London, Aug. 26, 10:10 p. m.—Brest Litovsk, the main Russian fortress and concentration center for the Bug river line of defenses, was occupied by the Austro-Germans today.

The Germans now are in possession of the whole line of railway from Cholm to Bialystok. The Russians having already evacuated the latter city, the fortresses of Grodno and Olita are now the only strongly defended positions remaining in the hands of the Russians.

The Russians have not yet entered the vast Bieloviezh forest, which extends thirty miles north and south and has a width of seventeen to thirty miles.

THINK LIBERALS APPROVE VIEWS OF AMBASSADOR

Administration Encouraged in Optimistic Attitude in Regard to Arabic Question by Count Von Bernstorff's Statement and Information from Ambassador.

President Wilson Said to Be Keeping Mind Open Until Details Are Cleared Up—Sinking of Arabic Said to Be as Much a Surprise to Germany as Others.

DISPATCHES CONFIRMED.

Ambassador Gerard, reporting from Berlin the substance of a conference with Foreign Minister von Jagow, confirmed the Associated Press dispatches of earlier in the day that Germany, even before the sinking of the Arabic, had adopted a policy designed to settle completely the whole submarine problem.

THINK CRISIS PASSED.

The more hopeful officials thought the crisis past and inferred the views which Ambassador von Bernstorff has been urging on Berlin had met with the support of the Liberals in Germany, who have been opposing the entire American policy of the Conservatives.

MAY SUSPEND WARFARE.

One fact was outstanding in the whole situation. It was that a further communication is coming from Germany outlining a policy, which it is said is expected to be satisfactory to the United States. It is understood that Germany will announce suspension of her submarine warfare on passenger carrying ships and that submarine commanders will be instructed not to sink any merchantmen without warning pending a diplomatic discussion or a modus vivendi relative to the British blockade against neutral commerce.

VICTORIES AID LIBERALS.

It was suggested today in diplomatic quarters that while Germany had avoided making public announcement of that fact, she was now in a position to do so because of the victories of the German arms in Poland. The same source pointed out that the victories of the German armies aided the Liberals in their support of the views which Count von Bern-

"When the war department after three weeks' public notice made no objection to my coming, they had no right to criticize General Wood because I was coming or because I did not submit my speech in advance to the administration for approval. It read in part as follows: "Nearly three weeks ago it was announced in the public press, the statement being carried prominently in every big newspaper, that in addition to President Wilson and Secretary Garrison some scores of private citizens had been asked to go to the Plattsburg camp, where it was expected they would speak to the men."

In a thoroughly demoralized foreign exchange market, its value dropped to 46.34, nearly 5 per cent, or 23 1/2 cents, below normal.

CALLS EFFECT DETRIMENTAL.

"I have just seen the report in the newspapers of the speech made by ex-President Roosevelt at the Plattsburg camp. It is difficult to conceive of anything which could have a more detrimental effect upon the real value of this experiment than such an incident. "This camp, held under government auspices, was successfully demonstrating many things of great moment."

DETECTIVES AT GARY DECLARE THAT EVIDENCES OF CONSPIRACY HAVE BEEN FOUND.

Gary, Ind., Aug. 26.—A maze of conflicting theories tonight confronted authorities who are trying to solve the mystery surrounding the murder of Rev. Edmund J. Kayser, of Pullerton, a suburb of this city.

Belief that Kayser was slain for his pro-German activities was considered by some to be given strength by the statement this afternoon of a Gary woman that she was in the pastor's home an hour before he was killed and that just time overheard a conversation between Kayser and a prominent Gary attorney.

The woman declares Kayser and the attorney were discussing plans to frustrate shipments of arms to the allies. Their conversation was carried on in German, she said. Earlier in the day detectives said to be in the employ of the German alliance, of which Kayser was president, declared that they had found evidence of a conspiracy to murder the minister. Chief of Police Heintz of Gary was inclined to discredit this disclosure.

Delft Theater Today.
Edgar Jones and Justina Huff will be featured at the Delft theater today in the three-reel Lubin drama, "On Bitter Creek." "Beautiful Belinda," a Selig comedy, will also be shown. "The Painted World" will be the feature for Saturday.

"The Commanding Officer."
The opera house will present a noteworthy attraction on Wednesday next week in "A Pair of Sixes," the farce which ran for almost a year at the Longacre theater, New York. The comedy is a stage play, not a picture. It is presented by the New York company which, in the upper peninsula, appears only at Sault Ste. Marie and Marquette on its way to the Pacific coast. "A Pair of Sixes" has proved probably the biggest farce winner in the history of the English-speaking stage. At least the success which it has won in New York has been duplicated in Chicago and all the other cities where it has been presented. The story deals with the fortunes of two partners in the pill manufacturing business. Each claims to be the head and brains of the enterprise. After much squabbling, they agree to disagree and, through the services of their attorney, decide to settle the dispute as to who shall be the head of the firm by playing a show-down hand of poker. A pair of sixes wins. By the terms of the contract, the losing partner becomes the other man's servant for a period of one year. The entangling situation creates no end of amusing situations. The company to be seen here will include Oscar Fig-

MAN'S BODY IS FOUND.
Companion Is Believed to Also Have Been Drowned at Big Bay.

The body of an unidentified man was found in Lake Independence yesterday offering much evidence of a drowning accident in which not only the unknown man, it is believed, a second man had lost his life in that body of water at the town of Big Bay. It is recalled by Big Bay people that some ten days ago, two men hired a boat and went out on the lake. The next day the craft was found, floating bottomside up. Since the men were strangers in the town, it was not known whether they had decamped or had met with disaster. However a watch of the shores was instituted by F. A. Hoffman, supervisor of Powell township, and yesterday's gruesome find was the result. The body was found floating twenty feet from the shore. It is the supposition the second man suffered a similar fate. Neither of the pair appears to be known at Big Bay. One had been employed as a section hand on the L. S. & L. railroad for a short time, and the other had drifted into town a day or two prior to the ill-fated boat ride. Cameron Friis was notified by Supervisor Hoffman of the discovery of the body, and he is expected at Big Bay this morning.

Deer Hunter Pays a Fine.

Charged with hunting deer, Bert Gratland, of Nadeau township, Menominee county, was arrested by Deputy State Game Warden Herman Leisner of Escanaba and Joseph Kell of Menominee. Gratland was caught in the act and was taken before Justice Jensen at Hermsville. He entered a plea of guilty and paid a fine and costs amounting to \$12.50.

County Is Sued for Damages.

The county of Menominee is defendant in a suit for \$2,000 begun by Jacobson in circuit court. Jacobson, who is a farmer, was injured last year. He and his wife were driving, and Jacobson was knocked from the tuggy and rendered unconscious by a chute, used in repair work, which extended over the highway. In the action, which was begun by Michael J. Doyle, attorney for Jacobson, negligence on the part of the road commissioners is alleged. The county board at its meeting last week approved the report of a committee which conferred with Prosecuting Attorney Fred H. Haggerson and which recommended that Jacobson's claim for damages be disallowed. The board took the position that warnings that the road was being repaired had been given, and that thus the county was not liable.

Costly Fire at the Soo.

For the third time in twenty years the Sault Ste. Marie lumber mill and yards owned by Mark Tymon have been destroyed by fire. Mr. Tymon, who carried no insurance, places his loss at \$20,000. The fire started in the mill and is believed to have been of incendiary origin. It swept at a rapid rate, crossed over the tramways to two lumber sheds and destroyed them, also burning the office and a small residence which Mr. Tymon owned and which was occupied by Patrick Needham. The fire department made a quick run, but the dry timbers of the mill offered splendid fuel for the flames. By the time the first hose line was connected, the fire was well toward the center of the building and rapidly spreading to all parts. Besides the buildings, 800,000 feet of choice lumber was lost. All that is left are 100,000 feet of lumber and a gasoline motor. Patrick Needham who discovered the fire, claims he saw a man running from the mill toward the water power canal, just as he noticed the blaze. Earlier in the day, Mr. Tymon had sent from the yard a man who was sleeping in the sawdust. Several times in the afternoon the same person was seen prowling about the place.

Michigan Fights Isle Gravel Raid.

The state of Michigan has declared war on Minnesota, Wisconsin and Canadian contractors who for the last six or seven years have been removing, without authority, gravel for private construction work from the beds on certain islands in the Isle Royale group in Lake Superior. Andrew C. Dougherty, of Lansing, assistant attorney general of Michigan, has been in Duluth this week to confer with George G. Barnum, of the Barnum Grain company. Mr. Barnum owns one of the islands in Isle Royale waters from which much gravel has been removed. According to Mr. Dougherty, a big dredging and docking concern of Superior has been one of the chief violators. This concern, he says, has removed as many as three ships in loads of gravel in a week to be used in government harbor work at Post Arthur. The practice has been going on for a number of years, Mr. Dougherty says, with the result that many
