MARQUETTE, MICH., NOVEMBER 2.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Speaker Cannon has been frank about Senator La Follette on occasions. How- ing friends easily and quickly. To our last issue.

The Marquette friends of Representative Jay Jay Whelan, of Shiawassee, will be distressed to learn that that worthy was injured in a fall from a hay wagon. They need not be overly solicitous, however, for the Hon. Jay Jay landed on his head.

The Vanderbilt cup races disappointed the crowds. The time was poor. Moreover, there were no fatalities, and we have Wilbur Wright's assurance that the good driver skidded to kingdom come.

The bomb throwers in Chicago are goshow what he can do with them. They were one too many for his recent predecessors, and apparently are firm in the belief that they can make monkeys out period.

Arthur Tuttle, former prosecutor for Ingham county, and a senator in the last legislature, representing the Shiawassee-Ingham district, will not be a candidate for re-election, and it is said that he has been selected to have charge of Representative Townsend's senatorial campaign. Mr. Tuttle can't know that the Detroit Journal says that Townsend hasn't a ghost of a chance. Albert B. Cook, who represented the Shiawasseeelection, is again candidate for the of-

in between them. To be sure he was several years past. hand in glove with Ruef and Schmidt in their rescalities, but the San Francisco voter is not overly nice He has shown in the past that he will stand for pretty raw deals, and McCarthy's platform appeals to a certain class of citizens who are always active and effective about election time.

The first of the customs frauds cases brought to trial in New York under the direction of Collector Loeb resulted in the fining of the defendant, one Muscia, a member of a wealthy firm of importers, in the sum of \$5,000 and the infliction. besides, of a sentence of a year's imprisonment at Elmira. The government attorneys requested a severe sentence, as a precedent for other cases that are to follow and to aid in their work of quickly breaking up the frauds. Judge Holt, who had criticised Collector Loeb for giving immunity and assurance that they would be retained in their jobs to weighers who had participated in the frauds, in return for their testimony for the government, took occasion to modify his criticism by expressing his appreciation of the excellent work being done by Collector Loeb and the spirit in which it has been entered on. The government has a long string of new cases which it intends to push forthwith. The developments leave no doubt that the New York office is to be made as honest as a customs office can well be.

Representative Young is quoted as having expressed to Senator Burrows the is not, after all, unduly heavy compared opinion that unless he got out and made with the number of men and youths a real campaign he would get the small playing on the teams. The rules have end of the vote next fall. That's a been changed of late years with the sane view of the situation. The voter purpose of decreasing the hazard, but it usually capitulates to the candidate who will always remain large. There will woos him with the most industry and always he risk in football, but eloquence. Representative Townsend ev- despite the accidents and the idently intends to make a vigorous campaign. The Detroit Journal et al. to the ion appears to be for the game, and not all cases. contrary notwithstanding, the majority even the shocking death of one of the West Point men will turn the tide

of voters are of open mind with respec to the claims of Representative Town send, and if he "shows" them he will get their votes, unless Senator Burrows and his friends get around and "show" them differently. We also expect to see the gubernatorial candidate who puts up the best case on the stump, "mixes' most assiduously and, generally speaking, conducts the most energetic and effective canvass get away in front of the field. In these respects Mr. Osborn should be econd to none of the aspirants. He is a good speaker and has a faculty of makever, the senator evens all scores in the mind the plan of campaign that has been dutlined for Judge Montgomery-this standing aloof and giving the people permission to vote for one if they want towill be attended by indifferent results We believe that if the good judge wants a fair break of the vote he will have to go after the voters and to them, as hard as the other candidates are do-

Three important events are left on

Michigan's football schedule. The com-

ing Saturday it has to play Notre Dame populace frequents these events in the This institution is never reckoned as expectation of seeing some perfectly an easy opponent. It upsets calculations every once and so often by winning a game it has been doped out to be sure of losing. It has, on occasions, given ing to give Chief Stewart a chance to Michigan much trouble. But the team that defeated Syracuse 43 to 0 Saturday should not this year have much trouble with Notre Dame. The true test of the Michigan team will come in its two of the Chicago policemen for an indefinite later games. The following week the team will meet the Quakers at Philadelphia and the succeeding Saturday will be pitted against Minnesota at Minneapolis. The team is to have an eventful three weeks, and if it comes out of the past unsuccessful seasons. The general future has in store, Uncle doe Ingham district before Senator Tuttle's play evenly in all departments, both of disposed of for nearly two years to come. P. H. A REMARKABLE INDIAN BRIDGE.

An interesting bridge, said to have been built by Indians, is situated about two hundred miles east of Prince Rupert, B. C., near the proposed line of the Grand Trunk railway. It is built of round poles, fastened together with telegraph wire and wooden pins, the floor being the only part where nails are used to any extent, and no two joints are made alike, but it seems to do the work required of it, that is, as a means for pack trains to cross Bulkley river, Looking at it from a distance, it seems to l nothing but a collection of poles and wire stuck together any way, with no particular reason for its not falling; the floor is very uneven, and the joints o the different members are made by lapping and binding them with wire. But by looking at it closely a person can ployment and is devoting full time to see that the party who built it had Patients desiring to know more of the bridge is an ingenious combination this treatment can get full literature of cantilever and suspension construc-

The Tenderfoot Farmer

spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations. It's only a "tenderfoot" farmer that would try such

an experiment with a cow. But many a farmer feeds himelf regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol

PASSING OF E. W. HOWARD.

Well Liked Houghton Businessman Dies Houghton Football Team Will Play at After Long Illness.

3 o'clock yesterday morning at his home winner will play Ishpeming for the in East Houghton, after suffering since championship of the peninsula. Me-May 29 with cancer. Though his suf-ferings had been intense during the stone and Norway this season and is months of his illness, his end was virtu- considered much the strongest team that ally painless and came very quietly.

Ed Howard enjoyed the friendship of the most prominent men in the Northwest. He was as well known in the Minnesota iron towns and the Michigan iron Young Calumet Mining Engineer Dies at country as he was in Houghton, where he had made his home the past four years, and his death brings sincere sorrow to very many people. Mr. Howard was physically a big man of distinguished appearance, possessed of a sense of humor and a wit that made him welcome at any

gathering. fitted, and he came home thinking that recuperation could be more rapid here. This was only a few weeks after his malady became known, but since that time he had been unable to speak and communicated with Mrs. Howard and his Miss Catherine McKay of Calumet Suc-

came associated in the ownership of the vestigate the disappearance. Douglass House builtet. After two years there he purchased the poard of Trade buffet and cafe and made the establish-

ment very popular. Mr. Howard is survived by Mrs. How ard. A brother and a sister live at Butte. The funeral will be held this the remains will be interred at Forest Hill cemetery. Rev. A. J. Rezek will conduct the service. It is expected that conduct the service. It is expected that of the deceased will be present.

MATRIMONIAL RECORD

Cupid's Operations in 1907 Will Not Be Exceeded This Year,

longhton county building is in despair, There has been a glimmer of a hope that the record of marriage licenses tablished in 1907 would be equalled this car, but Capid was lethargie in Octoher, the month just closed, and the howing is four less than for the same month in 1907 and 1908, which were tied applicants from the upper per who regrets this aside from the licenbut the figures whi h follow ma,

be of interest to a few others. There were seventy eight licenses sued in October of this year, and eighty two in each of the preceding October For the year, up to date, 710 license have been issued, with 658 for the sar period last year and 733 for the banne year, 1907.

BUSINESS MEN HOLD MEETING. Calumet Organization Holds Annu-

Moeting-Light Question.

The annual meeting of the Calmert Businessmen's association, including Cal umet, Red Jacket and Laurium business men, was held last night in the Red Ja ket town hall. New officers for the ensuing year were elected. The most important business was the report of the central committee in charge of the conventions held in Calumet the past sum-This report covered all receipts and disbursements and all details of the management. Another important matter was the question of decorative illumina-

tion for Red Jacket. GRAPE SHIPMENTS ARE ENDED.

Never before in the history of the state copper country have grapes been brought in in such large quantities for winemak- copper country-Charity, of Red Jacket; ing as during the present fall. More than Laurium, of Laurium: Haucock, of Hanseventy carloads have been received. As cock; Columbia, of Houghton, and the each car held about twenty tons, more Chassell ledge-will enter the contest than 2,800,000 pounds of this luseious The copper country has furnished some fruit have been brought into the district. All the wine manufactured, as well as part in the upper peninsula contests and many thousands of barrels of imported they should be able to make a success-wines and California wines, will be used by the state honors. while she was in a restaurant Miss dued. Carey had entered, made several unkind remarks about her hat, saying it was agly and out of style, and when she monstrated had created a scene by calling her nasty names and using language unbecoming to a lady. Her attorney refused to allow Miss Carey to pay the fine and notified the alderman that he will appeal from the decision.

UNITED STATES STEEL.

Some of the Wonders of the Big Plant at Gary Ind.

wonderful features of this new Steel money you would not have needed to corporation subsidiary. He says: "The commit forgery." Gary plant, or the Indiana Steel company, as it is officially known, is undoubtedly the most complete, efficient and wonderfully equipped steel manufactory in the world. In point of size, as it stands today, it is exceeded by the Illinois Steel company, which is fifteen miles distant on the shore of Lake plant is without a peer,

ine from Illinois-it purchased about take place in January, 2 300 acres of land. Subsequent purchases have brought the total up to northeast corner of Fifth avenue and something over 7,000 acres, or which Sixty-eighth street is in its interior one docks and railroad yards. The docking of the late Stanford White have profacilities at Gary are marvellous. The nounced it the crowning achievement of dips which indent the lake's shore, and his peculiar constructive mind. ennect by a dredged channel with the deep water of the lake, are constructed on a scale that will accommodate four or five huge Steel corporation ore vessels loaded with 10,000 tons of ore each, I was told by the superintendent that the unloading facilities were such that me of these vessels can be unloaded in but six hours. At the Krupp works in fermany it takes thirty-six hours to do

similar job. "At the present time the Gary plant has its eight furnaces in operation, with a production of 500 tons each per day of openhearth, pig and merchant steel. The ultimate installation of the Indiana Steel company will be sixteen furnaces, making it when completed the largest steel plant in the world, with a capacity 2,500,000 tons of finished products per anaum. A striking illustration of the manner in which economy of operation is carried out in steel manufacture is afforded at Gary. For instance, the three elements used in charging the fur names-lime coke and ore-are all util

iously awaited, and after its publication was inclined to weakness almost all ized to the fullest possible extent. The an effort was made to depress the isspe, day, although slight rallies occurred at the molten ore is made into steel; the slag or residue produced through chemical times on covering by shorts. DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure Send for circulars, free.

NEARLY 2,700 PUPILS IN PUBLIC SCHOOLS at Ishpeming Theater.

Ishpeming Department

OF THE NUMBER 1,349 ARE GIRLS AND 1,345 ARE BOYS-422 AT-TEND HIGH SCHOOL AND 240 ARE IN THE KINDERGARTENS.

boys and girls enrolled in the Ishpeming public schools been so nearly equal as this year. There is a difference of only four, in favor of the girls Their number is 1.349, that of the boys s 1.345, giving an enrollment of 2,694. The enrollment is now in the neighborhood of 200 more than at the opening of the schools in September, and it is expected that the total enrollment will be considerably over 2,700, The district was never as well pre-

pared to take care of the pupils as at this time, though every room in the several buildings, with the exception of one, is in use. The vacant one is a basement room at the First street or Grammar school. This school accommo date a larger number of children than my other building in the city, there being sixteen rooms in use, with an en ollment of 529 boys and 296 girls. The grades taught there are fourth, fifth, sixth, seventh and eighth. When this pilding was used as the high school the old. Division street building was the argest in the city, it having had twelve rooms. By dividing the auditorium in the First street building into grade rooms it has been possible to increase Minn., is holding down a position on one heavy as they would have been had the count of the theatrical attraction, which the attendance by ever 25 per cent over of the fast football teams of the city, railroads been able to handle the busi- many of the members will attend.

ART MUST BE SEEN TO BE APPRECIATED

CONSEQUENTLY, THERE IS GREAT made a splendid record last month, as ALDERMAN HENNESSY GIVES VENT NEED FOR PUBLIC EXHIBTIONS, SAYS J. W. YOUNG.

PLANS FOR AN ART LEAGUE

At Meeting to Be Held at the Marquette Club This Afternoon, County Accociation May Be Organized.

"That we live in a country and in a time when progress is our watchword is that the menth of October just passed t in business, manufacturing is common the ore business did not start up briskly brought up and later in the discussi knowledge; that we as a people are in- this year until about June 1. Consider of the long-talke leaf milk ordinance. tensely interested in education is a fact of which we are proud; that the well tober the weather was unfavorable for thing went smoothly and for a time educated man is one in whom all the faculties have had an even development the past morth was quite remarkable is a known principle with educators.

tions and feelings as well. Since music and art have to do with emotions, it is by their study the emotions are best developed. Good books, periodicals and ably conducted newspapers are within the reach of everyone. A musical genius composes a masterpiece and within a year his production may be enjoyed in a thousand places in one night.

"Not so with the great painter. He produces a masterpiece over which he has dreamed and worked for years. It must be seen to be appreciated. You can be enjoyed by the public.

America Has Ablest Artists.

works by many of our living and dead American masters for the national gallery of the Luxembourg, not because they love America but because they want could not omit American works. And alleys tonight at 8 o'clock sharp. yet we in America know more of the art of every country than our own. This promote the sale of foreign paintings, which they can buy cheap and sell at Guild Hall A-A.

ty, for the purpose of securing good W. Anderson, F. H. Withey, W. Davis, ment was finally brought to a vote and public annual exhibitions of fine works C. M. Gooding, H. J. Waterbury. of art. The plans of this organization will be to seeure a large membership, Hamel, A. E. Anderson, James Miller, bilcock of Ishpening for damages to his paying a small membership fee of \$1 a F. R. King, R. C. Lowe, year. This will provide a fund sufficient to hold a good exhibition in one or more of the towns of the county annually, which is to be free to everyone, and when sufficient funds accrue to buy good works of art for a public collection.

Circuit of Art Exhibits.

County Art league be a part of a circuit K. Parkkila, G. Kiva. of exhibition points, including the cop-per country, Duluth, St. Paul and Minneapolis, all of which cities have already similar art societies. The best pictures public exhibitions in New York, Boston, S. Webb. Philadelphia, Washington, Pittsburg and until the following autumn. The paint day, Guild Hall A vs. Vikings; Saturday, read by Alderman Schauer. Alderman ers will gladly loan these pictures for a Guild Hall B vs. No. 5. summer exhibition in our northern towns, will be small for each town.

"At this afternoon's meeting it is hoped | Guild Hall members, many from Ishpeming and Negaunce will join with art lovers of Marquette to talk over plans for organization. That there is a lively interest in Mr. Young's plan is evident from the state

ments of the following Marquette people who have been interviewed:

Expressions from Local People. J. M. Longyear-"I think this move-

ment a very good one if it is properly Austin Farrell-"I know of nothing
