AT LEAST 40 PERISHED AS HURRICANE SWEEP THE GULF OF MEXICO

West Indian Tornado Tears Down Buildings, Floods Cities and Destroys Communication from Coast--Wind Attains a Velocity of 120 to 130 Miles an Hour --No Window in Orleans Left Unbroken

Mobile, Ala., Sept. 30.--The West Indian hurricane that spent its force last night against New Orleans took a toll of at least two score lives and did extensive property damage at smaller cities and resorts along the central gulf coast...

light poles, wires and debris from damaged buildings littered the streets today and hundreds of structures were unroofed or demolished in various parts of the city.

WIND REACHED 120 TO 130 MILES.

The maximum velocity of the wind was reported by the weather bureau as between 120 and 130 miles an hour.

For more than seven hours the hurricane swept over the city at a rate of more than sixty miles an hour.

NEW ORLEANS HIT HARD. New Orleans, via Baton Rouge, Sept. 30.--Official estimates today placed the property damage at New Orleans in yesterday's storm at nearly \$2,000,000 and the loss of life at seven.

POLICE RESCUE WORKING GIRLS. Police and fire departments were kept busy responding to calls for assistance and investigation reports of collapsed buildings.

SHARPS WORK ON VETERANS AT WASHINGTON

Washington, Sept. 30.--Kansas City was selected today for the place of the 1916 encampment of the Grand Army of the Republic.

SHARPS WORKED ON VETERANS?

A report had gained circulation that all G. A. R. visitors were invited and to add to the confusion many of those in the crowd that appeared when the hour for the reception arrived were badges which they said had been sold them at twenty-five cents.

SAYS MOVIES KEEP MEN FROM SALOONS; LICENSE IS HIGHER

New York, Sept. 30.--The increase of \$300 in the state retail liquor fees, which becomes effective tomorrow, will force 600 saloons out of business in Manhattan and Brooklyn and reduce the city's share in this revenue about \$300,000.

SERBIA IS USING ALL STRENGTH TO WARD TEUTON INVASION OFF

New York, Sept. 30.--Serbia has an army of about 600,000 men in the field to resist invasion of that country by the Teutonic allies.

HALF MILLION TEUTONS ON SERBIAN FRONTIER

Paris, Sept. 30, 5:30 p. m.--The number of Austro-German troops concentrated on the Serbian frontier is estimated at 5,000,000.

AMERICA ASKS GERMANY TO PROTECT ARMENIANS

Washington, Sept. 30.--The state department has placed an informal request before Count von Bernstorff the German ambassador.

GREECE IS READY FOR EMERGENCY VENIZELOS SAYS

Chamber Ratifies Government's Action Voting \$30,000,000

Athens, via Paris, Sept. 30.--The Greek chamber, in a special session today, ratified the action of the government in decreasing a general mobilization of the army and authorized a loan of \$30,000,000.

DISTRUSTS BULGARIA.

"Notwithstanding the Bulgarian explanation, the situation remains grave," the premier continued.

The scene within the chamber, as the premier announced the government's policy, was a striking one.

GREECE WILL SUPPORT SERBIA.

Except for the frequent outbursts of enthusiasm impressive silence ruled in the chamber as Premier Venizelos read his declaration.

WANT BULGARIA TO DEMOBILIZE.

Paris, Sept. 30.--The Temps says that the French government has arrived at a certain decision as to what should be done to avert an attack on Serbia by Bulgaria.

CONSCRIPTION IS NOT NEEDED IN ENGLAND TO OBTAIN MUNITIONS

London, Sept. 30, 9:30 p. m.--At a conference of representatives of the chief labor organizations of the country, held after a meeting at which Premier Asquith and Earl Kitchener discussed the military situation with them.

TODAY'S WEATHER.

Washington, Sept. 30.--The following is the weather bureau's forecast for Upper Michigan:

INVADERS' SECOND DEFENSE HIT BY ONRUSHING FORCES; FALL MEANS DECISIVE GAIN

While Anglo-French in Artois Region Consolidate Ground Won, Battle for Teutonic Positions Farther Back Goes on Desperately--Their Capture Would Menace Entire Campaign in West--Von Hindenburg Struggling Hard in North, But Still Is Far from Dvinsk--Russians Attacking in Galicia.

London, Sept. 30, 10 p. m.--While the Anglo-French troops in Artois apparently are now simply engaged in consolidating the ground won and opposing the German counter-attacks, the battle for the German second line of defense in Champagne--the collapse of which would actually menace the greater part of the German position in the west--is proceeding with the greatest stubbornness.

The French official communication tonight says that on the Champagne front alone since Sept. 25 field guns and heavy pieces to the number of 121 have been captured by the French.

At several points the French troops have gained a footing in the second line and some of them even went right through, but, encountering German reserves, were unable to maintain their progress.

GERMANS ADMIT AUSTRIAN VICTORY

The Germans, however, admit the loss of 121 to the north of Metz, where the French are not far from the railway triangle, the possession of

which has been of the greatest advantage to the Germans as one of the lines has been used for supplying the Argonne army.

It is believed here that besides the gain of ground both in Artois and Champagne and the improved position of the allies generally the recent successful operations must soon relieve the pressure on Russia and perhaps prevent the Austro-Germans from sending any large force against Serbia.

Already large reinforcements for the Germans are arriving on the western front and their presence already has had the effect of slackening somewhat the allies' offensive.

VON HINDENBERG FIGHTING HARD.

Field Marshal von Hindenburg, while he claims to have made some progress in his operations against Dvinsk, is still a long way from that city.

INVESTORS MAY BUY ALLY BONDS FOR LOAN AT 96 1/2

New York, Sept. 30.--Although the designated price of the Anglo-French five-year credit bonds has been fixed at 98 to the public, it developed today that virtually anyone who wished to purchase them in amounts of \$1,000 and upward be able to do so at 96 1/2, the net price to the syndicate.

URGES "HONEST NEUTRALITY."

St. Louis, Sept. 30.--J. P. Morgan and his employers in London could not have devised a better scheme than the proposed American loan to Great Britain and France to foment a powerful and active pro-British sentiment in this country.

London, Sept. 30.--Six dirigible balloons were sighted today over Aerschot, twenty-three miles northwest of Brussels.

"SKY PILOTS" HAVE A DIFFICULT TIME MAKING ENDS MEET

St. Louis, Sept. 30.--The hardships of a Methodist circuit rider were brought forcibly to the attention of the city ministers attending the St. Louis conference of the Methodist Episcopal church today when one country preacher reported that in the last two months he had received half of a hog and a great many eggs but no money.

THANKFUL FOR SYMPATHY SHOWN

Baron Reading, lord chief justice of England, chairman of the commission, and Octave Homberg, of the French foreign office were speakers at a banquet given them tonight by the Pilgrim society of the United States.

STILL HEAVILY HAMMERING AT THE AUSTRO-GERMAN ARMIES.

It is believed that this is the first stroke in his latest blow against the Russian right, and that he intends to advance southeastward in the direction of Minsk and endeavor to cut off the Russians retreating from Baranovich.

SPEED KEPT LOSSES DOWN.

Paris, Oct. 1, 12:10 a. m.--The French losses in the recent offensive so costly to the Germans were relatively very light, according to statements made by persons in a position to know.

EQUALIZATION.

It is hardly probable that the board of supervisors will change the apportionment of state and county taxes between the townships and cities to any material extent.

But it does expect that it will be in no manner increased. The assessments on general property in Marquette are high.

ITS DEEPER MEANING.

As obstinate as the fighting on the west front are the conflicting claims of the army chiefs as to the results that have been achieved there.

Certain things are beyond dispute. The Germans admit—because perforce they cannot deny—that the allies' artillery preparation blasted them out of first line trenches in the sectors chosen for the principal offensive and that there, as far as overcoming these trench-

Nevertheless, there is rather a pretty moral in the situation. Here is a tremendous triumph of human skill and power, acclaimed throughout the western hemisphere as a masterpiece of engineering, acknowledged by its proud proprietor nation to be one of the modern wonders of the world.

mans have tried for a decision in Russia, and have failed to obtain it. The greatness of the conception of their campaign and the wonderful effectiveness of its execution have been foiled by the Russian genius for retreat, which has excited the Russian armies from half a dozen tight holes, where disaster, it appeared, must certainly be its lot.

The southeast is now the arena that offers best opportunity for a result that might prove decisive. If the armies of the central empire can be joined to those of Turkey and the allies expelled from the Dardanelles, there will be an effectual isolation of Russia—combined with a probability that that country cannot in this war secure its great objective, Constantinople and a free Dardanelles—that would perhaps prepare the ground for peace overtures from the Germans.

The Teutonic adventure in the southeast will likely take on great proportions, unless untoward things occur on the west front. With or without Bulgaria, a tremendous effort will be made to link up the Teutonic hosts with the armies of the third ally, Turkey.

Though formally opened with flying flags and military honors, the Panama canal seems disposed not to stay open.

One hundred names will make any Michigan candidate for the Republican nomination for president in the Michigan primaries.

On second thought, Mr. Hudson called off the proposed meeting of the dry leaders, at which the subject under discussion was to be whether the dries wanted a candidate for governor in the Republican primaries, and particularly whether they wanted Mr. Dickinson, the lieutenant governor.

It is a sufficient reason. There's no juicier meat for the newspaper man than these "get together" conferences.

Mr. Ford disowns the story about the submarine with a powder pill on a stick. If Mr. Ford does not curb his newspaper friends he will have to establish a bureau of reputation, organized for the purpose of detaching him from the wild yarns they so frequently hang on him.

Banks and bankers who are so greatly concerned about the proposed loan to the allies understand, of course, that those who don't want any of the bonds do not have to buy them.

When Marquette dresses up in its new municipal coat, in addition to its other modern municipal garments, it will be prepared to look in a mirror and no longer be ashamed of itself.

M. O. in Detroit would have a much better chance if the merits of the question were not so effectively obscured by the overhauling of the daily newspapers.

When we get the wireless telephone will that energetic young person in the central office say, "air's busy?"

For joy riders with large rolls and exclusive tastes flyers on the war stocks can be highly recommended.

For weeks it has been generally known that a widespread conspiracy to make open war upon this country and massacre all American citizens with a reach is in progress among Mexicans on both sides of the border.

Waste.
The little word "waste" spreads a mantle over a multitude of evils and suffering, declares Dr. R. L. Dixon, of the Michigan state board of health.

She Squelched Him.
An effeminate, self-opinionated young man entered a restaurant the other day, and, after he had ordered lunch, the waitress, who was well known for her obliging disposition and ready wit, handed him a newspaper, so that he might profitably while away the few minutes that would elapse before he was served.

He Liked the Gravy.

EDITORIAL OPINION

Women After the War.
Before the war began, women outnumbered men in almost all the fighting countries, though exact statistics are available for only a few.

The war has increased this disparity of the sexes to a frightful extent. Assuming that British figures of casualties refer to home forces alone, the United Kingdom has lost about 400,000 men.

On the face of the returns, therefore, these three countries have lost from 4,000,000 to 5,000,000 men. There are many duplications in the lists; men slightly wounded in the early months of the war have returned to the front and were wounded again.

It is not a wild guess to estimate that when the struggle is over these three countries will contain 5,000,000 more marriageable women than marriageable men.

Half a million cartridges and a large number of rifles billed to Carranza have been held up by customs authorities at Laredo on the Texas border.

EAST LANSING—As a result of the first class riot at the Michigan Agricultural college in two years, tailors are busy mending torn clothing, while many of the participants are nursing bruises. The trouble started when the sophomore class attempted to haze a number of freshmen. The first-year men, blindfolded, were made to perform on the "coop" steps, and several of their numbers were required to climb trees and bark at the moon. This sort of thing went on for a short time, when the word was passed among the junior dormitories that the sophs were about to give the freshmen a bath in the Red Cedar river. This served as a call to arms and a half hundred juniors called a mad rush at the sophomores and took all but two of the freshmen away from them and escorted them to their homes. The remaining first-year men were still up the trees and a free-for-all followed, during which clothing was torn freely, and while the excitement was at its height the freshmen made their escape.

HARBOR OF REFUGE READY FOR VESSELS

Government Contract of Portage Completed—Other Notes from Marine Circles.

The Portage river harbor of refuge, the most important aid to navigation on the Portage lake waterway in several years, is now ready for the use of vessels. In fact it has been in use during the final stages of construction and as many as five steamers have made use of it in one day during the past week, while weather permitted.

The Duluth-Superior Dredge company's dredge Old Hickory, which did the dredging of the harbor for the contractors, the Zenith Dredge company, of Duluth, left yesterday night for Duluth in tow of the tug Gladiator.

There still remains a small quantity of dredging to be done on the east side of the harbor, to make space for boats to turn around. This will be done next summer.

The 1,100-foot mooring pier, which was done by the American Bay, under the direction of Superintendent Banks of the waterway, also is completed. From now on to the close of the season this harbor will be made use of liberally by steamers awaiting weather.

Hayes Leaves for Erie. The steamer R. B. Hayes, Capt. Joseph Bonassa, the excursion boat of the White City company, left yesterday for Lake Erie, where she is to be disposed of in a trade for the steamer Wherke, which the company will use for the excursion traffic on Portage lake next season.

Marine Inspectors C. M. Gooding and C. M. York of Marquette, were in Houghton yesterday giving the Hayes her final inspection of the season.

Preservation of Piles. A paragraph reprinted yesterday from the American Boy tells of the remarkable state of preservation of dock piles driven into the Great Salt Lake of Utah and the explanation given is that the piles do not rot because they are impregnated with salt.

POLITICAL GOSSIP IN COPPER COUNTRY

Candidates for Sheriff, as Usual, Will Be Many—None for Treasurer Yet.

More than a year must elapse before the voters of Houghton county will elect a complete new set of officers, it being accepted that a man who is re-elected is a new officer at the beginning of another term. But less than a year will pass before the voters will have gone to the polls to express their choice of candidates in the primary and nominate men that will represent the parties in the November election.

It would be next to a physical impossibility to enumerate the individuals that have been mentioned as possible and certain candidates in the 1916 primary for county offices. In November of next year there will be elected a sheriff, prosecuting attorney, county clerk, county treasurer, judge of probate and register of deeds in addition to a few other officers of less importance. There will also be elected from this county four representatives and a state senator for county offices. In November of next year there will be elected a sheriff, prosecuting attorney, county clerk, county treasurer, judge of probate and register of deeds in addition to a few other officers of less importance.

The office of sheriff will bring out a crop of Republican candidates. Calumet it is said, has a large list of native sons that will aspire to the chief executive office of the county. Houghton it is rumored has a couple. Hancock will be heard from and it is to be expected that candidates for this office will be heard of from other towns in the county. Sheriff Cruse is now serving his second term and cannot be a candidate.

County Treasurer Bram also completes his second term next year and because the law says so he cannot come before the voters for this office until 1918 at the earliest. A couple of prominent men that have been active in the Republican party for several years have been mentioned as likely candidates for county treasurer. Usually the sheriff's office, the treasurer's has no candidates as yet that have made public announcement to this effect.

Nicholas F. Kaiser, county clerk; Clyde Mackenzie, register of deeds, and George C. Bentley, judge of probate, are three officers whose terms expire, but are eligible to re-election. Probably it is too early for candidates, other than the incumbents, to announce themselves for these offices or perhaps the running qualities of Messrs. Kaiser, Mackenzie and Bentley have been so well impressed in recent years that they will go to the polls unopposed.

W. J. Galbraith, prosecuting attorney, is serving his first term, being elected to office last fall when Sheriff Cruse and Treasurer Bram were elected for a second term. As yet there is no record of opposition to Mr. Galbraith's re-election.

Democratic Situation. What the Democrats will do in the next election is problematical. One thing is certain—fewer of them will participate in voting for Republican candidates in the primary than was the case in 1914. The Nauck bill passed by the last legislature does not compel party enrollment but it will force the voter to call for the ballot he wishes to vote and old line Democrats will hardly step to the clerk and sing out "a Republican ballot please." There are Democrats in the county, however, that have been heard to say they will vote the Republican ticket in the primary next fall. It may be that the Democrat has a Republican friend he wants to see nominated, perhaps it is to nominate a weak candidate so as to throw possible strength to the Democratic nominee and again it is possible he wishes to participate in a primary where there is a genuine scrap.

SHERIFF CRUSE SUCCESSFUL

Leaves Cheyenne, Wyo., With Four Members of Suit Club Gang.

Sheriff James Cruse left Wednesday night from Cheyenne, Wyo., for Houghton, with the four members of the Acme suit club gang who have been fighting extradition from Wyoming.

After the governor of Wyoming granted the extradition the gang first habens corpus proceedings, but were unsuccessful. A telegram from the sheriff stated he would arrive in Houghton Saturday.

The four defendants, Emily Zelen, Harry Zelen, Herbert McCaffrey and Phoebe Wiley will be assigned before Justice Jackson in Calumet Saturday afternoon.

ARRESTED AS EMBEZZLER.

John A. Makkinen Charged With Selling Lands Not His Own.

John A. Makkinen, of Houghton, was arrested yesterday morning on a charge that might be classed either as embezzlement or obtaining property under false pretenses. The exact charge against him is selling a piece of land in which he has no interest.

The complainant, John K. Jaakola of Calumet, alleges that Makkinen represented to him that he, Makkinen, was the owner of a piece of land in Stannard township, Ontonagon county. Makkinen sold the land to Jaakola, taking in payment a lot in Lammur, which was figured in the deal as being of the value of \$800, which is the amount Jaakola accuses Makkinen of misappropriating.

Jaakola claims that after he supposedly bought the Ontonagon county land from Makkinen he found that Makkinen did not own it, had no authority to sell it, had no right, title nor interest, nor was he attorney-in-fact. He thereupon made complaint before Justice Jaakola.

Makkinen was taken to Calumet for a hearing yesterday morning. He pleads not guilty to the charges and says that he is involved through Andrew Wirman, of Hancock. He was selling the land for the latter and Wirman appears to have no title. It is interesting to note in this connection that Wirman was arrested some time ago charged with a similar offense.

CALUMET WOMAN'S CLUB.

First Meeting of the New Year This Afternoon at Y. M. C. A. The Calumet Woman's club will resume its activities today, after the summer vacation. Mrs. C. L. Phelps, retiring president, who has devoted to its promotion, is expected to be present at the meeting, which will take place in the club's rooms at the Calumet Y. M. C. A. The following are the new officers of the club, who will assume their duties at this meeting: President—Mrs. Alfred Baldwin. First vice president—Mrs. J. M. Chapman. Second vice president—Mrs. G. H. Harvey. Recording secretary—Mrs. N. S. Macdonald. Assistant secretary—Mrs. Ranson Pearce. Corresponding secretary—Mrs. J. D. Hanley. Treasurer—Mrs. J. H. Rhines.

ACTING CLUB SECRETARY.

Miss Salo of Credit Bureau in Charge of Commercial Club.

George L. Price, recently resigned as secretary of the Copper Country Commercial club, left Wednesday night for his new field in Bismark, N. D., and Miss Salo, office manager of the Copper Country Credit bureau, is in temporary charge of the club. Through her long association with the work of the club Miss Salo is qualified to take charge of the duties, at least for the time being.

It is understood that there are a large number of applicants for Mr. Price's position. The officers of the club are not intimated when action will be taken.

CONTINUING BEAVER STORY.

Game Warden Willson Explains How a Beaver May Be Killed.

County Game Warden St. Clair Willson volunteered a contribution to the running story of the Lang-Colombe beaver mixup, which Attorney J. E. Hamblitz opened up to a wondering world a few days ago. Mr. Lang is a Pike river farmer, whose land is flooded because of beavers on Mr. Colombe's land, adjoining, build dams and force the water to back up.

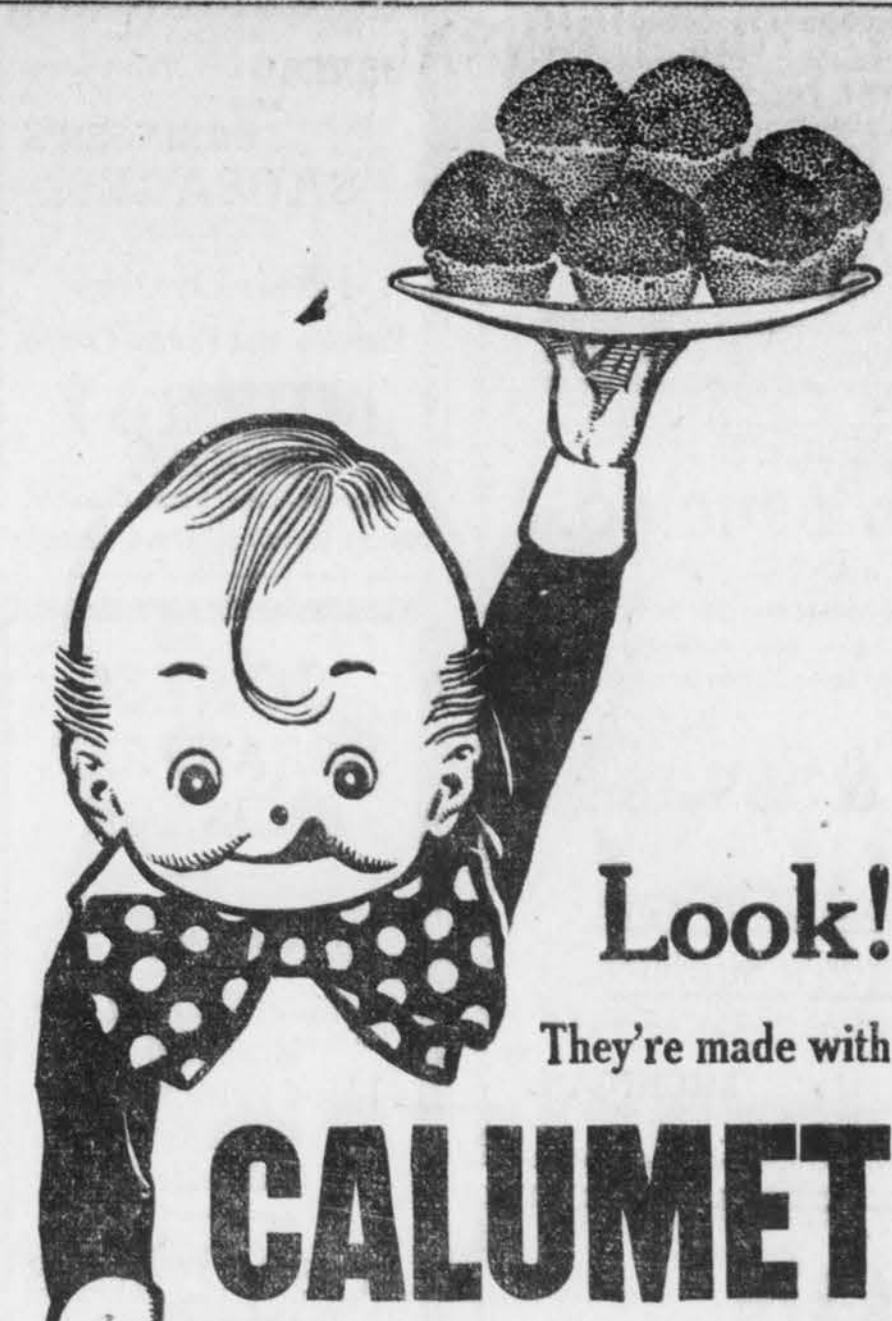

Mr. Lang complains to the state because the law will not permit him to destroy the beaver dams, or rather will not permit Mr. Colombe to destroy them, which he is willing to do as a good neighbor.

Mr. Willson comes into the story in this way: He says that when Mr. Lang first complained he went to him and had a conference. This he says, took place two days ago. Mr. Lang then said that the dam on his land from them on to the open beaver season would not be serious and he would be willing to wait till that time, when Colombe could trap the beaver off and stop the nuisance for all time. In the meantime Mr. Lang took the matter to the state, and through getting, apparently, the arrangement made with the game warden.

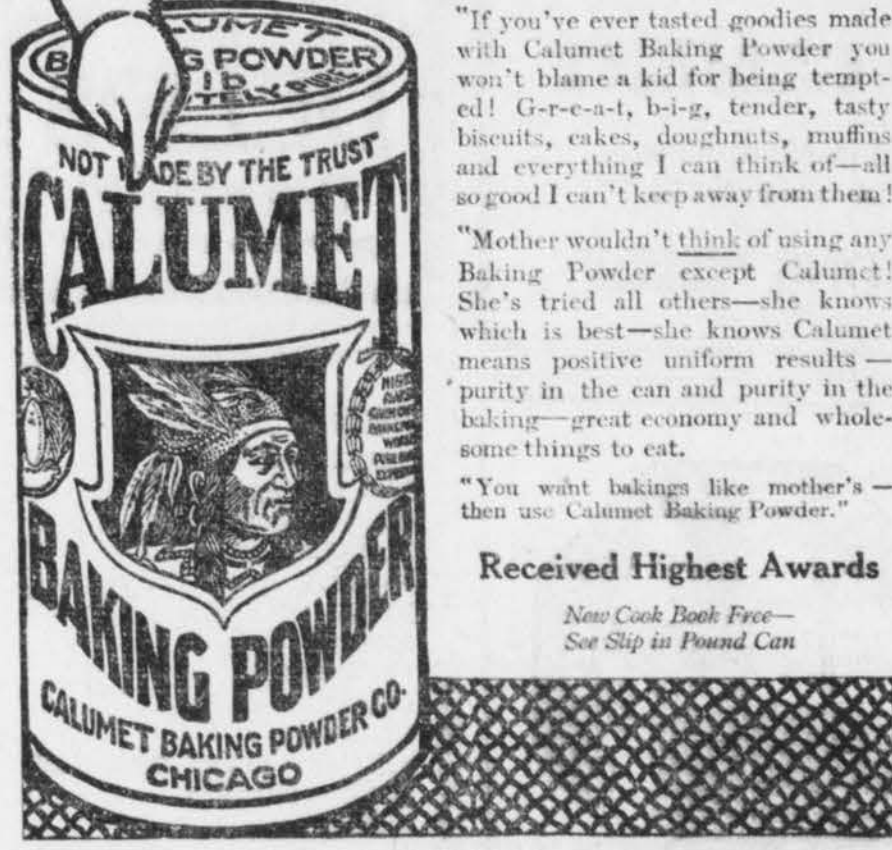

The innocent reporter asked why Mr. Colombe has not captured and killed the beaver long ago.

"He is not an experienced trapper," said the game warden, "he only caught half a dozen beaver in the dams last season."

"Could he not build a dam above the beaver colony and one below it and drain off the water and capture the beaver that way?"

Look! They're made with CALUMET

"If you've ever tasted goodies made with Calumet Baking Powder you won't blame a kid for being tempted! Get—get it, big, tender, tasty biscuits, cakes, doughnuts, muffins and everything I can think of—all so good I can't keep away from them!"

"Mother wouldn't think of using any Baking Powder except Calumet! She's tried all others—she knows which is best—she knows Calumet means positive uniform results—purity in the can and purity in the baking—great economy and wholesome things to eat."

"You want bakings like mother's—then use Calumet Baking Powder."

built across the channel of the old canal, navigation through the whole length of the canal has not been possible this season until now. Since the opening of the new section, the route has been by way of the Barge canal from Mud lock to the new flight at Seneca falls, thence through these locks and the lake above to Bridge street, thence in the old canal to a point just above Waterloo and from there to Seneca lake through the new channel.

At only two places on the Barge canal are locks located in flights of combined or tandem structures with a pool between. The best known of these places is Lockport, where two new locks replace the south tier of old locks, which consisted of two tiers of five locks each. The locks at Seneca consisted of two tiers of five locks each. The locks at Seneca falls, closely parallel those at Lockport, for the aggregate lift, forty-nine feet, is almost identical with the normal lift of those at the latter place. With a head of this amount a water power of some importance is developed.—New York Commercial.

ODD LOTS OF U. S. PROPERTY. Because red tape was not unwound in just the proper way during some of the big sales of public land in the West following the Civil war, the United States government finds itself today in possession of lots in certain "public land" cities on which improvements worth hundreds of thousands of dollars have been placed by supposed owners, who have never doubted the validity of their titles.

One situation has been found in Dubuque, Burlington and Davenport, Ia., by a recent special investigation made by an agent of the general land office. On one piece of government property a modern theater was found in operation and on another was situated a cemetery. Substantial business buildings, warehouses and a school were discovered on still other lots that had never passed from government ownership.

Just how the confusion as to the status of the properties arose is not clear. It may have resulted from a slip on the part of some former official

Baseball Standings of the Teams. American League, National League, Federal League. Lists teams like Boston, Detroit, Chicago, Philadelphia, etc., with wins, losses, and percentages.

WHERE THEY PLAY TODAY.

American League. Boston at Washington. Pittsburgh at St. Louis. Philadelphia at Boston. Brooklyn at New York. Chicago at Cincinnati. Federal League. Newark at Baltimore. Chicago at Pittsburgh. Buffalo at Brooklyn. AMERICAN LEAGUE. St. Louis, 8; Detroit, 2.

St. Louis, 8; Detroit, 2. Detroit, Sept. 30.—Boston became the American league champions today, though not playing, through Detroit's loss of the final game to St. Louis. Detroit's defeat makes it impossible for any team to overtake the league leaders. Wellman won his eighth game of the year from the Tigers, and would not have been scored on but for three errors bunched in one inning.

Philadelphia, 1; Washington, 3. Washington, Sept. 30.—Sherman, a recent pitcher, pitched the Athletics to a victory over Washington here today.

National League. Cincinnati, 3; Chicago, 2. Chicago, Sept. 30.—Bryant fielding by Chicago enabled Cincinnati to win the final game of the series here for the year.

Boston, 8; Philadelphia, 2. Boston, Sept. 30.—Philadelphia, with the National League championship won, let up a bit today and the Braves won the game easily. Hughes held the new champions to three runs, but in error by Maranville in the third inning the Sox tied the two runs that were scored on Cravath's triple.

New York, 3; Brooklyn, 6. New York, Sept. 30.—Tresson had the Superbas at his mercy here today, while the Giants lunched him in two innings off Hoffer and shut out Brooklyn.

Pittsburg, 6; St. Louis, 3. St. Louis, Sept. 30.—Pittsburg went into the first division by defeating St. Louis in a ten inning game here for the year. Hargrave won in the fourth on a single by Viox and Gibson's double.

Federal League. Baltimore, 1; Newark, 3. Second game. Baltimore, 1; Newark, 3. Brooklyn, 2; Buffalo, 3. Pittsburg, 8; Chicago, 4. St. Louis, 1; Kansas City, 2.

CHINESE ARE CALM IN POLITICAL ROW

Little Interest Shown Whether Government Is Monarchy or Republic.

Hankow, China, Aug. 20.—(Mail Correspondence of The Associated Press.)—Chinese newspapers have taken the movement of the Peace Preservation society to reestablish the empire very calmly.

This view is probably typical of that held by most of the business men of Hankow, which is called the Chicago of China, and is probably destined to be the great railway center of the country.

The Hanyang iron works, which figured so prominently in the recent negotiations between Japan and China, are located here and employ more than 4,000 men in making steel rails and other iron products.

IN SUCH PAIN WOMAN CRIED. Suffered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound. Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound."—Mrs. P. W. LANSBORG, Box 8, Allyn, Wash.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound? For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc. If you want special advice write to Lydia E. THREE-MEN LEAGUE IS ORGANIZED

Plans for an Active Bowling Season at Empire Alleys Are Outlined.

That interest in bowling is keen in Ishpeming is shown by the organization of fourteen teams for a three-men-team bowling league, the matches to be held at the Empire alleys. Twelve of these are made up of Ishpeming bowlers and two of Negaunee men. The latter include some of the strongest bowlers in Negaunee. The teams are as follows:

No. 1—Jack Gray, Wm. Gray and Pete Denn.
No. 2—Schilling, Bettison and Anderson.
No. 3—Quayle, Dyer and Jack Martin.
No. 4—Thompson, Lundin and Campbell.
No. 5—Hayden, Lindberg and Andrews.
No. 6—Erickson, Johnson and Redinger.
No. 7—E. Hendrickson, Heindel and Burke.
No. 8—Braastad, Blamey and Gleason.
No. 9—Saline, Wm. Hendrickson and Bert Naull.
No. 10—Geehan, Harvey Watters and Beaudin.
No. 11—Emblom Minear and Dawson.
No. 12—Grunnett, Talo and Jack Hendrickson.

A schedule is now being arranged. Mr. Zinn has been engaged by Mr. Geehan to have charge of the alleys again this year. They have been thoroughly overhauled and several improvements to the fixtures have been made.

New Men in League.
The newcomers in the league this year are Minear, William Gray, Jack Hendrickson, Harvey Watters, Jack Talo, Bert Naull, Emblom, Dawson and Saline. Mr. Minear is an old time bowler from the copper country. Jack Gray has his son on his team. He will be the youngest bowler, as he is barely seventeen years. Jack Hendrickson, of Gately-Wiggins company, will be a strong bowler and Clarence Dawson is considered a bowling comedian.

It is planned to pick out five-men teams for the upper peninsula bowling tournament at Lake Linden. Negaunee also plans to send a five-men team to the copper country, and inter-city matches will be held to keep the teams in good form.

October 4, the opening day of the league schedule, it is planned to give the first teams to bowl a rousing reception. The contest will start at 8 o'clock.

NEW POWER HOUSE FOR OPEN PIT MINE

Cleveland Cliffs Iron Company to Erect Substantial Building at North Lake.

Louis Erickson & Son have been awarded a contract by the Cleveland-Cliffs Iron company to erect a power house at its Section 6 mine, in the North Lake district. This is the property at which House & Person are stripping the overburden from the ore body.

The building will be twenty-six and one-half by thirty-two and one-half feet and will be constructed of solid brick, with a concrete foundation. The work was started yesterday and will be completed within two months. A. H. Swanson is putting in the concrete.

Erickson & Son are now erecting at the North Lake location the last of the dwellings moved from the Cleveland-Cliffs Iron company's Dexter location. J. P. Krupp, who has the contract to plaster the buildings, started work yesterday. Seven dwellings, including a large boarding house were moved. All were torn down and rebuilt. Several sheds were moved intact.

Schlegel Bros. will paint the dwellings and barns. They started a crew to work yesterday.

Erickson & Son are under contract to complete the job by the first of the year, but they expect to have all of the buildings ready for occupancy at least thirty days before that time.

The firm is just finishing the erection of a large barn for the DuPont Powder company at the Junction location. Work on the structure was started about six weeks ago.

PROBING HIBBING FINANCES.

State of Minnesota Directs Men to Audit Village Officials' Books.

The officers of the village of Hibbing were Wednesday given a surprise when Public Examiner Andrew K. Fritz, accompanied by Deputy Examiners Cedarberg and Davis, appeared at the village hall and announced that an examination would be made of all the books and records of the village for the past six years. Mr. Fritz said that having received a petition signed by ten Hibbing taxpayers, requesting him to examine the books and records of the village, he desired to count the cash and look over the treasurer's books. The treasurer promptly produced the books, and the cash on hand having been counted, the examination was immediately started.

The village council met Wednesday night and passed a resolution instructing all officers and employees of the village to lend every assistance to the public examiners in their work.

Mayor Power is confident that the examination by the state officials will show that the accounts of the village are well kept and everything is correct. In the interview he says: "Of course we knew nothing of the coming of the state public examiner until he and his deputies appeared at the village hall. It is true enough that we are glad to have them here."

"We feel that the result of a thorough examination of the books and records of the village of Hibbing will clarify a good many of the erroneous impressions that the public might have as to conditions here in Hibbing. While I am not familiar to any great extent with the books of the different departments of the village, I am satisfied that during the present administration since the year 1912, Hibbing will be a model of good government. We are ready to give to the public a complete report as to the status in connection with the finances of the village."

"As to our conduct of the village affairs we invite publicity and would not that the public await the result of the present examination. Every possible assistance will be given to the examiners so that they may get at every detail of the affairs of the village. Every employee of the village will be instructed to assist the gentlemen to the full extent of their ability and every officer will be ready to render any information and assistance he can give."

IN BUSINESS AT WAUSAUKEE.

George McNeeley, a druggist who was formerly in the employ of the Tilson Drug company and who left here about three years ago for Menominee, where he took a position in V. A. Lindgren's store, has purchased the Herman Drug store at Wausaukee, and is now in charge of the business. Mr. McNeeley was born and brought up at Menominee and spent practically all of his life there, with the exception of the time he was in Ishpeming, and at Manitowish, where he worked before coming to this city.

The front of the Jaedee building on Cleveland avenue, occupied by John Beauchamp and Sinclair Bros. is being painted.

MAY NOT REPAIR BUILDING.

The fire in the old fire hall building on First street Wednesday evening might have been a bad one was it not for the prompt action of the fire department. The blaze had a good start and as the interior of the building is saturated with gasoline and oil the flames shot up quickly burning their way through the first floor ceiling. The interior was damaged considerably and it is a question if the city will repair it as there is no particular use for the structure at this time. J. Farrell who had a garage on the first floor, will probably secure another location. His loss in damage to cars in the garage and equipment will probably reach \$400. The insurance on the building was recently reduced on account of the high rate.

USES WATER AS A FUEL.

George Moriarity, a Washington inventor, claims to have discovered a method for successfully using water as a fuel in internal combustion engines. His idea is to separate the elements which go to make up water and then explode them by means of compression in cylinders, using a spark coil to ignite the gases. He says he has developed nearly ninety horsepower with the water fuel and that the cost is less than two cents per gallon.

Smart Style Week

Commencing Today

HERE YOU WILL FIND the most interesting pages from Fashion's Note-Book—an exhibit of handsome Coats, Suits and Gowns, gathered together with greatest care and discrimination, and illustrating in a most authoritative way the authentic modes in wear-things of every kind.

These Smart-Style garments come from the style center of America, and from the leading developers of style motifs in that center. The labels they bear are guarantee bonds, proving at one time their style value, their ability to give service and their correctness of price.

As an exhibition of desirable merchandise, as a study of what is to be correct in garments this season, as an example of what our determination to give value can accomplish, this Smart-Style Week will surpass any event we have ever attempted, and we doubt if it has ever been paralleled in this city's retailing history.

Please accept this as a personal invitation to take advantage of this style exposition.

STUMPAGE IS OFF IN VALUE

Some Has Been Offered at Half What It Would Have Brought Two Years Ago, But as Big Concerns Control, for Most Part, There is Little for Sale.

Fewer Transactions Than at Any Previous Time for Years—Outlook for Lumber Industry Is Still Dark, Though Operators Are Somewhat Hopeful.

"Stumpage that two years ago would have brought \$30 an acre has been offered to me within the past few weeks for \$15," a Marquette man who deals in timber lands as a side issue, asserted yesterday.

"The demand is slack, but on the other hand no great amount of stumpage is pushing for sale. Most of that remaining in the upper peninsula is in the hands of large interests, principally among them the Cleveland-Cliffs. Much of it isn't for sale at any price, because its owners plan to use all the timber themselves. Other tracts are held for sale, but their owners would not let go at the prices they could get now, because they are able to carry their loads. They look forward to making some money when the expected revival in the market occurs. But there is, for the time, a lack of buyers of stumpage that is almost unprecedented of late years.

Dexter Justice Held Its Employees Were Within Their Rights.

The theory that a great corporation has about as much chance with a country justice of the peace as a snowball has in Hades received a jar at Dexter Justice yesterday.

IT'S COMING, SOME DAY.

But "Birth of the Nation" Has Yet to Be Shown in Michigan.

"When 'The Birth of the Nation' comes to town it is a question often asked by the moving picture public. H. S. Gallup, manager of the Delft theater, tried to get the answer at Detroit last week, but without success.

MAYOR REFUSES TO BE CONCERNED CITY CHARGED WITH TOO MANY DEATHS

Believes County Board Will Do What Is Right in Regard to Equalization.

Mayor Begole yesterday was inclined to minimize the suggestion that the equalization by the county board of supervisors might be changed from that of last fall in a manner that would result in Marquette having to pay more state and county taxes.

"I don't believe the board will split hairs over this question," the mayor said. "The amounts involved are hardly worth while. On the basis of the present equalization Marquette is taxed as heavily as is equitable, and the up-the-road members know that this is the case. I believe inquiry will show that general property here is assessed higher than anywhere else in the upper peninsula, and higher than in Ishpeming and Negaunee. That is partly due to the mistake we made in boosting it of our own accord, and the commission saw that our figures were given another tilt.

FUNERAL TODAY.

Relatives Here to Attend Obsequies of Mrs. Harry Glover.

The funeral of Mrs. Harry Glover, of Detroit, formerly Miss Emma Winkler, who passed away Monday evening, will take place this afternoon at 2:30, from the residence of Mrs. Anna Shoemaker, of the German Lutheran church, officiating.

Delft Theater.

"The Web of Crime," a two-reel Selig drama, is an appealing drama in a picturesque setting. The one-reel drama in "The Chain of Honor" which deals with titled foreigners and plain Americans. Augusta Anderson, Walter Wood, William J. Butler and Charles Fordley have the leads. "Education" is a clever comic setting of the familiar situation when the country lad goes to college and learns much not set forth in the text books.

Small Accounts Encouraged One need not have a large account with this bank in order to enjoy the privileges it confers.

Believing that banking co-operation tends to develop the resources of the small depositor, it is the policy of this Bank to give appreciative attention to all who bring their business here, regardless of the size of their transactions.
