Negaunee Department

COLLECTING DATA FOR THE GOVERNMENT

AGENT OF IMMIGRATION COMMISSION EXPECTED HERE TO INVESTIGATE VALUE OF IMMIGRANTS TO THE COUNTRY

J. H. Bradford, an agent of the United States government immigration commission, who is to make an investigation of the cost of living of the immigrants in this part of the country, their value to the employers of labor, and other facts that have to do with the industrial situation as it concerns the immigrant, is expected to visit the Marquette range within a week or so. He will also visit the copper country and the Mesaba range.

The immigration commission consists of three senators and three congressmen, together with three appointees of the president. It was established in 1907 and has been conducting its investigations ever since.

The work of the commission is not limited to any one part of the country and before its work is completed one or more members of the commission will have visited practically all of the principal labor employing districts in the United States. Mr. Bradford is now working in the Minnesota district and will come to this county as soon as he completes his labors there. In the iron and copper districts he will gather statistics on the work being done by the class of labor employed in the mines, the pay they receive, the cost of living of the men and their value to the employers.

The immigration movement from European countries is not now as heavy as it was expected it would be at this time. Immigration to the United States reached its highest mark in 1907. In that year over 1,200,000 immigrants landed. Last year as nearly 100,000 more persons left the country than came in. The figures were approximately 700,000 immigrants landing in this country to 800,000 persons leaving for their native countries. The financial depression was wholly responsible for the unusual change in the movement.

Reports received by the department so far this year bear out the belief that 1909 will be a heavy year in the movement of immigrants to the United States. This movement is a positive indication of returning prosperity, as the new comers are finding employment almost as fast as they arrive.

Many immigrants have arrived in this district during the past three or four weeks, and there is hardly a day that parties of two, three or four do not arrive in Negaunee. It is reported that they are arriving in larger numbers in several other upper peninsula points.

IMPROVING HOMES.

Several Negaunee People Are Making Alterations at Their Dwellings.

Andrew Lindquist has contracts for work at the homes of Postmaster Thomas Connors, George J. Maas and Alexander Maitland. Mr. Connors is building an addition to his dwelling and enlarging the basement, making it twice its present size. Two new rooms are to be added and an additional bath room put in. Two of the present rooms at the rear are to be enlarged. Mr. Maas is building an addition to the southeast corner of his dwelling, providing an entrance to the cellar and ice box. The porch is to be remodeled and other minor improvements made.

John Shea, who recently announced that he intends to move to Los Angeles, Cal., early in the fall, has sold his dwelling to Charles Steele and his sister, Miss Lydia, who will occupy it as soon as Mr. Shea and his family leave here.

Lumber is being delivered for Captain John Deacon's new dwelling in the Cyr addition and the carpenter work will be started within a day or two. The concrete foundation for the new addition is to be completed before the end of the week, and the carpenter work will be started next week.

WANT TWENTY-SEVEN ACRES.

The members of the cemetery committee of the council and board of public works, who inspected the site between the two bluffs north of the Maas mine Tuesday, would like to procure no less than twenty-seven acres for the new cemetery. Of the ground they selected fifteen acres are owned by George J. Maas and twelve acres by the Cleveland-Cliffs Iron company. Mr. Maas some time ago advised the council that he would sell the land, but it may not be known for some time whether the Cleveland-Cliffs Iron company will consent to give up this tract for cemetery purposes. Mr. Maas is satisfied from drill tests made some years ago that there is no ore beneath the surface and will sell it outright to the city. Members of the committee were most favorably impressed with the location as it has many advantages over the two other sites inspected last fall.

WILL BE A HOLIDAY.

Next Monday, the 31st, will be generally observed as a holiday, and it is not expected that there will be any work by the mines of this range. All of the bluffs will be closed, the post office will observe the Sunday hours and in all cities where Memorial day exercises are to be held they will take place on Monday, instead of Sunday. The exercises in Negaunee are to be held at 2 o'clock in the afternoon, from the Breitung House veranda, under auspices of Charles H. Fewne post of the Grand Army.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of addresses. F. J. CHENEY & CO., Toledo, O. Sold by all druggists. Beware of cheap imitations. Make Hall's Family Pills for constipation.

CITY HALL IMPROVEMENTS.

Practically All Old Plumbing in Second Story Will Be Removed.

The marshal's residence in the city building, which is soon to be occupied by Marshal John Rough's family, is receiving a thorough overhauling. All of the walls are being redecorated and the woodwork painted, and the committee on police and the board of public works has asked the Negaunee plumbers for bids on new bath outfits and other equipment.

The plumbing in the basement and the quarters of the city officials will need no attention, as it was put in good condition last year, when the new foundation was put in. The library rooms are in fairly good order, as they also received some attention last year. It is possible that the committee will have some decorating done. The library is rapidly outgrowing the quarters, and it is a question of only a short time when it will be necessary to provide at least one or two additional rooms. The book racks are crowded to the limit and at times the reading and waiting rooms are not large enough to accommodate the patrons who assemble there.

LOCAL LAONICS.

Robert Koob is here from the Mesaba range on a visit to his folks.

Louis Merrill and Joe Torrance spent yesterday near Clowery, trout fishing.

D. B. McDonald, the diamond drill contractor, is here from the Mesaba range.

A party of Negaunee Shrimers attended the session at Marquette last evening.

Chris Messner has returned from the copper country, where he spent a week visiting relatives.

Charles Wolf, the well known butcher supply man of Chicago, was here yesterday, calling on his patrons.

Mrs. T. C. Yates has returned from Chicago and points in the South, where she spent the past few weeks visiting relatives.

J. F. Allison, who is soon to leave Negaunee, advertises his Cadillac touring car for sale. The car has been thoroughly overhauled and is in first-class condition.

U. F. Durner, the tile contractor of Milwaukee, was here Tuesday inspecting the work at the new high building. Two of his men are still here, finishing up the job.

The G. F. L. fraternity will conduct a social hop tomorrow evening in the Kirkwood hall. Dancing will start at 8 o'clock, continuing until 12. Tickets will be fifty cents.

The board of education has started a crew at work clearing the grounds surrounding the high school building. The approaches to the north entrance are being put in and the concrete work in the east and west entrances is being completed.

John Ward and wife, formerly of this city, are enjoying a month's trip in the East. They have visited several of the more prominent cities in New York, Massachusetts and Rhode Island. Mr. Ward attended the Brotherhood convention, held recently in Boston.

Harris and Hillard, vaudeville performers, who have been at the Bijou theater in Ishpeming the last three evenings, will be seen at the Bijou here the remainder of the week. They do a refined singing and talking act, and they proved a good drawing card at Ishpeming.

At the special meeting of the fire department Tuesday evening Chief Julius Johnson was delegated to go to Laurium to secure quarters for the members during the firemen's tournament. A committee was appointed to make arrangements for the department's Memorial exercises a week from next Sunday.

Captain John Deacon is representing the Negaunee lodge of the Masonic fraternity at the grand lodge meeting in Detroit this week. Thomas M. Wells and S. S. Mitchell, who attended the chapter convention at Bay City last week, have returned. Mr. Mitchell spent a day with his son Elmer at Ann Arbor on the return trip.

On Friday morning at 10 o'clock the saloon fixtures formerly owned by Arthur Laine, which were recently seized under a chattel mortgage held by Albus Haapanaki, will be sold at public auction to the highest bidder at the south entrance to Matt Neimi's saloon on the corner of Gold street and the South Shore right-of-way. The sale will be conducted by Judge T. A. Thoren.

TO DETROIT AND RETURN, \$7.00

Via the South Shore in connection with steamers of the Detroit & Cleveland Navigation Co., leaving Marquette June 9, 12, 17, 19; Toledo, \$7.50; Cleveland, \$8.50; Buffalo, \$9.00. Return limit about three weeks. Apply early for reservation. (5-24-12)

BIDS WANTED.

Sealed bids will be received by the Board of Public Works, of the City of Norway, Michigan, up to 2 o'clock p. m. Tuesday, June 8th, 1909, at the City Hall, in said city, for furnishing certain materials and constructing certain works to the water works, necessary to use the Lake Fumee supply.

The work to be done includes the laying of about five (5) miles of 12-inch iron water pipe, about 5 per cent of which is from 10 to 20 feet cut; also a water inlet, screening chamber, valves, valve boxes, air valves, water meter and other appurtenances to the pipe line.

It is also intended to construct a water tank, 35 feet in diameter by 41 feet high; all above ground. Bids will be received upon reinforced concrete for this purpose, and also upon a tank constructed of steel plates. Bids will be received on the whole or any part of said work.

The board reserves unto itself the right to accept or reject any particular bid.

Plans may be examined on or after the 24th day of May, at the City Hall in said City of Norway, Michigan, or at the office of John W. Atwood & Chas. R. Burdick, 1212 Hartford Bldg., Chicago, Ill.

JOS. VAN KERCKHOVE. (5-17-67) City Clerk.

Suppose there were something about your business that you wanted to keep from the knowledge of the public.

Suppose that it were printed in plain, clear words in the advertising columns of

The Mining Journal

You would consider that the facts were pretty well spread before the public.

Now, surely there's a lot you'd like to have known. Well, then---what follows?
