

"For age and want save while you may, No morning sun lasts a whole day."

POOR RICHARD.

BEN FRANKLIN SAID MANY WISE THINGS

—nearly all of which were on the subject of saving and thrift. He especially urged the young to save, and his sayings should be carefully read and their teachings followed.

It is easier to deny yourself luxuries in youth than to be without them in old age.

Begin to save today—get a start—add a little each month and, when reverses come, you will not lack for funds to tide you over. One dollar opens an account—3 per cent interest paid.

"My Cinderella Girl."

There have been bigger and better musical comedies played at the Marquette opera house than was "The Cinderella Girl," presented last evening, but on the whole the show was fairly satisfactory.

Mrs. C. S. Spooner, wife of Prof. Spooner of the department of mathematics, arrived in Marquette on Monday morning.

MAKE LIFE WORTH LIVING

Says Elder Cunningham.

When pure healthy blood courses through every vein and artery of the body, the organs are in a healthy condition, and a strenuous active life is a pleasure to man or woman.

But if the blood is impure and sluggish, the appetite poor, digestion weak and vitality not up to the standard, life is a burden; then you need Vinol, our delicious cod liver and iron tonic, without oil.

Elder Cunningham's recovery was due to the combined action of the medicinal elements of cods' livers, aided by the blood making and strength-creating properties of tonic iron contained in Vinol.

gives out hope that she may recover to a great extent. Mrs. Kelsey was recently granted a temporary respite of absence for the purpose of studying at the Teachers' College in connection with Columbia university, her work to begin Dec. 1 and close in May.

At the present time the outlook for athletics is better than ever before in the history of the school. Thirty of the senior girls have reported for practice in basket ball and great enthusiasm is shown by both classes, seniors and juniors.

Next week, Thursday evening, an entertainment under the auspices of the expression department will be given in the Assembly Hall.

MEMORIAL EXERCISES TOMORROW AFTERNOON

Members of Elks Lodges of County Will Pay Tribute to Their Departed Brothers.

For the Elks' annual memorial exercises, to be held tomorrow afternoon at 2:30 o'clock, in the Ishpeming theater, under auspices of the Marquette, Negaunee and Ishpeming lodges, special electrical designs have been placed on the stage and raised platforms have been erected on the sides and at the rear of the auditorium, to be used as officers' stations. The esteemed leading knights, esteemed loyal knights and esteemed lecturing knights of the three lodges of the county will occupy seats on these platforms, and the secretaries and treasurers and other officers of the lodges will be seated in the boxes. The exalted rulers and past exalted rulers will occupy seats on the stage.

The members of the local committee have been advised by officers of the Marquette and Negaunee lodges that there will be large delegations from these cities, and it is expected that the theater will be well filled. The committee extends an invitation to the public. All of the boxes in the theater, with the exception of the two to be occupied by the officers, will be reserved for the ladies, and all of the ground floor, with the exception of two or three rows in the rear, will be reserved for the members of the three lodges.

Committee of Elks and their ladies will meet the train from Marquette, also the street cars from Negaunee, arriving shortly before 2 o'clock. The visiting ladies will be escorted to the theater and the Elks will go directly to the Anderson hall. A line of march will be formed and the Elks will leave there for the theater at 2:15 o'clock.

Following the exercises, the Elks and their ladies will return to the Anderson block, where lunch will be served by Harry Dunn, chef of the Nelson House, and Bert Walker. The ladies will have the exclusive use of the club rooming. The present officers of the three lodges in the county, and the past exalted rulers are as follows:
Ishpeming, No. 447—Exalted ruler, A. L. Brownell; esteemed leading knight, A. C. Lundington; esteemed loyal knight, E. J. Heindel; esteemed lecturing knight, C. H. Dawson; secretary, H. L. SULLIVAN IN THE CITY.

Cases Against Moving Picture Theatre Man Will be Tried on the 6th.

C. S. Sullivan, manager of the Royal theatre, in the Voecker block, who has been charged with two different violations of the state statute because he opened his theatre for business on the past two Sundays, arrived in the city yesterday from the copper country, where he had been since Monday. The warrant for his arrest on the second charge, which was issued on Monday by Judge Andrews, and placed in Marshal Trevarrow's hands, was served on Mr. Sullivan soon after his arrival. The hearing in both cases will take place next Tuesday, the 6th, in Judge Andrews' court.

The Mining Journal yesterday received the following communication referring indirectly to the opening of the Royal theatre for Sunday business:

To The Mining Journal: A reader of your paper was greatly pleased to see the letter in your issue of Nov. 30th from a Citizen. There are many who agree with him and want to see Sunday desecration put a stop to and I trust our mayor, Mr. McCorkindale, will enforce the law and win the respect of all true citizens.

What a sad sight to see our boys and girls going to places of amusement on the Lord's Day, that we are commanded to keep holy.

"INTO THE JAWS OF DEATH"

A Firemen's Picture.

This picture is an educational drama, as it is intended more particularly to illustrate the methods employed by modern Fire Departments in saving life. The interior of the fire house is shown, fire companies are seen rushing to answer the alarm, firemen scale walls of the building and carry the inmates out.

There is a plot which adds interest to the picture. The work of the firemen, and the story of the lovers is fitted together nicely and a subject of double interest is produced.

This is our FEATURE PHOTOPLAY; in addition we will show THREE others.

UTILIZING ORE DUST.

Subsidiary of Steel Corporation Finds Plan to Save Millions.

It is reported from Pittsburgh that the Carnegie Steel company mills of the United States Steel corporation this week saw the first briquette made from ore dust in their special plant. The briquettes will be converted into pig iron, and thus is solved the conservation of ore dust which has heretofore been scattered by the winds. The discovery

of the plan with its operation here means a saving of millions of dollars on what has heretofore been accounted as waste and was reckoned in the cost of production. For two years the steel company has been working on a plan to capture the ore dust from the furnaces, and machinery was invented for this purpose. A special plant was built and its first product was brought to hand Tuesday.

BIG FRAME SHAFT HOUSE DYNAMITED

Oliver Iron Mining Co. Razed Section 16 Mine Structure In Short Order Yesterday.

The frame shaft house at the Oliver Iron Mining company's Section 16 property, which is to be replaced by a steel structure, was razed yesterday morning by the use of dynamite. It was reported

the previous day that the structure would be dynamited and about 200 people witnessed the unusual sight. Some fifteen sticks of dynamite were placed under the pillars at the base of the structure and all were connected with electric batteries, operated from a distance. Four and one-half sticks under the supports on the north side were first exploded, in order to loosen the foundation timbers.

It turned out that this explosion was sufficient to bring down the shaft house. The report was not a loud one, but it was followed by a shaking of the shaft house, and soon portions of it started to separate and it finally collapsed, falling to the north, across the South Shore tracks. F. E. Keese, general mining superintendent, directed the work, and Superintendent Johnston, Assistant Superintendent Sliney and other officials were present.

A line of cable operated through blocks was connected with the upper portion of the structure and attached to a South Shore locomotive, in order to help bring down the shaft house on the north side, as considerable damage might have resulted had it fallen in any other direction.

The shaft house was one of the largest frame structures on the range, its total height being 112 feet. Some massive timber was used in its construction and two additions had been built to it since the original structure was put up twenty-one years ago. The greater part of the timber was in poor condition. Much of the timber was shattered by the fall and very little of it will ever be used again in construction.

A force of men and teams were put to work immediately after the structure came down, clearing the site, and it is expected that the greater part of the timber will be removed by tonight. Steel for the greater part of two months has been received and the workmen who will put it together are now in the city. A few more concrete abutments have to be put in. The steel work will probably not be started until the latter part of next week. The management expects that it will take the greater part of two months to complete the improvement. Meanwhile most of the Section 16 workmen will be employed at the company's other properties.

The old crusher building, immediately southwest of the shaft, is to be torn down later, but it will be removed piece by piece. The Section 16 mine ore has been crushed for three years or more at the big plant, located at the Hard Ore property.

"SEVEN DAYS" COMING.

Wagenhals & Kemper's Comedy Will Be Next Attraction Here.

"Seven Days," which is being sent on tour by Wagenhals & Kemper, the well-known New York producers, will be the attraction at the Ishpeming theater Thursday evening, the 15th. This play has the astonishing record of 400 performances in New York city. It began its phenomenal run there Nov. 10, 1909, and has played at the Astor theater without interruption ever since. During this run only one change has been made in the cast. No performance has been missed.

The dramatic critic of "Scrap Book," a well-known magazine, said of the play:

"Seven Days" is the best comedy that I have ever seen. All the critics agree

with me. And talk about combining. This play combines more good points than any play I have ever seen in all my years of theater going. First and foremost, it is funny, not in spots, but all the way through."

The man who writes theatrical news for "The Smart Set" played football on his varsity team and when he saw "Seven Days," the enthusiasm carried him back to the football field and he wrote:

"Seven Days" is one solid mass play of fun that goes with such a burrah that it makes you laugh harder than when the opposing quarter back breaks a rib. It is a funny bone tickler that makes dear old 'Charley's Aunt' seem a poor relation in comparison. This American play started a commendable campaign for the conservation of our national laughter."

ISHPEMING IN BRIEF.

J. Silverman, proprietor of the Fashion Suit company's store, came up from Escanaba yesterday. He will remain until this evening.

There will be no men's meeting at the Young Men's Christian association building tomorrow afternoon, because of the Elks' memorial exercises at the Ishpeming theater.

The D. F. B. club will conduct the first of a series of dancing parties this afternoon, commencing at 2 o'clock, in the Anderson Hall. The young people of the city are invited.

John Quayle, the fourteen-year-old lad who had a leg amputated at the Ishpeming hospital a few weeks ago, as a result of a hunting accident, has been removed to his home.

Mr. and Mrs. J. H. Hooper entertained the members of a ladies' club to which Mrs. Hooper belongs, and their husbands, at their home on North Third street Thursday evening.

The funeral of the late Mrs. Samuel Goodman was held yesterday afternoon from the First Methodist Episcopal church and was largely attended. Interment was in Ishpeming cemetery.

Mrs. A. C. Braastad, who has been a patient in Angustana hospital, Chicago, for a month or so, arrived home yesterday morning, accompanied by her sister-in-law, Miss Ingberg Braastad, who spent the past ten days with her.

Rev. C. L. Finch, pastor of Salisbury Methodist church, will preach tomorrow morning on the subject, "Obeying the First Command." In the evening his subject will be "The Cross and the Sinner."

The funeral of the late Thomas Pengase will be held tomorrow afternoon at 2 o'clock, with services at the house, under auspices of Albee lodge of the Independent Order of Old Fellows. All members of the society are requested to meet at their hall at 1:30 to prepare for attending the funeral.

The ladies of Calvary Baptist church congregation will hold an apron sale next Wednesday afternoon in the basement of the church. In the evening a musical program will be given. A free will offering will be taken up.

The social committee of the Young Men's Christian association is planning to serve coffee and sandwiches at some of the men's Sunday afternoon meetings, to be conducted during the winter.

James Olds, an old and well-known resident of the city, whose home is on Excelsior street, was reported as being critically ill last evening. He is suffering from pneumonia, which he contracted several days ago.

The street car leaving Ishpeming at 11 o'clock p. m. and Negaunee at 10:30 p. m. is to be discontinued except on Saturday, Sunday and holiday nights and on special occasions. The last car will leave Negaunee at 11 o'clock and Ishpeming at 11:30, as usual.

Tomorrow evening at Calvary Baptist church, Rev. W. J. Meade, the pastor, will deliver the third of the series

HUGHES BOOKED FOR CHIEF JUSTICE

That Nagel and Swayze Will Go on Supreme Bench Is Also Washington Gossip.

Washington, Dec. 2.—On the second Monday of the coming session of congress President Taft will send to the senate the names of three men who will constitute one-third of the bench of the supreme court of the United States.

It has been repeatedly said that Mr. Root had the opportunity to resign from the senate and take his seat either as chief justice or as an associate justice.

Francis Joseph Swayze is still a young man. He was born in Newton, N. J., only forty-nine years ago.

For some time past Secretary of Commerce and Labor Charles Nagel has been considered a possible, if not a likely, candidate for the supreme bench.

The president has also decided on the appointment of Frederick W. Lehmann of St. Louis as the presiding justice of the new court of commerce.

Japanese Expedition Under Shirase Leaves Japan on 150-Ton Schooner.

Yokohama, Dec. 2.—The Japanese Antarctic expedition, under Lieutenant Shirase, has started from Shinagawa bay aboard the 150-ton schooner Kaiman Maru.

Last June Lieutenant M. Shirase, of the Japanese army commissariat corps, gave a detailed account of his plans to win the South Pole prize for the Land of the Rising Sun.

"We Japanese possess several advantages. We do not require so much money as a Westerner.

"The crew of the schooner is to consist of fifteen men. The navy department has agreed to the appointment of a captain from among the graduates of the school of navigation.

"We shall leave the schooner at King Edward VII. Land and commit our destinies to the sleighs.

LIKE TO WALK IN PUDDLES

A Grown Up Man Tries to Ascribe a Reason for This Fancy of Boys

"It may not be a matter of grave moment," said a grown up man, "but I would rather like to know why small boys like to walk in mud puddles."

"A bunch of small boys will one after another try jumping over a puddle to see if they can clear it, and then sooner or later one is sure to come down in the edge of the water.

"While the boy finds a pleasure in splashing or stamping or walking through mud puddles; he likes to take the risk and see how much water he can get into without getting his feet wet; but the thing he likes best about it is its defiant unfeigned freedom."

BALLINGER-PINCHOT CASE TO HANG ON

Prospect of Any Satisfactory Settlement is Regarded as Extremely Remote.

Washington, Dec. 2.—Senator Nelson of Minnesota called the members of the Ballinger-Pinchot investigating committee to a meeting which will be held on the opening day of congress. The committee is to try finally to solve the problem of who is right and who is wrong in a controversy which has been waging for more than a year.

The Ballinger-Pinchot affair has been troubling the principles thereto, the members of congress and the country ever since the day of a certain memorable letter sent by the president of the United States to the chief forester of the government. At the beginning of the trouble there was a sensation of one kind or another every day in the week. Then there was a lull and then more explosions. A summer of comparative quiet was followed by the noise of the disruption of a session of the committee in September. The members of the investigating body were called together in Minneapolis. Then the chairman found that some of the Republican members supposed to be wholly sympathetic with the cause of Secretary Ballinger were absent. A quorum of the committee was broken by the departure from the room of some of the members who, the public rightly or wrongly believes, had made up their minds that the Secretary of the Interior has committed no offence against law, order, decency or the good of the service.

Madison's Famous Report

The Democratic members of the investigating committee were present at the meeting in Minneapolis and so was the militant insurgent Republican Madison of Kansas. The Democratic minority formulated a letter made public a report of its own. The lone insurgent Madison did likewise. Later the Republican majority of the committee met in Chicago and agreed to meet again in Washington. It is expected that all the members of the committee will be present in response to Chairman Nelson's call. With the insurgent report and the Democratic report already made public there remains yet to be prepared and given out the majority report. It is taken for granted in Washington that this report will hold Mr. Ballinger free from any fault, even that might attach to a condition of non-sympathy with the conservation work which the administration has put into his hands.

When the three reports get into congress it is probable that the country will have the whole Ballinger-Pinchot controversy over again in detail. Some of the members of congress are prepared to say that the report of the majority of the Republicans on the investigating committee is in effect simply an application of whitewash for which the brush was obtained and the mixture was prepared before the committee hearings began. How certain the country may be that "who is right and who is wrong" will actually be determined can be known today from the fact that the investigating committee has divided into three parts on party and factional lines. From the point of view of the man who wants to know the truth and who is sure that nothing has been accomplished and that it is not at all likely that anything will be accomplished. The strong belief is that congress will divide just as the committee divided. And there you are.

It Really Affects Votes.

Gifford Pinchot has friends in Washington who hold to the belief that the report of insurgent Madison will be adopted by both houses of congress. It seems almost impossible that such can be the case. It is true that some of the recently re-elected Republicans who hitherto have been outspoken in their condemnation of the "effort" to discredit Mr. Ballinger have been sent back to their seats with largely reduced ma-

majorities. It may be that some of these men will show that they have changed their views concerning the troublesome matter in hand, but if they have not changed them or if they do not dare to face the charge of inconsistency by pretending to a change and by voting accordingly, the house probably will stand by the report of the Republican majority of the committee of investigation.

It seems hardly likely that the Democrats will be willing to ignore the report of their own committee representative, will go over to the Democracy. It probably will make little difference as far as acrimony and noise of debate are concerned whose report finally is adopted. It seems that all the senators and representatives who have taken sides one way or the other are ready for a renewal of the controversy and that before the matter finally is settled the country is to be shaken again unless from sheer weariness of the whole subject it goes into a sound sleep from which no shaking can awake it.

Pinchot's View of Controversy

There are those who say that Gifford Pinchot cares little which way the report goes. The men who say this possibly are prompted to it by nothing but friendliness and by their own belief that the country already has shown where its sympathies lie. It may be possible that Mr. Pinchot does not feel deeply concerned about the question of which report is to be adopted, but if he has no great interest in the matter the actions of those close to him fail to prove his lack of concern. Mr. Pinchot's friends are eager beyond the point of anxiety that the Madison report shall be adopted and they say they believe this will be the outcome.

A number of the officials of the Katherine Mining company were here Saturday, in a special car. They were accompanied by their wives. The party looked over the Katherine mine.

It is rumored that the Niagara Mining company will sink a shaft at the Portland mine this winter. Stripping work has been carried on there for the past year.

Work at the Imperial mine was discontinued for a few days last week, because of trouble with some of the machinery.

The Mining Journal has received the following communication from George Karpinsky: "Those wishing to visit Karpinsky's are invited to call at the front door, at the usual social calling hour, and not at 11:30 p. m., endeavoring to obtain admittance by way of a window, which evidently, as shown by the foot prints six feet apart in the snow, necessitated a hasty flight down the alley."

LONDON'S NEW POSTOFFICE.

On the stroke of midnight last Sunday the lights were put out in the vast block of grimy buildings known as St. Martin's le Grand, otherwise London's central postoffice, and 5,000 employees started work in the new general post-office, an imposing erection of ferroconcrete in King Edward street, not far away. The late king laid its foundation stone in 1905, and it cost \$2,250,000 to build. The removal was a big task, necessitating minute organization, but not a single letter suffered delay.

The new St. Martin's, as it will continue to be called, had been furnished from floor to ceiling with new fittings and appliances. Londoners are amazed at the pleasant change from the dingy, "ambling eighty-year-old office to a light and airy public hall, 186 feet long with marble columns, bronze capitals and polished mahogany counters.

The busiest place is the "London E." sorting room, which measures 300 feet by 185, says the New York Sun. This department takes in the whole of the business center of the metropolis and handles 5,000,000 letters a week. The building has a flat roof, on which postoffice employees may practice at miniature rifle ranges. In the course of excavating the foundations of a fine section of the old London Roman wall and bastion was unearthed, and this has been preserved at the latter end of the Society of Antiquaries. The section of the wall which is in an excellent state of preservation, measures fifty feet in length, and is fourteen feet high. It has been enclosed in a chamber specially built for the purpose, lighted by electricity, and access is obtained by a spiral staircase.

PLANT'S BUSINESS IS CONSTANTLY GROWING

By First of Year There Will Be 10,000, or Over, Incandescent Lights On Circuit.

According to the report of the clerk of the board of public works, submitted to the council at its meeting Thursday evening, the plant at the lighting plant will have 10,000 or more lights on the incandescent circuit by the first of the year. Additional lights have been added lately at the rate of from sixty to 700 a month. The number on the circuit on the first of December was 9,990, there having been an increase of ninety in November. The clerk reported that the collections for the plant in October were \$2,235.38, compared with \$2,128.40 in October 1909.

In November 189 tons of coal were consumed in the operation of the electric lighting plant, at a cost of \$81,290. In November, 1909, year 178 tons and 205 pounds were consumed. The number of kilowatts generated was 49,500, compared with 41,900 in November, 1909. The number of kilowatts generated for the operation of the arc circuit was 8,780.

A total of 165 tons and 487 pounds of coal were necessary to operate the water works plant in November, compared with 141 tons in the corresponding month last year. The pumps registered 50,183 strokes last month, compared with 41,172 in November, 1909. The street and highway department had a comparatively light month in November, the sum expended being \$356.75. Of this sum, \$82.30 was for street cleaning; \$23.75 for cleaning gutters; \$58.20 for hauling ashes from the water works, and \$242.50 for repairing the Board mill rolls.

In view of the fact that winter has set in earlier than last year, it is expected that the highway expenses will be considerably larger in December, January, February and March than they were in the corresponding months of last winter. It was necessary to operate the snow plows but a few times last year, but judging from the large quantity of snow already on the ground, it is likely that there will be considerable plowing necessary this winter.

TO CLOSE UP ALLEY.

Council Gives Scandinavian Society This Privilege at New Cemetery.

Oliver Johnson, one of the officers of the Scandinavian society, appeared before the council Thursday evening and asked for the privilege of closing the alley between the lots purchased by the organization. Mr. Johnson explained that the society bought twelve lots that extend across the block. Thus the closing of the alley between them will not molest any one.

Mrs. Mesdames Catherine Reidy, John Reidy and John Williams petitioned the council for exemption from general taxes, inasmuch as the tax roll is already in the hands of the city treasurer for collection, and the taxes are now being paid. The council granted the request favorably. The committee on finance and taxation recommended, however, that next year the parties send their petitions to the board of review, at its annual meeting in June. Mrs. Williams also petitioned to be exempted from the tax of water taxes, and this request was granted.

Superintendent Willman, of the board of public works, provided the council with an estimate of the cost of the proposed Ann street sewer, together with a blue print showing the route. Alderman Haggart moved that the Ann street sewer be extended through the furnace location, connecting with the main sewer on Lincoln street. The motion prevailed. It is understood that the work will not be started until spring.

SHOWS FOR TWO WEEKS.

The Francis Greene Stock company, which is this week playing in Republic, has been engaged by Mr. McDonald for a two weeks' engagement at the Negaunee opera house, commencing next Monday evening. The company is producing both comedy and melodrama, and there will be a change of bill nightly. A popular scale of prices will be charged. Mr. Greene is a former copper country man, having been raised at Lake Linden. Since leaving there he has been on the stage, most of the time at the head of his own organization.

ELKS' MEMORIAL.

Members of Negaunee Lodge and Friends Will Attend Services in Ishpeming.

The Negaunee Elks are showing much interest in the memorial services, to be conducted tomorrow afternoon at the Ishpeming theatre under auspices of the three lodges of the county, and it is expected that practically all of their number will attend. A suitable program has been arranged. The members and their ladies will be served with a lunch at the conclusion of the exercises in the Anderson block. The ladies will have exclusive use of the Elks' club rooms after the exercises.

Special street cars will leave Negaunee at 1:30 o'clock. The ladies will leave the cars at Cleveland avenue, where they will be met by a committee of Ishpeming ladies and escorted to the theatre, and the members of the lodge will go direct to the Anderson hall, where a line of march will be formed.

SONS OF ST. GEORGE OFFICERS.

At the regular meeting of English Oak lodge, No. 230, Sons of St. George, held this week, the following officers were elected for the ensuing term:

Past President—W. P. Thomas.
 President—Thomas H. Stanaway.
 Secretary—Sidney Northey.
 Assistant Secretary—William Sharp.
 Treasurer—Elias Dave.
 Messenger—John H. Snowden.
 Assistant Messenger—Garfield Rice.
 Chaplain—Thomas Penulua.
 Inside Sentinel—Enoch Vincent.
 Outside Sentinel—Wm. G. Jane.
 Trustee—Arthur Roberts.

LOCAL LACONICS.

Mrs. Mary Stubbs of St. Paul is visiting Mrs. Anna W. Johnson.

Miss Nellie Dee of Hubbard is the guest of T. J. Flynn and family.

Mrs. Albert Herron of Escanaba is in the city visiting Miss Mabel Jackson.

Jacko Salo & Co. have installed a cash register in their place of business on East Iron street.

Mr. and Mrs. Alfred Anderson, of Heath street, are the parents of a son, born Thursday.

Eli Daws left Thursday night for Oshkosh, on a business mission. He is expected home today or tomorrow.

Mrs. Charles Chick has returned to her home in Ontonagon, after a few days' visit with Mrs. Cleo Meiller.

Timothy Curran, who has been employed in the Negaunee yards of the Chicago & Northwestern Railway company all summer, has been transferred to Escanaba.

Arthur Pascoe, aged sixteen years, son of Thomas Pascoe, who was recently arrested upon an appeal against the Negaunee hospital, is getting along nicely.

Mrs. Jacob Forsland, of Negaunee, was yesterday adjudged insane and was committed to the Newberry hospital. Mrs. Forsland's husband and four small children live on Ann street.

The seats for the waiting rooms of the Negaunee union passenger station, being erected on Gold street, were received yesterday. They are mahogany and will match the interior finishings of the rooms.

Turri & Parkkunen have formed a co-partnership and will conduct a grocery store in the Walker building, on Jackson street. They will carry a complete line of groceries, provisions, etc. Both are experienced in the grocery business.

Commencing Monday the street car which leaves Negaunee at 10:30 p. m., and Ishpeming at 11 o'clock, will be discontinued, except on Saturday, Sunday and holiday nights and on special occasions. The last car leaving Negaunee for Ishpeming will leave at 11 o'clock, as usual.

A Negaunee man, who has recently been in Baraga and Ontonagon counties, says that wagons were still in use in Baraga, L'Ange and Ontonagon when he visited there, but there is good sleighing in Houghton county. During Wednesday's storm there was only a light fall of snow in Baraga and Ontonagon counties, not enough to put the wagons out of commission.

The Richmond mine, on the Cascade range, will be the last property in this district to suspend shipping operations. The Chicago & Northwestern Railway company has been moving about ten cars a day from this property the past week. Most of the sidetracks in the yards here have been closed since the heavy snow fall of Tuesday night, and some of them will not be opened again for the winter, as the mines have been provided with their winter supply of coal. It may be necessary to open some of them later in the season for the movement of timber.

Five deer carcasses passed through here yesterday enroute for the lower peninsula. They will probably be the last deer of the season to be received here, as the time set for the shipment of carcasses has expired. The Western and American Express companies handled a larger number of deer consigned to lower peninsula points this season than for any of several years past. While no record of the number transferred was kept by the employees of either company, it is estimated that over 400 passed through their hands. The largest single day's shipment was seventy, but there were several days when from thirty to fifty were forwarded.

the Negro bell boy in charge of the hat rack. "I am from Blank's," he said, mentioning the name of a hat store across the street from the hotel. "Mr. Blank sent me over to get these hats. We will press them quick and return them as a compliment to the hotel and as an advertisement for us." The bell boy made no objection. The alleged porter took a dozen silk hats and derivatives. Needless to say he disappeared and the management of the hotel had to stand the loss."

A SIMPLE SAFEGUARD FOR MOTHERS.

Mrs. D. Gilleson, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continually. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. The People's Drug Store.

PROSPECTS FOR WATER BETTER

Sudden Stoppage of Flow of Dead River Thursday Not Due to Thompson & Jenney's Logs, as Supposed, but Probably to Snow Dams in Head Waters.

While Plant Was Shut Down Yesterday Forenoon, Several Feet of Water Gathered in Dam, Making it Possible to Furnish Current Afternoon and Evening

Water conditions at the city electric light plant were considerably better last evening than they were twenty-four hours before, and it is hoped that there will be enough water today to operate the plant all day. The entire plant was closed down yesterday from 7 a. m. until 12:45 p. m. and during this period the flow of the river was sufficient to raise water in the dam to a level about three feet above the spillway, or opening of the flume. At a late hour last evening the head of water was still three feet above the spillway, showing that only one foot of water had been lost in about eight hours.

There was considerably more water flowing in the dam yesterday than Thursday afternoon, when the reserve supply in the dam was exhausted in a few hours. This fact indicates that the water is now flowing over the obstruction in the river or that the obstruction has been removed. If such be the case, it would not be surprising if the river within a day or so resumed its normal flow.

Two employees of the light and power commission went to Ispermeing early yesterday morning and from there to Silver lake for the purpose of ascertaining the cause of the water shortage. They found that Thompson & Jenney, who are lumbering below Silver lake along the river, had not filled the stream with logs as had been supposed, but that they had done just what they agreed to do—used only one-half of the width of the river for their logs. Furthermore, they found that the banks of the stream showed clearly that the level of the water had fallen suddenly about a foot, both above and below the logs, showing conclusively that the obstruction, if such there be, must be above Silver lake.

Another Theory Advanced.

It is Superintendent Retaille's opinion now that the heavy snow storm was responsible for the sudden stoppage of the flow of the river Thursday afternoon. He states that in the head waters of the river snow might have drifted and piled up until the water was entirely cut off for a time, and that the same thing probably happened in the smaller tributary streams. A little dam of snow here and there and everywhere, all being formed at the same time, in the aggregate could materially increase the flow of the river for several hours, until the water rose over the snow and again resumed its course down stream.

This appears to be a plausible theory and in fact the only tenable one, inasmuch as the ice shows the drop above Thompson & Jenney's logs to have been just as great as it was below. If this be the true explanation, it is reasonable to expect that the river will soon readjust itself to the conditions produced by the heavy snow storm, after which the normal amount of water will flow down into the electric light plant dams. The increase in the supply of water as compared with Thursday makes the light and power commission more hopeful than they were Thursday night. Even now, however, the outlook for the coming winter months is anything but bright. There is no reserve in any of the dams and the plant will be entirely dependent upon the daily flow of the river for its power. In winters past, there have been many times when it has been necessary to call upon the reserve in the dams, particularly in January and February when many of the tributary streams freeze solid, and when the daily flow would not have been sufficient to operate the plant at all times. There is every reason to believe that the same conditions will be encountered this winter, and as the demands on all who may desire it.

BUSINESS GOOD AT SKANDIA.

Peterson Bros. Mill Will Run All Winter, Employing Fourteen Men.

Peterson Bros. saw mill at Skandia, which was built the past summer, is running steadily and will continue to operate throughout the winter, furnishing employment to fourteen men. The mill will be shut down for repairs a few days next week, and when these changes are made, the mill will be one of the best equipped mills in this county. About a million feet of logs gotten in last winter have kept the mill busy since it began operation early in the fall, most of which have now been sawed. Logs of this year's cut are now being brought in. The firm expects to put a million feet through the mill during the winter, about two-thirds of which will be hardwood. The pond from which the logs are taken to the saws is heated by exhaust steam, making it just as economical to operate in the winter as in summer. Peterson Bros. do not do their own logging but buy timber from farmers, some of which they purchase on skids and haul to mill with their own teams.

SAMUEL YORK DEAD.

Engineer of Tug Columbia Passed Away at St. Mary's Hospital.

Samuel York, adopted son of Captain C. M. York, passed away at St. Mary's hospital Thursday night, after a few weeks' illness with Bright's disease. The deceased was forty-four years of age and leaves a wife and two aged eleven and five years, who reside on North Fourth street. For the last five years, Mr. York has been engineer on the Anderson fish tug, Columbia, and worked in that capacity until a month ago. He was well known and very popular among local marine men. Mr. York was adopted by Captain York when he was two years of age. His name before adoption was Samuel Gagnon and his father lives at Northport, Mich. He also has three brothers living, one at Rockland, one at Northport, and one at Hayward, Wis. Mr. York was a member of the Odd Fellows and of the Lake Tug Protective association. The funeral will be in charge of the Odd Fellows, and will be held Sunday afternoon from the house, conducted by Rev. Bates G. Burt, rector of St. Paul's Episcopal church.

BAD REPORT ON WATER.

State Bacteriologist Pronounces Sample Taken Ten Days Ago Unsafe.

Superintendent of Water Works John Kern yesterday received an analysis of the sample of water sent to the state bacteriologist at Lansing ten days ago, and the report is that the water, as shown by the analysis, is unsafe for drinking purposes. This is the second sample of city water taken within the last month that has been pronounced unsafe, though the analyses for several months prior to the last two have been exceptionally good. It is possible that the bad analyses have been due to accidental contamination while taking the samples, but Mr. Kern states that he has prepared the last sample with the usual care. Some are of the opinion that the dredges at work in the harbor, which are dumping the mud removed from the harbor some distance south of the end of the breakerway, are responsible for the water being polluted.

Concerning the last sample sent by Superintendent Kern, the state bacteriologist says:
"This sample of water contains a very large quantity of bacterial contamination. We call this a large quantity because of the large number of intestinal organisms present. It is very evident that something was decidedly wrong at the time this sample was taken. It would seem, however, that the chemical findings are better proportionately than the bacteriological and we wish again to call attention to the fact that extreme precaution must be observed in collecting these bacteriological samples, for any accidental contamination introduced at the time of collection may make the water appear far worse than was the normal condition at that time."

SEVERAL APPOINTMENTS HAVE BEEN DECIDED ON

Detroit Report Says That W. B. Oates of Calumet Will Be Osborn's Secretary.

Probable Osborn Appointments.
Secretary to the Governor—Wm. R. Oates, Laurium.
State Tax Commissioner—George B. Horton, Fruit Ridge.
State Insurance Commissioner—Calvin A. Palmer, Manistee.
Dairy and Food Inspector—Gilbert Dame, Northport.
Deputy Labor Commissioner—William N. Sweeney, Bay City.

While nothing official has been given out, the above list represents the appointments which Chase S. Osborn, governor-elect, will make, says the Detroit Journal in its issue of Thursday. There are two other big jobs to fill, labor commissioner and railroad commissioner, but the question of who will get them is still in the air.

State Chairman W. F. Knox, right hand man of Gov. Osborn, arrived in Detroit late Wednesday night and on today was closeted with leaders from all parts of the state. While he would say nothing for publication, it was learned from others that the above named were assured of the jobs assigned them. They have not all accepted and some of them may not.

W. R. Oates, who is to be secretary to Gov. Osborn, if he take it, managed the Osborn campaign in the upper peninsula. He was a member of the last house from Houghton county and is one of the brilliant young men of the north country.

George B. Horton, who will succeed Wm. Hoyt as physician on the state tax commission, was for years the head of the State Grange and is one of the best known farmers in the state.

It had not been considered likely that "Puss" Palmer, of Manistee, would take a position of insurance commissioner, but it is the word that he is largely actuated by the same motive as Mr. Oates—a desire to be close to the new governor.
Gilbert Dame, of Northport, is at present a deputy in the road department and has been an extremely efficient officer.
The town was full of prominent Republicans today. Warden Jim Russell is down from Marquette, "Billy" Oates wandered in from the copper country, "Puss" Palmer arrived from Manistee, "Gill" Scramton, of Crosswell, was an early arrival and so was Marsh Cook, of Hastings. Geo. B. Horton was closeted with Mr. Knox for nearly an hour and John T. Owens of Benton Harbor was also on hand.
Lieut. Gov. John Q. Ross came in during the afternoon and there were now snows going on in every corner of the Pontchartrain.

LUMBER DEALERS MET IN CITY YESTERDAY

All Sections of Upper Peninsula Represented at Social and Helpful Meeting.

At the invitation of George P. Sweet, of Grand Rapids, secretary of the Michigan Retail Lumbermen's association, a score or more wholesale and retail lumber manufacturers met at the Hotel Marquette yesterday. The meeting was called for the purpose of getting acquainted and in order that all might talk over matters of mutual interest. An informal business session was held in the afternoon and a banquet was served at 7 o'clock, at the close of which several talks on lumber matters were given.

Mr. Sweet is employed by the Retail Lumbermen's association to travel over the state and conduct meetings of this sort. Yesterday was his first visit to Marquette and he was well pleased with the manner present and the interest shown in the proceedings by upper peninsula lumbermen. He states that there is much being accomplished at these sectional meetings of those interested in the lumber industry, as all present are able to gain something from ideas that have been worked out by others. The meetings are always planned to include some social feature through which the lumbermen of a locality get better acquainted with each other.

Among the subjects discussed at the meeting here yesterday were modern methods of bookkeeping, ways of handling accounts, systems of grading lumber, how to reduce the cost of handling lumber, fire insurance, railroad and transportation problems in the lumber business and contracting. The lumber present were vitally interested in all of these subjects and the discussions were followed with much interest. Mr. Sweet was able to give many valuable pointers gleaned during his travels over the state while several others offered timely and valuable suggestions.

Those present at the meeting included H. R. Baughman, Sault Ste. Marie; W. B. Earle, Houghton; D. N. McLeod, Rixton; R. P. Bronson, Ispermeing; James O'Callaghan, Vulcu; Thomas Gray, Marquette; W. T. Dawe, Joseph Corner, John B. Williams, Negaunee; J. H. Bice, Hancock; M. E. Mangold, Gwinn; J. C. and J. W. Pryor, of Houghton; and Wallace McPherson, of Escanaba.

ROYAL ARCANUM JOLLIFICATION.

Election of Officers, Followed by Banquet and Smoker Last Night.

McKinley council, No. 1905, Royal Arcanum, held an exceptionally enjoyable meeting in Siegel's Hall last evening, at which the annual election of officers took place, which was followed by a vaudeville entertainment and a banquet and smoker. Buck Price and Mr. Johnson, of the Grand theater, did the vaudeville stars, and they made a distinct hit. The banquet and smoker were a complete success and the members of the lodge were out in force. The officers elected were as follows, and will be installed Dec. 16:

Chairman—William Nelson.
Vice Chairman—Herman Gustafson.
Recorder—Maney Jeanson.
Financial Secretary—Olat Olson.
Cashier—Edwin Larson.
