Tennessee Coal & Iron company.

STRIKES AT THE BLACKHAND.

New York Law Punishes Extortion by Fifteen Years Imprisonment.

Albany, N. Y., May 17.—Governor Hughes today signed a bill increasing the penalty for extortion or blackmail from five to fifteen years. The measure is aimed at the Blackhand and similar organizations.

COITON FEEDS FLAMES.

Fort Smith, Ark., May 17.—A compass and 5,000 bales of cotton burned here today. The loss is \$300,000.

SENATE'S THEME IS A SHARP ONE

Cutlery Schedule of the Aldrich Tariff Bill Given Consideration, Some Cutting Remarks Feature the Day's Discussion.

Razors Figure in an Onslaught Upon the Proposed Duties and Keen-Edged Blades of Foreign Manufacture Are Flashed Upon the Floor, but All Attempts to Slash the Rates Are Successfully Combated by the Finance Committee.

Washington, May 17.—Razors were again used today in a hostile attack upon the rates of the Aldrich bill, pending before the senate. The committee on finance had increased the rates on razors in common use from about 55 to 100 per cent ad valorem, and as soon as the senate took up the cutlery schedule today the amendments offered by Mr. Simmons last Saturday, cutting these rates down were rejected.

Mr. Smoot in opposing these amendments, said that if the duty were 200 per cent it would not increase the price to the consumer. He held up before the senate a razor which he said cost to import forty-nine cents and which was sold for 85.

WORDS NOT MINCED BY PRESIDENT TAFT

Nicaragua's Special Commissioner Calling at the White House With Reference to the Proposed Settlement of the Emery Claim, the American Executive Talks to Him Very Plainly.

Washington, May 17.—President Taft talked very plainly today to Pedro Gonzalez, who came from Nicaragua as special commissioner to settle the Emery case, which has been a source of irritation between the two governments since the rupture of the friendly relations between them. The president made it clear that mutual trust, sincerity and regard for justice was the only sure ground of continued good relations between the two countries.

Some Blades Ten Cents Each.

Senator Aldrich said that a large part of the razors imported cost to import, at wholesale, ten cents each or \$1.20 a dozen.

Is there anyone here who ever saw a razor costing anything like ten cents? inquired Mr. Aldrich.

The invasion of the Germans into the American market was commented on by Mr. Hall, who said that he feared, in the case of razors, it had gone so far that the American industry could not be re-established.

LEPERS AT LARGE IN STREETS OF PONCE

Returning from the Island, European Medical Expert Charges the Government of Porto Rico With Alarming Laxy.

New York, May 17.—What is said to be alarming laxy on the part of the Porto Rican government in the care and control of persons suffering with leprosy will be brought to the official attention of the United States government by Dr. Edward Ehlers, one of a party of four European experts who have been studying various diseases prevalent in the West Indies, and who arrived in New York today from Ponce, P. R.

ENDORSER HANCOCK'S VIEW.

Senator Chauncey Depew Declares the Tariff a Local Issue.

Washington, May 17.—Republican thought he is, Senator Depew, of New York, today in a speech in the senate endorsed General Hancock's declaration that the tariff was a local issue.

TAPT TO OPEN THE EXHIBITION.

Washington, May 17.—The president will start the machinery of the Yukon-Alaska exposition at Seattle June 1st by touching a gold telegraph key connected with the White House telegraph wires, which key was presented to him today by the congressional delegation from Washington.

THE WEATHER.

Washington, May 17.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Tuesday; Wednesday, showers; moderate easterly winds.

CONEY ISLAND STARTLED.

New York, May 17.—Coney island, where the Sunday frivolity exceeds the combined frivolity of the other six days of the week, was hit today by a black cloud of the blue laws when Mayor McClellan ordered that hereafter there shall be shown in operation at the park only on six days in the week. Practically every show on the island will be affected. An order also was issued calling for the enforcement of the excise laws.

MRS. TAFT IS ILL.

Her Son Also Ails and Submits to a Slight Surgical Operation.

Washington, May 17.—Mrs. Taft is suffering from a slight nervous breakdown. She was taken ill today while on her way from this city to Mount Vernon on the yacht Syph with a party of friends, and was hurried back to the White House, where she is being treated by a specialist today and attended him during an operation on his throat. The operation performed on Charlie was not of serious nature, and he will be taken tomorrow to the White House.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

SCHEDULE FOR TODAY.

Table listing baseball games for today, including Pittsburgh at Brooklyn, Cincinnati at New York, etc.

YESTERDAY'S GAMES.

Table listing results of baseball games from yesterday, including Brooklyn, Pittsburgh, New York, etc.

LEPERS AT LARGE

IN STREETS OF PONCE

Returning from the Island, European Medical Expert Charges the Government of Porto Rico With Alarming Laxy.

New York, May 17.—What is said to be alarming laxy on the part of the Porto Rican government in the care and control of persons suffering with leprosy will be brought to the official attention of the United States government by Dr. Edward Ehlers, one of a party of four European experts who have been studying various diseases prevalent in the West Indies, and who arrived in New York today from Ponce, P. R.

CLEVELAND, MAY 17.—Bergers' witness and Clarke's poor throwing were responsible for Cleveland's defeat.

Atlanta, Ga., May 17.—Mrs. George Burg was murdered early today while she slept, and her husband is under arrest, charged with the killing. The couple had been separated.

INDIANA QUARREL IS FATAL TO TWO.

Richmond, Ind., May 17.—Ech Meek and his son were killed near here today by Joseph Raiback, the result of a quarrel over a line fence. Raiback was wounded.

BANK TELLER PLEADS GUILTY.

Ellis W. Niles of Minneapolis Admits Having Embezzled \$20,000.

Minneapolis, May 17.—Ellis W. Niles, former receiving teller of the First National bank, pleaded guilty today to an indictment charging him with embezzling \$20,000 of the bank's funds. He will be sentenced Saturday to from one to ten years in the penitentiary.

HIGH TRIBUNAL RULES IN FAVOR OF MRS. PECK

The Publication of a Woman's Picture in Connection With a Whiskey Advertisement Is Basis for a Suit for Damages Is the Decision of the United States Supreme Court.

Washington, May 17.—The publication of a woman's picture in connection with a whiskey advertisement is a basis for a suit for damages, according to the supreme court of the United States, which today decided the case of Elizabeth Peck vs. the Chicago Tribune company in favor of the former.

The case was originally tried in the United States circuit court for the Northern district of Illinois, where Mrs. Peck's testimony was excluded and the court directed a verdict for the newspaper company. That verdict was affirmed by the court of appeals for the Seventh district.

It appeared from the record in the case that Mrs. Peck is a resident of Iowa and a temperance advocate. Her picture was printed over another name, that of a nurse, and she was quoted in strong endorsement of the whiskey. It was contended that the damage, if any, was nominal. Justice Holmes held, however, that she had the right to prove her case.

holding that the publication represented Mrs. Peck, notwithstanding the name of another name, Justice Holmes continued, many might recognize the plaintiff's face without recognizing her name, and those who did know might be led to infer that she had sanctioned the publication under an alias. He also held that even although the publication had been by mistake, the publisher was not relieved from responsibility. "If the publication was libelous, the defendant took the risk," said the justice.

Dismissing the question as to whether the publication was libelous, the court said it seems to be impossible to say that the obvious tendency of what is imputed to the plaintiff by this advertisement is not seriously to hurt her standing with a considerable and respectable class in the community."

CAPTAIN PETER HAINS GOES TO SING SING

Imprisonment for Eight to Sixteen Years at Hard Labor the Sentence Imposed Upon the Man Who Killed Wm. Annis.

Flushing, N. Y., May 17.—Unless some unlooked for legal obstacle is interposed, Captain Peter C. Hains, Jr., U. S. A., who was convicted of manslaughter in the first degree for killing Wm. E. Annis at the Bay Side Yacht club last August, will be taken to Sing Sing tomorrow and at once will begin serving the sentence imposed today by Justice Garretson in the supreme court. The sentence is an indeterminate one, under which the minimum period of imprisonment will be eight years and the maximum sixteen. His time in prison must be spent at hard labor.

Counsel for Captain Hains late today practically agreed to their client's immediate transfer to Sing Sing, when they announced, after a consultation with General Hains, his father, and Major John P. Hains, his brother, that no application would be made for a certificate of reasonable doubt to act as a stay of execution. An appeal based on the general record in this case will be taken in the regular course, however.

Upon learning the decision of counsel, the sheriff of Queens county said that, acting upon the suggestion of the court, he would take the prisoner to Sing Sing within twenty-four hours.

When sentence was imposed today, Captain Hains sat down and dropped his head on the rail. He seemed overcome for a few moments, but recovered and sat upright, staring at the court.

Adam God Asks Change of Venue.

Kansas City, May 17.—Following a motion for a change of venue in the case of James Sharp, known as "Adam God," charged with the murder of a policeman here last fall, nine witnesses were introduced by the defense today in an effort to show that a fair trial could not be given Sharp in this county. The prosecution will introduce testimony tomorrow to oppose the plea of the defense.

Chicago Negro Gets Thirty Years.

Chicago, May 17.—Elijah Ruffity, colored, who overheard his wife discussing with another woman the good time she had had with some other man, killed her and committed her body in the furnace of the flat building of which he was janitor, pleaded guilty today and was sentenced to thirty years' imprisonment.

ACCUSED OF KILLING FATHER.

Louise Arbogast of St. Paul Is Placed Under Arrest.

St. Paul, May 17.—Louise Arbogast, fifteen-year-old daughter of the late Louise Arbogast, the wealthy butler who was killed early last Thursday, is in jail, charged with the murder. It is believed the girl was insane when she is alleged to have committed the crime.

Woman Murdered in Georgia.

Atlanta, Ga., May 17.—Mrs. George Burg was murdered early today while she slept, and her husband is under arrest, charged with the killing. The couple had been separated.

SEAMEN'S LEADER COMPLAINS.

Says Lake Carriers Are Importing Strike-Breakers from Norway.

Cleveland, May 17.—Victor C. Olander, general secretary of the International Lake Seamen's union, said here today that he had received a report that five hundred Norwegian sailors were under contract to come to this country and take the places of striking seamen on the great lakes. One detachment of sailors has already embarked for the United States, according to the report, and others are to follow soon. The officials of the union have taken the matter up with the immigration authorities and will make an attempt to prevent the sailors from landing. Olander says that the hiring of the Norwegians is a direct violation of the contract labor law.

WALL STREET FIRM GOES TO THE WALL

With Liabilities of a Million Dollars and Assets Half That Much, Tracy & Co. Are Forced to Quit Business.

However, While the Concern Has Been Prominent in the Street, It Has No Stock Exchange Obligations and Its Failure Is Not Due to Market Conditions, Taxicabs, Not Speculation in Securities, Being Held Responsible for Its Financial Troubles.

New York, May 17.—In the appointment today of a receiver for Tracy & Co., members of the New York Stock exchange and the Chicago Board of Trade, Wall street had a million-dollar failure with an interesting variation from the usual run of such things. Taxicabs, not stock manipulation or market conditions, are said to be indirectly responsible for the firm's troubles.

While no announcement as to the exact cause of the failure has been made, E. A. Benedict, the receiver, said tonight that he understood that money lost in making a local taxicab concern flourish in the outside ventures, the firm has no stock exchange obligations. The total liabilities are estimated at \$1,000,000 and the assets at half that amount. Both of these sums, however, are approximated.

The cause of the firm's failure came with the filing of an involuntary petition in bankruptcy in the United States district court this afternoon, but as it was rather late in the day no official notice was received at the stock exchange. There were but three petitioning creditors, and these claims, as stated, are quite inconsiderable. They are: Henry F. Woodward, \$3,500; William G. Austin, \$100; William A. Scott, \$37.

FAILURE CAUSES LITTLE SURPRISE.

Among stock exchange houses with Chicago connections the embarrassment of the firm caused little surprise. The situation is regarded by the friends of Mr. Tracy as a result, at least in part, of the proposed taxicab legislation pending before the local board of aldermen. When the hearing was held with regard to the proposed legislation some weeks ago, an attorney for the taxicab interests announced to the committee of the board which was considering the matter that any reduction in the rate of fare might mean bankruptcy for some persons interested. But the proposed bill was reported, though further consideration of it was postponed.

As an official notice was received, the firm was not suspended from the stock exchange this afternoon. Besides the main New York office in Wall street, the firm maintained two local branches here. It had other offices in Chicago, St. Louis, Louisville, Ky., Milwaukee and New Haven, Conn.

It is understood that the banking firm of Tracy & Co. acted as bankers for a taxicab company of this city when the company was organized, and heavy losses were incurred, it is said, during the recent strike of chauffeurs.

SAMUEL GOMPERS' INDICTMENT.

The reference to Samuel Gompers to which Mr. Seney particularly objected was: "To put organized labor in charge of a movement in the interest of industrial education and trade training would be like putting a lamb in the care of a hawk. Witness the efforts of Gompers and his lieutenants to secure class legislation in congress, their attacks on the power of the courts to issue injunctions and their proposed amendments to the anti-trust laws."

As the president of the American Federation of Labor defying the highest court in the land and that, too, while he is under jail sentence. Who is there amongst us that would assume the task of teaching Gompers the error of his ways?

Labor unions, it was set forth, dominated the society for the promotion of industrial education, and while the report favored trade schools in which the graduates should be finished workmen, it is alleged that in many large unions skilled workmen could not procure employment without a union card.

Although the committee that drafted the report was discharged with thanks and a resolution was passed to distribute the report broadcast, it is predicted that disagreement may arise when the special committee which is to consider it makes its report.

The committee on currency recommended that the association endorse the Fowler currency bill and advocate its passage by congress. The committee on traffic declares that much hardship has resulted to shippers from the increased railroad rates, which in some instances have caused a serious loss on contracts made on a basis of lower rates. The adoption of a uniform bill of lading is urged.

SEAMEN'S LEADER COMPLAINS.

Says Lake Carriers Are Importing Strike-Breakers from Norway.

Cleveland, May 17.—Victor C. Olander, general secretary of the International Lake Seamen's union, said here today that he had received a report that five hundred Norwegian sailors were under contract to come to this country and take the places of striking seamen on the great lakes. One detachment of sailors has already embarked for the United States, according to the report, and others are to follow soon. The officials of the union have taken the matter up with the immigration authorities and will make an attempt to prevent the sailors from landing. Olander says that the hiring of the Norwegians is a direct violation of the contract labor law.

STRIKERS TRY NEW WRINKLE.

Photographs Taken of Non-Union Carriage Drivers in Chicago.

Chicago, May 17.—The photographing of non-union carriage drivers was a feature of the cabmen's strike which developed here today. The photographs were posted at various corners to snapshop the reinforcers who had taken the places of strikers. "We want the pictures for publication in the union papers, and so we will recognize the originals later," explained a labor leader.

A purchase in a German tobacco shop entitles you to one telephone call.

GOMPERS IS GIVEN A SEVERE GRILLING

Report of the Committee on Industrial Education Thrills the Annual Convention of the Association of Manufacturers.

"We Do Not Fight the Unions Themselves; We Hold Them Beneficial, but We Do Fight Their Methods," Explains the Chairman, and Along With the Indictment Is a Violent Arraignment of the Head of the American Federation of Labor.

New York, May 17.—An attack on the methods of organized labor broke the otherwise calm routine of the first day's session of the National Association of Manufacturers, which convened here today. This arraignment of certain phases of labor unions, including a fling at Samuel Gompers, president of the American Federation of Labor, was embodied in the report of the committee on industrial education, of which Anthony Ittner of St. Louis is chairman. After considerable discussion the report was referred to a special committee, after the convention had gone on to record as endorsing not an attack on organized labor per se, but the "methods of organized labor."

The attitude of the delegates was made clear when the motion to refer the report to a special committee was made. Then Mr. Ittner offered the suggestion that this committee to which the report is to be referred have power to emasculate anything in the report that might appear to the members as an improper and unfair attack upon labor. He added that "we do not fight labor organizations by themselves; we consider them beneficial, but we fight the methods of organized labor—and some of them are dangerous."

The motion was adopted. Before the report was read it became known that Frederick W. Seney of Milwaukee, a member of the committee, had refused to sign it, on the ground that it contained unwarranted attacks on labor and, further, in his opinion the personal views of the chairman of the committee to the exclusion of those of the other members.

The reference to Samuel Gompers to which Mr. Seney particularly objected was: "To put organized labor in charge of a movement in the interest of industrial education and trade training would be like putting a lamb in the care of a hawk. Witness the efforts of Gompers and his lieutenants to secure class legislation in congress, their attacks on the power of the courts to issue injunctions and their proposed amendments to the anti-trust laws."

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month by carrier... \$1.00 Per year by mail... \$10.00

Marquette, Mich., May 18. Entered as second class matter of the second class in the postoffice at Marquette, Mich.

Walter Wellman is off to Spitzenberg-en once more. And it is only fair to give Wellman the benefit of the doubt and assume that he means business.

But a short time ago Dead River was the source of much trouble because it did not contain enough water. Now it is on a rampage with too much water. That's a way these rivers have.

Senators Money and La Follette have shown Senator Root that no man can come to the upper house with so much of reputation and influence that he can expect to escape the usual hazing of new members.

The restoration of the old wages in the plants of the Republic Iron & Steel company at Youngstown, O., is doubtless indicative of improvement in the steel and iron business that warrants giving back to the men the 10 per cent that was cut off the wage rate on April 1 last.

Governor Stubbs of Kansas has been shown that he who laughs last laughs best. Some weeks ago the governor persuaded President Taft to appoint Robert Stone, of Topeka, his personal friend, an assistant to the attorney general.

Frank P. Wagner, the Milwaukee detective who testified before the senate investigating committee to seeing agents of Senator Stephenson pay over large sums of money to the three Democratic members whose absence from the joint session made Stephenson's re-election possible at the time it occurred, is now to be tried on a charge of perjury.

Memomine county would like the Chatham experiment station. It asserts that if it were moved the station would find its scope of usefulness much extended by the proximity of the Memomine county agricultural school and the great farms of the Carpenter Cook company and the other big farming interests of the county.

5% DEBENTURES. Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

saying that this point is a good one. The word of Superintendent Geismar as to where the station may be located to the best advantage is an important one. What is it?

Governor Johnson of Minnesota does not intend to be behindhand in his quest for the Democratic nomination in 1912. Governor Johnson would have been a big factor in the Denver convention last year had it not been that he did not become a declared candidate until so late that there was no possible show for wresting control of the convention from Colonel Bryan.

In the current issue Ishpeming Iron Ore has some remarks on local opinion in Marquette county. It says that it isn't easy to gauge the feelings of the people on this question, and "it would not surprise us to see Marquette county voting the saloon out of business."

It is interesting to recall that the bicycle craze gave her a concrete idea of the machine, and the automobile craze induced many women of high position to take lessons of their chauffeurs to such good advantage that they have become handy with monkey wrenches, screw-drivers, files and clipping hammers.

WORKERS IN ENGLAND. In a bulletin just issued by the Washington department of commerce and labor Dr. V. S. Clark discusses at some length the factory laws of Great Britain relating to the employment of women and children, and their effect upon the social and economic condition of these workers.

There are many remarkable towns in Mexico, but none more interesting than Guanajuato, "The Hill of the Frog." It is rich more properly by the "gold brick" town, for the houses have been found to contain much gold. This is a curious situation, but it came about naturally.

Half-time child workers have materially decreased in recent years, mainly owing to restrictive legislation. Employers no longer consider youthful labor the most profitable; the sentiment of parents is changing, and working people are better able to get along without the wages of their children.

WINNING A WIFE. If ever a woman understood that poor creature, a man in love, it was surely the immortal Mrs. Rodgers when she delivered herself thus: "Men are so much more timid than we think 'em, my dear. They talk themselves continually, I am the worst of the world's zips for months and months before he said 'em. You give Mr. Moddle a little encouragement, and he'll speak fast enough, depend upon it."

THE KITCHEN MECHANIC. The village cut-up who first dubbed the household cook "kitchen mechanic" built better than he knew. His merry quip had in it the quality of prophecy, for in these days of fireless, dustless, laborless, wasteless, fatigues and graceless household appliances, by means of which a meal can be cooked with the turning of a button, a Monday wash executed by merely turning a lever, and a house cleaned and dusted by simply twisting a valve, the genius who presides over the destinies of a home might well call herself a "kitchen mechanic."

TO SHARPEN A RAZOR. It is one of the misfortunes of the masculine element of the population that recourse has to be had to shaving. Good methods of hygiene and health, the greater proportion, moreover, prefer to accomplish this operation themselves, but suffer from inability to impart the requisite keen edge to the instrument in order to achieve the desired end sufficiently cleanly and safely.

BRIGHT'S DISEASE. Let there be no evasion—we mean chronic and supposed incurable cases involving dropsy, albumen and casts. They are curable in a great majority of all cases. Let us cite a typical case—that of Mr. R. Nitzsche, of 1246 Sprague street, Madison, Wis. There had been eight physicians on this case and it got so extreme that he finally had one of the last symptoms; namely, falling eyelids.

PHILADELPHIA'S FROGGING POND. "Well, I never got such a surprise in my life as I did yesterday. A New Yorker who is interested in the dredging of the Delaware river below Thompson's Point. 'You have an interesting industry, and that is 'frogging.' My first knowledge of 'frogging' was gleaned when I went to the swamp in the 'meek and saw frogs dug out of the soft mud, where they hibernated all winter. I was startled by their size. Why, they are big, fat and lazy and acted as if they were asleep. A score of them were picked out of the mud, and when exposed to the atmosphere they seemed to be given new life and hopped about until put in a basket.'"

WON'T SLIGHT A GOOD FRIEND. "If ever I need a cough medicine again I know what to get," declares Mrs. A. L. Alley of Beas, Me. "For, after using ten bottles of Dr. King's New Discovery, and seeing my family and myself cured of coughs and colds, I am convinced it is the best medicine made for Coughs, Colds and Lung Trouble. Every one who tries it feels just that way. Relief is felt at once and its quick cure surprises you. For Bronchitis, Asthma, Hemorrhages, Croup, Laryngitis, Sore Throat, pain in chest or lungs it's supreme. 50c and \$1.00. Trial bottle free. Guaranteed by The Stafford Drug Co.

REV. I. W. WILLIAMSON'S LETTER. Rev. I. W. Williamson, Huntington, W. Va., writes: "This is to certify that I used Foley's Kidney Remedy for nervous exhaustion and kidney trouble and am free to say that it will do all that you claim for it." Foley's Kidney Remedy has restored health and strength to thousands of weak, run down people. Contains no harmful drugs and is pleasant to take. Sold by all druggists.

Karo. If you long for a sweet—eat Karo. If you wish for a food both delicious and good—eat Karo. If you'd feel secure from a syrup impure—eat Karo. For table use and cooking you'll find it unequalled. In air-tight tins; 10c, 25c, 50c. A book of cooking and candy-making recipes sent free on request. Corn Products Refining Company New York.

DARING ELOPEMENT. A young man whose front name was Harold loved a maiden who in his fancy seemed to be an angel. For six weeks he went to see her almost every night, although she frequently gave him to understand that her father might be expected at any time to violently object.

MARK TWAIN YEARS AGO. W. Landstittel is the grizzled foreman of the Lyons Republican, which is the Republican organ of Wayne county, N. Y. "I've been in this business for fifty years now," he said to a Times reporter last week as he stroked his gray moustache, "and I have seen some lousy people in my time. Yes, sir, while the newspaper business is exacting and tending on the nerves, it does harbor some really fine folks from time to time."

EXPLORATION OF KAMCHATKA. There is an awakening interest in the Kamchatka Peninsula, the mainland of Asia north of the Japanese islands. Its seventy-five hundred inhabitants live by hunting and fishing, though small quantities of barley and rye are raised. The capital, Petropavlovsk, on the east coast, and the exports comprise sable, fox and other skins, whale oil, fish and eggs. The trade is chiefly with Kholok. The following report concerning the exploration of Kamchatka has been received from James W. Ragsdale, consul at St. Petersburg.

HURONTOWN MAIL DELIVERY.

Postmaster Lang Making Another Effort to Secure the Service.

Postmaster R. B. Lang will today send in another petition to the postoffice department in an effort to secure the restoration of the free delivery from the Houghton postoffice to Hurontown, Berkleyville, Dodgeville, Iste Noyaie and Superior. He has secured a large map, drawn especially for his purpose, which will show the department just what the needs of the territory are.

Mr. Lang has been trying for the past two years or more to secure free delivery to Hurontown and the adjoining locations, none of which are at a greater distance than four miles from the Houghton postoffice. Inspector Greedy of Grand Rapids was here last year, in investigating, and he turned down the petition because the district is not provided with sidewalks and the streets are not macadam. But the fact remains that there are 2,300 people who have to walk from one to four miles for their mail. Included in the territory for which this service is asked are the Park and Dakota Heights additions to Houghton. These are rapidly being populated and are without free delivery.

The Dodgeville people are trying their own solution of the matter and have asked for a postoffice. But if the office is provided, it will not solve the problem, because it would supply only about 500 people, and the people in the nearby locations would be in as bad a case as now. What Postmaster Lang asks for is a mounted carrier who will make two trips a day and supply all these districts. Mr. Lang believes that the maps which he is sending out, showing the route to the department and will have a more convincing effect than would a descriptive letter. He is providing the map at his own expense.

The lack of sidewalks and street names, which makes the department's name, is one which will probably never be supplied. It would take many miles of walks to supply the entire district, but the walks are hardly an absolute necessity to the delivery of mail. The people are there, 2,300 of them, and are entitled to the service. Mr. Lang is going to get it for them if possible.

MEMORIAL DAY MEETINGS.

Calumet and Portage Lake Will Both Have Celebrations.

Memorial Day is to be observed in Calumet and by the Portage Lake towns, Houghton and Hancock. A meeting of the Portage Lake military orders was held Sunday afternoon for the purpose of perfecting arrangements. The parade will include the G. A. R., Hancock Naval Reserve, Hancock Liberator Rifles, Houghton Light Infantry, Spanish War Veterans and the fire departments of Houghton, Hancock, Portage Lake and Atlantic. Graham, mayor of Houghton will be grand marshal and orator of the day and Professor F. A. Jellens of Atlantic will read Lincoln's Gettysburg address.

The members of the joint committee representing the G. A. R., Spanish War Veterans and Hancock and Company A, Calumet Engineers, in charge of arrangements for a proper observance of Memorial Day at Calumet, are making their plans. The committee will hold a meeting within a few days, when the program will be finally framed. The public observance of the day this year will take place on Monday, May 31, as Memorial Day falls on Sunday. There will be special services in the churches Sunday, and the graves of the departed will be decorated the day by friends.

ASSAULT AT HURONTOWN.

Louis Kirkish Went After John Kronich With a Hatchet.

Louis Kirkish and Joe Kronich were arrested at Hurontown Sunday by Marshal Maher, as a result of the assault of Sheriff Myers looked like an abductor for a short time. Kirkish went after Kronich with a hatchet, butting him on the head with the George Washington and it was only by a show of great force on the part of those present that he was prevented from cutting Kronich's head open with the blade.

Kirkish came down from Painesdale Saturday night and spent the evening and Sunday with friends. He and Kronich got into an altercation, with the result indicated. Both men were arrested and the injured man was retained as a witness. He was severely injured and his wounds bled profusely in the sheriff's office before Dr. Jackson could be called. Kirkish was bound over to the circuit court by Justice Little yesterday afternoon at Hurontown.

WILL CUT GOVERNMENT TIMBER.

James W. Cleaver Has Contract to Manufacture Dock Material.

James W. Cleaver, who operates a small saw mill near the Canal, has been granted a contract by Engineer Banks to cut square timber and plank from 116,000 feet of timber which C. W. Tucker cut from government land on the south side of the canal last winter. The material will be used in repairing the canal revetment and docks. The greater amount of the repair work will be on the old east pier, where excursion boats are permitted to land.

J.A. Minnear & Co. BROKERS

Offices at Calumet and Laurium.

Direct private wire service to all markets. If you want the best service on your curb order and cannot favor it, instruct your banker to have us execute the order. Buy and Sell Boston Coppers, Railroads and Curb for cash or on margin.

Both offices open evenings. Phones, Calumet, 64 and 75. Laurium, 450, 520 and 605. 4-10-12m.

WOLVERINE'S GREAT BALL TEAM.

Dr. Roche, Former U. of M. Star, Has a Strong Aggregation.

This year Wolverine will be represented by what is likely the strongest and fastest baseball team in northern Michigan. Dr. A. C. Roche, one of the best baseball heads in this part of the country, is gathering together an aggregation of copper country baseball stars and will round out his team with two or three imported men of a caliber to take care of any other players in the business in this part of the country.

Dr. Roche intends to have this team represent Wolverine in the Copper Country League, made up of teams from Houghton and Keweenaw counties, recently organized, and also to play fast independent teams from all over northern Michigan. He believes that his aggregation can take the championship of the peninsula with ease and is willing to bank on it.

Dr. Roche has already signed such leaguers as Nick Kaiser of Calumet; Tom Leahy, one of the best men behind the bat that ever played with the Calumet Aristocrats; Billy Mutter of Hurontown, who is a long tenor and the best first baseman or emergency backstop in Michigan, outside of the Detroit Tigers; Billy Brand of Houghton, probably the best and fastest second baseman in the old Northern-Copper Country league, and Orth, Pollard, Hiltman and others. This bunch of players will make the nucleus of a strong aggregation of ball players and will be a mighty proposition for any other team to bump up against.

Dr. Roche will put his team up against an aggregation of choicest copper country stars in this part of the country this summer. It is understood that Escanaba, Menominee, Ironwood, Ishpeming, Marquette and other towns will send teams here this year for games with the Wolverine team, and it is also reported that the Chicago Union, formerly the Paige Fence Giants, will make a trip through this district. Other teams, too, will appear here, including one or two from the Wisconsin-Illinois league and possibly the Duluth aggregation of the Wisconsin-Minnesota circuit.

The Wolverine team will have the support of every fan in the district. Mutter, Brand, Kaiser and Roche have played together and know each other's men. Kaiser is probably as good a shortstop as there is playing in the Northwest today and has turned down many offers to get into major league companies. Mutter, too, has been sought by the big clubs, while Brand has had many opportunities to go up.

With Leahy to catch, Mutter on first, Brand on second, Kaiser at short and Pollard of Wolverine at third, Roche has a crackerjack infield. Then Orth will be in right field and Roche will be in center. It is understood that "Doc" Schuler, a former pitcher of the St. Louis American war veterans and who has all sorts of curves and benders. The Wolverine team, with Hiltman doing his share of the pitching, was running away with every game last year when it dropped from the Keweenaw league. The signing of Mutter and Brand breaks up the double H team of last season and Hurontown-Houghton will probably have no baseball. This team lost Catcher Cy Wedge early this spring, he having gone to Duluth to live.

ALUMNI BANQUETS.

Hancock and Lake Linden Associations Arrange Annual Affairs.

The following officers have been elected at the closing year of the alumni association of the Lake Linden High school: President, Miss Lena Isler; vice president, Miss Alberta Uren; secretary, Miss Mae Hester Wilson; treasurer, Miss Mabel Gies. It was decided that the annual banquet be held in the city hall on the evening of June 11. The affair will be an informal one. There will be a musical program and a lap lunch. The committee to look after the different departments of the work are as follows: Arrangements, Dr. Goggin; decorating, Miss Florence Paine; program, Miss Alberta Uren; banquet, Miss Alma Schlichting.

The committees which will have charge of the arrangements for the coming banquet and reception by the alumni association of the Hancock High school have been appointed by President Norman Staretz. The entertainment will be given at Germania Hall shortly before the commencement date. It will consist of a banquet, reception and dance. The committees appointed are as follows: Banquet—Herman Weider, chairman; I. John Truscott, and the Misses Sadie Smart, Margaret Ruppe and Elsa Dowler.

Dances—C. A. Wright, Jr., chairman; James Fisher, Jr.; Mrs. J. H. Gillespie and the Misses Edna Smart and Lillian Cleaves.

Program—Miss Helen Wright, chairman; Mrs. J. E. Ives and the Misses Lena Balmer and Mae Jaehing. Reception—Miss Lydia Weider, chairman; the Misses Mae Jaehing, Anna Martin, Barbara Morrison, Margaret Seaton, Lillian Brown and Clara Quayle and W. Frank James and William Weaton.

Decorations—Paul Ruppe, chairman; Clarence Boyce, and the Misses Kent Blodgett and the Misses Cecil Light, Elsie Conhlin, Lillie McLean and Mae Vogel.

WHAT IS HEM-ROID?

A Tablet, Taken Internally, That Cures Piles.

Piles (hemorrhoids) are getting more common every day, because we live unnaturally, overeating, overworking, taking little exercise, gradually causing a leading of veins and tissues in the lower bowel. Blood stagnation is the cause of piles, and a condition that can't be permanently cured with ointments. Dr. Leonard's Hem-ROID is the only internal tablet remedy that cures piles by freeing the circulation. Sold under guarantee at the People's Drug Store, Marquette, Mich. City Drug Store, Ishpeming, Mich. Price \$1. Dr. Leonard Co., Station B, Buffalo, N. Y.

ROYAL Baking Powder

Absolutely Pure

The Only Baking Powder made from Royal Grape Cream of Tartar—made from Grapes—

Royal Baking Powder has not its counterpart at home or abroad. Its qualities, which make the food nutritious and healthful, are peculiar to itself and are not constituent in other leavening agents.

CIRCUIT COURT CALENDAR.

County Clerk Richardson Announces the List of the Civil Cases.

County Clerk Richardson yesterday prepared for publication the civil calendar for the May term of the circuit court. The criminal calendar will probably be issued today.

The May term of the Houghton county circuit convenes at the county building next Monday morning. It will probably be a long term, as the calendar is an extended one. The civil list is remarkable for the fact that there is but one divorce case. This class of cases is not usually large in this county, but one is an unusually small number. The civil calendar follows:

Issues of Fact; Trial by Jury.

George Bigardo vs. John Bracco, administrator of the estate of Peter Rose, deceased, trespass on the case; Artheline Fontaine vs. Moses Latendresse, trespass; Andrew Ryan vs. Edward Cameron, replevin; Alex. Cobalt and W. J. Craig vs. Wm. S. Cleaves, assumpsit; Peter S. Finnegan vs. George T. Baldwin, case for bond; Eugene Mathews vs. John S. Morrison, assumpsit; Alex. Marston vs. Amos Turner, assumpsit; appeal; the Upham & Russell Co. vs. Reg. L. Saver, assumpsit; William Murto vs. Reg. L. Saver, assumpsit; The Upham & Russell Co. vs. Reg. L. Saver, garnishee defendant; Reg. L. Saver, principal defendant, garnishment; William Murto vs. Nestor E. Malford, garnishee defendant, and Reg. L. Saver, principal defendant, garnishment; Oscar Ellasus vs. Edward Foley, trover; Mary Bond vs. Jacob Niemi, trespass on the case, appeal; George Come vs. George S. North, assumpsit; Bert Fletcher vs. Elias T. Liebert, assumpsit; Josef Schindler vs. Matt Schneider and Mrs. Matt S. Schneider, assumpsit; Eliza Quinn, administratrix of the estate of Fred L. Quinn, deceased, vs. Copper Range Railroad company, case; John Stehly vs. Matt Amador, assumpsit; First National bank of Calumet vs. Simon D. Dummel and A. J. Scott, assumpsit; Peter Westenberg vs. Oscar Kondumoff, assumpsit, appeal; George Gostovich vs. Bodo Platina, assumpsit, appeal; Mary Kovache vs. John Toth, assumpsit, appeal; Henry Hindrickson vs. Albert Hooper, assumpsit, appeal; John Peter Taha vs. Houghton Lumber company, village of Hubbel vs. Herbert S. Bear et al, assumpsit; Sophia Koskela vs. John H. Stenbach, case; Julius Kessler & Co. vs. Charles Mattson, assumpsit.

Issues of Law; Trial by Court.

Concordia Burrill vs. Walter B. Jacka, attachment; Hans G. Hansen and Charles Hansen, attachment, default; First National bank of Calumet vs. J. Fred Johnson, William Johnson and Andrew John Simon, assumpsit, default; Tibbs, Hutchings & Co. vs. William Morgan, Sr., William Morgan, Jr., and Elsie Morgan, assumpsit, default; A. Louis Levy, administrator of the estate of Samule Sausonsky, deceased, vs. Houghton County Street Railway company, demurrer.

Chancery.

Giuseppe Tonelli and Ester Gerometta vs. John Milin, Jacob Kujala, John Hultoski, John Morastny, and Jacob Baer, bill to foreclose lien; Michigan State Telephone company vs. the city of Hancock, bill for injunction; Paul L. Legris, trustee, vs. Myrta A. F. Payne, bill to set aside fraudulent conveyance; Peter McGary vs. Kate McCarty, bill to obtain deed; Hilda Hyninen vs. Henry Hyninen, divorce pro confesso.

CALUMET ATHLETIC MEET.

The Y. M. C. A.-Calumet High school indoor field meet will take place at the association gymnasium tomorrow night. Both the school and the association will be strongly represented in all the events, which will be as follows: Eighteen yard dash, running high jump, pole vault, shot put, two-pole relay race, half-mile run. The program will begin at 8 o'clock. The meet will be public.

ALLARD-McCUNE BOUT.

Great Interest in Forthcoming Fight at Lake Linden May 25.

Art Allard of Lake Linden and Tom McCune of Detroit are scheduled to go to the rounds at the Lake Linden Open house next Tuesday night, May 25. McCune is an old timer, who has been fighting in and around the upper peninsula for years. Allard is young and strong and the fight between him and McCune will be a hot one. Allard is expected to see a classy bout may not be disappointed, but all the advance information would indicate that they will.

Y. M. C. A. HAS ATHLETIC PARK.

Old Calumet Baseball Grounds Now in Hands of the Association.

The Young Men's Christian association of Calumet has been offered and has secured full control of Athletic Park, the offer being made to the board of directors by the Athletic Park association. This will fill the need the association has experienced for several years for an "outdoor gymnasium" of field where spring and summer sports could be played, and where athletic meets, etc., could be held. The association takes control of the park at once. The field will be rolled and the baseball diamond will be levelled. Some repairs will be made on the grandstand and bleachers and fences. It is the intention, also, to at once start work on the laying out of an athletic field. A straightaway track will be built and a field laid out for the hurdle and other such events. This will be the plan for the summer season, and other such events and also for the shotput, hammer throws, etc.

It is proposed to hold a Y. M. C. A.-Calumet High school field meet in the near future, probably about the first of June or shortly thereafter. Later, it is planned, an effort will be made to hold a copper country meet, open to amateur athletes from all the schools, colleges, etc., in the county and to those not attending school who wish to enter.

SOO WANTS FIRE TOURNEY.

Lock City Department Is After Tournament for Third Time.

Minimizing and the Soo are the only towns this far announced to be candidates for the firemen's tournament in 1910, which selection will be made at the convention of the Upper Peninsula Firemen's association at Laurium in August. The Soo Times has the following to say on the matter as far as that town's claims are concerned: "The annual tournament of the Upper Peninsula Firemen's association will be held in Laurium in August, and the people of that city promise the fire ladders a royal welcome and a good time. The men are always looking a year ahead, and just now many are considering the question of where the tourney will be held next year. The Soo could have landed the honor at the last meeting for 1909, but its representatives said that they had rather wait a year and would probably ask to entertain the firemen in 1910.

When Chief Campbell was asked by the Times if any change in these plans had been made, he said no. "We shall probably go after the next convention," he said. "The touring brings a lot of people and a lot of money into the town, and while the expense is considerable, we feel that it is largely offset by the benefits received. We have had the tournaments on two occasions and some by expending less money. It can be effected without injury to the enjoyment of the visitors. At our meeting held this week a committee was appointed to interview the last-

ness men and get their views relative to the proposition before definitely deciding on what line of action the department will pursue.

"It's an easy matter to get the boys to come to the Soo," continued the chief. "They have always went away from the Soo expressing themselves as perfectly satisfied with their entertainment and anxious to come again. While other cities have gone to more expense and have had bigger attractions, none of them ever outdo the Soo in giving the visitors an enjoyable outing."

COPPERDOM BREVITIES.

Judge Stroeter reconvened the May term of the Baraga county circuit court at L'Anse yesterday.

The Misses Emma Nikander and Lempi Jasberg of Hancock will leave Sunday next to visit at the home of their parents in Finland.

Mrs. John Bohler died suddenly yesterday morning at Dolan Bay. She was in the act of preparing dinner. Heart failure was the cause.

Rev. T. J. Atfield, pastor of St. Patrick's church, Hancock, returned Sunday from his annual tour of inspection of the parochial schools of the upper peninsula.

Mr. and Mrs. J. S. Hyde of Wilmington, Del., arrived in Houghton Sunday. Mr. Hyde is an engineer on the staff of the E. I. DuPont de Nemours powder company.

Mrs. Lawton T. Hemans, wife of the unsuccessful Democratic candidate for governor of Michigan last fall, arrived in Houghton last evening to visit Mr. and Mrs. D. C. Forbes.

Professor William Puffer of the science department of the Houghton High school returned Sunday from a visit at his home in Kalamazoo, where he had been called because of the serious illness of his brother.

The funeral of the late Mrs. Henrietta Krollwitz will be held from the German Lutheran church, Hancock, this afternoon, leaving the house on Montezuma street, Houghton, at 2 o'clock. Interment will be at Forest Hill cemetery.

E. E. Combes, for the past four years connected with Grinnell Bros. of Hancock, will locate in Houghton with a piano saleroom. He will open on Quincy street in a short time, but for the present will have his office with Ira E. Randall. Mr. Combes has been an active piano tuner for the past fourteen years.

Mike Budo, last year backstop for the fast Mohawk team of the Keweenaw league, and Clinton Gallagher, the fiery emergency catcher for the same aggregation, have left Calumet for Green Bay, where they will report for work this week with the Green Bay team of the Wisconsin-Illinois league. They were secured for the Green Bay team through Ted Sullivan, the baseball scout. Copper country friends of Budo and Gallagher wish them every success and sincerely hope they will make good in fast company. Budo, especially, is a good man behind the bat.

Mining News

COPPER STATISTICS.

The report of the Copper Producers' association for April is of a nature to excite mixed feelings, comments the Engineering & Mining Journal. The production was 1,283,810 pounds per day, against 3,776,000 in March. Obviously the curtailment of production by the high cost producers has not yet offset the increase by such important districts as Ely, Cananea and Cerro de Pasco, which can operate at a profit on the present level of price. This is an argument against the chances for a striking and permanent advance in price, which would raise production rapidly to increase still further. On the other hand, it is certainly a source for congratulation that the deliveries for consumption in April amounted so materially that the addition to the surplus was only a trifle more than 900,000 pounds. In commenting upon the statistics for March, we remarked that "if it would not be surprising the production of refined copper in April show a decrease in April and if the accumulated stocks would begin to wane." Neither forecast was actually realized, but the tendency in both directions was so clearly manifested by the April statistics, combined with the fact that the monthly addition to the surplus has been steadily diminished since February, that a distinctly favorable impression was created. The statistics for March and April follow:

Production . . . 1,177,068,961 113,574,292
Deliveries . . . 1,088,963,967 112,655,121

Surplus . . . 8,995,654 918,157
Previous . . . 173,284,248 182,279,982

Total . . . 182,279,982 183,198,073

The reception of the April statistics was indeed so favorable that they were probably the influence of the large purchases by manufacturers, led to an advance in the price for the metal. The holders of the accumulated stock are in no uncomfortable position, money being still so cheap. They argue that copper is really worth more than it has been selling for lately and they propose to continue to carry the stock, if necessary. They are able to do so. This situation is well recognized by the manufacturing consumers, who do not expect on the one hand to secure any materially better bargains than have lately been going, and on the other hand do not in any way fear the prospect of having to pay the prices of a runaway market.

Any idea of a runaway market under present conditions is, of course, impossible and probably does not exist in the mind of any but those whose wish for a boom in the stock market is father to the thought. Apropos of the subject of speculation it may be surmised that a part of the stock reported by the refining mills belongs to speculators who are holding it for an advance to a level much higher than exists at present.

IS A GOVERNMENT MINER.

John L. Church, son of R. C. Church of Duluth has received the appointment of practical miner from the government. His duties will be to go to various parts of the country to ascertain whether the proper assessment work and other improvements required for patent have been made. Mr. Church is graduate of the Michigan College of Mines. He has been out with a government party of the White Earth reservation in connection with swamp land matters, and has

NOTES OF COPPER NEWS.

All the water has been pumped out of the Janoka shaft of Arizona Commercial. Drifting will now start on the 600 and 700-foot levels and an interesting development may be expected within the next few weeks. At the Black Hawk workings the water is being lowered about five inches each day, and the management will very soon resume sinking the mine. Indications are that drifting from this mine at 600 feet will open an important body of ore.

The copper production of the Globe (Ariz.) district is at present not more than three-fourths of normal, owing to the curtailment by the Old Dominion. The average price for April on which settlements for the month were made was 12.3625. Old Dominion for copper last month 2,845,000 pounds of copper, the smallest figures for any recent month. The physical condition of the Old Dominion mine was never better than at present and with the early improvement in the market for copper, which seems assured, Old Dominion will be in position to increase its output.

Advises from Phoenix, R. C., state that the work of reconditioning and enlarging two furnaces at the Granby smelter is being pushed rapidly, and that they will be completed some time during the current month. Four of the eight furnaces have been outgaged, and the daily capacity of the plant increased to about 4,000 tons of ore a day. The shipments from the Gold Drop outlet of the Granby mines are likely to be resumed this month. The Gold Drop used to forward amounts of 1,000 tons a day. It is believed that when shipments are resumed they will be almost as heavy as heretofore.

Plans are prepared for the commencement of diamond drilling operations at the Oneco property and it is expected that the work will be started within a few days. It is now also being organized, and operations have been conducted there in a rather desultory manner. As the company has about \$50,000 in cash in its treasury there will be no immediate necessity for asking shareholders for any further assistance for the present. The control of the company, it is understood, has been transferred to prominent Lake Superior mining men, interests closely identified with the Hancock Consolidated. By reason of the property at the New Baltic hole, active work at the Arcadian, Oneco will be closely watched. It is said that it carries the so-called New Baltic hole for almost the entire length of the property.

The Lake Copper company is planning to put a diamond drill into service shortly. It is now approximately 45 degrees. It is now advisable to determine more fully the direction the hole takes as it continues northward and also to find if the present dip continues without deviation. These conditions can be more rapidly investigated by drilling than otherwise. There is a likelihood that the diamond drill hole driven several years ago from a point near the Evergreen lode will be reopened and extended to greater depth. This hole passed through the No. 8 conglomerate and No. 8 conglomerate, which have served as the guides in the diamond drilling at Adventure, Mass and North Lake; but at the Lake the drill did not go any deeper than the No. 6 conglomerate, while the Adventure No. 1 lode was not discovered either at Adventure, Mass or North Lake until a depth of 475 feet below this conglomerate was reached.

Upper Peninsula

Conditions at the Victoria are reported more encouraging than they have been for some time past. The working force is now operating at full time and there is a plentiful supply of water, which is expected to be sufficient to last all summer. The showing of copper to the east of the shaft at the twenty-second level continues to improve and gives hope that it may be a wholly new show of ore. Explorations are also being carried on at the fourth level at a point where the work had previously been abandoned in the belief that this new shoot extends up through this level. Should this ore body prove as valuable and extensive as seems apparent the prospects of Victoria are very bright, as most of their land extends to the east of the present operating shaft and therefore in the direction of this ore body. Another shaft will be sunk to the eastward, if the results from the present workings come up to expectations.

Sawmill Plant Not Included.

Officials of the Northwestern Coopage & Lumber company at Gladstone deny the truth of the rumor that they are considering the purchase of all the holdings of the Van's Harbor Land & Lumber company. They state, however, that they are looking over some timber which the Van's Harbor company desires to sell, owing to its location. The timber in question is no safe contemplated which will mean a closing out of the mill at Van's Harbor. It is simply a proposed sale of timber, which one firm finds it cannot work to the best advantage, to another company, which finds the timber favorably located for logging operations.

Nabbed With His Loot.

It was about midnight that James Myers, who has been working for Joe Quinn, was caught just after he had emerged from a rear door at Winkelmann's store with the body of his burglarizing tail, reports the St. Ignace Enterprise. This consisted of a suit of clothes, overcoat, hat, neckties, gloves and watch. Myers effected an entrance to the store through the manhole in the roof. With the aid of the electric lights he selected his plunder and it was his carelessness that resulted in his undoing. John Valier and another constable were passing the store on their way home and noticed the light. They telephoned Marshal Grondin, who hurried to the scene, and when Myers left the store, he was caught, as above stated, though he tried to get away by telling the constables that he was in the store. Besides the loot, Myers had a small saw, file, knife, razor and other tools to facilitate his work of breaking into buildings. He is languishing in jail, awaiting trial at the next term of court. Myers is said to have a wife in the lower peninsula.

Boom in Sight for Fayette?

Runners of a revival of industry at Fayette are being incited firstly about the big Bay de Noc district, and according to Andrew Peterson of that village some of the rumors may prove to be well founded, says the Escanaba Press. A new industry which it is said may be located there is a manufacture of peas, corn and fruit, all of which can be grown easily in that district. The location at Fayette and a large tract of land in that part of Delta county are owned by the Cleveland Cliffs Iron company and it is said that the company is back of the present improvement plans. C. V. R. Townsend, land agent for the Cleveland Cliffs company, is expected to arrive there soon and definite plans for the future will then be outlined. "Fayette is far from dead and may yet come into its own again," said Mr. Peterson. "There are a number of things in the air as to what is to be done. I am not at liberty to discuss the improvements that may be made, but I am confident that better days are in store for Fayette." Fayette many years ago was the scene of operations of the Jackson Iron company, and was one of the busiest points in this district. When the wood supply for charcoal gave out in that part of the country the furnaces were abandoned and the town has since been at a standstill.

A HOME REMEDY FOR DANDRUFF AND FALLING HAIR.

(From Boston Globe.)

What is claimed to be one of the best preparations for the hair can be easily prepared in your own home by getting from your druggist one ounce of beta quinol (liquid) and half a pint of alcohol; mix the alcohol with half a pint of water, then add the beta quinol, and you can use one pint of Bay Rum in place of the alcohol and water. Shake well together and it is ready for use.

The beta quinol contains all the "best known chemicals, in highly concentrated form for the cure of dandruff and falling hair. If this is rubbed into the roots of the hair every day for a week or so, then two or three times a week, your dandruff will surely disappear and your hair will also fall out. This simple mixture will strengthen the roots of the hair and will make the hair grow and fluffy. Any druggist will supply you with the beta quinol and alcohol, and it is preferable to use warm water in mixing.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & Co., Toledo, O.

Hall's Family Pills for constipation.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek and a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

NYAL'S

HOT SPRINGS BLOOD REMEDY
PURIFIES THE BLOOD.

Do you feel worn out? Feel as though you could hardly go? These are symptoms of sluggish blood; blood that is not circulating right. Are you pale and anemic? This is caused by the blood not properly nourishing the cells of the body.

Have you pimples or boils? They are the result of the blood failing to do its duty of carrying away waste material from the cells.

If you have any of the above complaints do not suffer. COME TO US. We will recommend to you a bottle of Nyal's Hot Springs Blood Remedy.

We know what it will do. We have seen the results. If you suffer from eczema, tetter, scrofula or any other skin disease, take a course treatment (not less than six bottles) and you will be greatly surprised if you are not cured.

It is not a specific, but it is the nearest specific we know of, for skin and blood diseases. A dollar buys a large bottle.

City Brevities

Today's weather: Showers; stationary temperature.
Yesterday's temperatures: Seven a. m., 41 degrees; noon, 44; 7 p. m., 50; maximum, 51; minimum, 41.

Miss Margaret Lang, of Houghton, is visiting in the city.

Miss Rose Tapkins has taken a position as clerk at J. H. Laroche's millinery store.

Arthur O'Brien has returned to Ishpeming after spending several weeks with relatives here.

Captain Scholtus states that the Marquette baseball team will practice at the fair grounds this evening.

A. E. Fritz, of Detroit, traveling auditor for the Michigan State Telephone company, is in the city on business.

W. A. Ulrich, steward of the L. S. & L. railway, left last night to attend the railway storekeepers' convention.

The local business will be carried on independently of the state line and connections will be made with the following towns: Blaney, Hunts Spur, Pike Lake, Corinne, Gould City, Engadine, Gilchrist, Garnet, Rexton, Stone Quarry and Trout Lake. With the Escanaba connection on the west, there is now complete telephone service to all sections of the upper peninsula and direct connection with lower Michigan and Wisconsin points, through the Trout Lake exchange.

Before this line was put in, if Manistique wished to talk with the lower Michigan towns it was necessary to get them over several different lines and to go a long way round and the service was unsatisfactory. Many a time the message had to be carried through Chicago. The same was true of other upper peninsula towns. As it will be now direct connection is made and the service ought and probably will be eminently satisfactory.

Patrons wishing to talk with long distance stations, should first call the long distance operator. This will save time and simplify the work of the operator.

The young ladies of the Swedish A. E. church will hold a bazaar at the home of Adolph Frothing, corner Ridge and Oak streets, Thursday afternoon and evening. Refreshments will be served during the bazaar at the parsonage. Everybody is invited.

Suit to Heavy Hitter—The Crawford company announces that they will give a \$35 suit of clothes to the member of the Marquette league baseball team who has the highest batting average at the close of the season.

Basketball—There will be a basketball game at Legion Hall Saturday night between the Ferguson Business college team and five students from the Michigan College of Mines, who are now on the iron range making a study of rock formations and methods of mining. Dancing will follow the game.

Gifts to Normal School—C. A. Laurier, the Canadian government agent, yesterday presented the geographical department of the Normal school with a fine exhibit of cereals and grasses from the Canadian northwest. Senator Burroughs has recently presented the department with twenty-seven volumes of National reports, giving mineral statistics, etc.

Delightful Junior Party—The annual party given by the Junior class of the Normal school, took place in the old gymnasium under the library last evening and was most successful in every way. The predominant color in the beautiful and elaborate decorations was green, the reception and refreshment rooms being decorated as well as the ball room. An exceptionally large crowd was present and a delightful evening was enjoyed. Trombly's orchestra furnished the music.

Steamer Japan Sold—It was reported last night that the Anchor line steamer Japan had been sold to the Port Huron and Duluth Transportation company, and would take the place of the steamer Russia, which founded near DeTour several weeks ago. The Japan is well known at this port, having been a regularly commissioned passenger steamer of the Anchor line for many years. It is thought that the Japan will make Marquette occasionally under her new management, although this company makes a specialty of traffic along the north shore of Lake Superior.

Arena Being Unloaded—A crew of forty-five men was at work yesterday unloading the steamer Arena at the No. 1 dock, which, in tow of the Simon Langell, arrived in port Sunday in bad weather. The water was high and the day a large part of the cargo was removed to the dock and the water pumped out of the cabins. When the large shipped water all of the personal belongings of the captain and mate were washed away, including about \$75 in money. Some of the money was found in the cabin yesterday, when the water was pumped out and the water in the hold.

A Unique Case—The case of Thomas Ryan, who was sentenced by Judge Stone yesterday for escaping from prison, is one of the first of its kind in this state. The statute provides that for a convict to escape from prison is punishable by an additional sentence of not to exceed three years, but it has been a dead letter and not applied by the wardens of the state prisons. Warden Russell, however, stated last night that it was to be his future policy to prosecute all convicts that might effect an escape from his institution, and by so doing hope to further demonstrate to the men in his keeping that it does not pay to disobey the prison rules.

Flag Day June 14—The American Flag association has recently sent out letters all over this country urging nation wide observance of the 132nd anniversary of the adoption of the stars and stripes as the flag of the United States. Last year flag day was marked by a quite general display of flags in this city, although no public demonstration was attempted.

TELEPHONE LINE COMPLETED.

New Long Distance Route from Manistique to Trout Lake Opened.

The long talked of telephone line between Manistique and Trout Lake, erected by the Michigan State Telephone company, has been completed and conversation was carried on over the line last week, although it is not formally opened for business and will not be for several days yet.

This line is a double metallic circuit, one for local business and the other for long distance business. The state line business will not be interrupted between Manistique and Trout Lake, where connection will be made with lower Michigan direct by way of St. Ignace. The line will be of greatest advantage to Sault Ste. Marie and surrounding territory, as with the switching station at Trout Lake much more direct long distance connections can be made. Hereafter, Marquette had to talk through St. Ignace and back a part of the way over the same line in order to communicate with the Soo, but now direct service by way of Trout Lake will be possible.

The local business will be carried on independently of the state line and connections will be made with the following towns: Blaney, Hunts Spur, Pike Lake, Corinne, Gould City, Engadine, Gilchrist, Garnet, Rexton, Stone Quarry and Trout Lake. With the Escanaba connection on the west, there is now complete telephone service to all sections of the upper peninsula and direct connection with lower Michigan and Wisconsin points, through the Trout Lake exchange.

Before this line was put in, if Manistique wished to talk with the lower Michigan towns it was necessary to get them over several different lines and to go a long way round and the service was unsatisfactory. Many a time the message had to be carried through Chicago. The same was true of other upper peninsula towns. As it will be now direct connection is made and the service ought and probably will be eminently satisfactory.

Patrons wishing to talk with long distance stations, should first call the long distance operator. This will save time and simplify the work of the operator.

THEATRICAL.

"Just a Woman's Way."

Lincoln J. Carter offers one of his latest and most successful productions in "Just a Woman's Way." This great melodrama will be seen for the first time here Wednesday night at the opera house. In his treatment of the theme the author, Sidney W. Fessenden, has knitted together a consistent and interesting chain of events which has stamped his play as a sane melodrama. While excitement and startling climaxes exist in plentiful quantity in "Just a Woman's Way," the play is consistent in detail and portrays in a logical and attractive manner, a theme which has never before been offered to the theatrical public. Lincoln J. Carter has placed the play in the hands of a well balanced interpreting cast and has provided adequate scenery, with producing one of the finest of his many successful productions.

MARINE NOTES.

The Anchor line steamer Mahoning arrived at the Spear dock at 7:30 last evening from Buffalo and ports enroute, with a cargo of miscellaneous freight on board.

The steel trust steamer Joliet arrived yesterday afternoon with a cargo of coal for F. B. Spear & Sons. She will head out before her return to the lower lakes.

The steamers Luzon and German, which loaded ore Saturday and Sunday, remained in the harbor until 4:30 yesterday afternoon, as it was reported that a heavy sea was rolling in the open lake.

Saturday was characterized by a greater amount of violence than any day since the marinet strike began. A gang of strikers in Detroit, headed by Hugh Kessel, the chief engineer of the steamer Adriatic, and it was only by the timely interference of friends that he escaped serious injury. Three men were killed and two others seriously injured by a boiler explosion on the steamer James H. Hoyt, which occurred in Lake Erie off Fairport harbor, and for which the strikers are blamed. At Cleveland several strike breakers were injured by flying stones thrown by strike sympathizers, and minor troubles were reported from other ports. The strike seems to be no nearer settlement than when it first began and the prevailing opinion is that it bids fair to be a long struggle.

Vessel Passages at the Soo.
Sault Ste. Marie, Mich., May 17.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior: Algonquin, 10:30 p. m.; Henry Rogers, 11; Howe, 11:30; Townsend, midnight; Regina Mahoning, 1:20 a. m.; Heuer, 5:30; Sierra, 7; Fitch, Maitland, Rend, Philip Mineh, 9; Ionie, Corey, 1 p. m.; Nettleton, 10:30; Cornelius, Buntington, 3; Frick, Angeoine, 4:30; Baker, 5; Clement, 6:40; Presque Isle, Waldso, 8.

Sealed bids will be received at the Township Clerk's office in Birch, Powell township, Marquette county, Michigan, up to Saturday, May 29th, A. D. 1909, at 7:30 o'clock p. m. for the erection of a township building at Birch in said township. The dimensions of said township building are as follows, viz: One story high, thirty-six (36) by sixty (60) feet. The township will deliver all necessary material for building on the ground.

The township board reserves the right to reject any and all bids.

The plans and specifications can be examined at the clerk's office.

For further particulars apply to Edger Raish, supervisor of Powell township, P. O. address, Birch, Mich.

Artistic Monuments

COST NO MORE THAN PLAIN ONES IN

WHITE BRONZE

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Bronze is more expensive, WHITE BRONZE is strictly everlasting. It cannot crumble.

With the action of frost. Moss growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in this monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

Geo. E. French,

Agent for the Monumental Bronze Co., of Bridgeport, Conn.

The Business Opportunity

Business opportunities are open only to men who have money to invest. Every day someone who has saved a little money is stepping into a business of his own, while the man without a bank account must see the opportunity pass.

Even though the individual amounts be small, regular saving soon makes the fund required to enter a business of your own. The only way to take advantage of the opportunity is to be ready when it comes.

You can open an account at this bank with a dollar.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday, telegraphed as follows:

The industrial were the feature during the session today. Columbia Steel and Best Sugar were in active demand and higher, but the balance of the list, particularly the rails, were under pressure after early strength, and the closing was irregular and in most cases lower than Saturday's level.

The closing prices were: Amal. 82 1/2, N. & W. 100, Arc. 54 1/2, U. S. Steel 100, Steel 95, Am. Locom. 100, A. C. S. 100, B. & O. 100, C. & N. W. 100, C. & P. 100, C. & S. 100, C. & W. 100, Erie 100, G. I. 100, H. C. 100, Kan. C. 100, L. & N. 100, M. & N. 100, N. Pac. 100.

Boston Stock Quotations.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: "Better news on the metal market, large sales of copper were made today at 13 1/2 cents, which is the highest point touched for many months."

The final quotations follow: Adv. 9 1/2, Arc. 54 1/2, A. C. S. 100, A. L. 100, Am. Locom. 100, B. & O. 100, C. & N. W. 100, C. & P. 100, C. & S. 100, C. & W. 100, Erie 100, G. I. 100, H. C. 100, Kan. C. 100, L. & N. 100, M. & N. 100, N. Pac. 100.

Paine, Webber & Co's Wheat Summary.

Paine, Webber & Co's Chicago correspondent said yesterday concerning the wheat market: "Some important short lines were covered today. These shorts were undoubtedly waiting for a break to get in and change their tactics by covering on the advancing market this morning."

STOCK MARKET IS VERY DULL.

Movement of Prices Is Sluggish to the Point of Stagnation.

New York, May 17.—The stock market gave signal evidence today that the large operations which have caused a show of animation in the dealings for some time past had been discontinued. The trading was dull to the point of stagnation. The proceedings showed a puzzled state of mind. Not much attention was paid to the news of the day, the amount of the profit-taking sales effected during last week's upward hurries supplying the major topic of discussion about the stock exchange.

The cheerful sentiments professed by these supposed to be near to the leaders of the late speculative campaign were unaltered. The lack of buying power was too pronounced, however, to leave room for speculative enthusiasm. Persons of authority and influence in finance continued to be quoted in confident opinions of the prospect for the renewal of prosperity and there was a marked unanimity in looking on the active revival with the completion of tariff legislation. The price level of stocks gives abundant testimony that speculation has not waited on the passage of the tariff legislation to seek its advantage from the coming revival.

The news of industrial conditions today was favorable. Reports of heavy orders for railroad equipment and supplies had affected on the electrical industries, but not much on the steel group. The increase in gold engagements from \$2,000,000 in the morning to \$3,000,000 in the afternoon was the determining factor in turning the prices downward at the closing.

Wheat Market Unexpectedly Strong. Chicago, May 17.—The prices of wheat made an unexpected advance today, despite the bearish statistics, the market closing at net gains of 5/8 to 1 1/2 cts. There was a great surprise to many pit traders, a number of whom had sold short the previous session, on the theory that the weekly statistics would be of bearish nature. The forecast of these statistics proved correct, but the market was not expected to open so high.

Large Sales of the Metal. New York, May 17.—The sales of copper since May 1 are now estimated at 140,000,000 pounds. The market continues firm at 13 1/2 cts. for electrolytic and 12 1/2 cts. for Lake. There is an increasing demand for the metal, one of the most encouraging features being the inquiry from some of the larger consumers. It is said that one of the large electrical companies has been buying more freely of late and in the market for additional supplies. Producers, it is said, are pretty well sold up. The Phelps Dodge company is sold ahead for several months and the American Smelting & Refining company, which has made some heavy sales recently, is also pretty well closed up.

Michigan Woman and Her Daughter in Custody at Chicago. Chicago, May 17.—Mrs. Josephine Ash and daughter Minnie, eighteen years old, who came here five weeks ago from Grand Rapids, Mich., were arrested today for shoplifting. The police say they have stolen \$700 worth of merchandise. James Oberly, a teaming contractor wanted in Midland, Mich., on charges of burglary and murder, was charged in Chicago today with the abduction of a child. The child, a daughter of a woman in Midland, also was taken into custody.

Those Who Have Died. London, Tuesday, May 18.—George Meredith, the English novelist, died at 3:35 o'clock this morning. The immediate cause of death was heart failure, following serious developments earlier in the evening. Mr. Meredith's illness began May 14 and he had steadily declined since that time. He was eighty-one years of age.

Chicago Grain Markets. Chicago, May 17.—Selling by commission houses, based on the prospects for a special harvest, caused a heavy tone in the corn market nearly all day. The bulge in wheat had a tendency to check the selling. The July displayed relative firmness and closed at a gain of 1/2, while the other options closed 1/4 to 3/4 lower. The July option closed at 67 1/2 to 68; highest, 68 1/2; lowest, 67 1/2; closing, 68 1/2.

GEN. PAREDES' BODY EXHUMED. Caracas, May 17.—In accordance with a decree of the Venezuelan government, the body of General Antonio Paredes, the revolutionary leader who was executed in 1907 at former President Castro's orders, it is alleged, has been disinterred from his burial place on the banks of the Orinoco river. The body will be brought to Caracas, where it will be received with military honors.

YOUNG CORBETT DEFEATED. Schenectady, N. Y., May 17.—"Fighting Dick" Nelson tonight bested "Young" Corbett. He landed at will and chased Corbett all around the ring. Columbus O. May 17.—"Thunderbolt" Ed Smith of Columbus tonight was declared the victor in a six round bout with Mike Donovan of Rochester, N. Y.

MISSING BOY WAS DROWNED. Newark, O., May 17.—The body of John Altomeyer, aged six, supposed to have been kidnapped, was found in the river today. A single body of iron ore in Lebanon county, Pennsylvania, has been mined almost without interruption since 1740.

IS CAPTURED IN CHICAGO.

M. A. Daly Alleged to Have Tried to Bribe ex-Warden Armstrong.

Chicago, May 17.—Milton A. Daly, agent for the Hoover & Gamble company in Michigan, O., and who maintains offices in this city, was arrested tonight on a fugitive warrant signed by Sheriff Beam of Jackson county, Mich. In a telegram sent to the police here by the sheriff it is stated that Daly was indicted for conspiracy to bribe the warden of the Jackson (Mich.) penitentiary on May 13, 1908. It was stated that the alleged effort to bribe was over a deal in bond twine. Daly was released on bond.

FRENCH STRIKE PETERS OUT.

Leaders of the Men Admit They Have Been Bluffing All Along.

Paris, May 17.—The leaders of the postal employees at a mass meeting tonight, admitted that they had been bluffing all along. M. Pannon announced that there was nothing to expect from the outside unions which either were not ready or were not willing to strike. The government authorities announced tonight that practically all the strikers had returned to work. Forty-six additional dismissals were announced.

FIVE MORE TURKS ARE HANGED.

Constantinople, May 17.—Five more men found guilty by court-martial of complicity in murder in the late revolutionary outbreak were hanged this morning in front of the parliament buildings.

GOOD WORK ON WEATHER.

Meteorological Bureau Makes Few Errors in Essentials.

Minor Predictions Sometimes Go Wrong, but the Increased Demand for Forecasts Indicates Confidence—Nearly Four Million Distributed Daily—How Mr. Wickersham Has Fun With Seekers for Information.

Washington, May 17.—Recent muck-raking of the Weather Bureau has served to bring many marine, commercial, manufacturing, agricultural and transportation interests to the attention of the Bureau. The only answer the Bureau itself has made to the attacks is contained in this modest statement: "Weather bureau forecasts, and the making of storm and flood warnings, will never become an exact science in this or any other country. It is not the same number of errors that have occurred in the immediate past will be necessary for some time in the future. The vast interests which the Bureau serves under this and do not ask for the impossible. On the contrary, the growth of the service has been in response to the and warnings, and they know all about their accuracy and their defects."

WASHINGTON CHAT. "Where Do We Democrats Get Off?" Puzzles Sage from Texas. Washington, May 17.—The leader of the Senate minority, Mr. Culberson of Texas, is perplexed by an unusual political inquiry. Senator John Walter Smith, a very polite and substantial citizen from the "Eastern Shore" of Maryland, who sleeps every night in Baltimore, approached the leader unobtrusively in this wise: "Culberson, last winter we were following Senator La Follette on several questions, because he had often voted with us. I followed him, on occasion, day for longer, but did not seem to get anywhere."

AN ENORMOUS NEWS SERVICE. The best evidence that the forecasts are regarded as having merit is the constant demand for their wider circulation. The service has grown until nearly four million forecasts are now distributed daily. Two methods of distribution are followed. About eight thousand forecasts, special warnings and emergency warnings are sent out daily by the country's telegraph system. About eighty thousand forecasts are sent out by mail; some seventy thousand by rural delivery; nearly four million by telephone; about one thousand by railroad service; and some three thousand by telegraph. Nearly every telephone system in the country is carrying the daily forecasts as a courtesy to its customers.

Reminiscences of Senator George F. Hoar frequently crop out at the Capitol. One was suggested recently by the writing into the Senate Chamber of William A. Peffer of Kansas to avail himself of the privileges of the floor which are accorded to former members and to governors. The famous Populist, while a member of the upper branch, went to Senator Hoar one day and asked him the name of a book from which the Massachusetts statesman had quoted containing a reference to Kansas. The content of the conversation, Peffer expatiated on the glories of Kansas with the Western enthusiasm. "Kansas, bleeding Kansas, yes," ruminated Senator Hoar, as he turned to his visitor. "She was bleeding when she came into the Union and she has been bleeding ever since. Peffer, I once made a speech in which I made some reference to Kansas, and after I had finished a gentleman sitting near me at the table spoke up and asked: 'What is Kansas? Where is Kansas?' I paused for a while, 'I continued Senator Hoar in his story, 'not knowing just what sort of a commotion I had raised. But my friend soon relieved me. 'Oh, yes, I know what you mean by Kansas,' he cried. 'It is out west somewhere, and is a feather bed of freaks.' Peffer, what do you think of that?"

GUESTS OF BATON ROUGE.

Officers and Men of the Battleship Mississippi Well Entertained.

Baton Rouge, La., May 17.—The close of the visit of the battleship Mississippi to this port was marked by a brilliant social event tonight. The officers of the ship were the dinner guests of Judge Kernan, after which they attended a reception at the executive mansion, given by the Daughters of the Confederacy, and then proceeded to a German arranged by the society ladies of the town. For the enlisted men, the committee prepared a smoker, at which two of the handsy fighters of the warship met local bracers. Even the negro sailors were entertained, being the guests at a ball given in their honor by the negro population. During the afternoon the sailors enjoyed an athletic meet. The battleship will get under way at 6 a. m. for Bayou Sara.

WOMAN IS DROWNED.

Two Streams in the Vicinity of Lincoln, Neb., Overflow Their Banks.

Lincoln, Neb., May 17.—Salt creek and Antelope creek are out of their banks, and residents in the low land sections along the streams have been forced to call for assistance to take their belongings to places of safety. Mrs. Stella Cole was drowned while trying to escape with her baby from her water-surrounded home. A man who swam to her rescue took the baby to a place of safety, but on returning for the woman found her missing. Her body was recovered late tonight.

MILLINERY ANNOUNCEMENT.

I have moved my millinery stock to my house on Baker street, where I am showing all the new spring and summer styles. New stock of hats received this week. I will be pleased to have all my customers call at my new place. MRS. A. M. ADAMS. (4-15-14)

EXPECT A STRAIGHT TAX UPON COFFEE

Financial Interests Look for a Change When the Conference Occurs on the Tariff, Though It Will Be Resisted in Debate.

Washington, May 17.—There is much inquiry at the Capitol about the tax of five cents a pound upon coffee as an item of the maximum tariff provision. It has not been answered satisfactorily. Probably the provision will be resisted in debate. An opinion prevails in certain financial quarters that it may come out of conference—if the senate adopts it, as is probable—as a straight-away tax upon coffee, or that the large coffee may be so modified it will have the ultimate effect.

Money interests are watching the development of this particular item of legislation. In recent years—beginning with Secretary Root's tour around South America—a vast deal of New York money has been invested in South American stocks and bonds. The American investors would profit enormously from the duty, its members brought an amendment into the house to strike out the proposed duty.

Chances for Juggling. The possibilities of juggling the senate provision in conference are apparent, for there are influential men in the senate and house who believe a duty on coffee would not bear heavily upon the consumer. The commitment of 1,700,000 bags, held by capitalists, would not last very long, as the consumption in the United States annually is about 7,000,000 bags.

But the financial scheme involved an agreement to prevent the huge coffee crops of Brazil from flooding the markets of the world and thus demoralizing prices. When the Brazilian exports exceed a certain figure an additional ad valorem of 20 per cent is imposed. Furthermore, the coffee held by the United States as security for the Brazilian loan can be sold only in part during stated periods—another arrangement against breaking the market.

Rival financial houses in New York have been pretty active in invading South America. The Rockefeller interests had an agent following along behind Secretary Root and the Charleston on the triumphant round-the-continent tour. He placed several investments in city bonds and railway enterprises that looked good. The wave of Pan-American sentiment, which rose high as Secretary Root progressed, stimulated the South Americans to deal with the Wall Street representatives.

This was not welcome to officials of the United States government, who had some knowledge of what was happening. They knew that the sequel to such investments is almost invariably an increase of trade. The crowding out of European investors by any material degree meant also the crowding out of European merchants.

Ishpeming Department

ATTEMPTED SUICIDE. One of the Foundation Company's Men Slashed His Throat.

John Ellard, a workman in the employ of the Foundation Company, was injured while sinking a concrete shaft for the Cleveland-Cliffs Iron company at North Lake, attempted suicide at the Ishpeming hospital Sunday evening. He had been brought down from North Lake an hour or so before, suffering from injuries caused by a fall from a scaffold. The doctors had just dressed his wounds and had left him in the ward, resting on a cot. Ellard left the cot and went to the one occupied by Ed. Leblanc, who is suffering from burns sustained at the Pluto Powder company's plant last Friday. He was armed with a pocket knife, stating that he wished to pare his finger nails.

As soon as Ellard secured the knife, he jabbed the blade into the left side of his neck, near the jugular vein, and pulled it across to the opposite side, severing the wind pipe and making a gash over six inches in length. The moans of the man were heard by one of the nurses, who was down stairs. When the nurse rushed to the ward she found Ellard lying across his cot, with blood gushing from the wound. It happened that some of the doctors were in the office at the time and they gave the man immediate attention. It required a number of stitches to sew up the wound. Yesterday the patient was reported as getting along very satisfactory. Unless complications set in it is thought that he will recover.

The fall from the scaffold at the North Lake mine was an attempt to commit suicide. Of this, however, the hospital people were not aware until some time after Ellard attempted to end his life in the ward, otherwise they would have watched him. They were advised when the man was brought in that he had received injuries from a fall, but it was not intimated that he was not in his right mind. Later it was learned that he had been suffering from delirium tremens. Ellard was one of a party of about thirty men who arrived here a few days ago to take employment with the Foundation company. He stated yesterday that he had been drinking heavily for some time, and that he really did not know what he was doing when he attempted to take his life. He imagined that some one was trying to kill him and he decided that he decided to take his own life before the other fellow did it.

AUSTIN-JENKIN NUPTIALS.

A pretty wedding took place Wednesday evening at the home of Mrs. Alfred Austin, 403 North street, when John Jenkins and Miss Susie Austin were united in marriage by Rev. C. L. Adams, pastor of the First Methodist Episcopal church. While the ceremony was being performed the bride and groom and their attendants stood under a canopy of white roses and wedding bells. The bride wore a gown of white silk and carried a bouquet of carnations and roses. She was attended by the Misses Minnie and May Austin, and the groom was supported by William Catman and John Austin. The dining room was prettily decorated in red and green. A wedding dinner was served at the conclusion of the ceremony. The bride and groom were the recipients of a number of very pretty and costly presents. They will reside at 403 North street.

WILL REMAIN HERE.

John Laughlin, one of the two baseball players, who arrived in the city Saturday from the copper country, is to locate permanently in Ishpeming. Clinton Gallagher, who accompanied him, left yesterday for Green Bay, where he will catch for the nine of that city. Laughlin is a third baseman and he played last season with Steve Toman, one of the twirlers of the Ishpeming team on the Mohawk mine. He is a plumber by trade. Gallagher also played with the Mohawk mine last summer. Laughlin will be given a try-out at third in the first game the team plays. This would necessitate the shifting of Gorman to short, which is his regular position, and Cooney will play at second.

LADIES' GUILD OF GRACE CHURCH will conduct a rummage sale next Tuesday and Thursday in the Dundon block, Main street. Parties having articles to donate are asked to call up Mrs. A. L. Brownell, County phone No. 472. (5-15-24)

AUTO FARE SEVENTY-FIVE CENTS.

W. S. Havenrich, secretary of the Grabowsky Automobile company of Detroit, which is to furnish the machines for the interurban auto line between Ishpeming and Marquette, spent Sunday in the city, visiting Able Levine and family. Mr. Havenrich says that an effort is being made to deliver the Marquette company's cars by the first week in June. It is reported that the round fare between here and Marquette will be seventy-five cents.

HAD A NARROW ESCAPE.

William Roehon, employed at the American mine, fell forty feet in a raise where he was working Friday night, sustaining serious injuries. He landed on his back and no bones were fractured. Men employed at the mine considered that he had a very narrow escape from death.

FOR SALE.

Eighty acres of good farming land, farm implements, horses, and house, barns, etc. John H. Hill, National Mine. (5-17-19)

The South Shore passenger department has announced low rates to Detroit, Mich., and return via St. Ignace and Mackinac City for a week ending May 24. The rate is \$1.00 for the round trip, in session May 25th and 26th, 1909. (5-14-18-20)

Honorement, bronchitis and other throat troubles are quickly cured by Foley's Honey and Tar, as it soothes and heals the inflamed throat and bronchial tubes and the most obstinate cough disappears. Insist upon having the genuine Foley's Honey and Tar. Sold by all druggists.

All those who have billed against the junior class of the high school on account of the reception and hop given last Friday evening are requested to send them to Edward Ham, secretary.

FROM MORGAN'S CURB LETTER.

"The Boston and New York markets opened with little change from Saturday's close, and though the trading was slow, the prices held firm and but few stocks were offered. Toward the close the entire list was stronger. It seems difficult to create any activity without bidding them up. Most issues are securely held and holders apparently believe they can obtain larger profits by exercising a little patience. The feeling prevalent that much better prices are near at hand, based on the rapidly increasing demand for copper metal, its steadily rising price and the general improvement in all lines of industry. Experienced and conservative traders state they would prefer holding for the present to taking the payment of several points more upon the resumption of activity, when a rapid rise is looked for. North Butte declared a quarterly dividend of \$1, which effected a gain of two points for the stock. On the curb, several issues were active and stronger. The most conspicuous were Cactus, which again sold at 3; Arizona & Michigan, Chief Consolidated, Ray Central, San Antonio, and Cordova. Among the low-priced stocks these have preference and are considered very promising by good judges. We recommend their purchase at those very low prices. The admissions with good management, ample capital partial development and favorable location. We believe all stocks will advance this week."

Yesterday's prevailing prices were:

SPORTSMEN'S CONVENTION AT MANISTIQUE.

At the annual meeting of the Grand Island Rod & Gun club of Manistique last Sunday, President E. E. Bissell, vice president and field captain, F. G. Farrell; secretary, Dr. M. E. Kearney; treasurer, W. F. Hopkins; Burdick Anderson, T. E. Bissell, T. B. Wymann, W. F. Hopkins and H. A. Holden were appointed a committee to arrange for the meeting of the Upper Peninsula Sportsmen's association at Manistique about the seventh of August next.

Fast Team for Menominee.

Menominee will have a baseball team this year and it promises to be fully as strong as last season's organization, if not stronger. Van Wye, pitcher last year, will be on hand and Long John Powell, the old first baseman, will captain the organization. Hanson of Marquette will catch, as Kleibis has left the city and will not return. Two or perhaps three additional outside players will be secured and home talent will be drawn upon to fill the remainder of the vacancies. A good sum of money has been raised for improving the grounds. C. J. Huebel will be the leading spirit in the new organization and he hopes to make the present season the most successful that the team has ever had.

Appointments at Manistique.

At last week's meeting of the Manistique common council, Alderman Putnam was selected as president of the council and mayor pro tem. The mayor appointed the following persons to fill the appointive offices of the city and in each case save one they were confirmed unanimously: City attorney, J. C. Wood; chief of police, Paul Holler; day policeman, Frank Jachery; night policeman, east side, John Peterson; night policeman, west side, Gust Peterson; engineer fire department, J. W. Bower; city engineer, C. F. Kelso; chief of fire department, Thomas McCullough. The mayor made no appointment for street commissioner, as an effort is being made to consolidate that office with that of water commissioner and it was deemed proper to not fix the salary of the office until the question of consolidation was disposed of. The council selected Martin Wells. The plan is to be completed by June and will be one of the most complete of its kind in the district. With the equipment that will be installed, Mr. Moore will be able to furnish crushed granite and other hard stone, as well as gravel of different sizes, and sand. The plant will be operated exclusively by electricity. The gravel will be scraped from the bank with teams and dumped in a huge hopper. Passing through the hopper the material will be carried to the crusher where they will be reduced to proper size and then carried to an upper bin for another screening. The gravel and sand will be carried on an endless belt from the first screen to a higher level where it will again be screened and finally separated in bins from which it will be loaded.

Gravel Crushing Plant.

Work has been started by A. R. Moore of Escanaba on the construction of a model gravel screening and crushing plant at the gravel pit owned by him near the junction of the E. & L. S. road and the street railway company's line at Wells. The plant is to be completed by June and will be one of the most complete of its kind in the district. With the equipment that will be installed, Mr. Moore will be able to furnish crushed granite and other hard stone, as well as gravel of different sizes, and sand. The plant will be operated exclusively by electricity. The gravel will be scraped from the bank with teams and dumped in a huge hopper. Passing through the hopper the material will be carried to the crusher where they will be reduced to proper size and then carried to an upper bin for another screening. The gravel and sand will be carried on an endless belt from the first screen to a higher level where it will again be screened and finally separated in bins from which it will be loaded.

Ask your grocer for a packet of "Santalada" Tea. For quality and flavor it has no equal. Absolutely pure.

ENGLISH IN CANADIAN SCHOOLS.

While "spelling reform" has received official recognition in the United States, certain Canadian authorities are setting their faces against modifications which usage has long sanctioned in the Dominion. At the moment contention centers on the letter "u." A decree has gone forth from the Ontario education department that henceforth the British method of spelling such words as "labour" and "honour" is to prevail in the schools of the province. This regulation evidently does not apply to the local education authorities. Of course, the vowel will be used in all school books, but it is hoped that the department will not go so far as to require "labour" and "honour" as errors. The official plea that the new method should be adopted because it is British has not conciliated public opinion. An Ottawa journal declares that this is asking Canadians to stretch their British preferences to an unreasonable degree. "It might almost as well be said that we should revert to pounds, shillings and pence because England has not adopted the decimal currency, or that we should prevent the importation of American literature into this country because it has accepted the reformed spelling of its own. Canada does, we hope, reach that stage of her national development where she can take the best that comes from every country, and not pin herself

Upper Peninsula

Bagged Three Bears.

A. L. and E. J. Palmer of Manistique township, Schoolcraft county, killed three bears, a full grown one and two yearlings, while hunting one day last week. The carcasses have been sold to a Manistique butcher.

Game Law Violator Fined.

S. Broude, said to hail from the Soo, was tried last week at Grand Marais for selling pelts of the beaver, that animal being protected. There were nine hides and they were consigned to a Chicago house. The man was fined \$88 and costs.—Munising News.

Cheap Power for Gladstone.

The municipal plant at Gladstone has entered into a contract with the company that has developed the water power on the Escanaba river, to furnish the city all the electric power it needs at two cents per 1,000 kilowatts. In turn the city will charge consumers about six cents, and will reap a big profit. The rate established by the power company in question throws a little light on the cheapness at which current might be furnished by a water company.

Fire Department Row.

There appears to be a little trouble in the Manistique fire department. Without the knowledge or consent of the chief, it is said, the fire committee of the council recommended the appointment of Vern Smith as driver in the department displacing Mr. Havlichek. When Chief McCullough ascertained the facts he emphatically protested and keenly resented the apparent slight given him by the committee. Subsequently the chief discharged Smith and installed Mr. Havlichek. The fire department is backing the chief and the end is not yet.

Fined for Spear-fishing.

Deputy Game Warden W. A. Frost of Manistique brought down from Portage township George A. Whitcomb, George A. Feneley and Frank Wright of Gorham, charged with spear-fishing in Whitefish lake by "jack" light, says the St. Ignace Republican-News. They all pleaded guilty before Justice Reagan and were each fined \$10 and \$5 costs. There is someone with a grouse in the Portage "spearing" direct to Lansing, as it was from there that Deputy Frost received pre-emptory orders to clean up on the Whitefish.

An Expensive Visit.

Niek Roach, who has been at work in one of the North Shore company's camps, came to the city with a roll of \$150 and proceeded to celebrate the event, says the Manistique Pioneer-Tribune. When he regained his senses he ascertained that his money was gone. Investigation revealed the fact that a resident of Thompson, who had been Roach's boon companion, had given the proprietors of two hotels \$15 and \$20, respectively, the day previous and in each case said that it was all the money that Roach had and that he had taken it for safe-keeping. Meanwhile, said companion left the city. Whether or not Roach was robbed is not known, but it is surmised that he could not have spent

down to a servile imitation of British things simply because they are British. It must be recognized that, located as we are in this continent, we must inevitably be influenced by our continental surroundings, and that it is absurd to attempt to drill our people into a course of action simply because that course is followed in England. Had the pedagogues based their stand upon the principles of etymology they might have been on safer ground, but to declare that their sole reason for the change is that it is British is not only to make themselves ridiculous, but to put a severe strain upon the British sentiment of many who are possibly every whit as loyal as they are.—London Telegraph.

Many weak, nervous women have been restored to health by Foley's Kidney Remedy, as it stimulates the kidneys so they will eliminate the waste matter from the blood. Impurities depress the nerves, causing nervous exhaustion and other ailments. Commence today and you will soon be well. Pleasant to take. Sold by all druggists.

DOUBLE FATALITY AT MARY CHARLOTTE MINE

MITCHELL IS MANAGER.

Baseball Team Perfected Organization at Meeting Saturday Evening.

TWO YOUNG MINERS WERE BURIED BENEATH MANY TONS OF ORE AND THEIR BODIES NOT RECOVERED FOR SEVERAL HOURS.

Victor Lord and Ed Yiminen, miners employed at the Mary Charlotte property, were killed yesterday by a fall of ground in a stope where they were working. They were buried beneath a large mass of ore about 10 o'clock in the morning and the bodies were not recovered until late in the afternoon. The remains were removed to the morgue of Undertaker Dawe.

As many men as could work conveniently were set to the task of recovering the bodies. Assistant Superintendent Hodgson directed operations. The work had to be done with great care, as it was feared that additional ground would fall.

The victims of the double fatality were young men, both natives of Finland. Neither had been in the city a great while and they were not very well known here. One had worked at the mine for four months and the other one for six months.

Coroner Prin empaneled a jury late yesterday afternoon, and after the bodies were viewed at the undertaker's rooms an adjournment was taken. The funeral arrangements will be completed today.

DISTRIBUTED FISH FRY.

The members of the Negaunee Gun & Rod club did not have a very pleasant day for the distribution of the trout fry received yesterday morning from the state fish hatchery at the Soo, but a number of the members took them to the streams. Fourteen cans, each containing 2,000 fry, were received. Most of the fish were taken to the streams south of here. Those in charge of the distribution were Bert Ralston, Sandy Johnson, Jacob Sault, Louis Albert, Ed. Frank, Dick Nesbitt, Louis Villeneuve, Frank Anderson and Will Cheliew, all members of the club.

ANOTHER VACUUM CLEANER.

The demands for the vacuum cleaner received by the city a few weeks ago has been so great that a second one has been ordered and is expected here within a few days. Superintendent Whilman, of the board of public works, yesterday said that the present cleaner has been working overtime since it was received and he believes that these two machines can be kept busy practically all summer.

LOCAL LAONICS.

J. T. Nelson and bride arrived home Sunday from their wedding trip.

Ben Neely, Jr., of Crystal Falls spent Sunday with relatives in Negaunee.

Mr. and Mrs. George Young of Saults, well-known here, are the parents of a son.

Mrs. J. P. Donahoe of Calumet, formerly of this city, is here on a visit to relatives.

George F. Gunderson and wife of Stephens Point, Wis., were visitors in the city yesterday.

Phil Levine and wife left Sunday evening for Chicago, where he will be under treatment of a specialist for a short time.

Miss Sophie Anderson, who is teaching school at Houghton, came down Friday on a visit to her folks. She returned yesterday morning.

Dr. N. J. Robbins spent yesterday at Menominee, examining applicants for the Michigan National Guard, of which he is examining physician.

Miss Clara Raymond left Sunday night for Hibbing, where she will spend a few weeks visiting her sister, Mrs. Christ Hansen, formerly of this city.

Dr. D. Rotschild of Rockland spent Sunday in the city, visiting relatives. He has been at Champion for two weeks past, looking after Dr. P. Van Riper's practice during his absence.

Louis Johnson an old resident of Negaunee, left last night for Oregon, where he is to take a position with P. C. Peterson, who moved out there last fall. Mr. Johnson formerly worked for Mr. Peterson on his Eagle Mills farm.

E. Vaetsch of Baraga, son-in-law of the late Mrs. John Christopher, whose remains are expected to arrive here this morning from the West, has been in the city since Sunday. The funeral of the deceased will be held this morning at 10 o'clock from St. Paul's church.

The decorating committee for the baseball game, to be given Friday night at the Adelphi rink, for the benefit of the Negaunee team, will begin work tomorrow. The decorations will consist principally of electric lights. It is planned to make the display an exceptionally fine one.

The collection of funds to be used for the improvement of the entrance to St. Paul's church will take place next Sunday. Rev. Charles Langner, the pastor, announced at the services last Sunday that he expects to raise at least \$250, if not more, to offset the amount donated by a member of the congregation.

Edythe and Ruth Rainbow, sopranos, are the vaudeville features at the Bijou theater the first three evenings of this week. They are dancers and singers and their act was received with much favor at last night's performance. They will spend the last three evenings of the week at the Bijou in Ishpeming. The Davis brothers will succeed them here.

MISSOURI COURTSHIP.

One of our budding young gallants called on a maiden a few nights ago and valiantly offered to brave the darkness of the back yard to bring a bucket of water. He reached the yard, set the bucket down and turned a crank vigorously for several minutes. His efforts met with failure and he returned to the house with the statement that the pump was out of fix. On inspection it was found that he had set the bucket down by a wash tub and had been busy turning the clothes wringer.—Memphis Democrat.

At a meeting of the officers and players of the Negaunee baseball team Saturday evening, W. H. Mitchell was elected manager and Glen Cole, captain. The unfavorable weather was a keen disappointment to the members of the team and fans here Sunday. Most of the players of both teams went to the park in the morning, but the grounds were not in condition, so it was decided to postpone the game. There is much sentiment for playing off the postponed game on a week day, instead of a double-header on some Sunday, and it is hoped by many that the managements of the teams will agree to play it off the latter part of this week or next week. Last season the Negaunee team missed the first and last game with the Munising nine, on account of unfavorable weather. The schedule will be followed and in case the postponed game is not played on a week day the managements will probably decide on a double-header for some day next Sunday the teams are scheduled to meet. Negaunee plays Munising here next Sunday.

NO OPPOSITION FOR PRESIDENCY

JOSEPH CURTISS, WELLKNOWN NEGAUNEE MAN, WILL BE THE NEXT EXECUTIVE OFFICER OF THE MICHIGAN GRAND LODGE, SONS OF ST. GEORGE

At the regular meeting of English Oak lodge, Sons of St. George, last evening officers for the six months term, ending in December, received the first nominations. It is customary with the lodges of this state to place the candidates for nomination before the lodge two meetings prior to the election. As there are rival candidates for some of the offices it is expected that the election, which will take place on the 21st Monday evening in the month, will be an interesting one.

At the last meeting this month a vote will also be taken by the past presidents on the grand lodge officers. There are twenty-six past presidents in English Oak lodge. As Joseph Curtiss, a Negaunee man, is to be elected president without opposition, the officers will endeavor to have a large number of the past presidents attend, in order to give him a large complimentary vote. Stephen Terrill of Ishpeming will also be elected without opposition to the position of secretary of the grand lodge. John Nankervis of Calumet will be the retiring president at the grand lodge session to be held at Ironwood on the third Thursday in July. Mayor Frank James, of Hancock, will be advanced to the vice presidency at the forthcoming session.

The various subordinate lodges are already perfecting their plans to attend the grand lodge session, Saturday, July 17, will be reunion day, when various entertainment features are to occur. A number of the Negaunee lodge yesterday said that committees will probably be appointed at the meeting this month to make arrangements for the Ironwood trip. It is expected that there will be a fairly large attendance from Negaunee and it is reported that the Ishpeming lodges are to be accompanied by bands. The Negaunee lodge may also be accompanied by a band. Committees will be appointed by the several lodges of the county to work jointly on the transportation arrangements. It is expected that a special train will be secured, leaving here early Saturday morning, and returning at an early hour Sunday morning.

No positive information has been received by the Negaunee lodge as to what exercises will be held on reunion day, but it is expected that there will be athletic events of various kinds, also Cornish wrestling, in addition to a big parade in the morning.

BOWLING CONTESTS.

Wolves Won Two Games from Ravens and Lions Defeated Tigers.

The Finnish bowlers of the city, who are participating in the two-man team started a week ago at DeFrees's alleys, are showing much interest in the contest. In two games they rolled Saturday evening the Wolves defeated the Ravens by close scores and the Lions took a game from the Tigers by a margin of thirty-four pins. The scores were as follows:

Wolves	169	153	190	512
Ravens	136	134	123	393
Totals	305	287	313	905

Wolves	169	173	197	542
Ravens	150	133	137	420
Totals	319	306	334	959

Wolves	136	141	150	427
Lions	165	149	162	476
Totals	301	290	312	903

Wolves	143	165	201	509
Lions	125	143	132	400
Totals	268	248	333	849

Wolves	160	119	180	459
Lions	129	141	165	435
Totals	289	260	345	894

Wolves	122	123	182	427
Lions	124	173	121	418
Totals	246	296	303	845

The Stars and White Sox bowled last evening the Wolves and Ravens will meet tonight, the Wolves and Lions Wednesday and the Hawks and Cubs Thursday.

HILL PLANS MORE LINES.

Still Aggressive in the Pacific Northwest Region.

Great Northern to Expend Many Millions—Much New Work in Washington and Idaho and Extensions to the Mining District of British Columbia.

Spokane, Wash., May 17.—Many millions of dollars will be expended by the Great Northern Railway company on construction work in Washington, Idaho and the province of British Columbia during 1909 and the next three years. The foregoing announcement, made through official sources, would indicate that while the Chicago, Milwaukee & Puget Sound Railway company and the Oregon Railroad & Navigation company are forcing entry into what is considered to be Hill's own territory in Washington, Idaho, Montana and British Columbia, the "empire builder" has some new tricks up his sleeve in an aggressive campaign for supremacy in the Pacific Northwest.

It is officially announced that a line has been surveyed and that construction work will begin this year on a road from Spokane, following the Spokane river to Miles, Wash., crossing the Columbia river at Hellgate, and recrossing it at the mouth of the San Poil River, which it will follow to Republic, tapping the big mining region at Keller, and giving Republic direct connection with this city.

It is also given out that work will begin shortly on a line from Oroville, near the British Columbia boundary in the Okanogan country, north central Washington to Brewster, where the Okanogan River empties into the Columbia. This line will be sixty miles in length and will be in operation next summer. Leaving Oroville, the road follows the west bank of the Okanogan to Riverside, where it crosses to the east side, to which bank it clings as far as Ophir, where it crosses to the west bank and cuts across the country to Brewster.

The line from Columbia river below Wenatchee on the east side of the Columbia river now completed to Mansfield, will have all rails laid within a few days and will next fall be ready to drain the wheat belt in the Waterville district in central Washington, where the field will produce a ton and a half of grain this season. A four and one-half-mile spur is proposed from Douglas to Waterville. The total length of the line is sixty miles.

Surveys have been made for a line on the west side of the Columbia river below Wenatchee to Brewster, approximately sixty miles. This will tap an entirely new region. A fleet of steamers is planned for Lake Chelan, which it is expected, will assist in developing the Steadkin mining district, where copper, silver and gold lodes have been found in bodies sufficient to encourage the enterprise of a transportation line.

From the Columbia river the survey and franchises held by the Northern & Southern Railway company, controlled by M. Rogers of Rogers & Howe of Waterville, Wash., will be used south along the east bank of the Columbia to Priest Rapids, where it will follow the west bank of the river to Kennewick, effecting a junction with the Spokane, Portland & Seattle, thus giving the Hill line a complete water level haul from the Canadian boundary, and Big Bend wheat country to the sea.

Track laying is under way on the extension of the line along the Similkameen from Keremuc to Princeton, B. C., forty-five miles. This line taps a great mining district, Hedley, on the new line, having one of the best paying gold mines in British Columbia. This road is surveyed and plans are under way for construction work from Princeton to Hulamene, down the Similkameen to the Frazer river and thence to Abbotsford making a direct connection with the road already constructed from Vancouver through Cloverdale to that point.

Eight new stations have been opened on the recently opened Spokane, Portland & Seattle line between this city and Pasco. They are: Levey, Snake River Junction, Kallitota, Washlutauna, Benge, Wanuck and Lamont, a freight terminal 120 miles north of Pasco and Colvert and Cheney.

A STORY GOES WRONG.

It is said that a New England minister once told the following story just before the collection was taken up: "I heard of a man, prosperous and well-to-do, who went to church one Sunday and put a cent—just a plain copper cent—in the collection box. On the way home he was overtaken by a sudden heavy shower and, having no umbrella, crawled into a hollow log by the roadside to keep himself dry until the downpour was over. Soon the log began to swell, and the water it got the more it swelled, until the sides finally closed in on the prosperous citizen and held him in a grip like a vise. The rain ceased, but the unfortunate man was unable to move hand or foot. He shouted for help, but no one heard him. He was about to give up in despair, when he suddenly thought of the cent he had dropped into the collection box that day, and it made him feel so mean and small that he crawled right out of the log without any further trouble. Now, if you expect to get caught in a shower and be obliged to take refuge in a hollow log on the way home, by all means put a cent in the contribution basket! If you don't anticipate a crisis of that sort—well, you will know what to do when the basket passes!" The minister expected a shower of silver and bills to follow this story, but unfortunately, just as the collection began a black cloud passed overhead, it suddenly began to sprinkle—and the pennies fairly rained into the contribution basket! Only one quarter, a soft penny dime, and a lone nickel were found among the coppers; and they got in before the shower began. The congregation,

MAY TERM OF COURT OPENED YESTERDAY

CASES ASSIGNED FOR TRIAL AND A NUMBER OF LIQUOR LAW VIOLATORS SENTENCED.

TWO ORDERED TO JAIL

Fourth Time Offender Summarily Dealt With by Judge Stone—Four Saloon Men Plead Not Guilty.

As is ever the case when Judge Stone is on the bench, there was no delay in getting down to the business of the May term of circuit court yesterday, and the entire docket was gone over during the day, a number of the criminal cases being disposed of and others, both criminal and civil, set for trial.

The most important cases heard yesterday were those for violation of the liquor laws, of which there were an unusually large number. Those dealers who pleaded guilty were sentenced, two of the number being sent to jail, while the rest were fined. Four of those charged with liquor law violation pleaded not guilty, namely, Fred W. Thoney, L. Kozelski, Walter Lattrell and Frank Suszik, all of Marquette.

Herman Murto, of Ishpeming, who was given thirty days in jail with an alternative of a fine, was thus dealt with because it was the fourth time that he has faced the court on a similar charge. Charles Skoglund, another Ishpeming liquor dealer, is serving thirty days in jail because he could not pay the fine of \$25 and \$11.90 costs, registered against him.

The liquor dealers who entered pleas of not guilty will be given trials by jury at once, that of Mr. Thoney having been set for 9 o'clock this morning and the others immediately following.

Entries on the Calendar.

The following entries were made on the calendar by the court yesterday:

The People vs. Foster Roberts and Holger Anderson; burglary. Plead guilty. Referred to Captain Blanchard for further investigation.

The People vs. John Vallenius; abandonment. Plead guilty. Sentence suspended until next term upon \$100 bond as statute provides, guaranteeing to support his family.

The People vs. Oscar Orre; burglary. Plead not guilty. Tom Williams appointed to defend.

The People vs. Herman Murto and Edward Honkala; violation of the liquor law. Sentence suspended until next term; nolle as to Honkala.

The People vs. Gust Olson; violation of the liquor law. Plead guilty; \$30 fine and \$6.30 costs. Paid.

The People vs. Charles Skoglund; violation of the liquor law. Plead guilty; \$25 fine and \$11.90 costs, or thirty days in jail. Fine not paid and prisoner committed.

The People vs. Herman Murto; violation of the liquor law. Plead guilty and sentenced to thirty days in jail.

The People vs. James Gaffney; violation of the liquor law. Plead guilty; \$30 fine and \$8.70 costs. Paid.

The People vs. Oral J. Lacombe; violation of the liquor law. Plead guilty; \$30 fine and \$8.70 costs. Paid.

The People vs. W. Fennessey; violation of the liquor law. Plead guilty; \$30 fine and \$8.17 costs. Paid.

The People vs. Joseph Lacombe; violation of the liquor law. Plead guilty; \$30 fine and \$8.70 costs. Paid.

The People vs. Ole Johnson; violation of the liquor law. Plead guilty; \$20 fine and \$6.60 costs. Paid.

The People vs. Fred W. Thoney; violation of the liquor law. Plead not guilty. Trial May 18.

The People vs. Tim J. Foley; violation of the liquor law. Plead guilty; \$30 fine and \$9.17 costs. Paid.

The People vs. L. Kozelski; violation of the liquor law. Plead not guilty. Trial May 18. Motion for continuance.

The People vs. Frank Suszik; violation of the liquor law. Plead not guilty. Trial May 18.

The People vs. Walter Lattrell; violation of the liquor law. Plead not guilty. Trial May 18.

The People vs. Frank Suszik; violation of the liquor law. Plead not guilty. Trial May 19.

The People vs. Edward Honkala; assault with intent to kill. Plead not guilty. Continued on motion of defendant; he to remain in custody unless discharged by the court of law.

The People vs. Thomas Burgess, alias Thomas Ryan; escape from prison. Plead guilty. Sentenced from six months to three years, with recommendation of one year, sentence to begin at close of term now being served.

The People vs. Edward Honkala; assault with intent to kill. Plead not guilty. Trial May 20. A. W. Jurma appointed to defend.

The People vs. Elias Maki. Plead guilty to assault and battery.

son; attachment. Trial by jury May 26.

Jacob Saedis vs. Virginia Godin; assumpsit. Trial May 27.

Sophia Okone vs. Hans Gunderson; assumpsit. Case continued on application of defendant, on payment of \$10 attorney fee.

Charles L. Anderson vs. Helen M. MacKenzie; assumpsit. Trial May 27.

Joseph H. Primeau vs. Egbert J. Mapes et al; bill to declare and establish a trust. Passed.

The State Savings Bank vs. Sophia L. Case; foreclosure of real estate mortgage. Passed.

Harry E. Edwards vs. William O'Meara; bill to quiet title. Trial May 29.

James H. Knowles vs. Samuel R. Kaufman, Nathan M. Kaufman, Thomas F. Cole, William G. Rice, Catharina Development company; detourer. Stricken.

Matilda Coveau vs. Joseph Coveau. Walter Lattrell vs. Mary Lattrell; divorce. Passed.

Township of West Branch vs. Pat Donohue. Trial June 2.

MUCH MINOR BUSINESS HANDLED BY COUNCIL

NUMEROUS PETITIONS PRESENTED AND REFERRED TO COMMITTEES AND SEVERAL RESOLUTIONS PASSED.

Although a large amount of miscellaneous business was transacted at the council meeting last evening, little of great general interest came up at the session. Among a large number of communications presented to the council was one from the mayor announcing that he had decided to change the personnel of several committees.

Alderman Reichel was replaced on the park, cemetery, streets and sewers, and finance and taxation committees by Alderman Peters, and Alderman Peters was replaced on the harbors committee by Alderman Reichel.

A number of business men petitioned for a cross walk on Front street near the overhead crossing of the D. S. S. & A. switch to No. 5 ore dock, which petition was referred to the committee on streets.

A petition was presented, signed by the abutting property owners, asking that Ohio street be macadamized east of Spruce street for a distance of 400 feet. The petition was referred to the committee on streets, in spite of Alderman Peters' effort to get immediate action on it.

The Visiting Nurse association asked that the council purchase outdoor gymnastic apparatus to be placed in Washington street park, itemizing the articles needed, all of which, it was estimated, would cost about \$400. The communication was referred to the committee on public buildings and property.

A communication was read from the Presque Isle Sash and Door company, asking that Ohio street, from Walnut street to the lake shore, be vacated, as the company now had no wagon road out from their plant. A part of this street is now occupied by Ole Olson, he having built a house in the right-of-way. This communication was referred to the committee on streets.

Water Board Asks for \$22,500.

The board of fire and water commissioners submitted the following budget, representing their financial needs for the coming year:

Fire department \$ 7,200
Bonds and interest 15,000
Salary of fire warden 300

Total \$22,500

The budget was referred to the committee on finance and taxation and the same disposition was made of the annual budget presented by the park, cemetery and street commission.

The committee on public health reported that, owing to the absence of Chairman Butler from the city, they had not been able to get together a report on the milk problem, as requested by the council some time ago.

The special committee appointed some time ago to consider the communication from the water board regarding a change in their charter asked for more time, which was granted.

The special assessment roll for the macadamizing of Bluff street from Seymour to Lincoln avenue was confirmed without opposition.

Resolutions Adopted.

By resolution of the council, the park, cemetery and street commission was instructed to construct an eight-inch tile sewer in Bluff street, between Seymour and Lincoln avenues, an eight-inch tile sewer on Division street, between Geneva and Mesnard streets, and a six-inch tile sewer on Lee and Alger streets, according to profiles already prepared and approved.

The street committee was instructed to act in conjunction with the park, cemetery and street commission and the street commissioner, all to inspect the streets of the city and learn which ones needed extensive repairs and resurfacing, estimate the cost of such improvements and report at the next meeting of the council. This action was taken in view of the fact that the annual budget of the park, cemetery and street commission carries no appropriation for other than routine repair work.

Alderman Downey offered a resolution that the offices in the city hall be authorized to close Saturday afternoons from June to Oct. 1, which was unanimously carried.

Alderman Ward offered a resolution that the city employ taxpayers and married men as far as possible and that the various boards be instructed to that effect, which resolution passed.

The next meeting will be held Monday night, June 7.

PRISON PROBE WAS LOP-SIDED AFFAIR

LETTER FROM REP. WHELAN GETS WARM REJOINDER FROM WARDEN RUSSELL.

TEXT OF CORRESPONDENCE

Sittings Were Secret and on Warden's Demand for Hearing Assurance Was Given That None Was Necessary.

The following correspondence explains itself: John J. Whelan, Representative, Shiawassee County, Michigan House of Representatives, Lansing, May 15, 1909.

Mr. James Russell, Marquette, Mich.

My Dear Sir, Doubtless you are watching closely the proceedings of the house, especially during this week as matters of interest to yourself have been brought out, especially the report of our committee.

At our last committee meeting under the head of recommendations there were several suggestions or requests made that I opposed. One, particularly, was the recommendation that the warden of the Marquette prison be removed.

I stated to the committee my position, namely, that you had demanded of our committee a hearing before the committee and we had assured you that we had taken all the evidence that we thought necessary on the subject to which we were assigned, and inferred to you that you did not need a hearing.

I proposed to resign my chairmanship of the committee and let any other member act as chairman. This of course would have created some discord perhaps, and in order to retain me as chairman the section suggesting your removal was stricken out. My position was that you are entitled to a hearing on that question, and I was acting for you in the spirit of fairness as I hope you would act for me under similar circumstances in my absence.

What will be done with that report I cannot say. I am of the opinion that nothing will be done. I write you this that you may have a basis upon which to form a correct opinion.

Trusting that all is well with you and Mrs. Russell, I am, Yours very respectfully, J. J. WHELAN.

Marquette, Mich., May 17, 1909. J. J. Whelan, Assembly Chamber, Lansing, Mich.

Sir: I am in receipt of your explanatory letter of date May 15, relative to the report submitted to the legislature by your committee. In this letter you speak of your desire to "take" to me, and in proof thereof set forth the fact that you opposed a proposed "recommendation" by your committee that I be "removed" from the warden-ship of this prison, your opposition availing itself of the same to be withdrawn.

Thank you for nothing, Mr. Whelan. When I demanded from your committee a hearing when you were here at the prison, and asked for my "day in court" as a right, you assumed me, (as you concede in this letter), that I had no occasion to make a demand for a hearing, charges brought against me, saying that you had allowed the persons who wanted to be heard to make their statements and place before your committee such testimony as they could produce in support of their charges, but that if your committee did not consider it necessary to go any further with the matter you did not see why I should insist on having you do it.

This was at the close of the third day of your straggling investigation, when you began to talk about leaving for Lansing at next morning. Up to that time I had been given no hearing on charges affecting my integrity as an official, or my management of the affairs of the prison generally. You substantially, (as you now admit over your own signature in your letter to which this is a reply), assured me that there was no need for me to make a defense to any charges that had been brought to your notice. And after you had given me that assurance in reply to my demand that I be given a hearing in my own behalf, your associate on the committee, Osg, subsided to me that he wanted a word in private with me. I went with him into my reception room, when he, placing his hand on my shoulder and looking me in the face, said: "Warden, I want to say to you that owing to my newspaper experience, the report of our committee will be written by me, and it will be one that you will have no cause to be dissatisfied with. We have made a thorough investigation into the conduct of this prison, and we are satisfied with the way it is being conducted. I am not here to bring you any charges, and you need not worry about our report." I am giving almost his exact language. I said to Mr. Osg that I had not at any time been worried about what the committee would find, or what its report would be, and thanked him for his assurance in advance regarding its tenor. You then left for the city, and that ended your one-sided investigation of this prison and my conduct of it.

When you got back to Lansing you told the correspondent of the Detroit Free Press that you had found nothing wrong with my management of the prison, that you had given John R. Gordon and George W. Freeman and others an opportunity to prove their charges and that they had failed to produce anything in substantiation of them. This statement was published in the Free Press immediately after your return to Lansing, and was in accord with your assurance to me here when I demanded a hearing from your committee.

Now you want me to believe that you have been "star" to me because you opposed having embodied in your report a valueless recommendation, though you signed as chairman a report to the legislature which, if what it charges against me is true even in thing in substantiation of them, is in the charge of the prison and should be summarily removed.

Permit me to remind you, Mr. Whelan, that your committee was not sent here by the legislature as a whole, un-

HANAN & SON SHOES

All the good points that should be found in a good shoe are summed up in the word

HANAN RUGS

It is easier to remember to ask us for Hanan's than it is to describe a good shoe.

Patent Leather Oxfords \$5.50
Gun Metal Oxfords \$5.50
Tan Calf Oxfords \$5.50
