A report from Chairman Clayton J. Anderson regarding the make-up of the standing committees of the Board for the year 1974 was read. It was moved by Commissioner Leadbetter, supported by Commissioner Russo and carried, that the members of these various standing committees be accepted and a list of the names printed and kept on file in the County Clerk's office.

A communication from the committee as a whole regarding changes in the Procedure Manual and the setting up of a new committee to be known as the Personnel Committee was read. It was moved by Commissioner Leadbetter, supported

by Commissioner Sodergren and carried, that the amendments to the Procedure Manual be made, and that fold-out inserts be printed by the county to be inserted in the Procedure Manuals that have already been printed.

At this point a public hearing was opened by Chairman Anderson regarding proposed amendments to the Marquette County Junk Yard and Junk Car Ordinances. The proposed amendment would read as follows:

Sec. VIII — Penalty. There shall be inserted in place of Paragraph 1 in the following:

"Any person, firm or corporation found to be in violation of any of the provisions of this ordinance, shall be notified in writing to remove or eliminate such violation within ten (10) days after the service of notice upon him. Such notice may be served personally or by mailing the same by registered mail, return receipt requested, to the premises or to the last known address of the owner. Additional time may be granted by the enforcement officer where bona fide efforts to remove or eliminate the violation is in progress."

"Failure to comply with such notice within the time allowed shall constitute a violation of this ordinance."

"Violation of this ordinance shall be a misdemeanor which shall be punishable upon conviction thereof by a fine of not more than \$100.00 or by imprisonment in the County Jail not to exceed 90 days or both fine, and imprisonment."

A communication from the Environmental Quality Committee, in regards to use of returnable bottles was read. It was moved by Commissioner Racine, supported by Commissioner Sodergren and unanimously carried by a roll-call vote, that the Board concur with the recommendations of the Committee and go on record as being in favor of legislation which would require a reasonable deposit on non-returnable containers for beverages and that our State Representatives be so notified. Mr. Ray Kirvonen, of the Marquette Bottling Company, spoke from the audience on his concern of this type of legislation, making the small businessman less competitive and he felt it would hurt the bottling business in time to come.

A report from the Personnel Committee was read and ordered placed on file.

Departmental reports from the County Road Commission, Office of Emergency Preparedness, Marquette County Health Department, Controller and Treasurer, were read and ordered placed on file and the report of the Treasurer published.

Commissioner Casper called to the attention of the Board the fact that there is car parking on the emergency strip on County Road 553 near Cliff's Ridge and wondered if this matter should be referred to the Transportation Committee and the County Road Committee. It was moved by Commissioner Leadbetter, supported by Commissioner Casper and carried that a letter be sent to the Marquette City Police Department, requesting them to look into this problem due to the fact that this parking area is within the City limits.

Commissioner Sodergren introduced a resolution in regard to Project Sanguine. This was supported by Commissioner Leadbetter. The resolution asked that the Board of Commissioners support the Navy in the research and development phase so that an accurate evaluation of the feasibility and ecological study of Sanguine be determined. After a lengthy discussion, a roll-call vote was held in which the

following Commissioners voted aye: Doucette, Goldsworthy, Leadbetter, Racine and Sodergren and the following Commissioners voting nay: Casper, Coombs, Gaboury, May and Trapp. The Clerk then ordered that a 6 to 5 vote in favor of the project was registered.

WHEREAS, the Navy has demonstrated the need for a low frequency underground communication system, and

WHEREAS, at a public hearing in Marquette on Sanguine a large number of concerned citizens had questions relative to the ecological effects of same, and

WHEREAS, the Navy has not completed all of its studies which they estimate will take up to three years: now therefore be it

RESOLVED, that the Marquette County Board of Commissioners does hereby support the Navy in the research and development phase so that an accurate evaluation of the feasibility and ecological aspect of Sanguine can be determined.

Copies to: U. S. Navy, Ruppe, Hart, Griffin, Jacobetti, Mack, and Milliken.

Commissioner Sodergren then introduced a resolution in regard to heating fuels in the Marquette County area. It was moved by Commissioner Sodergren, supported by Commissioner Trapp and carried by a roll-call vote that the Marquette County Board of Commissioners request the Legislature to place all propane gas dealers, and fuel oil dealers, under the Public Service Commission until such time as the energy crisis is improved and the free enterprise system is restored. All Commissioners voted aye with the exception of Leadbetter, who voted nay.

WHEREAS, the energy crisis has destroyed the free enterprise system in purchasing heating fuels, and

WHEREAS, the price of heating fuels continues to skyrocket, and

WHEREAS, the service is sometimes questionable, therefore be it, RESOLVED, that the Marquette County Board of Commissioners does hereby request that the legislature place all Propane dealers and fuel oil dealers under the Public Service Commission, until such time whereby the energy crisis is improved and the free enterprise system is restored.

Copies to: Rep. Jacobetti, Senator Mack, & Governor Milliken

It was noted by Commissioner Sodergren that public notice from the Public Service Commission and the Department of Natural Resources, in regard to public hearings held on projects in the County, should be given to the Environmental Committee as soon as possible after being received by the County Clerk. Commissioner Sodergren expressed his concern on the fact that these notices are normally received two to three weeks before the public hearing is held. It was moved by Commissioner Soderberg, supported by Commissioner Racine and carried that the County Clerk be authorized to pass these notices on to the Environmental Quality Committee prior to the meeting of the Board of Commissioners.

There being no further business to come before the Board, it was moved by Commissioner Racine, supported by Commissioner May, that the meeting be adjourned.

Respectfully submitted

Henry A. Skewis

WHEREAS, a proposal by the United States Department of Transportation would close 37 per cent of Michigan's existing railroad lines serving 8 million persons;

AND WHEREAS, a reduction in existing railroad lines would tend to increase the cost of freight which would ultimately increase the costs of goods to consumers;

AND WHEREAS, the abandonment would aggravate the existing fuel shortage by requiring more transportation by gas and oil burning vehicles;

AND WHEREAS, this forced shift to trucking would overburden our already crowded highways;

AND WHEREAS, this would also mean a great loss of employment in the rail and allied industries which would add to our already worsening employment problem, in Michigan;

AND WHEREAS, increased truck traffic would add to the air and noise pollution of the state;

AND WHEREAS, many business and small industries would be forced to move or close down their operations causing economic hardships for their owners, their employees and their local units of government;

BE IT RESOLVED THAT Marquette County expresses the greatest concern over this proposed abandonment and calls upon public agencies including the Department of Natural Resources, Michigan Public Services Commission and Commerce Department and private agencies such as the Farm Bureau and Chamber of Commerce to develop meaningful statistical information for hearings to be held in Michigan and Washington, D.C. in order to protect our basic rail system.

BE IT FURTHER RESOLVED, THAT Marquette County URGES the Governor of Michigan to call upon our sister states of the Great Lakes Region to join in a common effort to protect the rail system of the region which is so vital to our economic and ecological survival.

Committee, the Board of Commissioners concur with a resolution adopted by the Michigan County Social Services Association, urging the Legislature to appropriate funds to the Michigan Department of Social Services to reimburse Counties for office space determined by that Department to be adequate.

**MICHIGAN COUNTY SOCIAL SERVICES ASSOCIATION
RESOLUTION ON OFFICE SPACE COSTS**

WHEREAS the number and size of programs managed by County Departments of Social Services in behalf of Federal, State and County governments have increased rapidly in recent years, and

WHEREAS this increase in size and number of programs has resulted in an increase in staff and therefore, in an increased need for office space, and

WHEREAS the Federal Government has recognized this increase and has increased its reimbursement to counties for the actual cost of office space, and

WHEREAS various employee groups have taken Civil Service grievance action including court action against counties to obtain adequate office space as defined by the Michigan Department of Social Services in their administrative handbook, and

WHEREAS many County Boards of Commissioners have been financially unable to build or otherwise provide for either the increased space or the improvements required, and

WHEREAS the problem has become an increasing concern to the Michigan County Social Services Association, the Michigan Association of Counties, Local County Social Services Boards and Boards of Commissioners, and

WHEREAS this problem could be solved by having the Michigan Department of Social Services reimburse counties for adequate space provided.

THEREFORE BE IT RESOLVED THAT the Michigan County Social Services Association Board of Directors go on record urging the Legislature, the Governor and the House of Representatives' and the Senate's Appropriations Committees to resolve this problem beginning with the 1974-1975 budget by appropriating funds to the Michigan Department of Social Services to reimburse counties for office space determined by the Michigan Department of Social Services to be adequate.

FURTHER THAT the amount of said reimbursement be based on the Michigan Department of Social Services formula for reimbursing the county administrative costs minus the Federal allowance for office space thus allowing for a fair and equitable sharing of responsibility by the Federal, State and County units of government.

By _____, Chairman

Honorable Chairman and Members of the
Marquette County Board of Commissioners
Marquette, Michigan

Ladies and Gentlemen:

Your Finance and Taxation Committee recommends that the various departments in the Courthouse and Jail Group keep within the budgets as adopted at the annual meeting and that no clerk hire or salaries be paid beyond the amount fixed by the Board of Commissioners.

In the case of an emergency or in case a department requires additional funds or needs some special equipment which could not be foreseen at the time of the annual meeting, we recommend that the head of that department, together with the Controller, present the matter to the Board of Commissioners for their consideration and that they grant, where deemed necessary, authority to exceed the figures established in the annual budget.

If it develops that the amount stipulated in the budget of any department exceeds the need of that department, or if a sum authorized is found unnecessary, then we recommend that authority be granted to transfer a sum or surplus to some other department by proper resolution of the Board of Commissioners.

Respectfully submitted,

FINANCE AND TAXATION COMMITTEE

The Welfare Contact Committee reports for the months of October and November 1974 were read and placed on file.

The Transportation Committee reports for the months of October and November 1974 were read and placed on file.

A report from the County Lands and Buildings Committee on the request of Forsyth Township for permission to utilize the NW¹/₄ of Section 13, T45N, R25W, as a sanitary landfill site through the year 1990 was read. The report includes a recommendation from the Forestry Commission that the area be leased to Forsyth Township in an initial increment not exceeding 20 or 30 acres and before any subsequent increments are leased, the Township should be required to restore the initial increment, as well as any subsequent increments, to their natural surface. In addition, the Township should also be required to plant jackpine trees which are native to the area at a rate of 700-800 trees per acre on the restored area.

Moved by Commissioner Goldsworthy, supported by Commissioner Leadbetter and unanimously carried by roll call vote that the request of Forsyth Township be granted subject to the recommendations of the Forestry Commission and that the Prosecuting Attorney draw the necessary lease for approval and execution by the Board of Commissioners at their next meeting. The usual \$1.00 lease fee will be included in the proposed lease agreement.

A report of the Audit Committee was read, reporting claims and accounts in the sum of \$103,326.53 for the month of October 1974. Moved by Commissioner Russo, supported by Commissioner Coombs and unanimously carried by roll call vote that the claims be allowed, ordered paid and published.

A report of the Audit Committee was read, reporting claims and accounts in the sum of \$120,907.51 for the month of November 1974. Moved by Commissioner Russo, supported by Commissioner Doucette and unanimously carried by roll call vote that the claims be allowed, ordered paid and published.

RESOLUTION

WHEREAS, the Marquette County Board of Commissioners at a Regularly Assembled Meeting held on the 20th day of November, 1974, has been made aware that the Federal Government has reduced the amount Commercial Airlines are able to charge per ticket to apply to security costs incurred by the counties from Fifty-Nine (59 cents) Cents to Thirty-Four (34 cents) Cents per ticket;

Respectfully submitted,

WHEREAS, there are considerable numbers of seniors who are unable to maintain a balanced, nutritious diet under such circumstances; and,

WHEREAS, they also find it difficult and sometimes impossible to afford needed medicare care, even with the help of the present medicare system; and,

WHEREAS, President Ford has proposed amendments to the medicare program that would greatly increase the cost to senior citizens for medical care and,

WHEREAS, President Ford has also directed the Department of Agriculture to change the food stamp program, thereby making most now eligible seniors, ineligible for this needed assistance;

THEREFORE, be it resolved that the Marquette County Board of Commissioners do hereby urge President Ford to reconsider his proposed amendments to medicare and his directive to alter the food stamp program, so that the burden of inflation fighting will not be placed on that segment of our population who are least able to bear it; and,
