

DAILY MINING JOURNAL

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Have you got your tickets? Chicago extends the hand of greeting to Marquette today.

Any way those umpires show a desire to do what is right, even if they don't always do it.

The latest record breaking performance in aviation is, in these progressive times, no more than a nine days' wonder.

From Cleveland is reported a case in which the game of solitaire has broken up a family. It's usually that other game.

Wonder if Jeff believes in dreams? Mrs. Jack Johnson dreamed that the big smoke is to be returned a winner in the sixteenth innings.

Aeroplane delivery of mails is said to be practicable. Certainly the aeroplanes would do as well as some of our railroads, on occasions.

And now the good people are fault finding because the weather is too hot. They have an infinite capacity for being dissatisfied with the weather.

The Detroit Free Press is delivering learned lectures on what constitutes true Republicanism. Presumably it found out all about true Republicanism when it bolted Governor Warner for Lawton T. Hemans, the Democratic candidate, in 1908.

While State's Attorney Wayman is shut off from much of the evidence he had hoped to introduce against Lee O'Neil Browne he is still quite confident that there is enough left that is admissible to assure a conviction, when the case gets to the jury.

If all this interesting "jackpot" testimony is to be ruled out of the Browne bribery case, it appears that the state's attorney will have to start a few independent "jackpot" cases, so that it may be utilized. It would be a shame to waste it.

Charges of fraud in the erection of buildings at the state tuberculosis sanitarium at Howell have collapsed under the investigation of the board of control. It was alleged by Seth Rubert that the contractors were substituting cheaper materials than those specified in the agreement the contractors entered into with the state. Investigation disclosed that all the bids submitted were high and that to keep within the appropriation the board in many instances substituted cheaper materials, a fact of which Rubert, who alleged the fraud, was not aware. This passeth another teapot tempest.

Once more comes our old friend, the report that Whiteley Reid will presently be replaced at St. James. It is said that Mr. Reid, while he is on tolerably cordial terms with King George, is not as close to him as he would like to be, if the interests of the American state department is to be best served in London. To accent this point, it is said that before the death of Edward, Reid was seldom found in the group surrounding the Prince of Wales at the court functions. All this may or may not be true, and it may or may not be true that Reid is presently coming home to us, but we will be able to abide the outcome without being seriously concerned. Reid is not so pre-eminently fit an ambassador that he could not be replaced without our interests being in the least threatened. His principal title to fame at London has been his extravagant entertainments and his violent cultivation of the British smart set, rather than any notable contributions to the history of American diplomacy. He is the first spender among our diplomats, but in other directions he is far eclipsed by other Americans in the service.

We are learning something new nearly every day about Mr. Roosevelt's London address on the Egyptian question. One of the most interesting bits in regard to it is the information, vouchsafed by Sir Edward Grey, foreign secretary, that the address in question was communicated to him before Mr. Roosevelt delivered it, and, presumably, met with his approval. So it appears that Mr. Roosevelt did not plunge into this ticklish question on the spur of the moment, or

without due consideration. On the contrary, he submitted his manuscript and gave information as to his purpose to an officer high in the government. Sir Edward Grey says he never listened to an address with greater pleasure, and that its friendly purpose was obvious. He regards the address, taken as a whole, as the greatest compliment to the work of one country ever paid by a citizen of another. If the anti-British agitation continues in Egypt, Sir Edward Grey said the government would take measures sufficient to assert its authority. His address on the subject was in reply to Arthur Balfour, leader of the opposition, whose general purpose was to make party capital out of Mr. Roosevelt's remarks. It would appear that he was rather cleverly checkmated by the government's foreign secretary.

The Soo News, in Monday's edition, nails in emphatic fashion the audacious lie that it had declared editorially for Angus W. Kerr against Representative Young for congress and for Representative Townsend against Senator Burrows for the senate. It was a piece of mendacity that had no basis in fact, and that was as wholly contemptible as the manikin who originated it. To make its position clear for the future the News says: "The Soo News is maintaining a position of strict neutrality on the senatorship and in the congressional campaign. Its entire purpose is to promote in every legitimate way the candidacy of Chase S. Osborn for governor. As Mr. Osborn is supported heartily and enthusiastically by men in every section of Michigan some of whom are champions of Burrows and some of Townsend, and as he is receiving the hearty support of the Kerr men as well as the Young men in the upper peninsula, it is obvious that in the pursuit of the object sought by the News, the nomination of Mr. Osborn, but one course is open, that of strict neutrality on all other candidacies and this course has been faithfully followed."

The Milwaukee Free Press reminds "the distinguished senators who are lifting up their voices in protest against the appropriation of \$250,000 for the work of the tariff board" that they may well mark the embarrassingly close shave of Representative Dalzell of Pittsburg. "No one is so blind as to accuse Pittsburg of being anything but a protection stronghold," the Free Press says. "Its citizens want the protection of their industries as much now as they ever did, and it will be a dark day for the country when they send an anti-protection representative to congress. But Pittsburg, like many another great industrial community, has come to realize that there are different ways of applying a protective tariff, that there is an equitable, scientific way, as well as a hazardous, discriminating way. It has decided that the latter must go and that the former must take its place, and that to this end a disinterested board, or commission, of tariff experts with ample means and power is a prerequisite. In this position they are in full concurrence with President Taft and hosts of other enlightened Republicans, and this the old 'stand-pat' guard must recognize if, each and all, they would not undergo the experience of Mr. Dalzell and worse. Their claim that a tariff commission would mean another immediate tariff upheaval is as absurd as their charge that the voting of the enabling appropriation is an admission on the part of Republicans that they condemn the Payne bill."

The finance committee went to ridiculous lengths in cutting the appropriation asked for by the police commission. Last year \$4,000 was appropriated for this commission, but at that time it was carrying a balance in the treasury of \$2,000 or more. This year that balance is exhausted, so the money the commission has available will be confined to the appropriation. The \$4,500 apportioned the commission is less money than the police department cost annually even some few years ago, when it was directly under the management of the council. In 1903 the council expended \$52,718.11 in support of the police department, and in the year ending in March, 1907, the outlay was \$5,968, or in excess of \$1,000 more than the appropriation just made. When the commission was first authorized, expenditures were considerably increased, but last year they were gotten down where they belonged again. During the year the force of policemen was reduced by two. The appropriation of \$4,500 will not suffice to support even the smaller department, and it is certainly unreasonable to give the commission considerably less money than it cost the council four and five years ago to support the police establishment. It's all very well to encourage economy in the police department, and other departments, but it is futile to expect to police a city for less than it costs. The difference between the appropriation and the cost of the police will only have to come out of the general fund later, for the council has skinned the amount allowed the commission beyond all reason.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it swells and the sound is impaired hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Sent for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, Etc. Take Hall's Family Pills for constipation.

THE GLORIOUS FOURTH.

"The appalling ravages of 'Fourth of July Tetanus' is the subject of an exhaustive and enlightening article in the June Review of Reviews. It may surprise many a citizen to know that a very rational and earnest movement against the use of fireworks on Independence Day is now in its seventh year; nor is it universally realized how many children have, by reason of these yearly celebrations, suffered the most cruel death known to medical science. Were any such emotion possible in the English breast, that of satisfaction for the losses and humiliations endured by England in the war for independence—at least so far as human life is concerned—could hardly be more thoroughly justified; for, taking no account whatever of our national losses of many decades past, but only of those incurred in the last three yearly celebrations, the loss of life is frightful. In New York City alone, it is found that 1,339 have been killed and injured—more than the casualties in the Revolutionary battles of Lexington, Bunker Hill, Fort Moultrie, White Plains, Fort Washington, Monmouth, and Cowpens combined. Nor have these losses been among fighting men, but rather among little children; and of the latter wounded on Independence Day many that have not died have nevertheless been dreadfully maimed and disfigured for life.

The American Medical association has gathered most of the statistics upon which the fight against the use of fireworks on the glorious Fourth has been based. A year ago it demonstrated in its Journal that in the six preceding years our whole country has shown that that festival a grand total of 29,296 killed and wounded. In 1903 there were 415 cases of Fourth of July tetanus; in 1904, 105 cases; in 1905, 104; in 1906, 80; in 1907, 55 recorded cases; in 1908, 76. In 1909 there were 150 cases, the largest number since 1903, probably by reason that the Fourth coming on Sunday, the celebration was practically one of three days; as it comes this year on Monday, there is now to be feared another heavy list of dead and injured. It is interesting also to note that in 1908 there were 816 blank cartridge wounds, whilst in 1909 the number of wounds from this source was 1,095; and that the states having the largest number of blank cartridge wounds had also the largest number of tetanus cases; also that blank cartridge wounds had a higher percentage of deaths than gunshot wounds. The most common wound produced by the blank cartridge is that produced by the blank cartridge; this need not be as wide as a church door, nor as deep as a well; the merest skin puncture, perhaps even a scratch, will serve. The blank cartridge, then, is responsible for more than 60 per cent of tetanus cases; the giant firecracker (not the small cracker) for 16 per cent; the toy cannon, 4 per cent; firearms, 5 per cent; powder, 10 per cent. Not to excite undue alarm, it should be observed that blank cartridges will be no means always produce tetanus; for the eighty-nine cases developed in 1906 there were 979 blank cartridge wounds; still the disease is so appalling that no one will take for his children any chance that their wounds will prove innocuous. It is well for parents to bear these figures in mind, and if they must celebrate with fireworks and giant crackers, to exert every possible caution to prevent accident.

THE STATE PRESS.

Most any girl would rather be engaged than even happy.—Jackson Citizen Press.

With two hundred new engines, the Baltimore & Ohio will have quite a pull.—Jackson Citizen Press.

Henry C. Frick of Philadelphia has paid \$1,000,000 for "A Portrait of a Lady." Wonder if he dares take it home.

Lansing asks if a flying machine race will start from there this year. It will if hot air is needed.—Pontiac Press Gazette.

Senator Lorimer says his innocence will be proven soon, and it seems that it will have to be proven soon if at all.—Grand Rapids Press.

Justice Stein of Detroit is being urged to be a candidate for the circuit court bench. Stein should be no stranger to the bar.—Flint Journal.

In this highly interesting division between the Bryantes and the Harmonites, will some kind Democratic authority inform the country which wing of the party is "regular" and which "insurgent."—Detroit Free Press.

GO RIGHT AT IT.

Friends and Neighbors in Marquette Will Show You How. Get at the root of the trouble. Rubbing an aching back may relieve it. But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills go right at it; reach the cause; relieve the pain. They cure, too, so Marquette people say. Mrs. C. Carlton, 340 Alger St., Marquette, Mich., says: "For the past year my kidneys have given me trouble and I have had attacks of backache. Hearing good reports of Doan's Kidney Pills, I decided to try them and procured a box at the Stafford Drug Co. In a short time after using them I felt better and am now in good health. I also know of other people who have taken this remedy and the results have always been of the best. You are welcome to use my name as one who recommends Doan's Kidney Pills highly."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Copyright 1910 The House of Kuppenheimer Chicago

AN inch more or less on the end of a coat makes or mars the entire effect of the garment; a vest that is too full—trousers that are lacking in the proper hang; correctness in these little details is essential.

We watch them here. Care in fitting is a matter of prime importance. We guard you against anyone's mistake—yours, ours or the makers'.

And clothes that will fit—that are tailored in correct style—that have the proper human hang and drape—they insure your satisfaction.

We specialize in the well-made, beautifully fitting garments from

The House of Kuppenheimer

—because we know their tailored quality—their pure virgin wool fabrics—of light shades and weights are especially fetching.

You'd better see them now and make your choice.

A LAUGH OR TWO. Sensitive About It.

The late John Q. A. Ward, the famous sculptor, was a famous horseman as well. Often, at the Century club, in New York, Mr. Ward would illustrate an argument with some experience drawn from his horse dealings.

"That," he once said of a very lucky picture sale, "that reminds me of Cumbermere."

Cumbermere, a beautiful mare, was disposed of for a good price to a gentleman, and a few days later the gentleman discovered that she was blind. He managed to sell her himself, however, for rather more than he had paid for her. Then, a day or two later, the new owner turned up.

"Look here," said the new owner, "Cumbermere's stone blind."

"I know it," said the gentleman. "You didn't say anything about it," said the new owner, flushing angrily.

"Well, you see," explained the gentleman, "the dealer who sold her to me didn't tell me about it himself, and so I thought that perhaps he didn't want it known."

theatrical troupes, and toured the country all winter with 'Pure as Snow,' 'The Evil that Men Do,' and such like melodramas.

"Well, old Josh Brady had had luck with his theatrical baseball team in '72. He was obliged, by George, to travel with it on a stock train."

"One bitter January night the stock train pulled up at a little station, and an inspector turned his lantern on it and yelled:

"What ye got aboard?" "Hogs and actors," the conductor answered.

"Old Josh Brady stuck out his head at that and roared from among the hogs: "Say, you, why couldn't you say actors first?"

But He Wasn't. Senator Dewey, in his Washington residence on his seventy-sixth birthday, told a reporter that his health was perfect.

said the census taker. "S-sh! Not so loud!" whispered the elderly gentleman. "Now, what is it? I'm the head of the house."

Wit and Wisdom. "Bjornstjerne Bjornson, in his hotel fronting the Tuileries Gardens, received a few friends up to the last in Paris," said the continental agent of a typewriter firm.

"I had the honor to be among those friends, and I never wearied of the great Norseman's wit and wisdom. "The last thing he said to me, in cautioning me not to give an important provincial agency to an easy-going man of the world, was this:

"Beware the easy-going man. An easy-going man, you know, is one who makes the path of life very rough and difficult for somebody else."

"DOCTORS OF THE MASSES" is what one writer has termed proprietary medicines.

Good honest proprietary medicines like Lydia E. Pinkham's Vegetable Compound succeed, and the homes of the masses are blessed by them, while those which are worthless or harmful soon drop out. Thirty years of success in curing female ills is the record of Lydia E. Pinkham's Vegetable Compound.

Rev. J. M. Rogers left last evening for visit in Buchanan, Mich.

Morton H. Durkee, of Ironwood, is spending a few days with his sister, Mrs. R. C. Lowe.

The quarterly meeting of the A. O. H. will be held in Keough's Hall this evening.

Mrs. J. S. Monroe, of Ironwood, is visiting at the home of M. W. Burt, East Arch street.

Born, Sunday, June 12, to Mr. and Mrs. Neil Murray, of Duluth, formerly of Marquette, a son.

The ladies' auxiliary to the Brotherhood of Locomotive Engineers will meet at Keough's Hall this afternoon.

Vincent Clifford, who was released by the Marquette baseball management recently, has signed up with the Crystal Falls team.

Anassa Daily, of Birch, has purchased a fine farm in Limestone township, near Tremont, Alger county, and will move there in the near future.

Misses Elizabeth and Anna Zerbel, of Portland, Ore., and Seattle, Wash., respectively, returned yesterday to spend the summer with relatives.

Mr. and Mrs. Einar Tellefsen, of Louisville, Ky., are here to spend the summer vacation months with Mrs. Tellefsen's parents, Mr. and Mrs. A. H. Meyer.

As a goodly number of tickets have been sold in advance, a large attendance is expected at the L. O. T. M. M. dance to be held in Fraternity Hall this evening.

The alumni of Baraga school are planning to hold a reception and banquet in Baraga auditorium on the night of June 23. Trombly's orchestra has been engaged to furnish music.

Rev. Ames Maywood has been engaged to deliver his lecture on "Sydney Carton" before the Schoolcraft County Sunday School convention at Manistique Thursday evening.

The second baseball team will give a dance in Fraternity Hall Wednesday evening, June 22. The Peerless orchestra will furnish the music. Tickets will be fifty cents; extra ladies, twenty-five cents.

Edward Betters was sentenced to twenty days in jail by Justice Byrne yesterday for drunkenness. Betters is an old offender in this respect, having been before Judge Flannigan at the March term of court under the habitual drunkard act.

Mr. and Mrs. William North Duane, of New York, are spending a few days in the city, enroute to the Huron Mountain club. Mr. Duane is an old Marquette boy, who is now vice president of the Manhattan Trust company, one of the big J. Pierpont Morgan banks.

Ed. J. McCarthy, who has a position in the auditor general's office at Lansing, was re-elected a member of the board of auditors at the Macabee state convention this week, and had the honor of receiving the largest vote cast for any candidate for an office at the convention.

Opening of New Hall—Bureau's new hall in his new block at the corner of South Third and Rock streets will be formally opened Monday evening, July 4, when the Ladies' auxiliary to the B. of R. T. will give a dancing party. This hall is nearly square and was built especially for dancing and lodge purposes. A large crowd should be in attendance on the night of the Fourth.

Pleasant Surprise Party—The operators of the Michigan State Telephone company, fourteen in number, assembled at the home of Miss Mayme Grant, 222 South Seventh street, last evening and took that young lady by surprise. Miss Grant has been one of their co-workers. She is about to leave for Green Bay, and last night's event was in the nature of a farewell party. A delightful evening was spent.

Hotels Are Filled—The hotels of Marquette are filled to overflowing this week, owing to the large number of strangers here in attendance at the term of United States court, in addition to the regular transient trade. There are the usual number of court attaches, jurors, etc., and besides, an unusually large number of witnesses have been subpoenaed in connection with the Ironwood bank cases.

Law Firm Organized—Rush Culver and son, Harry T. Culver, together with Hubert A. Brennan, of L'Anse, have opened a law office in the Baraga County National bank building at L'Anse. Mr. Culver, Sr., moved to L'Anse from this city a few days ago. His son, Harry, graduated from the University of Virginia Law school a year ago. Mr. Brennan is a graduate of the University of Michigan and was formerly associated with L. N. Legris, of Houghton. As the members of the new firm have a wide acquaintance in Baraga county, they should soon develop an extensive practice.

Noted Lecturer Coming—Marquette council, Knights of Columbus, has been advised that Professor J. C. Monaghan, one of the best known Catholic lecturers in this city, will deliver a lecture in this city Friday evening, June 24. Professor Monaghan will speak in Menominee, June 23; in Escanaba, June 21; in Calumet, June 23; in Marquette, June 24, and in Sault Ste. Marie, June 25. The lecturer was formerly a member of the faculty of Notre Dame, and is now connected with the Catholic University of America. Further particulars regarding the place and subject of the lecture will be announced later.

Gymnasts at the Bijou—Theodore and Camille LaJesse, gymnasts, are the vaudeville attraction at the Bijou and will give their final performance tonight. This pair are high class artists and have played in many of the best theaters in large cities. Concerning them, the Cincinnati Times-Star says: "Could you fold yourself up inside a two-foot box along with two dozen pint bottles? Theodore and Camille LaJesse, contortionists and gymnasts, did that at Robinson's Opera House. The feat, unless seen with one's own eyes, seems almost incredible. This unusual entrance is only an appetizer for what comes after. Their floor work is remarkable, but the contortions

LIFE INSURANCE PAYMENTS.
 Amount Received by Beneficiaries in 1909 in Marquette Was \$85,129.

According to statistics compiled by the Insurance Press, a total of \$85,129 was paid out in 1909 to beneficiaries of life insurance policies in Marquette, and \$9,400,000 in the state of Michigan.

Life insurance organizations of the United States and Canada distributed \$322,500,000 in 1909. The payments in two countries to beneficiaries for death claims, matured endowments, or other benefits under the policies of level-premium companies or the certificates of various life insurance organizations—assessment and the like—amounted to \$366,500,000. The estimated total of the amounts paid by regular companies in dividends to policyholders, for surrendered policies, to annuitants and on claims in foreign countries was \$166,000,000.

The regular life insurance business began its return to normal conditions last year, the reports from all of the states showing increase of payments for death claims and endowments. The reports of the fraternal societies showed also increase of payments for death claims and benefits.

Evidently the change of general conditions of trade and business from unfavorable to favorable, that is, the return of prosperity, had effect in the life insurance field sufficient to permit the carrying of insurance without considerable increase of liens through loans and also to reduce to a normal extent the lapsation of premium payments. With a large amount of insurance taken by new insureds and in comparison with the records for 1907 and 1908, a decrease of ratio of insurance dropped, naturally the companies had to pay more claims last year.

JUNIOR BANQUET.

The dining room of the Hotel Marquette presented a very gay appearance last night, it being the scene of the Junior banquet of the Marquette High school. A canopy of college and school pennants was formed over the tables of the banqueters. The walls were hung with branches of budding trees, giving the room a very spring-like effect, and on the table there were cut flowers. The menu was an elaborate one and contained many toothsome dishes.

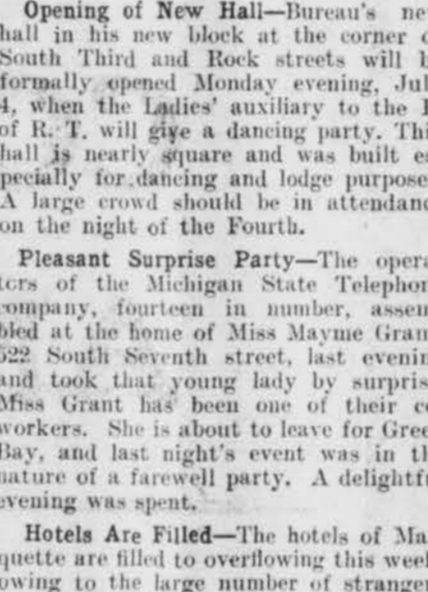

James V. Block acted as toastmaster. Rev. Mr. Maywood was called upon and after a witty response was followed by Miss Ross with a vocal selection, "All for You." Mary Kern responded to "Our High School." A few remarks were made by a member of the board of education. Miss Cooper's subject was "Applied Mathematics." The "Junior Reply" was given by John Murray in a pleasing manner. Mr. McNeil closed the speaking program. The dinner then sang the class song "Good Old High School Time."

The committee on arrangements most to be congratulated on the manner in which the banquet was handled.

There are many kinds of beauty, and many beauties who are unkind.

Over 100 babies are now being fed on Vandenberg's Special Milk and all are thriving splendidly. (6-29-10)

YOUR FONDEST EXPECTATIONS

As regards that summer suit will be realized if it's made to YOUR MEASURE by us.

Summer weather means often going without the coat—you naturally wish then a pair of trousers that hang well, that fit snugly about the waist and that don't necessitate the drawing in of the belt too much—OUR trousers are JUST THIS.

About the coat—it will hang well—fit well and never sag at the collar—it's perfect to the minutest detail.

BURMA A WOMAN'S LAND.

For the woman Burma is a veritable heaven on earth. No country elsewhere furnishes her more freedom, more opportunity. Even Occidental countries cannot vie with Burma in this respect. Mrs. Burma outshines everybody and everything. Moreover, she is ubiquitous. You find her here, there and everywhere. You stop at the jewelry store containing millions of dollars worth of pearls and rubies and precious stones, and the person in charge of the establishment is a woman. The salespeople are also women. You go to a fruit stand and it is a woman who owns and conducts it and sells you a banana or a mango. At railroad stations a Burmese woman sells you the tickets and a fair daughter of the land is ready to take your dictation and do your typewriting if you are looking for an amanuensis. The Burmese woman is not only an efficient business woman but a good mother. Her duties as mother and merchant do not interfere with each other in the slightest degree. Added to

her superior intelligence the Burmese woman has good looks. She has eyes of a deep liquid black or brown bordering on black. The forehead is usually high and well filled out and there is a purity of expression about the face. Her head is oval and shapely, this effect being heightened by the manner in which she dresses her hair in a big knot on top of her head. Her dress is white, with a tight-fitting jacket with large sleeves; the lower part of the body is covered by a single bright silk petticoat, which also is tight fitting and displays the figure like a modern sheath skirt.

WHAT A SUMMER COLD MAY DO.

A summer cold if neglected is just as apt to develop into bronchitis or pneumonia as at any other season. Do not neglect it. Take Foley's Honey and Tar promptly. It loosens the cough, soothes and heals the inflamed air passages, and expels the cold from the system. Sold by all druggists.

EVERGREEN DAY AT THE NORMAL

Members of Graduating Class Participated in Enjoyable Festival on Campus.

The first of the exercises of commencement week at the Normal took place on the campus yesterday afternoon. This was the Evergreen day festival, which proved to be a marked success. The seniors, bearing a double chain of evergreens, formed in line in the lower hall of the John M. Longyear Hall of Pedagogy, and singing "The Olive and the Gold," of the class of 1910, marched to the Peter White Hall of Science. Here Miss Adele D. Hessel gave the first farewell speech to "Science Hall," which the class sang "We Are Jolly Seniors." The procession then wound its way down across the campus and took up a position in front of the dormitory, where Haven C. R. Stewart made a very humorous and fitting talk. This was followed by the song "The Olive and the Gold." The walk was then continued over across the tennis courts where Howard McKeerhan made a few farewell remarks.

After the song, "Where the Tall Pine Trees," the class proceeded to Longyear Hall, to which Miss Eva Watt made the farewell address. After another song the procession took up a position centrally located on the campus, and here Miss Esther Lindquist delivered the Evergreen day oration. She spoke of all evergreens, their strength and beauty, contrasting the clinging ivy and the pine tree which grows so straight and tall. She likened the class to the pine which grows ever upward and withstands the heat of summer and ice and sleet of winter. William Mullaly then presided the planting of the pine tree by a few explanatory remarks as to why the white pine had been chosen to represent the class, after which Miss Bertha Kamrath in fitting words presented the spade to Miss Ruth Miller for the Junior class. Several class songs were then sung. The words and music for the Evergreen day song, which was sung at intervals during the program around the tree, were composed by Miss Eleanor Rankin and Miss Kate Stewart. The words of this song were:

The day is coming on apace
When school-days will be over;
But ever will they have a place
In memory's golden store.
Yes, evergreen will be our love,
Our ardent ne'er will cool,
And evergreen will be the tho'ts
Of our Northern Normal School.
Oh evergreen, oh evergreen,
Our colors dear you hold,
For your great boughs are rich and green,
But still your heart is gold.

This day we plant an evergreen—
A pine tree straight and strong—
A token of the love we bear,
Well may it live and long!
So long as pines are evergreen,
And skies are blue above,
So long we'll strive for Normal's praise,
So long we'll prove our love.

Last evening President Kaye gave a reception to the Seniors and faculty, which was largely attended and greatly enjoyed. Other events of commencement week will be:

Sunday, June 19, 3 p. m., Normal School; Baccalaureate Address—Rev. J. M. Rogers.

Monday, June 20, 8 p. m., Opera House, Seniors present opera, "The Bohemian Girl."

Tuesday, June 21, 10:30 a. m., opera house; Commencement Address—Dr. William Byron Forbush, Detroit.

Alumni dinner, Hotel Marquette at 2 p. m.

NEEDLEWORKERS.

I shall remain in Marquette only three days longer, until Wednesday evening, June 15th. The ladies who have not already supplied themselves with embroidery work for the summer months are invited to call on me before 6 p. m. Wednesday at Hotel Marquette, Room 7. Everything to delight the heart of a needleworker.

MRS. C. A. GOLDSBOROUGH, 6-6-94)

SOO CANAL PASSAGES.

List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, Mich., June 14.—The following boats have passed through the locks, bound for ports on Lake Superior: John Barlum, 8 p. m.; Woodford, James Wallace, 11; Reed, midnight; Sawyer, Tubbery, Redfern, 12:30 a. m.; Algonquin, Peter White, 1:30; Henry Smith 2:30; William Mather, Mammaloa, 3:30; Fulton, Butler, Northwind, Vance, 4:30; Lambert, 7; Crescent City, Jenny, Ranny, 8:30; Matthews, 9; Curtis and Whalback, 10; Athalassa, 1 p. m.; Boston, Miller, 2:30; Ed. Smith, Iron City, Grace Holland, 4.

Marquette Port List.

D. S. S. & A. docks: Cleared—Morley, North Tonawanda. L. S. & I. dock: Arrived—Peter White. Cleared—Centurion, Cleveland.

Serious Shooting Affray.

Edward Winters, a former soldier and a member of the Seventh infantry, U. S. A., is lying at the Sault Ste. Marie general hospital with a bullet wound in his abdomen and another in his arm as a result of a shooting affray at the corner of Spruce and Fort streets. The chances of his recovery are said to be small. Corporal Charles Collins, alias "Mollie" Collins, who did the shooting, is confined in the guard house at Fort Brady, having surrendered himself to the officers of the post about an hour or so after the affair had taken place. It is understood that he will be turned over to the civil authorities when wanted. The trouble which led up to the shooting is said to be the result of a feud of several months' standing between the two men.

Foley's Kidney Remedy may be given to children with admirable results. It does away with bed wetting, and is also recommended for use after measles and scarlet fever. Sold by all druggists.

Weeds don't take root in the worst soil they can find.

Be sure you are right, then go ahead and verify it.

Upper Peninsula

Nine Given Diplomas—
The second annual commencement exercises of the Menominee County Agricultural school have now been carried out. Nine of Menominee county's sons and daughters have been awarded diplomas, having satisfactorily completed the full two years' course.

Theater Will Be Rebuilt—
Contracts for rebuilding the opera house at Bessemer have been awarded. When the remodeled building is completed it will be forty-six feet wide and 100 feet long and will be the best on the Gogebic range. It is expected that the work will be finished the latter part of August.

U. P. Student Honored—
John J. Corcoran of Crystal Falls, a student at the University of Michigan, has been elected as treasurer of the University Osborn club, an organization launched to aid the candidacy of Chase S. Osborn of Sault Ste. Marie for governor. The club has a membership of over 400 students and the honor of being elected as an officer of the organization is a considerable one.

Fires at Manistique—
The residence of Arthur Londo at Manistique has been burned to the ground. The fire was not discovered until it had gained full headway. Mr. and Mrs. Londo were absent from the house, and none of the household goods were saved. The house and contents were insured for the sum of \$1,000. The preceding evening flames were discovered bursting out of the roof of Wm. S. Crowe's garage, and although the fire department made a record run the blaze had gained such headway that the building was destroyed and the touring car badly damaged.

aged. Just how the fire started is unknown, but it is thought that spontaneous combustion of waste in a basket was the cause. The fire did not originate from the machine. The car, which is a new one, is listed at \$1,850 and was insured for \$1,000. There was no insurance on the building.

One More Postoffice—
The locating of a postoffice at Puritan brings the number of postoffices in Gogebic county up to twelve, one of which, Gogebic, is a summer office only. It is expected that another office will be established at Bonifas in the new township of Carlson within a few weeks. A list of the postoffices in the county follows: Bessemer, Dunham, Gogebic, Ironwood, Marquette, Montpelier, Puritan, Ramsay, Thomaston, Verona, Wakefield, Watersmeet.

Commencement This Evening—
The Crystal Falls High school will graduate a class of sixteen students with the commencement exercises this evening. Diplomas will be awarded the following: Andrew Anderson, Helen Klutvig, Rose Bjork, Bertil Larson, Allen Brann, Ethel Lynch, Inez Carlson, Joseph Leonard, Maude Stacy, Sadie Hollow and Jake Oswald. The commencement address will be delivered by Herbert L. Willet, Ph.D., of the University of Chicago. He will discuss "The Youth of the Twentieth Century."

Drowned While Swimming—
H. W. Valentine, aged twenty years and a student of Armour Institute, Chicago, was accidentally drowned Saturday at Pembina dam, five miles from Fairborn. The young man, who was one of a party of forty-five students camping at the falls, went in swimming and was caught in an eddy and was held down by the swift current. Several fellow students were on the bank of the river and a number of them made an unsuccessful attempt to save him. The drowning occurred just above the point called "No Spook" on the Menominee river. The victim is said to be the son of a prominent Chicago capitalist, who is a stockholder in the technical school.

Ironwood's Pioneer Physician—
The death of Dr. Michael F. McCabe, who for two years had been in poor health, deprives Ironwood of its pioneer physician and business man. For twenty-five years he has been an honored citizen, and continuously during that time has practiced his profession and conducted a prosperous drug business. His work as a physician fell far short of bringing him the returns to which he was entitled. He was always kind to the poor and unfortunate, and it may truthfully be said that no one was ever turned away from Dr. McCabe's office because of a feeling that he had no money to pay for the service to be rendered. He will be missed by all classes and conditions of people in the community, but by none more than the poorer people of the city. A wife and five children survive him.

So's Valuation Cut—
Assessor Royce of the Soo has completed the footings of the real and personal tax rolls of the city. There has been a reduction in the real estate valuation of over a half million dollars, the exact amount being \$540,910. The cuts were made largely on vacant and unproductive property, the built-up business and residence portions remaining practically the same as before. Over 7,000 descriptions were changed in valuation this year and nearly as many last year, providing the same amount of taxes is spread this year as last, the rate will be \$22.70 on each \$1,000 valuation, an increase of 22 cents on the thousand. This will be about the amount of the tax although it cannot be determined until after the supervisors meet in October. The real valuation of the city according to the rolls last year was \$5,978,395; this year it amounts to \$5,437,910, which would go to show on the face of it that the city is worth something over a half million less now than in 1909, but which will not be conceded by anyone living in the town.

Adds to Already Big Acreage—
By negotiations that have now been closed one of the biggest timber deals that has been made in this district in several years has been consummated. Greenhoo brothers of Escanaba have sold to the I. Stephenson company approximately 5,000 acres of timber land in Marquette county, all of which is covered with mixed timber. The consideration is private, but it is rumored that the price paid is well up toward the six figure mark. All of the tract of timber lies tributary to the Escanaba river and to the Escanaba & Lake Superior railroad and can be easily logged by the purchasers. Negotiations for the purchase of the tract were opened several weeks ago and the cruisers recently completed work on estimating the amount of timber included on the acreage.

Land Deal Falls Through—
The Soo Times has information from a reliable source that the deal between St. Paul parties and the Upper Peninsula Land company, whereby the former were to take over the large land holdings of the latter for the purpose of promoting colonization, is declared off. The option held by the St. Paul people has been permitted to lapse, and no effort has been made as yet to renew the same. The Times says: This fact will be a great disappointment to our people, as the transfer would mean an immediate campaign for colonizing the 200,000 or more acres that the Upper Peninsula company now holds in this county. The St. Paul people interest themselves in agricultural lands alone, being hundreds of agents throughout the states seeking settlers for their holdings, and had they taken over the Chippewa county lands would no doubt have very rapidly advanced agricultural development in this vicinity. The Upper Peninsula Land company now has another deal under way for disposing of its swamp lands near Seney to Minneapolis capitalists. The White Marble company of Manistique and the Vans Harbor Land & Lumber company are figuring on the holdings along the Soo Line. The latter two concerns are interested in the timber. The Upper Peninsula Land company's holdings comprise about 700,000 acres of the original D. & M. grand. These are largely swamp lands, which when properly drained will develop into rich farming lands.

THE CONSERVATION OF NATURE'S RESOURCES.

Applies as well to our physical state as to material things. C. J. Budlong, Washington, R. I., realized his condition, and took warning before it was too late. He says: "I suffered severely from kidney trouble, the disease being hereditary in our family. I have taken four bottles of Foley's Kidney Remedy, and now consider myself thoroughly cured. This should be a warning to all not to neglect taking Foley's Kidney Remedy until it is too late." Sold by all druggists.

WILLIAM A. BRADY COMING TO PENINSULA

One of the Country's Leading Theatrical Producers Will Accompany Grace George.

William A. Brady, one of the best known theatrical men in the country, will accompany the Grace George company to the upper peninsula next week. The company is to play four cities, Ishpeming on Tuesday, Hancock and Calumet Wednesday and Thursday and Marquette Friday night.

It will be Mr. Brady's first visit to the upper peninsula, and his object in coming here at this time is to look over the country before looking any considerable number of his attractions in the theaters of this region. Mr. Brady is now America's leading producer and he will put out over forty attractions when he opens the season the latter part of August. Within the past few days Mr. Brady has closed contracts for the coming year with seven well-known stars, in addition to the large number who had previously signed with him. They are James K. Hackett, last season with the Frohman's; Arnold Daly, formerly with Cohen & Harris; Henry C. Dixey, last year with Henry W. Savage; Amelia Bingham, who is just closing a successful year in England; Lenora Harris, last season with Cohen & Harris; Virginia Harned and Andrew Mack; the latter having been under William Harris' management last year.

In addition to these stars Mr. Brady will manage Wilton Lackaye, Robert Mantel, Louis Mann, Nat C. Goodwin, Wright M. Lorrimer, Douglas Fairbanks, Thomas A. Wise, Burr McIntosh, Cyril Scott, John Mason, Florence Roberts, Thurtell Bergon, Fritz Schelf, Sam Bernard, Jefferson De Angeles and others. Messrs. Wise and McIntosh will again be starred in "A Gentleman from Mississippi."

One of the biggest deals that Mr. Brady has pulled off in the course of his theatrical career was closed a few days ago when he bought the American rights to "The Balkan Princess." Henry W. Savage, who is still clinging to the syndicate, was on his way to London to look over the production with a view to buying it, but Mr. Brady closed the deal by cablegram. Mr. Savage finding much to his disappointment, when he arrived that the production had already been sold.

Edward R. Doyle, business manager of the Grace George company, was in Ishpeming yesterday, completing arrangements for the star's appearance here. He said that Mr. Brady is one of the strongest supporters of the "open door" movement and that he had much to do with inducing other producers and theater managers to break away from the trust. He said that if the Grace George company has a satisfactory business in this region Mr. Brady will doubtless send a large number of his other attractions this way next season.

One of Mr. Brady's biggest financial winners during the season just closed was "Mother," which has been running for several months past in Chicago. This play resembles "Way Down East," which Mr. Brady has owned and managed for several years, but it is said to be even stronger than that old favorite. He is also meeting with great success in his revival of "The Mikado" in New York, with an all-star cast.

Miss George is playing this season in one of her most successful comedies, "A Woman's Way." The piece is the work of a newspaper man, Thompson Buchanan, and it is said to be a remarkably skillful bit of dramatic construction, which gives promise of a fine future for the writer. Miss George is just returning from the coast and Southwest where she did an enormous business. She will close her season next week.

CURT MAKES STATEMENT.

President of National Theater Owners' Association Raps Klaw & Erlanger.

The manager of the Ishpeming theater has received the following letter from John Curt, president of the National Theater Owners' association, which was recently organized by men who are affiliates with the independent theatrical movement:

"So many misleading statements have been sent out from the offices of Messrs. Klaw & Erlanger, which are quite liable to disconcert dramatic editors, theater owners, players, producers and playgoers, that I am frequently called upon by representatives of the various publications for explanation of the objects for which the National Theater Owners' association is making its successful fight, and the reasons for Klaw & Erlanger opposing this organization.

"The objects of this association are: Mutual benefit for those engaged in operating theaters, proper adjustment of equitable practices, the general advancement of the business interests of its members, to encourage the production of clean, wholesome plays, to keep members advised of matters affecting their interests and to take action thereon, to promote harmony in business and secure the mutual advantages of organization.

"For years the press and the theater-going public throughout the country have been demanding better attractions. Theater owners have been overwhelmed with questions as to why they could not have certain stars and plays that had become favorites in the theatrical centers. For the managers of such theaters to give answers that the theatrical trust prohibited them providing such attractions for their patrons was almost suicidal. It meant disbarment. Concerted action in an independent movement was the only solution to the question. During all this time owners of theaters have been laboring under the yoke of oppression. For days, and even weeks, at a time, their houses have been kept dark simply because Klaw & Erlanger, acting as their buying agents, refused to book the attractions of certain producers who demonstrated their right to freedom and independence. It was simply a case of 'The dog in the manger' and the theater owner and the producer paid the tax.

"It was this condition of affairs that finally brought about the organization of the National Theater Owners' association, controlling a matter of some 1,900 theaters, the doors of which have been thrown open to all meritorious attractions, whether the product of Klaw & Erlanger, the Shuberts, Henry W. Savage, Lieber & Co., Charles Frohman, William A. Brady, Wagenhals & Kemper, Lew Fields, Henry B. Harris, Daniel V. Arthur or others, indiscriminately. No producer who has any number of wholesome plays can but assert our right to conduct our business to the mutual benefit of our patrons and ourselves.

"Ours is not a fight either for or against any one firm or individual, but against a policy which, through certain personal animosity, has denied theater owners and producing managers fair returns for their investments, players a reasonable number of weeks each season, the press advantages which it naturally would attain, and theatergoers the best the country affords."

This is the season when you will appreciate a gas stove. With your kitchen sizzling hot, how can you get along without one? The Marquette County, Gas & Electric company will put one in for you on short notice. (6-14-10)

SUMMER MEETINGS.

At the annual business meeting of the Ishpeming Ski club Friday evening officers were elected for the ensuing year as follows: Thomas Locken, president; Arthur Aas, first captain; Julius Braastad, second captain; O. G. Aas, treasurer, and G. J. McNeely, secretary. It was decided to hold one meeting a month during the summer season.

HALLELUJAH WEDDING TONIGHT.

The officers and members of the Ishpeming corps of the Salvation Army will celebrate a hallelujah wedding this evening at 7:45 o'clock. An elaborate hall, constructed of flowers and illuminated with electric lights, will hang over the couple when the marriage vows are pronounced. The names of the parties who are to be joined in

Major Percy Morton, who will officiate at the Hallelujah wedding tonight.

wedlock have not yet been made known. Major P. Morton, the divisional officer, will officiate at the marriage and two or three other visiting officers will take part in the meeting. Mrs. R. Trembath will play the wedding march. At the conclusion of the musical program, which will follow the marriage, the ladies will serve refreshments.

The cheapest and best fuel for your kitchen is gas. Order a gas stove from the Marquette County, Gas & Electric company. (6-14-10)

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effective, but it is in no way disagreeable to use. Sold by The People's Drug Store.

PIT IN CENTER OF TOWN.

Opening Caused by Mining Operations at Iron Mountain.

It is reported from Iron Mountain that the pit in the heart of the city, caused by the mining operations beneath the surface of the Oliver Iron Mining company's Chapin mine, is gradually growing larger. The pit is now nearly a half mile long, from 800 to 900 feet wide and from 100 to 120 feet deep. The Chapin mine was one of the first in the Lake Superior district where the caving system was introduced, and mining operations are at present being conducted at a depth of from 1,200 to 1,400 feet from surface in the principal workings.

Across this big depression it is necessary to maintain a public highway, a foot path, the tracks of both the Chicago & Northwestern and Chicago, Milwaukee & St. Paul railways, a twelve-inch water pipe line and a twenty-eight-inch sewer main. The latter pipe carries away the water pumped from the mine in addition to the sewage of the city.

When the caving system was first introduced at the Chapin mine the sinking of the Chicago & Northwestern roadbed averaged five-eighths of an inch a day or nineteen feet a year, but for a number of years past it has been less than a quarter of an inch a day. The Chicago, Milwaukee & St. Paul extended its line to the city after the pit had started to form and it has been filling and raising its roadbed since 1898. A gravel train is kept busy practically all the time. The crossing is at a point where mining is carried on with particular activity and the settling of the St. Paul tracks is from twenty to twenty-five feet a year. The fill at the principal point is 128 feet deep with a sloping distance on the sides of 225 feet.

This is the time you need a gas stove. Order one from the Marquette County, Gas & Electric company. It can be installed at once. (6-14-10)

"It cured me," or "It saved the life of my child!" are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by The People's Drug Store.

Ishpeming

ISHPEMING IN BRIEF.

Mr. and Mrs. Adelar St. Andre, 223 North Third street, are the parents of a son.

T. J. Dundon will leave this morning for Milwaukee, to be absent three or four days on business.

Albert Quall is here from Munising to see his father, who has been critically ill for the past few days.

Misa Ida Olson is home from Augusta hospital, Chicago, where she is taking a course with a view of becoming a trained nurse.

The Oliver Iron Mining company will begin squaring its pay rolls tomorrow, and the men at the Lake Angelina mine will be paid on Saturday.

D. A. Kahn, who spent the past week or more here visiting his brother, M. A. Kahn, and family, left yesterday morning for his home at Woodruff, Wis.

The Owl club will conduct a hop Friday evening at Braastad's Hall. From day's orchestra will furnish the music and tickets will be fifty cents per couple.

Dr. I. Lindgren has moved into his new office at his home on Division street. He has neat quarters, including a private office, waiting room and operating room.

Lars Hoyseth has completed his new warehouse at the rear of his store on North Sixth street. With the addition to his store building recently finished, Mr. Hoyseth now has nearly four times as much space as formerly.

Thermometers in Ishpeming registered from 85 to 88 degrees above zero yesterday afternoon. The summer weather of the past few days is being enjoyed by Ishpeming people. Many are visiting Cleveland Park and other groves about the city.

The members of the council met at a board of review yesterday, but they did not get over more than one-quarter of the roll. They will hardly finish their work until tomorrow afternoon and perhaps not until Friday.

The public sessions will be held next week.

The Scandinavian and Swedish Home societies of this city will celebrate Midsummer day with the members of the Neegaunee Scandinavian society at Cleveland park. Both of the Ishpeming societies will take part in the parade in Neegaunee on the morning of the 24th, which will be observed as a holiday by the working men of the two cities.

Marshal Trevorrow has received a number of complaints of fast automobile driving, especially on Main and Division streets and Strawberry hill. He said yesterday that a number of children had run over by fast drivers, and gives warning that he will hereafter arrest persons whom he finds scorching in either the business or principal residence districts.

William Trebilcock will this week finish his concrete contract at Michigan where he has had a crew working for about a month past putting in walks, curbs and gutters for the township. Concrete walks have been laid in practically all of the principal streets including the main street, also the street leading to the South shore depot. About 5,000 lineal feet of walks, 4,000

feet of curbing and 4,000 feet of gutters have been put in. Mr. Trebilcock is also just finishing a concrete walk around the National school building where about 2,300 square feet of concrete has been laid.

William Trebilcock is preparing to lay concrete curbs on both sides of Division street from Lake street to the Chicago & Northwestern railway crossing. After the concrete work is finished the city will give the surface of the street a new dressing. The macadam will be laid to beyond the railroad crossing. The street is in bad condition for a distance of several hundred feet west of the railroad.

First-class piano tuning done by M. J. Olson. County phone, No. 520. 400 East Ridge street. (1-13-1f)

CURB STOCK QUOTATIONS.

Table with columns for stock names and prices. Includes items like A. Mnt., A. Sag., A. & M., Beg., B. S. Pt., B. N., B. Mnt., B. Ely., B. S. G., Bob., B. & L., B. S. P., C. S. P., C. Mnt., C. S. S., C. M., C. Chief., C. C. Cen., C. Cortez., C. Cop., C. Col., C. Cort Fl., C. D. Daly., E. Cen., E. M., G. M.

George F. Ruer's Review.

The New York list was steady all day and the close showed increased activity on the announcement by Kuhn, Loeb & Co. of the placing of a \$25,000,000 bond issue. One of the largest independent copper selling agencies is urging the purchase of copper by the domestic consumers on the strength of a decided improvement in demand from Europe. They point out that while the world's supply of copper on June 1st showed an increase of 11,000,000 pounds, the grain on the same date last year amounted to 50,000,000 pounds. These figures, they argue, show the unfavorable situation to have been discounted. The Boston coppers were very dull and price changes were few. Lake and North Butte were the only stocks to show any life whatever and transactions in them did not amount to much. The curbs were more active than the listed issues. Goldfield Consolidated and Tonopah were very strong, both advancing on the same day. Dividends being paid by such stocks as Nipissing, Goldfield and Tonopah are receiving considerable attention and are leading to good buying of these issues. Live Oak was in good demand around 20. A message from Chicago this morning stated that drill hole No. 5 went into chalcocite at 320 feet and is still in it at 385 feet. Live Oak has now put down six holes, all of which have landed in ore. Hole No. 3 showed 157 feet, No. 2 70 feet, No. 4 105 feet. No. 5 has ore from 320 feet to 385 feet and No. 6 from 255 to 345 and both still in the mill. The whole showing in the shaft, drifts, crosscuts and raises, gives them a probable tonnage running up to the millions. Daily-Daily was weak on the announcement of a \$1 assessment. Chief and Cactus were off fractionally on some scattered selling.

Morgan & Co.'s Letter.

The New York market was strong at the opening, prices were higher in London and a rise in this market was generally predicted. Unfavorable news regarding the action of congress on the rate bill had a depressing effect early in the session and the market became dull and weaker in tone. The undertone is quite strong and the feeling prevalent that a substantial rise is about to occur. The Boston market was strong toward the close. New York advises buying, especially Union Pacific and Car Foundry. The Boston market was almost lifeless, with gains of very small fractions in the few instances where trading of any consequence occurred. There is little news on copper matters. All Butte mines are to be closed for two days on account of congestion of ore at both the Washoe and Great Falls smelters. Boston says the street expectation is that North Butte dividend will be decreased or passed at the coming meeting. The lower grade of ore mined during May is much discussed as an adverse factor. The curb market continues quiet, with little change in prices. There was some selling of Davis Daily on announcement that an assessment of \$1 per share would be called, payable in fifty-cent installments July 15, and Sept. 20th. Ohio Copper and Oneco were fractionally higher, there is little probability of any further decline in the better known curb issues.

A WOMAN'S GREAT IDEA

Is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a Godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c. at The Stafford Drug Co.

Some men never succeed because they only expect opportunity to knock at the door during business hours.

FREIGHT RATE ADVANCES.

Following is a reply by T. A. Griffin, of the Griffin Wheel company to an article on the freight rate advances, printed in the Chicago Daily News:

I desire to call attention to an editorial printed in the Daily News, May 21, headed "Back Fire on the Shippers," in which you make the following statements: First, that my presentation of the case is not candid; second, that what I did have to say was based upon the action of the shippers' conference, and third, that I had no right to pose as a business man fighting interests in common with the shipper.

The circulation for signatures of a statement relating to freight rates was, as far as I was concerned, confined to fellow members of the Railway Business association, and no reference was made to the shippers' conference. I personally attended this conference and have no criticism to make on anything that was done there and none was made or intended by me, but what I "depreacted" was contained in an article sent out by the Illinois Manufacturers' association, dated May 7, and, as a member of that association, I personally wrote a letter to each of its individual members, dated May 17. In this I referred to the misleading and unfair statements contained in the circular of May 7 mentioned above, and in doing so I was "candid," said that the statement "that railroads are rapidly increasing their net earnings" was not true and as to the correctness of my statement I beg to refer to the following:

The latest interstate-commerce commission reports show that during the month of March eleven systems, representing every railroad, north and west on a line drawn through Chicago and St. Louis, showed an increase in gross earnings for the month of March, of nearly \$7,000,000 compared with March, 1909, while the net earnings for the same roads in the same period shows a decrease of \$965,000; and the interstate-commerce commission figures for the ten months, July to March 31, in 1910, as compared with 1909, show an increase in gross of over \$50,000,000, while the net earnings of these same systems in the same period of comparison, show a falling off of over \$2,500,000. And, as comparatively little of the increase in wages had even gone into effect during March, the railroads much provide some means to increase a revenue that is already decreasing on an increased amount of business, and there is no way to increase to provide the same by increasing their rates, and surely there is "reason for the need of it."

In the third paragraph on the second page of this Illinois Manufacturers' association circular of May 7, it is stated that 7.99 per cent was earned on the dividend-paying stock, making no allowance for the 34 per cent of stock on which no dividends were paid. I might, with equal propriety, make the statement that there was no dividend paid on the non-dividend-paying stock. For a clearer definition, the average earnings should be based upon the entire stock, and not upon the best paying portion of it, unless there is some reason why the \$2,500,000,000 representing the 34 per cent should not have received any dividends at all.

In the final paragraph of the editorial it is stated that I should not be allowed to pose as a business man, "having no interest in common with the shippers." Inasmuch as my concern shipped an average of 350,000 tons of finished product during 1906 and 1907, and we were obliged to receive more than 350,000 tons of iron to furnish this, plus enormous quantities of coke, coal and other supplies, I can safely claim to have shipped in and out 750,000 tons a year, and as there are no railroads who can afford to haul this material, or any part of it, without having a revenue from it, an increase of ten cents a ton on my hauling charge would amount to \$75,000 and, therefore, I have "business interests in common with other shippers." The 350,000 tons of finished product shipped represented in the neighborhood of \$10,000,000. This \$10,000,000 represented mostly labor, with the exception of the cost of the ore and coal in the mines. All the balance was made up of wages and profit on the different conditions of the raw material until it was finished product.

My Illinois plants produce 60 per cent of this amount, or \$6,000,000 dollars a year. For three years our Chicago plants have not run more than half capacity. Therefore, there was \$3,000,000 a year less in distribution because of a corresponding shrinkage in sales. As most of our iron and coal comes from Illinois, this \$3,000,000 a year was not distributed in Chicago, as would have been the case had we worked on the same output that we did in 1906 and 1907. And a great deal of that \$3,000,000 which was not paid was taken out of the business of firms situated in or near Chicago by the non-purchasers from their varied business on the part of the community that would have received the \$3,000,000 a year for three years. That is the reason why I have a right, as a business man, to deprecate any unfair or unequalled obstacles that are placed in the way of my business and the hundred other

varieties of business in this country that are affected by the money put into circulation by the railroads. When it is further considered that my business constitutes but 10 per cent of the cost of a car and that there were nine other units similarly affected, most of which would have been tributary to Chicago, anyone can see how important it is to his individual interests that the railroad companies should have ample funds to make these improvements and purchases, and will realize how comparatively easy it will be during a reasonable advance on the freight for any material he will need, if he is receiving increased orders.

LOWER STATE NOTES.

FLINT—Mordid because of the failure of his wife to write to him, George Alyssie, an Italian, jumped into the Flint river. The water waded between the him to drown and he was pulled out by persons who saw him make the leap. Alyssie lived in Port Huron up to two weeks ago. His wife and three children went to Wilkesbarre, and it is said that she became melancholy because she did not write him.

MARSHALL—Rev. Frederick Hewitt, for three years pastor of Trinity Episcopal church, has resigned his pastorate here, and August 1 will become chaplain of the New York city prison on Blackwell's island and Riverside hospital. His time will be equally divided between the two municipal institutions. The appointment comes through an application made by Rev. Hewitt to Rev. Kimbel, superintendent of the New York city Protestant Episcopal mission, of which Bishop Greer is president, and who is a personal friend of Rev. Hewitt.

BATTLE CREEK—Thought identified by Mrs. Jesse Burch as the man who shot her Friday at midnight, John Anthony, colored circus follower, still stoutly denies knowledge of the crime. The wounded woman had promised to keep silent during the moments Anthony was in the room, but the instant the negro entered she quickly declared, "That's the man who shot me." When Anthony can no longer be held as a suspect, some charge will be made against him in order that he may be held. He admitted to the police today that he had bought whiskey here and delivered it to others, thereby violating the local option law.

VASSAR—Aversion of a vicious mare to the sight of women was responsible for a serious injury to Henry Dowker, an Akron township farmer. The animal has always resented the presence of women and Dowker has found it necessary to watch her closely on such occasions, but he was caught off guard while he was treating a sick colt. The mare

became enraged when two women entered the barn and suddenly attacked Dowker, catching his face between her jaws. By a quick upward throw of his head Dowker broke away but the mare's teeth caught his lower lip, biting off a piece the size of the thumb nail. The injured man ran to a surgeon and had the parts of the torn lip sewed together but will probably be scarred for life.

SAGINAW—The first intimation of the results obtained by the trip to the best sugar factories of Germany by W. H. Wallace, general manager of the Michigan Sugar company, and State Sanitary Engineer Ainge, of Lansing, comes from Caro, where the Michigan company has one of its plants. One hundred and ten acres have been purchased directly across from the factory and will be used as a settling basin for the waste products of the factory. The material in the past has been turned into the rivers and numerous suits have been started

against the company by fishermen and others, who contend that the waters of the streams were contaminated to such an extent that thousands of fish were killed. It was to find a remedy against the evil that the trip to Germany was made. In the other factories of the company basins similar to that at Caro will be provided.

BAY CITY—David Golden, a traveling salesman of this city, is in Detroit searching for pretty seventeen-year-old Eva Golden, daughter of Mr. and Mrs. Harry Golden of this city, whom David is anxious to make his bride and who the girl's parents say must eventually marry David. While the would-be groom's name is the same as that of his wished-to-be bride they are only very distantly related. For the past several months David has been wooing the pretty Eva and the parents of the girl aided him by excluding all other suitors and admirers from the house. They declare it

is their wish that Eva marry David and while no definite date was set, the wedding was to take place within sixty days. But Eva wanted to change her name when she married, and besides she didn't care about David as a husband. After many stormy scenes the girl secretly packed her clothing and stoh away from home after nightfall. No trace of the girl has been found, but David Golden went to Detroit hoping to get some clue, as the girl has friends in that city. The Golden are well-to-do and have many friends. Eva's performance has shocked all the elder relatives and friends beyond expression, but the younger set is secretly delighting in the situation.

(Additional Negaunee on Page Eight.)

THEY WILL TRAVEL THERE BY SPECIAL

Many Marquette County People to Visit Escanaba a Week from Saturday, the 25th.

The members of the French societies of Marquette county are taking great interest in the annual reunion, to be held a week from next Saturday, the 25th, at Escanaba. The committee in charge of the celebration has advised the organizations in this county that extensive preparations have been made for their entertainment.

The Marquette county lodges have chartered a special train to be run on the Chicago & Northwestern railway. It will leave Ishpeming at 6 o'clock a. m. and Negaunee at 6:30. The Marquette members will come up on the regular South Shore train, joining the Negaunee, Ishpeming and Republic members here. The round trip fare from Ishpeming will be \$1.35 and from Negaunee \$1.85. A special train will leave Escanaba about 9 o'clock Saturday evening, but the tickets will be good until Monday, should any of the excursionists desire to remain in Escanaba over Sunday.

The parade is to be held immediately upon the arrival of the Northwestern train from this county, and it will be a feature of the festivities. The societies that have notified the committee of their intention to attend are Marquette, Ishpeming, Negaunee, Republic, Iron Mountain, Norway, Menominee and Caden Bay. Most of the visiting lodges will be accompanied by a band, including those at Negaunee and Ishpeming. A feature of the parade will be a number of floats, representing states in the Union.

Besides the picnic in the afternoon there is to be a baseball game between the Escanaba and Rapid River teams. The game will be preceded by a baseball parade through the principal streets. In the evening there will be a ball and there is also to be an excursion on the lake. Mayor Solomon Greenbush will welcome the visitors at the picnic in the afternoon.

Henry Boucher of Ishpeming, president general of the Union of French-Canadian societies of the upper peninsula, will be the speaker of the day. A number of other prominent members will also give addresses. The members of the Escanaba society will attend high mass in a body at 7:30 o'clock, before going to the depot to meet the visitors.

Meals prepared quickly and cheaply with a gas stove, Marquette County, Gas & Electric company can supply it on short notice. (6-14-10)

Young men who stay out all night will soon be all in.

A LARGE DEPOSIT.

Explorations for Cuyuna Ore Give Way to Interest in Graphite.

Further explorations on the graphite formation discovered last week by Contractor Foley, on the Cuyuna range, have given rise to the belief that the greatest graphite body in the United States has been encountered. Interest in explorations for ore is said to have given way to interest in the new mineral, and further developments are anxiously being awaited by those interested in lands in that vicinity.

It is reported that Contractor Foley has bored four holes, 200 feet apart and forming a square, and after penetrating 138 feet of overburden the drills bored through forty feet of solid graphite formation. Some time ago, five or six miles from the present discovery, graphite was encountered at a depth of only eight feet from the surface, so that the indications are that a graphite formation extends for a great distance on an inclined plane. A number of Duluth people own lands in the vicinity of where the graphite has been discovered, and it is said that they are preparing to carry the investigations farther, so as to determine the exact value of the discovery. Among those who are interested is Thomas Feigh, a former Ishpeming man, and his partner, Patrick Hammell, whose lands directly adjoin the forty on which the discovery was made.

There seems little doubt as to the extent of the mineral body, but the real value of the discovery cannot be determined for some time, as it has not yet been determined that the graphite is of commercial value. The question of whether the graphite is of crystalline or amorphous character has an important bearing on the value of the mineral. After the question as to whether it is marketable has been determined, samples of the graphite are to be forwarded to the manufacturers who use the mineral and they will test it with a view to ascertaining what it is worth commercially. Most of the graphite deposits in the United States are found in formations of limestone or other igneous rock. All graphite formations have a certain amount of this mineral in them. There are only a few great deposits of graphite known in the United States at present, but should the Cuyuna deposit be found to be of commercial value it will prove a bonanza for the parties on whose lands it has been found.

Have you a gas stove, the kitchen's greatest necessity, and the cook's most faithful friend? Order one from the Marquette County, Gas & Electric company. (6-14-10)

Miss Mary Saladine, daughter of Louis Saladine of this city, and Joseph Steingline of Marquette, were united in marriage yesterday morning at St. Paul's church. Rev. Father Lamott performing the ceremony. The bride was attended by Miss Mary Steingline, sister of the groom, and Arnold Saladine, brother of the bride, was best man. Mr. and Mrs. Steingline will reside at Marquette.

The man with a short head is able to tie it on short notice.

BAD FIRE.

The home of Miss Lizzie Fick on Peck street was badly damaged by fire at midnight Monday. Miss Fick occupies rooms on the second floor and Mrs. Teehan lives in the first floor rooms. It is not known what started the fire, but it is thought that it had been smoldering for some hours before it broke out, as it had gained considerable headway before it was discovered. The firemen did good work, as it was thought for a time that the dwelling and its entire contents would be destroyed. Only the roof was burned and most of the damage to the furniture, etc., was caused by water.

Housekeepers, how do you manage to get along without Gas stoves? Put one in and save labor and expense. The Marquette County, Gas & Electric company. (6-14-10)

The solicitation of proxies for a change in the management of the Lake Copper company, came as a surprise and so successfully and so quietly have those in charge of the gathering in of opposition proxies proceeded that proxies for more than a majority of the 86,600 shares are already in hand. The solicitation of proxies was for the purpose of providing a more "aggressive" management. It is felt that under President Faine, with the railroad and stamping facilities of the nearby Copper Range properties, Lake copper is assured of quicker and more efficient results than is now possible. By reason of the large number of proxies which the Fitzgerald-Stone-Paine people have already in hand, it is quite possible that no formal solicitation will be made for additional proxies. It is not impossible that J. H. Rice, of Houghton, who has been prominently identified with the financial affairs of the company since its inception, may be prevailed upon to continue as a director. Fitzgerald, Hubbard & Co. have now proxies for 50,000 shares and there is no evidence of any contest. It is understood the present management will show its hand at the annual meeting, as it may choose certain of its present directors to remain on the board, as cumulative voting can be invoked under the laws of Michigan.

ON INLAND SEAS YOUR VACATION TRIP

ALL the important ports on the Great Lakes reached regularly by the excellent service of the D. & C. Lake Lines. The ten large steamers of the fleet are of modern construction, propelled by powerful engines, and have all the qualities of speed, safety and comfort. BEDDOW'S TRIAL BEGINS TODAY

Ex-Assistant Cashier of First National Bank of Ironwood Accused of Having Embezzled and Misapplied Funds of That Defunct Institution.

Attorney Riley, for the Defense, Alleges Unfair Treatment on Part of Government Officials, and Asks for Box Said to Contain Defendant's Private Papers

The summer term of United States court was opened yesterday in the federal building and the general impression is that the business of the term will not be completed for three or four weeks, at the least. The court was opened with little formality and the grand jury impaneled. After being instructed by Judge Denison as to their duties, and taking the oath, the grand jurors retired to secret deliberation, and they are still so engaged. A report may be made some time today, but it would not be surprising if their work is not completed until tomorrow.

Following are the names of those impaneled on the grand jury: John Turin, Sault Ste. Marie; F. F. Wagner, Hancock; Arthur Schofield, Newberry; Thomas Pascoe, Negaunee; Henry L. Smith, Hubbell; Joseph Smith, St. Ignace; George W. Rule, Marquette; Clarence Kelso, Manistique; F. H. Vandenberg, Marquette; Thomas M. Wells, Negaunee; Chas. Spies, Menominee; Harry McLean, Ontonagon; John Dunham, Dargot; Thomas Morrison, Pickford; Sherman Richards, Seney; Peter A. Cameron, Sault Ste. Marie; John B. Curtis, Calumet; W. W. Gray, Bessemer; W. B. Winters, Stephenson; James Long, River; John Sundahl, Ishpeming; Thomas J. Parks, Lake Linden; John A. Broden, Norway.

Many Cases for Trial.

The forenoon session of court was given up to going over the docket and ascertaining which cases were ready for trial this term. The criminal docket is not especially long, unless it is materially added to by the report of the grand jury, but there are at least fifteen civil cases which are set for trial, most of which are brought by P. Tillinghast, receiver of the Ironwood First National bank, against signers of "accommodation notes" of various kinds. There are also a large number of Chinese cases, in which the defendants are fighting deportation, which will be heard.

The first case for trial is that of the United States against Geo. H. Beddow, formerly assistant cashier of the First National bank of Ironwood, and charged with embezzlement and misapplication of its funds. Most of the afternoon was occupied in drawing a jury for this case and court was adjourned last night before the panel had been sworn. The little objection to any of the jurors drawn, but all were put through a care-

ful examination by M. M. Riley, chief counsel for Mr. Beddow. When adjournment was taken last night, the defense had used three peremptory challenges, and had asked for a fourth, which was objected to by Mr. Clute. Whether more than three peremptory challenges will be allowed will be decided by the court this morning.

Mr. Riley asked of each jurymen his relations with banks, whether he was an officer of a bank and whether he had any prejudice against cashiers or assistant cashiers of banks who were accused of crime. All officers or directors of banks in the panel were peremptorily challenged by the defense.

Refused Use of Books.

Just before noon, Attorney Riley asked that he be allowed to present some matters to the court before forced to proceed with the Beddow trial. He stated that he thought he had been badly treated by Assistant District Attorney Clute, in that he and his associates had been refused access to the books of the bank, except under objectionable limitations. Mr. Riley declared that Judge Knappen had ordered the government officers to permit the defense to examine the bank books, but that last Friday the privilege had been denied by the assistant district attorney. Mr. Clute replied that he was using the books at that time and considered that the defendant attorneys had had ample time to go over the books before that time.

Mr. Riley further claimed that Receiver Tillinghast had in his possession a private box found in the vaults of the bank, which contained private papers and personal effects of Beddow and which was not the property of the bank at all, yet the receiver refused to turn it over to its lawful owner. Beddow has had and still has the key to this box and its contents are presumed to be unknown to the government officers, who believe that assets of the bank are concealed therein and that it is not exempt from the right of search any more than his house would be. The government officers are willing to let Beddow open this box in their presence, in order that he may make a list of its contents and get any other memoranda that he desires. The defense refuses to open the box under these terms, claiming that the contents of the box are entirely Beddow's personal property and that as such it is none of the government's business what the box contains. In support of this Mr. Riley holds that Bank Examiner Logan at one time saw the box open and took therefrom such papers as pertained to the bank case. Mr. Riley further pleads that this box contains personal memoranda which are material in Beddow's defense.

Judge Denison ruled that the case could not be delayed longer because of the defendant and his attorneys not having examined the bank books as fully as they wished. He has not yet ruled on the question of the right of Receiver Tillinghast to keep the box in his possession, but will do so this morning. He intimated yesterday, however, that as the contents of the box apparently had no connection with the trial of Beddow, both sides being in ignorance of what it contained, he was inclined to think that the box should remain where it now is.

"OLIVE AND GOLD" COMES FROM PRESS

First Annual Ever Issued at the Normal School Is Very Creditable Work.

"Olive and Gold," the first Normal school annual, compiled by the class of 1910, is about to be issued. The book is a pretentious volume and gives evidence much thought and hard work on the part of the editors and her efficient corps of assistants. The members of the annual board are:

Editor-in-Chief—Eleanor Rankin.
Associate Editor—H. C. R. Stewart.
Business Manager—Grace Doetsch.
First Assistant—Howard McKereghan.
Second Assistant—William Mullaly.
Literary Board—Ruth Brotherton, Emma Saunders, Bertha Kamrath.
Music—Eileen Scully, Christina Creer, Klara Kjesboe.
Athletic Board—Adele Hessel, Johanna Kennedy, William Mullaly.
Art—Marguerite Barnes, Sigrid Soderquist, Hazel Ferguson.
Dramatic—Eva Watt, Genevieve McDonald.

The book is gotten up in handsome form, being printed on heavy white supercalendered paper, on which the many half tones and etchings show up to advantage. The cover is of heavy olive green cover paper, lettered in gold. Perhaps the most attractive feature of the work is the art and illustrations, which consist of pen and ink drawings excellently done, aptly setting off different phases of school life, and of a large number of half tone photographs. These photographs present views of the Normal school buildings and campus, the annual board, the faculty, the Senior class, and the various athletic teams of the past year. The reading matter is sufficiently varied to make the annual interesting to the more sober-minded as well as those to the frivolous inclined. Altogether, it affords a quite complete history of all the events of the school year, while the history of the Senior and Junior classes is traced from the time they entered the institution. Individual characteristics of many of the pupils are made the subject of humorous comment, but none of these sallies are of a nature that should cause offense. A number of the literary contributions are couched in verse, while others are in the nature of short stories. A number of readable advertisements appear in the last few pages.

The Senior class is to be heartily congratulated on the many fine features of the first annual issued by the Normal school, having compiled a book which surpasses anything of the kind ever issued in Marquette, and which compares very favorably with similar works issued by many of the larger universities.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's Stomach and Liver Tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by The People's Drug Store.
