BULGARIA FORMALLY DECLARES WAR ON SERBIA

RUSSIANS CONTINUE ATTACKS ON AUSTRIAN ARMY IN GALICIA TO CLEAR ROUMANIA BORDER

Reports Seem to Indicate, in Fact, General Offensive on All Teutonic Line in East--Hope Is to Prevent Reinforcements Reaching Invaders of Serbia--British Assume the Initiative in the West on 25-Mile Front, Which, If It Proves Concerted, Will Be the Greatest the Allies Ever Have Undertaken.

London, Oct. 14, 9:55 p. m.—The Russians are continuing their attack in Galicia in an effort to clear the Austrians from the Roumanian frontier and prevent them from sending any further reinforcements against Serbia. In fact there appears to be a general attack on all the German front.

The British and French, Berlin relates, have attacked in Flanders and Champagne, while the German official report of the campaign in Russia is a record of counter-attacks against the Russians, who are endeavoring to regain the initiative.

Even the Belgian coast is not excepted, British monitors having again bombarded the German positions along this coast.

ATTACK ON 25-MILE FRONT.

The British have made a general attack along nearly the entire front from

Ypres, in Belgium, to Loos, in northern France, the German war office announced today. It declares that all the attacks failed. The line of the new attack reported by Berlin extends for a distance of more than twenty-five miles. If it proves to be in reality a concerted offensive movement it represents one of the most extensive that the British have undertaken.

ARTILLERY FIGHTING SEVERE.

Violent artillery fighting continues in the Sonchez region in northern France, where the Germans recently penetrated some of the trenches in the Givency woods, which they had previously lost to the French. Today's statement by the Paris war office mentions particularly severe actions between Sonchez and Givency, to the northwest of hill No. 140.

In the Champagne a German attack to the west of Tullure was checked by artillery fire, the French report asserts. The French rear lines in the Champagne

district have been subjected to bomb attacks, it is declared.

The Russian army, which has been advancing victoriously in eastern Galicia, is said by the British war office today to have been checked. The Russians were driven back across the Stripa river, according to the Berlin statement.

Russia's recent successes are declared by a Dutch correspondent in the eastern war theater to have been due to the overwhelming superiority of her supply of munitions, which took the Austro-Germans completely by surprise, and with which they were unable to cope.

Regarding the recent fighting in the Artois region in France, the war correspondent of the Vossische Zeitung of Berlin says the attacks were a complete failure. He says that the Germans fought with almost superhuman bravery.

The Lokal Anzeiger states that the artillery battle was so furious that the glowing hot gun barrels could only be served through thick, protecting gloves.

ONE CRUISER SUNK IN NAVAL BATTLE

Stockholm, via London, Oct. 15, 3:09 a. m.—The Aftonbladet's foreign correspondent says a naval fight has occurred near Porkala, in the gulf of Finland. One cruiser is reported to have been sunk and another heavily damaged. The correspondent adds that a Zeppelin has raided the Finnish coast, causing fires.

RAID BY PLANES AS GERMANS DO BRITISH DEMAND

Proposal at Mass Meeting in London to Reply to Zeppelin Night Attacks by Similar Expeditions on "Sleeping Towns" Meets Enthusiastic Approval.

Casualties in Wednesday's Attack by Kaiser's Airships Were Fifty-five Dead, 114 Hurt—Material Loss Small—Reprisals Are the Only Remedy, Speakers Declare

London, Oct. 14, 8:15 p. m.—The proposal of replying to German air raids by "bombing his sleeping towns as he bombs ours" received an enthusiastic endorsement at a mass meeting today in the great hall of the Cannon street hotel, in the financial district of London.

Last night's Zeppelin visitation was the most serious London has experienced. According to the official British statement today fifty-five persons were killed and 114 injured. Only fourteen killed and thirteen wounded represent the military casualties. The others were civilians, according to the statement.

While the British press bureau says the material damage was small, the official German account declares great fires followed the dropping of the bombs. The London docks, the waterworks at Hampton and the town of Woolwich, near London, where there is an arsenal, were heavily bombarded. The batteries at Ipswich were also attacked. It declares all the Zeppelins returned safely.

640 CASUALTIES SO FAR.

The casualties in the raid of last night bring the total for all air raids on England up to 640, of which number 196 persons were killed and 434 injured.

Lord Willoughby de Broke and William Joynson-Hicks, member of parliament, were the principal speakers at the meeting today.

"We have come here," said Lord Willoughby de Broke, "to urge upon the government that they have got to take steps to stop the kind of thing that happened last night. The only way to do it is to treat them as they treat us. Otherwise they will continue in their policy while we sit still and suffer and become the laughing stock of Europe."

DEMANDS REPRISALS ON FOE.

Mr. Joynson-Hicks made a demand for reprisals which was couched in more lurid language.

"Let the Kaiser be made to realize what it means for his own people to be subjected, as we have been subjected, to cold-blooded butchery in the dead of night and there will be a demand from one end of Germany to the other to stop the butchery in England in order that they themselves may be safe," he said.

"We must be prepared to send two hundred machines at the very least circling over Cologne, Coburg and other German towns in order that the Germans may be made to realize the destruction they wrought last night and on other nights in our midst."

The resolutions passed at the meeting call upon the government to adopt a systematic policy of reprisal "as the only effective method of putting a stop to Zeppelin raids on London and other towns."

The Times also expresses sympathy with the plea for reprisals upon German cities.

"THREE RAIDS FOR ONE."

Sir Arthur Conan Doyle writes, advocating the stationing of a small squadron of British aeroplanes in eastern France, ready to make three similar raids on German towns for every raid made on an open town in Great Britain. He contends that an announcement of this kind would soon bring the Germans to reason and adds that doubtless the work would be repugnant to British airmen, but that too much forbearance already has been shown and that no other

"ATTACKED US FIRST" MINISTER FROM SOFIA SAYS, EXPLAINING ACT

Ferdinand's Government Officially Notifies Belgrad State of War Exists Between the Two Countries, Giving as the Reason Serb Troops Assaulted Bulgarian Army, Killing 70, Wounding 500--Russia Asks Roumania to Allow Troops to Pass Through to Balkan Front--Italian Help Confidently Expected.

Athens, Oct. 14, 1 p. m.—Bulgaria declared war on Serbia at 8 o'clock this morning.

London, Oct. 15, 2:05 a. m.—A dispatch to Reuter's Telegram company from Sofia dated last night (Thursday) says a royal manifesto has been issued calling upon the Bulgarian people and army to defend the national soil, "violated by a perfidious neighbor, and deliver their brethren, oppressed beneath the Serbian yoke."

The manifesto, the correspondent says, refers to the great efforts made by the king and government to preserve the peace and make both groups of belligerents realize the great injustice done to Bulgaria by the division of Macedonia.

Athens, Oct. 14, 1 p. m., via Paris, Oct. 14, 11 p. m.—The Bulgarian minister at noon today notified the Greek government that Bulgaria at 8 o'clock this morning declared war on Serbia, because a Serbian column had attacked the Bulgarians near Kostendil (southwest Bulgaria), killing seventy men and wounding five hundred.

Advices received in diplomatic circles here are that German skilled workmen have arrived at Varna, Bulgaria's chief Black sea port, from Constantinople, to assemble submarines which have been sent there in sections.

London, Oct. 14, 9:55 p. m.—Sir Edward Grey, the British foreign secretary, made a long statement in the house of commons today on the situation in the Balkans, but as he dealt with the diplo-

matic side of the question he added little to the knowledge of the public and failed to satisfy curiosity as to the progress of the Anglo-French expedition landed at Saloniki. He did say, however, that Russian troops would co-operate, "as soon as they were available."

The French premier, M. Viviani, had more cheering news for the allied countries, when, in the French senate, he expressed the belief that "the allies can count on Italian co-operation in the Balkans."

RUSS TO TRAVERSE ROUMANIA? There is naturally much speculation as to how Italian and Russian assistance will be afforded. Italy has a large number of troops available and the means of moving them to the desired spot, but Russia is handicapped in this respect and there is an inclination here to believe a report from Rome that Petrograd has asked Roumania to allow Russian troops to pass through her territory on the way to Bulgaria.

To grant such a request would be construed by Germany as tantamount to a definite alliance with the entente powers and would doubtless result in the Austro-German troops attacking Roumania.

This, it is thought, might happen anyway, as Germany has already showed her displeasure at Roumania's refusal to allow munitions to pass through to Turkey, and now it is reported that Germany has suspended the postal service and is holding up all foodstuffs consigned to Roumania over German railways until Bucharest more clearly defines its attitude toward the central powers.

SERBS FIGHT STUBBORNLY.

These diplomatic questions are not delaying the military operations. The Austro-German and Bulgarian attacks on Serbia are proceeding apace. They are, however, meeting with stern resistance and, although under constant attack

since Oct. 5, the Serbians are giving ground only foot by foot. The extent of the Bulgarian invasion up to the present, according to a dispatch from Nish, consists of an advance over the frontier at one point of a mile. With this exception, says the report, the fighting line remains intact and the railways have not yet been reached.

It is reported also that the allies have begun an offensive in the Dardanelles to keep the Turks busy.

BULGARS NEED MUNITIONS.

The Austro-German army which is invading Serbia, has captured the fortified works to the west, northeast and southeast of Pozarevac. Announcement to this effect was made today by the Berlin war office. Bulgaria has in stock only 1,350 shells for each gun, according to information from Serbian sources, says an Athens dispatch, and it is essential for its troops to effect a junction within a fortnight with the Austro-Germans who have invaded Serbia.

King Nicholas of Montenegro is quoted by the Paris Petit Parisien as having declared to its Cetinje correspondent: "We are fighting in the enemy's territory; we are ready and we fear nothing."

In response to a request for a definition of the attitude of Greece, King Constantine today made the following statement to the Associated Press at Athens:

"MUST SAVE GREECE."

"Greece is merely loosening her sword in its scabbard. She menaces no one. But she cannot permit that events shall constitute a menace to the integrity of the nation or the freedom of the Greek people."

"It is my duty to preserve my country from the danger of destruction through becoming involved in the general European conflict. I hope to do this at all hazards—if it is possible."

DEFENSE PLANS BRING EXPENSE TO A BILLION

Washington, Oct. 14.—The largest estimates of government expenditures ever submitted to a secretary of the treasury of the United States in time of peace will be presented for the next fiscal year tomorrow, as required by law, for discussion by congressional committees in advance of the regular session. With an estimated increase for national defense of about \$150,000,000 over last year, together with the cost of new tasks imposed on various departments of the government by reason of the European war, it is probable the amount of expenditures will reach a total of about \$1,240,000,000.

If congress agrees to the administration's program for strengthening the army and navy it will be obliged to provide for additional revenue legislation or the executive branch of the government must issue bonds.

Although no estimate of receipts for the fiscal year beginning July 1, 1916, in which the increased expenditures will take effect, has been made by Secretary McAdoo, officials now are convinced they cannot count upon more than \$750,000,000 for the twelve months, and some believe the total income will not go over \$700,000,000.

\$400,000,000 FOR DEFENSE.

Washington, Oct. 14.—Secretary Daniels, in agreement with the general board of the navy, practically has decided to recommend to congress a five-year construction program, which will include sixteen capital fighting ships—ten dreadnoughts and six battle cruisers.

Just what number shall be authorized the first year and consecutively thereafter will not be determined until the secretary and President Wilson confer tomorrow. On this point depends whether or not the combined army and navy estimates for next year will be kept around the \$400,000,000 mark desired by the administration or will aggregate \$432,000,000. The president has indicated that he favored large increases in both the army and navy.

\$182,000,000 FOR ARMY ALONE.

During the day the president announced his approval of the military policy framed by Secretary Garrison and officers of the general staff of the army, calling for an appropriation of \$182,000,000, or an increase of \$72,000,000 over last year. Much of the increase will be spent for field artillery and coast defenses, expenses to be incurred in the creation of a reserve of 200,000 men

SEES FUTURE HOMES LIGHTED BY MATTER FIREFLIES CARRY.

Philadelphia, Oct. 14.—Illumination for the homes of the future from the luciferous substance carried by fireflies, certain other insects, fish and animals was predicted by Dr. Urie Dahlgren, professor of biology at Princeton University, in a lecture here tonight at Franklin institute. Dr. Dahlgren said he believes the substance these insects, fish and animals carry is of an altogether chemical composition.

"Once the nature and properties of these chemicals are discovered," he added, "the light extraordinary for commercial purposes will follow. It will render 90 per cent. of efficiency where the lights of today can produce only 15 per cent."

Every three years by means of a short term enlistment, and an addition to the regular army. Details of the army plan have not been announced.

GERMANS HAVE KILLED OVER 5,000 CIVILIANS

This Is Charge Brought Against Military Authorities Occupying Belgium.

Paris, Oct. 15, 3 a. m.—A Havas dispatch from Havre says: "Over five thousand civilians have been shot in Belgium by order of the German military authorities according to authentic reports received by the Belgian government. The figure is approximate and unofficial because no local authorities, who fear reprisals, would dare draw up official reports."

The estimates so far made, follow: Antwerp, 200; Brabant, 800; Flanders, 100; Hainault, 400; Liege, 845; Limbourg, 40; Luxembourg, 1,000; Namur, 1,800.

ITALIANS HOLD ISLANDS IN THE MEDITERRANEAN

Berlin, Wireless to Tuckerton, N. J., Oct. 14.—The Tagblatt publishes a report that the Italians have occupied twelve islands in the eastern Mediterranean in connection with the new developments in the Balkans. This report was forwarded from Budapest to the Tagblatt. The dispatch stated that Greece had protested against the occupation of these islands.

TO ASK BRITISH TO CURB RAIDS OF SUBMARINES

London, Oct. 14, 10:55 p. m.—During the week ending Oct. 13 four British steamers were sunk out of fifteen hundred or more which entered or departed from British ports. Only two fishing vessels have been sunk during the last month.

British submarines in the Baltic thus far have sunk ten German ore-carrying steamers and have completely paralyzed the ore trade between Sweden and Germany.

The Swedish government has instructed its minister at London to protest against the violation of Swedish neutrality by British submarines in the Baltic, according to a Stockholm dispatch to Reuter's Telegram company. It is alleged that British submarines have sunk two German steamers in Swedish waters.

The Aftonbladet says that the German steamer Germania—one of those attacked—made straight for shore, where she grounded in a position undoubtedly protected by territorial limits. Nevertheless a British submarine continued the pursuit. Men from the submarine boarded the Germania and took away her papers. This statement is based on the report of the German captain of the vessel.

AUSTRIAN EMPEROR IS REPORTED WORSE

Rome, Oct. 14, via Paris, Oct. 15, 12:50 a. m.—The Idea Nazionale says it hears from trustworthy sources that the condition of Emperor Francis Joseph is growing worse. The mind of the Austrian emperor, the newspaper says, is weakening and he is suffering from depression and has frequent spells of weeping.

Baron Burian, the Austro-Hungarian foreign minister, when asked by a reporter of the Vienna Neue Freie Presse concerning the health of the emperor, sadly shook his head, the Idea Nazionale asserts.

FEAR INTERNED GERMANS HAVE ESCAPED TO SEA

Norfolk, Va., Oct. 14.—Missing since Sunday, six warrant officers from the interned German cruiser Kronprinz Wilhelm are being sought by ships at sea and up Chesapeake bay. The missing men left the Wilhelm last Sunday. They had sixteen hours liberty and were due to report back on their ship Monday. About a month ago they purchased the yacht Eclipse on which they are supposed to have gone to sea. They had not secured permission from the American government to leave local waters.

ATTEMPT TO WRECK 'LIMITED' TRAIN FAILS BY A NARROW MARGIN

Jefferson City, Mo., Oct. 14.—An attempt to wreck the "Scenic Limited," or Missouri Pacific passenger train No. 19, bound from St. Louis to San Francisco, was made four miles east of this city today.

Two railroad ties were placed across the tracks at a point where the right-of-way is on the brink of the Missouri river. Had the train left the track at this point it might have plunged into the river. The engineer, however, caught sight of the obstruction in the nick of time and brought the train to a stop a second after the engine struck the ties.

GERMANY, BULGARIA AND GREECE HAVE A TREATY?

London, Oct. 15, 3:20 a. m.—It is openly asserted in Berlin that a secret treaty exists between Greece, Germany and Bulgaria, says the Morning Post's Berlin correspondent.

50,000 MORE CANADIANS CAN BE ENLISTED SOON

Ottawa, Ont., Oct. 14.—Enlistment figures made public here tonight show that 164,000 men have been enrolled in Canada for over-seas service since the beginning of the war. Of these 83,000 men have been sent across the Atlantic. Another 50,000 men will be enlisted, it was announced, as soon as the war office gives the word.

WEATHER FORECAST.

Washington, Oct. 14.—The following is the weather bureau's forecast for Upper Michigan: + Partly cloudy Friday and Saturday. +

U.S. AND BERLIN WILL RESUME LUSITANIA CASE

Washington, Oct. 14.—Negotiations with Germany, looking to settlement of the cases of the steamers Lusitania, Cushing, Gulfight and Nebraskan, will be resumed next week by Secretary Lansing and Count von Bernstorff, the German ambassador. The United States made it clear, after the Arabic was torpedoed without warning, that there would be no further discussion of the Lusitania and other cases until that incident was disavowed and reparation promised. Germany acceded to all of these demands.

The case of the Lusitania presents the greatest difficulty. At the time the vessel was sunk the German commander was understood to be acting in accordance with instructions generally given to sink belligerent ships without warning. Germany expressly disclaimed liability for the loss of neutral lives in such occurrences by notifying neutral nations of the proclamation of a war zone.

State department officials are basing their case on its legal aspects, contending that as the war zone decree was confessedly a retaliatory measure it could not diminish the legal rights of neutrals, and Germany, therefore, is liable to pay indemnity for the loss of more than one hundred American lives on the Lusitania.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$6.00 Per month, by carrier, .50

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

FRIDAY, OCT. 15, 1915.

NOT HOME BUT AMERICANS ON GUARD. -WASHINGTON.

WILL WE REFORM?

Congress has been polled on the preparedness issue. The majority of the members agree with the president that the United States should have a larger army and navy.

The preparedness issue is out of date; but the economy issue presses. The United States has never received its money's worth in return for the millions spent in military preparation.

In thirty years the population of the United States increased 85 per cent, the national wealth 185 per cent, but government expenditures increased 400 per cent.

Only Wilhelm, who is high-neg as undisputed master at Constantinople as at Berlin, has kept silence, while Wilhelm's ambassador in the United States has sneered and pool-pooled and called the proved horrors "pure inventions."

The first handicap can be removed with comparative ease, because congressional pork distribution can be ended whenever the people insist upon ending it.

Government manufacture will not solve the problem of waste; it will not turn dishonest men honest, nor inefficient men efficient.

Government manufacture will not solve the problem of waste; it will not turn dishonest men honest, nor inefficient men efficient.

Government manufacture will not solve the problem of waste; it will not turn dishonest men honest, nor inefficient men efficient.

Government manufacture will not solve the problem of waste; it will not turn dishonest men honest, nor inefficient men efficient.

Government manufacture will not solve the problem of waste; it will not turn dishonest men honest, nor inefficient men efficient.

than ever in recent times. Destruction and waste in the old world have been coincident with great gains in the new. Everything points to the primacy of the United States among financial powers.

This means a condition that will surely count heavily in favor of American producers and exporters and that will tend strongly to draw to this country important industrial concerns now established in Europe.

Everyone has tried to aid the wretched Armenians—except the one man who could end their woes by a word. France and England have kept warships badly needed elsewhere hovering off the Asia Minor coast to rescue any parties of fugitives that may get through to the salt water.

There has been too much of a disposition to regard the developments in the Balkans as the fruit of diplomacy. Thus too much is heard of the "failure" of the allies' diplomats and of the astounding success met with by those of Germany and Austria.

There has been too much of a disposition to regard the developments in the Balkans as the fruit of diplomacy. Thus too much is heard of the "failure" of the allies' diplomats and of the astounding success met with by those of Germany and Austria.

tion with the copper country. The Marquette-Dickinson road was put in admirable condition some few years ago. When the Marquette South and the Ishpeming West roads are completed, Marquette will be accessible to all the neighboring counties, as far as it lies in its power to bring that about.

Now they say that golf is a cure for insanity. Then, why—but, of course, you know just what we intend to do.—Cleveland Plain Dealer.

Even though the Austrians show "an utter contempt" for death that it doesn't hurt death's feelings any.—Indianapolis News.

British casualties in the war to date total 330,995—some of whom were Englishmen.—Manchester Union.

Trustees of the University of Pennsylvania, meeting in solemn convocation, have affirmed their belief in academic freedom of speech. This act was not brought about by any sudden conversion to radical doctrine, but by a conviction that the public was misunderstanding them.

At the same meeting the trustees affirmed the dismissal of Dr. Scott Nearing, assistant professor of economics, who said things last year which hurt their feelings.

The situation may be ironic, but the gentlemen are consistent, as their definition of academic freedom of speech will show. An individual instructor may on proper occasion, in proper language and with due respect to the dignity of his university, say anything he likes. It is entirely clear. What they object to is extra-academic freedom of speech.

Dr. Nearing might teach the wildest heresies in his classroom, protected by the faculty and the trustees. On the political platform or on the witness stand is a different person.

It is one of the paradoxes of the level-headed and practical business men who govern our successful universities that they resent any practical activity on the part of their hired professors.

That Michigan is getting its share of returning prosperity is shown by the remarkable increase in aggregate business done by the state banks; \$7,705,084 is the increase since June 29. Loans and deposits are both on the gain.

The audit of the audit of Marquette county accounts has already disclosed \$6,000 due the cities and townships on delinquent taxes and other accounts. It's no secret that the next audit will be made by a new auditor.

Tomorrow's the fateful day at Munising. To recall or not to recall is the question that burdens the mind of the Munising voter.

TIMELY QUIPS

Political Note. Actions of various favorite sons prove the increased popularity of the self-started as applied to presidential booms.—Chicago News.

The Boat Rockers. No doubt the fellows who are rocking all sorts of boats are getting well paid for it, and no doubt most of them need the money.—Pittsburgh Dispatch.

EDITORIAL OPINION

Academic Freedom. Trustees of the University of Pennsylvania, meeting in solemn convocation, have affirmed their belief in academic freedom of speech. This act was not brought about by any sudden conversion to radical doctrine, but by a conviction that the public was misunderstanding them.

At the same meeting the trustees affirmed the dismissal of Dr. Scott Nearing, assistant professor of economics, who said things last year which hurt their feelings.

The situation may be ironic, but the gentlemen are consistent, as their definition of academic freedom of speech will show. An individual instructor may on proper occasion, in proper language and with due respect to the dignity of his university, say anything he likes. It is entirely clear. What they object to is extra-academic freedom of speech.

Dr. Nearing might teach the wildest heresies in his classroom, protected by the faculty and the trustees. On the political platform or on the witness stand is a different person.

It is one of the paradoxes of the level-headed and practical business men who govern our successful universities that they resent any practical activity on the part of their hired professors.

That Michigan is getting its share of returning prosperity is shown by the remarkable increase in aggregate business done by the state banks; \$7,705,084 is the increase since June 29. Loans and deposits are both on the gain.

The audit of the audit of Marquette county accounts has already disclosed \$6,000 due the cities and townships on delinquent taxes and other accounts. It's no secret that the next audit will be made by a new auditor.

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

The future, shows that it has decided that Germany and her allies are going to dictate the terms of peace when the vast war ends. The stakes in this wager are nothing less than the future of the Bulgarian nation. If Czar Ferdinand and his advisers prove to be good judges of the outcome of the immense conflict which is still widening its scope their country will profit accordingly.

A LAUGH OR TWO

From Vaudeville. "How did you like the opera, Uncle Jerry?" "Lot of bellowin' that's what it was." "Why, Uncle Jerry, that's art. Those seats cost \$50 apiece." "And what do you call it?" "Grand opera."

Widely Known. "I want you to publish these poems in book form," said a seedy-looking man to a London publisher. "Publisher—I'll look over them, but I cannot promise to bring them out unless you have a well-known name."

Poet—That's all right. My name is known wherever the English language is spoken. "Ah! Indeed! What is your name?" "John Smith."—Pittsburgh Chronicle-Telegraph.

Right, But Wrong. "A train leaves London, traveling at thirty miles an hour," began the master impressively. "Half an hour later another train leaves the same station traveling at fifty miles an hour. Where will the second train run into the first?"

The class thought and thought, and, judging by their faces, the problem in mental arithmetic was beyond them—all save one, young Tommy Smart. He jumped to his feet, waving his hand wildly.

"Yes, Tommy," said the master encouragingly. "At the back end of the rear carriage," said Tommy.—London Tit-Bits.

The Curse of a Lazy Wife. A tourist in the mountains of Tennessee had dinner with a querulous old mountaineer, who yawned about hard times fifteen minutes at a stretch. "Why, man," said the tourist, "you ought to be able to make lots of money shipping green corn to the northern markets."

"Yes, I orter," was the sullen reply. "You have the land, I suppose, and can get the seed?" "Yes, I guess so." "Then, why don't you go into the speculation?"

"No, use, stranger," sadly replied the cracker; "the old woman is too lazy to do the plowin' and plantin'."—Washington Star.

The Right Place. A certain Irish officer was sitting up in his bed in a French hospital recently. According to Arnold Bennett, the famous author, this Irishman was "a brave man, but he was known to high fly color any subject on which he might be talking."

"After the charge," he went on to his skeptical listeners, "I was lifted on a stretcher and placed on an ammunition wagon."

LOWER STATE NOTES

MUSKOGON—Showing the rapid expansion of the business section of this city, merchants on Terrace street have petitioned the city council to maintain a boulevard lighting system on that thoroughfare, the same as that on Western avenue, this city's main street.

EAST LANSING—The Shiawassee county grange has announced plans for the establishment of a scholarship fund for M. A. C. as a part of their campaign to stimulate interest in agricultural education. A fund of \$100 will be offered each year to start some worthy young man at M. A. C.

HOLLAND—Benjamin Stegink, sixteen years old, narrowly escaped death when fire destroyed the house, barn and outbuildings of Benjamin Brauker south of Grand Rapids. Stegink was at work in the silo when a spark from the engine set the barn on fire and he was forced to crawl through the flames to safety.

MUSKOGON—Within a week the West Michigan Steel Foundry company's plant will be doubled as to floor space, with work beginning at once in the new branch with a greatly increased force of men. A big addition has been placed on the main building and other structures have been erected at a total cost of over \$25,000.

BAY CITY—The boiler shops, foundry and blacksmith shop of the MacKinnon Boiler company were destroyed by flames, with an approximate loss of \$30,000. The machine shop, power plant and general office building were saved. The loss includes four large boilers in the course of construction and several thousand dollars' worth of stock.

GRAND RAPIDS—Beach Couger, Associated Press correspondent in Berlin, Germany, is visiting his parents in Grand Rapids. He will leave next Tuesday to return with his family to the war zone. According to Couger, the English publicity agents working in Germany are making a high pitch of indignation against America by sending editorials from the most rabid anti-German papers to Germany and returning the strongest anti-American expressions for reproduction here.

GRAND RAPIDS—A grand jury investigation of affairs in Grand Rapids and Kent county is a possibility. The common council has tabled a resolution for the calling of a grand jury, but the considerable sentiment favoring the probe has been unheeded and the matter will be voted on next Monday night. If a grand jury is called not only the affairs in the office of City Treasurer James S. Hawkins, who is on trial before the council, will be discussed, but the actions of other city and county officials.

HOWELL—Howell businessmen announce the acquisition of a new motor company, the Howell General Electric Motors company. An acre of ground has been purchased upon which a plant will be erected at once. The officers are: President, H. M. Spencer, Howell; vice president, and general manager, Carl L. Dunn, Saginaw; sales manager, Charles R. Norton, secretary-treasurer, W. McP. Spenser, Howell. The above mentioned, Howell, Michigan, comprise the board of directors. The company has applied for incorporation papers with a capitalization of \$30,000.

SOUTH HAVEN—A firebug is believed to be at work here. Suspicion is prevalent since the destruction of the North Shore pavilion were strengthened by the finding, at the scene of a blaze early Tuesday morning, of some bludgeoned paper clippings soaked with kerosene, and three cans containing kerosene and gasoline. Kerosene had been poured over the woodwork in an unused livery barn belonging to David Reid, now a garage owner. A high wind was blowing from the south and a few minutes more and fire would have imperiled the entire business district.

CADILLAC—Mr. and Mrs. Harry Leslie, charged with assault and battery on Miss Gertrude Berger, school teacher who punished their ten-year-old son, fined him \$20. Mrs. Leslie was fined \$30. If she does not pay she must also go to jail for thirty days. Miss Gertrude Berger is still confined to her room as a result of the assault. She was struck about the face and head with heavy rubber hose and it is stated her hearing has been affected. Trouble began last week when young Leslie was told to stay after school. Instead he threw a book at the teacher and escaped down the fire escape. Next morning Miss Berger thrashed him. The parents returned with their son and attacked her.

LANSING—The supreme court has promulgated a new rule for circuit courts to make more workable an act of the 1915 legislature. The new law provides that where a motion for a directed verdict is being considered, the case may go to the jury and after a jury verdict, the judge may order a directed verdict, even though it be at variance with the jury's decision. The new rule is called "Circuit Court Rule 60" and reads: "In any case at law tried by jury wherein either party has requested the court for a directed verdict in its favor and the court has reserved decision thereon, submitting the case to the jury and recording its verdict as rendered under the provisions of act 212 of the Public Acts of 1915, further proceedings may be stayed in the discretion of the court and arguments of counsel for and against said requests heard, on such notice as the court shall direct, until the next regular term of said court. But in such case the court shall render its decision, granting or denying such request, enter the same on the record and order judgment in accordance with such decision before conclusion of the next ensuing term after such verdict was rendered."

FOR A MUDDY COMPLEXION. Take Chamberlain's Tablets and adopt a diet of vegetables and cereals. Take outdoor exercise daily and your complexion will be greatly improved within a few months. Try it. Obtainable everywhere.

NOTICE

Scaled proposals will be received until Monday, Oct. 25, 1915, for furnishing six police uniforms, six caps and six macawoon coats, to be made up as per specifications on file in this office.

The right is reserved to reject any or all bids. Detroit, Marquette, Mich., Oct. 13, 1915. J. F. ANDERSON, City Purchasing Agent.

UPPER PENINSULA

Priest Leaves Escanaba. Rev. Father Caisse, assistant pastor of St. Anne's church, Escanaba, for the past several months, has been transferred to a pastorate at Kalamazoo, Mich. Rev. Father Caisse is succeeded at St. Anne's church by Rev. Father Lefebvre, who recently went to Escanaba as second assistant to Rev. Father Harth, pastor of St. Patrick's church. Bishop Eis shortly will name a new second assistant for St. Patrick's church to fill the vacancy caused by the series of transfers.

Delta Officials Appointed. Appointive officers of Delta county for ensuing terms were named by members of the Delta county board of supervisors as follows: James Kumev of Genoa, county school examiner for two years; William Kauthen, of Garden, county poor commissioner for three years. The board also recommended to the state game warden the appointment of Adam J. Henry as county game warden of the Delta county board of supervisors. Mr. Henry was named to their respective positions without opposition. Charles Olmsted was also proposed for county game warden. On the last ballot Mr. Henry received 15 votes and Mr. Olmsted, 9. Immediately after the vote was announced Mr. Olmsted, who is a member of the board, moved that the appointment of Mr. Henry be made unanimous and this motion prevailed. Members of the finance committee submitted a report on its investigation of the matter of installing a tract index abstract system for the county. The committee reported that the cost of installing a system would be approximately \$8,900, but no recommendations were made and the report was merely accepted and placed on file. Attorney Joseph Primeau, of the firm of Primeau Brothers, abstractors, of Marquette county, addressed the board on that firm's offer to install the abstract system here for the sum of \$7,500 with the county furnishing the books of record, approximately 80 in number. He explained in detail the work that would be performed by his firm here and announced that it could be completed in approximately fifteen months.

NO REASON FOR IT. When Marquette Citizens Show a Way. There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Marquette citizen says:

Mrs. John Holland, 118 Genesee St., Marquette, says: "One of my family was troubled most of the time by back-ache. There were sharp, shooting pains in the back and to straighten after stooping caused sharp twinges in the sides. Dizzy spells and too frequent passages of the kidney secretions caused annoyance. Several medicines were tried without much relief until Doan's Kidney Pills were used. There has been no kidney trouble since."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Holland recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

STATE BACTERIOLOGIST EXPLAINS RESIGNATION

Dr. L. M. Holm Resents Statement of Dr. Abrams—Insists on "Political Influences."

The recent resignation of Dr. M. L. Holm, state bacteriologist, who was to have taken charge of the upper peninsula laboratory in Houghton, was announced to be because of the political activities of the state board of health, to which he was a subordinate. At the time of the announcement Dr. E. T. Abrams of Hancock granted an interview in which he denied Dr. Holm's allegation and the latter now returns in a letter received yesterday, Dr. Holm, writing from Lansing, says:

Accuses Governor Ferris.

"It was with extreme regret that I found it necessary to discontinue my work as bacteriologist and I would have enjoyed myself more than to have conducted my work in the beautiful city of Houghton. My reason for retiring, however, was not a financial one and I repeat that my resignation was due to political influences. In my letter to Dr. Abrams I stated I had decided to resign 'owing to the antagonism of the present political administration.'"

"I am not accusing Dr. Abrams, however, of playing politics. I believe Dr. Abrams and a majority of the members of the state board of health are endeavoring to support efficiency and scientific principles but in spite of their efforts they have failed to prevent the injection of pernicious political principles by the office at Lansing and recognize the Lansing office as the head to which all divisions are subordinate. If any member would deny political influences on the board let him explain why their various actions of May 29, 1915, were subsequently reversed or postponed, etc."

TOWNSHIP PETITION REFUSED.

Ontonagon County Board Does Not Approve of New Municipality.

One of the features of the annual meeting of the Ontonagon county board this week was a petition of Thornton A. Green and others, asking that a portion of Carp Lake township and a portion of Ontonagon township be partitioned to make a new township. It is understood that Mr. Green intended to establish a new township in the proposed township. A number of the citizens of Carp Lake township appeared before the board and protested so vigorously that the board decided to refuse to grant the petition.

SEQUEL TO BEAVER CASE.

State Game Warden Intimates Department May Help P. Lange.

Attorney J. F. Hamblitz, representing Philip Lange, the farmer who complained that beaver are flooding his land in Chassell township, yesterday received a letter from State Game Warden Oates. Mr. Oates says that there is no legal redress, according to the attorney general, but if the department, in its administration of the law, has seemed to injure Mr. Lange in any way he will see that he is compensated. He has instructed County Game Warden Wilson to investigate.

GUN LICENSE APPLICATIONS.

County Clerk Finds that State Supply of Licenses Is Exhausted.

County Clerk Kaiser has thus far sold more than 2,550 hunting or gun licenses to residents of Houghton county since the opening of the season September 1. And the demand keeps up. It is evident that the demand is, as great throughout the state as the state game warden's department has exhausted its supply of licenses.

FEEL YOUNG!

It's Dr. Edwards' Olive Tablets For You!

Beware of the habit of constipation. It develops from neglected days, unless you take yourself in hand. Coax the jaded bowels back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with any other medicine, but gently flush out the intestines with nasty, sickening cathartics. Dr. Edwards believes in gentleness, persistence and Nature's assistance. Dr. Edwards' Olive Tablets open the bowels; their action is gentle, yet positive. There is never any pain or griping when Dr. Edwards' Olive Tablets are used. Just the kind of treatment old persons should have. Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two occasionally and have no trouble with your liver, bowels or stomach. 25c and 50c per box. All druggists. The Olive Tablet Company, Columbus, O.

BANKERS GATHER FOR THEIR FIRST MEETING

Group 1 of Michigan Association Elects Officers—45 Institutions Represented.

The annual meeting of the upper peninsula bankers, constituting Group 1 of the Michigan Bankers' association, held in Houghton yesterday, was attended by representatives of the forty-five banks of the peninsula. It also was attended by a number of officers of Minneapolis and Milwaukee banks, here for the purpose of forming business relations with upper peninsula banks, through the Minneapolis Federal reserve bank.

CHILD RUN OVER BY TRAIN.

Calumet Girl's Left Leg Severed at Hip—Little Hope for Recovery.

Dana Supanich, the eight-year-old daughter of Mr. and Mrs. Nicholas Supanich of Millonaires street, Osceola, was run over by a rock train on the Mineral Range railroad at Osceola Wednesday afternoon and received injuries which may prove fatal. The child's left leg was severed at the hip. Physicians hold out little hope for her recovery.

MISS MYRTLE HARRY DEAD.

Painesdale Young Woman Succumbs After Illness of Several Weeks.

Miss Myrtle Harry, daughter of Mr. and Mrs. William R. Harry, of Painesdale, died Tuesday evening at her home after an illness of several weeks. Meningitis was the cause.

THE WOMAN PHYSICIAN.

Everybody has heard of the proverbial "iron constitution." Few of us possess such a thing. But only the girl who does possess it can enter the medical field with any hope of successfully aiding suffering humanity or making a livelihood for herself.

INFIRMARY INMATES FEW.

General Prosperity of Copper Country Illustrated at County Home.

The Houghton county infirmary now is regarded as a barometer of the general prosperity in the district. A statement yesterday by Keeper Wahl showed that almost 25 per cent. fewer persons have applied to the infirmary of late than was the case a year ago. At present sixty-eight persons are being cared for.

CAMEL ORGANIZER'S TRIAL.

W. R. Hampden Before Justice Little for Illegal Soliciting.

W. R. Hampden, inter-state organizer for the Camels of the World, was yesterday given a hearing before Justice Little on a charge of soliciting money for a society not authorized to do business in Michigan.

HOUGHTON NIGHT SCHOOL.

Board of Education Authorizes the Free Instruction of Aliens.

Superintendent Doelle of the Houghton and Portage township public schools announced yesterday that the school board has authorized the establishment of a free night school for the benefit of aliens who desire to learn English.

PAT COOK IS HONORED.

L. P. Cook was advised yesterday of his election to the Michigan society, Sons of the Revolution. He has been given to understand that he is the second of two members in the upper peninsula.

ENTERTAIN "TANGO TOWNERS."

An entertainment for the members of the "Tango Town" company will be given next Wednesday night in Trinity parish hall by the Trinity church guild, under whose auspices the show was given.

DEATH OF MRS. JOSEPH HENNES.

Former Resident of Houghton Is Stricken at Greeley, Colo.

Houghton friends and relatives of Mrs. Joseph Hennes were shocked yesterday to learn of her death that day in Greeley, Colo. Heart failure is given as the cause.

Mrs. Hennes was the widow of Joseph Hennes, one of the original firm of L. Hennes & Co. She took up her residence in Greeley five years ago.

She is survived by a sister, Mrs. George Ruppe, of Hancock, and the following children, Mrs. Joseph Croze, Jr., Mrs. E. F. Remar, Misses May, Olive and Wilma, all residents of Greeley.

ROBERTSON-MICHEL'S NUPTIALS.

Miss Agnes Michels Becomes Bride of Rising Young Businessman.

At St. Ignace church yesterday morning, Miss Agnes Michels, daughter of Joseph Michels of Hurontown, and Thiel K. Robertson were united in marriage by Rev. Dr. Rezek in the presence of a large number of their friends. The appointments of the wedding were very simple.

Miss Michels was attended by the bridesmaid, Miss Nora Robertson, and the best man was Leonard Michels, brother of the bride.

Following the ceremony a wedding breakfast was served to the bridal party and a few relatives at the home of the bride's parents, Mr. and Mrs. Robertson have taken up their residence on Calverley street, West Houghton.

The bride of this wedding is one of the best known and most admired girls of Hurontown and Houghton. She is a daughter of one of the oldest families of the first named place and is held in high esteem by all who know her.

Mr. Robertson is one of the best known and most successful business-men of Houghton. He is connected with the Markham Candy company as a traveling salesman. Thiel Robertson began his career in Houghton as a Western Union messenger boy and he has worked up to a position of trust through his own efforts. There is no young man in Houghton who has more friends who are more highly respected than he.

MIX THREE SPOONFUL With Your SOAP

SKITCH Here's a recipe for taking the hard work out of your washboard. First throw your washboard out of the window—you won't need it. Next mix three level teaspoonful of Skitch with your soap, according to directions printed on the box, and boil the clothes 20 minutes. Then rinse in lukewarm water, blue—and you're through!

That is absolutely all there is to it. The clothes come out of the boiler spotlessly white and not a thread of the finest fabric injured. If your grocer doesn't sell Skitch send his name to Hans Fichtenberg, Milwaukee, Wis., and a free sample will be sent you.

7 WASHINGS WITHOUT A WASHBOARD 10¢

THE NEW SUBMARINES.

The result of the opening of bids by the navy department for the construction of new submarines indicates that the facilities for the construction of our navy are ample and encourages the hope that the sea defenses of the United States will soon be placed, as President Wilson has declared they should be, upon an "equality with the most efficient and most practically serviceable." The last congress authorized the construction of eighteen new submarines. Bids for the building of sixteen of these have now been received from nine competing companies, while other shipbuilding companies, which did not offer bids, were represented at the navy department when the bids were opened. Hitherto competition for the building of American submarines has been practically limited to two companies. It is no secret that the submarines we have had thus far have been experimental and many of them have not proved very satisfactory. One company now undertakes to finish one boat within twelve months and to turn out two each month thereafter until the terms of the contract are fulfilled. The time asked for by the others ranges from sixteen to twenty-four months for the first boat, but all are ready to hand the others over to the government at the rate of one or two months.

Most of these boats are to be designed for coast defense. Only a few of the new submarines are to be of the sea-going type. The AM-1 type has a maximum cruising radius of 6,000 miles and is said to be equal in power to the best of the German boats, and we shall in time have several of that kind. But the best purpose the submarine can serve is the defensive. It is not within the bounds of probability that the United States will ever engage abroad in such a warfare as Germany has lately pursued in the waters around the British Isles. We need submarines chiefly to protect our coasts, and most of the boats now authorized are for that purpose. The specifications in the bids show that the shipbuilders have taken to heart the lessons of the European war; they have studied the submarine. There will be no more P-4 disasters. The cost of the sixteen new vessels will range from \$500,000 to \$550,000 each, exclusive of armament and signaling and radio outfits. A new type of electric engine for under-water service will be used, with the Diesel engine for surface power, and the average of speed will be not less than fourteen knots on the surface, or eleven knots when submerged.

WORK OF KANSAS CIRCUIT RIDER.

Rev. H. R. Gouldin, who died in this city after spending nearly fifty years as a minister in central Kansas, recently made out a report of his life's work as a minister which shows an unusual activity. He was eighty-eight years old and had been a preacher for nearly sixty years. His report showed these items: Taken into the church, 2,653 persons; funeral services conducted, 2,363; couples married, 2,464; baptized, 1,882; miles traveled, 417,500; pastoral visits, 329,556. The first ten years of his ministerial travels were spent on horseback—Salina correspondence in Topeka Capital.

SILENCE IN DARKENED STATION REIGNS WHILE LOOS INJURED ARRIVE.

London, Oct. 14.—(Correspondence of the Associated Press.)—The arrival of the first wounded from the battle of Loos, following directly upon the first exciting news of the British advance in the west, was a dramatic incident of a London night. In a vast and gloomy railway station, which had as few lights going as were needed to show the way without betraying the place to a possible Zeppelin, a silent crowd had gathered. Suburban and overland trains were steaming in and pulling out, porters rushing about with trunks and bags on hand trucks, civilian passengers asking about platforms or arguing with the women inspectors, who are not yet entirely familiar with their duties. The crowd which waited silently and patiently in the midst of this bustle, was composed of relatives of men at the front. Shortly before midnight, a train bearing the wounded drew up at a side platform. The gates swung open and the wounded, in torn and powder-stained khaki, heads bandaged, arms in slings or on crutches appeared, followed by a procession of stretchers. After a rough crossing, the wounded, usually so cheery, had no cheer left in them, and the crowd felt no desire to cheer. Those able to walk were put into motor cars and buses, and the men prostrate on stretchers were lifted into ambulances. The watchers crowded up as close as the police would allow, looking for familiar faces. But it was against orders for the wounded to talk.

Soon they were whisked away into the darkened streets of London, and the crowd dispersed.

FEED GOLD FISH WITH DOG BISCUIT? HORRORS NO, SAYS "PROTECTOR"

Brooklyn, N. Y., Oct. 14.—The Society for the Prevention of Cruelty to Goldfish, sometimes known as the American Federation of Goldfish Fanatics, convened on Nevins street here today to usher the pink-eyed plutocrat of fish-dom into his own. He will be awarded blue ribbons that he can't wear, and gold medals that won't show. He is here, nevertheless, \$10,000 strong, swimming and diving and cavorting about to win 'em. President S. Chichester Lloyd has been struggling for 10 years to alleviate goldfish sufferings. He knows them from the ocean up. He told today of dreary life in a glass bowl; of an annual butchery of gold-fish (14,000,000), he says, which makes the Armenian massacre look like a Chautauqua salubrious. He said that any man who tried to feed a goldfish on dog biscuit is barking up the wrong aquarium. For dogfish, possibly for catfish, dog biscuit would do, but for goldfish, never. Off hand—or off fin—men cannot appreciate the goldfish, Lloyd declared, adding: "There is more to the goldfish than hattersauce. His soul is more than fillet. His astral body hovers over the broiler where he sizzles. He is more than a name on a menu. Study him and help us make the scales of justice balance. To the goldfish, friends! May his shimmer never grow less! Long may he wave!"

BALLOON, 15 MILES INSIDE GERMAN LINES, DESTROYED BY USE OF FIRE BALLS.

Paris, Oct. 14.—The destruction by Lieut. of the aviation corps in the Champagne of a German captive balloon of the type known as "Hauvage," which has been mentioned in a French official statement, is declared to have been a particularly brilliant and difficult feat for these balloons always are carefully guarded. Determined to get rid of this particular balloon, by means of which the Germans had been enabled to obtain valuable information regarding the movements of French troops, Lieut. experimented for two months with fire balls. When he was convinced he had an explosive which met all his requirements he started out for the attack on the balloon. The aeroplanes guarding the balloons, moored 15 miles behind the German lines, were so vigilant the lieutenant had to try four times before he could rise above it. On the fourth attempt he swooped down in a giddy flight from a height of 10,000 feet and placed his missiles accurately before the balloon could be batted down. In dropping his fire bombs the Frenchman came near enough to the earth to be in full range of German anti-aircraft guns, but he managed to rise safely and escape from a perfect hurricane of bursting shrapnel.

JNO. D. JR., NOW CONTROLS MINES

Chicago, Oct. 14.—Sufficient stock to control the Colorado Fuel & Iron Co. has passed into the hands of John D. Rockefeller, Jr.—a gift from his father, according to the Chicago Tribune today. The gift of a big block of the \$34,000,000 common stock in the company was made, the paper understands, soon after the appearance of Mr. Rockefeller before the federal commission on industrial relations at its New York city hearing several months ago. The admiration of John D. Rockefeller, Sr., for the manner in which his son testified was made known soon after the close of the hearing.

Today's weather: Generally fair. Yesterday's temperatures: Seven a. m., 42 degrees; noon, 47; 7 p. m., 44. Highest, 47 degrees; lowest, 40. Mrs. John Ellis, of Twin, spent yesterday in this city. J. B. Reany spent yesterday at Ishpeming on business. St. Paul's guild will meet in Guild Hall this afternoon at 2:30. William Trevarrow, of Ishpeming, was in the city yesterday on business. Miss Bernice Carey, of Spokane, Wash., is visiting relatives in this city. Sister M. Pica was appointed Mother Superior of St. Mary's Hospital yesterday. Grant DeHaas left for Crystal Falls yesterday afternoon, on a short business trip. Mrs. M. E. Asine left yesterday for South Haven, Mich., where she will visit relatives. Dr. R. J. McCann left yesterday afternoon for a short business trip to Mt. Pleasant. Mrs. F. E. Mullen, of Racine, Wis., is visiting her mother, Mrs. Gus Quinn, of Washington street. Mrs. Matilda Wauberg left yesterday for Ishpeming, where she will visit relatives for two weeks. George Westermeyer, superintendent of the Calumet Y. M. C. A., was a visitor here yesterday. Joseph Wills, who has been visiting here for a few days, returned yesterday to his home at Laurium. Miss Mayme Dunahoe and Mrs. Lawrence Corcoran arrived home after a week's trip to Chicago and Milwaukee. Mrs. T. R. Lindsey and son, Thomas, returned yesterday from the Soo, where they have been visiting for the past ten days. The Methodist Ladies' Missionary society will meet this evening at 7:30 at the home of Mrs. W. G. King, 139 West Lewitt avenue. Miss Sadie Cameron and Miss Florence Agnew left last evening for Chicago, where they will visit relatives for the next two weeks. The Women's society of the Presbyterian church will meet with Mrs. John Robertson, 820 North Front street at 3 o'clock this afternoon. R. J. Goodman, of Ishpeming, stopped over at Marquette yesterday enroute to Alpena, where he will spend the next few days on business. William Ashurst, formerly of Ishpeming, has opened a tailoring shop in the Vesting Block, where he will do cleaning, pressing and repairing. The Ladies' Aid society of the Methodist Episcopal church will meet with Mrs. Ed C. Quarters, 616 North Front street this afternoon at 3 o'clock. Mrs. Isabel Holmes left for her home in Detroit yesterday, after having spent two months with her daughter, Mrs. John Hallam, on East Hewitt avenue. Mr. and Mrs. Ashton V. Byrns and Mrs. C. J. Byrns, of the Soo, left for their homes yesterday, after a short sojourn in Marquette and Ishpeming. The Baptist Aid society will meet this afternoon at 3 o'clock at the home of Mrs. M. E. Road, 425 East Arch street. Final arrangements for the rummage sale are to be made at this meeting. The Ladies' Auxiliary of the A. O. H. will hold a card party at the Baraga auditorium next Monday, Oct. 18, to which the public is invited. The proceeds will be devoted to the orphans. That the chicken-pox epidemic of last year has not been entirely stamped out was indicated by the report to Health Officer Dr. R. C. Main, who said last night that two new cases of this contagious disease had developed. The names of the victims were withheld, but it is understood that both are school children, residing in South Marquette. The Red Cross Legion held their regular meeting last evening at Fraternity Hall. This was followed by a reception in honor of the president of the society, who made a splendid report from the national convention. Plans were completed for the dance to be held the first week in November, when the national president will be here. A banquet will be served at the Hotel Clifton the night of the dance. Marine Notes—The freighter Delaware, with a miscellaneous cargo, ar-

ived at 8 o'clock yesterday morning, and cleared at 2. The Fisher, with a cargo of iron pyrites and a deck load of coal for F. R. Spear & Sons, was due last night. At the upper harbor the Ball Bros. arrived yesterday afternoon. After loading it will clear early this morning. The Samuel Mather also cleared this morning. The W. P. Snyder arrived at 10:30 last night, and will load today.

Howling League Notes—The howling committee has announced that the league for 1918 now being organized will consist of the first ten teams submitting their entries. The members are required to form their own teams, elect their captains, and name their teams. As soon as the teams are formed, the names are to be handed in to Manager H. O. Bell, who will handicap the members according to last year's averages. Handicaps for the new members will be made temporarily and re-adjusted after the first round. The date of the opening night for this season's play will be determined as soon as the entry list for the league is complete.

INSURE WITH PETER WHITE & CO.

Upper Peninsula Present Bell to Church.

A bell has been received by the congregation of the Sacred Heart church at Maple Ridge for their new church. The bell, which is steel alloy, weighs five hundred pounds and is the gift of John Larson, Jr., and Frank Johnson, two prominent business-men of that place. Although non-Catholic, both men have always responded generously when called upon to donate towards the new Sacred Heart church.

Hand Shattered by Buckshot.

Tuesday, while hunting near his home at Osler, eighteen-year-old Edward Lancoeur, thought he would climb a tree and watch for a bear. He was carrying a shotgun loaded with buckshot. The gun went off while he was in the tree and his right hand was mangled. The boy does not remember exactly how the accident occurred. But as he was climbing upwards, he carried the gun by the muzzle and it is believed that the hammer caught on a branch, which discharged the weapon. He was taken to the home of his brother, Arthur Lancoeur, at Rapid River, and physicians of Rapid River and Gladstone were called to dress the wound.

K. of C. Lease Building.

Members of the Escanaba council Knights of Columbus have leased from S. M. Matthews the property at Wells avenue and Georgia street and will occupy it as a clubhouse, as soon as necessary alterations and repairs are completed. The property leased is the former home of the late Dr. O. E. Youngquist and but few changes will be necessary to convert it into an ideal clubhouse. The property has been taken by the Knights of Columbus on a lease with an option to purchase and it will likely be purchased before the lease has expired. The lower floor of the house will be utilized as reading rooms, parlors and lounge rooms. The billiard and pool room will be located on the second floor, where one partition is to be removed to accommodate the tables that will be installed. One room on the second floor will be reserved as ladies parlors and the remainder will be given over to general club purposes. The third floor will be finished as a meeting hall. Alterations and repairs on the building are to be started at once and within six weeks it is expected that the Knights of Columbus will be established in their new home.

Petitions Accepted in Schoolcraft.

At the meeting of the board of supervisors of Schoolcraft county this week, local option petitions were presented to the board asking for the submission of the question at the general election next spring and by an unanimous vote of the board were accepted. In motion of Supervisor Miller, the chairman appointed a committee of five to act on the petitions and give a report. The committee was in session about an hour when Chairman Baggott made a motion that its members proceed to the main court room for the benefit of the large audience present. Attorney Joseph F. Cuddy of Escanaba, appeared before the board in the interest of the "wets" and argued at length on several alleged technical facts in the circulation and filing of the petitions. He stated that the law provides that only one petition should be circulated in any one township or ward, so that a

person would be able to ascertain whether or not his name had been fraudulently signed thereon. He stated that there had been two petitions circulated in the second, third and fourth wards of the city of Manistique and also two in the township of Ironwood, Hiawatha and Manistique and that there were two separate dates on the petitions. According to Attorney Cuddy there were 267 of the signatures on the petitions that were void out of 493 signers. That would leave only 226 legal signers, which was "about" of the 320 signatories required. He also argued that the filing of the petitions was illegal as more than ten days had elapsed before they were filed with the county clerk, Attorney V. I. Hixson appeared before the committee in the interest of the "drys" and argued that inasmuch as ever one-third and nearly one-half of the legal voters of the county had signed the petitions asking for a local option election, this was sufficient to warrant its acceptance by the board. He stated that all petitions of the various wards and townships were attached and posted in their various precincts as one petition, and filed as one petition with the clerk. He declared that it could not be proved that more than one petition was circulated in any one township or ward, as the board of supervisors had no power to take testimony. He also quoted Judge Ford's decision in regard to the filing of petitions. The committee then retired and in a half hour brought in a favorable report. The report was accepted by an unanimous vote and a resolution was drawn up and passed by an unanimous vote of the board.

TOKIO THINKING OF NEW WAR POLICY.

Tokio, Oct. 14.—Hungary's participation in the war and advice received here from London that British opinion, in some quarters at least, favors the dispatch of Japanese troops to the Balkans have suddenly reopened the question in Tokio of what Japan's future course will be. There is a strong impression here that the return from Paris of Baron Kikujiro Ito, the recently appointed minister of foreign affairs and previously ambassador to France, is likely to be followed by a full reconsideration of the international situation with special reference to Japan's policy for the preservation of her own permanent interests. Another factor in arousing discussion on this subject is the arrival of Hugues Le Roux, editor of the Paris Matin, who, although without official mission, comes, it is understood, with introductions from and the approbation of M. Delaisse, the French foreign minister, to discuss military questions with prominent Japanese with a view to determining whether the latest developments justify a change in Japan's decision not to send an army to aid her allies and the likelihood of dispatching troops to the Balkan theater. Learn to know it, learn to eat it. Its purity Baer's Prize Pig Sausage excels all others. Ask your grocer.

Stop That Stubborn Cough

Coughs treated in the beginning rarely cause much trouble, but a stubborn cough, one that has been neglected, indicates a chronic inflammation of the air passages and should receive careful treatment. At this stage the system cannot throw it off without aid. The needed help is

Our Emulsion of Cod Liver Oil

There is no other remedy so reliable for the cure of chronic coughs, lung troubles, or for any debilitated condition.

Our Emulsion is palatable and easy to take, because the very best oil is used in its preparation and it is always freshly made. Price, 50c and \$1.00.

JONES' DRUG STORE Baraga Ave. and Third St. Phone 764-J

To Make Skin Clear

Don't worry about skin troubles. You can have a clear, clean complexion by using a little Zemo, obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo easily removes all traces of pimples, black heads, eczema, and ringworm and makes the skin clear and healthy. Zemo is neither watery, sticky, nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

Zemo, Cleveland.

KATHERINE DAVIS DISCUSSES PAROLE

New York Leader in Criminal Administration Addresses Oakland Meeting.

Oakland, Cal., Oct. 15.—Consideration of the relationship of the courts to the probation system and of the relationship between parole and the institutions to which prisoners are sentenced was given today by Katherine Bement Davis, commissioner of corrections of New York, and chairman of the committee on probation and parole in a report from that committee to the convention of the American Prison association.

In the development of the probation system she recommended painstaking investigation of the individual, that the sentencing judge might have full knowledge of the points which have a bearing on the probationer.

"As a general proposition," she said, "no offender should be placed on probation, who is not in sufficiently good physical condition to enable him to earn his livelihood, unless the court is assured that he has friends or relatives financially capable of caring for him."

"No person should be placed on probation who is unfit by reason of feeble-mindedness or psychopathic defects to control his actions."

She advocated the establishment of the clearing house system for adult offenders to establish their eligibility for probation, similar to the system employed for juvenile offenders in the Chicago juvenile court, where careful investigation of the antecedents, environment and individual history of each child is tabulated.

Discussing the parole systems, she said: "Both institutional care and parole are methods adopted to train the individual who has been anti-social so that he may take his place as a law abiding and self-supporting citizen. In my judgment the cooperation between institutional life and the succeeding period of parole is organic. The criminal having been convicted, it is the business of the institution to train him for his readjustment to society. The parole is the period in which the test of this training is made before the man is finally placed on his own resources."

The report contrasted methods employed in various prisons and the different theories of prison management and the degree of freedom permitted the prisoner. Of the penal method which involved sharp repression and rules framed entirely by the prison officers she said:

"The difficulty of this system comes in the abrupt break between the life of the institution and the sudden freedom which follows release. It seems to many thoughtful people that the breakdown of the parole system comes largely as a result of this method of administration."

CONDEMNNS HONOR SYSTEM IN PRISONS

Oakland, Cal., Oct. 14.—Condemnation of the so-called honor system in state penitentiaries was contained in the address delivered today before the American Prison association by Judge J. E. Frick, of the state supreme court of Utah. Judge Frick characterized the system as a "failure" and a "crime against society."

"Theorists think that it is only necessary to call a convict a man of honor to make him one," he said. "This is a pernicious error and leads loose on the community many a dangerous man."

"The attempt to make honest citizens out of confirmed rogues is trying to do what the Almighty has failed to accomplish."

MIDDIES ABOLISH HAZING VOLUNTARILY

Annapolis, Oct. 14.—The hazing system has been abolished at the naval academy by the voluntary action of the midshipmen of the three upper classes, it became known tonight.

Although no formal resolution was passed, it was stated on authority that there was an expression of the feeling of members of the three classes which brought out the fact last night that there was practical unanimity of opinion that the time had come when hazing should cease. This was on the eve of the anniversary of the opening of the academy which took place seventy years ago today.

The midshipmen did not seek to make

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated, Give California Syrup of Figs.

Look back at your childhood days. Remember the "dos" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

HOME SECRETARY DEFENDS CENSORS

Declares That They Follow Out Wishes of Government Departments.

London, Oct. 14.—Sir John A. Simon, the home secretary, last night issued a statement in which he defends the official press bureau against the recent bitter attacks on its methods of censoring the news, and places a large measure of the responsibility for the trouble on the special censors at the front who were appointed by Field Marshal Sir John French. It was they, he says, who excised from one of the dispatches to the London Times a reference to the bravery shown by the German troops, which has occasioned such an outburst of indignation.

"At the express request of Sir John French," the home secretary writes, "everything written by accredited newspaper correspondents at the front is submitted to the censors appointed by him at the general headquarters in France, and the press bureau is instructed to accept their censorship as final."

"Consequently, whatever Mr. Buchan (the Times correspondent) wrote was censored by individuals for whom the press bureau has no responsibility whatever. The article headed in the Times for publication was in exactly the same form as that in which it reached this country."

Sir John Simon declares it is a mistake to suppose that the press bureau exercises its own judgment concerning the class of news which should be withheld from publication. It examines the copy submitted to it, he says, "with a view to seeing whether what it is proposed to publish offends against any of the series of prohibitions which the war office or admiralty or other government departments concerned think it is important to enforce."

"The press bureau," Sir John continues, "is not the author of any of these prohibitions. It is merely the medium by which they are announced and applied."

Admits "Slips."

The home secretary adds that a majority of the large staff of censors employed is appointed by the war office and the admiralty, and that it no doubt happens that from time to time a particular individual who is trying to apply these rules makes a slip.

"The directors of the press bureau," Sir John says, "do their very best to reduce such mistakes to a minimum, and have cheerfully endured much laboring which, whether deserved or not, most certainly is not deserved by them."

In an editorial today dealing with the home secretary's justification of the censor, the Times says the excisions from the dispatches of its correspondent, Mr. Buchan, were made "from our own knowledge by two separate sets of authorities and against the expressed desire of the generals in the field."

On the general question of the censorship the Times says: "The public and the press are perfectly right to hold the press bureau responsible for the mischievous censorship policy. It is not their business or within their power to probe the mysterious tangle of responsibility which lies behind it. There must be an end of divided responsibility."

BROTHERS, PRISONERS THIRTY YEARS, FREED.

Anamosa, Iowa, Oct. 14.—After having spent nearly thirty years in the state penitentiary here Nathan Rainsberger, 62, and Frank Rainsberger, 55, his brother, long known as Iowa's oldest convicts, have just been released, having been conditionally pardoned by Gov. Clarke. The pardon will become effective in three years if the men are law abiding.

The liberation of the men convicted of slaying Enoch Johnson, the father-in-law of Frank Rainsberger, in Hardin county, in 1884, is the culmination of virtually continuous efforts since 1905. Johnson's body was found on a public highway in Hardin county one morning in November, 1884. The Rainsbergers, the testimony showed, held insurance on Johnson's life to the amount of \$16,500. A statement of Mrs. Frank Rainsberger caused the arrest of the men.

MANY IN SALVADOR KILLED BY 'QUAKES'

New Orleans, Oct. 14.—More than two hundred persons in Salvador lost their lives during the last seven weeks as a result of frequent earthquake shocks, according to mail advices today from Guatemala City. Property damage was reported to have exceeded \$2,000,000. A report from Santa Anna, under date of Sept. 22, declared shocks had been felt at that place every second day for more than a month.

AGED FATHER OF AUTHOR IS VICTIM OF PNEUMONIA

Flint, Mich., Oct. 14.—T. Stewart Flint, prominent Grand Rapids lumberman, father of Stewart Edward White, the author, died today in a local hospital, where he had been receiving treatment for several weeks. Pneumonia caused death. Mr. White was seventy-six years old.

BRITAIN MAY END OVERSEAS TRUST

Washington, Oct. 14.—Intimations that the Netherlands Overseas trust will be abolished and that hereafter all exports for Holland from neutral countries will have to be consigned to the Dutch government or British consuls in the Netherlands reached state department officials today.

Details of the plan have not been obtained, but officials here expect a formal announcement shortly from Great Britain on the subject.

The purpose of the action is not known here, but it is presumed the embargo on re-exportation into Germany through Holland, which has been arranged through creation of the Netherlands Overseas trust, has not been as effective as Great Britain desires.

A reader wrote to the Arkansas City Traveler, asking what a young man should do when he sat on a custard pie at a picnic. The editor advised him to remain there until the others went home. However, there are those who disagree with the Traveler editor's advice. There are those even who advise throwing the remains of the pie into the lap of the woman who brought it along.

NOTE—It is interesting to observe that as a medical science more and more reveals the harmfulness of coffee to the health of both old and young there follows a tremendous increase in the use of the pure food beverage, POSTUM.

SOUTH CHINA RESENTS NORTHERN INFLUENCE

Now It Is Opposed to the Movement to Make Yuan-Shi-Kai the Emperor.

Canton, China, Sept. 5.—Correspondence of the Associated Press.—Southern China does not take kindly to the movement to make Yuan Shi-kai emperor. Southern China, in fact, seldom takes kindly to any movement emanating from the northern part of the empire. But the restoration of the empire is a project especially distasteful to the great commercial center of southern China. Most of the wealth of China is centered here and in Hong Kong and Shanghai. The Cantonese have always been extremely independent. They financed and encouraged the two recent revolutions.

Many progressive Cantonese have become extremely wealthy through the development of the mines in the strait settlements. Others have made great fortunes in Java. And most of the wealthy Chinese in the United States are from the Canton neighborhood. Many of these men are reformers who back their views with money.

Even before the society for the preservation of peace set forth its plan for the restoration of the empire, there was extreme dissatisfaction with General Lung, the military governor named by President Yuan Shi-kai to direct affairs in Canton. War conditions made business bad. Then the floods came and intensified the unrest. While inspecting the damage done by the flood, General Lung was injured by a bomb hurled at him by a reformer. A few days later two bombs were found in his house which had been smuggled in by a cook bribed by reformers.

General Lung has 25,000 troops in the vicinity of Canton and the Yuan Shi-kai government has been able to pay them regularly so far. But in China there is the danger that an enemy will offer more money and win away the military and naval forces. This happened before in Canton, and if the wealthy reformers were to advance sufficient money to finance the opponents of the imperial movement reformers residing here are apprehensive of the results.

Hong Kong Has the Power.

Southern China has been under the influence of Hong Kong so long, and through its extensive foreign trade is so closely in touch with the outside world, that it resents the domination of northern China. The desire for a separate government in southern China is always uppermost in the minds of the reform element. Reformers seek every excuse to advance their views and are seizing upon the movement to restore the empire as a reason for restoring their efforts to throw off the control of what they regard as the more backward section of the country.

Shang-hai, Nanking, Hankow and other cities along the Yang-tse-kiang are well under control of the Peking government. Warships patrol the Yang-tse-kiang river and it is easily accessible by rail from Peking. The Pearl river is more remote. Canton and other cities along this stream are not accessible by rail from Peking. Ports along this river are located in a densely settled country where there are many reformers who have in the past seized the forts and defeated naval movements against Canton.

Every precaution is taken now to protect Canton against revolutionists. The baggage of passengers arriving either by rail or water from Hong Kong is carefully searched. Chinese men and women are examined thoroughly to make sure they have no firearms nor bombs upon their persons.

Apparently there is no effective leadership for the sentiment against the restoration of the empire. Sun Yat-sen is thoroughly discredited in Canton and all southern China. The reformers believe he tricked them and pay no attention to his movement against Peking. His extensive work is being attempted to promote from Tokyo.

No other individual looms big in the anti-government movement up to the present time, but it has the support of many guilds which are constantly opposing the Peking government, regardless of its chief executive.

DIPLMACY.

Divorcee—Now, dear, that it is all over I am willing to let you have the baby half the time.

Ex-hubby—Great!

Divorcee—Yes, you may have him nights.

PEARLS IN TEXAS.

PEARLS IN TEXAS.

Pearl fishing in the Concho river has brought big profits to a number of people during the last few months. For some unexplained cause the mussels contain a greater number of pearls of exceptionally high value than ever known in the history of the industry. It is believed by some of the fishermen that this season's large supply of mussels came from one of the small tributaries of the Concho and that they were washed into the larger stream by the big flood last spring.

What is said to have been the largest revenue obtained during the pearl hunting season, now drawing to a close, was that of Henry Serford, who sold his collection of pearls to a New York buyer for \$6,230. Serford came to this section two years ago from Arkansas, where he had followed the pearl fishing business for many years with considerable success. He brought along a complete equipment for getting out the mussels, and he was able to operate over a much larger area of the river than most of the men in the industry. By means of rakes which were attached to a boat he collected enormous quantities of mussels, and he was an expert in opening the shells. It is stated that this season's "catch" was the finest ever found in the inland waters in this country.

There are many instances of quick returns to considerable fortune by poor pearl hunters. One case was that of Sebe Tellow, who was cook for the Bar K Ranch outfit for a number of years. Two years ago Tellow was sent out with the chuck wagon during the spring round up in one of the pastures through which the Concho flows. He pitched tent and spreaded pecan trees close to the bank of the clear water stream. He had most of the afternoon to himself and he decided to do some fishing. His attention was attracted to the great number of mussels that almost paved the bed of the stream. He soon tired of fishing, and for want of something else to do, he raked out the mussels with a stick and opened them in search of pearls.

He found pearls in many of the shells, some of them large and beautiful. By the supper preparing hour he had accumulated over 100. He knew little of the value of the pearls; it was his idea that he might be able to sell them for enough to take a layoff and go to San Antonio or Fort Worth on a vacation trip. He said nothing about the gems to his employer, and he continued to cook for the outfit until the end of the branding season, when he rode into San Angelo and showed his bag of pearls to a local jeweler there.

"How much are these things worth?" he asked.

The jeweler answered that he was not enough of an expert to pass upon their value, but a Boston pearl buyer would be in town in a few days and he would submit the collection to him. In due time the buyer arrived and he went over the pearls, and when Tellow called to get his verdict the buyer said he would give him \$15,000 cash for the collection."

The most that Tellow had expected to get for the lot was \$15. He accepted the offer on the spot.

Tellow invested the money in an improved stock farm near the headwaters of the Colorado river. His sudden rise to wealth caused cowboys and

others from far and near to flock to the banks of the Concho to hunt for pearls, but no such finds as that of Tellow were made by any of them.

It is estimated that this season's yield of pearls from the Concho will aggregate in value considerably more than \$600,000. Before the outbreak of the European war buyers for French houses visited the different pearl fishing camps each fall, but this year American concerns are taking practically all of them. The camps of pearl hunters are scattered along the banks of the stream for more than 100 miles. Men, women and children are often employed in the work. Mixed with the professional and expert pearl fishers are many amateurs. Some of the landowners whose properties border the stream have barred pearl hunters from their premises in order to protect the mussels and make them a source of private revenue. The question has arisen whether or not mussels which are found in the bed of the river are public property, the same as fish, and the question may go to the courts for determination.—Paint Rock, Tex., Letter to New York World.

MILITARY INSTRUCTION.

The idea which must be suggested to those who receive military instruction is that they owe a service to their country. Their sense of service need not be limited to that of an obligation to fight for it. If properly given the instruction will suggest to them that kind of service is so little likely to be demanded of them that they must find other means of serving if their patriotism is not to become atrophied for the want of exercise. This is one of our larger troubles now—if not an atrophied patriotism at least one sluggish for the lack of exercise. There is plenty of patriotism of the kind that responds to the bugle call, but rather less than is needed of the kind that is ready to serve the government in time of peace. The idea that the government is a thing to be exploited rather than a thing to be served is getting to be rather conventional. May it not be that military instruction can be given in a way that will prevent this idea from taking root in the minds of those who are to be the young men of the next generation? It seems to us it would be possible, and even easy. It may be made to quicken the consciousness of their citizenship and to enlarge the scope of their sense of citizenship, and thus be more likely to make them competent citizens than competent soldiers. Indeed, we think that as a military measure not a great deal is to be said in advocacy of this proposal, but that as a civic measure it is to be highly commended. It is more apt to realize the desire than the fears of those who have cried out in protest.—Galveston News.

DYED CODFISH.

Plain codfish dyed to resemble Alaskan salmon were seized recently by the board of health.

The codfish were acquiring the glow of sunset in boxes out in cold storage under the Manhattan arches of the Brooklyn bridge, where they were in the health department routed them out and looked them over with care. On the boxes was the label, "Alaskan Salmon," but inside there were denizens of the Cape Cod neighborhood in various shades of reds and pinks. The top layers of fish were not through and through, then there were layers of a feeble salmon, and last of all layers as white as the flesh of any cod that ever dozed along the coast.

In coloring the fish they were put to soak first in pyroxylic acid, which is the crude acetic of commerce and is obtained from distilling wood. It tastes like smoked vinegar. After the codfish had been soured in this they were treated with zanzibar red. Dyeing the fish in this way raises the price from ten cents a pound, the price of cod, to about forty cents. In the delicatessen stores even higher prices are obtained for the slices of pink salmon.

The health department is also trying to stop the use of such preservatives as borax and boric acid in tomato catsup. The substitute for benzoate of soda, which has hitherto been imported from Germany, Dr. Lucian P. Brown of the department of health has ordered the confiscation of catsups and sauces which were found to contain borax and allied chemicals.—New York Times.

HAWAIIAN MUSIC.

The manufacture of ukuleles in Hawaii is increasing so rapidly that steps are being taken in the islands to protect them by a special trade-mark, in order that those who buy will know whether they have in their possession a real Hawaiian instrument or one made somewhere on the United States mainland. Early in the eighteenth century immigrants from the Madeira islands arrived in Honolulu, many of them bringing what appeared to be a very small guitar. It was played by holding it close to the body, the fingers of the right hand sweeping the entire set of strings. The rapidity of the motion with the right hand caused the Hawaiians to call the instrument "ukulele," or "dancing flea." Though of foreign origin, the ukulele lends itself admirably to native music. The Hawaiian islands erected a build-

HAWAIIAN MUSIC.

The manufacture of ukuleles in Hawaii is increasing so rapidly that steps are being taken in the islands to protect them by a special trade-mark, in order that those who buy will know whether they have in their possession a real Hawaiian instrument or one made somewhere on the United States mainland.

Early in the eighteenth century immigrants from the Madeira islands arrived in Honolulu, many of them bringing what appeared to be a very small guitar. It was played by holding it close to the body, the fingers of the right hand sweeping the entire set of strings.

The rapidity of the motion with the right hand caused the Hawaiians to call the instrument "ukulele," or "dancing flea." Though of foreign origin, the ukulele lends itself admirably to native music. The Hawaiian islands erected a build-

ing at the Panama Pacific exposition, in which the "atmosphere" of the Hawaiian Islands was preserved as much as possible. Young Hawaiian musicians play in this building every afternoon and evening. Their music has become so widely popular and has brought the ukulele into so conspicuous popularity that dealers in San Francisco are already increasing their orders in Hawaiian islands for these little instruments. One of the largest San Francisco firms placed an order a while back for 200 instruments; he has now increased this to 500.

A few firms on the mainland have undertaken in the last year to manufacture ukuleles and to place them on the market as a "made-in-Hawaii" product. The Hawaii promotion committee of Honolulu is now preparing a special label, "Made in Hawaii, U. S. A." to be placed on instruments actually manufactured in the islands. The instruments actually made in Hawaii are fashioned from koa wood, or Hawaiian mahogany, which takes a beautiful polish and is used extensively for making chairs, tables, four-posted beds and for veneering. It is expensive, as the Hawaiian forests are yielding very few new trees. Ukuleles sell in Honolulu for \$4.50 to \$15 each. The manufacturers are principally Portuguese.—Commerce Reports.

"PINK" CHAMPAGNE.

If the war lasts much longer Broadway may some time be obliged to face a champagne more closely resembling pink lemonade than the "imprisoned laughter of the peasant girls of France."

The reason is not that the champagne is likely to be wanting, but that owing to a shortage of proper casks it will have to be stored in red wine casks brought from Burgundy, Bordeaux or the Midi.

The shortage is due to the fact that half of last year's crop is still unsold, thus diminishing the supply of casks by 50 per cent, and as the French bottle factories are mostly in the hands of the enemy there are no bottles to be filled.

The prospects of the French wine crop generally this season are, with the exception of champagne and burgundy, not bright. Rain has fallen to an extent far beyond the average and washed away the sulphur sprayings which are the only effective precaution against mildew. The result in the center of France is that a hectoliter of wine costing \$1.50 in the spring now costs from \$2 to \$7.

ERICK RICKSTAD DIES OF PNEUMONIA

Driver of Fire Department's Hook and Ladder Team Passed Away Yesterday.

Eric Rickstad, driver of the Ishpeming fire department's hook and ladder team, died yesterday morning at 7 o'clock at his home on Vine street. Pneumonia, from which he had been a sufferer for a month, was taken down with the disease, but at 6 o'clock yesterday morning he suffered a sinking spell and he passed away within an hour.

Mr. Rickstad, who spent practically all of his life in Ishpeming, was about thirty-five years of age. He had been employed as driver of the hook and ladder team since nine years ago last June, when he succeeded the late Joseph Gaboury. He was a great favorite with the members of the department, and his death casts a shadow of gloom over the organization's headquarters.

Speaking of Mr. Rickstad yesterday, Chief Lacey said: "He was one of the best men who ever worked around the fire hall. He was trustworthy and was true to the core. I cannot recall a time when he ever neglected his duty or failed to respond to requests from the officers of the department. If Mr. Rickstad was told to do a thing, you could depend upon it that it would be done promptly and properly. During all the years he has been in the employ of the department we have never had occasion to complain of his work, nor of the care he gave his horses. He was always on the job and everybody liked him, as he had a winning disposition and was always gentlemanly and obliging. We will miss him greatly."

Mr. Rickstad was a member of Zenith lodge, Knights of Pythias, also of the Ishpeming branch of the Royal Arcanum society, in which he held an insurance policy for \$1,000. He was the only support of his mother, who has been a widow for many years. Besides his mother, he is survived by one sister, Mrs. Robert Trudgeon, of Gwin, and one brother, Albert Rickstad, who is in the employ of the Northwestern Railway company here. An uncle lives at the Winthrop. Funeral services will be held at 2 o'clock Saturday afternoon at the residence conducted by Captain Schultz of the Salvation army.

Double Trading Stamps today and tomorrow at Braastads.

FATHER PASSES.

J. Hare, Sr., father of Jeremiah Hare, district superintendent of the Metropolitan Life Insurance company here, passed away Wednesday in Chicago. His death was not unexpected by the members of the family, as he had been critically ill for some weeks. Mr. and Mrs. Hare were called to Chicago Saturday night and their son and daughter, Joseph and Margaret, left Wednesday night to attend the funeral. Mr. Hare was over seventy years of age, and he had lived in Chicago for some years past.

Double Trading Stamps today and tomorrow at Braastads.

VETERANS WELL RECEIVED.

The quartet of Civil war veterans who opened a three days engagement last evening at Ishpeming theater were greeted by two enthusiastic audiences. The program consisted principally of national airs and tunes that were familiar during the war days. It is seldom that an act playing here is greeted with such great applause as was given the veterans. After filling a few dates in the upper peninsula they will go back to Chicago, to fill return engagements in theaters they played last month.

Jitney dance tonight at Braastad's Amusement Hall.

"JAPLAND" EXTRAVAGANZA.

"Japland," an operatic minstrel farce-comedy, is the booking for the Ishpeming theater next Tuesday evening. The cast includes the entire John W. Vogel's Big Minstrels, a number of operatic stars and a girl chorus. Mr. Vogel's own symphony orchestra, directed by Ernest M. Coleman, is an important and more than acceptable adjunct. The score is heavily laden with gems from "Trial by Jury," "The Sorcerer," "The Mikado," "The Pirates of Penzance," "Pinafore" and "Lohengrin."

Double Trading Stamps today and tomorrow at Braastads.

LOST—A small gray purse, containing money and two small keys, between depot and Girzi's store. Return to Mining Journal office and receive reward. 3t.

WANTED—Girl for general housework. No laundry work. Must speak English. Mrs. T. A. Feich, 201 West Duane street. 10-15-3t

FOR SALE—Fifty acres of land in Ely township, comprising SW 1/4 of NW 1/4 of Sec. 35, Township 47, North of Range 28 W. Also four-room house, barn, chicken house, shanty, horse, harness and wagon. Apply to Sam J. Tremethick, 623 S. Pine street, Ishpeming, or on land. 10-9-6t

Y. M. C. A. CAMPAIGN STARTS THIS EVENING

Ishpeming and Calumet Associations Will Start Membership Contest.

The campaign for the Y. M. C. A. begins today. The members will meet in the lobby at 7:30 this evening, and the following have been appointed captains and will choose teams who will scout the city for those who do not belong to the association: E. J. Townsend, C. L. Anderson, Geo. Skogberg, Howard Beagle, Holburn Bryden, and Burl Dalton.

Each new member will count two points and each dollar paid on membership fees, whether for new member or a renewal will count one point. Four members will be given credit for the mileage they run and the best runner will be given a prize of a folding camera, now on exhibition in the "Y" lobby.

The Calumet association will start for Ishpeming at the same time and try to beat Ishpeming on the trip. The association scoring the most mileage will be given a shield trophy, to be hung in the lobby. Reports will be made daily by each association and published in the papers.

At the close of the contest the officials of the Ishpeming "Y" will request a committee of ladies to serve a banquet to the members. There will be the annual Father and Son banquet and all members of the "Y" will be admitted free.

The Ishpeming association is in a healthy condition, the membership is active and much interest is taken in the various departments of work, and by building up the membership at this time the finances of the organization can be taken care of for the year. A number of Ishpeming men pay an additional amount to the regular fee, and are known as sustaining members. An effort will be made at this time to increase the number of these members.

"NEAL OF THE NAVY."

First Episode of New Serial Will Be Shown at Ishpeming Theater.

The first picture of "Neal of the Navy," the latest Balboa serial photoplay, will be shown this evening at the Ishpeming theater and they will be shown at tomorrow's matinee. "Neal of the Navy" is in fourteen episodes, one of which will be shown each Friday evening and Saturday afternoon.

The cast includes a number of excellent players, among them Lillian Lockhart, William Connelley, Jr., Edward Brady, and Henry Stanley. The story, in brief, of the first episode is as follows:

Mrs. Hardin, Neal Hardin, Annette Hington, and Joe Welcher are rescued by a U. S. cruiser when the tramp steamer Princess goes down. Pinned to Annette's umbrella is a map showing the location of Lost Isle, Hernandez and Ponto, two evil soldiers of fortune, know of the existence of Lost Isle, and seek the map. Eighteen years later, Neal is a clean cut, manly young American, while Joe is a slinking young man of bad habits. Hernandez and Ponto are drug smugglers, and have their slave and best of burdens, a gigantic bear-man, heretofore of all reason. A young adventuress, Inez Castro, is in league with the smugglers and insinuates herself into the Hardin household, to steal the map of Lost Isle. Hernandez, Ponto, and their brute-man, are approached in an attempt to land some drugs off the seaport coast, and a running fight follows. Mrs. Hardin explains to Annette about her heritage of Lost Isle, and shows her the map. They are all alarmed by many shots outside and run out in time to see the smugglers, pursued by the officers, coming toward the house. After Annette is rescued by Hernandez in his mad rush, Neal is mainly instrumental in capturing the two outlaws, who are put in the town jail. Late that night, the brute tears out the bars from their cell and frees them.

KEEP BOOKS AT HOME.

Mrs. Nellie Braxton, librarian of the Carnegie public library, announces that no fines will be imposed for retaining books in homes where there is contagious diseases in the family. In the past books have been returned from homes where there were scarlet fever and other contagious diseases. In all cases where books are returned under these conditions they are immediately fumigated, but the librarian would prefer to have

Double Trading Stamps today and tomorrow at Braastads.

the books fumigated before they leave the homes, as well as after they are received at the library.

ISHPEMING IN BRIEF.

Sven Krogdahl is home on a visit to his mother and sisters.
 Mrs. George Voelker has gone to Detroit, to visit for a few weeks.

A son was born yesterday to Mr. and Mrs. Michael Collins, 344 Cedar street.
 A daughter has been born to Antonio Donato and wife, 408 Junction street.

Henry Fosroe has gone to Detroit, where he expects to obtain employment.
 William Mundy arrived home yesterday from a few days' business visit at Escanaba.

Mrs. Isidor Hamberg, of Park street, who has been a patient in Dr. Holm's hospital for the past two weeks, will be able to return to her home in a few

days. Mrs. Hamberg was operated upon at the time she entered the hospital.

Harry Gage, of Gwin, is spending a few days here, visiting with relatives and friends.

Will Murray was taken to the Ishpeming hospital Wednesday, threatened with pneumonia.

Mr. and Mrs. B. J. Goodman, Jr., left yesterday for Alpena, where they will visit for a week.

Thomas Snell is critically ill at the home of his sister, Mrs. John Skews, of South Main street.

Mrs. Sammy Manty, of the Winthrop, Tuesday submitted to an operation in Dr. Holm's hospital.

John W. Gougeon yesterday moved his stock and fixtures in the McEneaney block to Negaunee.

The members of the Luncheon club were entertained yesterday afternoon by Mrs. W. P. Belden.

William G. Mather, president of the Cleveland-Ohio Iron company, is here from Cleveland, to spend a few days.

Mrs. C. W. Jarvis entertained the members of the Whist club Wednesday afternoon at her home on High street.

Mr. and Mrs. Ferdinand Ehler have returned from Detroit, where they have made their home for the past several weeks.

Mr. and Mrs. Robert Trudgeon, of Gwin, arrived in the city yesterday afternoon, in response to a message in-

forming them of the death of her brother, Eric Rickstad.

Mrs. F. LaBrecche and daughter, Anna, departed yesterday for a few weeks' visit with relatives in St. Ignace and Detroit.

James McKittrick, of Escanaba, spent yesterday in the city on business for the Chicago & Northwestern Railway company.

Mr. and Mrs. Robert Wise, of Omaha, Neb., parents of R. J. Wise, are expect-

ed to arrive in the city Saturday, to spend a few weeks visiting with their son and family.

The members of the Ishpeming City football team are showing much interest in the game to be played with the Marquette team at Union park Sunday afternoon. They have been out for hard practice every evening this week, and the team on the whole is in very good condition. The players expect to give the crack Marquette eleven a strong battle.

COUNTY WILL SPLIT MELON

Inquiry Conducted by Supervisor Thompson the Past Few Weeks Shows That Various Cities and Townships Have \$6,000 Coming to Them, and Sum May Increase

Accounts for Several Funds for Past Ten Years Are Being Gone Over, as Result of Discrepancy Disclosed by Marquette City Auditor—Some of the Tax Figures

H. S. Thompson, the supervisor of Marquette township, who has been busy the past few weeks with a special audit of the county accounts with reference to certain funds, has already made receipt of some \$6,000 that has been improperly held in the general fund of the county. It is made up of amounts that should have been paid to the several cities and townships.

The inquiry resulted from the course of the Marquette commission in putting its auditor at work to check up accounts of delinquent taxes open between the city and the county. The auditor reported that the city had claim to some \$3,000 that was held in the general fund of the county. The submission of this report to the supervisors caused some thing of a stir, as the books have been audited for several years past, at the beginning of each year, and the supervisors were much chagrined that the condition complained of could exist.

Mr. Thompson undertook the task of checking over the delinquent tax and several other accounts at the request of the finance committee of the board. He told the committee that the work would take about sixty days. He has now been busy on it about half that time, and it will be completed within the limit he set for it.

The inquiry concerns five accounts. Besides delinquent taxes, it covers rejected taxes; county treasurer, redemptions; auditor general, delinquent taxes, and auditor general, redemptions. Mr. Thompson has been reviewing these accounts since 1905, or for the past ten year period.

Marquette Figures 0. K.

The result of the inquiry has been practical confirmation of the figures for Marquette city returned by Mr. Higgins. Mr. Thompson finds the city has coming to it \$2,125, or slightly more than Mr. Higgins reported. In addition, there is a matter of \$1,500 to \$1,600 that is in dispute because of legal questions involved. The county has a contingent liability, due to failure to reassess the taxes. Prosecuting Attorney Kennedy has been asked to report on this matter, and it will not be disposed of until the board obtains his views as to the county's liability.

After Marquette, Champion township has the most money coming from the county. The inquiry has shown that the general fund holds approximately \$1,300 that should have been turned over to it. Two townships have been shown to be slightly in the county's debt. In all other cases, including Ishpeming and Negaunee, the general fund is shown to hold money that should have been paid over.

Final disposition of the matter will wait on the conclusion of Mr. Thompson's audit, and will likely be made an order of business at the next session of the supervisors, as Mr. Thompson's report will probably order the payment to the various cities and townships of the money Mr. Thompson reports due them, and will take steps to see that similar payments are made promptly in the future.

The inquiry has not been popular with all the members of the board, and in presenting his report this week Mr. Thompson related how it was proceeding as expeditiously as possible. He urged the necessity of its being carried to a completion by some accountant, so that the county will be able to start with a clean slate in these accounts. His report was accepted without comment and there was no suggestion that any man but he should finish the work.

Statement of Taxes.

Following is the detail of the taxes that the cities and some of the principal townships of the county will have to pay this year:

—Marquette City—	
State tax	\$ 32,953.58
County tax	29,022.79
County road tax	9,232.09
Special assessments	3,239.94

KEEN INTEREST IN MUNISING ELECTION

Recall of Mayor Sullivan Will Be Attempted Tomorrow—True-man Rival Candidate.

Interest second only to that which would be displayed in an election in Marquette is being shown here in the recall election at Munising tomorrow, in which Mayor Sullivan will be pitted against Dr. George A. True-man. The supporters of the rival candidates have been campaigning at white heat the past several days, and no bets have been overlooked. "White heat" is employed advisedly. The political graveyards have been entered and opened and the dry bones of ancient scandal exposed to the public gaze, and no end of "language" has been employed.

Both the mayor and Dr. True-man are well-known in Marquette, and both have many friends here. They have considerable strength among the voters, and there has been much interested speculation as to what the outcome will be. The vehemence of charge and counter-charge is confusing to those who would like to know the facts of the situation, but Marquette men who have visited Munising say the town has been at least a pretty fair imitation of "wide open."

Failure to enforce the law regulating the sale of liquor and toleration of gambling is one of the charges against Mayor Sullivan. The mayor contends with a denial, and asserts that conditions at Munising are the same as they have been when the men who are now attacking him were in charge of the administration.

Another charge is that in appointing George Wilson chief of police the mayor appointed a man who should not be given public office because he was a defaulter, in not making good on his trust as treasurer of Alger county a few years ago. Again denial is entered. Mr. Wilson asserts that it was his lack of knowledge of bookkeeping that caused the discrepancy between the amount due the new treasurer and cash

in hand, and that as soon as he was able to verify the figures he settled in full, and holds a receipt for that settlement.

Furthermore, Peter Schilling, an employe of the village, the recaller's charge was removed without warrant of law or reason by Mayor Sullivan, for political purposes. In another aspect the contest is the old "company-anti-company" fight over again. Mayor Sullivan being arrayed against the C. C. I. company, which, he asserts, seeks to dominate the local situation to serve its tax interests, and the mayor, in the view of his opponents, being a demagogue who bats corporations that his harvest of votes may be the richer.

In yet another angle the election reflects some phases of the local option election in Alger last spring, an election that left its full share of hard feeling. Mayor Sullivan in the course of the local option campaign worked two shifts for the wets, and spared no effort to keep the saloons on the active list. So now there need be no second chance at dominating the saloons line up, or how the drys stand.

The only outstanding cink about the Munising election is the certainty that the town will howl when the votes are counted tomorrow night. There will be a celebration that will cast all previous elections in Alger into the shade. What Munising would like to know now, in advance, is which side will do the cheering and raise the tumult.

NOTIFIED OF DEATH.

Inspector Knapp, of Minneapolis, Located Yesterday After Two Days.

Inspector Knapp, of Minneapolis, whom Police Marshall MacIntosh was requested by telegram to locate in this city and notify that his father had been killed, was found yesterday and told of the sad news.

The telegram was sent to the marshal Tuesday by Gray & Co., a manufacturing concern of Minneapolis, and as it contained neither the full name of the man sought, nor any definite information concerning his whereabouts, a two days' search for him proved fruitless.

Yesterday afternoon, however, Mr. Knapp walked into the office of E. J. Longyear company, who had been told by Mr. McIntosh to expect his arrival there. He was at once notified of the news, and accompanied by Ben Anderson, manager of E. J. Longyear company, took the 5:30 p. m. train for Minneapolis.

MADE DEBUT AT NORMAL.

Edward McMullen, Pianist, Gave an Impressive Performance Last Night.

Edward McMullen, a young American pianist and composer, made a successful debut in Marquette at the Normal auditorium last night before a thoroughly appreciative audience. Not only has this artist a technique large enough to meet the demands of modern composers, but his playing of Bach and Beethoven had a virility and largeness of style that are deserving of the utmost praise.

In his interpretations of Bach's Fugue, he displayed, as each theme developed, a mastery conception of the rhythm, force and character of this great composer.

The Debussy Reverie, a beautiful composition built upon the new Debussy scale, proved that the young artist had a conception of the quiet, thoughtful style, quality as fine as his conception of the deeper, more powerful expression of the old masters.

The Moskowski Caprice Espagnol, perhaps the most brilliant number on the program, was so powerfully and brilliantly rendered as to carry assurance of great success for this young virtuoso. His mastery execution of this number, as well as the interpretative excellence he displayed, won the hearty approval of the audience.

The striking original character of his own compositions commanded profound attention.

The program also contained five Chopin numbers, which were played with poetic insight, delicacy and charm. The numbers were all characterized by a style of intense vitality and fire, sincerity and warmth of emotion, and great beauty of tone.

JAIL CONDITIONS GOOD.

Annual Report Shows 223 Offenders Confined There Last Year.

The inspectors of the Marquette county jail, comprising W. T. Potter, judge of probate; C. L. Sporney, H. F. Handford, and P. P. Chase, poor commissioner, and Thos. M. Wells, county probation officer, on a recent inspection of the jail, reported conditions satisfactory as regards management, sanitation, care of prisoners and keeping of the jail records.

The annual report of the inspectors, covering the year from Sept. 14, 1914, to Sept. 14, 1915, discloses the fact that 223 prisoners were committed to jail during this period. Of this number, 217 were men, and six were women. Of the six female offenders, five were charged with disorderly conduct, of which charge 100 men were found guilty. Among the other charges, nine were for assault and battery, seventeen for larceny, nine for burglary, four for statutory offenses, three for violation of the liquor law, two for threatening to kill, four for violation of the game laws, two for abandonment, one for highway robbery, and one for forgery.

CARD OF THANKS.

We wish to thank our friends and neighbors for their kindness, and for the sympathy extended to us during our recent bereavement. We wish particularly to thank friends for floral offerings.

MRS. GEOFFREY BASTIEN.
MRS. A. BUSSIERE.

NOTICE.

I have been employed to act as the attorney for the trustees of the Military Road lands belonging to the J. C. Ayer estate, to protect said lands against trespass and pillage. The prompt communication to me of any information as to trespass on said lands will be esteemed a favor.

A. E. MILLER

Those who use gas coke save money and are not troubled with soot, dirt or smoke.

Itney dance tonight at Braastad's Amusement Hall.

Big Things Are But Little Things Accumulated

Analysis of the big things in science, mechanics, art, literature, indeed all lines of human activity, will disclose that they are in fact but the accumulation and moulding together of many smaller things. Often times these smaller things may be reduced themselves into yet smaller things, each complete in itself. A fortune is but the accumulation of Dollars, a Dollar is but the accumulation of Cents.

He, then, who would arrive at something big must not neglect the little things en route.

The man who opens an account in our Savings Department with this idea firmly fixed in his mind has started something, and if he sticks to the finish, the little things he will have accumulated will be one of the really big things of his life. Small, regular deposits made throughout a definite period will put the depositor right where he hoped to be. Regularity is one of the most beneficent rules of life, and it will accomplish for one in the matter of saving all that it will do in other things.

THE FIRST NATIONAL BANK, MARQUETTE, MICH.

To the Automobile Man:

We repair automobiles and our repairing is of the best.

We have on hand at all times a complete line of supplies, brake lining, bearings and all necessary parts for repairing.

We carry in stock tires and tubes of the following makes: Michelin, Goodyear, Republic and Racine.

We repair and recharge storage batteries of all makes, carrying on hand all necessary parts. Our garage is a Willard & Exide storage battery service station; also a Bosch Magneto service station.

We remove carbon from cylinders by the oxygen method. No taking apart of motor required. If your motor knocks on account of carbon let us demonstrate to you our speedy remedy.

Our compressed air tanks are at your service.

Make this garage your garage—we are here to serve you.

Hendrickson	177	162	182	521
Salini	167	180	181	528
Total	344	342	363	1049

As fresh enough to have just come out of my lady's clothes chest.

Now for Minstrels.

It has been some years, perhaps four or five, perhaps more, since the curtain at the opera house was raised on the first part of a minstrel show. Monday night it will go up into the flues to disclose the first setting for "Japland," John W. Vogel's offering of the old-time entertainment, and the company he has assembled to present it. Among the unusual things about this company is the presence in it of some fifteen ladies. There is the familiar first part, and then the olio, and a band and orchestra are carried.

At the Delft.

"The Seventh Commandment," a powerful three-act drama, which is being presented today at the Delft theater, is said to be one of the most stirring features ever produced by the Kalem company. Compelled to flee the village to escape the wrath of Amos Mitchell, Jennie's husband, Craig, deserts his wife and daughter. The two make their home with relatives. Mitchell, driving his wife forth, vows to devote the remainder of his life to tracking Craig to earth and exacting a terrible price for the wrong he had caused. Years later, when Craig has attained wealth and position in a distant city, Mitchell strikes. An all-star cast, which includes Tom Moore, Robert Ellis and Marguerite Courtot, appear in this production.

Opera House Attraction.

Clyde Fitch's powerful drama, "The Moth and the Flame," will be the exceptionally interesting offering at the opera house today. This is one of the supremely popular Paramount productions, with a Famous Players cast, and is a thrilling picturization of the celebrated emotional drama of the stage. The poor little moth is blinded by the flame, until she cannot see the fatal swirls threatening her. Just on the verge of her great error, her vision returns, and with the resultant extinguishing of the flame, the moth sees her danger, and is saved, terribly scorched in heart, but with her soul rescued from the devouring fire. This powerful drama is enacted by an all-star cast including Stewart Baird, Edward Mordant, Bradley Barker, Arthur Donaldson, Adele Rey, Dora M. Adams, Irene Howley, and Maurice Stewart.

In conjunction with this feature, there will also be presented a vaudeville sketch by the Jessica Duo, who will entertain with novelty singing, juggling and trained pigeons. A special matinee will be given this afternoon at 4 o'clock.

FLOUR AND FEED FOR SALE.

Write us for prices on straight or mixed cars of flour, straw, oats etc. Moore & Feed Store, South St., Marquette, Mich. 9:30-1:00.
