SUMMARY OF THE WAR NEWS

Big developments in the European war are looked for by military men in the next few weeks. The renewal of the German offensive in both the east and the west theaters, the advances reported by the Russians, the fact that Greece is mobilizing her army, that Roumania is all ready to enter the war and that Italy has issued a second order to its reserves to stand ready to answer a call to the colors on short notice, are given as the reasons.

Renewal of the German attempts to break through to the French coast has not failed, according to official reports from Paris. Fiercest attacks have been launched against the allies in this region, it is said, but superior numbers and accurate gunfire has caused the Germans to retire each time.

In the eastern theater, official Russian reports declare, the armies of Grand Duke Nicholas have gained important victories, both in the Carpathians and in Poland. In Poland and in East Prussia the Muscovites have advanced still farther, Petrograd asserts, and now are menacing the German fortress of Thorn.

Greece is reported in a news dispatch to be mobilizing her army and preparing for war. A slight skirmish between the Turk and British forces in Egypt is said to have resulted in the rout of the Turks.

Paris, Feb. 3, 3:20 p. m.—An official statement from Petrograd, transmitted by the Havas Agency, says a German torpedo boat destroyer was sunk by a Russian submarine in the Baltic sea Jan. 29. The submarine attacked the boat off the Danish island of Moen.

VON KLUCK'S SON KILLED IN COAST BOMBARDMENT BY WARSHIPS OF BRITISH. ALLIES PRESS TEUTONS HARD PARIS REPORTS

WEIGHT OF NUMBERS SAID TOO MUCH FOR INVADERS TO OVERCOME.

NEW CHAPTER FORECAST MOVES BY BOTH SIDES EXPECTED TO RESULT IN DECISIVE BATTLES.

ARTILLERY PRINCIPAL ARM INFANTRY USED OCCASIONALLY; MOST FIGHTING IS WITH BIG GUNS.

London, Feb. 3.—Developments forecasting a new chapter in the European war were indicated on Tuesday, when simultaneously with the renewal of the German offensive on both fronts and the report of an impending third invasion of Serbia by a large Austro-German army, the Italian government notified all reservists living in England to hold themselves in readiness to rejoin the colors at short notice.

The Germans have delivered a series of attacks, always preceded by artillery activity, on the allied lines in Flanders and France, and while in some preliminary cases they have thus won a preliminary advantage, before the fighting was concluded the French, British or Belgians have been able to regain the trenches temporarily lost, and in some cases, to occupy the German positions.

In the fighting between Rheims and Argonne and in Alsace the Germans are being pressed hard, both by weight of numbers and superiority of heavy gun fire, according to official and unofficial reports from the western front today.

Artillery duels of marked intensity have been fought along the entire front, the heaviest actions being in Belgium. Here the French fire was so heavy the German batteries were unable to meet it, reports say. Scattered infantry attacks by the invaders on some days, and attacks started by the Kaiser's troops, both with musketry and artillery, were not carried through.

Battle Near Nieport. Reports of the fighting on Monday record new progress before Nieport. Heavy losses were inflicted on the Germans in a series of sharp attacks and counter attacks in which considerable numbers of troops were engaged along the Bethune-La Bassée road.

From the maze of scattered actions reported two movements assume importance. These are being fought west of the Argonne, with Perthes-lez-Hirbus as the cockpit of the most furious engagements, and in upper Alsace where the French offensive is developing strenuously.

North of Perthes run highways and railways, which are important sections of the German lines of communications. Control of these by bringing them within the range of the French gun fire, means the crippling of the German crown prince's army by hampering his re-activating operations.

French Official Statement. Paris, Feb. 3, 10:55 p. m.—The French war office tonight gave out the following official communication: "There is nothing of particular importance to report except that in the Champagne region three German attacks were all repulsed. One was to the west of Perthes, another north of Masnil-le-Huis and the third north of Massey."

Considered in connection with the operations in Alsace and those against Metz, the progress of the Franco-Belgian troops before Nieport and Lombracle holds promise for the Germans. Success on the northern flank and a corresponding flanking operation carried out in Alsace would force the Germans to shorten their line out of all proportion to the demands of the situation.

The failure of the allies' attempt to break the German line by stretching it evidently has given birth to a new strategy—squeezing it until the invaders are without adequate elbow room.

Aeroplane raids on the French coast continue, but these are of labyrinth character and have had no effect on the situation, even locally, for the damage wrought has been insignificant.

Advance Near Perthes. London, Feb. 3.—Paris this afternoon reported the capture northward of Perthes of a wood of strategic value as an incident of the methodical progress being made on this front. Tonight's statement relates further advance on the edge of the wood.

The Alsace campaign has for its object invasion of the Rhine country through the valley of the Ill, with Mulhausen and Altkirch as the first obstacle to be overcome. Admittedly, they still are far from Mulhausen and their campaign against Altkirch has settled down to a steady grind.

London, Feb. 3.—The official press bureau of the admiralty announces with reference to the reports of the continental press that the Suez canal has been closed, that the canal company has issued a statement denying the press report.

NOT READY YET.

Every properly constituted human being would like to see an end made of war. Everybody would like to see all the nations freed from the burden of maintaining armies and navies.

The prediction that the present fearful war will mark the end of all warfare and bring about quickly the disarmament of the nations appeals to the best that is in all of us.

As this same newspaper points out, there will be more, rather than less, military preparedness on the part of Britain in the future.

OUR SKIDDING NAVY.

The U. S. navy is on the skids. Because we have been building ships at a slower rate than other first class powers it is gradually taking a lower rating in first class ships.

THE BALLOT BOXES.

"Leland men to have possession of the ballot boxes. Gain big advantage in U. of M. regency fight" are the headlines of an article in the Detroit Journal telling how these boxes are to be turned over to the city committee, which is favorable to Mr. Leland, instead of to the ward committee, which are favorable to the opposing candidate.

In most communities, Marquette county, for instance, the possession of the ballot boxes would not be rated an advantage for either side in an electoral disturbance like that raging in Wayne, for there would be a presumption that, in any event, there would be a correct count of the votes they contained.

We are offered no direct word whether it is important to the Leland forces because it will prevent the Kiefer forces from tampering with the count, or because it will give the former a chance to put something over. Partisans can take their choice between these conflicting views, according as their sympathies run.

Mr. Leland and Dr. Kiefer, the rival candidates, are most unfortunate to be involved in a contest in which this "advantage" should be rated so highly.

ADVERTISING.

Marquette can make claim to being the best advertised little town in the country. Here it was that former President Taft made one of his first, as well as one of his longest, stops on that famous swing around the circle which, by its revelation of his misunderstanding of the popular mind, made clear that he couldn't be president again.

Allan H. Frazer, prosecutor of Wayne county, has resigned. He is very frank about his reasons, too, saying that he regards the salary as entirely insufficient, and that the office should pay \$15,000 instead of \$5,000.

An exchange describes how a Russian commander sent to the rear a lot of Turkish prisoners without detaching too many men from his force, already none too strong for the business it had in hand.

EDITORIAL OPINION

The Farmer's Opportunity.

The trade of the great European nations with the United States has been very large, for here all of them found their most profitable market. It is not strange then that American commerce has fallen off to the extent of \$373,714,000 as a result of the war.

The war has lasted but six months. The prospect is that it will last at least six months longer. That period will include the time of planting of crops which furnish food for the millions who must be saved from starvation.

Congressman Gardner, in support of his arguments for a larger navy, made statements before congress the other day which are more startling than any of the general charges yet made against our national defense.

HOPES IN TIME TO HAVE A MILLION MEMBERS

Rathbone Society of Pythians Plans to Build Eventually a Home for the Aged.

The annual meeting of the Justus H. Rathbone Memorial Society was held in Houghton a few days ago, and from the meeting it is expected to grow a revival of interest in the sentiment on which the society is predicated so that it eventually will have one million members.

"The initiation and life membership fee of our society," said President Ira E. Randall yesterday, "is only twenty-five cents. All members of the Knights of Pythians and of our auxiliary order, the Pythian Sisters, are eligible to membership and we hope in time to have a million members. This will give us a fund of \$250,000, and with this we will build and maintain a home for aged and infirm members of the order."

Society Free of Debt.

The memorial fund society, which was organized for the purpose of buying, restoring and preserving the old school house at Eagle Harbor, where Rathbone first conceived the Pythian order, has now about two hundred members, principally in the copper country. It owns the school house and two lots and values this property at \$2,000. It is wholly debt free, so that all future initiation fees will go into the permanent fund.

New Officers Elected.

At the recent meeting the following officers and trustees were elected: President—Ira E. Randall, Houghton; First Vice President—Otto H. Obenhoff, Houghton; Second Vice President—E. L. Champion, Hurontown; Treasurer—Charles Strobel, Houghton; Secretary—Richard Kellow, Houghton; Trustees—The officers and Wesley Clark of Copper Falls.

WATCH FOR THE PARADE.

Fair Weather Brings Out Copperdom Mothers and Babies.

There are a great many of the units of the population of Houghton and the rest of the copper country who stay at home much of the time during the cold or stormy winter days. Little sunlight is vouchsafed to them, little of the pure outer air, little of the sights of the great world. These are uncomplaining people and they make little protest against being immured so long. They are the copper country babies.

But on bright days there is in Houghton and Hancock and Calumet streets and the streets of the other towns a sight that should gladden the eyes of everyone, but doesn't, simply because people seem to think that it is a common, every day affair. It really is, however, most unusual, this parade of the babies on a bright day.

Too often it is a parade of mothers because the great majority of mothers are imprisoned when the weather is not propitious to their little ones' health or comfort. The careless passerby yesterday may not have thought of these things.

A close observer could have seen at Houghton, shortly after the dinner hour, a stream of women with sleighs, some with plebian little sleds pulled with ropes, some with massive affairs festooned with white fur robes, the latter the inevitable luxury of the rich baby. Often the mother has to carry the youngster and only a mother can carry such a weight for any length of time without tiring. But mothers of all classes go streaming down to College avenue to give their babies an airing.

There are more babies in Houghton than might be supposed. It takes a fair day in winter to bring them out. If it is a fair day today the average, unobservant citizen should watch for the parade. It will be a parade of Houghton's greatest wealth, this present of mothers and babies. It will be a parade of all of Houghton's future. And it will be such a collection of pink cheeks and little, snub noses, of gurgles and chuckles and of all the other things that babies are, that the worst old grinch in the town ought to feel so fine over it that he will turn over a few shares of stock to Good Will Farm and meet the women of the Nickel club with a smile.

SANATORIUM GETS RESULTS.

Tuberculosis Hospital Reports Two Arrested Cases Recently.

Superintendent Martin Foley of the Houghton County tuberculosis sanatorium reports that during the last week two patients have been discharged from the institution as arrested cases. These patients have so far progressed toward recovery that they need not fear a return of the disease so long as they continue the rules of living laid down by the sanatorium. As soon as these cases left the institution two others took their places. The sanatorium now has thirty patients, the limit of its winter capacity. In the summer it can accommodate thirty-six patients, by utilizing outdoor sheds.

STOMACH SOUR? STOP INDIGESTION, GAS, HEARTBURN—PAPE'S DIAPEPSIN

Don't Suffer! Regulate Your Upset Stomach in Five Minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. and Mrs. Diapepsin is quick, positive and puts your stomach in healthy condition so the misery won't come back. You feel different as soon as Pape's Diapepsin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gas, no belching, no eructation of undigested food, your head clears and you feel fine. Put an end to stomach trouble by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

INTER-COUNTY MATCH THE NIGHT OF FEB. 22

Portage Lake Postoffice Employees to Play Basketball at Ontonagon With Home Team.

The Portage Lake postoffice basketball team has arranged a game with the Ontonagon team to be played at Ontonagon the night of Feb. 22, Washington's birthday. Tim Doyle of the Houghton postoffice is captain of the Portage Lake team, which is composed of former high school players. He looks for a stiff contest with the Ontonagon quintet.

Ontonagon county is making something of a specialty of basketball this winter. The Ontonagon team is a fact one and the White Pine mine has produced a quintet that is considered equal to any in the district. It is captained by Harry Spats, formerly a member of the M. C. M. varsity team. Ontonagon and White Pine have had a number of contests during the winter and have about an even break on the results.

White Pine has challenged the winner of the Portage Lake-Ontonagon match and Captain Doyle hopes to stage the match at Houghton, if his team of stamp cancellers can humble Ontonagon.

The Atlantic second basketball team will play Ontonagon at Ontonagon Saturday night. The Atlantic team will be: Forwards, M. Cole and G. Austin; center, C. Juch or S. Austin; guards, Gregory (captain) and Jauch. Games scheduled for Atlantic for Friday night are: Atlanta vs. Hancock Naval Reserve; Sheppie's team vs. Burke's.

Baraga County Hockey.

The old rivalry in hockey in Baraga county between the Pequaming and Baraga teams has broken out violently again this winter and the lumber towns are enjoying good sport as a result. Pequaming defeated Baraga last Sunday on Pequaming ice. Baraga started out like a whirlwind, scoring four goals before Pequaming got to going. But after that nothing could stop Baraga and a total of ten goals was netted, with Pequaming failing to increase its early score, 10 to 4 being the final. For Baraga, Murphy, in goal, was the star of the game and George Soti, a new player, did exceptional work, while the team as a whole is highly praised. Pequaming played even hockey and there were no individual stars. Roy Needham, captain of last year's Pequaming team, has returned and has taken active charge of the seven. Sunday's lineup follows: Baraga—E. Murphy, goal; Klien, point; McMan, cover; Nesbitt, rover; Peters, left; Sanregret, right. Pequaming—Daest, goal; Needham, point; Borgen, cover; C. VanAbel, rover; Soti, left; R. VanAbel, right. Pequaming is scheduled to play at Chassell Feb. 10.

Sunday School League.

Basketball fans will have an opportunity of witnessing what should be an exciting game next Tuesday evening at North Star Hall, Hancock, when the Hancock S. P. J. and Glauco teams of the Sunday school league meet to decide which quintet wins the pennant. The teams are a tie with three victories and two defeats for each, the S. P. J. having forfeited the game scheduled for last Tuesday evening with Atlantic because of the revival services at the Hancock church dropped from the league, after playing part of the schedule, and the result is a shorter season. The winner of the match Tuesday evening will meet the winner of the Calumet league later in the season for the county Sunday school championship.

SEEK POSTOFFICE HELP.

Unemployed Already Impertune Houghton Postoffice for Information.

The recent announcement of the purpose of the government to make employment bureaus of the postoffices of the United States already has begun to bear fruit in Houghton. Within the week the Houghton office has been visited by two applicants for information regarding positions. Mrs. Dube, postmistress, has as yet received no official information from the department regarding the new employment bureau plan. It is expected that the complete information will arrive within a few days and thereafter the postoffice will be at the service, insofar as it may, of the unemployed of Houghton. The condition of course applies to all other postoffices in the country.

OGDEN FOUND GUILTY.

The jury in the Ogden case in the circuit court at Houghton returned a verdict of guilty at 7:30 o'clock Tuesday evening. The man was recommended to the mercy of the court and was remanded to jail to await sentence. The Shafer saloon case was on trial yesterday.

GUILBAULT TO THE ASYLUM.

Deputy Sheriff Chellew Leaves for Ionia With Insane Murderer.

Deputy Sheriff Chellew left yesterday for Ionia with Nelson Guilbault, the insane man who murdered the unknown Charles Guilbault, at Lake Linden Jan. 19. Guilbault accompanied the officer without any demonstration. The man's physical condition gradually is growing weaker and it is believed his mental disorder is of such a nature as will result in death in a short time.

WARMER THAN THE AVERAGE.

January With Coldest Day Record Still Not the Coldest Month.

Weather Observer Cowdick yesterday at Houghton published his monthly weather summary for January. It shows that while January had the coldest day in the fifteen years of the weather bureau's existence in Houghton—thirty-one degrees below zero Jan. 29—it still was one-tenth of a degree warmer than the average for the month in the fifteen years. The total precipitation, measured as melted snow, was 3.22 inches, or a total snowfall of 33.6 inches, which is nearly an inch and a half heavier than the average for January. There were three clear days in the month, three partly cloudy and twenty-five cloudy.

ASSOCIATION ASSURED.

Upper Peninsula Credit Men Will Organize Next May in Houghton.

Because of the postponement of the annual meeting of the Upper Peninsula Development bureau until May the credit men of the upper peninsula, who intended to organize an association in Houghton at the time of the bureau meeting, have decided to postpone action until May also. In the meantime Secretary Price of the Copper Country Commercial club, manager of the Copper Country Credit bureau, has made an agreement with the other credit men of the peninsula whereby the purposes of the proposed organization go into immediate effect. An exchange of information is now going on among the credit men and all that is lacking is the formal organization.

CANDIDATE FOR REGENT.

Henry Stephens of Waters Meets Copper Country Republicans.

Henry Stephens of Waters, a candidate for the Republican nomination for the office of regent of the state university, arrived in Houghton yesterday, accompanied by John D. Mangum of Marquette. Mr. Stephens is here to meet copper country Republicans and to attempt to interest them in his candidacy. Mr. Stephens is a graduate from Harvard with a degree of bachelor of arts and is also a director of philosophy with a degree from the University of Vienna. He is a successful businessman, traveler and author. Mr. Stephens is the author of a book on South American travel, which has excited considerable comment. Mr. Mangum returned to Marquette yesterday, having come to Houghton only for the purpose of introducing Mr. Stephens to a few leading Republicans.

NOTHING FROM DULUTH.

Zenith City Hockey Team Ignores President Webb's Message.

President Charles E. Webb of the American Amateur Hockey association last Sunday wired the Duluth Curling club a statement of the conditions under which the club's hockey team can return to the league fold. Duluth has ignored the matter thus far and it is expected that the team definitely is out of organized hockey.

There remain but Calumet, Portage Lake and the Soo in the league, with the Soo leading and Calumet and Portage Lake about to open tomorrow night one of the prettiest races for supremacy ever seen in copper country hockey. Calumet's better showing against the Soo gives the team the edge in the estimation of the wisecracks but if the Portage Lakes go on the ice in true form, with Exley and Chaput back in the lineup, all the advance dope likely is to be upset.

UNUSUAL NUMBER OF VAGS.

Nomads Are Given One Night's Lodging by Sheriff Cruse.

Sheriff Cruse kept a record during January of the number of vagrants applying at the Houghton county jail for food and lodging during the month and finds the astonishingly large total of twenty-two.

Ordinarily the winter finds the copper country free of homeless and jobless men and the fact that such a large number has appeared this winter indicates that conditions to the south of the district are not favorable to this class of floating labor.

Sheriff Cruse has made a rule to give every applicant a night's lodging and a good breakfast, the latter followed by an order to the nomad to get out of the county within ten hours.

HANCOCK POLITICS SEETHING.

Prospect of Contests for City Offices Delights the Voters.

Voters in Hancock were inclined to the view yesterday that the opening game in the municipal campaign here had been fired, basing their opinions on the meetings of the United City and Republican party leaders Monday and Tuesday evenings, respectively. The announcement that Mayor Ojala of the United City party will seek another term and that the Republicans will place a full ticket in the field indicates a campaign that should be fully as exciting as those of recent years.

The voters have a pretty fair idea of the lineup of the United City ticket, because of announcements made during the last few weeks. Not until tomorrow will it be known who the Republican candidates for the various offices will be, outside of the field indicates a campaign that should be fully as exciting as those of recent years.

Hancock normally is a Republican city, but the United City party broke

CHALLENGED TO RIFLE MATCH.

There has been some rivalry among such employees of the Copper Range railroad as have joined the Houghton Rifle club, and it has come to such a pass that Roadmaster P. H. Peterson has been so stung by the taunts of Chief Train Dispatcher Hamilton that he has issued a challenge to the latter. If the match takes place it will be next Saturday night at the club range, and the winner will be a night for a big meeting of the club. There will be a second target in place and all members not supplied with rifles are asked to provide themselves with a box of S. & W. 32-caliber smokeless cartridges. The rifles will be furnished by the club.

APPLY FOR NATURALIZATION.

County Clerk Kaiser yesterday at Houghton posted the naturalization applications of John Hooker of Houghton, an Austrian, and John A. Forsberg of Copper City, Sweden. The former has been in the United States since 1906 and the latter since 1879.

DEVELOPMENT BUREAU MEETS.

Legal Date of Annual Meeting Observed as a Mere Formality.

The annual meeting of the Upper Peninsula Development bureau was held in Houghton Tuesday afternoon. The meeting did not muster great numerical strength, consisting of the presence only of E. A. Hamar of Chassell, John T. McNamara of Houghton and J. H. Jasberg of Hancock, members of the board of directors. It is the intention of the bureau to hold the annual meeting in Houghton and Tuesday was selected as the time, but a postponement was made necessary by reason of the inability of the directors to procure desired material for the program. The meeting was for the record and the members present at once adjourned without date, it being the intention of the directors to fix the time of the real annual meeting in May.

FRENCH SOLDIER'S STORY.

A Paris telegram to the London Weekly Dispatch says fresh indications of the energetic efforts which the German government is making to influence public opinion in France in favor of an early peace are given by a French non-commissioned officer who was taken prisoner at St. Mihiel on December 31 and has just returned to France via Switzerland. After his capture, the soldier says, he was taken to Metz, where he was interviewed by the German Socialist leader Sudokum. The latter tried to work up on the Frenchman by arguing that France was serving the interests of England, that a separate peace with Germany would be for her great benefit, and that this could be brought about by the combined efforts of the Socialists of the two countries, who would issue a

joint appeal to the working classes. The French soldier feigned agreement with the proposal that he should be set at liberty to return to France and carry on a secret propaganda toward these ends. Civilian clothes, false Belgian passports and a large sum of money were given to him, and the German promised him that if his first tour in France succeeded they would send him there again with supplies and pamphlets and placards for secret distribution.

Another of these schemes revealed to him was a project for fomenting a revolutionary movement in south France. The Frenchman thinks, from what he heard, that other French prisoners had already been sent back into France on similar missions. His captors offered to give him another non-commissioned officer as a companion if he wished.

GOOD TEETH AT FIFTY.

"Few factors conduce to jolly age as does pride in general appearance," writes Dr. John Philip Ervin of Parkside, Pa., in Oral Hygiene. "A well groomed person never grows old. Especially essential are well cared for teeth. At no time in life are teeth more valuable than when a man has passed fifty. They double in worth every year after the half-century-year stone has been reached.

"It is a sad fact," he continues, "that all the dental parlors and powders, pastes, present and to come, combined and concentrated, cannot restore the normal form of a face destroyed by extraction. It is a blessed truth that modern dentistry can prevent this calamity.

"But the greatest blessing of natural teeth in declining years is derived from the assistance they give to the boiler of the body, the stomach, throughout that period when digestion is on the wane. In youth the stomach stood for beer, Dutch liches, rarebits and lodge-banquets. It seldom kicked back. Not so in maturity. The teeth must now arbitrate many health questions. When

the disgruntled stomach is tandemed with mental deficiency, the remaining members of the alimentary canal join in a rebellion against food oppression, which culminates in a revolution that proves a revelation to the victim. Dyspepsia may be conquered in youth, but never in age. The most pessimistic stomach, coupled with dental deficiency, will develop a fair degree of optimism, possibly a continuous life of sunshine.

"Good teeth at fifty proclaim family character, conserve facial contour and insure food comfort."

Soo School Board Sells Bonds.

After extended negotiations with deavers the \$150,000 issue of school bonds recently authorized by the electors of the Soo was sold to a Detroit firm at a rate of four and a half per cent interest. School bonds of Grand Rapids and Detroit were last week sold on the same basis. The Soo board sent telegrams to other firms, but found the Detroit house had made the best offer. The board will stand the expense of legal investigation, lithographing the bonds, and other minor expenses. The bonds are payable annually, four to fifteen years from now.

Food Inspector Prosecutes.

John T. Rowe of Laurium, deputy dairy and food inspector of the upper peninsula, has arrived home from a tour of his territory, particularly Iron and Dickinson counties. He reports conditions fairly satisfactory, although at Iron Mountain he had occasion to cause several arrests, practically all of the cases having been disposed of in justice courts upon the payment of small fines. In one case, wherein the charge filed was that of selling oleomargarine for butter, the defendant was bound over for trial at the next term of the circuit court for that county. It is understood that revenue officers also are investigating this case and may assist the state pure food department in the prosecution. Deputy Rowe directed in the Iron country towns the distribution of the state department's merit cards to those dealers who are entitled to receive them.

Pitiable Case of Poverty.

A most pitiable case of poverty was brought to light in the home of an Anthony avenue family at Hancock through an application for aid at the Associated Charities. A visit revealed the destitute circumstances of five children and a mother who were suffering from lack of food and clothing. One of the children, about twelve years of age, had barely sufficient garments to cover him, while the other children fared but little better, one having no shoes or stockings. There was no food in the house, nor was there any fuel available, and the family was suffering from extreme cold. The house was infested with rats, and the youngest child, a baby, was suffering from a bite from one of the rodents. One of its hands, infested from the bite, was swollen to three or four times its normal size. The case was called to the attention of the county authorities and relief has been provided. It developed that the father deserted his family more than a year ago. It is believed he is somewhere in the West.

Upper Michigan Man Killed.

Details of a blasting accident in a rock quarry of the British Columbia Transport company on "the Pitt river," near Fort Fraser, which occurred recently and in which Joseph Lounds, son of Isaac Lounds, of the Soo, lost his life with two other workmen, have been received. Lounds visited his people last summer. He had been a resident of the Soo nearly all his life. His brother, George, who lives at Post Falls, Idaho, has gone to the scene of the accident to assist in the work of recovering the bodies. Lounds was employed as a shovel engineer. Following the explosion of a blast, the whole face of the rock hill-side slid into the river. This caused an immense wave, estimated to have been twenty feet in height, which at first carried the water away from the place, and when it returned swept the entire rock-crushing plant and a part of the bunk houses away. Besides the loss of three men who were buried in the slide, five others were seriously injured and the company lost \$100,000 in property destroyed. The three men were caught in the slide and had no chance to save themselves.

Will Raise Sugar Beets.

Paul Muehrcke, colonization agent for the Worcester Lumber company at Chassell, has been notified that the Menominee River Sugar company will send a representative to Houghton county early this month to contract for sugar beet crops. This virtually will be the first direct step toward placing the copper country on the map as a producer of sugar beets. The Worcester company, through its colonization agent, prevailed upon Chassell farmers last fall to grow sugar beets. Approximately fifty acres will be devoted to this product this year, and at an average yield of eighteen to twenty tons to the acre the output will be in the neighborhood of 1,000 tons. The price already determined upon is \$5.25, net, and under favorable weather conditions the farmer's income will be from \$90 to \$100 per acre. Mr. Muehrcke has arranged for the arrival of at least thirty settlers in Chassell township in the spring. A majority of them are men who have spent their lives on farms in Illinois, Iowa, Indiana and Pennsylvania and the Worcester concern looks forward to their coming as a valuable acquisition to the farm population of the district. Four sections, 14, 15, 25 and 26, in Chassell township, have been purchased by the thirty men, who will arrive within the next sixty days.

DRIFTING BOAT SINKS; TWELVE ON THE CRAFT

Crew, With Two Women, Live a Week on Two Pounds of Fish, and Water.

New York, Feb. 3.—Six days adrift on a water-logged schooner that broke up under them, leaving them to float a day on a makeshift raft, was the experience of 10 men and two women of the crew of the American bark Ethel V. Boynton. They were picked up by the steamer Manzanillo 200 miles west of Bermuda and taken to Cuba. Seven were brought to New York on the Monterey.

During their seven-day experience the 12 lived on two pounds of canned fish and a few pints of trawfish water. All were exhausted when rescued.

The Ethel V. Boynton left Mobile Dec. 26, lumber laden, for Genoa, and Jan. 11 ran into a terrific southerly gale. Her cargo shifted and she sprang a leak.

That night, according to her mate, Charles E. Olson, one of the seven aboard the Monterey, "a heavy sea like a tidal wave" swept over the bark, carried away her wheel and rails and so filled the vessel until she was water-logged and helpless.

"The next morning found us in a total wreck," continued the mate. "We tried to secure things and save a few stores to take with us in a boat. In the midst of our preparations, the fore yard came crashing down on the deck and we were obliged to cut away the rigging and throw the spar overboard. At 9 a. m. we put the big boat in the water, but she was instantly smashed to pieces in the heavy sea and wreckage that floated alongside.

"After that the bark began to break up. That day the fore tower mast went through the bottom and after hanging for four hours, drifted clear. We hung on, but on the afternoon of the 14th her bow broke adrift and left us. Two hours later her main deck was swept away and left only the after house and a few planks.

"We hung to this until Sunday, the 17th, when our position became so dangerous that we decided to break off the top of the house and use it for a raft. On this small remnant, the 12 of us floated off with what stores we had saved.

"We drifted all night and the next day sighted a piece of the main deck, paddled to it with boards, and made a

OHIO RIVER VALLEY THREATENED BY FLOOD

Streams, Swollen by Rains, Rapidly Approach Overflowing Stage.

Cleveland, O., Feb. 3.—Practically the entire state of Ohio faces flood dangers.

Reports from every stream and tributary tell of rising waters that have sent residents of lowlands fleeing to higher ground, isolated a score of families in their homes in one place and caused the most serious apprehension since the disastrous floods of March, 1913. Heavy thaws and rains of the last six days are responsible.

The Ohio river has been jumping to the flood stage. There is great apprehension in the region between Pittsburg and Cincinnati. Forecasts for this area say that a forty-five foot stage will be reached shortly, inundating a large territory and driving forty thousand families from their homes. Rivermen predict the most serious flood in years. Wheeling, W. Va., Bellaire, Bridgeport and Martin's Ferry, Ohio, and many other towns and villages are affected.

Dynamite Ice Gorges.

The Great Miami valley, covering a large part of southwestern Ohio, is threatened by a situation similar to that which caused loss of life and great property damage at Dayton, Middletown, Hamilton, Piqua, Troy and other points in 1913. Hundreds of men are dynamiting ice gorges and patrolling the river banks. The river is slowly rising.

At Zanesville, O., the Muskingum river is rising an inch an hour. Bridges are threatened and the lowlands may be inundated.

Near Painesville, O., twenty families are isolated on the upper floors of their homes by the rampage of the Grand river. At Uniontown, nearby, the water covers the streets, effectively blocking all interurban rail traffic.

Sandusky River Rising.

The Sandusky river is rising at Fremont. Manufacturers and residents of the lowlands are taking precautions. The Tuscarawas river is up many feet and all towns and cities in the valley are threatened, including Massillon. Athens, O., reported all residents of the lowlands fleeing high waters of the Hoocking river. At Lima the Ottawa is rising, but there is no serious danger yet of flood.

Weather bureau experts at Columbus report the Scioto river slowly rising, but no immediate danger of cost nearly one hundred lives. County and city employees are patrolling the river banks. Various streams and creeks in the Cleveland district are also nearing the flood stage.

All Tributaries Swollen.

Bridgeport, O., Feb. 3.—The Ohio river is rising at the rate of nine inches an hour. All tributaries to the Ohio are swollen and one of the most serious floods in recent years is threatened. Residents in the lowlands are already fleeing to higher ground. Flood warnings have been spread throughout the upper Ohio valley. A forty-two foot stage is forecast within twenty-four hours.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup Easily and Cheaply Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2 1/2 ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish.

Pour the 2 1/2 ounces of Pinex (50 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of \$2. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine rosin, a natural extract, rich in gaultherol, which is so healing to the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with the preparation or money promptly refunded.

TIMID CANADIANS STILL FEAR INVASION

Would Have U. S. Border Guard Against Descent of Great Forces of Germans.

Toronto, Feb. 3.—Some timid Canadians are being thrown into periodic spasms of patriotic alarm over the frequent rumors of a big German invasion from the United States. They almost see gray-clad, spike-helmeted legions springing up in the streets of Milwaukee, Cincinnati, Detroit and Buffalo and hurling themselves across the border upon a defenseless colony. The result is a noisy agitation for increased military guards along the frontier. On the Pacific coast some military men have the fear and are advocating that the entire frontier of British Columbia be lined with bayonets.

Officials of the provinces having nothing to do with paying soldiers under arms and everything to do with the unemployed, are not kicking rumors as fast as they might. Major General Hughes has just had to go to Vancouver to find out why the orders of the militia department to disband the swollen active militia of British Columbia have not been obeyed.

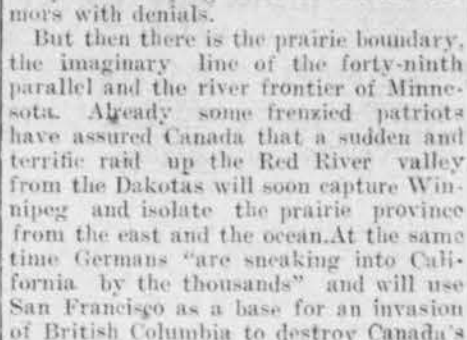

The excitement has not been confined to the far west and there are many voices raised in Ontario in favor of making the 4,000 odd miles of east and west frontier one enormous stretch of sentry. With so many eyes on the mile, walking up and down and looking for German raiders. Some are even demanding that the United States undertake to protect its neutrality, as Holland and Switzerland are doing, by placing the regular army and all other available forces along the northern frontier to keep the Germans in.

Plan is Expensive.

Just how expensive all this mobilizing and watching would be is not considered by the agitators. The German soldiers would not like the American armies in 1812 or the Fenians in 1866, he complained to cross over into Canada by way of the Detroit, Niagara and St. Lawrence river frontiers. With German fanaticalness they might come through the long Maine frontier to seize Canada's arsenal and armory factory at Quebec or through the Canadian foreign trade and wheat export to Britain by blocking the St. Lawrence river at any point in its thousand-mile course. So there would have to be sentries from the eastern end of Lake Ontario, all along the New York Ontario border, the Quebec-New Brunswick and the Vermont border and in a crooked line from the St. Lawrence to the Gulf of St. Miles along which the double lines of sentries, Canadian and American, could

Prints with Pencil Paper of 30 Pages

Remarkable Work of Indiana Boy Will Be Shown at Panama Exposition.

Indianapolis, Feb. 3.—A 30-page weekly newspaper, printed by hand with a lead pencil, will be one of Indiana's exhibits at the Panama-Pacific exposition in San Francisco, according to Lieut. Gov. William P. O'Neill, who is chairman of the Indiana exposition commission. It is "Weekly 101," which is gotten out by "Mooney Mingles" at Lawrence, Ind.

The "Weekly 101" is seven columns wide and conforms in size to regular city newspapers. Each edition is in five sections and contains the news of Lawrence, the state and nation, together with editorial comment, sketches, illustrations and advertisements, all prepared by "Mooney," who is proprietor, editor, business manager, reporter, artist and office boy. The paper has its own comic section, which is also the work of "Mooney."

Usually there is only one copy of each number of the paper printed, but this appears regularly each Saturday night in one of the Lawrence stores, where it is eagerly scanned by the Saturday night crowd. "Mooney" once said that he was never bothered with printers' strikes or breakdown of machinery, and that he always went "to press" on time.

President Wilson, according to "Mooney," was sent a copy of the paper recently, and replied with a commendatory letter.

In the factory, where the boy—be, is only 19 years old—works eight or ten hours a day to provide sustenance for his widowed mother and five younger brothers and sisters, "Mooney Mingles" is known by his name, Robert Fitzgerald.

He prints his copy with a lead pencil, draws his caricatures and illustrations and solicits advertising in the evenings. He contends the "Weekly 101" is the only newspaper printed by hand with a pencil, and the claim has not yet been disputed.

Lieutenant Governor O'Neill says the paper will be one of the most unique exhibits at the exposition, and "Mooney" is very proud of the distinction.

FOOD FOR GERMANY IS NOW CONTRABAND

Great Britain Serves Unofficial Notice on United States Government.

Washington, Feb. 3.—Unofficial notice was served on the Washington government by Great Britain today that foodstuffs of any kind destined for Germany, or which may reach Germany through neutral ports, will be seized as contraband of war.

The action of the British government is based upon the recent German decree whereby that government will take over all grain in Germany for common use.

Will Buy Up Cargo.

Because the steamer Wilhelmina sailed from New York for Bremen before the issuance of the decree, it is understood that her cargo of food for German civilians will be paid for and appropriated by the British government and the ship allowed to go free.

But hereafter food-laden ships sailing from the United States directly for German ports or for neutral ports in Europe where it appears that the cargo may ultimately reach Germany, will be subject to seizure outright, ship and cargo, without compensation.

The state department now is considering this latest announcement of the British government, but so far has not committed itself to its approval.

Call Action "Concession."

London, Feb. 3.—The sailing of the steamer Dacia has reopened newspaper discussion of her status. The Chronicle, in an editorial, reminds the American people that Great Britain's decision not to declare cotton contraband was a costly concession to America.

"Every one of our brave men who falls by a German bullet or is blown to pieces by a German shell," the paper says, "is a victim of American grown cotton. We are not complaining, but the point is one American might fairly bear in mind when they hear Von Bernstorff and Dernburg declaiming about the inconsiderateness of British naval interference."

No Famine Feared.

Berlin, Feb. 2.—A statistician in the Berliner Tageblatt has advanced figures with the object of showing that Germany is in little danger of being starved out in the present war. As a result of the new German bread and flour regulation, the compiler points out, less than 4,000,000 tons of rye and wheat will be required for bread up to the middle of August. Last year's harvest, he says, amounted to 14,400,000 tons, of which 1,500,000 tons were deducted for seed. This leaves 13,000,000 tons at the beginning of the war, not including the grain on hand from the 1913 harvest.

THOMAS F. FRANCIS POET AND COMPOSER

Detroit Paper Presents Sketch of Representative of the Second District.

The Detroit News Tribune Sunday contained a picture and a column article on Thomas F. Francis, of Ishpeming, representative from the Second district of Marquette county. In the article is published one of Mr. Francis' favorite poems, together with his own statement pertaining to his work as a miner. The story, which follows, will be read with interest by Mr. Francis' many friends in Marquette county:

Composed 700 pieces of music, some of which he sold for real money, besides occasionally writing a piece of poetry, and all this during the thirty-six years that he worked for day wages in the iron mines of Northern Michigan; now a member of the legislature for the Ishpeming district of Marquette county, and a pensioner on the rolls of the United States Steel corporation; Red Ruth town, county Cornwall, England, his birthplace, and Thomas Frederick Francis his name. A real poet? Indeed he is. Here is a bit of evidence of it from his own pen:

You're bound so closely to my heart, Friend of mine, It seems that we can never part, Friend of mine, Upon the harp strings of my soul, You've played; and still the strains do roll, Over which I've no control, Friend of mine.

And when I look into your face, Friend of mine, It mirrors back a wave of grace, Friend of mine, Keep but that smile so wondrous sweet, And that exquisite form so neat, 'Tis fairy like from head to feet, Friend of mine.

Your eyes are like the stars so rare, Friend of mine, And naught can with your cheeks compare, Friend of mine, Fair Eden's garden never grew A flower that would equal you, In form, or foliage, or hue, Friend of mine.

You've decked my path with roses red, Friend of mine, And over it a halo shed, Friend of mine, The roses drop and fade and die, And stars, that vanish from the sky, But you're the same as years gone by, Friend of mine.

Thomas Frederick, as noted, is what he is christened, but plain Tom Francis, the poet and composer, is what he is known to about every iron miner in the upper peninsula. A small man, weighing about 150, with a perennially good-natured face, he doesn't look as if he had been through the wear and tear of a mine's life for forty-nine years, or that he started working in the tin mines of Cornwall when he was nine years old. Yet, that's him, and he's a composer of some 700 pieces of music, about 100 of which have been published. Let him tell it himself. Here it is:

"My father was a miner before me and he was the best tenor singer in the parish. The first mine I worked in as a nine-year-old was in the district where history says King Solomon got tin to build his temple. I have always had fond remembrances of my father. One of my musical compositions that had a wide sale was written shortly after his death. It was 'Father's Vacant Chair'."

MARRIAGE A SURPRISE.

Mrs. Elizabeth Davey the Bride of Captain Charles Champion.

To the surprise of friends who became aware of the fact last evening, Captain Charles Champion and Mrs. Elizabeth Davey, both of Beacon, were united in marriage yesterday afternoon. The ceremony was performed at the home of Mrs. James Tucker, corner of Third and North streets, in this city. The Rev. T. E. Collier of the Methodist church at Champion officiating. Captain Champion and his bride left last evening for Chicago. They will visit there for several days, after which they will go to Palm Beach, Fla., to spend the remainder of the winter. Captain Champion is well known in the western end of the county. He is a veteran mining man. Years ago he was connected with the Champion Iron company, for which he was mining captain at its Champion mine. His bride formerly lived at Detroit.

MAY HAVE CHAUTAUQUA.

Committee Has Been Named to Consider Proposals From Two Bureaus.

The Ishpeming Advancement association has appointed a committee, composed of Mayor G. G. Barnett, M. A. Kahn and R. J. Wise, to consider proposals from the Lincoln and Redpath bureaus to put on a chautauqua this coming summer.

FROHMAN FEATURE BOOKED. "Aftermath," one of Daniel Frohman's successful stage productions, will be the Famous Players feature picture offering at the Ishpeming theater next Monday afternoon and evening.

ISHPEMING IN BRIEF.

Tonight will be ladies' night at the Ishpeming Ski club. J. B. Nichols and B. G. Slaughter, of Copper Cliffs, Ont., are visitors in the city.

Miss Nellie Huber visited her aunt, Mrs. J. J. Legler, and other relatives in the city yesterday. D. B. McDonald, of the diamond drill contracting firm of Cole & McDonald, was here yesterday from Duluth.

Mr. E. C. Thompson and Miss Mary Outhwaite will entertain at bridge next Monday afternoon at the home of the latter.

All members of Sir Humphrey lodge, Sons of St. George, are requested to assemble at their hall this afternoon at 1 o'clock to prepare to attend the funeral of their late brother, William Argall.

The late William Argall, whose funeral will be held this afternoon from the First Methodist Episcopal church, has three brothers living. Two of them, Thomas and Richard Argall, reside in Ishpeming, and Edward lives in Canada. Rev. N. C. Kerr will conduct short services at the family home, 211 Hill street, at 1:30 o'clock, and the service at the church will be at 2 o'clock.

The Tip Top Four will perform at the Ishpeming theater tonight, tomorrow and Saturday. Some excellent comedy is introduced. Tonight's pictures will include a Selig melodrama feature in two reels, "Out of Petticoat Lane"; "The Serpent Comes to Eden"; the eleventh

OLD-TIME GOLD CURE—DRINK TEA! Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

Goldfield Merger-Jumbo Extension.

We are in receipt of a private message from Philadelphia, stating that a suit has been started by the minority stockholders of Goldfield Merger against the Goldfield Merger management, resisting the sale of the Velvet claim to the Jumbo Extension, which deal was consummated some time ago. The Goldfield stocks are reported to have weakened. Goldfield Merger broke to 31 cents. Our informant, however, advises us that the suit is immaterial. One of our Western correspondents writes in regard to an interview he recently had with J. K. Turner, manager of the Jumbo Extension. Mr. Turner said that the Jumbo Extension is looking exceedingly well, but he believes that from \$1.75 to \$2 is a fair price for the stock under present circumstances. He further stated that developments at the Goldfield Merger property will be important to the Jumbo Extension, and it was reported recently four feet of \$35 ore was encountered on the Goldfield Merger property. Goldfield Florence has opened eight feet of \$35 ore about 200 feet from the combination fraction on the 250-foot level. This strike is an entirely new mine.

Tonopah Merger.

This issue has been active of late, and higher. The developments on the 1,230 level have been very satisfactory. The ore being developed on the 1,230 level is the downward extension of the great ore body that was found on the 1,170 level of the Merger in 1913. The ore shoot on this 1,170 level was 400 feet in length, between ten and fifteen feet wide, and assayed from \$20 to \$30 per ton, and the expectations are that the ore body on the 1,230 level will be as big and strong

as it was on the 1,170. At that time Tonopah Merger sold above \$1 a share. This company has outstanding 1,500,000 shares. John G. Kirchen is general manager and consulting engineer.

Tonopah Belmont.
Tonopah Belmont has been weak of late and there is continued selling of this issue and reinvesting in Tonopah Extension. Tonopah Belmont's earnings in December were only \$117,000, or at the rate of less than \$1 a share. The grade of ore being handled is considerably lower than it was during the early part of 1914, and from unofficial sources it is stated that the ore reserve has diminished.

Tonopah Jim Butler.
This company's profit for 1914 was approximately \$275,000, or better than fifteen cents a share on the outstanding 1,718,000 shares. It is reported there have been extensive improvements at the Wandering Boy shaft, which will allow for increased tonnage.

CHARITY BALL TO BE WELL ATTENDED

Sale of Tickets Will Be Large—Relief Work Organization in Working Order.

It is expected that the charity ball Monday evening will be one of the most successful charity functions ever held in Negaunee. A number of young women canvassed the town yesterday disposing of tickets at \$1. Practically every business house is also offering tickets for sale, and some of the firms have sent tickets to the wholesale firms with which they do business.

It was first intended to hold the ball in the Elks' hall, but the sale has been so large that, in order to accommodate the crowd, it will be held in Kirkwood's hall. Refreshments, which are being donated by women of the city, will be served. Dancing will commence at 8 o'clock and will continue until midnight. The proceeds will be turned over to the United Charities association.

The receiving room of the association will be opened there and turned over to the central committee for investigation. The use of which is given free by the bank, are centrally located. They are the former office quarters of T. A. Thoren. Requests for assistance will be received there and turned over to the central committee for investigation. "The work of relief has been completely organized by the central committee," said Orr Schurtz, chairman, yesterday. "The various sub-committees are already at work and everyone is taking hold with zeal. Charles E. Spoolley, superintendent of the poor for this district, has informed the officers that he can be counted on to extend all assistance in his power, which is very gratifying to us."

MEMORIAL SERVICE.

The Sons of St. George society will attend services Sunday evening at the Mitchell Methodist church in memory of the late John T. Corkill, who was killed by a fall of ground Jan. 19 at the Breiting Hematite mine. Seats will be reserved for the lodge members, and the services will commence at 7 o'clock. Mr. Corkill was assistant superintendent of the Methodist Sunday school, and was an ardent church worker.

URGES WORK FOR NEEDY WORKMEN

George J. Maas Believes It Feasible to Employ Them Breaking Rock.

Marquette Daily Mining Journal, Marquette, Mich. Gentlemen: I was surprised today to see an article in your editorials in which you discourage the suggestion of myself and many other Negaunee citizens that the city of Negaunee give temporary employment to our able bodied idle men at the city rock bluff. The reason you give—that the work "would offer no return commensurate with the wages paid"—is not fair, otherwise I would not have stated that the cost of such work might influence the heavy taxpayers to hasten other work for these men.

I do not consider it fair on your part to discourage the plan of giving these men work breaking rock without suggesting some better plan. The only suggestion you make is "that in a situation like the present it is necessary to give outright to needy people."

I beg to differ with you on this point, but will admit it is necessary to give aid outright only to such as have not members able to work enough to support their families. We have so many such families in Negaunee at the present time that the committee will find that they have no small task to look after them alone.

It is generally conceded in Negaunee that even under the most favorable conditions the return of city labor is seldom commensurate with the wages paid. The greater part of the material required for street work is the coarser grade of rock and the sledge work and blasting of this can be done fairly economically by hand.

If the city should receive \$1.00 in results for every \$3.00 expended, and I believe this to be a low estimate, then taking in consideration the higher wages that must be paid later on and the loss under any circumstance in city work as above stated, we can easily count on better than 50 per cent return for the money so expended, and what is of far more importance, the men who do not desire charity will have the satisfaction of feeling that they were not forced to it. I may be high in estimating that we shall get 50 per cent results but it is immaterial what the percentage may be.

Certainly the work will be worth something and that much will be saved by not giving outright. These families need a certain amount of money to live until the laborers can again find regular employment, and it must be furnished them in some way. I cannot conceive of anybody advocating the giving of charity outright to able bodied men, when it is possible to create work for them as in this case.

Looking at it as a business proposition even if the city only received one dollar results for ten expended it would be good business to save the 10 per cent. I am satisfied that anybody who objects to this plan of giving work on the rock bluff without suggesting something better is doing so in behalf of some taxpayer. No doubt some of these men must have assistance even before such work can be started.

The city naturally has the right to assist in urgent cases anyhow, and could in such cases advance the necessary help, charging the same to the men's accounts if they agree to work. There is no excuse for any long delay in starting such work, because all the tools required are drills, hammers, a hand forge and powder.

CHAMPION HOCKEY CLUB.

Western End of County Is Represented by Fast Seven.

A fast hockey team has been organized by a number of Champion young men. It is captained by Ed Thomas, a former Canadian player, who has developed the Champion skaters, and is made up entirely of home men. They would like a game either with Negaunee or Ishpeming. Practice games are played Sunday afternoons on a rink at Beaver lake, between Champion and Humboldt.

The team has the following lineup: Howard Prisk, goal; Mark Smeenan, rover; Ed Thomas, captain and cover point; Al Mager, center; Ray Plankey, left wing; Roy Mager, right wing; John Nelson, point.

The Negaunee City team will play a return game with the Ishpeming seven Sunday afternoon at the Ishpeming municipal rink.

CHAMPIONSHIP GAME.

A match will be rolled tonight at the Palace bowling alleys between the Cleveland Cliffs from company's five-men team of Ishpeming, and the Negaunee city team for the amateur bowling championship of the county. Office Workers Find Maté Ideal Drink

Physical labor is the greatest aid to digestion known. In lieu of physical labor, regular exercise should be taken. The office, store, or shop worker who works with brain instead of hand and is denied the opportunity for exercise usually suffers from headaches, biliousness and stomach troubles.

Maté, the great South American drink, is a boon to those following sedentary occupations. Its action is stomachic and laxative and it is an extraordinary aid to perfect digestion, enabling the Maté drinker to get full value of every particle of food eaten.

Aside from its healthful and wholesome qualities, the delicious flavor and taking tang of Woodley's Maté recommend it as a beverage for every day. It is satisfying, strengthening and sustaining. It quiets the jangling nerves, refreshes and invigorates. Maté has been used by South American nations for more than 400 years, and is recommended by scientists, doctors and food experts.

Woodley's Maté is sold by grocers everywhere. It is easy to prepare; it needs only to be boiled and is a delightful drink, hot or cold.

"Today" Play To Be Seen Here Thursday of Next Week, Strong Attraction.

The enviable record of having had the longest run on Broadway of any drama presented during the past year is held by "Today," the sensational success which will be seen at Ishpeming theater on Thursday evening of next week. The record of having played an entire season in New York is one that has not been reached by any of its rivals and can be explained only by the illuminating fact that "Today" would never have won this distinction if it had not satisfied a real appetite of the theater-going public.

Far and wide, both press and public have proclaimed "Today" as the greatest and long-awaited American play, be-

cause of its treatment of exclusively American subjects in a masterful American way.

The theme, the menace of "keeping up appearances," is developed in a startling manner by exposing the follies of New York existence—the dangers lurking in the feminine fondness for dress, the pitfalls dug for naturally loyal wives by their women friends, the perils encountered by idle wives who devote too much of their time to the pursuit of happiness.

DOUBLE TRADING STAMPS TOMORROW

STORM DAMAGE IS WIDESPREAD

District Manager K. S. Baker, of the Michigan State Telephone Company, Says That All Lower State Districts Have Suffered to a Greater or Less Extent.

Normal Service With the Outside World Will Not Be Had for Several Days, at Least, It is Figured—Loss Will Amount to Many Thousands of Dollars.

"With the exception of the upper peninsula, every telephone district in the state has been affected by the heavy storm that swept the country south of us the last few days," said K. S. Baker, district manager of the Michigan State Telephone Company, yesterday.

Yesterday Marquette was almost as effectively cut off from the outside world as on Tuesday. Only with much difficulty were messages relayed to the upper peninsula from points to the south.

Man Poles Down. "South of a line drawn east from Ludington in the lower part of the state, up to 3:30 o'clock in the afternoon of Feb. 3, 750 poles were reported down, which meant serious interference with long distance service throughout the state, and cut off completely the upper peninsula," said Mr. Baker.

"The damage will run into thousands of dollars. Temporary repairs are now being made. Every good construction man in the state, every installer, helper and all the reserve force that it has been possible to bring in have been called out. Other work that the Michigan State Telephone company had in progress has been stopped and will be at a standstill for a number of days.

Storm Has Abated. The Northwestern passenger train, which did not reach Marquette at all on Tuesday, was hit on a hair and pulled in almost on time.

St. Luke's Has More Than Were Accommodated in Old Building. The new St. Luke's hospital, opened a week ago today, is rapidly filling with patients, the number yesterday being greater than had ever been accommodated at the old building.

UPPER PENINSULA Opposes Higher Rates.

The Gogebic board of supervisors has gone on record as opposed to granting higher fares to the railways by adopting the following resolutions: "Whereas, there is a general movement on for the repeal of the present two-cent per mile passenger rate, as now established under the law of the state, and whereas such repeal seems intended to create a distinction in classification between the lower and upper peninsulas of our common state, by making three cents per mile the legal rate up here and only two and one-half cents per mile below; it is hereby resolved by the board of supervisors of Gogebic county in regular session assembled: "That we protest, in behalf of the people of Gogebic county, against any special legislation to foist a higher rate of travel and transportation upon this upper peninsula only, contrary to the plain letter and spirit both of Section 30, Article V, of the constitution of our state, and we demand that if any such discriminating legislation is contemplated by the lawmaking body of our state, such law, if enacted and before going into effect, shall be submitted to the voters of this upper peninsula for their approval or rejection, as provided in the section and article above named.

India's cotton crop is estimated at 4,300,000 bales of 400 pounds each. If the land of England and Wales were equally divided among the residents there would be little more than one acre for each person.

Explorations within recent years have indicated that China has coal fields containing more fuel than all the rest of the world combined.

The "Whirlwind Campaign."

However, it was soon seen that such an immense sum would be needed that some special effort must be made to raise it. So it was decided to adopt the "Whirlwind Campaign" idea and to get by an impetuous rush an amount that would have been almost impossible to collect by dribbles.

Archbishop Bruchési, head of the Roman Catholic diocese of Montreal, announced that the priests of Saint Sulphice had voted \$25,000 for the funds, and said that the Catholic bishops were to meet at Quebec and issue an appeal for the fund. Personally he subscribed \$1,000.

At another of these luncheons the Rev. Dr. James Barclay of St. Paul's Presbyterian church, who had been a chaplain to the late Queen Victoria, paid his compliments to the Kaiser. He described him as "the overbearing autocrat—a man who callously declared he was ready to sacrifice a million of his soldiers to attain the object of his ambitions; a man who called himself the partner of Jehovah, and in his pride would take it as an act of gracious condescension and a mark of his favor to the Almighty to bestow upon Him the Iron Cross—if he only knew where to find Him; a man whose word in a solemn treaty was a mere scrap of paper to be carelessly torn up, and who in his blindness thought he could persuade great Britain to wink at his treachery, calling upon the Most High the while."

Why is POSTUM Replacing Coffee?

People are waking up to the harmful effects of the powerful drug—caffeine—in coffee, which poisons the system, often resulting in nervousness, heart flutter, headache, biliousness and many other ills and discomforts. The pure food-drink, Postum, is absolutely drug-free—made only of the choicest wheat and a bit of wholesome molasses. It contains no caffeine or other harmful element.

UPPER PENINSULA

It was decided to begin with an auction of articles contributed to the fund. The first was a diamond ring, sent by an anonymous daughter of the United Empire Loyalists, as descendants of those who fled from the United States to Canada at the time of the revolution are called. It was knocked down for \$1,000 and its purchaser was a Syrian, Salim Bonsamr. As he was cheered he said, "I owe all I have to Montreal. Twenty years ago I came here without a cent, and I am proud to be able to give \$1,000 to the Patriotic Fund."
