✓ BOARD OF SUPERINTENDENTS OF THE POOR

Marquette, Mich., October 7, 1932

To the Honorable Board of Supervisors of Marquette, County.

In view of the industrial conditions existing at the present time, the County Poor Board believes that it will be necessary to ask for an appropriation of one hundred sixty thousands (\$160,000.00) Dollars for the ensuing year.

We base our request upon the increase in the calls now being made on this fund.

We also respectfully request the sum of two thousand (\$2,000) for new equipment and improvements at the County Infirmary.

Very respectfully yours,
 MARY J. BITTNER,
 Clerk of Superintendents of Poor.

✓ MORGAN HEIGHTS SANATORIUM

To the Honorable Board of Supervisors of Marquette County.

We submit the following forecast of expenditures for the period of January 1st to December 31st, 1933. These figures, already approved by the Sanatorium Committee, are based on careful analysis of the expenditures of the last nine months. It will be noted that we forecast a saving of \$10,550.00 over the gross expenditures of this year; this is principally due to a further cut of 10 percent on salaries and to economies that we expect to make, because of the lower cost of supplies. We propose to continue to maintain our standards of care and comfort given patients. This is brought about by placing a greater burden of service on all employees.

This year the saving of \$29,000.00 in net expenditures is based on the assumption that the State of Michigan will meet its legal obligation and pay the dollar per day for our needy patients; if our assumption were to prove wrong, we would be \$20,000.00 or more short of our requirements for the year.

We submit for your approval the following figures:

Salaries	\$29,000.00
Food	20,000.00
Heating	5,500.00

✓ COUNTY WELFARE AGENT.

Marquette, Mich., September 26, 1932.

Mr. Charles J. Stakel, Chairman Budge Committee,
County Board of Supervisors, Ishpeming, Michigan

My Dear Mr. Stakel- I submit herewith an estimate of costs for the ensuing year for the office of the County Welfare Agent. These estimates have been arrived at by checking expenditures for the past year and by making every possible effort to reduce the expenses.

Last year we were granted \$40,000 for Dependent Children's Aid. We shall not expend that budget this year due to some of the reductions which have been made, and my present estimate is that the Dependent Children's Aid for this past year will amount to about \$38,000.00. I am requesting that \$40,000 be placed in the budget for next year due to the fact that there is a constant gradual increase in the number of petitions for Dependent Children's Aid, and since it is possible that some of the Barnes-Hecker cases will come to our attention this next year.

In checking over the taxes to be raised by taxation for last year I find that \$17,500 was included in the budget for public charges. This includes all public charges such as insane, epileptic, feeble-minded, and adult afflicted. I estimate that the adult afflicted costs for next year will be approximately the same, with the possibility of a slight increase due to the present economic situation. I therefore request that \$12,000 be included in the budget for Adult Afflicted for the ensuing year.

The expense of some of the items for the county Welfare Agent will appear in the costs of the Judge of Probate Office, such as stationery and special printing.

Respectfully submitted,
WALTER F. GRIES,
County Welfare Agent.

UPPER PENINSULA DEVELOPMENT BUREAU

Marquette, Mich., September 2, 1932

Marquette County Board of Supervisors, Marquette, Michigan.

Attention: Mr. Frank Jenks, County Clerk.

Gentlemen: We are herewith requesting an appropriation of \$2,000.00 from Marquette County for the support of the work of the Upper Peninsula Development Bureau for the coming year of 1933. This amount is arrived at by taking one-tenth of one mill on your assessed valuation for the year 1932, as equalized by your County Board, with the \$2,000.00 limit applied, as provided for in the law making possible your contribution for the support of advertising organizations.

The Development Bureau is the only Upper Peninsula-wide organization with with a well-rounded, diversified program, working for the good of the entire Upper Peninsula of Michigan. It has 22 years of experience to its credit, The establishment of our fish hatcheries, the building up of our chain of state parks, the securing of two sizable game refuges, two state forests, three national forests, the encouragement of dairy agriculture, the support of boys' and girls' club work, the improvement of our Upper Peninsula highways, and the building up of the tourist and resort business throughout the Peninsula, have been brought about over a period of years because Upper Peninsula people, working with and through the Development Bureau, have brought about the co-operation of the State and Federal Governments on these respective projects.

The bureau has been the organization through which effective team-work for the Upper Peninsula of Michigan has been possible. That team-work is needed today in days of depression, even more than in the more prosperous days past, However, the Bureau can only carry on as it continues to receive the finances which make it possible. Therefore, on behalf of our Officers and Directors, I am making this request for an appropriation at your annual meeting in October.

Very truly yours,
UPPER PENINSULA DEVELOPMENT BUREAU.
G. E. Bishop, Secretary-Manager.

Requests for appropriations from the Michigan Children's Aid Society, Northern Michigan Children's Clinic, (endorsing County Nurse); Good Will Farm, and Holy Family Orphans Home.

The annual reports of Register of Deeds, County Commissioner of Schools, County Agricultural Agent, Morgan Heights Sanatorium, Marquette County Fair Association, Board of County Road Commissioners, Board of Park Trustees, Inspector of Mines and Superindents of the Poor were read in part and ordered filed.

The monthly reports of the County Treasurer, Superintendents of Poor, and Morgan Heights Sanitarium were read in part and ordered filed.

✓ It was moved, supported and carried that the following be named as County Fair Directors for the ensuing three years: Frank Frei, Marquette City; Lawrence Ewing, Chocolay Township; Allan Swanson, Skandia Township; Paul VanRiper, Champion Township; Thomas J. Nicholas, Sr., Richmond Township; Charles J. Stakel, Ishpeming Township; and H. E. Perkins, Powell Township.

✓ The appointment of Poor Commissioner and County School Examiner whose time expires December 31st, 1932, was in accordance with a resolution passed by this Board laid on the table until the next regular meeting.

The following report of the Budget Committee was read and adopted by the following Yea and Nay vote:

Yeas: Keese, Aho, Anderson, Blake, Blight, Bruce, Danielson, Ewing, Fassbender, Flack, Frei, Ghiardi, Heikkila, Jenkin, Jory, Labold, Laine, Lapointe, Marshall, Moroney, Muck, Munson, McNamara, Nelson, Nicholas, Nightingale, Oja, Perkins, Richards, Sherwood, Simons, Stakel, Stenglein, Swamson, VanRiper, Watters, Wertanen, Wiseman and Yungbluth--39.

Nays: None.

✓ BUDGET COMMITTEE RECOMMENDATIONS.

The Budget Committee respectfully recommends that the following report be adopted at the annual meeting of the Board of Supervisors. On July 27th of this year a preliminary report was presented and the following is an addition to that report.

The entire program as presented is the result of painstaking labor and effort on the part of your Budget Committee. Parts of the program already have the approval of this Board and the balance should be adopted by the Board as a whole for the following reasons.

1- The whole set up is an economy measure and is contemplated to give relief to all the taxpayers in this County. We aimed to keep tax delinquency down and keep this County from joining the rapidly growing number of those already bankrupt. Tax delinquency for our County as a whole was only 4.08 percent in 1928. Although one township was 50 per cent delinquent and one city ran as high as 5.52 per cent, the average for the three cities and nineteen townships was 4.08 per cent. This increased to 5.40 per cent in 1930 and in 1931 actually dropped to 5.00 per cent. In 1929 the average was 4.66 per cent. We believe that when the taxpayers in this county show a desire to pay their taxes as they have, they should be encouraged by reducing their burden to the lowest possible figure.

Earnings at present are not high enough to support the old levels of taxes that were imposed. Neither the individual or corporation can support an unbearable load. Incomes have fallen and in some cases entirely disappeared. Industry in our own county is unable to furnish employment to workmen. Industry, stores, banks, farmers and individuals have faced hardships and been foreed to economize. The more reason to expect economy on the part of the county government which is supported by those who have been foreed through decreased earnings to practice varied economies. If you do not approve of reducing budgets in every possible manner, the ownership of property in this county will become a "liability" not an "asset!"

October 10, 1932

2. The budget for 1933 contemplates that this Board will reaffirm its action of the July 27th meeting and definitely adopt the resolution recommending the payment to county officers of salaries in lieu of fees, as provided for in the Compiled Laws of 1929 of Michigan.

3. The third important factor in the general picture is the Bond issue. We contemplate that the issue can and will be sold to take up the unemployment slack.

✓ Fees.

I now wish to present the resolution relative to substituting definite salaries in lieu of fees. Gogebic County and Houghton County have already committed themselves to a definite salary schedule for all county officers except where statute specifically states otherwise.

✓ Adult Afflicted.

In the previous report submitted by the Budget Committee mention was made of the fact that the patients sent to the University Hospital cost Marquette County an average of approximately \$300.00 apiece. Cooperation by the Judge of Probate, County Welfare Agent, Poor Commission and the Marquette-Alger County Medical Society was asked to reduce these expenditures. This cooperation has been given. This cooperation has been given and at the present time no cases are sent to Ann Arbor except those that cannot be treated in the local hospitals. Patients formerly going to the University Hospital are now being treated in Ishpeming, Negaunee and Marquette at a greatly reduced cost to the taxpayer. A new schedule of rates has been submitted by the Medical Society, showing a reduction of 20 per cent over the old rates.

✓ Aid for Dependent Children

Pursuant to the suggestion made by the Budget Committee, which suggestion was concurred in and approved of by the Board of Supervisors at their July meeting an investigation of those receiving aid under the provisions of this act has been under way by the County Welfare Agent and representatives of the Poor Commission and at least 21 of the 115 cases should be transferred because of various reasons.

✓ Insurance.

Your committee also recommends that an appraisal be made of all the county buildings in order to ascertain whether or not we are paying excess fire insurance premiums. An appraisal will determine the insurable value of the county's property, will give the right proportion to coverage between building and contents and will make it possible to take advantage of the reductions in premiums made possible by co-insurance. We are of the opinion that the cost of the appraisal can be met by the reduction in insurance premiums in a year or two.

✓ Morgan Heights Sanatorium.

We understand that there is a definite proposal before the State Administrative Board relative to the recommendation of a State Sanatorium for Tubercular Patients in the northern part of southern Michigan. We do not know that any thought has ever been given towards the establishment of such an institution in northern Michigan. There have been suggestions a number of times from certain members of our own Board of Supervisors that the Morgan Heights Sanatorium be turned over to the State. The Budget Committee is of the opinion that whenever an opportunity may present itself whereby the Morgan Heights Sanatorium may be transferred to the State that every effort be made by our Sanatorium Committee to consummate such a deal.

It is further the opinion of the Budget Committee that a special committee be appointed by the Chairman of this Board to investigate and promote such a plan.

In the Morgan Heights budget as presented for consideration at the annual meeting there is an item of \$20,000, covering payments expected from the State during 1933. In the Morgan Heights budget this item is credited to the estimated revenues for 1933, making a reduction in the amount to be spread on the tax roll of \$20,000. The Budget Committee, recommends, however, that the \$20,000 of State Aid be earmarked for interest and retirement of bonds.

✓ County Automobiles.

It is also the recommendation of your Budget Committee that the County purchase no passenger automobile at a cost to exceed \$800.00, factory price, except where the earnings of a passenger car will actually justify the purchase of a higher priced car. If the earnings of any passenger car purchased can be proven to justify a larger capital investment, we believe that the judgment of the commission in charge of that particular department should be concurred in.

We also recommend that where the operating and maintenance costs of any county

October 10, 1932

owned car is excessive that the same shall be disposed of. It is further recommended that suitable lettering at least three inches in height be stenciled on these cars designating the department to which it belongs.

It is further recommended that all county owned cars should be used to the fullest extent for the activities of the respective departments controlling such cars and that they should not in any event be considered as a personal car.

✓ Purchase of Supplies.

The committee in this report provides for a Purchasing Agent for county supplies and materials used in the County Court House. The committee feels that it is very much to the County's interest if the other departments and commissions when making purchases of any kind, use every effort to save in such purchases by the encouragement of competitive bidding. It is further suggested that in such bidding Marquette County firms and individuals be given every possible consideration.

✓ Supervisor Nicholas stated that the amendments to be voted on were so many that they were confusing and that in his opinion it would be a good idea if the voters be better informed regarding them, and moved that the Chair appoint a committee, consisting of the County School Commissioner, W. H. Newett, Fred Dougherty, and A. E. Moore to aid the electorate in this matter. The motion was seconded and carried and the chairman appointed the above named as such committee.

November 9, 1932

✓ Supervisor Mornoney moved that the resignation of Dr. Lojacono as Superintendent of the Morgan Heights Sanatorium be asked for to take effect December 31st, 1932, and that the Board proceed to take a secret ballot in this matter. The motion was seconded by Supervisor McNamara. Supervisor Sherwood moved as an amendment that the vote be taken by Yeas and Nays: The vote on the amendment was as follows: Yeas: 27; Nays-8; absent and not voting-4. Supervisor Nicholas stated that this was not a matter for the Board, but for the Morgan Heights Sanatorium Committee, and that this Board had no jurisdiction until it has been presented to that Committee and proof shown that no action would be taken. Supervisor McNamara asked leave to withdraw his support to the original motion. The same was granted. No substitute second was offered and the Chairman ruled that the motion lacking such support was not properly before this Board.

There being no further business the Board adjourned until Wednesday, the 9th day of November, A. D. 1932.

BOARD OF COUNTY ROAD COMMISSIONERS.

Ishpeming, Mich., October 27, 1932.

Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: Because of the action of the McNitt law the number of accounts which the Board of County Road Commissioners have on their books has multiplied to such a number as to make the bookkeeping system cumbersome and the understanding of the accounts confusing.

This matter has been under advisement by the Board of County Road Commissioners ever since it was known that this would develop through the adoption of the large number of roads.

It is the opinion of the Board of County Road Commissioners that it would be more advisable to carry accounts by Townships under which system any number of sub-accounts could be set up at pleasure but the total number of major accounts would be fixed and it would yield the information desired as to expenditures without recalculation for State reports and our own information.

In order that we may bring the matter to a head it is necessary that the small remaining balance in Roads 456 and 510 be closed out. All other appropriations have been expended for the jobs for which they were appropriated and all work done on the above jobs has been completed and these balances are left over.

It is requested that we be authorized to close these jobs and any slight balance which may be remaining in other accounts as of October 15th be credited to the Maintenance Fund.

Yours truly,
K. I. SAWYER,
Superintendent.

✓ The following report of the Committee on Highways and Bridges and the County Road Commission was read and adopted:

Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: Your Committee on County Roads and Bridges met with the Board of County Road Commissioners and the Chairman and Employment Committee of the Marquette County Branch of the Unemployment Committee on Friday, October 21, 1932 to consider matters of employment and road improvements under the bond issue floated by your Board.

The following conditions appear evident from the records and information before this joint meeting:

That a high mark of employment has been reached by the Road Commission of 1,386 men on their payroll in September and October of which 1,229 are labor exclusively of the work relief type and selected from the unemployment lists and many of the balance are rotated labor of semi-skilled character;

That starting November 1st or soon thereafter many of the mines of the County will start to operate, thereby furnishing employment for many of the men now idle or employed on the work relief projects, this employment being both to those men directly employed in the mines and indirectly to many others who will earn a livelihood by virtue of the large amount of money put in circulation through the operation of the mines;

That in addition to the starting of the mines at least one and probably two woods operations are assured in Wells Township and at least one in Skandia Township and several smaller woods operations are reported;

That in addition the railroad shops in Marquette will re-employ a considerable number of men, and

That two large State Highway Department jobs are expected within the County during the winter months.

Contrary to these favorable factors we must remember that the stockpiles of ore are so large that winter operation of the mines may preclude their operation next summer and there are other factors which might produce an economic situation by spring or early summer wherein the large employment of men by the Road Commission would be more necessary than at present; therefor

The three bodies in joint session report and recommend the approval of your Board to a schedule of work which would employ by the County Road Commission for the winter, from 700 to 800 men.

Your Committee has reviewed the plans of the Commission for this work and recommends their approval. They are too detailed to include herein.

We further recommend that your Board authorize the Committee on Roads and Bridges to meet with the Board of County Road Commissioners and with power to act; should any change in the economic situation require other disposition in the matters above reported that is herein recommended.

Yours truly,
 COMMITTEE ON COUNTY ROADS AND BRIDGES,

 BOARD OF COUNTY ROAD COMMISSIONERS,
 By J. E. Nelson, Chairman,
 MARQUETTE COUNTY UNEMPLOYMENT COMMISSION
 By P. By Spear, Chairman.

The monthly reports of the County Treasurer and Morgan Heights Sanatorium were read and ordered filed.

✓ The report of the State Auditors which was received on October 10, 1932 was presented and referred to the Chairman of the Auditing Committee.

✓ Upon motion made and seconded G. R. Jackson was named as Poor Commissioner to succeed himself for the ensuing three years and Guy Schutte as School Examiner for the ensuing two years.

December 21, 1932

✓ Upon the request of the Secretary of the Marquette County Fair Association, Evert Laine of Turin Township was named as Director of that association to fill vacancy caused by the death of James Findlay.

✓ It was moved by Supervisor Yungbluth that the matter of the County Treasurer's Bond be referred to the Prosecuting Attorney to investigate and report at the next meeting of this Board.

✓ The clerk stated that although this County was acting under the provisions of Act Number 14 of the Special Session Laws for 1932, whereby all agreements, bonds, securities, etc., that were in his keeping as sureties for public funds had been returned to the several banks as provided by this act. He did not believe that this should continue and advised the Board that they should in his opinion have some security for public monies. In compliance with the suggestions it was moved, supported and carried that the Chair appoint a Committee on this matter and report back at the next meeting of the Board. The Chair appointed as such Committee, Supervisors Sherwood, Nicholas and Stakel and the Prosecuting Attorney.

✓ Supervisor Stakel reported that the contract for the coal bin had been awarded to F. R. Larson and the Committee had decided to install the iron-fireman and the contract was given to F. E. Carter.

There being no further business the Board adjourned until Wednesday, the 21st day of December, A. D. 1932 at 2:15 p.m.

Ishpeming, Mich., December 3, 1932.

Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: In connection with work relief under the bond issue one of the projects it is expected to work on is County Road 480 in Negaunee Township between Ann Street and the Eagle Mills school.

When this line was originally surveyed it was contemplated that the road would cross the Queen Mine branch of the L. S. & I. with a grade separation. The cost of this grade separation is such as to preclude such work at the present time either to the railroad or the county. There is also the question of the jurisdiction of the Public Utilities Commission of the proposed crossing as such a separation will fall within the city limits of Negaunee. The previous line without the operation would give rise to a dangerous railroad crossing and is therefore not feasible at this point.

For the above reasons it is not practicable to build this road on the line as it was surveyed several years ago and for that reason a different alignment has been surveyed across Section 4, T 47 N, R 26 W from the one on which the Cleveland Cliffs Iron Company and the Arctic Iron Company granted us right of way in 1928.

The Cleveland Cliffs Iron Company has agreed to make an even exchange of the right of way heretofore acquired for the one needed on the new alignment and inas much as their former conveyance read to the County of Marquette, in order to affect this exchange it is necessary for the Board of Supervisors to

December 21, 1932

render quit claim deed for the right of way heretofore conveyed and the same companies will issue right of way deed for the right of way needed.

We request the Board of Supervisors to pass the necessary motion authorizing the Chairman and Clerk of the Board to execute such quit claim deed, copy of which is hereto attached.

Yours truly,
BOARD OF COUNTY ROAD COMMISSIONERS.

✓ The following communication was read and upon motion made and seconded, request was granted.
Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: At a meeting in Munising on November 12th a program of betterment work on the State Trunk Line Highways in the Upper Peninsula was proposed, having as its intent the furnishing of needed work relief in the various Counties of the Peninsula, a summary of the general plan being as follows:

That the State Highway Commissioner would seek from the Reconstruction Finance Corporation a loan of \$2,000,000.00 for use in the Upper Peninsula Counties during the nine months period January 1, 1933 to October 1, 1933.

That when received this money be utilized in the various Counties for paying for work relief on betterment projects on the State Trunk line Highways.

That the State repay this loan to the Reconstruction Finance Corporation by making deductions from future allotments of Federal Aid for highways to Michigan. This is contemplated in the Act of Congress which makes such a loan possible.

To accomplish this purpose with the requirements of the Reconstruction Finance Corporation rules. Qualifying blanks are now being made out and it is expected to forward them to the proper authorities within a day or two. It is hoped that Marquette County can qualify and receive a needed portion of this work relief.

The money received on this loan must go directly to the payment of labor and items covered in the Act of Congress. No portion of these funds may be used for purchasing materials or supplies, rental of equipment or other associated items. The State has no money for such purpose and therefor if it is expected to get any portion of this money in Marquette County it will be necessary for Marquette County to provide for the payment of items for which the loan funds may not be used.

The Board of County Road Commissioners Recommend: that the Board of Supervisors authorize the Board of County Road Commissioners to enter into agreement with the State Highway Commissioner of Michigan to perform betterments work for work relief of unemployment on the State Trunk Line Highways within the County; and further authorize the Board of County Road Commissioners to furnish engineering and supervision on such betterment work without cost to the State; and authorize the Board of County Road Commissioners to furnish all necessary equipment without charging the customary equipment rentals to the State; and further that the Board of County Road Commissioners be authorized to furnish all necessary materials and supplies and to pay therefor out of County monies and to not expect reimbursement from the State for such materials and supplies unless or until funds shall be made available to the State Highway Department to pay for such materials and supplies; and further to authorize the Board of County Road Commissioners to pay from the Highway Bond Improvement Fund or monies not otherwise specifically appropriated such costs as are necessary for equipment, supervision, materials and supplies; and further to authorize the Board of County Road Commissioners to pay from the Highway Bond Improvement Fund or monies not otherwise specifically appropriated such costs as are necessary for equipment, supervision, materials, and supplies on work done for the State as is herein provided and which are not payable from the money received by loan from the Reconstruction Finance Corporation.

We request approval of our recommendation and authorization on all matters recommended at this meeting so that negotiations with the State may go forward as rapidly as possible.

Yours truly,
BOARD OF COUNTY ROAD COMMISSIONERS,
Marquette County, Michigan.

By J. E. Nelson, Chairman.

✓ The following communication was read and the recommendation of the County Road Commissioners unanimously adopted:
Honorable Board of Supervisors, Marquette County, Michigan.

December 21, 1932

Gentlemen: Pursuant to the terms of Act No.41 of the Public Acts of Michigan Extra Session of 1932, the Board of County Road Commissioners recommend:

1st. That the principal and interest on the County Highway Improvement bonds of this County Issue of October 1932 which shall be due and payable in the calendar year 1933 be paid from the money paid into the County under the terms of sub-Section D, Section 19 of the above mentioned act as provided in sub-Section 2 of Section 19-A in said act and that after provision for payment of the interest and principal payments on said bond issue for 1933 the balance of money remaining in that part of the gasoline tax payment made to the County under said sub-Section D of Section 19 of said act be divided between the Cities and the County in accordance with sub-Section 5 of Said Section 19-A.

The monies referred to are the new monies from the gas tax returned in accordance to the above mentioned act of 1932 which is commonly called the Horton Act and the monies are commonly referred to as the second half of the weight tax. The recommended procedure is in accordance to said act and maintains the statutory priority in the use of this money, except that the Road Commission is not recommending giving sub-Section 4 consideration. Under the terms of sub-Section 4 your Board has the option to divide the money remaining after payment of principal and interest on the bonds so that only one-half of the remainder being divided according to sub-Section 5 of said Section 19-A as is herein recommended.

To give specific effect to this recommendation we further recommend: 1st-That the County Treasurer be directed to set aside from the monies paid to Marquette County in accordance with the provisions of sub-Section D of Section 19 of Act 41 P.A. Michigan Extra Session 1932 the sum of \$36,000.00, being from the payments under said Section before they are used for any further other purpose and that said County Treasurer be directed to pay the interest and payments on account of principal on bond issue for Highway Improvements issue of October 1932 and which shall become due and payable in the calendar year 1933 with the \$36,000.00.

2nd-That any money remaining in that part of the gasoline tax money paid to this County under terms of sub-Section D of Section 19aforesaid, be apportioned to the Cities, and to the County as is by said act provided, and that the City proportions be paid to the respective City Treasurers. Such balance of funds from sub-Section D monies to be apportioned as follows:

to City of Ishpeming	20.959	%
City of Marquette	33.553	%
City of Negaunee	14.865	%
County of Marquette	30.623	%
	<u>100.000</u>	%

And we further recommend that the proportion of the above money apportioned to the County from monies from said sub-Section D and all monies paid to the County under sub-Section C of said Section 18 of Act 41 be utilized by the Board of County Road Commissioners for the maintenance and improvement of the County Roads of the County including thos roads heretofore or hereafter adopted into the County Road System under the terms of the McNitt-Holbeck-Smith Act.

Yours respectfully,
BOARD OF COUNTY ROAD COMMISSIONERS,
Marquette County, Michigan.

The following report of the special committee on the question of the deposit of county monies was read and upon motion duly made and seconded unanimously adopted:

To the County Board of Supervisors, Marquette County, Michigan, on the Question of Deposit of County Moneys.

Your committee respectfully reports that it has examined to the extent of its ability the questions submitted to it by the County Board, namely, as to the manner and method of deposit of public funds of this County in the banks of the County, and the amount of security, if any, for such deposits now held by the County, and the question as to whether security in the shape of security bonds deposited or segregated for the purpose of securing these funds should be demanded from depository banks.

December 21, 1932

Formerly, and for a number of years, county and state funds were deposited by the County Treasurer in one of the banks of this County, and this bank furnished security bonds for such deposit in an amount at one time, we understand, of one hundred and twenty-five thousand dollars, which was later increased to two hundred and fifty thousand dollars. This bank was solely responsible for these funds and it split up these deposits among the other banks in the County without security bonds running to it for such deposit. This method did not work out in an entirely satisfactory manner. The deposits were later made by the County Treasurer in the various banks of the County in certain proportions determined by this Board, and the various banks gave to the County security, each bank securing its own separate deposit.

Prior to the passage of the so-called Turner Act, being Act No. 22 of 1931, the statutes of Michigan required that all banks acting as depositories of public funds furnish security bonds to secure such deposits, and it was held by the Supreme Court of this State that any deposits in any bank made without such security bond was a preferred claim against such bank, taking preference ahead of ordinary depositors.

In 1931, the so-called Turner Act, Act No. 22, of that year, provided that any bank or trust company designated as the depository of public funds might, in lieu of the required depository bond, deposit in designated places certain securities named in the Act.

At the special session of the legislature in 1932, Act No. 40, known as the Espie Act, was passed, amending the law of this subject and permitting banks or trust companies designated as depositories of public funds to either deposit certain bonds or to segregate such bonds as security for public funds deposited with them under an agreement between the bank and in this case, the County Board of Supervisors; and this law provided further that any law requiring a depository bond from banks or trust companies as to public funds should be suspended until July 1, 1933. After the passage of this Act, and on June 27, 1932, this Board designated certain banks of the County as depositories and by resolution released the security deposited by the bank as security for these deposits. None of these deposits are at present secured.

The questions which naturally arise from this condition are:

1. Are public funds deposited in banks designated by the County Board as depositories a preferred claim against such bank.
2. Under the circumstances existing, is the County Treasurer and his surety liable in any way on these deposits.
3. May the County Board of Supervisors make a new designation as depositories of such banks of the County as it desires and condition that such designation shall take effect when the banks so designated either furnish security bonds or deposit or segregate proper bonds securing such deposits?
5. Is it advisable so to do?

In answer to the first question, your committee is advised that under the present conditions, the funds deposited in the designated banks by the County Treasurer is not a preferred claim against such bank or banks.

In answer to the second question, your committee reports that they are advised that the County Treasurer, and his bondsmen are in no way liable for these deposits.

In answer to the third question, your committee reports that they are advised that the County Board may, if it is deemed best, withdraw the designation of depositories of public funds.

In answer to the fourth question, your committee is advised that it is wholly within the power of the County Board to withdraw its designation of depositories of public funds with such conditions as the Board may see fit and the law permits.

In answer to the fifth question, your committee respectfully reports that that is a matter wholly for the decision of this Board, but it deems it best to give to this Board your committee's judgment on the matter arrived at after much study and thought.

Your committee deemed it best in this matter to have a meeting with the banks of this County and to put up to these banks the whole situation. Every bank in the County of Marquette was represented at this conference.

It developed that the cost of security bonds for an amount required under the Espie Act could not be borne by the banks without losing money on such deposits; in other words, that the deposit of public moneys in such banks would not pay the banks the amount which would have to be paid for such bond and that such cost would be too high to make it a good business proposition for the

December 21, 1932

County to stand a reliable bonding company, and of this there is grave doubt.

It appears that it is impossible or practically so to obtain depository bonds from reliable bonding companies today.

It was the unanimous decision of all the banks of the County that it would not be good banking or fair to their general depositors to deposit a part of their assets to secure this or any deposit, and that while they appreciated the deposit of these public funds, if such deposit was made contingent upon making a preference to the possible injury of their other depositors, they would have to decline the deposit.

This position of the banks of the County meets with the unanimous approval of your committee. We are of the opinion that no individual or corporation, public or private, should have any preference as a depositor in any bank beyond that of every single individual depositor in such bank.

The legislature will meet next January and will undoubtedly take some action before the Espie Act, which suspended the operation of the law requiring depository bonds as to public funds, expires, the first day of July, 1933; and until the legislature takes such action, the bankers of this County unanimously stated to your committee that this matter should be allowed to rest as it is.

If this Board concludes that it should withdraw its designation of these banks as depositories and should or should not name depository banks in a new resolution having conditions as suggested above, and the banks do not meet those conditions, then, in the judgment of your committee, the County Treasurer, would be obliged to furnish a security bond covering practically the greatest amount of money which he will have in his possession at any time, and the cost of this bond will amount to a considerable sum of money a much greater sum than the Treasurer's bond now costs the County, if such a bond can be obtained, of which fact your committee is uncertain. The Treasurer must deposit public moneys somewhere. The law does not now require depository bonds. If the expense of depository bonds is prohibitive, as it apparently is, and the banks will not deposit or segregate other securities as security for these public deposits, the present method of handling these funds must in your committee's opinion be continued.

In view of all the conditions, your committee recommends that until further action as to this matter is taken by the legislature, public funds be deposited under existing methods. Your committee further recommends that hereafter the amounts received from the various depositories of public funds as interest upon such deposits be segregated and put into a separate fund to be invested by some officer of the County to be designated by this Board in bonds or securities of the State of Michigan or of the United States of America, such securities or bonds to be safeguarded by such officer and disposed of for the purposes hereinafter named, as this Board may from time to time direct, and with power to invest and re-invest, and to collect and, as this Board may direct, invest dividends and interest received in new and like securities and bonds, which fund shall be known and designated as "Security Fund" and shall be accumulated until the market or cash value of such fund or securities amounts to at least the sum of \$50,000.00, and such fund to be used only to cover uncollectable defalcations, if any, and other uncollectable losses of County moneys. When and as such "Security Fund" exceeds the sum of \$50,000.00, all earnings of such fund in the way of interest or dividends shall immediately be covered into and belong to the general fund of this County. Whenever the market or cash value of such fund shall be less than \$50,000.00, the interest received by the County from depositories of public funds shall be used for investments in like bonds and securities until the said "Security Fund" shall have again reached the sum of \$50,000.00.

Dated at Marquette, Michigan, this 21st day of December, A. D. 1932.

Respectfully,
M. J. SHERWOOD
T. J. NICHOLAS

To the Honorable Board of Supervisors.

The question referred to this Committee by the County Board at its last meeting in November was:

Shall the County of Marquette have an appraisal of its insurable properties made by an accredited appraisal company?

This is purely a question of good business. The total outstanding insurance of the County as furnished us by the County Treasurer is approximately \$854,750.00. This includes about \$41,000.00 of compensation insurance.

It is safe to say that the property owned by the County has a present value of \$900,000.00 or more. This property is, to a large extent in buildings but to some extent in personal property. The County, in its many activities, owns property in various parts of Marquette County, and of different classes, some are residences, some buildings at the fair grounds and at the poor farm, county road buildings and property, Morgan Heights Sanatorium and equipment, and of course the Court House, Jail and Sheriff's residence and their equipment. No person can become familiar with all of these properties in detail and know the value and proper amount of insurance to be put on them without more effort and time spent upon the matter than any supervisor or committee of the Board of Supervisors will exert and spend or could be asked to.

If we should have a fire of more or less extent, there is no one today who

January 23, 1933

could testify to and no record from which anyone could learn the exact value of the property injured or destroyed.

We have in various places personal property and there is no inventory of that property kept by anyone who knows and could testify as to its actual present value, and if that property were injured or destroyed, we would be greatly handicapped in obtaining proper adjustment on our insurance. No one connected with the County in any way, and certainly no one who isn't connected with the County, is now able, in case of a dispute with an insurance company, to testify to the actual present worth of the property burned.

There are doubtless many men in Marquette County who could make, as to most of the property, a fair and perhaps an accurate valuation of that property but it is doubtful whether any local man could place a value on the buildings and on the varied personal property owned by the County.

A fire in the court room would destroy much of value, but how much, no one is qualified now to state, nor does anyone know the value of the furnishings of that room or the value of the furnishings of the supervisors' room, or for that matter any of the other offices in this building. With a lack of that knowledge it is impossible for any man to decide what a fair amount of insurance on them amounts to.

An accredited appraisal company is of great assistance to the insured in obtaining, in case of loss, a fair adjustment of the insurance, and in case of fire would well be worth more than the cost of the appraisal. The appraisal company will annually keep up to date this appraisal at an annual expense of about \$120.00, and will furnish, without further cost except actual expenses, in case of loss, expert aid to the County in making the appraisal of the loss and assisting with the adjustment with the insurance company. In this way the County is constantly in possession of the actual replacement value of the property owned by the County.

We have no doubt that an appraisal will show that many changes are advisable in the insurance now carried by the County. In some cases it will show property owned by the County which should be insured that is not now insured. It will show in all likelihood double insurance upon the same property. It will doubtless show properties over-insured, and properties underinsured. What I mean by that is that it will show that we are carrying more insurance on some properties than we can collect in case of total loss, and it will show in other cases that we are carrying less insurance that we should carry on account of the value and risk of the property insured.

Your committee has given the matter close study and is satisfied that if an appraisal is to be made, it will be to the best interest of the County to have that appraisal made by the Lloyd-Thomas Company, appraisal engineers, of Chicago, Illinois, and elsewhere. This company appears to be thoroughly equipped in all ways is an old established company and with long years of accepted appraisals by insurance companies and with a well established reputation for thoroughness and accuracy in its appraisals.

This committee recommends that it, together with the Chairman of this Board, be authorized to enter into a contract with the Lloyd-Thomas Company to make an appraisal of all of the property of the County of Marquette, real and personal, excepting the County Parks, if a contract satisfactory to them can be entered into at a price not to exceed \$1,000.

John G. Stenglein,

M. J. Sherwood,

Charles J. Stakel.

✓ The following report was read and adopted and in compliance with the request in said report, the Chair appointed the same Committee act as an advisory committee in the matter of insurance:

This committee begs leave to make a further report which it deems should be made to this County.

The method heretofore adopted in Marquette County in effecting insurance on its various property is bound to lack uniformity and to be a hit and miss method.

At present and during the past years, it has been the custom for each department of the County to insure what is wanted to or thought of, as it wanted to and in the amount it wanted to, as to the property under its charge or control. Thus the Court House and Jail have been insured by one branch of the County Government; property under the jurisdiction of the Poor Commission by it; property under jurisdiction of the Parks Committee by that committee; property under the jurisdiction of the County Fair Committee by it; property under the jurisdiction of the County Road Commission by it; and no central place for the keeping of the records of this insurance and no information in any committee of this Board or other place easily available as to the amount of this insurance or the value of the property insured, or whether there was property under the jurisdiction of these various boards and committees not insured.

All of these various policies have been reported to and the premiums paid by

January 23, 1933

the County Board of Supervisors, and the policies for the most kept in the County Treasurer's office.

We have had a table made by the Assistant County Treasurer of all the County insurance which is of record in that office. This record shows that there is a total lack of uniformity in policies of insurance taken by the various branches of the County Government, both in the length of time which these policies run and in the times when they expire, and even a difference of rate paid by the County for insuring the same property in different agencies.

This committee recommends to this Board that in the future the matter of insurance on all of the property belonging to the County of Marquette, whether under the jurisdiction of one branch of the County Government or another, be effected or at least be under the advisement of a small committee of this Board consisting of not over three members who can be easily and quickly assembled for meetings when necessary. The present committee on buildings and insurance is altogether too large and too scattered over the County to get together as frequently as is necessary to do this work.

M. J. Sherwood,
Charles J. Stakel,
John G. Stenglein.

✓ The following report of the Sanatorium Committee was read, after some remarks by a number of the Supervisors, the report was unanimously adopted. The Chairman of this committee stated that the committee wished to extend thanks to Mr. Sherwood for compiling this report. Supervisor Perkins also wished to thank the committee for this complete report and asked that the Legislative Committee be requested to keep in touch with the State relative to the construction of Sanatoriums.

To the Board of Supervisors of Marquette County.

The Committee on Morgan Heights Sanatorium, to whom was referred by this Board the proposition of possible transfer of the institution to the State of Michigan, deems it wise to report to this Board the condition, cost, expenses, operations, etc., of the institutions, and the probable result of a transfer of the institution to the State of Michigan, and to that end begs leave to report:

Your committee has been unable to determine accurately the total amount invested in buildings and equipment of the Sanatorium from the time of its inception. There appears to have been for a number of years no accurate segregated record kept showing the capital expenditures.

Since the beginning of the year 1923, we were able to report that the amount expended on capital investment, that is, on new buildings, repairs, improvements and equipment is \$316,352.00. Previous to 1923 there had been a considerable amount of money expended on capital investment.

It is safe to say that the present capital investment on this plant is \$400,000.00. A part of the buildings and a part of the equipment has become obsolete and can no longer, to any large extent, be considered as assets. These obsolete parts of the plant may be estimated at, roundly, \$25,000.00, leaving a probable net value today, if replaced, of \$375,000.00 capital invested.

There are unpaid outstanding bonds amounting to \$60,000.00.

The total cost of maintenance for the year 1932 was \$69,826.30. There was received from the State \$18,202.00 and from patients, etc., \$2,672.51 or \$20,874.51, making the net cost of operating the institution for the year 1932 \$48,951.79. In these figures we have taken into consideration only the actual cash outlay and cash received.

There was due and still is due from the State of Michigan for the year 1932 \$28,126.00, none of which has been paid. Of the \$20,874.51 credited as receipts from the institution for the year 1932, there was received from the State of Michigan \$18,202.00 due from former years. The State now owes Morgan Heights Sanatorium approximately \$50,000.00. Had the State of Michigan paid what should have been paid to the institution last year, the total net cost for operation would have been \$38,661.79.

The average number of patients in the hospital in 1932 was 79 per day—children 31, adults 48.

The average number of patients in the hospital in 1931 was 83 per day—adults 52, children 31.

The gross cost per patient per day in 1932 was \$2.435.

The net cost per patient per day was \$1.354.

January 23, 1933

This amount includes expenditures for all supplies, repairs, medicine, new apparatus, surgical treatments, eyes, ears, nose, etc., lights, heat, power, etc., etc., and for all the things excepting retirement of bonds and interest.

Since the first of July, 1926, there have been treated at Morgan Heights a total of 503 adults—an average of 77 per year. Of this number 168 died, 183 have been discharged with the disease either arrested or cured and are now following their usual occupations, 69 have left the hospital for one reason or another and not discharged and without the disease arrested or cured and who still are either ill or have not been located; 83 are still in the Sanatorium.

As to the Children's Unit—This unit was opened July 1, 1930. There have been treated in this unit since that date 141 children. There were 30 treated in the hospital in 1930, 62 in 1931 and 49 in 1932. Very few of these children stayed in the hospital but a brief time and for one reason or another, chiefly lonesomeness or homesickness, were removed by parent or guardian. It is safe to say, however, that of the balance at least 100 who stayed there until their discharge were sent away with their trouble arrested or cured.

Clinics—Aside from the work done at Morgan Heights, the Superintendent of the institution has conducted many public clinics in the Cities and Townships of the County. There have been at least five of these clinics per month. During that time, between 750 and 800 people have been given a thorough tubercular examination.

All patients discharged from the institution are kept track of and periodically, where it is possible to locate them, are, either at the hospital or these clinics, given an examination and check-up and advice as to what they should do.

Over 600 x-rays of patients have been made at the hospital.

The question is whether it is to the best interest of the people of Marquette County to continue to operate Morgan Heights or, if possible, to turn the institution over to State control and management, and to answer that question intelligently and properly, many things must be considered.

If the County continues to operate Morgan Heights, it can be expected that it will cost the County approximately \$40,000.00 per year for maintenance, if the same amount of assistance is continued to be given by the State. If the State should discontinue its aid, it will add just that much more to the cost of maintenance which must be borne by the County. Without State aid, the cost of maintenance for the year 1932 would have been approximately \$67,000.00. These estimated figures for future cost of maintenance are based upon the cost of materials and supplies necessary for the hospital remaining approximately where they are today. If the cost of these should increase, the cost of maintenance will likewise increase, if the cost of these decreases, the cost of maintenance will decrease.

The State at present pays one dollar per day for the maintenance of all indigent patients at Morgan Heights.

It is for this Board to decide whether it is to the interest of the people of this County to continue to maintain this hospital or to, if possible, transfer the property to the State of Michigan, and your committee deems it best to call the attention of the Board to the probable effect of turning the institution over to the State of Michigan.

State Control—If the State of Michigan assumes control of the institution, Marquette will have the same rights and only the same rights in the Sanatorium that all other counties in the State have. The State today maintains but one tubercular institution and that is located at Howell. It has 407 beds, all filled, and with 60 adults now on the waiting list. There are in that institution 100 patients from the 30 counties north of Roscommon including the Upper Peninsula and 11 from those counties now on the waiting list. Gaining entrance to that institution is a matter of effort and delay. There are in the upper part of Michigan and in the Upper Peninsula 27 Counties which at present have no tubercular hospital. These 27 Counties would have a right to demand admission to this hospital for their tubercular indigent patients, and would have the same right as Marquette. In order to accommodate patients from outside of Marquette County, who would demand and undoubtedly get admission to the hospital, Marquette would have to remove from the hospital many of those now there. It is doubtful whether Marquette could legally or equitably, if this were a state institution, claim admission for more than five or ten of the fifty-two adult patients now in the hospital.

It would be this Board's duty to decide what to do with the 40-odd patients that would have to be removed.

As to the patients left in or later sent to the State institution, the County would be billed for not less than one dollar a day per person for maintenance.

The laws of Michigan declare tuberculosis to be a communicable disease, and compel the various counties to take care of those having the diseases as a protection to the balance of the inhabitants.

January 23, 1933

As to the 40-odd patients which in all probability would have to be removed, and such new cases as arise in the future, the County would and will either have to send them to other tubercular hospitals or they would and will have to be provided with a place to live, proper attendants and proper food and medical services and other attendants as is deemed necessary by the various health officers and for which the County will be compelled to pay. What that expense may be, this committee has no means of estimating, but judging from other similar costs to the County, it will be plenty.

As to Children's Unit--No one can say what the State would do with that unit. At Howell, the children's unit has 84 beds, and it is, we are informed, always full, with a waiting list. Morgan Heights can only accommodate about the number that are there now--30 to 35 children. This only takes care of Marquette County children and would not be sufficient to care for them and children from the other 27 counties which would look to this institution for hospitalization for needy children. That would undoubtedly result in the closing of the children's unit or excluding from that unit a large percentage of the children of Marquette County now there and who will be therein the years to come.

It is for this Board to decide whether it is to the interest of the people of this County to have this unit closed or to have it only available for five or at the most ten of the thirty children of Marquette County who ought to be there all the time.

Clinics and Follow-Up--If the State took this institution and followed the same policy in it that it follows at Howell, or generally, there would be one clinic held each year and that would undoubtedly be held at the institution and not in the various townships and cities as they are now held. There would be no follow-up of discharged patients.

Are these clinics and follow-up of discharged patients of value?

Your committee is of the opinion that they are of great value, not only to the patient involved but to all those with whom the patient comes in contact, in detecting immediately the presence of tuberculosis or the renewed activity of the disease, and in the advice of treatment and conduct of the patient, for his benefit and for the benefit of the people at large.

It is, however, for this Board to decide this question.

Relative Cost--It is impossible for this committee to make anything like an accurate estimate of the difference in cost, if any, between the County continuing the Sanatorium and, if the State conducts it, paying the costs of caring for its indigent tubercular patients. Too many factors and possibilities enter into the picture.

If Marquette could have had hospitalization elsewhere for the number of patients cared for at Morgan Heights in 1932, at one dollar a day per patient it would have cost the County for maintenance of the 79, \$28,535.00 and traveling expenses. It cannot, however, be assumed that all would have been taken care of at Sanatoriums. There are not available beds enough. And there would have to be added on to this figure the cost of transportation to whatever hospital they were taken and the added amount which those hospitals would have charged Marquette County.

If we assume the State in control of Morgan Heights in 1932 and taking care of the greatest number which any reasonable man would expect the State to admit from Marquette County into that institution and hospitalization the balance in other institutions, the cost to Marquette County would have been, if we take the average amount which other institutions charge non-resident patients, approximately \$52,000.00 for these patients.

This is almost futile figuring because there could not have been found beds enough in tubercular hospitals in Michigan at these prices to accommodate the patients at Morgan Heights.

It is the opinion of your Committee that any effort to sell or give Morgan Heights Sanatorium to the State of Michigan under present conditions and at this time would be a futile effort. We have made inquiry of the powers-that-be at Lansing and this is our conclusion.

The committee has no recommendation to make, and submits this, its report, for action by the Board, and asks to be discharged from further consideration of the matter.

✓ Supervisor Stakel reported that a communication on tuberculin test for cattle

from Dr. J. J. Millimaki which was referred to the Agricultural Committee could not be reported on as he was the only member left on that committee and asked the Chairman to appoint two members to fill these vacancies, preferably from the rural districts. In compliance with the request the Chair, appointed Supervisors Anderson and Fassbender, as members of the Agricultural Committee.

Supervisor Stakel moved that in compliance with the report of the budget committee which was adopted by this Board at the Annual Meeting that the Custodian of the County Buildings be named as Purchasing Agent for the Court House and Jail. The motion was seconded and Supervisor Nicholas moved as an amendment that somebody outside of the Court House be named as Purchasing Agent. The vote on the amendment was 17 yes and 20 no. Voting on the original motion was 20 yes and 17 no. The motion being carried, Custodian was appointed County Purchasing Agent.

The reports of the County Treasurer, Superintendents of Poor and Morgan Heights Sanatorium were read and ordered filed.

Supervisor Stakel stated that the newly elected County Treasurer had not filed his bond in compliance with the Statute, he moved that the office be declared vacant, which was seconded and unanimously carried. The committee as provided for under Section 3369 of the Compiled Laws of 1929 made the following appointment:

Whereas, William J. Morrison, the duly elected Treasurer of the County of Marquette, State of Michigan, for the term of office commencing January 1st, 1933 and expiring December 31st, 1934, has refused and neglected to give and renew his official bond as such County Treasurer and has failed and neglected to deposit his official bond in the manner and within the time prescribed by law and whereas by reason of the foregoing failure to file and deposit such bond as required by law, the said office of Treasurer of Marquette County, Michigan, has become vacant.

E. Hayden of Ishpeming, Michigan, a suitable person to fill such vacancy in said office of Treasurer of Marquette County for the remainder of such unexpired term, namely; until the 31st day of December, A. D. 1934.

WALDO T. POTTER,
Judge of Probate.

FRANK G. JENKS,
County Clerk.

CLARENCE E. LOTT,
Prosecuting Attorney.

It was moved by Supervisor Sherwood that the Bond of County Treasurer be fixed at \$125,000.00, and be presented at this Board, at their next regular meeting for approval. Motion was duly seconded and carried.

Supervisor Ewing asked how he was to go about getting employment for some people in his Township and at the request of the Chairman, K. I. Sawyer, Superintendent of the County Road Commission explained to him the working of that committee. Supervisor Nicholas asked to have the name of this committee published and it was so ordered.

The following resolution was presented and unanimously adopted;

"Resolved, that the County Commissioner of Schools of Marquette County make every effort to secure dental service for the school children of Marquette County through the Michigan Children's Fund. The present dental needs of Marquette County indicate that some attention should be given to children as soon as possible, and it is hoped that some arrangements can be made with the officials of the Michigan Children's Fund for some type of dental service for Marquette County."

The bonds of John D. MacDougall, County Drain Commissioner, Charles Cummings, County Surveyor, and P. H. Garvin, Circuit Court Commissioner, were read and approved.

There being no further business the Board adjourned until Thursday, the 23rd day of February, A. D. 1933 at 2:15 o'clock p.m.

Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: A communication to your body, addressed to Mr. G. C. Dillman, from Nick Blake and others relative to initiating a State Trunk Line Road running West from Rock and extending from there to Mashek which was referred to the Board of County Road Commissioners and the Committee on Highways and Bridges was considered at a meeting of the Board of County Road Commissioners held on February 2nd, 1933.

This communication or petition covers subject matter which had come to the attention of the Board of County Road Commissioners from the same people and was considered at a meeting of the County Road Commission held on January 3rd, 1933.

At that time the Board of County Road Commissioners referred the matter to G. C. Dillman, State Highway Commissioner and we have had advice from Mr. Dillman that he would look into the project at his early convenience.

The matter of State Trunk Line Highways is under the jurisdiction of the

February 23, 1933

of the State Highway Department and not the Board of County Road Commissioners. The writer has therefor been instructed by the Board of County Road Commissioners to report the above status to your Board with the suggestion that the matter be allowed to rest with the State Highway Commissioner and that we do not go to the expense of a joint meeting of the Committee and Commission in the matter unless your Board so directs after receiving the above information.

Yours truly,

BOARD OF COUNTY ROAD COMMISSIONERS.
By K. I. Sawyer, Superintendent.

The report of the Auditing Committee was read and adopted by the following Yea and Nay vote:

Ishpeming, Mich., March 21, 1933

Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: The pay roll of the County Road Commission for the month of February was passed as usual on March 3rd, the pay roll account being in the Miners' National Bank.

The Miners' National Bank is now to go into the hands of a conservator and because of the short period elapsing between the 3rd when the pay roll was put through and the time the National Bank holiday was evoked there were a considerable number of County pay roll checks outstanding at the time the holiday was declared and as the funds which are now there will be tied up for some little time the Board of County Road Commissioners feel that these outstanding time orders should be forthwith taken care of through available County Road funds so that the inconvenience due to the holders may not be protracted and the account with reference to the fund in the Bank be entirely between the Commission and the Bank rather than with the many holders of the checks.

We would propose to do this forthwith and recommend the approval of your Board to the above procedure.

Yours truly,

BOARD OF COUNTY ROAD COMMISSIONERS.

Ishpeming, Mich., April 13, 1933

Honorable Board of Supervisors, of Marquette County, Michigan.

Gentlemen: Re: Cutting of wood and organizing of garden operations.

At your last meeting the matter of cutting wood and the organizing of garden operations in connection with the work for relief of unemployment which was referred at the last meeting of your Board to the Board of County Road Commissioners and the Superintendents of Poor with power to act.

The Board of County Road Commissioners and the Superintendents of Poor met in joint session on April 12th and considered this matter.

Pursuant to the authority given and the power to act the joint meeting appointed a committee composed of S. R. Elliott, G. R. Jackson and John Robertson as a special committee to organize, promote and put into execution the cutting of wood and the making of gardens.

The matter of financing this was discussed at this meeting and it appears that if Senate Bill No. 109 is enacted into a law there will probably be a solution thereof more satisfactory than has so far been discussed. Your committee will therefore report further with details of financing methods and request your approval thereof at your next meeting.

Yours truly,
BOARD OF COUNTY ROAD COMMISSIONERS.

MARQUETTE COUNTY PUBLIC SCHOOLS

Marquette, Mich., May 17, 1933

Honorable Board of Supervisors, Marquette County, Michigan.

Gentlemen: In accordance with your request of several months ago, I have contacted the Director of the Dental Service of the Michigan Children's Fund, best known as the Couzens Fund, and I am pleased to report that Marquette County is to have a summer Dental Health Unit, starting on June 6 and continuing until September 16. During this time a full-time dentist will be assigned to the township districts of Marquette County, and three or four dental health centers will be established at convenient points in the County for the giving of such dental treatment to indigent boys and girls as may be required. This service will be limited to children of pre-school age and children in the grades from Kindergarten to Eighth. It is necessary to limit the service this summer as stated so that the best results may be obtained.

All Superintendents of Schools in the township districts and teachers in the rural schools have been sent a bulletin on this date, advising them of the establishment of a dental health unit in Marquette County, and requesting them to submit lists of indigent children who need dental attention. I urge the Supervisors of the townships to cooperate in this movement and to make available to me such names of children as in their estimation are indigent and in need of dental care.

In order to carry on this work a Dental Advisory Committee has to be organized. This committee will be organized at a meeting to be held at 3 o'clock, Central Standard Time, on Friday afternoon, May 19, at the Northern Michigan Children's Clinic. Any Supervisor who is interested may attend the meeting, and I suggest that at least a committee of the Board be designated to attend this meeting.

Under the agreement with the Couzens Fund, it will be necessary for the County to provide an assistant for the dentist. The assistant need not be a trained person, but someone who can learn in a short time to make out the necessary cards and forms, and to assist the dentist in the handling of materials and equipment. I trust the Board of Supervisors will see fit to employ someone, and I anticipate such an assistant can be employed for \$7 or \$8 a week. Since the work starts on the 6th day of June, I request that a committee from the Board of Supervisors, with the County Commissioner of schools, be given authority to select an assistant to the dentist who will be assigned to the Marquette County Unit.

I attach herewith a copy of a bulletin sent to the schools today, advising them of the establishment of a Dental Unit.

Very truly yours,

WALTER F. GRIES,
County Commissioner of Schools.

BOARD OF COUNTY ROAD COMMISSIONERS.

Ishpeming, Mich., June 21, 1933

Honorable Board of Supervisors,
Marquette County, Michigan
Gentlemen:

In the matter of welfare relief by work relief and dole and matters pertaining to R.F.C. allotments and relief grants under the new Federal Administration all of which matters are referred to the Budget and Executive Committee and Board of County Road Commissioners with power to act.

The Federal Emergency Relief Administration took over the administration of relief of destitution from the construction Finance Corporation on May 19th. This change in administration, together with changes going on in Lansing, has created much uncertainty and confusion in proceedings.

In the interim since the last meeting of the Board of Supervisors there have been three joint meetings of the Executive Committee and Board of County Road Commissioners and in the same interim apportionments of R. F. C. funds have been made to Marquette County as follows:

For period May 1 to May 19, the sum of \$40,427.00. This sum was apportioned by joint action as \$15,000.00 for direct relief and the necessary resolutions covering the same providing for the contracts with the State therefore are before your Board for approval at this meeting, the balance \$25,427 to be taken through the State Highway Department for work relief.

For balance of May	
Elected to take through State Highway Dept.	\$4,585.00
Received from the Federal Administration and allocated to Road Commission for work relief	<u>26,000.00</u>
Total to be used for work relief	\$ 30,585.00

No contracts or agreements are necessary on this account.

We have further been advised that one-third of the request for June has been allotted to Marquette County, which would bring in a sum of \$23,207, and on this assurance the Road Commission has been advised to continue work relief until July 1st and directed that \$20,000 of this sum would be credited to the County Road Commission and balance to the Poor Department payable with R. F. D. funds to July 1st.

We recommend approval of the above acts and that the Executive Committee be authorized to continue in this capacity to meet jointly with the Board of County Road Commissioners and with power to act.

Yours respectfully,
EXECUTIVE COMMITTEE, BOARD OF SUPERVISORS,

BOARD OF COUNTY ROAD COMMISSIONERS

Ishpeming, Mich., June 23, 1933

Honorable Board of Supervisors,
Marquette County, Michigan
Gentlemen:

I am attaching hereto copy of a letter addressed by Colonel James Sinke to the County Treasurer of Marquette County which came into my hands today and pertaining to the \$13,579.37 fund turned over by the State Highway Department to the Welfare Department.

I believe this above amount includes \$8614.50 of money which should have come to us in January and February and which was impounded in the State Highway Department account and which I now believe to be payable to us under our former payroll agreement with the State but for some reason was returned to the Welfare Department instead of being paid to us by the State Highway Department. The balance of the

June 26, 1933

money represents money in the May allotment which we could have used under our payroll agreement but which was not used due to the interruption of work by State orders which suspended welfare relief road operations between May 12th and 26th and made it impossible to work out this item.

I would recommend that the Board of Supervisors pass a resolution similar to the one for the \$15,000, which is pending before you at this meeting, naming therein a sum (not to exceed \$14,579.37) to cover this letter and would further suggest that the County officers would not immediately apply for the contracts on this until there has been sufficient time to ascertain if we cannot secure the \$8614.50 through our former agreement, making the balance for which we would enter into a contract of \$4,964.87. This \$13,579.37 represents funds which it had been our understanding would be available for road work and to carry on the work performed during the last week of May and during the current month. For that reason I request that the County Treasurer be directed to credit these to the County Road Fund.

I am making suggestion that we pass the resolution in the above matter as these accounts are being closed out in Lansing and we should forthwith complete all necessary agreements.

Yours truly,
BOARD OF COUNTY ROAD COMMISSIONERS OF MARQUETTE COUNTY, MICH.
K. I. Sawyer, Supt.

BOARD OF COUNTY ROAD COMMISSIONERS.

Ishpeming, Mich., June 21, 1933

Honorable Board of Supervisors,
Marquette County, Michigan.
Gentlemen:

On December 20th, 1932 communication was sent to your Honorable body by the Board of County Road Commissioners covering the apportionment of the money to be received under Horton Act (so called) of the special session of 1932.

At the session of the present Legislature a bill known as the Kulp Bill, being Senate Enrolled Act No. 21, has been passed and given immediate effect, and which abrogates the previous apportionment of money under the Horton Act.

Pursuant to this Senate Bill No. 21, the Board of County Road Commissioners recommend that the moneys, coming to Marquette County under the terms of said Senate Enrolled Act No. 21 of the session of 1933, which amended Act 150 P. A. 1927, as amended, and added to by Act No. 41, first extra session 1932, be allotted apportioned, and used as follows:

This money be used first for the following purposes:

To make payment of interest on the Highway Improvement Bonds for payment due in April 1932, \$9,000 plus the disbursing fees.

To make payment of principal and interest due in October 1933, \$27,000 plus the disbursing fees.

To make payment of interest due in April 1934, \$9,000, plus the disbursing fees.

Those portions of this fund are to be used for the payment of principal and interest in the year 1933 to be deducted from the first settlement received by the County of such so called Horton moneys and before the funds are used for any other purpose. The payment for interest in April 1934 to be deducted from the last settlement for the year 1933 made on account of these funds, this later apportionment of these funds for the interest payment of April 1934 comes due for payment prior to the date on which the first settlement of Horton moneys for the year 1934 is specified in the statutes.

We further request that the County Treasurer be directed to set up such \$36,000 plus disbursing fees from the first Horton money settlement for 1933, and \$9,000 plus disbursing fees from the last Horton money settlement for 1933, in a special fund to be used exclusively for the payment of interest on and the retirement of principal of the County Highway Improvement Bonds.

The Board of County Road Commissioners further recommend that they be authorized to make payment from such Horton funds, aggregating not to exceed \$3,500, to pay for

✓ Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--Since the last meeting of the County Board your Executive Committee and the County Road Commission have had four joint meetings each at a time when the program for work relief of destitution had reached a point where the funds heretofore received for such purpose had become exhausted and the program was set to be suspended.

During this interval checks for \$12,970.25, \$13,000.00 and \$7,904.23 were received and by action of the Committee the County Treasurer was directed to credit these to the County Road Commission accounts and the money to be used on the work program. The Poor Department had sufficient Federal funds on hand to pay all accounts of that Department, which could be paid from such funds for the month of June, and had a balance as reported to the Committee of such funds of \$569.98 on July 1st.

At our last meeting and after careful consideration of the situation including assurance from the State Administrator and others that the balance of money necessary for July needs would be forth coming, the County Road Commission was directed to continue the work relief program through July.

We recommend approval of these acts and the continuing of these joint meetings, with power to act, as matters for August are not at this time in shape to act upon.

In the matter of the request for a contract for \$13,579.37 of Federal money, resolutions for which were passed as for not more than \$13,579.37 at your last meeting, all controversial matters have been adjusted and the contract should be signed for \$4,964.87.

Mr. Frank G. Jenks, County Clerk,
Marquette, Michigan.

My Dear Sir:--Your attention is called to enrolled Act No. 175, 1933 session of the Legislature, whereby each county is to set up a Commission of three to administer the Old Age Pension Law.

The Old Age Pension Board in each county shall consist of the County Welfare Agent, who shall act as chairman of the Board and have custody of the files and records pertaining to the Old Age Pension; the Probate Judge, who shall serve during his term of office; and one woman to be appointed by the Board of Supervisors for a term of three years.

I respectfully request that this appointment be brought to the attention of the Board of Supervisors to be acted upon in the next regular or special session and that you as County Clerk shall then certify the names and addresses of each member of the county Board to the Director of the State Welfare Department.

You will also call to the attention of the Board of Supervisors, if they have not already provided for it, that under the law they shall provide space in the County Office Building for the use of the Old Age Pension Board.

Very truly yours,
W. S. CARPENTER, Director.

Mr. Frank G. Jenks, County Clerk,

Dear Sir:--Mr. C. E. Kearns of Negaunee, a member of the Board of Trustees of the Marquette County War Relief Fund, has resigned. At the next meeting of the Board of Supervisors, which I understand is on August 30th, will you kindly appoint a member to fill Mr. Kearns' vacancy? I quote from Article 6 of the Trustees Agreement:

"At least three of said nine trustees shall have served in the Army or Navy of the United States during the World War. Upon the death, resignation or removal from the County of a member of the Board of Trustees, his successor shall be appointed by the Board of Supervisors of the County of Marquette, and such successor shall be selected from the community of which the previous member was a resident, or in the case of a representative from a township, then such successor shall be chosen from the same general section of the County where the previous member resided."

This appointee should be someone who has served in the Army or Navy of the United States during the World War. Since Mr. Kearns' resignation, Mr. H. J. Choquette of Negaunee, who is an ex-service man and former Welfare Officer of the Negaunee American Legion, has been assisting in the office vacated by Mr. Kearns.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--Your executive committee and the Board of County Road Commissioners have held three joint meetings at each of which the Poor Commissioners were also represented.

Checks for \$34,825.00, \$12,910.82, and \$35,000.00 were received during the interval and of this \$14,825.00 was ordered placed to the order of the Poor Commissioners in the Poor Department Emergency Relief Fund for direct relief and the balance to the order of the County Road Commissioners in the County Road Emergency Relief Funds for work relief. Both funds being new funds created to comply with the new requirement that these moneys be kept separate from other County Funds.

At the meeting held on July 29th the Road Commission, with approval of the Executive Committee, adopted the President's NRA Code and put a wage of 40 cents per hour for eight hours' work into effect, starting August 1st.

On August 29th the above joint body met with the newly created Marquette County Welfare Relief Commission, composed of Messrs. Cowpland, Jacques, and Thomas. By their direction the Board of County Road Commissioners and the County Poor Department have been instructed by your joint bodies to continue to function as heretofore until further notice. August 30, 1933

✓ The following report was read and Supervisor Nicholas moved that the first three sections of the report be adopted and the fourth section be acted upon separately. Motion was seconded and carried. No action was taken on the fourth section of the report.

Marquette, Mich., Aug. 30, 1933.

The Honorable Board of Supervisors,
Marquette County:--

Your Poor Committee, to whom was referred various matters at the last regular meeting, have given them careful consideration and report as follows:

The charges made by Supervisor Patient of Wells Township were taken up and on invitation of the Poor Commission considered at a joint meeting with them. Mr. Patient was present and made his charges personally. After thoroughly investigating all the charges made it is our opinion that the Poor Commission acted lawfully and wisely in all the matters referred to.

The petition from Ewing Township, signed by 54 residents, asking that the County provide work for their unemployed was jointly considered and we hereby refer back to the Board of Supervisors as it is addressed to the wrong department. The County Road Commission is the only department hiring men for that work. The matter of Red Cross flour asked for in the petition is also referred back, there being no such flour at present.

We have been approached by various parties asking us to recommend that the Director of the Poor Commission maintain an office in the Court House. By a vote of three to one we decided to refer the matter to the Board of Supervisors without comment.

W. J. WISEMAN, Chairman.
W. H. OAKLEY, Secretary.
WILLIAM NELSON.
T. J. NICHOLAS.

✓ Supervisor Nicholas moved that this Board request the contact Poor Committee to notify the Poor Commission that the Board recommend that the office of Poor Director of their Department be abolished. Motion was seconded by Supervisor Jenkin and unanimously adopted.

The reports of County Treasurer, Morgan Heights Sanitarium and Red Cross Nurse were read and ordered filed.

Supervisor Stenglein, Chairman of the Buildings, Grounds and Insurance Committee asked for and was granted more time to make the Committee report on Insurance.

✓ Supervisor Muck moved that the Poor Committee of this Board receive the same per diem and mileage as other committees, which was seconded and adopted by the following Yea and Nay vote:

Yeas --- Anderson, Blake, Curnow, Danielson, Dolf, Ewing, Fassbender, Frei, Ghiardi, Gribble, Heikkila, Hemmila, Hill, Jenken, Jory, Koski, Labold, Laine, Moroney, Mongrain, Muck, Munson, McNamara, Nelson, Nicholas, Nightingale, Oakley, Patient, Richards, Stakel, Stenglein, Swanson, Tousignant, VanRiper, Watters, Wiseman, Yungbluth, and Perkins--38.
Nays--None.

✓ At the request of Supervisor Stakel a recess of ten minutes was taken. Upon reconvening the Committee on Finance and Taxation reported that the petition of the County Depositories relative to the discontinuing of paying one per cent interest on daily balances, which was referred to this committee, was discussed and the Committee recommend that the petition be denied. It was moved that the recommendation of the Committee be adopted, which was seconded and unanimously carried.

✓ The contracts with the Finnish Hospital of Ishpeming, Twin City Hospital of Negaunee, St. Mary's and St. Luke's of Marquette for the care of County patients for the year beginning June 1st, 1933, were presented and on motion ordered signed by the Chairman and Clerk of this Board.

Ishpeming, Mich., Oct. 3, 1933.

To the Honorable Board of Supervisors of Marquette County.
Marquette, Michigan.
POOR FUND APPROPRIATION

Gentlemen:--We have given the matter of Poor Fund requirements for next year careful consideration. In view of the general depression, we believe that the demands on the County for relief during the coming year are going to be extremely heavy. We realize that the tax limitation for County purposes is six mills on the assessed valuation and we are entitled to only a proportionate share of this amount to cover our wants.

We therefore recommend an appropriation of \$100,000.00 for Poor Fund purposes for the coming year.

We also recommend there be included in your appropriation for General Fund purposes, the sum of \$2,000 for repairs, replacements and improvements at the County Infirmary.

Respectfully submitted,
G. R. JACKSON, Chairman.

✓ MORGAN HEIGHTS SANATORIUM

To the Honorable Board of Trustees of Morgan Heights Sanatorium.

We submit the following forecast of expenditures for the period of January 1st to December 31st, 1934. These figures are based on the presumption that the upward trend of prices will not go beyond an average of 10%, although in some lines of merchandise, i.e., cotton goods and flour, we have already experienced up to 50% increase. Food cost forecast has been so obtained by adding 10% to the average monthly expenses of 1933.

The saving of over \$20,000 in net expenditures, as against 1933 forecast, depends on the State of Michigan paying most of the money due since November 1931, amounting to about \$49,000, beside the current State Aid at the rate of 75 cents per day.

We submit for your approval, and for recommendation to the County Board of Supervisors, the following figures:

Salaries	\$28,000.00
Food	17,500.00
Heating	5,500.00
Light and power	3,600.00

Honorable Board of Supervisors,
Marquette, Michigan.

Gentlemen:--Your joint Committee, composed of the Executive Committee of your Board and the Board of County Road Commissioners, to whom was referred matters pertaining to emergency welfare relief with power to act; report:

No joint meetings have been held since the last report.

Checks for \$28,974.83, \$28,975.00 and \$63,335.55 were received during the interval, as arranged for by reports prepared by the Unemployment Committee and executed by the County Welfare Relief Commission. These check will approximately pay for all relief costs both for direct and work relief to the 1st of October.

The County Welfare Relief Commission is now functioning and will perform most of the services heretofore performed by this joint body.

There may be conditions arise wherein it will be advisable to have this Committee still standing for consultation with the County Welfare Relief Commission.

We recommend that the Committee be left standing with former powers and that they be relieved from making reports each month and directed to report any actions hereafter taken by them at the meeting following any such action.

✓ The following report was read and ordered filed:

August 22, 1933.

To the Honorable Board of Supervisors,
Marquette County, Mich.

Gentlemen: Your Committee on County Parks, with Mr. K. I. Sawyer, Superintendent, and P. B. Spear, Sr., of the County Park Board, inspected the county parks and submit the following report:

GWINN PARK,

We found this park is kept in a neat and clean manner, both as to the grounds and buildings. The park is well patronized by the people of Gwinn and Princeton, also by tourists traveling through the Upper Peninsula. The equipment seems ample for present requirements.

The cost of operation for the fiscal year ending August 31, 1932, was \$499.17.

This park comprises approximately 17 acres and is on the banks of the Escanaba River, in the Village of Gwinn.

CHAMPION BEACH PARK,

This park system comprises about 270 acres, on both north and south sides of State Highway 28 (U.S. 41), and is fully described in the Committee's report presented at the meeting on June 27, 1932.

The Committee inspected the buildings and camp site at the beach and found same in very good condition and kept neat and clean, and was well patronized on the day of our visit (Thursday, August 10th).

The park north of the railroad track is closed this season for the purpose of economy in expenditures during the depression; however, the fire lines are kept up to provide for emergencies which may arise.

The popularity of the beach is increasing each year, both for bathing and camping. The attendance on July 4, 1933, is recorded as 15,000 persons, with the number of baskets checked at the bath house, 1605. The number of camping parties since July 1st has ranged from 16 to 55. Splendid order prevails throughout the premises and every detail is attended to.

Champion Beach has possibilities for a flower garden featuring native wild flowers, but this will have to be deferred for better times. It must be very gratifying to Dr. Van Riper, who first developed the idea of the Champion bathing beach, to see the success of his enterprise as demonstrated by the attendance from day to day.

The expenditure at Champion Beach and Park for the fiscal year ending August 31, 1932, was \$12,810.98. This includes the labor of clearing and making fire lines.

The estimated expenditure for maintenance of parks and airports for the current year is \$7,500.00 and for improvements, \$6,500.00.

To the Honorable Board of Supervisors,
Marquette County, Mich.

Gentlemen:--The members of your Poor Committee to whom was entrusted the presentation to the County Poor Commission the Resolution: Recommending the discontinuance of the present County office, known as County Poor Director, begs leave to report as follows:

Arrangements having been made for a joint meeting of Poor Commissioners, and the Poor Committee, the Resolution as passed by the Board of Supervisors, was presented to the Poor Commission by the Poor Committee's Chairman in manner, and form following:--

Marquette County Court House,
Marquette, Sept. 14, 1933.

To the Honorable Board of Poor Commissioners.

Gentlemen:--The Poor Committee of the Marquette County Board of Supervisors respectfully requested your Honorable Body to make available this opportunity of meeting with you, in order that we may present, for your consideration, a Resolution recommending the abolition of the \$4,000 office of Poor Director, which, it is rumored, was to cover a certain period of time only.

The Supervisors, however, were not unmindful of the fact that certain extra work of the Poor Commission--such as cutting and hauling wood for fuel purposes, and completing garden-plot activities, should be carried to a reasonably successful termination, hence, certain discretionary powers are invested in the Poor Committee, so that in consultation with your Honorable Body, mutually agreeable results may be obtained, and the \$4,000 per year individual salary expenditure may be discontinued as soon as it is consistent with good judgment, and the lessening of emergency needs that is now taking place throughout our County by means of the slow revival of industrial activities.

✓ BOARD OF COUNTY ROAD COMMISSIONERS

Ishpeming, Mich., Oct. 2, 1933

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:- On June 21st, 1933 communication from the Road Commission was transmitted to your Board containing recommendations in accordance with the statute for the use of money returned to the County through the provisions of the Horton Act as amended by the Kulp Act. This communication was received and recommendations approved by your Board.

Work relief projects within reasonable distance of the abode of men needing work relief and on roads under the jurisdiction of the Board of County Road Commissioners are not now available in all parts of the County. For that reason we recommend that the Board of County Road Commissioners be authorized to expend at their discretion not to exceed \$10,000.00 of the money to be applied to work relief and incidental costs in accordance with the recommendations already approved, on roads or other public works within the County which are not distinctly within the jurisdiction of the County Road Commission. Said work to be performed only on streets, roads or public works and with the consent and cooperation of the public body or officials having jurisdiction.

We further recommend that we be authorized to proceed forthwith with work to be paid for from money received under the Horton and Kulp Acts, paying therefor from any moneys now in the hands of the Commission and to reimburse the money to the accounts drawn upon as soon as such Horton-Kulp Act money is received.

Yours truly,

✓ MARQUETTE COUNTY MICHIGAN UNEMPLOYMENT COMMITTEE

Ishpeming, Mich., Sept. 29, 1933

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:- By action of your Board, the Marquette County Unemployment Committee was created and has been functioning over the past two years in unemployment and relief work.

By legislative enactment there is now created a County Emergency Welfare Relief Committee with statutory powers. Messrs. Jacques, Cowpland and Thomas have been named to this committee and we understand the committee has been organized.

The functions of employment selection on relief work and reports to the state and like matters are now vested in this County Commission. The selection of workmen on federal and state contracts is now performed by the Employment Agent of the United States Department of Labor recently located in the county. There appears no reason for the further continuance of your Unemployment Committee.

A final report of the activities of the County Unemployment Committee is included with the annual report of the Board of County Road Commissioners with which this Committee has co-operated and who have performed all routine and clerical operations of this Committee. **This** report is a combined report to avoid unnecessary duplication.

We recommend discharge of the Committee.

October 9, 1933

On behalf of The Board of Supervisors, the members of the Poor Committee join in cordially thanking the Poor Commission for its splended courtesy in arranging to have the committee meet in consultation at their regular meeting, and we feel fully confident that the present discussions will conserve the dignity of all concerned--the many wants of the needy, and benefit, materially the interests of Taxpayers--County, State, and National.

In response, the Chairman of the Poor Commission made known the fact of the Poor Director having resigned his position, said resignation taking effect as of August 31, 1933.

He also stated that the providing of fuel wood for the needy of the County is in the hands of The Marquette County Welfare Relief Commission, and that the Poor Commission is now working in unison with the said Emergency Commission in this matter.

The Poor Committee then raised the question of the advisability of arranging the Poor Commission methods in dispensing County aid, so that a much wider distribution of this business among the Merchants of the County could be realized.

It was mutually agreed that the suggested improvement could take place after intensive study and investigation of operating methods over wide areas. The Poor Commission submitted that the question, as raised, had long been a matter for serious thought, and investigation on their part.

Your Committee is convinced that the Poor Commission will in due time, solve the problems surrounding this question, and as a sequence, the objective point sought will be satisfactorily reached.

The Poor Committee further kindly requested the Poor Commission to furnish them with a list of the names, and salaries paid all employees of said Commission from May 1st, 1933 to Sept. 1st, inclusive. The Commission graciously consented to provide the information asked for, and stated, that in the future it will be made possible for the Supervisors seeking such information to obtain the same at the County Court House office of the Commission.

Dated this 14th day of September, 1933, at the County Court House, Marquette, Michigan.

Signed by the following members of the Poor Committee:

W. J. WISEMAN,
WILLIAM NELSON,
W. H. OAKLEY,
T. J. NICHOLAS.

✓ The following report was read and adopted with the proviso that such portions of the report relative to salaries be referred to a committee on Salaries:

October 9th, 1933.

Honorable Board of Supervisors of
Marquette County, Mich.:

Your Budget Committee and Executive Committee begs leave to report as follows:

The following report has been compiled after a careful study of the financial condition of the County and its various departments. In some cases increased amounts have been allocated to various accounts to take care of deficiencies from last year's budget. In other cases cuts have been made as the appropriations provided for last year for this year have been more than ample. The necessity of keeping within the six mills allocated to the County by the Marquette County Tax Commission has made it necessary to follow the rigid economy rule of last year's Budget Committee and make some further drastic reductions.

It is interesting to note how closely the County Officers and all the Departments budgeted under the General Fund have kept their various departments within last year's budget. The General Fund Budget for 1932 totaled \$98,360.00; the various County Departments operating under this fund actually spent for the year Aug. 31st, 1932 to Aug. 31st, 1933, \$97,280.00 or actually \$80.00 under the budget. That is really a remarkable showing.

We respectfully make the following recommendations for the coming year.

✓ --Sheriff and Jail--

We recommend that one Deputy on duty at the Jail be dispensed with. Prior to 1927 Marquette County had only two salaried Deputies and now with the State Police located at Marquette and doing much of the work formerly done by the Sheriff's Department, we feel this saving might well be made.

We further recommend that owing to the constantly increasing cost of provisions that the Sheriff's allowance for board of prisoners be raised to 45 cents a day.

We further recommend that the Jail Physician inspect meals of prisoners at least once a month and file written report with the County Clerk.

Because of the recommendation that we do away with one Deputy we further recommend that the two Deputies to be retained be raised from \$120.00 to \$125.00 a month.

We also recommend that the Janitor of the Court House be raised to \$125.00 a month and that he is expected to be at the call of the Sheriff and spend a part of his time taking over the duties of the Deputy to be released.

✓ --County Fair--

No appropriation was included in budget for a County Fair in 1934, but we recommend that the question of having a County Fair be left to the Board of Supervisors next spring. In case it be decided to hold the Fair money may be provided from the Contingency Fund.

COUNTY OFFICERS AND EMPLOYEES

We recommend that \$900.00 per year be appropriated for extra clerk hire in the

October 9, 1933

County Treasurer's office. We find that owing to the larger tax delinquency, handling of federal funds and collection of all personal property taxes, that the work of this office has greatly increased and the amount allowed for clerk hire in the past is insufficient.

✓ --County Agricultural Agent--

We recommend that \$300.00 be allowed in the budget to care for part time stenographer in County Agricultural Agent's office.

✓ --County School Commissioner--

We recommend that salary of County School Commissioner's office clerk be raised to \$90.00 a month to be in line with salaries paid in other departments.

--Mileage--

We recommend that the rate paid per mile for county officers be raised from 5 cents to 6 cents owing to the increased cost of running automobiles. We further recommend whereas Marquette City is the seat of county government that the Auditing Committee refuse to allow any expense of county officers in transacting business in Marquette. *see Dec motion for correction*

✓ --County Purchasing Agent--

Your Executive Committee to whom was referred the question of adopting a Purchasing Agent, Auditor or County Manager, respectfully reports that they have no report to make at this time and desire more time for consideration.

REPORT ON REJECTED TAXES

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:-Your Committee on Finance and Taxation, to whom was referred the questions

November 8, 1933

of Rejected Taxes and who are asked to make recommendations that would eliminate the rejection of these taxes each year, beg leave to report as follows:

In order to get a picture of what has been happening the past few years it may be interesting to know that the total of the State and County Rejected Taxes, which averaged about \$1200.00 a year prior to 1931, increased to \$2665.00 in 1931 and the Rejected State and County Taxes this year have now reached a total of \$5524.05. Naturally as tax delinquency has increased from 4.08% in 1928, followed by 4.66% in 1929, 5.40% in 1930, 6.86% in 1931 and 9.2% in 1932 your Rejected Taxes will also increase proportionately, assuming that the number of errors in description and in transcribing the records remain proportionately the same.

In order to eliminate errors as far as possible and to reduce the number of delinquent descriptions rejected, we make the following recommendations:

Assessing officers and individuals writing up assessment rolls should make a plat of their township showing the forties in each section and the forties in these sections should be checked off one by one on the assessment roll. By checking off each forty at a time on a map you will eliminate duplication of descriptions and will also avoid errors in omitting forties, section numbers, town, range, etc.

After the assessment roll has been completed and checked, the tax roll, which should be an exact copy of the assessment roll, should be checked by two persons, the one reading the assessment roll and the other the tax roll description by description. An assessment and tax roll containing a great number of descriptions described by metes and bounds—that is, those rolls having a large number of irregular shaped parcels—should have these metes and bounds descriptions printed or typewritten in duplicate, thereby eliminating the possibility of errors.

When the taxes are being paid to the Treasurer or Deputy Treasurer if the name of the owner of the description is known to be in error by the tax collecting officer the tax roll should be corrected and before the tax roll is sent to the County Treasurer's office the assessment roll for that year should be corrected to agree with the tax roll.

When the list of descriptions on which the taxes are delinquent for the year is returned by the City or Township Treasurer or Deputy Treasurer to the County Treasurer, said list should be carefully checked with the tax roll in the County Treasurer's office to avoid errors. It is obvious from the number of descriptions rejected by the Auditor General that this practice was not followed in 1932 because in many cases the delinquent tax list on file in the County Treasurer's office does not agree with the descriptions on the tax roll from which the delinquent list was copied.

When the delinquent tax list for the Auditor General's office has been completed in the County Treasurer's office that list should be carefully checked by two clerks, one from the County Clerk's office and one from the Treasurer's office. If the original furnished by the various City and Township Treasurers or Deputy Treasurers is checked with the duplicate that is sent to the Auditor General's office, many of the errors on the 1931 roll will be eliminated. We find that in past years there have been some errors undoubtedly due to faulty checking or lack of checking in the Court House.

We also suggest that every tax roll be checked with the records in the Register of Deeds' office once every two or three years in order to keep the tax rolls up to date.

Not all the Rejected Taxes are due to errors made in Marquette County. We find on investigation, for instance, that in Humboldt Township the Auditor General's office is in error returning certain lands in this township as rejected as State homestead lands, when as a matter of fact the owners of these descriptions have warranty deeds from the State Conservation Department. These lands were returned to the State a number of years ago because of the taxes being delinquent and the State then turned them over to the Conservation Department and the Conservation Department in turn sold them to individuals. Apparently some of the records in the Auditor General's office have not been kept up to date.

We find most of the descriptions that have been returned delinquent and then subsequently are rejected because of indefinite descriptions; because acres or descriptions are wrong; because they are twice returned; because they are partly Government lots; because exceptions are indefinite; because descriptions are erroneous; because captions are incomplete; because some of these are Government or State lands; because some are Homestead lands; because no sections are given; because starting points are erroneous; because there are no plats of record; etc. The indefinite or incomplete descriptions usually are irregular shaped parcels and the metes and bounds descriptions are not clearly defined, the starting point may be indefinite, or there are errors in the footage or courses mentioned. Descriptions marked twice returned mean that due to an error on the part of the Treasurer or Deputy Treasurer or County Treasurer's office that the same forty is returned delinquent carrying two different owners. For instance, John Smith, who is actually the owner of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of a certain section is returned delinquent as the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$. John Jones is the owner of the W $\frac{1}{2}$ of the NW $\frac{1}{4}$ of the same section which is also returned delinquent. The W $\frac{1}{2}$ of the NW $\frac{1}{4}$ includes the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$, therefore the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ has been returned twice and has two different ownerships.

November 8, 1933

In some cases descriptions are rejected because exceptions are indefinite as, for instance, a person is indicated as owning all of a forty acre tract except one acre in the Southeast corner. That description is rejected because it does not properly indentify the land and it is not sufficient to say one acre plot in the Southeast corner of a section, but it would suffice if you describe the one acre plot as being square and that two of the boundary lines are contiguous with the sectional lines. That ties the one acre parcel definitely in the extreme Southeast corner and properly identifies the land.

In some cases rejections are due to incomplete captions as, for instance, a lot may be described as being in a certain block in the Jackson Iron Company's Addition in a certain town, when the caption should read Lot 2 in Block 10 in the AMENDED Plat of the Jackson Iron Company's Addition to the City of Negaunee. The Auditor General will also reject a description if a lot is described as being in Harvey's Plat, when it should read A Part of Harvey's Plat.

In the case where there is more than one addition to a City or Village it is necessary to mention not only the name of the Addition, but also the number, as, for instance, the Cleveland Iron Co.'s First Addition, Cleveland Iron Co.'s Second Addition, Cleveland Iron Co.'s Third Addition, etc. There are also certain cases where new additions have been platted and surveys made by competent engineers, but the plats have not been recorded in the Register of Deeds' office and, of course, no copies sent to the Auditor General's office. In those cases the Auditor General will reject the descriptions, but if the description is marked, "unrecorded plat as on file in the City Clerk's office," that properly identifies the land and the description cannot be rejected.

In order to sum the entire proposition up in a few words, there are only two things necessary to prevent taxes being rejected, one is that all descriptions must properly identify the land, and secondly all errors in copying and transcribing must be eliminated by checking. If those two things are done, we can hold our rejected tax list down to a very small amount.

Respectfully submitted,
CHARLES J. STAKEL,
Chairman,
Finance and Taxation Committee.

It was moved that these enumerators be allowed 5 cents for registration of each name in the cities and in the townships they be allowed 5 cents for each name registered and 6 cents a mile and that they be paid upon completion of the enumeration in their ward or township. Gentlemen:- On April 30, 1929, this office accepted a check from the Motor Inn in the amount of \$542.45, to cover a 1926 tax on the W 50 ft. of Lot 21, Block 2 and W 50 ft. of N 27 ft. of Lot 22, Block 2, Cleveland Iron Mining Co.'s Sub-division to City of Marquette.

This check was returned "NSF" from the bank.

We have made collections on this account amounting to \$512.50, leaving a balance of \$29.95.

We have made every effort to collect this old balance and see now no possibility of doing so.

If it so pleases the Board, we would like to have authority to transfer \$29.95 from the General Fund to wipe out this account.

Yours very truly,
J. E. HAYDEN, County Treasurer.

✓ The following report of the Contact Committee of the Morgan Heights Sanatorium was read, and upon motion of Supervisor Dolf, seconded by Supervisor McNamara, the report was unanimously adopted:

Mr. Chairman:--

Your contact committee which was appointed to work with the board of trustees of Morgan Heights Sanatorium attended a meeting of the board at the Sanatorium on January 16th and we are pleased to report as follows:

Mr. Collins stated that the object of the meeting was to have an informal discussion of the affairs of the institution and to acquaint the board of supervisors with the work of the trustees and also as to their recent accomplishments. He said it was the intention of the trustees to keep the board informed as intimately as possible in regard to their work and supervision of the sanatorium. Mr. Collins also said that it would be the aim of the trustees to have the sanatorium function not only for the greatest benefit to the patients, but that there will always be a kindly feeling throughout the County toward the institution.

The trustees expressed themselves as being well pleased with the accounting system in use, with the exception of the manner in which the drawing of checks is handled. As that part of the work is now being done, all checks are drawn by one of the deputies in the County Clerk's office. Payroll checks are drawn twice each month. The sanatorium checks number approximately two hundred fifty per month and the deputy draws a total of approximately seven hundred fifty checks each month, which work requires about half of her time. As the County Clerk's office is overcrowded with its many duties it would be relieved considerably if the drawing of the Sanatorium checks could be done by the clerk at the Sanatorium office. The deputy receives \$7.50 per month for drawing the Sanatorium checks. The trustees feel that in handling the work thru the Sanatorium office they would be in closer contact with the business and it would expedite matters considerably, and informed your committee that their clerk would do the work at an expense of \$5.00 per month more than he is now receiving.

As stated by the trustees, the statute governing the operation of sanatoriums gives the board of trustees full authority to elect one of their members treasurer and to make all disbursements. However, they would like to have the board of supervisors authorize them to do so.

As to recent accomplishments at the Sanatorium, one was the brushing out of the grounds surrounding the buildings which was done as a CWA project and which has greatly improved the appearance of the property.

Another CWA project was the employment of a seamstress and Dr. Lojaco informed your committee that she has done wonderfully fine work.

The trustees have several other projects in mind which they hope to have completed thru the C.W.A. One is the building of a driveway around to the West of the Sanatorium and out to the main highway, which would be a great convenience in driving from the grounds, especially for large buses and trucks, as there is not sufficient space in the present parking place for turning around.

January 24, 1934

Another project the board has in mind is the decorating of the interior of the children's unit. The walls, with the exception of one or two rooms, have not been decorated and are very much discolored. The proposed work would very much improve the appearance of the property.

The board is hopeful of having an ornamental archway constructed over the roadway at the entrance to the grounds. This would be located in a short distance from the main highway.

The matter of having a road built from the Sanatorium in a northwesterly direction to connect with the concrete highway has been considered, but as it would be an expensive piece of work the board is doubtful that it can be done. These projects, if completed, would all be done under C.W.A.

The trustees stated that they were very hopeful that the Sanatorium would operate within the budget this year. The one item of uncertainty as to cost is that of food.

Your committee was very favorably impressed by the attitude of the board of trustees and Dr. Lojacono as to the welfare of the institution and we feel that the county should be congratulated upon having such an eminently capable organization supervising the operations of Morgan Heights Sanatorium.

Signed,

C. E. DOLF,
JOHN P. McNAMARA,
JOHN GHIARDI,
H. E. PERKINS,
Committee.

✓ The following report of Supervisor Stakel, who was a special committee of one, was read and ordered filed:

MEMORANDUM OF MATTERS PERTAINING TO THE
CLINTON J. LIBBY CASE

The Prosecuting Attorney and myself contacted Thomas Clancey, former Prosecuting Attorney, Capt. F. E. Keese, former Chairman of the Board, Clinton J. Libby, Andrew Lahti, Sheriff, and Frank G. Jenks, County Clerk.

Mr. Libby, who was hired by Samuel Ford, former Sheriff, as motorcycle policeman, was hurt on June 17th, 1924 when he collided with a D.S.S. & A. locomotive. After being laid up for a considerable length of time in St. Luke's hospital he was released and in view of the fact that he was employed by the County when he was hurt and because of the fact that with the completion of the new jail an additional man was needed in the Sheriff's department, the Sheriff was prevailed upon to employ Mr. Libby as night watchman. From the day of injury up until the time that Mr. Libby accepted a lump settlement he received compensation at the rate of \$14.00 a week. On March 23rd, 1925 Mr. Clancey, Prosecuting Attorney, drew up an agreement with Mr. Libby, wherein the latter accepted \$1,000.00 as a settlement in full for all damage claims against the County. The Board of Supervisors on the 25th day of March unanimously approved of this settlement.

Mr. Clancey confirms Mr. Libby's statement that because of the fact that he was hurt while in the employ of the County that the County provided a watchman's job for him in addition to the lump sum settlement, but Mr. Clancey insists that there was neither any oral nor written agreement that this job was to continue indefinitely.

Upon contacting the present Sheriff, Andrew Lahti, he informed the Prosecutor and myself that when he took office on Jan. 1st, 1929 that he was told by someone that if he did make any changes in the personnel at the jail that he should not disturb Mr. Libby. For that reason the Sheriff allowed Mr. Libby to remain, but did appoint Mr. Costella as turnkey. The Sheriff further stated that he had absolutely no fault to find with Mr. Libby's work and that the latter performed his duties faithfully and efficiently, and when the Sheriff was asked to reduce his force by one man he let Mr. Libby out, not because of the fact that his services were not satisfactory, but merely to accede to the wishes of the Board to reduce his staff by one man.

Capt. F. E. Keese, the former Chairman of this Board, was very positive in his statement that there never had been any gentlemen's agreement about Mr. Libby holding the job as watchman indefinitely at the time he was appointed. He merely confirms what has already been said that due to the fact that Libby was hurt and was so injured as to make it impossible for him to get a suitable job for making his livelihood that because of this injury that he agreed that Mr. Libby be given the job at the jail. He was fully qualified and able to do the work required despite his injuries. Mr. Libby also told us that he had not talked very much about this with Capt. Keese and that the Chairman of the Board had not offered him a permanent job, Libby insisting that most of his contracts were with the Prosecuting Attorney and the County Clerk. Upon questioning Mr. Libby he sticks to the statement that when he was hired as watchman in 1925 that he was given to understand by the Prosecuting Attorney particularly, that he could hold the job as long as his services were satisfactory. He admits that there never was any written agreement to that effect, everything having been done orally. He further is in agreement with the statement that he accepted the lump sum settlement to be a complete and full compensation for all injuries that he sustained. He insists, however, that he was promised his job indefinitely.

There are certain facts that should be made clear to this Board and one is that in the opinion of the Prosecutor no county official can obligate the Sheriff or the County Board to keep any one indefinitely on the County officers' payroll. Furthermore, it must be clearly understood that the Sheriff is the sole judge as to whom his deputies shall be. In other words, he alone has the right to appoint the turnkey and watchman.

January 24, 1934

The County Board merely provides the salaries, but cannot choose the personnel. When Samuel Ford appointed Mr. Libby as watchman he did that to cooperate with the Prosecutor, but this Board cannot dictate to Mr. Lahti whom he shall employ as watchman. However, that does not prevent this Board from making suggestions to the Sheriff and he would undoubtedly cooperate to any reasonable extent.

This Committee does not presume to make any recommendations, but is merely reporting the facts as they found them. To sum it all up in a few words, it would appear that there was a gentlemen's agreement to give Mr. Libby a job in 1925 and the said gentlemen's agreement was continued by Mr. Lahti in 1929 when he was asked by someone, whom it was he does not recall, to continue to employ Mr. Libby. We cannot find anything relative to a life-long agreement and we are glad to state that we also can find nothing wrong with Mr. Libby's record in the eight years that he was employed. Furthermore, the Sheriff in letting out Mr. Libby merely did what the Board ordered him to do and that was to reduce the staff by one person.

The reports of County Treasurer, Superintendents of the Poor, Morgan Heights Sanatorium, County Jail Physician and Inspectors of Jail were read in part and ordered filed.)

✓The following resolution was read:

C. E. Dolf offered the following resolution and moved its adoption:

WHEREAS, it has heretofore been declared to be the sense of this Board of Supervisors that the insurance on the County property hereafter be allocated among the various established insurance agencies of Marquette County in a more equitable manner than the same has heretofore been allocated; and

WHEREAS, insurance to the amount of \$46,000.00 is about to expire on the Morgan Heights Sanatorium;

NOW, THEREFORE, Be It Resolved that the Committee on Insurance and Grounds be and it is hereby directed to cause the said insurance on Morgan Heights Sanatorium to be allocated equally to several other established agencies in the County, who have little or none of the County insurance business; in accordance with the declared policy of this Board.

John McNamara seconded the foregoing resolution.

It was moved by Supervisor Dolf and seconded by Supervisor McNamara, that the resolution as read be adopted. Supervisor Stenglein stated that he expected to have the report on Insurance ready for the February meeting. The mover of the resolution agreed to this and the resolution was unanimously adopted with that understanding.

✓Superintendent of the Poor, G. R. Jackson, presented estimates for the proposed Men's Dormitory at the County building, showing the total estimated cost to be \$48,983.43. On a C.W.A. project the cost to the County would be \$18,956.43. It was suggested by Supervisor Ewing that this be held up until we see what effect the Old Age Pension Law will have on attendance at the County House. On motion duly made and seconded, Mr. Jackson was instructed to petition the C.W.A. for this project and if adopted by that Board, the Superintendents of the Poor be allowed the sum of not over \$19,000, to be appropriated from the General Fund of the County monies not otherwise appropriated, which was adopted by the following Yea and Nay vote:

Yeas--Anderson, Blake, Curnow, Danielson, Dolf, Ewing, Fassbender, Flack, Frei, Ghiardi, Gribble, Heikkila, Hemmila, Jenkin, Jory, Koski, Labold, Laine, Moroney, Mongrain, Muck, Munson, McNamara, Nelson, Nicholas, Nightingale, Oakley, Patient, Richards, Stakel, Stenglein, Swanson, Tousignant, VanRiper, Watters, Wiseman, Yungbluth and Perkins--38.

Nays--None.

✓Supervisor Stakel reported that the Auditors had discovered the Treasurer's office had been paying monies to the State that should have been retained by the County. The exact amount would show in the Auditors' report which will be submitted at the February meeting. He also stated that a portion of this amount would take care of the proposed construction of the Men's Dormitory as a C.W.A. project, at the Poor Farm.

✓Supervisor Nicholas inquired if any of this tax money belonged to the Townships, and moved that Supervisor Stakel be appointed a Committee to look into the matter of money due from the State and report to the Board if any of it should be credited to the Townships. Motion was seconded and carried.

✓It was moved by Supervisor Stakel that there be appropriated out of the contingency fund of this County \$4,000.00 that have not otherwise been appropriated for the purpose of holding a County Fair in Marquette this year. The motion was duly seconded and carried by the following Yea and Nay vote:

Yeas--Anderson, Blake, Curnow, Danielson, Dolf, Ewing, Fassbender, Flack, Frei, Ghiardi, Gribble, Heikkila, Hemmila, Jenkin, Jory, Koski, Labold, Laine, Moroney, Mongrain, Muck, Munson, McNamara, Nelson, Nicholas, Nightingale, Oakley, Patient, Richards, Stakel, Stenglein, Swanson, Tousignant, VanRiper, Watters, Wiseman, Yungbluth and Perkins--38.

BOARD OF COUNTY ROAD COMMISSIONERS

Ishpeming, Mich., Feb. 27, 1934

Honorable Board of Supervisors,

February 28, 1934

Marquette County, Michigan.

Gentlemen:-- With reference to petition from Henry Hill and others relative to plowing the North Road, so called, North of Negaunee and petition from Ernest Gaboury relative to plowing the road to the Carp River Dam.

Your Highway and Bridge Committee met on February 23rd, the above two petitions were considered and the status of the roads investigated. It was found in both instances that these were roads which have not yet been adopted into the County Road System and that the County Road Commission is therefore without jurisdiction in the matter and for that reason the petitions cannot be granted at the present time.

Yours truly,
Committee On Highways And Bridges,
By H. S. Nightingale,
Chairman.

M. B. Richards,
Anton A. Fassbender,
T. J. Nicholas,
Board of County Road Commissioners of Marquette
County, Michigan.
By K. I. Sawyer, Supt.

✓The Budget and Salary Committee presented a report on salaries and after discussion, upon motion of Supervisor Nicholas, this report was ordered held over until the next meeting of this Board.

✓The following report was read and upon motion duly made and seconded, was unanimously adopted and a vote of thanks extended to the Committee for their excellent report and work in this matter.

Marquette, Mich., Feb. 17, 1934.

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:-- Your Committee on Buildings, Grounds and Insurance beg leave to submit the following report:

On August 2, 1933, we began to make an inspection of the property belonging to the County. At Ishpeming we inspected the County Road property, which we found in first class condition and well cared for, with the exception of the ventilating stack on the office, which needed repairs. Superintendent Sawyer assured the committee this would be taken care of at once. The committee wishes to recommend that "No Smoking" signs be placed outside and inside the oil house as a precaution against fire. The Road Commission property has been insured at 90 per cent co-insurance according to the Lloyd Thomas appraisal, but on the contents we have taken Superintendent Sawyer's figures, and these will fluctuate from time to time according to the work in progress. The Committee has not taken into consideration compensation insurance or insurance on cars and trucks. This is open to competition and the difference in bids and the saving which the Road Commission has effected is surprising. Your Committee recommends that no change be made. The new set-up shows a very substantial reduction in premiums with little reduction in insurance. A great deal of credit must be given to Superintendent Sawyer for the splendid condition of this property.

We next visited the Champion Beach property and found it in excellent condition--neat, clean, sanitary, and the caretaker efficient. Superintendent Sawyer accompanied us on this trip and made arrangements for our lunch. The Committee recommended a cut in the insurance carried on this property, which is shown in the schedule herewith attached.

We next visited Morgan Heights Sanatorium. The Superintendent being absent, the Assistant Doctor assigned a young man to conduct us through the various buildings and the grounds. We regret to report that the yard and out-buildings were not in very good condition. The boiler house is badly in need of paint, both the boiler room proper and where the men are housed. A good cleaning and a little paint we believe would make the conditions more sanitary and inviting. The cow barn and horse barn, now used for storage, could be improved greatly by cleaning and an orderly method of storing the discarded equipment employed. We note that the buildings themselves are surrounded by a second growth of forest which reaches close to the buildings, constituting a great fire hazard. We recommend that this second growth be cut back to at least 75 feet from the buildings, and the ground around the buildings be plowed and seeded. We believe these suggested improvements should be made in and about the boiler house and the barns in order to have these buildings in a sanitary condition and in keeping with the rest of the County property. We found the main building and the Children's Unit at Morgan Heights in excellent conditions. We have recommended \$14,000.00 additional insurance on the buildings and property at Morgan Heights, but through a lower rate which we have secured we have effected a saving in premium as shown by the schedule.

On August 3 your Committee met at the Fair Grounds for an inspection of this property. We found the buildings to be in a good state of repair and everything orderly for property of this nature, with the caretaker on the job. The Committee, however, recommends that at the close of the County Fair each fall all buildings be carefully cleaned, and that all rubbish such as accumulates during a Fair period be collected and burned so as to reduce the fire hazard. The Committee also recommends a cut in the insurance carried on this group which will appear in the schedule.

February 28, 1934

We next visited the Court House group and, needless to say and as your Honorably Body already know, the conditions here were excellent. County Clerk Jenks is always on the job looking after every detail in order to keep conditions at their best. In our schedule we will show an increase of insurance for this group at a saving in premium.

Our last visit was at the County Infirmary where we took dinner which was very kindly provided by Mr. and Mrs. Morrison, caretakers in charge. The Committee were greatly pleased and highly satisfied with the excellent condition in which this property is kept and also with the splendid manner in which the old and unfortunate inmates are care for. We cannot speak too highly of Mr. and Mrs. Morrison. Your Committee recommends no change in the insurance set-up for this group.

Your committee recommends that the allocation of insurance be done at once and the insurance to be rewritten on terms of one-third for one year, one-third for two years and one-third for three years, and renewable on a three-year basis thereafter, providing however the companies will agree to give the County credit on a prorate basis for the unexpired term of all policies, the new set-up to be put in force on April 1st or as soon as possible thereafter.

We also recommend that the Treasurer get up and have made an expiration record for listing insurance policies which will show the policies expiring without looking up the policies.

By way of summary, permit me to say this was probably the first inspection ever made of County buildings by the Buildings, Grounds and Insurance Committee. We recommend that this inspection be made an annual practice. It will serve two good purposes: (1) Through this inspection and the report which our Committee makes to the entire Board, a better knowledge of the condition of the property will be gained; and (2) the fact that an inspection by our Committee is looked forward to as an annual affair will put our caretakers and others in charge of property "on their toes" to keep them at their best. The total amount of insurance carried on County buildings and contents in this new set-up amounts to \$585,035.00, with a premium of \$8,102.54 for a three-year period, which shows a yearly saving of \$994.28.

Savings on Court House-----	\$ 398.16

Morgan Heights Sanatorium-----	1,286.30
County Parks-----	180.53
